An Old Law.

Dr. Alfons Fischer Karlsruhe points out that a law compelling a medical inspection was prepared for Bavaria in 1800, under the orders of the Grand Duke Max Joseph by Prof. F. A. Maibbut. The law was never carried into practice owing to the wars beginning early in the century. The law reads: "It is strictly enjoined upon parents of any couple that are to be wedded that they shall be examined as to their health, with the assistance, and in the present of a police dector pure shall the present of a police doctor, nor shall the police permit the publication of the banns until a medical certificate is shown by both parties. For the fatherland is better served by a healthy than shown by both parties. For the latherland is better served by a healthy than
by a merely numerous population."
The law provided that a marriage was to be forbiden if the
woman was malformed or subject to
fits, gout consumption or melancholy
mania; the man is to be examined
for stone, gout, consumption, any
mental affection, epilepsy, and if he
suffered in youth from any kind of
the disease specially in question he
could not be married until he could
produce a signed statement from
some reliable doctor that he had been
properly treated and absolutely cured.

Dr. Fischer points out that the particular disease now in question is
proportionately much commoner in
"well-to-do, aristocratic and even
reyal families than in any other
class," and that young men of these
classes are frequently unaware they
condemn their wives in many cases
to a perpetual sickness.

The well-known gynaecologist, Professor Hofmeier, points out that a wife's sickness, under such circumstances, makes it clear to any doctor that her just hopes of having a that her just hopes of having a family are forever unfulfillable.

The health of the wife of former King Manuel of Portugal is improving

Great Opportunity Offered to Our Readers.

Those who have already secured their Panama books from The World should show them to their friends. Never before in the history of newspaper and book publishing has such an offer been made. The book is a work of art. It is called "Panama and the Canal in Picture and Prose," and is written by Willis J. Abbot, who is the author of many books of history and travel. This book is beautifully bound in tropical red vellum cloth, is twice as large as the usual size novel, and contains more than six hundred rare illustrations, many of which are reproduced from water color studies to full page size. Your friends would indeed be proud to possess such a volume, and when it is made known to them that they can get it from The World for six certificates and the small expense of distribution they will quickly take advantage of the opportunity. At the present time it behooves all progressive people to learn all they can of this mighty achievement, for the great canal will soon become a working factor among all the nations of the earth. Not only is the great engineering feat described in this book, but the country and people are shown in every phase and from every angle, both in pleture and prose.

Taken as a whole, the story is complete, and nebody could get a better understanding of the subject, even though months were spent in the zone, than could be gained by reading this interesting narrative.

UNIQUE OFFERING IN HIGH CLASS TAILORING

SAMPLE SUIT LENGTHS

FROM HOBBERLIN AGENCIES

This is an offering positively unique in the tailoring trade of Canada. It's the biggest thing this season, and the first time in the history of our business we have had the privilege of such an offering.

Here Are the Facts

Each season we send to our best agents Full Suit Lengths used for display purposes. These "suit lengths" are used all season, then sold to the dealers at reduced prices. This season the demand for Hobberlin tailoring in other cities and towns has been so great that we find many lines completely sold out. These lines are represented by the Dealers' Sample Suit Lengths, and as they comprise exclusive weaves from foreign mills, cannot be replaced or duplicated at this time. We have therefore "CALLED IN" all these sample lengths from our best agents, and will include them in our regular

TO COMBINE LIBRARIES.

Meeting of Public Library Institute to Will be Held.

The first meeting of the Public Library Institute of Toronto, will be held on Friday afternoon and evening, Oct. 24, in the Public Reference Library, College and St. George streets. A survey of the library situation in Toronto and an attempt to see the

library problem in its many phases will be the object of the meeting. One

of the foremost librarians on the con-tinent will be the speaker of the even-

ing. There are many classes of librar-les in the city, and it is believed that if

they would all co-operate, much more work could be accomplished.

Mr. W. R. Warren who spoke for
the board of ministerial relief, pointed out that it was absolutely necessary to maintain this department in
order to have efficiency in the ministry. An exceptional year of prosperity was reported, the receipts

Applications for \$64,000 for extension work were in for the past four months, and, with this in view, the speaker urged that the fund should be increased to the amount of at least another million.

A further increase in funds was urged by Mr. John Booth, assistant secretary, on the plea that changing conditions require a change in the buildings erect-

Coming nearer home, the speaker said: "Canada, our royal, splendid host, than which we never had a better, has a population with 120 different languages and 400,000 coming annually to its shores. These, together with our own 1,000,000, have to be served. Sheds and storehouses will not do for these. Business men believe in church extension. welcomed a score of Toronto people who bore notes of introduction from English friends, for, be it known, Mr. Maude is fairly close to royalty, and his London social position unassaliable. Miss Margery Maude poured tea for the guests, while her father kept up a running fire of welcoming speeches, quick replies, pertinent questions and witty remarks on his earlier experiences as a would-be Canadian agriculturist.

Both Mr. Maude and his daughter were delighted with their trip across the Atlantic, "For the first time in my life," Mr. Maude told The World, "I am genuinely sorry to leave an ocean liner. We have had so pleasant a time that the seven days have gone by rather too rapidly for me than otherwise," sentiments that Miss Maude heartily echoed. "Everything has been simply splendid," was her enthusiastic comment on the voyage.

Mr. Maude paid a high tribute to the qualities of the talented ladies and gentlemen who are in his company. "Not only are they all splendid players," he said, "but they are most charming and likable people. I have never been on a tour before where everyone has been so eager to please and so unselfishly ready to make small sacrifices for the general good."

Accompanying Mr. Maude as his personal manager and representative is Col. Percy Holland. The colonel and Mr. Maude are old friends, their friendship dating back to the days when they were at school together at Charter-house. It was only recently that Colonel Holland's services to the empire were recognized by His Majesty King George with the order of Commander of the Bath, and Mr. Maude is naturally very proud of his friend's success. The coignel himself is inclined to be very modest and reticent about his honors. But he was with Sir Garnet Wolseley at Tel-el-Kebir. with Lord Roberts in India, commanded a column of British soldiers during the Boxer rebellion and the relief march to Pekin, and has just resigned as the commanding officer of the 47th Sikhs.

TARIFF BILL

Mr. Maude is probably the best known comedy character actor in England, and there are thousands of old country people on this side of the water to whom he will need no introduction. His experience on the English stage has been long and varied, and his name, coupled with that of his charming wife, who plays as Miss Winifred Emery, has been associated with an almost unbroken run of comedy successes during the past the power to create monopoly; and that is a financial rather than a merely circumstantial and economic power.

