THE EVENING TIMES AND STAR, ST. JOHN, N. B., MONDAY, JANUARY 15, 1912

The Evening Times and Star

ST. JOHN, N. B., JANUARY 15, 1912.

The St. John Evening Times is printed at 27 and 29 Canterbury Street every evening (Sunday excepted) by the St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Companies Act.

CIVIC TAXATION

Notice is given that the city council will seek legislation at the next session of the Legislature to amend the St. John Assessment Act. The purpose of the amendment is to reduce by fifty per cent this year, with further reductions from time to time, the tax on buildings and improvements, while increasing the tax on land; also to exempt as soon as possible all personal property, and to reduce the poll tax from five to two dollars. These changes are in line with public sentiment. It may be true that some difficulty in adjustment will be met with, but the commission with the power of a court which the amendment also proposes should be able to deal equitably with every case that comes before it. The council should consider the composition of men of ability and experience.

Tax reform has been a nightmare to the citizens for many years. We are now entering upon a period of civic growth, and the city should have a workable and equitable system of taxation. The present scheme has been devised for that purpose, and should be endorsed by the Legislature. The bill also provides for the repeal of the section of the present law which provides a level tax rate till 1917, a plan which Saturday's meeting of the city council proved to be very unsatisfactory, and which ought to be changed.

A HOME NEEDED Having secured a site for a building, the Association for the Prevention and Cure of Tuberculosis will appeal to the municipal council tomorrow to establish a home for advanced cases of tuberculosis. The need is urgent. When the Association last appealed to the council, it had no definite plans to submit, and therefore could not expect immediate action. Tomorrow a definite proposition will be made, and should meet with sympathetic treatment.

The association, and all who have been interested in the work, have been handicapped by the fact that advanced cases of tuberculosis in the homes of very poor people have made these homes danger centres, from which the disease spreads; while the patients themselves have been unable to get proper care and treatment. To meet this danger, and to make the last days of hopeless victims a little less miserable, a home for advanced cases is urgently needed. There are two to three patients requiring this matter, and the municipal council will doubtless take prompt and effective action.

THE LARGE PLAYGROUND One of the sets of this year's city council which will be specially commended, and the value of which will be more and more appreciated as time passes and the city grows, is the provision for a beginning this year of the work of converting the area at the entrance to Rockwood Park into a great public playground. The work of draining and leveling the ground will be begun in the spring, and if in addition to what the city expends for that purpose the service of the prison laborers can be secured to aid in the work, it should be possible to complete the draining and leveling this year. Then, if nothing more were done, there would be a large free playground. But, of course, as soon as this work is completed, an expert will be secured and a comprehensive playground plan on modern lines prepared, so that all future work from year to year will be in accordance with the general plan, until a completely equipped playground has been secured. The difficulty has been to get a beginning. This, this council has provided for, and the rest will follow as a matter of course, without causing a heavy burden in any year.

AS QUICKLY AS WATER DISSOLVES SUGAR About the Time It Takes for a Stuart's Dyspepsia Tablet to Work on the Food and Bring Relief. There is no long wait between the time you take a Stuart's Dyspepsia Tablet and the feeling of relief it will bring to an overworked stomach. It gets busy in a jiffy and quickly sets things to rights in that tired and disordered stomach. It goes right at the work of digesting the food it finds lodged there and in no time at all has things on the move—the gases cease forming, the breath is sweetened, the coating on the tongue disappears and you are no longer conscious that you even have a stomach.

We Will Pay \$50.00 in Cash for the Best Answer to Three Questions

You can help us determine just which part of our plan is the part on which we should concentrate. You can do it and at the same time earn one of our cash prizes. Which point of superiority do the purchasing public seek above all others when they buy the goods we are offering? To the person who most clearly expresses the leading reason why everybody in St. John should make their purchases at the Asepto Store we will pay \$15.00 in CASH.

For the next best reply \$10.00, for the next best reply \$5.00, and for the next twenty, each a bright new dollar bill. Meantime, an examination of our store, a small purchase, a talk with our clerks, a look over our lines and a general sizing up of our whole business will be of service to you in earning one of the prizes.

