LUXBURG DISMISSED

President's Action Toward German Ambassador is Approved.

By Courier Leased Wire. Buenos Aires, Sept. 13.—The rioting, which began here late yesterday, is an anti-German demonstration, continued throughout the night. Every German business house and restaurant in the downtown district was wrecked. The German club and other buildings were damaged seriously by fire. The police wounded seven rioters seriously when they fired into the crowd. Three of the injured are expected to die.

At first the crowds were so unmanageable that the police closed all the streets leading to the German legation and consulate. The archives in these buildings were taken to the storage vaults for safe keeping. Firemen, armed with rifles, prevented the mob from destroying the offices of the German trans-Atlantic company, which supplies the city's light, and "troops" of provincial troops are guarding the railway over which the German minister, Luxburg, will arrive this morning.

The cabinet late last night approved the action of President Irioyen in presenting passports to Count Luxburg. It is said to have considered similar action in the case of Baron Lowen, the Swedish minister, but no action will be taken pending the arrival of further details from Washington and Stockholm.

The Argentine foreign minister announced last night the following: "The government has proved the texts of the Luxburg telegrams, and in consequence has sent the following to Berlin: "Argentine Minister, please deliver to the German Government the following: "The Argentine Government has valued highly the exalted manner in which the government of Germany has solved in ample terms all the Argentine claims, but must inform the German government that because of the texts of Minister Luxburg's telegrams, which have been published, he has ceased to be 'persona grata,' and in consequence this government has delivered to him his passports."

Sweden's Swagger. Stockholm, Sept. 13.—The Conservative newspaper, Dagbladet, prints a bitter editorial on the statements in the British and American press concerning the Luxburg affair. The newspaper says:

"The barrage fire from London and New York editors will fall entirely to lighten Sweden out of its neutrality."

The Svenska Dagbladet resents what it terms "interference in Swedish domestic problems," and says the allied press is utilizing the present difficulties as propaganda for the formation of a Swedish party. The newspaper adds:

"All attempts to differentiate between a criminal government and a deceived people in this case is doomed to disappear. All hints as to how we are to group our political parties will not affect us."

Korniloff's Bold Stroke For Supreme Power Has Failed; Kerensky Takes the Field And Rebel Leader's Supporters Lose Heart--Many Already Join Loyalists

By Courier Leased Wire.

Petrograd, Wednesday, Sept. 12.—According to an official statement issued General Korniloff's attempt seems to have collapsed and there is no longer any reason to fear a collision between the two forces. After General Alexieff had been in communication by telephone with General Korniloff the opinion was that the revolutionary general later would abandon his enterprise.

KORNILOFF TALKS OF SURRENDER.

London, Sept. 13.—General Korniloff, former commander-in-chief of the Russian armies and leader of the rebellion against the provisional government has expressed a willingness to surrender on certain terms, says a despatch from Petrograd to the Exchange Telegraph Company. The provisional government, however, demands his unconditional surrender.

RUSSIAN OFFENSIVE GAINING.

Berlin, Sept. 13.—German cavalry posts to the south of the Riga-Wenden road, on the northern Russian front, yesterday withdrew before strong Russian pressure, according to the official announcement issued to-day by the German headquarters staff.

Petrograd, Sept. 12.—(Delayed)—Numerous delegations from General Korniloff's army are arriving at the staff office of the Petrograd military district in a penitent mood, the Associated Press has been informed by Premier Kerensky's secretary. The soldiers declare they had been deceived as to the aims of General Korniloff's rebellion.

General Patchinsky, second in command to General Savinkoff, commander of the Petrograd district, declares the revolt may now be considered to be a final and irretrievable failure. He says that the question of General Korniloff's surrender is now a matter of secondary importance.

Premier Kerensky's appointment as commander-in-chief of all the armies has been confirmed officially by the cabinet, General Alexieff has been confirmed as his chief of staff. Vice Premier Nebrasoff announces that General Alexieff has sent a telegram to General Korniloff demanding his immediate surrender.

KERENSKY TO FACE KORNILOFF.

Stockholm, Sept. 13.—The Svenska Dagbladet announces that it has received a despatch from Petrograd stating that Premier Kerensky has left the Russian capital at the head of an army in order to meet the troops of General Korniloff before they reach the capital. There was every expectation, the message said, that a battle would be fought to-day.

MARCHING ON PEAROGRAD.

Petrograd, Sept. 13.—Gatchina, 30 miles to the southwest of Petrograd has been occupied by the forces of General Korniloff after it had been evacuated by Government troops it is announced to-day. Another Korniloff force in 34 miles south of Petrograd in the direction of Tskaroe Selo. General Krimoff, commander of the Korniloff troops is at Luga, 90 miles southwest of Petrograd. No fighting has occurred so far.

MOSLEMS QUIT FIGHT.

Petrograd, Sept. 13.—A division of General Korniloff's force composed of Moslem troops has reached Tsarskoe Selo, 15 miles south of Petrograd. Kugusheff, a loyal Mohammedan officer, was sent to treat with them and they agreed to abandon resistance to the provisional government on condition that they be sent home to the Caucasus where they must not be employed against the Turks their co-religionists.

Premier Kerensky agreed to the proposal. According to official statement the so-called "savage" division, composed of Georgians and Caucasians, is the only unit of troops sent against Petrograd which remains solid for General Korniloff. That body is now at Tsarskoe Selo. Up to yesterday afternoon it was feared that force would have to be applied to it, but it now seems that the situation has cleared.

It appears to be undoubted that the "savage" division, though devoted to General Korniloff, had no idea of their destination or his aim. The division consists of eight regiments of fierce Caucasus cavalry recruited almost exclusively from the various tribes and contains a few Tartars. Almost all are Mohammedans and among them are many princes. Some are wholly uneducated. Their commander is General Bagration.

"The submission of the 'savage' division was brought about through the devotion of a group of their co-religionists to the government. The tribesmen do not speak Russian, suspect and dread Christians, and when approached by the government's Russian emissaries refused to listen to them and threaten them with arrest.

A Mohammedan Tartar artillery officer, General Kugusheff with other Moslem officers, who are devoted to the government went on a mission to them and were well received. They have returned and are now at the Petrograd staff office. There the Associated Press interviewed General Kugusheff a little, swarthy, picturesque Asiatic, whose head was bandaged from a wound and who wore an ordinary Russian uniform. The general said:

"The Caucasians declared they absolutely refuse to surrender and come to Petrograd for fear the Bolsheviks would massacre them. But they were willing to abandon resistance on condition that they were sent home to the Caucasus front where, however, they must not be employed against their co-religionists—the Turks.

"After prolonged negotiations we agreed to recommend this solution to Premier Kerensky and we returned to Petrograd. The premier has now promised us that the 'savage' division will be unpunished and will be sent home to the Caucasus, there to replete its ranks and will be absolved from service against the Turks. I consider their submission assured."

U. S. ARTILLERY

American Training camp in France, Sept. 13.—(By the Associated Press)—A large contingent of American artillery has joined the expeditionary army and is well along with its intensive training under French supervisory instruction. Hitherto the arrival of the artillery contingent has been carefully guarded and permission to mention the fact has just been officially given. The American artillery men are using the latest models of the famous French 75s and also six inch howitzers.

CABINET IS FORMED BY PAINLEVE

Minister of War Finally Successful in Organizing French Ministry.

SOCIALISTS AGREE

Trouble Caused by Non-Representation of Unified Party Past.

FORM WAR COMMITTEE

Announcement of Under-Secretaries in New Cabinet Made.

By Courier Leased Wire.

Paris, Sept. 13.—M. Painleve has succeeded in organizing a ministry to replace the Ribot cabinet. For a time the Socialist Radical group presented an obstacle to the formation of a cabinet, as selected by M. Painleve should not be members of a cabinet where the Unified Socialists were not represented. These men, M. Renault, Vincent Besnard, Renard and Long formed the party that they had accepted the portfolios before the party had reached this decision and there was a bond of honor to remain. The matter then dropped.

M. Painleve presented the new ministers to President Poincare, to-night.

WAR COMMITTEE

Paris, Sept. 13.—A French war committee to be composed of the Premier and Minister of War, the Minister of Foreign Affairs, the Minister of Marine, Minister of Munitions and the four ministers of state is instituted in a decree which appears in today's journal official. The Minister of Finance will take part in the meetings. The generals of the army and the admirals of the navy will assist at the meetings in which they have consultative rights. The functions and attributes of the committee will be defined in a decree to be issued later by the Premier.

The names of eleven under-secretaries of state in the new cabinet, were made public last night. Five are attached to the war department as follows: Medical Services: Justin Goddard, Aeronautics: J. L. Dumesnil, General Administration, Dr. Monnier; Edification, Military Justice and Pensions, Pierre Masse; Inventions, J. L. Breton.

The others are: Interior, Victory Pavlov; Finance, Paul Bonriey; Commerce, Paul Morel; Merchant Marine and Transport, attached to the Department of Commerce, Anatole De Monzie; Blockade, attached to the Department of Foreign Affairs, Albert Metin; Fine Arts, Albert Dalmer.

