Montreal Stock Market.

RATHER MORE BUSINESS TO-DAY
—MANIPULATION IN ROYAL
ELECTRIC.

Montreal, July 17.

Some measure of activity prevailed in Stock Exchange to-day due possibly in some degree to stirring events which must affect financially many properties here and elsewhere. Twin City's dividend of 1 p.c. with 2 p.c. more promised, declining quotations from abroad about C. P. B. and declining quotations from New York about E. Rapid Transit and the Royal Electric annual meeting of Wednesday set the trading spirit in motion and 2,181 shares of twelve different kinds of stock were as follows:—

Canadian Pacific stock to the amount of 240 shares were transferred to-day in three lots, the two smaller of which sold at Friday's prices, the largest lot, 225 shares at 96½, ¼ lower than the lowest then. This slight decrease agrees with the lowered London quotation. At the close 96½ was wanted and 96½ was offered.

Twin City—Of this security 25 shares were sold at 67, the closing price last week. This stock might have been expected to advance to-day as the directors of this corporation have declared a 1 p.c. half yearly dividend payable August 15, and say they expect to give another 2 p.c. in January. 68½ was wanted buyers offering 67½.

Royal Electric was sold in eight lots to-day at prices the lowest of which was 2 points above last quotation and the highest 3½ points above it. The return to the Exchange of a prominent Broker will largely account for this advance.

Annual meeting on Wednesday with the rumored reports about this property have made Royal Electric transactions interesting to the market. The figures in the annual

report give gross earnings \$322,284.29 from which has to be deducted about \$190,348 for fixed charges, and depreciation, etc., leaving \$131,936 available for dividend purposes. Out of this \$120,000 have been paid in dividends so that the balance standing at credit of profit and loss account has been increased by the difference \$11,036. Selling wanted 184½ and buyers offered 184.

War Eagle—This stock led to-day there being 1,000 shares traded in at 366, the same as Friday's closing. Demand 368, offer 365.

Richelieu & Ont—At ¼ lower, 25 shares were sold 109 being realized. Buyers offering 109½ sellers wanting 110½.

Dom. Cotton—25 shares at 109. 1 point lower. Wanted 110, offered 109.

Montreal Telegraph—7 shares at 172. No change in price. 172 wanted at close, 165 offered.

Bank of Montreal—2 shares at 256½, 2½ over last week's final price. 256 was offered but no shares were for sale.

Molsons Bank—22 shares sold at 200, ¼ lower than last quotation. 204½ was wanted and 200 was offered.

MORNING SALES.

Can. Pacific—5, 97½. 10, 97½. 225, 96½.

Bank of Montreal—2, 256½.

Molsons Bank—22, 200.

PERSONAL.

Mr. W. L. Hogg has wired that the superintendent of the Mother Lode, St. Johns, has resigned, to take charge of the Boundary Creek Mining Co.'s properties, on the 1st September.

The news from the mines is of a very optimistic nature, and there is no doubt that the properties are valuable beyond question.

STRAWS.

A better system of wireless telegraphy than Marconi's, is reported upon from Austria.

Ninety per cent. of output of Havana cigars is now controlled by Havana Commercial Co., which has absorbed the Henry Claycock Co.

The directors of Twin City Rapid Transit Co. have declared a dividend of 1 p.c. on the common stock, payable Aug. 15. Books close Aug. 11.

Air Brake is selling at 219 though it has paid no dividend. Plant extension in America and in Europe is being allowed for the time to absorb the 20 p.c. earnings on stock.

Canadian Pacific earnings for the week, increase, \$81,000.

LONDON CABLE.

DEWAR'S SPECIAL LIQUEUR

IS UNDOUBTEDLY THE GENTLEMAN'S WHISKY

MONTREAL MINING EXCHANGE.

The midsummer apathy was the only noticeable feature of the Exchange. The dealings were too unimportant to be looked upon as bullish or bearish. The miserably small trades were made at much the same figures as have of late prevailed. The only business reaching into the thousands was in Golden Star, which sold at 41. Novelty sold at 3 and California at 12. These stocks were doubtless picked up owing to the cheap prices at which they were sold. We think California for a steady hold for a few months offers exceptional chances for a good profit. Golden Star is cheap and had the mine the confidence of the public as to management and information being reliable, the stock would easily be in the fifties.

In spite of good news, Slocan-Sovereign and Decca are offered at pretty cheap rates. We still believe the tendency is to lower prices, but that the mining shares are not far from the winning point.

MORNING SALES.

Golden Star—1000, 1000, 41.
Slocan-Sovereign—200, 200, 26.
California—2000, 12.
Novelty—1000, 3.
Montreal-London—150, 45.
Big Three—375, 15.

NEW YORK EXCHANGE.