Others in the party include Olivia Glyn, Mary Merral, Marguerite Swallow, Lena Halliday, Emma Chambers, Maude Millard, and Ruby Hallier. While this is Miss Maude's first appearance in Canadian and American theatres the other ladies have most of them had previous experience here, and some of them will be readily recalled by Canadian that regoers as participants in more than one successful English presentation in Montreal.

First Canadian Trip.

The gentlemen of the party include Mr. Lenox Pawle, who was last seen in Montreal in Louis Parker's "Pomander Walk." Montagu Love, a talented gentleman who is not only an actor but also an artist of considerable reputation, and who has toured all over the world, altho this is his first trip; o Canada; Edward Combermere, John Harwood and Arthur Curtis.

Mr. Maude will play at the Princess. "Also I feel tonight like a man who is lodging happily in the inn which lies half way along the journey, and that in the morning, with a fresh impulse we shall go the rest of the journey and sleep at the journey's end like men with a quiet conscience, knowing that we have served our fellow men and have thereby tried to serve God."

HAMILTON. Oct. 3.—(Special.)—When Magistrate Jeifs was interviewed by the press this morning, he said that if the court lists increased in the future as they had in the past, he would be forced to ask the lieutenant-governor-in-council for a deputy magistrate as an assistant. "There is not a city in Canada the size, or near the size of Hamilton," he said, "where a magistrate is required to call upon an alderman to take his place on the bench when he is absent. In Ottawa the magistrate receives more than I do, and he has a deputy. There is not any more work there than here, and when I am absent I have to leave my work to some puny alderman."

His worship then looked up the law concerning duties and salaries of magistrates, and found that he could not demand an increase because of the fact that Hamilton had a population of 100, 808. He explained however, that the law provides that a municipality is forced to pay a magistrate \$2000 per year if the population is over 18,000.

"Our population is more than five times that, and I only receive \$2800," he And still they come: The police announced today that they were looking for a man who, they alleged, fraudulently secured \$590 from a local branch of the Union Bunk by a clever scheme last Monday.

Union Bank by a clever scheme last Monday.

The scheme by which the alleged swindle was worked is said to be an entirely new one that evidenced originality as well as nerve on the part of the perpetrator. According to the story told by the police, the man presented the \$890 cheque at the local bank for payment. The paper was signed W. J. Aitkens and drawn on the Bank of Comnerce, Dunnwille. The local manager communicated with G. E. Parkes, manager of the Dunnville branch, and he was informed that the account was O. K. The man was paid the amount called for. He then asked if he might use the bank telephone, and calling long distance made an appointment to meet "Mr. Aitkens" in Dunnville the rext day. Such a meeting never tock place, and when Mr. Parkes received the cheque it was discovered to be a forgery.

Inflame with joy, or break his rest."

In Addison's day fortunes were spent for fare pottery, as they still are, but he thought it a great folly and satirized it, saying: "Ladies of four score as much enjoy washing and polishing their Indian mandarins of frail porcelain, as do their grand-daughters in dressing their bables."

Modern china closets with their gleaming mirrored backs and beveled glass fronts are a constant temptation to their, owners to invest in ornaments to fill them. No mere woman will ever with collections in the state of the s

ments to fill them. No mere woman will ever resist collecting so long as they invite so winningly.

"Let one member of the family represent Thaw and the others assume the character of Nemesis—even if it hurts. Let each corner of the room represent a different section of the country—thus, one corner is Canada, one corner is New York, etc. Let the Thaw member take his place in the New York lawyers. The Canadian lawyers now try to get him away from the New York lawyers and take him over to the Canadian corner. When they succeed in getting him over to their corner, the New York lawyers retire and try to keep Thaw away from the New Hampshire lawyers in their corner. The group that holds Thaw cornered at the end of the game, wins.

"In any event, Thaw loses."

The game is a delightful one—for most of the players—and I hope that their to expect better protection of their homes by the police with delight over the swear words, and the murmur, "Begins to look exciting," and ask themselves anxiously why they didn't take her to a vaude-ville house at "fifty cents a throw."

The gentleman is finally captured (using the word most comprehensive-ly) by the pig-tailed daughter of a sheriff out Cripple Creek way. As she, however, is not an "officer of the lawy." friend-hero wins his bet and she promises to "take all her meals with him"—shade of the late William Shakspere, forgive her!

Seriously, tho, in this piffling farce of New York have a right to expect better protection of New York have a right to expect better protection of the provided the properties of New York have a right to expect better protection of the provided the properties of New York have a right to expect better protection of the provided the provided the provided the provided the provided to the provided the provided the provided the provided to the provided the

One thing, however, strikes us forcibly; that is the amazing intensity and vividness of the coloring. This is due to the not distant sea-breezes,

The game is a delightful one—for most of the players—and I hope that you will all enjoy it.

"Believe Me, Xantippe," is a most artistic production of an extremely badly-written farce. When the play goes "on the road," you'd better take the advice of your friend, Raggs, and enquire solicitously at the box-office if Theodore Roberts and John Barrymore are in the cast, before you hand over your hard-earned simple-ons. Theatres and Concerts

Cyril Maude on Monday.

Toronto is to have a genuine first hight Monday evening. It is not in any sense one of these trial performances with which local theatregoers are unhappily all too familiar. The beginning of Mr. Cyril Maude's first American tour that evening at the Princess Theatre is really an event of the highest importance in the world of the drama. Hierature, fine arts and society. Mr. Maude is one of the most distinguished actors of whom the English-speaking stage is fortunate to boast at the present time. So firm has been his hold upon the affections of the playgoers of the British metropolis that hitherto he has been forced to decline all offers, no matter how tempting, for a visit to either Canada, the United States or Australia. Mr. Maude comes to this country under the auspices of the Liebler Company, who have brought here Sir Forbes Robertson. Gertrude Elliott. Mrs. Patrick Campbell, Madame Duse, Madame Simone and Tuesday evenings and Wednesday matinee; "The Second in Command for Wednesday and Thursday nights; and W. W. Jacobs' wonderfully picturesque story of "Beauty and the Barge" for Friday and Saturday nights and Saturday matinee; To Friday and Saturday nights and Saturday matinee the plays will show Mr. Maude in widely dissimilar roles, and in at least two of his own favorite characters. It is to be sincerely board. widely dissimilar roles, and in at least two of his own favorite charleast two of his own favorite characters. It is to be sincerely hoped that Mr. Maude may be persuaded to give a special matinee of "The Headmaster," the command performance which he gave before their Majesties at Balmoral Castle just prior to his railing. Another hoped-for performance would be "The Vicar of Wakefield." the adaptation made by Louis field." the adaptation made by Louis is principals, Trixie Friganza, How-

Miss Billie Burke Again at the Princess.

