

London Still Losing.

Defeated This Time by the Tail Enders.

Saginaw Gets Shut Out by Bay City.

Hamilton Hits Hard and Wins From St. Thomas.

Toronto Goes to the Top of the Eastern League.

World's Running Record Lowered by Han D'Or at Cincinnati—Other Sporting Events.

BASEBALL.
LONDON LOST AGAIN.
Port Huron, Mich., June 10.—London was badly beaten by the tail-enders yesterday. Crove was in the box for the visitors, and he was pounded unmercifully. On the other hand, Frisk proved a puzzle to the Londoners, who secured but five hits off him. The fielding on both sides was far from brilliant. Score: R. H. E.
Port Huron...2 0 0 1 0 0 4 13 5
London...0 0 0 1 3 0 0 4 5
Batters—Frisk and Bland; Crove and Roening.

HAMILTON BATTED HARD.
Hamilton, June 10.—Hard hitting won the game for Hamilton yesterday. Bert Elton led in the slugging. He drove in one run in the fourth, three in the fifth and three in the seventh, making a record of a single and two home runs in four times at bat. The Hamiltons fattened their batting averages by making 18 hits for a total of 29 bases. McCann pitched for Hamilton, and was a little wild in the first three innings, but after that did great work. HENDERSON WILL DO.
Referring to Wednesday's game at Saginaw between the Saginaws and the Tigers, the Courier-Herald says: Henderson, the new umpire appointed from Saginaw to take the place of Grogan, resigned, officiated in his first league game with general satisfaction. He tries to be eminently fair, and will not accept pointed criticism from impudent players, in which he will always be supported by the better element of ball players.

FLYS.
The Port Huron Times says Umpire Grogan suffered another "relapse." Any old team could whip London just now. Bates will play right field for St.

SCROFULA.

"My little boy, aged 7 years and 15 months, was a victim of Scrofula on the face, which all the doctors said was incurable. To tell the truth he was so bad that I could not bear to look at him. At last I tried a bottle of Burdock Blood Bitters, and before it was half used he was gaining, and by the time he had three bottles used he was completely cured. I cannot say too much in recommendation of B.B.B. to all who suffer as he did." JOSEPH P. LABELLE, Maniwake P.O., Que.

There can be no question about it. Burdock Blood Bitters has no equal for the cure of Sores and Ulcers of the most chronic and malignant nature. Through its powerful blood purifying properties, it gets at the source of disease and completely eradicates it from the system.

BURDOCK BLOOD BITTERS.

Thomas, Kellackey being released. Bates will catch when Andy Reid isn't feeling well.

Manager Murphy of the Port Huron ball team says there is no danger of the Port Hurons not finishing the season.

The Irish Nine of Lucan are thinking of challenging the Londoners to an exhibition game.

The Londoners, however, are playing steady ball. They are keeping up their average of five hits per game.

Bay City will push its claim for \$110 against Hamilton for failing to appear for the scheduled game on June 2. Bay City needs the money, and perhaps the Hamilton management should be taxed for its stupidity.

Hamilton will let Pitcher Miller go. Pitcher Larson, of Hamilton, is out of the hospital, and will begin training at once.

F. B. Eddy, the center fielder and hard hitter of the Saginaw team, is a Canadian. His home is in Waterford. First Baseman Meeks, of last year's Port Huron State League club, who afterwards played with Kansas City, has recently been released by that club, and will be back in his old position with Port Huron today. He played two or three games last year, and is a strong man.

Hamilton Herald: Billy Congalton has a brother, about 17 years old, who is following in his footsteps on the diamond. In a game between two teams in the Guelph League, Congalton had a three-base hit, a single, two stolen bases, and scored two runs.

If there is anything left of the London team this week the Hamiltons will finish it next week.

London has won one game in the last nine played. The winning of that one demonstrates again the glorious uncertainty of baseball.

TROTTER AT STRATFORD.

RACING IN ENGLAND.
London, June 10.—At the second day's racing of the Lingfield Park spring meeting yesterday, Sir R. Griffiths's 4-year-old bay filly Merle won the Prince of Wales' cup, August Belmont's Bridgman was second, and Capt. Cookson's Guy Lumley third.

SOME OF THURSDAY'S WINNERS.
At Gravesend, New York—Cormorant, Peep o' Day, Counsellor Wernberg, Manhasset, Sanders, Imperator and Cleopatra.

At Harlem, Ill.—Martha Fox, Harry Shannon, Spirituelle, O'Connell and Al Prescott.

At St. Louis, Mo.—Dr. Sam, Pell Mell, Deerfoot, Crockett, Gold Band and Montgomery.

AT DETROIT.
Detroit, Mich., June 10.—Four of the six favorites won at Highland Park yesterday. Summary:

First race, selling, 6 furlongs—Taldillo 1, Prima 2, Wenrock 3, Time, 1:15.
Second race, selling, 6 furlongs—Revanna 1, Termday 2, Thanksgiving 3, Time, 1:02.

Third race, selling, 6 furlongs—Farbell 1, Skillman 2, Eager 3, Time, 1:15.
Fourth race, 4 1/2 furlongs—Deblais 1, Contravene 2, Mouseloff 3, Time, 1:04.

Fifth race, selling, 1 mile—Belzara 1, Onalaska 2, Barney Adler 3, Time, 1:44.
Sixth race, selling, 1 mile—Themozon 1, Pearl 2, Hurns 3, Time, 1:42 1/2.

LUCAN RACES.
Lucan Sun: A meeting was held at the Queen's Hotel the other night, at which final arrangements were made for the races on July 1. There will be three classes—a free-for-all, a 2:30 and a 3 minute race, for which \$350 in prizes is offered. The purses are just double what the association offered last year.

A GREAT RACE.
Cincinnati, O., June 10.—Plaudit met his first defeat of the season yesterday in the Latonia Derby, after one of the keenest contests ever witnessed on the western turf. Han d'Or is the colt that lowered the colors of the maiden pride, and in doing so he also lowered the world's record for a mile and a half. Ten thousand people cheered Han d'Or as he came down the stretch like a wild horse. Martin was whiplike a wild horse. Han d'Or crossed the line a winner by three lengths, amid excitement. No race run at Latonia ever created more enthusiasm.

The track was fast and all conditions favored good time. There were but two starters, and little time was lost in getting them away. Han d'Or at once set out to make his own pace. The first half-mile was covered in 59 seconds, the six furlongs in 1:14 1/2, seven furlongs in 1:27 1/2, a mile in 1:40 1/2, and an eighth in 1:54, and the mile and quarter in 2:07 1/2, the final time being 2:24 1/2, which is a quarter of a second better than any previous record. Han d'Or led for three lengths until the stretch was reached, when Plaudit tried to make his run, but the killing pace held on him and he failed. Plaudit was 1 to 7 in the betting, while as good as 5 to 1 could be had on Han d'Or. The Derby is worth \$7,000 to the winner, which is the property of George A. Slingerly. The other winners were Komarski, Harry Par- use, Boardmaker, Beana and Gid Law.

The Railways.

Sir William Van Horne Coming to Canada.

G. T. R. Earnings Keep Up—Sleeping-Car Mails.

Earnings of the Grand Trunk Railway system from May 22 to 31, 1898, \$386,132, same period in 1897, \$382,672; increase in 1898, \$3,460.

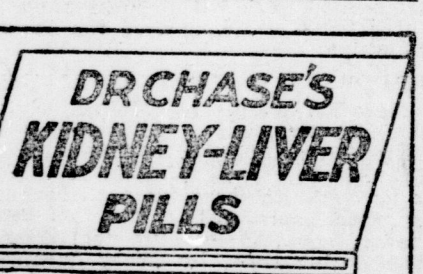

Sir William Van Horne, president of the C. P. R., who is at present in England, will sail for New York by the Lucania on Wednesday, the 15th inst., and will probably reach Montreal, via New York, on the 23rd.

Sleeping-car mails are the latest luxury provided by enterprising American railway companies for the comfort of women travelers. Like stewardesses on ocean steamships, they will doubtless soon be so indispensable as to make railroad passengers wonder why the innovation was so long delayed.

