

PROBS: Fresh to strong S. to W. winds milder, with moderate snowfalls.

TWELVE PAGES—MONDAY MORNING, DECEMBER 26, 1910—TWELVE PAGES

30TH YEAR.

MANY NEW PEERS AS SOUTH'S PROGRAM

Two Explanations Given—Radicals Say New Lords Will Be for Reforms, While the Unionists Claim That the Peereages Will Pay the Debts.

LONDON, via Grace Bay, N. B., Dec. 25.—(N. Y. Tribune Cable.)—The most interesting holiday gifts are not in the Christmas stockings. These are the peerages which are reserved for New Year's honours.

There is a general agreement among the newsmongers of both parties that the list will be a long one, but the explanations of the motives of the government differ.

Radicals among the politicians assert that a fat list will be wanted and that hundreds of new peers will be created if the house of lords hang up or reject the veto bill.

The Unionist gossips scoff at the notion that the creation of a score or more peers is a tactical move. They assert that the Radical exchequer is empty and that large supplies in hard cash came in time for the December calendar.

Radicals among the politicians assert that a fat list will be wanted and that hundreds of new peers will be created if the house of lords hang up or reject the veto bill.

The prime minister is in Scotland, but has not abandoned his plan for a holiday in Switzerland before the meeting of the sections of the composite coalition majority.

Lord Lansdowne is resting at Bonwood Park, and Mr. Austen Chamberlain is with his father at Highbury.

The club gossips have deserted the corner where they have been whispering that Mr. Redmond will hold up the budget and upset the plans of the ministers unless he is allowed to move an amendment substituting one year for three years as the limit of suspension.

Some Early By-Elections.—LONDON, Dec. 25.—(N. Y. Sun Cable.)—Some early by-elections are already forehadowed early in the year, perhaps at the end of February.

Loose-fitting pantaloons fashioned as elegantly as possible will be fastened close at the ankles.

A well-known firm of Paris dress-makers will launch the models of this costume.

They say that the petticoat is finally doomed.

Major and Board of Control Likely to Be Re-elected.

OTTAWA, Dec. 25.—There is not a great deal of interest in the civic nomination for mayor and board of control.

LOS ANGELES, Dec. 25.—The Llewelly Iron Works here, one of the largest of the kind in the southwest, was partly demolished by a charge of dynamite, exploded against the side of the building early to-day.

The company has been involved many months in a strike of union metal workers.

The Good Roads Bylaw.—That \$500,000 a year is saved by good roads on traffic coming into Buffalo is the statement of Mr. George D. Diehl, who addressed the Toronto Board of Trade recently on the good roads bylaw.

Mr. Diehl estimates the total tonnage into Buffalo daily at 366, making a total for the year of 200,000,000 tons of goods.

The saving by good roads amounts to 10 cents a mile, and every load travels a minimum of five miles. The saving on a million tons is thus \$500,000 a year.

Good roads, Mr. Diehl says, have resulted in ten tons of farm produce coming into Buffalo by wagon to every ton which came in before the roads were improved.

It has been an enormous saving to the people of Buffalo by reducing the price of vegetables, fruit and farm produce, the various expenses of railroads and express charges, storage, middlemen's profits, etc., having been done away with.

Moonshiners Free For Xmas Only

Eight of Them Promise Georgia Judge They'll Return to Jail After the Festivities.

ATLANTA, Ga., Dec. 25.—Moved by the letters from wives and children in the North Georgia mountains asking him to permit their husbands and fathers to come home for Christmas, United States Judge Newman ordered eight moonshiners who are serving sentences in the Atlanta Jail released Saturday morning.

"I am sending you home for Christmas," said the judge, "to return to jail after the holidays and complete your sentences. Can I trust you?"

"You can, judge," said the old moonshiner who acted as spokesman. "No mountaineer ever broke his pledged word."

The federal officers say the old man is right, and that the eight will return to jail as soon as Christmas passes.

SENSATIONAL STABBING AFFRAY IN WEST LONDON

Victim is in the Hospital in a Serious Condition—Chased With Butcher Knives.

LONDON, Ont., Dec. 25.—(Special.)—Jas. Fowler, a West London butcher, is in Victoria Hospital in a serious condition, and Wm. Hyslop is under arrest on a charge of assault and wounding, as the result of a sensational stabbing affray in West London on Saturday night, shortly before midnight.

There was a party at Hyslop's on Saturday night, at which it is said there was liquor served. During the course of this he is said to have quarrelled with his wife's brother, who was present.

The husband went to the shop and attacked Hyslop with a butcher knife. Hyslop's brother jumped thru the store window, with blood streaming from his wounds, and as he fled down the street he was followed by two other men.

Hyslop's brother interposed and Fowler made his escape. He later collapsed and was taken to the hospital. Hyslop was arrested and will appear in the morning.

