ROBIN HOOD FLOUR
 IS DIFFERENT
 IT HAS ROUSED THE CURIOSITY OF THE WHOLE WEST
 "Do you really think" one housewife will say to another "that this new flour can be better than the flour we are using?"
 Madam, there is no doubt about it.
 But there is just one way you can be convinced. You must use it yourself.
 Our claims will not satisfy you, but we back up our claims in such a way that you will lose nothing by trying Robin Hood.
 Your grocer will tell you about our guarantee which gives you back your money if you are not satisfied.

Which Was The Heir? CHAPTER XXIII. (Continued.) SHE made her way to the meadows at the back of the cottage, thinking of Geoffrey as she sauntered along, and how anxious and worried he would be if he knew that she had lost all her money and was not at school, in accordance with his plans for her future; and she resolved that she would not write to him until she had got together nearly enough money to take her back to him. Let him think her suddenly grown heartless, as he had done before, rather than that she should worry about her. Poor, lonely Geoff! He had meant it for the best; but, oh, how she wished he had let her future alone and allowed her to remain with him—happy and contented indeed!

By Appointment to His Majesty The King BOVRIL makes delicious bouillon, rich, tasty gravies; adds flavour and strength to stews, hashes, entrees, etc. BOVRIL is the true economist in the Kitchen.

She came to the end of the meadows and found herself facing a park paling. There were trees on the other side, and, utterly ignorant of the English laws of trespass, she scaled the low paling and strolled on. Presently the trees ceased and the park merged into the castle lawn, and she caught a glimpse of the vast house and the magnificent gardens stretching away from it. She stopped and gazed at it for a moment with eyes that sparkled with admiration, then, unable to resist the temptation, she went on. There was no one in sight to stop her, and she wandered up the smooth paths, picking the flowers as she went. Suddenly she came upon a small summer house of marble, almost covered by a magnolia in bloom; and she

To Suffer from Headache Makes Life Miserable It takes a person that has had or is subject to headaches to feel how the suffering which attends them. The majority of such are caused by constipation and dyspepsia. The dull throbbings, the intense pain, sometimes in one part, sometimes in another, and then over the whole head, varying in its severity by the cause which brought it on, purely indicates that there is something the matter with the stomach or bowels. To the fact that Dr. Bowler's Herb Tablets reach every part of the system in its success in relieving and permanently curing headache, it has proven a specific for the malady in all its forms. For sale at 25c per box, by all druggists and dealers. If your dealer cannot supply you write to us direct. BOVEL MFG. CO. St. John's, Nfld., or Montreal, Can.

He looked up to it and was picking one of the gorgeous flowers when she caught sight of an old gentleman who was sitting in a corner of the summer-house and who was watching her with eyes which glowed like points of fire from a face as white as the marble itself. Her hand fell from the flower, and she stood spell-bound as if fascinated as a rabbit under the basilisk stare of a serpent. There was a faint surprise in the awe inspiring eyes and as faint a cynical curve to the thin lips as if the old man were rather amused than angered by her presence. Cottie stood like a statue, her graceful figure poised as it had been in the act of reaching for the flowers, and held her breath, and, presently, after what seemed an age, a thin, clear voice, like the stroke of a hammer on steel, said: 'Good-evening. May one ask who you are?' The colour, which had ebbed from Cottie's cheek, glowed back again; it was a relief to hear this stone-like apparition speak. 'I—I beg your pardon, I didn't know anyone was here. I—I was picking the flowers—' she said, trying to keep her voice steady; 'for, after all, though he looked so terrifying, this old man could not hurt her. Why she could run away from him easily enough! 'So I observe,' he retorted, drily; 'but you have not answered my question. Who are you, boy? Come nearer, please. You need not be afraid.'

Cottie drew nearer, holding her head erect, and, though her eyes were downcast, she saw that the old gentleman was wrapped in a dressing-gown, and leaned on a gold-headed stick; kept just out of reach. The earl bent his brows in silence for a moment; then he started slightly and leaned forward with an expression of interest and curiosity. 'I'm not afraid,' said Cottie, with her usual candour. 'Why should I be?' The ghost of a smile flitted across the white parchment-like face. 'Well, you are trespassing; and, not to put too fine a point on it, stealing,' he said. 'But we won't dwell upon that. Tell me your name, and how you came here?' 'My name is Ronald—Bell,' said Cottie, as steadily as she could. The earl listlessly, regarding her with a thoughtful, speculating expression in his glittering eyes, as if he were trying to recall someone. 'Ronald Bell,' he said, after a pause. 'I don't remember you, and yet—Who are you—how have you come here?' 'On my feet,' said Cottie, with no intention of being discouraged. 'I came across the wood from Betty's cottage, where I'm staying. What is your name?' 'Edmund Harold Waisley Howard Bassington,' replied the earl, with a grim smile. 'Sometimes I am called the Earl of Starborough.'

you may call me Lord Starborough,' he said. 'Yes, that's better,' remarked Cottie, with evident relief; 'the other takes such a long time, doesn't it?' He inclined his head with cynical amusement. 'Yes; this house belongs to me, as you say. And those flowers?' He looked at the bunch in her small brown paw. Cottie immediately held it out to him. 'I'm sorry I didn't know. In Australia, the flowers belong to anybody you see.' 'Thanks; you may keep the flowers. So you come from Australia?' said the earl, his eyes bent upon her keenly. 'Yes,' said Cottie, smothering a sigh; 'I've just come.'

from the thin, emaciated figure and proceeded with coolness and deliberation to arrange her flowers. The earl watched her with a thoughtful frown as if he were musing. 'Were you born there?' Cottie nodded. 'Yes, and my father and mother are dead, and so is my sister, and I'm all alone and I've lost my money in the train, and I'm going back as soon as I can get some more,' she added, anticipating any further questions. The earl smiled grimly at her reticence. 'And why are you staying at Betty's?' he asked. 'Because Miss Rashleigh took me there—she found me after I'd lost my money. Would you mind my picking another of these flowers?' she broke off, pointing to the magnolia blooms. He nodded. 'Pick what you like,' he said. (To be Continued.)

AFTER SUFFERING TEN YEARS Cured by Lydia E. Pinkham's Vegetable Compound. 'I feel that Lydia E. Pinkham's Vegetable Compound has given me new life. I suffered for ten years with serious female troubles, inflammation, ulceration, indigestion, nervousness, and could not sleep. Doctors gave me up, as they said my troubles were chronic. I was in despair, and did not care whether I lived or died, when I read about Lydia E. Pinkham's Vegetable Compound; so I began to take it, and am well again and relieved of all my suffering.'—Mrs. GEORGE JORDY, Box 40, Marlton, N.J. Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs, and to-day holds the record for the largest number of actual cures of female diseases we know of, and thousands of voluntary testimonials are on file in the Pinkham Laboratory at Lynn, Mass., from women who have been cured from almost every form of female complaint, inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration. Every suffering woman owes it to herself to give Lydia E. Pinkham's Vegetable Compound a trial. If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass.; her advice is free, and always helpful.