The Indian department has secured a warehouse on the C. P. R. track at Winnipeg to be used for distributing all the supplies to be sent out to the various Indian reserves. Major McGibbon, of Port Qu'Appelle, will be in charge for a month. Formerly the warehouse was in Regina. The treaty payments will start on July 1.

The mileage operated directly by the Pennsylvania Company is 1,075 miles. Total revenue for 1897 was \$2,325,259.40. Less amount paid for interest on bonds, general expenses, taxes, etc., \$1,225,438.17, leaving a profit for the year of \$1,099,821.23. An increase as compared with 1896 of \$771,554.54. There was an increase of 4,348,456 tons in the freight traffic of the north-west system. The number of passengers carried on the lines operated directly decreased 544,107.

The Grand Trunk Railway have laid about 46 miles of new track in the Niagara Falls and Hamilton. There are still 80 miles to be laid in the southern division and 40 miles of new rails are expected this week. A new double track is now under construction just west of St. Catharines. About 39 of the latest style of passenger coaches have been commenced in the G. T. R.

MR. J. H. BREMER, C.P.R. Agent, Windsor, Ont., says he was troubled with Dyspepsia, and Kidney and Liver trouble for about 12 years. He took Dr. Chase's K.L. Pills. They cured him, and now he recommends them to others.

HENRY MOORE, Pickering, Ont., says that for Constipation and Stomach Troubles he never found the best of Dr. Chase's K.L. Pills. They cured him, and now he recommends them to others.

MILLIONAIRE SHOT DEAD. Hazleton, Pa., June 10.—H. S. Vanwinkle, a millionaire coal operator and philanthropist, of this city, was accidentally killed here while participating in a pigeon shoot, with friends. Mr. Vanwinkle leaned over his gun with the barrel pointing to his body. In some manner the trigger was touched, setting the weapon off. The full charge entered his body, and he died soon afterwards.

Give her time, and almost every soap-using woman will come around to the use of Pearlina. The soap- using habit is strong, to be sure. After all these years some women can't put it aside without doubting and trembling. But when a woman once wakes up to the fact that she needs and de- serves the very best household help, then the arguments in favor of Pearlina prove stronger than any soap habit.

There's ease, economy, quickness, health
and safety in Pearlina washing and cleaning.

Millions Now Use Pearlina

Strict Investigation Will Follow.

Trustees to Get at the Bottom
of the Scarlet Fever Prevalence
at Talbot Street School.

The committee appointed by the board of education to investigate the scarlet fever cases in the Talbot street school met in session yesterday afternoon. Trustees McCormick, Gillean, McRobert (chairman), Macpherson and Secretary McEwen were the participants.

A message was received from Dr. J. B. Campbell (who is acting medical health officer in Dr. Hutchinson's absence), stating that only three cases had been registered as placarded in the last three months. Miss Campbell, director of the Talbot street kindergarten, stated that there had been eight cases in her room, and that she had received only one doctor's certificate. Miss Miller, head lady teacher at the same school, had one case in her room and received a doctor's certificate, stating the contagion was past. One boy had only been away 10 days, and received a doctor's certificate.

Secretary McEwen said he had received no notification in any of the cases. Chairman McRobert said Dr. Campbell had informed him that the rules governing such cases had been sent to every doctor in the city. Dr. Hutchinson had said that if the committee would get names, facts and dates, he would act in the matter. A number of the trustees said the negligence was apparently with the doctor or the medical health officer, and the matter should be thoroughly investigated. The chairman also informed the members that a strict investigation would be made. The teachers of Talbot street school will be asked to make out reports regarding the cases, if any, in their respective rooms. Principal Stewart, who was present, will look up the matter. The meeting adjourned till Monday afternoon next. Dr. Hutchinson will be requested to attend the meeting.

Eacrett's Bazaar

Down goes the price of Screen Doors. We are going to sell the balance of our stock of Screen Doors and Screen Windows, while they last, at prices unheard of before. The Plain Door for 65c, complete with hinges and screws; the Medium Fancy for 90c, which sold for \$1.15 regular; the \$1.25 Door for \$1. The 20c Screen Window for 15c; the 25c Screen for 20c, and the 30c one for 25c. This offer will be good for next week only, commencing on Saturday June 11, and ending the following Saturday. We have made a like reduction on Hammocks for one week only. Just received another lot of Books. A splendid large Paper-Covered Book for 5c, worth 10c; a beautiful Cloth Bound Book, usually sold for 35c, cut price 15c. This offer is positively a snap. For the balance of the season we will sell Ladies' Leather Belts at a big reduction. Received another big shipment of Glassware. Tumblers, 15c per half dozen; 8-inch Berry Dishes, 10c each; 6-piece Table Sets for 25c; Oblong Fruit Dishes for 5c each; Berry Nappies, 15c per half dozen.

Umbrellas and parasols recovered, also baby carriage tops in all shades of satin.

Will Not Have It.

Strong Protest Against the Chemical Sewage Plant.

South Londoners Object to Its Location on Evergreen Avenue.

Dr. Campbell Tells Why the Original Scheme Should Be Carried Out.

The Chemical Scheme Rejected in 1896—Mayor Wilson Says He Will Oppose the Sewage Farm Plan—Lively Meeting of the Sewerage Committee.

The room in which the sewerage committee met last night was invaded by a number of ratepayers from South London, who appeared to back up their petition, strongly protesting against the proposition to erect a chemical sewage plant at the foot of Evergreen avenue and complaining of the nuisance created there now by the deposit of city sewage. They asked that it be conveyed down the river to the second cove.

P. H. Bartlett, their legal representative, first spoke. He said the petition was signed by 100 ratepayers. It was a question, he went on, whether the council had power to apply to the proposed chemical system the money voted by the ratepayers for a different system down the river. To establish the proposed sewerage plant at the foot of Evergreen avenue would be a grave injustice to the ratepayers in that vicinity, a number of whom were ready to take legal action if the council's action was not favorable. The sewage deposited now in the river at the foot of Evergreen avenue was offensive, and should be carried farther away.

Mr. John Taylor said the proposed sewerage plant would destroy the value of all the property in the neighborhood.

Mr. David Sare asked if it were really the council's intention to establish a sewage plant in that locality. He understood that it was a pet scheme of the mayor's, and that the chairman (Ald. Cooper) supported it. It would be a dastardly thing, fancy a man eating his breakfast and a double team of slugs going by. Even if it did not smell, the thought of it would make one sick.

Mr. C. Sutherland said he had no objection to the chemical plant, but it should be at a distance. Had the residents in that part of the ward known that a sewage plant might be erected there, the bylaw would not have received one vote. It would reduce the value of property 50 per cent.

Mr. H. B. White also condemned the proposal and protested against the

It is Highly Palatable...

Don't be under the impression that Abbey's Effervescent Salt is unpalatable. It is a most delicious preparation, the taste so pleasant, in fact, that it is oftentimes taken as a beverage. It is an unequalled thirst-quencher. But aside from these excellent qualities, it is the most wonderful regulator of health known.

Abbey's Effervescent Salt

taken daily, will purify your blood and cleanse your system. Its effect is mild—almost imperceptible—but certain. Take it every day, and you will enjoy constant good health. Abbey's Effervescent Salt, which is prescribed and endorsed by physicians, is a standard English preparation which all druggists sell at 60 cents a large bottle. Trial size, 25 cents.

present nuisance at the end of Evergreen avenue.

Ald. Cooper said the committee had visited the place and noticed no odor. Mr. Sare—You have been around so much, putting your noses down so many holes, that you cannot smell it. (Laughter.) It is filthy.

Ald. Dreaney said he did not think it would be right to locate the works at Evergreen avenue, and the council did not intend to.

Ald. Cooper said that the chemical sewage plant was in the hearts of the cities in Europe. Mr. T. H. Smallman had seen the operation at Glasgow, and the water from the plant was so pure that people could drink it. It was no more a pet scheme of Mayor Wilson's than the sewage farm was a pet scheme of Mayor Little's. There would be more odor from the sewage farm than from the chemical plant.

Mr. Sare—Well, take it farther down.

Mayor Wilson said the council desired to protect everybody's rights. "Go down to Evergreen avenue," said the mayor, "and people object to it. Take it farther down, and people there object to it. What are we going to do? Are we going to pollute the stream all the way to Chatham, where people drink the water?" The mayor contended that the sewage farm would create a nuisance for the district, and the people elected him. He would never consent to it. He didn't want to put the plant at any man's door. Dr. Bryce, chairman of the provincial Board of Health, said he was willing to see the system changed and the chemical treatment introduced into Ontario. The sewage now run into the river was a nuisance.

