

BERLIN

Monster Wreck Scene

es Strange Water Giraffe on His Last Trip Montreal.

LIKE A BABY'S CRY

I guess for in twenty years of it, including trips in tropical I've never seen anything like a giraffe that was starting right Corinthian. The thing seemed to eye me it the water with its big front fins suddenly dived and disappeared, same time giving an odd little wail baby's cry. You wouldn't think huge animal could have had such a voice. As I went off duty I went and made a sketch of the monster in ink. When the Corinthian reached my sketch was shown to Prof. F. E. Lloyd, of McGill University, expert in zoology. The professor said whatever it was, it wasn't a serpent, sea mammal. It was certainly built on speed lines, and its finlike pro- pector was well adapted for running up and down the coast. I estimated this sea giraffe in latitude 47 min. north, longitude 48 deg. 32 west, off the Grand Banks, and not miles distant from the spot where the wreck went down. I am inclined to believe that the wreck of the Titanic was something to do with the presence of this strange creature in water where of the kind has ever been noticed. Is it making food of the dead below? The monster made the gruesome suggestion in all seriousness. He was impressed with the absolute accuracy of his observations. The monster, he may be added, is a Scot, and his view is that there will be more survivors of an almost race of sea beasts. Anyway, he is not acquainted with an octopus or aquatic reptile called the "sea monster," which curiously resembles the monster which Mr. Bachelor saw. The monster had a small head and an oval long neck, but it is generally believed to have been extinct for ages.

BORDEN HOUSE TO BECOME A MUSEUM

Will Send There Many Valuable Objects from Various Royal Residences.

(Special Dispatch).

LONDON, Oct. 18. Progress is being made with the plan of converting Stafford House, local residence of the Sutherland family, into the London Museum. It was presented to the nation by an Lever, and it is expected that it will be ready for opening in the part of next year, possibly by April and Queen.

is taking the greatest interest in the plan of the museum, and it is that the King shortly will order to send there many valuable relics. James Palace, Kensington Palace, royal residences, the nature of which always existed between the late of London.

King George is in town for the first time next month he will take the opportunity to inspect these relics to determine in what shall be publicly displayed.

Ex-Governor Sulzer

Has Entered on a Vigorous Campaign to Get Into the State Legislature.

(Canadian Press Despatch) NEW YORK, Oct. 23.—William Sulzer last night entered upon the campaign which he hopes will result in his return to public office as an assemblyman in the state legislature. In a series of speeches in the sixth assembly district, where he is the candidate on the Progressive ticket, he attacked Charles F. Murphy and the court of impeachment which removed Sulzer from the office of governor. Everywhere great crowds turned out to hear him talk. The meeting halls he visited could not hold all who wished to hear him and held open air meetings in the streets. At one place they cheered him 20 minutes before allowing him to proceed. Sulzer reiterated many of the assertions contained in his statement issued in Albany after the impeachment court voted for his removal. Every night during the campaign,

he announced, he would ask Murphy a given question, which he requested Murphy to answer. John A. Hennessy, who acted as special investigator for Sulzer, Governor, resumed his speech-making for the fusion city ticket. He centered his attack, as on previous occasions, upon Edward F. McCall, Tammany mayorality candidate, and Murphy. Judge McCall made speeches at several Democratic meetings. In none of them did he refer directly to the Hennessy charges, dwelling chiefly on the taxation issue. John Purroy Mitchell, the fusion candidate for mayor, also was on a speech-making tour, devoting considerable time to discussing the personality of the opposing candidate. Vincent Astor, the richest young man in the city, yesterday entered upon his duties as treasurer of the Mitchell league.

GERMAN EMPRESS IS DEEPLY INTERESTED

In the Endeavor to Combat the Scourge of Tuberculosis—Takes Active Part in the Work.

(Canadian Press Despatch) BERLIN, Oct. 23.—The deep interest taken by the German Empress in the endeavors to combat the scourge of tuberculosis was displayed to-day when she attended the formal opening of the International Tuberculosis Conference here at which delegates from twenty-two nations are in attendance. Her Majesty was given her name as patroness of the conference, whose meetings are being held in the halls of the Prussian Diet, where Imperial-Vice-Chancellor Delbrück welcomed the delegates and paid a tribute to the extraordinary energy and success with which the fight against consumption had been conducted in America. Herr Delbrück regretted deeply the absence, owing to illness, of the president of the conference, Leon Bourgeois, former French Premier, whose presidential address was subsequently read.

human body and the results of the study of consumption. Dr. Hans Much, of Hamburg, director of the institute for the investigation of tuberculosis, declared that the conclusion he had come to was that immunization against tuberculosis by cultures of living bacilli or by vaccination with dead matter was rarely successful because of the composite character of the tuberculosis bacilli. On the other hand, he declared that immunity from the disease might be and was self-produced by counter-agents in the human body. Prof. P. Hensbarger, of Vienna, gave an exhaustive report on the results of the study of consumption, which have, he said, included the recognition of its infectious nature by inhalation the discovery of the germ itself and the recognition of the difference between bovine and human consumption. Dr. Louis Ronon, of Paris, one of the leading French authorities, discussing results from various methods of treating tuberculosis offered directly an explanation for the apparently satisfactory results of the Dr. Franz Friedmann's much discussed treatment. He declared that extreme caution must always be used in judging a new anti-tuberculosis treatment since it may be accepted as a principle that every new method of treatment, providing that it is harmless, will at first give satisfactory results.

The general public showed the greatest interest in the conference and a large audience of both men and women attended the sessions to-day after the opening ceremonies. At to-day's forenoon sitting the general subject of "tuberculosis and mankind" was dealt with from many points of view, including the clinical forms of human tuberculosis in the different ages, the alterations in the

ENQUIRY INTO THE ESCAPE OF H. THAW

(Canadian Press Despatch) NEW YORK, Oct. 23.—Twenty witnesses were under subpoena to-day before the Supreme Court grand jury, which met to-day for the investigation of the charges of conspiracy in connection with the escape of Harry K. Thaw from the state hospital for criminal insane at Matteawan on August 17th.

Residents of Matteawan and New York, through whom Mr. Jerome hoped to show a conspiracy existed. Counsel for Thaw on the other hand were prepared to make strenuous efforts to prevent an indictment on the ground that he is insane and therefore could not be called to trial. This stand will be the basis of Justice Seabury's recent ruling that Thaw was an insane person, when called as a witness in the recent investigation of charges against John N. Anhalt.

South Bruce Contest

Mr. Weichel, the German Member of Parliament, Makes a Patriotic Speech.

(Special Dispatch) WILDMAY, Ont., Oct. 22.—Arguments in favor of the Government's naval policy were vigorously presented by Hon. Martin Burrell, Minister of Agriculture; W. G. Weichel, M. P. for North Waterloo; and Hon. Geo. Crae, M. P. for South Waterloo, at a large meeting here last evening, at which many electors of German extraction were present. Arguments were lustily applied. So was the rebuke handed out to those who have been seeking to oppose opposition to Mr. W. D. Carleton, the Conservative candidate for election as member for South Bruce, by representing the Borden policy as an effort to arm Britain against Germany. This appeal to racial feeling has been adopted in German settlements by Liberal workers in the bye-election campaign. The campaign is going on merrily throughout the riding. Last night Hon. W. T. White, Minister of Finance and Mr. Cargill addressed a large and enthusiastic meeting in Lockport, and Hon. Geo. P. Gray spoke at Ripley on behalf of Mr. R. E. Truax, the Liberal candidate.

Mr. Weichel first outlined the cause giving rise to a bye-election, namely the promotion of Mr. J. J. Donnelly, South Bruce's former representative in the Commons, to the Senate. He then spoke of the naval question. "I am proud to be of German birth. I am proud of my E W-Uld?pEgg? I am prouder still to be a Canadian and a citizen of the Empire." Mr. Weichel said that Britain's aim was to promote peace and that she required a large navy, just as Germany required a large army. Germany needed a great land force because she was surrounded by possible foes, so he asserted, Britain cannot stand still, or we shall suffer the consequences. Mr. Weichel indicated the real meaning of Sir Wilfrid's proposal that two fleet units should be built, equipped and launched in Canada. He quoted from a Liberal newspaper to show that to maintain Australia's one fleet unit \$11,500,000 a year would have to be spent. To maintain two fleet units \$23,000,000 a year would have to be provided and to build the ships and construct the drydocks \$750,000,000 would have to be appropriated. "All we want to do is to vote \$25,000,000 and be done with it until Mr. Borden is ready to bring down his permanent policy," said the member for North Waterloo. Mr. Weichel pointed out that it would now be impossible to find men trained to build war vessels or serve as seamen.

MANY MINERS ARE ENTOMBED IN MINE IN NEW MEXICO

A Cave-in Followed an Explosion—Brave Men are Hard at Work in an Effort to Rescue Them.

(Canadian Press Despatch) DOWNS, N. M., Oct. 23.—Between 200 and 250 men were still entombed early to-day by a cave-in, which followed the explosion yesterday in the No. 2 shaft of the Stag Canon Coal Mine.

During the night 14 dead and 22 injured men were taken from the mine. During the all night fight with the debris, the rescuers penetrated to the fourth level, about a mile into the side of Black Mountain and they yet were far from the remaining victims. The 22 who were rescued before daylight were picked up along the levels in ones and twos and could only point the way onward to the depths for the rescuers to go on.

The federal rescue train which started from Denver is due here at noon. Another is coming from Rock Springs, Wyo., and a third from Pittsburg, Kan. Before they arrive, however, it is expected the volunteer rescuers organized here will have reached the entombed men. Dr. James Douglas, of Douglas, Ariz., general manager of Phelps Dodge and Company of New York, owners of the mine, is reported from El Paso, Texas, to be coming here on a special train with a corps of physicians. The Stag Canon Mine was considered a model of coal mine engineering but the disaster that befell it yesterday has staggered this town of 1500, composed for the most part of Italian miners.

VERY ENCOURAGING ARE CROP REPORTS FROM THE WEST

Manitoba Records Decidedly Better Results as to Quality--Saskatchewan in Best Position of Her History.

(Canadian Press Despatch) WINNIPEG, Man., Oct. 23.—Awaiting reports from 76 points, Manitoba has a good average crop as to yield and decidedly more than an average crop as to quality. Threshing is complete, a very large amount of grain has been moved, the weather has been good throughout and no delay. The coarse grains are not so satisfactory as wheat. There are yields of from 25 to 30 bushels per acre, nearly all in the north where the acreages in wheat are not so large as in the south and centre. In the south and centre are found 13, 14, 15 and 16 bushel acreage. So far as Manitoba is concerned, her grain is safe, being all threshed, a large percentage shipped and the balance in store, either in home granaries or local elevators. Not only is the crop of 1913 safely gathered but

preparations are well completed for early seeding of the crop of 1914—fully eighty per cent. of the fall ploughing is done. There was a large percentage in summer fallow and also an addition of about 3 per cent. newly broken land. At about 15 points, elevators have ceased to ship wheat and are filling up for winter storage. The spread between the street and the track price has averaged about 3 cents which is considered not an unreasonable spread when there is any question of not getting the wheat to lake ports before the close of avigation. Taken all together Manitoba has a good crop, well saved, and the only ground of complaint is the very low price for good wheat and in this, with her shorter haul, Manitoba suffers much less than the provinces to the West of her.

In Fine Position. REGINA, Sask., Oct. 23.—Saskatchewan is in a much better position to-day than ever before in her history in regard to threshing operations, movement of the crop, condition of the labor market, and supply of transportation facilities, according to statistics received at the provincial department of agriculture. Figures show that the amount of grain shipped out of three Western Provinces during the months of September and October is more than double the amount shipped last year. Conditions which prevail in other provinces are also evident in Saskatchewan, where with a crop that composes fifty per cent of the entire Western shipment, the situation is reported to be favorable in the extreme. Telegraphic reports received from correspondents of the department throughout the province show threshing is nearly completed. From only a very few points is there any report of any shortage of cars and the condition of the labor market is also of a most encouraging nature.

Two Former Bankers Give Evidence at Kingston

They Are Now Serving Time and Make Suggestions as to Improvements in the Penitentiary at That City.

