# ENGINEER LEONARD COUTTS KILLED IN WOODSTOCK YARDS

### G. T. R. Driver, of York Street, This City, Killed While Preparing To Go Out With a Train-Well-Known in London.

A special to The Advertiser from Woodstock says: "Leonard Coutts, of London, a Grand Trunk engineer, was found by section men early this morning lying dead on the G. T. R. tracks here, just west of the station. "His body was horribly mangled and frozen stiff, showing that it had been exposed for hours.

"The fragments of the man's body were picked up with a shovel and were removed to Field's undertaking parlors. An inquest will be held. "Coutts was a man of about 27, and unmarried.

"He was a good workman, faithful and steady, and had been with the Grand Trunk six or seven years.

ENGINE GAVE OUT.

For two years he ran a yard engine here, and last October was given regular freight runs between Sarnia and Fort Erle.

"Yesterday when Coutts reached Woodstock with his train the engine gave out, and Coutts was ordered to proceed to London in the evening with another train. He was around the station all day.

INSTANTLY KILLED. "In the evening he was working at his engine at the west end of the yards, when No. 25, westbound passenger accommodation, went out shortly after 10 o'clock

It is thought that he was in the way of the engine, and was struck and instantly killed by this train.

"Then the freight went out pulling his engine with it, light, and if his absence was noted nothing apparently was thought of it." INVESTIGATION TO BE HELD.

Superintendent Nixon stated to The Advertiser this morning that an investigation into the cause of the death of Mr. Coutts would be held this

The young man was about 27 years old and had been on the Grand Trunk for about ten years.

He was well-known by all the railroadmen, and was very popular with His father, Mr. T. H. Coutts, of 462 York street, is one of the oldest and

best-known engineers on the Grand Trunk The news of the accident did not reach the family until shortly before

noon, and caused the most intense grief. As no details have been ascertained yet, it is impossible to account for the accident. The late Mr. Coutts resided with his parents.

# THE OPPOSITION OBSTRUCTION FORCES ALL-NIGHT SESSION

Conservatives Deliberately Hold Up Country's Business in Refusing To Pass Marine Department Item.

### THE HOUSE STILL SITTING AND NO RELIEF IN SIGHT

French Conservative Holds Act Inexcusable and Ministers Offer To Take Up Non-Contentious Items Without Avail-Sitting Longest Since Battle Over Remedial Bill in 1896.

Ottawa, Ont., Feb. 28.-The old remedial bills were brought back to memory when the citizens of Ottawa saw the flag flying from the tower of the Parliament Buildings at noon today, telling them that there was an allnight session. There have been late and early sittings since the remedial bill was under discussion in 1896, but there was no such fight as has taken place since 11:30 last night. At that hour supply was taken up. The same item is under discussion now. No progress has been made, DELIBERATE OBSTRUCTION.

The particular item over which the trouble arose was \$50,000 in the marine estimates for policing the Hudson Bay. Three days had previously been given to debating the amount, to which no amendment was offered. It was plainly a case of obstruction, and no excuse of any kind was offered for the action of the Opposition. Information was demanded about the ministers' traveling expenses, and these returns were presented. Some 35 returns were asked from Mr. Brodeur this session, and over fifteen have been already presented, while a special staff has been engaged preparing the balance. These returns will never be read. When the item was called Mr. Foster refused to pass it. He said that he had not got all the information he wanted. Mr. Brodeur insisted that he had. The debate went on in this way, when both Sir Wilfrid Laurier and Mr. Fielding offered to take up one or two other non-contentious items in the minister's department, pass them and allow the \$50,000 to stand. This was refused, and the sitting then drifted into pure obstruction. Those on the Opposition side were Messrs. Bennett, Boyce, Monk and Daniel. Mr. Foster was leading the Opposition until 4 o'clock, and then Dr. Sproule took his

Sir Wilfrid left at 3 o'clock, and was back at 10. Mr. Fielding and Mr. Brodeur meanwhile held the fort. There were several speeches in French between 9 and 10 o'clock.

