MINIMUM WAGE BILL IS GIVEN SECOND READING POLITICAL AIR CLEARS

Laborite and Nationalist Support Rolls Up Majority of 123 - Unionists Show Desire to Dodge Responsibility - Balfour Bitterly Assails Miners For Paralyzing Industry.

LONDON, March 21. (Can. Press.) - Arthur J. Balfour's motion for the rejection of the minimum wage bill was defeated, and the government bill passed its second reading in the house of commons to-night by a majority of 123 - a larger majority than the ministerialists themselves had hoped for.

The prime minister formally moved the second reading of the bill and then immediately yielded the floor to Mr. Balfour, who, in moving its rejection, temporarily assumed the leadership of the opposition.

Mr. Balfour pointed out the gravity of the crisis, which had been brought about "by a single organization, acting within its legal powers, threatening to paralyze the whole trade of the country."

Worse Than United States Trusts. There is no indication that the leaders of the movement desired to temper the use of their legal powers with any consideration of mercy.

Mr. Balfour recognized the earnestness of Premier Asquith's efforts, but continued: "There never has been a graver case of a government deceiving itself and deceiving the house of commons."

He complained that the government had sanctioned the tearing up of existing agreements without a word of protest, and declared that there was no justification for attempting to force "this colossal revolution" thru the house of commons in less than a week.

Mr. Balfour concluded by saying that, even assuming that the government were defeated there could not be a dissolution, as it was impossible to add the confusion of a general election to the horror of the strike.

TRIVERS NEVER HEARD OF PROBE

Since Going to Kingston, He Has Not Known of Any Action Taken in Connection With Farmers' Bank, and for That Reason Must Consult His Solicitor.

"Why do you wish to see Mr. Dewar before you give your evidence, Mr. Travers?" This question, asked by The World reporter at yesterday's enquiry into the affairs of the Farmers' Bank, at Osgoode Hall, drew a flash of indignation from the former bank manager as he arose to put on his coat.

One of the lawyers connected with the investigation stepped up to Travers and offered a word of condolence, patting the banker on the back as he did so.

After several minutes' consultation with Commissioner Sir William Meredith, Frank Hodgins, K.C., informed the bank manager that he would not be called until next Wednesday, and in the meantime the crown counsel will prepare for the taking of Travers' evidence.

MISSIONARIES GET INCREASES

Presbyterian Committee Decided to Give More Pay to 1000 Workers in Canadian Field.

An increased scale of salaries will be given to missionaries in all parts of Canada connected with the Presbyterian Church, according to the decision of the home mission committee which convened all day yesterday in the Confederation Life Building.

The shortage in properly qualified missionaries has been on account of the low scale of salaries now in existence, and the committee has been working under a serious handicap.

LONDON, March 21. - A Constantinople despatch to the Exchange Telegraph Co. says that the Turkish minister of war announces a great Turkish victory at Benghazi, in Tripoli.

DEED WAS DONE BY INSANE MOTHER

Jury Which Investigated Death of Mrs. Orr and Her Three Children Decided That the Woman Killed Children and Committed Suicide While Temporarily Insane.

The verdict returned last night by Coroner Winnett's jury, which investigated the circumstances surrounding the death of Mrs. Orr and her three children, was that the gas cap had been removed by Mrs. Orr while temporarily insane and that death had been caused by the inhalation of the fumes.

The husband and father, James Orr, told of returning from work and finding the doors locked and, after some difficulty, gained access by a cellar window.

Mrs. Orr's words haunted Mrs. June all day, but it never occurred to her to telephone to the woman's husband.

John Currie, 23 Carlton street, told of Orr coming to his home about 6 o'clock with the sad story. Dr. Bryan was called and then the two men went to the house.

Mrs. Orr's words haunted Mrs. June all day, but it never occurred to her to telephone to the woman's husband.

TORONTO FIRM GETS CONTRACT

McCafferty and McQuigge Will Build Elk Lake Branch of T. & N. O. Railway for \$180,000.

The grading contract of the Carlton to Elk Lake section of the Timiskaming and Northern Ontario Railway was secured by the Toronto firm of McCafferty and McQuigge yesterday.

CARPENTERS TAKE OFFER

At a meeting of the carpenters in the Labor Temple last night it was decided to accept the offer of 40c per hour made by the master builders a few days ago.

Grant \$200,000 for Rural Mails

OTTAWA, March 21. - (Special.) - The postmaster-general has been devoting considerable time to the promoting of his scheme for a better system of rural mails, and thus linking the different parts of the provinces in better communication.

It is likely that a sum almost totaling \$200,000 will be placed in the supplementary estimates for the purpose of organizing that special department and placing it under control of a special superintendent, who will, of course, run the department from Ottawa, but whose duties will be largely of a character of inspection in the provinces when the scheme is under way.

SENATE USES GIANT'S POWER

Liberal Majority Carries Sir Richard Cartwright's Amendment to Legislation Appointing Commissioners.

OTTAWA, March 21. - (Can. Press.) - The Liberals in the senate to-day used their numerical strength for the first time to turn down the government.

An amendment to the tariff bill which Hon. Mr. Loughheed objected to was carried. It was moved by Sir Richard Cartwright and provided that the tariff commissioners should not be appointed for a term of five years, but should serve only during the pleasure of the government.

Accepted Two Amendments. Senator Loughheed said he would accept the principle of two of Sir Richard's amendments.

RENO, Nevada, March 21. - (Special.) - Canada is now second only to New York State and Massachusetts in the number of contributions to the membership of Reno's divorce colony, fully thirty women being here to-day seeking divorce from various parts of Canada, among whom are several residents of Toronto said to be of prominent families.

George Henry Morganstern, said to be connected with electric motor car interests in Toronto and Detroit, came here several months ago, and has been constant in attention upon the young wife of John Monks, Jr., a wealthy contractor of New York City, waiting until she secured her decree last week.

Mrs. Alice Louise Nolan, wife of G. V. Nolan of Toronto, has recently filed her complaint. She is conducting a rooming house here.

GRAHAM DEFENDS EXPENDITURE ON N.T.R.

Answers Criticisms That Cost Is Triple the Estimated Amount, By Insisting That Road Will Be Without a Peer in Construction - Would Have Two Boards.

OTTAWA, March 21. - (Special.) - The national transcontinental railway evidently sits heavy on the conscience of Hon. Geo. P. Graham. This evening he again thought it necessary, when the item of \$25,000,000 for surveys and construction was up in committee of supply, to rush to the defence of his late department, casting his remarks into the form of an attack on the figures of Hon. Frank Cochrane in connection with the road, which, he asserted, would not cost over \$106,000 a mile, and would be the best on the continent.

