Eczema Has Stayed Cured For 15 Years

Wonderful Testimony from a Well-known Peterboro' Man Who Suffered for 30 Years

His Legs Were Covered With Eczema Down to the Knees—Perfectly Raw.

DR. CHASE'S OINTMENT CURED HIM

The Ketcheson are well-known as pioneer settlers of Hastings County, and none of them probably has a wider acquaintance than Mr. W. D. Ketcheson, who was formerly Division Court Bailiff of the Trenton Court, and is now living at 89 Donna Street, Peterboro', Ont.

Over fifteen years ago Mr. Ketcheson was cured of an extremely severe case of eczema and piles by Dr. Chase's Ointment, and he writes now to say that the cure proved a permanent one.

In 1897 Mr. Ketcheson wrote as follows:—"I was troubled for thirty years with itching piles and eczema. I could not sleep at night, and when I got warm the itching was terrible. Eczema covered my legs down to the knees, perfectly raw. I have tried every preparation I could hear of. Seeing Dr. Chase's Ointment advertised, I procured a box, and this Ointment effected a complete cure."

On Sept. 28th, 1912 Mr. Ketcheson wrote as follows:—"I received a letter from you to-day, saying that you found on file a statement made by me 15 years ago. I have always given Dr. Chase's Ointment a good name since it cured me, and shall tell you how I cured myself."

"I had suffered for many years from eczema and piles, and had tried doctors and everything I could hear of in vain. Reading about Dr. Chase's Ointment, I purchased it at once, and was soon completely cured. That was fifteen years ago, so there can be no doubt of the cure being a permanent one. I have met a great many people who have been cured by Dr. Chase's Ointment."

It does not pay to waste time with cheap imitations or substitutes when you can be sure of satisfactory results by the use of this great soothing, healing ointment. For sale by all dealers, or Edmondson, Bates & Co., Limited, Toronto.

Dr. Chase's Ointment

Make Us Prove It

We dare not exaggerate to you. We are dependent upon your patronage. To get it we must have your trust and confidence. We make the following statements with a full understanding of what they mean to us. You are safe when you believe in these statements.

For the Bowels

If you only knew as much as we do about the use of our ointment, you would be as enthusiastic about recommending it to your friends as we are. They taste just like candy. They act so easily and so pleasantly that the taking of them is a pleasure.

Even children like Royal Ointment, and you know that if a medicine appeals to a child, it will appeal to everybody.

Relax Cystitis

Relax Ointment does not only make you feel happy but it also makes you feel strong and gives you a feeling of relief from the bowels. They act to free the system and keep it free from the bowels and all leading to naturally healthy and regular and inactive bowels.

Relax Ointment does this subtly, without gripping or causing nausea, purging or excessive looseness. They act to overcome and remove the cause.

CAUTION: Please bear in mind that Relax Ointment is not sold by all drug stores. You can buy Relax Ointment only at the Retail Stores.

You can buy Relax Ointment in this community only at our stores:

The Lay of the Hen.

Possibly no part of the farm has been so neglected in the past as has the poultry crop. A bunch of chickens have always been considered as part of the necessary adjunct to any farm, simply because everybody had a few hens picking up grubs about the barn and granaries and breaking down the binder rails—

President Wilson.

On Tuesday, March 4th, Woodrow Wilson became the twenty-seventh president of the United States in the presence of the greatest throng that ever witnessed such a ceremony in the history of the States.

President Wilson's first message, which was awaited with keener interest than any message of any president for many years, was well received by the press of the country, and is generally spoken of as remarkable for its beauty and lofty tone. He said: "This is not a day of triumph; it is a day of dedication. Here must not be the spirit of party, but the spirit of humanity. Men's hearts wait upon us; men's hopes call upon us to say what we will do. Who shall live up to the great trust? Who shall fail to try? I summon all honest men, all patriotic, all forward-looking men, to my side. God helping me, I will not fail them, if they will but counsel and sustain me."

Speaking definitely President Wilson points out the need of tariff reform, a better banking and currency system, a better industrial system, improvement of agriculture and a policy of conservation.

