BRITISH TROOPS CHEERED
IN PARIS THIS MORNING.

PARIS, July 14.—The French national holiday was celebrated today. The Boulevards were thronged with merry-makers and all the leading thoroughfares were elaborately decorated. There was a brilliant review at Long Champ at eight o'clock this morning.

It was attended by Pres. and Mrs. Loubet, the cabinet officers, the diplomatic corps and a vast throng of people. About 20,000 troops took part in the manoeuvres. A notable feature of the reviews was the presence of 128 officers from the British naval squadron at Brest, all in full uniform. Their arrival was the occasion for an enthusiastic reception, the band playing the British national anthem. The popular ovation accorded to the British officers was further indicative of the Anglo-French understanding. President Loubet gave a luncheon to the British officers and to a number of French military and naval men in the Elysee.

Cordon Langlois and Miss Langlois, of Toronto, who have been visiting their sister, Mrs. E. A. Wicher, left at noon today.

NEGRO WHO KILLED
I WAS LYNCHED.

Murderous Stowaway of Schr. Olympia Meets Death.

Hanged to Veranda of the Woman Who Escaped the Slaughter and Told the Tale.

NEW YORK, July 14.—A New Orleans despatch to the Times says: From Mobile late tonight (Thursday) came the news from Honduras via the Norwegian steamship Condor, that Robert McGill, the Honduras, who murdered 11 persons on the English schr. Olympia, was lynched at Utilio, Honduras, the night after the gunboat Tatumbia surrendered him to the civil authorities there, and six hours after the departure of the ship which brought the first news of his crime.

The Condor, of the John B. Cefalu Fruit Company, plies between Cebu, Honduras and Mollia. The news of the lynching reached Cebu just before the steamship sailed Saturday night. From the brief reports telegraphed here from Mobile it appears that when McGill was confined in the civil jail at Utilio the strongest guard the little town possessed was placed about him.

President Bonilla has declared that he wanted no lynching, as McGill was a British subject, but the citizens of Utilio were wrought to a frenzy through the narrative of Miss Morgan, who had recovered to tell the happenings on the schooner.

The jail was surrounded at night-fall, the guard quickly overpowered, and McGill, raving and cursing, dragged from his cell. It was proposed to burn him in front of the home of Miss Morgan. The mob went so far as to build the fire, but the pleadings of the British consular agent finally persuaded the mob to put the negro to a less fearful death. He was bound, and still protesting and begging, strung up to the verandah of the Morgan home and riddled with bullets.

McGill was known to the steamship agents and ship captains in the city as one of the most striking negro characters on the Central American coast. He was a clerk in the store of Samuel Warren, an English merchant, at El Provenir, and a Bay Islander. He had been practically reared on the terms of equality with a number of whites of the district, having been married mate of the brother of Miss Morgan.

St. Vincent's Jubilee Celebration Continued.

The celebration of the golden jubilee of the sisters of charity was continued yesterday afternoon and evening when a reunion was held of the members of the different branches and the mother house. There are 108 belonging to the order and a hundred including representatives from Fredericton, Moncton, Buctouche, Memramouc and Shediac were present.

St. Vincent's Alumnae called last night and presented a purse of gold for the altar, a bouquet and an address. The presentation was made by Miss Isabelle Reed, president of the Alumnae society, who read a nicely-worded address to Mother Thomas and the sisters and was received by Mother Thomas to whom also was presented the handsome bouquet and the gift of gold. The reception was held in the parlors of the convent and there was a large attendance of the members of the society.

This morning at 8 o'clock there was a solemn high requiem mass for the repose of the souls of the deceased sisters. Rev. E. Doyle was celebrant with the Rev. Father H. D. Cormier as Deacon and Father T. W. Holland as Sub-deacon.

Beginning at 10 o'clock, there followed a solemn Exposition of the Blessed Sacrament. The Libera was sung by His Lordship the Bishop, who was assisted in the service by the Rev. Fathers Cormier and Holland. This evening at six there will be a solemn benediction in the chapel.

The sisters will begin to-morrow their yearly retreat, which is a spiritual exercise of a week's duration, in which no word is spoken except to or by the director Rev. Francis Kenney, C. S. R., who preached the jubilee sermon and will preach the retreat.

SEPARATE SCHOOLS IN U. S.

Catholics Will Establish and Maintain System of Free Sectarian Schools all Over the Country.

NEW YORK, July 14.—The Tribune says:—Before the close of the annual meeting of the Roman Catholic Educational association yesterday the foundation of a free Catholic school system throughout the United States was laid. The plans under which the system is to be inaugurated need only the approbation of the American hierarchy, headed by Cardinal Gibbons, and if the offer of the colleges is accepted a system of secondary education extending throughout the land will be established representing an endowment of not less than \$2,500,000.

The system is to be established by turning all the Catholic secondary colleges now conducted by the religious orders and the brothers of the Christian schools into free high schools.

A case of domestic infidelity is rumored in connection with a well-known hotel proprietor, his wife and the hostess cook. Mrs. Grundy has many things of an unpleasant nature to tell, among which is the temporary separation of the hotel man and his ladylike little wife. The cook in the case is a North End woman.

SYDNEY TO MONTREAL IN
22 1-2 HOURS; A NEW RECORD.

Mail Train Averaged 43.6 Miles Per Hour—Still Montreal People Claim the St. Lawrence Route is the Faster.

MONTREAL, Que., July 14.—The special train from North Sydney with the Allan Line Virginian's English mail on board arrived at 4.23 o'clock this morning having made the run from Canada's eastern-most seaport to Montreal, a rail distance of 881 miles, in 22 hours and 30 minutes actual running time.

The actual running time for the entire distance was 43.2 miles per hour which is probably a record run over the I. C. R. between the two points. The best running time on the journey was between Lewis and Montreal.

Upon the arrival of the train there early this morning I. C. R. engine No. 98 was immediately coupled on with a fresh crew and away they came. The train which consisted of mail cars Nos. 729 and 741 and one colonist day coach pulled out of Lewis at 4.44 this morning and pulled into the station at Montreal at exactly 8.23 making the actual running time between the two points three hours and 39 minutes, an average of 44.5 miles per hour. On this run three stops were made for water and oiling purposes. The average between Lewis and Montreal was better than at any other stretch of the run.

The train left North Sydney at 10.45 o'clock yesterday morning, which is equal to 9.45 Montreal time. The train reached Truro at 4.34 p. m. yesterday and Moncton at 7.08 p. m. The average speed from the Straits to Truro was 35.4 miles per hour, while beyond Truro the average was considerably better, being upward of 40 miles per hour. On some portions of the Cape Breton division the speed attained was equal to 60 miles per hour. The time made by the train is hours faster than that of the Ocean Limited, while the ordinary express running time between Montreal and Sydney has been beaten by no less than ten hours.

The interesting question now arises as to whether anything has been gained by getting the mails off at Sydney. In place of allowing the Virginian to take the usual summer course through the Straits of Bellefleur and the general opinion is that the experiment has lost time rather than gained it.

Had the Virginian followed along the usual summer course, which would have been done under ordinary circumstances, she would have saved 155 sea miles over the ordinary route. There must be added to this 65 knots, which was the amount she was diverted from her usual course in order to make Sydney harbor. This gives a total of 220 knots, or a clear 15 hours run at a speed of 17 knots per hour. To this must be added three hours of time lost in discharging the mails at Sydney, making a clear loss of 18 hours at the least.

MONTREAL, July 14.—The Virginian passed Montreal River at 5.40 a. m. (Continued on Page 2.)

WITTE NOW CONTROLS RUSSIAN
CABINET; PRINCE MIRSKY MAY RETURN.

