The Toronto World

TUESDAY MORNING JUNE 18 1918

VOL. XXXVIII.—No. 13,733 TWO CENTS

SEVERE DEFEAT FOR THE AUSTRIANS

Senate Reading Room
1119-12001
SENATE POST OFFICE

FRENCH GAINS CONSOLIDATED ON THE AISNE

Enemy Counter-Attacks North of Hautebraye Have Been Repulsed.

PRISONERS TAKEN—370

Machine Guns and Trench Mortars Also Captured From the Enemy.

Paris, June 17.—"Between the Oise and the Aisne we repulsed enemy counter-attacks north of Hautebraye and consolidated our gains of the morning," says the war office announcement tonight. "The prisoners taken in this region numbered 370. We captured as well 25 machine guns and eight trench mortars."

FIGHT FOR LIFE IN SUNK U-BOAT

Fearful Scenes Enacted When Vessel Struck Mine on Leaving Zebrugge.

MANY COMMIT SUICIDE

Others Reached Surface From Conning Tower, But Compressed Air Burst Lungs.

London, June 17.—(Via Reuters Limited).—Harrowing details of the destruction of one of the largest and more recently constructed German submarines are given in a despatch from a neutral correspondent. This submarine was one of the last to leave Zebrugge before the entrance to the harbor was blocked by British forces on April 24.

The U-boat struck a mine, and out of the crew of forty only two survived in reaching the surface after a terrible struggle with death for an hour and a half twenty fathoms below the surface. Some of the crew committed suicide, having lost all hope of leaving the boat alive.

The only chance of escaping was to force open the conning tower and the forward hatch and trust to the possibility of air in one part of the vessel to force each man like a torpedo to the surface. The air pressure in the submarine had become so high that the great majority of the Germans could not keep their mouths closed.

The compressed air shot them to the surface, and hardly had they reached the sea level when the air pressure burst their lungs, and about twenty of them sank like stones. The survivors described the yells of the men, when the end came, as the most horrible noise they had ever heard.

The attention of a British trawler was attracted and it hastened to the rescue. The condition of the survivors showed that their experiences in the submarine had been of a dreadful character.

FLOCKING TO RUSSIA FROM THE UKRAINE

Unemployed Leaving Districts Occupied by Germans, Where Bayonet is Strike-Breaker.

Moscow, Thursday, June 6.—The unemployed are flocking to Russia from the Ukraine and other districts occupied by the Germans, where virtually all the factories are closed, the eight-hour law waived and workmen are being forced at the point of the bayonet to replace strikers in factories still operating.

Official figures of the Ukrainian commissioner of labor show there are 25,000 unemployed in Kiev; 20,000 in Odessa; 25,000 in Kherson; 40,000 in Ekaterinoslav; 35,000 in Kharkov and 25,000 in Nikolaeiv.

It is announced officially that 15,000 workmen are being evacuated daily from Petrograd and that a total of 36,000 have left that city since December, going chiefly to their native villages. Workmen are also being evacuated daily from Moscow in an effort to relieve the state of famine.

CHAMBER OF DEPUTIES ADJOURNS TILL AUTUMN

Tremendous Excitement as Italian Premier Praises the Army and the Allies.

Rome, June 17.—The chamber of deputies adjourned today until September—unless extraordinary events require that it reconvene at an earlier date—amid scenes of tremendous excitement. Premier Orlando paid a tribute to the Italian army, which, he declared, was aiding in certain victory for civilization and right in the world conflict, as well as the deliverance of oppressed peoples.

The chamber was in an uproar of applause as the premier eulogized King Victor Emmanuel and those who had been instrumental in helping the combatants and the civil populations in distress thru the war.

WILL NOT RECOGNIZE FINNISH GOVERNMENT

Hon. A. J. Balfour Says It Undoubtedly Is Under German Influence, the Same as Ukraine.

London, June 17.—In the house of commons today Hon. A. J. Balfour, foreign secretary, stated that the government did not propose for the present to recognize the Finnish Government, which seemed undoubtedly to be under German influence. He also stated that as far as he was aware none of the allies recognized the independence of Ukraine, which had received no assistance from the allies since it became completely subservient to Germany.

J. R. Clynes announced that the food ministry was assuming the responsibility for the wholesale collection, utilization and distribution.

DISTRICT DEPOT MOVES FROM RAVINA BARRACKS

Removal of the Toronto District Depot, the unit which has charge of the disposal of returned invalided soldiers, from Ravina Barracks, West Toronto, to the quarters in the Park School building, took place yesterday. The new quarters, adjacent to the Military Base Hospital, will be the home of the depot until the permanent accommodation at the St. Andrew's College property is ready. Capt. Charles Hertzberg, M.C., is commander at Park School. The adjutant is Capt. Ferris, D.C.M., Croix de Guerre.

