KILLED IN MONCTON YARD.

I. C. R. Brakeman Warren Osborne Fell Beneath Moving Car.

LIVED ONLY A FEW HOURS.

Made a Mis-Step While Boarding The Car—Leaves Wife and Family.

Moncton, May 11th, 1907—While shunting in the west end of the I. C. R. yard Saturday morning, brakeman Warren Osborne made a mis-step and slipped beneath a moving car receiving fatal injuries. The accident happened shortly before three o'clock, and Osborne succumbed to his injuries about four hours later, after having been taken to the hospital.

A mis-step was the cause, Osborne said, as he lay in the I. C. R. rest-house, previous to being taken to the hospital.

Foreman Joseph Melanson was in charge when the accident happened, the other brakemen being John McArdle and Harry Wallace. The locomotive engineer was Jas. McLaren. The crew were at work making up the Truro freight, and were about to place some cars in Number 3 siding. Brakemen McArdle and Osborne walked down beside the track together, and Brakeman McArdle saw the deceased starting for one of the cars. McArdle then turned back toward the switch, some thirty or forty yards away, and walked down to speak to the foreman. As he reached the switch, he thought he heard a shout, and started back. The call was repeated, and he continued on down the track.

As Brakeman McArdle walked along, he called out "Where are you?" and heard a groan beside him, and looking down, saw Osborne lying by the side of the track, clear of the rails. The man was unconscious, and when Brakeman McArdle asked him if he was hurt, the only answer was a groan.

The injured man was lying clear of the tracks, his body being a couple of feet from the rail, lying in a huddled position. Brakeman McArdle, after summoning Foreman Melanson, and placing the injured man in as easy a position as possible, ran for a stretcher, upon which Osborne was placed, and carried to the rest-house.

Doctors White and Botsford were summoned, and found Osborne suffering from terrible hurts. The left arm was badly broken, the abdomen crushed, with the bowels protruding. The wheels had evidently struck his thigh, and passed across the lower part of the abdomen, laying it open. There were no marks about the face.

In the rest-house, the wounds were dressed as well as possible, and the injured man was conveyed to the hospital.

Coroner Purdy was notified, and in Tuttle's undertaking rooms, he viewed the remains, and secured statements from Foreman Melanson and Brakeman McArdle, in view of which he decided that an inquest was unnecessary, as the death was purely accidental.

The deceased was a native of Salem, Albert County, and had been employed by the I. C. R. as brakeman for the past two years. He had been in the yard for three weeks past. He is survived by a widow, and three small children, the youngest of whom is two years of age. Osborne was about thirty years of age, and had many

MILL MEN LEAVE WORK.

Dissatisfied with low Scale of Wages, the Employees of Hickson's Mill Demand an Increase.

The mill owned by Mr. W. A. Hickson, one of the principal industries of the town, has been idle since yesterday morning, most of the men having ceased work on Monday because of the pay being too small.

Out of a staff of about thirty, three besides the superintendent, twenty-four quit work, and the whole mill ceased operations.

Mr. Hickson is not inclined to talk about the difficulty, but the following information has been gleaned from the men who are demanding higher wages:—

One of the four shingle sawyers, who have been getting sixteen cents a thousand, left work, demanding twenty cents a thousand. The other three did not join him.

The seven deal carriers all left work asking for \$2.00 a day instead of \$1.70 as heretofore received.

The six men who tend the furnace and the four boiler men all of whom have been getting \$1.40 or \$1.45 a day, consider themselves entitled to \$1.75 a day, and have expressed themselves accordingly.

The trimmer, who has been getting \$1.60 a day, also demands \$1.75.

The three men who roll logs up to the gate and the two who put wood on the lath machine, ask for ten cents increase on their old scale of \$1.40 a day.

The Superintendent, who gets two or three times the wages of the other men; the four lath machine men, who get \$2.00 a day; the edger, who receives \$2.50, and his assistant at \$2.00; and three of the shingle sawyers, have made no demands upon the management yet.

Mr. Hickson shows no disposition to yield at present; and the men appear determined to stand pat until the decision comes their way.

The men at the Rossing mill, of the Miramichi Lumber Co. at Chatham Head also struck on Monday but an agreement was reached, and work was resumed on Tuesday.

At the time of going to press, it is reported that Mr. Hickson has also acceded to the strikers' demands.

FAST SERVICE UP RIVER.

Machinery and Boiler Arrived for New Boat To Run Up River.

TWIN SCREWS.

The engines and boiler for Messrs John Russell & Co's new up river steamer have arrived and are being unloaded at the deep water terminus.

This steamer will be one of the fastest on the river. She will be propelled by twin screws and being of shallow draught will have no difficulty of reaching her destination at any time or tide. Work on the hull is being rushed and it is expected the boat will be ready early in June.

GEORGIAN BAY CANAL.

Ottawa, May 12—The Georgian Bay Canal Commission has practically completed, at a cost of some six hundred thousand dollars, a thorough survey of the proposed twenty-one foot water way from Georgian Bay to Montreal, via the French River, Lake Nipissing and the Ottawa River. The report will be presented to parliament next session. The cost of the proposed canal would be over a hundred million dollars and would enable ocean steamers to reach Fort William and shorten the present distance by water from Fort William to Montreal, by over four hundred miles.

TRIAL COMMENCES.

Boisé City, Idaho, May 14.—A jury has been secured, and the trial of William D. Haywood began today.

ADOPT LAURIER'S MOTION.

London, May 14—The Colonial Conference at closing session today adopted Sir Wilfrid Laurier's motion in favor of an all-British subsidized steamship route from United Kingdom to Australasia via Canada. A committee will be appointed to enquire into cost of such route and draw up definite propositions.

HURLED TO THEIR DEATH.

Thirty Mystic Shriners Killed In Californian Wreck On Saturday.

RETURNING HOME.

Special Train Struck Defective Switch—Engine Turned Somersault.

Santa Barbara, Calif., May 12—A special train bearing homeward 145 mystic shriners and friends from the annual meeting at Los Angeles was wrecked at Honda yesterday by striking a defective switch. The locomotive turned a somersault into the sand and the forward coaches were crushed to debris and took fire. The flames were soon extinguished by uninjured persons from two rear coaches. The bodies of 25 victims now lie at Santa Barbara and four others at San Luis Obispo. The injured, many of whom are terribly hurt and some of whom may die, are in two sanitariums at San Luis Obispo. The passengers were mostly from Buffalo, N. Y., and Reading, Pa.

The train was going at the rate of 50 miles an hour, and the wreck occurred at 2.35 o'clock, on four and forty minutes after the train had left Santa Barbara. The locomotive in leaving the rails tore up the track, twisting the rails into fish hooks. The baggage car fell buried itself in the sand on the right side of the locomotive. It was smashed almost to landing wood. The dining car, in which were 32 persons eating a luncheon, fell directly on the demolished locomotive. Nearly every person in the dining car was killed. Scores were scalded by the escaping steam from the disconnected pipes. The rear coaches jammed against the first wreckage, pushing in those who might otherwise have escaped. Several imprisoned in the debris were roasted alive. Engineer Champlain was pitched with the cab twenty-five feet beyond the engine. He got up and ran a mile, seeking help, before he found his arm was broken and that he was severely scalded. An instant after the smash those who were not incapacitated jumped from the train to render aid, but were unable to do much besides extinguish the fire, and they had to wait hours before relief arrived.

There were some terrible scenes witnessed after the wreck. Geo. F. Hagenman, of Reading, Pa., refused the aid of his brother Hedges after they had dragged him badly hurt, from the wreckage. "I am dying," he said, "go help the women."

The marriage is announced to take place shortly of Rev. J. A. Greenless, pastor of St. Mark's Presbyterian church, Sydney, to Mabel, youngest daughter of the late A. W. V. Desbriary, of Petit Rocher.