ST. PETERSBURG, July 14.—M. Witte's appointment as chief of the Russian peace plenipotentiary was announced today in the official messenger in the following words:

"Owing to the serious illness which overtook M. Muraviev on his arrival in St. Petersburg, which made it impossible for him to familiarize himself at short notice with the considerable material connected with the negotiations, his majesty the emperor has been pleased to appoint president of the committee of ministers Witte to the post of chief plenipotentiary."

Spontaneously all parties recognize this M. Witte's selection makes for a successful termination of the peace conditions. The mere fact that the emperor at last yielded to the pressure for his appointment is accepted as being a complete assurance that his majesty is sincerely determined to end the conflict and make peace if a fair basis is obtainable. Every influence which championed M. Witte was for peace, while on the contrary in every instance those who opposed him were for a prolongation of the struggle.

France, through Ambassador Nelidoff, strongly urged him for the post, but the main credit for M. Witte's selection belongs to Foreign Minister Lamsdorff, who never ceased to press for his selection. Count Lamsdorff and M. Witte are now in close alliance, and when M. Boulignan retires from the ministry of the interior all the ministers will at last be in harmony, especially should Prince Sviatopolk-Mirsky as rumor today intimates, return to the head of the ministry of the interior. The papers here generally were not averse last night that M. Witte's appointment was an accomplished fact, but with one voice they voice their satisfaction. Even the Novoye Vremya, which has not believed that an honorable peace is possible, seems willing to trust the issue in M. Witte's hands.

The St. Petersburg Gazette dwells especially upon the confidence with which his appointment will inspire in the Tokyo government, where M. Witte's opponent, the whole policy of commercial and military adventure in Manchuria and Korea is well known. The paper reviews his struggle against the influences which precipitated the war, and moreover, points out that M. Witte's selection insures harmony among the Russian plenipotentiaries and delegates, as Baron Rosen shares that M. Witte's views and M. Potkoff and M. Shipoff were trained under him, while he was minister of finance and belonged to the Witte school. In conclusion the St. Petersburg Gazette says: "There is nothing so important during the negotiations as complete unity of opinion."

M. Muraviev has already departed for Rome to resume his post as ambassador.

PRINCE SVIATOPOLK-MIRSKY, Who may re-enter the Russian cabinet and help Witte regenerate Russia.

SCHOONER QUARANTINED.

Winnifred Laurie, Which Brought Smallpox to St. Martins is Here—Patient in Isolation Hospital.

The British schooner Winnifred Laurie, Captain Gibson, bound from Tyneemouth Creek to New York, arrived here yesterday. At four o'clock this morning the ambulance brought from St. Martin's Henry Harvey, the cook of the Winnifred Laurie, who is suffering from smallpox. Harvey, who is 23 years of age, has been placed in the isolation hospital, where he was examined by Dr. Ellis, who pronounced the attack to be of a very mild description. The board of health sent Inspector Howard up to St. Martin's this morning to disinfect the building there where Harvey has been staying.

A special meeting of the board was held this morning, at which Dr. Pratt was appointed to look after the patient.

The schooner of course has been placed in quarantine, under the care of the board of health, but the latter have voted the Department of Agriculture at Ottawa, asking them to take charge.

On enquiry at the hospital this morning the Star was informed that the Western Union messenger boy, Herbert Picket, who was pitched off his bicycle yesterday morning on Prince William street, is resting easily. When young Picket met with a similar accident last week it was found necessary to remove some of the bone at the top of his head, and a silver plate was placed there. When picked up yesterday Dr. Sheffield, on examining the boy's head, came to the conclusion that the bone was not so soft and that naturally thought it was a fresh fracture, not knowing of the boy's previous accident. However, it is hoped that with proper rest and quiet no fresh injury has resulted, but Dr. T. D. Walker says it is impossible to tell until after the boy has recovered somewhat from his present condition.

Mr. Robertson, the manager of the Western Union has been most solicitous in his enquiries after the boy.

St. Andrews church congregation picnic will be held tomorrow at Westfield. Trains leave at 9.25 and 1.10. A few outside tickets will be sold at the train.

A number of horses and carriages will be on hand by auctioneer Lantallum on Market Square at 11 o'clock Saturday morning.

KING OSCAR TELLS
WOES TO KAISER.

German-Swedish Alliance is a Possibility.

Two Kings Had Long Talk Over Situation But Refuse to Say What Conclusion They Reached.

BERLIN, July 14.—The substance of the statement made at Stockholm is to the effect that a German-Swedish alliance was seriously contemplated and submitted to the foreign office today. The authoritative statement was made that the question of alliance between Germany and Sweden had never come before the foreign office nor had it been discussed to the slightest extent. Of course the foreign office could not deny that Emperor William and King Oscar had not spoken of an alliance during their interview at Gefte because the subjects of their conversation are not known here.

BERLIN, July 14.—No indication of the result of the meeting between Emperor William and King Oscar.

It is expected here that as a result of the meeting yesterday Emperor William and Germany will be described in some countries as taking undue interest in Scandinavian affairs, seeking a way to its settlement. Such an idea is disavowed in advance.

Prof. Konrad Bernhak, an authority on international law, discussing the question whether King Oscar is still king of Norway or not says a definite reply cannot be given. He is still king of Norway according to the constitution of Sweden, but according to the constitution of Norway he ceased to be king of Norway, but there is no doubt as to the propriety of King Oscar styling himself king of Sweden and Norway. James II. after he had been deposed as king of England, and while a guest of Louis XIV. of France, continued to call himself king of France as well as king of England, although France had been lost to the British crown since the time of Henry VI.

Fiends' Grasp.

Dufferin Hotel and D. A. R. Roundhouse Already Gone—Looks Like Big Conflagration.

(Special to the Star.)
HALIFAX, N. S., July 14.—Fire this morning at Windsor, on the line of the Dominion Atlantic railway, destroyed the Dufferin hotel, and at the time this despatch was sent the railway round house is burning. The fire looks as if it will spread into a big conflagration.

It is nearly eight years since Windsor was devastated by a great fire which wiped out nearly the whole town. It is a peculiar fact that the two buildings mentioned as burned today were among the very few in the central part of the town which then escaped.

By that fire, which occurred October 2, 1897, 3,000 people were rendered homeless. The loss was about \$3,000,000.

ST. JOHN STAR, FRIDAY, JULY 14, 1905.

Good tea must be grown under proper conditions

LOW, damp or swampy lands in a warm, humid climate produce tea of rank, rapid growth, coarse in texture, woody fibred, rudely flavored—makes a cup heavy, murky in color, rough-tasting—it is poor tea.

But the Indian and Ceylon teas used to make the Red Rose brand are grown on the high lands of India and the mountain sides of Ceylon.

These teas are grown in clear dry sunshine, they mature slowly, the leaves of the Ceylon teas are tender, delicate, finely flavored, but not strong.

The Indian teas thus grown are full bodied, richly flavored, smooth in texture, strong.

Such Indian and Ceylon teas combined in Red Rose Tea produce a cup of a rich rosy brown, strong and smooth—all the richness and strength of Indian, all the delicacy and fragrance of Ceylon teas—that "rich, fruity flavor" which belongs alone to Red Tea—more qualities of tea excellence than any Indian or brand of Ceylon alone can possess.

ALL RECORDS BROKEN BY MAIL TRANSFER EXPERIMENT.

(Continued from page one.)

All mail records to St. John, whether by United States or Canadian routes, from England, were broken last night when the special from Montreal arrived at 10.07 p. m., bringing the mail which had been landed at North Sydney.

