# Special Reasons

Why Everybody should take the

## Ontario Farmer

1.—Because it is undeniably the  
**Best Journal of its Class**

Published in the Dominion of Canada.

2.—Because its Editor is an Agricultural writer of great ability and long experience, familiar with practical Farm work, and not a mere literary man.

3.—Because it fearlessly advocates the rights and interests of the Farming community, and exposes incompetency, extravagance, and mismanagement, wherever it is found to exist.

4.—Because it is doing good service in promoting Emigration to this Province.

5.—Because it publishes, regardless of cost, the best engravings of Prize Animals that can be produced by the arts of the draughtsman and engraver.

6.—Because it has cheapened our Agricultural literature by means of healthful business competition, and so saved the Agricultural Societies hundreds and even thousands of Dollars.

No Farmer should be without it!

Only One Dollar a Year!

Agricultural Societies supplied at 75 cents!

Communications intended for publication, address to

**W. F. CLARKE,**

*Editor "Ontario Farmer," Guelph.*

### TO THE PUBLIC.

F. JEFFREY, Hardware Merchant, 46 King Street East, has very great pleasure in presenting this little manual, which will be found to contain a number of exceedingly useful tables, not previously published, of great practical value to Contractors, Carpenters, Builders, Farmers, and the general Public. He would take the opportunity of soliciting an examination of his Stock and comparison of prices, feeling confident that he offers advantages to careful buyers that cannot fail to be appreciated when once known. Please remember the place,

**46 KING STREET EAST.**

In the Year 1870, there will be four Eclipses of the Sun and two of the Moon.

I.—A Total Eclipse of the Sun, January 11, 1870, partly visible at Greenwich.

II.—A Partial Eclipse of the Sun, January 31, 1870, invisible at Greenwich.

III.—A Partial Eclipse of the Sun, June 24, 1870, invisible at Greenwich.

IV.—A Total Eclipse of the Moon, July 11, 1870, visible at Greenwich.

V.—A Partial Eclipse of the Sun, July 25, 1870, invisible at Greenwich.

VI.—A Total Eclipse of the Sun, December 22, 1870, (visible as a Partial one) at Greenwich.

1st Month. **JANUARY, 31 Days.** Begins on Saturday.

ANKLES.

There's magic in a lady's foot,  
And well the ladies know it;  
And she who has a pretty one  
Is pretty sure to show it.  
At times you, too, are martyred by  
The nicest little ankle,  
That shoots an arrow through your eye,  
Within your heart to rankle.

But when it trips along the street,  
Through wind, and mud, and vapor,  
By sheerest accident you see  
How beautiful the taper;  
And as it steps upon the walk,  
Amid the crowd to mingle,  
Two roguish eyes look up and say,  
I wonder if he's single.

Keep this Book for future reference.

**AXES, ANVILS, ADZES,**  
**AUGURS AND BITS,**  
**AMMUNITION OF ALL KINDS.**

A seamstress is the only sewing machine that can baste a goose.  
 "Bedad," said an Irishman, "if a Yankee were cast away on a desert island, he'd begin selling maps to the inhabitants."  
 Brigham Young has another baby. He's a funny man—the older he grows the more young he gets.  
 The greedy Mexicans like millions—but not Maxi-millions.  
 Milkman.—Don't complain of hard times. The price of milk is not rising. Bidly.—No, shure; nor the crame nayther.  
 "Hurry, mamma," said the little innocent with his cut finger "hurry, it's leaking."

**RATES OF POSTAGE ON LETTERS.**

The rate of postage on *prepaid* letters between any place in Canada and any other place in Canada, is regulated by weight, irrespective of distance, and is as follows:

On a letter weighing not more than  $\frac{1}{2}$  an oz. .... 3 cents.  
Each additional  $\frac{1}{4}$  oz. .... 3 "

*Unpaid* letters posted in Canada, and addressed to any place within the Dominion, are liable to a charge of 5 cts. per  $\frac{1}{2}$  oz.

The charge on drop letters is 1 cent for each letter, which must be prepaid by stamp.

To Newfoundland,  $12\frac{1}{2}$  cts. per  $\frac{1}{2}$  oz., *must* be prepaid. The rate of postage on letters to British Columbia and Vancouver's Island is 10 cents per  $\frac{1}{2}$  oz., *must* be prepaid.

Bells, Bells, of all kinds.

What a world of merriment their melody foretells!  
How they tinkle, tinkle, tinkle,  
In the lev air of night,  
While the stars that oversprinkle  
All the heavens, seem to tinkle  
With a crystalline delight,—  
Keeping time, time, time,  
In a sort of Runic rhyme,  
To the tintinnabulation that so musically wells  
From the Bells, Bells, Bells, Bells,

At Jeffrey's.