ALL BUT SIX DROWNED Steamer Baltique Sunk in Collision Off Mouth of the Escant or Sheid.

ANTWERP, Dec. 25.—The steamers Finland and Baltique were in collision today at the mouth of the River Eurcaut. The Baltique sank quickly, and the Finland was damaged.

Part of the crew was rescued by the Finland and others by a pilot boat.

The Baltique, a Belgian steamer of 135 tons, was outward bound with a cargo of sand.

It is stated that the Finland, in veering, struck the Baltique amidships.

Part of the crew was rescued by the Finland and others by a pilot boat.

SKIRTS SAID TO BE DOOMED Turkish Costume About to Be Introduced by a Paris Firm.

PARIS, Dec. 25.—It is solemnly announced here that the success to the probable skirt has arrived, and that it is an exact reproduction of the dress worn by Turkish ladies, minus the veil.

Loose-fitting pantaloons fashioned as elegantly as possible will be fastened close at the ankles.

A well-known firm of Paris dress-makers will launch the models of this costume.

They say that the petticoat is finally doomed.

LITTLE INTEREST AT CAPITAL Mayor and Board of Control Likely to Be Re-elected.

OTTAWA, Dec. 25.—There is not a great deal of interest in the civic nomination for mayor and board of control.

LOS ANGELES, Dec. 25.—The Llewelly Iron Works here, one of the largest of the kind in the southwest, was partly demolished by a charge of dynamite, exploded against the side of the building early to-day.

TRAGEDY STAKES IN THE XMAS GLITTER

Notorious "Ned" Clark Was Found Frozen to Death—Woman Dead From Carbolic Acid Poisoning—Death at the Jail—Minor Mishaps.

One man frozen to death while drunk and his left hand chewed partly off by rats; one dependent woman who ended her life with carbolic acid; one prisoner of the jail who died of lack of nourishment, self-imposed; one man unconscious from gas poisoning from noon yesterday until after 2 this morning.

are among the pathetic incidents of the "Merry Christmas" season in Toronto. There are several other unhappy cases, but of more minor character on the police records.

"Ned" Clark will not trouble the police any more, but his record of violence towards the local constabulary, which entails being jailed times running into the dozens, will stand long unbroken.

He was found, frozen stiff, with his left hand chewed nearly off by rats, in an alley between 104 and 108 East Front-street, at 9.15 yesterday morning.

Albert Langston, who is employed in the building at 110 Front-street, stumbled over his dead body as he was going into the lane for some boxes. There is a small gate there, and the theory is that Clark leaped thru this while wandering around after his Christmas Eve celebration.

The body was taken to the morgue and an inquest will be held. "Ned" Clark was, in a way, a terror to the police, as he could never be taken without a fight, and he had used up several of Toronto's stoutest officers.

He had a mania for fighting policemen. Arrested in his early 30s as a "drunk," when, he used to say, he was only "weak, tired, and ague, and staggered as he walked, he was sent to jail. Then he said he determined that he would experiment from liquor and being very muscular, he resisted arrest.

Two LIVES LOST IN A FIRE AT DRESDEN Explosion Blew Out the Entire Front of a Store—Ex-Mayor of Dresden and a Methodist Minister the Victims—Large Portion of Business Section Wiped Out.

CHATHAM, Dec. 25.—A large portion of the business section of Dresden was wiped out early this morning by fire, which started in C. A. Jeffrey's millinery store, completely destroyed Edward Watson's grocery, Masonic Hall, Robinson's millinery store, John Adams's billiard hall, Robt. Aikens's drygoods store, together with their entire contents.

The Bank of Commerce caught fire several times, but was saved.

The total loss is placed at \$100,000, detailed figures being lacking. C. B. Watson, owners of the building, and Robert Aikens are the heaviest losers.

The loss is partly covered by insurance.

While the fire was in progress an explosion took place in Aikens's store, the entire front being blown out.

C. W. Hicks, ex-mayor, aged 65, was injured, and Rev. G. H. Long, Methodist minister, so seriously injured that he died about 9.30 this evening.

He was the father of George Long, who was a former member of the London Free Press, Walter Dynes, Robt. Aikens, Chas. Aikens, Dr. McDonald and others suffered lesser injuries, and will recover.

The entire town is in mourning as a result of the tragedy.

Coroner Willey will hold an inquest to ascertain the cause of the explosion.

BOYS' CHRISTMAS BANQUET Everything will be in shape for the feast and festival to 6000 boys at the St. Lawrence Arena to-night, at 8 o'clock, under the direction of Mr. J. M. Wilkinson.

The time is from 5.30 to 9.30, so as to give the boys a program of songs and dance furnished by the "Bow-wow" minstrel. Leut.-Governor Gibson and Sir James Whitney will be present at 8 p.m. to wish the boys a bright and happy new year.