Hon. Frank Cochrane showed that his figures had been based on the reports of officials of the road, appointed by the late government.

Hon. T. W. Crothers emphasized the fact that the Liberals now acknowledge that the road which they had assured the people would only cost \$22,000,000, would cost \$180,000,000.

PHONE SYSTEMS MAY BE JOINED

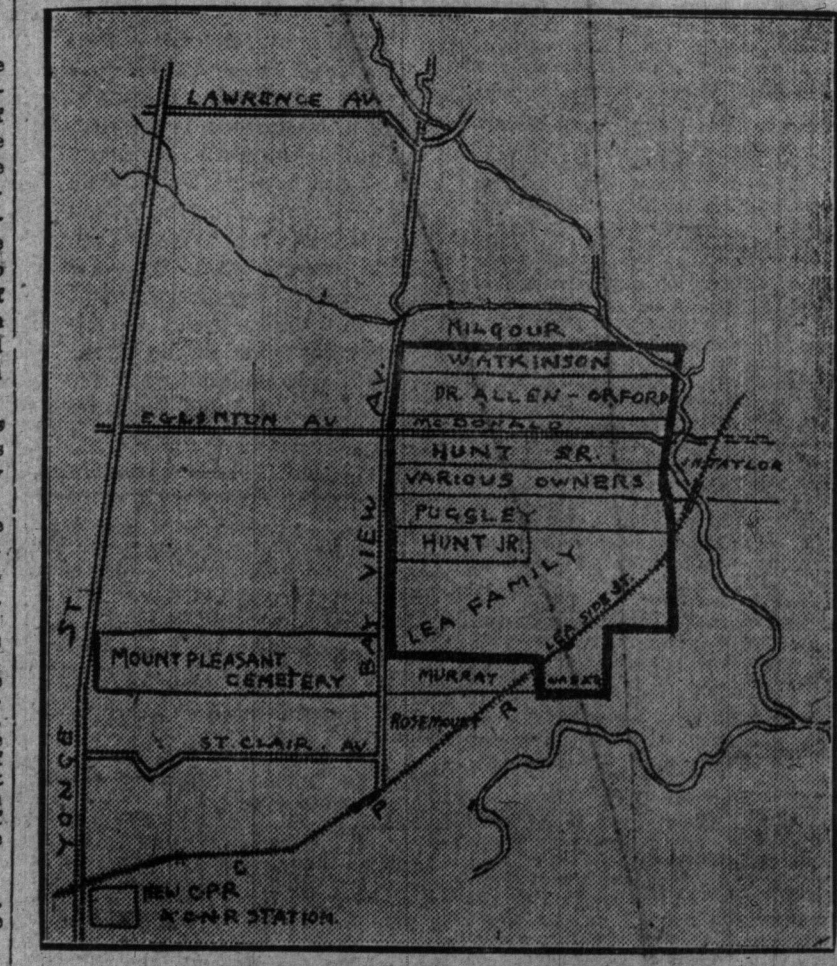

Ontario Railway Board is Given Control Over Independent Lines in Bill Introduced by Mr. Lucas.

Power to weld together all the independent telephone systems of the province was given to the Ontario Railway board yesterday afternoon in the legislature, when the "telephone" bill introduced by Hon. I. B. Lucas was passed in committee of the whole.

The bill also makes it clear that no municipality can grant an exclusive franchise to any telephone system without a vote of the people, and this clause, it is expected, will be objected to by the Bell Company.

TORONTO'S LARGEST LAND DEALS

The biggest real estate operation ever carried out in Toronto or neighborhood has been under way for the past month, and has been about completed. It means the payment of about two million dollars for over one thousand acres of land immediately north of the Canadian Pacific tracks, at Leaside, and lying between Bayview-avenue (one mile and a quarter east of Yonge-street) and Leslie-street (two miles and a half east of Yonge-street, and extending north a mile and a half. It takes in everything north of the Canadian Pacific but Rosemount (80 acres) and the Murray farm (40 acres) and a Pacific. It is not the Canadian Pacific. Perhaps it is the Canadian Northern putting thru even a bigger coup than they put thru in Montreal.

Joseph Lea property, at Leaside, but south of the C.P.R., and directly east and south of the station, for over \$100,000.

John H. Taylor, thru his agent, A. Elder, sold 90 acres immediately east of Leslie-street, extending east along the south side of Eglinton-avenue (extended two and a half miles east of Yonge-street) for \$800 an acre.

Another big deal on Yonge-street. No. 496 Yonge-street, northwest corner of Grosvenor and Yonge-streets, 20 feet frontage, sold yesterday for \$75,000, nearly \$4000 a foot.

JEWES PROTEST AGAINST NEW BILL

The Jewish community of Toronto recorded its protest against the passage of the Queen's University Act in the house of commons at an overflow meeting in the Lyric Theatre last night, and adopted a resolution which will be sent to the upper chamber to-day. The meeting was held under the auspices of the United Zionists of Toronto, and the speakers, which included Christians, did not mince words in denunciation of the parliament's action.

Major Geary sent a letter of regret, saying: "I am in thoro sympathy with the Zionists in their movement." Claude McDonald, M.P., in a letter, pointed out that he was always opposed to the objectionable clause and urged the Zionists to direct their protest to the senate. He said: "A meeting of the committee of the Presbyterian Church and the university will be held in Kingston on Friday to take into consideration the advisability of eliminating the cause."

Rev. Mr. Hinch's language was exceedingly warm. He sent a letter regretting his inability to attend, but stated in no uncertain terms: "For a Canadian university to attempt to exclude our Jewish fellow citizens from participating in higher education seems to me to be monstrous, bigotted, and as belonging to Russia rather than free Canada."

Motorists May Now Travel Fifteen Miles on City Streets

In the Country the Speed Limit Will Be 20 Miles, According to Amendments Made by Legislature Yesterday—Must Stop for Street Cars—Both Leaders Were Right According to Speaker.

By an amendment to the Motor Vehicle Act in the legislature yesterday, motorists may now travel a maximum rate of 15 miles an hour on city streets, and 20 miles in the country. The old speed regulations, which have caused an outburst of indignation among motor car owners, called for a maximum rate of 10 miles in the city and 15 miles in the country. Hon. W. J. Hanna, provincial secretary, was the mover of the amendment to the bill, which received its second reading.