It, was only last March that Miss Billie Burke charmed Toronto theatregoers with her fine impersonation of Lily Parradell in Pinero's "The 'Mind the Paint' Girl" at the Princess Theatre. She returns to the Princess week after next to present "The Amazons," another of Pinero's numerous plays, but one of an entirely

The performance is as-tounding, Mercedes and his assistant. tounding, Mercedes and his assistant, which will be the attraction at the Grand next week, brings up some of the most interesting social problems before the world today. The play is one of ideas, and depicts certain phases of life which are to be found in many homes. It tells the story of the wreck of a family's happiness, brought about by the divergence of thought and the different paths followed in the pursuit of happiness by a husband and wife. Bichard Ward is a man of working, saxing and home-loving instincts. His wife longs for luxuries, and in his love for hor and his efforts to provide her with them he is kept grinding and toiling under a mountain of dobt which topples over cn him and he is bank-rupt. One of the most appealing points in the play is while the wife's extravagance is dominant, it is brought about in a great measure thru her sincere endeavor to provide her husband with a home befitling the position in life she believes him big enough to occupy. When she realizes that, he is bankrupt she borhim big enough to occupy. When she realizes that he is bankrupt she borrows money in an effort to save him. This move on her part leads to drange the situations the structure of the same structure o matic situations, the unravelling of which has made "The Spendthrift," not only a problem play of real life and a problem play

Thanksgiving Entertainment,
Mr. William Campbell has completed the advance programme of his annual thanksgiving entertainment, to be given in Massey Hall, on Monday evening, Oct. 20. The headliner in this instance will be Mr. Frank Yeigh, who will give his latest picture travel talk, entitled "Memories of the Motherland, England, Ireland and Scotland," illustrated with very fine stere optican views. The musical part of the programme will be furnished by the 48th Highlanders' Band; Mrs. Flora McIvor Craig, soprano; Miss Barbara Foster, contralto, and Mr. Donald C. MacGregor, baritone, who will greatly enhance the entertainment. The band will play appropriate selections and the vocalists will render a number of national songs. While on a recent visit to the British Isles Mr. Yeigh secured many new and beautipictures, which will be presented Thanksgiving Night. This entertainment should prove a very strong attraction for the holiday night, especially as it will be given at popular

If Your Blood is Not Good Your Health

Cannot Be Sanguinol is a blood enricher and nerve restorer.

And Sanguinol can be relied upon to do all that the physicians who compounded the formula and gave it to a suffering people expected it to do. Not a "tonic" that will be but a temporary "bracer," which by some momentary exhibitation lifts one's hopes high only to dash them to the ground again. No! Sanguinol is a permanent health tonic — a powerful nerve restorer and rich, red blood builder.

Do you know that the seat of all nerve trouble is the stomach—that the starting point for all stomach troubles is fermentation — that fermentation means poor digestion — and that indigestion is the forerunner of nerve wreck? You can guard against all of these by taking the Sanguinol treatment. And you can be cured of these by taking the Sanguinol treatment. And you can be cured of these to the substitute of these by taking the Sanguinol treatment. And you can be cured of these throubles in their most acute stages if they have been contracted.

Sanguinol sweetens the spring of life, corrects our health mistakes and lets in a flood-tide of energy, vim and vigor for old and young.

> Mercedes Will be the Headliner at Shea's.

At Shea's Theatre next week Manager Shea has secured for his head-line attraction the Great Mercedes. Theatre. She returns to the Princess week after next to present "The Amazons," another of Pinero's numerous plays, but one of an entirely different kind. "The Amazons" is a whimsical comedy, and is the most popular of all the dramatist's lighter works. In it as Lady "Tommy's Belturbet. a swaggering little tom-boy, Miss Burke gets her first chance to appear in boy's clothes, and the New York critics say she is delightful in them.

MacDowell were a jolly pair of wives, MacDowell were a jolly pair of wives, and Mr. Benson himself was as boisterously funny as ever in the character of the French physician Caius. Finally, the knock-about business of the comedy was negotiated with an athletic zest, and Nicolai's music was delightfully rendered by a small orchestra under the direction of Mr. Guy Ambrose. This week is the fare-well of the Benson company to Lon-don before their visit to America. This visit deprives England temporarily of what has become one of its institu-tions. America, however, will be the richer, for this institution, the Benson Company, has three characteristics which would benefit any stage. One is a scrupulous regard for elecution on all-round efficiency, and the last is a pleasing contempt for the whole question of scenic embellishment which has preserved. ment, which has preserved it both from the vulgarities of pompous spectacle, and from the absurdities of modern aestheticism. Woodrow Wilson crossed the home which goes into effect today. The side of puffing. bill, as first drafted, was to become effective on Oct. 1; so that weeks and threatened to remove its coal business months of filibustering only prolonged from the L and P. S. if the latter HANDSOME COLLECTION for three days the Payne-Aldrich line were electrified. We do not think

and it differs but little from the bill power or any other description of

of that city. Thus savings deposits all coveries and processes and not to rest the great insurance companies, whose than the industrial field. In every

and hamlet in the land. What has been the result?

The result has been that the farmer, the ! planter, the | manufacturer, the merchant and the man with small capital who was trying to get ahead, find themselves unable to obtain from the local banks the money needed for the legitimate development of their modest but useful productive enterprises. The money is massed in New York, the savings of the people being heaped in one great reservoir instead of being distributed to meet the demands of legitimate business. The men in charge of this heaped-up treasure use it to enrich themselves, and to burden the people to whom it really belongs. Many startling and scandalous transactions might be mentioned. Let one suffice. The big New York bankers, headed by J. P. Morgan, formed a syndicate to underwrite the seourities of the United States Steel Corporation merger; Morgan and his associates did not put up a dollar of their own money, but by using the deposits of the country banks, were enabled to divide a melon of \$93,000,000.

