ANOTHER SESSION? The appointment of Hon. H. R. Emmerson to a cabinet position at this time may be taken as evidence that the government has not yet decided to postpone the date of election. It is probable that they will, but their movements indicate that they are preparing to meet the other contingency.

ACROSS THE BORDER. I have read somewhere that the birds of fairland are white as snow. W. B. Yeats. Where all the trees bear golden flowers. And all the birds are white: Where fairy-folk in dancing hours Burn stars for candle-light.

ANOTHER SESSION PROBABLE. Sifton Said to be Responsible—No Decision About Emmerson—Six Bye-Elections. OTTAWA, Jan. 12.—There is still some uncertainty as to the portfolio which Emmerson will get, although the liberal press hint at railways and canals. Mr. Emmerson on leaving Ottawa last October told his friends that he hoped to be here permanently before long, but three months have elapsed and only now has the call to the liberal press hint at railways and canals.

ANOTHER PREJUDICEMENT. If the government finally decides to hold another session before appealing to the people, there are six bye-elections to be attended to. These will put the government to almost as great a dilemma as the decision on the general election has. Of course, in a bye-election the chances are always in favor of the government, but the liberals have good reason to fear that the prevailing sentiment against them is strong enough to offset even a great advantage. And the danger of a defeat in a bye-election just preceding a general election will undoubtedly give pause to the much-worried gentlemen who are at present in charge of the fortunes of that waning party. But with the warning of the recent defeat in North Renfrew before them, it is improbable that they will dare to bring their power of disfranchisement again to bear.

MORE LIBERAL DISSENTION. Things are not going smoothly with liberalism in Hants county. Dr. Russell is considered by his supporters there as a failure as a representative and the nomination will not again be offered to him. The complications arise from this fact. It appears that W. M. Christie, barrister, of Windsor, who has been an active liberal worker, is seeking the nomination. Many liberals feel that Christie would not put up much of a fight as he is far from popular throughout the county. This fact is in favor of running the Hon. Arthur Drysdale. It is said, however, that Christie is bound to be a candidate and will not take "no" for an answer.—Amherst Telegram.

Though the date of the elections is still uncertain and the possibility of another session seems to be growing, the conservatives of the city will lose no time by their early preparation. The work which was begun so encouragingly last night is work that is far more effective six months or a year before an election than in the heat of a campaign. Let the organization be completed as early as possible and the work in the wards be begun at once and continued faithfully and there need be no fear of the result of the contest whenever it takes place.

LOCAL NEWS. The next meeting of the county council will be at the Court house in this city on Jan. 19th, commencing at 2.30 o'clock. Capt. W. H. Kent, of the Dominion cruiser Kingfisher, now at Shelburne, is in town. The steam tender used in connecting the vessels at the wharf at Port Hawkesbury, being repaired. The annual meeting of the Local Assembly of the Brotherhood of St. Andrew will be held at the Church of England Institute. The Y. P. A. of St. Mary's church at a special meeting last evening decided to hold a concert on Monday, Jan. 22nd, at the Church of England Institute. The annual meeting of the Military Veterans will be held in Foresters' Hall, Charlotte street, on Thursday evening, the 14th inst., at 8 o'clock, for election of officers. Wm. Bolton, who had both legs broken at Fleming's foundry on Monday, died yesterday as a result of his injuries. He was 49 years of age. His wife and two children survive. The funeral will be held tomorrow afternoon from his late residence, 25 Summer street.

Woodsstock, Ont., Jan. 12.—The reform convention here today selected Col. Munro as liberal candidate in the coming by-election for the legislature. Five ballots were necessary for a choice. Dr. Ross has announced that he is in the field as a liberal independent. The conservatives will choose their candidate on Saturday. The Free Kindergarten committee acknowledge with thanks the work of two boys, Lloyd Campbell and Douglas Holman, who collected \$5 for the piano fund. The committee are very much encouraged over the fact that one young lady has offered her services to help one evening each week for a month. At the end of that time the committee hope to hear of some other volunteers. There has not yet been contributed sufficient money to carry on the work for one year. Hope is expressed that a great many will contribute one dollar or more for this work. Statistics of some large cities show that children who have had kindergarten training never are criminals.

SERIOUS FIRE. LOWELL, Mass., Jan. 12.—This city tonight its third serious visitation by fire within a week. In practically the complete destruction of three brick blocks in the heart of the business section, occasioned almost entirely by the large department store of O'Donnell and Hibbard. The central fire station in the rear was also damaged and a number of minor tenements were burned out. The loss is roughly estimated at \$200,000, the greater part of which will fall on O'Donnell & Hibbard, who have an insurance on their stock amounting to \$140,000. Five firemen were injured during the fire, including Assistant Chief James Norton, who had his leg fractured by falling walls.