The Evening Chit-Chat

By RUTH CAMERON

She was not a shop girl and never worked in a department store.

She wanted that distinctly understood.

So, in an interview given shortly after her elopement, the pretty new wife of the son of our Secretary of State is quoted as announcing, and as announcing most emphatically.

It seems to me that she has more reason to be ashamed of that emphasis than of the elopement.

When men and women learn not to be ashamed of any honest work, whether done with hands or brains, we shall have taken a long step towards establishing a real democracy in America.

But as long as some men and women are weak enough to be ashamed of their work, other men and women will assume a superiority over them, and we shall have a false foundation for class distinctions.

Notice I say "weak enough." That's because I think it is almost as bad for a man to take the attitude which allows others to look down on him because of his work, as it is for those to whom he offers this opportunity to take it.

I do think it is the inevitable that class distinctions should exist.

I believe that some people are and always will be, until the millennium comes, inferior to others.

That all men "are created free and equal" must mean, of course, equal in respect to their rights, for all men certainly are not equal in mental, physical or moral qualities.

But I do believe that the class distinction should never be made along the line of the work a man or woman does.

I have seen shop girls who would grace a throne.

And I have met at least one woman

of tremendous wealth who would look far more in place behind a counter than in the flower-fragrant, brocade-decked drawing rooms of her magnificent mansion.

Mrs. A. Webster-Powell, a rich New York woman, recently took two girls from the East Side, dressed them in Paris gowns, hung them with jewels, and introduced them at a function in her home as friends.

They were universally admired.

Several men—among them a very eligible millionaire and a count—became distinctly interested in the young women.

No one outside the secret had the slightest suspicion that there was anything unusual about their appearance in society.

Remarkable? Not at all.

I am sure there are plenty of women from the leisure class who could be placed behind a counter or in a factory without creating any more of a ripple.

Listen, shoppings—Listen, all women who have ever at any time been ashamed of honest work.

There are castes in society, but it isn't the work you do or don't do, that gives you your caste. It's how you do that work and what you are.

Of course, you must have heard that before.

The knowing of it is nothing new. But I want you to do more than know it. I want you to realize it and live it.

Don't say "A shopgirl is just as good as anyone else," and then go off on a vacation and try to hide the fact that you are a shopgirl.

All shopgirls aren't as good as anyone else, any more than all women of leisure are as good as anyone else.

But I want you to make your own particular shopgirl just as good and refined and educated and in every way worthy as you know how, and to respect her and her work, and if you do I am pretty sure that you'll get your reward in the respect of other people.

Not Sisters

Now and again you see two women passing down the street who look like sisters. You are astonished to learn that they are mother and daughter, and you realize that a woman at forty or forty-five ought to be as old as her mother and sister. Why isn't it so?

The general health of woman is so intimately associated with the local health of the essentially feminine organs that there can be no red cheeks and round form where there is female weakness.

Women who have suffered from this trouble have found prompt relief and cure in the use of Dr. Pierce's Favorite Prescription. It gives vigor and vitality to the organs of womanhood. It clears the complexion, brightens the eyes and reddens the cheeks.

No alcohol, or habit-forming drugs is contained in "Favorite Prescription." Any sick woman may consult Dr. Pierce by letter, free. Every letter is held as sacredly confidential, and answered in a plain envelope. Address: World's Dispensary Medical Association, Dr. R. V. Pierce, Pres., Buffalo, N. Y.

HOUSEHOLD NOTES.

If your furniture has grown streaked and dull, try rubbing it with flannel dipped in equal parts of turpentine and coal oil. It polishes quickly and much more cheaply than the expensive polishes.

When paring any kind of fresh fruit if the hands are washed off immediately with cold water instead of being washed in warm water and soap, there will be very little danger of unsightly stains.

A good homemade furniture polish is composed of linseed or salad oil and vinegar. Mix well with a stick until the oil does not float on the surface. Apply with a flannel and rub off with linen.

Metal buttons and ornaments may frequently harmonize with some new garment. After the desired color has been applied they should be so varnished that they will resemble enamel. The drying process will require several days.

If powdered silver polish is mixed to a thin paste with olive oil, well rubbed into every crevice of the silver and left for a few hours, the silver after being washed in the usual way will be bright and free from stain.

Roll pieces of calves' tongue in a

thin slice of bacon, hold together with a silver skewer, flour and cook to a delicate brown. Serve on chop dish with garnishings of cress. Pass a thick, creamy gravy in silver sauce boat.

Save all bits of fat for two purposes. The best can be clarified for frying and the rest made up into soap. Remember in making soap that a teaspoonful of salt added to every ten pounds of grease improves the quality of the soap.

Instead of cold deviled eggs, try these: Stuff in usual way, put two halves together, dip in egg and bread crumbs and fry at the last minute in boiling fat. Serve on round silver platters with a centre of green peas and a border of thick tomato puree.

Hysterical Tendencies

Are They on the Increase in the Young Women of Today?

Our daughters, by denial of the simpler modes of living in which our grandmothers flourished, are developing into mere bundles of nerves. In this brief, but all too true, conclusion Mrs. S. E. Powers, well known in Bridgeport, proceeds to say that no responsibility rests with greater force upon parents than that of fortifying the over-strained nerves of their children by a judiciously selected tonic and careful diet. "My third daughter had just finished her high school course. She gave signs of absence of repose—lacked self-control—was nervous—irritable, and very high strung. She had formerly always shown excellent temper and judgment, and these outbursts of impatience and temper clearly indicated her health must be at fault. I was advised to give her Ferrozone and got four boxes at once. I took particular care to see that she ate regularly and sufficiently of nutritious food. Had she not been built up by Ferrozone, it is hard to say what serious troubles might have been developed. Certainly Ferrozone is a splendid medicine for such troubles, weakness and ill-health as young girls suffer from."

Every growing girl and boy, in fact any person in low or debilitated health, will be quickly built up by Ferrozone—try one or two tablets at meal time; 50c per box, six for \$2.50, all dealers, or The Cattarhozone Co., Kingaton, Canada.

Charivaria.

Editor Evening Telegram.

Mr. Editor.—One of the most amusing columns of Punch is that which contains the short items and comments under the name or heading of "Charivaria." It consists of local allusions to current events, extracts from newspaper paragraphs containing amusing errors or "bulls" and so forth. Many a good item appears from time to time in our papers, and it seems to me a pity they should be lost, and it has occurred to me, Mr. Editor, that you might be inclined, when short of copy, or when there is no very important matter, such as the Guy Centenary or our agricultural capabilities engrossing public attention, to accept a few of this "Charivaria" to fill up a vacant corner of your paper. In this hope I send you the following:

A short time since in the report of the Municipal Council it was complained that "offensive water was percolating through the fence of a backyard to the annoyance of neighbors." "Ordered that the matter be laid before the owner of the back yard in question with a view to its removal." There could be no more effectual means adopted; we may rest assured that when the water in question is laid on the breakfast table, together with the morning eggs, we shall not be troubled much longer with "the nuisance."