Mr. Sare—It will be just the same with the sludge from Mr. McDougall's scheme.

The mayor said no alderman would object to recompensing property holders for any loss.

Mr. Sare—You can't recompense a man for a death or two.

Mayor Wilson contended that supposing the sludge was taken down near the cove, there could be no objection. He asked the petitioners to bear with the council for a little while.

Ald. Cooper said that the Provincial Board of Health had agreed to any scheme if it was satisfactory. The city created a nuisance it would have to remove it.

Dr. Cl. T. Campbell said the petitioners were perfectly right in objecting. The chemical precipitation scheme was no new thing. It was discussed in 1896, when Mr. McDougall was here. It was looked into and referred to the petitioners, who, while they had no objection to the scheme, refused to pay the cost of the expenses. It would cost some \$50,000 to carry the sewage to the farm and erect the plant. It would have been better if the city had gone on with the original plan. Dr. Campbell dissented from the statement that the sewage farm system was being displaced in the old country. The local system was not a sewage farm system but that of intermittent filtration, which was different, as it did not require so much land. The sewage was filtered. Mr. McDougall's scheme was the same, except that the sewage was chemically treated before filtration. The sludge from the chemical plant was innocuous whereas the sludge was offensive during the process of dry rot. In the United States farmers would not carry it away. The plant had not been tried in this country, and it was not likely Dr. Bryce would like to see it adopted as an experiment, but he (Dr. Campbell) did not think London should make the experiment. If the system as intended in the first place, was carried out, even if the filtration beds were not ready and the sewage went into the river, it would be far away from a residential neighborhood.

The Mayor—It is not use sand in intermittent filtration?

Dr. Campbell—Partly sand and partly gravel. It is something like the asylum scheme.

The Mayor—Everybody knows that the sand closets are a failure.

Dr. Campbell—It is a different principle altogether. The asylum system isn't a failure.

The Mayor—Mr. Chipman told us it would cost \$20,000 to make the sewage not a nuisance.

Dr. Campbell—You are mistaken. He said it would cost \$20,000 for chemical treatment.

The Mayor—He also said it would cost \$50,000 or \$60,000 for the farm system.

Dr. Campbell—No, no, Mr. Chipman said it would cost no such thing. The mayor said that the asylum sewage farm required a great deal of labor.

Dr. Campbell—But the city doesn't propose to grow vegetables.

The Mayor—Isn't it the intention to run the sewage into the river?

Dr. Campbell—The Provincial Board of Health understand that when there is lots of water running in the river the sewage may be run into it. You know that when there is a good flow of water the sewage is dissolved and purified.

The mayor moved that the engineer report on the best location for the chemical sewage works on the other side of the railway tracks. Carried.

On Ald. Douglas's motion, the property required for carrying the sewer from Evergreen avenue to the cove will be purchased before tenders are called for.

The committee decided to pay Mr. J. A. Thomas \$1,000 for his land and bridge by the west end of the King street bridge.

There were present: Ald. Cooper (chairman), Ald. Carrothers, Douglas, Dreaney, Mayor Wilson, Dr. Cl. T. Campbell, the engineer and secretary.

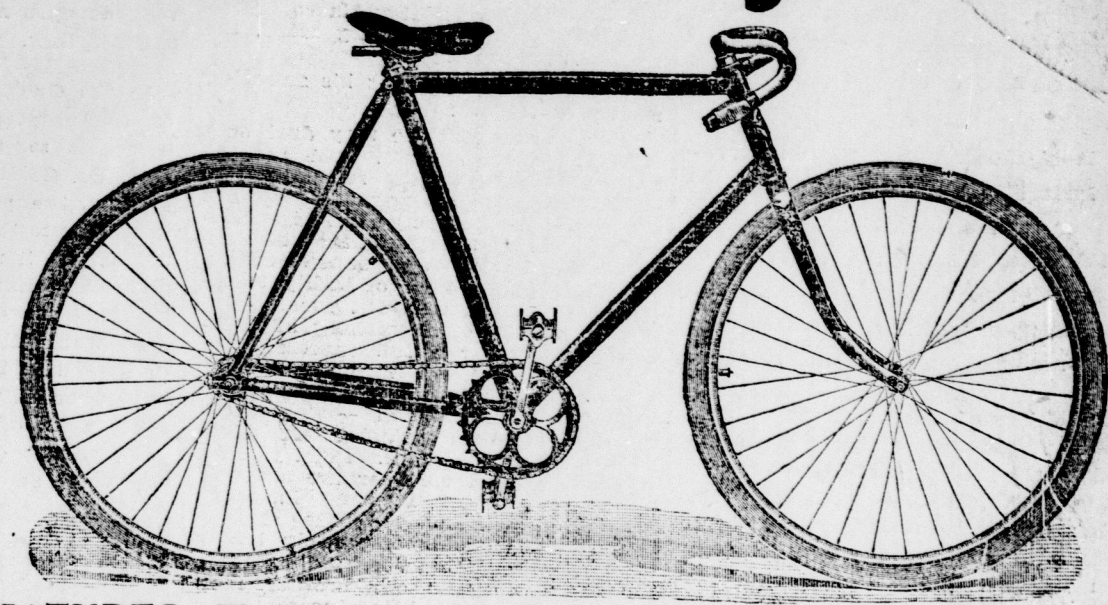

Entertained by Hon. David Mills.

Ottawa, June 9.—Hon. David Mills, the minister of justice, entertained the members of the parliamentary press gallery at dinner last evening at the Russell House. About 25 gentlemen sat down, including Sir Mackenzie Bowell, Senator Power and Mr. Math J. Griffin, parliamentary librarian. Towards the close of a very pleasant gathering one or two toasts were proposed and a few speeches made. Mr. Mills alluded to the power of the press in public affairs and acknowledged the growing sense of responsibility among writers of the press. Speaking of the senate, he said he had never moved for its reform. He thought that in times of public excitement and perhaps on other occasions a single chamber might act in a way to do serious mischief to the country, and as a general rule it was beneficial check on legislation to know that your action had to pass under the review of another body.

Sir Mackenzie Bowell made an entertaining speech, in which he said it was 64 years since he had first entered a printing office. He related a conversation he had with Sir Oliver Mowat, in which he said that gentleman of a pledge he had given to reform the

GREAT POPULAR OFFER! By virtue of the unprecedented purchase, in single order, of one hundred thousand (100,000) copies of this acknowledged masterpiece of the Century, thousands of persons, who heretofore have not felt able to purchase it, will now have an opportunity to secure it at reduced price. "The Greatest Achievement of Modern Times."

THE FUNK & WAGNALLS
Standard Dictionary
OF THE ENGLISH LANGUAGE.
It is incomparably the greatest, as it is positively the latest, most complete and most authoritative new dictionary in existence. It is everywhere the standard.

ENTIRELY NEW. It is not a reprint, rehash, or re-form from cover to cover. Vision of any other work, but is the result of the steady labor for five years of over twelve scores of the most eminent and authoritative scholars and lexicographers. Nearly 100 of the leading universities, colleges, and scientific institutions of the world were represented on the editorial staff; 70 United States Government experts were also on the editorial staff. Over \$500,000 were actually expended in its production before a single complete copy was ready for the market. There is no dictionary welcomed with such great enthusiasm the world over. As the St. James's Dictionary, London, declares: "It is the admiration of literary England. It is the pride of the literary world. The highest praise has come from all the great American and British newspapers, reviews, universities and colleges, as well as all classes of intelligent men and women everywhere."

The regular subscription price of the Standard Dictionary, bound in full leather, is \$15. We will now supply the complete work in one thick, massive volume, elegantly bound in cloth, at the special price of \$12. This is a unique opportunity to secure the complete work at a surprisingly low price of \$12. Postage extra. Order from your bookseller, or from **WARD & GOW (LINCOLN BUILDING) NEW YORK.**

London Advertiser.

(ESTABLISHED 1863.)

FOUNDER AND
MANAGER, John Cameron.

London, Friday, June 10, 1898.