THE FACTS IN BRIEF. For years we have been offering Premiums on goods of our own manufacture. Every article in our store is for sale and the price is marked in plain figures. Also every article is a premium and is given you at the same price for coupons as if you paid cash. The plan we follow is the only one of its kind in Canada, and even competitors are compelled to remark that we have the finest line of premiums ever brought together under one roof. You do not have to take an article.

These Are the Three Questions That You Are Requested to Answer. FIRST—What in your judgment is the feature in the Asepto plan that has made our store do a volume of business in less than six months that other stores have not been able to get in years.

SECOND—What was the most important feature that first induced you to buy at the Asepto store.

THIRD—What of these four vital points—Asepto Quality, Asepto Service, Asepto Store Location or Asepto Premiums—would you advertise with the conviction that when people know that fact they would go to our store and take advantage of our whole plan.

Answers to this advertisement must not exceed five hundred words. The best replies will be used for advertising purposes, but the names of writers will not be published unless requested. A box will be placed in our store Wednesday morning, Jan. 3, 1912, at eight o'clock, where replies may be deposited at any time until the close of the competition. If you live outside of the City limits you will be allowed to send your reply by mail. No employes or persons in any way connected with our business will be allowed to compete.

All Letters Should be Addressed to Dept. 101 ASEPTO LIMITED Cor. Mill and Union Sts., St. John, N. B.

CANADA AND THE WEST INDIES

(From the "United Empire", London)

While the idea of a general federation of the West Indies with Canada appears to be premature, there are indications that the union of the Bahamas with the Dominion may take place with no great delay.

Mr. Lloyd George, who was received with prolonged cheers, said the problem was one which was very difficult for a politician to discuss, because people were suspicious of politicians without the slightest justification.

POPULAR, because there is so much to recommend them—good reasons why they are rapidly increasing in demand.

LUXURIOUS, because of their wonderful harmony of colorings, adding beauty to surroundings and imparting a fascinating sense of richness impossible with any other fabric woven by machinery. Soft and velvety under foot they give a satisfying feeling of comfort to the home.

ECONOMICAL, because the purely vegetable dyes used encourage wear and every knot is hand tied without strain upon threads of warp and woof or yarn of the pile. So enduringly made and with indelible, never varying color tones the life of these rugs is many times that of any other floor covering.

ARTISTIC, because the inherited skill and designing talent of these patient workers produce color combinations faultless and fascinating patterns, wonderful even in simplicity as well as symmetry and beauty.

SANITARY, because the fine, closely woven surface repels dust and is easily kept bright and clean. These rugs upon floors make perpetual tidiness possible and lighten the task of house cleaning labor.

INTERESTING, because of their ancient origin, their mysterious symbolic designs and their historic associations. Cleopatra reclined upon marvelous and priceless rugs on her way to meet Anthony. Oriental Rugs have been associated with all Eastern races, treasured by royal personages and people of culture since the dawn of early civilization.

NON-FADABLE, because none but fast dyes are used. A heavy penalty is placed upon aniline dyes in rug producing countries and in Persia there is a severe penalty for the use of any but harmless vegetable dyes.

GRATIFYING, in every sense of the word to all lovers of the beautiful and artistic, supplying a demand for this really economical luxury which no factory made fabric can ever satisfy. For floor coverings that are ideal, durable and of increasing worth, nothing is to be compared with Oriental Rugs.

Knowing that these good qualities in Oriental Rugs are being more and more appreciated by the people of St. John, we have just brought here the largest collection we have ever shown. These are on exhibition in our Carpet Department. You are invited to inspect them whether you care to buy or not. A great variety of makes, sizes, designs and colorings.

THRILLING RESCUES MARKED NEW YORK'S BIG FIRE—SAW STEEL BARS TO SAVE PRESIDENT OF TRUST COMPANY

ICE CRUSTED DOOR BEHIND WHICH STANDS THE FROZEN BODY OF WILLIAM CAMPION, CAPTAIN OF THE MERCANTILE SAFE DEPOSIT VAULTS.

