WANTED—Organist and Choir Leader for Athens Methodist Church, apply to Mr. H. R. Knowlton, Athens.

Several were pleased to have the privilege of meeting one of our former young ladies (Miss Jessie Kilborn) now Mrs. James McGilvary, of Larimore, N.D., when she was in Athens one day last week.

Mrs. W. A. Brown and daughter Josie of Brockville, have returned home having spent the past two weeks with Mrs. Harry Stevens, Isaac St.

Mrs. Ed. Robeson of Winnipeg, Man. is visiting in town at the home of her father Mr. M. Ritter and her husband's parents also renewing acquaintances of girlhood days.

Mr. and Mrs. Chas. Parsh and family have returned to their home in Watertown after a pleasant visit with friends and relatives here.

Miss Alice Stevens, left on Sept. 20 for Ottawa where she has entered the Holiness Movement College. Miss Bertha Besley of Hard Island, has also entered the same to train for missionary work.

Word comes to us today that Mrs. Francis Richards of Frankville passed away on Wednesday night, of which her many friends will be sorry to hear.

We are sorry to learn of the death of Mrs. James Foley, Hard Island, on Wednesday evening. Funeral at residence on Friday, October 1st at 2.30 p.m.

Try the Dessert Powders Miss can sell you and you will surely

Mr. Rupert Burchell left on Monday to attend Queen's University, Kingston.

Mr. and Mrs. Wm. Towriss and Mrs. W. H. Morris attended the Kingston fair this week.

Miss Guest presided at the church on last.

Rally Day services were in connection with the Sunday school of the Methodist church on Sunday afternoon last. The services were held in the body of the church and were well attended despite the very warm weather.

The Misses Alma and Ella Tennant, Caintown, called on their sister, Miss Ollie Tennant, while in town on Tuesday.

Mr. and Mrs. Roy E. Coon, London, and Mr. and Mrs. Everett Lattimer, Brockville, were weekend visitors at the home of Mr. and Mrs. R. C. Lattimer.

Miss Marjorie Moore, of the Oakville branch of the Merchants Bank of Canada, is home spending a few holidays.

Mrs. Robert Tennant, Lyn, is a guest of her niece, Mrs. Walton Sheffield.

Miss Florence Willson left on Tuesday morning to resume her studies at Queen's University, Kingston.

Mr. and Mrs. E. J. Elliott and little daughter, Frances, of Loyalist, Alta., are visiting friends and relatives in and around Athens.

Mrs. Elliott, nee Miss Hilda Kilborn, sees many changes since she went West with her parents, Mr. and Mrs. Frank Kilborn.

Mr. and Mrs. Wm. Doolan spent part of last week at Charleston Lake guests of Mr. and Mrs. W. A. Eaton.

Miss Edna Foxton, of North Augusta, was in Athens last week the guest of her uncle and aunt, Mr. and Mrs. Matthew Foxton.

Mrs. Bottomley and daughter, Miss Marion, and Mr. Sherwood Hall were visitors at the home of Mrs. H. E. Cornell, Main street.

Don't forget the season's greatest attractions, the Dominion Chautauqua's entertainment course, under the auspices of the Women's Institute, to be given in the Town Hall, Athens, as follows:—Oct. 11—Mallory Players in a modern morality play, "Vanity," in four acts. Nov. 4—Bell Ringers (male quartette). Jan. 21—Well's Entertainers. Season tickets are now to be had at \$1.50. Single tickets 75 cents.

Several friends and relatives from Athens and Frankville attended the funeral of the late Mrs. Wm. Poole (nee Miss Annie Jones), of Poole's Resort.

Miss Marion Cornell left on Monday morning for Philadelphia, Penn., where she will enter training as a nurse in the Women's Medical Hospital. Miss Marion Bottomley will accompany Miss Cornell, as she will enter medicine in the same city.

Dr. Paul has purchased a new Bell piano from the local agents, Messrs. A. Taylor & Son.

Miss E. Randolph, Brockville, spent the week-end in Athens as guest of Mr. and Mrs. Jas. H. Ackland.

INADEQUATE FIRE-FIGHTING EQUIPMENT.

There is still much to be done in the way of organizing Fire Companies throughout the Province.

The lack of a properly trained fire-fighting organization with the necessary apparatus and equipment is a serious menace to any community.

The Fire Marshal's office recently received a communication from a Municipal Officer stating "We have no chief at present. The engineer of engine is paid \$50 a year to have order, and the constable has charge of the rest of the fire apparatus. The fire company has always voluntary and more or less difficult to keep together. The council the matter under consideration.

Members, reeves and councils frequently do not realize the responsibility rests on them as representatives of the people. To safeguard and from fire the lives and property of the citizens is paramount. protect large industrial institutions which the growth and progress of a community depends is ordinary common sense.

POST—Black and white fox answering to the name of "Merger." Any information regarding the whereabouts of this will be gratefully received and offered by Mrs. Leah Lillie.

FIELD CROP OF DOMINION

Yield and Condition at End of August Compared With Record for Ten Years.

The Dominion Bureau of Statistics issue the following report on the yield and condition of field crops in Canada, as compared for crop of 1920 with the returns of crop correspondents at the end of August:

The first reports made by crop correspondents on the average yields per acre of wheat, oats, barley, rye and flaxseed show that for the whole of Canada, the yields per acre are for spring wheat 16 1-2 bushels, as compared with 9 1-2 bushels last year, and with 16 1-2 bushels the decennial average for the period 1910-19; for oats 26 1-2 bushels, compared with 26 1-4 bushels last year and 33 1-4 bushels the ten-year average; for barley 25 1-2 bushels, compared with 21 1-4 bushels last year and 25 3-4 bushels, the ten year average; for rye 17 3-4 bushels, compared with 13 1-2 bushels last year, and 16 bushels the ten-year average; and for flaxseed 9 1-4 bushels, compared with 5 bushels last year, and 4 1-4 bushels the ten-year average.

These figures indicate, therefore, that for wheat the yield is just equal to the decennial average, that for oats the yield is 2 1-4 bushels above average, that for barley and rye it is 1-4 bushel below average, and that for flax it is practically equal to the average. Applying the averages for 1920 to the latest estimates of areas sown (these areas being shortly subject to final revision), we get as the preliminary estimate for the whole of Canada total yield as follows: Wheat, 289,000 bushels, as against 183,260,400 bushels last year; oats, 556,719,000 bushels, as against 394,387,000 bushels; barley, 64,257,000 bushels, as against 56,389,400 bushels; rye, 12,916,000 bushels, as against 10,207,400 bushels, and flaxseed, 11,990,000 bushels, as against 5,472,800 bushels.

The average condition on Aug. 31 of late sown field and fodder crops, expressed numerically in percentages of the average yield per acre for the ten years 1910-19, was reported as follows: The figures within brackets representing in the order given the condition on July 31, 1920, and on Aug. 31, 1919: Peas, 96 (102, 87); beans, 99 (103, 93); buckwheat, 99 (101, 95); mixed grains, 104 (105, 87); corn for silage, 98 (95, 89); potatoes, 103 (85, 99); fodder corn, 100 (98, 97); sugar beets, 96 (99, 83); pasture, 92 (89, 91).

DR. MARTEL'S PILLS FOR WOMENS AILMENTS

Thousands of women have testified in the last 25 years regarding the healing qualities of Dr. Martel's Pills. These pills are especially adapted for delayed and painful menstruation. Sold only in a Federal Dispensary, 200 West 42nd Street, New York City.

Tartaric Acid From Coal Tar.

By a newly discovered process, tartaric acid is made from coal tar, for which process John M. Weiss and C. E. Downs, two well-known manufacturing chemists are responsible. Tartaric acid has hitherto been made from cream of tartar, a solid found in the bottom of wine casks and employed principally in the making of baking powder. The United States before the prohibition were engaged in the vineyards where wine grapes are raised, produced 10,000,000 pounds of cream of tartar a year and about 1,000,000 pounds of tartaric acid. As the cream of tartar cannot be obtained except through the fermentation of the wine, the grape juice industry is unable to supply the household and hitherto filled from the vats of the vintner.