AUSTRIAN EXCHANGE HAS FALLEN AGAIN

Amsterdam, June 17.—The Austro-Hungarian consulate has issued a denial of recent rumors on the bourse of friction between Austria and Germany in connection with the fall of Austrian exchange. Nevertheless, today, despite alleged successes by the Austrians in their offensive on the Italian front, it dropped another fraction to 21.45, as compared with a par value of 50.41.

TABRIZ OCCUPIED BY TURKISH TROOPS

London, June 17.—Turkish troops have occupied Tabriz, next to Teheran the largest city in Persia, according to a Turkish official statement dated June 14. The text reads: "We have occupied both shores of Lake Urmiah and the Town of Tabriz (northwestern Persia) in order to protect the wing of our army on the Caucasian front."

Only Minor Raids Mentioned in Haig's Official Report

London, June 17.—Field Marshal Haig's report from British headquarters in France tonight mentions only minor raids and the usual artillery activity along the British front. The statement says: "The enemy raided a British post last night east of Hebuterne; one man is missing. Another hostile raiding party attacked our lines north of the Somme early this morning but was repulsed. "Beyond the usual artillery activity on both sides, there is nothing to report."

Italian Political Quarrels Are Laid Aside Till Victory

Washington, June 17.—Harmonious enthusiasm marking Saturday's session of the Italian chamber of deputies, at which the Socialist leader, Turati, declared all political Socialists must be obliterated until victory was achieved at the front, was the subject of an official radiogram today from Rome.

British Cruiser Torpedoed With Loss of Sixteen Men

London, June 17.—The British armed mercantile cruiser Patia (6,103 tons) was torpedoed and sunk by a German submarine on June 13, according to an announcement made by the British admiralty tonight. One officer and fifteen men are presumed to have been drowned.

WITH THE AMERICANS.

Washington, June 17.—Aside from patrol activity in Picardy, Lorraine and the Vosges, no important developments at points held by the American troops in France were reported in tonight's communique from Gen. Pershing. In the Vosges a hostile raid was broken up by the American fire.

BIG PROFITS MADE BY LIQUOR VENDORS

Illicit Manufacture or Importation Has Not Made Much Headway in Province.

MANY PRESCRIPTIONS

Nearly Six Thousand in One Month Alone in Toronto This Year.

Is the purpose of the Ontario Temperance Act being defeated to large extent and a monopoly created in the sale of liquor, which is rapidly making wealthy men out of the holders of vendors' licenses?

Information laid against a Toronto physician's prescription certifying that he had served to call attention to the way in which the Ontario Temperance Act is working out.

To secure liquor now one must have a physician's prescription certifying that he has a physical ailment. To procure the records in the license commissioners' office there are a lot of people in Toronto suffering with everything from housemaid's knee to advanced stages of tuberculosis who simply want to get "a little something," and who neglect to secure a supply from Montreal before the ban was put on Ontario. In one month alone this year two Toronto vendors filled nearly 6000 prescriptions. This was during the time when the vendors permitted from Montreal. With that source of supply cut off and the stocks in the cellars of householders running low or depleted it is expected that the vendors' business will still further increase.

Price the Great Barrier.

To those who wish to secure a bottle of liquor, which is technically known as a "crock," the price is the greatest barrier, and it is hard to figure out why it should be so high. The most frequently called for "prescription" in a Canadian pharmacy, because the price of imported whiskeys, brandies and gins is almost prohibitive. Sealed bottles of standard Canadian whiskey sold at \$1.10 per bottle, and cost the dealer \$9 a case. The same brand is now sold by the vendors at \$1.25 per bottle, and it costs them \$11.50 per case. Under the old license system the dealer would have had to pay \$1.10 per bottle, while the present vendor's is about 50 per cent. In the case of draft whiskey, the vendors pay \$1.10 per bottle, while the dealer pays \$1.25 per bottle, and it costs him \$11.50 per case. Under the old license system the dealer would have had to pay \$1.10 per bottle, while the present vendor's is about 50 per cent. In the case of draft whiskey, the vendors pay \$1.10 per bottle, while the dealer pays \$1.25 per bottle, and it costs him \$11.50 per case.

TORONTO EXCEEDS DRAFT ACT QUOTA

Thirteen Thousand Estimate Has Already Been Passed by District.

EASTERNERS BEHIND

More Men Are Still Being Ordered to Report to Colors, However.

Toronto military district's quota of men toward the 100,000 called for under the draft act, which was estimated at 12,000, has already been exceeded in spite of this fact, however, more men of Toronto military district are being gradually called to the colors. On Saturday 400 men in "A" medical category received official notice to report to the colors on June 24.

Some of the military districts in western Canada have also given their full quota of men under the Military Service Act. It is a striking fact that none of the eastern Canadian military districts have yet furnished the required quotas under the draft act. The question is being asked why Toronto and other districts which have already given their share of men towards the 100,000 total, should give any more men until such time as the eastern districts complete their allotments.