CIVILIANS REMOVED

Havrre, Sept. 13.—The removal of the civilians population of Belgium continues, according to advices received here. The town of Roulers, immediately behind the battle line in Flanders, has been evacuated completely. Oostend is being emptied gradually and 2,000 persons already have been sent from Courtrai.

Many of the inhabitants of Berlaers have been taken forcibly to Turcoing to work on the defences. All of the inhabitants of Sledyinge, Flanders rich and poor alike have been made to work on Military roads.

ITALIANS FIGHTING FOR PEAK

Bitter Battle Raging for Possession of Monte San Gabriele.

ITALIANS GAINING

Despite Stubborn Austrian Resistance, Cadorna Presses on.

ON WESTERN FRONT

French Artillery Active in Belgium; Foe Raids Repulsed.

By Courier Leased Wire.

Udine, Italy, Sept. 13.—Italians and Austro-Hungarians are engaged in bitter fighting for possession of Monte San Gabriele, on the Isonzo front. A bulletin issued to-day by General Cadorna, mentioning Monte San Gabriele for the first time, reveals that intense fighting for possession of that point has been going on since the taking of Monte Santo, by the Italians. While the top of Monte San Gabriele has not yet been captured, the Italians are now firmly established just under the crest and out of the range of the Austrian artillery fire. The Austrian resistance has been of a most desperate character and there have been heavy losses on both sides.

FRENCH OFFICIAL

Paris, Sept. 13.—In the region of Bixchoote, on the Belgian front, says the official statement, issued to-day, by the French War Department, there was a violent artillery bombardment last night. The French guns checked infantry attacks south of Juvin-court. In the Champagne, German raids on the French trenches were repulsed.

The text of the statement reads: "In Belgium there has been violent artillery fighting in the region of Bixchoote. On the Aisne front French artillery, dominating German batteries, which were particularly active in the country south of Juvin-court, made it impossible for the infantry to deliver any attack in the Champagne district we repulsed several enemy attacks in the sector of Massiges to the east of Butte du Mesnil and to the northwest of St. Hilaire."

"In the hill region there has been the customary artillery activity on each side."

"On the right bank of the River Meuse, in the country around Carpiennes there has been artillery activity, but no action on the part of the infantry."

"In Alsace a surprise attack on German trenches to the west of Bonhomme village, resulted in our bringing in some prisoners."

"German airplanes again last night bombarded the country around Dunkirk. French airplanes bombarded with success Hoged, Cortemarch, Glete and Lindenken as well as aviation fields to the northwest of Thourout."

COWARDICE CHARGED

Pugsley and McLean on Question of Votes for Women.

By Courier Leased Wire.

Ottawa, Sept. 12.—The House proceedings on War Time Elections Act. Clause one was adopted on division. An amendment to clause two moved by L. A. Lapointe, that the polls in the cities remain open until eight o'clock was voted down on a standing vote, which was not announced.

The other clauses were adopted on division. On the motion to report the bill from committee, Mr. Pugsley claimed the right to speak and that the bill was again open to debate and amendment.

Speaker Rhodes ruled against Mr. Pugsley. The amendments were then concurred in and the bill stands for third reading.

At an early hour this morning Mr. Pugsley and A. K. McLean resumed their objections to votes being given to the female relatives of members of the Canadian patrol service.

Col. Currie said that the work was of a dangerous character and should be recognized. He criticized Mr. Pugsley for asking so many questions during the session and described D. D. MacKenzie as "a mud gun."

This aroused Mr. MacKenzie's ire. Col. Currie, he said, was the last man to talk about action. "If he wants to know his record," Mr. MacKenzie, "he is mistaken. He ought to take to his jugout."

Mr. Murphy of Parth rose to repel what he characterized as Mr. MacKenzie's "unwarranted attack" on Col. Currie. The attack, he asserted, was totally without foundation and was a base one. Col. Currie, he said, was a brave man. A letter he had seen recently written by a private at the front, said that Col. Currie's men were ready to follow him to hell.

Later, before conclusion of the session, Col. Currie several times attempted to get the floor, he said, to make a "personal explanation," but was unable to do so.

Want Extension. Calgary, Sept. 12.—Characterizing the recent limitation of the federal franchise to women relatives of soldiers as unfair and unjust, The Great War Next of Kin Association at its meeting to-night passed the resolution to be forwarded to Sir Robert Borden. "That whereas the members realize that by action the government are being defrauded of their just rights. The next of kin association asks the same interpretation in these matters as given in the original code, and that the federal franchise be extended to all females, British subjects over the age of 21 years, i.e. that the same privileges be extended to females as to males in Canada."

A Day's Dominion. Vancouver, Sept. 12.—A resolution favoring Dominion wide prohibition and urging that in the federal election only those candidates be supported who pledge themselves to support a nation-wide measure, prohibiting the traffic intoxicating liquors was passed at a meeting of the executive committee of the Peoples prohibition movement of British Columbia.

Return Evil Solved by Stores in Denver

Resolutions Adopted Two Years Ago Have Been Effective Because All Stores Co-operated—No Ordinary Returns; New Approval Plan With Goods Taken by a Clerk.

Denver's resolutions restricting the return of goods, which were put through two years ago, have proved highly successful in obtaining the desired result. It is the full and earnest assistance rendered by every store in the city in applying the rules curtailing the promiscuous return of merchandise to the stores that has made the success of the reform possible. "A shopper can go to any store in the city of Denver," says the buyer of a leading Denver store, "and find that she is unable to take goods on approval, or return merchandise affected by style changes, or apparel of intimate nature and she realizes that the store adheres to these rules on returns. No chance for her to seek out another store in the city where a foolishly liberal policy on return goods is in force, for the stores all live religiously up to the ruling they have set for themselves. "On returns we have adopted a policy which is handled individually by each department and some departments, the buyer's discretion is exercised. For instance, in the piece goods department, nuns veiling is taken back if it is in good condition, even though kept out by the customer for a long time. This kind of material can always be sold, and there are other materials which we will accept if they are in first-class condition when returned. "Millinery and ready to wear will not be accepted back. This ruling has proved very successful, and has caused shoppers to take more care in making purchases, buying with the avowed intention of keeping what they buy, and not with the

BOMBING RAIDS CONTINUED BY BRITISH ARMEN

Enemy Strongholds in Belgium Attacked With Considerable Success. By Courier Leased Wire London, Sept. 13.—Further extensive bombing raids have been carried out by the British naval air service on various objectives in Belgium, in the course of which successful engagements were fought with hostile machines. The official announcement of these operations reads: "In the last 24 hours many flight patrols have been carried on by the naval air service. One of these patrols engaged two enemy spotting machines, one being shot down and the machine crashing into the sea and the other landing almost intact in our lines. The pilot and observer of the latter machine were made prisoners. Two other enemy machines were attacked and driven down during the sweep by our machines. In conjunction with a bombing raid the enemy machines were encountered, five of the machines are believed to have been driven down out of control. Bombing raids were made last night on the St. Denis Western airfield, the Gontrode airfield, the Brugse docks, the Thourout railway junction and on railway objectives near Ghent. Several tons of explosives were dropped. Yesterday forenoon a bombing raid was made on Sparapheok, the Thourout airfield and the Engel ammunition dump. At Sparapheok bombs were observed to explode amongst the hangars, causing much smoke, and at Thourout a direct hit was observed on a hangar. At Engel ammunition dump a large fire was caused. The bombing formation was attacked by enemy machines and one of the latter was shot down smoking and out of control. Many tons of explosives were dropped. "From all these operations all the machines and pilots returned safely."

NEWS OF NORFOLK

Signaller George Alex Neill of Simcoe Reported Missing.

OTHER SIMCOE NEWS Pte. Peter Watson, Formerly of 183rd, Is Invalided Home.

MAN KILLED BY TREE Further Particulars of Tragic Death of Wm. Miller, Charlotteville.

Write Simcoe Agency Box 311 or phone 356-3 all matters regarding delivery or subscriptions; News items or advertisements.

(From our own Correspondent) Simcoe, Sept. 13.—Mrs. Robert Neill, of 177 St. St., whose husband also is in France, was advised by cable yesterday morning, that her son, Signaller Geo. Alexander Neill (141262) is missing since Aug. 15th, when he was killed on July 13th, at Simcoe for Niagara Falls, Ont. Neill, who was born in Simcoe, was 20th birthday in the scrap at Correlette, and was through Vimy Ridge, and had been almost two years in France.

Pte. Peter Watson, of Lanston, who went overseas with the former 183rd, is in town yesterday. He is at present using crutches and nursing a broken leg. He reached home last Wednesday night and brought a compound fracture with him. Peter took a drop of 25 feet plus six inches when attempting to get into his billet after midnight. He was to have put up at a convalescent hospital somewhere in France, that night, and he did. He is cheerful about it too. He fell from a window of an upper story when the fixture to which he was clinging proved a slip and let him down.