PARCEL POST.

Parcels closed at the ends and sides, and not exceeding 4 lbs in weight; may be posted in Canada to any other Post Office in Canada at the following rates:

For each parcel not weighing more than 8 oz....	12½ cts.
Exceeding 8 oz., and not exceeding 1 lb....	25 do.

## ANTIDOTE FOR POISON.

Sweet Oil, according to the *Artisan*, is an antidote for poison. It says that "a poison of any conceivable description and degree of potency, which has been swallowed intentionally, or by accident, may be rendered instantly harmless by swallowing two gills of sweet oil. An individual with a very strong constitution should take twice the quantity. This oil will neutralize every form of vegetable or mineral poison with which physicians and chemists are acquainted.

**COAL TAR FOR RATS.**—A correspondent says that rats dislike coal tar very much, and that he is in the habit of daubing it about their holes and runs, with good results. Coal tar mixed with sand to the consistency of thick mortar, is an effectual stopper to rat holes. The process is not patented, and a sure cure is warranted.

In Manchester they have a way to stop a donkey's braying, which consists in tying a heavy stone to the animal's tail. He can't bray, they say, unless he can bring his tail to a horizontal position; and this being impracticable when the weight is attached, the "barbaric yawp" is suppressed. The patent comes from China.

Six cents' worth of common green paint, in powder, used about a house, will clear it of vermin.

**FOR PAINT AND OIL, GO TO JEFFREY'S.**

# DOOR MATS

Plain and Fancy Border,

## DOOR HINGES,

### AT JEFFREY'S.

"If a man bequeathed you a hundred dollars, would you pray for him?" said a Sunday-school teacher to a pupil. "No," said he, "I would pray for another like him."

Some of the strong-minded women object to marriage, because it gives women a childish tendency.

Why is an umbrella high church? Because it always keeps lent.

Seen from the high altitudes reached by balloons, the blue of the firmament becomes an intense black, and the stars glitter in a background of perfect jet.

Over one hundred of the asteroids have been discovered in the track of the exploded planet of our system, the largest of which is but 160 miles diameter.

**TABLE FOR FORETELLING THE WEATHER,**

THROUGH A L THE LUNATIONS OF EACH YEAR.

This Table, and accompanying remarks, are the results of many years' actual observation,—the whole being constructed on a due consideration of the attraction of the Sun and Moon in their several positions respecting the Earth; and will, by simple inspection, show the observer what kind of weather will most probably follow the entrance of the Moon into any of its quarters, and that so near the truth as to be seldom found to fail.

	IN SUMMER.	IN WINTER.
If the New Moon, the first quarter, the Full Moon, or the last quarter happens		
Between midnight and 2 in the morning	Fair	Hard frost.—unless the wind be S or W.
Between 2 and 4 morning	Cold, frequent showers.	Snow and Stormy,
" 4 " 6 "	Rain	Rain.
" 6 " 8 "	Wind and Rain	Stormy.
" 8 " 10 "	Changeable	Cold rain, if wind be W; snow, if E.
" 10 " 12 "	Frequent showers	Cold, and high wind.
At 12 at noon, and 2 p.m.	Very rainy	Snow and rain.
Between 2 and 4 p.m.	Changeable	Fair and mild.
" 4 " 6 "	Fair	Fair.
" 6 " 8 "	Fair, if wind N W; Rainy, if S or S W	Fair and frosty, if wind N or N E; rain or snow if S or S W.
" 8 " 10 "	Do. do.	Do. do.
" 10 " midnight	Fair	Fair and frosty.

OBSERVATIONS.—The nearer the time of the Moon's change to noon or midnight, the more nearly will the result accord with the prediction. It is also said that less dependence is to be placed on the table in Winter than in Summer.

9th Month. **SEPTEMBER, 30 Days.** Begins on Thur.

# RECIPES.

## INTEREST.

COMPUTING BY ONE MULTIPLICATION AND ONE DIVISION, AT ANY RATE PER CENT.

Multiply the amount by the number of days, (counting thirty days to each month.)

Divided by 60 gives the interest at 6 per cent.

"	45	"	"	8	"
"	40	"	"	9	"
"	36	"	"	10	"
"	30	"	"	12	"

EXAMPLE. \$150, at 3 months and 10 days, or 100 days, is 15,000 divided by 60, gives \$2.50, which is the interest at 6 per cent.; or divided by 45, gives \$3.33 interest at 8 per cent.; &c., &c.

## COLIC.

CURE FOR HORSES OR PERSONS.