English mails have in the past been due in St. John at noon on Mondays and Thursdays. The mail arriving on Monday had left London on Saturday morning, nine days previous, so that the time between London and St. John via New York was nine days and some hours. On several occasions when mails were brought by the Lucania or Campania they got here on the 11.15 o'clock train on Saturday night. These, of course, would not be delivered until Monday morning, but the time between their leaving London and being received in St. John was seven and a half days. This is the best ever made, and frequently English mails have been one, two or even three days late.

R. M. S. ALLAN LINER VIRGINIAN.

The special mail train left North Sydney at 10.47 a. m. yesterday and in two hours and ten minutes covered the eighty-three miles between that place and Point Tupper. The crossing of the Straits was accomplished in a record time of nineteen minutes. From Port Mulgrave to Truro is 124 miles and the express did this in three hours and thirty-eight minutes from the time the railroad ferryboat touched the Mulgrave landing. The average speed from Mulgrave to Truro was 35.12 miles an hour.

From Truro to Moncton is 124 miles, and this was covered in two hours and thirty-four minutes, an average speed of 45.1 miles an hour, including stops.

Moncton to Campbellton in three hours and forty-nine minutes, including stops. This is a distance of one hundred and sixty-five miles, so that the average running time was forty-three and a quarter miles an hour. Beyond Campbellton, Eastern Standard time is used, and the express reached St. John at twenty-one minutes past twelve minutes past one by St. John time. The distance from Campbellton to St. John is one hundred and five miles, and the time spent was two hours and eighteen minutes. But there was a stop of twenty minutes at Campbellton, and the train actually made fifty-two miles an hour to St. John. This place is only eighteen miles from Rimouski, and the run to that latter place was finished at 2.48 E. S. The actual time from North Sydney to Rimouski was 15 hr. 1 min., which is by several hours a record on the I. C. R.

WOMAN MURDERED ON MASS. GOLF LINKS. Head Horribly Crushed and Throat Cut.

Awful Discovery Near Belmont—Man's Bloodstained Cuffs and Watch Chain Found Near the Place.

BELMONT, Mass., July 13.—The Massachusetts district police with the police of Belmont tonight devoted several hours to the investigation of the death of a young woman whose body was found this afternoon near the links of the Arlington Golf Club, over the Belmont town line. The body had been cut, a deep, jagged wound having almost severed the head from the body, and as soon as the authorities saw the body they declared that murder had been committed. The identity of the victim had not been learned up to tonight, although a large number of townspeople have seen the remains. Medical Examiner Swan held an autopsy tonight and his conclusions were that the woman had been murdered. Death, he found, was due to multiple cuts and bruises on the head, face and neck. The skull had been fractured in the front part of the head. The head itself had been practically severed from the body by a sharp knife or similar instrument.

The authorities, after an exhaustive investigation this afternoon and tonight decided that the murder was committed on the unincorporated land belonging to the farm of Walter Frost, and within 75 feet of the stone wall, under which the body was found. This wall divides Frost's property from the golf links.

Medical Examiner Swan said tonight that he had found no traces of alcohol on the body and he was certain that the woman had not been drinking. He also said that the woman had not been criminally assaulted. Two stones, bearing blood stains, were found on the scene of the murder, and it is thought that the wounds on the head were made by them. After almost decapitating the woman, the murderer made a deep cut over the left breast, evidently with a knife, the same weapon he had used on the throat.

Later the police stated that a portion of a man's gold watch chain and a slip of paper on which were written two names, a man's and a woman's, but the police refused to give the names. The paper also contained a Chinese laundry check and 58 cents in money. The police also stated that the clothes on the body of the woman were very badly torn, indicating that there had been a struggle.

FREDERICTON NEWS.

FREDERICTON, July 13.—The death occurred this morning from consumption of Mrs. Andrew Lettmer. The deceased, who was in her 66th year, was formerly Miss Julia L. Currie of this city. She is survived by her husband, one son and one daughter.

The firemen cleared about \$300 for their festival held in Scully's Grove last evening. It was a most successful gathering, and two thousand persons being in attendance.

John Lawson, whose store at Victoria Mills was destroyed by fire yesterday, carried \$1,000 on his stock, \$300 of which was with the Underwriters' Company of New York, and \$700 with the United Companies.

It speaks well for the community that though thousands visited the city yesterday and enjoyed it as a holiday, not two arrests were made for intoxication.

Principal Hughes of the Regent street school, and A. S. McFarlane of the high school staff, are among those who will accompany the big excursion to St. Anne's on Tuesday next.

Strawberries sold here today at 7 cents per box, the lowest they have reached this season.

The thermometer worked its way again today up to 88 in the shade and it was a trifle warm.

The records at the pumping station show that the people of Fredericton use 750,000 gallons of water per day, or about 100 gallons for every man, woman and child in the city.

PRIZE FIGHT PROMOTERS WERE SURPRISED.

MONTREAL, July 13.—The men who promoted and engaged in a prize fight held in this city Tuesday night received an unpleasant surprise this morning, when they appeared in the police court under the impression that they would get off with nominal sentences by pleading guilty. The promoters were fined \$50 and costs, while of the two principals, Brooks pleaded guilty and was remanded for sentence until tomorrow morning after Judge Choquette had informed him that the best he could do for him would be three months in jail. Walsh pleaded not guilty and will be tried tomorrow morning.

McLeod, L. S. V. G.; Jas. Stewart, Jr., P. G.; F. and A. Com. Jas. Brittain, V. G.; Wm. Evans, and G. Pollock. Trustees elected (not installed), F. M. Griffith, Jos. Stewart, L. M. Beattie.

NEW WATER MAIN.

Big New Pipe on the Marsh Road Recommended by the Water and Sewerage Board.

A special meeting of the water and sewerage board was held yesterday afternoon in City hall. The meeting was called to discuss Supt. Murdoch's reports on the pipes in the city and how they would stand the new pressure. The worst place along the Marsh road. The present pressure is 66 pounds, and the increase will bring it up to 107 and 130 pounds.

The superintendent said he would not recommend a wood pipe in this section, but a 36 inch pipe on the Marsh road would cost about \$8,000, to be of cast iron and extend from the One Mile House to the Marsh bridge. Nos. 1 and 2 old mains, 12 and 24 inch pipes, will be abandoned. The new cast iron pipe would last for 40 years. Some cement material might stand the action of the salt marsh water.

The mayor said there were two 24 inch pipes and one 12. The 36 inch pipe was to replace all three of these. Ald. Baxter said the 36 would have a greater capacity than two 24 inch pipes. He wanted to know if two pipes of 24 inches would not be preferable in case of a burst in one.

Ald. Christie strongly advocated this course. The superintendent said that there would still be two mains. No. 3 is still sound and would be kept in service. Ald. Baxter's suggestion, however, was a good one. He said a cement casing of two inches thickness might preserve the pipe indefinitely. The additional cost would be \$12,000.

Ald. Christie moved and Ald. Baxter seconded that a cast iron pipe be laid. Ald. Frink favored a wood stave pipe. The motion, however, was carried.

Ald. Christie moved one 24-inch pipe be laid. Eng. Barbour had said one 24 would supply the city, then this new one and the old one ought to be sufficient.

Ald. Baxter—St. John's, N.B., has had a problem similar to our own; they were against the single service.

Ald. Frink said he could see there would be no Loch Lomond water in the city this winter.

It was decided to ask for tenders for 36 and 24 inch pipes.

Ald. McGoldrick said Engineer Hunter had a little difficulty with one of the men, Mr. Finnigan, placing wire rods and another man will have to be placed in a pawn shop in St. John. He said no trouble had arisen until the other day; he would like to have both men before the board. He had not seen Mr. Hunter. He made a motion to this effect.