Under a new arrangement just decided upon by the Ottawa authorities, in cases of men being ordered to report and then reporting ahead of time so as to gain the advantage of choice of unit, they will not be counted as forming a part of the 100,000 total. In regard to this point it is stated that the provisions of the Military Service Act. It is a striking fact that none of the eastern Canadian military districts have yet furnished the required quotas under the draft act. The question is being asked why Toronto and other districts which have already given their share of men towards the 100,000 total, should give any more men until such time as the eastern districts complete their allotments.

STEEL STRIKE IS ENDED

Employees of Nova Scotia Company Accept a Partial Increase.

MOTOR STRUCK ROPE

Three Persons Seriously Injured Returning to Ridgeway.

Ridgeway, June 17.—Their motor colliding with a rope which had been stretched across Erie street as a barricade to permit oiling the street, Florence Westbrook, daughter of P. Westbrook, a Brantford hotelkeeper, Miss Clara Montgomery, of Brantford, and a little niece of Mr. Westbrook were seriously injured today.

The three have been hospitalized at Rondeau government park and were motoring to town. Miss Westbrook was driving and the party apparently did not see the rope, the color of which was similar to that of the oil on the street. The rope in the instant broke the windshield of the car. It caught the occupants about the neck. Miss Westbrook had her windshield crushed. A hemorrhage resulted and for some hours it was feared she would die.

Austrians Are Being Aided by Some Contingents of Germans.

FORCES POUR FORWARD

Trains Crowded With Troops for Reinforcements Rushing Towards Italy.

Geneva, June 17.—Reports received here from Buchs and also from several points along the Swiss-Tyrollese frontier indicate that the Austrians are aided by some contingents of Germans and that the Austrians continue to pour considerable force toward Italy. It is said that trains from Innsbruck, Bolzen and Trento are crowded with troops going southward and that the ordinary traffic on the railroads has been suspended.

The new Austro-German headquarters, the reports add, is established just behind the Sette Comuni region. Following the example of the Germans in the Alsatis and Lorraine, the Austrians are placing Slav irredentist regiments in the first and most dangerous lines, with Tyrollese troops behind them in order to prevent wholesale desertions.

Vienna newspapers received here devote large headlines to alleged successes by the Austrians. They deny that the offensive was ordered by Berlin, but say it is due entirely to the foresight and preparations of the Austrian headquarters staff.

LOUSE IS BLAMED FOR TRENCH FEVER

Dr. H. A. Bruce Tells of Result of Investigation at Front.

MEANS OF CONTROL

Members of Academy of Medicine Addressed by Visiting Surgeons.

"After this war there will be only two kinds of people: those who have served and those who have not served," the speaker was Col. H. A. Bruce, consulting surgeon to the British armies in France, who, together with Sir Arbuthnot Lane, consulting surgeon for the Aldershot command, lectured last night before the Academy of Medicine.

TWO ARE ARRESTED FOR HOARDING SUGAR

Probably the first arrests to be made under the new food regulations (the effect that no one can have more than 15 days' supply of sugar on hand, were made last night by Plainclothesmen Marshall and Sullivan of Court street station, when Mike Frenk, a Greek restaurant keeper at 148 York street, was arrested for hoarding six bags of sugar, and Jung Kea, a Chinaman, also a restaurant keeper at 162 York street, was taken into custody for having four bags in his possession.

MOUNTAINS OF STEEL IDLE IN VANCOUVER

Montreal, June 17.—"Veritable mountains of costly and rare steel materials, for which Canada is looking every day in vain are lying idle on the wharves and in freight cars in Vancouver," said a Canadian railway board official in an interview here today.

About 50,000 tons of light rails, spikes, angle iron, spare parts of engines and cars have been lying in their present position for several months awaiting orders for transportation to Russia. The Canadian railway board has been awaiting action by the allied authorities in response to its representations.

GERMAN RAIDING PARTY SUCCEEDS IN CAPTURING A FEW AMERICANS

With the American Army in France, June 17.—A German raiding party took a few American prisoners on the Lunerville front this morning. The enemy raid followed a patrol fight, in which the Americans penetrated the enemy trenches, killing one German and wounding another.

AT LAST THEY'RE HERE.

We thought that these Dunlop Straws Hats would never come, but here they are now—just arrived. The tullest, smartest styles you ever saw. There's a hat here to suit every head, and our prices will certainly suit you. Yours truly, H. H. Williams & Co., at Temperance and Yonge streets.

Enemy is Reorganizing After His Severe Defeat

British Statement Shows That Austrian Losses in Men and Guns Were Heavy, While Allied Casualties Were Light.

London, June 17.—The Austrians are reorganizing their effective along the British line of the Italian front after "severe defeat," according to an official statement issued tonight on the operations of the British with the Italians. The statement says:

"There is little change on the British front. The artillery battle has died down and the enemy is reorganizing after his severe defeat.