Then will follow the feed, to continue till 8 o'clock, when the entertainment commences. Mr. Wilkinson wishes us to state that at least \$200 more is needed to meet the expenses of food and light and heat and music and cartage and help. It is to be hoped that the mall this morning will contain the necessary amount to ensure the success this worthy object deserves.

Death of Miss King. The death occurred on Saturday of Allen Louise, third daughter of Dr. Edmund W. King, 41 East Queen street, at the age of 17 years. She had been ill since last April. Miss King was a pupil at Braekmoor Hall, and had previously attended Hazelrigg College.

ON CIVIC POLICY HILL

An Impending Smash.

HOPE OF THE JEWS IS BONDED IN ZIONISM

What is Zionism? In 1891 Baron Maurice de Hirsch founded the Jewish Colonization Association with \$2,000,000, and to it bequeathed the greater portion of his wealth.

His plan was to restore the Jewish people to their ancestral land, Palestine, which had been gradually being sold to the British and French.

The success was not notable and at the baron's death the scheme became one of more general amelioration, which distributed thruout the world.

The idea was revived in an intense form by the promulgation of "The Jewish State" by Theodor Herzl of Vienna, and thus the Zionist movement began, and in 1897 the first Zionist congress was held at Basel, Switzerland, where the old nationalistic sentiment was revived, a Jewish State was proclaimed, and the Jewish Colonist Trust for the purchase of land was called into existence.

Enthusiastic cheering signaled the raising of the Zionist flag at the opening of the Canadian Federation of Zionists' Convention at the Lyric Theatre, Agnes-street, yesterday morning.

The white banner, with double purple bars and double purple star, is significant of peaceful, enlightened, hopeful patriotic progress. Everywhere in the Dominion, when the Zionist flag is raised, it is accompanied by the flag of Canada.

The morning was devoted to the address of the president, Clarence de Sole of Montreal. This is the eleventh convention, and the second to be held in Toronto.

He expressed his appreciation of the official, civic welcome. "When last we met in convention in Toronto," he said, "four years ago, we Zionists were contending against many adverse circumstances—struggling against heavy odds."

We were yet staggering under the dreadful blow of Herzl's death. We had but recently witnessed the secession of men who either failed to understand the underlying spirit of our movement or else lacked that tenacity of purpose, that patience and steadfastness that are necessary for the attainment of any great political program.

We were told that within that very year we would witness the debate, and that the Canadian branches of the movement would sink to ruin in the general break-up. Now we hold our convention again in Toronto as members of a federation.

LEVEL CROSSING TAKES TOLL OF DEATH

Two Persons, One of Them a Clergyman, Killed Five Miles From Dunnville—Fatal Crossing Accidents in Different Parts of the United States.

DUNNVILLE, Dec. 25.—Yesterday morning about 11 o'clock, at the Dittler road crossing of the Wabash Railroad, about five miles from here, a terrible accident took place, in which the lives of two men were lost.

The unfortunate victims were Rev. Mr. Miller, the United Brethren minister at Elcho, and Eugene Eyle of Stromness.

Mr. Miller was driving a Dunnville in a covered buggy, and had picked up Mr. Eyle, who was walking only a short distance from the track.

They evidently did not notice the approaching Wabash train, and the train struck the buggy in the centre, throwing both occupants into the ditch, and evidently killing both instantly, and also the horse.

The engineer immediately stopped the train and backed to the crossing. Coroner Mason of Dunnville was notified, and the bodies were brought here, where an inquest will be held on Monday.

TRAIN HIT AUTO TRUCK Two Men and a Boy Killed While Delivering Christmas Packages.

PHILADELPHIA, Dec. 25.—While delivering Christmas packages in a big auto truck for a Philadelphia department store, two men and a boy who were in the vehicle, were killed last night when a Baltimore & Ohio passenger train struck the truck at Moore, ten miles from the city.

The dead are: John Eccles, 22 years old, driver; Edward Lendie, 25 years old, helper; Leon Malsberger, 16 years, helper.

At the point where the accident occurred there is a steep grade, approaching the railroad tracks, but the only means for warning persons of the approach of trains is a bell. It is thought the noise made by the automobile prevented the men from hearing the gong.

Malsberger's mangled body was found at the crossing, Eccles lay about fifty yards up the track, and Lendie was found about 125 yards from the crossing. The train was running at high speed, and tore the body of the automobile from its truck, and caused it to become a projectile.

The fire and was consumed. The truck was carried half a mile up the tracks on the pilot of the engine.

THE FATAL CROSSING AGAIN Carriage With Family Party Hit by a M. C. R. Train.