New York's most thrilling and spectacular fire for years, which swept away the Equitable Life Assurance Society's Building in lower Broadway, will long be remembered for its pitifully dramatic rescues. Never was there a melodramatic struggle with such thrill as occurred the evening of January 13, 1912, when William Giblin, president of the Mercantile Safe Deposit Company, was rescued from a burning vault. Giblin, who was trapped in a vault, was saved by a fireman who saw steel bars which he implored Giblin to save them. They entered the vault to save the company's property when the spring lock caught and held them prisoners. Flames were licking mightily near the doomed men and all hope seemed lost. Father McCann, chaplain of the Fire Department, had already administered the last rites of the Church to Giblin through the steel bars when the outer doors in the vault came down with a crash. Firemen then arrived, and with their little metal hooks worked for an hour to cut through the hard metal bars. Mr. Giblin was taken out more dead than alive and the watchman was in an exhausted condition. Both have recovered. Photographs of Giblin and Sheehan are shown above, as is also that of Battalion Chief Walsh, who lost his life in the fire. In the above panel is shown the ice covered door of the Equitable Building, behind which William Campion, guard of one of the vaults, stood for protection. He was frozen to death.

MR. HAZEN ON THE GRILL

An Uncomfortable Time Over Naval Matters in House of Commons
(Halifax Chronicle)

Ottawa, Jan. 14.—"There must be something being in the department," snarled Hon. Dr. Pugsley, when the estimates for the naval department were read in the House of Commons to-night. He proceeded to point out that the permanent service was to be increased by twelve clerks and the total appropriation by \$100,000.

"Do I understand, then, that the minister has increased the naval staff?"

"The house was in committee with Deputy Premier Blomfield, the former Maritime Minister, in the chair, and Hon. Mr. Hazen, the minister in charge, was seated before him. Sir Montague D'Elley, Mr. Pellissier and the front for the purpose of posing the estimates through Premier Borden was not in the house, and the situation afforded considerable amusement to the Liberals.

"The staff had to be increased," explained Mr. Hazen, "I am acting on the report of Mr. Debarats, the deputy minister of naval affairs."

"May I ask if Mr. Debarats is now directing the policy of the department?" queried Sir Wilfrid Laurier, and he laughed.

"Not at all," somewhat tartly replied the minister. "I take counsel with him as a well-informed official."

"Then do we understand that the naval policy is to go on just as it was before," queried Mr. Develin.

Mr. Hazen said that he would deal with that when the main naval estimates were reached. He reminded the house that the naval department had to look after fishery protection, wireless stations and operations and tidal surveys. "There is ample work for it to do," he volunteered.

"This much then is assumed," observed Sir Wilfrid, "that the law for the naval service is not to be repealed this session?"

Mr. Hazen nodded.

"The minister's assurance is hard upon his neighbors both to the right of him (Mr. Mack) and to the left of him (Mr. Pellissier) and equally hard upon the chair (Mr. Blomfield)," the liberal leader observed and amid a roar of laughter, in which both sides joined. The naval estimates were thereupon passed without further discussion.

DANDRUFF GERMS ARE RESPONSIBLE

Baldness and Most Hair Troubles Due to The Parasite Which Destroys Hair Roots

Nobody wants to be bald. But a neglected scalp means first falling hair, then itching scalp or falling hair, but on guard against Dandruff. (Get rid of it without delay). It is caused by a microscopic germ which feeds upon itself and "feeding grows," destroying the hair roots, so that no new hair grows. It is possible to get rid of it now, using HAZEN'S HAIR PREPARATION, the great, scientific Dandruff Destroyer. It kills the parasite, stimulates the scalp and opens a quick pathway for new hair growth. It is a perfect dandruff destroyer. It kills the parasite. No bald spots on your scalp. If you use HAZEN'S HAIR PREPARATION, you will find it the very best preparation I have ever used for dandruff. You can get it at any drug store for 50c or \$1.00 per bottle, or from the Philo Hay Sp. Co., Newark, N. J.

SLUM WORK IN ENGLAND TOLD

OF AT EVERY DAY CLUB

Rev. Mr. Stuart, of Embowth street church, gave at the Every Day Club last evening a most interesting and impressive account of mission work in the slums of Bath, England. Mr. Stuart, who has been long in Canada, and before coming here had valuable experience in mission work. There was a slum in Bath, he said, which was nearly if not quite as bad as the worst of London. He and others had gone there, and after patient work for many weeks gradually won the confidence of some of the people who were sunk in dissipation, and little by little worked until they got a mission room, and finally established the mission on a solid basis. It is today doing splendid work, and some of the most active workers, both men and women, were formerly sunk in drunkenness and vice. Work was started among the boys, and it also met with success.

