We are offering a detached central  
residence for sale, especially suit-  
able for converting into apartmen-  
ts. It has eleven rooms, modern bath-  
rooms, lot 50 feet frontage. Price only  
\$10,500.  
H. H. WILLIAMS & CO.  
35 King Street East.

**PROBS: Moderate winds; fine today; a few  
local showers by Wednesday.**

## CHASED BY A ROARING DEMON OF HELLISH GLEE

**Complete Story of the Porcupine  
Holocaust, As Told by the  
World's Special Correspondent—  
Fire Seemed To Lurk  
in the Air and Under Foot—  
Tales of Heroism—Many  
Saved by Waters of Simpson  
and Goose Lakes.**

### MAIN BUSINESS CENTRE OF GOLDEN CITY SAVED

The World received late last night the first communication of any length relative to the big fire in the Porcupine, from Mr. Chas. Fox, the special correspondent of this paper in the mining camp. Mr. Fox passed thru the conflagration safely, but his despatches giving a complete story of the holocaust were held up in transmission by the telegraph authorities, who confined their attention to strictly personal messages, and left the press to secure such details as they could. As Mr. Fox himself says: "I could get nothing thru by wire. The telegraph operators merely laughed at us. They tried to get thru personal telegrams by the thousands, when 300 words to the newspapers would have relieved the situation considerably."

The description of the fire which devastated the major portion of the mining camp as described by Mr. Fox, is at once the most graphic of any story that has been printed. Our correspondent was himself burnt out, and passed thru the horrible situations depicted. His comments on the holocaust, consequently, warrant the attention of everyone desirous of obtaining a complete and sane account of the frightful disaster which has held the continent spellbound since its happening. Mr. Fox's first despatch reads as follows:

**A Roaring Demon.**  
PORCUPINE CAMP, July 12.—A forest fire—a roaring demon of hellish glee, with death looking out from every flame and spark—a wall of flame, unbridled and untamed with mercy, slapped and chased by every current of wind, that is what the Porcupine on Tuesday, personified one hundred times over whatever meaning the above words may convey.

The wind-water combined to work the havoc. Flames chased men, women and children into the lake, where the raining waters swallowed them up. For weeks flames have been raging in different parts of the district with no final fall to check their ravages, and Tuesday morning when the people of the three towns awoke and viewed the force and direction of the wind, preparing to take flight to safety were at once gotten underway.

There was no time for men in the outlying districts to reach a spot or take cover as many have doubtless fallen on the way.

Hurricane upon hurricane rolled over the country, sixty and seventy miles an hour the wind whistled. Flames

### HALTON FARMERS TAKE FLIGHT

Several Shareholders of Farmers' Bank Hope Thru to Dodge Curator.

That several Farmers' Bank shareholders of Halton County have fled to the west with their goods and chattels and money, to escape the double liability, is a surprise which has been sprung on the curator. It has been found, too, that the fleeing farmers have been actin on expert advice, knowing that if they invested their money in western homestead the law would protect them.

Fullly a dozen are said to have departed for other regions, and it is probable that many more are planning the same exit. Not one has gone to the States, as the law would be able to recover the money from them there.

### MIXED MARRIAGE TO BLAME

Albert Pett Paid for Attack on Sister-in-Law.

"It's another case of 12th of July law and mixed marriages," said Lawyer Henderson, counsel for Albert Pett, charged in the police court yesterday with assaulting his sister-in-law, Florence Pett.

The latter, in the witness box, told of receiving from him a black eye and a bruise on her arm. Pett said he and his brother were talking about "religion and the baby," and that Florence butted into the conversation against his orders. He said something which made her angry, and she thereupon threw an egg-beater at him. He said he avoided her, but did not strike her. A black mark under the woman's eye was exhibited against him. However, he was fined \$5 and costs.

### WORKING ON GOVERNMENT MISE.

For the past six weeks, thirty men and fourteen teams of horses have been hard at work leveling and grading the Hurley Park property, where the new government house is to be built, and excavations for the cellar will start in a few days.

The government house is to occupy a site on the west side of the Hurley Park, and will take possession of the site at that time.

### Driver's Leg Broken.

Michael O'Toole jumped from his Gold Medal Manufacturing Co. wagon when his horse became frightened of a street car in the Gerrard-street subway last night. He sustained a compound fracture of his right leg and was taken to the General Hospital in the police ambulance.

## SEARCH PARTIES FOUND NO DEAD

**It Is Believed That All the  
Bodies Have Now Been Re-  
covered From Porcupine  
Lake—Denial of Story That  
Relief Funds Had Been Mis-  
used.**

### Death List 63

PORCUPINE, July 17.—(Special.)—The death list goes down this morning, not up, although it is feared that three missing men at the Powell mine are dead. Two prospectors in Shaw have been located and they may have left the country by way of Night Hawk Lake. The names of Mike Johnson, who committed suicide at Night Hawk Lake Saturday, W. H. Wilson, and a foreigner called Diepp, are reported dead from New Liskeard hospital. Wilson was burnt at South Porcupine, and Diego at the Dome. They had already been counted. The name of John Taylor of Toronto should be struck off the list.

The missing list dwindles as men return from the outside. No dead bodies have been found as far as Flying Post. Prospectors returning from the south report fires, but no loss of life. Not a body has come to the surface of Porcupine Lake since Thursday, and as dead horses came up yesterday, it is believed there are no more dead in the lake. The water is very warm and explosives have been used. The total drowned are: Porcupine Lake 7, Pearl Lake 1.

### Sir James is Home And Not Talking

Premier is Weary After Coronation Trip and Hasn't Shaken Off Holiday Mood.

Wearied after his long trip across the ocean after attending the coronation, Sir James Whitney arrived in Toronto yesterday afternoon and went straight to his office in the parliament buildings. He only spent a short while glancing over his mail and then left for home. When the newspaper reporters called, he was glad to receive them but declined to be interviewed. His suit case lay beside him, all bedecked with steamship and hotel labels.

### SHOULD PATROL WIRES AFTER THUNDER STORMS

Coroner's Jury So Recommends at Inquest on Victim of Live Wire.

"The deceased, John Walker, met his death by accident on July 10, 1911, by coming in contact with a live wire belonging to the Interurban Light and Power Company, Ltd., on Bathurst-st., north of the C.P.R. tracks."

"The jury are of the opinion that the company should have a regular system of wire inspection and especially patrol in time of storms."

"The jury wish to highly commend Mrs. Atkinson for her brave commend in endeavoring to warn the public of the apparent danger."

"The coroner's verdict was returned last night by the coroner's jury. David Thompson stated that he was with deceased at the time of the accident. He saw him lying on his back and buried in the sand, hanging from the southerly pole. Witness saw Walker step off the pavement and apparently take hold of the live wire, which was hanging thru the foliage of a tree and therefore had to see. He gave a warning cry, fell his side, remarking that he was ill right."

Dr. W. D. McNeill of 329 Dupont-st., who attended Walker after the accident, said he found him lying on his back, twenty inches from the fence. After artificial respiration had been tried, he gave deceased's heart a stimulant, but saw no signs of life. Dr. Arthur Jukes Johnson, who performed the autopsy, testified to a small burn on the inner surface of the right thigh and the base of the finger. Robert Johnston, 88 Hocken-avenue, corroborated the evidence of David Thompson.

Those Daughters, superintendent of the Interurban Electric Light and Power Company, thought the cause of the breakage in the wire was either by lightning or the severe wind, causing the wires to connect and one of them to burn off. He said the wires were inspected "ever so often" and taken up every six months.

Mrs. Mary Atkinson testified that there was a terrific thunder storm on the night in question and she saw the lightning strike the tree and it appeared as if on fire. Deceased seemed to fall directly after touching the live wire. The wire must have been down for over two hours.

### VESSELS COLLIDE.

BOSTON, July 17.—While heeling her way thru a dense fog Boston harbor late today, after having been grounded on George's Island for several hours, the steamer Halifax, inward bound from the provinces, collided with the Dominion Atlantic liner Prince Arthur, outward bound. As the vessels were proceeding cautiously neither sustained any serious damage. They struck nearly bow on, the Halifax having some of her plates indented and a small piece of the deck rail broken.