Miller Funeral on Sunday Reverting to our despatch in yesterday's issue, page 1, column 7, regarding the tragic death of William Miller, Charlotteville, further enquiry elicits the fact that the tree which neighbors heard falling lodged in a small sapling and another tree also as large as a stovepipe. The sapling had been cut, and the axe was found near the unfortunate man. Just how he received the fatal blow will never be known. Other children from those mentioned yesterday are two daughters, Mrs. Chas. Howden and Mrs. Chas. Murray, both of whom live a short distance out of Sarnia, Mich. The funeral by the Methodist church, at 10 a.m., will be held on Sunday at 10 a.m.

Odd Ends of News Sixteen election candidates in the County of Norfolk including Waterloo, and all north of the Michigan Central railway, got certificates by qualifying through farm work. They are: Thos. H. B. Taylor, Mrs. Neill, Roy Wilcox, Gladys Taylor, Harry Thadde, Lyle Ryan, Fairman Queen, Eugene Duver, Cec E. Skirrow, Harry Havelock, Amy Beck, Jacob Beal, Kathleen McElhone, James Dwyer, Sam Robinson and Vivian Smale.

Mr. A. C. Burt returned yesterday from a visit to St. Thomas. Roy Sutton is confined to his home and under the care of his physician. Mr. Jno. Porter arrived home last night from attending the sittings of the Supreme Court, I.O.F., in Toronto. Mrs. Chas. Derriksen, 48 Robinson street, has been quite ill for more than a week and up to last night had not shown any indications of improvement.

RANELAGH (From our own Correspondent) There was a heavy frost the other morning. Mrs. Soles has returned home after spending some time at St. Thomas and Blenheim. Mr. and Mrs. Thos. Wood spent Sunday afternoon at Northfield with Mr. and Mrs. W. Young. Next Sunday is the anniversary of the Little Lake Methodist church. Rev. C. Hackett is expected to preach morning and evening. Mr. S. Cooper and family are now settled in their new home, and Mr. and Mrs. Thos. Wood have moved in the place vacated by them.

BURFORD (From our own correspondent) Mr. and Mrs. E. Plant have gone on a trip to the North West. Mr. J. E. Kern has received from his son, Leslie, who is at the front, a good military Medal, which Leslie was awarded for conspicuous bravery on the field. Mr. Kern has every reason to be proud of the bravery of his son. Division Court was held on Friday. Mrs. Oscar Pelton is visiting at Niagara Falls. Miss Elizabeth won the \$10 prize for best penmanship in the county at the entrance examinations. Arrangements are being made by the Fair Board so that ample accommodation will be made to take care of all exhibits that will be shown at the Fair. Of course the barracking of the Fair buildings will cause some inconvenience, but the war is teaching people to put with inconveniences. In this case there will be very little. The evangelistic services being conducted in the Methodist Church, by the Rev. Mr. Crossley, are being well attended. Mr. Crossley's preaching and singing possess the same vigor and earnestness that has marked his campaigns for many years. He is well worth hearing. Mr. R. Gray has been on the sick list. Leslie Miller is away on a trip to the North West.

THE JOY OF MOTHERHOOD Words of Encouragement to Childless Women. Motherhood is woman's natural destiny, but many women are denied the happiness of children simply because of some curable derangement. Among the many triumphs of Lydia E. Pinkham's Vegetable Compound is its marvelous power to overcome such derangements, as evidenced by the following letter:— Worcester, Mass.—"I suffered from female ill, and was advised to have an operation, but a friend who had taken Lydia E. Pinkham's Vegetable Compound and who has six children, told me to try it. It has helped me so much that I am now well and have a baby boy who is the picture of health, and I thank the Vegetable Compound for my restoration to health."— Mrs. Bess Gavvy, 29 Harker St., Worcester, Mass.

In many other homes, once childless, there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong.

Write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for advice—it will be confidential.

GEORGE BERNARD SHAW SAYS WAR WILL BE WON IN SKY

Air Raids So Far Only Experimental Rehearsals; Protection Of Women and Children at Home Chief Purpose of Soldier in the Field.

In a dispatch to the New York Tribune from London Arthur S. Dreper says: George Bernard Shaw's views of the war are always interesting and generally novel. He is supposed to be cynical and indifferent. He has been called unpatriotic and disloyal. But if there is any phase of the situation with which he is unacquainted or in which he is uninterested I failed to discover it in a long talk with him to-day in his house, overlooking the Thames.

He boasted a fine cellar, he owned, and laughingly told how during the last raid his wife had invited the servants to join her in the drawing room, on the top floor. "Do you advocate air reprisals on German towns and cities?" I asked. "Why should ordinary military operations be called 'reprisals'?" he questioned in turn. "We don't call the great offensive at Arras a reprisal for the great offensive at Verdun. The bombardment of towns from the air is now as much a matter of course in the war as the bombardment by siege guns from the ground.

Bombs Rained on German Towns. "We have rained bombs on any German town we could get at, notably Freiburg, Treves, Karlsruhe— all charming residential towns, with interesting historical monuments and valuable works of art, not to mention streets full of women and children. We publicly and officially claim to have dropped hundreds of bombs to every one dropped by the Germans, and we shall go on doing it until we force a decision. The people who shriek murder and call for reprisals don't know what war means."

Then I asked whether air raids in which heavy casualties were inflicted had an important bearing on the result of the war to which he replied: "Of course they do. All wars are decided by breaking through a military barrier and getting a bayonet or

The Girl Scouts of America are the first work for the Food Administration. So far they have conserved lives with two basis, that of saving in and giving canned donations, and of aiding in the distribution of Food Piecemeal Cards to the housewives of the nation. In many cities, local chapters, under the guidance of graduate students by the State Agricultural College are being taught scientific canning. Accustomed to strict obedience, the Girl Scouts have been exceedingly apt pupils. It has been suggested that the Girl Scout wear, so far as possible, the Food Administration Uniform. This is of chambray or gingham. Their

bomb against the brain and stomach of a nation as represented by the civilians of its capital. Give Sir Douglas Haig Berlin, and Hindenburg may have 'pres' London Albert and Bagaume and the rest of the Western front. Give Hindenburg London and Sir Douglas may as well pack his soldiers in boxes and sell them to the toy shops. War To Be Won in Sky. "This war will be won in the sky and not in the trenches. All you have seen yet is an experimental rehearsal or two. Now that the experiment has succeeded—well, hadn't you better look after your gas mask and helmet? You will need them presently."

Shaw has a wonderful faculty for giving blood curdling warnings and unpassing you with his sincerity, though his eyes twinkle merrily and a joyous smile covers his face. "Which is more important—to protect the soldiers in the field or their women and children at home?" he demanded. "And I" ask another conundrum. What is more important—to protect the safe, or the money inside of it? What's the soldier in the field for but to protect the child-bearing woman? "Kill nine-tenths of our soldiers and male civilians, and the remaining tenth can keep the population replenished. Kill nine-tenths of the women and the nation is dead, even if every dead woman were replaced by a live man. It is worth sacrificing a battalion to save half a dozen potential mothers."

Romance in the Air. The fine romance and color of the ancient wars is to-day found only in the aviation service. The fighters of the air lead a tense and dangerous existence, but their days are filled with deeds of heroic self-sacrifice and gallant daring. To gain an idea of how these men die, read this letter, which was left by Lieut. Raymond Havet, a French aviator, killed in aerial combat.

"My Captain! This boche has not been more clever than the others I was I who was awkward and I beg you to excuse me. No tears, no crowns, no flowers, only a little champagne, later on. A handshake to all my comrades. R. H."

That letter deserves to live long with that one written by the fighting American pilot, James Rogers McConnell, which ended: "Germany, and vive la France!"

Advertisement for 'It Works! Try It' featuring a corn cob and text: "Tells how to loosen a sore, tender corn so it lifts out without pain."

Good news spreads rapidly and druggists here are kept busy dispensing freezons, the other discovery of a Cincinnati man, which is said to loosen any corn so it lifts with the fingers.

Ask at any pharmacy for a quarter ounce of freezone, which will cost very little, but is said to be sufficient to rid one's feet of every hard or soft corn or callus. You apply just a few drops on the tender, aching corn and instantly the soreness is relieved, and soon the corn is so shriveled that it lifts out without pain. It is a sticky substance which dries when applied and never inflames or even irritates the adjoining tissue.

ARBITRATION ON G. N. W. CASE ENDED

Many Points Still Remain Settlement Between Parties. By Courier Leased Wire Montreal, Sept. 13.—The arbitration proceedings in the dispute between the Great Northwestern Telegraph Company and their employees has ended, but it is not likely that there will be an unanimous finding on all the points that have been raised. The personal issues left in dispute between the company and their employees are as to what shall constitute a day's work, and the demand on the part of the men, that the staff of the personal offices should be divided upon a fixed percentage basis, a certain percentage of the employees being paid one wage rate and another a lower rate. The company are opposed to this and as a counter proposition suggest that the work and not the men should be graded on account of the automatic printers now operated.

THE SITUATION.

The position of affairs in Russia cannot be classified generally as showing improvement, but as far as Kerensky is personally concerned, the outlook would seem to be better for his individual dominion.

The official record of British vessels sunk last week by submarines, makes decidedly better reading. The number was twelve of over 1,600 tons and six of less than that figure.