Clearly indicating that both passengers had the right of way in the matter of boarding and alighting from street cars, another amendment to the bill was given smooth passage cancelling the old law that motorists may travel four miles an hour past a stationary street car and substituting hereof, that no motor car must come to a complete standstill and wait until all passengers have boarded a street car and all those alighting have reached the curb.

George H. Gooderham, being an authority on the subject, spoke often on the proposed legislation. He wanted the sounding of horns during the night hours prohibited, but Mr. Hanna said that this was covered by the public nuisance legislation. Owing to the objections of the South Toronto member, hereafter it will be unnecessary for motorists to stop at the front of a street car when waiting to board. It was considered that numbers in such a position served no good purpose and a clearly distinguishable number in the rear was all that was essential in the eyes of the law.

A Little Freedom. Mr. Hanna declared that the former speed regulations were not satisfactory and there was no reason why motorists should not be allowed a little more freedom. In desiring to have a machine travel at a maximum of ten miles in a city, it meant many violations of the law. The 15 mile rate would enable motorists to obey the law. "Let us have a law that is practicable," said the provincial secretary.

Mr. Gooderham succeeded in having the minimum age of drivers changed from 17 to 18 years. Dr. Jessop didn't think it was fair to hinder boys, even 15 years old, from engineering motor cycles. The bill was not changed, however.

Forbes Got Cars. Mr. Forbes Godfrey, per usual, was of the opinion that motor cars were not treated squarely. He said the butcher carts were a great nuisance. Drivers 24 years old had not the brains of five-year-olds.

When the matter of forcing motor cars to stop to allow passengers to get on and off was brought up, there was much discussion. Mr. Gooderham said the present law was satisfactory. It was not entirely the fault of motorists, he said. People were in the habit of blocking streets while waiting for a car which was held a block away.

"The streets are for the people," said Sir James Whitney, who said he was able to speak on the subject from personal observation and experience. He thought that many accidents were no fault of the drivers. Five years ago the motor car could not get fair play, but five years from now even most farmers will be using them, he said.

It was pointed out by Mr. Hanna in reply to queries from Mr. Gooderham, that street car blockades did not figure in the bill. Cars must be taking on or letting off passengers before it was necessary for a motorist to apply the brakes full.

Both Were Correct. The Speaker's decision on the point raised by Mr. Rowell on Wednesday in the Liberal leader's lift with the premier as to whether private bills should be given preference over government orders on member's day, was to the effect that Mr. Rowell was right in his contention. However, so was the premier, who opposed the leader of the opposition. Said the Speaker when the legislature opened.

"The government thru the leader of the house has the right to control the order in which government bills are to be taken up, and in practice, since I have been in the legislature, and as I am informed for many years previous to my entering upon public life, that the leader of the house has been practically allowed to control the other business to the extent at least of suggesting when other business should be taken up."

Health Bill. So carefully prepared was Hon. W. J. Hanna's bill respecting the public health, that very little criticism was made of it. Both sides of the house seemed to appreciate that the legislation proposed by the provincial secretary was too progressive to be even modified. The bill, among other things, makes provision for the division of the province into a number of districts to be under the jurisdiction of district inspectors acting under the provincial board of health.

Mr. Hanna explained that the inspectors appointed would be practical men, with horse-sense and a knowledge of sanitary science. They will be expected to go thru their districts and know actual conditions, finding out where any laxity might be with regard to tuberculosis, typhoid, etc., and making things right without delay. With regard to the salary, Mr. Hanna explained that it would be sufficient to enable the inspector to devote his whole time to the work. The inspector of the district to which he was assigned was not an incidental in his occupation.

There is a lot of work that the premier for these positions, with a decent salary, can do. Mr. Hanna also drew attention to the fact that local boards of health will not be disturbed by the new bill. "There is a number of districts to whom members of the house may seem very arbitrary," continued the provincial secretary, "and that is to provide that medical health officers must not be discharged without consent of the provincial board of health. But there is no job so thankless as the M.H.O. of a township or village, and often when he does his duty, the council decide to throw him out of office at the earliest opportunity. The salary connected with this office is sometimes not more than \$5 per year."

Hon. A. G. MacKay had no criticism to make except that he thought that the salary should be \$200 instead of \$200 if the best men were to be secured. Hon. W. J. Hanna said he didn't

TRIVERS TO BE HEARD NEXT WEDNESDAY

Former Manager of Farmers' Bank Will Be Given an Opportunity of Talking Things Over With His Counsel Before Telling His Story on the Witness Stand.

Continued From Page 1. When Chief Justice Meredith heard that Trivers did not want to testify until he had consulted Mr. Dewart, he said: "If Mr. Trivers does not want to testify I don't want to press him. But I don't suppose Mr. Dewart thinks he has any status here, does he?" "He doesn't think so," replied Mr. Hodgins.

Galloped for Cover. Many men, who had agreed to become directors of the Farmers' Bank, went back on their promises when trouble in connection with the bank was kindled at the end of the year. They were questioned by Frank Hodgins as to the reason why the names of certain persons had appeared on the bank's prospectus when they did not have anything to do with the institution. He had secured fully 80 per cent. of the subscriptions to the bank and in the books he was credited with owing \$30 shares, altho he had only paid \$2150, which was taken out of his stock-selling commission. His total commission for selling stock amounted to \$21,000, but prior to the organizing of the bank he had to divide his money with Travers. A net profit of \$15,000 was all he had left after paying his expenses. According to his own story, Lindsay was a rapid-fire stock-seller. On one occasion there were seven people at the foot of the hotel stairs, all waiting to purchase stock. This was in Halton County, and Lindsay said that he had a lot of friends.

Witness Admitted Writing a Letter to Travers in which he asked the manager if he thought it was safe to have the names of subscribers on the stock book who had really not paid any money. He did not remember whether or not Travers had seen him an answer. Lindsay asserted that he had secured all the Laidlaw subscribers, whose names and money were afterwards returned to Travers. In explaining the \$40,000 of stock which appeared beside his name in the book, Mr. Lindsay said that he had taken shares out in his own name with the object of selling them to a Mr. Menzie, who owned a wall paper factory at New Toronto. This man had his business and the stock remained to his credit in the books.

Decided to Return Money. Hunter, Travers, Warren and Lindsay met one night to consider the best course to pursue as a result of a list issued by the Laidlaw subscribers, which threatened to cause a trouble to the bank. They finally decided to give the money back to the shareholders.