Under the currency bill, which will soon become law, there will be twelve reserve banks, really fiscal agents of the government, distributed thruout the country. They will be able to get currency from the government upon prime commercial paper, and their function will be to see that the bank reserves are available for the demands of legitimate business, instead of baing dumped into the maelstrom of Wall street. No wonder Wall street and the money trust are fighting it tooth and nail. They want the banks to issue currency and regulate its volume, and centralize the reserves of the country. The government is determined, on the other hand, to control the currency, to decentralize the big reserves, and to see that the savings of the people are loaned to farmers merchants, manufacturers and business men, instead of constituting a "bank roll" for big gamblers on Wall street.

In Canada our hank reserves are becoming more and more centralized, and complaints are becoming more frequent that legitimate business is not getting the accommodation it needs and deserves. Here we allow the banks to emit our currency, with power to ex-

Under clause 15 I think it is the duty of the trustees to hold the sums dealt with by that section during the lifetime of the children paying them the income. As to the residuary estate to be divided under clause 18. one-third of the residuary share will be payable at once to the daughter, and the remaining two-thirds will be held for the daughter to be settled upon her marriage. The share of the son is stimilarly dealt with. I think it is the duty of the executor before paying to the son the income from the additional \$100,000 to ascertain from time to time whether he is fulfilling the obligation imposed upon him by the will of keeping up Glen Edyth as a gentleman's residence. Empowered to Get Legal Advice in Attempt to Clear Matters.

SEVENTY-FIVE MEMBERS

Organized Last Night in Opposition to Recent Assessment Increase.

About 75 senior members of the Independent Order of Foresters held an organization meeting last night in opposition to the increased rate of assessments. The meeting lasted for less than two hours, but there was not a dull moment, as feelings ran high.

Almost all present regarded the increase as an injustice, while a few kind to the high court, wished to convince the meeting that the increase was unavoidable.

Bro. M. Watson presided. He expressed the view that the assessment question need not be discussed, but that action should be taken to discover if any means existed to secure more favorable terms for the older members, than decided upon by the

members, than decided upon by the supreme court.
Clarence Bell pointed out that the high court had acted in accordance with the findings of the royal commission on life insurance, as embodied in an act relating to the high court, and that this had been ratified by a vote of over, two-thirds majority. The question arose as to what could be done to improve matters. He believed done to improve matters. He believe in a conference by the committee with the supreme ranger to secure the full est possible information.
Some Disorder.

The meeting was not in a humor to confer with either the supreme or high court officers, and considerable disorder arose owing to the militant spirit present. Several speakers would try to ask different questions at the same time. Others would attempt to answer them. Cries of "Order" and

down" were frequent. was decided to leave the plan of action to a committee, which was empowered to get legal advice, or that of a chartered accountant, or both if deemed advisable. The following committee was ap

An Ex-Canadian Champion Will Battle With English Title Holder.

MONTREAL. Oct. 3 .- By playing the semi-finals of the ladies' golf championship at Dixie today the competition has now reached the finals with Miss Florence Harvey of Hamilton to upheld the honors of Canada against Miss Muriel Dodd, the English champion of 1913. The semi-finals, like the third round, furnished a surprise as few conceded Miss Harvey a chance of winning from Miss Wielet Pooley. The defeat came on the last green by one up. The other match was rather an easy victory, Miss Dodd winning from Miss Frances Scott of milton by seven up and five to play. Club Gymkhana.

THE MASTER'S CUP

The annual Torento Hunt Horse Show Steeplechases and Gymkhana opened yesterday afternoon at the grounds on the Kingston road. All the events of the first day's show were well contested, and nad large fields. A good sized crowd of enthusiasts thronged the roped enclosures and displayed a lot of interest in the contests. The feature of the day was the handicap steeplechase for the Master's Cup. open to half-bred qualified hunters, owned by a recognized member of a hunt, but not necessarily ridden by him. This race had three starters, Twilight, Highflyer and Sliver Dawn. The race was over a course of two and a half miles. Silver Dawn took the lead from the start. Highflyer set sail for the leader with the other entry a good third. On the first round Highflyer overtook Silver Dawn and early, in the second round Twilight closed up on both of them and drove home into the stretch leading by a length. High Flyer got second place with Silver Dawn third. The former might have overtaken her rival if she had only cleared the last jump cleanly, but she hit the top rail and landing heavily on her right fore leg, broke down. The result:

2. Highflyer, 180 (G. W. Beardmore, M.F.H.).

3. Silver Dawn, 170 (Frank Prootor). Another race that was a novelty feature and provided both amusement and thrills was the ladies' cigaret race. The object of the race was for each lady mounted on horseback to secure a cigaret and ride to her partner at the other end of the field and for her partner to light it. When he accomplished this he was supposed to catch the lady's hand and run back to the starting line on foot by the horse's side. The couple who crossed the line first were given first prize. The difficult share of the task fell to the man, as a strong wind was blowing and it was hard to keep out of the gay of the horse's hoofs and still keep hold of my lady's hand. Miss Davies and K. R. Marshall won. Miss Galt and Major Bickford were second with Mr. and Mrs. Allan Case third.

hoofs and still keep hold of my lady's hand. Miss Davies and K. R. Marshall won. Miss Galt and Major Bickford were second with Mr. and Mrs. Allan Case third.

The open to all class for jumpers for the Andrew Smith Challenge Cup brought out a field of thirty-four entries, and some grand exhibitions of horsemanship and jumping were given. It took the judges a long time before they finally decided the winner, as the competition was so keen that numerous trials had to be reridden. Amelius Jarvis finally captured the blue ribbon with Misty Morn by a very slight margin from R. K. Hodgson's The Jap. G. Elliott on Flashlight was third, while Alec. Milne with Foxglove was fourth.

The hunter class had nineteen entries and the decision was given on conformation, mouth and manners. Aemelius Jarvis scored another victory on Misty Morn, and the veteran winner. Rugby, ridden by T. P. Phelan, was forced to take fourth place. Shaugram of the Two Elms stable was second, and Hon. Clifford Sifton's Last Post was third.

The handicap steeplechase for hunters, ridden by amateurs, saw three starters, and was won easily by an added entry. Amazement, owned and ridden by W. Rawlinson. The other two horses were out of the race at the first jump,

W. Rawlinson. The other two horses were out of the race at the first jump, as they both balked and let the winner run away with the race. It was rather a fiasco as they did the same thing at the next jump, but Frank Proctor finally got Laomeden to take three jumps in succession and got second place. Geo. Elliott on Saintly was an also ran.

Another hunter class for light, middle and heavyweights had nine entries, and the great riding of young Richardson, a fifteen-year-old boy, enabled him to secure Tom Sawyer the premier prize. He showed his gameness when he came back after being thrown in a former class against a jump, but luckly not injured. Miss Kathleen Temple's Metric was second, and Colonel Sandford Smith's Coquette third. H. E. Walker's Foxglove was fourth.

was fourth.