"Captured maps show that his objectives were very ambitious; they included the capture of Pau and Cima di Fonte. The number of prisoners has increased to 716, including 12 officers. The total amount of captured material actually brought in was four mountain guns, 48 machine guns and seven flamethrowers.

"Considering the severity of the bombardment and the intensity of the fighting our casualties were very light. On June 15 and 16 the Royal Air Force dropped over 300 bombs and fired over 25,000 rounds of machine gun ammunition on troops and transport attempting to cross the Piave."

"BLUE DEVILS" LEAVE FOR CANADIAN TOUR

New York, June 17.—Escorted by representatives of various Canadian Governmental departments and traveling on a train provided by the Canadian Government, the "blue devils" of France will leave New York tomorrow afternoon for a tour of Canadian cities.

The Canadian party, which arrived in this city today, is headed by L. J. Loranger, M.C., of the military service council, and consists of Captain Jenkins, secretary of the military service council, transport service; Lieut. M. Taylor, M.C., and P. Thomas Ahern, private secretary to the minister of justice.

The itinerary of the trip, which will cover the period from June 18 to July 2, follows: June 18, leave New York, 2:15 p.m. June 19, leave Quebec, 1:30 p.m. June 20, leave Quebec, 3 p.m. June 21, leave Montreal, 7 a.m. June 22, leave Montreal, 8:45 a.m. June 23, leave Ottawa, 12:30 p.m. June 24, leave Ottawa, 10:30 p.m. June 25, leave Toronto, 7:50 a.m. June 26, leave Toronto, 8:30 a.m. June 27, leave Toledo, on return to New York.

Fully 500 members of the faculty were present in the mining buildings to hear the lecturer, who, with Sir James MacKenzie, were on the American continent at the invitation of the American Medical Association, and have just attended the convention of that body in Chicago.

Sir Arbuthnot Lane laid stress on the demand for medical men at the front. The medical men of Canada had, he said, come nobly forward, and he had no doubt that those of the United States would also do so. He explained in detail the revolution in surgery brought about as a result of the war, and especially the new methods which were, he said, destined to be of inestimable benefit here in Canada at the conclusion of the war.

CAUSE OF TRENCH FEVER

Colonel Bruce, speaking in place of Sir James MacKenzie, who was unable to be present, gave an interesting account of medical work at the front. As a result of a prolonged examination, the cause of trench fever, he said, had at last been discovered. The result of this investigation was to condemn the louse as being entirely responsible for the disease. The medical authorities had therefore decided to combat this active insect, and had already set up a number of lousing stations by which it was hoped to make this insect less active than in the past.

EMPEROR CHARLES OF AUSTRIA WITH MEN ON ITALIAN FRONT

Amsterdam, June 17.—Emperor Charles is with his troops on the Italian front, according to a Vienna despatch to The Nieuwe Rotterdamse Courant. No German troops are participating in the offensive, the despatch adds.

Lists of Returning Soldiers Will Be Sent to Other Points

The soldiers' aid commission announces that from now on, instead of the lists of returning soldiers for Toronto military district being only issued in Toronto City, a list of the men due will be sent to every town in the district, addressed to the commission's local representative. The local representatives will be held responsible to see that the next of kin of the homecoming soldiers are given proper notice.

IMPORTANT RAILWAYS AND DOCKS BOMBED FROM THE AIR ON SUNDAY AND MONDAY.

London, June 17.—"The uncertain weather interfered with our operations Sunday," says the official statement on the work of the airmen. "The enemy aircraft were active at times on the northern portion of the British front. We lost ten machines, six of which were working south of Montdidier.

"We dropped twenty-two tons of bombs by day and twelve tons Sunday night, heavily attacking the railways at Armentieres, Estaires, Comines and Courtrai and the docks at Bruges. Two of our night flying machines failed to return."

Italians, French and British Start Successful Counter-Attack.

GAIN PARTIAL SUCCESS

Battle Goes on With Extreme Violence Along the Piave River.

Rome, June 17.—Italian troops in conjunction with their French and British allies yesterday began a counter-offensive against the Austro-Hungarian forces which had launched an attack on the Italian mountain front. The Italian and allied troops, according to an announcement made today by the war office, were able to gain partial successes and to rectify their lines at several points along the front.

The statement says the Austrians, disregarding their losses, continued their endeavors to cross the Piave River, but that the Italians are bravely holding their positions.

More than 4500 Austrians have been made prisoner by the Italians, British and French.

ARE YOU WILLING TO HELP FARMERS?

Canada Food Board Appeals That Reply on Registration Paper Be "Yes."

FARM HELP AT LOW EBB

Let Every Able-Bodied Canadian Arrange to Be Free to Aid With Harvest.