Mr. Wilson in a progressive Democratic vein, will not be the tool of any clique or party, for he is strong as a rock.

The Lengthening Day.

Though the days lengthen regularly and gradually, a few minutes a day, yet there usually comes in February one day on which a man says to his neighbor: "The days are growing longer." Perhaps it is a fine day following a cloudy week, and giving the impression of a great and sudden gain in sunshine. After such a day winter never again has the same. The thermometer may fall to zero, the wind may roar and shake the windows, the snow may pile fence high, but everyone knows that it is the return of winter, not the advance. The great warrior rallies his forces and the sun is never again to be seen.

Spring Blood is Watery Blood.

HOW TO GET NEW HEALTH AND NEW STRENGTH AT THIS SEASON.

Spring ailments are not imaginary. Even the most robust find the winter months most trying to their health. Confinement indoors, often in overheated and nearly always badly ventilated rooms—in the home, the office, the shop and the schools, takes the vitality of even the strongest. The blood becomes thin and watery and is clogged with impurities. Some people have headaches and a feeling of languor. Others are low-spirited and nervous. Still others are troubled with disfiguring pimples and skin eruptions, while some get up in the morning feeling just as tired as when they went to bed. These are spring symptoms that the blood is out of order and that a medicine is needed.

Many people take purgative medicines in the spring. This is a serious mistake. You cannot cure yourself with a medicine that gallops through your system and leaves you weaker still. This is all that a purgative does. What you need to give your health and strength in the spring is a tonic medicine that will enrich the blood and soothe the tangled nerves. And the one always reliable tonic and blood builder is Dr. Williams' Pink Pills. These Pills not only banish spring weakness but guard you against the more serious ailments that follow, such as anaemia, nervous debility, indigestion, rheumatism, and other diseases due to bad blood. Miss Lillian Howe, Portland, Ont., says: "A little over a year ago I was in a very anemic condition, suffering from most of the symptoms of that trouble. Often I spent sleepless nights, and felt as though I did not care whether I lived or not. In this condition I began taking Dr. Williams' Pink Pills, and after the use of ten or twelve boxes I was restored to the blessing of perfect health. I feel, therefore, that I cannot say too much in praise of this medicine."

For Higher Duty on Apples.

A deputation from the British Columbia Fruit Growers' Association recently waited on the Dominion Government to ask that the Canadian duty on apples entering this country be raised from 40c. per bushel to 75c. per bushel, the same as that imposed by the United States on Canadian apples entering that country.

A March Easter.

Easter falls in March this spring, which seems a most fitting time for it. We remember that when the faithful women went to visit the sepulcher that first day of the week in Palestine, it was "at early dawn." So it seems most in accord with its spirit that we should commemorate the resurrection of our Lord in the very hour which divides the wintry night of the year from its full orb day. The women who loved him sought his tomb before the city woke to its fret and strain. We are glad when we can keep the feast in the very dawn of a new year, before the year is bent over its toiling or its mulling. But the

light is still in the dawn. A month before the month of May, and the spring comes slowly up this way. The resurrection followed close upon the crucifixion. There was no long heart-breaking experience of delay. Over the disciples like a flood swept the waves of sorrow but it was for no long moment. The women who loved him had time to recover from the shock of surprise and feel the sting of pain. The risen Lord was back among them speaking "Peace." We do not need to wait for the month of roses before we celebrate the great festival of the Christian year. If we have yet no gold-banded titles, the most modest flowers speak the same lesson. It need not be writ large for eager eyes. In the normal life comfort presses close upon the steps of trial. Standing by the bier of some near friend, as we have all stood since last Easter, we can not, would not, repress the natural sorrows for the loss of so dear a companion; but what is there were to be no awakening? Better far leave life stupid, dull of brain, and apathetic in its emotions, than raise it to that larger estate. Many will gather their Easter blooms this year with trembling hand. Ah, well, we are nearer than we thought to those who have gone. The crib may be empty—the bird flown—the song hushed—forever? No, we cannot believe that. Better we had never been born than to believe that.