"I was charged that some of those subscriptions were obtained by fraud, Mr. Lindsay," said Mr. Hodgins. "I deny that."

"He told me he had sat in the corridor while the meeting was going on, but later he took some of the notes and money back to the Laidlaw subscribers and the account was dropped."

Pocketed Money. "That seemed to remove any difficulty in getting the certificate," remarked Mr. Hodgins. "When the certificate was issued you learned it soon, didn't you?"

"I suppose so," Mr. Lindsay answered. "Shortly after the certificate was issued you received \$10,000 for commission, didn't you?"

"I did not. I received \$5,000. The other \$5,000 I gave to Travers."

"What did he do with it?" "Put it in his pocket," was the dry response.

"What had you to do with getting up the stock list?" "Well, unfortunately, I secured about 80 per cent. of the subscribers."

"But did you have anything to do with making up the list?" "No."

Laidlaw Made Apology. In defending his assertion that he did not obtain any of the Laidlaw subscribers by fraud, Mr. Lindsay submitted a copy of a letter received from William Laidlaw, K.C., in which the latter said that he was sorry for making charges against Lindsay and asked the latter's pardon.

The commission then adjourned until next Wednesday.

YOUR BABY'S SKIN

Is the most delicate fabric in the world. You may cause it permanent harm by using poisonous mineral ointments for the little rashes and eruptions that every baby suffers from occasionally. Don't take any chances. Use Zam-Buk the baby's best balm.

Zam-Buk is made from fine herbarial extracts, and is free from any harmful poisonous coloring matter. Like the grasses and the flowers, nature has colored it green. It is nature's own healer.

Mineral ointments and salves have, as their foundation, various animal oils and fats. Zam-Buk does not contain one atom of animal substance. Most ointments and salves are too coarse to be absorbed by the tender delicate skin of a baby, and remain on the skin an irritating mass. Just put a little Zam-Buk on baby's skin, and see how soon it is absorbed, showing conclusively that the pores of the skin are greedy for it.

Use nothing but Zam-Buk for baby's skin troubles and wash with Zam-Buk Soap. Zam-Buk should also be used for cuts, burns, scalds, eczema, piles, ulcers, etc. All druggists and stores sell 5c boxes, or post free from Zam-Buk Co., Toronto, for price. Refuse harmful substitutes and imitations.

LUTHERANS WILL OPEL CHURCH ON SUNDAY

Congregation of St. John's Has Made Good Progress, and Will Worship in New Edifice for First Time—School for Instruction in German Free of Charge Will Be a Feature.

St. John's Evangelical Lutheran Church, newly erected on Shaw-street, corner of Irene-avenue, just north of Bloor-street, will be formally opened and dedicated to the service of God on Sunday. The opening of this new church will be an event of special interest to Lutherans of this city, who will see in it a promise that the Lutheran Church, which is the largest Protestant denomination on earth and one of the largest in the United States, being strongly represented in all its important cities, will in the future make headway also in Toronto. The German element in Toronto will be especially interested, since the congregation will be divided into the German and the English work, it is really so for a German congregation. In the evening the sermon will be delivered by the Rev. Rud. Ebert of Tavistock, Ont. All who may be interested are cordially invited. Hereafter, regular Sunday services will be held at 11 a.m. and at 7 p.m., the morning services being conducted in German, the evening services in English. Similarly, there will be German and English Sunday school classes. In connection with the church a school for instruction in the German language and its religion will be opened in the near future, such instruction to be free of charge by the pastor, Rev. Henry Hamann, to children whose parents are desirous of having them learn their mother tongue. The congregation has worshipped hitherto in Broadway Hall, 460 Spadina-street.

CARTIER MEMORIAL

The Hundred Thousand Dollars to Be Raised in Canada by Subscription. The 14th of September, 1914, will be the hundredth anniversary of the birth of St. George Etienne Cartier, one of the illustrious statesmen whom Canada has produced. He was born in the old Parish of St. Antoine, County of Vecheves, Quebec. To celebrate the centenary of the patriot's birth it is the intention to erect in Montreal, by public subscription, a memorial to perpetuate the memory of this great statesman's birth. For this purpose it will be necessary to raise \$100,000, a substantial portion of which has been promised by public bodies. It is desired that a large part of the sum be subscribed by Canadians throughout Canada, in order that the memorial may be regarded as a popular tribute to the memory of Cartier and a stirring appeal to being published throughout the country. Subscriptions should be addressed to the Cartier Centenary Committee, P.O. Box 183, Montreal, Que.

GIFT OF ONE HUNDRED DOLLARS

For Jewish Consumptive Poor. I am duly in receipt of your note enclosing cheque for \$50 as a contribution to the funds of the Toronto Free Hospital at Weston, also a similar amount to the funds of the Muskoka Free Hospital. Will you kindly convey to the officers and members of the Toronto Jewish Benevolent Society the hearty thanks of the trustees for their generous remembrance of our hospital work and for their practical sympathy and cooperation. The above is an extract from a letter acknowledging a contribution of \$100 received from the Jewish Benevolent Society of Toronto, which is a most generous contribution to the funds of the hospital. The records of the Muskoka Free Hospital for Consumptives near Gravenhurst and the Toronto Free Hospital for Consumptives near Weston, show that 180 poor Jewish consumptive patients were cared for in these institutions during the past five years.

TAX RATE COMES DOWN BUT IT'S A HARD TASK

Controllers Are Aiming at 18 Mills, and Cut \$106,000 Off the Property Estimates—City Engineer Would Remove All Express Stands.