### ONE CONSERVATIVE OBJECTS.

Mr. Paquet (Conservative) said he had no sympathy with the proceedings. He wanted the business of the country to proceed. At 10:30 o'clock Dr. Sproule moved that the commission and report progress. Col. Talbot shouted, "Not for the life of you!"

Mr. Blain (Peel) at 11 o'clock wanted the estimates of the department of agriculture taken up, and they would make progress.

Mr. Fisher said the Opposition was willing to pass contentious items in his department, and refused to pass non-contentious items in the marine and fisheries department. That was not fair, after the Minister of Marine and Fisheries being deliberately insulted by Mr. Foster.

Mr. Blain said that the Opposition had the precedent of the Liberals for what they were doing.

Mr. Fisher-You have the precedent of folly. When the Liberals did that they were making no progress in the country. It was a stumblingblock in the way of the Liberal party. From a party standpoint I might chuckle over what the Opposition is doing. I am sorry for them."

Dr. Sproule-All the items of the department of marine are contentious. The department is rotten.

About 1:30 this afternoon Mr. Gervais wanted to raise a discussion on a statement made in the Senate by Senator Scott, respecting recent murders in Montreal. Deputy Speaker Marcil ruled it out of order. Mr. Monk challenged the ruling, and the chair was sustained on a vote of 59 for to 23

Labor Member Insists That Rule Should Be Enforced—The House in Committee.

[Special to The Advertiser.] Toronto, Feb. 28.-The Legislature tackled the order paper yesterday afternoon, and spent two hours in committee on half a dozen measures. It would be more correct to say that a sextette of members were in committee, for in the first hour, while the two congest bilis were under consideration, just six men took an interest in the proceedings, they being Mr. Hoyle, chairman of the committee, Hon. Messrs. Whitney, Foy and Mac-Kay, Mr. Preston (Brant), and Mr. Studholme, who is never off his job. The House rose at 5:30 to allow the members to attend Mrs. (Dr.) Reaume's reception in the Speaker's chamber.

Mr. Foy's Measure. The House in committee took up Mr. Foy's bill respecting the Legislative Assembly, and made good progress with its consideration, Clause 8, which provides that where a candidate is disqualified by not being a British subject, or by being a member of the Senate, or the Commons, any vote cast for him shall be throyn away, and the next highest candidate declared elected, was at Mr MacKay's suggestion, laid over

### Controverted Elections

Mr. Foy's bill respecting controerted elections was next taken up in ommittee. The first argument arose between the Premier and Mr. MacKay over clause 2, which defines a candidate as an aspirant for the House who so declares himself on or after the day of the issue of the writ. Mr. MacKay held that a man was a candidate after his nomination by a convention, whether the writ was issued

### Municipal Securities.

Another measure taken up in committee was Mr. Matheson's measure respecting municipal securities. It provides for the Ontario Municipal Board approving by certificate of the debenture bylaws of municipalities.

Mr. MacKay, Mr. Preston (Brant) and Mr. McDougal (Ottawa) contended that the municipal board was as liable to certify an erroneous bylaw as a council was liable to pass one, and the board was being given a very wide and arbitrary power to validate iniproper municipal measures

Mr. Foy replied that there still remained recourse to the courts. British Government's Licensing Bill Is Far Reaching.

REDUCTION IS PROGRESSIVE

Asquith Says the Ultimate Intention Is for the State to Recover the Monopoly of Liquor Traffic.