Had Not the Courage to Call for
a Vote.

It is significant that the Conservative leaders in the Dominion House of Commons did not challenge a division of the members on the question of the right of the Senate to destroy the principle upon which the franchise of the House of Commons should be regulated.

The House of Commons, by a large majority, and in accordance with the sentiment of the great mass of the people of Canada, resolved that the voters' lists, compiled by the local officials, should be the voters' lists upon which to hold elections for the Dominion. The Senate majority, in its determination to make legislation next to impossible except when it is controlled by its party friends, desires to force upon several of the provinces a system that they do not desire and which the Government of Canada and the large majority of the members of the popular chamber refuse to compel them to adopt, as by so doing they would destroy the principle of the measure.

This is how the case now stands. Whether the Senate majority will interpret the failure of its party friends in the House of Commons to go on record in favor of the Senate contention that it shall control matters with which it has hitherto been held that it has absolutely nothing to do remains to be seen. In refusing to submit to Senate domination, the House of Commons has taken a stand which will have public approval, whereas the bitter partisans of the Senate have added the strongest reason to the many now existing for an early and effective reform in that chamber.

The billiard system in connection with public gatherings is destined at no distant day to become a thing of the past. In the London Methodist Conference, for example, the regulation now is that a fee of \$2 shall be collected for entertainment in a private house and \$3 for hotel fare. Abolition of the system will come before long.

An important change in the Dominion tariff was introduced by the Finance Minister last night, as a result of special inquiries with regard to the new preferential duty on sugar. The new regulation provides for the applying of the preferential tariff to all raw sugar produced in any British possession. This will not only tend to build up refineries in Western Canada, but ought to aid in making a market for Canadian goods in those British colonies that raise sugar.

Revolution in Education Proposed

Recent candid discussion on the educational system of the country has brought out the fact that not in Canada only is there a disposition to revise some popular notions hitherto entertained with regard to the best means of equipping the young for the battle of life which comes to all. We have not heard of a more novel proposition, however, than that which has been brought forward in a recent issue of the Atlantic Monthly. Mr. C. H. Henshaw, the writer, asserts that the present system of education in the United States, which is largely after the Canadian model, is better adapted to turn out dullards than geniuses. He would remedy it by the complete abolition of present methods in the lower grades, and the substitution of gymnasium, music, manual training, free-hand drawing, and language, their importance varying in the order named. This startling proposition seems not irrational when viewed in the light of Mr. Henshaw's reasoning. His argument is founded on the individual man, his physical and emotional possibilities, and his relation to the present moment as distinguished from his relation to classical literature, historical persons and places, and the results of science. The child will become a genius under this new method, not by seeing how other geniuses have done, but by developing his own latent resources to the highest degree and depending upon their spontaneous action. If asked to sum up his idea in a single line, Mr. Henshaw says he finds its best expression in Walt Whitman's "Song of the Open Road," where he says:

Henceforth I ask not good fortune,
I myself am good fortune.

"In these few words," says Mr. Henshaw, "you have the whole of the modern impulse—the denial of outside possession, of conformity, of premeditation, the assertion of the individual man, the present moment." In the development of this thought, Mr. Henshaw ransacks history and biography to show that the world's best men and best ages have been the least hampered by the schoolmasters. Lincoln, Shakespeare, Walt Whitman, Stevenson, Kipling, Darwin, Audubon, Agassiz, John Muir and Faraday are some of the names he presents. The contrast between the spontaneous golden age of Pericles and the succeeding dark era of scholasticism furnishes a strong argument. Other illustrations from daily life are brought in as confirmation. He says:

"I speak as warmly as I do because I

rebel to see the tragedy of Esau reenacted on our modern stage; because I rebel to see boys and girls, men and women, sacrifice their birthright for the cheap adornment of a formal education, for a bit of property for a sun position, or for any other gaudy of potage, however savory, it may appear in a moment of conservatism and weakness, when I know that the real charm of life is the beautiful and accomplished organism, the inquiring mind, the undimmed heart."

Mr. Henshaw outlines his sweeping reform as follows:

"For the present we may deal only with the lower schools. The modern impulse to life would reform these schools, not by packing them up, but by wholly reorganizing them; by abolishing entirely the present curriculum of formal study, and substituting a thoroughgoing system of bodily training—a system carried out for the explicit purpose of furnishing an adequate tool for the full expression of the emotional and intellectual life. Such a system would include but five branches of instruction: gymnastic, music, manual training, free-hand drawing, and language. I am naming them in what I consider the order of their importance. Language, last, because I believe that expression in action is incomparably better than expression in words, that it is far better to help our brother man than to commend helpfulness, to be brave than to praise bravery, to paint a beautiful picture than to talk about art, to love than to write love sonnets; and also because I am quite sure that sound content will find suitable dress. The present wall over our deficient English composition is at bottom a wall over deficient thought. It is overwhelmingly difficult to say anything when you have nothing to say."

He comes thus to the defense of the five branches in the curriculum:

"I place gymnastic first—not athletics, but gymnastic—because it seems to me that good health and abounding vitality are the foundations of all other excellence. I believe with Dr. Johnson that thick men are racials. Ill health is a form of serious immorality, and almost perfect source of social unhappiness and vice. But gymnastic has a larger mission even than good health. As an educational agent, it is to add to the body beauty and grace and usefulness, to make it an admirable tool for the admirable purposes of the heart and mind.

"The same human motive makes me place music second; and by music I mean the artistic cultivation of the voice in both speech and song, as well as distinct musical training on some suitable instrument. What a tremendous contribution to the charm and success of life would be wrought by this simple innovation! We lose much through our harsh voices, in the general art of living. And then, too, music and song add so much to the joy of life. The sailor singing at the capstan, the negro singing in the cotton-fields, experience an uplifting of spirit that we cheat ourselves by not sharing.

"In the third branch, manual training, we have profitable occupation for as many hours a day as we will—occupation touched with sincerity, and reality, and therefore morally acceptable. It is possible to make many beautiful and useful things, and to cultivate a cunning hand. But meanwhile, and better even than this, while the children are gaining muscular dexterity they are also gaining an equal mental dexterity, and are coming into that best of all possessions, the possession of themselves. I value manual training so highly, not because I want to turn our boys into artificers, and our girls into clever housewives, but because I want to turn them into men and women of large personal power.

"In free-hand drawing we have only another method of expressing the self, and one to be cultivated purely for this purpose, not, therefore, by giving the children set tasks, but by allowing them to express themselves in such drawings as they choose to make, helping them only in the method of representation and by limited suggestion.

"I come once more to the question of language, and I want again to call attention to the fact that in importance it stands at the end of the list. All the other branches, in the hands of cultivated teachers, would involve constant practice in expression, and the specific study of English might even be omitted. Where it is undertaken, however, it might profitably be limited to spoken English, and the classes in reading and writing might be made entirely voluntary, drawing the children to come to these arts in their own good time and as the result of their own impulse. If at all they did not know how to read, it would be surprising, but not in the least alarming. Few children in educated families, if left to themselves, pass the age of eight without learning to read, and many learn at four. At the same time one other spoken language might be learned, for a perfect pronunciation can hardly be acquired later than fourteen. French has the advantage of being still the language of art and of the world, and of being a great practical help in the formation of a clear and beautiful English style."

Two questions remain: What would be the programme after this novel course in the lower school? and what would be the result as regards children whose schooling ceases at fourteen or thereabouts?

"We should be sending up the most excellent material to the high school, where we to carry out such a scheme of organic culture, and in four years the children would be amply qualified for college. I speak so confidently because it is a matter of experience. In my own case school life covered only two years in all, and this only five months were given to direct preparatory work. The requirements were not exacting now, but with such splendid bodily equipment as these children would have, surely the work could be well accomplished in four years.

"One may feel disposed to ask, however, 'What of the children who do not go to college, or do not even go to the high school?' It requires, I think, no great boldness to maintain that even for them, perhaps especially for them, this school training would still be the best; for it has as its goal personal power and accomplishment and goodness and beauty, and these qualities count vastly more in the practical conduct of life, than the entire content of the present lower-school formalism. And so I commend the scheme to Jack and to Margaret, whether they go to school many years or few."