Thus far in their private sessions to deal with the estimates, the board of control have struck out items which will lower the tax rate one and one-quarter mills from what it would have had the estimates passed without alterations. It is known that the board are making an effort to secure an 18-mill tax rate, and it is also known that they are experiencing considerable difficulty in this connection. In their session yesterday afternoon they dealt with the fire and light estimates and Mayor Geary stated afterwards that only slight changes were made. The board have not yet dealt with the question of salaries. In this work yesterday morning the controllers dealt with the estimates of the property department and reduced the original estimates by \$106,000, of which sum \$11,000 was taken from the street cleaning department. Controller Hooken contended that the council could not legally substitute the name of Charles Chambers for that of Thomas Hogg, whom the board recommended for the position of parks commissioner. He claims that even with a two-thirds vote the council have no right to substitute a name, and only in the absence of a nomination by the board can they make an appointment. The matter was referred to Corporation Counsel Drayton for a report. Controller Hooken believes it would be wise for the city to acquire the Knox College property on Spadina-avenue, and at the private meeting of the board of control yesterday morning, he moved that the assessment commissioner and the parks commissioner be asked to report upon the advisability of securing this property. The controller believes that if purchased at once it could be obtained for \$250,000. Viaduct Estimates. City Engineer Rust stated yesterday

of the extension changed so that their property will not be damaged. More Poles. In his fortnightly report City Engineer Rust recommends that the Bell Telephone Co. be permitted to plant poles on the following streets: Allan-ave, Argyle-st., Atlantic-ave, Brookfield-st., Clinton-st., Davenport-road, Fleet-ave, Gerard-st., Helena-ave, Hilton-ave, Hendrick-ave, Jones-ave, Humbervale-ave, Logan-ave, Nina-ave, Summerhill-ave, Standish-ave, Tiverton-ave, Victor-ave, and Woltry-avenue. Mr. Rust, in his report, also recommends that vehicular traffic be prohibited as far as possible on the car tracks, as it causes the rails to spread. He also suggests the removal of all express stands from the city streets. In his report he also favors the use of Trails on the streets. This type of rail was not approved of by the city council at a recent meeting. Adelaide-street Line. Mr. Rust does not advise the extension of the Adelaide-street car line in order to connect it with the Dovercourt line, claiming that this is unnecessary.

The MACKAY Treatment For The Cure of ALCOHOLISM

Dr. John M. Mackay's specific medicine for alcoholism is highly recommended by the clergy and was adopted by the government of the Province of Quebec in 1904—See reports of the Govt., 1904-1911—Effective in 83 per cent of chronic cases—Drunkennes is a disease and should be treated medically like any other. Dr. John M. Mackay's specific medicine cures and does not fail while a desire to be cured exists and where the Doctor's directions are faithfully carried out. This medicine is based on scientific principles—Removes craving for alcohol in shortest time—causes no distress or suffering to patients—Has restored thousands of lives to sobriety and usefulness. Dr. John M. Mackay's medicine can be taken at home privately and without interfering with a man's business—No special diet is necessary. The treatment covers a period of 28 days, but it immediately removes the craving for drink and enables a man to begin a new life with courage and confidence. Inexpensive, and within the reach of every afflicted person. The Clergy, Dominion Alliance or W. C. T. U. can obtain the advantage of the medicine for the poor under a beneficent arrangement with the Government. The only treatment officially used by any government. Beware of imitations. All communications private. Write for booklet and particulars to DR. MACKAY, 4 St. Lawrence Boulevard, Montreal, or to THE LEEBING-MILES COMPANY, LIMITED, Leebing-Miles Building, Montreal. A report in an evening paper stated that Roderick Cameron, superintendent of the outside work of the parks department had resigned as a result of the appointment of Charles Chambers as parks commissioner. No resignation has been received at the city hall, and Mr. Cameron stated to The World last night that he had not tendered any. He would not say, however, that he had no such intentions. FOOTWEAR IN CANADA. "Foot-wear in Canada," has justified its publication as the standard journal of the whole shoe trade of the Dominion, manufacturing, wholesale and retail during the first ten months of its publication. The publishers, Hugh McLean Co. Limited, are celebrating the advent of Spring by publishing Fall Styles-special number, six months in advance of the season dealt with. The finely illustrated front page appropriately introduces an adroit introduction of a shrewd bunch of the autumn chrysanthemums. One hundred and fifty-one pages of profusely illustrated articles testify to the comprehensive character of the footwear monthly—and the capacity of the editor, J. F. Wandless. Manufacturers and retailers alike from Halifax to Vancouver, have evinced a keen interest in the publication as shown by their timely contributions and support. A SERIOUS CHARGE. Oscar Hicks, a C. P. E. engineer on the Toronto-Guelph train, was taken from his coach at West Toronto yesterday and charged with being drunk while in charge of the engine. The offence is a serious one, and Hicks, thru his counsel, J. G. O'Donoghue, asked for a week's remand.

Toronto Ball Players--First Pictures From the Camp

Note and Comment

The curling season will officially terminate in Toronto to-night, regardless of the snow on the ground or the condition of the ice. The finale is the annual presentation of the Canada Life Trophy and other prizes won in the city single rink competition. The lucky skips are: First, T. Hennie, Granite; second, S. H. Armstrong, Paradise; third, J. Durbin, F. Blaine, Aberdeen; and J. D. McArthur, Toronto. R. C. Dawson, president of the Granite, will occupy the chair. The remaining honors will be a ball to Dr. Capon, W. C. Christie, K.C., and R. K. Kearns. There will be refreshments and an entertainment.

The Toronto regulars are keeping up the good work at Macon. They walloped the second string pitchers just as easily as they did the collegians and the margin in runs has so far been on the right side. The Leafs have started out to make a great record in 1912, and they are likely to meet with some reverses before the season is over.

The telegraph and newspapers recount to-night lengthy stories of the splendid progress of boxing under the clean break rules in New York State and that the same looked likely to stay. Now a message despatch announces that the Allen bill repealing the Prizefighting law, passed the New York Assembly by a vote of 71 to 4, just the required number, and you know what that means.

Boxing bouts also flourish in Michigan, but not extensively. In Detroit they are sure not big money-making affairs now. Jim McMahon of Pittsburgh recently boxed Fred Hicks, a Detroit, in that city, and McMahon's end of the receipts came to \$8. They went ten rounds.

Carl Morris fell down lamentably in his bout with Jim Stewart and at the same time gave his Oklahoma manager a terrible bump. The latter, however, did not let Morris up as the genuine white hope, the consideration being real money for a winning contract. Morris is a good time at his manager's expense among the white lights, as Mr. A. Mutt would say, but now it is back to the ring for him. Stewart also can hardly be counted on as a possible white opponent for Jack Johnson.

Jim Lillis, president of the Jersey City Club, laughs when he receives the letter he received from one of his players, which said: "I am glad we are going to Bermuda in the Jersey City a lot of good spring training, and we can pick up some money playing exhibition games on the way home." Jersey City has never made a training trip before. They went last week on a ship and will likely return the same route.

Toronto Cricket Club Hold Annual Meeting

W. H. Cross is Elected President and H. F. Lownsbrough Secretary—Important Matches.

The annual meeting of the Toronto Cricket Club, held at the Toronto House last night, which was well attended.

Many important matches were played during the season in which the club were fortunate in winning the majority and are today holders of the Toronto and Robertson Cup, which signifies the championship of Canada.