Ottawa, June 17.—Chairman H. B. Thomson of the Canada Food Board issued the following statement to the Canadian Press today:

"Almost on the eve of national registration the Canada Food Board places the need for additional farm labor for the harvest of 1918 squarely before those who are required to sign the registration cards. Before signing these cards the people of Canada should be thoroughly aware of what the answers they give these questions mean.

"The question on these cards requiring the most thoughtful answer is number 12, which reads as follows: 'Do your circumstances permit you to serve in the present national emergency by changing your present occupation to some other for which you are qualified, if the conditions be satisfactory?' The work of harvesting this year's crop is emergency service. Canada has handed other emergencies well, notably recruiting or expeditionary forces, Red Cross, Patriotic Funds and Victory Loans. There is no reason why we should not make ready to help the farmers in harvesting the crop. Are you willing to your bit at home here in Canada to stave off starvation among our kinsmen and our allies in Europe? That is a genuine statement of the situation which this question puts before every able-bodied man and woman in Canada.

"The German army, forty-five miles from Paris. The naval blockade of Germany and Austria has been rendered only partially effective by the collapse of Russia. The allies are depending on this continent for food and raw materials. The German submarine blockade, while the road for supplies to the enemy has been opened from the east by land.

"Big Contribution to the Wheat. The Canada Food Board has been conducting a campaign of conservation of foodstuffs for nearly a year to win over the scarcity in the interval since last harvest. But conservation is only a fraction of our national duty. We cannot possibly feed Europe by conservation methods alone. Our really big contribution to the allied cause, apart from our purely military contributions of men, money and munitions, is wheat. Wheat produces a larger surplus of wheat per head of population than does the United States, and this year has shipped more in actual bushels. Wheat, beef, pork, cheese, butter and lard are all wanted, and America needs them.

"The farmers must supply more this season than last or starvation stalks allied Europe in the face. The farmers have responded to the appeal for greater production. By extraordinary efforts greater acreage has been successfully harvested. But farm labor of the various other extraordinary reasons makes impossible the production of the wheat.

"To Save the Harvest. The problem, therefore, of saving the 1918 harvest is before the people now employed in non-essential industries chiefly in towns and cities, and those who are not really employed at productive work at all. This latter class yesterday afternoon, under our competitive system of doing business far too many even in peace times, in time of war, turned aggressors on some of the more important sectors, especially in the mountain regions.

"Counter-attacks in the hill country on the north at several points have resulted in the occupation by the allies of ground won from them in the initial onslaught and the recapture of their lines, while a stiffening of the front along the Piave River has rendered impossible, for the time being, at least, further fording of the stream by the enemy.

"Hard fighting still is in progress, however, with the Austrians bringing the strongest kind of pressure to bear against the allied armies on both the northern and eastern parts of the battlefield in an endeavor to reach the line and gain access in force to the plains.

"The strokes of the enemy are particularly violent on the Montello Plateau, the highest bit of ground along the middle reaches of the Piave, the capture of which would give him command of the roads leading thru Treviso to Venice and a railway westward thru the Province of Treviso. The Italians are inflicting heavy casualties on the troops of Emperor Charles which crossed the river at this point.

"To the south from St. Andrea to Fossalata, respectively, the northern and southern flanks of the famous Zenson loop, where last of the Austrians effected a crossing of the Piave only later to be driven back with sanguinary losses, and from Fossalata to San Dona di Piave the fighting also is of a violent character, with the Italians heroically and successfully, according to the Rome war office, holding the line of the river.

"Between Candelo and the Zenson loop, where the Austrians crossed the Piave in Saturday's fighting, the Ita-

lians have driven them back to the river bank and are endeavoring to push them across the stream. The latest Austrian official communication records the gain of additional ground west of San Dona di Piave and the capture of the Village of Capo Sile, and the capture of the Lagoon region in the Province of Venezia and about 20 miles from the City of Venice itself.

"Thus far the Italians, British and French troops have made prisoner of more than 4500 Austrians, while the Austrian war office asserts that 12,000 prisoners have been taken by the Austrians.

"Altho the fighting has died down considerably in the mountain region, it is expected soon again to be resumed with increased violence. Emperor Charles is reported to be at the front and thousands of reinforcements for the army are said to be moving southward. The allied commanders are anticipating vicious fighting, believing that owing to the turmoil and political unrest in the dual monarchy, the Austrians must make a good showing in order to temper the feeling against the war at home.

"There still has been no return to the heavy fighting of last week on the battle fronts in France, altho several engagements of greater importance than the usual raiding operations have taken place. Counter-attacks against the French in their new positions between the Oise and the Aisne, delivered by the Germans Monday, were repulsed. The French captured 370 prisoners and 25 machine guns in the fighting.

"Northward of Chateau Thierry, especially in the Belleau Wood, the Germans are treating the Americans to large waves of gas and shells. Their efforts have gone unavailing, however, so far as crossing the line is concerned. American patrols east of Chateau Thierry again have crossed the Marne, attacked the Germans and returned to their base.