To carry out these views would certainly bring about a revolution in present-day educational methods, and it would be highly interesting to learn how many of our experts in education agree with Mr. Henshaw. In the early part of his contribution, he hints at a "scattered handful of men and women, a saving-minority, but strong in destiny," who hold the same views, and he holds that with

them rests "the cause of humanity." That is a large claim, but it will scarcely do for anyone to lightly brush it aside, as unworthy of notice, seeing that many great movements have been inaugurated by the few, who at first were scoffed at. The contentions set forth will at least bear discussion with an open mind by the professional educationalists.

In the Guelph Methodist conference, on the proposal to admit women as delegates to the general conference, Rev. Dr. Griffin made a strong protest against the proposition. If women were sent to the general conference, he asked, was it not within the bounds of possibility that a woman would be appointed as general superintendent? How would they like that? he asked, in fearful tones. The doctor might have gone a little further, and inquired as to what might happen if some day the monarch of the greatest empire in the world should be a woman.

Camp Criticism
By Officers.

Good Times Responsible for the
Weak Condition of the
Battalions.

A Change Needed in System, Methods,
and Uniform—The Brigade Clerk.

"It was a quiet day" is all that can be said of the camp yesterday. There were no extraordinary developments, beyond the fact that several of the men were overcome by the oppressive heat and compelled to drop out of the ranks. The guards mounted by the different battalions are every evening subject to much criticism by Lieut. Buchan, the brigade major.

An officer well versed in military affairs expressed the opinion last night that camps as they are now regulated should be severely criticised. He pointed to the fact that improvement in trade was the cause of so many of the worst men falling out of the battalions, some of which, he said, were as good as they were two years ago.

Surgeon-Major Doome, ex-M. P., said that during his parliamentary career he had impressed upon the late government the necessity of measures that would be conducive of better men, and consequently better results. "For years," he said, "the militia of Canada has these camps, as at present regulated, eat up much money that might be better applied. If the system were reformed, paying them 60 cents each for the first year at camp, 75 cents the second, 85 cents the third, and \$1 the fourth, we would have men of better physique, good sense, more intelligence. There would be more enthusiasm. People of this kind would give up their boys a good deal, and receive them home with enthusiasm. There would be no more 'bums' and 'tramps,' whom the people are glad to see go away, and whom the army will never come back. The number of men per company might be reduced to 20, or about half what it is now. Then there should be a marriage allowance, and men to eat their rations in. Now they have to eat and sleep in the one spot, and eight in a tent. That is disgusting to the better class of young men, and farmers' sons especially. The commodiousness of the barracks, which would supply lumber for accommodation, is a great advantage. The men who attend camp for four years would receive sufficient instruction to fit them for the active life of a soldier. Some, of course, would always be dropping out, but they are good men, and even if they only attended one camp, they would be more proficient than the majority of the volunteers are now in ten years. Not 20 per cent of the men who are in camp will go to the next with any of these battalions. The matter of uniforms should be taken into consideration. The heavy cloth tunic and breeches worn should be superseded by a linen jacket of some kind, and a neat felt hat, with brim, enough to protect their face and neck. The men when at rifle and manual exercises are compelled to take off their coats, and drill in their shirt sleeves. Some, of course, would always be dropping out, but they are good men, and even if they only attended one camp, they would be more proficient than the majority of the volunteers are now in ten years. Hood's Pills

Are much in vogue always ready, efficient, and reliable. They prevent a cold or fever, cure all liver ills, sick headache, jaundice, constipation, etc. Price 25 cents. The only pills to take with Hood's Balm.

Commercial.

Local Market.

London, Friday, June 10.
Wheat, white fall, per bu. 90c to 90c
Wheat, red fall, per bu. 90c to 90c
Oats, per bu. 34c to 34c
Peas, per bu. 55c to 57c
Corn, per bu. 80c to 85c
Barley, per bu. 45c to 45c
Rye, per bu. 30c to 30c
Beans, per bu. 40c to 40c

Receipts of grain and provisions were small today. The probable cause was the cloudy weather. Even hay was scarce. Prices unchanged.

LAND PLASTER

FOR SALE AT
A. M. Hamilton & Son's
372 Talbot St. Opp. Market Square.

Oil Markets.

PETROLIA, June 10.—Oil opened and closed at 81 1/2.
PITTSBURGH, Pa., June 10.—Oil opened 57c.

Rising prices for the past four market days.—The following table shows the quotations per barrel at Liverpool for the three previous market days, in the case of wheat highest prices are given:

**Anglo-American
Understanding.**

**Position of the Liberal Party
Explained.**

Protest on Intervention in the Spanish-American War.

"PROTEST FROM JAPAN.

Washington, June 10.—Japan has entered a strong protest against the duty levied for goods shipped to the Philippines, provided for in the war revenue bill, on the ground that it is a violation of the 1898 treaty. The bill, on the 10 cents a pound on all teas, cheap goods, will have the effect of ruining Japanese trade with the United States.

ANGLO-AMERICAN UNITY.

London, June 10.—The Westminster Gazette, after afternoon, commenting upon the American attitude toward the Liberals are hostile to the proposed Anglo-American understanding, says: "The Anglo-American understanding is more than to draw close the bonds between the United States. If its leaders are wise, it will point the way to a new handling, it is because of the present condition of foreign affairs that the best grounds for fearing the future are the grounds for fearing the past."

"The lack of wisdom and perseverance. The plea for care and caution in dealing with the United States, it is because we are anxious to see the

BRITAIN AND THE SPANISH-AMERICAN WAR.
London, June 10.—In the House of Commons today, Mr. A. J. Balfour, the foreign secretary, replied to a question as to whether the British condition of the populace of Cuba and the Spanish-American evils arising from the Spanish-American war were the Spanish government or any of the European governments have any intention of intervening to prevent the hostilities by inducing one or both belligerents to negotiate terms of peace. He said that the British government will gladly take any favorable opportunity for promoting a cessation of hostilities, but that it was not for them to take any action upon their part. This purpose can only be understood if it be kept in mind that the prospect that it will be well received by the parties and of its being likely to lead to a reconciliation between them. Unfortunately, here, the British government is believing this condition

Give Holloway's Corn Cure a trial. It removed ten corns from one pair of feet without any pain. What it has done once it will do again.

KILLED WHILE TELEPHONING.
South Bend, Ind., June 10.—B. F. Holloway had occasion to use a telephone during a thunder storm. He said a few words, when lightning came down the wire, killing him instantly while the man who was talking at the other end of the line was shocked down.

CAMP BLACK IS DESERTED.
Blountsboro, N. C., June 10.—Southern camp followers have deserted the "CAMP BLACK" and would use Dr. SIEGERT'S ANGIO-CHLOR-BITTERS to offset the ill-effects of change of water and climate.

Sir Adolphe Chapleau Dying.

A dispatch from Montreal says that Sir Adolphe Chapleau lies in a dying condition at the Windsor Hotel in that city. Since his return from the United States health resort, Sir Adolphe has sunk rapidly, and it seems to be only a question of hours, or days at the most, when the end will come.

Sir Adolphe Chapleau, who is in his 58th year, has long been a prominent feature in Canadian public life. He has, in fact, been the leading Conservative statesman in Quebec Province for years, and was regarded as by all odds the best orator in the province for many years. He entered the Quebec Legislature as member for Terrebonne at Confederation, and in 1873 joined the Oulmet Government. He was called to the Premiership of the province in 1879, and three years later joined Sir John Macdonald's Government as Secretary of State. When Sir John Macdonald died, he became a member of the Abbott Administration, and held that position till he became Lieutenant-Governor of the province, which was his last official position. If he had regained his health, it was Sir Adolphe's intention to re-enter public life, but it seems to have been willed otherwise.

Topics of Today.

At the Toronto Methodist conference yesterday it was decided that under the discipline of the church women are not eligible as delegates.

Latest news from Winnipeg is to the effect that the crop outlook is excellent. There is a large increase in the acreage of wheat and other cereals in Manitoba.

An apt tribute to Sir Wilfrid Laurier's widespread reputation as an orator is found in the San Francisco Bulletin of June 4, which prints the full text of the premier's eloquent utterance on Mr. Gladstone in the Canadian House of Commons.

