February 18th.

The Day Appointed For Provincial Elections.

Nominations on the 11th.

The Provincial Legislature was dissolved on the 28th, and no one was surprised.

Nomination of candidates will take place on Feb. 11th, and the elections will take place on Saturday, Feb. 18th.

Both parties are looking for the Government to be sustained by a sweeping majority. A leading St. John Opposition worker tells the ADVERTISER that he expects their party will elect 18 candidates. He is wonderfully hopeful. More so than a gentleman from Fredericton, opposed to the Government, who says York is hopeless and the Government will be sustained by a majority of 23.

Carleton County will elect three Government candidates.

The Opposition Ticket.

There seems to have been a considerable amount of difficulty in selecting an Opposition ticket, but latest advices state that Messrs. Dibblee, J. T. G. Carr and John R. Tompkins will attempt to run the gauntlet. The ADVERTISER has not interviewed Mr. Carr, but leading opposition men give it as a fact that he will be a candidate. Everyone has been looking for J. K. Fleming to come out, but it seems he will not. And where is Hon. G. W. White? The opposing party will struggle hard for victory, but will they win? There can be no doubt of Mr. Carr's polling a big vote.

Twice a Week.

As there promises to be quite an excitement during the election campaign, the ADVERTISER, in order to keep its readers apprised of the parties' progress, will appear on Wednesdays and Saturdays till after the campaign is over.

We shall aim to give our readers an impartial report each issue of the progress of both parties. The ADVERTISER must admit that it is a partizan sheet, but as such it means steadfastly to abstain from the tendency to prevarication as is common with the generality of party newspapers. A live newspaper cannot be independent without being neutral. And neutrality is lifelessness. Only a "freak" could see good and bad traits alike between two political parties, and only a bigot can see good in his own party alone.

Prof. Harrington, the magician, will give an entertainment in the Forrester's Hall to night under the auspices of the I. O. F. This exhibition of the mysterious will be good and worth the patronage of all.

IN VICTORIA.

Five Candidates In The Field.

A visitor at Ansover and Perth hears nothing but political gossip from morning until night. The election promises to be a hot one. No less than five candidates are in the field, and the names of three other gentlemen have been mentioned, but it can hardly be possible that any others will enter the contest. Those spoken of as candidates are A. J. Beveridge, who already has served one term in the Legislature and will run the straight government ticket; J. Frazer Tweeddale of Arthurette, who unsuccessfully contested the constituency for the Opposition in the last two elections, will run a sort of a "mug-wump" ticket, and as a confrere he will have Thomas Lawson, who once ran against Hon. John Costigan, in a federal election. Mr. Porter, who has already served two terms, will run again. He will not, as formerly, be associated with Mr. Beveridge. T. J. Carter will run a straight Opposition ticket. The ADVERTISER has not heard of any wagers being laid, but Mr. Beveridge and Mr. Lawson seem to be in the public opinion as good as elected.

The contest in Victoria will be watched with interest.

William Love.

William Love, proprietor of the Glassville Hotel, died at his home Friday night of La Grippe. Mr. Love was born in Scotland, in the vicinity of Glasgow. When a boy he was in the employ of the Earl of Eglinton, in mining operations; afterwards he owned teams in Glasgow, and later he was in the employ of the Glasgow and Southwestern Railway Co. When he came to New Brunswick he lived some years in St. John in the employ of the Harris Foundry and Machine Co.; and was on different steamers on the bay. In 1861 at St. John he married Miss Miller, and a few years afterwards they came to Glassville with two or three small children. There he started a hotel which became very popular. A wife and four daughters and two sons survive.—Dispatch.

Government Convention.

There will be a convention of the supporters of the Local Government in Cole's Hall, Woodstock, on Monday, February 6th, at 2 o'clock, p. m., for the purpose of nominating candidates for the pending election. All friends and supporters of the local government are requested to attend.

Carleton County Council.

(Continued from last week.)