"In Persia the Turks are reported to have captured Tabriz, after Teheran the largest city in Persia.

"sumed, there should be none left in this class at all. 'Up to the present the issue has not perhaps been directly placed before each individual in sufficiently clear-cut fashion. On registration day, June 22, and during the few days intervening, the question will be right up to every man and woman in the Dominion: 'Are you willing to do farm work?' (No. 12, section E.) Large business and industrial establishments have a heavy responsibility in this matter.

"Let each able-bodied Canadian plan, therefore, to arrange his or her personal affairs so as to be free to help with the harvest when called upon, or take the place of another who is willing and more able to go. Think over in all its personal bearings now and be ready on registration day with your mind made up and your way clear. The answer to questions 12 and 13-E is 'Yes.'"

GRADUATION EXERCISES AT WELLESLEY HOSPITAL

Sir Arbutnot Lane and Dr. Herbert A. Bruce were present yesterday and spoke at the graduating exercises at Wellesley Hospital, at which Sir William Mulock presided. Sir Arbutnot also presented the diploma to Miss E. G. Plaw, superintendent, distributed the class pin, and the following—Senior year: Sir William Mulock, scholarship for general proficiency, Miss Minnie Colebrey (who is at present in New York); the Herbert A. Bruce scholarship for proficiency in operating room technique, Miss Madeline Ida Rogers; Intermediate year: The Sir William Mulock scholarship for general proficiency (senior division), Miss McBride (in New York); (junior division), Miss Robson; junior year: The Sir William Mulock scholarship for general proficiency (senior division), Miss Low; (junior division), Miss Low.

The following graduated: Minnie Elizabeth Colebrey, Mabel Hutchison, Gladys Louise Jones, Isabel MacLeod, Blanche Lillian MacLeod, Mary Katherine Morrison, Anna Submitt, Odum, Edythe Patton, Wanda Elizabeth Riggs, Jessie Margaret Ritchie, Madeline Ida Rogers, Margaret Elizabeth White.

WANT PARKS CLOSED AT ELEVEN O'CLOCK
Two resolutions were passed by the social workers at a meeting held yesterday in the city hall. The first was as follows: This group of social workers petition the city council to close the parks, beaches and islands of the city at 11 a.m. to 1 p.m. to provide a sufficient number of men or women police adequately to supervise the same.

The other resolution was: That this group of voluntary social workers respectfully urge the Dominion Government to create a commission to study, recommend and see the provision of recreation facilities required to assist in combating social evils resulting from a lack of legitimate amusements.

The matter of recreation centres was discussed for some time, and the question of dancing and moving picture shows in the parks was taken over. It is proposed to proceed with the idea.

FOOT CAUGHT IN WHEEL

When his foot became entangled in the rear wheel of a wagon on which he was riding yesterday afternoon, Woodrow Hoath, aged 4, of 753 Brock avenue, was severely injured. The boy was removed to St. Joseph's Hospital, where it is feared that it will be necessary to amputate the foot. Dr. Lane, 1201 West Bloor street, was called and rendered first aid.

WAR SUMMARY

THE DAY'S EVENTS REVIEWED

Not alone are the Italians and their British and French comrades-in-arms holding in check the Austrian offensive along the greater part of the hundred-mile battlefield from the region southeast of Trent to the Adriatic Sea, but they themselves have turned aggressors on some of the more important sectors, especially in the mountain regions.

"Counter-attacks in the hill country on the north at several points have resulted in the occupation by the allies of ground won from them in the initial onslaught and the recapture of their lines, while a stiffening of the front along the Piave River has rendered impossible, for the time being, at least, further fording of the stream by the enemy.

"Hard fighting still is in progress, however, with the Austrians bringing the strongest kind of pressure to bear against the allied armies on both the northern and eastern parts of the battlefield in an endeavor to reach the line and gain access in force to the plains.

"The strokes of the enemy are particularly violent on the Montello Plateau, the highest bit of ground along the middle reaches of the Piave, the capture of which would give him command of the roads leading thru Treviso to Venice and a railway westward thru the Province of Treviso. The Italians are inflicting heavy casualties on the troops of Emperor Charles which crossed the river at this point.

"To the south from St. Andrea to Fossalata, respectively, the northern and southern flanks of the famous Zenson loop, where last of the Austrians effected a crossing of the Piave only later to be driven back with sanguinary losses, and from Fossalata to San Dona di Piave the fighting also is of a violent character, with the Italians heroically and successfully, according to the Rome war office, holding the line of the river.

"Between Candelo and the Zenson loop, where the Austrians crossed the Piave in Saturday's fighting, the Ita-

lians have driven them back to the river bank and are endeavoring to push them across the stream. The latest Austrian official communication records the gain of additional ground west of San Dona di Piave and the capture of the Village of Capo Sile, and the capture of the Lagoon region in the Province of Venezia and about 20 miles from the City of Venice itself.