LATEST WEATHER FORECAST

Toronto, June 10-10 a. m.—Probable

ties for the next 24 hours for the Iowa lakes region: Moderate to fresh easterly winds; mostly fair and a little cooler today. Showers locally tonight, and becoming more general tomorrow.

Around the City

—Miss Cecelia Stinchcombe, city, is visiting friends in Norwich, Ont.

—The damage resulting from the fire at the Tecumseh House last night was about \$200.

—The city council will probably meet on Tuesday evening to consider the Normal School site.

—Gordon, a young son of Mr. George Heaton, of London, had a finger cut off in a lawn mower accident.

—Mrs. R. J. C. Dawson and Miss Anna Dawson left for Toronto today to attend the inauguration of Toronto University. Miss Dawson will have the degree of B. A. conferred upon her.

—A city council deputation will go to London this way to look at the chemical treatment of sewage, the system there is somewhat different from the one which the London council is considering.

—At the police court this morning Magistrate Parke discharged one defendant, reprimanded a driver for obstructing the view near the ball grounds, and fined three bicyclists—

LONDON HONOR STUDENTS

At Toronto University—Brighten Distinctions Themselves

The honor list of the Toronto University has been given out, and shows that eighteen Londoners secured honors. They are:

First Year—Mathematics and Physics—**First class, P. A. Carson;** second class, Miss C. MacDonald. Natural Science—Second class, H. W. Davidson.

Second Year—Physics—**First class, W. J. Dromgoole;** Political Science—Second class, C. Garvey. Philosophy—**First class, H. Laidlaw;** highest standing, Mathematics and Physics—Third class, J. H. R. Gillespie. English and History—**First class, R. Bone.**

Third Year—Classics—Third class, Miss G. O. Burgess. Modern Languages—**First class, J. H. Laidlaw** (in history). Political Science—**First class, J. H. Laidlaw;** highest standing (below the line in ethics). Physics and Chemistry—**First class, R. Bone.**

Fourth Year—Classics—Third class

A DINNER PILL.—Many persons suffer excruciating agony after partaking of a hearty dinner. The partaken of is like a ball of lead upon the stomach, and instead of being a healthy nutriment, it is a poison to the system. Dr. Farmacia's Vegetable Pills are wonderful correctives of indigestion, acidity, and flatulency. They correct the food partaken of into healthy nutriment. They are just the medicine to take if troubled with indigestion.

**Baptists at
Poplar Hill.**

**Interesting Meetings of the
Lambton and Middlesex
Convention.**

**Large Number of Delegates Present—
Interesting Papers and Discussions
—Increased Membership in the
District.**

The convention of the Middlesex and Lambton Baptist Association at Poplar Hill closed yesterday. It was one of the most interesting in the history of the association. Able speakers, live choir and large audiences were some of the factors which conducted to the excellence of the meetings. The delegates were received with bountiful hospitality. Favorable conditions were such as to make the couple of days spent at the Hill pleasantly remembered for some time to come.

On Wednesday morning the delegates from London and the west were met

At Kolkoka on the arrival of the trains from the West, the Rev. H. C. Speller, of Sarnia, delivered an interesting sermon from the text: "The narrow way is the way of life." He dealt with the objects and its results. After the sermon Rev. Mr. Speller was elected Moderator, and the Rev. Mr. Speller, clerk. Committees were struck and the convention adjourned.

At the next morning's services were read and a statistical statement circulated. At 3 p.m., Rev. D. D. McLaurin, D.D., of the Methodist Episcopal Church, of Detroit, gave a very fine sermon on "Eternal Life." It was a grand illustration of the Christian's effort, and although the building was crowded, the heat oppressive the doctor held the audience for an hour and a quarter.

In the evening the Rev. J. W. C. of South London, read a paper on

to lead to God," which commended it
to the hearts of many. The speaker
T. S. Johnson, of Adelaide Street Baptist
Church, City, gave an interesting
address on "Home Missions," and Rev.
J. W. Yurru, Inala, outlined the character of
his work in the far east. He per-
sonally had been very successful, having
gained many converts. The past year-
ly. The difficulties and successes
achieved on the field there were en-
tirely typical.

Thursday morning Rev. Ira Smith
gave an able address on "The Place
and Purpose of the Young People's
Society," which evoked a most discus-
sion, pro and con. Rev. J. Phillips
of Sarnia township, read a paper on
the work and prospects of our associ-
ated churches, and spoke very ably.

The teacher's personality as
shown in Sunday school work" was the
subject of an interesting paper by Rev.
J. W. Yurru, Inala. D. read in the
noon. Prof. Farmer, president of the
Baptist Convention of Ontario, gave
an address on educational institutions,
dwelling upon the importance of the
Toronto Ladies' College, of the Woodstock
College as an academy and residential
college, and the importance of McMas-
ter University. During

Rev. T. H. Boothgill spoke of the
claims of the book room, and Rev. A.
C. Evans, of the same church, spoke
on "French Evangelization."

There were reported increases in
membership in all but four churches
and in all but these the de-
crease was very slight.

CAMP NOTES.

What Soldiers Are Talking About on the Heights.

At the close of the present camp the time of Lieut.-Col. Henry Smith as Director of C. C. will expire. Lieut. Col. Buchanan, the brigade major, has now prominently mentioned for the position.

There is speculation in camp over the fact that no men have been detailed for police duty on the grounds as in former years. The rumor has been advanced that there are among the ranks one or two men employed in the Dominion department, who are taking advantage of the time while it is slack, and would be an effective means of preserving order.

Mr. Crosby and Captain Putehof and some of the other officers are giving an afternoon tea to the ladies at the camp this county.

MIDDLESEX COUNTY COUNCIL.

Grants Recommended by the Finance Committee.

THURSDAY.

The council resumed business at 10 o'clock. Mayor Wilson addressed the meeting on the city's financial scheme, but no action was taken.

The first report of the finance committee was made by the chairman, recommending a disbursement of \$25 to the Salvation Army; \$25 to the Home; \$75 to the Teachers' Association; \$25 to the West Middlesex; \$25 to the Farmers' Institute; \$25 to the West Middlesex, and an increase of \$100 to Constable McLeod's salary.

A committee of five was appointed to bring the county to order for a reward for the arrest and conviction of the thief who had been charged with the carrying off of the bills and five promissory notes from the residence of Edward Morgan, lot 18, block 10, street 10, west of the water tower.

The committee was referred to the finance committee.

George B. Campbell and ex-Warden Edward J. McLeod were requested by the sheriff of the county to furnish a statement showing the number of days the prisoners in the county turnkey have been absent from Jan. 1 to the present.

Re the expenses in connection of the thief, Richard Evans, of Oxford, O., who was arrested by the police of this city, the finance committee was referred to the committee on the city's financial scheme.

A telegram was received from the Lambton county council re the Thedford bridge and jama in the River Aux to the latter body meets next week, when the matter will be discussed.

On motion of R. W. Jackson it was decided to allow the bridge of Allea Craig \$10,000 in their equipment of Allea Craig, as in 1895, but limited in 1897. Of this money \$8,000 will be taken from the fund of \$10,000 and \$4,000 from Hudson and Middlesex.

Mr. R. K. Cowan, local master in Lambton, extended an invitation to the members of the club at the London yacht club, Glenora, which was accepted by the majority.

There was no afternoon session of the council.

THE DAMAGE AT SANTIAGO.

On board the New York Herald dispatch boat, off Santiago de Cuba, via Admiral Sampson is confident that in addition to the great damage done to the forts and earthworks at the entrance of San Pedro de Macoris, more than one-half of the Spanish guns were actually dismantled. Perhaps even this may be found too low, when the effect that the shells of shot and shell becomes fully known.

It is now known that Naval Commander Hobson and the crew of the Commodore were not injured during the bombardment, although Morro Castle, which they are held prisoners of war, was struck by several shells during the bombardment Monday morning.

I learned today that during the night of Sunday the Dolphin wrecked a rail train with a shell from one of her guns. The train was loaded with Spanish troops, and it is known that many of them were killed.

THE PLUCKY CO.

Hobson and his heroic companions, sinking the Spanish battleship Merrimac across the harbor of San Pedro de Macoris, may not be released until some time. Today Admiral Sampson sent word of the capture of Admiral Sampson's message that the prisoners were in the hands of the mili-

[illegible][illegible]

appeal has been made to the pope to obtain the intercession of his holiness. It is asserted that the queen herself has even submitted to the pope a request for his intervention in order to allay public discontent.