Editorial Notes.

Great Britain is this year spending \$225,000,000 on the navy. Germany is raising \$270,000,000 extra for armament on land and sea. The Government of France has asked for a special vote of \$100,000,000 with which to strengthen the army. No doubt all this goes to show that there is no emergency in Europe.

An exchange says: "Fifty families in Montclair, N. J., are attempting to solve the servant question and reduce the high cost of living by carrying on co-operative housekeeping. There is to be a general manager at \$1,200 a year, a chef at \$3,000, ten under-cooks and ten housemaids. The food is to be carried by automobile from the place of general preparation. By buying in bulk the cost of the raw material may be reduced and the help expense may be diminished."

Hon. John Haggart, member of Parliament for South Lunenburg, Ont., ex-Postmaster General and ex-Minister of Railways and Canals, died at his home in Ottawa on Thursday of last week, after an illness of several months' duration. Bright's disease. The late Mr. Haggart was born in Perth, Ont., in 1836. He was a leading man in that place and was elected for South Lunenburg in 1872 and sat continuously for the same riding until his death, a record never equalled by any parliamentarian in Canada. The present session was his 41st, though owing to failing health he was seen rarely in the Commons during the last two sessions. In his day he was regarded as one of the very ablest men in Canadian politics and is remembered as the minister who for a brief season made the Intercolonial Railway pay.

A public question this year should be road improvement. It seems strange that there would be any opposition party to those who would better roads but if you think there is an opposition, start a road commission in your locality and set out. As a matter of fact, the road problem is of far more importance to the farmer than any other question. A good road costs money—it is a business investment requiring a large outlay of cash at first, and the interest on this investment comes back not only directly in the form of cash, but indirectly, as the farmer along the road is able to save horse power in hauling his crops to market. The chief question is how to finance the road. Who is to lay it and pay it out? Is it a financial matter rather than a question of engineering skill. It ought to be debated and re-debated in every school-house in the land.

Good for Little Ones.

Baby's Own Tablets are good for all little ones—good for the new born babe or the growing child. They are absolutely safe and are guaranteed by a government analyst to be free from opium or other injurious drugs. Concerning them Mrs. W. W. W. says: "I have always used Baby's Own Tablets and they have given my little ones the best health and good sleep."

Rural Mail Delivery Boon to the People.

ESTABLISHMENT OF A SEPARATE DEPARTMENTAL BRANCH TO MAKE THE SYSTEM COMPLETELY WORKABLE AND OF THE MOST VALUE TO THE COUNTRY.

High credit can scarcely be withheld from the present postmaster-general, Hon. Mr. Pelletier, by even his most bitter political opponents, for the energy and good judgment which he has displayed in the management of his department. The post office was the "show" department of the last administration. It has been greatly improved under Mr. Pelletier, and there are several most important further improvements now being planned, notably in connection with parcel post.

Rural delivery was made much of for political purposes by the last government. They did little with it practically. No sooner had the present postmaster-general taken office than he set about extending its practical usefulness.

A departmental branch, to deal specially with rural delivery, was established at Ottawa. At the head of this branch has been placed A. Bolduc, formerly inspector at Quebec and later at Ottawa. Mr. Bolduc is widely known as one of the most capable and devoted post office officials in Canada. Whatever he undertakes he does thoroughly. Whatever he touches goes smoothly. In connection with Mr. Bolduc's branch special clerks were added to the office staff of post office inspectors throughout the Dominion. It is the duty of these clerks to make direct and immediate personal enquiry into all applications for rural mail services, thus relieving the ordinary clerical staff of inspectors, besides greatly facilitating the establishment of new routes.

In addition to the new and effective machinery thus provided for the introduction of rural mail delivery, the scope of delivery has been greatly extended and its usefulness increased. For example, by a recent regulation of the department the couriers on rural mail delivery routes are required to carry a supply of postage stamps for sale to the box holders. They are also supplied with blank forms of application for money orders and postal notes, which, when requested by box holders, they are required to convey, after giving the remitter a receipt for the money, to the distributing office of the route and there purchase the money order or postal note, as the case may be. It is to be delivered to the patron on the next trip, or if preferred by him, the open letter in which the money order or postal note is to be enclosed is given to the courier, who mails the letter at the distributing office.