General Botha's Wife, (Montreal Star.) The wife of General Botha, who is occupying the centre of the stage at the meeting of the Colonial Premiers in London, was a Miss Emmett, grand-niece of the famous Irishman, Robert Emmett, who died in the cause of his country in 1803, at the early age of twenty-five. What a curious combination of circumstances it is that the niece of a man who tried to free his country from English rule and a man who fought valiantly against the same dominion should have married, and still more curious that the children of this union will in all probability grow up loyal imperialists.

The story of Robert Emmett is romantic to an extreme. He was intended for the bar, and was studying at Trinity College, Dublin, but was expelled with several others for inacting rebellion. He then became a member of the society of United Irishmen with the object of obtaining independence for Ireland. In July, 1803, he was the ringleader in the clash of arms in which Lord Kilwarden and several others perished. He was arrested shortly afterwards and sentenced to be hanged. At the time he was very much in love with Sarah Curran, a beautiful girl, daughter of the celebrated barrister of that name, and if he had not lingered with his lady-love he would probably have escaped. The poet Moore has immortalized Sarah Curran and Robert Emmett in that pretty poem beginning, "She is far from the land where her young hero sleeps."

The marriage is announced to take place shortly of Rev. J. A. Greenless, pastor of St. Mark's Presbyterian church, Sydney, to Mabel, youngest daughter of the late A. W. V. Desbriary, of Petit Rocher.

Minard's Liniment for sale everywhere.

At Moncton Wednesday evening a meeting of the Board of Trade passed unanimously a resolution favoring a number of privileges to encourage the location of a big steel and wood car shop which E. A. Wallberg, who is building the I. C. R. new shops, proposes. The idea is to lease the shops now occupied by the railway for the manufacture and repair of cars and engines, exempting the plant and personal property of the new works from all civic taxation except school rates, for twenty years. Water and electric light are also to be supplied free for the same number of years.

Free Samples of "Preventics" and a booklet on Colds will be gladly mailed you, on request, by Dr. Shoop, Racine, Wis., simply to prove merit. Preventics are little Candy Cold Cure tablets. No Quinine, no Laxative, nothing harmful whatever. Preventics prevent colds—as the name implies—when taken early, or at the "Sneeze Stage". For a seated cold or LaGrippe, break it up safely and quickly with Preventics. Sold by Thos. J. Durick.

Weak Kidneys

Weak Kidneys, surely point to weak kidney nerves. The kidneys, like the heart, and the stomach, and their weakness, not in the organ itself, but in the nerves that control and guide and strengthen them. Dr. Shoop's Restorative is a medicine specifically prepared to reach these controlling nerves. To doctor the kidneys alone, is futile. It is a waste of time, and of money as well.

If your back aches or is weak, if the urine is scanty, or is dark and strong, if you have symptoms of Bright's or other distressing or dangerous kidney disease, try Dr. Shoop's Restorative a month—Tablets or Liquid—and see what it can and will do for you. Druggists recommend and sell.

MRS. WM. CAMPBELL.

Mrs. Wm. Campbell died at her home in Millerton, on May 6th, age 34 years. She leaves a husband and four children; Colin eight years, Mervin three years, Jean two years and an infant two weeks old. Also her mother in Millerton, and her brother Eldon in Calgary, Alberta. She was the daughter of the late John Graham of Millerton. The funeral took place on Wednesday, May 8th at 2:30 o'clock, the services being conducted by the Rev. J. S. Gregg. The pall bearers were: John Betts, R. N. Weeks, James D. Lyon, Wm. Carruthers, J. W. Vanderbeck, and E. N. Betts. A crescent of roses, ferns, and foliage was sent by the W. C. T. U. of which she was a member. Also cut flowers from Miss Sarah Carruthers, Miss Annie Peterson, Miss Addie Weeks, Mrs. G. R. Vanderbeck, and Mrs. Alexis Crocker. There was a large funeral showing the high esteem in which she was held. Flags were half mast, the husband and family, also the aged mother, have the heart-felt sympathy of the community.

Remains were interred in Derby Presbyterian burying ground.

RESULTS OF THE CONFERENCE.

Britain, Canada, New Zealand and Newfoundland Reject Australia's Taxation Scheme.

AGREE ON SOME POINTS.

Ireland Blocks The Removal of Embargo On Canadian Cattle.

The British government, on the 9th inst., again frustrated an attempt to re-open the preference question made at the sitting of the imperial conference, by opposing a resolution made by Mr. Alfred Deakin, premier of Australia, to create an imperial fund by a tax of one per cent, on foreign imports into England and the colonies to be used in the development of inter imperial trade. Sir Wilfrid Laurier, Sir Robert Bond and Sir Joseph Ward, the Premiers respectively of Canada, Newfoundland and New Zealand also opposed this resolution. The premiers of Newfoundland, Natal, Cape Colony and Transvaal were created Privy Counsellors, the Australian premier again refused the honor.

The British government does not see its way clear to give the colonies any tariff preference over other countries as yet. But Balfour's recent conversion to the preferential idea seems to indicate that the British electorate is undergoing a change of heart.

Hon. Mr. Asquith's promise that the British ministers would carefully reconsider the cattle question is accepted as satisfactory, but it is not supposed that the ministers will overthrow their Minister of Agriculture and antagonize English farming interests and set the Irish Nationalists into revolt by admitting competing Canadian cattle.

Three points are especially in mind for closer co-operation between the Imperial and Colonial ministries:

Firstly, in the question of fast passenger and freight services so as to bring Canada within four days of England and Australasia within twenty days via Canada. Owing to the determined opposition of Harold Cox, ex-secretary of the Cobden Club, and other radical members of Parliament, Hon. Mr. Lloyd-George was constrained to declare at the conference that the ministry opposed any general system of subsidies to merchant shipping, but nevertheless it is expected means will be found to secure adequate Imperial, Canadian and Australasian mail and admiralty subventions to aid this form of Imperial road making.

Secondly, it is hoped the Imperial, Canadian and Australasian governments acting in co-operation will devise means to lower the cable tolls as another effective substitute for that mutual preference in tariffs, which the colonies unite in desiring, but Great Britain cannot now grant. Lower tolls are especially desired to permit of improved news services between England and the colonies, which is admittedly most unsatisfactory.

Thirdly, Mr. Lloyd-George asks advice to help the Canadian and other Colonial Ministers in improving and systematizing commercial agency arrangements so as to greatly extend information available to manufacturers and merchants here and in the Colonies who wish to push inter-imperial trade. Mr. Lloyd-George and other British Ministers declare that by business-like co-operation along these practical lines more can be done to encourage trade within the Empire than is possible by tariffs.

You know what fearful trouble I have had all my life time from constipation. I have been a dreadful sufferer from chronic constipation for over thirty years and I have been treated by many physicians and I have taken many kinds of proprietary medicines without any benefit whatever. I took a pill for a long time which was prescribed by the late Dr. C. R. Church, of Ottawa. Also for many months I took a pill prescribed by Dr. A. F. Rogers, of Ottawa. Nothing seemed to do me any good. Finally I was advised by Dr. Rogers to try "Fruit-a-tives", and after taking them for a few months I feel I am completely well from this horrible complaint. I have had no trouble with this complaint now for a long time, and I can certainly state that "Fruit-a-tives" is the only medicine I ever took that did me any positive good for constipation. I can conscientiously recommend "Fruit-a-tives" to the public as, in my opinion, it is the finest medicine ever produced.

(Signed)
JOHN COSTIGAN.

IN THREE MONTHS "Fruit-a-tives" did what Doctors and drugs failed to do in THIRTY YEARS.

"Fruit-a-tives" cured the Hon. John Costigan of the worst case of chronic Constipation that the leading physicians of Ottawa ever saw. "Fruit-a-tives" gave this famous statesman what he had not had for 30 years—perfect health.

Mr. Costigan gives the credit where credit is due—to "FRUIT-A-TIVES"—the one remedy that can, and does, cure Constipation.

Fruit-a-tives
ON FRUIT LIVER TABLETS

are the only remedy in the world really made of fruit. Juices of fresh Apples, Oranges, Figs and Prunes are so combined that the well known medicinal action of the fruit is increased many times. Tonics are added, and the whole pressed into fruit liver tablets.