Great Britain has lost no time in demanding an explanation from the Swedish Government for the Argentine episode. It is pointed out that the country in question explicitly agreed that German messages were not to be transmitted via Swedish official channels.

The reinforced Austrians have been making desperate efforts to drive the Italians from the positions which they gained north east of Gorizia. Their assaults were repulsed during an entire day of bitter fighting, and in the end they were forced to give up the endeavor.

Stewart Lyon reports that the Canadians have strengthened their positions around Lens, that the chance of successful German counter assaults has become very slight. On the Western front the British have repulsed attacks of the foe, and the French have penetrated German lines in the Champagne area.

METAL WORKERS IN U. S. GET ADVANCE

Bi-Monthly Settlement With Employes Results in Raise.

By Courier Leased Wire. Youngstown, O., Sept. 12.—Wage advances of 1 1/2 per cent for sheet mill workers and 1 1/8 per cent for mill men for the two months period commencing December 1 have been granted those operatives belonging to the Amalgamated Sheet, Tin and Iron Workers of North America as the result of the bi-monthly settlement with employers here yesterday.

These advances are the culmination of a series of wage increases totalling since the first of the year 6 1/2 per cent for sheet millworkers, and 7 1/2 per cent for mill workers on tin. The former are now receiving 85 1/2 per cent above the base rate and the latter 85 per cent and drawing wages never equalled in the industry.

Two Years Absent, He Now Learns of Wife's Death.

By Courier Leased Wire. Quebec, Sept. 13.—After an absence from Canada of two years, Captain Bernier, the Arctic explorer, got into touch with Point Amour, Labrador, yesterday morning, and received a notification that his wife had died during his absence. The captain's ship, the Guide, should reach Quebec in five days.

CANADIAN SHIP BUILDING

It is estimated in ship-building circles that, at least \$150,000,000 is now being spent by Canadians in ship construction. The Dominion is wasting no time in discussing whether steel ships or wooden ships are best. She is going ahead building both varieties. It is figured that Canada has sixty-five steamers under construction. Thirty-five are of steel and thirty are of wood. There are countless sailing vessels also under way.

For the first time in their history, British Columbia and the Maritime Provinces are going in for ship building of steel ships on a large scale. There was a ship-building boom in the early eighties, but it is far out shadowed by the activity of the present day.

Six big steel steamers are being constructed at Montreal. Each is of 7,000 tons. At the Isle d'Orleans are four wooden steamers, ranging from 1,500 to 2,000 tons, rapidly nearing completion. Three steel steamers of 3,000 tons each, are being built at New Glasgow, N.S., and two other Nova Scotia towns. Sheet Harbor and Shelburne, will have a couple of wooden boats ready soon. Collingwood, long a ship-building port, has a steel vessel of 8,000 tons under way, as well as four oil tankers. Toronto recently launched four vessels and has half a dozen more to come. Two of them are 5,000 tons each, and the others a little lighter. One of the ships being constructed in Toronto is the Orleans, for the French Government. Port Arthur is turning out five steel steamers, each of 3,400 tons. Out on the Pacific coast they are building a couple of 8,800 tons each.

All this activity means much to the steel and lumber trades, and contributes to the present high prices of these commodities. The chief difficulty that is being encountered is the lack of labor. Ship builders complain that it is very hard to find skilled mechanics, particularly carpenters, and some of the ship-building yards are even taking on novices and paying them very fair wages, while they are learning their trade.

It is no merely war-time activity, either. The current opinion is that Canada's ship-building program, under the war impetus, will continue to grow and will be one of the main industries of the Dominion after the war.

THE DOMINION SITUATION

At Ottawa, Sir Wilfrid Laurier refused an undertaking that the franchise bill should be expedited, so as to reach the third reading by Saturday, so closure has been put in force. There is the usual outcry of "Ruthless methods," "Gag law," and so on, but the terms of the measure are well known, and the prevention of filibustering tactics is a good thing.

The Act is designed for the war period only, and most people will agree that the main provision, which serves to disfranchise alien enemies, is a very proper step.

One unconfirmed rumor is that the contest will possibly take place early in December, but whenever it comes, the answer of Canadians should be most emphatic on behalf of keeping up Canadian reinforcements at the front.

Some dyed-in-the-wool Liberals seem to think that this can be done on the basis of returning Laurier to office. For instance, at a recent convention in East Lambton, a resolution was passed on behalf of "the prompt and efficient enforcement of the military service act, so that the gallant Canadian forces in France may be reinforced to the fullest extent, and then all the speakers took the ground that the proper course was to return Laurier to office.

The thing won't jibe. Summed up, Laurier's attitude has been as follows:— 1.—Rejection of a union Government. 2.—Forcing of a war-time election. 3.—Demand for votes of all men and women in Canada of enemy birth. 4.—Rejection of compulsory service in any form.

It will be utterly impossible for men and women, in the approaching contest, who desire Canada to go her full share, to vote for any candidate who attempts to talk Laurier and conscription at one and the same time.

LEANS ON TOUR

The Toronto Internationals commence their barnstorming tour of western Ontario next week. Auditing the circuit to be visited are Brantford, Atchener, St. Thomas and London. Hamilton, generally reputed a good baseball town, will be passed over on account of lack of suitable arrangements for a team to play the Leafs. Arthur Irwin, the energetic business manager of the team, who is arranging for the trip, endeavored to secure a date in Strelph, but there has been no baseball in the Royal City this year, and the same trouble that caused Hamilton to be overlooked was manifest in Guelph.

Alfred Jenkins Arrested by Chief Rutherford as Deserter.

(From our own Correspondent) Paris, Sept. 13.—The Paris Horticultural Society have awarded prizes to the following for the best kept gardens.

District No. 1.—G. Galloway, Robt. Hayward and Robert Paul. District No. 2.—No gardens qualifying. Andrew Sinclair and Matthew Deans were awarded merit certificates.

District No. 3.—Mrs. Wm. Mills and Mr. Stone. Mr. Wm. Richardson, highly commended, awarded special prize.

District No. 4.—Clarence Munn, Richard Kempthorne and W. Cullen. District No. 5.—W. H. Billings, James Tate, Robert Creeden.

District No. 6.—Wm. West, J. Haggitt, H. Vollicke.

The garden competition was so keen this year that the judges found it rather difficult on deciding. The prizes will be paid to the winners on Saturday afternoon at Mr. Schuyler's office.

To-night the community was shocked to hear of the sudden death of Mr. Geo. Newell of Flint, Michigan, youngest son of Mr. and Mrs. Jacob Newell of Upper Town. The young man was employed in one of the automobile factories there, and this morning a telegram was received stating that he was seriously injured, and to come at once, followed by another saying he had passed away. His brother, John, left last evening to bring the remains here.

A very quiet wedding took place on Monday morning at the residence of Miss Nettie Brockbank, Grand River St., when Rev. Mr. Armstrong officiated in marriage Miss Emily Grigg and Mr. Horace V. Bateman. The young couple were married beneath an arch of evergreen and cut flowers, and were attended by Miss N. Brockbank and Mr. Leonard Bateman. Mr. and Mrs. Bateman left later on a trip west, and upon their return will reside in town.

This morning Chief Rutherford arrested a man by the name of Alfred Jenkins on a charge of desertion. The chief had been suspecting him for some time and wired Brampton for full particulars, and is now holding the man until the military authorities arrive. Jenkins deserted at Brampton about a year ago. He has a wife living here and has been employed at the Penman Mills and the munition plant off and on for the past few months.

The following donations have been received by the Red Cross Society: Mr. Edward Clark, Univ. N.Y. formerly of Paris, \$75.00, and from friends \$25.00. Mrs. Hyde, who lives over the store of Mr. J. W. Hibborn, Paris Station, had the misfortune to fall down stairs, breaking both arms, and a bad shank up. The good lady was removed later to the residence of her daughter in Upper Town, and at the time of writing was resting quietly.

Mr. Thomas McGroarty of Chicago, and Mrs. F. Nelson, of Hamilton, have been spending a few days with their sister, Mrs. T. Dunn. Mrs. J. Shawcross and little daughter, Eva, of London, are visiting friends in town and vicinity.

Miss F. Flanagan has left for Toronto, where she has accepted a position on the teaching staff of Harvard Ladies College. For a number of years Miss Flanagan has been teaching at the high school at Florida, but resigned at the close of the summer holidays. Many friends in town will wish her every success in her new position.

Mrs. Wm. Patterson and son Eric, have left on an extended visit to California. Miss Featherstone has returned home, after spending the past two weeks with her sister, Mrs. Robt. Pitts, at Hamilton. Miss Brown is holidaying at Port Dover. Miss Margaret Kay of Hamilton, is visiting with relatives in town. The many friends of Mr. Robt. D. Waterland's, will regret to learn that he is lying critically ill in Grace Hospital, Detroit, following an operation for appendicitis.

Slapstick Dances Tabooed, But Masters Will Permit Jazz Steps Another Year

Doom of Slam Bang Gyration That Have Long Held Sway Soundly by Teachers Convened in New York and Aim is For More Dignity and Greater Art.