The races are continued with two sessions today at 11 a.m. and 2.30 p.m. The feature in the afternoon is the D'Alton McCarthy Memorial Plate with old Bibberry, Pearl Fisher, Onaping, Hickory Stick, Silver Dawn and Clover Hill carded to carry silk thru a field of 2½ miles. There are five events in the morning and nine in the afternoon.

PURE FOOD LABELS IN AHAB'S PALACE

scriptions to the archeologists is such that they promise to bring about a revision of scientific opinion as to the form of early Hebrew writings, and will set at rest doubts that have been raised for a score of years as to how early the scribes used the Phoenician letters from which the alphabet was derived.

Prof. David G. Lyon, head of the New Method of Ascertaining

Prof. David G. Lyon, head of the Harvard Semitic Museum, pronounces these inscriptions to be the earliest specimens of Hebrew writings known and "the first Palestine records of this nature to be found."

These inscriptions which were excavated are labels which were employed as seals on wine and oil jars. They mention the years in which the wine was laid down in the celiars of the paiace storehouse and they state the vineyards from which the wines came. On the oil jars the labels run, "A Jar of Pure Oil," with the mention of the district from which the oil came.

These labels, about 75 in numb have been dug up on the ruins of the storehouse attached to the palace of King Ahab some 3000 years ago, and the names of the owners as given in-dicate that not only the king himself, but other men, stored their wines and Men's Soft Hats at \$1.00

Fall Overcoats from Fashion-Craft models. The centre figure depicts a standard coat of graceful lines. Made in various materials and always in good form.

The button through coat shown on right, with belted back as shown on left, is always deservedly popular with the young men who like a little zip to their clothes. Not loud, but just right.

Both priced from \$18.00 up.

MACK'S INFIELD SHOULD WIN SERIES

Critics Think Philadelphia's Inner Works Will Turn the Trick.

NEW YORK, Oct. 3.—A well-known big league club manager said recently that, in nis opinion, more games were won and lost in the inrield than in any other department of baseball. Few will contradict the assertion, and it is quite likely that victory will hang, to a considerable extent, upon the work of the Giants' and Athletics' infield during the coming world's series between the New York and Philadelphia Clubs. The Athletics' \$100,000 infield is one that commands respect and admiration in baseball circles, but it is not worrying the Giants, if their statements are to be believed. McGraw has not tried to put a financial figure on his four infielders, but he is known to be as well satisfied with his combination as a baseball manager can be.

Athletics Are Superior.

Still, the fact remains that all the figures availabl regarding the world's series of 1911 and the season's play this year point to the Athletics' infield quartet, composed of McInnes, Collins, Baker and Barry, as superior to Merkle, Doyle, Herzog, Shafer and Fletcher, considered as a whole. In the combination which helped defeat the Giants two years ago, McInnes had no part, being on the bench with an arm which was just gaining strength after being broken. Harry Davis, the veteran, who took his place, proved a most acceptable substitute, but, with Mc. Innes on the initial bag, as he will be when the present series opens, the Athletics' infield is certain to be stronger than it was in 1911. Shafer has held down third in place of Herzog most of the season, and will probably alternate with Herzog, according to the style of pitching to be faced. Aside from these shifts and substitutions, the line-up will be the same as two years ago, when the Athletics won the world's championship with four games out of six.

This being the case, the figures available should prove the best means of affording a comparison between the quartets which will work for the Athletics and Giants. Merkle and McInnes appears to have a decided advantage over the Giants' intital sack

Mack considered nim the better player of the two.

Collins Shades Doyle.

Moving to second base, Captain Larry Doyle is found to be opposed by Eddle Collins. The Giants' field leader is a high-class player, but Collins is ranked as one of the most famous second-basemen of baseball. At no time during the title struggle in 1911, however, did Collins outplay Doyle. Whether the latter can duplicate this feat is doubtful. His recent accident, in which his shoulder was badly wrenched when his automobile crashed into a tree, will not improve his game. Furthermore, Doyle has not played or batted this season up to the standard set by himself during the world's series, in which he was opposed by Collins. The latter has improved steadily, and his batting this season has been heavier than before. On the bases, Collins is faster than Doyle, and has stolen many more sacks than the Giants' field leader. As a run-getter, the former Columbia University student also has the better of Doyle.

For the position of third-baseman, three players must be considered. For the Athletics, John Franklin Baker, of home run fame, is the sole candidate. He will play against both Herzog and Shafer in all probability, since each is likely to

NOW ON SALE

All \$4.00 Brockton Shoes to Be Sold at \$3.00 the Pair

ALL SIZES ALL LEATHERS **ALL STYLES**

NO RESERVE: EVERY PAIR in THE TWO STORES MAY BE BOUGHT at THE PRICE

THE REASON WHY: It was our intention to open a chain of stores in Western Canada. We had ready for shipment upwards of \$100, 000 worth of shoes. At the last moment we decided this year not to invade Western Canada as two of the leases we had the intention of getting were not very advantageous. This leaves us with a large surplus stock which must be sold this season.

This fresh stock of \$100,000 will be divided up between our two Toronto stores 264 Yonge Street and 119 Yonge Street- and will be sold at \$3.00 the pair, smashing our \$4.00-No-More-No-Less standard price.

We guarantee every pair to be our Brockton \$4.00-No-More-No-Less shoes, and to be stock fresh from the factory. We have all leathers, all sizes, and upwards of 50 different styles. This is an opportunity to secure a pair of Brocktons at a desirable price to test their worth. Remember, this is not a clearing sale. This is a sale of new stock which was meant for a chain of stores in Western Canada.

Some of these assemblies are managed in an entirely independent way by a committee of residents in the town concerned. It is the same program that was given in the last town of the circuit, no doubt; and with slight variation on the appointed given in the last town of the circuit, no doubt; and with slight variation it will be repeated in the next town to follow. Doctors Said Only an Operation Could Save His Life—"Fruit-a-tives" Enabled Him to Pass Nearly 200 Gall-Stones.