(Canadian Press Despatch) KINGSTON, Ont., Oct. 23.—Two ex-bankers and a former real estate agent, at present doing time in the penitentiary, were called by the Royal Commission yesterday with a view to getting the convicts point of view on how conditions in the penitentiary could be improved. There was striking unanimity of opinion on the desirability of allowing the men to use a stipulated amount of tobacco under reasonable restrictions. Almost all one of the witnesses does not use tobacco in any form. There was also unanimous complaint of the needless humiliation involved in wearing the striped suit and wearing the hair closely cropped. One of the convicts put up a strong argument against cropping the hair closely especially in winter, as he caught cold after a hair cut.

got a little of the "weed" occasionally, and it was a common practice of the guards to give the convict a small amount in spite of the regulations. Commissioner Downey was apparently impressed with the severity of the rule against tobacco and expressed the opinion that it was too stringent. The witnesses were all good conduct men, expecting to be paroled sooner or later, and they would not voice any complaints against the administration. One convict told of having seen one man strapped on the strangle and being whipped, but he did not think the punishment very severe and he had been told, he said, by a convict who was so whipped that it did not hurt much. Asked about the use of the hose on convicts he said he did not think it was ever used as a means of punishment, but might be utilized to compel refractory inmates to come out to prevent the convicts from getting tobacco. And some of them used to break any rule and risk almost any punishment to get a chew of tobacco. In fact he went so far as to say that it was impossible to get satisfactory work out of the inmates unless they

It appeared in the evidence of the former banker that it is impossible to prevent the convicts from getting tobacco. And some of them used to break any rule and risk almost any punishment to get a chew of tobacco. In fact he went so far as to say that it was impossible to get satisfactory work out of the inmates unless they

In answer to a question by Dr. Edwards, M.P., witness F 173, surprised the commission by giving Deputy O'Leary a splendid recommendation. He thought he was just the man for the job combining "dignity, kindness (Continued on Page 6)

FIVE KILLED AND SEVEN INJURED IN BIG RAILROAD SMASH-UP

(Canadian Press Despatch) NORTH BAY, Oct. 22.—Five were killed and seven injured on the C.P.R. main line near Weyland station, west of Chapleau, yesterday, when a work train returning to a gravel pit collided head on with an eastbound freight train, piling engines and cars up in a mass of wreckage, in which were entangled the crews of both trains. The following are dead: Conductor H. Cummings of the freight train; Brakeman A. Bourne; Steam Shovel Engineer J. Rattle.

Two laborers of the work train were killed. E. J. Moore, conductor of the work train; Foreman Johnston of the work train crew; and Fireman G. Stewart are badly injured and may not recover. Four others, laborers, are injured, but will recover. The dead and injured men resided in Chapleau. The accident was caused by a misunderstanding of orders on the part of the work train crew. The approach of the second section of the freight train having been ignored after the first section had passed.

Big Addition To Natural Gas Supply

Mr. Lowry, general manager of the Dominion Natural Gas Company, with headquarters at Buffalo, is in the city. He announces that their pipe line will be completed through to Brantford from the new western field near Tilbury within three weeks. This added source will serve to give practically an unlimited supply to Brantford, so that there should be no trouble this winter.

STATUS OF TEACHER MOTHERS

Subject is Under Consideration of New York Board.

(Canadian Press Despatch) NEW YORK, Oct. 23.—The status of the teacher-mother in New York public schools is still under consideration by the board of education, with the report current that ultimate dismissal of all teachers of this class is the aim of the board members. From a list of fifteen teachers who had absented themselves from school to become mothers since January last, it was found that nine had already presented resignations and only two of those named are now in the schools. The lists made up by the various district superintendents at the request of the board after the recent dismissal of Mrs. Bridget Peixoto because she became a mother, names Mrs. Helen L. Becker, wife of Charles Becker, the convicted police lieutenant, as one woman who absented herself from school for maternal reasons. Her child did not live and Mrs. Becker is one of the two teachers reinstated.

BRITISH MILITANT SUFFRAGETTES

Set on Fire and Destroy a Sport Pavilion.

LONDON, Oct. 23.—An "arson squad" of militant suffragettes to-day set fire to and destroyed the sports pavilion of Bristol University. They left the usual tall-tale suffrage literature scattered about the grounds. The public prosecutor decided to-day that he would not proceed against "General" Mrs. Flora Drummond, who was taken ill in June last while proceedings were in progress against her for infringement of the malicious damage to property act. She underwent an operation and since then has been continually ill health.

Spanish Crisis

Situation Has Never Been Quite So Complicated.

(Canadian Press Despatch) NEW YORK, Oct. 23.—A cable from Madrid says: Both in government and political circles it is admitted that the situation has never been quite so complicated as at present. The King arrived yesterday from Biarritz, where he underwent a slight operation, and had a long conference with Premier Romanones. It is generally believed that a Cabinet crisis will certainly supervene before the end of the week, the efforts made by the King having failed to reconcile the factions of the Liberal party. What the solution will be even the most experienced politicians fail to foresee.

VARDON AND RAY IN FRISCO

SAN FRANCISCO, Oct. 23.—Chief interest in to-day's Fortuna celebration here centered in sport features. Harry Vardon and Edward Ray, English golf professionals, began a series of games this morning on the links of the San Francisco Golf and Country Club. Their opponents for the opening contest were Charles E. Maud and W. Frank Gaby, California amateurs, and Fred Reilly, a San Francisco professional. An international soccer game between a British Columbia eleven and an all-California team also was scheduled.

The Opening Concert

The opening concert of the Borden Club will take place to-night, the program including singing, recitations and instrumental music. This will be a most enjoyable evening without any doubt, and all are cordially invited.

CONTINUES TO DIG GARDEN WHILE HOUSE READY TO BURST IN FLAMES

(Canadian Press Despatch) LONDON, Oct. 23.—The London morning newspapers devote much space to Chancellor Lloyd-George's land scheme, which is vaster and more far-reaching than had been anticipated. It is expected to involve an appeal to the country as soon as the Home Rule Bill is safely through the final stages at the next parliamentary session. The Daily News says that the Government scheme will be welcomed by everyone who is conscious of the dis-

astrous effect of land monopoly and of the divorce of the people from the soil. The Daily Mail speaks of Mr. Lloyd-George's "wild promises," which, it says, are now at a heavy discount in the public eye. It adds, has not forgotten that the Chancellor's land taxes, which were to have provided funds for old age pensions and drought-reliefs, yet actually yielded a dead loss to the nation of \$5,845,000 in four years. The Times regards the Chancellor's land campaign as an effort to distract attention from the gravity of the situation in Ireland. It declares that while the problems of rural England are of the deepest interest to all, any Minister who deliberately concentrates attention on such problems while Ireland steadily draws nearer the verge of civil war must be mad, adding: "Mr. Lloyd-George yesterday resembled a man who continues to dig his garden when his house is on the point of bursting into flames."

approach, the administration here is in a waiting mood. Huerta's attitude towards the alleged interview is reported to be another attempt to strengthen their claims for recognition or at least to moral support for their cause. Upon advices from the embassy at Mexico City of the arrest of Faniel and Evaristo Madero, brothers of the late president, Huerta is reported to-day directed Charge O'Shaughnessy to use his good offices with the Huerta Government to obtain a fair trial for the two accused. LONDON, Oct. 23.—Not a word has been heard here officially in regard to the alleged interview mentioned by Sir Lionel Carden, British minister to Mexico, to which despatches from Washington say that the United States Government takes exception. No action will be taken in this direction unless the British Government's attention be drawn to the matter officially. Diplomatic circles here cannot believe that a man of the experience of Sir Lionel Carden would publicly criticize the policy of another government. The greatest confidence is imposed in Sir Lionel Carden by the government here. In fact it was sent to Mexico because of his long experience there as consul and of the success he achieved as British

PRESIDENT WILSON BUSY

With Regard to the Attitude of John Bull Towards Mexico.

(Canadian Press Despatch) WASHINGTON, Oct. 23.—Developments attending General Felix Diaz's attempts to campaign for the Mexican presidency and the latest turn in the situation between Great Britain and the United States over the former's attitude towards Mexico, engaged the attention of President Wilson and Secretary Bryan in conference during the day. The disposition of all officials here to maintain absolute silence with regard to the inquiries by Ambassador Page at London indicated that the whole affair was handled in the quiet realm of diplomacy and no expressions of policy were looked for on the subject either from London or Washington. There was confidence that further and more intimate discussion of details would result in a friendly understanding, but in the meantime every effort is being made to envelope the incident in secrecy. As the elections of October 28th

A Blanket Indictment

(Canadian Press Despatch) NEW YORK, Oct. 23.—A blanket indictment charging Harry K. Thaw and others with conspiracy in connection with his escape from the Matteawan State Hospital for the Criminal Insane, in August, was returned by the grand jury here this afternoon. It will be used as a weapon by William Travers Jerome in his effort to extradite Thaw from New Hampshire.

minister in Guatemala. Should the United States object to what he is credited with saying, it is pointed out that the usual course would be for Washington to inquire from the American representative in Mexico as to the accuracy of the report before making representations to this country. Sir Edward Grey, the British foreign secretary, has gone to the country where he will remain until early next week, and this is taken as an indication that he at least does not consider the situation serious. Ambulance Out. The ambulance was used to-day to convey a couple of patients to the hospital, who were suffering from sickness.

The Northway Store

Misses' Sailor Dresses
ALL sizes, from 13 to 18 inclusive, and made from extra good quality navy imported serge, deep sailor collar trimmed with either white or red military braid, perfect fitting little Dresses, and a splendid assortment at \$8.00 and..... **\$6.50**

THE NORTHWAY COMPANY, Limited
124-126 Colborne Street

On the crisp days of early autumn when some sort of wrap is imperative, yet a heavy coat becomes burdensome at midday, the woman who comes in from out of town for shopping, dons coat of dark sponge, smartly cut, but light in weight and easily carried over the arm. This coat of very dark gray sponge accompanies a shopping gown of serge, short enough for comfortable walking about and revealing a neat buttoned boot.

Social and Personal

D. D. E. Russell was in Toronto a few days this week.

Mr. A. D. Westman of Chatham, was in the city yesterday.

Mr. T. H. Laidman of Southcot, is visiting Mr. H. J. Smith, 167 Chatham street.

Mr. John Bunnell of Chicago, who has been visiting Brantford relatives left yesterday for New York.

Lodge Salisbury and Lodge Wolfe, S. O. E., propose holding a grand concert in the near future.

Mr. McLellan of the well-known stock brokerage firm of Bougard & Ryerson, Toronto, is a visitor in the city.

Mr. Wyn Ball of Ottawa is spending a short time in the city, the guest of his sister, Mrs. (Capt.) Colquhoun, Darling street.

Mr. J. A. Pearce has returned to Toronto University after spending the holiday at the parental home, Wellington St.

Mr. and Mrs. G. V. Pearce of Port Arthur, have returned home after a three weeks visit with relatives and friends in Brantford.

Mr. and Mrs. Burt Granger and little daughter, Glen, of Windham Centre, spent Thanksgiving at Mrs. A. Roberts, at Sheridan St.

Mrs. George Symington received the sad news to day of the death of her son-in-law, Mr. Elmer P. Stewart of Beaumont, Cal.

Mrs. A. B. Leg of 347 Dalhousie Street, City, returned home yesterday after spending Thanksgiving in London Junction, Glencoe and London, Ont.

Quite a number of golfers are taking advantage of this fine fall weather to play their favorite game. The links were never in better condition, and some excellent scores are being made.

The wedding took place at the home of G. B. Ryan, London road, of William S. Middleboro, B.C. M.P. for North Grey in the federal house and Miss Pearl Irene Ryan. Many members of parliament were present, including Clarence Jameson, M.P. of Digby, N. S., who acted as best man.

The Women's Musical Club promises this season to have the most successful year in its history. Some fifty new members have been added to the list. An attractive programme of the season's events has been issued. The Club is doing a lot of good missionary work for musical Brantford.

The Philathea Class of Park Baptist church spent a very pleasant evening, Tuesday, Oct. 21, at the home of the Misses Hunt, 85 Fleet street, on the occasion of their semi-annual business meeting. The reports of the different offices and committees were encouraging. The following officers were appointed: President, Margaret Hunt; vice-president, Eva Messecar; second vice-president, Lily Kennedy; recording secretary, Lena O'Dette's assistant secretary, Ethel Huggins; treasurer, Emily Symonds; corresponding secretary, Pearl Hunt; class typewriter,

Pearl Arrowsmith, librarians, Laura Sitzer and Susan Norris.

A very pleasant time was spent last evening in the Echo Place Mission Hall, when a large number of its members and their friends met together to entertain the members of the St. Andrew's Brotherhood of Grace Church. The Venerable Archdeacon Mackenzie congratulated the Rector (Rev. C. W. Lester) upon the progress being made, and on behalf of the St. Andrew's Brotherhood, asked him to accept a set of Communion Plate, subscribed for by its members. The Rev. C. W. Lester, in reply, thanked the Archdeacon for his kind remarks, and also the Brotherhood for the thought which prompted the gift. Short addresses were given by Messrs. Bunning, Fielden and Goodman on Brotherhood work. Songs and recitations were ably rendered by Messrs. Rev. C. V. Lester, Earnsworth, Standish, Goodman, Chipping and Lewis. The Ladies Aid then served refreshments and a most enjoyable evening was brought to a close with the singing of the National Anthem.