The high cost of living is something terrible. Diamonds were never so expensive as they are now.

It may be yours if you make Cuticura Soap and Ointment your every-day toilet preparations. The Soap cleanses and purifies, the Ointment soothes and heals, redness, roughness, pimples, and dandruff.

WORLD AIR TOURS

On Schedule Basis is British Company's Plan.

It is reported that a responsible British company proposes to put into execution a world-embracing plan for passenger airship transportation. Routes have been planned so that no important city will be more than 10 days' air journey from London, the following being the chief main lines and times occupied in making flights from London:

| London to | Miles | Days |
|-------------------|-------|-------|
| New York | 3000 | 2 1/2 |
| San Francisco | 4700 | 4 1/2 |
| Cairo | 2750 | 1 1/2 |
| Colombo | 5450 | 4 1/2 |
| Perth (Australia) | 8600 | 7 |
| Nairobi | 4150 | 2 1/2 |
| Capetown | 6350 | 3 1/2 |

The trip from London to Capetown will include a 12-hour stop at Nairobi, Cairo and Lisbon are to be two of the traffic junctions, the former, which will be reached from London by way of Tunis, for the southern route to Capetown by way of Nairobi, and for the eastern route to Sydney by way of Aden, Colombo and Perth. West of London the first stop is to be at Lisbon, whence the trip to New York and San Francisco will proceed by way of the Azores, and to Rio Janeiro by way of Sierra Leone.

A Mite of Radium a Mass of Material.

A tube of radium generally made use of by physicians is about a shade under an inch in length and about an eighth in diameter. It contains 100 milligrams of radium bromide. This minute quantity is the product of twelve tons of ore, three tons of hydrochloric acid, five tons of carbon, and one ton of sulphuric acid, that of some, one ton of sulphuric acid, in the operation, more than a month of work and five hundred successive crystallizations.

Minard's Liniment For Dandruff.

The cocconut tree is one of the most useful of all trees to the natives of the regions where the cocconut grows. The nut comprises a food and drink and the milk of the nut may be made into an intoxicant where that is desired. Its fibre is used for making ropes, rugs and matting and the husk for fuel. The wood is very durable and is used for many purposes.

Minard's Liniment for sale everywhere

Poultry World

SAFE AND SANE BREEDING.

(J. Harry Wolsieffer, in Philadelphia Record.)

These are the poultry keepers' dull days. By that one means that hatching and rearing chicks are at an end except in rare cases and for a special purpose and that now is the time on the well regulated plant for watchful waiting. The cockerels are being disposed of on the open market, and the pullets making their usual growth. During this period there is much time for reflection; for in a very large measure of the winter and spring in many instances artificial lights will be used to increase the egg yield during the winter months. How far can the breeder go in this direction of forced egg production without harming the fowls, as far as breeding qualifications are concerned has some time been uppermost in the minds of those poultry experts of years of experience, and in no sense of belittling the good progress that has been made to improve the hens laying qualities; there is, however, a time to stop, look and listen, are the hens accomplishing what may take a number of years to repair. Every poultry keeper knows that this year's fertility, hatchability and liveability was none too good, nor was it at a flattering average the year before; and from good reports comes the lowest figures from the so-called "winter" flocks. Those whose sole aim is to obtain the largest egg yield possible.

The successful poultry farm of today must not only obtain a fair percentage of eggs from the flock, but at hatching time a good number of fertile eggs that will hatch strong chicks. Some time being hatched, will live and thrive under fair care and treatment without a heavy death rate, or an excessive number of culls. More is known to-day than ever about the feeding and care of poultry. House-trap conditions are better. More and more incubators and brooders are at the disposal of the poultry raiser.

Shiloh 30 Drops Coughs. A tube of radium generally made use of by physicians is about a shade under an inch in length and about an eighth in diameter. It contains 100 milligrams of radium bromide. This minute quantity is the product of twelve tons of ore, three tons of hydrochloric acid, five tons of carbon, and one ton of sulphuric acid, that of some, one ton of sulphuric acid, in the operation, more than a month of work and five hundred successive crystallizations.

To obtain as many eggs from the hens as is possible is a laudable thing for the poultry raiser to aim for. But it is doubtful if anything is gained when the producing of a dozen more eggs by the hen is to the detriment of future breeding possibilities. One takes long chances in trying to beat nature, and the more artificial the methods used the more care should be exercised. Artificial lighting during the winter and early spring months should not be used on the fowls that are to be kept for breeding purposes, and if used should be handled with extreme care. Fowls for breeding should be handled in a different manner than those in the commercial pens, whose sole duty in the eyes of their keeper is to produce as many eggs as possible, nor should the growing pullets now on the range, or in yards, be unduly forced for growth.

The best future breeders will be those that have grown from incubation to full maturity without a check under what one would call natural draft, not a forced one. This class of birds will produce many eggs when fully matured, and when at the proper age will be able to produce a large number of chicks with a small percentage of culls. The other class may be called utility birds pure and simple, and to this line the poultry-keepers can use his so-called forced method of producing eggs to the limit and still not harm the usefulness of his flock, for in this breeding class other methods are used which one may call "safe and sane," with the idea of net eggs alone, but stamina and vigor, and the upbuilding of the future flock instead of tearing it down.

The total egg yield of any plant is not the sign of success, but the number of chicks hatched and reared to maturity without an excessive number of culls, and then followed by a fair egg yield. When any poultry-keeper is compelled to place a large number of eggs under hens or in incubators and have but a small percentage hatch, and those hatched do not grow as they should, they are on the losing side of the ledger, no matter what the egg yield in the future may be. The up-to-date commercial poultry-keepers have seen the handwriting on the wall and they are commencing to pay more attention to the breeding problems rather than to keep on increasing the egg yield, which in many flocks has made satisfactory improvement and has given the owners good returns. Egg production at the expense of future improvement of the flock as far as vigor and stamina are concerned, in the long run, and persisted in, will only lead to complete failure.—J. Harry Wolsieffer.

THEY ALL ARE. "She says she has an ideal husband. "How long have they been married?" "Three weeks." "Shucks, all husbands are ideal for the first three weeks."

Minard's Liniment Relieves Neuralgia.

TO WOMEN OF MIDDLE AGE

This Woman's Letter Tells You How To Pass The Crisis Safely.

Lascelles, P.Q.—"During the Change of Life I felt so weak and run down I could hardly do my work. The perspiration would pour over my face so that I couldn't see what I was doing. We live on a farm, so there is lots to do, but many who felt as I did would have been in bed. I took Lydia E. Pinkham's Vegetable Compound and it did me a world of good. I tried other remedies but I put Vegetable Compound ahead of them all, and I tell every one I know how much good it has done me."—Mrs. DUNCAN BROWN, Lascelles, Prov. Quebec.

Such warning symptoms as sense of suffocation, hot flashes, headaches, backaches, dizziness, dreading of impending evil, tickle, sounds in the ear, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness and nervousness should be heeded by middle-aged women, and let Lydia E. Pinkham's Vegetable Compound carry them safely through this crisis as it did Mrs. Brown.

You are invited to write for free advice. No other medicine has been so successful in relieving women's troubles as Lydia E. Pinkham's Vegetable Compound. Women may receive free and helpful advice by writing the Lydia E. Pinkham Medicine Co., Lynn, Mass.

BRITAIN'S WAR DUMPS.

London Times Tells of Waste of Material. No more palpable example of the waste of public money, says the London Times in a special article attacking the Government, could be found anywhere at the present time than that offered by the Army Ordnance Depot at Chilwell, near Nottingham. During the war Chilwell became known as "the V. G. factory." Here were piled 15 1/2 million shells or 50.8 per cent. of all the high explosive shells used by the British army, a task which cost 134 or the employees their lives in the terrible explosion of July, 1918.