J. B. HARDING, Esq.

46 Grove Ave., Toronto, Ont., Jan. 10th, 1913.
"I suffered untold agony from GALL-STONES for the past three years and tried many doctors without getting relief. I also paid \$5.00 for one bottle of medicine which was useless. At times the pain from these gall-stones was so great that I lost consciousness, and my condition was desperate. I was quite satisfied that I was dying and the doctors said I must be

passed gall-stones over an inch in length, and as many as one hundred and fifty or two hundred in number. 'FRUIT-A-TIVES' was the only thing that would relieve my pain. They are the greatest medicine in the world, and if there is anyone in Canada, or anywhere else, that suffers from gall-stones, 'Let them take "Fruit-a-tives" and be cured.

Are you wondering how "Fruit-a-tives"—a medicine made from fruit juices, can cure Gall-stones? We will tell you. The Gall bladder is the reservoir for holding the Gall, or bile, secreted by the liver. If there is insufficient bile, then the bile in the Gall bladder is thick and easily forms stones. When the liver is weak, it secretes very little bile and then the Gall bladder is partially filled with a thick, jelly-like mass of bile and thus forms into lumps or stones. "Fruit-a-tives" stimulates the liver to secrete ore bile, and this increased bile softens the Gall-stones and by overfilling the Gall bladder, forces the passage of the stones through the Gall duct-

and thus cures the disease.

"Fruit-a-tives" is the only medicine in the world made of fruit juices.

By a wonderful process, the medicinal properties of certain fruits are greatly intensified—then valuable tonics and antiseptics are added and the whole made into the pleasant tasting tablets known in every section of made into the pleasant tasting tablets known in every section of

We did not imagine that anyone could take exception to The Expositor's article which gave a number of facts in chronological order without any apparent bias, but it appears to have gotten the editor into all kinds of trouble. This week, he gravely meets a curious charge, as follows:

In closing our article last week we made use of the term "Roman candles" and stated it as our candles" and stated it as our opinion that should Dr. Hanna be defeated, "Roman candles" would go up from the committee rooms of the Liberal party. And now it is claimed that this was intended as a reference to our Pomen as a reference to our Roman Catholic fellow citizens. This is the poorest, weakest and most contemptible effort to make political capital which has ever been attempted in this riding. A "Roman candle" is a well-known trade name for a certain class of fireworks, and we do not fancy a boy of six years of age can be found in the town or county who could not tell what a "Roman candle" is. Webster's dictionary defines "Roman candle" as a kind of firework. The Standard dicdefines "fireworks" as colored fire, rockets, Roman candles, set pieces, etc." The Standard dictionary spells Roman with a cap R in its definition of fireworks. The attempt to foment sectarian feeling is deputied by the sectarian feeling is despited by the spicable and goes to show how weak the position of our critics is. We can assure our Roman Catholic friends that they were not even present in our mind when we made use of the expression, "Ro-

No writ is issued as yet for South Lanark altho by-elections are to be held in Chateauguay on the 11th, in East Middlesex on the 21st, and South Bruce on the 30th inst.

Today is nomination day in Chateauguay, and in spite of many rumors to the contrary, it seems likely that only the candidates of the two great political parties respectively, will enter the field. If the Nationalists have any preference between Hon. Sydney Fisher, the Liberal candidate Sydney Fisher, the Liberal candidate, and Mr. James Morris, the Conservative candidate, it is not reflected in the columns of Le Devoir. Mr. Morris, it is said, ran ahead in the French districts two years ago, when he contested the riding against the late member, Mr. J. P. Brown. But a good deal of water has flowed down. good deal of water has flowed down the Richelteu River since September

That Hon. Robert Rogers has taken command is significant. For the first time in many years there is no member of the Dominion cabinet representing the eastern townships, and that interesting country has been under the political supervision of Mr. H. B. Ames, M.P., for St. Antoine's, Montreal. It was he who was pitted in the eastern townships two years ago, and altho personal defeat came to the latter in Brome, there was by and large no Conservative gain in that part of the province. Mr. Ames is a good or ganizer, but Mr. Rogers is more likely to get results in a hand-to-hand

Hon Sydney Fisher is prolix, but not uninteresting an Oxford graduate, , when speaking recalls the late abishop Sweatman of Toronto. Archbishop He is a total abstainer, an old bach-elor, perhaps a little old-maidish in his ways, but for all that a well seasoned politician, having contested no less than twelve elections. He speaks French as well as he does English and is said to be out to win.

Those who listen will hear the "rustle of the hay" in Chateauguay.

The government may win in Chatauguay and anticipates a walkover in East Middlesex. It has been generally supposed that the naval policy would be the outstanding issue in would be the outstanding issue in South Bruce. But as the time draws near it is doubtful whether either party will make its chief stand on that question. The Mail and Empire clearly indicates that the highway bill is to backept to the front in East Middlesex, and by inference in South Bruce. Meanwhile the Liberals realize that they are loaded down with the two-

In this column last Monday we explained with some detail the present political situation in the riding of South Lanark, at the same time confessing our indebtedness to The Perth Expositor for its succinct and evidently fair-minded summary of the happenings in that riding since the demise of Hon. question out of politics must be even clearer today than ever be-fore. The chief result of the con-flict between the official Conservative party and the official Libervalve party and the official Liber-al party is to increase the strength of the sentiment against doing any thing. They have only to keep the fight up long enough to drive per-haps a majority of the electors of Canada to this way of thinking. The need that the Canadians who believe that we should participate in naval defence should compound their differences and get together their differences and get together is urgent. They can be brought is urgent. They can be brought together in only one way—by the frank acceptance by Mr. Borden of the principles he himself avowed in 1903 as the basis of his permanent policy. That is the only road to peace and safety. It is a case of Canadian navy or nothing. If, as there seems some grounds for believing, old country Imperialists are beginning to recognize that are beginning to recognize that this is the choice, the Canadlan League may receive some unexpected assistance from over the sea in their well meant effort to induce the acceptance by both parties of the policy of a Cana-

The Montreal Star, which is working overtime in its effort to have the contribution adopted as the permanent policy of the Borden Government, halls the recall of Captain Onslow from Australia as proving that a local navy is impossible, and we read:

The significant circumstance that Captain Hugh Onslow, the officer whom the Admiralty loaned the Australian maval establishment with a view to giving the Commonwealth the advantage of British naval experience in the making of their local severage. making of their local squadron, has been suddenly relieved of his duties after friction between the loaned British officer and the Australian naval board, will cause the more thoughtful amount in the more thoughtful amongst us to become even more thoughtful. We have seen so much friction in this country between British army officers, sent out to help us train our militia, and our local pol iticians, that we can pretty well imagine the Australian case. The British officer comes from an old and experienced school. It may have some traditions which hardly apply to modern colonial conditions. ditions, and it certainly does take the business of war far more serthe outsiness of war far more ser-lously than we commonly do in the peace-sheltered colonies; but it is, after all, the school of men who have seen much actual ser-vice and, are preparing constantly to face the armies and navies of the great powers.