For the last two or three years, thanks to the tireless efforts of the popular song writers and their ragtime composer assistants, working in conjunction with certain dancing instructors, the modern dance as usually seen at the public halls, and even in the ball rooms, has become a sort of mixture of circus gymnastics and acrobatic stunts, combined with vocal outbursts patterned after the old-time "coon shout."

But a decided check is to be given to these various forms of physical contortions which have passed for dances—that is, if the American National Association Masters of Dancing, several hundred strong, carries through its contemplated program when it meets in New York.

This association, which has a membership of dancing masters extending not only through the United States but to France, England, Canada, Scotland and Australia, is accustomed to meet each summer, try out various new dances originated by its members and adopt officially one or more to be taught generally. Last year the association began its war against the teaching of rough dancing and adopted a national one-stop and a modified fox trot which were accepted in every country where polite dancing is in vogue.

Mr. Christensen, of Portland, Ore., president of the association, is in New York, and in speaking of the coming gathering, he said:—"There is no question that the people generally are heartily tired of the slapstick, 'clam bang' style of dancing, and are anxious for a return to something akin to the dignified steps of the past. We are going to give our united support to this matter, with the idea of making social dancing polite, simple and dignified, as it should be. Of course, the 'Jazz band' style of dancing will survive, at least for a time, because it is wanted by certain classes who desire their dancing to be accompanied by noise and excessive contortions, but in the ball rooms the objectionable style will be taboo.

"Quite naturally the younger element will introduce extra steps, but not as in the past. Youth naturally gives vent to its bounding spirits by adding its own touch to whatever it does, and this was what happened in dancing. But it was sad to see the older ones painfully attempting to ape these many years younger, and a return to dignified dancing will relieve the elderly from silly attempts to appear youthful by excessive gyrations.

"There is no doubt that the war will have an influence upon the American dancers for the coming year at least, and not only will some of the music of the old time war tunes be worked into the new dance music, but some of the dances will be given war titles. I understand that many of our teachers have originated new 'war dances' and these will be tried and the very best adopted. The probabilities are that this year the association will standardize at least three dances, which will be taught alike everywhere, from coast to coast."

Modern methods of canning vegetables were demonstrated to a fair number of Brantford ladies who attended the exhibition of canning, given in Victoria Hall by Miss Gray, of the Women's Branch of the Department of Agriculture, who was brought to Brantford by the Women's Patriotic League. Miss Gray last night canned quite a few varieties of vegetables, including corn, beans, cauliflower, beets, carrots and tomatoes. During the process of canning, the demonstrator explained the principles underlying the canning of fruit and vegetables, and emphasized the need for the conservation of perishable food. This afternoon Miss Gray held another demonstration showing the ladies the best manner of preserving fruit, using peaches and plums as examples.

PRESENTATION AND FAREWELL TO MR. AND MRS. T. L. WOOD

Members of Zion church Bade Godspeed to Departing Pair

Last evening a large number of friends gathered in the Sunday School hall of Zion church to say farewell to Mr. and Mrs. Wood. Mr. Woodside presided, and after devotion conducted a very delightful programme of speech and song. Songs were rendered by Messrs. Angus and Taylor, and Mr. Hamilton, whilst Mrs. D. L. Wright gave a reading. During the evening Mr. and Mrs. Wood were presented with an illuminated address, on behalf of the congregation, in which they have both been so active for almost a quarter of a century. The address was presented by Messrs J. S. Dowling and W. E. Lochead, after which short addresses were delivered by Mr. Sutherland, chairman of the Board of Management and Mr. Malcolm, representing the Sunday School. In his reply on behalf of himself and Mrs. Wood, Mr. Wood was enthusiastic, going back over their church life in Brantford, during the ministries of Doctors Cochran and Martin, and Mr. Woodside. He appreciated beyond words this recognition, and would cherish it whilst life lasted. He assured the congregation of the happy days they had spent in their midst and said they would greatly miss the church and those associated with them in the work.

The congregation in losing two of its most devoted and whole-hearted workers, as so many expressed and prays that God will bless them and their family wherever they go and in His wise providence bring them to them their sons, now with the overseas forces. Mr. Williamson of the Y.M.C.A. was present, and was introduced to the audience, and called upon for a few words, after which the Ladies' Aid served a dainty luncheon, and friends took their farewell of Mr. and Mrs. Wood.

BUENOS AYRES SCENE OF RIOTS

Mob Fired German Business Houses, Club and Newspaper Offices.

Buenos Ayres, Sept. 13.—The downtown district of the city was the scene of the wildest disorders last night in connection with great anti-German demonstrations, in which thousands of Argentinians took part. Many of those in the mobs carried firebrands, and as a result scores of buildings were set on fire. Several blocks of German business houses in Calle 25 de Mayo were destroyed. Among the structures attacked were the German Club, one of the finest edifices in the city, and the building of a German daily, La Union. As fast as the fires in these buildings were extinguished, they were started again. Mounted patrols and the entire fire department kept rushing from one part of the city to another, in an attempt to quell the riots and put down the flames. In several instances police who were attempting to shoot at those wielding the torches, were set upon by the crowds and disarmed. Extraordinary precautions have been taken by the authorities to protect Count Laxburg, the German Minister, when he arrives here tomorrow morning to receive his passports.

LABOR TROUBLES MAY BE SETTLED

Smelters' Union Accepts Terms Offered By Mining Co.

Anconda, Mont., Sept. 13.—Settlement of labor troubles which have hampered the mining industry of the Butte district for the last three or four months, was in sight to-day following the acceptance last night by the local smelter men's union of the terms offered by the Anaconda Copper Mining Company. Re-opening of the Anaconda smelters, which is expected immediately, will permit the resumption of operations in the Butte mines and throughout the district generally, subsidiary strikes having been adjusted satisfactorily to both sides.

SEMI-CENTENNIAL STAMP IS COMING

Ottawa, Sep. 12.—It is officially announced by the post office department that the special three cent stamp to commemorate the 50th anniversary of confederation will be put on sale on Saturday September 15. The stamp consists of an engraved reproduction of Harris' well known painting of the fathers of confederation. It is beautifully engraved and in size is somewhat similar to the Quebec tercentenary stamp of 1908. The issue of the confederation stamps will last for a period of three or four months, but, as in the case of all other Canadian stamps the new one is a permanent validity and can always be used for the prepayment of postage.

Nuptial Notes Miller-Oles A very interesting wedding took place yesterday afternoon at 40 Superior St., the residence of Mr. and Mrs. Henry S. Oles, when their only daughter, Muriel, was given away in marriage to Henry Wark Miller, the only son of Mr. and Mrs. Lemuel A. Miller, 32 Superior St. The marriage ceremony was performed by Rev. David Alexander of Emmanuel church.

The young bride looked charming in a rich white silk dress of crepe de chene, with the usual bridal veil, carrying a lovely bouquet of roses and lily of the valley. She was assisted by Miss Ruby Barnes of Harley, who looked beautiful in a dress of pale blue crepe de chene, carrying also a lovely bouquet of American beauties. Little Jessie Brown looked sweet in white silk, and gracefully acted as flower girl. Mr. Stephen Vince assisted the groom as best man.

To the strains of the wedding march, played by Miss Gertrude Giles, the bridal party took their stand under an arch of flowers, and the nuptial vows were made and solemnly pledged. The register being signed the entire company of over fifty guests were then photographed. This being done, all sat down to a marriage dinner, at the close of which Rev. D. Alexander proposed the health and happiness of the young couple. This was seconded in a few choice words by the bride's father. At 4.05, mid showers of confetti, and with the good wishes of their many friends for a bon voyage, the young couple left for Toronto and Ottawa where they will spend their honeymoon. They were the recipients of very many beautiful and valuable presents, and when they return they will make their home in this city. Their many friends wish them every prosperity.

TRADES AND LABOR ON CONSCRIPTION Objection Taken To One Appointment to Local Tribunal. At the Trades and Labor Council last night the nominations of Judge Hardy to the Exemption Boards were canvassed. While dissatisfaction was expressed at his confining his selections to the professional and official class, to the exclusion of working class representation, no personal objection was raised to any of them, with the exception of Magistrate Livingston. The feeling seems to be entertained in some quarters that he is antipathetic to organized labor, and Delegate Kite gave notice of the following motion to be considered at the next meeting: "That this council respectfully object to the Minister of Justice and to Judge Hardy, on behalf of organized labor, to the appointment of Magistrate Livingston as a member of any exemption board under the Military Service Act, before which workmen will have to apply for exemptions from military service.

The Standard Case Union, on behalf of the Moulders' Union, it was proposed by Delegates Kite and James that a committee be appointed for the purpose of investigating the circumstances of the recent case tried before the Police Magistrate in which the interpreter was defendant, and making a report thereon to this Council with such recommendations as the committee may deem advisable. The motion was carried, and President Stinchcombe and Delegates Kite, James and Keen were elected to the committee.

Laid at Rest Mrs. Wiggins The funeral of Melinda Caroline Wiggins, beloved wife of Philip Wiggins, 188 Dalhousie St., took place yesterday afternoon at the Burial cemetery. The services at house and grave were largely attended, and were conducted by the Rev. W. E. Dwyer, of Calvary Baptist church, who spoke from the text, "I am the resurrection and the life." The pallbearers were Messrs. F. J. Bullock, P. Yule, T. B. W. Henderson, G. Cowie, H. Thompson, H. Simpson. A very large number of floral offerings were received.