It will be readily seen that under this regulation a fully equipped post office is practically brought to the door of every resident on an established rural mail route. Under it, a number of small offices can be, and are being, done away with. Considerable saving is thus effected, while better and fuller service is being rendered. It is not surprising, therefore, that petitions for rural mail routes are rapidly increasing. Wherever conditions are such as to warrant them, they are being established, with as little delay as possible. Thirty nine routes are now in operation in Nova Scotia, distributed among the counties as follows: Right in Annapolis, one in Colchester, seven in Cumberland, one in Halifax, five in Hants, five in Kings, two in Lunenburg, four in Yarmouth. Many new applications are at present being dealt with by the department, and the number of established routes will be greatly increased in the near future. It would be difficult to over-estimate the benefits which the energetic and generous extension of the rural delivery system, under Hon. Mr. Pelletier, is conferring upon the people in many country districts in this province.

Preaching and Practice.

If Mr. Borden has insulted Canadians by proposing to have three battle ships built in British yards, then we were subjected to a long series of insults during the Laurier regime. Here is a list of fishery cruisers and other Government vessels built for the Canadian Department of Marine between 1896 and 1911, with the location of the plants which built them and the years in which they were constructed:

Minto, at Dundee, in 1899.
Aretic, at Kiel, Germany, in 1901.
Druid, at Paisley, in 1902.
Lady Laurier, at Paisley, in 1904.
Champion, at Paisley, in 1904.
Montclair, at York, in 1904.
Earl Grey, at Birkenhead, in 1909.
Simcoe, at Walsend, in 1909.

Some of these vessels would have been built in Canadian yards, had it not been for the construction of ships in Canada is quite a new development in the minds of the Liberal leaders at Ottawa. For fifteen years prior to the end of 1912 they controlled the public Treasury, but gave little heed to Canadian yards or to the development of Canadian yards. They ordered most of the ships they wanted in Scotland, England and Germany. If Canadians had been given the chance they might have gained some experience that would have qualified them for the more ambitious undertaking the Laurier now says they are to.

and received a full supply of post office regulations. One look at our windows will convince you that we have the most up-to-date stock in the province.

'Closure.'

The simplest definition of 'closure' (or more correct 'cloture') is given in Cushing's Manual of Parliamentary Practice, as follows:— 'In the House of Commons, England, ever since the Irish Parliamentary Party proved strong enough to combat with the Opposition by obstructing all bills in the endeavor to procure 'Home Rule' for Ireland there has been nothing but turmoil over every bill proposed; to stop this the 'Government Party' passed a rule which was applied wherever obstruction or debate was carried too far; this was called 'Cloture.' It is used as a 'gag' law, as when 'Cloture' is moved every thing or motion is subordinated to the motion in favor of which 'Cloture' was applied.

Letters to the Editor.

In the Review of the 21st March, since my return from Ottawa concerning the treatment of tuberculosis by Dr. Friedman, Dr. Friedman is regarded by the medical profession in Montreal and Ottawa, where I was his first several cases with his serum, as a scientist and honestly endeavoring to give to the world an antidote for the disease. The doctor, in an address before the Canadian Association for the Prevention of Tuberculosis, stated that he had been working in the laboratory, for the past twenty-three years to produce a serum which, when injected into the blood, acted as an antibody to the disease germ, the tubercle bacillus, producing a normal condition, and the success he has had in treating patients with tuberculosis. In many, we believe that the doctor is an agent which is far in advance of any hitherto used in the treatment of consumption.