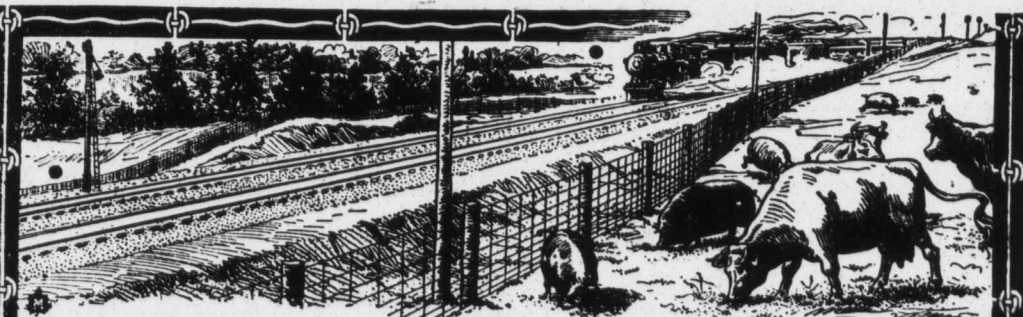

"Fruit-a-tives" owe their wonderful power, and their wonderful success, to the fact that they are made of fruit—that they ARE fruit, INTENSIFIED.

It is the medicinal principles of fruit that can restore the great eliminating organs—the Kidneys, Bowels and Skin—to their normal condition. That is why "Fruit-a-tives"—made of fruit—cure Constipation and cause the bowels to move naturally—correct all Stomach, Liver, Kidney and Skin Troubles—and build up the entire system.

If you are suffering as the Hon. John Costigan did—CURE YOURSELF as he did—with "Fruit-a-tives."

DOAKTOWN.

Doaktown, May 7—The people of Doaktown were moved to an expression of respect and sympathy by the removal of Mrs. Nelson Betts, to the higher and better world on April 26, 1907. She was one of our oldest and most respected residents having lived here during her married life of 51 years. She was born in Scotland over 70 years ago. Being of sturdy Scotch stock, she was always able to work, and did up to a few days before she died; and like one who knew that her work was over, bid her friends adieu, telling them that she would meet them in Heaven. Her faith was anchored in God's promises and thus it was abiding. Mr. and Mrs. Betts had eight children born to them. Two are dead. Samuel D., Mary Jane, Jared, Edgar, Mayme, and Charlotte are living. They are all married, and have, in all, 45 children, who no doubt will be esteemed where they live, as their grandparents and parents are. Mr. Nelson Betts is 73, and will no doubt feel his loneliness. But he has the sympathy of many friends who manifested this by the large attendance at his partner's funeral. About three hundred people were assembled in the Baptist church, while an appropriate sermon was preached by Pastor C. P. Wilson.

Homestead Regulations.

Any even numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

Entry must be made personally at the local land office for the district in which the land is situated. The homesteader is required to perform the conditions connected therewith under one of the following plans:

- (1.) At least six months' residence upon and cultivation of the land in each year for three years.
- (2.) If the father (or mother, if the father is deceased) of the homesteader resides upon a farm in the vicinity of the land entered for the requirements as to residence may be satisfied by such person, residing with the father or mother.
- (3.) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

W. W. CORY,
Deputy of the Minister of the Interior.

THE FASHIONS FOR SUMMER.

June being the traditional bridal month, the usual fashion article in this number of the NEW IDEA WOMAN'S MAGAZINE is devoted to the bride and attendants. New materials for the wedding gown, and graceful drawings showing the latest ways of making the same are given, as well as suggestions for the bridesmaids and maids of honor. The Girl's Letter contains many valuable hints for the selection of a trousseau and will undoubtedly prove helpful to the girl with moderate means who wishes this purpose. Ideas for bridal luncheons and anniversary dinners also appear in this issue. Another illustrated fashion article is devoted to the discussion of summer fashions, which will, without doubt, occupy the most important place in summer wardrobes.

"CANADIAN PICTORIAL."

May is the season of horse shows so a large proportion of the space is given up to illustrations of some of the famous Canadian four-in-hands, tandems, saddle horses, hunters, and jumpers, carriage pairs, roadsters, delivery waggonettes, ponies and pony carts and model stables. Many of these are shown in pictures with their owners, thus adding to their interest. The cover shows one of the thrilling jumps for which Italian cavalry officers are famous. Other events of current interest are not lost sight of. The Canadian public man of the month is the Hon. W. S. Fielding, who is acting Premier during the absence of Sir Wilfrid Laurier. There is a full-page picture of the Colonial Conference in session.

DOMESTIC SERVANTS FORM UNION.

Here are some of the regulations laid down by the National Union of Lady Helps recently organized in Australia:—

1.—A week's work to consist of six days, commencing each morning at 6.30 and ceasing on four days a week at 7.30 p. m., with three intervals of half an hour each for meals and one hour interval in the afternoon of each day.

2.—On Thursday work shall cease at 2 p. m.

3.—On Sundays work to cease at 2 p. m., but if required the servants to prepare tea between 5.30 and 6.30 p. m. on alternate Sundays. Two hours to be allowed to attend church in the morning.

4.—On Wednesday work to cease at 10 p. m., with three intervals of half an hour each for meals and one interval of an hour in the afternoon.

5.—Eight holidays a year to be allowed and all statutory holidays to be given, work done on those days to be paid for at the rate of 1s. per hour.

6.—Domestics are to be in every night at 10 p. m., except on Thursdays, when they are to be allowed out till midnight.

7.—Where uniform has to be worn, the mistress must supply the dress, caps, collars, cuffs and aprons.

8.—Well ventilated bedrooms to be supplied to all servants.

The wages demanded by the new Union range from \$3.04 a week for nursemaids to \$3.65 for "general" help and \$6.08 for housekeepers.

ANOTHER INDIAN MUTINY.

Lahore, British India, May 9.—Everything seems to point to the imminence of a native outbreak here, and the authorities are taking all the steps possible to suppress it by force of arms. The political unrest is hourly assuming graver proportions, bands of stalwart rustics, armed with bludgeons, who have been enlisted by the leaders of the sedition, are crowding into the native city, and troops of all arms and bodies of police, mounted and dismounted, are being drafted into the province.

The fortifications of Lahore have been subject to a special inspection and the artillerymen have been reinforced. The lieutenant-governor of the Punjab, Sir Denzil Ibbettson, is taking active measures to circumvent any possible outbreak. He has issued a proclamation prohibiting meetings of every kind and solemnly warning the public not to attend any assemblages under pain of severe punishment. In addition, the lieutenant governor has struck at the root of the revolutionary movement by causing the arrest, this afternoon of a prominent lawyer, Lajpatrai, who practiced in the chief court of the Punjab, and who was the leader, financier and organizer of most of the seditious demonstrations and revolutionary riots in the Punjab.

Immediately after being taken in custody Lajpatrai was deported to another province. His arrest caused a profound sensation among the Hindus, who hitherto had believed the authorities would not dare to take such drastic measures.

Another revolutionary leader, for whose arrest a warrant has been issued, reached an indication of

THE MILL STRIKE.

The expected has happened. Each year, for many years past, the cost of rent and the prices of the necessities of life have increased at a much faster rate than has the wages of the workmen. Each year the laborer has seen the purchasing power of his income steadily dwindle and, as a consequence, his standard of living constantly lower. While living now costs at least one-third more than it did four or five years ago, the average workman does not get anywhere near one-third more wages than he did then. He has had, therefore, to reduce his household expenses, which were already below the limit of comfort. He has had to move into a poorer dwelling at a higher rent. Feeling his feet gradually slipping from under him, he has at last commenced to think. And thinking has led to the inevitable action.