GOLD PRODUCTION SHOULD BE HIGH Heavy Summer Rains Expected To Swell Alaska's Output. Dawson, Yt., Sept. 13.—A large production of gold will result from the heavy summer rain fall, according to reports from Nome, Alaska. Traces of platinum deposits in the Dime Creek country, tributary to the Yukotna River, on the lower Yukon, are being traced by experts, who said the metal comes from lava fields in the vicinity. A placer strike made twenty miles west of Selkirk by a veteran Yukon prospector, has resulted in quite a movement to that region. It is estimated that probably 150 claims have been staked on Kitchener and Seymour Creeks and their tributaries.

CONCRETE SHIPS WOULD DEFEAT GERMANY'S HOST OF SUBS

Double-Hulled Vessel Against Which Torpedo Would Prove Virtually Harmless.

WHAT BOSTON EXPERT CLAIMS FOR PROPOSAL Stronger, Speedier to Build Fireproof and Practically Unsinkable, He Says.

Discussion of the comparative claims for the steel ship and the wooden ship has raised the question whether any more novel form of marine construction offers improvements. A Boston expert in construction engineering has written for the Boston Evening Record the claims for the ship of reinforced concrete, his argument being that it is quickly constructed, of large carrying capacity, and proof against destruction from torpedo attack. He writes:

It is urgent that every effort be made by inventors and specialists in modern construction to bring out a strong sea-going ship that can be built quickly and be proof against torpedoes. A number of men of inventive minds are working on the problem, and with the aid of specialists, each in their own line, the torpedo-proof ship will soon be afloat. One proposition was made and illustrated in the Scientific American of June 9 by Hudson Maxim. He says: "It is necessary at this time to stimulate inquiry and invention with respect to ways and means for protecting merchant ships and troopships against torpedoes, and while I believe that my plan of torpedo-proofing ships will be very efficient, and that it is the best thing that has yet been suggested, still what I have done may possibly serve as a suggestion to lead some other inventor to do far better than I have done, and the facts that I have given in this article about the nature and action of the explosive blast will help others in the investigation and understanding of this subject."

It is by the careful study and research given by the specialists, the marine engineer, the concrete engineer, the naval architect and the gun expert, each doing his own part, that the problem will be successfully solved and will bring forth the ship of such sturdy strength that will have lost its power.

Many are conversant with the feats of engineering accomplished with reinforced concrete; factories and manufacturing plants having great strength and practically free from vibration, bridges capable of carrying any load, are demonstrated facts, but its possibilities in modern shipbuilding are not so well known. But nearly every country in the world is making some use of reinforced concrete as applied to shipbuilding. It remains for the methods to be thoroughly worked out and perfected by specialists to give us practically an indestructible ship. This article is to deal with the torpedo-proof ship; the writer makes public his plan for the same reason as that given by Hudson Maxim, inventor of the gun silencer; the perfected work is for our common good and to defeat the enemy. Let other specialists bring forth their experience to perfect the weak points that they may discover, and the work of putting the submarine out of commission (as far as the new ship is concerned) is accomplished. Let us put forth every effort to build up quickly an unsinkable, fireproof merchant marine.

The Concrete Ship. My plan makes little if any change in the outward appearance of the modern steel ship, except that the structural part of the ship is of a specially prepared, untempered concrete reinforced with a fabricated network of steel rods that binds the ship together in every part, giving great strength and making the structure one continuous monolith. All decks, bulkheads, partitions, etc., are interwoven together in one continuous mass of steel and concrete. The ship has two hulls and a double bottom; the double hull runs to above the water line all around the ship. There is a space of 2 ft. between the outer and inner hull which is divided every 12 ft., making a continuous number of water-tight compartments, 3 ft. x 12 ft., girder every part of the ship to above the water line. In the centre of this 3 ft. space is a system of fabricated steel rods looking somewhat like a heavy wire fence; the purpose of which will be explained later. This space between the double hulls and double bottom is not wasted, but being watertight, is used as storage tanks for carrying oil cargoes and for storing fuel for the ship's engines; the vessel being driven by oil engines, requiring a much smaller crew than a steam driven vessel and giving more space for freight.

The designs and methods of fabricating the steel reinforcing rods is such as to make a ship strong enough to resist the heaviest sort of a gale without straining herself, yet no attempt is made in his plan to build the outer hull heavy enough to resist the explosion of a torpedo; so let us suppose such a ship is struck by a torpedo fired from an enemy submarine; the force of the explosion is so great that a hole two or three feet in diameter may be shattered in the outer hull, and now appears the use of the fabricated rods (or

strong wire fence) inside the space between the two hulls. These rods work on the same principle as Mr. Maxim's gun silencer; they dissipate, or in other words, break up, the force of the explosion, at the same time they protect the walls of the inner hull from being damaged by flying pieces of concrete; thus a section 3 x 12 feet is damaged and its cargo of oil is thrown against the force of the explosion, but this of itself helps to cool the hot gases caused by the explosion; each 3 x 12 foot section is vented at the upper deck with a hatch that opens outward to let the explosive gases escape. The torpedo has now done its worst, and the ship has lost a few hundred gallons, maybe, of fuel oil, but the damage can readily be repaired in a few hours on arrival at her destination, or even while at sea if necessary, as concrete will set in water without decreasing its strength. It will also be seen that if a vessel of this kind should be damaged by collision or by striking a rock or an iceberg, only her outer hull could be damaged, while her freight and passengers are carried to their destination in safety. A few of the items to recommend such a vessel are: First.—A stronger and more durable sea-going vessel at less cost. Second.—Can be built in one-half the time required for a wood or steel vessel. Third.—An absolutely fireproof structure. Fourth.—A vessel practically free from vibration, greatly adding to life of machinery and comfort of passengers. Fifth.—A saving in up-keep; the hull, all outside and exposed surfaces can be of white cement, effecting a large saving in painting, etc. Sixth.—The attainment of graceful lines and good design at no added cost, owing to the flexibility of the material while in its plastic state. Seventh.—A powerfully strong hull with an outer surface as even and smooth as glass and proof against barnacles and corrosion. Eighth.—The arrangement of a series of watertight compartments that will make the vessel practically unsinkable.

identity disc, too, was missing, and nothing was found on him to show what was his regiment and what was his native town. He lay there in pain many days, and all efforts to help him to recover his speech failed. His memory, too, was gone, for he could not write down anything about himself. It was one of many such cases that have occurred in this war and which have been a puzzle to the authorities, who by special treatment have been able to effect remarkable cures. This man was able to eat and drink and sleep and was conscious of what was going on round about him, but otherwise he was dead to the world. . . . And then this wonderful thing happened.

That Cry Told All Into the ward came the lonely, weary woman who was looking for the husband who was missing. She gazed wistfully at the rows of beds, where relatives sat talking to the cheerful Tommies. She was getting rather worn at the sight of other people's happiness, and she felt she would not be able to go on searching.

In this ward she saw one bed where the patient was lying prone. She stopped to look at the features of the man, as they seemed familiar, and she saw the man she had just left trying to sit up in bed, an eager look in his eyes. The sister was moving quickly to him, and saying, "What you can't see?" Then the other woman knew that her search was ended.

TACREDE MARSIL ASSAULT VICTIM Anti-Conscriptionist Beaten Up by Soldiers and a Civilian.

Montreal, Sept. 12.—Tancrede Marsil, anti-conscriptionist, was severely beaten last night on Fletcher's Field and is now a patient in the General Hospital. He says he was set upon by two soldiers and a civilian and was carried to the hospital in an unconscious condition. How the fight ended he could not tell, as he says he lost consciousness and woke up in the hospital.

Change in Milk Delivery

On Saturday, September 15, The Hygienic Dairy Co., Ltd., will commence Day Delivery of Milk. The reason for this will be plain to all our customers who enjoyed its advantage last winter. They found that delivery was more sure. That the milk reached them in better condition. Day Delivery in cold weather overcomes every disadvantage of night delivery. We found that our salesmen work better in the daytime—that they enjoyed their work more. We found a noticeable increase in efficiency in the organization. Our service was improved. In line with our fixed policy of making The Hygienic Dairy service of as high quality as the Hygienic Dairy Milk, we have instituted the change this year as soon as weather permitted. You who are our good friends and customers, will welcome this increased efficiency and courtesy of our service. In future our drivers will sell tickets for cash only, which means the customers must pay for ticket at the time of receiving it. This will eliminate a large amount of labor and expense in book-keeping and we believe will be much more satisfactory to our customers as well as ourselves. Kindly co-operate with us. Our ambition is to please you. Save milk Friday for Saturday's breakfast. Very truly yours, HYGIENIC DAIRY CO., LTD.

ROMANCE AND PERIL APLENTY IN AIR SERVICE

Great Names Enrolled in Ranks of Fighters in the Clouds.