Spirits of Turpentine, 3 oz.; Laudanum, 1 oz.; mix, and give all for a dose, by putting it into a bottle with half-a-pint of warm water, which prevents injury to the throat. If relief is not obtained in one hour, repeat the dose, adding half an ounce of the best powder aloes, well dissolved together, and have no uneasiness about the result.

SYMPTOMS.—The horse often lies down, suddenly rising up again with a spring; strikes his belly with his hind feet, stamps with his fore feet, and refuses every kind of food, etc. I suppose there is no medicine in use for colic, either in man or horse, equal to this mixture.

For persons, a dose would be from one to two teaspoonsful; children or weak persons, less, according to the urgency of the symptoms; to be taken in warm water or warm tea. I have been familiar with it for about five years, and know that it has been successful in nearly every case where it has been used. Many think it the best Colic Remedy in the world.

## ANOTHER.

Laudanum,  $\frac{1}{2}$  oz.; Sulphuric Ether, 1 oz. Mix, and for a horse give all at a dose, in warm water as above. Dose for a person, same as the first.

A Mr. Thorpe, of whom I obtained this recipe, tells me he has cured Colic in horses with the first dose, in every case except one, and in that case by repeating the dose thirty minutes after the first. There is no question but what it is good, and some would prefer it to the turpentine. I know it is valuable.

## BOTS.

SURE REMEDY.

When a horse is attacked with Bots, it may be known by the occasional nipping at their own sides, and by red pimples or projections on the inner surface of the upper lip, which may be seen plainly by turning up the lip.

First then, take new Milk, 2 qts.; Molasses, 1 qt.; and give the horse the whole amount. Second—15 minutes afterwards, give very warm Sage Tea, 2 qts. Lastly—30 minutes after the Tea, you will

## RECIPES.—(CONTINUED.)

give of Carriers' Oil 3 pts. (or enough to operate as physic). Lard has been used when the Oil could not be obtained, with the same success.

The cure will be complete, as the Milk and Molasses cause the Bots to let go their hold, the Tea puckers them up, and the Oil carries them entirely away. If you have any doubt, one trial will satisfy you perfectly. In places where the Carriers' Oil cannot be obtained, substitute the lard, adding three or four ounces of salt with it; if no-Lard, dissolve a double handful of Salt in warm water 3 pts., and give all.

### RING-BONE AND SPAVIN.

RAWSON'S RING-BONE AND SPAVIN CURE.

! Venice Turpentine and Spanish Flies, of each 2 oz.; Euphorbium and Aqua Ammonia, of each 1 oz.; Red Precipitate,  $\frac{1}{2}$  oz.; Corrosive Sublimate,  $\frac{1}{4}$  oz.; Lard, 1 $\frac{1}{2}$  lbs. Pulverize all and put into the Lard; simmer slowly over coals, not scorch or burn, and pour off free of sediment.

DIRECTIONS.—For Ring-Bones, cut off the hair and rub the ointment well into the lumps once in forty-eight hours. For Spavins, once in twenty-four hours, for three mornings, has perfectly cured them. Wash well each application, with suds, rubbing over the place with a smooth stick to squeeze out a thick yellow matter.

Mr. Rawson, Rawsonville, Mich., has cured some exceedingly bad cases of Ring-Bones, one as thick as a man's arm, and Spavins as unpromising in size. If properly cooked, it will foam like boiling sugar.

BONE SPAVINS.—FRENCH PASTE.—\$300 RECIPE.

Corrosive Sublimate, Quicksilver, and Iodine, of each 1 oz.; with Lard only sufficient to form a paste.

DIRECTIONS.—Rub the Quicksilver and Iodine together, then adding Sublimate, and finally the Lard, rubbing thoroughly. Shave off the hair the size of the bone enlargement; then grease all around it, but where the hair is shaved off; this prevents the action of the medicine only upon the Spavin; now rub in as much of the Paste as will lie on a three cent piece only, each morning for four mornings only; in from seven to eight days the whole Spavin will come out; then wash out the wound with suds, soaking well, for an hour or two, which removes the poisonous effects of the medicines and facilitates the healing, which will be done by any of the healing salves; but I would prefer the Green Ointment to any other in this case.

Mr. Andrews, late of Detroit, who, during his life, knew a good horse, and also desired to know how to take good care of them, did not hesitate to pay three hundred dollars for this recipe after seeing what it would do. He removed a Spavin from a mare's leg with it, and she afterwards won him more than the expense.

SPLINT AND SPAVIN LINIMENT.

Take a large-mouthed bottle, and put into it Oil of Origanum 6 oz.; Gum Camphor 2 oz.; Mercurial Ointment 2 oz.; Iodine Ointment 1 oz.; melt by putting the bottle into a kettle of hot water.

Apply it to Bone Spavin or Splints twice daily, for four or five days. The lameness will trouble you no more.