## TO PREVENT OVERLAPPING BILLS ENTIRELY CONSERVATIVES

Unexpected Turn in British Parliamentary Situation—Asquith Would Then Probably Advise King to Create a Large Block of New Peers—Conservatives in Conference

LONDON, July 17.—An entirely unexpected contingency confronts the career of the veto bill to-night. It is a possibility that the house of lords, instead of passing the third reading of the bill with their amendments on Thursday, thus sending it back to the house of commons, for consideration, may reject it, even with amendments, lock, stock and barrel. In that event Premier Asquith is fully expected to announce, as he probably would, that he had advised the King to create a large block of new peers.

The Liberal party is no more anxious for an enlarged peerage than the lords themselves are, but will not balk at the creation of peers if the necessity is forced upon it. The parliamentary program of the Liberals is, as the Rt. Hon. Walter Runciman, president of the board of education, said in a speech on Saturday, "the bill, the whole bill and nothing but the bill."

## FUNDS IN HANDS OF CENTRAL BODY

Ontario Government and Board of Trade Have Definite Plan to Co-operate in Porcupine Relief Work.

The greatest problem now facing the Toronto relief committee in distributing food, shelter and the necessities of life to the destitute people of Northern Ontario is to prevent the overlapping of supplies. So forcibly has this been impressed on the members of the T. & N. O. commission and the board of trade, that a joint conference of the board and commissioners was held yesterday afternoon to decide on a definite plan of action. The unanimous decision of the officials was that henceforth all provisions or money should be sent thru a strong central committee chosen to act in this capacity as official overseers of the goods and funds being sent, and a resolution or declaration of intent was drawn up and signed by J. L. Englehart, chairman of the T. & N. O. commission, and R. S. Goulay, chairman of the Toronto committee.

This declaration, published elsewhere in this paper, has been given to the Associated Press, but would conceal the opinion of all the officials concerned.

**Will Get Complete Report.**  
Steps were taken in consequence to get this centralized committee organized, and a telegram was sent to Toronto this morning with a complete report of the situation in the north as far reached North Bay from all sources. A meeting will be held at noon today to discuss the situation in detail. When Mr. Black's report is read a striking example of this matter of overlapping and misdirection of funds sent was brought out yesterday afternoon. The intentions of course were good, and the funds were much appreciated, but the Toronto committee failed to get control of the money in time to direct it into the specific channels where it was needed most. The case in point was the \$1000 so generously contributed by the American Red Cross Society. As soon as the Toronto committee learned of this handsome contribution, a telegram was sent to Sir Wilfrid Laurier, asking that the money be kept specifically for the foundation of a hospital in Porcupine.

**Money Had Been Sent.**  
The following telegram reply was received by President Goulay last night from Sir Wilfrid Laurier: "Steps

## MADE A ROLLER RINK OF HIS SORE FOOT

Therefore Chatham Merchant Made Swift Pass With Uninjured Member and Punctured Atmosphere With Lurid Remarks—Sore and Sorrowful.

CHATHAM, July 17.—(Special.)—This is the sorrowful story of Harry Ball's sore foot, in which are included the horrifying details of the kick which he had coming against the gyrations of Harriet Carter.

Harriet is a Market-street merchant and is a damsel of tender years addicted to roller skating. And it came to pass upon a day that while Harriet was rolling upon her skates upon the sidewalk that Harry stood at the door of his emporium and gazed upon the view. Now Harry's foot was sore and it also rested gingerly upon the pavement, and Harriet approached apace upon the skates upon the pavement where reposed the foot. And when she passed Harry she not only interrupted the view, but so saith Harry unto the magistrate before whom he was thereafter haled, she interrupted the repose

of the sore foot by passing over the same upon the skates.

At this juncture Harry waxed wroth and became exceedingly enraged by reason of his suffering, and Harriet declares before all men, and particularly before the aforesaid magistrate, that she kicked at her with the foot which was not sore, standing the while upon the suffering member. And Harriet saith also that she remarked unto no one, and, that she was misled by the marks, so that she became sore, even as the foot was sore, and therefore was Harry yanked before the magistrate and was adjudged guilty of assault and impoverished by as much as \$20 and costs of the process.

So that in the end it came to pass that Harry was sore and his foot was sore and Harriet was even also sore.

### CAMPAIGN EXPENSES LIMITED.

WASHINGTON, July 17.—The revised house campaign publicity bill unanimously passed the senate today. It prohibits a senatorial candidate from spending more than \$10,000, a congressional candidate \$5000, requires publicity before election of all campaign expenses, all primary campaign expenditures, and all general election expenditures.

**To Settle Carpet Co. Strike.**  
Hon. Mackenzie King has been asked to do something toward an amicable settlement between the striking employees of the Toronto carpet company and the employers. The weavers have been on strike for over four months and the company still seem determined to fight to a finish.

## WOULD NOT RISK HARVEST— ELECTION

Everything Points to Appeal to the People in Last Week of September or First of October—Will Raise Obstruction Cry Against the Opposition.

OTTAWA, July 17.—(Special.)—No one here sees a way out of the critical political situation which must develop within the next fortnight except a dissolution of parliament and a general election. The only point upon which doubts are expressed and as to which opinions differ is as to the date of the appeal. Government followers want October, which they say is the ideal month, but the coming of the Duke of Connaught early in that month makes the hastening of the election something of a social necessity. If the house sits for three weeks or a month, as is expected, the electoral machinery, if evoked at once, would bring the election on during the harvest. The government will not run the risk of a harvest-time election, even on an issue of which the western grain organizations have declared their approval. The Borden tour, moreover, has solidified the Conservative ranks in the west, if it has done nothing else, and every Liberal vote that can be got out of the prairie provinces is wanted, and wanted. That means an election date coming between the end of the harvest and the arrival of the Duke of Connaught, the last week in September or the first week in October.

Insofar as the reciprocity issue is concerned, parliament is in exactly the same position on reassembling as it was at the time of adjournment in May. The government is as determined as ever to force the agreement upon the country. The opposition is even more determined to oppose the pact with every legitimate parliamentary weapon. That is R. L. Borden's attitude, and the opposition in caucus will undoubtedly endorse it. Caucuses of both parties will be called immediately.

**Chances Against Prolonged Struggle.**  
The chances are all against a prolonged struggle in the house. The seasonal indemnity runs out on Aug. 1. Party discipline will be sorely tried. Keep the bill liberal following the Grand Trunk.

"You can say for me that it is the rottenest deal any body of men ever received," said Mr. Hall. (The strike was called off on the strength of a telegram from Hon. Mackenzie King, which said the men would all be taken back within ninety days from August 2, excepting those who had acted in a violent manner or had done something against the interests of the G.T.R. in their strike on the Grand Trunk.)

Judge Barron was engaged by Manager Hays to investigate the circumstances surrounding the cases reported to him as alleged strikes in the past. This judge did, but made his report only to the Grand Trunk and left the men in total ignorance of its contents.

"Ninety days have now gone by four times and still there are 242 men who have not been taken back."

**Blown 100 Feet High.**  
Three Men Killed When 5000 Pounds of Nitro-Glycerine Exploded.

DENVER, Colo., July 17.—Fragments of human flesh found within a radius of 200 yards, give evidence that three men were killed early today when 5000 pounds of nitro-glycerine exploded, destroying the neutralizing plant and storehouse of the Dupont Powder Company, fifteen miles south of Denver.

The force of the blast was almost entirely upward. Men in the vicinity saw the two buildings rise in a cloud of black smoke, with a circle of flame at its base. When the buildings had reached a height of 100 feet they collapsed and fell in a shower of fragments.

**SIX LEAPED OVERBOARD.**  
Woodstock Girl Was Drowned Before Aid Could Reach Her.

DETROIT, July 17.—Panic on board a launch on the Detroit river to-night, following a trivial explosion, resulted in the death of one person and the narrow escape from drowning of five others. A small quantity of gasoline which had escaped from the engine became ignited and the sudden flash of fire so frightened the six occupants of the little craft that they all leaped overboard.

Miss Mabel Mason, aged 19, whose home is in Woodstock, Ont., says before assistance could reach the struggling party. The others were rescued.

**STOPPED FRENCH CONSUL.**  
TANGIER, Morocco, July 17.—A despatch from Alcázar says that M. Boscq, the French consular agent, while returning from a ramble in the country, was stopped by a Spanish patrol, which attempted to take his charge, in the French consular agent conducted the consul across the city, followed by an Arab crowd, to the Spanish barracks. The officer in charge of the barracks said that a mistake had been made, and allowed the consul to depart, but made no apology for his arrest.