The greatest enthusiasm was shown at the meeting and the prospects for the coming season are of the brightest.

The following officers were elected: Hon. president, Principal Falchoer, J. W. Woods; president, W. H. Cross; vice-presidents, C. A. Forster, E. C. Harrison, J. E. Hall, Lyndhurst, Ogden, Davidson, Hamon; committee, D. W. Saunders, H. A. Haines, H. Morris, Dr. W. Wright, N. E. Seagram; secretary, H. F. Lownsbrough; assistant secretary, E. S. Dimock; treasurer, P. E. Henderson; auditors, C. L. Worley, C. W. Tacketts.

Amendments Received By Secretary of C.L.A.

Want Date of Residence Rule Changed From Jan. 1 to May 1—Other Suggestions.

The stringency of the residence rule of the Canadian Lacrosse Association will be abated if indications from the clubs on that point to not giving two notices of amendment are already sent to Secretary Hall for consideration at the convention on Good Friday. One notice is to fix the date at the first of May, and the other suggests the first Monday after the annual meeting. The present date is the first of January.

Another notice of motion suggests the existence of a feeling of antagonism to "Toronto rule," as it proposes to prohibit any town or city from having more than one member on the executive of the association.

The suggested formation of a Dominion lacrosse association for the government of the game thru the associations of each province meets general support, and all that is needed here is the establishment of a single association for Ontario, which, of course, would have to bear the provincial title and should include all Ontario clubs.

AMATEUR BASEBALL.

The Northern City League meets to-night in St. Paul's Hall, Yonge street.

The Beaver baseball team, champions of the Toronto Intermediate League, will meet to-night at the Tremont House for the purpose of re-organizing for the coming season, which, it is hoped, will prove the best in the club's history. The following players are listed to be on hand sharp at 8 o'clock: Goddard, Cooney, Spurr, McCool, Downard, McElroy, Gilmour, McCourt, Corkery, Glynn, McDonald, Taylor, W. Berry and J. Berry. Also any other persons who are in any way interested in the welfare of the club, or any fast senior players, who wish to join a first-class club.

The Elms B.C.C. held their first annual meeting Thursday night and elected the following officers: President, H. G. Gorman; manager, Frank Jenney; captain, James Towns; secretary, Frank Malorana; treasurer, Walter Hodgdon. The Elms would like to hear from some good fast players, especially a pitcher. Their next meeting will be held in their club rooms, the Toronto Mission Union, corner LaPlante and Hayter streets, Thursday night at 8 o'clock.

Are You One of the Wise Ones? Albert Williams is giving remarkable value in his 25c and 50c table d'hôte. Don't fail to take your mid-day meal today. Special Friday dinner at 25c; roast young turkey at 40c; dinner, quick service, pleasant surroundings, Queen and Yonge, King and Yonge, and Grand Opera annex.

Eddie Phelps, whom Toronto secured in trade for Eddie Phelps. Steele is looked upon as one of the best right-handers in the league.

MANON, Ga., March 21.—Old Sol is a kindly old soul. When the Leafs were on the way south they heard nothing but reports of how much rain had fallen all thru sunland and predictions were that it would be juicy going for a couple of weeks at least.

Sunshine greeted Kelley and his band of fence busters when they landed in old Macon. Old Sol has been kind at it every day since the Toronto squad arrived and each day he adds a little more of warm stuff. Rain has failed to make an appearance to date. And none is expected. It is well over the eighty mark in the shade here both morning and afternoon and it is just what the outfit need. Three hours going at a lively clip morning and afternoon is the best medicine that could be described to get the ball team ready for a long penton fight. Manager Kelley is tickled to death with the way things have been breaking and he says that his club will be ready in another week if Old Sol continues to keep on his good behavior.

This morning was given over to batting and fielding practice, with every man kept on the go for every minute that the "hopes" were out at Central City Park. Stiffness is wearing out and play gets snappier with each appearance. The infielders now go at it in mid-season form and sensational stuff is the order. Manager Kelley broke his resolution not to get into harness and was one of the liveliest at this morning's work. Joe took his turn with the willow and went over to the first corner when the infield was doing grand stand stuff. Old King gathered in everything that came his way and his wing will be just as good as ever. He kept the whole crowd at it until they were ready to drop and they were real glad to hear the release order given.

Billy Fischer looks better the more is seen of him. He is hitting like a feud and can find every bag with demon whip. He is full of pepper all the time and coaches the pitchers in a nice style. He is sure to make a hit with the Maple Leaf park fans. Big George Wilson has made a good impression and Manager Kelley likes him more a little. Beane Speer did good work for Guelph last season and is not afraid to work for the Leafs down here. He is on the move all the time and usually does heavy work behind the plate when the clouters have their linings. The pitchers are getting

St. Patrick's baseball team of Toronto Senior League will hold a meeting at 2:30 to-night in their club rooms, 184 Williams street. All last year's players and those wishing to play for the Irishmen will be made welcome.

Hockey for 1912 is a back number, but many who enjoyed this strenuous game during the past two months will be interested in a picture of the Manufacturers' Life Club, who are the champions of the Financial Hockey League, and are now the sole owners of the Cox Cup, which they have won for three successive years.

National Commission Makes New Rules

Affecting Players Who Are Known as Free Agents—Charles L. Herzog Allowed Half Draft Price.

CINCINNATI, March 21.—In one of two decisions made public today by the National Baseball Commission a new rule was adopted affecting players known as free agents.

Player Charles A. Deal complained to the commission that while a free agent he signed with the Philadelphia National League team at a stipulated salary for the playing season of 1912. On reporting on March 9 to go on the training trip with the team he was informed that he had been released to the Lancaster team of the Tri-State League at a salary 10 per cent. less than he had signed for.

The commission annulled the release to the Lancaster Club and returned Deal to his status as a free agent. The rule adopted declared that a free agent who signs a contract with a National League club and is transferred without his consent to another club or is released without a trial shall be declared a free agent if the club to which he is released does not assume the salary his original contract calls for.

Charles L. Herzog of the New York National League team, was allowed half of the draft price paid by the Cincinnati National League team to the Reading Club of the Tri-State League for Pitcher Horsey, Herzog was allowed the amount as he had a written agreement with the Reading Club that he was to receive half of the draft price if the playing season of 1912. On reporting on March 9 to go on the training trip to sign with the Reading Club.