London, Feb. 27.-Chancellor of the Exchequer Asquith introduced the licensing bill in the House of Commons this afternoon. This is the principal Government measure for the present session of Parliament. The capital invested in licensed property in this country is about \$1,200,000,000 Briefly, the bill provides for the compulsory reduction within a specified period, and on a uniform scale of the number of saloons licensed throughout the country. In cities it is proposed to allow one saloon for every 750 persons, and in the country districts one saloon for every 400 persons. This regulation, it is estimated, will wipe out in the neighborhood of 30,000 licenses, about one-third of

the present total. The bill proposes that this reduction e affected within twenty years. Local option is to govern the issuance of Mr. Graham's Bill Legalizing new licenses, and a majority of the parochial electors is sufficient to pro-

hibit the granting of a license. Chancellor Asquith expressed the opinion that England was not yet ripe for compulsory Sunday closing, but he said that outside the metropolis no saloon would be allowed to keep

### LONDON, FRIDAY, FEB. 28, 1908. THE PROPOSED GERRYMANDER OF MIDDLESEX.

Prior to confederation this county had two ridings only-East and West America act it was divided into the three ridings, exactly as they now are, except as altered by the enlargement boundaries of the city of Lonso far as the Ontario Legislature is concerned, since 1867.

Dominion gerrymander, with the object of "hiving the Grits." an awkward situation was created. Electors lived in one riding for Dominion election purposes, and in another for provincial purposes. It was with satisfaction that they welcomed the return to the former arrangement as determined at confederation.

There may be nothing whatever in the suggestion that the county is to be gerrymandered so as to make two Conservative ridings and one Reform. It is with the intention of forestalling what would be regarded as an act of to the fact that the ridings were fixed by the British North America act, and remained until the present time. This circumstance alone should change being attempted.

### DISOWNED BY FORMER FRIENDS.

Significant in connection with the provincial election campaign now in progress in New Brunswick, is the fact that the Conservative Opposition in that province disclaims any connection with the federal Conservatives. Remembering all this, is it any wonder that the Conservative party of New Brunswick, in its intense desire to gain office, tell the electors of that Province that they are not of the same kin as the Bordens, the Fosters, the Fowlers, and the rest of them? No one can blame the New Brunswick Conservatives for thus disowning the men who have brought discredit on the party name. # CANADA'S RELATION TO GREAT BRITAIN

### Sir Wilfrid Says It Is Very Satisfactory—Caution On the Pacific Needed.

Ottawa, Feb. 27.-Dr. Thompson (Yukon) led a discussion in the House today on the treaty-making power Canada's relation to British his contention that the interior of the diplomacy. He criticised the repeated concessions made by Britain to the one hard boiled and the other raw, and, United States, as, he said, at Canada's expense, and stated that a mamentum and came to rest, while the boil- thize with the United States in case ed one went on spinning merrily for a of a war with Japan. He declared long while. From this he argued that if that seeking friendship of the United the earth had a liquid core it would have States had become Britain's mania, no matter how Canada might suffer. "The time has arrived," he said, "when Canada should have her own navy, and come to a plane of equality with the other nations of the world. Independence of some form must come. Canada's great protection at present was the Monroe doctrine."

Sir Wilfrid Laurier, in reply to Dr. Thompson's sweeping assertions, said that while Canada's relation to Great Britain might show some anomalies, sent out invitations to her wedding with yet it was very satisfactory, and Canada had no cause for complaint. This statement was applauded by both sides of the House.

The Premier went on to say that the situation on the Pacific was one calling for close attention, but he predicted that there would remain a condition

of firm friendship with Japan. Hon. W. S. Fielding said occasional friction could scarcely be obviated. He did not think there were any considerable number of persons in Canada who looked for any radical change in Canada's constitution and relation to the empire. Such a speech, he said, was liable to create the impression abroad that Canada was dissatisfied with her position and status, and such impression would be most regrettable. Canadians were proud to form part of the British Empire.

Dr. Sproule said the finance minister had, he believed, voiced the true opinion of the Canadian people, though Dr. Thompson's remarks regarding British diplomacy contained much

Dr. Bernard Hollander, lecturing before the British Phrenological Society, gave it as his opinion that insanity can be cured with a surgical operation. He cited the case of a boy of sixteen, who was a liar, thief and bully, and grew more dangerous as his age increased. Dr. Hollander proposed the removal of a strip of bone from the center line of the head down to the ears. The operation disclosed signs of an old hemorrhage on the membrances of the brain. This was surgically treated, and the boy is now normal in every way.