**CYCLONE DESTROYED HAMLET.**  
PORT DEPOSIT, Md., July 17.—A cyclone today practically destroyed Richardson, a hamlet eight miles north of here, and swept everything from its path in Octoraro Valley. A flour mill built to make flour for Washington's army, which was still in operation, was demolished. The total damage is estimated at \$40,000.

**SIX LEAPED OVERBOARD.**  
Woodstock Girl Was Drowned Before Aid Could Reach Her.

DETROIT, July 17.—Panic on board a launch on the Detroit river to-night, following a trivial explosion, resulted in the death of one person and the narrow escape from drowning of five others. A small quantity of gasoline which had escaped from the engine became ignited and the sudden flash of fire so frightened the six occupants of the little craft that they all leaped overboard.

Miss Mabel Mason, aged 19, whose home is in Woodstock, Ont., says before assistance could reach the struggling party. The others were rescued.

**STOPPED FRENCH CONSUL.**  
TANGIER, Morocco, July 17.—A despatch from Alcázar says that M. Boscq, the French consular agent, while returning from a ramble in the country, was stopped by a Spanish patrol, which attempted to take his charge, in the French consular agent conducted the consul across the city, followed by an Arab crowd, to the Spanish barracks. The officer in charge of the barracks said that a mistake had been made, and allowed the consul to depart, but made no apology for his arrest.

**CYCLONE DESTROYED HAMLET.**  
PORT DEPOSIT, Md., July 17.—A cyclone today practically destroyed Richardson, a hamlet eight miles north of here, and swept everything from its path in Octoraro Valley. A flour mill built to make flour for Washington's

### HAMILTON HAPPENINGS

#### TOOK WIND OUT OF SAILS OF BY-LAW'S OPPONENTS

Poor Water Supply Due to Pump Put in by Cataract Supporters Against Wishes of People.

HAMILTON, July 17.—(Special)—Lawyer Martin Malone, who last week filed action to compel the city to improve the mountain residents' water supply, today took the wind out of the sails of the municipal by-law kickers who had gleefully used Mr. Malone's action as an argument against municipal ownership. The cause of the mountain waterworks trouble has been the pump which was installed at the mountain pumping station. As pointed out by Malone today in a published letter, this pump, which was run by Cataract power, was put in by the Cataract supporters and water committee of the 1908 city council after the people had voted against making a contract with the Cataract power company. The electric pump was installed at the time the plant would be better, and subsequent events have confirmed this view.

In response to a petition signed by 200 ratepayers, Mayor Lees this evening announced that a public meeting will be held in the Temple Theatre on Friday night for the purpose of informing the public in regard to the power and light by-law. In the meantime the supporters of the by-law will hold other public meetings, the first of which will take place Tuesday night in the Grand Central Club rooms on South George-street. On Wednesday night the by-law will be debated by the members of the board of trade, and on Thursday night another public meeting will be held.

**Back to Address Meeting.** It is expected that Mr. McNicault, Hon. Adam Beck and Hon. J. S. Hendrie, in addition to Mayor Lees and other prominent ratepayers, will address the Friday night meeting. Allan Stodolme, R.C.A., that douguy warrior for the people's rights, will be one of the by-law speakers at one or more of the meetings to be held by the supporters of the by-law. In fact, so many effective speakers are billed for the public meetings that it will be difficult to find time for all of them. A big Saturday night meeting has been arranged for, but it is not definitely fixed. It is also probable that a meeting will be held next Monday night, the first night preceding the vote on the by-law. E. J. Sifton, the consulting engineer, on whose report the by-law is based, arrived today and will attend some of the meetings for the purpose of explaining all points on which the ratepayers may desire information.

**Will Have Aviation Meet.** The first aviation meet in the history of Hamilton will be held here on July 29, 28 and 29. The same bird men engaged for the Toronto meet, will furnish the attractions here. The affair will be held at a spot on the beach about two miles from the city, and near the radial railway. The flying will be done in the evenings. The meet will be held under the auspices of the Hamilton Auto Club.

**Youth Sent to Central.** NIAGARA FALLS, Ont., July 17.—(Special)—David Goods, 19 years old, was today sentenced to six months in the Central on a vagrancy charge. His youth, whose parents are well-to-do, has given the police trouble for some time.

**Experts Did Not Meet.** Owing to the fact that Mr. Randolph did not reach town, there was no meeting of the board of water experts yesterday. As soon as they have had a conference with the Chicago expert the members of the board will come to some decision regarding the utilization of Lake Simcoe to supplement Toronto's water supply.

**Reaction.** "Last time I saw you, Milken, you were the most cantankerous reformer I ever saw," said Chicago's Mayor. "I've returned."—Chicago Tribune.

### The Sun and 'The Sovereign'

The persons who enjoyed warm weather indoors all last winter lived in houses heated by "Sovereign" hot water boilers.

"The Sovereign" has all the appearance of the old style hot water boiler—but it is different in so many ways that a detailed description would take too long to tell.

We will send you the names of your neighbors who live in houses heated by the "Sovereign" boilers and you may ask them how comfortable they were last winter.

### ENGLISH WORKMAN IS FOND OF HEAVY TONES

#### Toronto Literary Employes Find Him Different Literary Species From Canadian Artisan.

The English workman and artisan is a reader of weighty literature, and for reaction, a reader of much lighter literature. So say assignments of Toronto libraries, who are no longer surprised when a man of uncouth appearance, with an English accent, sits for ponderous biographies and histories, at the same time filling in the non-fiction side of his card with the work of Bertha Clay or a Marie Corelli. It may be that the latter works of the said scribblers are for the little English wife, who has a notorious weakness for following soap-operas. At any rate, the biography is certainly for the stolid English husband, who will sit with the life of the famous great man, and the fiction will click off and the library counts out her daily slips and looks up.

But not so the Canadian worker. Despite a better education than his English fellow, and better opportunities to cultivate a desire for reading while young, he cares little for solid literature, although he often takes gladly to that printed stuff which is not literature, whatever it may be. He goes to work and works as his foreman tells him, without initiative or individuality. The Englishman reads every book that is sent to him, and he knows better than to explain this to the foreman, for bosses hate to be bored.

**Shines at Inquests.** At the inquest, or in the court room, the English laborer can tell a story with a simple, straightforward intelligence that quite makes up for a few grammatical errors. As an instance, a few days ago, at an inquest here, the jury brought in a verdict which relied almost entirely on the evidence of two Englishmen employed on a scaffold, as against the evidence of city officials, architects, and the men on the job.

The question then naturally arises, why aren't these well-read, intelligent, straightforward Englishmen foremen and workmen? Easy. They don't want to be. They haven't the ambition. All they want is to know for the sake of knowledge, not for the sake of any other consideration, as common sense might indicate. That's what is bred into them in England. Perhaps they'll lose it here. And if they do, watch out, Canadian workmen! They'll be busy with Englishmen, sons of the hard and glorious old days who rule the scene.

**Railroad Building in Asiatic Russia.** At the present time Russia has railway communication with her Pacific seaboard only through Manchuria. The present map of Asiatic Russia published during the last eight or nine years, you will find the route of a proposed railway indicated along the Amur River from Khabarovsk to Eryetensk on the Amur, an upper tributary of the Amur that is entirely within Russian territory. According to The Review and Herald des Sciences a credit has been voted for the completion of this railway. Another great project about to be undertaken will give St. Petersburg direct railway communication with the Trans-Siberian via Valika, Perme and Ekaterinburg to Kurgan in place of the old route via Saransk and Urgan. To Kiakta, south of Lake Balkal. This would enable travelers to journey from Paris to Khabarovsk in nine and a half days. —Scientific American.

**Who Owns the Orkneys and the Shetlands?** It is not perhaps generally known that an opinion expressed half humorously by Lord Salween at the opening of the Shetland exhibition in Glasgow with regard to the ownership of the Orkney and Shetland Islands is fortified by very high authority. His lordship, speaking as a lawyer, "is not sure whether the islands do not belong to Norway still, and thinks that legally the crown of Norway, if prepared to pay the money, for which they are pledged, with interest at three hundred years, would be entitled to redeem them. As a matter of fact, plenipotentiaries assembled at Breda in 1665 (a couple of centuries after the islands had come into the possession of the Scottish crown), decided not only that the right of redemption had not then been barred by the lapse of time, but that it was imperishable. The islands were pledged in 1468, so that interest is due for nearly four and a half centuries.—Westminster Gazette.