It is now a "dump." The site comprises 18 acres and semi-buildings cover 10 acres under a single roof. Soon after the million or so of full shells lying here when the armistice was declared were removed, the Government began to bring trainloads of "war material" from the various depots of the army until day-millions of pounds' worth of stores lie rotting and rusting. Vast as the buildings are they cannot accommodate more than a fraction of the stuff that has been piled up and is still being piled up. "The site of the material has been open for months. It is a sight that makes one's blood run cold."

There are stores everywhere to equip an army and the stores are piled up in little piles of destruction, the clothing includes 10,000,000 pairs of army shirts, 10,000,000 pairs of Cardigan jackets, Scotch tweed jackets, Scotch tweed breeches, Scotch tweed trousers, Scotch tweed caps, and miles of material in khaki blue, and Scotch tartan.

The most rampant form of "waste" ever, concerns the vehicles. In the depots there are ranged thousands upon thousands of wheels for use, not merely on gun carriages, but on all kinds of all descriptions. Soaked by the spring rains, they are now suffering even more damage from the sun, and are deteriorating at an alarming rate. Yet farmers and tradesmen and wheelwrights would gladly pay a fair price for some of these spare wheels, in the "waste park" as this part of the site is called, are tens of thousands of four-wheeled wagons and two-wheeled carts, which will be ruined if they are not soon rescued.

To look at the horsehoes, one would think that the whole British army was mounted. There are something like six million horsehoes rusting at Chilwell. There are vast quantities of saddles, too, but these would be of little use for anything but cavalry. Great care is being taken of the guns of which there are Lewis guns to the biggest siege artillery. These are receiving proper attention, and a considerable amount of repair work is in progress.

The "A. N." (ammonia nitrate) mill is full of scientific instruments and wireless and other installations, and the laboratory is a gigantic museum of watches and clocks. Bicycles are also to be found by the thousand, many of them quite new.

The quantity of barbed wire is incredible. There is more than enough to fence the whole coast of England. Why this should be retained at a time when barbed wire is fetching three guineas a hundred pounds and is so badly needed on the land poses comprehension. The thousands upon thousands of tents, camp kitchens (many uncovered), and horse pipes, and miles upon miles of rope, hemp and other ores are also to be seen. In addition, there are lying idle boilers, engines and dynamos of enormous capacity. The switchboard is 90 feet long, the largest of the engines has 1,080 h.p.

Minard's Liniment For Burns, Etc.

The Butler's Burying Ground

Reclamation of An Historic Niagara Cemetery.

The Niagara-on-the-Lake correspondent of the St. Catharines "Standard" has furnished his paper with an interesting account of the reclamation work done at Butler's Burying Ground. Until very recently that historic spot, sacred to many families which bore a worthy part in the war of 1812-14, was badly neglected. The grave stones were displaced and the vault containing many of the remains had caved in and was open to the weather and to any vandal who might come along. The whole place was overgrown with weeds—a dismal spot which by its very existence seemed to rebuke an ungrateful country. Butler's Burying Ground was so-called after Colonel Butler who raised "Butler's Rangers," one of the most famous regiments of the British side in the hundred year old war with the United States. Time after time the Niagara Historical Society, of which Miss Janet Carnochan is the head, endeavored to procure action on the part of the Government, looking to the restoration of the burying grounds. A few years ago the Queen Victoria Niagara Falls Park Commission went so far as to inclose the graves with a fence. About a year ago the Commission, of which Mr. F. W. Ellis is the vigorous and aggressive chairman, decided to take this ancient cemetery in hand and put it in decent condition. Captain James E. Bond, assistant superintendent of the Park Commission, visited the scene and laid out his plans for the work of reclamation.

When the "Standard" correspondent visited the scene the other day he found that it had undergone a remarkable transformation. With the skill of a landscape gardener, Captain Bond has converted the little cemetery into a pretty, well-kept park, with smooth greenways, neatly gravelled paths, concrete seats for the use of visitors, and a fine road leading from the lake shore highway. The ancient vault has been restored and the slabs from the old tomb laid in neatly rows. Time and neglect have badly damaged some of the stones, erasing in part several of the inscriptions. The "Standard" correspondent says:—

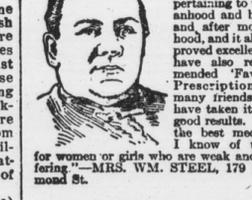

"One reads that in one grave rests the remains of Maria Caroline, the generous hearted, high-souled wife of Major Richardson, who died in May, 1843, and in another the remains of Deborah Freil, who died in 1816; in others the remains of Butler Muirhead, who died in 1824, of James Muirhead, of Eliza, wife of Charles Richardson, who died in 1833, of Colonel Raife Clench (one of Butler's Rangers, afterwards Judge, and member of Parliament, who died in 1828, of Jane, wife of Robert Rist, the sister of Charles Richardson, who died in 1831, Ann Butler, wife of Thomas Butler who died in 1836. Another stone tells that Samuel Cox, who was born on the ocean between Germany and New York in 1753 rests in a quiet grave in this cemetery."

"Colonel John Butler, commander of the famous regiment known as Butler's Rangers, sleeps his last sleep somewhere in this little burying ground but there has as yet been found no trace of his grave. Nor are there any stones to show where members of the Claus family are buried. It is likely they were placed in the vault which it is known was built for the interment of the Claus family. But no matter in what part of the little plot the remains of the Claus, Butler, Clench, Freil, Muirhead, Richardson and other pioneer families may rest, they are now secure from molestation and their memories will be preserved for all time. They rest in peace in this quiet spot, far from the noise of the bustling crowds, with the beautiful old trees to shade their resting place and wave requiem over it."

Sweetest melodies are those that are by distance made more sweet.—Wadsworth.

In Maidenhood, Womanhood and Motherhood

London, Ont.—"For many years Dr. Pierce's Favorite Prescription has been my most favorite medicine. I have taken it for the ailments pertaining to womanhood and before and after motherhood, and it always proved effective. I have also recommended Favorite Prescription to many friends who have taken it with good results. It is the best medicine I know of today for women or girls who are weak and suffering.—MRS. WM. STEEL, 179 Richmond St.

SAVED HER LIFE

St. Catharines, Ont.—"I was in a very miserable condition when I first started taking Dr. Pierce's Golden Medical Discovery and Dr. Pierce's Favorite Prescription sixteen years ago. I suffered and was extremely emaciated and weak. Although I was a young woman my doctor thought I was going through the critical stage of life, but after using these remedies my strength returned, another child came and from that time on my health was perfect and my weight increased. I really believe that Dr. Pierce's remedies saved my life and I shall always praise them as long as I live."—MRS. ELIZA OVERHOLT, 43 Beach St.

Favorite Prescription should have the full confidence of every woman in Canada because it contains no alcohol and no narcotic. Dr. Pierce knew, when he first made this standard medicine, that whiskey and morphine were injurious, and so he has always kept them out of his remedies. Send 10c to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., for trial package Tablets.

HELP WANTED

WOLLERS MILL HEAD WANTED FOR experienced and in-experienced male and female help. We require girls for weaving and finishing. The Sleepy Ship.

The Sleepy Ship's ready to sail awa, Manned by her willing crew; Her captain is waiting upon the bridge, Ready, my dear, for you. Soon down the river called rock-bye-oh, Gently on craft will glide, Then out on the shimmering slum sea, Borne by the evening tide. The Sleepy Ship's ready to sail awa, Her hold with stories stored; Her crew is waiting to break the out, When once you are aboard. Furry folk? Fairy folk? Which shall it be? Goblin, Brownie, or Elf? The Sleepy Ship's cargo is large, my dear, And you may choose yourself. The Sleepy Ship's ready to sail away; Her decks are never trod, By any but you, as a passenger, Bound for the Land of Nod, Where silvery sands of the Slumber Sea Shine in the moon's bright beams—The Sleepy Ship's sailing to-night. Wee Maid, Bound for the Port o' Dreams. The Sleepy Ship's daddy's old rock-ing chair, Daddy, the willing crew, The captain that's waitin' upon the bridge, Is daddy's love for you. And daddy's fond heart is your cabin mate; Your kiss on his bristly lip, The ticket that's good for your passage fare, On board the Sleepy Ship.