The Chicken Market Is Very Dull for Mutt and Jeff

AT LAST I CAN ENJOY MYSELF. MY WIFE SAID I COULD GO OUT THIS EVENING AND HAVE A GOOD TIME. G'WAN LEAD!

GOOD!

I WISH I KNEW A COUPLE OF CHICKENS WE COULD CALL ON

I KNOW ONE BUT SHE'S DEAD

A LADY WANTS YOU ON THE PHONE, MUTT

ME? OH, JOY! THE GAME'S OVER! TALKER! IF SHE HAS A FRIEND FOR YOU, JEFF, NO USE TALKING TO HER ABOUT THE CHICKENS.

ASK HER IF HER FRIEND IS A GOOD LOOKING MUTT

HUM? OH! UM-MUM! OH! ABOUT HALF PAST TEN AT THE LATEST

G'WAN DEAL! IT WAS ONLY MY WIFE

FRIDAY MORNING, MARCH 22, 1912

BRING THE I. C. R. TO TORONTO.

Everyone knows that some big development of the Intercolonial Railway is to be anticipated unless the road is to be scrapped. Between Lewis and Moncton there is scarcely business enough for one railway, but a second railway, the National Transcontinental, is about completed. This second road will be operated by the G. T. F., with a cut-off across the State of Maine, decreasing the distance between Lewis and Moncton by 75 miles. With a shorter line, better gradients and thru connections, this road will cream the business. The I. C. R. will be unable to compete.

The I. C. R., however, has a big local business in the Maritime Provinces, and it can collect a great deal of thru business from branch lines and by operating a line of steamers between the Maritime Provinces and the West Indies, but the old trouble of the I. C. R. would still remain, the bulk of the business going in one direction. The road, therefore, must develop to the west and should be extended to Toronto and to the Georgian Bay. Possibly a line of lake steamers and terminal grain elevators may be needed. In spite of much misrepresentation on the subject, it may be said, without fear of contradiction, that the I. C. R. gives in many respects the best passenger service on this continent, and wherever it goes, regulates and reduces freight rates. It will do, great service for Ontario and become a truly national highway, and a freight regulator between Winnipeg and Montreal as well as between Montreal and Halifax.

Years ago, Mr. McLean, M.P. for South York, urged the government to extend the I. C. R. from Montreal, via Toronto, to the Niagara and Detroit Rivers. He succeeded in getting a pledge from Hon. Mr. Emmerson in 1907, that the road should be extended at least as far as Toronto. It happened, however, that Mr. Emmerson soon after left the cabinet, being replaced by Hon. G. P. Graham, who had less faith in public ownership.

The suggestion of the member for South York may be acted on in the near future, and Toronto is interested in seeing that it is.

TURGOT OR ROBESPIERRE.

That trouble is growing in the United States is evidenced by the repeated references to the French revolution which are to be found in the writings and speeches of thoughtful men. Colonel Roosevelt, in his New York speech, warned the reactionaries that the Bourbons who refused to grant the moderate concessions recommended by Turgot soon had Robespierre to deal with. As for the grotesque imbecility of the political system of the United States, as now administered, been so strikingly portrayed and exposed as it is in this speech. The people of many states find themselves utterly unable to regulate the employment of women and children, to require sanitary precautions in the operation of factories and tenement houses, to pass a workman's compensation bill, or to reform social and industrial conditions. They have nothing like the control of their own affairs which is enjoyed by the people of other countries.

Of course, something must give. Col. Roosevelt's proposed recall of judicial decisions seemed at first blush fantastic, but his New York speech on the subject is almost unanswerable. The situation can be better dealt with in our opinion by giving to congress and the state legislatures plenary powers like those enjoyed by our Dominion Parliament and provincial legislatures.

"GIVE US A BITE."

The hungry schoolboy who sees his playfellow produce an apple from his pocket does not ask the impossible, does not beg for the whole apple, a half, or a quarter, but contents himself with the modest request, "Give us a bite." The people of Canada who have declared thru their representatives for the extension of the parcels post system are not disposed to press Postmaster-General Felleiter unduly, but they would like to see some kind of a beginning made at once, however modest. At present a resident of Canada who sends a parcel by post from one place to another in Canada is compelled to pay 16 cents per pound and cannot send any package weighing more than 5 pounds, but a resident of the United Kingdom can send a parcel by post from any point in the British Isles to any point in Canada at the rate of 12

cents per pound, and the weight limit is 11 pounds instead of 5; that is to say, a man in London, Eng., can send by post to any place in Canada a 10-pound parcel, which would be refused on account of its size if presented for mailing at London, Ontario. It costs more to send a parcel by post from Toronto to Oakville than it does from Edinburgh to Vancouver.

It will not be a great relief from the express monopoly to have parcel post rates reduced from 15 to 12 cents per pound, or to have the weight limit increased from 5 to 11 pounds, but an order in council to this effect would place the Canadian patron of the postoffice upon an equality with the Englishman or Scotchman sending parcels by post to Canada.

It would not be a great deal but it would signify that something is being done. The postmaster-general is not prepared to give us just yet all or most of the parcels post apple. Will he "Give us a bite?"

NOVA SCOTIA STEEL AND COAL COMPANY.

Elsewhere in this issue of The World will be found the eleventh annual statement and report of the directors made to the shareholders of the Nova Scotia Steel Company. The profits for the year ending December 31, 1911, amounted to \$1,019,325.51, which with the balance of \$500,922.55 brought forward, made a total of \$1,520,248.06 to be dealt with by the directors. From this amount was paid interest on bonds and dividend on debenture stock, the dividend on preferred shares and a dividend of 6 per cent. on the \$5,000,000 of ordinary stock. The reserve and sinking funds benefited by \$129,925.25. There was written off from improvements and betterments to plant \$72,880.55 and \$105,776.78 was transferred to the insurance fund. These reductions left a balance of \$508,548.17 to be carried forward to next year's profit and loss account.

In their report the directors state that during the latter half of the year under review the iron and steel trade of Canada was very much disturbed by United States competition, the low rate of duty on these products enabling its manufacturers to dump their surplus into Canada at ruinous prices. This was to some extent counteracted by reductions in operating expenses and other economies effected by the management. The prices prevailing for iron and steel also materially affected profits, which, however, reached the satisfactory figure already noted. The total reserve fund of the company now stands at \$1,835,522.57, which, with the balance at credit of profit and loss account, represents \$2,544,007.33. The report notices considerable expenditures on buildings and plant which had in view the increased efficiency of the plants, thus reducing the cost of production and correspondingly improving the earnings of the company. The directors further express themselves as satisfied that the experience of the last year has confirmed and strengthened their views regarding the extent and value of the company's submarine ore area.