NASHVILLE, Mich., Dec. 25.—Reuben Lawrence, 14 years old, was killed, his father and mother, Mr. and Mrs. Lawrence, were probably fatally injured, and two others and a brother were seriously hurt, when their carriage was struck by a Michigan Central passenger train, as the Lawrence family was driving home from a Christmas celebration, near Vermontville, yesterday.

HELD UP A TRAIN. KANSAS CITY, Mo., Dec. 25.—One man held and robbed every passenger on a Missouri Pacific passenger train, which arrived tonight from the west, leaving St. Louis. He boarded the train at Leavenworth and went thru every coach.

CHRISTMAS GREETINGS. The year of nineteen hundred and ten has been the most successful in the history of the Dineen firm. Every department has far exceeded the most sanguine expectations.

The policy of selecting only the highest grade of furs, combined with high-class art in finishing every garment, has more than doubled the Dineen output. A good and sufficient proof that the public appreciates Dineen quality.

The Rejuvenation of Aunt Mary. Miss May Robson, as Aunt Mary, depicts a character that is met in everyday life but too little appreciated.

AN IDEAL CHRISTMAS DAY. Sunday was about the finest Christmas Day in a score of years. Outside of the city there was good sleighing, with a fresh coat of snow.

The sun was bright, there was no thaw. There was no wind, clear, sunny, winter day without gusts of any kind. Many people went out, and the country gleighbells everywhere.

In the bush there were fresh rabbit tracks, there was the scratch of the jay, the rivers and streams ran strong under the ice and here and there rippled thru it where the rising waters of the day before had cut channels; and everywhere the landscape was one of brightness and beauty.

In the streets and street cars many persons carried their gifts, the churches were well attended. Some families ate their Christmas dinners yesterday, some are to eat them to-day. The World, fed into the house of a man who worked on a farm, yesterday morning and said, "I see you have two green hanging there in the kitchen."

"Yes," said the happy man, "we will eat one to-day and we will eat the other one to-morrow. We are to have two Christmas dinners this year. And let me tell you this," he went on further, "the cluck will carry this year."

CARLING'S SPECIAL SELECT ALE is extra mild. If you cannot drink an ordinary Ale, this special brew will not only please you, but can be taken and easily digested by persons with the most delicate stomachs.

It is a special brew—light, mild and will not make you bilious—yet has the rich, creamy flavor of the finest imported brands.

The Toronto World

FOUNDED 1858. A Morning Newspaper Published Every Day in the Year. WORLD BUILDING, TORONTO. Corner James and Richmond Streets. TELEPHONE CALLS: Main 5308—Private Exchange Connecting all Departments. Readers of The World will confer a favor upon the publishers if they will send information to this office of any news stand or railway train where a Toronto paper should be on sale and where The World is not offered.

MAIN 5308

MONDAY MORNING, DEC. 26, 1910.

THE BLOOR-STREET VIADUCT.

There will be no time in the history of Toronto more favorable than the present for the building of the Bloor-street viaduct. Land values will go on steadily rising, so will the price of labor and material. It may safely be said that the viaduct will cost one-third to one-half more five years hence than it will to-day.

Calculate the effect the viaduct will have upon the growth of the city. One of the longest thoroughfares would be that formed by Bloor-street and Danforth-road, in an almost straight line from Weston on the west to Scarborough on the east. The value of such long streets to the future growth of a city cannot be overestimated.

In all such large undertakings it is necessary to look the question of ways and means squarely in the face. A public enterprise may be the best possible, but unattainable because of the cost. Not so with the viaduct. It will not only be self-sustaining, but will actually be a revenue producer for the city.

The interest and sinking fund for the debenture debt of \$1,000,000, the cost of the viaduct, is \$77,388 per year during the time of the debenture. The rate of taxation in Toronto one year with another is 17 1/2 mills on the dollar. All the viaduct has to do is to increase property values to the comparatively small amount of \$3,250,000, and the viaduct is self-sustaining, and all values above this become revenue producing to the city.

It is no tax upon the imagination to foresee that in one year the viaduct will have added far more than the foregoing amount to the city's total assessment. It is one of those fortunate forms of expenditure that create the means whereby their own cost is recovered.

CITY EXTENSION.

Cities in process of rapid expansion are inevitably confronted with the necessity from time to time of extending their boundaries. Unless in the case of such of them as have had the provision to allow ample room for growth the inclusion of additional areas is usually complicated by the existence of organized suburbs, largely the result of the city's own overflow. These suburbs left to themselves in their earlier days administer their affairs without reference to the position that will arise when they no longer bear that relationship, but become virtually a part of the greater community. Hence endless troubles with streets, sewers, lighting, transportation and other important public systems and services. The unwisdom of an objectless policy which has no regard to future but certain problems is evident, and of recent years in all countries an entirely different course has been entered upon. Unification of government and interest is now recognized as essential to proper city planning and administration.