Mine Myths.

Underground workers in coal and other mines are full of superstitions, some of which are extremely weird. Darkness means mystery, and imagination has created various hobgoblins that are commonly believed to lurk in such subterranean places. For instance, there is the "ladder dwarf," a hunchbacked demon with a large head and enormously long and powerful arms. His favorite trick is to climb the ladders in mines and, as he passes the rungs, to kick them out one by one. In Germany the mines are haunted by two supernatural beings called Nickel and Kobold—the former being benevolently disposed, and the latter evilly mischievous. They are the gnomes who fill or empty the lodes. Nickel, if properly propitiated, will reproduce metal-bearing ores as fast as they are removed. Kobold, on the other hand, will steal away the metal from the lodes. He blows out the miners' lamps and, if he catches a man alone he may drag him about by the nose or hair. If he has a special grudge against an individual miner he will throw him down a ladder or crush him beneath a downfall or rock. To gain the good-will of these formidable goblins the miners leave bread, cake and even money in odd places. And, as a special means of appeasing them, two metals, nickel and cobalt, have been named after them.

SUNDAY SCHOOL LESSON

SUNDAY SCHOOL LESSON I. October 3, 1920. Birth and Childhood of Jesus Matthew 1:1-23, 2:1-5.

Commentary—1. Seeking Jesus (vs. 1-10). 1. When Jesus was born—The mother of Jesus was Mary, a virgin of the tribe of Judah. Jesus was begotten by the Holy Spirit (Lk. 1:34; Matt. 1:18; Luke 1:35-35). Jesus was born in the year B.C. 5. See Introduction. In Bethlehem of Judea. — This Bethlehem was in the territory of ancient Judah and five miles south of Jerusalem. There was a small town called Bethlehem in the tribe of Zebulun, six miles west of Nazareth. In the days of Herod the king—This was Herod the Great who was king of Palestine. Wise men from the east—These were magi, or sages, who represented the learning and the wealth of eastern lands, probably Mesopotamia or Persia. They had heard of the birth of a king who would come at some time to the world. It is commonly supposed that there were three wise men, yet Augustine and Chrysostom placed the number at twelve. To Jerusalem—The wise men came naturally to Jerusalem since it was the centre of the Jewish religion. They were searching for the King and would expect to find him in a palace of the capital. Jews were scattered in all countries of the East and would impart to those among whom they lived the knowledge of the coming Messiah. 2. Where is he that is born King of the Jews—The wise men naturally expected that the birth of a king would be common knowledge and they would have no difficulty in locating him. Have seen a star in the east—While they were in the east, they saw the star. The star was specially given them for their guidance and they were divinely impressed that the star would direct them to the King. Are come to worship him—They frankly acknowledged that they had come to do homage to the newly-born king. 3. Herod the king heard these things—The inquiry of the wise men reached the ears of the king, who was immediately in trouble, thinking an attempt would be made to remove him and set up another king in Jerusalem. He was a wicked king and advanced in years. All Jerusalem trembled with him. They feared the trouble a revolution might occasion. 4. Demanded of them where Christ should be born—"Inquired of them where the Christ should be born."—R.V. The high priest and those associated with him, and the scribes should be so familiar with the Scriptures that they could answer Herod's question. 5. The chief priests and scribes thought that they should answer Herod's question. The chief priests and scribes thought the answer to the inquiry in Micah 5:2. 6. Not the least—Although Bethlehem was little, yet it was exalted above all the other cities of Israel because the Messiah should be born there. Shall come clothed with authority. That shall rule—The thought is that of shepherding a flock, and the flock would be God's chosen people, Israel. 7. Had privily called the wise men—Herod was about to give directions to the wise men as to where to go and the object of their search, but he tried to keep the time of Christ's birth as secret as possible lest the Jews who hated him should take occasion to rebel. 8. He sent them—He assumed control; but they followed the directions of the Lord. Search diligently—Herod was honest in making this charge to them; he greatly desired to receive definite word concerning the new King. And worship him also—Herod had no desire to worship Jesus. His only object in desiring to know about him was that he might put him to death. 9. The star which they had seen in their own country now again appears. The star had disappeared for a time and this led them to inquire in Jerusalem for the young King whom they sought. Supernatural helps should not be expected where ordinary means are to be had. 10. They rejoiced—The Greek is very emphatic. They rejoiced exceedingly because they saw they were about to find the child and because they had such unmistakable proof of being in divine order. 11. Worshipping Jesus (v. 11). 11. They fell down—They prostrated themselves before him according to the eastern custom. Gifts—The people of the east did not approach into the presence of kings without bringing them presents. The custom still prevails in many places. Gold—Gold was always the useful, while frankincense and myrrh were prized for their delicious fragrance. These were the very presents Isaiah mentioned: "All they that of Sheba shall come; they shall bring gold and frankincense" (Isa. 60:6). His Safety for Jesus (vs. 12-15). 12. Warned of God in a dream—God communicated his purpose to them in a manner that they understood, and the impression or conviction was so clear that they at once obeyed. Should not return to Herod—The command had been given them by Herod to return, but now there came a command from a higher source. 13. The angel of the Lord appeared to Joseph in a dream—The wise men had been warned in a dream as a step toward the safety of the newly-born King, and now the Lord gave further directions by means of a dream to take the Christ out of Herod's reach. flee into Egypt—Egypt was readily accessible from Judaea and was a place where those who might desire to flee thither. "It had sheltered many thousands of Jews from the tyranny of the Syrian kings." Many of the inhabitants of Egypt were Jews. Egypt was at that time a Roman province. The Lord had given the word to flee into Egypt; and he would give direction as to when the family should return. 14. He took the young child and his mother by night—In Bethlehem this family was at the time their Nazareth home temporarily, but now they were going further.

The departure was by night and evidently the same night during which Joseph had the dream. It was there until the death of Herod—It is supposed that the death of Herod took place about two years later. out of Egypt have I called my son—This prophecy is found in Hosea 11:1. It has direct reference to the deliverance and its fulfillment presents to use a type which was fulfilled in the return of the child Jesus from Egypt. Questions—Where was Jesus born? When? Who was king of Judaea? What was the character of this king? Who came to Jerusalem seeking for Jesus? From whence did they come? Why was Jesus called King of the Jews? How had the wise men been led in their search? Why was Herod troubled? Whom did Herod gather together? For what purpose? What charge did Herod give the wise men? Why? How did they approach Christ? What warning was given to the wise men? After leaving Jesus what did the wise men do? What warning was given to Joseph?

PRACTICAL SURVEY.

Topic—The King comes as a little child. I. The childhood of Jesus. II. The Kingship of Jesus. It is not an unadventurous, out of expression, that the gospel commences with a genealogical table. The purpose is to show that Jesus is the true Son of David. He was the promised "seed" in whom all the nations of the earth are blessed. Matthew traces the descent from Abraham; Luke (2: 2-38), the descent through human lineage to David. In the former we find unexpected names, not by accident, but of express purpose. Jesus, as a racial saviour, is of "all nations." I. The childhood of Jesus. "Now the birth of Jesus Christ was on this wise." The incarnation is scripturally and philosophically inseparable and redemption. From this point human history breaks away on a new line. A creative miracle by the Holy Ghost at the foundation of Christianity. human interests—d hopes focus in a divinely human personality. In Christ there is an inextinguishable union of the perfect divine, and the perfect human. On his mother's side, human; on the divine, by the mysterious creation of the Spirit. His birth, childhood, youth, manhood, unite him inseparably with the experience of humanity. A Redeemer so like us, and yet so unlike us, as to be "separate from sinners." He was born with specific and exclusive reference to the sins of the race. His prenatal name focuses the great purpose of His coming. He does not come into the history of the race with a small programme. Jesus is nothing if not the Saviour. Apart from redemption, the incarnation was immense moral squandering. The antipathy of sin followed Him from the manger cradle to the mountain cross. His first appearance in the temple, whose splendor was a typical foregleam of the glory of Him who now entered its sacred portals, was the signal for His reception by those who may be regarded as representatives of the spiritual remnant of Israel. Simeon and Anna, both aged and saintly, had been watching with prophetic outlook for the rising of the "Sun of righteousness." II. The Kingship of Christ. Jesus was born "King of the Jews," and springing from them to be the King of all men. As the Son of God, and the Son of David, He was royal by both divine and human lineage. The Gentiles welcomed Him in the "wise men" who, miraculously guided, came four months from home to do Him homage and bring gifts worthy of royal state. Ages before, a prophet from the same region had predicted the Messiah as the "Star out of Jacob" (Num. 24: 17). Daniel foretold the kingdom "which shall break in pieces and consume all these kingdoms, and it shall stand forever." He will reign, not by force of grandeur or earthly state, but by the power of spiritual forces. Even Herod felt the trembling of his throne and vainly sought to support it by a bloody expedition which could not touch the new born King. Out of his humiliation, he came his supreme and everlasting exaltation (Phil. 2: 6-11). "The banished One shall become the centre of nations." From the eternities it was pre-destined that the "government shall be upon His shoulder." W. H. C.