(By Paul Ayres Rockwell) Paris, France, Sept. 13.—The most wonderful pilots that the war in the air has so far produced have been Frenchmen. Guynemer's list of victories is astounding. He is a veritable wizard of the air, and when he encountered an enemy pilot the latter may as well consider his death warrant as signed.

Guynemer had great difficulty in being admitted to the French aviation service, being rejected several times at the enlistment bureau as too frail for the service. Finally he was allowed to learn to fly, and right after he arrived at the front he made himself known. His first victory was won on July 19, 1916; his tenth on July 16, 1916, almost one year later. Capt. Guynemer's last ten victories were gained in less than two months' time.

Ten in Fortynone Days. The most wonderful "ace" flyer that the world has ever seen was Navarre. He was a pilot-remarkable for his daring, his sang-froid and his love of air fighting. Navarre shot down his first German aeroplane on Feb. 21, 1916, and forty-one days later he destroyed his tenth adversary. Navarre was wounded June 17, 1916, and since then he has been unfitted for active service.

"Father" Dorme, the great French aviator who has been missing for the past two months, was considered by his comrades as a phenomenon. Thanks to his skill and his sharpness of attack for many months each of his combats was a victory. He was modest to an extreme and one of the most devoted pilots ever at the front. Daily he used to fly far within the hostile lines in search of machines, although knowing that his victories would not be placed to his official score because of the impossibility of confirming them. A few days before he disappeared, Dorme shot down eight German machines, every one of them far within the German lines. He thought that his aeroplane was shot down by anti-aircraft guns.

Tarascon is famed as the aviator who was the first to be killed by the artificial foot. He was a flyer before the war and was the victim of an accident which caused the loss of a foot. For some time he gave up aviation, but when war began, being unfit for other service, he insisted on flying for his country. His numerous victories speak for the ardor with which he has combated the Germans.

The Benjamin of the French "aces" is Sergt. Soulier, who has triumphed over six hostile machines. He was born September 6, 1897, and volunteered in the artillery regiment in August, 1914. Later he was changed to the aviation corps, and shortly after he reached the front he destroyed his first German plane. Soulier is now a pilot.

GOOD furniture doesn't just happen. It is the result of a well-devised and well-executed plan. The reliable manufacturers from whom we buy our stocks plan their furniture from the time the original wood leaves the forest, and from then on the process is one of careful inspection, thorough seasoning, proper fashioning and fitting, and appropriate finishing.

It is a delight to be able to choose the needed pieces from a collection of furniture that is built on a real plan and which has one's unquestioning confidence. It is doubly agreeable to have the feeling that no excess is being paid for the faith itself. People enjoy paying full value for superior things, and those who come here buy with the certain knowledge that they are getting furniture built to a definite ideal, and the best that can be bought for the money.

The upper photo and diagram shows the C. P. R. level crossing on the Goldthorpe road, near Dixie, about 10 miles west of Toronto, where two women and a man were killed on Sunday morning, when the C. P. R. express struck their motor car. The crossing is condemned as a death trap, for the motorist's view is obstructed both ways. The lower photograph, taken shortly after the tragedy, shows the ruins of the car. Three passengers were killed, and the gasoline tank exploded after the crash. The car was owned and driven by Roy Boyd, 124 Cooper Avenue, Toronto, who escaped. His mother, Mrs. Isaac Boyd (insert at top of photo) lived three hours after the accident. Of the other three photos inset, the lowest is that of Joseph Milroy, who escaped. The other two photographs are those of Mr. and Mrs. John Wood, of Cobalt, Ont., who were killed.

Chief Justice of Quebec Counsels Young Men Against Disturbances

By Courier Leased Wire
Montreal, Sept. 12.—Discussing the Military Act at the opening of Laval University yesterday, Sir Horace Archambault, chief justice of Quebec, told the students to refrain from partaking in or attending meetings where they ought not to be, and to govern themselves in a serious and responsible spirit so that when the men who were to make the decisions as to exemptions took up their task, it might not be said against students that far from being of use to their country, they were actually a nuisance.

PHILLIES 6, BRAVES 3
Pirates Defeat Cardinals in Pitchers' Battle at St. Louis.

New York, Sept. 12.—New York closed its home National League season here yesterday with two victories over Brooklyn, 9 to 0 and 7 to 1. The second game went 11 innings. In the first game, the Giants hit Smith hard, while loose work by Brooklyn enabled them to pile up runs. Schupp permitted only 2 hits, both made by Myers. Cheney and Tesreau had an exciting pitchers' battle in the second game, while the Giants won in the eleventh. Kautz and Zimmerman singled, with none out, and the former scored when Johnston fumbled the latter's hit. Scores:—
First game:— R. H. E.
Brooklyn . . . 000000000—0 2 3
New York . . . 10305000x—9 10 3
Batteries, S. Smith, Miljus, and M. Wheat; Schupp, McCarry and Gibson.
Second game:— R. H. E.
Brooklyn . . . 0100000000—1 8 1
New York . . . 0000010000—2 8 0
Batteries, Cheney and Miller; Tesreau and Rariden.

At Chicago
Cincinnati hit Douglas opportunely yesterday and won the final game of the series 6 to 4. Schneider pitched in line form and allowed the locals to bunch hits in only one in-

ning. The features of the game were the home runs by Schneider and Williams, the latter driving in a run ahead of him. Score:— R. H. E.
Cincinnati . . . 001111200—6 13 3
Chicago . . . 02000200—4 7 3
Batteries, Schneider and Wingo; Douglas, Hendrix, Wilson and Dilhoefer.

At Boston
By winning 6 to 3 the playoff yesterday of the successfully protested game of April 17, Philadelphia broke even with Boston on the season's games, each team winning eleven. Mayer outpitched Hughes in the early innings and held his own with Scott, the Boston recruit pitcher, who shut out the visitors for the last four innings. The game of April 7th was won by Boston in 11 innings, 6 to 5. Moran's protest on a decision by Umpire Branfield was sustained by President Tener, of the National League. Score:— R. H. E.
Philadelphia . . . 104040000—6 8 1
Boston . . . 000120000—3 8 1
Batteries, Mayer and Killifer; Hughes, Scott and Fragesser.

At St. Louis
Miller outpitched Watson yesterday, and Pittsburg beat St. Louis 2 to 1. Cruise was the only local player to get beyond first base, his hit to left in the seventh going for a triple when Bligoe fell in fielding it. A single by Paulette sent Cruise home. Pittsburg got its two runs in the second. Carey singled, stole second and scored on Boeckel's two-base hit. Boeckel scored on a single by Schmidt. Score:— R. H. E.
Pittsburg . . . 020000000—2 7 0
St. Louis . . . 000000100—1 6 1
Batteries, F. Miller and Schmitz; Watson, Horstman and Gonzales.

Detroit, Sept. 12.—The plant of the Standard Screw was destroyed by fire this morning. The loss estimated at \$300,000 is said to be covered by insurance. The plant was working on war orders. An official of the company said that crossed wires was seemingly responsible, but an investigation is being made. Fifty men were at work when the fire broke out. No one was injured.

Pay Your Debt To Your Defenders

Turn Your Luxuries Into Comforts For Those Who Have Sacrificed Most.

"Self-sacrifice, self-denial and service lie at the basis of the highest personal and national development."
Sir Thomas White, Minister of Finance.

Is it nothing to you that men from all round you have sacrificed home and salary, safety and life, to defend your home as well as their own?

Is it nothing to you that their wives and families tremblingly scan each casualty list, and pale at the step of the postman or telegraph messenger?

Can you see others giving their dearest, without feeling that you must do something yourself? Do you wonder what to do?

You can at least save—and lend your savings to the nation. Canada needs every dollar her loyal sons and daughters can spare, to meet the growing expenses of the struggle.

Every dollar you invest in Canadian War Savings Certificates helps the nation to deal generously with those who are defending you.

Certificates in denominations of \$25, \$50 and \$100, repayable in three years, may be purchased at any Bank or Money Order Post Office at \$21.50, \$43 and \$86 respectively. This means over 5% interest—making them a profitable as well as a patriotic investment.

**BULGARS AIM AT
 EXTERMINATION
 OF SERB NATION**

**Insurrection Caused by Un-
 speakable Atrocities
 Committed.
 HANG MAN BY TONGUE
 Children Exiled To Turkey
 Choose Suicide to Slavery**

Paris, Sept. 13.—(Correspondence of Associated Press.)—These have come into the possession of the Serbian authorities, recently, a letter, written by a Serbian patriot who barely escaped hanging by the Bulgarians. He describes in some detail the insurrections in Serbia in April last, the fate they met, and unspeakable cruelties visited upon the insurrectionists by the Bulgarians.

His letter (the original is at present in the Serbian archives, but can be seen at any time) is written with his blood from his hiding place in the Serbian mountains, and is addressed to his friend, a Serbian captain, serving with the Saloniki forces. The captain fell into captivity not long after the receipt of the missive, but succeeded in smuggling it out by means of a Serbian sentry.

Hang Them By Tongues
 The letter frankly advises all Serbians to kill themselves rather than to submit to capture; it tells of the forcible deportation of thousands of children to Constantinople; of the frightful tortures inflicted upon prisoners before they are executed by the Bulgarians, such as hanging by the tongue, of gibbets erected everywhere to dispose of Serbian prisoners of war, especially of insurrectionists.