A despatch from Galt says: "The pretty marriage took place this afternoon at 'Invergard,' the beautiful home of Mr. Robert MacGregor, on McKenzie street, of his daughter, Miss Kate N. MacGregor, to Mr. Neil Donald MacFayden, of Edmonton. Rev. Dr. Dickson, pastor of the Central Presbyterian Church, performed the ceremony in the presence of about 150 guests. The maid of honor was a sister of the bride, Miss May MacGregor, and the bridesmaid, Miss Esther Golde, of Ayr. Two little nieces of the bride, Leslie and Margaret B. MacGregor, were the flower girls. Mr. Atkins MacFayden, brother of the groom, was best man. The bride looked charming in a gown of crepe chamoisee trimmed with broad edged chiffon and Limerick lace, and carried a white shower bouquet. The maid of honor and the bridesmaid wore costumes of mauve crepe de chene with trimmings of fur and were back bats and carried bouquets of many chrysanthemums. The little flower girls were attired in pink and carried bouquets of pink roses. The groom's gift to the bride was diamond and pearl earrings, to the maid of honor and the bridesmaid, sapphire earrings and to the flower girls pearl pins. Following the ceremony a buffet luncheon was served and the London Harpers provided excellent music. Mr. and Mrs. MacFayden left on a wedding trip to Western points, after which they will take up their residence in Edmonton. The fair young bride is well known in Brantford going and social circles and hearty good wishes will be extended her from many friends here.

Paris Personals.
Mrs. W. Buchanan and son Gordon are visiting relatives in Clinton.

Mr. W. D. McLean of Toronto spent the early part of the week with relatives here.

Mr. and Mrs. Robert Hayward left this week for England, where they will spend the winter.

Mr. J. A. Rawlston of Lewiston, Maine, was the guest of Mr. F. Shawcross for the past week.

Mrs. Charles Lloyd has returned to her home in Los Angeles, California, after spending a couple of months with her sister, Mrs. A. Clement. Miss Rhea Clement accompanied her, and will spend the winter in California.

UNCLAIMED LETTERS AT THE POST OFFICE

The following are the unclaimed letters at the post office to-day: W. Sawyer, Mrs. Foster, Harold Drummond, Mrs. Forsyth, Mrs. W. Doan, Geo. L. Bailey, F. Spencer, Mrs. Henry Brock, Miss M. Wright, Wm. Tate, R. Whyte, Henry Edwards, Charles Richards, Jennie Long, Winnie Carrick, Elizabeth Hargreaves, Miss H. Platt, Isaac Hill, Mrs. E. W. O. Manring.

* Voting in the Scott Act in Niagara Falls will be delayed, because the law provides that the voting list used must be that voted for a Federal election, and polling cannot take place until new lists are prepared.

A Really Top-Notch Umbrella

THERE are piles of cheap Umbrellas than ours—but an Umbrella that is really worth while costs money.

IT HAS TO We've a splendid selection to show you in the Suit Case or Club Bag. Handle designs for both ladies and gentlemen.

And all priced low when quality is remembered. \$3.00 to \$10.00. Engraving free.

NOTED EVANGELIST COMING TO PARK CHURCH.

Dr. F. W. Troy, a noted Evangelist from New York City, is coming to Brantford. He will begin in Park Baptist Church, a mission of three weeks, Sunday next. Dr. Troy is a man of wide experience having held important pastorates in Australia, London and Brooklyn, N. Y. Those who have heard him, say that he is intensely interesting. That accounts in part for the crowds who throng to hear him everywhere. Last winter he held a mission in London, Ont., and the churches where he spoke were crowded. He will speak three days on Sunday and twice each week day.

DAILY FASHION HINT.

Lady's Dressing Sack.

This is a one piece garment, sleeves and body cut in one, but if the material is narrow a seam may be placed in the center of the back. The wide collar should be of lace or embroidery, which may also form the border of the cape.

Crepe, silk, challis, French flannel or cashmere will be suitable materials for this garment.

The dressing sack pattern, No. 6421, is cut in sizes 24 to 42 inches bust measure. Medium size requires 4 yards of 27 inch material.

This pattern can be obtained by sending 10 cents to the office of this paper.

PATTERN ORDER
Cut this out, fill in with your name and address, attach a description. Enclose 10c, and mail to the Pattern Department of the Brantford Courier.

DRESSMAKING AND LADIES' TAILORING

Woman Is Betrayed By Her Pet Dog

Charge of Murder Follows Clue Furnished by the Animal.

DES ARC, Ark., Oct. 22.—The little yellow dog led to her arrest on a charge of murdering John Howard, a pearl diver, Belle Delaney, fifty years old, insists that the dog remain in the cell with her, and demands extra rations from the Prairie County jailer to feed the dog.

Howard, who had worked on White River, and who is said to have sold pearls valued at about \$20,000 in recent months, was murdered in his household twelve miles from the river from Des Arc. His head was crushed and across his abdomen was a cut which alone would have caused death. The body was wrapped with heavy chains from head to feet and tossed into the river.

Belle Delaney, a wanderer, made her home with Howard for a week before the crime. The evidence of a death struggle on the floor of the house led to the search for the body, which was found after it had been in the river for several weeks.

Sheriff A. V. Harris traced the woman to Little Rock, and later to Hot Springs, where she was arrested. She confessed that she had knowledge of Howard's murder, implicating Fred Shanks, a White River fisherman, in the crime.

She asserts that several negroes witnessed the murder, and that Shanks slashed Howard across the abdomen after hitting him on the head with a bat. She says the death struggle was terrible, but still insists that she did not see the crime committed.

The police believe that Howard had a large sum of money, and that the murderers secured it. But they are at a loss as to where to begin the hunt for the money, for neither of the accused persons has appeared to be possessed of funds.

The Delaney woman is a picture of a train and any place on the train, being as much at home on the roads or even more so, than on the cushioned seats of a passenger coach.

After leaving the houseboat belonging to Howard, whom she had met in DeWail's Bluff, a short time before, she went to Helent, Forest City, Brinkley and Little Rock.

She was easily traced by the little yellow dog. The woman carried two bran sacks, in one she had cooking utensils and the other was the chair in which the dog rode when tired of tramping over gravel ballasted railroads. She has been given a preliminary

Laid at Rest

The late Spenced Neustead.

The funeral of the late Spencer Neustead took place yesterday morning from the family residence near Onondaga village—the lad who recently suffered such a painful and sudden death. The funeral was very largely attended. Everything that was possible to be done for the lad had been done by the physicians who attended him from his awful suffering. The deep sympathy with the bereaved family was very evident by the many who gathered, by the beautiful tributes and by the many expressions of sorrow. Three ministers assisted in the service. Rev. F. T. White, pastor of the Onondaga Baptist church; Rev. Mr. Masson, pastor of the Methodist church, Onondaga, and Rev. Llewellyn Brown of the First Baptist church, this city, where the parents of the lad are members and where he attended services often with them. The pastor spoke of our common sorrow, of our common foe and of our common hope. We all sorrowed with those who sorrowed, we all faced death as did he and we all cherished the Christian's hope of meeting beyond the grave. Three favorite hymns of the boy were sung during the service, namely, "Jesus is Tenderly Calling Thee Home," "There are Angels Hovering Round," "And Safe in the Arms of Jesus." The floral tributes were: Wreath, the family; basket of roses, teachers and scholars of the Public school; sprays, Onondaga Oil and Gas Co., Mr. and Mrs. R. J. McMillan, Mrs. Thomas Thomson, Frances and George Thomson, Robert Robertson, Gordon and Charles Neustead. Interment took place in the Paris cemetery in the family plot at a similar experience for all the money in the world.

The worst part of the trip was when going through tunnels, when he was almost compelled to release his grip owing to being nearly suffocated by sulphur fumes. He was also almost washed off when the engine passed over water troughs.

Theatre Manager in Motor Smash.
Mr. Fred Warden, theatre manager, Belfast, is laid up in Howth with serious injuries. While motoring from Belfast to Dublin, with Mr. Grant driving, the latter failed to pull up abruptly to avoid a restive horse. The vehicle skidded and collided with a telegraph pole, the occupants were thrown into a deep bog. Mr. Warden was dashed against the pole and was badly shaken, and his legs, hands receiving a severe cut on the left eye.

Travels 158 Miles to Crewe Clinging by Engine Rails.
LONDON.—The young Russian Pole, who had such thrilling experiences while hanging on the engine of the Irish mail from London to Crewe was again before the Crewe magistrates on Saturday. He was Jack Leiovitch Tobias, and was charged with traveling on the railway without a ticket.

On arrival of the train at Crewe the station officials rescued Tobias from the end of the engine. He had ridden for a distance of 158 miles between the engine and coach, hanging on to the engine rails. At places the train travelled at nearly seventy miles an hour.

The man suffered terribly from exposure. He was wet through, covered with coal dust, and restoratives had to be applied before he could speak. He also had to be wrapped in blankets.

He said that he wanted to get to Wallasey to see his parents. As he stood on Easton Station, he heard the driver of the Irish mail remark that the train would stop at Chester. He was determined to take the risk of getting through. He crouched between the engine and the first coach, and as the train started sprang on to the engine tender rails, which he gripped all the distance.

When he was in the court the previous day the chairman told him he was lucky to be alive.

Inspector Rogers, on behalf of the railway company, did not press the case yesterday, and remarked that Tobias by his own foolishness had already suffered sufficient punishment. Tobias was discharged.

In relating his adventurous journey to a "Lloyd's News" representative he said he would not go through a similar experience for all the money in the world.

The worst part of the trip was when going through tunnels, when he was almost compelled to release his grip owing to being nearly suffocated by sulphur fumes. He was also almost washed off when the engine passed over water troughs.

Living With Neck Broken.
At the meeting of Celbridge Guardians the master reported that Surgeon Hayes of Dublin, attended at the infirmary in connection with an extraordinary case, in which the patient's neck had been broken by his falling off a load of hay. The man was still living.

Alleged for Drunkenness.
A police return just issued shows that Belfast headed the list of Irish cities for week-end arrests for drunkenness with 910 cases during the year. Dublin had 834 cases; Cork 245; Limerick 103 and Waterford 102.

THE REDUCTION IN EAST MIDDLESEX.

Says the London Free Press: The result in East Middlesex is claimed by some of the Liberal press as a moral victory. The majority of the Conservatives was cut down we are told. The purpose is to influence the voting in South Bruce, no doubt. But the South Bruce electors will have plenty of time in which to learn the facts, if the verdict in East Middlesex has any bearing upon the way in which they intend to vote.

While it is a fact that the Conservative majority was not so large as at the last general election, it is also true that the Liberal vote fell off by 112 votes. Whereas 1,707 electors voted Liberal in 1911, there were only 1,585 who voted in 1913. What is the explanation of the falling off? Was it because the weather was bad and the Liberals felt that the Conservatives would win anyway possibly. But there was a strong feeling among Liberals that the chance of winning was good, because of personal differences which had arisen over the contest for the Conservative candidacy and other matters not related to politics. This must have acted as an impelling force behind all Liberals who were concerned in supporting the Laurier Opposition.

Then if it is true that the Liberal vote fell off because the weather was not propitious and because it was felt that the verdict would be surely Conservative, may we not also believe that the Conservative electors, busy with other matters absented themselves from the polls for the same reason? If the rule is to be applied in one case, it must be applied in the other. The Conservative vote fell off four hundred, as against one hundred fewer Liberals voting, suggesting that the hope of snatching a victory through the supposedly disrupted condition of Government party was strong in the Liberal rank and file. There is no reason for suggesting that the 400 Conservatives who did not vote would have voted other than Conservative, and if we add these to the Conservative majority we have a victory greater than was the phenomenal vote of 1911, when the late Mr. Elson secured a majority of 661. If, therefore, the Liberals are satisfied with the result, it is quite sure that the Conservatives are pleased. When it is remembered that the majority of Tuesday was 30 per cent. greater than Mr. Elson scored upon two previous elections, there is all the greater reason for a feeling of elation at the outcome so far as Mr. Glass and his friends are concerned.

RACE CRY IN SOUTH BRUCE. The Liberals are very strong on race cries. They worked that game with marked success for many years in Quebec, whose inhabitants were told that without regard to anything else they should vote for Laurier, because he was a French-Canadian. In the South Bruce bye-election for the Dominion House, they are trying to work the German residents by another race racket. In three townships of that constituency, there are many sons and daughters of the Fatherland, or descendants thereof. These people are being told from house to house that Borden's proposed contribution of \$35,000,000 to the British navy will be the means of an immediate attack upon Germany.

On the part of the Conservatives, there has been a strenuous campaign to combat this falsehood, and one of the men who is leading in helping to nail the lie is Mr. Weichel, M. P. for Waterloo, himself a native of the race named. Such a perversion of the truth is contemptible, although characteristic, and should defeat its own disreputable purpose. Every one of ordinary mental capacity knows right well that the increase in Britain's sea force is not for aggressive purposes, but in order to safeguard not alone her own interests, but also those of the great dominions beyond the seas. As for Bruce, it is regarded as pretty close fighting ground, although the indications of a pronounced Conservative victory are quite encouraging.

INVENTION AND LABOR

In a local debate, the affirmative, that invention had benefited, and not hurt labor, very properly won the day. The facts in the case are indisputable.