After some discussion the matter was dropped for the time.

Ald. Baxter moved that the bonds be issued for the construction of the pipe on Lowell street and the work be commenced forthwith.

Ald. Frink, Bullock, director and superintendent were appointed a committee to go over the matter.

Superintendent Murdoch said that Mr. Hunter notified him that he had discharged an inspector and wanted another inspector. He sent out a man for the day, and he wanted to know what the board will do in the matter.

Ald. Tilley mentioned the name of Wm. Perkins as a good inspector.

Ald. Frink said Mr. Cummings was a good mason, and moved he be appointed until Mr. Finnigan be heard.

The chairman declared that Mr. Cummings was appointed.

EMMERSON DEFENDS THE I. C. R.

OTTAWA, Ont., July 13.—Before midnight Hon. Mr. Emerson showed that the earnings of the Intercolonial per train mile were not one-half of the other trunk roads, while the expenses per train mile were less than on the other roads. But most of the I. C. R. engines were of the obsolete type, were expensive to operate, hence the large vote now asked for new locomotives.

Emmerson continued at some length, showing that the cost of box cars as well as engines, contending that a proper equipment would minimize the past deficits if not totally wiping them out. He only now asked \$50,000 for rolling stock.

Barker of Hamilton followed in a sharp criticism of bringing down such heavy items in the closing hours of the session. In proportion to mileage the I. C. R. had more locomotives than the Grand Trunk, yet Emmerson wanted more.

The debate was continued by Hon. Mr. Hyman, Emmerson, Oser, Fielding and others till an early hour this morning.

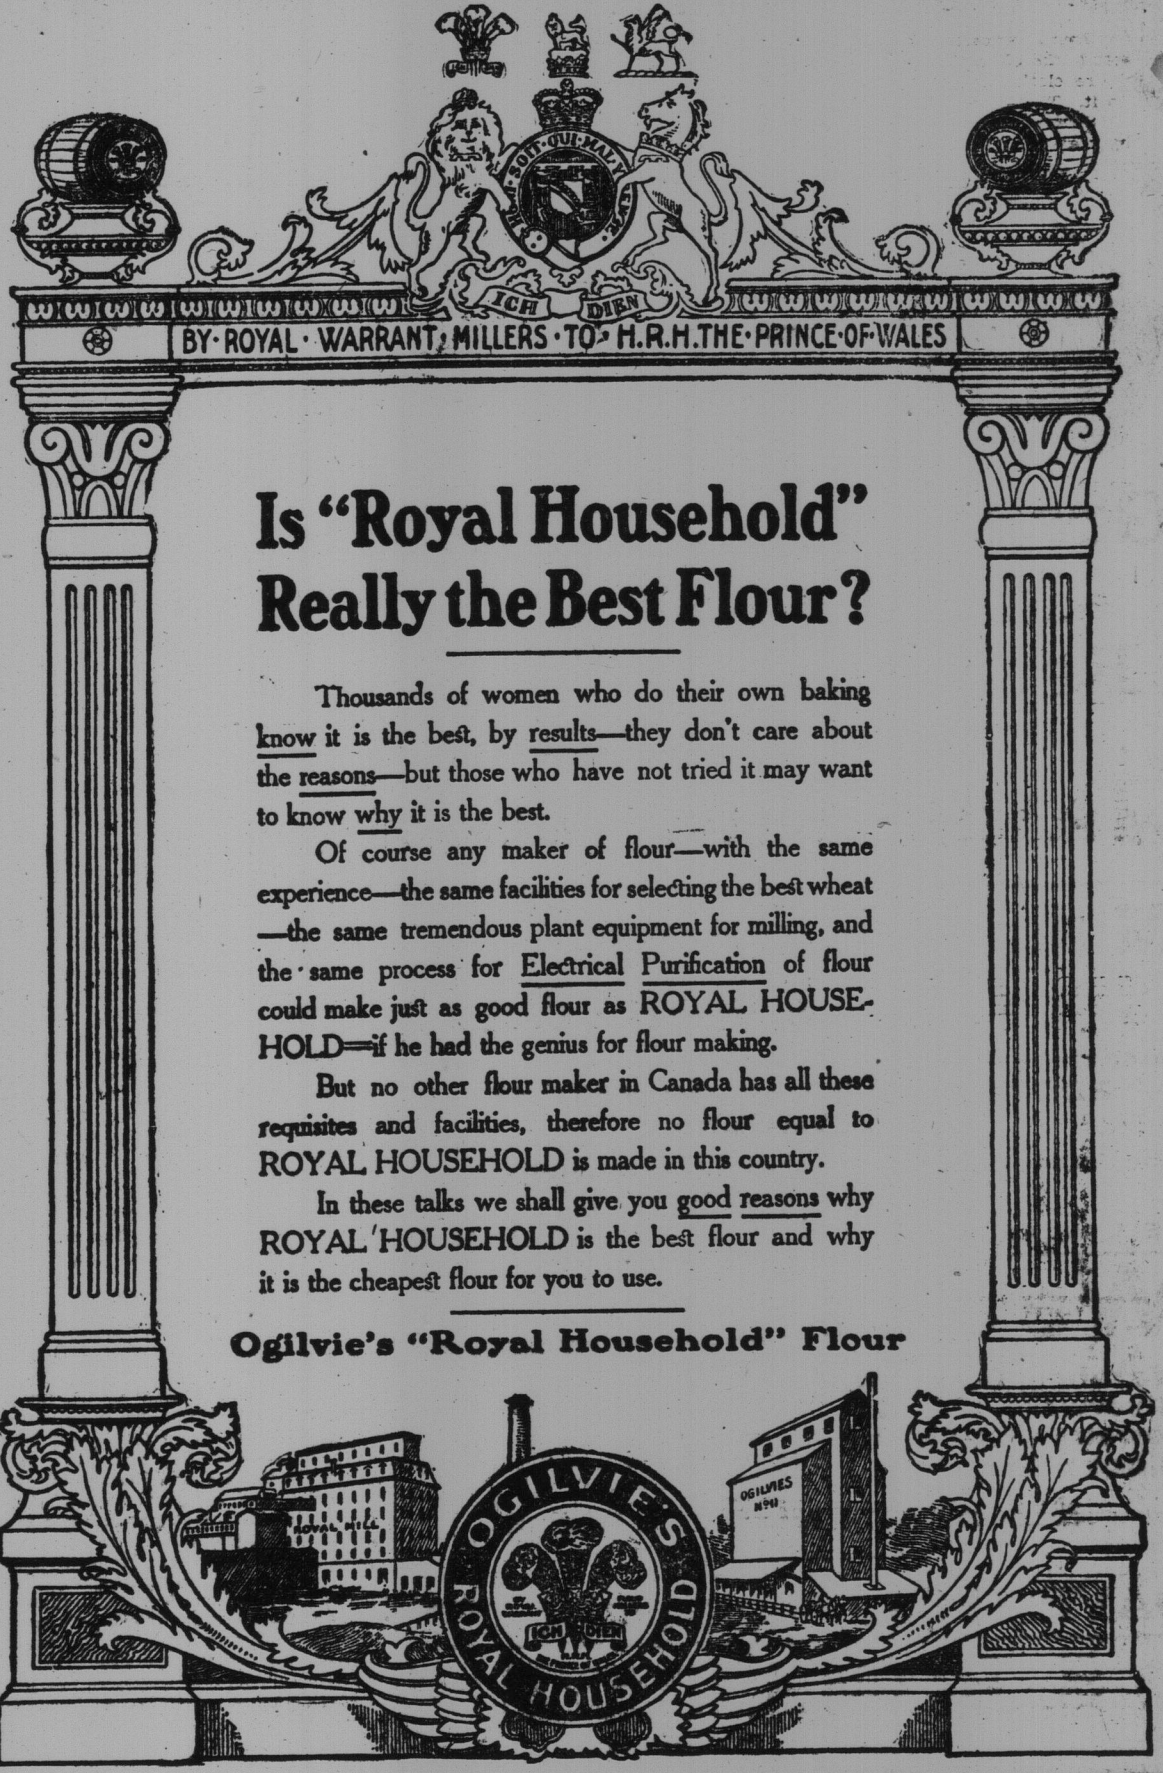

OTTAWA, Ont., July 12.—Further supplementary estimates were brought down tonight by Fielding, but there may be a string to them at the last hour. They total \$785,000. Half a million is for the new public buildings in Ottawa. The only maritime grant is \$5,000 for steam service between Annapolis and England.