"Thus far the Italians, British and French troops have made prisoner of more than 4500 Austrians, while the Austrian war office asserts that 12,000 prisoners have been taken by the Austrians.

"Altho the fighting has died down considerably in the mountain region, it is expected soon again to be resumed with increased violence. Emperor Charles is reported to be at the front and thousands of reinforcements for the army are said to be moving southward. The allied commanders are anticipating vicious fighting, believing that owing to the turmoil and political unrest in the dual monarchy, the Austrians must make a good showing in order to temper the feeling against the war at home.

"There still has been no return to the heavy fighting of last week on the battle fronts in France, altho several engagements of greater importance than the usual raiding operations have taken place. Counter-attacks against the French in their new positions between the Oise and the Aisne, delivered by the Germans Monday, were repulsed. The French captured 370 prisoners and 25 machine guns in the fighting.

"Northward of Chateau Thierry, especially in the Belleau Wood, the Germans are treating the Americans to large waves of gas and shells. Their efforts have gone unavailing, however, so far as crossing the line is concerned. American patrols east of Chateau Thierry again have crossed the Marne, attacked the Germans and returned to their base.

"In Persia the Turks are reported to have captured Tabriz, after Teheran the largest city in Persia.

YORK COUNTY AND SUBURBS

Earlscourt NEW FERRY RATES ROUSE INDIGNATION

Deputation of Earlscourt Citizens Waited on Council, Opposing Increase.

A deputation from the British Imperial Association and the Earlscourt and Central Ratepayers' Associations strongly opposed the proposed raise in the Toronto ferry fares before the city council yesterday afternoon. Sergt. MacGardner, representing Earlscourt branch of the Great War Veterans, characterized the five-cent raise as a scandalous jump, because it would work a great hardship on the returned men, their wives and families. The G.W.V. men, who are to maintain a list of 60 registrars to complete the work.

Colonel Thompson will provide a number of men to handle the crowd and direct the registrars to the registration station. Miss Hodge, assistant principal and deputy registrar, will assist Mr. Hill in the work of supervision.

Hope Methodist Church, Danforth avenue, was tastefully decorated last Sunday morning, (Children's Sunday) when a special service was held. The children of the Sunday school, from the primary to 15 years, provided the program. Several babies were baptised during the service, which was conducted by Rev. A. J. Perryberry, William Cowan, superintendent of the Sunday school, assisted. There was a very large congregation present.

DANFORTH AVENUE PICNIC.
The annual picnic in connection with the young people of Danforth Avenue Baptist Church, Danforth avenue, was held at Victoria Park recently, when the number of young people, including one mother and one father, numbered 150. Miss E. M. MacLean, pastor. There was a large congregation present.

LEAVES FOR BUFFALO.
Rev. M. A. MacLean, pastor Danforth Avenue Baptist Church, leaves today for the International Baptist Sunday School convention at Buffalo, N.Y. Mr. MacLean will represent the Danforth church at the convention, which will be held at the Danforth Y.M.C.A. building.

WINCHESTER HILL REPAIRED.
Very necessary repairs were made on Winchester Hill roadway at the Broadway end yesterday for a short distance, where the road was in a dangerous condition. The wooden sidewalk was also replaced.

Todmorden REGISTER AT TORRENS.
Hartman Jones, principal of Torrens avenue school, and eight volunteer assistants will register all residents in the district in connection with the Canada Registration Act at Torrens avenue school, and the old school on Saturday next. Hartman Jones has been appointed deputy registrar for the district.

WRITE AT TORRENS SCHOOL.
In connection with the entrance examinations in East York, Torrens avenue school, has been selected as one of the schools, and candidates from neighboring schools will write in the rooms of the school on Thursday and Friday. Principal Hartman Jones, Torrens avenue school, and Principal Hartman Jones, Torrens avenue school, will preside during the time the pupils are writing their papers. About eighteen pupils of Torrens avenue school are candidates for the entrance examinations. Torrens avenue school is in the jurisdiction of Superintendent Jordan.

HUNDRED LITTLE GARDENS.
Over 100 little gardens are now in progress in connection with Torrens avenue school, and the supervision of Hartman Jones, principal, and looked after by the pupils. Good results are expected, and the crop is well advanced.

CENTRAL BODY DISCUSSION.
The aims and objects of the York Township ratepayers' central body will be discussed at a meeting of ratepayers' association delegates from the township on Thursday evening, at the Torrens avenue school, Todmorden, this evening. The meeting will be presided over by the secretary, pro tem, D. McCarthy, at the meeting.

Brampton RECTOR LOSES RELATIVE.
Rev. Canon Walsh of Brampton received word today that his little granddaughter, the child of Mr. and Mrs. Adolphus Brown of Kingston, had died of pneumonia very suddenly. The remains will be interred in Brampton cemetery tomorrow afternoon.