WHEN BABY IS SICK

When the baby is sick—when he is cross and peevish; cries a great deal and is a constant worry to the mother—he needs Baby's Own Tablets. The Tablets are an ideal medicine for little ones. They are a gentle but thorough laxative which regulates the bowels, sweetens the stomach, banish constipation and indigestion, break up colds and simple fevers and make teething easy. Concerning them Mrs. Philippe Payen, St. Flavien, Que., writes: "Baby's Own Tablets have been a wonderful help to me in the case of my baby and I can strongly recommend them to other mothers." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

IT ALWAYS WORKED.

"Why don't you buy something at my table?" inquired a fair stallholder, at the church jumble sale. "Because I only buy from the plain girls," said the man. "They have a harder time selling things." The girl smiled; and he went on, working the same excuse all down the line.

Mild Pill for Delicate Women.—The most delicate woman can undergo a course of Parmelee's Vegetable Pills without fear of unpleasant consequences. Their action, while wholly effective, is mild and agreeable. No evident pains or purgings follow their use, as thousands of women who have used them can testify. They are, therefore, strongly recommended to women, who are more prone to disorders of the digestive organs than men.

Muggins—Jones is most persistent in looking for trouble. Muggins—Yes, that fellow will look for trouble where it has never been lost.

SUGAR --- 15c

WE HAVE a limited quantity of the genuine Brown West Indian Cane Sugar, which we will dispose of in the original sacks of 200 lbs. each at 15 cents per pound, all charges paid to your station.

St. Kitts Brown Sugar

200-lb. Sacks Delivered to Your Station

This is a rare opportunity for housekeepers, bakers, lumber operators, etc. It is the real old-fashioned St. Kitts Sugar—better than refined for baking brown bread, mince-meat, baked beans, dark preserves and pickles.

Samples will be sent to all interested.

Lovely Spots in Pontiac County, Quebec

(1) The Harbour at Fort William, P.Q. (2) Water Falls at Des Joachims, along the Ottawa River. (3) On the beautiful sandy beach at Fort William, P.Q., there are hundreds of log seats.

The Province of Quebec is dotted with many beautiful landscape and water scenes. Some of these are well known, but many of them have been little heard of. For years Quyon and Campbell's Bay, Fort Coulonge and Bryson have been known to lumbermen and sportsmen. These sportsmen have fished and hunted, and have kept serenely still about their exploits. But that sandy beach at Campbell's Bay, and that new camping ground at Davidson fairly cry out for visitors, and if we know the signs, it won't be long before dozens of families follow the example of the few Montreals who have kept this Pontiac country a carefully-guarded secret.

In spite of its comparatively exclusive appeal, the Waltham of Pontiac county is easily accessible. The train service on the Canadian Pacific Railway from Ottawa is excellent. The whole line is eighty miles long, or just half the distance from Montreal to the end of the Laurentian line. Almost all the way it skirts the Ottawa River, which furnishes Otter, pickerel, and bass and delightful bathing pools, and it will be a message of cheer to the suffering scratchers to learn that there are no mosquitoes here.

Fort Coulonge and Campbell's Bay have good hotels. Indeed "Coulouge House" is a model of cleanliness and homelike atmosphere—so mothers who are weary of housekeeping cares

can pack up the family and fare forth to one of these quiet villages confident that the children will grow brown and fat, and that they themselves will have no worry over household problems.

It is a country of low green hills, of many sparkling lakes, of silver rivers, the Ottawa and the Coulonge—these are steamers and ferries to carry one across the river—steamers to Pembroke and ferries to Calumet and Renfrew. Beyond Waltham, at the end of the line, is the well-known resort of Fort William, Quebec, just across the river from Peterborough, Ontario. Near Fort William is Des Joachims, where there is a pretty waterfall. The swagging lumbermen and the picturesque hunter have largely vanished from the villages. From Quyon to Waltham is a country ideal for summering, new in its capacity, and taking all the pleasure in its new character that an experienced actor takes in mastering the

details of an unfamiliar play. J. I. T.

MARSHAL PETAIN, The hero of Verdun, who married a wealthy widow in Paris on Tuesday.

COLBY STANDS BY SUFFRAGE

Washington, Sept. —Secretary Colby has refused to grant the request of anti-suffragists from Tennessee that he rescind his action in proclaiming ratification of the Federal suffrage amendment on the basis of favorable action on the amendment by the Tennessee Legislature.

To have the children sound and healthy is the first care of a mother. They cannot be healthy if troubled with worms. Use Mother Graves' Worm-Exterminator.

An average man is one who is neither a brilliant success as a money-maker nor a dismal failure as a spendthrift.

NEAR LYNCHING IN CHICAGO RIOT

One of Negro Party Kills Trolley Conductor.

Five Fled to Church, Priest Defies Mob.

Chicago, Sept. —Five negroes, arrested in connection with the slaying of a street car conductor by one of their number were saved from lynching when they fled to St. Gabriel's Church to-night. Father Burke, the pastor, with the aid of a few police, held a mob of 10,000 at bay until the negroes had been taken to jail. The crowd dispersed in small bands and race rioting started in a score of places.

Charles Barrett, a conductor, had an argument with two negroes. The conductor attempted to force them from the car when the negroes stabbed and shot him to death. Passengers pursued the negroes when they fled from the car with their friends. The crowded street before the swinging doors of St. Gabriel's Church. Father Burke fastened the doors behind him and took up a position on the steps to face the mob. A few policemen gained his side.

"I am Father Burke," the priest shouted. "This place is a sanctuary. I order every person here to leave at once."

The handful of police soon had the mob under control. Father Burke led the police into the church. The negroes were hiding in a confessional. They were surrounded and taken from the church through a cellar door.

Holloway's Corn Cure takes the corn out by the roots. Try it and prove it.

ON THE BEACH AT WAIKIKI. The Prince of Wales waiting to go surfing-riding on the famous beach at Waikiki, Honolulu.

The Man With Asthma, almost long for death to end his suffering. He sees ahead only years of endless torment with intervals of rest which are themselves fraught with never ceasing fear of renewed attacks. Let him turn to Dr. J. Kellogg's Asthma Remedy and know what complete relief it can give. Let him but use it faithfully and he will find his asthma a thing of the past.

MARKET REPORTS

TORONTO MARKETS

FARMERS' MARKET.

Table with columns for Dairy Products, Eggs, Live Poultry, and Vegetables. Items include Butter, creamery, Eggs, Chickens, etc.

The wholesale quotations to the retail trade on Canadian refined sugar, Toronto delivery, are now as follows:

Table with columns for Do. No. 1 yellow, Do. No. 2 yellow, Do. No. 3 yellow, Do. No. 4 yellow, Do. No. 1 yellow, Do. No. 2 yellow, Do. No. 3 yellow, Do. No. 4 yellow.

MEATS—WHOLESALE.

Table with columns for Beef, forequarters, cwt., Do. do, medium, Do. hindquarters, cwt., etc.