Mr. Stuart denounced that class of men who poison the minds of boys, and that class of literature which has a similar effect. He pleaded for the development of strong manhood, that can play football, laugh heartily, enjoy Mr. Post also says the needs of humanity and be a veritable hammer to break down intolerance and impurity. The speaker was heard with deep interest and heartily applauded.

The musical programme included a solo by Miss Wray, a hymn by a mixed quartette from Brussels, a violin solo by a violin solo by little Master Hilder, accompanied by his father, and a violin solo by Mr. J. A. Harrison. These latter and Mr. Armstrong played as an orchestra to lead the hymns. The hall was crowded beyond its seating capacity.

FOLKS PAST FIFTY MUST USE CASCARETS

What Glasses Are to Weak Eyes, Cascarets Are to Weak Bowels—A 10-Cent Box Will Truly Amaze You

Most old people must give to the bowels some regular help, else they suffer from constipation. The condition is perfectly natural. It is just as natural as it is for old people to walk slowly. For age is never so active as youth. The muscles are less elastic. And the bowels are muscles. So all old people need Cascarets. One might as well refuse to aid weak eyes with glasses as to neglect this gentle aid to weak bowels. The bowels must be kept active. This is important at all ages, but never so much as at fifty.

Age is not a time for harsh physics. Youth may occasionally whip the bowels into activity. But a lash can't be used every day. What the bowels of the old need is a gentle and natural tonic. One can be constantly used without harm. The only such tonic is Cascarets, and they cost only 10 cents per box at any drug store. They work while you sleep.

TRAVEL BETTER.
For the first time in several days the incoming trains were on time this morning coming from Boston and Montreal. The Maritime was only fifteen minutes late. The storm was not sufficiently heavy to interfere with traffic.

THE MURCHIE MILL.
The Bangor Commercial's local correspondent writes: "It now looks as if the Murchie mill destroyed by fire some months ago will again be located in Milltown, as the Calais city council at a special meeting, voted to exempt the property from taxation. Having wanted the value and was pretty sure of getting it for a time, but from present indications the plant will again be located at Milltown."

A MISERABLE JOKE.
When a grocer in Indiantown went to his store to open this morning he was given a disagreeable surprise on finding the keyhole plugged with matches, and then covered with chewing gum. He did not mind this so much, but a more miserable suggestion of the idea of humor possessed by the perpetrators of the supposed joke, was shown in the fact that the door, which was spattered with tobacco, the expectations, it is thought, being the work of more than one grocer, has reported the matter to the police.

CHANGE OF NEARLY FORTY DEGREES IN THE TEMPERATURE

From present indications, it now looks as though the weather had about decided to let up on the cold and give the people another sample. Although the thermometer registered seven degrees below zero yesterday morning, it began to get much warmer about noon. At the present time the mercury had jumped to eighteen degrees above zero. This morning thirty degrees above zero was registered, and at noon thirty-one. Snow began falling last night and continued this morning. The probabilities are for softer weather and it is predicted that before night we will be treated to a rain storm.

Liquor Case Ended and a Warning is Given - Disorderly House Case

In the police court this morning bearing in mind the case of Ray Wilson, charged with having liquor on his premises without a license was continued. The defendant and William Spencer testified that the liquor was in the house for personal use and that Spencer had purchased the bottle in Friar's saloon in Main street. Policemen Lucas and Sergeant Kilpatrick told of going to Wilson's house and of finding the bottle of Scotch liquor produced in court. This morning the evidence of Ernest Friar was taken. He denied having sold a bottle of whiskey to Spencer on Saturday afternoon. After reviewing the evidence, His Honor adjourned the defendant guilty, and fined him \$25 or thirty days in jail. K. J. MacIsaac appeared for the defendant, and George A. Henderson conducted the case for the prosecution.

Mr. Friar, in his evidence, said that he had given the police officers wrong information in connection with the case in regard to Spencer buying a bottle of liquor at his place, and when he was leaving the stand His Honor said that he was liable to be proceeded against for doing so.