Boston, Mass., is just now considering the ambitious project of federating the forty cities and towns in the Boston industrial district. Its chamber of commerce has just issued a pamphlet on the subject which formulates the case in succinct form. "The present situation," it says, "hampers local industrial development, (1) because there is lack of a comprehensive plan of developing industrial sites and centres; (2) because of conflicting municipal jurisdictions making impossible the building of industrial railways and the development of an adequate system of terminal facilities; and (3) because there is a lack of harmony in the administration of certain public services and laws which have an important bearing on industrial success." Enlightened cities look ahead and throw off the village notions that have so often impeded projects which simply anticipated the future, and whose rejection resulted in ultimate and serious injury to the communal welfare. The best and lasting interests of Toronto and its suburbs require their unification under a single representative authority that will bring all into harmonious co-operation.

ON THE WRONG TRACK.

The Canadian Century, an illustrated and protectionist weekly, published in Montreal, suggests it would not be wise to take the duty of agricultural implements, but that it would be a good thing if government were to pay half of the freight charges on agricultural implements delivered to the western farmer! The Century editor is evading two issues. If protection is to be justified, it must be justified as such; in the next place, if freight rates are to be reduced, there is only one way to improve them, and that is, on their merits. Now, we wish to tell the editor of The Canadian Century that the Canadian

Pacific Railway is bound by a special clause in its charter to reduce its freight rates the moment its return of profits to shareholders exceeds ten per cent. For five years past the Canadian Pacific has made returns to its shareholders exceeding fourteen per cent. per annum! What does the editor of The Century say to parliament insisting on compliance with this law? If the farmers got their rights and lower freight, they might, for national reasons, stand for a moderate protectionist duty.

JUST ONE OTHER WIN.

When W. F. Maclean, member for East York, rose in the house of commons some years ago, and proposed the regulation of express rates, under the railway commission, he was opposed by the government and nearly every member of the house.

The then minister of justice, now Sir Charles Fitzpatrick, and Mr. R. L. Boren, between them, argued whether parliament had any jurisdiction. When the proposal went to a parliamentary committee the express companies counsel pleaded that they were without the jurisdiction of the act. The member for East York replied to the effect that if they were, then a good reason had been given why the postoffice should be empowered to widen its parcel post delivery, and in that way give substantial relief to the people of Canada. With the result that at the next meeting counsel for the companies acknowledged the jurisdiction. Mr. Maclean carried on the agitation and eventually the government accepted his idea and gave the railway commission control; from that time the commission has been more or less engaged in reaching a conclusion.

The sweeping conclusion published on Saturday, calling for a reduction of rates, is the result of what looked like a hopeless case when it was first presented to parliament by the member for East York.

It is one more of Mr. Maclean's propositions that has made good, and the Bloor-street viaduct will fly in on election day.

THE WESTERN HOSPITAL BYLAW.

The Toronto Western Hospital has been making marked headway during the past few years. The governors have received a very fine site on Bathurst-street of five acres. Such park lots are now very scarce and cost a large sum of money.

During the past few years the hospital has been going on with the erection of some very handsome buildings. Those already erected and in course of erection represent an outlay of at least \$175,000.

The Western Hospital now furnishes 50 beds for the city's poor patients, but this does not meet the claims of this class of patients on the hospital. The city council agreed to submit a bylaw to the people for \$50,000 in aid of another pavilion, in which there will be 50 additional beds for city patients. The governors are also raising a considerable sum of money for building purposes.

The Western Hospital is one of four worthy institutions, and is doing a splendid work for the whole city. It should receive from the people the help it now asks, and the vote should be in support of the bylaw.

PUBLIC POWER A SUCCESS.

Success in every direction is the record of the Hydro-Electric Power Commission. Port Arthur is rejoicing in the completion of the new sub-station in less than a year after the ratification of the bylaw by the people. It is not only in Western Ontario that the commission is making good, but northwest and northeast, in Ottawa and elsewhere. If the eastern municipalities would get together and enlist the aid of Hon. Adam Beck they might reap the benefit as well as others.

HOW FAST WE GROW.

The Business Men of the city are for the Bloor-street viaduct; the city council and controllers are for it; the people of the three wards most interested are for it; real estate men are for it; Greater Toronto is for it; The Globe and Star are against it, because The World is for it. But the presidents of these two papers dare not get on a platform before the electors and justify their opinion by the cheap stuff that they print in their papers against it. Manager Fleming has some reason in opposing it; it does not suit his street railway book.

And yet Toronto has grown so fast in the past two years that she stands to be nearly a million of people in a decade and a half! Do we want the viaduct? Yes.

THE VOICE OF THE NEW MOVEMENT.