But we of the colonies are impatient under tutelage. Without going into the rights and the wrongs of the matter at all, the simple fact remains, that these British army officers have found it impossible to get along with our politicians of either party; and the result is that we are now running our militia without them. In the case of the militia, the British Empire will probably survive the abandonment of the attempt to "standardize" all the Imperial ser-vices. Our militia—excellent as it vices. Our militia—excellent as it is—is a local force; and there is no notion that any part of it will ever be employed over seas to meet the professional armies of the continent of Europe, except possibly in the form of volunteer and picked contingents. Even and picked contingents. Even then, they would probably go no farther than the British Isles to perform garrison duty and so release the British "regulars" for work on the continent on the continent.

But the case of the navy is entirely different. That can never be regarded as a local force for the purposes of war. Even the local navyites propose to put their slocal battleships at the disposal of the central government in time of war—if they do not decide in any particular case to leave the mother country to fight her battles alone. Moreover, the only work which a local navy could find to do, would be the fighting of foreign warships, which is precisely the task for which the Imperial navy is prepared by the best naval experts in the world.

A five thousand loan for a sand gift from a rich man, with a conscience: a million to enable the 1800 homeless congregations to have places of worship, and a two and a half million as a special missionary offering, are samples. And any business concern, with a board of directors and office staff of the solidity of character, keen business sense, energy and cloquence of such men as George A. Miller. Washington City; I. N. McCash and George W. Muchley Kanses City; Abram E. Corey, secretary-at-large; W. R. Warren, Bert Wilson, Lincoln, Nebraska and J. H. Booth, Kansas City, must be heard of by the nation. They get money officially as a rule, but in emergency cases they do otherwise. As when a missionary needed a steam launch instead of the "hollow-log," which he was using a zealous friend asked all hands to go over to the corner and put up the cash.

put up the cash.

The said Miller is a man of business, not of church law. Points of law bother him like slow trains do an importer of goods. But as long as W. H. Book is fearful for the good estate of the old constitution there may be a blockade any time. The delegates were called to wrestle with the problem whether it would be constitutional for a nominating committee, that had burnt the midnight oil in the vain attempt to find the "chosen of God" for a high office, to be allowed to take the matter home for further leading, and appoint accordingly. The brother from Columbus thought he saw the thin edge of ecclesiasticism here, inasmuch as such appointment would be the rule of the few instead of the many. Judge Henry sat silent ir the audience. knowing that he had no jurisdiction. But he looked as tho he would like to have the gavel for one second. Chairman Miller, however, permitted no less than a motion and two amendments on the question. They were well debated, and the audience gave Brother Book the reply that he had no case.

After a day of thought over money for new churches and better temples, it was a happy choice of theme and orator, to select W. F. Rothenburger, Cleveland, to speak on the subject of ecclesiastical architecture. He is a young man who might pass for a cultured e.Jw. Learned he is, because the Chicago University offered his a lectureship in history. Foreign too, as his name suggests, but of American birth. The subject is fresh in his mind, as he has just returned from a tour of Europe. His congregation gave him a \$500 increase in salary on his return—and we do not blame them. He dealt learnedly with the cathedrals, and made the appeal that if the disciples of Christian.

He dealt learnedly with the cathedrals, and made the appeal that if the disciples of Christ are going to be a visible power in the coming centuries, they must bestir themselves to erect churches that will become historic.

Z. T. Sweeney would draw any crowd if they had ever once heard his racy oratory. He is a forceful character. The church and state have honored him. What a speech he could make on Washington or democracy! What a leader in a forlorn hope, to fight an enemy or destroy a sin. What a serviceable man in any church! It was he who went up among the malcontents at the Y. M. C. A., all good fellows they were, who were fearing secession. Like Caesar it seemed to be veni, vidi, vili. There will be no war or rebellion in the Union of Disciples as long as this old veteran of a bloody war can fight another spiritual bettle. as this old veteran of a bloody war can fight another spiritual battle. His heart is large, in fact it is so big, that he has found room in it for Russiaemperor and people. He tre audience to a popular lecture on the subject, which may be given ere long in the famous Chautauqua course.

It was no easy matter for an orator

to take up an audience where General Zac Sweeney dropped it, but that was the invitation offered to Dr. J. A. Macthe invitation offered to Dr. J. A. Mac-donald. Toronto. But it was an audi-ence that had come charged with in-terest to hear him. We noticed that J. H. Garrison, St. Louis, had taken a chair among the front seats. It was a splendid house and there was keen response to a stirring address on "Inresponse to a stirring address on "Internationalism." He took firm ground in the hundred years of peace between in the hundred years of peace between two young nations having 4000 miles of frontier unprotected by forts and warships, but kept secure by international brotherhood. Further than this, he pointed to emigration of all races as proof that there are no set bounds to man's habitation. So is the Gospel for all shores. Speaking scathingly of war, he led up skilfully to "the one war, as wars go, of the to "the one war, as wars go, of the Americans." Amid a dead silence, and confirmed by bowed and nodding heads, he reminded them of the thousands of the porth brown sands of the north, brave men, and those of the south, noble men, who went out never to return.

FURNITURE ECHOES FROM OLDEN DAYS

History of House Furnishings Demonstrated by Departmental Store.

TRULY EASTERN BAZAR

With Veiled Turkish Beauty and Swarthy Oriental on Display.

Orient and occident, the glowing harmonies of the one and the more familiar aspects of the other, meet at the wonderful furniture display at Toronto's biggest store. Up on the sixth floor of the building devoted by the T. Eaton Company to the exclusive use and display of house furnishings, the citizens of Toronto and hundreds of the visitors from all over hundreds of the visitors from all over the world, who are now guests of the city, surge in one continuous stream to visit the beautiful and useful things, the fame of which has gone abroad.
"Am I in the land of Mahomet?"

"Am I in the land of Mahomet?" one is apt to ask as the view of the unique display bursts upon him. The garden of Allah surely is this. A long passageway covered and darkened with handsome eastern hangings and a swarthy turbaned guardian, seated cross-legged on the divan in the centre, give the atmosphere at the entrance. A step further and the very heart of Turkey presents itself. Great Turkish rugs and tapestries cover the floor and walls, lanterns hang about, reminding one of dimly lighted mosques or corridors in the bazars of Constantinople. A group of natives, attired in the rich dress of the eastern mations, with the picturesque turban as the crowning piece, chat together, and a veiled Turkish woman, shrouded in black, her face hidden from view by the white opaque veil that hangs just below her forehead, is the lodestone of attraction for the women, who stop in curious groups to study their sister from foreign lands in native guise.