**Secret of the Ledger.** "What's the reason my son-in-law doesn't speak to me?" asked Mr. Fox. "The duke is very angry," replied his daughter. "He has discovered that you ordered your bookkeeper to charge him with the money for his part in the profit and loss account."—Washington Star.

**His Only Hope.** The doctor stood by the bedside and looked down at the sick man. "I cannot hide from you the fact that you are very ill," he said, "is there anyone you would like to see?" "Yes, said the sufferer faintly. "Who?" "Another doctor,"—Judge.

### FLOOD OF CIRCULARS TO BUILD DALE CHURCH

Unique Appeal Addressed to 27,000 Individuals—Expect To Raise \$25,000.

"Get the roof on" is the slogan of Dale-avenue Presbyterian Church. It will cost \$25,000 to do it, but the pastor, Rev. J. D. Morrow, and his building committee are hopeful, and energetic, too. They are sending out no fewer than 27,000 circulars in an appeal for funds. Most of the addresses are Presbyterians, but not all, for the call is undenominational. Circulars have been sent to a number of outside places.

When is the new harbor commission to be appointed and the many improvements talked about to be started? That's what marine men are asking. All summer there have been complaints from the different companies about the shallowness of the water, and now the water is receding even more, there only being ten feet between the water and the low water mark, and only four and a half inches above zero or ten feet four and a half inches at the Queen's Wharf, the pier at Beach-street.

There are a number of vessels sailing into Toronto harbor that draw more water than there is depth in the channel. About thirty boats are shut out from the harbor, shutting off the eastern entrance, steamers would be in peril and unless admittance could be made by the new channel, in course of time they would have to turn and head for some other port.

In the course taken by the ferry boats, it is estimated that the "Trillium" and "Bluebell" have gone aground more than once this season. So shallow is the water in some places that the ferry boats are only able to carry a very limited number of passengers and these have to remain in the middle or rear sections, and the present harbor commission sanctioned considerable dredging at western harbor on the Cherry tree, the cost of this work was about \$7000 and the only good it did was to make it possible for the Hamilton boats to enter the harbor, but the average distance of their course, to the eastern entrance, so marine men say.

**Much Work to Be Done.** The harbor commission was said to be The World that great changes would immediately follow the appointment of the new commission. There is a great deal of work accumulating, and it will necessitate a number of special sittings and tours of the harbor before very much good can be accomplished. Until the new commission is appointed there is really no body of men upon whose shoulders the responsibilities of the harbor conditions rest and until this new body convenes, the present harbor affairs will not be improved in the least.

The navigation men say there could be nothing more detrimental to the harbor or to Toronto, than to such points as offer opportunity for success, warning against competition—advising the new towns throughout the West as being the most practical lines—the interest in the new harbor is being felt by the Overland Express lines. "When to go to Canada; where to go on arrival; where work is to be found and the wages paid; the climate; the cost of living; the cost of education, which includes such simple details as the price of household necessities." This interviewer also directs men and women to go to such points as offer opportunity for success, warning against competition—advising the new towns throughout the West as being the most practical lines—the interest in the new harbor is being felt by the Overland Express lines.

**MARY MARKWELL**  
Glasgow, July 3, 1911.

### PLENORUM PROGRESS

**Plant Saved From Fire and Development Shows Good Results.** The Plenorum Mines had a fortunate experience in the fire of last week. At one time it looked as if the plant of the mine would be wiped out together with all the camp buildings. The fire reached within a hundred and fifty yards of the company's property, when the wind veered and carried it in a different direction. There was no damage whatever, and operations are going on as usual.

The main shaft is now down fifty feet on a strong vein and the ore is exceptionally rich. Across twelve feet of it visible gold finely disseminated can be seen. Development will go on rapidly and operations will be carried on from now forward with a view to making a permanent mine. There is little doubt that this property is going to prove up one of the foremost in the famous Hollinger district.

### SPLENDID SEA-GOING SHIP

**Steamer Olcott Weathers Forty Mile Gale With Great Steadiness.** The squall which passed over Toronto to about one o'clock on Sunday night was particularly severe on the lake, but it served splendidly to demonstrate the seagoing qualities of the steamer "Olcott." Returning from Olcott Beach with a large crowd of well-satisfied passengers, the vessel ran into the storm when about fifteen miles to the westward. The wind was violent and developed a velocity of over forty miles an hour, striking the steamer broadside. But notwithstanding the quick rise and the heavy sea, which made the deck very slippery, the passengers grew at the steadiness of the vessel. Hardly any motion was felt, and the satisfaction of the delightful recreation facilities afforded by Olcott Beach, will make this trip one of the most popular out of Toronto.

### PILES

Dr. Chase's Ointment is a certain and guaranteed cure for piles, every form of itching, bleeding, and protruding piles. See testimonials in the press and ask your neighbors about it. You can use it and get your money back if you are not satisfied. Price, 50c. all Dealers or EDWARDS, BARR & Co., Toronto.

### MARINE MEN RESTLESS OVER HARBOR DELAYS

They Want the Commission Appointed and Quickly Too—Low Water Level Makes Worry.

Canada is very much to the fore just now over in Glasgow. The great exhibition is on, and crowds extraordinary are daily doing business at some seven different gates, where a shilling entry fee lets in to all the delights of the old world and that of the new.

As usual, the Canadian Pacific Railway is doing a great work by showing, in a most artistic pavilion, varieties of goods, produce, and game. The products are also seen in historic groupings of its Scottish pioneers—this happy idea bringing together the interests of the British West and the Canadian West, of Yukon fame; McLeod, of the pioneer N. W. M. Police Force; Macdonnell, of Glangarr; Sir George Simpson, the pioneer governor of the Hudson Bay Company; "Donald A." driving the last spike of Canada's great transcontinental railway, and such like scenes, together with great wheat fields of the prairie west, and a pulsing picture of a C. P. R. transcontinental train crossing the prairie, in an appropriate framework of yellow grain and the straw. The pavilion is lighted by dome lights, and a rich picture border of Canadian views, with Indian canoe, and the heads of wild animals, of mountains and plain. A central cabinet of immense proportions shows a finished design of one of the large greyhounds of the Atlantic route, and a table with "Take One" texts is strewn with a rich and varied collection of illustrated booklets on Canada—East and West, open to the passer-by.

An adjoining apartment, seating about 200, holds a cinematograph outfit, which draws immense crowds from morning until evening, and for the night. This illustrated form of Canadiana is the best possible kind of advertising. Many a canny Scot has been drawn to Canada by this telling story of "Life on the open plain."

The C.P.R. has introduced a new feature this year by having an "Old Time" hour on the Glasgow, the hour concerning Canada. This is proving a great success, as it is carried out along the most practical lines—the interest in the new harbor is being felt by the Overland Express lines.

**REV. J. D. MORROW.**  
Including Hamilton, Ottawa, Brampton and Brantford. If each note for the average one dollar, hopes will be realized.

The circular asks: "Does Morrow's great call mean anything to you? Must Dale Church go to the wall?" and concludes:

The staggering blow of our minister's breakdown, owing to the struggle with the church, and the decision of the court, meaning a loss of \$10,000, puts Dale Church and Morrow's unique work in the balance. "We are sending out this appeal to Toronto Presbyterians, trusting you will come to the rescue."

**BY LAKE AND RAIL.** The increase of steamboat freight business was illustrated yesterday when the R. H. O. steamer "Belleville" did not arrive until after noon, instead of 5 p.m., Sunday.

The Ontario and Quebec Navigation Company's new vessel, "Gerona," now being completed at the Collingwood shipyard, is expected to arrive in Toronto harbor on Thursday. She is 217 feet long and has 250 staterooms. The G.T.R. and C.P.R. are equipping their fishing boats with air brakes, whereby the train can be brought to a standstill very quickly.

**WEDNESDAY EXCURSION TO OLCOTT BEACH**  
Round Trip 75c.  
Steamer Olcott, Toronto, Yonge-st. wharf, 7:30 a.m. and 2:30 p.m.

**CITY'S SHARE \$20,237.**  
The city has received a cheque for \$20,237 from the Toronto Railway Co. as its share of the gross receipts of the company for June, these amounting in all to \$401,186. The city's share for the month was thus 5 per cent. It will be the same for July and August, but in December it will drop to 8 per cent.