Take the invention of the locomotive as one illustration. When railroads were first introduced, there was a big howl as to the number of people who would be thrown out of employment, the coach drivers, the guards, the hostlers, the post boys, and all the rest of those engaged in connection with the established mode of travel at that period. To-day the railway systems are not alone in themselves the largest employers of labor in the world, but in addition they afford work to tens of thousands of others in connection with express services, postal clerks on trains, and so on. Add to these things the large locomotive and car shops, the immense establishments for producing rails and the hordes engaged in roadbed construction, and it is readily seen that instead of lessening labor, Stephenson's discovery has multiplied it many thousandfold.

Another illustration is that of Sir Richard Arkwright, celebrated for his inventions in cotton spinning. Strangely enough he had no training whatever in a mechanical way, and until he was thirty-five years of age followed the calling of a barber—that trade some of whose members in the old days used to be licensed in a professional way to practice the then medical custom of blood letting, and who employed the existing sign of all tonsorial artists of the present day, red for blood, white for bandages and blue for veins. His first spinning model was destroyed by handworkers who feared the effect upon their employment, yet now his inventions have been spoken of as creating "the largest manufacture, the largest trade, some of the largest cities, the largest revenue and the largest national (Great Britain) prosperity of the world."

Take again the introduction of type-setting machines. When they first made their appearance, the men who were setting type by hand became very apprehensive, but the outcome has shown without cause. Newspapers today are employing more help than ever. The machines have not cut into employes but rendered papers more extended, and on top of that there has been the work created in the building of said machines.

Other illustrations might be easily given, but it is not necessary. Then in another direction there are discoveries which have actually created vast new labor activities without displacing a soul, such as steamers, telegraph, the telephone, and wireless telegraphy. In short, the individual who considers that inventions have been inimical to labor, cannot have looked into the subject to any appreciable extent.

NOTES AND COMMENTS

Laurier's sunny smile is still panting for breath. 'Tis the voice of the Tory, you hear him exclaim—"got seats before; going to do it again."

Truax is the name of the Grit gent who is running in the bye-election in South Bruce. He has the advantage at any rate over recent Liberal candidates of being familiar with the article represented by the last portion of his cognomen. The riding went Conservative in 1911 by a majority of 103.

Come to think of it, there is small cause for wonder that there is a marked tendency in certain Liberal quarters to feel resentment towards Sir Wilfrid in connection with the bad mess in which the party at present finds itself. Without warrant, without consultation, and without the existence of any crisis with regard to the continuance of the government that statesman suddenly plunged his followers into an attempted reciprocity pact, which not only lost many votes for his side, but also put those who did stick upon, a defensive basis. As it is, the Conservatives are probably in power for at least fifteen years.

CASTORIA For Infants and Children In Use For Over 30 Years Always bears the Signature of J. C. Watson

AS-BUSY EYES SEE IT ALL

Canada, the Empire and the World in General Cut Down to a Column.

The Canadian Hospital Association concluded its sessions in Toronto. Judges and magistrates will be notified that the Industrial school at Mimico is filled. The Government will build an experimental cold storage plant for fruits at Grimsby, Ont. Thomas White of Orangeville was the victim of a murderous assault, and Wm. Carter is arrested. The Ontario Alliance charged the Department of Justice with juggling with the Canada temperance act.

A letter from Australia, addressed to "Jos. Lally, Canada, via America," reached him without a day's delay. Mr. G. S. Lindsey, K.C. addressed the Canada Forward Club on the development of responsible government. Committees of the Temperance and Moral Reform Board of the Methodist church made important reports at Toronto yesterday. Justice Kelly, in addressing the assizes grand jury at Perth, regretted an awful prevalence of crimes against women throughout Ontario. The government has decided to utilize the Champlain Market site in Quebec for the erection of a station for the Transcontinental Railway. The London & Port Stanley Railway electrification by-law was carried by London ratepayers by a majority of 745. Three other by-laws were carried also. The Baptist Convention of Ontario and Quebec adopted a resolution strongly supporting the abolition of the bar and the sale of liquor in shops. The immigration authorities at Victoria, B.C., have detained 46 Hindus. H. Stevens, M.P., has wired Ottawa urging a strict enforcement of the exclusion law. The derailment of an Edmonton street car smashed a pole carrying electric wires and resulted in the electrocution of F. H. Pemberton, a lineman, half a block away. Dr. C. C. Elliott, of China Inland Mission, who graduated from Western Medical College, London, Ont., has received the degree of F.R.C.S. of the University of Edinburgh. The Ontario Brotherhood of Carpenters, in session at St. Catharines, decided to petition Hon. Frank Cochrane to increase the wages of carpenters on the Welland Canal. Bouldry, Verburg and Hutchinson, an English contracting firm, with headquarters at St. Catharines, are awarded the contract for Section 2 of the Welland Canal at \$5,500,000. James C. Duffield, manager of the City Gas Company, London, is reported critically ill. He was taken suddenly ill while on a hunting trip with Hon. C. S. Hyman, near Amherstberg. Judge Malorin at Quebec rendered judgment unfavorable to the Jewish plaintiffs in a libel action, holding that individuals are not entitled to bring action when their race or religion is libelled. Because half a dozen letter-boxes have been put on the streets of Chesley during the night, Liberals say it is an endeavor of the Government to influence votes in the South Bruce bye-election. Strong pressure is being brought to bear upon the Government at Ottawa by Western Conservative members to take off the duties on wheat, flour and semolina, in order to take advantage of the American tariff changes. The Militia Department announces that all requests from troops to visit the United States must be received in time for despatch to the British Minister at Washington at least thirty days prior to the date of the intended visit. At a meeting of the Quebec branch of the Daughters of the Empire it was decided to form a branch of the Navy League, while a resolution was passed regretting that Mrs. Parkhurst was allowed to spread her prophecies in the United States, and condemning her threats of hunger strike as cowardly. Theodore Dubois, author of sacred music, died at Rheims. He was born in 1837. Twenty-three civic officials of East St. Louis, Mo., were indicted on graft charges. Former Governor Sulzer received a tumultuous welcome at the Grand Central depot in New York. At a sale at Portsmouth obsolete war vessels that cost over \$10,000,000 were sold for \$300,000. Constitutionalists in Mexico captured a big town, executed the Federal commander and the Mayor. The manager of the Uranium S.S. Company agency at Vienna has been arrested, charged with smuggling emigrants. Herbert Miller, formerly of Peterboro, was electrocuted at Winnipeg. His safety rubber gloves were in his pocket. Gladys Kelley, one of a sextette of diving girls, appearing in a N. Y. theatre, was fatally hurt while rehearsing behind the scenes during the matinee. Counsel for the C. P. R. have notified the Austrian authorities that the Government will be held responsible for the financial loss due to interference with the emigration traffic. The Austrian Emperor is reported to have informed the chief of police of Vienna that he wished all public officials involved in the emigration scandal to be held strictly to account.

The Cash Intrigue

By George Randolph Chester

(Copyright, 1909, by the Bobbs-Merrill Co.)

CHAPTER IV.

"DON'T see where that count amount to a billion of actual currency," remonstrated Ralph Eldridge. "No?" replied Kelvin. "I will show you. Twelve months ago Henry Breed quietly issued from his central organization, the United Food Company of New Jersey, a general order that all bread and cereal products must be sold for spot cash only. The receipts from these sales were not to be deposited in banks, but were to be slipped in currency to the general offices of his company. Do you know what this meant? Breed began as an obscure miller. He formed a company, after combination of flouring mills until, twenty years after he started that task, he practically owned every gristmill and every grain elevator in the United States, accomplishing that through an elaborate system of rebating on wheat and flour shipments. Every farmer who raised it, and every miller, to sell to Henry Breed at prices set by Breed, for there was no other buyer. His next step was to establish the immense bakery system, which now bears his name. Flour was set at such a price that families could not afford to buy it, and that opposing bakeries were forced out of business. Now in all the centers of population he has his immense mechanical bread furnaces, from which his bread trains rush before daylight to distributing stations in all the small towns, while his remarkable automobile service supplies the cities. By concentration of manufacture he claims to have been of actual benefit to the country, furnishing a better grade of bread at a lower price than was ever known before and making more profit on it than individual bakeries ever did. "Breed pays everything by check, by post-dating some of his immense stockholdings and thus turning them into cash. He supplies nearly 90,000,000 people with every ounce of bread they eat, with every spoonful of cereal food upon every breakfast table in the United States, with every particle of pastry served in this broad land of ours. Think for one moment! Through this monopoly of all cereal foodstuffs every one of 90,000,000 people pays a tribute to him of, on the average, about 8 cents a day, which amounts daily to over \$2,000,000, or in the past year to nearly a billion dollars. Actual cash, gentlemen, nearly a billion of actual

currency gone from our already limited circulation!" "One-half of them had out their pencils and were figuring upon the backs of cards and envelopes. "Nine hundred and ninety-five and a half million, to be more exact," corrected Pellman. "We still have nearly \$2,500,000,000 with which to transact business, however." "You are making an error when you estimate upon our approximate \$3,500,000,000 of cash. You are not deducting the United States treasury and sub-treasuries. You are not deducting our \$1,500,000,000 of gold which practically never sees the light of day or emerges from its sealed canvas bags in the bank vaults. You are not deducting

"SOON THERE WILL BE NO MONEY WHAT- EVER IN THE UNITED STATES."

the currency reserves in the approximate 7,000 national banks in this country. You are not deducting the reserves in private banks nor the immense number of small private hoardings. The per capita circulation of money in this country is estimated at \$38. In reality allowing for these reserves, the actual amount is probably but a little over \$15 per capita of actual circulating hand to hand cash. Of this over \$10 per capita is now in the possession of Henry Breed, and this money has seeped away so insidiously that not one of you sneaked financiers, who make a knowledge of the ebb and flow of money your business, has been aware of it. Gentlemen, it is nearly all gone now, and soon there will be no money whatever in the United States!" That night there was much quiet selling of stock, and the Atlantic table was busy with selling orders for the London Exchange. There had been eight of the mighty kings of finance at that dinner, either in person or by their near representatives. Rollins had walked away with Kelvin. "This is a marvelous thing you have been telling us," said he, "but an incidental thing too. The strange part is that it should have remained for you alone to discover it and profit by it. How did you find it out?" "Well, with about 10,000 distributing agents, each one instructed to report in currency only, it would be very strange if there were not a leak. Doubtless a host of people other than myself know of it, but the individual amounts were so small that no one paid any attention." "That's precisely it," insisted Rollins. "It remained for you to appreciate and take advantage of the enormous possibilities of the thing, to understand its magnitude in the aggregate. You are a great man, Mr. Kelvin. You have been selling all the time, haven't you?" "Every morning," admitted Phillip, smiling. "You must have an enormous account by this time." "Close to 700,000 shares," confessed Phillip. "And you held back your explanation of all this until you had acquired all you wanted? I thought so. Well, it's an ill-wind that blows nobody any good. I want some railroad shares. I suppose you realize what a calamity you are going to bring on the country?" "I think I do." And Phillip's jaws closed with a snap. Rollins looked at him in slightly disapproving speculation. "Well," he said, "some of the big boys here have been pirates, but you will be the most ruthless wrecker who ever got into Wall Street." "No," returned Phillip, with a curious smile. "You have read me wrong. I am not a pirate. I am a reformer." "I see," concluded Rollins—"in the same manner that the Inquisition reformed the heretics." "I decline to be interviewed," declared Phillip. "Are you going uptown?" At the Esplanade Kelvin found Rensselaer. "You are the only chap on my list who knows a lot of the newspaper crowd. I have an item for them, and I don't want to give it out myself." (To be continued.)

A Kick About Coal Quality

is by no means a rare thing these times, but it is a rarity with us, because we take care to buy only the best grades of coal, as we know our customers would not buy from us any inferior qualities—no twice anyway. At it is our policy to keep our customers, we could not afford to give them any but the best coal, full weight, without dirt or rubbish and at a reasonable price.

Noblesse Oblige Rank imposes obligations— or—as the French put it—"Noblesse Oblige." It is a very natural and right principle that those who by their position in life command the respect of others should deserve it and be worthy of maintaining their position. "Much is expected of those in high station." But this principle is not confined to persons of noble birth—it has a hundred applications. It applies, for example, to those manufacturers of reputation and prestige who make goods of high quality and who advertise them constantly in the newspapers of the land. By their advertising they have attained an eminence where the very best in quality and good service is expected of them. They have set a standard and their very business life depends on the constant maintenance of it. So that when you buy advertised articles you rest assured that you are getting the best value that money can buy. Well may you place your faith in advertised goods. Well may you give them preference over articles which you can only hope may prove satisfactory. For the principle of "Noblesse Oblige" is your guarantee of excellence in Advertised Goods.

GRAVE FEARS ENTERTAINMENT

With Reference to a Seven Days Overd MONTREAL, Oct. 23.—An earl's fears are entertained for the of the new 2,300 ton boat, of the Keystone Transportation which is now seven days. The boat carries a crew of and it is thought that she encountered the dangerous that was met by the vessel arrived in this port last week. The Keyvive was built on for the company's lake carry vice and was being brought the Atlantic by an English who has had charge of many boats brought from the Canada for this service. She equipped with wireless, and feared, she received serious in battling with heavy waves was driven out of her course have to rely on her sighted passing steamer for aid. But for the lake traffic, she was sacrificed to face such heavy weather has been raging on the north Atlantic for the past two weeks. COLON, Oct. 23.—An earl's shock lasting about 18 seconds for here at eight minutes past o'clock, this morning. Homes rocked and clocks stopped. damage was reported in this of tremor has been exceeded in city by only one other shock October 1.