AN ICE CREAM BANQUET.

An ice cream banquet was tendered Daniel Baird of Unity Temple of Honor, Cambridge, Mass., at White's parlors last evening by the members of Alexandra Temple, of which Mr. Baird was at one time an honored member. Mr. Baird has been absent from St. John for about eight years, but before he went to Cambridge he was active in the cause of temperance in this city.

George T. Hewart was chairman, having on his right the guest of honor and on his left Dr. Roberts, G. W. T. S. E. Logan, D. M. W. T. was in the vice-chair. There was an opening address by the chairman, after which the health of the guest and of the M. W. T. was drunk, the latter being by Alexandra section, and Dr. Roberts. A song was rendered by H. W. Bromfield, and the pleasant function came to an end.

Have you tried those delicious Hot Baked Beans? Fresh baked every day, 16c. a crock. Special rates for picnic parties. Mrs. H. S. Collins, 125 Sydney street.

Is "Royal Household" Really the Best Flour?

Thousands of women who do their own baking know it is the best, by results—they don't care about the reasons—but those who have not tried it may want to know why it is the best.

Of course any maker of flour—with the same experience—the same facilities for selecting the best wheat—the same tremendous plant equipment for milling, and the same process for Electrical Purification of flour could make just as good flour as ROYAL HOUSEHOLD—if he had the genius for flour making.

But no other flour maker in Canada has all these requisites and facilities, therefore no flour equal to ROYAL HOUSEHOLD is made in this country.

In these talks we shall give you good reasons why ROYAL HOUSEHOLD is the best flour and why it is the cheapest flour for you to use.

FRANK WALSH COMMITTED.

SUSSEX, N. B., July 13.—Deputy Sheriff Freese arrived from Hampton on this morning's train with Private Frank Walsh. At two this afternoon the prisoner was brought before Police Magistrate Morrison and he was charged with stealing a watch and chain from D. H. McNutt of the Central hotel, Sussex. The prisoner, as he sat beside his counsel, Fred L. Fairweather, looked perfectly composed although somewhat pale and thin. He was nicely dressed in a black suit with a white handkerchief about his neck. Mr. Fairweather put up a good case for the defense, while J. B. Jones of Pown, Jonah & Paine, conducted the prosecution vigorously. Sgt. Campbell of the St. John police force, told of the prisoner's arrest. John C. Hamilton and Samuel Weber explained their dealings with the prisoner with regard to the purchase of the watch and chain. Wm. McLeod, town marshal, told of his bringing the prisoner to Sussex and taking him back to Hampton.

D. H. McNutt related Walsh's visit to his place and the disappearance of the watch and chain, which he afterwards identified when it had been placed in a pawn shop in St. John. He also identified the prisoner as being the same who had visited him on the occasion referred to.

The police magistrate, on summing up the evidence, said the only course open for him was to send the prisoner up for trial.

The prisoner was taken back to Hampton by the deputy sheriff and lodged in jail to await his trial at the next sitting of the county court at Hampton.

BAPTISTS T/BOO GAMES OF CHANCE.

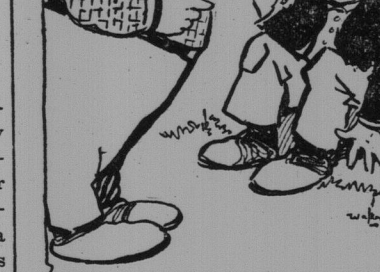

At a quarterly meeting of the Carleton Baptist church held Wednesday evening the question of holding a Sunday school picnic during the summer was discussed. In this connection reference was made at the meeting to a paragraph appearing in Wednesday's Telegraph to the effect that the pastor, Rev. F. S. Bamford, had stated that if the usual games were to be carried on at this picnic he would resign his position and go back to England. Rev. Mr. Bamford, who was present, denied most emphatically having made such statements to any person. He explained what had been the nature of his protest showing that it was not the innocent games he found fault with, but rather the spirit of speculation in the manner in which they were carried on. As he had understood it from good authority several of the games carried on heretofore at church picnics involved the fundamental principles of gambling and as a preacher of the gospel he could not uphold the church members in endeavoring to raise money for the support of the church by this means. The members present were quite in accord with their pastor in his views on the subject and it was finally decided that a picnic would be held this summer and that it should be conducted on legitimate lines, dropping out the objectionable features pointed out by the pastor.

VERY TRUE. Tommy (aged 6)—Say, pop, what is a czar?

Pop—A Russian ruler surrounded by assassins.

LAWSON PROMISES TO GIVE BACK ILL GOTTEN MILLIONS.

MINNEAPOLIS, July 13.—Thos. W. Lawson of Boston was the guest of the Minneapolis Commercial Club today. Mr. Lawson spoke before 200 members of the club after luncheon. He said in part: "I have several millions myself and I wronged the American people in getting them. But I did not know it at the time. When the time comes I will give that money back to them." "John D. Rockefeller is worth \$500,000,000, and I can sit down and show you in a week's time how he got every penny of it. There is no secret about it. Every dollar that John D. Rockefeller has is got dishonestly." "If I live I'm to make the American people sell every dollar's worth of stock they have and by that time they'll know better than to buy back." Mr. Lawson scored the Equitable Life Assurance Society severely.

PREMIER BALFOUR AND LORD ROBERTS

LONDON, July 13.—In the house of commons tonight Premier Balfour referred to the speech of Field Marshal Lord Roberts in the house of lords on Monday last in which the latter said that the army of the British Empire as a body were absolutely unfitted and unprepared for war and declared emphatically that the choice lay between conscription or some practical system of universal training. The premier said he could never be led to believe that conscription could be successfully adopted in England. He maintained that the government's scheme of army reform was the best solution of the problem.

RECEPTION TO FATHER DAVENPORT.

There was a splendid gathering of the members of the Mission Church last evening at the reception tendered to their former pastor, Rev. J. M. Davenport.

The schoolroom of the church was filled, and after a short programme, refreshments were served and the evening spent in a social way. Hurd Peters, C. E., was called to the chair, and in a few brief remarks appropriately expressed the satisfaction felt by the Mission Church people to receive Rev. Fr. Davenport among them. H. B. Schofield also expressed the pleasure of those present in seeing their old pastor, and hoped that St. John would once more be his place of residence.

Fr. Davenport, in reply, warmly thanked his former parishioners for their hearty welcome. St. John, he said, always seemed more like home to him than any other place. Those present had the delight of hearing two solos by Rev. Davenport. One was the Life of Evermore and the other The Lighthouse Keeper. A solo was also given by little Miss Daisy Pearl Oren, who rendered Down on the Farm very sweetly and in a way which did credit to a child of seven years.

Fr. Davenport will leave for Toronto on Friday week, providing Fr. Jones returns on the day expected.

MOST TIRELESS OF BIRDS.