It was announced recently that "the Bellaventure struck the 'harps' on the 17th of March." No more appropriate method could be devised for celebrating the festival of St. Patrick.

A Modern Rip Van Winkle.

A notice appeared recently stating that a worthy citizen would give a lecture on "Rambles through St. John's for the past hundred years"; and as it was also stated that the lecturer, being born in St. John's, could speak from personal experience, no doubt a most interesting treat was in store for the audience.

An accident occurred to a motor car on Queen Street the other day. There were two children and a woman in the car. The reporter carefully records that the "machine was overturned and completely smashed up." The circumstance as to what occurred to the woman and children was considered too trifling to be worthy of note by the reporter.

This reminds us of an account which appeared in a French paper some time ago of a distinguished traveller and scientist who was swallowed up by an alligator on the Nile. The paper sympathetically adds, "The poor creature died of indigestion."

New York, April 1.—All records for church collections in a single Sunday are believed to have been broken by the \$100,000 contribution made at the Easter service at Grace Church, in this city. The money will be devoted to the memorial of the late Dr. William R. Huntington, formerly rector.

PRACTISING CRICKET.—Among many of the younger generation there is a tendency to revive the noble game of cricket. St. John's and the students of Bishop Field College are hard at work now practising. They will have a good team in the inter-collegiate contest this season.

Telephone Service.

The Board of Trade are still waiting a reply from the Anglo as to the representation made by the Council of the B. of T. on the service. It will be remembered that the Anglo last fall had an expert down from Montreal studying the telephone situation of the city.

In this connection the appended extract from the Postmaster-General's Report will prove not uninteresting:

"The inauguration of a Government Telephone System is very much to be desired. It would lessen the expense of our telegraphs by the substitution of telephones in many places where the business does not pay the salary of the operator. The telephone placed in the post office could be attended to by the postmaster at very little expense and connected with a telegraph office it would answer all the purposes required. It would also act as a feeder to our telegraphs by bringing a number of small places into connection with the latter, where now there is neither one nor the other. In this manner the expense of operating our telegraphs would be greatly reduced and the revenue increased. As this matter is at present engaging the attention of the Government, I have no doubt that an up-to-date telephone system will ere long be established through the country."

Board of Trade.

The Board of Trade held the first quarterly meeting at their rooms last evening. The attendance was large. Hon. M. G. Winter, the President, occupied the chair. The quarterly report read by Mr. Fearn, the Secretary, was adopted. Some interesting addresses followed on various subjects. W. B. Grieve spoke of the necessity of a proper cure of fish and condemned the practice of buying and selling on the talqual system. Hon. W. C. Job also made a sound practical speech. Mr. Gosling and Mr. Cooney expressed their views on the exporting of fish in drums and the price of the latter as compared with Halifax. Meeting closed at 10.

STAR ANNUAL DANCE.—The annual dance of the Star of the Sea Association takes place at their rooms to-night. The R. R. & B. Committee have tastefully decorated the rooms, and all the members of the Society and their lady friends will be present, and a good time is anticipated.

There are now about 42 Naval Reservists on the training ship Calypso. Most of these will shortly be leaving for their homes to get ready for the codfishery. Several of the men who have put in their term of five years' service will enter again for a similar period. A young man named Spracklin, of Trinity, has the highest score for this season's crop. He is a good shot and has 72 points to his credit out of a possible 80.

Changes in Steamboat Service.

As will be seen by advertisement in another column the Red Cross liner Rosalind after this trip will ply between this port and Montreal via the Gulf ports all the coming summer and next fall and with her will be associated the Bonavista, for years past plying in this trade. The Black Diamond Line, we learn, are also ordering four new ships of about 10,000 tons each to run from Bell Island to Sydney with ore, and thence to Montreal with coal. These vessels will not be put on together but will be gradually added as trade conditions require. The s.s. Bornu has been chartered by the Red Cross Co. from the Elder-Dempster Line and will ply with the Florizel between this port, Halifax and New York all next summer. The Florizel will leave here on the 2nd May to take up the St. John's-Halifax and New York route. We understand that the C. P. R. are making efforts to initiate a service between the port of Montreal and an Italian port, and the intention is if such a service is inaugurated to have the steamers call at St. John's, where there will be a fair share of business to be done freighting fish, oil, &c.

RECOMMEND IMPRISONMENT FOR FRAUDULENT PACKING.—The Council of the Board of Trade have recommended that all cases of fraudulent packing, pickled fish and capped goods shall be punished by imprisonment.

M.G.B. SPORTS.—The preliminaries for the M.G.B. sports were held last night in their armory. They will be held to-morrow night and will be of much interest. A relay race between three members of each of the city brigades will be an interesting feature.

AMATEUR WRESTLING.—Hubert Keats, formerly of the C. L.B., is a very good wrestler. If it can be arranged he will meet Private Richard Jackman of the C.C.C., who is also a good man at the game. If they should get together an interesting match would be the outcome.

C. C. C. COMPETITION.—The annual inter-company competition in the C. C. C. will shortly be held, and the companies of the Corps have been busy practising for some time past. The trophy will be a shield which was won last season by "D" Co., St. Patrick's Hall.

HURT BY FALL.—Conductor Howlett of the Reid Nfld Coy., in leaving his residence two weeks ago tripped and fell, and being a heavy man, was badly hurt about the side and chest. Mr. H. thought at first some ribs were broken in, but such was not the case. He was attended by Dr. Mitchell, and is now able to be about again.

The Cure of Fish.

The first and foremost matter dealt with in the report presented by the Council to the Board of Trade at the quarterly meeting last night was the cure of fish. The report ran thus:

It is with considerable regret that the Council have learned of repeated difficulties occurring between the sellers and buyers of our fish in foreign markets. This is attributed by many to the imperfection of the cure of much of our fish, and the Council desire to take this opportunity of impressing upon all merchants and dealers in fish, as well as upon our fishermen themselves, the great and increasing need of exercising the utmost possible care in the preparation and cure of fish for market. The Council feel that in many cases the fishermen strive to catch a large quantity of fish rather than to giving their utmost attention to its cure. Competitors, such as the Norwegians, are every year improving their cure, and striving to the extent of their knowledge to meet the requirements of the foreign markets, and unless the fishermen of Newfoundland use their utmost exertions to improve their cure, the Council very much fear that Newfoundland fish will only be consumed when the fish of other countries is not available.