OTHER MARKETS

MINNEAPOLIS.

Minneapolis.—Flour unchanged to lower; in carload lots family patents quoted at \$12.70 to \$13.50 a barrel in 55-pound cotton sacks; shipments, \$1.15 a barrel. Bran, \$39.50 to \$42.00. Wheat, Cash, No. 1 Northern, \$2.64 to \$2.85. Corn, No. 2 yellow, \$1.11 to \$1.12. Oats, No. 3 white, \$1.78 to \$1.79. Flax, \$3.25 to \$3.27.

CHEESE MARKETS.

St. Paschal, Que.—At to-day's meeting of the St. Paschal Dairy Board 250 packages of butter sold to Gagnon, Quebec, at \$2 3/4, and 44 boxes of cheese sold to Gagnon, Quebec, at 58 3/4¢, and 114 boxes cheese sold to Ayer, Montreal, at 2 1/4¢.

GAS FROM STRAW MAY RUN AUTOS

Washington, Sept. —The operation of automobiles by gas made from straw is a possibility of the future. "A gas obtained by the destructive distillation of wheat, oat and rye straws," the Department of Agriculture, announced to-day, "is now being produced upon a small scale at the Experimental Farm at Arlington, Va. Although an automobile has been operated with the combustible, and it has been used for illuminating purposes as well as for cooking, the possibilities of straw gas are not yet fully determined."

Do not allow worms to sap the vitality of your children. If not attended to, worms may work irreparable harm to the constitution of the infant. The little sufferers cannot voice their ailment, but there are many signs by which mothers are made aware that a dose of Miller's Worm Powder is necessary. These worms eat quickly and will expel worms from the system without any inconvenience to the child.

NO. 1 NORTHERN.

Bulk of N. Alberta Wheat So Grades.

Edmonton, Sept. —The bulk of Northern Alberta wheat now being marketed is grading No. 1 northern, according to reports at the offices of the Gillespie Elevator Company. It is all of a good color, and with practically no evidences of frost. It is estimated that the average yield will run from 20 to 25 bushels an acre. \$2.25 is being paid for wheat that can be moved east without delay.

For Sprains and Bruises.—There is nothing better for sprains and contusions than Dr. Thomas' Electric Oil. It will reduce the swelling that follows a sprain, will cool the inflamed flesh and draw the pain as if by magic. It will take the ache out of a bruise and prevent the flesh from discoloring. It seems as if there was magic in it, so speedily does the injury disappear under treatment.

THURSDAY, SEPTEMBER 30, 1920

SEED GRAIN DISTRIBUTION.
(Experimental Farm Note.)

The annual free distribution of samples of seed grain will be conducted as usual at the Central Experimental Farm, Ottawa, by the Dominion cerealist.

The following kinds of seed grain will be sent out this season:

Spring wheat (in about 5 lb. samples); white oats (about 4 lbs.); barley (about 5 lbs.); field peas (about 5 lbs.); field beans (about 2 lbs.); flax (about 2 lbs.)

Only one sample can be sent to each applicant.

Applications must be on printed forms which may be obtained by writing to the Dominion Cerealist, Experimental Farm, Ottawa, at any time after Sept. 1st.

As the stock of seed is limited, farmers are advised to apply early to avoid disappointment. Those who applied too late last season are particularly requested to send in their names at once so that application forms may be forwarded to them. No application forms will be furnished after Feb. 1, 1921.

C. E. Saunders,
Dominion Cerealist.

PUBLICATIONS AVAILABLE FOR DISTRIBUTION.

The department of agriculture at Ottawa includes in its available publications some four hundred titles which embrace practically every phase of farming in its broadest sense in Canada. The new list recently issued contains thirty new publications which relate to dairy ing, field crops, insect and plant diseases, live stock, the orchard and garden and poultry. In the miscellaneous list is included "Farm Feeds," "The Use of Coarse Grain for Human Food," and a new edition of "The Maple Sugar Industry in Canada." All these publications are for free use of the citizens of Canada and are obtainable for the asking from the Publication Branch of the Department of Agriculture at Ottawa.

Charleston

M. B. Slack and bride, who returned last week from their wedding trip to Ottawa, were visitors on Tuesday at the home of the latter's sister, Mrs. H. Webster.

Miss Julia Hudson has returned from a visit to her sister, Mrs. McKenna, Frankville.

The campers have nearly all left the lake, but the last few days being very warm, many returned.

The new bridge across Slack's creek has been completed.

Mrs. Killingbeck has gone to Smiths Falls to spend the winter with her adopted son, Frank Sterry.

Frankville

Mrs. Will Adams left last week for her home in Moose Jaw.

Walter Lander, of Vancouver, B.C., came to visit his aunt, Mrs. Richards who has been ill for the past year, and at the time of writing has bronchial pneumonia.

Mrs. McGilivray, of Dakota, came to visit her aunt, Mrs. Curtis, Delta, who is in St. Vincent de Paul hospital with a broken limb. She is also visiting Mr. and Mrs. W. D. Livingstone.

Mr. and Mrs. C. Aylard have returned from their honeymoon and are settled in their cosy home.

Miss Pearl Oliver has returned from spending holidays with friends in Kingston.

Miss Rena Coad, of Brockville, is the guest of Mrs. Leslie Soper.

Miss Pearl Crumpton, of Jasper, has been accompanying Mrs. Stout, while Rev. Mr. Stout has been absent for a week.

Mrs. A. Latham, of Brockville, spent a week with her parents, Mr. and Mrs. G. M. Leverette. Her mother accompanied her home.

Mrs. A. E. Crummy entertained a number of the young people to a corn roast. They reported a very enjoyable time.

Mr. J. W. Morris, bank manager, is having his holidays and is supplied by Mr. Cramp.

Rev. Bert Wickware, wife and child, of Ottawa, spent the week-end with Mr. and Mrs. A. R. Hanton.

Mrs. Brooks left on Monday for her home in Miss, Nevada, accompanied by her cousin, Lloyd Cardiff.

Dr. and Mrs. Maskin, of Theresa, N.Y., spent a few days taking care of Mrs. Richards, who is very ill. They procured a couple of nurses and returned to their home on Wednesday.

W. C. Dowsley, I.P.S., is making calls at the schools in this vicinity. His brother, Mac Dowsley, is spending a couple of weeks holidays with old friends.

Rena Soper was unable to return to A.H.S. on Monday on account of illness.

Geraldine Richards went to Ottawa with Dr. and Mrs. Bert Wickware.

Newboro

A large crowd from this vicinity attended Delta fair Wednesday, and many also attended Ottawa exhibition Thursday.

School has opened again with Miss Hicks, Ottawa, as principal, and Miss Owens, Portar, assistant.

Misses Blanche Steadman and Kathleen Dousett, also Gordon Leggett and Ambrose Dier, are attending Smiths Falls collegiate.

Misses Florence Leggett, Eleanor Tett and Helen Bulger are attending Athens high school.

The campers have nearly all left their summer homes for this season.

Mr. J. W. Morris, of Kingston, ton, visited friends in this vicinity Sunday.

Philippsville

Earl Trotter's barn roof caught fire from the engine while filling the silo, and only that a boy coming down the road and gave the alarm the whole buildings might be in ashes.

Silo filling and potato digging is about the only work that is being done. Potatoes are a wonderful crop; one party purchased 100 bushels for \$50.

Mrs. Trevor and Mrs. Sharkey, of New Boyne, and Mrs. Wood, of Chantry, spent Sunday with their sister, Mrs. Lynn.

Miss Mamie Downey, after a visit with friends in Ottawa, has returned home.

Elliott, Denny and Greenhorn have purchased a silo cutter and are filling their own silos.

An auto load of visitors were at Robert Hamilton's on Sunday.

Sand Bay

SAND BAY.
The corn cutter is now heard in our neighborhood, reminding us that fall is here.

Mrs. Robt. Austin is calling on her old neighbors. She has spent the last two hers in Saskatchewan with her son, Mr. Harvey Austin.