On returning to Montreal, I called at the Royal Edward Institute where I had seen several cases treated by Dr. Friedman four days previously. The patients all reported improvement. The pain in the chest had disappeared and night sweats had diminished. The "disappearance" of these symptoms has been the history of most of the patients treated by Dr. Friedman's serum. It is to this point, Dr. Friedman's right to this point, I am short introduced into the circulation producing such a change in so short a time must have all the elements of patience and trial. The profession will confidently wait for further results by giving a decided opinion. Sera have been produced by other men in Germany, the United States and Canada, but none have shown the results which have followed the demonstrations given by Dr. Friedman.

The source of Dr. Friedman's discovery is unique inasmuch as the product he uses is produced from a solid blood animal, the turtle. We believe by the results we have seen of the doctor's treatment that it will be of benefit to the consumption, so far it will go towards a cure. In such cases we are not prepared to say we are encouraged to believe that Dr. Friedman is in advance of others who have been "working" in producing a serum for the cure of tuberculosis, although he or others, reach the point where the disease is arrested, it is up to the people to determine the best means to be taken to ensure this work being done.

The Boy Scouts' Building.

The amount standing in credit of the Scouts Building fund in the bank now totals \$375.00. The \$1000 mark has not yet been reached. Additional contributions will be welcome. The committee at the last meeting authorized the purchase of necessary land adjacent to fire station, facing on Central avenue.

A plan of building has been adopted which will be gladly described by any of the collectors. The property will be vested in a trust board consisting of the mayor of the town and two persons appointed by the Boy Scouts Association. In the event of this association ceasing to exist, the money shall be empowered to appoint the other two trustees.

The deed will secure that the property will be devoted to the use for which it was acquired.

The committee is convinced the arrangements will commend itself to every subscriber to the fund. The two trustees appointed at the meeting were Dr. McKenna and E. Percy Brown. Any suggestions from those interested will be gladly received.

HE CAME TO CANADA AND FOUND A CURE

New York Engineer Praises Canada's GIN PILLS. You never can tell when you are going to have a kidney ailment. It may be during a visit on a journey—any time. It is wise always to have GIN PILLS with you, at hand. They are handy to slip into your traveling bag. Beneficial for Kidney and Bladder Troubles, Rheumatism and Lumbago.

I bought some of your GIN PILLS at Victoria, B.C. last September. Your remedy had, in 20 years of age, to give perfect relief from the kidney and bladder troubles incident to one of my attacks. I highly recommend GIN PILLS to friends as being the one thing that does us good. R. G. WOODFORD. It is a wise idea to have a constant supply of GIN PILLS and to be cured of kidney and bladder troubles. But don't wait till you are sick, before you begin to experience the great good GIN PILLS will do you. If you have the first signs, swollen joints or ankles, pain in the back, back aches, swelling in front of the eyes, take GIN PILLS at once. They will free you of these symptoms of kidney and bladder trouble, too. A box—5 for \$1.00. Sample free by writing National Drug and Chemical Co. of Canada, Limited, Toronto.

GRATITUDE PROMPTED THIS LETTER

Prominent People Proud To Testify For "Fruit-a-Lives"

DR. TIMOTHY MCGRATH
130 ATLANTIC AVE., MONTREAL,
MARCH 24, 1912.
"For years, I suffered from Eklum disease, being unable to work for weeks at a time and spending hundreds of dollars on doctor's medicines, besides receiving treatment at Notre Dame Hospital where I was informed that I was incurable. I was discouraged when a friend advised me to try 'Fruit-a-Lives'. After using three packages, I felt relieved and continued until I had used five packages when a complete cure was the result after years of doctoring failed. I consider 'Fruit-a-Lives' a wonderful remedy. You are at liberty to use this testimonial to prove to others the good that 'Fruit-a-Lives' has done me."

Whittier's Prayer.

If there be some weaker one,
Give me strength to help him on,
If a blinder soul there be,
Let me guide him nearer Thee.
Make my mortal dreams come true
With the work I fain would do;
Clothe with life the weak intent,
Let me be the thing I meant.
Let me find in Thy employ
Peace that dearest is thus joy,
Out of self to love be led,
And to heaven acclimated,
Until all things sweet and good,
Seem my nature's habitude.

Railroads Want No Drinkers.