**W. J. MCCART MISSING.**  
Mrs. McCart of 49 St. David-street, St. John, N. B., writes Mayor Geary regarding her son William J. McCart, who was working at the Dome Mines, Porcupine, before the fire. Since the great disaster she has had no tidings of him.

**Liquor & Tobacco Habits**  
A. McTAGGART, M.D., C.M., 75 Yonge Street, Toronto, Canada. References as to Dr. McTaggart's professional standing and personal integrity, by Sir W. R. Meredith, Chief Justice, Sir Geo. W. Ross, ex-Premier of Ontario, Rev. N. Burwash, D. D., President Victoria College, Rev. J. G. Stewart, B.A., D.D., Secretary Board of Moral Reform, Toronto, Right Rev. J. P. Sweeney, Bishop of Toronto, Hon. Thomas Coffey, Senator, Catholic Record, London, Ontario.

Dr. McTaggart's "Vegetable Remedies for the Liquor and Tobacco Habits" are healthy, safe, inexpensive, home treatments. No hypodermic injections, no publicity, no loss of time from business, and a certain cure. Consultation or correspondence invited. 247

### SHOWING GANNY SCOTS WHAT CANADA OFFERS

C.P.R.'s Artistic Exhibit at Glasgow Fair is a Powerful Colonizer.

Canada is very much to the fore just now over in Glasgow. The great exhibition is on, and crowds extraordinary are daily doing business at some seven different gates, where a shilling entry fee lets in to all the delights of the old world and that of the new.

As usual, the Canadian Pacific Railway is doing a great work by showing, in a most artistic pavilion, varieties of goods, produce, and game. ### LITTLE DAMAGE DONE

Good News From the Dome Extension That Points to Great Things Doing. Official information has been received from the Dome Extension Mine, to the effect that the total loss in the second fire will not exceed a hundred and fifty dollars. The only damage done was the burning of a little lumber, and the melting of some rabbit metal. Part of the new machinery which was installed in the mine, and therefore suffered no damage. The rest of it will now go in as quickly as possible. Captain Anchor and his men are again on the property, comfortably housed in tents.

Work will be resumed within the next few days on a shaft about six hundred feet east of the main shaft. The new shaft will be put down in the centre of anore body, about one hundred feet wide. This body of ore is no doubt an extensive one, and is being sunk on, and is probably a bulge of the vein on Dome, similar to that which occurs on the big Dome. In this ore body there are numerous quartz veins that are very high in value, and the schist between them also pans gold.

It is believed that fifty or a hundred feet down all these veins will be found to become a compact body of quartz. The sinking of the main shaft on the thirty-six foot level will probably be resumed in about a week. This shaft is down 110 feet. A cross-cut will be run from the 100-foot level to cut the vein, but before starting a sump 35 to 40 feet deep is necessary. It is expected that in a couple of weeks the cross-cut to cut the vein will be started.

**Band Does Preston Honor.** A large number of Toronto's citizens heard the Silver Band of Preston, which was an extensive band, on Saturday and Sunday, and words of commendation were heard on all sides. It is certainly to the credit of Preston that it is able to send a band here that arouses interest, and favorable comment among people who hear as much band music as Toronto citizens.

Some time ago when the question of a band was mooted in Preston the matter was at once taken in hand by several of the leading citizens. They were fortunate in securing John Hollinger as conductor and the band has made wonderful progress.

A great deal of the credit is due also to the whole-hearted manner in which the band has been supported by the citizens of Preston.

**Recovered His Senses.** NIAGARA FALLS, Ont., July 17.—(Special)—W. H. Shawn, Carrollton, Georgia, who was suddenly robbed of his senses while in the Cave of the Winds, recovered to-day. His case had baffled frontier physicians.

The "DAVIS' PERFECTION" 10c Cigar cost a dollar, it would be cheap to the smoker who delights in a MILD AND FRAGRANT CIGAR.

"PERFECTION" is not a "stroke of good luck," a "chance" or a "caprice."

IT WAS THOUGHT OUT BEFORE IT WAS BROUGHT OUT.

There was a demand for a better 10c cigar, and S. DAVIS & SONS, with fifty years' experience, were able to meet the demand.

Ability and Experience met, and the result was the "PERFECTION" 10c Cigar — a blend of the world's choicest tobaccos.

MILD, YET EXQUISITELY FRAGRANT

Makers of the Famous "NOBLEMEN" 2-for-a-quarter Cigar

DENHAM DEFEATS ST. BASS BY HALF A DOZEN LENGTHS

King's Plate Winner Sulks at Windsor—Stake Race Goes to Moisant.

WINDSOR, July 17.—To-day's feature races at Windsor were a steeplechase over the short course, the Edgewood Stakes for two-year-olds and a race that called for horses foaled in the Dominion of Canada. The latter event proved an easy victory for the Valley Farm Stable horse Denham, who spraddled his field and won in a romp by half a dozen lengths. St. Bass showed a wretched performance. He sulked all the way. The Edgewood Stakes resulted in a runaway victory for Moisant, who outrun her field, and, after leading all the way, edged long enough to beat the Hildreth entry, Gold Blade, out half a length. The attendance was again large, the crowd being swelled by the arrival of many turfmen from Latoria. Weather clear; track good.

The World's Selections BY CENTAUR

Windsor—White Cap, Satl, Ondra, Martin, Night, Naushon, Countess, Merrim, Supervisor, Naughtly Lad, Oehre Court, Communion, King Avondale, Mexicana, Col. Ashmeade, Blackford, Aspirin.

To-Day's Entries

Windsor Program. WINDSOR, July 17.—The entries for Tuesday are as follows: FIRST RACE—Three-year-olds, Canadian-bred, foaled in the Dominion of Canada, 4 1/2 furlongs: 1. Hook Spring, 103; 2. White Caps, 116; 3. Steambot, 104; 4. Onrannon, 118; 5. Valley Farm entry.

THE ENGLISH ATHLETIC CHAMPIONSHIP WINNERS.

The English athletic championship meeting held at Stamford Bridge, London, on July 1, was nothing short of an out-and-out international fixture, as there were men there from all over Europe and this continent. Of the 14 events on the program three went to Germany and the same number to the United States, while Canada and Finland got one each. Ireland got two and this leaves England proper with four events. Also no records were broken in this meet full of surprises and the keenest competitions. Ramsdell won the 100 yards by a foot from W. H. A. Davey, a young sprinter of the Polytechnic Harriers, and he won the 200 yards by inches from Halhausa of Canada. Harry Gisinger was a heat of the half mile, but he could only make a poor fourth in the final.

St. David's Defeat Dovercourt.

St. David's defeated Dovercourt at Lakeside Grove Saturday by 44 to 22. For the winners, Lee and Skyvington betted finely, and for Dovercourt, Watson betted well. This makes St. David's sixth successive win. Score: St. David's 44, Dovercourt 22.

Canadian Horses For Port Huron

Big Entry for Four Days' Meet That Opens To-Morrow. PORT HURON, Mich., July 15.—With about all of the horses that have figured in the Michigan circuit meetings, and the addition of a number of the winners from Canada circuit, it is expected that there will be some fun on the local track next week. The entry is much better than at the three cities that have gone before it, and there will be four days of sport.

BRISK SALE AT MAHER'S FAIR PRICES FOR HORSES.

The auction sale at Maher's Horse Exchange, 112-114 King Edward St., Port Huron, Mich., was characterized by brisk bidding, fair prices and a large number of horses sold. Despite the late hour, the attendance was very large, bidding along quite a number of buyers.

W. Weir Wins Heather Quoting.

Daniel Weir, an old-time London player, gave F. Gallagher of the Heathers a very interesting game in the second draw. W. Weir won 2-1.

Olympic Club Boule.

Knockout boxing at the New York Light House, 104 Madison Ave., started at 8 o'clock on the night of July 15, with 16 bouts and a crowd of 2000 people.

War Canoe Race at Beach.

The war canoe race for the Scarborough Beach trophy will be held at the Kew Beach Athletic Association's regatta on Civic Holiday, Aug. 7. The race on July 11 will be given by the K.B.A.A.

TUESDAY MORNING, JULY 18 1911

COUNTRY CROWN ATTORNEYSHIP

One important task confronting Sir James Whitney on his return—the appointment of a new country crown attorney in the room of the late Mr. James Baird, K.C. Sir James will find on enquiring that there is but one name in the public mind in connection with the vacancy—that of Mr. T. Louis Monahan.

VETO BILL AMENDMENTS.