Check About Coal Quality

By no means a rare thing at times. But it is a rarity for us, because we take care to buy only the best grades of coal, as we know our customers would not buy from any inferior qualities—twice anyway. At it is our duty to keep our customers, could not afford to give any but the best coal, weight, without dirt or rubbish and at a reasonable price.

GRAVE FEARS ENTERTAINED

With Reference to a Boat Seven Days Overdue.

MONTREAL, Oct. 23.—Serious fears are entertained for the safety of the new 2,300 ton boat, Keyville, of the Keystone Transportation line, which is now seven days overdue. The boat carries a crew of 30 men and it is thought that she may have encountered the dangerous weather which prevailed in this port last week. The Keyville was built on the Tees by the company's lake carrying service and was being brought across the Atlantic by an English skipper who has had charge of many new boats brought from the yards to Canada for this service. She was not equipped with wireless, and if, as is feared, she received serious damage in battling with heavy weather or was driven out of her course, would have to rely on being sighted by a passing steamer for aid. Being built for the lake traffic, she was not constructed to face such heavy weather as has been raging on the northern Atlantic for the past two weeks.

COLON, Oct. 23.—An earthquake shock lasting about 18 seconds occurred here at eight minutes past nine o'clock this morning. Houses were rocked and clocks stopped, but no damage was reported in this city. The tremor has been exceeded in intensity by only one other shock since October 1.

CHILD BORN IN COUNTRY SCHOOL

Woman Gave-Birth to Baby Girl To-Day.

(Canadian Press Despatch.) ST. THOMAS, Ont., Oct. 23.—All alone in the cold and darkness of a country schoolhouse in Howard township, Kent county, known as Green schoolhouse, a woman giving her name as Mary Campbell gave birth to a baby girl about 5 o'clock Wednesday morning. She then carried it in her arms a quarter of a mile to the home of John B. Bennett, where she was given shelter, and a physician summoned. Both mother and child are out of danger. The woman claims that she was employed by a Raleigh township farmer until a little over two months ago, when her delicate condition was discovered and she was discharged. Apparently she had been wandering about the country ever since until she was driven to take shelter in the empty schoolhouse for the night.

AN ASSAULT. DALLAS, Tex., Oct. 23.—A despatch to The Times Herald from a reliable source on the Mexican border, announced that constitutionalists had surrounded Monterey, Mexico, and expected to assault that city today. Monterey is the most important city in northern Mexico. E. C. Wittsie of Newboro, was accidentally shot in the hip while out hunting squirrels.

Local News

Horticultural Society
A meeting of the Brantford Horticultural Society will be held at the city hall to-night.

Axle Broke
One of the garbage wagons came to grief this forenoon on Bain street, when the front axle broke.

Paying Interest Money
Major Gordon J. Smith, superintendent of Indian affairs here, has been at Oshkewen the last few days paying the Indians their semi-annual interest money.

Good Meeting
There was a large attendance of knights at the regular meeting of Calanthe lodge, Knights of Pythias last night. C. C. Black outlined the work for the fall and winter season.

With the Maple Leaf Club.
It is quite likely the Maple Leaf Club will enter a junior team in the City Hockey League. The club has already entered a senior team. This club has splendid membership and could very easily place this team in the league.

Squirrel Dead.
Another member of the squirrel family residing in Victoria Park has passed away. This time a dog was not blamed for the death. Yesterday a number of boys located the little animal lying dead. It is thought it fell from a tree.

Subways Nearing Completion
The contractors who have the contract for building the subways for the L. E. & N. Ry. under the C. T. R. tracks at Paris and Blue Lake, have the work well under way, and expect to have same completed in a short time. As soon as these are completed the rails will be laid into Brantford.

Want Hydro Electric
The Brantford Board of Trade will hold an open meeting on the night of October 20th at which Lt. Col. M. F. Muir will give an address. Local improvements for the village will be discussed, such as the securing of Hydro Electric, natural gas, etc.

Courier Cup Final
Mr. F. Farnsworth has been appointed by the Brantford-Football Council to referee the final game of the Courier Cup series, which will be played at Agricultural Park on Saturday afternoon between the All Scots and the Y. M. C. A. teams. The game will start at 3:30 sharp. The conclusion of the game, Mr. W. S. Brewster, M. P. E., will present the cup to the winners.

Local Legal
Before Mr. Justice Britton yesterday, in Toronto, Hardy vs. Lake Erie & Northern Railway Co.—W. T. Henderson, K.C., for plaintiff, on motion for injunction, stated that expropriation proceedings are being taken by the railway company, and asks that motion stands to allow this to be done. W. S. Brewster, K.C., for defendants. Motion stands "one week."

Bible Lecture in the Grand.
The International Bible Students' Association is arranging to give a series of Bible lectures in the world over. Several tours have been arranged for evangelists in America. One is listed to pass through Brantford, headed by J. F. Emerson, of Minneapolis, who will speak on the subject, "Beyond the Grave." Sunday afternoon in the Grand Opera House.

At Rest
The funeral of the late Mrs. Sarah Clarke, wife of the late Chas. Clarke, who passed away recently in Los Angeles, Cal., took place from the undertaking establishment of H. S. Pierce, yesterday afternoon in the Greenwood cemetery. The services were conducted by Rev. G. C. Mackenzie, rector of Grace Church. The chief mourners were Mrs. E. Long of this city, and Mrs. M. H. Ott of Buffalo, mother and sister respectively, and son, G. C. Clarke. The pall bearers were R. C. Ballantyne, James J. Whittaker, E. Bould, H. McLean, J. Vary, G. C. Clarke.

Fine Address.
At Bethel Hall last evening Mr. Alrich spoke on the enrichment of the believer in Christ. Not only are we saved and sustained, but our God and Father has provided for our enrichment, too. He would have us busy adding by faith out of the fullness of Christ, virtue, knowledge, self-control, patience, godliness, brotherly love and charity. We are soon to be forever with our Lord Jesus and He would have us there adorned in all His perfection and beauty. To-night Mr. Alrich speaks on the subject "Established in Christ."

Sons of England Notes.
Despite the inclement weather, there was a large turnout of the members of Wolfe Lodge, S. O. E., last evening. Several applications for membership were passed, and by the enquiries for membership received, there is every indication of a successful winter season. The concert committee, reported all arrangements complete for the visit of Mr. Owen Smiley on November 13th. After the usual lodge business the social committee took charge, and an enjoyable evening of carpeball, euchre, and whist was participated in by the members present.

Canton Dance.
Canton Brantford are holding their first dance of the season in the Masonic Temple this evening.

Jurors Rolls
Messrs Wilkes and Henderson have written the city clerk stating that the jurors rolls for 1914 must be returned to them on or before Saturday.

Steel Frames.
A consignment of steel window frames to be used in the new post-office building have arrived in the city.

Constables Fees.
York county constables, numbering 125, are demanding increased fees, and they expect to get them. It is expected that the constables in other counties will fall in line.

Wanted Building Inspected
A communication is on file at the city clerk's office, from the Toronto General Trust Company, calling the attention of the council to the fact that the gasoline engine in the Brantford Plating Co., in the old Masonic building, causes a lot of vibration, and asks to have the building inspector look over the plant and report back to the council.

Going Ahead.
The foot of Jubilee Terrace has the appearance of having been struck by a cyclone. The "large steam" shovels which has been in operation for the last few days, has dug a large hole near the bridge on the right of way of the L. E. and N. Ry. Another day and the shovel will be right up to the Lorne bridge. The boat house has been moved up 45 within a few feet of Scarle Avenue. Workmen are busy bearing down the old brick jetty on the south side of the bridge. Carpenters have almost completed the trestle work, and in less than a week they will have the work completed. Two small engines with dump cars are "filling in" at the line at the foot of Church street. Workmen will soon commence the task of raising Lorne bridge.

Social and Personal News

Miss Leeming left this morning for Chicago.

Mr. R. Secord is in Haleybury on business.

Many friends of Mr. Ian McBeth, formerly of the Bank of Commerce staff in this city, now of the Shanghai Bank, London, England, will be glad to hear that he has completely recovered from a serious illness of three months' duration. He had a dangerous attack of apoplexy, and has recently been convalescing at his mother's home in Aberdeen, Scotland.

Obituary

Another highly esteemed resident of this city passed away early this afternoon in the person of Mary Ann, wife of Mr. Frederick Schultz, 87 Albion street. The deceased was 77 years of age and had only been ill since Saturday. Pneumonia was the cause of death.

The announcement of her death will be received with much regret. She was an active member of the First Baptist church, where she will be especially missed.

Besides a sorrowing husband and a large number of friends there are left to mourn her loss two sons, John E., of this city and Robert in the Canadian West and Mrs. Suel of Victoria.

The funeral arrangements have not as yet been made.

Entire Village Murdered By Mexicans

MEXICO CITY, Oct. 23.—Revolutionists murdered the entire population numbering about fifty, of the village of Cheran Atzicuin in the state of Michoacan, while they were defending the village church against looters to-day. The villagers fought until their ammunition was exhausted and then used machetes, stones and other clubs to bear off their assailants, but they were eventually overcome and killed and the village burned to the ground.

Rebels are reported to have tortured Lieut. Jose Braconantes and two soldiers belonging to a small federal garrison, stationed near Caranor, to the south of Nuevo Laredo, after killing the remainder of the federal troops. The rebels are said to have skinned the soles of the feet of their three prisoners, walked them several miles and then beheaded them with machetes because they refused to shout for Carranza.

Children Cry FOR FLETCHER'S CASTORIA

Hon. Adam Beck Scores Another Victory For the Hydro Electric

LONDON, Ont., Oct. 23.—Hon. Adam Beck won another fight against private monopoly. After one of the most strenuous campaigns ever waged in London, the by-law to raise \$700,000 in debentures to electrify the London and Port Stanley Railway was carried yesterday by a majority of 746. The storm sewers, West London breakwater and the board of control bylaws all carried by large majorities.

The bylaw to spend \$40,000 for storm sewers carried by 1928 majority; London west will have a \$25,000 breakwater, the majority for this being 2166; while the citizens decided in favor of a board of control by a majority of 1849.

In 11 subdivisions only did the opponents of the scheme carry, and in two others the vote was a tie. In the other 53 there was a majority ranging from 1 to 61. This was a remarkable showing, and demonstrated the faith of the residents of the eastern section of the city in the feasibility of the electrification of the London and Port Stanley Railway.

Sponsors Praised
Hon. Adam Beck addressed a crowd of citizens when the result became known, thanking them for their further expression of confidence in him. He also warmly eulogized Mr. Philip Pocock, chairman of the City Utility Commission, who had fought with him, although president of the London Clerical Association.

Mr. Pocock was also given a rousing reception, and his announcement that a further cut in rates in power in London would probably be made very shortly in view of the fact that the street railway yesterday practically closed a contract for 1,000 horse power pleased the throng immensely.

Mayor Graham, another of the group of public-spirited citizens who have stood for electrification, was also warmly greeted. The railway will probably be electrified before the first of July without interference with the railways now operating thereon, and work on the \$400,000 storm sewer system will be undertaken where absolutely necessary this fall.

TRIAL HAS COMMENCED

Of a Krupp Director for Betraying Official Secrets.

(Canadian Press Despatch) BERLIN, Oct. 23.—The trial began here to-day of one of the directors and a former agent of the Krupp Armament works, who are charged with betraying government officials to betray official secrets. The accused are respectively Avto Ecius and Maximilian MBrandt.

Several army officers and ordnance department clerks were sentenced to court martial on Aug. 5 to terms of imprisonment for accepting bribes in return for secret information given to Brandt.

In the meantime another lieutenant of the War Department has been detected and sentenced to three weeks' confinement and another culprit is being sought.

The proceedings to-day were uninteresting except for the disclosure by Brandt of his original instructions from the Krupp Works to approach his former comrades in the German army and to entertain them at Krupp's expense in order to obtain advance information as to contracts about to be given out by the German government.

Laid Corner Stones.

QUEBEC, Oct. 23.—Right Hon. R. L. Borden, the Prime Minister, proceeded to St. Malo this morning, where he laid the corner stone of the new transcontinental railway workshops, and later he laid the corner stone of the River St. Charles locks.

Laid at Rest

The funeral of the late Alex. Petrie, a resident of Toronto, took place here yesterday afternoon from the Grand Trunk station to Greenwood cemetery, upon the arrival of the 3 o'clock train from Toronto. Rev. Mr. Woodside officiated. The pallbearers were Messrs. James Miller, H. A. Foulds, John McKay, Alex. Stewart, Joseph Maxwell and Coulbeck.

The eighth triennial session of the Dominion Order of King's Daughters and Sons is being held in Kingston.