MARKET A LITTLE STRONGER—A.
B. DOWN.

New York, July 17.

The London market is stagnant, prices being about at our parity, and there seems to be a disposition on part of foreigners to await the action of our market before doing much. Of course the principal topic of the newspapers this morning is the B. R. T. strike.

The Herald, which is credited with fostering the strike, gives rather a portentous account of it, and says that the system has been seriously interfered with. The Sun, which has been opposed to any strike, announces that it is a failure, whilst the Times, which may be said to be impartial, says that the strike is said to be a failure unless conditions change materially.

The news agencies have a despatch dated 9 a.m., stating that the B.R.T. cars arriving and departing at the New York terminus of the Bridge and the elevated railway are running regularly.

On the whole, it looks as if the stock jobbers, who are no doubt largely responsible for the strike, have not met with entire success, except on the Nassau system. There is no pronounced dissatisfaction, but the sympathy of the public is not with the men at present.

There was a difference of opinion on Saturday's Bank Statement, but on the whole it was somewhat better than expected.

New York, Noon, July 17.

Uncertainty over the strike situation naturally led to some pressure to sell B.R.T. at the opening, but during the first hour there were evidences of considerable support between 111½ and 112. No doubt a good deal of the buying was for inside interests, who expressed themselves in the most confident terms as to the improbability of the strike being of long duration or extending to the system generally.

As far as has been ascertained the only system really affected has been the Nassau. It was a matter of satisfaction to most of the Stock Exchange that the methods which have been used by certain speculators to enable them to cover their shorts in this stock, had so far met with failure.

After the first hour the whole market became rather sloppy. Commission house business was light and the professionals decidedly bearish.

It is generally believed that gold shipments during the coming week are inevitable. There is very little doubt but that the Bank of England rate will be raised to 4 p.c. on Thursday next, and this will result in gold going out on Saturday next. Considering that the surplus reserve is now something over \$10,000,000 there is reason to view the possibility of gold shipments with some concern, and the best posted people on the Floor are more than ever convinced that unless some unlocked for relief makes its appearance between now and September, we shall in that month, have something of a squeeze in call money.

On the whole, the selling has been rather good. Foreign houses are doing little or nothing.

SEINE RIVER MINING.

Mr. Frank Carrel, proprietor of the Quebec "Daily Telegraph," who has recently been visiting the West and the Lake of the Woods Mining District in particular passed through Montreal yesterday on his way home.

Being interviewed by the "Exchange News" representative he said he had visited all the principal mines of the Algoma District, including the famous Sultana, Mikado, Golden Star and others, and was very much impressed with the activity to be seen, especially in the vicinity of Mine Centre. This typical mining town is on the Seine River about 200 miles from Rat Portage.

"The trip through the Lake of the Woods, Rainy River, Rainy Lake and up the Seine is one of the prettiest tours I have yet taken in Canada," said Mr. Carrel, "and is fast attracting Eastern tourists. The boats of the Rainy River Navigation Company are perfect models of excellent management and comfort. In fact, one can hardly realize he is travelling through a country, as yet, but slightly known to the world at large."

Within a radius of about six miles of Mine Centre are situated the Golden Star, Olive, Ferguson, Foley, Golden Crescent, Manhattan, Lucky Coon, Headlight, Fighting Chance, Decca, Golden Eagle, and Alice A. On all these properties Mr. Carrel stated he saw active work going on and much fine ore being produced. The Foley and the Ferguson, which have been closed down for some time, were starting up again and in a short time would again become large producers. In conversation with Major Whiteby, assayer of Mine Centre, this gentleman made the statement that out of 170 assays, recently made by him, there was not a bad result.

"Have you heard of any new deals being made?" was asked Mr. Carrel.

"Yes, the day I was in Mine Centre, which by the way has an excellent hotel, three locations, consisting of 269 acres, 24 miles up the Seine River were sold to Mr. Simpson, mining engineer, of Buffalo, for a Boston syndicate, to be known as the Consolidated Mineral Company, of that city. The deeds of sale were passed at Fort Frances on Friday last. The recent trip of the Ontario Legislators and the Western press will have much to do with the development of this country, which, as I have said before, is a paradise trip for pleasure seekers. Why just think of touring through 14,000 islands, interspersed here and there with magnificent lakes and rivers winding around in a most intricate and picturesque

manner, seeing nothing but the lonely Indian hut or canoe, with its lazy occupants, inhabiting an island or gliding along the shores of some stream, trapping, fishing or hunting, as their desires prompt them. Jumping the rapids, however, is one of the chief features in the trip, and quite exciting at that."