The only surprise manifested at the men's demands is occasioned by the extreme modesty of their claims. Three-quarters of those who are asking an increase of wages demand only \$1.75 a day; and only seven of the twenty-four stipulate for as much as \$2.00 a day. Public opinion will be strongly in favor of the granting of all that the men ask. Their claims are just. If they have made any mistake, it is in asking too little. We hope that the mill owners will recognize the reason and justice of their employees' demands and immediately meet their wishes by reopening their mills at the increased scale of wages.

Hitherto those who work in the mills have had no organization, no union among themselves, no central body with authority to speak for them. In union alone is their strength, and in strength alone lies hope of justice. One workman alone is of no importance in the world to-day. Only the power that can be exerted by many men moving together with one mind and purpose will avail to elevate and improve the workingman's condition. Workmen, unite! By doing so, you have everything to lose and nothing whatever to lose.

JUDGE TELLS TALES.

Judge Beatty of the Federal Court of Idaho has come out openly and declared that Senator Borah has been indicted for land stealing. The federal judge has likewise made the statement that it was mutually agreed between himself and United States attorney Ruck that the findings in the timber fraud investigations should be kept secret until the Moyer, Haywood and Pettibone trials. In other words, this high-toned criminal who has been elected to the United States senate must be immune from prosecution until his eloquent and powerful voice can be heard before an Idaho judiciary in aid of the conspiracy to railroad labor officials to the scaffold. Teddy should write another letter and tell us by what magic power Borah, the indicted criminal, is licensed to raise his voice in a plea for "law and order."—Denver Miners Magazine.

A BUSY SENATOR.

Senator Borah of Idaho has two jobs ahead of him that he probably wishes he could gracefully transfer to his worst enemy. One is to explain his connection with some wholesale timber frauds, a kind of mixup towards which government officials and those with pull have a great caning; and the other is the task of convicting three rich and widely respected men, representatives of the working class, on a trumped up charge of murder made by a wreck of humanity who must do as he is bid under fear of torture and threat of death. Surely, William P. Borah, who won the senatorial toga with the aid of Roosevelt's special emissary and man Friday, Taft, is not in the most enviable position imaginable.—Common Sense.

HASTEN THE SETTLEMENT.

We regret exceedingly that no agreement has yet been reached between the Dominion government and one-half of the men injured in the Beaver Brook accident. Only thirteen of the twenty-six claims were settled by the commissioner who recently visited Newcastle; and the claims he settled were only the least important ones, too. These latter, we consider, were dealt with in a fairly generous spirit; but we cannot say as much of the cases that yet remain. \$300 was rather a small sum for the five or six men who were so badly injured over three months ago that one is not yet able to be out and make a living. And \$500 for a man whose husband is gone is altogether too insignificant to be offered by a government whose revenue is increasing by such leaps and bounds as Canada's is. There is no doubt at all of the government's liability in the matter, and the Department of Justice should at once take steps to satisfy the just claims upon it.

HEAVY SNOWSTORMS.

Toronto, May 10.—Little under half an inch of snow fell in Toronto today, and in parts of western Ontario two or three inches is reported. Cobalt has ten inches on the ground, but some of it is old. In Manitoba and Saskatchewan a heavy frost and snow fall occurred. Fruit prospects in Ontario are not good.

Laramie, Wyo., May 10.—For twenty-four days a snowstorm has raged in the southern Wyoming mountains, and snow is seven feet deep on the level.

HEIR TO SPANISH THRONE.

Victoria Eugenie, queen of Spain gave birth to a son on the 10th instant. The little fellow will be called Prince of Asturias. There is great rejoicing in Madrid. Queen Victoria was married to King Alfonso at Madrid on May 31, 1906, amid scenes of greatest splendor, followed by the horror of a bomb explosion, which killed scores of people and narrowly missed the royal coach in which their Majesties were returning from church.

English blood had long disappeared from the veins of the Spanish Royal Family, and therefore the marriage of King Alfonso and Princess Victoria marked a new epoch in Spanish history. The birth of the royal child at Madrid to-day is therefore almost as important an event for Great Britain as for Spain, which clearly indicated the friendship existing between King Alfonso and King Edward and the great interest by the latter in this important event. King Edward and Emperor William will act as sponsors at the baptism of the royal infant at Madrid.

The Queen insists she herself will nurse the child, despite the opposition of the royal household to such a departure from custom as the desires to ensure its good health.

Two of the horses did not seem to mind the machine to any great extent. The third got along all right until it was tried with the auto coming face on, when it became unmanageable. It ran into the ditch, throwing Mr. O'Leary out, then it took a short cut to another street. The whiffletree of the wagon was broken and one shaft split. Mr. O'Leary, with the exception of a few bruises, escaped unhurt.

100 PEOPLE LOST.

Montevideo, Uruguay, South America, May 8.—The French steamer Poitou from Marseilles was wrecked yesterday off San Jose Ignacio, a small rocky promontory about 150 east of this city. She was driven on the rocks in a heavy gale that had blown for several days, and struck about thirty yards from the shore of Rincon de Herero. About 300 people were on board; and over 200 are reported saved. Many were drowned, and some are still clinging to the wreck.

Wedding Bells.

RYAN-SULLIVAN.

At the R. C. church, Bathurst, on the 8th inst., Miss Annie Ryan, daughter of Mrs. Wm. Ryan, was married to Mr. D. Sullivan of Waterloo. The ceremony was performed by Rev. E. Martin, and quite a number of friends were in the church to witness the ceremony.

The bride looked extremely well, in a pretty suit of navy blue cloth, with white hat. She was attended by her cousin, Miss Queenie Salter, and Mr. Lincoln Salter supported the groom. After a wedding breakfast at the home of the bride's mother, Mr. and Mrs. Sullivan left on the accommodation to visit Fredericton and St. John.

OBITUARY.

MRS. WM. RICHARDS.

Mrs. Richards, widow of the late Wm. Richards, the well known Miramichi lumberman, died at the residence of her daughter, Mrs. H. H. Gunter, Fredericton, on the 5th instant. Interment took place at Boiestown on Wednesday, the 8th. Deceased was 78 years old, and is survived by one son, David of Fredericton and three daughters, Mrs. Howard McLean of the Nashwaak, and Mrs. Dell Gunter and Mrs. Herbert H. Gunter, of Fredericton.

The death took place at her son's residence, Sydney, on Sunday, May 5th, of Mrs. John C. Colquhoun, after a month's illness, at the age of 74 years. Her husband had pre-deceased her some nine years. She leaves seven children surviving, four sons and three daughters, viz.: William H., Trenton; Graham, Sydney; Howard, Little Harbor; and Rev. John George of Millerton, N. B.; Mrs. McKay, Montana; Mrs. Adams, Pettisfield, Mass.; and Mrs. Cunningham, Port Hood. The late Mrs. Colquhoun was a daughter of Edward Graham, New Glasgow, and leaves two sisters in Providence, R. I., and three brothers, Alexander, of New Glasgow; George, of Springhill, and J. J., of California. Mrs. Angus Cameron of Sutherland's River is also a sister.

The funeral took place on the 8th in Little Harbor, N. S., cemetery, the services being conducted by Rev. A. D. McIntosh. A large concourse of friends and neighbors from all the countryside attended, the pall bearers being: old and intimate friends, viz., Robt. Laurie, Alex. Reid, Jas. McDonald, Angus Cameron, Robt. Powell and Geo. P. Grant.

THE QUESTION OF FLOUR.

Not the least of the many problems which puzzle the young housekeeper, is the selection of the flour. Cook books are often indefinite; one recommending a brand, another, neglecting the point or insisting on some flour you have found unsatisfactory.

Have you ever blended flour? If not, use it next baking day. The leading Ontario millers are now making a blend of Ontario fall wheat with Manitoba spring wheat in such a way that the best qualities of both are combined scientifically to making a perfect flour.

Ontario fall wheat has the flavor and delicacy, but not sufficient strength. Manitoba spring wheat flour rises well, but absorbs much water and requires much kneading, the bugbear of all bread-makers! Blended flour, as milled by the Ontario millers, combines the strength of Manitoba wheat, and the delicate flavor of Ontario wheat, and is a superior flour to either one alone. It gives the local value with the lightness and deliciousness. Housekeepers everywhere are using blended flours for bread, cake and pastry. Blended flours solve the flour troubles of all home cooks who have the discernment to use them.