Hood's Pills

Best family physic. Do not grip or cause pain. Purely vegetable, easy to take.

Paris, London and New York Say Velvets For Suits and Dresses

The visit of M. Poinet to Toronto and the fashion show now in progress there make it certain that the Oriental trend will be followed this season by well-dressed Mrs. Canada and her daughter, Miss Canada. The loosely draped gown, with its accompanying hip sash, will be the basis for all dresses, and even in suits the draped skirt and the cutaway coats show this Oriental idea. There is no fabric better suited to this purpose than velvet. Its soft folds are particularly seductive, and that air of distinctiveness which velvet conveys can be found in no other material. We have never shown a more complete line of velvets in both plain and corded weaves. The shades are grey, brown, navy, red, beaver and white and black. The widths vary from 23 inches to 27 inches and the prices from 50c to \$1.50 a yard.

Coatings

With the coming of cold weather the most important thing, in Milady's estimation, is the new Coat. We advise you to come in at once, so that you may see the most beautiful range of Coatings we have ever shown before it becomes broken. The most popular are the reversible cloths, which have either a suitable contrasting shade or a tone of the original shade on the reverse side. These come in tweed effects in two-tone stripes, in chinchilla, in blanket cloth and in peach skin cloth. All the desirable shades are represented, and you will find just the material that suits your style. All Suitings are 54 inches wide, and the prices range from \$1.25 to \$3.50 a yard.

Ready-to-wear Coats From \$30 to \$35

At this price you will find Coats that are the last word in style and richness of material. The most charming of all that is in vogue in Paris, London and New York has its place here in original model or exact copy. What you see here you will not find excelled short of the great centres of fashion. Every coat is exclusive, and there is a variety of style which will make selection easy. One of the interesting features of this season's display is the new drop or Mandarin shoulder. For the last year the kimona sleeve has been a great favorite, in spite of the restrictions that its wear entailed. In the new sleeves you find the same long shoulder effect without any of the binding which was the great drawback to the kimona. Most of the new Suits show the drop shoulder or Mandarin in some of its forms, and for those that do not favor these sleeves we have a large selection in set-in shoulders. The following description of a few of these Suits will interest you:

A mixed boucle in tan and purple, with blue satin lining, full three-quarter length with plain back and slightly bias front, trimmed with buttons and braided ornaments. A very chic model at \$30.

Blue silk eponge with black brocaded figures, lined with black satin, draped back, silk velvet collar and cuffs, two self color buttons and braided frog. Priced at \$35.

A stunning Coat in the new moleskin plush with the fine straight lines which some people absolutely demand, lined with brocaded Ottoman silk, trimmed with self-colored buttons and ornament, with a collar that can be worn either high or low, a Coat in true Oriental mode, at \$33.50.

A beautiful Coat of King's blue eponge, with black stripe with flecks of the smart burnt orange shade, with the new one-sided Balkan belt effect, a big wide collar lined with "Skinners" satin and trimmed with fancy lapis lauli buttons, for \$32.50.

All these Coats are interlined, giving them extra warmth without extra weight. We have excellent value in Coats from \$8.50 to \$45.00. All Coats from \$25.00 up are exclusive garments.

E. B. Crompton & Co.

BIG CONFERENCE

Will Take Place at Ottawa of All the Premiers.

OTTAWA, Oct. 23.—The Provincial Conference which opens here on Monday will include the Premiers of all the Canadian provinces and many other members of the Provincial Governments. The list is as follows: Ontario—Premier Sir James Whitney, Attorney-General Foy and Provincial Treasurer Hon. L. B. Lucas; Quebec—Premier Sir Lomer Gouin and the Hon. Messrs Taschereau, MacKenzie and Caron, Minister of Public Works, Provincial Treasurer and Minister without portfolio, respectively; New Brunswick—Premier J. K. Fleming, the Hon. W. C. H. Grimmer, Attorney-General; Nova Scotia—Hon. George H. Murray, Premier; Hon. O. T. Daniels, Attorney-General; Hon. R. McGregor, Minister without portfolio; Prince Edward Island—Hon. J. A. Matheson, K.C., Premier and Attorney-General; Hon. A. E. Arsenault and Hon. W. S. Stewart, Ministers without portfolios; Manitoba—Sir Rodmond Roblin, Premier; Hon. J. H. J. Howden, Attorney-General; Saskatchewan—Hon. Walter Scott, Premier; Hon. J. A. Calder, Provincial Treasurer and Minister of Railways; Hon. Alphonse Turgeon, Attorney-General; Alberta—Hon. A. L. Sifton, Premier; British Columbia—Sir Richard McBride, Premier.

The subjects which they will discuss, as already indicated, will include that of Parliamentary representation, a question of particular interest at this time because of the fact that a Redistribution Bill is pending, and because of the desire of the Maritime Provinces to at least retain the representation given them at Confederation. There is also the readjustment of provincial subsidies and a hearing of the claims of the three Prairie Provinces for the possession of their natural resources, including lands, forests, minerals, water power, etc. Railway subsidies, bounties to industrial companies, a matter of great interest to Western cities, and the decision of the Supreme Court in the companies case, are minor matters.

IF THEY GET PLAYERS MONEY WILL COME.
OTTAWA, Oct. 23.—There is no possibility of the Ottawa Hockey Club accepting the trade which Sam Lichtenhein of the Wanderers proposes. He wishes to block the Patrick brothers of British Columbia deal for "Skene" Ronan and has asked for first call on the puck chaser in question in exchange for whom he offers Walter Miller and a cash consideration.

Ottawa says that Miller does not measure up to the calibre of a player they expect in return for Ronan and besides they do not want money. It is the players they wish. Ronan, on the other hand states that he would prefer to play at Montreal, though he will have to go where directed. Clint Benedict says he will play in the east or not at all. He, too, aims to become a member of the Wanderer club.

AMERICAN DEFENDER TO BE READY IN MAY.
The America's Cup defender to be constructed by the Herreshoffs at Bristol for the Vanderbilt-Morgan syndicate will, it is understood, be ready for launching before May 1, 1914, for the syndicate is figuring on using the yacht in the spring races of the New York Yacht club.

Since the University of Toronto team has made so poor a showing this season, a rumor is again in circulation to the effect that Greek letter societies have a great deal more to do with the team than they should. If such a condition really exists this remedy is plain.

The tutoring methods of some of the players in the Big Four this season have aroused President Simpson and others of the officials. They realize that if the teams are to be saved a residence rule must be enforced more rigidly.

COMB SAGE TEA IN LIFELESS GRAY HAIR
Look Young! Common Garden Sage and Sulphur Darkens so Naturally Nobody Can Tell.
Grandmother kept her hair beautifully darkened, glossy and abundant with a brew of Sage Tea and Sulphur. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyle's Sage and Sulphur Hair Remedy" you will get a large bottle of this old time recipe, ready to use, for about 50 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair, and is splendid for dandruff, dry, itchy scalp and falling hair.

A well known downtown druggist says everybody uses Wyle's Sage and Sulphur, because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and abundant.

Last Steel

Will Soon Be Laid on the New Transcontinental Railroad.

OTTAWA, Oct. 23.—The last bit of steel on the National Transcontinental Railway, from Moncton to Winnipeg exclusive, of course, of the Quebec Bridge, will be laid within a few weeks at most now.

At present there is a gap of only eight miles on which steel is yet to be laid. This gap is about 208 miles east of Cochrane. Track-laying on it is now in progress. As soon as this last bit of steel is down there will be a continuous stretch of 1,804 miles of railway, covering the eastern half of the new transcontinental line from Moncton to Prince Rupert.

The total cash outlay for construction to date is about \$135,000,000, and there are still some six thousand men in the contractors' camps. It will take probably a full year yet before the whole line is in shape for regular traffic.

Two sections of the line are now in operation, one from Moncton to Edmundston, N.B., and the section from Superior Junction to Winnipeg, the last portion being operated under temporary agreement between the C. T. P. and the Government, the company paying a rental 2 per cent. of the cost of this.

A Pressing Problem
The big problem now before the Government is the operation of the section of the road from Superior Junction eastward. The immediate problem is in connection with the section from Superior Junction to Cochrane. A tour of inspection was made of this portion of the line by Chairman Leonard of the National Transcontinental Railway Commission and Hon. Frank Cochrane with several departmental officials some time ago. At the conclusion of this tour Mr. Cochrane announced that the line would not be put into operation unless a condition of course arose which would make it necessary. This condition would not, of course, be expected until after the close of navigation on the great lakes.

Two Former Bankers Testify
(Continued from Page 1)
and severity" when the latter was required.

The witnesses were all questioned closely as to the quality of the food, but they had little complaint to make although admitting it was much better the last few months. The inference being made that the appointment of the commission had already borne some fruit. All of the witnesses favored the taking their meals in the cells rather than in a common dining room, on account of the gross vulgarity of so many of the other inmates. Their evidence largely corroborated that of Lawyer Russell in regard to the nature of conversation at the stone piles and degrading effects on young offenders, also as to the use of obtaining a common drinking cup, although one convict was said to be suffering from an incurable disease.

Sulzer denied a published report that he has \$100,000 hid away in a Toronto bank. He again declared he was poorer than when he became governor, and that his recent statement of debts would stand in answer to any stories of his having other funds.

RITUAL MURDER
KIEV, Russia, Oct. 23.—When the trial of Mendel Beilis for the murder of the Christian boy Yushinsky, in March, 1911, reopened this morning, the prisoner's counsel called the attention of the presiding judge to the fact that, although the court sat yesterday from early in the morning until midnight, the prisoner's name had not been mentioned even once. Counsel asked the president to put this in record, and he consented to do so.

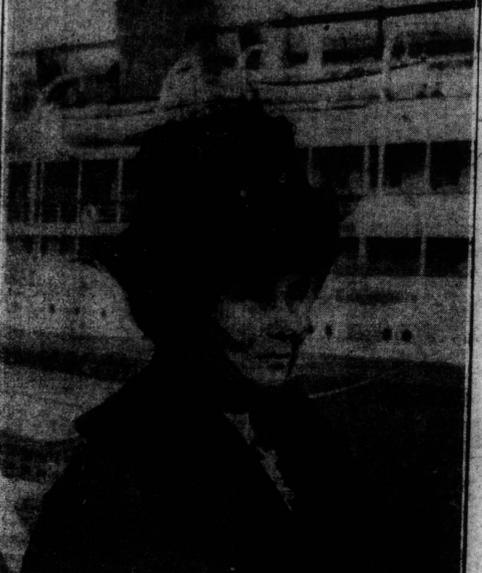

The newspaper, Kievskanin, returned to its attack on the trial of Beilis to-day, calling it a blind and gross blunder. At the conclusion of the article it said:

"When the Duma passes a law enabling Golubeff, the leader of the Black Hundred, arbitrarily to send Jews to hard labor, then perhaps it will be unnecessary to seek to prove the existence of ritualists among them."

MANGLED REMAINS.
BELLEVILLE, Ont., Oct. 23.—At an early hour this morning the mangled remains of Samuel Peoples, an unmarried man, 31 years old of this city, were found lying beside the railway track which connects the Belleville Cement Works with the Lehigh Cement Works in Thurlow Township. The head was severed from the body, both arms were amputated. The victim had been struck by a train which plies between the works. Coroner Boyce will hold an inquest.

Mrs. Pankhurst, England's Most Militant Suffragette, Who Was Barred from United States

Called Her Own Name in Guelph

Mrs. Emmeline Pankhurst, who has given John Bull more trouble than any woman since Mary Queen of Scots, was ordered deported from the United States on the ground that crimes which she admitted having committed in England involved moral turpitude.

MANY MINERS ARE ENTOMBED

John Bull Lends Two Officials to China For Her Navy.

(Continued from Page 1)
DAWSON, N. M., Oct. 23.—Between one hundred and ninety-three and two hundred and forty-three men were still entombed in Shaft No. 2 of the Stag Canon Mine of Phelps, Lodge and Company of New York, more than twelve hours after the explosion in the depth of the workings.

Fourteen bodies were recovered during the night. The twenty-third living victim of the disaster was found at the depth of a mile in the workings and taken out unconscious at 5:30 this morning.

Indications early were that the first aid corps working under the direction of J. B. Morrow would reach the majority of the day shift, which was caught in the cave-in, some time to-day. Hope was strong that the great fans, which have been driven all night, would have diluted the gas so that the trapped men might be found alive.

Opinions as to the cause of the explosion differ. It was first asserted that black damp ignited and exploded. Later it developed that at this time of the year the mines in the adjacent southern district of Colorado become dangerous from the prevalence of coal dust, which, in amount of water seems able to keep under control and led to the belief that the same condition might have caused the disaster here.

Rescuers this morning reached the foot of the air shaft through which it had been hoped many miners might escape alive. Three living men and three dead were found at this point. At 9 o'clock a total of twenty-five men had been rescued, two more than previously reported. Helmet men were still working in short shifts and it was believed every part of the mine would be explored before many hours. The ventilators were working well, driving fresh air into every portion of the workings which could be reached. The work of forcing entrances into the mine was progressing rapidly. Rescuers were working through the main shaft in mine No. 2, and also through tunnels which connected this mine with mines three and five.