There's a lot of strained and overwrought writing in the American monthly magazines; also there is a lot of it that's good. Most of the stilted stuff is meshed with equally ill-digested information. You turn at the style and you halt at "the facts." Hampton is running a series of articles on the Mormons, the facts supplied by a well-known member of the faith named Cannon, the writing and dressing up of an old Toronto author, Harvey J. O'Higgins. It is all first-class work and impressive. The January article is one of the best we have read in an American monthly for a long time. In the same number E. Alexander Powell writes of furs and trapping in simple English, and with a knowledge of his

A Personal Appeal to the Property Owners of Toronto.

LADIES AND GENTLEMEN: By this time you all know me, or the things I advocate. For years I have tried to bring progressive ideas before the citizens of Toronto, of Canada.

As a member of parliament, and as a newspaper man, I have taken an especial interest in the welfare of those parts of the city that are over the Don, or north of Bloor-street to the Humber. I long ago discovered that to connect Bloor-street and Danforth-avenue (and the two are the one and the same concession line) by a viaduct across the Don Valley would do more for the progress of the city than any other improvement. It would give a new great east and west thoroughfare—the best in the city. It would let the workmen and others get out to a lot of cheap and healthy building land that is within easy reach of their work.

It would save hundreds of hours a day to thousands of people who go from the upper parts of the First Ward to the upper parts of any of the other wards west of the Don, or the reverse.

It would bring factories and a factory population to the First and Second Wards.

It would give the farmers and gardeners of East York Township a direct entrance to the north portions of the city.

It would connect the Scarborough-road with the Humber by the finest and straightest and longest driveway in the city, and, also, one absolutely level.

It would be on the trunk line of the good roads that are to radiate from the city.

As for the cost, it is reasonable; it will never be less, but increase, the longer it is delayed. But I have shown, and can show, that it will not only pay for itself, but that it will be a revenue producer. What the Gerard-street bridge and subway did for the middle section over the Don (and this street to-day is the quickest moving one in the city), the Bloor-street viaduct will do for the more northern section. The increased values added to existing assessments by this improvement will pay the cost!

Two newspapers—The Globe and The Star—attack the viaduct proposal for only one reason: that I originated and advocate it, and that I am a non-resident of the city; that I own a farm five miles from the viaduct out in York. In fact, they are so sore on any public policy that I bring forward that they would put any inconvenience or suffering on the public to beat me, or to Billy Maclean is their public enemy!

Lastly, bear in mind that the viaduct is absolutely an essential prerequisite for a municipal system of street railways!

I therefore ask all of you who know me and think I have tried at times to forward things of public concern to vote for the Bloor-street viaduct; in fact, for all the bylaws. They are all on the lines of a Greater Toronto. I especially appeal to the voters of the west end to do justice to their fellows in the east on this issue.

I have been abused and misrepresented for my progressive ideas, but I am willing to take it; sooner or later the people may appreciate such service; at all events it is worth doing, even if ridicule or misrepresentation is the only pay.

W. F. Maclean.

SIT DOWN AND WAIT, CITIZENS!

There is a new obstacle in Toronto: according to The Globe no man has a right to discuss municipal affairs unless he sleeps in the city. He may pay taxes for the business that he carries on in the city and he may be expected as to civic things he would advance on, but "income tax" is the sole test of his credibility. But for a radical, even for a Liberal paper, this is not the thing! The man in the street and the man of the underworld are dear to The Globe—if he lives out of its narrow vision. The rights of the Boers, of the British workmen, of the sufferers from unfair privilege in other countries are all of concern to The Globe, but the citizens of Toronto "must wait."

THE CHRISTMAS STRAIN.

Are we not overdoing Christmas? Isn't the strain of it getting too severe? It starts at the first of December and keeps up until after New Year's. For ten days past the stores have been one everlasting crush. The street cars and the railway cars have been jammed. It's a struggle to get thru it all. The newspapers have done much to bring this about. A short generation ago Christmas was a modest and moderate affair; three days the limit; little strain; you could get work done. Men had time to think about municipal affairs. Christmas has almost killed active interest in municipal and school affairs in a big city like Toronto, especially where it is so hard to get about. The meetings are badly attended. Friday night it rained and few went to the nominations. To think of getting any kind of urgent repair work in Christmas week is absurd. The things that have to go neglected in this so-called fortnight of joy brings many a pain or inconvenience later on. And the money strain is simply killing. Everyone over-exerting in getting money to spend on gifts that last little and serve less. The poorer the person, the greater the strain. We saw too many faces in the streets with this money strain spread over them to make us think of the joyous time. Let us try and get back to a reasonable Christmas time. Less of spending and what spending there is, let it be for the useful. If we only gave our dear ones wooden underclothes instead of the fancy things of an hour or a week. How a girl would appreciate

three months hence in a spring thaw, the comfort of a pair of the best boots that could be had.