REVENUE STEADILY INCREASING.

Last Year's Returns The Best In The History of Canada.

Ottawa, May 11.—The fiscal period ending March 31 will be the best in the history of Canada. Returns made to the finance department, so far shows this. The revenue already reported for this nine months' period amounts to \$67,138,594, and it is estimated that the final return of collections will add two million to this. This will be almost five million more than Mr. Fielding hoped for when he made his last budget speech in November, when he estimated the revenue at \$65,000,000. At that time Mr. Fielding calculated the expenditure would be \$64,500,000, of which \$52,500,000 would be charged to revenue and \$12,000,000 to capital.

Returns to date show expenditure on revenue of \$45,000,000, which will be increased by four or five millions by complete returns and \$12,000,000 expenditure on capital, which will be increased by a half million dollars. This indicates that collections will exceed and expenditure fall below the Finance Minister's expectations. Mr. Fielding hoped for a surplus of thirteen millions, but the indications are that it will be from sixteen to seventeen million dollars, or the largest in the history of Canada. This means that not only will expenditure on both revenue and capital accounts be met but the net debt of Canada can be substantially reduced. This will all have been accomplished within a period of nine months.

BATHURST.

Bathurst, N. B., May 8.—Mrs. P. J. Burns returned last week after a lengthy visit to her daughter, Mrs. C. P. Hickey, of Chatham. Miss McAfee, of Woodstock, is a guest of Mrs. J. M. Aitken. Mrs. T. MILLERTON.

Millerton, May 13.—Messrs. Vanderbeck & Sons of Jersey City, N. J., are starting a rotary saw mill here. The foundations are now being laid, and the machinery is ordered. The mill is expected to be in running order by the end of June. The same company have a large box factory and planing and moulding mills at Jersey City; and most of their Millerton product will be shipped there. The new mill will be under the management of Mr. J. W. Vanderbeck who has been for years buyer on the South West Miramichi for the Snowball Co., and is an authority on timber.

The South West Boom is being quickly filled with lumber. There is about ten million feet of lumber there now.

The large tank car that was wrecked on the Indian town Branch has been repaired and is in commission again which means that the Miller Tanning Extract Co's work will start this week.

The Renous Bridge Lumber Co., intends bringing their Portable mill to Millerton for this season's saving.

Messrs. J. D. & D. J. Buckley intend bringing one of their Portable mills to Lower Derby to saw their Barnaby River lumber.

Mr. S. H. Baldwin has returned to New York.

Mr. Randolph Crocker, of the Miller Tanning Extract Co., has returned from London, England.

It looks now, to your correspondent, that Millerton will be a flourishing little place for the summer.

REDBANK.

Redbank, May 11.—The recent rain left the roads in this section unsuitable to travel on, which makes it disadvantageous for some folks.

Mostly all the young men of this place are away stream driving, and many sad hearts are yearning for their return.

Miss Alice Harrington and Miss Effie Matchett were calling on friends in this vicinity one day last week.

Mr. and Mrs. Wm. Ramsay were the guests of Mr. and Mrs. Ed. Howe on Sunday last.

Dr. Fitzmaurice has returned to Redbank after spending the winter in St. John.

Mr. L. Flam of this place was in town on Tuesday.

Mr. and Mrs. A. Ramsay were the guests of their daughter, Mrs. Charles Hubbard of Cassilis on Sunday.

Miss Katie Powers was the guest of Mr. and Mrs. Wm. Walsh on Thursday last.

Miss Annie Hogan of Seville was visiting her sister, Mrs. Lawlor, this week.

Miss Edna Underhill was visiting friends in Whiteville on Sunday.

Mr. Doucett representing a Patent Medicine Co., was here on Tuesday.

Miss M. Hendry of Whiteville was the guest of Rev. Mr. and Mrs. Mitchell last week.

We are glad to hear that Mrs. Hiram Matchett has recovered from a attack of la grippe.

Miss Mabel Hyland was visiting her home in Lytleton on Sunday last.

Mrs. Robt. Parks visited her daughter, Mrs. Sherrard, on Monday.

WHITNEYVILLE.

Whitneyville, May 13.—Miss May E. Donovan, who has been very ill during the past week, is now convalescent. Her aunt, Miss Mary B. Donovan, of Douglastown who was up nursing her has gone home. Miss Jean Swanson of Lytleton spent Saturday and Sunday with her sister Miss Swanson of Allison Settlement.

Mr. John Allison who for the past two or three years has been in failing health died on Thursday evening.

He leaves a wife and five small children.

Mr. Samuel Sherard formerly of Newcastle has opened up a store in this place and is doing a good business so far. We wish Mr. Sherard every success.

All the men who have lumbered are very busy rafting but they find it quite a slow work owing to the high winds and strong winds have been broken up, and will have to be made over again.

Numbers of people have been watching anxiously for Mr. Russell's new passenger boat, but have failed to see her as yet, probably the high tides and strong winds have carried her down river instead of up.

Mr. and Mrs. Hiram Whitney and family spent Sunday afternoon with Mrs. John Forsythe, Mrs. Whitney's mother.

SECOND WINTER

THIS YEAR.

Snow Storms in May Upset the Farmer's Calculations.

There was a slight fall of snow here on Friday and Saturday nights, the ground being white on Sunday morning.

More than four inches of snow fell in St. John Saturday morning, causing many comments on the climate and recalling other May snow storms. The snow fall Saturday is believed to have been the heaviest in any May since 1870, when there was a heavy fall on the 24th of May. There have been May snow storms in six of the last sixteen years in St. John but none so heavy as that of Saturday. On May 7, 1897, snow began falling about 11.30 p. m., and continued until 6.50 a. m. on the 8th. The ground was quite white in the morning. Two years later, on May 3, 1899, there were snow flurries all day, but the total fall was not measurable. On the 5th of May, 1900, there were snow flurries in the evening. The same date in 1901 saw an inch of snow at up river points, but none in this city. On the morning of May 10, 1902, there were snow flurries, and last year as late as May 28 an inch of snow fell at MacAdam. The greatest range of temperature in St. John in this period was in 1903, when on April 29 the thermometer rose to 72 and fell on May 2 to 28. A thick snow-storm prevailed at Lepreau Saturday morning, two inches falling. Cold weather with snow prevailed also in Moncton and Fredericton.

Women Suffer Agonies from Kidney Trouble

GIN PILLS CURE THEM

There is Mrs. Ripley, for instance. She suffered terribly with her back. It ached, ached, ached—all the time. When in bed, it seemed as if she could not get up. It finally became so bad that housework was impossible.

She certainly was a discouraged woman when she began to take GIN PILLS. And there isn't a happier, healthier woman in the Dominion than this same Mrs. Ripley to-day.

Williamdale East, May 9th. I cannot refrain from writing you the benefits taken GIN PILLS I suffered dreadfully with my back, and had suffered for twenty years. I have tried almost everything but got no relief until I got "GIN PILLS."

I have taken six boxes and now I have not the sign of a pain or ache in my back. I am now 60 and feel as well as I ever did in my life. There is nothing can hold a place with GIN PILLS for pains in the back to which women are subject. Yours truly,

Mrs. MILLAR & E. RIPLEY.
Mrs. RIPLEY had serious Kidney Trouble. And the sick kidneys were making her back ache—were giving her those splitting headaches—were sapping her strength—and dragging her down. GIN PILLS really saved her life. GIN PILLS cured her kidneys. She has been well ever since. GIN PILLS are a grand medicine for women.

Try them at our expense. Mention this paper when writing and we will send you a free sample so you can see for yourself just what GIN PILLS will do for you. The Bole Drug Co., Winnipeg, Man. 91

MUSIC AS A CAREER.

Opinion of Mme. Schumann-Heink, the Prima Donna.