Albatross Known to Fly For Weeks at a Time.

Of all the strange creatures seen by travellers not the least interesting is the wandering albatross. This great feathered wanderer, sometimes measuring seventeen feet from tip to tip of his wings, will follow a ship for days at a time. Some travellers and sailors declare that they have seen a particular bird fly for weeks at a time without resting.

The albatross has always been a bird of mystery, and in ancient times the people believed that these unwearied seabirds were the companions of the Greek warrior Diomedes, who were said to have been changed into birds at the death of their chief.

Through the superstition about the killing of an albatross bringing bad luck is only a foolish one. It has served a useful purpose for many years in preventing the slaughter of these beautiful and gallant birds—the sailors' friends and the landmen's wonder. Up in dreary Kamchatka, that culminating part of Siberia which cuts into the North Pacific, the natives, never having heard of the superstition about the albatross, catch him and eat him. But his flesh makes such poor food that, after all, the legend may be said to hold good, for he is indeed in bad luck who has to make a meal of it.

If Ungars do your work you will be satisfied.

A DESTITUTE FAMILY.

What seemed to be a pathetic case of destitution was brought to light through a note sent by Mrs. Ael, 61 St. Patrick street, to the Royal Hotel, asking for food. The request was complied with and enquiries having been made it seems that the husband of the woman has been employed on the waterworks extension since the commencement of the work, but has been giving his wife very little money to keep her family of seven going. For example, last Saturday before going out to the waterworks again he left \$1.25 to keep things going for a week.

Mrs. Hall, the secretary of the Associated Charities, knows the family very well and says that both Axel and his wife are irresponsible persons and have frequently received assistance, but are incapable of profiting by it.

BURY SECTARIANISM.

Ulster Orangemen Want Catholics and Protestants to Unite and Work for the Freedom of Ireland.

BELFAST, July 14—An independent section of Ulster Orangemen headed by commandant Sir John Macdonnell, a striking manifesto to the country, appealing for the burial of sectarianism which now is dividing Protestants and Catholics involving the co-operation of all secular forces in the promotion of the National welfare.

The manifesto expresses distrust of English parties which it says will continue in the future as in the past to play off Catholics and Protestants against each other to the prejudice of the country's higher claims. The country too long has been neglected in the strife of party, the manifesto continues, and there now is room for a patriotic party having the policy to rid Ireland of the domination of impractical creeds and organized tyrants and to secure the desired redress.

ADDRESSING TITLED PERSONAGES.
(M. A. P.)

Some queer blunders are made in addressing royal and other titled personages. Lady Dufferin in India was once addressed as "your eminency." An Abyssinian missive came to Queen Victoria addressed to the "queen of kings, empress of the great Red Sea." One of her Highland tenants used to say: "Come awa' in and sit down, Queen Victoree."

A VICTORY FOR REFORM.

The appointment of M. Witte to
Count Muraviev's place at the head of
the Russian peace plenipotentiaries is
a victory not only for peace but for
reform generally.
M. Witte is the most prominent of
the moderate Liberals and altogether
one of the sanest statesmen Russia
ever had. The war was commen-
ced against his advice and it is con-
trary to his counsel that the popular
demand for governmental reforms has
been so long ignored.

Holding such views he naturally has
enemies. Count Muraviev the Russian
minister of justice is among these
and is credited with being the prime
reason for M. Witte's partial with-
drawal from public life during the last
couple of years and his lack of influ-
ence upon Russian affairs which have
apparently been wholly in the hands
of the reactionaries.
The sudden supplanting of this lead-
ing representative of the autocratic
party by the leader of the reformers
means more than the alleged sickness
of Muraviev, more even than that the
Czar believes Witte is better fitted to
make good peace terms for Russia—
means, beyond a doubt, the ascendancy
of the Liberals and the loss of power
of the bureaucrats. It must mean that
the ear of the Czar has been reached
and his heart touched by the true
state of affairs in his wretched Em-
pire and his arm moved to action for
the annihilation of his subjects' mis-
ery.

If it does mean this and if the re-
pentance is not temporary, widespread
through the revolutionary sentiment in
the Czar's change of heart may mean
his salvation; for the Russian people
as a mass are not venal; their
"Little Father" and have been ever
ready to charge to evil counsellors the
folly and atrocities he has sanctioned.

A PLAGUE OF VERBOSITY.
The Ottawa Journal advises
the placing of a time limit on parlia-
mentary speeches or, as it puts it: "the ap-
plication of an intelligent system of
limitation of the time for debate."
The system along lines upon which all
lovers of good government might
agree.

A highly sensible suggestion to
which we fall to see a single sensible
objection. All agree that parliament
is sitting too long, that a great deal
of time, which means money there as
elsewhere, is lavishly wasted. The way
in which it is wasted is clear—just
talk.

The present parliament has been
sitting six months. At least half of the
occupied time has been spent in wholly
unprofitable talk—and half is a very
conservative estimate. Men have used
ten thousand words to say what could
have been said in a couple of hundred;
men have spent hours in making
speeches which would have made a
better impression if confined to fifteen
minutes and still better—some of them
—if they had not been made at all.

What harm would be done the country
if all this useless yapping were cut out
altogether? Some of the politicians
might fill up and choke to death per-
haps but that would not be an un-
mixed evil. Otherwise the results
would be of unimpaired good.
Of course there are difficulties in the
way. There are times when a long
speech is fitting and occasionally
necessary and a hard and fast time
limit rule might once in a while prove
a hardship. But undoubtedly a system
could be devised which would remedy
in a great degree this plague of ver-
bosity under which Canada is suffer-
ing and at the same time interfere
no harmful way with the conduct of
business or with the necessary argu-
ment over questions of public im-
port.

And some such system is one of Can-
ada's pressing needs.

FLAG EVENTS.
We have flag incidents on both sides
of the line. It is stated that a party
of Orangemen in London, Ontario, an-
gered at a national insult offered by
an American excursionist, tore down
the Stars and Stripes brought by his
party and trampled it under their feet.
If this trampling was intentional it
was an undignified and discourteous
proceeding. The flag had committed
no offense, and it represented more
than the drivel and the author of the
punishment should have been in-
dicted upon the offender.

But the London incident is not of
the same class as that in which the
United States Collector Bump figured.
The latter in his official capacity or-
dered a Canadian captain to haul down
the flag on his own ship where it had
the right to be. When the captain de-
clined to haul down his colors the of-
ficer refused his clearance papers until
he obeyed the order. This customs of-
ficer will be reprimanded by his su-
perior, and an apology will be sent to
Canada.

No national apology is called for by
the London incident, which was an un-
official proceeding, but the order by
members of the Michigan excursion
would probably be informed that the
trampling under foot of the Stars and
Stripes is not approved in this coun-
try. We love what our own flag rep-
resents and respect the flag of other na-
tions—Sun.

The federal official on Lake Ontario
who refused clearance papers to a Can-
adian captain until the latter hauled
down the British flag he was flying on
the Fourth of July, should be publicly
reprimanded. Foreign ships are foreign

property and their right to fly their
own flags while in an American port is,
or should be, at all times unchallenged
and unchallengeable. If it be argued
that the appearance of the British
commercial ensign in American waters
on Independence Day is an insult to
national sentiment, what shall be said
of the American ships which float the
Stars and Stripes on that anniversary
in British ports? It is high time that
some people stopped making fools of
themselves—Brooklyn Eagle.

A SONG OF SUMMER RAIN.

When the big round summer raindrops
are a-comin' dancin' down,
The wagons rattle lively on the dusty
road to town;
You hear the drivers singin' o'er the
valley and the plain,
An' the cattle-bells are ringin' of a
welcome to the rain!