BUFFALO MARKET.
EAST BUFFALO, Oct. 23.—Cattle—Receipts, 800 head; active and strong. Veals—Receipts, 50 head; active and steady, unchanged. Hogs—Receipts, 4,000 head; active and 5 to 10% higher; pigs 25c lower; heavy, \$8.50 to \$8.75; mixed, \$4.40 to \$4.50; yorkers, \$8.00 to \$8.50; pigs, \$7.50 to \$7.75; roughs, \$7.50 to \$7.75; calves, \$8.25 to \$8.40. Warspite Launch
The new battleship Warspite, which was laid down at Devonport on Oct. 31 last, will be launched on Nov. 26.

Tinker's Resources
When a tinker named Myles Doran was fined \$8. at Lunenburg for being drunk he was minus the required amount of money, but he thought himself of the novel idea of pawnning his boots to secure liberation. This done, he was released on paying the fine, and left the town barefooted.

ELECTRIC LINE

Talked of to Run Between Hespeler and Elora.

GUELPH, Oct. 22.—At a special meeting of the City Council last evening a strong resolution was passed urging the building of an electric radial line to follow the Hydro Power transmission line from Hespeler, through Guelph to Elora, Fergus, Arthur and connecting with Mount Forest. The recommendation of the railway and manufacturers' committee was as follows:

"That the Hydro Electric Power Commission be requested to investigate and report upon the cost of constructing and operating the electric line from Hespeler, connecting with Puslinch Lake, through Guelph to Elora, Fergus and Arthur and also from Arthur connecting with Mount Forest, through the Beaver Valley to Meaford or Thornbury, the municipalities, the inhabitants of which will be served by such railway, the population of each of such municipalities as shown by the last census, as estimated by the assessors, the estimate of the probable revenue from the railway and the practicability of the undertaking and its economic value to the localities to be served by it.

This means that Guelph fully intends to get in on the ground floor in this matter, having already been fully assured by Hon. Adam Beck that this application would have his immediate attention. The surrounding municipalities are very enthusiastic over the prospects of getting this line.

MAPLE LEAF'S OWNER CALLS FRANCE TO WIN.
NEW YORK, Oct. 23.—E. Mackay Edgar, who made Maple Leaf IV, recently defeated the Angle Deep, owned by Count Mankevski, representing America, the other English and several French motor boats off Cowes, and thus won the Harmsworth Cup for England the second time, says he will not build a defender for next year. He is of the opinion that the French will win the cup in the next race.

"You see, the Maple Leaf did not do at all badly," said Mr. Edgar, with modest pride. "Ankle Deep did well, but she was not quite so fast as the

"I ATTRIBUTE MY CURE SOLELY

And Entirely To Taking 'Fruit-a-lives'

HULL, Que., Dec. 24th, 1909
"For the past twelve years, I had painful attacks of Dyspepsia. I could not digest my food and everything caused the most agonizing pain in my stomach. I also had a fearful attack of Constipation and at times, I had no movement of the bowels for two weeks. Three doctors attended me for two years and gave me all kinds of medicine but did me no good. My weight came to only 85 pounds and everyone thought I was going to die. Finally, I had the good fortune to try 'Fruit-a-lives' and as soon as I began to take them, I felt better. I persisted in the treatment and to my great joy, I steadily improved. Now I feel very well, weigh 115 pounds, and this is more than I ever weighed even before my illness. I attribute my cure solely and entirely to 'Fruit-a-lives' and can never praise them too much for saving my life. To all who suffer from Dyspepsia and Constipation, I recommend 'Fruit-a-lives' as a miraculous remedy."

Mrs. ANDREW STAFFORD, age 40, box, 6 for \$2.50, trial size 25c. At dealers or from Fruit-a-lives Limited, Ottawa.

French boats. France has already challenged for next year. Three boats stand one of them by the Wolseley Siddeley Company. I think the Frenchmen will win next year, because they have better engines than anybody else."

A WONDERFUL COLD CURE.
Just think of it, a cold cured in ten minutes—that's what happens when you use "Catarrhozone." You inhale its soothing balsams and out goes the cold-sneezes are cured—headache is cured—symptoms of catarrh and gripe disappear at once. It's the healing pine essences and powerful antiseptics in Catarrhozone that enable it to act so quickly. In disease of the nose, for irritable throat, bronchitis, coughs and catarrh it's a marvel. Safe even for children. 25c and \$1.00 sizes at all dealers.

Brockville and Leeds County Holstein Breeders organized a club following an auction of a large number of cattle.

DR. ROY MILLER IS BOUGHT BY ROYALS

Canadian Player, U. of T. Graduate, Secured from the Phillies.

TORONTO, Oct. 22.—The Montreal club has secured the services of a well known Canadian ball player in Dr. Roy Miller of the Philadelphia Nationals. Miller comes to the Royals with infielder "Runt" Walsh as final payment for Catcher Burns, the hustling young Montreal backstop.

Dr. Miller is a graduate in medicine of the University of Toronto, and for a number of years pitched for Ingersoll and other semi-professional teams in western Ontario. Lately he has played the outfield, and in 1911 he led the National League batsmen as a member of the weak Boston team. Miller was afterwards traded to the Philadelphia team and has been used as a pinch hitter. He has always been considered a close second to McCormick of the Giants as an emergency batsman. Miller has lost his speed in the field, but his slugging propensities ought to make him a valuable man for the Royals.

Martindale and Kindy, the "cheque artists" were sentenced at Welland to three years' imprisonment. The women were set free.

NO DRINKING MAN NEED DESPAIR

The Neal Cure—Greatest of All Modern Discoveries—Offers a Means of Escape from the Curse of Drink. A cure of the Drink Habit is Guaranteed in Three Days no Matter Whether the Patient is a Hard and Constant Drinker, Social Tippler or Goes on Occasional Sprees.

There was wandering in the streets of Toronto lately a homeless man, who at one time held a splendid position, but drink was his downfall. To-day his wife, a cultured woman, works out by the day, endeavoring to support herself and little family. Think of it, you wives and mothers, who have homes of comfort and all that makes life worth living, what it would be to you to be deprived of these and forced to face the wash tub for an existence, as this poor wife has to do to-day?

But this home which was made a hell on earth through strong drink—as every drunkard's is—may be made into a heaven upon earth, as many have been made, as a result of the Neal Treatment. Three days only—the wonder of it—to effect a cure and make the victim of strong drink a new man, physically, morally and mentally.

We undertake to guarantee to effect a cure of the Drink Habit in Three Days, no matter whether the patient is a hard and constant drinker, social tippler, or goes on occasional spees. Are you interested in a poor fellow going down, down,

through the curse of drink? Then bring your influence to bear on him and bring him to the Neal Institute for treatment; drunk or sober, and we will undertake to remove the awful appetite for strong drink and deliver him to you a new man.

Here is an opportunity for REFORMATION SOCIETIES for INEBRIATES or any institution for the reformation of the drunkard, to test our ability to change the hard drinker into a new man, physically and mentally, in THREE DAYS' treatment.

We invite these Societies or any institution interested in the poor drunkard and the problem of dealing with him, to send us for treatment any victim of the drink habit, it makes no difference how much enslaved, and we guarantee to effect a cure in each and every case. Can you spend your money to better advantage or in a way that will bring in greater returns than in redeeming these victims of strong drink and giving back to their families kind fathers, brothers, husbands, and to the country most desirable citizens?

Baseball

MCGRAW TO GET RID OF "BONEHEAD" MERKLE

ST. LOUIS, Oct. 23.—The report from New York that Edward Konetchy, first baseman of the St. Louis Nationals, is to be sold or traded to New York, practically is confirmed here, though no formal announcement has been made.

Konetchy has been, or is to be, traded for Catcher Wilson, Outfielder Snodgrass or Utility Player Thorpe. The New York club owes St. Louis club a player on a former trade.

LEAPS AND GIANTS ON FRIENDLY TERMS

NEW YORK, Oct. 23.—Following the plan of the Yankees, who shared their training in Bermuda last spring with the Jersey City Skeeters, John J. McGraw has found company for the Giants when they go to Marlin, Texas, next spring.

Joe Kelley, manager of the Toronto club of the International League, and a close friend of the manager of the Giants, has accepted an invitation to make the Maple Leafs to Marlin Springs next March.

It is expected that McGraw will send his surplus material to Toronto. It was under Joe Kelley that Jeff Tesreau got his final brushing up for the big league, and it also was the Manager of the Maple Leafs who sent "Bunny" Hearne, the promising southpaw, to the Giants last summer.

The Cardinals Deny It. OTTUMWA, Iowa, Oct. 23.—President Hempstead and Scout Kinisella of the New York Nationals, who arrived with the Giants and White Sox on their world tour, said yesterday there was no truth in the report that First Baseman Konetchy of St. Louis would become the property of the New York Giants in exchange for any New York player.

LINERS. It is said Stovall may sign with the Peradale League. He must be a glutton for punishment.

Old Capt. Anson comes to bat with the statement that his old team made those Athletics look puny. Mayhap, but it would be hard to make a certain McGraw believe this.

The bride of Jeff Tesreau is credited with saying that Jeff is the greatest ball player in the world. This should entitle her to write the world's series next season for the New York papers.

The breaks of the game were too much for Jim Hanley, the young southpaw, who received a trial last season from the New York Americans. Hanley pitched an exhibition game in Manville, Mass., yesterday and although he allowed only three hits and struck out seventeen men he lost by a score of 1 to 0.

Fill of the Buffalo team of the International League was his opponent on the mound. A good many of the New York fans are sore on President Lynch because the Giants were not able to win a post series from the American League clubs.

"I would like to know what I have got to do with players work on the field," said Lynch, when he heard of the charge against him. "I can't put a fighting spirit into the players and I noticed that several of the New York players practically quit when the Athletics got ahead of them. I know that John Heydler has his hands full as Treasurer of the league, and he said he would not take the presidency under any consideration."

New Zealand Makes 242 Points without Being Scored Against. SAN FRANCISCO, Oct. 23.—By defeating Santa Clara University 42 to 0 yesterday, the All-Black Rugby team from New Zealand, raised its total of points scored, in its six matches in the United States to date, to 232 without a point having been scored against them.

A BUSINESS CAREER CALLS 'HOME-RUN' BAKER

Connie Mack Philosophical Over Rumored Retirement of Star Third-Baseman

PHILADELPHIA, Oct. 23.—John Franklin Baker, third baseman of the world's champion Athletics, and one of the greatest hitters that baseball has ever known, may not be seen on the diamond again, "Home Run" Baker is seriously considering retiring from the game to enter upon a business career.

Baker is now in his home in Trappe, Md. Over the long distance definitely decided upon his future plans, but that he had for some time been debating the advisability of quitting baseball for business.

The noted third sacker is the owner of a large plantation in the South, and it is surmised that if he retires from the national game it will be to become a gentleman farmer. If Baker retires it will mark the first break in the \$100,000 infield of the world's champions.

Connie Mack when asked about the report said he had heard nothing from Baker regarding the matter. "I am inclined to believe," said Mack, "that Baker will be seen with the Athletics next season. If he does quit the game there is nothing for us to do but to fill his place."

Football

Y. M. C. A. Notes. The Y. M. C. A. team to meet the All Scots in the Courier Cup final next Saturday, will be as follows:—Tigwell, T. Mason, B. Holland, B. Palmer, E. Roberts, A. Clark, Hillsley, T. Hamilton, J. Holland, C. Poynter, F. Fisher, Reeves, T. Goodrich, Vipond. All players are requested to be at the armories 2.45. The game will be called at 3.30 sharp.

Officials Appointed for "Big Four" Games on Saturday. HAMILTON, Oct. 23.—"Hammy" Gordon and Percy Roberts have been appointed referee and umpire, respectively, for the game between the Tigers and Ottawas, on Saturday. As a defeat would put the Tigers out of the running much importance is attached to the game, and there will be a very large crowd. All the regulars, with the exception of Wilson, are in good shape. Bob Isbister, who has played 102 games, will be used as rover.

Frank Robbins and Eddie Phillips will have charge of the Argonaut-Montreal game.

Football Stars Will Write Newspaper Articles. TORONTO, Oct. 23.—The report that Captain Henry Ketchum of the Yale football team is to forbid the members of the Yale eleven from writing signed articles, has created considerable consternation at Harvard last Captain Storor follow the example of the Yale leader. By the time the series with the Blues arrives pretty nearly the entire Harvard regular team will be tied up with contracts for newspaper work. The backfield, composed of Charley Brickley, Tack Harwick and Eddie Mahan, is already engaged at this work, their combined weekly salaries amounting, it is said, to nearly \$200.

Brickley, who it is claimed cleaned up \$2000 last year by his literary efforts and the fact that he was the star of the Crimson team, has been writing matter for two sheets since the present season opened. He draws down \$75 a week, so it is estimated. Mahan, like Brickley, is writing daily stories, but his signature will not be used until the big games are inaugurated. Harwick, is writing Sunday stories under his own name also. Two of the members of the team are at present considering contracts calling for signed articles for easy money.