Miss Rose Shay spent a few days this week at the home of Mr. C. McDonald's. She returned to her home on Tuesday.

Mr. and Mrs. Archie Johnston visited Mr. and Mrs. Rogers on Sunday.

Communion service will be held in the Presbyterian church here on Sunday next at 2.30 p.m.

The marriage of Mr. James McCrady, of Dulcemaine, and Miss Marion Tye took place at her home on Tuesday evening, 14th inst.

Mr. B. Herbison has returned from Brockville, where he has been visiting his daughter, Mrs. Max Greer, for some weeks.

Mr. M. Slack and bride have re-

turned from Ottawa and will take up their residence in Mooretown, as he has purchased the late Mr. Slack's farm at that place.

Camp meeting has closed at the Outlet, where it had been held for two weeks.

Mr. and Mrs. James McCrady and little daughter, Mary, of Wesleyville, Pa., have returned home after spending a week at the home of his parents, Mr. and Mrs. R. R. McCrady.

The marriage took place at the residence of Mr. D. Haskins of his daughter, Myrtle, to Mr. Hermon Henslip, on Wednesday evening at 7.30, the ceremony being performed by Rev. Mr. Fulcher. They left on the midnight going east on a short honeymoon and on their return will reside in Sand Bay. The groom has a very comfortable home and we are all pleased that they are still going to live in our neighborhood.

TEACHERS' INSTITUTE IS TO HOLD MEETING AT VICTORIA SCHOOL

Interesting Programme Prepared for the Gathering.

AN EAST LEEDS CONVENTION

Helpful Lectures Arranged to be Given by Educationists and Others.

The annual meeting of the East Leeds and Brockville Teachers' Institute will be held in the Victoria School, Brockville, on Thursday and Friday, October 7 and 8, and a fine program has been prepared for the gathering.

On Thursday there will be three sessions, in the morning, afternoon and evening. At the morning session an address will be delivered by the president, Miss E. M. Drew, of the staff of the public schools, and there will be reports from the delegate to the Ontario Educational Association meeting and from Miss H. Graham of the public schools, representative on the teachers' excursion to Northern Ontario. In the afternoon, Miss C. E. Green, of the staff of the Ottawa Normal School, will discuss the teaching of sewing in rural schools. A Pithescope of Canada representative will give a demonstration of the uses of the motion picture in school work, and Mr. S. L. Snowden, principle of the Athens Public School, will give a history lesson on Champlain's Explorations.

At the evening session pupils of the Brockville public schools will give a demonstration of the value of music, folk dances, physical training

and games in school work. W. C. James will render a vocal solo at the afternoon session.

The items on the agenda for Friday will prove helpful for school teachers. At the morning gathering commencing at 9 o'clock, Dr. J. L. Dyke, of school section No. 21, Escoff, and Aaron Roddick, B.A., of school section No. 13, Elizabethtown. W. A. Remmer, principal of the Brockville Public Schools, will give an arithmetic lesson on type problems in interest and a musical selection by Messrs. Turner, Butcher and Close will complete the program.

Canada's Overseas Trade is \$2,351,000,000

Sea-borne \$1,046,000,000
Land-borne \$1,305,000,000

More than half this land-borne trade is ultimately sea-borne—but in Foreign Ships.

Every pound of Canadian products shipped from a port outside Canadian territory retards our maritime growth, weakens our national prosperity and places control of a part of our sea-borne commerce in the hands of a competitive nation.

Paint Protection vs. DECAY

Any surface that is covered with *Glidden Endurance Paint* is well covered and will not decay easily, for *Glidden* protection is good protection and saves the cost of frequent repairs.

Glidden Endurance Paint prevents decay, keeps out moisture from the wood and resists wear from changing weather conditions without scaling or cracking.

Glidden Endurance Paint stays fresh and bright for a long time, wears well and looks well—and because of its durability is the cheapest paint you can buy.

For everything about the home or farm that needs to be painted, stained, enameled, varnished or finished in any way, there is a *Glidden* product made especially for that purpose.

We have them. Color cards free.

THOUSANDS VISIT "BLEEDING STATUES" IN IRELAND.

Thousands of people from all parts of Ireland and Great Britain flocked to Templemore, Tipperary County, Ireland, to visit the statues and holy pictures which were said to have bled miraculously.

SHORT ITEMS OF THE NEWS OF THE DAY

Nurses in Brantford have raised their fees. A well-recorded seismic disturbance took place at Victoria B.C. A Windsor bootlegger is reported to have made a fortune of \$139,000.

TURNED WHEAT VALUES LOWER

Chicago, Sept. 1.—Receipts of over a thousand cars of wheat in Winnipeg turned the trend of wheat values downward to-day, as the trade was inclined to look for increased pressure from Canada.

TURNED WHEAT VALUES LOWER

Chicago, Sept. 1.—Receipts of over a thousand cars of wheat in Winnipeg turned the trend of wheat values downward to-day, as the trade was inclined to look for increased pressure from Canada.

SERVANT GIRL UNNECESSARY

New York, Sept. 1.—Exit—Mary Jane, the servant girl. It is true, too, that it will be soon, according to a preliminary announcement at the electrical exposition at Grand Central Palace, on October 6, which states that a practically servantless household will be exhibited.

50 P.C. OF BABIES DIE

Paris, Sept. 1.—Infant mortality has reached an amazing figure in France since the war ended. In Paris it is 50 per cent.

OCCUPATION OF RHINE COSTLY

Paris, Sept. 1.—Frederic Francois-Marsal, the Finance Minister, replying to a question submitted to him by a member of the Senate, said to-day that the expenses incurred through the Rhine occupation were estimated at the end of March to have reached 18,000,000,000 francs.

HOLD BALKAN CONFERENCE

Vienna, Sept. 1.—A conference of all the Premiers of the Balkan States will be held at Bucharest in October. It is intended to discuss questions in connection with tentative Greco-Romanian, Bulgarian and Jugo-Slav agreements, with the ultimate object of a Balkan bloc.

GENEVA MEET IS CALLED OFF

London, Sept. 1.—The Geneva conference of the Entente Premiers, at which the representatives of Germany were to sit with the Allied statesmen to make a decision about the German indemnity, has been indefinitely postponed.

FRANCE WILL PAY IN FULL

Paris, Sept. 1.—France will pay every dollar of the \$250,000,000 loan due in New York, Oct. 15, M. Francois-Marsal, the Minister of Finance, officially announced to the Cabinet Council to-day.

FARM CONDITIONS

The following is a summary of the weekly reports made by the Agricultural Representatives to the Ontario Department of Agriculture: Corn cutting and silo filling, threshing, winter wheat, sowing, the second cutting of hay, fall plowing, etc., are keeping farmers busy in most parts of the province.

CLOTHING PRICES MUST COME DOWN

So Declares Head of U. S. Retail Clothiers,

But Not While Russ Girls Get \$45 a Week.

Chicago, Sept. 1.—"Clothing prices must come down; they are too high," Frederick Levy, president of the Retail Clothiers' Association, told a thousand members of that organization to-day. Clothing dealers from all parts of the country are here to discuss the details of the trade.

BRITAIN'S In Wheat, Barley for 12 Months.

Ottawa, Sept. 1.—An estimate of Great Britain's probable requirements in imports of wheat, barley and oats during the next twelve months, furnished the Department of Trade and Commerce by Trade Commissioner Harrison Watson, gives the following totals: Wheat 217,500,000 bushels; barley 60,000,000; oats 60,000,000 bushels. The estimates are based on the official forecast of the United Kingdom yields, which have still to be confirmed by actual results.

tops of the dark-green pine and facing toward the western horizon, where the pink lights played and the blue shadows gleamed in the fall of the short, gray, snowy afternoons.

"This is quite magnificent," remarked Talbot, strolling about with an admiring air.

"Dye think so?" replied Stephen in a pleased tone, lifting a flushed face from his tacks and sitting back on his boot heels.

"You've got the handsomest girl in the place," he said, "and a very nice, charming one, too. I don't see what more you want."