The names of both sender and recipient have been suppressed for obvious reasons, but both are on file with the original letter, which runs as follows:

"Here I am in a mountain which is actually, my sad residence. I escaped on April 25 from the Bulgarian prison, where I was incarcerated with twenty comrades after having been surrounded and captured in the revolt near ——. There had been 25,000 of us insurgents; we had moreover fought with a German division that defeated us and drove us to flight. Then we had been attacked by two Bulgarian divisions armed with cannon and machine guns. I was taken, put in prison and condemned to be hanged, but, during the night my friend—, arrived with a band of sentinels and rescued me. In consequence I was able to reach the mountain. There are more than 5,000 of us insurgents. Nearly all of the other mountains are filled with insurgents."

Hang Women and Children
 "The Bulgarians had summoned all the male population between the ages of 15 and 45 in order to incorporate them in the army and sent them immediately to the front. At the same time they had gathered together all young people between 13 and 15 and had sent them to Constantinople. It was this vapid process of these monstrous Mongols that provoked the revolt. The unfortunate mothers, exasperated by the cries of their children as they were carried off by force, attacked the Bulgarians with stones. This was a genuine revolt, to which the Bulgarians replied with gibbets to which they hanged women and children. Finally the people, exhausted and revolting, threw themselves upon the Bulgarian depots. Men and women carried off arms and ammunition, first at Leskovatz, Lebane, Vranja, Vlasotintze, Zayetchar, Knjagevatz, Pofarevatz and the villages."

"It was agreed that the insurgents of Zayetchar and its suburbs should march on Nish, that the rest of us from Prokupatz, Leskovatz and Vranja, should do the same and, reunited, should take possession of the city. Unfortunately those from Zayetchar were later, we got ahead of them and had, alone, to withstand an attack from a German division. We beat them and took away two batteries and 800 soldiers. The battle took place near Gitoradja. From there we carried Lebane, Leskovatz and Prokupatz of which we made ourselves masters. Then we attacked Nish, carrying the depots and half of the city."

Defeated by Cowardly Strategy
 "Meanwhile two Bulgarian divisions arrived, and a bloody battle developed; we should have been able to defeat the Bulgarians, as we had defeated the Germans if they had not used a cowardly strategy to prevent us from attacking them; they forced the women and children to march in front of their ranks. Unable to fire upon our own people, we withdrew as far as Korvingrad, where a new battle began and where the Hungarians attacked us from behind. We made an opening and took refuge in the mountains. Since I was dead from fatigue, I was taken prisoner, and with a dozen other insurgents was condemned to be hanged. Waiting while the gibbet was prepared, we were incarcerated in the prison of Prokupatz, but one of our band killed the garrison and rescued us."

Children Committed to Slavery
 "So here I am in the mountain of ——. It may be that when you read these lines I shall no longer be among the living, but the insurrection cannot be snuffed out so easily, for the Bulgarians are proceeding systematically to exterminate our nation. On the 25th of April they placed aboard trains at Belotintze 5,000 children between the ages of 12 and 15, bound for Constantinople. Many of the children jumped from the cars along the way, and found death in that manner."

"The Bulgarians gather the entire population for the purpose of vaccinating everyone. But instead of injecting serum against cholera or smallpox, they inoculated them with contagious diseases. One of the doctors admitted that to those who had

*The Immortal Cry of
 Canada at the Second
 Battle of Ypres.*

The defence of Ypres following the first ghastly gas attack April 22, 1915, exalts all history. By it our men were transfigured and the undying, imperishable Soul of Canada revealed.

In the name of these Heroes of Ypres, Festubert, Givenchy, Vimy Ridge, Lens, The Somme, Verdun—aye and the Deathless "Old Contemptibles"—we beseech you, Women of Canada, to Dedicate Yourself and Your Families to War Service by signing the Food Service Pledge.

The sacrifice is not great. We merely want you to substitute other foods for part of the white bread, beef and bacon your family now eat.

"What follows almost defies description. The effect of these poisonous gases was so virulent as to render the whole of the line held by the French Division practically incapable of any action at all."
The Stand of the Canadians
 "The left flank of the Canadian Division was thus left dangerously exposed to serious attack in flank; and there appeared to be a prospect of their being overwhelmed and of a successful attempt by the Germans to cut off the British troops occupying the salient to the East."
 "In spite of the danger to which they were exposed the Canadians held their ground with a magnificent display of tenacity and courage; and it is not too much to say the bearing and conduct of these splendid troops averted a disaster which might have been attended with the most serious consequences."
 —From
 Sir John French's Seventh Dispatch,
 General Headquarters,
 15th June, 1915.

*The Undying Pledge
 of Canada's Mothers
 to Her Sons.*

When baking use one-third oatmeal, corn, barley or rye flour. Or, order some brown bread from your baker each day. Substitute for beef and bacon such equally nutritious foods as fish, peas, lentils, potatoes, nuts, bananas, etc. Third, and this is most important—positively prevent

the waste of a single ounce of food in your home. Next week a Food Service Pledge and Window Card will be delivered to you. The Pledge is your Dedication to War Service—The Window Card is your Emblem of Honour. Sign the one and display the other.

to the mountains with their children.
 "The Bulgarians have raised gibbets on the bridge, at Peskovatz, at Belotintze, Vlasotintze, Lebane, Nish, Knjagevatz and at other places, and on them have hung people, women and children, compelling the others to help them in their terrible tortures."
Torture is Etendish.
 One of the notable Serbs who was hanged, the writer states, was a certain Jordan, registrar of a municipality, who, in reward, was hanged by the tongue. The writer continued:
 "I have neither time nor space to describe my misfortune, but I can tell you briefly that if you do not come by the month of September, it will not be worth while coming at

all. It will be too late.
 "The hanging of twelve Serbian soldiers, made prisoner on the Saloniki front, was a sad sight. Their sentence was read to them, including the words: "Because you have abandoned your flag and your Bulgarian brothers, you cannot longer be loyal Bulgarian subjects." So it should be told our soldiers who are fighting on the Saloniki front that they had best kill themselves rather than let themselves be taken prisoner, for these savages hang their prisoners of war, after having tortured them."
 "There, my dear —, is a faint picture of all that is going on in our unfortunate Serbia. No power could ever stifle the Serbian insurrection, which is spreading about the entire

country. There are even among us Bulgarians who have fled from their own army."
**OBJECT TO VERDICT
 OF CORONER'S JURY**
Montreal Frenchman Exonerated From Charge of Killing.
 By Courier-Local Wire
 Montreal, Sept. 11.—Exception was taken yesterday to the verdict of the coroner's jury in the case of Henry Haines, who died from a fractured skull after being struck by Arthur Houle at the Angus' shop,

by Haines' two sons.
 Houle was excused and one of the Haines brothers is alleged to have said that the jury, which was composed of French-Canadian men, had been influenced by the spirit of nationality in excusing Houle.
 The evidence showed Haines, boss of a gang of railway workmen, called Houle to duty Frenchman and a coward, and challenged him to fight. Houle hit Haines under the jaw and he fell to the ground, striking his head. Houle said he had hit his head, but did not mean to kill Haines.
 The coroner's jury explained the circumstances were against Houle, but the jury decided they would probably have done the same under the circumstances.

**For Second Time in Mining
 History, Total Was Over
 7,000,000 Tons.**
 Wilkes-Barre, Pa., Sept. 12.—The shipments of anthracite coal for August as reported to the Anthracite Bureau of Information, amounted to 7,013,358 tons, the second time in the history of anthracite mining the shipments in any one month exceeded 7,000,000 tons. The August figures are within 38,041 tons of the high

water mark in June of this year. The shipments of last month exceeded the shipments of August 1916 by 1,496,193 tons. The shipments for the "eight months" of 1917 amounted to 53,469,341 tons, an increase of 7,015,011 or almost 16 per cent over the corresponding period of last year.

New First Sea Lord in Maiden Speech Hints at Valor Not Known.

SIR ERIC GEDDES ON GREAT ISSUES OF WAR

Hard Sense in His Statements—Must Balance Supplies to All Branches.

In his first public speech to his constituents at Cambridge, Sir Eric Geddes, new First Sea Lord, said: "What I saw in France gave me my determination that nothing mattered but to go on with the war to the end. To one who has spent months in France, who has witnessed the wreckage of the most malicious reefs in the history of the world, with wanton ravishing of the country and villages, one feels that the sole thing that matters is to go on with the war. I do not know that I have pony hair got to be broken but I am convinced that we have got to destroy the German military power (cheers), and that we and our Allies are now about to do so."

build more, and you get fewer tanks—they both require internal combustion engines. Everything has got to be balanced. Let the public realize that all the time we are trying to work out the best balance of our limited resources. Current criticism is a sign of what is becoming apparent in all belligerent countries—war weariness and war nerves—and it is the country which holds its nerves longest that is going to win the war. Let us rise above war weariness and nerves. We shall win, as we are bound to win and can't help winning, but we shall not do it by faulting with each other. (Hear, hear.)