British Postmaster-General Samuel, addressing the Pilgrims' Society at New York, said he was glad Mrs. Pankhurst had been admitted to the U. S.

Sporting Comment

Jack Sloan, Bert Brown, and B. M. Smith, local athletes, complain that Brantford athletes are placed in a false position in connection with wrestling and boxing meets conducted in Hamilton. It is stated locally that men from small towns enter as representing Brantford. The athletes mentioned penned this letter to a Hamilton paper:

"From time to time we notice wrestling and boxing cards in your papers about so-called cream of Brantford to meet your Hamilton boys; but very seldom do they come from Brantford. Now, we ask you to kindly let the people of your fair city know that sometimes the bouts in your city are misrepresented. A few weeks ago you had in your paper that Hamilton won the inter-city championship from Brantford. How was it won? Did you give all the boys in Brantford a chance, or just three? How did your boys win? Who named the referee? Now, we read the accounts and were disgusted with it. We at one sent a challenge to Hamilton to Sab Zeller, also enclosed a two-cent stamp for a reply, and offered to bring six or seven men down, and bring back the inter-city championship. Kindly have Mr. Zeller produce said letter and publish it, and if he cannot comply with it let some good sport act for Hamilton and we will bring Golding to meet Zeller again, which is saying quite a bit, when Zelle beat him so easily before. Needless to say, we will not stand for the same referee?"

FREDDIE WELSH MATCHED WITH EDDIE MURPHY. CHICAGO, Oct. 23.—Freddie Welsh, British lightweight champion, and Eddie Murphy, were matched yesterday to box ten rounds in Kenosha, Wis., November 10. They will fight at 135 pounds.

Each team in the inter-scholastic league have played two games and each team has two more to play. Brantford won in Guelph last Saturday and were beaten here by Galt, but protested the game, and it was declared a tie. Galt was beaten by Guelph.

The local team goes to Galt next Saturday and if the game is taken the locals might just as well bring home the silver—it will be sure to come here. How does that sound in the ears of those Galt huskies?

Hockey

PRO HOCKEY SYNDICATE CONTROLS TECUMSEHS. Montreal Star—More startling hockey news comes from the Maritime Provinces. This time another big deal is reported. A well-known Maritime hockey enthusiast—one on the inside—spent Thanksgiving Day in Montreal. He was crammed full of hockey news, and some of it was of a very important nature.

"There was one big deal pulled off recently," said he, "which has thus far been kept dark, but I know for a fact that it took place: so here it is. The Halifax Crescents have changed hands. Mr. John Murphy and his partners no longer own the club. It is now the property of a certain contractor, who is a heavy stockholder of the Toronto Tecumsehs, now known as the Ontario. This will no doubt come as a big surprise to Halifax fans, for it was thought the Crescents were making money.

"The idea of the new owners of the Crescents, it appears, is to work

By George McManus

the players between the two clubs. This is one of the biggest deals in the annals of professional hockey in Canada—in fact it has never been paralleled; for with the one deal I have every reason to believe was associated another. The Montreal team, as everybody knows, was reported sold to the Halifax Crescents and Toronto Tecumsehs. That was alright for a time, but now it transpires that the same man who purchased the Halifax Crescents also has options on all the Montreal players, which means that the Toronto Tecumsehs control three Canadian professional hockey teams.

"Now, this looks to me like the biggest syndicate operating hockey in the annals of the sport in the Dominion."

CORBETT AT MONTREAL AS WRESTLING REFEREE. MONTREAL, Oct. 23.—Eugene Tremblay, lightweight champion wrestler of Canada, won from Young Lee of Cleveland, Ohio, here today in two straight falls, in 22 and 24 minutes, respectively, after some lightning fast wrestling. Tremblay proved too strong and heavy for his opponent. The American boy, however, had a clever style of defence, and broke some dangerous holds. The first fall was on a combined scissor and body hold, and the second on a body hold alone. James J. Corbett, former champion heavyweight pugilist, refereed the bout.

In a preliminary match Raymond Cazeau endeavored to throw Simard, a local heavyweight, five times in an hour. The Montrealer proved too tough a proposition for the Bordeaux, and Cazeau had his own shoulder pinned to the mat in 43 minutes.

FREDDIE WELSH MATCHED WITH EDDIE MURPHY. CHICAGO, Oct. 23.—Freddie Welsh, British lightweight champion, and Eddie Murphy, were matched yesterday to box ten rounds in Kenosha, Wis., November 10. They will fight at 135 pounds.

PHILOSOPHICAL PHELIIX AND THE WEATHER

[Canadian Press Despatch] LONDON, Oct. 23.—In the absence of any definite lead from British official quarters, newspaper comment on the Mexican situation today is scarce and is generally confined to brief paragraphs questioning the genuineness of the alleged interview given by Sir Lionel Garden, the British minister to Mexico, and calling for the issue of a speedy disclaimer.

The newspapers recognize that the Americans being nearer the spot are better able than Great Britain to judge where the shoe pinches. The Pall Mall Gazette says: "We ought to recognize that British interests in Mexico are commercial while those of the United States are personal and are therefore paramount."

It also points out that the friendship of the United States is more important to Great Britain than any oil concessions. The United States Ambassador Page had no intention of going to the British Foreign Office today.

RESULTS A SECRET NEW YORK, Oct. 23.—A Paris cable says: As to the results of the naval firing practice this week, unpreceded secrecy is being observed. Nothing can be learned of the percentage of hits, but it is known that one ship registered ten hits in the first minute at a distance of more than six miles. The battleships Condorcet, Mirabeau and Suffren, and the cruiser Waldeck-Rousseau head the list.

FORECASTS. Moderate to fresh winds, mostly southerly, unsettled to-day and Friday with occasional showers.

Big Apple Mr. G. Kerslake, of Crediton, Devon, has picked an apple in his garden which weighs 1 3/4 lb. and measures 17 in. in circumference.

REID & BROWN Undertakers. 151 Colborne St.—Open day and night.

LEGAL BREWSTER & HEYD—Barristers and Solicitors for the Royal Loan and Savings Co., the Bank of Hamilton, etc. Money to loan at lowest rates. W. S. Brewster, K.C., Geo. D. Heyd.

ERNEST R. READ, Barrister, Solicitor, Notary Public, etc. Money to loan on improved real estate at current rates and on easy terms. Office, 127 1/2 Colborne St., Phone 487.

ANDREW L. BAIRD, K.C.—Barrister, Solicitor, Notary Public, etc. Office, Empire Building, 78 Dalhousie street. Office phone, 8; house phone, Bell 463.

MUSICAL INSTRUMENTS. HARVEN Piano and Music Co., pianos, organs, sewing machines, phonographs, violins, and all stringed instruments, sheet music, both popular and classical; old instruments taken in exchange. 139 Market St., Brantford.

REPAIRING W. G. HAWTHORNE—Headquarters for guns, rifles and cartridges; bicycle and general repair work; keys fitted and locks repaired; saws gummed, filed and set. Promptness guaranteed. 78 Dalhousie St., Brantford, Ont. Both phones 646.

SPLENDID TRADE RETURNS SHOWN

Figures Tell of the Increasing Prosperity of Canada.

OTTAWA, Oct. 23.—Canadian trade for September, according to the monthly statement just issued, shows that imports have decreased and exports increased, tending to diminish the reverse balance of trade.

The total imports for the month were \$16,342,000 of free goods and \$37,997,000 dutiable.

In the corresponding month of 1912 \$38,548,000 of dutiable and \$19,307,000 of free goods came in. Exports for September were \$37,048,000 of domestic goods and \$4,074,000 of foreign goods, as against \$25,814,000 domestic and \$3,153,000 foreign for September, 1912.

In the six months of the fiscal year exports of domestic goods \$188,405,000, foreign goods \$22,842,000, as compared with \$152,427,000 of domestic and \$15,972,000 of foreign in the corresponding period of 1912.

Agricultural imports in September increased by five and a half millions, and minerals by upwards of one million.

The grand aggregate of trade in the six months was \$551,978,000, compared with \$506,265,000 in the corresponding six months.

ONLY SLIGHT COMMENTS

By British Papers Regarding Present Mexican Situation.

[Canadian Press Despatch] LONDON, Oct. 23.—In the absence of any definite lead from British official quarters, newspaper comment on the Mexican situation today is scarce and is generally confined to brief paragraphs questioning the genuineness of the alleged interview given by Sir Lionel Garden, the British minister to Mexico, and calling for the issue of a speedy disclaimer.

The newspapers recognize that the Americans being nearer the spot are better able than Great Britain to judge where the shoe pinches. The Pall Mall Gazette says: "We ought to recognize that British interests in Mexico are commercial while those of the United States are personal and are therefore paramount."

It also points out that the friendship of the United States is more important to Great Britain than any oil concessions. The United States Ambassador Page had no intention of going to the British Foreign Office today.

Royal Pair Delayed By Heavy Fog

[Canadian Press Despatch] QUEBEC, Oct. 23.—Fog is delaying the Empress of Britain, on board of which are the Duke and Duchess of Connaught and the Princess Patricia. The vessel is not expected to reach Quebec until late Friday afternoon, when the royal party will at once board a special train and proceed to Ottawa, reaching there on Saturday. Reports from the Empress of Britain state that the Duchess of Connaught has stood the journey well.

EAST MIDDLESEX VOTE EARLY IN DEC.

Said at Toronto That the Bye-Election Will Be Brought on at Once.

A BYE-ELECTION TORONTO, Oct. 23.—It was stated last night semi-officially that the bye-election in East Middlesex, made necessary by the death of George W. Neely, will be brought on at once. It is likely that the vote will be during the first week in December.

It is probable that the writ will be issued early next week.

LLOYD-GEORGE AND SWINDON. SWINDON, Eng., Oct. 23.—Chancellor of the Exchequer Lloyd-George does not despair of a measure giving the parliamentary franchise to women in the British Isles being carried in a short time, but not during the present parliament. He said this today in reply to questions put to him by a deputation from a number of suffrage societies. He added that the militant tactics adopted by a section of the women had converted many people's indifference for the cause of woman suffrage into something like bitter hostility.

The militant section of the suffragettes, according to Chancellor Lloyd-George, had created a situation which was the worst he had ever seen for woman suffrage in parliament. He said he was glad to see that the spirit of militancy was withering.

In conclusion Mr. George told the women to undertake pilgrimages, for "that is how the women have won the vote in other countries."

COVERED WITH SNOW

DULUTH, Minn., Oct. 23.—Vessels arriving in the Duluth-Superior harbor today were covered with snow. Practically all of the delayed vessels are in port. According to the vessel captains, a dozen boats were sheltered in Portage during the worst part of the storm, and they waited from 12 to 16 hours for the heavy north-wester to moderate. Fifteen boats were waiting to be loaded at the docks this morning which would have been despatched had the ice not been frozen, making it hard to handle. This is exceptionally early in the season for the movement to be hampered by the ice. Predictions are made that there will be little loading after Nov. 1.

AT THE GEM THEATRE

"The Curse of the Golden Land" a splendid viagraph production, featuring the great dramatic actor, Mr. Courtney Foote, is the special for Friday and Saturday at the Gem. "A Victim of the Mormons," is attracting a great deal of attention, and will be shown to-day, Thursday.

REMOVAL

Lee Hing, Chinese laundry, No. 154 Market street, will remove on or about October 25th to his new premises, No. 144 Market street. Goods called for and delivered to any part of the city within 24 hours.

Obituary

Patrick Kennedy. The death occurred yesterday of Patrick Kennedy at his late residence 90 Dundas street. He was born in Ireland 82 years ago and had resided in this city for 62 years. The late Mr. Kennedy was a member of St. Basil's church. There are left to mourn his loss a widow and four daughters, Mrs. Bennett, Toronto; Mrs. A. Smith and Mrs. Geo. King of this city and Margaret at home, and four sons: C. of Detroit; John and Thomas of Milwaukee and Morris of Hamilton. The funeral will take place to-morrow morning.

Workhouse Comedy. Mr. Mahon, Master of Dunshazilish Workhouse, appeared at a meeting of the guardians, and in dramatic fashion produced the remains of what he said was once a shirt. "On Sunday morning" he continued, "it was given to an inmate named Martin, who tore it up through some malicious spirit which seems to be inherent in the man. He pays sixteen pounds a year for his maintenance and clothing, but there is no margin left to pay for this amusement. I suggest that he be invited to seek fresh fields for the exercising of his genius and spend his money in some congenial surroundings." The Board made an order that Martin, who is the owner of a farm, which he lets, be called upon to pay the damage.

"No Goods Except Wife" "I have no goods except the wife, and they may take her if they wish," was the reply made, amid laughter, of Jas. Maher, Oldtown Naas, when asked by Lord Mayo whether he was aware that under distress on his goods the money was insufficient to pay a fine he would have to go to jail.

J. F. Emerson of Minneapolis, who will speak on "Beyond the Grave" at the Grand Opera House on Sunday afternoon.

Giving Up Dairy Business.