Many railroads of the country have, in the recent past, inaugurated the 'teetotal system' in the matter of employment of men. They have realized that the habit of drink, whether inebriated or well developed, tends to a lack of full efficiency in the discharge of duties. The lives of men and valuable property are entrusted to the keeping of the employees who run the trains, maintain the tracks, etc., and it is a matter of concern to the management to protect all that comes under their care. Men made inefficient or careless through moderate or excessive indulgence in drink do not conduce to this desired end, and hence the orders that have been issued by various lines, forbidding their employees to take a drink of liquor at any time.
An instance of the activity of railroads in looking after the observance of the rule is here given. Mr. Mann, an official of the Iron Mountain Railway, suddenly appeared in the yards of the road in an Illinois town and began an examination, commencing on the engineer.
"Let's smell your breath, Mann said. He sniffed and declared the engineer had been drinking.
"Sure," replied the engineer, "I have had four or five beers."
"Go home," Mann told him. "We don't want you to go to work if they have had liquor to drink. If ten drinks make a man drunk our drink would make one ten times drunk."
It thus appears that this company means business. It announces positively that it will not only refuse to tolerate the regular drinker, but the moderate taster is also in the prohibited list. It also shows that such drinkers are the ones that are a protection, that the drinking habit must be corrected, and that the engine that carries the drinkers will have to go.—Home and State.

Making Trade for the Future.

Do parents and teachers realize what dangerous and ruinous traps are daily purposely laid for our boys? Take this which is taken from a speech made by an officer of the 'Liquor League' of Ohio: 'Gentlemen,' said he to a gathering of saloon keepers, 'the success of our business is dependent largely upon the creation of the appetite for drink. Men who drink liquors, like others, will die, and if there is no new appetite created our counters will be empty as well as our coffers. Our children will grow hungry or we must change our business to some other more remunerative. The open field for the creation of this appetite is among the boys. After men have grown and their appetites are formed they rarely ever change in this regard. It will be needless, therefore, that missionary work be done among the boys. And I suggest, gentlemen, that nickers expended in treats to the boys now will return in dollars to your tills after the appetites have been formed. Above all things create appetites.' Acting upon some such advice this is what a school teacher discovered in Chicago: She noticed a group of boys counting holes in a piece of cardboard and asked what it meant. The explanation given was that a saloon-keeper around the corner punched one hole for every free drink of beer a boy took, two holes for a straight drink; and at the end of each month three prizes were awarded as follows: the first prize, a revolver; the second, a five-cent piece; the third, a merchandise pipe! The prizes were awarded to the boys who had the most punches in their cards.—'Christian Work and Evangelistic.'

A Lumberman's Opinion.

"I was troubled with palpitation of the heart and sleeplessness," writes Mr. Wm. Erickson, Lumberman, Lumberton, Ont., "and used Dr. Chase's Nerve Food with very great benefit, as my whole system was strengthened and built up. Dr. Chase's Nerve Food forms new rich blood and restores the feeble, wasted nerve cells."

The Shortest Cut to the Insane Asylum.

In the American Magazine appears a suggestive and helpful article entitled 'Fighting the Deadly Habits.' It is a story of Charles B. Towns, who is a great expert in the treatment of alcohol and drug habits. Here is what Towns says about cocaine: 'Cocaine?—Do you know that cocaine is still sold most everywhere? Do you know that contractors in some of the southern states use it to attract ignorant negro laborers to the job? In the underworld of the cities and among the ignorant poor its use is pretty common. Many are caught by so-called 'catarrh powders.' Others take it for its stimulating effect. Cocaine provides the shortest cut to the insane asylum—it takes them there across lots.'

Signs of Kidney Trouble.

In the early stages kidney troubles are known by backache and urinary disorders. Later come dizziness, rheumatic pains, and perhaps diabetes, but don't wait for these. Dr. Chase's Kidney-Liver Pills will help you in a few hours. Their thorough action on the liver, kidneys and bowels will clear away the poisons and make you well again.
Before ironing a table cloth, the edges should be pulled straight, making the corners even. It should then be ironed with a heavy iron. Always iron it half dry on the wrong side and entirely dry on the right side.