THE CAMPBELLTON EVENTS: "The man can't put words together so as to express his meaning grammatically or plainly, and his most ambitious efforts are his most muddled efforts. His intelligent readers are all laughing at him, and school teachers are using his paper as a awful example of what pupils should avoid and must study to escape."

THE CITY TODAY mourns the loss of a capable and faithful official and many people grieve for the death of a good friend in Harbor Master Taylor. And because he did his work well and provided berth and shelter impartially for many ships, the Master of the Harbor where he now has found haven should find him quiet anchorage.

WHERE ALL THE TREES BEAR GOLDEN FLOWERS. And all the birds are white: Where fairy-folk in dancing hours Burn stars for candle-light. But when it seemed the shadowy hours Whispered of soft-foot night, I crept home to sweet common flowers, Brown birds and candle-light. —Sophie Jewett in Century.

LUMBERMEN PROTEST.

Lumbermen's Association Strongly Oppose the Government's Raise of Mileage and Stumpage Rates.

The Lumbermen's Association of New Brunswick met in the city yesterday afternoon and this morning to consider the matter of increase in mileage and in stumpage rates, which the government is contemplating. The gentlemen in attendance were: Henry Hilyard, who presided, and R. A. Lawlor, of Chatham, the secretary; F. E. Sayre, representing Sunbury county, and S. H. White, Kings county; H. Hilyard, Victoria county; J. E. Moore, Charlotte county; F. W. Sumner, Westmorland county; D. Irving, Kent county; P. J. Brown, Gloucester county; Kilgour Shives, Restigouche county, and C. P. Baker.

The mileage rate which obtains now is \$4.00. The government is seeking to raise this to \$5.00. The stumpage rates at present are \$1.00 on spruce, \$1.00 on pine, 50 cents on fir and 30 cents on cedar. The government proposes to introduce a uniform rate on all four. The lumbermen think that the timber areas have, if anything, decreased in value, and that the advance in both mileage and stumpage rates would hardly be justified. In Quebec they have 65 cents stumpage and \$3.00 mileage. If higher rates than the present which obtain are introduced in New Brunswick, the lumbermen in this province will be placed at a decided disadvantage as regards competing with Quebec lumbermen.

The lumbermen made strong representations of their case to the government and this morning was taken up in considering the government's reply. Other meetings will follow, for which dates have not been yet fixed, and eventually the lumbermen will memorialize the government.

ST. JOHN WOMAN FALSELY ACCUSED.

Sensational New York Case in Which Mrs. May, formerly of St. John, Was Involved.

Mrs. Sarah May, formerly of St. John and widow of the late George May, formerly of St. John, was yesterday a resident of New York, was married last week in Ithaca, N. Y., to a man who is now in New York, a sensational story has been going the rounds of the New York papers, which developed the sending of poisoned candy to the home of Michael Casey, a wealthy Ithaca man, in Mrs. May's name. Two of Mrs. Casey's children were very ill from eating some of the candy, but recovered. Mrs. May was later cleared of suspicion in the case, as it has developed that another woman, jealous of Mrs. May, was the guilty party.

SUBMARINE FOG SIGNALS.

Eastern Line May Adopt Electric System—Capt. Thompson, of the St. Croix Investigates.

The Eastern Steamship Company has been investigating through Capt. J. B. Thompson of the St. Croix the practical utility of the recently invented sub-marine fog signal with a view of equipping their steamers with the apparatus. Recently Capt. Thompson took a trip from New York to Boston on the Herman Winton for that purpose. The company owning the patent installed submerged bells on Vineyard Sound, Pollock Rip, Boston Light and other dangerous points which are struck mechanically, each vessel having a distinct number. On the way to Boston the vessel below the water line, in his report to Calvin Austin of the Eastern Steamship Company, Capt. Thompson says: "An electric instrument is inserted into the tank, and this instrument carried by wires to a telephone located in the pilot house. By holding the receivers (there are two) to the ears, one can hear the bell and locate it exactly. When we passed the Vineyard Sound lightship we found the bell had not been ringing, as the people on the ship were not expecting us; but later we picked up the bell on Pollock Rip at a distance of four miles. The bells were very distinct and could not be mistaken. The bell on the latter ship strikes it very plainly. Boston Lightship about six miles and I was able to locate it exactly by use of the receivers."

CORSET CORROBORATED.

Additional Evidence Flatly Contradicts Evidence of Salvation Army Officers. After over an hour talking this morning the case against the Salvation Army was finally dismissed. Officer Corbett brought two witnesses, Capt. Wickham, motorman, on Paradise row, and Officer Henry, Mr. Wickham said that the Army occupied such a position that the car coming in from the west could not see the car in front. The Army officers said that the car went past where they were standing. Mr. Wickham said there was some space between the Army and the car, but not sufficient for the Army to pass. Officer Corbett said the Army had been on the crossing. Traffic was blocked and there were not less than thirty people standing around the car. E. H. McAlpine made an address, after which the magistrate talked for a few minutes. He thought it would be sufficient for the present to explain the meaning of the law to the Army and not impose any penalty.