According to Alio's statement made to an interpreter, he will plead guilty when arraigned, and offer no defense for his crime. In this case it is expected his trial will come to a speedy end and sentence be pronounced.

# TO THE POLICYHOLDERS

# Canada Life Assurance Company

The affairs of life companies are at the present time of greater interest to the insuring public than probably ever before in this country, and while a detailed statement as to the present position and accomplishment during 1907 of our company will in due course be sent each policyholder, it is desired to lay before you at the earliest opportunity a summary of its most important features.

### THE YEAR'S BUSINESS.

The new policies paid for in 1907 aggregated \$10,491,332, an increase of \$279,998.00 over the previous year notwithstanding the closing of several branches which it was not considered desirable to continue. The total assurances now in force amount to \$117,500,827.02, an increase during the year of \$4,928,798.63.

### STRONG RESERVES.

The one consideration of paramount importance in the affairs of a life company is the absolute safety of every contract. It was decided in 1900 that all new business should be written on the stringent 3 per cent. basis, thus ensuring that the older policyholders should have no burden to carry except in connection with their own assurances. The wisdom of this action will be recognized when it is stated that our new assurances written since then, amounting to no less than \$55,775,063.35, are valued by the Hm. 3 per cent. table, while the remaining older assurances, amounting to \$61,725,763.67, are now valued by the Hm. 31/2 per cent. table. This standard of valuation enables the company to take rank, as to relative strength, among the leading life offices of the British Empire.

While our surplus over all liabilities on our own stringent valuation basis is \$1,066,861.13, it is shown to be \$2,709,503.33 by a valuation made on the United States standard.

### THE INCOME.

The premiums received of \$3,622,015.56, and interest of \$1,437,778.98, make the total income of the

This is greater than the total income of 1906 by \$140,363.94.

### THE PAYMENTS.

The payments to policyholders during the year totalled \$1,992,225.03. It is, of course, to be expected that the death claims in a company sixty-one years old would be large in amount, and those of the Canada Life, exclusive of Bonuses, were \$1,312,437.15. This amount, however, fell below the expectation of the mortality table, so the company effected a saving through the superior class of lives on its books. Aside from the amounts of policies which became claims by death as above, and the matured Endowments for \$319,738.00, the total payments to policyholders were \$360,049.88, and of this amount

\$188,448.92 was by way of profits to them. The liberal provision made in our contracts whereby our clients can quickly and without expense obtain loans on their policies was taken advantage of in 1907 to the extent of \$1,300,120.08.

From time to time the company has disposed of securities bearing a low rate of interest, and advantage was taken of the recent low market prices to replace them by securities bearing a higher rate of interest and having long periods to run. The position of the company has therefore been improved, and its earning power increased through the recent stringency in the money market.

### EXPENSES

The ratio of expenses to income was still further reduced in 1907.

### ASSETS.

The assets show an increase of \$1,714.868.66 for 1907, after revaluing and readjusting them to the unusually low market prices which prevailed at the end of the year. The intrinsic values of the securities owned by the company are materially greater than the values shown, and as the company is under no necessity to part with them at unfavorable prices, the increase in value to which their intrinsic worth entitles them will later on be enjoyed by our policyholders

The total assets, as at 31st December, 1907, amounted to \$33,995,411.25.

### WHAT POLICYHOLDERS HAVE RECEIVED.

Reference has been made in a previous paragraph to the payments to policyholders during 1907, but as that was not a quinquennial dividend year, the accomplishment of the company for its policyholders was not adequately shown. A comparison of the amounts received from policyholders by way of premiums from the inception of the company to the present time, with the total amounts paid or credited to policyholders and their representatives during the same period, shows that the company has paid or credited its clients with \$8,089,622.30 more than they have paid in.

Such a record will be recognized as unique in the history of life assurance in this country.