Lord Lansdowne's amendments to the veto bill, which will come before the house of commons this week, are so preposterous as to leave no opening for compromise. Not only do they maintain the power of the Conservative majority to impose its will on the representative chamber, but impose it to a greater extent than has been exercised since the Reform Act of 1832.

REAL ESTATE MEN ARE LAND BUTCHERS.

The men who opened North Toronto, any others who have opened up suburbs of Toronto, are described by The Telegram as farm land butchers. Was James Beatty a land butcher when he opened up Parliament-street, the men who opened up West End, Toronto, and the men who opened up Yorkville, Parkdale, Leslieville, West Toronto, East Toronto, Deer Park, Don-wood, etc.? Is Home Smith a land butcher in regard to the Humber? The land butchers live over the Don and up Yonge-street in the area of the Telegram. And yet Toronto is three and a half miles to the north and North Toronto taken in will make the Yonge-st. length of the city only seven miles to a ten-mile front. What did North Toronto or over the Don ever do to the Telegram?

COMMERCIAL UNION THE ISSUE.

Even more than its accustomed zeal is required from the Globe when it comes to the issue of commercial union. It is not in the least necessary for this result that there be any formal union or that there be a treaty requiring the tariff law of either country to be dependent on or to be controlled by the course of the other. Identification of the markets of two contiguous countries, each of which maintains a tariff against other countries, cannot occur without practical commercial union and the creation of interests common to both from which the nations affected by the tariff are excluded. The Globe seeks to turn the edge of this self-evident proposition by referring to the operation of the most favored nation clauses in British treaties by which Canada is set bound. But the imports from these countries are negligible and the reciprocity deal are negligible and the fact which the world ignores is the fact that Sir Wilfrid Laurier, at the imperial conference, preferred a request, equivalent to a demand, that those clauses be modified to exclude Canada from their operation. If the effect of reciprocity and of this re-arrangement is not commercial union between the Dominion and the Republic, so far as the subject matters of the reciprocity deal are concerned, it is something like a man who asks to be indemnified for the loss of his property.

THE PREMIER'S RETURN.

Welcome home, Sir James! We have been doing heaps of things since you went over to crown King George, and with the exception of a bad 'blaze in the back lots, Ontario is looking fine. You will find that the country has not been standing still. Some good things have been growing better and some bad things have been growing worse, and we have no doubt you will be able to discriminate among them.

TOO EXPENSIVE FOR TREATING WATER.

The treatment of water with chlorine of iron may be effective enough, but very little experimentation has been done along this line," said Dr. Nasmith, the city bacteriologist, yesterday, when shown a letter to The World from Hamilton referring to this matter. "Its value in this respect is, therefore, practically an unknown quantity. It is also very much more expensive than the method we are at present employing."

FOUND DEAD.

—This afternoon the dead body of Mrs. Mary Pallister, aged 66, was found in her room in the Golden Lion Block. She had been dead four days and her remains were badly discolored. She retained a good head and had no friends in this country. She was a Belgian.

16 YEARS GUARD AT PENITENTIARY.

—KINGSTON, July 17.—(Special)—A guard at the penitentiary here this evening while dumping from a sand scow to the dock fell between the two striking his head against the guard beam of the scow. His body was recovered.

TARIFF REDUCTION IN THE STATES.

According to the despatches of yesterday there is every indication that as soon as the senate and the house of representatives are thru with reciprocity they will pass a sweeping reduction of the tariff in regard to the wool schedule, at least, and probably in regard to some other schedules, and put it up to the president to sign or reject these measures.

INCONSIDERATE SMOKERS.

Dr. Harvey W. Wiley says "a man has a perfect right to smoke, chew or dip snuff in his private sanctorium, but he has not the shadow of a right to inflict unwholesome smoke and his vile breath on the community at large." There is not a smoker in the country but will resent such an invasion of his liberties. What would be the good of smoking if it was not permitted to puff it out in anyone's face anywhere at any time? Smokers pay taxes for the streets, and if non-smokers do not like the tobacco-laden atmosphere they can stay indoors. Dr. Wiley evidently has no consideration for the smoker. Some one must be considerate, and the smoker won't.

KINGSTON SUNDAY CARS.

Rev. Mr. Rochester of the Lord's Day Alliance takes exception to the statement in connection with his campaign at Kingston over the Sunday cars that "this appearance of being active for the purpose of stimulating subscriptions is a melancholy reflection on what masquerades as Christianity." We can readily believe that Mr. Rochester has no thought of subscriptions, and no doubt the Alliance will now discontinue its appeals. Mr. Rochester is not opposed to Sunday cars in Toronto because they are legal in this city, and the fourth commandment has been abrogated here to that extent. But in Kingston he holds that Sunday cars are illegal, and the Decalog holds good through.

THE PREMIER'S RETURN.

Welcome home, Sir James! We have been doing heaps of things since you went over to crown King George, and with the exception of a bad 'blaze in the back lots, Ontario is looking fine. York County and Suburbs

RAINS DOING GOOD TO YORK COUNTY FARMS
Harvesting Delayed, But Farmers Are Not Worrying—Oats Are Filling Well.

York County farmers are enjoying refreshing showers these fine summer days, and although harvesting operations are being delayed considerably, they do not mind that confident in the knowledge that the rains are doing infinitely more good.

In some districts, notably the lower end of Markham Township and the upper-end of Scarborough and north of that again, a good deal of having yet remains to be done, and at the present rate of progress it will be a long time before it is finally wound up.

Barley and oats are coming up fast, but the soft condition of the land in many places will not permit the binder to go on. Fall wheat is generally stored, and it looks as though, while the straw is short, the grain will be a fair average sample.

The brightness of the straw indicates that blight has not affected this year. Barley, too, in spite of all the gloomy prognostication, will be a pretty good all round crop, and the late rains have enormously benefited the late oat crop.

Where corn is turning brown and parched looking, they have in large measure regained that dark green so pleasing to the eye and indicative of good conditions. The oat crop will be immediately improved, has been, in fact, and nobody who knows anything of the situation of York County, and incidentally the central counties, will doubt it for a moment.

Reports reached The World yesterday from Scarborough Township that the slawke was sprouting, due to the damp weather, and that it would be seriously injured, and it is too soon to hazard a guess as to the widespread prevalence of this; but at the worst, this will not be such a serious matter, as many farmers are generally acknowledged to be about the poorest in the county, so that in the event of the damp weather, as has been said, causing it to sprout and injure the seed, it will not be so bad as in other years.

The Cook's "Day Off"

You have to give her a day off from the hot kitchen. The cook's "day off" is generally an "off day" for the entire household. It is a day of short rations and unsatisfied hunger. It need not be an off day if you have

SHREDED WHEAT BISCUIT

In the home—the food that is ready-cooked, ready-to-serve, full of nutriment and easily digested. You can prepare a delicious, nourishing meal with Shredded Wheat Biscuit and Triscuit without building a fire in the kitchen. Place two Biscuits (whole or crushed) in a deep dish and cover with berries of any kind—raspberries, blackberries, huckleberries or other fresh fruits—and then pour over them milk, adding a little cream and sugar to suit the taste. Serve Triscuit instead of ordinary toast with butter, soft cheese or caviar. It is a crisp, delicious snack for the Summer days.

Shredded Wheat is ready-cooked, ready-to-serve. It is made of the whole wheat, steam-cooked, shredded and baked—nothing added, nothing taken away—the cleanest, purest, most nutritious of all cereal foods.

MAKE YOUR "MEAT" SHREDED WHEAT
Canadian Shredded Wheat Co., Ltd., Niagara Falls, Ont.

AUTO FOR SALE

A 4-Cylinder McLaughlin Buick in good running order, 24 H.P., 5 Passenger. Very cheap for cash. WAVERLEY GARAGE 130 Simcoe Street

GLENERGAN SCOTCH WHISKY

A blend of pure Highland Malts, bottled in Scotland exclusively for Michie & Co., Ltd. TORONTO.

All sorts of rumors are afoot as to the final disposition of the Metropolitan Railway and its removal for freight purposes from Yonge-street, but it is morally certain that nothing of any importance will take place until the question of annexation is finally disposed of.

Discussing incidentally the matter of annexation on Saturday afternoon, J. W. Moyes said he has always contended that all that portion north of Eglinton-avenue ought to be included in the city. Within that area who have every possible conformation that the annexation to the city to the south of the area I have named includes what is known as the "Old Bay Block," so there you are.