The strain is perhaps curing itself. We see men now who declare that they are discouraging the whole idea and trying to get away from it. That shouldn't be.

Let us keep Christmas, let us feast, let it be a good time, let us give simple gifts to those who are of our own little circle, let us be generous to the poor, let us meet of all bestow encouragement on the struggling and put hope into the hopeless. These things can be done without the awful strain that is making Christmas a burden to those already overburdened.

RE-ELECT CONTROLLER WARD.

During recent years the responsibilities of the city council have been largely increased, not only thru the natural and rapid expansion of the community, but by the addition of new, extensive and highly important administrative departments. Schemes involving considerable expenditures are under way, and the near future will certainly see others of equal or greater magnitude present themselves for consideration and disposal. In these circumstances it is always advisable that there should be as far as possible continuity of policy and that candidates with good records of public service, and in accord with progressive opinion should be elected. Particularly in this desirable when the city is engaged in sharp struggles with its franchise holders for the vindication of popular rights and for proper recognition of the interests of the citizens in public services on which they are immediately dependent.

Among the candidates for re-election to the board of control, Mr. J. J. Ward has many claims that should commend themselves to the electorate. He has been for many years actively engaged in civic administration, and has been a member of the board since its election by the city at large. Mr. Ward has promoted and given strong support to such schemes as sewage disposal, filtration, the high pressure and hydro-electric systems. By his insistent advocacy of waterfront improvement and of the removal of grade crossings, he has identified himself with these excellent proposals, and the elevator by-law, which he was instrumental in procuring, has been a valuable preventive of accidents. Mr. Ward, too, did notable service by introducing to the council the act, subsequently adopted by the legislature, providing for the reference of all franchise grants, extensions and amendments to the electoral vote. On the matters now up for decision he is equally in sympathy with progressive policy and The World is sure will always be found in the front of the battle for public rights.

HE LIKES THE WORLD.

Editor World: To one who has conceived a great fondness and admiration for your beautiful city down there, a very real intellectual pleasure comes in the reading of those two articles in your issue of Dec. 15, "The Globe's Bunkum," and "Decadent Sabbaths." I have not the remotest aspiration to capacity for criticizing favorably, or adversely the viaduct proposition; what elicits my admiration in the "Bunkum" article is the suggestion in the writer

thereof of fair-play, justice, the square deal, untainted with any bias towards either the people of Rosedale or the burgesses of the Don. "Decadent Sabbaths." Here is temperate but vigorous satire; a most refreshing draught to a confirmed atheist and philosopher having for an absorbing hobby the future intellectual and physical possibilities of the race. Here is a rift in the clouds; a veiled claw, if I may thus express it, put forth with a playful pat of admonition against the deplorable shams, the ludicrous inconsistency and the fossilized tenets of ancient, musty dogma which the average mind is too inert, too wanting in robust initiative to face and question. I beg further to assure you, Mr. Editor, of my intention in the future to adhere solely to The World, which has ever claimed my interest and appreciation since our acquaintance commenced two or three years ago.

Judd Haven F.O. Thos. Z. Snow.

TAX REFORM.

Windsor Record: The movement for tax reform grows in Ontario, but all endeavor to better legislation will be futile until some enlightenment of the government in the Queen's Park takes place. To Sir James Whitney, the proposal to ease the tax on improvements and put more on land values is rank economic heresy and he is not the most reactionary in the little coterie that governs Ontario.

SOCIETY FOR REFORMATION OF INEBRIATES.

Editor World: The year 1910 has seen a marked advance in Toronto in dealing with the terrible problem of drunkenness. By unanimous vote the city council has decided to establish an industrial farm near Toronto.

At the present time men convicted of drunkenness are sent to jail for terms of thirty days or more, and often they are not out many hours before again falling into the hands of the police, and going back to jail. There are comparatively few men in Toronto who have served fifty such terms in jail. The system is expensive to the city and ruinous to the drunkard. What he needs is a quiet period in a place where he must work regularly, will have wholesome food and surroundings, and medical treatment suited to his diseased condition. The industrial farm is the place for him. He will be kept there for six, twelve or eighteen months, until, in fact, he has a reasonable chance to be a decent citizen. The confirmed drunkard should be kept in jail for a term, but not merely an awful spectacle of degradation, but an expensive burden to the city.

The new system will be in operation within a few years. Meanwhile the Society for the Reformation of Inebriates is grappling with the problem of the drunkard as best it can. Two officials—a medical officer and a probation officer—are in daily attendance in the police court. About one hundred cases are under daily observation all the time, and these two officers are kept busy looking after them.

Combining medical, moral and religious influences have done much, and there are in Toronto to-day many reformed homes due to the work of the society.