"You may state," said Mr. Carrel, "that mining in the Lake of the Woods country is more of a business than a wild speculation. It is, however, the richman's country as it certainly requires \$10,000 to \$15,000 to develop a property. This amount of money spent judiciously will certainly bring about many such mines as the Star, Sultana, Olive, Mikado. One of the fine properties which I think Montrealeers are interested in and which I have omitted to mention is the Bullion. This is a magnificent proposition and the shareholders may certainly look forward to a very handsome return for their investment. I am very sorry I cannot say all I know about this property, as well as that of the Golden Star, excepting that the shares in both properties may be considered a very safe speculation at the present market values."

NEWS OF THE MINES.

(Special to Exchange News.)

Rossland, B.C., July 16.—The Le Roi compressor broke down on Wednesday and repairs will not be completed until Tuesday. Meantime, the mine has been practically closed down.

S. H. C. Minor and J. P. Graves, before leaving for the Boundary Country yesterday, arranged all the details of the resumption of the work on the California. The property is on Red Mountain and adjoins the Josie. It has been idle for the past three years. A ten-drill compressor has been arranged for, and work will be commenced this week.

The ore shipments appended is a detailed statement of the ore shipments approximately for the week ending July 15th, and year to date:

	Tons for week	Tons for year.
Le Roi.....	1,059	43,958
War Eagle.....	450	22,152
Iron Mask.....	60	1,335
Evening Star.....	60	158
Deer Park.....	18
Centre Star.....	210	2,555
Total.....	1,839	70,176

Vancouver, B.C., July 16.—The Athabasca Mining Company has just purchased a 10 drill Rand compressor and the Duncan Mines one of 8 drill capacity.

The Iron Mask, which is one of the few remaining large mines in Rossland that is owned by Spokane people, is preparing to make regular shipments of ore. James F. Herick, the managing director of the company, spent part of last week inspecting the property and the improvements that are under way, and he expresses himself as pleased with the outlook. The new ore bins, capable of holding 300 tons of ore, are just about completed. The electric machinery has been re-adjusted and the mine is now in a position to ship 20 tons of ore a day to the Trail smelter. Once these shipments start they will be kept up continu-

ously. There is said to be plenty of ore in sight.

A. Lorne Beecher, General Manager of the Deer Park, at Rossland, has received a telegram from the officers of the company in Toronto directing him to cease work. He has accordingly discharged all the staff save three men, who will be kept at work until he receives fuller instructions. Operations on the Deer Park were recommenced on the last occasion on May 9th, and since then about \$25,000 has been expended. Dr. Beecher is in the dark as to what the future intentions of the company are.

A party consisting of Mr. and Mrs. S. H. C. Miner, Miss Miner, Granby, Que.; Mr. A. L. White, Montreal, and Mr. and Mrs. J. H. Graves, Spokane, arrived in Rossland the other day. Mr. Miner is President of the Granby Rubber Co. and a director the Ames-Holden Co., of Montreal, besides being interested in other mercantile concerns. As a result of his visit, work will be commenced at once on the California. A 10-drill compressor, hoist and sinking pumps will be installed as quickly as the machinery can be purchased and put into place, and in addition the necessary mine buildings will be built. Continuous development work on a large scale has been decided on, and Mr. Wm. Y. Williams, the superintendent of, the Big Three properties will have charge of the California. In the Boundary Country, whither the party proceeded from Rossland, Mr. Miner has extensive interests. He is the President of Granby Consolidated Mining and Smelting Company, now erecting extensive smelting works at Grand Forks. This company owns four claims, the Victoria, Phoenix, Aetna, and Fourth of July, adjoining the Old Ironsides and Knob Hill mines, in which Mr. Miner is also interested, together with the City of Paris and Majestic Gold Mining Companies. The smelting company mentioned is erecting a smelter especially for the purpose of treating the ore from all these properties.

Mail advices brought by the Aorangi go to show that during May last, 25,962 ounces gold valued at £100,161, were entered for export from New Zealand. This was an increase over that of last May 1898, of 10,518 ounces valued at £43,194. This increase is due principally to dredging results. In Otago there are now over 80 dredges working nearly all being on the Clutha river and its tributaries. There are in New Zealand 19 registered gold dredging companies which have won gold to the value of £247,344. The total capitalization of the gold dredging Companies registered at Otago amounted to £509,000.

Victoria, B.C., July 15.—Steamer City of Seattle arrived this afternoon brought 193 passengers mostly from Dawson, which City the main party had left on July 4, coming up the Yukon in the Columbian and from Bennet to Skagway by rail. They bring news of a war in passenger rates in the lower Yukon, the fare from Dawson to St. Michael's having gone down to \$20 and to Victoria and the Sound \$35.

Frank R. Mills, of Dawson, arrived in the Seattle on his way to Ottawa to interest the Canadian Government in a scheme to have Klondike properly represented at the Paris exposition, towards which the citizens of Dawson are prepared and subscribe liberally.