Scores of North Toronto citizens are anxious as to the time of the next meeting of the city council regarding the matter of annexation, and it is possible that the northern men will invade the city hall in force, drawn thither by their anxiety with respect to the fate of the project.

WEST TORONTO.

WEST TORONTO, July 17.—(Special)—Arrangements have been completed for the fifth annual excursion and picnic of the West Toronto business men, which takes place at Catharines on Wednesday next. All day and night will be closed all day Wednesday evening to enable customers to do the following day's shopping. A large program of sports, consisting of 28 events has been prepared and valuable prizes have been donated. A series of baseball between the merchants of the north and south will be played and a championship game will increase between the Junction Shamrocks and St. Catharines on Saturday afternoon at 4 p.m.

The funeral of the late Robt. D'Este, who was one of the victims of the recent disaster in Porcupine, will be held to-morrow afternoon to Prospect Cemetery. Rev. T. Beverley Smith will conduct the service. Mr. D'Este was an old West Toronto boy, having lived with his mother on Quebec-ave. for the most of his life before removing further east a few years ago.

An honor has come to McCormick Royal Black Preceptory, L.O.L., No. 2742, in the award of first prize given for the best dress exhibited at Markham on the twelfth celebration at Markham this lodge is the regulation frock coat and silk hat, and its exceedingly neat appearance has often been commented upon.

The old Carlton fire hall, now fire station No. 21, is being renovated and a new addition is being built to it by the department. In the meantime the premises are occupying temporary quarters in the Hayden House, corner Ford and Davenport-sts. The improvements consist of a new stable and extra rooms, a new sitting room and five new bedrooms being added. In addition to this, the station has received a new team of horses.

Two young girls, Sarah Cable and Mary Busby, were arrested to-day on the charge of vagrancy. They claim to have been rooming at a two-room house on Primrose-ave. and are identified as the pair who eloped a few days ago with two men from the Wild West.

Niagara Falls, Ont., July 17.—(Special)—M. P. Priddy to-day received his appointment as holder of the fourth division court, to succeed James Jones, who died last week.

JOHN GAT

Clearing Assorted lot of silk remnants and Clearing at

Evening Fabrics

Beautiful selections of fabric, silk, muslin, etc. Regularly \$1.50.

Big Bargain In Table

Pure Irish linen, made in the mill, only 10c. Regularly \$1.10.

Italian Rugs

Beautiful range of Italian rugs, Persian, Turkish, etc.

Linen Covers

Embroidered designs, in yellow, blue, pink, etc. Cotton Turkish and well worn.

Boating

Lovely stock of knit wool and other summer goods, etc.

Bath Towels

Specialty imported from Turkey and well worn.

Medical

The following have passed the examination:

Gordon Grote, B.A., M.A.; Gordon G. A. Crescent; William Bismarck-ave.; Arthur Dufferin-st.; 67 Dufferin-st.; Stables, 1168 Colborne-ave.; J. G. Whittemore, 152 Martindale-ave.; William O'Sullivan, 185 Queen-ave.; Robert Campbell, 28 Eglinton-ave.; David Bell, 1157 Eglinton-ave.; Ewart Ferguson, 1157 Eglinton-ave.; J. Forster, 1157 Eglinton-ave.; Arthur Beverley-st.; L. G. Archibald Mackenzie, 1157 Eglinton-ave.; Frank Steadman, 1157 Eglinton-ave.; Jack Johnston, 1157 Eglinton-ave.; Harry Jamieson, 1157 Eglinton-ave.; Rosalind Palmerston-bldg., 1157 Eglinton-ave.; Guy Halifax, 1157 Eglinton-ave.

SECTIONS

The three sections which were referred to John-st. dock are now ready for length.

The section of the Great Eastern found in perfect shape has also been placed on the line and the whole pipe placed and the entire water line 2100 feet section from the Atlantic to the Pacific, and from which is shown the line of the Grand Trunk Railway System, the Grand Trunk Pacific Railway and their connections.

A page is devoted to sleeping and parlor cars, and another to the tariffs of the cities of Montreal, Ottawa, Toronto, Hamilton, London and Chicago.

As much information as possible has been embodied in this publication, and the information has been so arranged as to make the contents as plain as possible. It can be done with a railroad folder.

FORMONA

A powder for hair, which is guaranteed to keep the hair soft and glossy. It is a perfect hair restorative.

Lack of Bricks

Work on the new bridge will be delayed through lack of bricks. The supply of bricks is so low that it is probable that the bridge will not be completed until the fall.

FARMING AND LIVESTOCK EDITION

Commercial Reports & Coarse Grains on Down-Grade Wheat Market Slightly Firmer

Sharp Slump in Oat Pit at Chicago on Better Harvest Reports—Wheat Has Turn for Better.

CHICAGO, July 11.—Apparently well authenticated reports of frost in Manitoba helped the wheat market to-day to rally, notwithstanding a sharp break in prices for coarse grain. Wheat closed a shade to 1/4c net higher, but corn was off 1/4c to 3/4c, and oats at a decline of 2 1/2c to 2 3/4c.

Chicago, July 11.—Wheat trading left provisions less expensive by 1/4c to 3/4c. During the session September wheat ranged from 75c to 85c and closed at 85, a net gain of a shade. In the corn pit, however, a heavy shower yesterday, a decided change of sentiment took the place of the buying fever of last week, there was heavy selling pressure, especially on the deferred months. September ranged between 64c and 66c, closing weak at the first named figure, a net loss of 1/4c.

Cash grades were depressed. Oats suffered severely from weakness all day. Thrashing returns were ahead of what had been expected. As if to make matters worse, each successive break in prices had the effect of frightening buyers off, rather than stimulating a desire to purchase. Speculative holders appeared to be unloading all that they could dispose of.

Provisions sagged for lack of support. In the end pork was off 10c to 25c, lard 12 1/2c to 17c to 20c, and ribs 2 1/2c to 15c.

Receipts at Primary Centres. Receipts of wheat in car lots at primary points, with comparisons, week by week:

Table with columns for Wheat, Corn, and Oats, showing receipts for various weeks.

Visible Supplies. A comparison of visible wheat grain supplies in the United States this week and on the corresponding dates of the past two years is as follows:

Table showing visible supplies for Wheat, Corn, and Oats across different years.

World's Shipments. The weekly world's shipments of grain, with comparisons, follow:

Table showing world's shipments for Wheat, Corn, and Oats.

Liverpool Wheat Market. LIVERPOOL, July 11.—Wheat opened firm with the principal support in demand. Buying was largely by shorts; bull there was support by prominent in the market.

Russian Crops. Russian special news service says: Southwest weather favorable, but more talk damage to winter. Prospects poor. Spring outlook uncertain, but present weather favorable.

Talk of Export Trade Helps Wheat Market

Brokers' Comment on the Grain Exchange—Corn and Oats Lower.

Wheat—Considering the action in coarse grains for the day, a break of 1/4c to 3/4c all around, the wheat market certainly showed good support in closing a shade better than Saturday. The active markets. There was splendid action in the market both early and late. In a way the early break in wheat was nature's gift, as the northwest had lower temperatures, as there was nothing particularly bullish in view at the time regarding the spring crop.

Finley Barrell wired: Wheat—Reports of frost in the Canadian Northwest turned a weak early market into a strong one. Selling was overdone on the early slump and shorts came in on the bulls.

Wheat—There was a better demand for cash wheat locally, particularly for No. 2 hard winter. Fair sales were reported to eastern exporters.

Liverpool Grain Prices. LIVERPOOL, July 11.—Closing—Wheat—Spot steady; futures steady.

Montreal Grain Prices. MONTREAL, July 11.—Outside of sales of a few loads of Manitoba wheat for export, a quiet business over the table in all lines was quiet.

Montreal Dairy Prices. MONTREAL, July 11.—Cheese is strong and butter quiet. Prices are as follows:

New York Cattle Market. NEW YORK, July 11.—Receipts—254 head. Steers, steady to 1/2c lower.

Chicago Live Stock. CHICAGO, July 11.—Hogs—Receipts, 24,000; market steady; butchers, \$6.20 to \$6.50.

Canadian Northern Earnings. Week end July 11. 1119,396,700; 1117,500,000; 1115,200,000; 1113,200,000.

Buffalo Live Stock. BUFFALO, July 11.—Cattle—Receipts, 370 head; market slow, 1/2c to 1/4c lower.