GREAT MELODRAMA TONIGHT.

Tonight the Dalley Company will give the final performance of the big melodrama, Shadows of a Great City. Those who have not yet seen this piece should not miss it. There was a great deal of talk about the balance of the week the bill will be the great Southern melodrama, In Alabama, Arizona, Soldiers of Fortune and the Earl of Pawtucket. In Missouri was written especially for Nat Goodwin, who starred in it for several years and has recently announced that he will star in it again next year, and no wonder that made such a hit as did in Missouri. Special scenery has been prepared, and one scene is a blacksmith shop in operation. Seats are now on sale at the box office.

CIRCUIT COURT IN HAMPTON.

The January sitting of the circuit court was opened yesterday at Hampton. Two indictments were referred to the grand jury against Hugh Galloway and John Kluckman, the former being charged with stealing \$75 from the residence of ex-Councillor John McGuire, of Norton, and the latter with obtaining goods. The indictments also pretenses—namely, a horse and twenty-five dollars, from William Garrett of Sussex Corner. True bills were found. The trial of John Kane is going on today. The civil docket is lengthy. In the case of King v. Myers, L. A. Currey, K. C., appears for the defendant. The Oldfield case, in which Dr. A. A. Stockton, K. C., and C. N. Skinner, K. C. are interested, have by agreement been stood over till the next term of the court.

THE LAW AND ITS COURSE.

Magistrate Ritchie Protests Against Prevalent Concealment of Crime—Boy Charged With Stealing.

Although a great deal of time was used up in the police court this morning, not much business was done. There was a lot of talk and many ideas were expressed but the results were small. Walter A. Cronk, aged sixteen, of 150 Victoria street, was arrested on the charge of stealing three pairs of boots from the store of Francis & Vaughan, where he is employed. Mr. Vaughan knew nothing of the theft until after the stolen goods were recovered and had no disposition to press the charge against the boy. It appears that a receiver consisting of cases booted to the inside of the vessel having a distinct number. On the steamer is a receiver by wires to a telephone located in the pilot house. By holding the receivers (there are two) to the ears, one can hear the bell and locate it exactly. When we passed the Vineyard Sound lightship we found the bell had not been ringing, as the people on the ship were not expecting us; but later we picked up the bell on Pollock Rip at a distance of four miles. The bells were very distinct and could not be mistaken. The bell on the latter ship strikes it very plainly. Boston Lightship about six miles and I was able to locate it exactly by use of the receivers."

ESTABLISHED A RECORD.

Boston and Montreal Trains Both Got in on Time Today. When the Boston train pulled into the depot today five or six smiling men stepped out and received the hearty congratulations of numerous friends. Some of the men, who were in the crowd, but the worst looking one in the lot was the engineer, Campbell, who had landed his train at the Montreal station in thirteen minutes. Conductor Johnston was also smiling, and as he swung the satchel over his shoulder, he thought it would be sufficient for the present to explain the meaning of the law to the Army and not impose any penalty.

EXHIBITION NEXT FALL.

The Exhibition Association held its annual meeting last evening and it was decided to hold an exhibition this autumn. President Emerson in his report to the shareholders said that before an exhibition could be held the buildings would have to undergo considerable repairs. The financial report showed a balance of \$1,700 on hand. Financial aid may be sought of both the provincial government and the city council. The election of twenty-one directors was proposed with and resulted as follows: R. B. Emerson, A. Markham, D. J. McLaughlin, Alex. Macdonald, J. O'Brien, John Sealey, W. H. Thorne, W. M. Jarvis, S. S. Hall, F. A. Dykeman, T. H. Estabrooks, William C. B. Allan, W. F. Burdett, J. H. McAvity, Ald. Maxwell, H. B. Schofield, W. W. Hubbard, E. L. Basing, A. O. Simms, G. H. Warwick. Another meeting will be called for an early date.

PROMISED TO BE GOOD.

Thomas Damery is a letter carrier and one of the few who enjoy free car rides. George Wasson is a motorman, and there was trouble between the two which resulted in a charge of abusive language. When the matter came up this morning, Mr. Damery apologized and explained that he had spoken to the wrong man. He also agreed not to be abusive to the right man if they happen to meet, and as Mr. Wasson had no ill-feeling the matter was dropped.

RESIDENTS NEAR THE FOOT OF MECKLENBURG STREET COMPLAIN BITTERLY.

Residents near the foot of Mecklenburg street complain bitterly because the city teamsters are carrying the snow, which they shovel from other parts of the city, to their action and dumping it in the middle of the street, making it almost impassable. The teamsters, it is said, come there with the apparent intention of using the old dump which is now closed and when they find they cannot get past the end of the street they shovel out their snow any old place rather than haul it somewhere else.