Without too minutely entering into the details of the cure of fish, the Council take this opportunity of impressing upon all interested in this industry the great need of cleanliness, and in order that this may be accomplished, plenty of clean, pure water should be used at the time of washing and the fish should then be thoroughly cleaned from all particles of blood and blood stains. Care should be taken in the handling of the fish whilst drying it to see that it does not become broken, and every crur of fish should certainly bear in mind that as much care should be taken to avoid any appearance of dirt in the preparation and cure of codfish as is taken in the case of mixing and baking a loaf of bread. It is, in the opinion of the Council, far better for a fisherman to make a moderate voyage and give great care to its cure, so as to make a large portion of it strictly merchantable, rather than to secure a large voyage with an indifferent cure. Good fish will sell at all times, while when the market is bad it is next to impossible to realize any price whatever for inferior cure. An excellent way to get good results from the cure of codfish is to take the fish whilst alive, place the head against you, the back being to the left, and with a sharp knife cut through the or two of the gills. This does not kill the fish, and it will by this means be bled thoroughly and will have no blood stains or clots on it. This method is very much better than cutting the fish's throat, which kills the fish and makes the blood go thick, besides making the fish have a bloody appearance. The Board of Trade inspection has been successful, and those who have availed themselves of it to the greatest extent have met with success in the realization of their original sale price. Most of the fish inspected by the Board of Trade has been accepted by the foreign buyers, and the quality often commended; and with this measure of success attending the efforts of the Board the Council hope that the Board of Trade inspection may become generally used.

A Peculiar Happening.

A peculiar incident occurred at Logy Bay either Sunday night or Monday morning. A flake owned by James Malone stands out on a cliff about 300 feet high, and the spot is known as Carrigan's Look-out. People who went to the spot yesterday were surprised to see the flake partially wrecked with several beams supporting it broken, the boughs which were on the top of it strewn around and the soil nearly torn up. Sods which took three men to lift were torn up from between the crevices of the rocks and a deal of kelp was found on the flake and near it. That the damage was done by the action of salt water was patent to all who saw the place, but where the water came from is a mystery. No sea ever ran up so high as to reach the top of the cliff, and the water must have dropped from above. Some people believe that it came from a water spout which broke on the land. Nearby was a store containing 60 gals. of fish, but this was not harmed. It was indeed a strange occurrence.

PLASMON as a Source of PHOSPHORUS.

The importance of administering phosphorus in a form suitable for assimilation has long been recognised.

PLASMON, as is well known, is a preparation of the casein of milk containing rather over 80 per cent. of pure protein, but its considerable content of phosphorus in the form of combination in which this exists in milk is perhaps less generally recognised.

"PLASMON COCOA"

Fish Samples for Brazil

The Board of Trade have sent to Mr. A. B. Dallas, their agent in Brazil, samples of cod liver, lobsters, salmon, the product of the Newfoundland fisheries and also dried and desiccated fish in various forms, prepared by Mr. Clouston and Mr. Noseworthy. They have also sent samples of the best quality of Newfoundland shore fish hermetically sealed in tin-lined cases to test how they will stand climatic conditions there. Samples of Lake & Lake's canned codsteak have also been sent.

The Lobster Pack.

Now that Canadian lobsters are no longer handicapped in the German market, Newfoundland packers will have to look to their pack to maintain their position in the German market, they obtained while the Canadians had to pay a higher duty.

The Board of Trade consider it of the greatest possible importance, that our packers should be careful to put up a good article, preserving the favour of the lobster and giving full weight of lobster meat.

Clerk Confesses

To Murder, at a Burial, at Springfield, Mass.

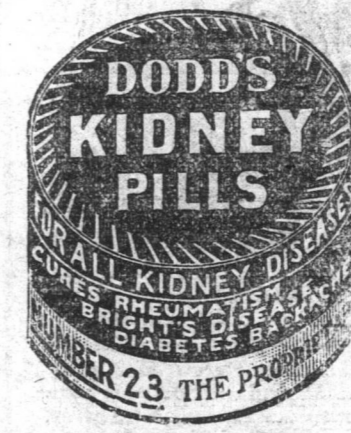

Springfield, Mass., April 5.—The wanton murder on the evening of Thursday last of Miss Martha B. Blackstone, by a masked burglar, was to-night formally charged against Bertram G. Spencer, a clerk aged 28 years, who was arrested earlier in the day, and has confessed his crime.

Several people positively identified him as the man responsible for the career of local terrorism of a year ago during which three homes were

broken into and robbed. Spencer has borne a good reputation. He is married and has one child.

Springfield, Mass., April 6.—Unable further to withstand the merciless grilling to which the police were subjecting him, Bertram Gage Spencer confessed to-day to the murder of Miss Martha B. Blackstone at the home of Mrs. Sarah J. Dow, on Roundhill, in this city, last Thursday night. Spencer also confessed to the commission of a long series of masked burglaries which have kept the residents of Springfield in a panicky condition for a long time. Although the announcement of the confession was made early in the forenoon before Capt. John H. Boyle, chief of the detective bureau of the Springfield police department, all the details were held for a time. Captain Boyle saying he would meet all the newspaper representatives about noon, at which time he would give them all the particulars of the alleged confession.

Miss Blackstone and Miss Harriet P. Dow, school teachers, were shot by a masked burglar who entered the Dow's home early on the eve of March 31st. Miss Dow is recovering.

The Recital at the Kirk

A very fair audience assembled at the Kirk last evening to hear Mr. Mawer's Recital, and a pleasant hour and a half it proved to be. The selections were all sacred, and of a high class, and Mr. Mawer and his choir are to be congratulated upon the success which they achieved. The male voices were strengthened by the presence of Messrs. Crane, LeMessurier and Gornick. The Sopranos were very good, with powerful, ringing tones, so much so, in fact, that they overpowered the other parts at times, and this disturbed the balance of the voices. The Altos were few in number and therefore unable to cope with the body of sopranos. This is a matter that is beyond Mr. Mawer's control. He cannot make voices to fill up the parts requiring aid; he can only make the best possible use of such voices as can be procured from the congregation worshipping in the Church. Taking these circumstances into account, the choir deserves credit for attempting "Worthy is the Lamb," a chorus which, in its fugal portion, especially, requires all parts to be well-balanced. The anthem, "Blessed be the God and Father" by Wesley, was very nicely sung. Miss Strang taking the soprano solo and Mr. Mawer, himself, the bass or baritone solo, as well as playing the accompaniment. The audience greatly enjoyed "Seek ye the Lord," for the voices were softer, and Miss McKinley sang the solo splendidly. In Grey's anthem, "O God, the Rock of Ages," Miss Irving was soloist and sang with much expression. The choir evidently enjoyed this number for they sang with good volume and kept well together. The closing chorus was "The Heavens are telling," from the "Creation," and it was sung with spirit, the choir coming out with a glowing burst of harmony. The trio was taken by Mrs. McKinley and Messrs. Crane and Hepburn. Quite an array of soloists was in evidence last evening. Dr. Smith led the way with "Waft her, angels," followed by Mrs. McKinley in "I know that my Redeemer liveth." This was highly appreciated. Mrs. McKinley's softer tones being very sweet. Mr. Hepburn has a pleasing baritone voice and sang "Arm, arm, ye brave," very acceptably. That really very difficult solo, "If with all your hearts" (Elijah) was given by Mr. Strang. He has a sympathetic voice of good quality and sang with feeling. He has large possibilities before him. Miss Strang is so well-known that it is needless to say that she sang splendidly. With great expression, a full command of her voice, and in perfect tune she performed her work to the great pleasure and satisfaction of the audience. Mr. Hugh LeMessurier was the last soloist and he gave "Honour and Arms" (Samson) in a most effective manner. He kept his voice in good control and yet declaimed the airs with vigor and emphasis. Raff's "Cavatina" by Miss Johnson served to show her undoubted ability to produce good tone and to reflect, through her playing, the soul of the musician. The organ numbers by Mr. Mawer were pleasing, and the "Epic Ode" was given with breadth. He showed much taste and judgment in his accompaniments, supporting, but not overpowering the voices, and deserves congratulations upon the success of the evening, as do also the members of the choir and those who so ably assisted them.