"But it's not every one who says, 'Lord, Lord, that shall enter the Kingdom of heaven,'" quoted Stephen.

I think that I love the things of earth—ripe fruits and laughter, lying down to sleep, the shine of lighted towns, the graver worth of beating human hearts that laugh and weep.

HE IS FAITHFUL THAT PROMISED. Every promise of Scripture is a writing of God which may be pleaded before him with this reasonable request: "Do as thou hast said."

MINISTRY OF CHEERFULNESS. What is more attractive than a hearty laugh or more delightful than the association of bright and happy people?

It is passing strange that so often those who should be cheerful and happy are morose and gloomy and even despondent, while on the other hand the lives of many in which there is every reason for despair radiate sunshine and happiness.

1920 APPLE CROP Less Than Last Year in the Dominion. Ottawa, Sept. 2.—The commercial apple crop of the Dominion, despite the large increase in Ontario over last year, now indicates a decrease of one-quarter of a million barrels over 1919, according to the September report of the Fruit Commissioner's branch.

THE AGONIES OF HADES Aren't supposed to be worse than a bad corn. For years the standard remedy has been Putnam's Corn Extractor. It painlessly removes the worst corn in 24 hours; try Putnam's Extractors, 25c at all dealers.

than to the realm of everyday affairs. Not all are great; not every one has the ability to be intellectually profound of profoundly intellectual; few can reason subtly and accurately; only rarely does one appear who can reform the practice and habits of an age; but everyone can live and proclaim the gospel of cheerfulness.

Such a one memory now recalls. He lived in an obscure village far from the railroads and the daily newspaper. His life was necessarily spent in a restricted sphere, but his influence was great because he was a veritable apostle of cheerfulness to the community.

After all, what is better than to see the sunshine of your smile reflected on the face of another, to help a burdened brother bear his load, to cheer a saddened heart, to ease a grievous pain?

Finest Thing Ever For Chronic Catarrh! Gets Away From the Medicine Habit, Cures By Novel Method.

With the many remedies you have tried you surely know that no liquid medicine can cure your throat or nose. In this life we are permitted to do nothing greater than smooth the path for some other person, "to dwell in a house by the side of the road," as it were, we have yet the privilege of performing for humanity a wondrous service.

PALLID CHEEKS MEAN ANAEMIA

NEW HEALTH CAN BE OBTAINED BY ENRICHING THE BLOOD SUPPLY.

When a girl in her teens becomes peevish, listless and unwell, when she seems to be intellectually profound of profoundly intellectual; few can reason subtly and accurately; only rarely does one appear who can reform the practice and habits of an age; but everyone can live and proclaim the gospel of cheerfulness.

Out of their experience thousands of mothers know that anaemia is the sure road to worse ill. They know the difference that good red blood makes in the development of a woman's health. Every headache, every gasp for breath that follows the slightest exertion by the anaemic girl, every pain she suffers in her back and limbs are reproaches if you have not taken the best steps to give your weak girl new blood.

AN ANCIENT RELIC. Hidden in an old New England mill is an object older than the oldest title of the English peerage, an object made before the English Parliament was formed. It is a bell, still in daily use in a factory at Saylesville, N. H.

The date, together with other well-authenticated facts, leads to the belief that the bell was long used in a convent belfry in England and was taken therefrom for public use during the reformation. But the connection link between its life and the old world and its advent to America is the famous naval battle between the Guerriere and the Constitution.

With the lapse of time, the bell, amid the confusion and debris common to a great navy yard, became misplaced, lost its identity, and was thrust carelessly to one side. It found its way to the scrapheap, was afterward sold by the United States and finally came to rest in its present quarters.—New York Tribune.

LEEDS-DAIRMEN

PROTEST FREIGHT RATES TO GOVT.

Deputation of Five Heard by Premier Meighen.

INCREASE IS OBJECTED TO
Producer in Canada Has Had No Chance to Divide Extra Cost of Haulage.

A deputation of five, headed by Mr. W. H. McNish, president of the Brockville Milk Producers Association, waited on Premier Meighen at Ottawa on Friday last to protest against the raise in freight rates on cheese.

The contentions raised were that the dairy farmer who produced milk for cheese had been discriminated against in that the proposed increase did not apply to milk. The deputation urged that those producing milk for shipment were invariably situated close to the market or to transportation lines, while the cheese producer had always been handicapped by the remoteness of his situation, and the proposed increase worked a further hardship on this class of dairymen, especially as his price being fixed by the British Food Commission at a certain price retail, the producer here had no chance to divide the extra cost of haulage with the consumer, thus putting him at a disadvantage when compared with producers of other commodities.

It was further shown that the railroads had very little labor to perform in connection with cheese shipping, as about nine-tenths of the cheese produced in this district were loaded into the cars from the farmers' wagons by the farmers themselves and that they were unloaded by labor other than railway labor at their destination. It was pointed out that no special equipment such as refrigerator cars were essential, although these may be used, and provision is made for government help where these cars are used.

The deputation appreciate that had they had the co-operation of the Eastern Ontario Dairymen's Association and the Brockville Cheese Board, their case would have had more weight, and they have arranged with Mr. D'Arcy Scott, secretary of the Dairy Council, to present their case at the hearing which is to take place before the government at Ottawa to-morrow.

The dairy industry is fortunate in having a live body of men such as the Brockville Milk Producers Association, which now has a membership of over 600, to look after the interests of those engaged in the business of producing milk.

Oak Leaf

Trinity Church, Oak Leaf, held its annual harvest thanksgiving service on Sunday last. The church was suitably decorated for the occasion and the choir rendered special music. The anthem "We Plough the Fields and Scatter the Good Seed on the Land," was particularly fine and much enjoyed by the large congregation. The rector in his sermon emphasized the duty of being thankful for the bounties of God, not only in word but also in deed.

Soperton

Mr. and Mrs. La Forty visited friends in Brockville last week.

Work is being rushed on R. Sheridan's bungalow.

The sibs syndicate started work at Wm. Jacques' on Monday after extensive repairs to the engine.

Wesley Davis, Soperton, W. Morris, Delta, W. Frye, Forfar, represented the dairymen's interests at Ottawa on Thursday last.

Mr. and Mrs. J. Cumming and Mr. and Mrs. A. Cumming have returned to Toronto after a recent visit at the home of J. Scotland.

THE MATCH AS A DEADLY TOY.

The use of matches as a plaything is a very dangerous habit. In the Province of Ontario, during the year 1919 one fire in every eight originated through children playing with matches; and they thus wantonly destroyed more than \$361,000 worth of valuable property, besides sacrificing several innocent lives. Even in the hands of careless men and women many fires are caused by thoughtlessly throwing a match in a waste paper basket, or pile of rubbish, before it is quenched. A good plan is to break the stick in two and then you will be sure that there is no fire in it.

Feeling with interest to all who have heard the Red Gods calling, Rod and Gun in Canada for October will especially appeal to the followers of the trap-line. The leading story in this splendid issue of Canada's premier sportsman's monthly is entitled, "Amnitchiwash Lake." Illustrated with six pages of photographs taken right on the Trap-Line by F. V. Williams, it will appeal to everyone who ever had dreams of capturing the many fur-bearers which go to make Canada the richest in wild life. George R. Belton tells in his own inimitable manner how he has been mistaken for several kinds of wild animals. His story will be read with interest. The usual contributors, Bonnycastle Dale, Robert Page Lincoln, etc., need no introduction to the sportsmen of North America. In addition to the regular departments this month, M. U. Bates takes charge of the Trap-Line Department and will conduct it in the usual interesting manner. Rod and Gun in Canada is published monthly by W. J. Taylor, Limited, Woodstock, Ont.

BURNING UP CANADA.

If the recent big fires were all accidental, the burning up of Canada is still the favorite foolishness of the Canadian people.

There is more Catarrh in this section of the country than all the other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts through the Blood on the Mucous Surfaces of the System. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials.

F. J. CHENEY & Co., Toledo, Ohio.
Sold by Druggists, 75c.
Hall's Family Pills for constipation.

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.