The Times says editorially this morning: "Probably the next few days will form as a critical period as any in the reign of the present Spanish Government has yet known. Though it is useless for Spain to plead pleasing illusions, America will be disappointed if she has not done enough for the work in hand, and deal more quickly than seems to be anticipated in Madrid."

The Daily News says: "Spain's best friends can only urge her to submit without delay. There is no remedy in that fate, and there is no remedy in that respect."

The Daily News also says: "The diplomatic deals with the Lord Salisbury will insist upon the just

[Special to The Advertiser.]

Ottawa, June 10.—When the House
today, Mr. Sifton, in reply to Mr.
Bain, said that Reginald Knibb, Esq.,
had been appointed law clerk of
Indian department.

The Manitoba school fund bill was
a third time, and passed.

The house went into supply on the es-
timate of the business being dispo-
sed. On an item of \$88,800 for a fort-
nightly service between Montreal, Que-
bec and Manchester, England, during
winter season, Mr. Foster protested
as no tenders were asked for
Richard Cartwright admitted that
was the proper principle to pursue,
there were exceptions, and this was
of them. The proposition came from

consent men and an agreement was made with them.

Foster then blamed the government for not bringing down the concession.

Mr. Richard retorted that the contract was not signed, and the opposition wasted the time of the house so important because of this kind of thing not be reached.

Mr. Foster denied that the opposition had wasted the time of the house, and he referred to the time taken up with the McKenzie-Mann contract; yet in the same way the government abandoned the ice project.

Mr. Fielding replied that the opposition, with the assistance of the senate, had got into a bad position, and he thought and now they wanted the government to help them out. As to the membership subsidy, he said that in this arrangement with Mancheste people, even if a Canadian firm was unable to do it, the government of Mr. Pope (Conservative) approved the position.

Mr. Fisher explained that the company was interested in the Manchester Canal, and that was a guarantee that competitive freight rates in Liverpool would be secured.

Richard Cartwright said that the company was negotiating for a rumen freight case, so that the rate Manchester would not exceed that Liverpool. The contract was for 1000 tons of rumen to be shipped on the 1st of July. The Manchester Ship Canal was assisting the company by free tollage. The motion was passed.

GENERALLY FAIR—SOME LOCAL SHOWERS.

Toronto, June 9-11 p.m.—The pressure is comparatively high over the lake region, and a shallow depression in several portions of the continent, the most pronounced one being centered in Iowa. A few light scattered showers have occurred today in Canada, but on the whole fine weather has prevailed. Minimum and maximum temperatures: Equivalents, 50-58; Kamloops, 56-58; Calgary, 44-78; Qu'Appelle, 38-76; Winnipeg, 40-72; Port Arthur, 42-55; Parry Sound, 56-74; Toronto, 54-80; Ottawa, 60-76; Montreal, 64-76; Quebec, 60-74; Halifax, 50-78.

Probabilities—Toronto, June 10-11 a.m.—Lower lakes: Generally fair, stationary or slightly lower temperature; a few local showers, chiefly confined to the southwest portion.

Local temperatures—The highest and lowest readings of the thermometer at the observatory here yesterday were 81.5 and 52.5 above.

—Mrs. W. Fraser, Port Stanley, was stricken with apoplexy on Wednesday and is seriously ill.

—Miss Marshall, of La Brosse street, Detroit, formerly of this city, is visiting Mrs. F. W. Birmingham, 448 Oxford street.

—The price of bread a few days ago was advanced by St. Thomas bakers 7 cents per loaf. It has now dropped to the old price, 6 cents per loaf.

—Mr. W. C. Barton, principal of the Conservatory of Music, of this city, in company with Miss. Hausch, will be in the Embury town hall on Tuesday, June 11.

—The Samia Observer says that the exact sum cleared by the recent Kirmess held there was \$2,551.09. The amount will be handed over to the hospital authorities.

—Some timbers over the lake oven at the Tecumseh House caught fire last night. The fire department were called and used the chemical engine with speedy results.

—W. H. Reid, of Stratford, was brought to jail here yesterday by Constable Wilson, having been convicted by Judge Noble of non-support of his wife and family.

—Some 600 persons attended the Juvenile Foresters' excursion to Springbank last night and enjoyed the trip immensely. Thirteen cars were required to carry the crowd.

—Ridgeway Plaindealer: Miss Ethel Smith accompanied by Misses Euna and Alice Little, goes to London on Saturday to be present at the ordination of her brother, Mr. Ernest Smith, of the Western Catalyst.

—The London Wheelmen had a pleasant run to Springbank last night while the club of the First Congregational Church wheeled to the residence of Mr. Webb, in the Gore of London, where games and refreshments were indulged in.

—The Masonic fraternity of Dorchester will hold their annual church service on Sunday, June 10. The services will be held in the Presbyterian Church, Dorchester, at 2 p.m. An invitation is extended to the city brethren to join them.

—Weather permitting, the Twenty-eighth Battalion Band will give concerts tonight and tomorrow afternoon at Springbank. The camp bands will be secured by the street railway company for regular concerts during the next few weeks.

—A large number of the G. T. R. employees received instructions in the new rules yesterday from Trainmaster Cunningham. The meeting was held in the club rooms, Waterloo street, and Mechanical Superintendent Robb was also present. The latter gave the men instruction on the air brake.

—Detective Ward yesterday searched Robert Bryan (alias McGinty), who was arrested on Friday last on a charge of having stolen \$7 from David Dickie, lot 2, on West Street, where the prisoner was accommodated with lodgings on Thursday night. The exact amount of money was found, sewed in the lining of the man's coat, at the back—a \$5 and a \$2 bill.

—A carload of horses bought from farmers in the London district by Mr. Nokes, of Boston, was shipped to the city yesterday.

If you want a good, bright, cheerful light for the long nights get Lillywhite Oil. Ask your grocer for it. It's the best lamp oil now offered. It doesn't supply peddlers. Gasoline, benzine, cylinder and machine oils at lowest prices. Phone 907—Empire Oil Co.

Real Russia Crash Suits.

We are selling (lots of them) Real Russia Crash Suits for the hot weather; not the common sort, but a genuine, good article, that looks well, will wash well and be most comfortable and serviceable for the hot weather. You should see them.

\$4.50, \$5, \$6 a Suit.

Boughner.

Anderson's.

GENUINE BARGAINS.

Playing Cards, 25c, 25c, choice 10c. Hammocks, \$1.20 (with pillow), now 80c. Hammocks, \$1.20 (without pillow), now 60c. Only a few left.

That Dainty Note Paper, 2 quires for 5c.

Those Dainty Envelopes, 2 packages for 5c.

Ladies Shopping Bags at cost.

183 Dundas Street.

United States on Wednesday afternoon. The animals belonged to the "gentleman's road class," and were a fine lot.

Mr. Nokes is surprised that so few farmers in Ontario pay attention to the breeding of first-class horses, when such splendid class could be produced.

Another carload of horses was shipped on Wednesday for the old country markets.

No. 2 committee of the board of education met last night and decided to ask for prices for boulevard fence at Rectory street school, Dr. English, Mr. Martyn to attend to the matter.

Architect Matthews will report on the deck for the Collegiate Institute roof. Tenders for fuel will be called for immediately. An outside tap will be placed at St. George's school. The committee will visit the schools to lay out the repairs and improvements for the year.

Mr. Evans and Dr. English will attend to the securing of a site for filling in at Colborne street school. A lawn mower will be purchased for the school, and the chief of police will be requested to put a stop to persons trespassing on Colborne street school grounds. The members present were: Dr. English (chairman), Messrs. Wilkins, Weldon, Ziegler, Gillean, Evans and McCormick.

COMING BACK TO LONDON.

Mr. C. Norman Spencer has sold his handsome residence on Spring Hill avenue, Mobile, Alabama, to Capt. John G. Dann, general manager of the Mobile and Ohio Railroad, for \$10,000, and will return to London this fall to reside, after an absence of eight years.

ORGAN RECITAL.