DIED FIGHTING FOR AIR.

Special to Evening Telegram. CHERRY, Ills., April 11. All active 2 o'clock p.m., Nov. 14. This is the latest message from the fatal St. Paul Coal Mine fire was brought to light to-day with the recovery of 31 bodies which had been entombed since the disaster of Nov. 15th. The bodies were taken from the lowest level, 500 feet below ground. The men were in a space of 20 feet square, and constructed a rude fan to keep the air circulating. On the fan in big letters were chalked the words quoted above, indicating that the men took turns at the crank of the fan, for one of the bodies was found prostrated over the handle, as though the man died while struggling to maintain the air. It was said tonight by mine officials that the bodies of nearly all the 300 miners killed by the disaster have been accounted for.

THE VETO.

Special to Evening Telegram. LONDON, April 11. Interest in the political situation centres in the dispute between Chancellor Lloyd George and the O'Brienites regarding the alleged Budget concessions to Ireland. John Redmond, of the Irish Parliamentary Party, has issued an emphatic denial of Mr. O'Brien's statements made at Cork on Saturday night, but attempts in the House of Commons to-day to draw the Chancellor out on the subject were without result. Nothing further is likely to develop until Mr. O'Brien makes a personal statement before Parliament on Thursday. The House of Commons to-night debated Premier Asquith's second paragraph of the Veto resolutions. The discussion was notable for the capital maiden speech of the Hon. Nell Primrose, the youngest son of the Earl of Rosebery, which was listened to by his father and Queen Alexandra. Mr. Primrose was complimented on all sides for his style of oratory which was strongly reminiscent of his father.

News was received in town yesterday that Mr. John Curtis, of Twillingate, died yesterday after a short illness due to a heavy cold. It is only a fortnight ago or so since his wife died. Another sad circumstance is that all his family were absent except a young grandson. The deceased was an estimable and well-known citizen and a staunch Liberal.

REBELS DISPERSE.

Special to Evening Telegram. CONSTANTINOPLE, April 11. The Albanian insurgents have settled their differences with the Turkish Government, and dispersed to their homes according to an official despatch received to-day. The Government has promised to consider their grievances, and to comply with any reasonable demands if the rebels remain peaceful.

When Sleep Fails You

DR. CHASE'S NERVE FOOD will bring rest, comfort and vitality by building up the nerves. Mr. Jas. Wesley Weaver, a veteran of the Fenian Raid, Port Dalhousie Ont., writes: "For years I was afflicted with nervousness and drowsiness, so that I never knew for three years what a full hour's sleep was, never more than dozing for a few minutes at a time. Heart pain and headaches almost drove me wild. I had spells of weakness and cramps in stomach and limbs. "Though I tried several doctors, it was money uselessly spent. Finally Dr. Chase's Nerve Food was brought to me and eight boxes cured me. I am simply wonderful what benefit I have obtained from this treatment." Sleeplessness and headaches are warnings of approaching nervous collapse. You can positively remove these symptoms and prevent prostration of paralysis by the use of Dr. Chase's Nerve Food. 50 cents a box, 6 for \$2.50, at all dealers or Edmondson Bates & Co., Toronto. Write for free copy of Dr. Chase's Recipes.

Little Bay Mine.

The copper mine at Little Bay will be worked with greater energy than ever this summer, and we hear that a large number of men will be employed there the coming summer. An American company which has been capitalized at \$1,000,000 is taking charge of the mine, and there is a big supply of copper ore there. Steamers will ply regularly there the coming summer, and the ore will be shipped from the Bight.

Mail Couriers Fall Through Ice.

The mail couriers bound to Miller-Town Junction from Springdale with the Green Bay mail fell through the ice yesterday, while crossing Hall's Bay. Fortunately no lives were lost nor were the mail-bags, but four mail-bags were much damaged by the water. The news came through the Miller-Town Junction Postmaster to the Postmaster-General.

Wedding at Kelligrews

The wedding of Mr. Leo Nugent and Miss Rachael Craig, of Kelligrews, was solemnized at the R. C. Church there by Rev. Father Coady on Lov Monday. The bride was dressed in a beautiful costume of navy blue tulle with hat to match. Mr. James Nugent was best man. Miss Maggie Farrell attended the bride and looked pretty in a pale blue blouse, etc. The presents were many and useful, testifying to the popularity of the bride and groom, who are members of the leading families of Kelligrews. The bride is a niece of the late Mrs. Walsh of Kelligrews, who kept the hostler and had so many friends in

Personal Notes.

Mr. Francis R. Wallace, who has represented the International Correspondence schools in Newfoundland for the past two years and a half, has been promoted to the responsible position of Division Superintendent for New Brunswick of this great educational institution, and will make his headquarters at St. John, N. B. He leaves to take up his new duties on May 1st.

First Aid to Injured.

A large and representative gathering of ladies and gentlemen met in the Board of Trade rooms last evening to consider the desirability of establishing a Newfoundland centre of the St. John Ambulance Society.

His Excellency the Governor was in the chair, and among those present were Lady Williams and the Chief Justice, Sir William Horwood. His Excellency addressed the meeting and eloquently urged the project on the attention of those present.

The first resolution was moved by Hon. R. Watson, who gave the genesis of the movement and told of the despatch sent some time ago from London which set forth that the British Board of Trade were insisting on the knowledge of First Aid to Injured and the St. John Ambulance Certificate from those who sought Master and Mate Certificates as mariners.

Whereas a widespread knowledge of the principles of First Aid is a matter of great practical importance in this Colony, where the population is so scattered, and the vocations of the people are of a hazardous character.

And whereas it is desirable that instruction in rendering First Aid in cases of accidents, of sudden illness and for the transport of the sick and injured may be accessible to members of the Constabulary force, the Fire Department, the Brigade organizations, candidates for mercantile marine examination, members of Societies, Clubs, Factories and Trade Unions, and to all others who desire it.

Be it therefore resolved that a Newfoundland centre of the St. John Ambulance be formed, so that the necessary instruction may be given and the examination in First Aid conducted here.

Dr. Macpherson supported the motion and gave a telling illustration of the value of such knowledge.