"I have been asked if music is a fitting career for a woman," says Mme. Schumann-Heink. "I most decidedly say that it is. Women have won distinction in every branch of the art. They have won renown as singers, pianists, violinists, cellists as well as composers, and I know of one instance as a manager. I have sung with clubs where the director of the organization was a woman and have also been invited to sing during this season with an orchestra composed entirely of women, including the tympani player. The same opportunities are open to a woman as to a man. They must all begin alike. Take myself for an example. I recall as though it were a dream the years of study, first under one teacher and then another, some celebrated, some not, before I discovered that I might dare to hope for even a small success. It was at a musical festival in Berlin where I had my first chance. But when it came I was prepared for it, though I was very shabby and ever hungry at that time and I must add, very thin. It was two great men who led the applause that evening, Brahms and Joachim, and when they both kissed my hand I knew that brighter days were coming and the lifetime of innumerable hardships was passing."

"The prospects for the success of the American girl singers are unlimited. The young women of this country are endowed with the gift of extraordinary vocal organs, and among them one must look for our great voices. But they are too impatient to win at a leap the highest prizes. They select a teacher (the most important of decisions) almost flippantly. A good teacher is a genius. There are perhaps a few left in this big world of ours. I do not say whether their headquarters are in America or Europe. But to the student I say emphatically, seek with prayer and fasting until this rare avis is discovered. Downright hard work, with patience and perseverance added, is the only thing which will make you succeed not only in music, but in any profession."—Brooklyn Eagle.

Historic Old New York.
Greenwich village, in New York city, was first brought into prominence when Sir Peter Warren, descended from an ancient Irish family and vice admiral of the British fleet, settled there in 1744. He married Susannah De Lancey and settled on a fine estate of more than 300 acres, running from Christopher street to West Twenty-first. It was laid out like an English park, with splendid hedges and avenues of trees and a fine old mansion, which was the resort of all the quality of old New York. His three daughters all made brilliant marriages in England. One became the Countess of Abington, and her name is preserved in Abington square. On the division of the estate at Sir Peter's death the homestead fell to her. She sold it to Abraham Van Nest, and it is still remembered by many as the old Van Nest house, demolished in 1865. Among other distinguished persons who have lived in Greenwich were Oliver De Lancey, William Bayard, Washington, Vice President and Mrs. J. A. Adams, Aaron Burr and Tom Paine. Barrow street was originally named Reason street in compliment to the great infidel's best known book, "Age of Reason."

How Frostbite Comes.

The first effect of cold on the skin is to contract the tiny vessels that connect arteries and veins. Arteries are vessels that take blood from the heart. Veins are those that bring blood back to the heart, and the connecting vessels are called capillaries. While these little vessels are contracting the skin itself becomes tenser. In a few moments or minutes the effects change. The tiny nerves whose stimulation caused contraction of the capillaries are more or less paralyzed, and the vessels dilate so the skin gets red. Soon the veins are dilated, and the skin becomes bluish. Then the nutrient fluid in the skin (the lymph) is coagulated, and the stretched skin ruptures or "chaps." If the cold is more severe its action is deeper, and the blood itself may be coagulated. This is frostbite.

The Deadly Dull Bachelor.

"It is always easy to see how long a couple have been married by noting whether the house is full of his friends or hers," according to a writer in the London Ladies' Field. "A man invariably begins by inviting all his bachelor friends to his house. He is anxious to show off his wife, and he fondly imagines that they will like her and that she will like them, which rarely happens." The writer then goes on to dissect the bachelor and concludes, "I don't know why one's husband's bachelor chums should, as a rule, be so deadly dull, but they usually are, and, as a matter of fact, it was probably their dullness which originally drove him into matrimony; only he has not the sense to see it." There would be fewer married if it weren't for the bachelors.

As a Last Extreme.

Once a number of legal lights in Washington were gathered in the smoking room of a lawyers' club when the talk turned to a discussion of the veracity of lawyers. "The average man," remarked one disciple of Blackstone, "seems only too ready to assume we are all liars, a very unjust position, it seems to me. Do we not sometimes tell the truth?" he asked of his neighbor, a well known criminal lawyer.

"Certainly," promptly responded the latter. "We will do anything sometimes to win a case."

DOMESTIC SCIENCE.

The Practical Way of Mastering It as a Profession.

Domestic science as a special branch for teachers is as yet in its infancy, and I cannot inform you of any college or of any university offering scholarships for the entire course. There are loan funds and small scholarships in several colleges with domestic science courses which will help you to complete your studies if your funds fail and you show that you are peculiarly adapted to the work; also in many of the larger cities domestic science and domestic arts are included in the free night school courses of the public schools and are taught in the night classes of the Young Women's Christian association.

But the woman who has met with reverses and has no funds at her command had best adopt more practical means of establishing herself by her knowledge of domestic science and household economics.

Through the influence of patronesses and the right persons on boards of directors she can perhaps secure an opening as matron or assistant matron or housekeeper of a small charity institution, but it requires powerful influence to overcome the feeling that a trained woman should have the place. Here again the personality or determination of the woman even more than her natural ability as a housewife plays an important part.

If you are brave enough to put your pride in your pocket and enter the room of a hotel you can study hotel housekeeping at close range and incidentally be in line for promotion.

If you are willing to perform the menial duties of a working housekeeper in a big city until you form acquaintances and work your way into the good graces of the better class of intelligence offices you can secure a position in time as managing housekeeper in a family of wealth, but there is absolutely no chance of your securing such a position by correspondence.—Anna Steese Richardson in Woman's Home Companion.

The Bathroom.

There is often danger of slipping in a bathtub, especially by old people. This can be prevented, however, if one will buy a corrugated rubber mat which may be put in the bottom of the bathtub. This is really quite necessary. There are pieces of rubber fastened by clips to the side of the tub to prevent slipping. The shelves and towel racks of some of the finest bathrooms are now made of glass. They are much easier to keep clean than the nickel and brass fittings. The finest and most serviceable bathtubs are of porcelain, but great care should be taken in the cleaning. Great soaps are apt to take off the polish. A reason for complete bathroom is fitted up with foot tub (as well as the regular tub), wash basin, medicine closet, electrical curler and other necessary toilet articles.

Golden Mousse.

For golden mousse beat well the yolks of three eggs, add a tablespoonful of pure maple sirup and cook, stirring constantly until the mixture makes a thick coating on the spoon. Remove from the fire, add three tablespoonfuls of sweet orange juice and half a tablespoonful of lemon juice, beating until the mixture becomes light and cold. Beat the whites of four eggs to a stiff froth, with a pinch of salt, and pour slowly into them two tablespoonfuls of boiling sirup cooked to the stringy stage. Add this to the yolks, put the two mixtures into a mold and pack in ice and salt for four hours. A few white grapes or candied cherries may be placed in the bottom of the mold before the mousse is poured in. This may be served with whipped cream.

THE IRONING BOARD.

Convenient Method of Attaching It to the Kitchen Table.

An exceedingly convenient method of attaching an ironing board to the kitchen table is shown in the accompanying illustration. Housewives insist that an ironing board is the proper thing to use when ironing, being far superior to a table. Its particular form adapts it to the purpose, while the surface of a table is too large for the purpose. As shown here, the ironing board is normally hidden beneath the leaves of the

table, one end being hinged to the edge. One leaf of the table is then hinged to the one next in position. After throwing back the table leaf the ironing board can also be swung over to one side and is instantly ready for service. In this way the necessity of supporting the ironing board on two chairs is obviated. At the same time the balance of the table can be used for holding the unfinished clothes. Upon the completion of the ironing the board is again folded across the table supports and the leaf lowered to its normal position.—New Orleans Times-Picayune.

Light Is Life.

The extraordinary resuscitating power of light recently furnished a curious illustration in the silver mines at Laurium. A mine had been abandoned 2,000 years, when some poppy seed was found beneath the slag. The slag being removed, in a short time the entire space was covered with the most gorgeous show of poppies. After their twenty centuries' rest they had bloomed as vigorously as if they had been borne by flowers of yesterday.—London Tit-Bits.