Mr. Gillmor moved, seconded by Mr. Connolly,

Whereas, the Parish of Aberdeen, in the County of Carleton, is possessed of only one road machine, and for better service to the public of said machine it is considered advisable to constitute said parish into one highway division,

Be it ordained by the County Council of the Municipality of Carleton as follows:

1. That a by-law of this Council dividing said parish into a highway division be and is hereby repealed.

2. That the Council deem it advisable to allow the parish of Aberdeen to remain as one division, and such parish is hereby constituted as one highway division.

here was considerable discussion; the councillors for Aberdeen not agreeing. Mr. Gillmor urged that the object of the resolution was generally popular in his parish; Mr. Lamont presented a different view. Cronkhite moved, seconded by Caldwell:—

Whereas a resolution was passed at a special meeting of the council in the month of August last to build a gaol in the Town of Woodstock; and

Whereas contracts were entered into and expenses were incurred in connection with the said contracts; and whereas application was made to the Supreme Court and a decision granted by said court, and which, if continued, would place a heavy burden on the ratepayers of this county; therefore

RESOLVED, That we rescind the said resolution passed at said special meeting to build a gaol in the said town, and that we pay all just dues and reasonable expenses which have been incurred in connection with the said gaol contract, and also that this council carry out the recommendation of the grand jury as was presented at the June meeting of this council to repair the present gaol.

Saunders raised the point of order: First—That it was not in order for a motion to rescind to be made by members who voted in the minority of original resolution.

Second—That the resolution did not set forth facts in its statements as to the decision of the Supreme Court, and also that the Council could not authorize money to be paid in which action they were restrained by the injunction. The Warden ruled the resolution out.

A Double Funeral—Grippe Prevalent.

Cold weather prevails here. Sickness, sickness. "Where is the doctor?" La grippe.

The funeral of Mr. and Mrs. Albion Mills took place yesterday in the Baptist church and was largely attended by mourning sympathizers. The funeral service was conducted by Rev. C. N. Barton, Rev. J. W. S. Young and Evangelist Gascon. At the close of the sermon by Rev. Mr. Young, Rev. Mr. Barton read the following address to Mr. Norman Mills:

BRO. NORMAN MILLS:

We, the members of Benton Orange Lodge, request you in this sad hour of bereavement, to accept a few words of sympathy and condolence.

First, we assure you, worthy brother, that a deep cloud of sorrow enclosed and enshrouded us, as the whispering breezes revealed to us the mysterious yet memorable departure from this world, hand in hand and arm in arm, of your beloved parents. Strange it seems to us that while our village was slumbering in silence during the midnight hour, the messenger of death should stoop on golden wings and deliver that precious message, "come ye faithful of my Father inherit the place prepared for you in my Father's kingdom," and thus leave a family lamenting a father and mother, on "wings

of light," pinion their flight from earth to mansions of bliss; surely we hear those parting words, as mother summons her sons and daughters to her side and bids them each adieu, "Be good, be kind;" then, as companions of the guardian angel, they sweep into space and are borne aloof; yea, those beckoning hands direct our minds but a moment and by the ear of faith we hear the music sweet which wears away the last cares of earth, as father and mother enter the "pearly gates" into the haven of rest.

Now, dear brother, knowing that life is transient, and that a few short years at most must necessitate the reunion of father and mother with the four sons and the three daughters of your sadly stricken family, together with the many grieving relatives and friends around the judgment throne of Christ, do not allow sorrow to cast a shade over your life. Let me entreat you to look beyond the hour of death, yea, even the mists of Jordan; while still present in this vale of tears and foretaste in fancy the celestial reunion.

Loyal brother, knowing that the affectionate bonds existing between the members of this Lodge, to which you are proving yourself to be so worthy a member, can only be severed by the rending of the silver cord which binds Reason to her throne, and asking permission to join hands with you and the family thus represented, in sharing your deep sorrow, we remain, the mourning members of Benton Loyal Orange Lodge, No. 66.

Dairying Association.

Upper Kintore Society Holds a Successful Meeting.