Mr. McNeilly moved and Mr. F. J. Morris seconded a resolution that the following officers be appointed:—

- President—The Chief Justice. Vice-Presidents—Lt.-Col. Rendell, Church. Lt.-Col. Rendell, Church. Lt.-Col. Rendell, Church. Lt.-Col. Rendell, Church. Lt.-Col. Rendell, Church.

Mr. Blackall moved a vote of thanks to His Excellency which was carried by acclamation, and to which the Governor replied.

The Almeriana Here. The Furness liner Almeriana, Capt. Hanks, reached here at 7.30 last evening after a run of 2 1/2 days from Halifax. Leaving Halifax she had dense fog with a heavy S. E. breeze and she made slow time until she sighted Cape Race when the fog lifted after which she made a good run to port. She brought 1,800 tons of cargo, with deals on deck for England. She takes a cargo of fish, oil, etc., and leaves for Liverpool to-morrow.

C. L. B. SPORTS.—The annual indoor sports of the C. L. B. will be held at their new armory to-night. There will be a very interesting programme including various kinds of races and general athletic exercises. The band of the brigade will be present and patrons are assured of an enjoyable evening.

CRICKET SEASON.—The cricket season is expected to open under more favourable auspices than usual this season. This year there will be several good teams coming forward.

Notes From Harbor Grace.

The s.s. Euphrates arrived from Bell Island on Saturday night, and after landing a number of workmen here she left again for Carbonear.

Miss F. Dwyer, daughter of Const. Dwyer, went to Bay Roberts on Saturday to spend a few days with her aunt, Mrs. Johnson.

Mr. J. G. Munn and his daughter, Jean, went to Port de Grave on Saturday to spend Sunday with friends.

Mr. Charles Webber, an old resident of Carleton Cove, this town, died on Saturday morning at the advanced age of 91 years. His funeral took place last evening, internment in the Methodist cemetery.

Sparks from a passing engine set fire to the dry grass in the Methodist cemetery last week, and the fire quickly spread to trees, etc., on the western side of the graveyard.

People living in the neighborhood hurried to the scene and quenched the blaze. It is pleasing to be able to report that work on the new Government building has commenced. Work was started on Friday morning, some 18 men being employed digging out the foundation.

Mr. Willis Pike of Bell Island spent Sunday here with his friends and left again by the steamer for the Island. Mr. Pike's numerous friends here are always glad to "welcome him home."

Miss Minnie Pugh, teacher at New Metbourne, is very ill at that place and on receipt of the news yesterday her father and mother left by carriage to bring her home. We hope this young lady's sickness is not serious.

The Guy Celebration Committee are holding their meetings in the new public building on Bannerman Street.

If after seeing your neighbor and his wife going to church you see what you considered a lot of smoke coming from the chimney, don't run across and frighten his little ones by telling them the house is on fire. Go quietly, and be a neighbor, not a busy-body.

WHOLE FACE DISFIGURED. Skin sores were allowed to run on and at last the whole face was covered. This could have been prevented by using Dr. Hamilton's Ointment. Its wonderful healing virtue and its antiseptic properties destroy the worst Eczema ever known. Get a 50c. box from your druggist.

Seals at Exploits. From Constable Dewling who arrived from Little Bay yesterday we learn that old seals have been numerous at Exploits Bay the past two weeks, and about 1,000 have been killed there. Old residents of the place believe that there is a patch of young seals in Green Bay which have not been touched yet. The bay is filled with ice yet and these seals could not take to the water.

HOW GROUP IS BREADED. If there is any warning use Dr. Chase's Syrup of Linseed and Turpentine and prevent the terrible struggle at the little one for breath. If you know nothing of it all the struggle comes cause the child to vomit and then use Dr. Chase's Syrup of Linseed and Turpentine frequently. In small doses to prevent repeated attacks. This great medicine is wonderfully effective in curing croup and bronchitis.

C. L. B. SPORTS.—The annual indoor sports of the C. L. B. will be held at their new armory to-night. There will be a very interesting programme including various kinds of races and general athletic exercises. The band of the brigade will be present and patrons are assured of an enjoyable evening.

Shannahan Wants a Square Deal All Round.

Some people are asking where Mrs. Tucker, Tucker, Kelly and Delaney are gone. I am glad that people take an interest in them by asking about them. It is a nice thing to ask about people. It is so easy to do it. A fellow comes up to you and asks how are you getting along how are all home, but he asks you in a different style from when he asks you for a match or looks for a job.

They started in last Friday. We have no cause to holler. Since the work is under the charge of a first class Spanish scholar. I am sure it will be quite a change. From the pen he used so slick. To go to work at six o'clock. And wield a common "pick."

Only eighteen men could get a job. On the morning of the start. But "App" thought that was very hard. As the Government he was a part. He was standing by Murphy's corner. After taking his rounds. Says he, the Island men are on. As George likes tongues and sounds. In and enjoy our comforts all the winter when they were on the rocks, but as soon as they saw a few shillings with themselves they became excited and went off in higher company.

Tom's name is down for work next week. But for this he'll get no blame. For while they think his name is Tom. That's but his "maiden" name. 'Twould never do to give his name to the public over there. As you know they'd never say a word. If Mary's Tom was there.

A mighty pity 'tis, says Tom. To put the building there. As we must lose our firebreak. And other good sites near. The beauties of a city. Are big in my Tom's eyes; But to have narrow firebreaks. He says is most unwise.

Uncle Nath was down on Friday. He thinks the day they'll rue; For with that amount of money. They could build factories two. A factory for soap or nalls. Would be better far to give. Than a useless public building. In a place where few can live.

The factories would help to pay. The revenue each year. But to keep these two big buildings. Will take too much I fear. I'll bother you no more, just now. Afraid you might get weary; But I'm not by any means run-down. You'll hear again from MARY.

The case of Mr. James E. Barton, the well-known publishing agent, of Stratford, is most remarkable. Among the symptoms from which he suffered were: Influenza, Bronchitis, Nasal Catarrh, Hoarseness, Weak Throat, Croupy Cough, Frontal Headache, Sore Chest.

For years I suffered from a chronic weakness of nose, throat and lungs. My chest was sore, my throat irritable, and I had a harsh, croupy cough that was always worse in the morning. During bad weather I was completely prostrated with Catarrh, bronchial irritation, and all the manifold discomforts of influenza.

Father Coady Complains of Roads.

Editor Evening Telegram. Dear Mr. Editor.—Please give space to the following lines in your much esteemed paper: The spring is now with us and it may do some good to remind the proper authorities of their duty re road-repairing along this shore. The time is at hand when due attention to this road leading from St. John's ought to be given, unless we are compelled to submit to all sorts of worry and hardships as experienced by us all last autumn and the present spring. It is a self-evident fact that proper care has not been shown to road work along this shore. All last autumn, the winter just past and while I write, the road leading from my house up to Upper Guilfee, etc., was and is barely passable. It has been one long stretch of setting back. To go over it is simply a wading process. It means loss of time, destruction of horses and carriages, etc., unnecessary exposure to cold, dirt cast over one from head to foot, or vice versa. Surely our people are subjected to enough of hardship without the present one being allowed any longer to exist. They go daily over the roads, women as well as men, slowly even when the conditions are better than now, owing to their impoverished mode of conveyance; but all the more slowly, as at last winter when it was painful to see them, hours on the roads covered with mud and slush and frozen even at times to insensibility.