Same Thing.

Mrs. Scribbles—I believe the butcher is knocking at the door with his bill. Ferdinand. Scribbles—Tell him I am sorry, but I've just paid the rent and am short. Mrs. Scribbles—But it may be the landlord, Ferd. Scribbles—Well, then tell him I'm sorry, but I've just paid the butcher and am short.—London Fun.

Making It Clear.

He—Will you marry me? She—No; I'm not a clergyman. He—Well, will you permit a clergyman to marry us? She—Yes; you to somebody else, and me to—well, somebody else.—London Tit-Bits.

Exhausting.

"They say early rising is very unhealthy." "Of course. Many a woman has broken down her constitution getting her husband up in time for breakfast."

An Added Supply of Talk.

"I've had to get a new barber." "Your old one getting careless?" "No, but his baby is beginning to say one thing."

Weight of the Brain.

There is just five ounces less amount of brain matter needed to keep a woman from idiocy than there is needed for a man. The average weight of a man's brain is forty-nine and one-half ounces and that of a woman forty-four ounces. When a brain falls below thirty-seven and a half ounces in a man idiocy usually occurs. A woman's brain has to fall to thirty-two and one-half ounces before she reaches the same condition. Man has a larger brain in proportion to his stature than woman, while, on the other hand, woman has a larger brain in proportion to her weight. The female brain begins to lose weight after the age of thirty; that of the man not till ten or fifteen years later. The loss in a woman is slight, however, and she keeps up a high brain weight much later than a man.

FRIENDSHIP.

Practical Suggestions That Women Should Take to Heart.

Never let a question of money arise if you wish to have your friendship live. Ask consideration, ask mental help, but do everything that is possible. Economize in every way that you can before asking money from your friend. You will find that if you ask your friends for money, though the money itself may have been given cheerfully, willingly, that something is lost, the joy is not just as it was.

Respect your friend's religion. Your knowledge is not so great that you can say that you alone are right, and if your friend is good and sweet and kind and sympathetic, why should you wish to change the sect of the church she attends?

Consider the weaknesses of your friend. Remember her life's story as you know it, her surroundings and the story of her soul as you read it, and be sympathetic and bear patiently with her as only a real friend can. Always credit her with doing the best that she can, and if you do not quite understand something give her the benefit of a doubt and think that in the beginning she started with the intention of doing something kindly to you.

Constant consideration is the secret of friendship.

The Height of Waves.

A great Atlantic roller, disporting itself on top of between 2,000 and 3,000 fathoms of water, will completely change its character on coming into shallower soundings. The drift is curtailed and the crest becomes peaked.

Near the Eddystone lighthouse, where the depth drops within the range of but a few miles from 300 fathoms to 300 fathoms, the sea has been known to heap up into a solid wall of green water to a height of more than 100 feet. Such a procession of billows bearing down upon the famous lighthouse leave nothing but its lantern visible above their frothing ridges.

The expression, "green water," or "green sea," by the way, is used to denote the actual wave body, as distinguished from the spray which it may throw up on breaking. Thus the celebrated St. Helena rollers measure no more than about 15 feet of green water, but on bursting they will fling their crystalline showers to a height of substantially over 100 feet.

Military Moustaches.

The British War Office seems to be as keen on the military moustache as on its red tape, and Irish officers have been lectured for their weakness for being clean shaven, contrary to the King's regulations. This provision may be regarded as merely a sentimental one, but the further requirement that "the hair of the head is to be kept short, and whiskers, if worn, to be of moderate length," suggests practical considerations. Shaggy locks and patriarchal beards have proved highly inconvenient things to have on the battlefield. Does not history record that Alexander ordered the Macedonians to be shaved lest their beards should give a handle to their enemies' barbers, for he not only ordered all ranks to be shaven, but caused officers to go about to cut off the beards of offenders by force.

Mrs. Scribbles—But it may be the landlord, Ferd. Scribbles—Well, then tell him I'm sorry, but I've just paid the butcher and am short.—London Fun.

Making It Clear.

He—Will you marry me? She—No; I'm not a clergyman. He—Well, will you permit a clergyman to marry us? She—Yes; you to somebody else, and me to—well, somebody else.—London Tit-Bits.

Exhausting.

"They say early rising is very unhealthy." "Of course. Many a woman has broken down her constitution getting her husband up in time for breakfast."

An Added Supply of Talk.

"I've had to get a new barber." "Your old one getting careless?" "No, but his baby is beginning to say one thing."

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of *Chas. H. Fletcher* and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. 20-gauge steel may do for common furnaces, but nothing less than 14-gauge heavy sheet steel is considered good enough for the "Magnet" radiators.

This not only gives the "Magnet" radiators greater strength, more years of service, but far and away more heating power as well—which means they will radiate a greater degree of comfort-giving warmth than the usual lighter, 20-gauge radiators.

McClary's Magnet Furnace

Remember, too, that all bolts are on the outside, where they cannot be burned off by the heat. Neither is it possible for them to catch the soot and dirt, allowing it to lodge around them, interfering with the draft, besides rotting them off—an expensive fault of many furnaces.

"MAGNET" is built with the idea of outlasting other furnaces—and it lives up to the idea, too.

Built for wood, but will also burn coal.

DIES FOR ITS BENEFACITOR.

Black Snake Said to have Saved the Life of Man Who Had Once Befriended It.

The following snake story comes from Armagh township, Penn.: When Edward Houghton, of that township, was preparing late last fall to do some threshing he discovered a black snake coiled about the cylinder of the machine, the reptile being exhausted by its efforts to escape. Houghton found that one of the spikes of the cylinder had passed entirely through the snake's body and was holding it firmly to the cylinder. The moment the machine should start the helpless serpent would be torn to shreds.

Houghton was never in love with a snake and generally killed them where he came in contact with them, but the helpless condition of this one appealed to his sympathies and he liberated it, forgetting the incident and being none the wiser but it had probably died from its injuries.

A few days ago he was working at some machinery, and just as a wrench slipped from a bolt he was trying to loosen and threw him on the ground he heard the warning buzz of a rattler. Upon looking up the prostrate man saw the venomous ophidian's head within a few inches of his face and coiled ready to strike. He turned cold with horror, but before he could move a muscle there was a swish through the air in the opposite direction and a large black snake twined itself in the coils of the rattler.

In an instant the two serpents were a writhing squirming mass. The battle was short but terrible, and in a remarkably short space of time the rattler straightened out and gave up the ghost. The black snake made a feeble effort to reach Mr. Houghton's side, but was too weak, and in a few moments had succumbed to injuries sustained in the combat. Upon turning it over Houghton found that his ophidian preserver was the same snake he had befriended six months before, the marks of the injury being plainly visible.

The rattler was three feet six inches long and had twelve rattles and a button. Upon skinning it, he found that almost every bone in its body was broken.

Mr. Houghton will preserve the body of the black snake in alcohol as a memento of his kindness to the reptile and the latter's gratitude in which life was the price paid.

WANT A KING.

Paris, May 4.—M. Jules Delahaye, who was the author of the Boulangist manifesto of March 7, 1889, has just been elected deputy on a monarchist platform from Cholet. He declared that the idea of the restoration of monarchy in France frightens no one and that his experiment should be repeated in all Catholic constituencies.

Vapo-Cresolene

Whooping Cough, Croup, Bronchitis, Cough, Grip, Asthma, Diphtheria

Cresolene is a boon to Asthmatics

Does it not seem more certain to breathe in a remedy to cure disease of the breathing organs than to take the remedy into the stomach? It cures because the air rendered strongly antiseptic is carried over the diseased surface with every breath, giving prolonged and constant treatment. It is unsuitable to mothers with small children.

These effects: Coughing tendency and immediate relief from coughs or inflamed conditions of the throat.