Liverpool Cattle Market. LIVERPOOL, July 11.—Cattle—Receipts, 100 head; market slow, 1/2c to 1/4c lower.

Two Swift Brothers. L. F. Swift and Brother, Guss of Chicago were visitors at the Union Stock Yards yesterday.

HEAVY CATTLE STICKY BEST BUTCHERS FIRMER

Exporters 10c Lower—Best Butchers 10 to 15c Higher—Lamb \$3 Per Cwt. Lower.

Receipts of live stock at the Union Yards were 86 carloads, consisting of 130 calves, 299 hogs, 833 sheep and lambs, 34 calves, and 17 horses.

Trade in the cattle was not as good as it was a week ago, being only medium to good as a rule.

Exporters. Trade in exporters was dull at about 20c per cwt. lower than the market on Monday last, and the common to medium quality of London, 120c each.

Best and pickier butchers sold at \$5.75 to \$6.00; common, \$5.50 to \$5.75; cows, \$4 to \$4.50; lambs, \$4 to \$4.50.

Milk and Cream. A moderate supply sold at \$4 to \$4.50 each, and one choice cow reported sold at \$7.

Representative Sales. Rice & Whaley sold: Exporters—18, 1222 lbs. at \$6.20; 1212 lbs. at \$6.10.

Porcupine Activity Resumed

McCosh Claims Sold

Market Not Yet Come to Itself Prices Record Further Declines

Porcupines Make Orderly Retreat Under Selling from Nervous Holders—Preston East Dome a Strong Spot.

World Office, Monday Evening, July 17. Listed Porcupine stocks were clearly under the influence of liquidation in today's exchanges, prices showing a tendency to sag whenever selling of any account was indulged in by floor traders.

The net result of the trading was a number of declines in the generally active issues, and while these were confined to small volume in the majority of instances, they nevertheless served to demonstrate that the immediate trend was not in favor of an upward movement.

It is the consensus of opinion among local brokers that it will take some days for the market to come to itself again. The recent fire caused considerable apprehension among holders of stocks, and, until liquidation emanating from these nervous speculators is disposed of, the market is more likely to back and fill than to show any definite trend.

The general list recorded small declines, an orderly retreat from the high figures at the opening being the rule. Dome Extension opened at 87, off half a point from last Friday, and went down to 85, and closed still lower. Vipond lost 2 1/2 points to 55 1/2, and closed bid at that figure.

The higher priced Porcupines did not reach the figures touched at the close last week. Hollinger opened at 13 1/2, and after moving up 12 points, lost all its gain and five points additional.

Foley-O'Brien got as high as \$124, but was sold in the afternoon. Rea was lower, selling down to \$5.55.

In the Cobalts there was practically nothing doing outside of a slight flurry in Beaver and Timiskaming.

Both these issues were in demand early in the day, but this flattened out in the afternoon when the price in each instance dropped back again, closing at the low quotation for the session.

Half-Yearly Report Of Trthewey Mine

The Trthewey Mining Co. sent out a half-yearly statement with the check for the 10 per cent quarterly dividend now being paid.

The financial statement shows that after the dividend paid in January last the Trthewey had \$100,000 on hand. Production for the six months has been at the rate of 100,000 ounces of silver a month, or \$50,000, equal to \$300,000 for the half year.

After paying \$100,000 of the recent dividend, it is July 10 the company carried forward a balance of \$104,603.45, so that the expenses operation in the six months have been practically \$200,000, or at the rate of over \$33,000 a month.

AT LUCKY CROSS MINE.

J. W. Vandergrift, who is in charge of the Lucky Cross Mine at Swastika, wires as follows: Made another strike of free gold Saturday on Lucky Cross Mine. Vein is three feet wide and is best made on this property to date. Excellent find of gold was made on Reeves claims Thursday and is considered valuable. Swastika in no danger of fire.

PRICE OF SILVER.

Bar silver in London, 24 1/2 oz. Bar silver in New York, 23 1/2 oz. Mexican dollars, 45c.

Closing Quotations.

BUFFALO PORCUPINE BUYS McCOSH CLAIMS

Spectacular Property, Neighbor of Dome, Passes Into Hands of Strong Company.

An evidence of the quickened interest in the Porcupine gold area is to be found in the news which leaked out last night of the transfer of the well known McCosh claims, which several influential syndicates have endeavored to secure since the discovery of spectacular showings of free gold thereon.

The Buffalo Porcupine Gold Mines, Limited, a good deal of local capital is represented in the transaction and the negotiations were completed upon behalf of the purchasers by the firm of J. H. Jewell & Co. of Toronto, which has handled several large deals in Porcupine properties of late.

According to the report of Mr. Moxy Bates, the well known engineer, the vein on lot number 938 is at least five feet wide and probably wider. As only the south wall was shown at the period of examination, the vein has been traced by the adjoining claim where stripping has disclosed a large number of free gold showings, some of them being remarkably rich.

The incident of the sale of this property quickly after the disastrous fire indicates that the trend of capital is more strongly than ever in the direction of Porcupine. The Buffalo Porcupine Gold Mines, Limited, is a strong corporation and has a number of prominent American business men upon its directorate.

PORCUPINES IN LONDON.

Playfair, Martens' cable quotes Porcupines in London at the closing of the market as follows: July 15, July 17.

ON THE BANKS OF THE MATTAGAMI. The new settlement which has sprung up on the Mattagami River, one and one-half miles west of the Hollinger Mines. It promises to be one of the leading centres of population in the "New Porcupine."

FREE TRIP TO PORCUPINE

Since the fire so much has been said and written about the most wonderful gold camp in the world's mining history, it is little wonder that investors are more or less at sea as to their selection of Porcupine purchases.

Our answer is "PORCUPINE GOLD SPOT," owning properties in the townships of Shaw and Langmuir, centrally located with splendid showings and having every primary indication of the makings of a big mine.

Parties will be formed in Boston, New York and Chicago, centralizing at Toronto, whence they will proceed as a unit to the Porcupine Goldfields, spending approximately a week among the virgin lakes and woods of Northern Ontario.

Start Aug. 12---Return Aug. 18

**Men's News**

**Pince-Nez—"Are you keeping your eye on the back page of The World these days?"**

**Boutonniere—"I always see it, but why particularly these days?"**

**P.N.—"Because these days are the days just before stock-taking, and they're going over the stock in the Simpson Men's Store with a fine tooth comb, as it were, eliminating all the loose ends and putting them aside for immediate disposal."**

**B.—"Well then, these are old things that anyone would sell at a sacrifice."**

**P.N.—"Not at all—can't be more than six months old, and one of the clerks was saying yesterday that the things to be disposed of are mostly late deliveries of summer goods that cannot be carried over."**

**B.—"In that case there should be some seasonable togs going at low prices."**

**P.N.—"Well, as I said, just keep your eye on the back page of The World between now and the first of August."**

**A Sale of One Hundred and Eighty-five Suits, and Every One a Bargain at \$8.95**  
 (Main Floor)

Stock-taking staring us in the face, and in comes a late shipment of suits! Rather than turn them back, we've decided to march them out quick-step to-morrow. This is a sale that's good all the way through. Whether you get the first suit or the last suit, you'll be getting great value—only, to make sure of size and shade, come at 8 a.m.

The suits are of excellent pattern and first-class workmanship, and are selling for half price on Wednesday. Regular prices \$12.50 to \$18.00. There are English tweeds, Scotch tweeds and fancy worsteds, made up into the smartest single-breasted sack suits of the season. Sizes 34 to 44. Wednesday . . . . . 8.95

**The Right Kind of Neglige Shirts**

800 only Men's Neglige Shirts, mostly coat style, with small laundered cuffs attached (a few separate cuffs); all this season's patterns and makes. There are plain and pleated fronts, in cambries, percales and Austrian cloths. These are the shirts that will fit correctly. White, white with black stripes and figures, and a large assortment of colored designs. Sizes and half sizes, from 14 to 18. Regular \$1.25, \$1.50 and \$2.00. Wednesday, each . . . . . .98

**The Last Straws**

Not the kind that hurt the camel—the price is not heavy enough to be felt at all.  
 Men's Straw Sailor Hats, correct American and English styles, finest makes, split Canton and scennit braids. Regular \$2.00 and \$2.50. Wednesday . . . . . 1.50  
 100 Men's Panama Hats, fine close and even weave, new shape, nice finish. Wednesday, special . . . . . 1.95  
 (Second Floor)