Moreover, this is an all-important tourist resort, a fact which in itself should be sufficient reason to have conditions more satisfactory. The influx of people here during the summer is very great, and driving is one of their favorite pleasures. One reason why the roads here have been and are disgraceful is the repairing or rather the undoing goes on at the wrong time. The autumn season is not the time when the enjoyment is over and the rains and disagreeable elements permeate, wash away and upheave the materials. Another reason lies in the fact that mud and clay and the sediment of drains are employed, making the "last state worse than the first." And last but not least is the fact that due attention and supervision is not exercised, and the money and not the work is the object to be attained. Let us have the proper care given us now as soon as the fitting season for work of this kind comes, and let us no longer be subjected to the misery and expense, etc., entailed during the past year.

Yours truly, (REV.) J. J. COADY. Power's Court, April 12th, 1910.

Lecture by Rev. Canon White.

Rev. Canon White, of the Church of England Cathedral, lectured on "Sparks from an Old Anvil," at the Star of the Sea Hall last night for that Society and their friends. There was a large attendance. The rev. gentleman was introduced by President E. M. Jackman, and spoke for an hour and a half. He told several very humorous anecdotes connected with his missionary experiences while labouring at Fogo and other places. The incidents were genuine sparks from the Anvil of Wit and Humor and were told in such a way that the audience could not possibly fail to see the point every time and to accord applause and laughter. Good humor prevailed amongst the audience till the close of the lecture, not only on account of the humorous anecdotes that were so prodigally interspersed but by reason of the manner in which they were told. The grave, the gay and the pathetic of the outport fisherman's life were in turn despatched upon.

At the conclusion a vote of thanks was proposed by Mr. W. J. Higgins, and seconded by Mr. S. G. Congdon. Short speeches were also delivered eulogistic of the lecture and its social results by President Jackman and Rev. Fr. O'Callaghan.

Strong Paint

Devoe will paint your house for half or two-thirds or three-quarters your usual cost, and wear as much longer as it costs less.

It is the strongest paint there is and takes less gallons; its strength is the reason it takes less gallons.

Less gallons to buy; less money for that. Less gallons to paint; less money for that. As the painting costs more than the paint, so the saving on painters' wages is more than the saving on paint itself.

Of course, strong paint wears longer than weak; that is why Devoe wears longest.

If anyone doubts any statement above, here's the proof:

He may paint half his job Devoe, the other half any paint he likes. If Devoe doesn't take less gallons and cost less money (1) for the gallons and (2) for putting it on, no pay. If it does, Devoe is the paint that makes least first cost.

If it doesn't wear longer, we'll give him enough to repaint the whole job. The time may be one year or ten or between.

Devoe is the paint that costs least, lasts longest, and takes best care of the house all the time.

The Easter Festivities—The Opening of Navigation—A Great Automobile Show—St. Agnes Church Burned—A New Public School to be Opened in September—Farewell to the Irish Dominicans—A Newfoundland Artist—Programme of the Eucharistic Congress.

(From Our Own Correspondent.)

The Automobile Show. The automobile show which opened at the Coliseum Rink last week was successful from every point of view. The machines were many and varied, and the attendance very large.

St. Agnes Church Burned. On Easter Sunday, after High Mass, St. Agnes Church, St. Denis Street, was discovered on fire, caused by the overturning of a lighted candle placed in front of one of the side altars. Three streams of water were used to extinguish the flames which caused damage to the extent of \$8,000.

Early Opening of Navigation. Navigation opened here on Friday, April 2nd, when the Longueuil ferry started running after a rest of three months. The steamer Fremont from Mediterranean ports is expected in a few days.

Farewell to the Dominicans. The farewell given to the Irish

Dominican Fathers, Walsh and O'Neill, at the Monument National on Tuesday evening, March 28th, was a brilliant success. His Worship Mayor Guerin presided. The farewell speeches of the famous preachers were remarkable for their wit and humor and kept the large and select audience in raptures of laughter. The symphony choir under the direction of Prof. P. J. Shea rendered several selections of Irish music in capital style, while

Vapo-Cresolene advertisement with logo and text: 'FOR WHOOPING COUGH, CROUP, ASTHMA, COUGHS, BRONCHITIS, SORE THROAT, CATARRH, DIPHTHERIA...'

several members of the choir rendered pretty solos, and the chancel choir were heard in pleasing selections also. The Fathers carry with them the best wishes of St. Patrick's parishioners for their future success, and will often think of their first trip to the Metropolis of Canada.

A Successful Artist. Mr. Maurice Cullen, a native of Newfoundland, at present engaged as special teacher of drawing at the Sarsfield Catholic Commission School, Point St. Charles, has distinguished himself at the Art Exhibition held here lately. The Montreal Herald speaking of his exhibit says:—

"Mr. Cullen in Quebec Night Effect, gives a faithful portrayal of the ridge topped by Laval Seminary in winter, with barges laid up and covered with snow. In the small gallery his 'Iceberg' of Newfoundland is an interesting experiment and presents a problem in color schemes which he would do well to follow further. The fish-drying sheds, clinging to the face of a Newfoundland shore, is full of atmosphere and color, pitched in a high key. There is a spaciousness about the ensemble and treatment which marks it as a spontaneous effort, painted in the open air."

Mr. Cullen studied in Paris for some time, and speaks French fluently. He bids fair to become an artist of renown.

FLOCKING TO CANADA. Emigrants are flocking to Canada. In four days the C. P. R. has sent through to the west 4,365 new settlers, 575 from the Galician, 463 from the Polish, 451 from the Carthaginian, 1,151 from the Victorian, 325

from the Sardinian, and 470 from the Dominion.

The official immigration records show that thus far the arrivals of immigrants into Canada in the first months of the year have been considerably in excess of 1909.

R. J. LOUIS CUDDHY.

Montreal, April 4th, 1910.

Burglars Sentenced.

Yesterday forenoon seven young men whose ages range from 18 to 26 years were arraigned at Bay Bulls before Magistrate O'Brien and Giovanni for burglarizing Weeks' store within the last 6 months and stealing therefrom about \$140 cash and a large amount of goods. They secured a key which fitted the lock and thus entered the premises, though on a couple occasions the door was broken open. There was found on the men \$108 cash and about \$40 worth of goods was secured. Inspector General Sullivan prosecuted, all pleaded guilty, and the ringleader of the crowd was fined \$100 and costs or 3 months; two were fined \$10 or 30 days, and four were each fined \$5 or 14 days.

RETURNED TO WORK IN A WEEK

Mr. P. M. Shannon cured of Catarrh by one Single Treatment of "Father Morris's No. 26."