Let me mail you free, to prove merit, samples of my Dr. Shoop's Restorative, and my Book on either Dyspepsia, The Heart, or The Kidney's. Address me, Dr. Shoop, Racine, Wis. Troubles of the Stomach, Heart or Kidneys, are merely symptoms of a deeper ailment. Don't make the common error of treating symptoms only. Symptom treatment is treating the RESULT of your ailment, and not THE CAUSE. Weak Stomach nerves—the inside nerves—means Stomach weakness, always. And the Heart, and kidneys as well, have their controlling or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves." Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. Write for my free Book now. Dr. Shoop's Restorative sold by Thos. J. Durick.

A HUMAN CLOCK.

Richmond, Ind., May 1.—Ernest McKay, twelve years old, of this city, is known as "the human timepiece," because of his ability to tell precisely the time of day or night without the use of watches or clocks. He also forecasts the weather and foretells disasters.

Endeavoring to entrap him a man set his watch at 10 o'clock and then inquired of the boy as to the time. He replied: "Your watch says it is 10 o'clock. The correct time is 17 minutes to 9."

BLISSFIELD.

Blissfield, May 10.—The state has at last disappeared and the farmers are beginning their farming operations.

Most of our young men have gone to the drive which leaves this place very dull.

Mrs. Ronald Hurley, who has been ill for the past few days, is recovering.

Mrs. George Ward is seriously ill at her home in this place.

The measles is faithfully going the rounds and some new person is taken sick every day.

Miss Tessie Colford spent last evening with her friend Miss Tess Cashen.

Miss Clarabell Robinson has come home to spend the summer with her parents.

We are sorry to hear that Mr. Ernest Mercereau is home from the drive sick.

Mrs. Enoch Bamford and Mrs. George Edgar were calling on friends Sunday afternoon.

Mr. Ronald Hurley has his nephew, Mr. Edward Bowers, helping him farm.

We are glad to see Miss Fairy McDonald back at school.

Mrs. Katherine Bamford is ill with la grippe.

Mr. John McDonald has finished his driving operations on Bartholomew River.

Miss Hannah Morehouse spent yesterday with her father in the capital.

THE JAMESTOWN EXPOSITION.

The Jamestown Exposition, which opened on April 26th, 1907, promises to be one of the most interesting of the larger expositions which have been held in later years. Its location at Sewall's Point, on the historic Hampton Roads, some nine miles from the city of Norfolk, Virginia, and directly opposite Old Point Comfort, in itself will appeal to many, and the magnificent array of warships that will congregate here from all the countries of the world will attract a tremendous number of people from all parts of the American continent, as well as from abroad. To Canadians who have not had the privilege of visiting the South this event will be the best opportunity that will present itself, and the low transportation rates that are offered will lend an additional attraction.

The only Canadian exhibit at this great Fair will be that of the Grand Trunk Railway System, who have erected a building of their own, in which the resources and attractive features of Canada will be shown, and at which building Canadians will be welcomed, and where all information may be obtained. Another feature that is offered is the many different routes that can be taken to this Exposition from Canada, including rail, river and ocean journeys. The true hospitality of the Southern people, the historicity that surrounds the locality, and the many things to see and do, should be the means of inducing a large number to go from the north. Grand Trunk Agents will gladly give information as to rates and routes.

SORE NIPPLES.

Any mother who has had experience with this distressing ailment will be pleased to know that a cure may be effected by applying Chamberlain's Salve as soon as the child is done nursing. Wipe it off with a soft cloth before allowing the babe to nurse. Many trained nurses use this salve with best results. For sale by all druggists.

Mr. and Mrs. Caldwell will reside at Hyde Park, Mass.

DOCTOR BRIGHAM SAYS

MANY PHYSICIANS PRESCRIBE

Lydia E. Pinkham's Vegetable Compound

The wonderful power of Lydia E. Pinkham's Vegetable Compound over the diseases of womanhood is not because it is a stimulant, not because it is a palliative, but simply because it is the most wonderful tonic and reconstructive ever discovered to act directly upon the generative organs, positively curing disease and restoring health and vigor.

Marvelous cures are reported from all parts of the country by women who have been cured, trained nurses who have witnessed cures and physicians who have recognized the virtue of Lydia E. Pinkham's Vegetable Compound, and are fair enough to give credit where it is due.

If physicians dared to be frank and open, hundreds of them would acknowledge that they constantly prescribe Lydia E. Pinkham's Vegetable Compound in severe cases of female ill, as they know by experience it can be relied upon to effect a cure. The following letter proves it.

Dr. S. C. Brigham, of 4 Brigham Park, Fitchburg, Mass., writes:

"It gives me great pleasure to say that I have found Lydia E. Pinkham's Vegetable Compound very efficacious, and often prescribe it in my practice for female difficulties."

"My oldest daughter found it very beneficial for female trouble some time ago, and my youngest daughter is now taking it for a female weakness, and is surely gaining in health and strength."

"I freely advocate it as a most reliable specific in all diseases to which women are subject, and give it honest endorsement."

Women who are troubled with painful or irregular periods, bloating (or flatulence), weakness of organs, displacements, inflammation or ulceration can be restored to perfect health and strength by taking Lydia E. Pinkham's Vegetable Compound. If advice is needed, write to Mrs. Pinkham, at Lynn, Mass. She is daughter-in-law of Lydia E. Pinkham and for twenty-five years has been advising sick women free of charge. No other living person has had the benefit of a wider experience in treating female ill. She has guided thousands to health. Every suffering woman should ask for and follow her advice if she wants to be restored to health.

The directors of the New Brunswick Telephone Company met at St. John last week. The details of the merger of the New Brunswick and Central Companies were completed and the union of the two concerns will take place before the first of June. When the merger is completed it is expected that there will be a few alterations in the official personnel and an enlargement of the directorate.

It is possible that the Dominion government will take over the public wharf, so-called, now owned by the municipality. Mr. Geoffrey Stead, Dominion Government Engineer, was in town on Wednesday making a survey of the wharf. Should the government purchase the wharf they would of course put it in first class shape and give this port what it has been long in need of, a first class public wharf.—Richibucto Review.

In his Montreal mission which ended last week, Rev. Dr. Torrey had 2,372 responses. These converts, who stood up publicly, were afterwards dealt with by the mission workers, and their names were given to the local clergy. The church affiliations of the converts were: Presbyterians, 830; Methodists, 245; Anglican, 365; Baptists, 225; Congregationalists, 80; Roman Catholics, 25; Brethren, 16; Salvationists, 9; Lutheran, 6; Christian Scientist, 5; Jews, 4; Reformed Episcopal, 3; Non-denominational, 99.

Members of Newcastle Lodge No. 93 and Chatham Lodge, No. 45, I. O. O. F., attended St. Mark's church, Douglastown, in a body last Sunday morning and listened to an excellent address on Odd-fellowship by Rev. F. C. Simpson. The thirty-five or forty Oddfellows present were led by Bro. J. L. Stewart, representative of the Sovereign Grand Lodge of British America and Bro. L. B. McMurdo representing the Maritime Grand Lodge. A synopsis of Rev. Mr. Simpson's address will appear in our next issue.

On Thursday, Harry Levesque was arrested at Matapedia, charged with robbing the express office. Inspector Noble in searching the prisoner did not find any trace of money packages, but discovered several tickets and two or three suits of clothes, which were among the missing articles. Detective Noble also secured a suit of clothes that the prisoner had disposed of, selling the coat to one party and the trousers and vest to another, all at low figures. This suit had been identified as one which was shipped by the Campbell Clad Company, of Moncton, by express to New Richmond, and was stolen from the Matapedia station on or about the seventeenth of March. The prisoner was taken before Magistrate Styles at Matapedia on Thursday, and remanded until the sixteenth inst., when he will come up for a preliminary hearing.

The new boiler for John Russell & Co's steamer Rustler has arrived and is being placed on board. She will be on the route shortly.

The steam ferry was placed on the route on Monday. Owing to a slight leak the boat had to be beached and repairs made. Messrs. Russell did the work promptly.