OLD RIVALS JOIN HANDS.

Strange how things do come about. Max Rogers, surviving member of the famous Rogers Brothers, who will appear in "Hanky Panky" at the Royal Alexandra, commencing next Monday, March 25, was, with his brother Gus, for years considered the only real rivals of Weber-Felds themselves ever had. And now Max Rogers is a Law Fields comedian in his All-Star Jollie Follie "Hanky Panky" Company, and Gus Rogers has crossed the Great Divide, as has dear old Tony Pastor, who discovered the Rogers Brothers. The sudden death of Gus Rogers put an abrupt stop to the Rogers Brothers tour, and made impossible the continuance of the Rogers Brothers plays. Several substitutes for Gus were tried, but all were found wanting. This caused what appeared to be the perm-

DEMAND FROM ALL FOR EDUCATION

"Many books of many kinds. Many men of many minds." But all sorts and kinds of men and many different kinds of minds seem to fix upon The World Dictionary as a most desirable object of attainment. The parade that is passing in and out of the Dictionary Department is worth watching. Clergymen, policemen, and pedagogues, merchants, doctors, lawyers, stenographers, schoolboys, newsboys, messengers, sleuths and scientists crowd and jostle with each other with as much eagerness as if The World were giving away five-dollar gold pieces. Active minds are always ready to take advantage of an opportunity and the Dictionary Department was invaded yesterday by disciples of Sherlock Holmes, not seeking to investigate the reason for the big rush, but after books themselves. A policeman said he had just clipped his sixth coupon yesterday, and his wife would send him back for it if he did not take the dictionary home with him. Another policeman said he had three children attending school now and he finds he needs a modern dictionary to help him to keep up with them. Since its introduction in Toronto The World Dictionary offer has met with such pronounced success that a variety of imitations have sprung up. Of course none of these has the artistic color-plates or any of the other exclusive features that make The World Dictionary so attractive. It takes only six coupons and a small expense bonus to get one of The World's Dictionaries, as explained under the Dictionary Coupon printed elsewhere in this issue.

McKinnon for an order constraining clause 31 in the will under C. E. 328, such clause being a restraint against alienation. Judgment: The question argued is the validity of the restraint upon alienation. No good purpose would be served by adding to the confusion at present existing upon this subject by any attempt to analyze and reconcile the decisions. McFarlane v. Henderson, 180 L.R. 172, justifies me in holding that the restraint here is invalid. I do not think question four is ripe for determination. Temporary Lull in Mining Exchanges --- Porcupine Reports

DEARTH OF SPECULATION IN TORONTO MARKET Rio Not Traded in Whatever General List Merely Held Steady --- Maple Leafs at Advance.

World Office, Thursday Evening, March 21. The extremely apathetic speculation existing at this time in Toronto was plainly evidenced in the stock market today in the fact that Rio de Janeiro was not traded in whatever. This stock has been for some little time the leader in the local exchange, and has been prominent to such an extent that it has been accustomed to account for its movements as a reasonable clue to the trend of the whole list. It is necessary to look back a long way to find another instance of a daily session without any dealings in the security, and the instance is cited as significant on that account.

HOME RULE BILL NOT DRAFTED. LONDON, March 21. (Can. Press.)—That the home rule bill has not been yet finally drafted is evident from the fact that the Irish leaders were called into consultation yesterday with the cabinet committee, concerning the details of the measure.

McArthur Township Has Good Prospects PORCUPINE, March 20.—(From Our Man Up North).—McArthur Township, the prospector's mecca, where a dozen or more syndicates are doing development work, augurs well for those who were fortunate in getting in last fall. It will be remembered that engineers who saw the McArthur ground before snow came in November stated that "it looked like a mining district." And these "looks" may be borne out by actual fact before summer is passed.

LABOR LEADER ACCUSED OF TREASON. MANCHESTER, Eng., March 21.—Tom Mann, the labor leader, was today remanded by the Stafford magistrates when brought up on the charge of "voluntarily, maliciously and advisedly publishing certain printed matter called the 'Syndicalist' endeavoring to persuade persons serving in the forces of His Majesty the King on land or sea from their duty and allegiance to his Majesty, and inducing the said persons to commit traitorous and mutinous acts."

Porcupine, March 20.—(From Our Man Up North).—Low water in the Mattagami river, together with broken chunks of ice now appearing in the stream, has caused power trouble in the Pearl Lake district.

UPWARD MOVEMENT IN UNION BANK STOCK WHICH GAINED 5 POINTS AT 162, AND WHICH CLOSED AT ABOUT ITS TOP FIGURE FOR THE DAY, CALLED ATTENTION TO THE RESISTANT CONDITION OF THIS END OF THE MARKET. THE YEAR TO DATE HAS BEEN CONSISTENTLY UNCHANGED FOR THE DAY.

Standard was under selling pressure early in the day, and dropped back to 114, a loss of three points, but fully atoned for its recession during the afternoon. Porcupine Central was another feature, with an advance of 11 points to 84. Dobbie sold at 57 1/2, a new low record, on the report that the mine had been shut down.

Porcupine Expects An Early Spring. PORCUPINE, March 20.—(From Our Man Up North).—Robins are here and an early thaw-out is expected. Three of the harbingers of spring perched on a chimney-street in Porcupine City and remained on a limb till a curious passerby "shooed" them from the roost that he might be sure the birds were of the real spring variety.

Call of the Arctic Comes to Porcupine. Captain Bartlett, in Charge at Achilles, Will Roam the Frozen North. PORCUPINE, March 20.—(From Our Man Up North).—Capt. Bartlett, manager of the Achilles Mines, located in Northern Whitney, and one of the most interesting figures in Porcupine, will sail the seas once again. He will be remembered as the man who went north in 1906 to relieve the Commodore Peary North Pole expedition, when Peary was on his way south after having discovered the Pole.

UNGAVA GOLD FIELDS. Fourteen Expeditions to Seek Fortune in Wilds This Summer. The interest being taken in the Ungava and Labrador gold fields, which are being reported as fabulously rich, has assumed significant proportions. Already some fourteen expeditions are equipping to leave for the far north this spring. One of the first and most important expeditions to leave is the Ungava Exploration Company. This enterprise is backed by influential Toronto and Cobalt men and will sail from St. John's, Newfoundland, in the latter part of May, reaching the gold fields about the end of June.