(Special to Telegraph.)

Kintore, Jan. 18—Upper Kintore Dairying Association held their monthly meeting in the school house, President A. Phelip in the chair. As we have entered on our seventh year of the association it was arranged to have a kind of a sociable. There was a large attendance of the members and their wives along with the young people, who were welcome. At eight o'clock the president called the meeting to order, and after the minutes of the last meeting were read and approved the subject was introduced by J. W. Corey, "Intensive or Extensive Farming as Applied to Local Conditions." He contended that market or truck gardening or growing in hot-beds was impracticable in this locality owing to our being so far removed from the city markets. Neither was the growing of small fruit profitable because of the uncertainty of our climate. That probably the only system of intensive farming practicable here was the small farmer of say 25 acres who sought by superior cultivation and scientific manuring to produce the highest possible amount per acre. He contended that after allowing for the necessary expense for keeping his working team, that even allowing the high average of 80 bushels of grain per acre for the ploughed land and two tons of hay per acre on the grass land, only some \$250 worth would be produced. He then took up extensive farming: claimed that extensive farming as understood in the western country was impossible here; that, in fact, extensive farming, as practicable here, must be the cultivation of a hundred or one hundred and twenty-five acre farm. He said that there was the same expense for keeping a team of horses; that a pair of horses would easily handle one hundred acres under the ordinary system of cultivation, and that by proper rotation and pasturing and using such manures as were produced on the farm an average production of 40 bushels of grain and one ton of hay per acre could be obtained, which at current prices would be some \$600 value produced on the hundred acres, as compared with \$250 on the small farm; and he claimed the extra expense of harvesting on the larger farm would be more than offset by the expense of fertilizing the smaller one.

Believing thus he urged his fellow farmers to increase their acres, yet at the same time to make use of the teaching of science and of the results attained by the experiments of others, as far as practical, charging them to remember that he who makes two blades of grass grow where but one grew before, is a benefactor of the race.

The address was listened to with great interest by all present and brought out a good discussion from the members. The voice of the meeting was in favor of extensive farming. Subject for next meeting, "Poultry Raising."

The sociable part was then entered into with songs, recitations, readings and short addresses. After a very enjoyable time by all, tea was brought in and the baskets uncovered and every-

body did justice to their contents. After tea a few short addresses were given by members; then all joined in singing "Auld Lang Syne," when all departed for their homes, well pleased with themselves and every one else, at the wee short hours ayont the twelve.

Waterville Warblings.

MR. EDITOR,—In looking over the columns of the ADVERTISER, I fail to find anything connected with Waterville, for what reason I don't know. If you have any doubts about there being such a place, you had better take a voyage of discovery, directing your course up the Little Presque Isle river. The country at first may not present a very attractive appearance, but after a course of say about four miles you will reach a strip of country beautiful for scenery, and of a highly agricultural aspect, the centre of which is Waterville.

Having arrived in the village, the most notable feature will be the mills, saw and grist, owned by J. B. Getchell. Both are in operation, and a large amount of lumber is being yarded, speaking favorably for the spring's work.

The emigration to the Klondike during the past has not drawn any of our young men away. They seem content to stick to the old land and win their gold by "the sweat of their brow" rather than by the chills of an arctic winter.

The farmers of this place are talking of establishing a cheese and butter factory at an early date.

Waterville L. O. L. has just closed a very prosperous year under the management of A. E. Plummer, W. M., who has been re-elected for the ensuing year. Although it has been but a year in existence, it now boasts of forty-five members, and prospects for further growth look favorable.

The school at Waterville is as usual quite large, and is under the management of Leon H. Jewett.

We are glad our Hartland friends are buoyant in spirit in regard to the bridge, which is so necessary. We hope it will materialize, as it would be of much advantage to farmers exporting their produce from this section.

We hear no more from the Woodstock and Centreville railway. Don't know as we ever will. The dynamite, pick and shovel are laid aside and the snows of a New Brunswick winter has cast a total eclipse over the remains.