Dalhousie, N.B., Nov. 23, 1908. FATHER MORRIS'S MEDICINE CO., LTD. For three years I had suffered from Catarrh in the head until March, 1907, when I had to leave my work, then in shingle mills, after trying 4 different so-called catarrh cures, and two doctors who claimed there was no cure. One single treatment of Father Morris's prescription cured me and I returned to work in a week after starting to take the treatment, and have never had so much as a cold in the head since.

E. M. SHANNON.

We have plenty of letters like this proving positively that "Father Morris's No. 26" Combined Treatment has cured hundreds of cases of Catarrh, generally after other treatments had failed. Why shouldn't it cure you? In justice to yourself give it a trial. Combined Treatment (Tablets and Salve), N.B. At your dealer's, or from Father Morris's Medicine Co., Ltd., Chatham, S.C.

Will Start Business.

Mr. Alonzo Fowlow, who has spent several years in the employ of Marchall Bros., is about to start business at Pease Cove, Trinity, for that firm. Mr. Fowlow is a native of Trinity and comes of the great seal killing and cod killing family of Fowlows of the North Side. He is a very affable and popular young man and will no doubt do a good business. He has a host of friends and well wishers in the city who all wish him the fullest measure of success. The Telegram joins in the expression of similar sentiments and believes that such energy and industry as Mr. Fowlow possesses cannot fall of success in this new venture.

Gower Street Epworth League.

The annual meeting of Gower St. Epworth League was held last night at the basement of the church. Rev. F. D. Dunn was the leader and opened the convention by the singing of an appropriate hymn. The Secretary's report on the work of last year was read and adopted, after which the following officers were elected: President, Mr. W. H. Peters; 1st Vice-Pres., Mr. A. Dawe; 2nd Vice-Pres., Mr. W. G. Currie; 3rd Vice-Pres., Miss Helen Adrian; 4th Vice-Pres., Miss Alice Foster; Secretary, Mr. Joseph Oyce; Treasurer, Mrs. K. N. Vay; Assistant Secretary, Miss A. Horwood; or Sec., Miss M. D. Foote; Reporter, District Meeting, Mr. Geo. Peters. The singing of the Doxology brought the meeting to a close.

Officer's Long Journey

Constable Dewling, of Little Bay, arrived here by the freight train Sunday with Martin Carroll, of Fortune Harbor, for the Insane Asylum. The man had had very violent periods. Officer Dewling had a big tramp to get the patient. He left Little Bay on Sunday week, the 3rd inst., and, taking a guide and dog team of seven animals he reached Millertown Junction after midnight, having covered 10 miles. He went over several ponds including Gull Pond, a lake over 3 miles long, and also traversed a marsh 5 miles in length. He took the train at Millertown Junction, went to Bishop's Falls, walking on the tracks and covering 12 miles, thence travelled to Botwoodville, and then travelled 14 miles to Point Leamington, arriving at noon Tuesday. He tried to get a dog team there but failed, and procuring another guide travelled 18 miles more to Fortune Harbor, across the S. W. Arm of Exploits Bay. He travelled about 115 miles all told, and had a difficult time getting back to Bishop's Falls with the patient. The journey occupied 8 days, and the officer was pretty well worn out with his lengthy travelling.

Transferred to the West

The transfer committee of the Methodist Church, at Toronto, last week transferred the Rev. F. E. Boothroyd and several probationers from Newfoundland to the West. Newfoundland to Alberta—Revs. F. E. Boothroyd, W. H. Pike and C. E. Powell. Newfoundland to Saskatchewan—James Bright. Newfoundland to Montreal—J. W. Guy and F. J. Hayden. Newfoundland to Toronto—E. Codling.

Worst Case Of Eczema

Cure only came when doctors gave up and DR. CHASE'S OINTMENT was used.

Mrs. Wm. Miller, St. Catharines, Ont., writes:—"My daughter Mary, when six months old, contracted eczema and for three years the disease baffled all treatment. Her case was one of the worst that had ever come under my notice, and she apparently suffered what no pen could ever describe. I had three different doctors attend her all to no purpose. Finally I decided to try Dr. Chase's Ointment and to my surprise she immediately began to improve and was completely cured of that long standing disease. That was four years ago when we lived at Cornwall, Ont., and as not a symptom has shown itself since, the cure must be permanent." The record of cures which Dr. Chase's Ointment has to its credit have placed it alone as the standard cure for eczema and all forms of itching skin disease. Do not be satisfied with imitations or substitutes, 60 cents a box of all dealers or Edmondson, Bates & Co., Toronto.

TRUST CASES TO BE ARGUED AGAIN.

Special to Evening Telegram.

WASHINGTON, D. C., April 11. Unwilling at this time to render decisions in the dissolution suits against the Standard Oil and the so-called Tobacco Trust, the Supreme Court of the United States to-day ordered a re-argument of these cases. This postpones the final disposition of the application of the Sherman-Anti-Trust law to these corporations for weeks and probably until after next October. The present term will end about June the 1st. The immediate cause of the re-assignment of the cases is regarded as having been the recent death of Justice Brewer, his death left only seven justices actively at work on the bench, because Justice Moody has been absent all this time by reason of sickness. It is believed the Court will not advance the cases or re-argument until President Taft has been given time to fill the vacancy caused by the death of Justice Brewer. If this vacancy is not filled before the Senate adjourns for the summer it is probable the cases will not be taken up again until after the 1st of next December, when the Senate will meet again.

CONGO REFORMS.

Special to Evening Telegram.

BRUSSELS, April 11. King Albert has approved the plans of the Ministry of the Colonies for reforms in the Belgian Congo to become effective June 1st, when a large area will be opened to free commerce. The reforms include a reduction in the taxes which will be collected in money and not in labor. The substitution of native for white officials, the restriction of obligatory labor on the part of adults on the works dedicated to the improvement of their own conditions and the suppression of Polygamy.

VOLCANIC DUST.

Special Evening Telegram.

NEW YORK, N. Y., April 11. Clouds of fine volcanic dust are floating near the West Indian waters, which Capt. Dickinson and crew of the steamer Avon, in to-day from the West Indies, believe came from the eruption of Mount Etna, and were blown across the Atlantic. Chief Officer Adams said that for 9 days the sun appeared very small, and of blood red color, while what appeared to be a fine volcanic dust filled the air. There was every sign of the seismic and volcanic disturbance he said, and on one day the air was so charged with the electricity that we could not send a wireless message. While sailing off St. Helena in 1883, we got the dust of a volcanic explosion on Java, 6,000 miles away.

HOW CAN WE COUNTER-ACT THE INCREASED COST OF LIVING?
 A second's reasoning will supply the answer. Beef and pork are dear and getting dearer all the time, and the cost is out of proportion with their food-value.
EAT MORE BREAD.
 There is more nourishment in a shilling's worth of bread than a shilling's worth of beef or pork. But the problem is not done with yet. The shilling's worth of bread is not always the same value. Breadmade from
ROYAL HOUSEHOLD FLOUR
 contains more nourishment than any other, because it contains the greatest amount of gluten, the health-giving nutriment of wheat.