West London Methodist Church was crowded to the doors last evening, on the occasion of the grand sacred concert and organ recital by Mr. J. Petherston, organist; Miss Inez E. Petherston, soprano; Mr. H. H. Carpenter (late of Toronto), tenor; and Mr. H. H. Carpenter (late of Toronto), bass.

The programme was a judicious blend of classical and popular music, and the rendition of the several numbers elicited much applause. It was a musical treat, and the several artists acquitted themselves creditably.

MEDALS FOR VETERANS.

A militia general order has been issued, providing for the distribution of medals to those engaged in the Fenian Raid of 1866. All applicants must submit their applications separately, and those who served in more than one campaign must submit an application for each.

A declaration of dereliction must be made before a justice of the peace by the applicant, and also declaration of a comrade who has knowledge of the applicant's service will be forwarded to the department. Only one medal will be issued to any individual, and with each medal there will be a clasp.

Y. M. C. A. ANNUAL CAMP.

The camp this year will be held at Kettle Point, Lake Huron, and will open on July 14. The location of the camp is a delightful spot. The distance from London is about 50 miles. Facilities for bathing and bathing cannot be excelled, and there is plenty of good fishing. Splendid grounds are available for all outdoor sports and games. Fruit is very plentiful and good drinking water close at hand. A competent cook will accompany the party. The expense has been cut down as low as possible. Mr. Charles Abbott, manager of the Junior department, will be in charge of the camp. The camp will be inaugurated with a huge bonfire and the planting of the flagpole.

PORT STANLEY.

The second crib of the new slip-dock is to be placed in position today. A large force of men will be employed to place stone in it to sink it as soon as it arrives at its destination.

Mrs. Alexander Coats Brown died of consumption on June 1, after a lingering illness. She was 55 years of age, and was the third daughter of Rev. John Merchant Snales, of Marham Church, Devonshire, England. She leaves, besides her husband, two daughters and three sons. Her mother, Ann Snales; Mrs. Thos. Mitchell, St. Thomas; Mrs. John Oliver, Port Stanley; her brothers, Samuel and Richard, of St. Thomas, and Eli, of Belmont, survive her. She was a consistent member of the Methodist Church and an active worker in the Ladies' Aid.

SUMMERHOLM'S ANNUAL MEETING.

At the annual meeting of the shareholders of "Summerholm," the Y. W. C. A.'s summer home at home at Orchard Beach, Port Stanley, the reports presented were very encouraging. The financial statement showed a surplus for the year, starting with a balance of \$25, to have been \$139.64; disbursements, \$3.60, leaving a balance on hand of \$136.04. A special effort has been made this year to raise money for verandas and other necessary improvements, which will add greatly to the appearance and comfort of "Summerholm." As there is no debt on the place, all the money has been devoted to the improvement fund. The annual concert, held in August at Port Stanley, cleared \$40, and Miss Oliver's recital \$59.77, together with other contributions from the Y. W. C. A. and friends, reached the sum of \$151.04. This amount is only about half of the sum required for improvements, but the directors feel encouraged by the aid already received that the remaining sum will soon be realized, and "Summerholm's" comfort and usefulness increased. The board of directors, Miss Priddis, Mrs. Waugh, Miss Treblelock, Miss Jarvis, Miss Peel, Miss Ware, Miss Waugh and Miss Kirkpatrick, were re-elected for the ensuing year. At a subsequent meeting of the board Miss Priddis was elected president and Miss Kirkpatrick secretary-treasurer.

Cannot Meet In the Park.

The Salvation Army Services To Be Stopped.

Such Is the Recommendation of the Board of Works—A Batch of Sidewalk Petitions.

At a meeting of the board of works last night, a communication from the chief of police was read, in which he asked that the Salvation Army be not permitted to hold Sunday meetings in Victoria Park. Chief Williams, in support of his communication, said that the army was the means of collecting the worst element of the city at the park. They came, not to hear the army, but to run about and kick up a row. It was impossible to carry out the bylaw with the present police force. With the notices put up and the efforts of two or three policemen the park bylaw had been pretty well enforced the past two or three weeks on every day except Sunday, but the police magistrate would not convict a man for walking on the grass on week days when people were allowed to run over it on Sunday. The chief also said that the army had been a nuisance to many ladies had complained of men lying around on the grass and passing insulting remarks as they (the ladies) passed. Respectable citizens who went to the park for rest and quiet were annoyed by rowdies.

Mr. John Merritt, treasurer of the Salvation Army, said the army had tried to conduct their meetings in an orderly manner. Last Sunday it was not the people around the army who created the disturbance, but it occurred quite a distance from them. Some of the best citizens assembled there, and among those present last Sunday was ex-Mayor Little. The army had endeavored to respect and appreciate the kind privilege accorded the army in the past two years. At any time Sunday the police would find the same crowd at the park. There had never before been disorderly scene there and the blame of last Sunday's trouble should not be laid upon the army, who aimed to draw the lowest class, but it was to do them good, not evil. He asked that the privilege be not cancelled.

Chief Williams, in reply, said he had not a word to say against the army who were doing good work. The army was not to blame for the trouble; but while it was given permission to go to the park, these toughs would gather. All those summoned to the police court gave as their excuse that they had gone there to hear the army.

Ald. Cooper thought the people would go to the park on Sunday whether the army was there or not. The destruction of the grass, however, should be stopped.

Ald. Draneay agreed that the insulting conduct of youths should be stopped.

In reply to the engineer Chief Williams said people were allowed to stroll and lie on the grass, but not to make paths and shoot cuts on it.

Ald. Draneay moved that the petition given the army to hold services in Victoria Park be cancelled, and that the chief of police, Ald. Douglas and the engineer be instructed to draft a clause covering the chief's request. Carried.

The Musical Society and Seventh Bands asked for a share of the money appropriated for band concerts. Referred to chairman, with power.

SIDEWALK PETITIONS.

In connection with sidewalk petitions it was moved and carried "That where a petition sufficiently signed for a permanent sidewalk on any street is presented to the council, and if it is found that the plank walk already exists at such time and place requires to be renewed, then in such case an amount equal to the cost of a plank walk of equal width and length be allowed the said petitioners."

The petition of W. Ward, et al., for an artificial stone walk on the west side of Maitland street, King to York, was granted.

James Weldon, et al., asked for a mosaic stone walk on Elmwood avenue, Cathcart to Edward streets. The council would not grant the request for an artificial stone walk on the Market lane. Granted.

William Jones, et al., against an artificial stone walk on south side King street, Waterloo to Colborne streets. Granted.

H. G. Abbott, et al., against an asphalt pavement on Dundas street, Wellington to Waterloo streets. Granted.

In connection with the William street

ON THE BEACH.

Bodies and Wreckage From the Lost "Jane Gray" Found by Indians.

Victoria, B. C., June 10.—A special from Alberni says that the bodies of seven white men, supposed to have been victims of the Jane Gray disaster, has been picked up on the beach near the Kuyquut reservation by Indians, while a sack of clothing with an Italian name on it was washed ashore not far from Kuyquut. Coupled with this information comes the news by the return of the steamer Willapa that considerable wreckage from the lost steamer, inclusive of four of the bodies, has been discovered at different ports along the coast. The gasoline launch belonging to Major Ingram's mountain climbing party also has been found by Indians. It floated upright, although the sea had flooded it. There were a number of books and papers in the boat but no bodies, and the natural supposition is that the six who were seen in the boat when it left the steamer have all been washed overboard. The Nootka Sound Indians picked up another boat, the dory belonging to the Jane Gray, and which was referred to by several of the survivors in their stories of the wreck.

Squandered a Fortune. How often we hear the expression, notwithstanding the fact that those who use it are perhaps spending their money foolishly in medicines which only give relief without removing the cause. Merrill's System Tonic cures heart, stomach, kidney, nerve and liver troubles—because by purifying the blood, regulating the bowels and toning each of these organs the cause of disease is removed. Price 50 cents per bottle, at W. T. Strong & Co's drug store. Descriptive pamphlet free.

Brazil has 3,200,000 square miles, or is about the area of the United States, excepting Alaska.

Worms cause feverishness, moaning and restlessness during sleep. Mother Graves' Worm Exterminator is pleasant, sure and effectual. If your druggist has none in stock, get him to procure it for you.

The Fly is made of the right stuff.

Having disappeared, and I can state