Dancin' on the hilltops,
Patterin' on the plain,
What a breezy blessing
In the fall of summer rain!

How the corn blades rustle—all the
furnished crops
Lispen for its coming—the drink the beady
drops!
An' the roses in the garden—they all
take heart again,
An' the wild-flowers all seem thank-
ful, with a silver rim o' rain!

Dancin' o'er the meadows,
Patterin' on the plain,
What a breezy blessing
In the fall of summer rain!
—Frank L. Stanton.

TO-MORROW'S MARKET.

Prices all ready to be on the down-
ward grade and during the next few
days will reach the low water mark,
especially in the vegetable world. The
only increase to be noted this week is
in potatoes, which is only a temporary
one pending the introduction of the
new potatoes on the market. Re-
ductions will be noticed in some of
the articles, whilst green peas and

WOODSTOCK CARNIVAL
OPENS AUSPICIOUSLY.

(Special to the Star.)
WOODSTOCK, N. B., July 14.—The
weather is of the best, real holiday
weather, and by the crowd that were
in town early in the day it looks as if
this carnival would excel all former
festivities of the kind.
A special excursion train came from
Edmundston at noon with all cars
filled. Large numbers of excursionists
are sure to be on the trains from Fred-
erickton, St. Stephen, St. John and
other places. The Milltown band is
coming with the St. Stephen excu-
sionists.
Some rain fell last night, which will
put the track in good shape for the
races this afternoon.

TATTOOING IN OLDEN TIMES.

(From the Brooklyn Eagle.)
If tattooing does not stand high as a
civilized art it has the sanction of an-
tiquity. Experts say that the repre-
sentations on the Egyptian tombs at
Thebes show tattooing. It was begun
by the pagans and carried on by the
Christians, forbidden everywhere, but
still continued. The twenty-eighth
verse of Leviticus six: "You shall not
make any cutting in your flesh for the
dead nor print any marks upon you,"
students say, refers to tattooing. Ma-
homet forbade it, and so did the early
fathers of the church and nation of
modern times have legislated against
it, but without avail. It is apparently
a savage taste inherent in the human
race. There are Moorish men who have
tattooed their children with the
same design that they have executed in
their embroidery, and evidently for
the same reason, because they consider
the work beautiful. Embroidery work
of this kind for children has its advan-
tage. It cannot be torn; it is a saving
in laundry bills, and will never be
outgrown. Almost the only other
children of modern times known to be
tattooed are those in French found-
ling hospitals. Children received there
are found to have tiny marks put on
by mother as a matter of future identi-
fication. These are usually in incon-
spicuous parts of the body.

NEW BICYCLE RECORD.

OGDEN, Utah, July 14.—W. E. Sam-
uelson, of Provo, Utah, has broken the
long bicycling record for a half mile
unpaced professional at the saucer
track here. He covered the distance in
51.4 seconds. This is 12.3 seconds be-
low his own previous record.

MAY END CHICAGO STRIKE.

CHICAGO, July 14.—The express driv-
ers will vote tonight on the question of
calling off the strike.
Recent disclosures regarding the ac-
tion of truck drivers, combined with
attempts on part of strike leaders to
collect sufficient funds to pay benefits
promptly, it is declared have led to
trouble in the ranks of the express
drivers.

Delegates of several of the labor
unions held a meeting in Berryman's
Hall last evening and decided to have
a joint parade on Labor Day, which
will include all the laborers in the
city, those not members of unions not
being made.

Great preparations are being made,
and the parade will probably be a
grand success. Another meeting is to
be held on Thursday evening next,
when it is hoped that delegates from
the millmen and shingle bunchers will
be present.
The Penobscot of the Eastern Steam-
ship line arrived in port about nine
o'clock last evening. She left Boston
with over three hundred passengers,
one hundred and four of whom came
to St. John. One hundred and forty
were landed at Portland, and about
sixty at Eastport. Coming into Port-
land very thick fog was encountered,
but otherwise the trip was an unevent-
ful one. Among the passengers land-
ed at St. John were the members of
the Indian baseball team from Passa-
mody.

A meeting was held in the school
room of Centenary church last even-
ing, when committees presented their
reports on the School of Missions,
which were favorable in every re-
spect. A draft of their programme was
drawn up, and the travelling and en-
tertainment committees set forth their
plans. Another meeting will be held

being prepared by the retreating.

During the few weeks the salmon
season has been on Charles Harkins
and his mate, who run only one boat,
have taken over eight hundred fish,
which have averaged him a dollar and

so far has been very good, but "the

How to Keep Always the Lustre in a Woman's Eyes.

By Caissarato,
Doctor of Beauty.

Enter a woman whose eyes are a trifle red and swollen.

Q. Doctor, I have come to you because I want to make my eyes, which are not by nature beautiful, as fine as I can. Will you give me some general hints and rules?

A. Certainly. You are quite right to want to have eyes that are not only healthy, but also beautiful, for you realize, as most all women do, that there is a peculiar fascination about a pair of fine eyes that no woman can afford to ignore. The very first thing you must look out for, however, is their health. No eyes that are not healthy can possibly be beautiful. This same principle should be applied to every part of the body, but with the eyes it is of paramount importance. If there is anything wrong with your sight an oculist should be first consulted. Never allow any one but a skilled person to tamper with your eyes, for, always remember, you have only one pair.

But there are harmless preparations that you may use to strengthen and soothe the eyes. These preparations will assist also to beautify them.

Q. I must confess that my eyes are a little tired. Would that affect their looks?

A. Absolutely, just as fatigue affects the skin and makes lines and wrinkles. Your eyes are a little red and inflamed looking. Rest, rest and remember that nothing so quickly affects the eyes as late hours, bad air, any work by an artificial light, cold, wind, excessive heat, dust and indigestion or any other internal ailment.

And while I am about it let me warn you that there are two serious things to be considered in the matter of dress—corsets and shoes.

Corsets must not be worn too tight, and heels must not be too high. Anything that impedes the proper circulation is exceedingly bad for the eyes.

Q. These hints are all very well, and I am exceedingly grateful for them, but are there no local treatments that I can use to treat this fatigue?

A. Yes, in the first place there is the toilet of the eyes. Soap and water are not to be recommended. The careful woman should wash her eyes every night and morning with a bit of sterilized absorbent cotton dipped in warm boric water in these proportions:

Boric acid 2 grams
Distilled water 100 grams
After this the eyes should be washed out with an eye cup filled with a weak solution of camomile heads or with the following mixture tepid.

Boric acid 2 per cent. 100 grams
Distilled rose water 50 grams

Q. Now, doctor, something most important—what can I do to get rid of the wrinkles about my eyes?

A. For these there are many things to be done. Electricity and massage are both excellent, applied of course scientifically by careful hands.

Q. Ah, I may not be where I can get electricity and skillful massage—then what?

A. In that case here are the preparations, Q. Now what can I do to give brilliancy to my eyes?

A. First keep them healthy. I do not approve of putting anything in the eyes to make them brilliant. But if women will persist in using something here is a preparation that is the least harmful I know of.

Distilled water 20 grams
Chlorhydrate of ephedrin 50 centigrams
Sulphate of dulcine 20 centigrams
Chlorhydrate of cocaine 20 centigrams

Mind you I do not recommend this. I only say that if you will use something it is the least harmful thing I know.

Q. Now, doctor, something most important—what can I do to get rid of the wrinkles about my eyes?

FOR RUDDY EYES DO THIS WITH THE BALLS OF THE THUMBES.

MY SPECIAL ROTARY MOVEMENT WITH THE THUMB TO TAKE OUT CROWS' FEET.