DR. A. W. CHASE'S 25¢ CATARRH POWDER
It is recommended to dissolve parts by the teaspoon in water. Hold the water in the mouth for a few minutes, then swallow. It cures Catarrh and Hay Fever, Croup, Hoarseness, All kinds of Bronchitis, Sore Throat, Laryngitis, etc.

There is said to be a possibility of King George visiting the United States and Canada at the time of the Peace Centenary celebration.

TWO WOMEN TESTIFY

What Lydia E. Pinkham's Vegetable Compound Did For Their Health—Their own Statements Follow.

"I had a doctor examine me and he said I had falling of the womb, so I have been taking Lydia E. Pinkham's Vegetable Compound and it has done me a lot of good. All the bearing-down pains have vanished. I have gained ten pounds in weight, the discharge is all gone, and I feel better than I have for a long time. I think any woman is foolish to suffer as I did for the sake of a few dollars."
"You can see my letter as a testimonial. I may encourage other poor women who suffer as I did to use your Vegetable Compound."—Mrs. Geo. GOLLADAY, Haliberton, Oct. 7, F.H.I.

Read What This Woman Says:
New Moonfield, Ohio.—"I take great pleasure in thanking you for what your Vegetable Compound has done for me. I had bearing-down pains, was dizzy and weak, had pain in lower back and could not lie upon my feet long enough to get a meal. As long as I had my back I could not stand, but when I began taking your medicine, the pains would leave me and the doctor said I had female trouble. Lydia E. Pinkham's Vegetable Compound was the only medicine that helped me and I have been growing stronger ever since I commenced to take it. I hope it will help other women who are in the same way as I was. —Mrs. GOLLADAY, New Moonfield, Ohio, Ohio."

What is there about Red Rose Tea that keeps old friends and wins so many new? The genuine goodness of the tea maintained year after year.

N.B.—Coffee never will find Red Rose Tea as generously good as Red Rose Tea.

The Farmers.
Farmers are the decided producers of the world. The farmer is the most independent man in society, has the fewest perplexities and reverses, and the greatest per cent. of success—the least cause for worry and fretting. It is true that he may worry, predict droughts and many, many disasters, do much to annoy himself, if he chooses but no one has less occasion for such unrest since no business is any surer of yielding a fair return for any expenditures of labor and general outlay. Yet how many turn and look with longing eyes at the merchant and almost envy him his calling, and sometimes selling the old farm home to invest the proceeds in goods, perusing great gains will follow while the burdens and heat of the days will be unknown; but remember that ninety eight of the merchants fail, at least once during their career; some, many times, particularly those who intend to make money without any regard for moral principles. Mercantile life is but little less than a constant round of care, perplexity, anxiety, with almost a constant expectation of bad reverses, in connection with financial crises.

Children are more likely to contract the contagious diseases when they have had a cold, cough, croup, diphtheria, scarlet fever, and consumption are diseases that are often contracted when the child has a cold. That is why all medical authorities say beware of colds. For the quick cure or colds you will find nothing better than Chamberlain's Cough Remedy. It can always be depended upon and is pleasant and safe to take. For sale at all druggists.

Be Loyal to Your Town.
If you have made up your mind to live in a town, then stand up for it, and if you know positively no good, then silence is golden. Do not go to help along every man who is engaged in legitimate business. Do not send away for anything nice you want and still expect the home man to suit the whim of one or two possible purchasers. The success of your fellow townsmen will be your success. No man invests in himself and no man loses business independent of his fellow business men. Take your home paper. Do not sneer at the big dailies that fill up all this space. There are many reviews of good things, social sanitation, personal mention, in the home paper that the big dailies do not print. Then do not abuse your neighbor. The main difference is the number of his faults and your own is that you see through a magnifying glass as a critic. He is essential, the croaker, can do more harm in a minute than two good citizens can repair in a month.—E.S.