A case against Minnie Nairn, charged with keeping a disorderly house at 342 Carnarvon street on the night of Jan. 8 was also heard this morning. Policemen McCleod told of being in the vicinity of the house on the night in question, and of hearing and noise going on inside. He had tried to get in, but all the doors were locked. Later on in the evening he saw a man coming from the house with his head cut. The policeman said he got into the house and found the carpet in one room covered with blood. A big stick was lying on the floor. The man who had come out of the house had been arrested later on for drunkenness, and was now in jail.

The case was adjourned until tomorrow at eleven o'clock to order to produce more evidence. E. S. Ritchie appeared for the defendant.

Three prisoners, all charged with drunkenness, were fined \$5 or two months in jail each.

NET PROFITS FOR YEAR \$147,622

Annual Meeting of Stockholders of The Bank of New Brunswick

DIVIDENDS \$113,543

Directors Present Cheerful Report - There Are Now 30 Branches of The Institution - Election of Directors and Officers

The shareholders of the Bank of New Brunswick, in annual meeting today, reported the same hearty directors as last year, and at subsequent meeting of the directors the president, James Manchester, and the vice-president, Dr. W. W. White, were re-elected.

The directors' report was as follows:—The directors have to present to the shareholders the following report and statements for the year ending 31st December, 1911.

The net profits for the year, after making full provision for interest on deposits, tribute on current discounts, and for all bad and doubtful debts, amount to \$147,622. Out of this, quarterly dividends at the rate of 12 per cent per annum have been declared, amounting in all to \$113,543.25. To the rest account has been added \$20,900, and to the officers' pension fund has been contributed \$5,000. The balance of \$3,078.75 has been added to the profit and loss account.

The rest account has been further increased by the addition of \$37,483, being the premium on new capital stock sold and issued during the year.

The whole of the bank's authorized capital has now been taken up, and the bank has acquired a large number of new shareholders.

Branches of the bank have been opened at Haymarket Square, St. John; at Yarmouth, N. S., and at Montreal. A branch will be opened at Gloucester Harbor, N. S., in the near future.

All the branches have been inspected during the year, and independent chartered accountants have certified to the correctness of the balance sheet.

JAMES MANCHESTER,
President.

St. John, N. B., Jan. 15, 1912.

The bank has now sixteen branches in New Brunswick, six in Nova Scotia, four on P. E. Island, and one in Montreal.

After the report, the directors received a vote of thanks to the directors for care and attention to the business of the bank during the year, and the meeting was some discussion of the affairs arising from the Clark case.

It was further resolved whether there had been any offer during the year from other banks wishing to purchase the Bank of New Brunswick, and it was informed that there had been no definite offer.

STEAMER HAMPTON SUSTAINS DAMAGE

Nearly Sinks in Winter Quarters at Indiantown - Cause Not Definitely Known

The steamer Hampton, owned by the Kennebec Steamship Co., while lying in winter quarters at Indiantown, met with a bad accident some time during last night and is now lying with a heavy list to starboard, upheld only by her cables and deck supports which are fast against the pilings in the water several yards from the wharf. She is nearly submerged and it is estimated this morning that, possibly \$800 would be the amount required to repair the damages. It will be necessary to take her to the docks below the falls for repairs, and this will be done as soon as possible, although it may be a difficult matter to raise her from her present position.

It is not known what caused the accident. Captain Mabey, who has been in command of the steamer, was aboard on Saturday and there was nothing that same day. She was nearly submerged and it was said that her side by constant jarring against it had thus forced the culm, allowing the water to flow in freely until she gradually toppled. Captain Mabey, however, was of the opinion that some pipes had burst and that this was responsible for the accident.

The water has flowed quite freely into her saloon and cabin and it is expected that when she has been righted it will be found that the flooring in the interior will be badly damaged. The steamer was lying on the outside of the Champlain at the "Simsens" wharf.

One who is familiar with such matters, said this morning that a jagged piece of ice could easily damage the steamer, and in a shorter time than the average person might think. He also said that this winter had seen greater quantities of ice floating down the river than for several years, so that the small cover and places between chairs were well filled with it.
