When it was understood on the Miramichi that there was to be no fishing until Dec. 1st, a few of the larger shippers, who are buyers or speculators ather than fishermen, aquiesced in the order, believing that it applied to Kent County as well, but when they found that the cream had been taken off the market by their neighbors, their views changed very materially.

It is, therefore, in order for us to ask those who secured the prombition-and they live among ourselves-how they can justify such treatment of people who are their political supporters and business customers. It is not our custom to mention names but Senator Muirhead is a public man and it is his custom, of late, to assure those who come in contact with him that it is to him the Government at Ottawa looks for advice in all matters affecting the Miramichi. We ask him, therefore, to explain why he secured this obnoxious order on if he are this obnoxious order, or, if he did not secure it, why he did not advise against that his whole influence has been exercised in strengthening the hands of to every other consideration when he thinks party interests are to be promoted. During the session of 1879, at Ottawa, when the Minister of Fisheries was disposed to make such changes in the administration of Miramichi affairs as we had urged and the fisherien desired, he and Mr. Mitchell stepped in and succeeded in having Inspector Venning's authority continued in Northumberauthority continued in Northumberland. Senator Muirhead could not have believed this to be in the interests of the Miramichi, but, as he put it at the time, (in the Russell House junket) If the ADVANCE's advice were taken it would injure the interests of the Mitchell party with the fishermen. Let us now know, how long these considerations are to be made a reason for injuring a large, industrious class composed of both Liberals and Conservatives in this County. The Senator must know it is wrong. If the Government chooses, let then follow the advice of those who counsel the oppression and persecution of their political opponents, but public decency protests against the wholesale cutting off of a county from privileges which adjoining and other sections of the country are permitted to continue in the enjoyment of. The Senate.

The Montreal Journal of Commerce gives prominence to the views of John Bright respecting the constitution of the Dominion Senate, at the time when the B. N. A. Act was before the Imperial Parliament. It says:-

The question of a nominated, in-stead of an elected Senate was discuss-ed by Mr Bright, who undertook to reply to the Member who had charge of the bill, and who had contended that Canada "had a right if they pleased to go back from an elected Council to a nominated Council." Mr. Bright, in reply, said: "Well "nobody denies that, but nobody pretends that the people of Canada prefer a nominated Council to an elected Council." And he added that the clause "enabling the Governor-General and his Cabinet to put seventy two men in that Council for life, inserts into the whole scheme for life, inserts into the whole scheme the germ of a malady which will spread, and which before very long will require an alteration of this Act, and of the Constitution of this new Confedera-

An American lady would have felt herself obliged to decline, with so poor a wardrobe as Mrs. Galson possessed; an English lady would have thought of introductions-for Mrs Galson was a lady, as Lizzie had discovered-but the French heart is warmer, softer, the French woman less conventional; and besides, she can do wonders with a little old black lace, and a geranium or two, and Mrs. Galson had both of these. It was not an ill-dressed party that entered Madame's parlor on Thanksgiv ing day, just in time for the early din-

'It is, of course, Madame Galson?' asked Madame with her hand extended "And I have the pleasure of meet ing Madame Noir," replied the other and then the little chat began in pure Parisian French, and Madame would not have blushed had her most distin guished friends been aware of her din-After dinner a grand inspiration