Sleeplessness.
Disorders of the stomach produce a nervous condition and often prevent sleep. Chamberlain's Stomach and Liver Tablets also cleanse the digestive organs, restore the system to a healthy condition and make sleep possible. For sale by all druggists.

People of the Country.
One great trouble with the people of this country is they know how to manage the business of their fellows. The old maid proffers her sister advice upon the business of the husband, and any old bachelor can give a father advice as to the rearing of his boys. The man who would starve his wife, and we cannot say of several, feels competent to manage the business of the country and people who cannot be trusted to drive the ducks to water will explain to the world's wisest how to get in heaven. The man who could not run a hand organ if it was tied to him will tell you how to run your own business. Yes, a man who can run anything else on earth generally knows how to run a newspaper—run it to the ground.

You judge a man not by what he promises to do, but by what he has done. That is the only true test. Chamberlain's Cough Remedy, indeed, by the standard has no superior. People who were afraid of a little bit of cold or hoarseness, for sale by all druggists.

In 1000 pounds of butterfat, there are, says Hood's Digestive, 25 pounds of nitrogen, 37 pounds of phosphoric acid, and 10 pounds of potash, making it worth about two to two dollars and a half for fertilizing purposes. When it is fed to pigs, it is worth, per cent, one to as much as a bushel of corn. It is to be regretted that the supply of butterfat is not so abundant as it should be for feeding purposes, for it is well known suitable as a food for swine.

Test the even by placing a piece of white paper in it. If it turns red, the over-heat has been too much. If it turns a dark yellow, it is easy to make better. If it turns a light color it is right in bloom.

We've "Shown" Ontario Let Us "Show" You

A series of striking stereopticon views—photos of concrete roads already built—shown on a screen as part of our Good Roads Exhibit, was one of the most talked about features of this recent Good Roads and Motor Show in Toronto. Visitors from all parts of Central Canada were in the crowds that viewed our Exhibit. These same slides, as well as the complete Good Roads Exhibit, will be a prominent feature of the

St. John Roads and Motor Show

St. John, March 29th to April 5th, in Queen's Rink

You can't afford to miss this exhibit and it would be worth your while to come to the Show for this alone. A more interesting exhibition of modern road-building methods, was never gathered together.

The booth is in charge of road experts, who will be glad to give you complete information and to explain every detail of road models. These models show the details of construction, from beginning to end of the road-making process.

Synopsis of Canadian North-West Land Regulations.
A NY person who is the sole head of a family or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub Agency for the district. Entry by proxy may be made at any agency, on certain conditions by father, mother, son, daughter, brother or sister or sister of intending homesteader.
Duties—Six months residence upon and cultivation of the land for each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.
In certain districts a homesteader in good standing may pre-empt a quarter section along side his homestead. Price \$5.00 per acre. Duties—Must reside upon the homestead of pre-emption six months in each of six years from date of homestead entry (including the time required to earn homestead patent) and cultivate fifty acres extra.
A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchase homestead in certain districts. Price \$5.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect a house worth \$500.00.

EATON'S SPRING AND SUMMER CATALOGUE

NOW READY SHALL WE SEND YOU ONE

No one should miss having a copy of our latest issue. It's not only an interesting book to look through, but, over and above all, it's a book with a purpose. You'll find throughout its two-and-a-half hundred odd pages enough to convince the most sceptical of its having opportunities. It's a style book—not too extreme in fashion's trend, yet featuring what's newest and most meritorious, and, above all, conveniently priced—and what a profusion of home needs and necessities—furnishings from a door mat to a high-grade piano. A choosing of articles necessary for every room and clothing for all the family. Then there are also interesting values in modern Farm Equipment, Farm Wagons, Cream Separators, Pumps, Wire Fencing, Harness, and lots more you might be glad to know about, such as Athletic Goods, Boots and Canoes, Cameras, Drugs, Jewelry. So you see that this big new book with its fund of buying opportunities has got something of interest for all, and every home has need of it. To those who have not received a copy we simply ask that they forward in their name and address at once—even as you read this you should write for your copy, so that through no delay or forgetfulness any chance that is now apparent to save on the spending will be lost.