SMOOTHING OUT FINE WRINKLES UNDER THE EYES.

HOW I MANIPULATE THE EYEBROWS TO MAKE THEM GROW INTO AN ARCH.

Q. And now for the eyebrows?

A. Yes, there is a way to take care of them so that they may be thick and fine. Every morning brush them with a fine brush dipped in

Glycerine 5 grams
Distilled rose water 100 grams

Q. Let me ask you right here what I should do when my eyebrows are full of dandruff?

A. Ah, that should be taken in hand at once, otherwise they will fall out. To get rid of this dandruff you should wash your eyebrows night and morning with boric acid and then rub them with a little sponge dipped in

Chloral 3 grams
Spirits of Van Swieten 25 grams
Rose water 75 grams

Another treatment for dandruff of the eyebrows is the following: Every night bathe them with tepid starch water and after this rub on the following pomade:

Saltic acid 1 gram
Oxide of zinc 1 gram
Starch 2 grams
Vaseline 40 grams

The next morning wash them off with warm water and far soap.

If the eyebrows are inclined to fall out one may stop this by bathing them every night in castor oil, and by rubbing them every morning with a little brush dipped in this mixture:

Structure of rosemary 20 grams
Structure of cantharides 4 grams
Spirits of rosemary 200 grams
Spirits of camphor 200 grams

To make them glossy and also to improve their growth, put on them every night a few drops of this oil:

Beet marrow 6 grams
Oil of sweet almonds 8 grams
Castor oil 8 grams
Structure of quinquina 10 grams

Lanoline 10 grams
Vaseline 10 grams
Oil of sweet almonds 5 grams
Sulphate of aluminum 5 grams

After this massage, which should not last over five minutes for each eye, wipe the cream off gently and bathe the eyes with absorbent cotton dipped in the following:

Cranes flower water 200 grams
Glycerine 10 grams
Boracic acid 2 grams
Spirits of lemon 1 gram

No. 5—At night, on going to bed, paint around the eyes with this:

Pulverized tragacanth gum 5 grams
Distilled rose water 50 grams
Pure glycerine 10 grams
Oxide of zinc 4 grams

In the morning remove this with a little warm water, and then bathe the eyes in a weak solution of walnut leaves.

Q. Very frequently, doctor, I have dark circles under my eyes. What causes them?

A. Very often this condition is due to ill-health, and very frequently to fatigue; also it may come from dissipation. Sometimes it is congenital and permanent.

Bad circulation, dyspepsia, anemia, nerves—these are all causes.

In these cases the cause should of course be primarily treated. But to this physical treatment which, of course, should be in the hands of a physician you may add a local treatment that will materially assist.

Night and morning bathe your eyelids with the following:

Spirits of lavender 20 grams
Spirits of garden mint 20 grams
Spirits of rosemary 20 grams
Spirits of eucalyptus 20 grams

Heat this before using and be careful not to let any of it get in the eyes. Bathe the closed eyelids with it.

If these black circles are accompanied by puffiness, you would do well to massage the eyes gently all around with:

Pure glycerine 15 grams
Oil of Vaseline 10 centigrams
Oil of Jasmine 0 gr. 50 centigrams

After this massage which should not last more than ten minutes apply to the lids small tepid compresses dipped in the following mixture:

Distilled rose water 50 grams
Distilled plantain water 50 grams
Distilled fennel water 50 grams
Distilled mullet water 50 grams

Pure alum 2 grams
Sulphate of aluminum 2 grams

Q. Now about the lashes, doctor, will you tell me something about their preservation?

A. The first necessity is to keep them always absolutely clean. They may be made to grow long and thick by occasionally cutting their ends with curved scissors.

If the lashes are inclined to fall out, should advise washing them frequently in tepid boric water and then rubbing on them every night the following mixture:

Cold cream 10 grams
Naphthal 10 grams
Sulph 0 gr. 1 centigram
Iodol 0 gr. 1 centigram

DR. DANIEL HOME.

Dr. Daniel M. P. arrived in the city this morning from Ottawa. The weather he said this morning has been very hot in the capital and he was never so pleased before to see the fog. The session of the house will probably finish on Tuesday or Wednesday, and it was not likely that he would go back before the closing.

POLICE COURT.

Prisoners Who Tore Policeman's Trousers

Had to Chip in and Buy Him a New Pair.

Another quiet morning was spent at the police court, where only three luckless individuals awaited attention. Officers Scott and Crawford arrested four drunks at one time on Brussels street last night, but one of them managed to get away from Officer Crawford, who was unfortunately enough to slip on a stone, tearing his trouser leg badly, and at the same time injuring his knee. Two of the prisoners turned up in court this morning and were fined \$2 each, and \$2 compensation to Officer Crawford, who will have to buy a new pair of pants.

It came out during the hearing of the charge that the police officers have to buy and pay for their summer uniforms themselves. Officer Crawford told Acting Magistrate Henderson that the trousers cost \$5.50 a pair, and that if he got them injured while on duty he had to buy new ones out of his own pocket. His honor returned him \$4, which he deducted from the fines, still leaving the officer \$1.50 out of pocket for doing his duty.

One of the men arrested had to forfeit his deposit of \$8, as he did not bring it worth while to turn up this morning.

James Hector, a colored man, who said he belonged to Frederickton, was arrested on a charge of indecent behavior on Brook street. Act. Sergt. Scott proved the offence, which he said took place last evening about seven o'clock. Prisoner was with three or four other colored men at the time, and his behavior was very gross. Hector said he didn't remember anything about it, he came down from Frederickton yesterday for the first time for eleven years, and met some old acquaintances. They got on the liquor, and his memory was a blank.

His honor said his conduct was disgusting and fined him \$8 or thirty days. Hector pleaded hard to be given a chance, saying he would return at once to Frederickton, where he had a wife and six children, but Magistrate Henderson was adamant.

EQUITY COURT.

In Equity Court this morning in the case of DeGrace vs. Poirer, summons for setting the cause down for hearing was returnable to-day and an order was made that the cause be heard at 11 o'clock in the Equity Court here on the 15th of next month. W. D. Carter of Richibucto for the plaintiff and Milton Price for the defendant.

W. D. Carter made application in the case of Thomas Jardine vs. Alexander and Robert B. Mundie to take the bill pro confesso against Alexander Mundie and to set down the cause for hearing as against Robert B. Mundie, on the 15th of Aug. also. Order was granted accordingly.

IMPORTER OF ALIEN LABOR
FINED \$50 BY JUDGE FORBES.

In the county court before Judge Forbes yesterday the decision was given in the case of the Oddtown Canoe Co. vs. Chestnut. Judgment was given for the plaintiff. His honor found that the plaintiff imported labor from the plaintiff company in Maine at the time he did it he was not himself conducting a new industry at Frederickton. A fine of fifty dollars was levied on the defendant. F. R. Taylor for the plaintiff and R. B. Hanson and H. A. Powell, K. C., for the defendant.

In the case of Wood vs. deForest the summons taken out to change the name of the defendant was dismissed.

FIRST GAME TONIGHT.

Tonight in Fairville the Junior Templars of Honor will inaugurate their league series of baseball matches with a game between the boys of Fairville Section and Victoria Section, hailing from the city proper. The Fairville team will line up as follows: Catcher, George Schuchter, captain; pitcher, Foster Fowler; first base, Herbert Carr; second base, Harry Estey; third base, Stanley Reed; short-stop, —; left field, left field, George King; centre field, Addison Wayne.

The Star was slightly in error in stating that a permanent was to be awarded the successful team at the end of the series. It is a silver cup the boys are to struggle for, it being the gift of the Grand Temple, and is to be won for three seasons in succession before it will find a permanent owner.