The Flemish style, when furnishings were simple—tables, benches, stools and chairs being about the only articles known for household adornment and use—still shows skill in the matter of workmanship, and oriental rugs introduced by the crusaders are seen here in replica.

When Men Were Brave.

In the Gothic room the chairs and sideboard are massive and handsome, speaking of the days when all the men were soldiers and when the ladies of the house saw that the meats and viands were of the substantial character, in keeping with the vocation and work of their martial bus tion and work of their martial husbands. A beautiful exhibition is that of Louis XVI. Here everything is dainty, the coloring of the exquisite shades that we always attribute to the taste of the bride, the whole a harmony in delicate hues.

MAMPSTEAD

The Best Independent Workingman's Proposition

GARDENS

You Can Buy on Easy Terms

LOCATED NEAR DUFFERIN AND EGLINTON HAMPSTEAD GARDENS is located north of the Belt Line Railway tracks, near the Grand Trunk and C. P. R., stations, on a fine piece of land. It is not far from the West Toronto factory district. The Canadian Kodak Co. have purchased 26 acres near-by, and other factory sites have also been recently purchased. No section has ever been offered more suitable for purchase by a workingman. He can buy land on easy terms, take his time to build his own home, and make himself and his family independent. HAMPSTEAD GARDENS is close to Church, School, Post Office and Hotel. COME IN AND SEE MAPS AND PLANS.

We have no hesitation in advising the purchase of lots in Hampstead Gardens. The price asked is very reasonable, and the easy terms make it possible for any workingman to buy and pay for land on which to build his own home; get free from paying rent to a landlord, and start a life of independence.

Take the first \$10 you can spare and become own er of land in Hampstead Gardens. Many a man has started making big profits in real estate by his first purchase of a lot in the near-by suburbs. The more you pay down, the quicker your land is paid for. Our terms are easy, and the prices are the most reasonable that any land in this district can be bought for. Electric railway facilities are promised in the near future, which will cause a rapid increase in land values. Buy yours now, while prices are the most favorable.

C. P. R. and Brazithans felt the first pressure of the London Market and eclines of thike proportion followed on the Canadian exchange. The opinion and of a possible distribution of astets by the C. P. Co., is that it may like a long time before anything of its nature could be accomplished. The movement in Toronto rails was lopped by too free offerings. At round 144, a fair volume of long stock was in sight, and buyere caululis are aggressive when they start in and a renewal of the upward swings fully expected.

Brokers' books continue light in Buying orders and the investment deland is not quite so good as it was or the high-class issues.

Dealings were decidedly tame in that the trading, and with a very few exceptions, offerings were not invited.

Heavy Pressure and Not Much Demand

Fundamental Change in Tariff Laws a Cause for Caution.

NEW YORK, Oct. 3.-Stocks were inder steady pressure today. The disappeared, and altho offerings were not heavy, there was no demand except at concessions. Leading issues ended the day with losses of a point

On the eve of a fundamental change in the country's tariff laws, traders in the country's tariff laws, traders thought it best to pursue a conservative course. Uncertainty as to the action of the market in the immediate future led holders of long stock to realize on the comparatively small rise of the preceding two days, and selling of this nature was a considerable factor in depressing values. Steel was once more the most conspicuous stock, and its persistent weakness was a drag on the whole market. Copper shares yielded part of their exceptional gain. Reading and Union Pacific also were subject to severe pressure at times. St. Paul was affected adversely by its August report, showing a decrease of more than \$1,000,000 in net earnings.

crease of more than \$1,000,000 in net earnings.

Sentiment was depressed in London and American stocks; these were inclined to heaviness, which was partly responsible for the lower opening here. London sold stocks here steadily, disposing of an amount estimated variously at 10,000 to 20,000 shares.

A small cash gain for the banks in the week was indicated by known movements of currency. As the week takes in the quarterly payment period, however, forecasts of the bank statement may be far from the mark. Time money rates showed an easier tendency.

Bonds were under slight pressure.

WHEAT RECEDED **VERY SLIGHTLY**

Prices Made No Response to Pending Tariff Bill Operations.

chicago, Oct. 3.—Wheat prices today made no response to the fact that the tariff bill was awaiting the that the tariff bill was awalting the signature of the president. Traders generally considered the effect of the legislation had been fully discounted pending developments as to Canadian duties against the United States. Closing prices here were firm at 1-8c to 3-8c decline. Other leading staples showed similar modest recessions corn 1-4c to 5-8c, oats 1-4c to 3-8c and provisions 2-1-2c to 12-1-2c.

Cable News Bearish.

Declines in wheat were mainly due to bearish cable news, large Northwest receipts and to the advantageous completion of winter crop seeding. Ar-

completion of winter crop seeding. Argentine advices that growth conditions were practically normal with increased acreage, had distinctly a bearish influence owing to previous reports of drought. The dry area, moreover, was said by today's despatches to be small.

OPTION ON LOTS

CORNWALL, Oct. 3.—(Special.)—At a special meeting of the town council, C. L. Hervey made application for the purchase of lots 10, 11 and 12, on the north side of Sixth street, owned by the town and now used by the corpora-tion for the crushing of stone. Mr. Hervey has abandoned his first inten-tion of having the reminus of the Glengarry Street Railway on Pitt street, and will place the station on Sidney street, on the lots in question. The council recommended the dis-posal of the lots in question to Mr. Hervey at \$750, on condition that the posal of the lots in question to Mr. Hervey at \$750, on condition that the town have the use of same until such time as they are required for railway purposes, and that in the event of the railway not being constructed, the agreement be canceled, that the propagate he used for railway nurposes only. erty be used for railway purposes only, and that Mr. Hervey be given an option on it for six months.

Dr. McLaughlin's Electric Beit You put it on when you go to bed, and sleep peacefully under the influence of its warming, vitalizing power. You awake full of ambition, with a healthy desire to tackle your day's work. Each day you gain new life from it, and soon begin to feel yourself a man among men. Each symptom gradually disappears, strength takes the place of weakness, and your life is made happy by the restoration of your old health.

If you have tried drugs that failed—if other belts have failed to cure you—then come to me. I have made a life study of the use of electricity, and apply it only in that manner which has proven successful.