It is in great need of funds, and I trust some of your readers will come to its aid. At the present moment there is not enough in the treasury to pay the expenses for January, but the work must go on.

(Sgd) Geo. M. Wrong, 467 Jarvis-st., Toronto. President.

A GOOD BEGINNING—NEW FIRM'S FIRST CHEQUE.

Gees to Muskoka Free Hospital for Consumptives.

Burruss, Johnstone & Sweetman, insurance agents and brokers, in sending a contribution of ten dollars to the Muskoka Free Hospital for Consumptives, say: "It gives us very great pleasure to have the first cheque of our new firm drawn in favor of the Muskoka Free Hospital for Consumptives, as we are confident it could not be made payable to a more worthy institution, and we only regret we cannot make it for a much larger amount."

Municipal Campaign.

Only four of the candidates for municipal honors failed to deposit their qualification papers with City Clerk Littlejohn before the time limit expired at 2 p.m. Saturday. The chief interest centred in whether Herbert Cawwell would go thru to final process, an impression having gone abroad that he would wait until he saw how his first campaign meeting was likely to develop before he made the plunge. However, in the afternoon, he qualified on property on Cottingham-street, assessed at \$250.

The aldermanic nominees who defaulted were Charles Sher and Charles Eillard. In the second ward; P. W. Benner, in the fifth, and T. G. Matheson, in the sixth. While at Friday night's nominations, Mr. Benner did not make it clear that he would stay in the race, his campaign cards were in circulation as his failure to join the starters caused surprise. Every board of education candidate underwent the acid test.

All indications certainly point to the present being an off year in civic politics. There are three mayoralty aspirants, as against five last year, six for controllerships as against ten, and 31 bidding for seats as aldermen, comparing with 41, the changed conditions respecting the election of the board of education, comparisons are difficult.

Many persons are probably under a misapprehension as regards the election of C. A. E. Brown and Alex. C. Lewis to the board of education in the third ward. It is an acclamation in the sense that both are assured of places on the board, but a vote must be taken for the reason that the election is for separate ballots, and should lessen confusion. The World's advice to electors is to vote "Yes" for each bylaw.

Controller Spence entertained about 400 electors in the Lyric Theatre, Agnes-st., Saturday night, with a series of limelight views illustrating his remarks on civic topics. Jacob Cohen, P.P., presided, and those who spoke during the evening included Mayor

A VENAL VICINITY. Wholesale Arrests for Vote Selling in an Ohio County. PORTSMOUTH, Ohio, Dec. 25.—Fifty arrests were made yesterday in Manchester on charges of vote selling. Five hundred more arrests, it was said to-day, by county authorities, will be made next week. It is now believed the probe will include 2000 men. Judge Blair to-day said at least every sixth man in the county would be the subject of investigation. Up to to-day 114 voters have acknowledged their guilt. Among them is Rev. Hilten of Red Brush, who admits selling his vote in the last election for \$10. On account of the minister's financial condition, the judge made his fine a light one, but disfranchised him for five years.

9. Overture—American Festival..... Wagner

As Between Man and Man

Have you really given the question of what your clothes cost you full and fair consideration? Probably you've drifted into your present way or stuck in the rut made by your ancestors. New methods of merchandising have changed the old ideas about men's garments. You can really economise without sacrificing style. Or, if you prefer it you can get a lot better quality for your money than you are now wearing. Test these statements now that the Xmas rush is over by making yourself acquainted with the Simpson Store for men.

If you put by every year what the store can save you without sacrifice of quality or fit it will soon be a tidy sum.

Ready-to-wear or Made-to-measure.

The best at a moderate price. None better to be had at any price. Simpson's for Men's Clothing.

Of First Interest After the Holiday Furniture Re-covered Free of Charge, Save Only For the Material Used

We have answered hundreds of enquiries made of our Carpet and Upholstery Department during the past few weeks, by announcing that on Tuesday next we commence to take orders for our Annual January No-Charge-for-the-work offer. This means as before:

- Carpets made, lined and laid free.
- Linoleums and Oilcloths laid free.
- Mattings laid free.
- Rugs finished with invisible fasteners and laid free.
- Curtains made and hung free.

- Window Shades made and hung free.
- Lace Curtains hung free.
- Window Poles and Curtain Fixtures hung free.
- Furniture Re-covered free.
- Cushions Re-covered free.

YOU PAY ONLY FOR MATERIALS, NO CHARGE FOR THE WORK.

This offer holds good until such time as we have taken enough orders to employ our staff until the end of January. So we may reluctantly be compelled to refuse your order unless it is in early, and, besides, though our stocks are now large, they will soon be less complete. Come early for the best choice.

Store Closed To-day, Open To-morrow at 8 a.m.

The **SIMPSON** Company Limited