AWARDED SOLDIER'S INSURANCE.
Mrs. Alfred Burrows of Brampton has been awarded the insurance of Pte. Jas. A. Burrows, a soldier who boarded with her and who appears to have no next of kin.

CAN'T GET A HEARING.
The members of the county council complain that they cannot get a hearing from the Ontario Railway and Municipal Board, the bridges that are to be built by the Toronto Hamilton Highway Commission over the Etobicoke and the Credit rivers. The council wants to know what proportion they have to pay, and the meeting, which was to have settled the matter, has been adjourned six times.

SCHOOL FAIR GRANTS.
The Peel County representative of the department of agriculture was granted a grant of \$100 for the school fair this year. The other fair will receive their grants as usual.

West Toronto FAIRVIEW LODGE MEETS.
Fairview Lodge, No. 446, I.O.O.F., met at the regular meeting last night at Colvin's Hall.

PACIFIC LODGE, A.O.U.W.
The regular meeting of Pacific Lodge, No. 283, A.O.U.W., was held last night at St. James' Hall.

GIRLS PACK PARCELS.
The girls of the Alexandra Bible Class of Victoria Presbyterian Church met at the church last night and packed and addressed parcels to 35 soldiers overseas who enlisted from the Barnardo Home. Each parcel contained a pair of socks and a letter from one of the girls, and a two-dollar bill.

FRATERNAL VISIT PAID.
The Duke of York L.T.B., No. 31, was in and returned to the school fair this year. No. 38, last night at St. James' Hall, and a game of carpoolball played.

Richmond Hill RICHMOND HILL WOMAN KILLED BY TROLLEY CAR

Miss Bridget Lynett, a highly respected woman of Richmond Hill, was struck by a southbound Metropolitan car at 3.30 yesterday afternoon. She was instantly killed. She attempted to cross the street between crossings at the north end of the village, and no doubt owing to her deafness, she did not notice the car coming. She was 73 years of age.

COLLECTION FOR PRISONERS.
The collection for the prisoner of war fund recently taken up by the Earlscourt Church, First avenue, amounted to \$71.61, according to the statement of the pastor, Rev. Dr. Seager.

GROSS NEGLIGENCE, CHARGES THE JURY

Verdict Returned in Investigation of Deaths of Farmer Delegates.

That dual gas and electric fixtures should be prevented by law from being installed in public buildings, and that the method of some proprietors in shutting off the gas at the meter should be discontinued, except in a case of necessity, was the gist of the verdict returned by the jury at the morgue last night, which was empaneled to investigate the circumstances surrounding the deaths of Richard Goggin and William Lehey, two farmers of Madoc, who died from the result of inhaling illuminating gas while asleep in their room at the Koro House, Queen and St. Patrick streets, on Saturday, June 8.

Following the inquest the proprietor of the hotel, John Mott Blackhall, was arrested by Detective Peter Ström, of West Dundas street station, on a charge of criminal negligence. The charge is based on the evidence to the effect that he did not investigate the cause of the leakage of gas as soon as it was reported to him.

According to the evidence submitted the proprietor had been in the habit of shutting off the gas supply at the meter every night as there were one or two leaks in the pipes, and he was afraid that someone would be suffocated. He had, however, turned the gas off the night that the two men were suffocated. One of the permanent boarders at the hotel got his own breakfast in his room, and the proprietor, who was in the room, turned the gas on for him every morning when he got up.

Mrs. Blackhall, wife of the proprietor, said that on the night that the two men were suffocated she had heard someone get up and go to the bathroom. The slamming of the bathroom door had awakened her. She was thought possible that one of the men had on getting up mistaken the gas tap for the electric light key. One of the keys were within an inch of each other on the dual fixture and could easily be mistaken in the dark by one who was not used to the dual fixture.

Mrs. Annie Edwards, an employee of the hotel, said she was warned by the proprietor of it it is alleged, however, that the proprietor did not give it his immediate attention. Plain-clothesman William Ward, of West Dundas street station, who was in investigation after the fatality, stated that he had questioned Mrs. Edwards regarding the time at which she had first noticed the gas smell, and that she had said it was about 10 o'clock. She said she had heard two or three different answers.

Coroner Dr. M. D. McKelvey, in summing up the evidence, said to the jury: "The point in question is, was the gas on or not? We all agree that it is not a good practice to leave the gas on, as owing to the double fixture the wrong key might have been easily turned." He was also of the opinion that the gas had been on all night owing to the condition of the bodies.

After the first summing up of the jury returned with the following verdict: "We find that Richard Goggin and William Lehey came to their death in the Koro House on June 8, as a result of gas poisoning. We are of the opinion that the proprietor of the hotel was guilty of gross negligence in not thoroughly investigating the smell of gas which he had been informed of by the maid about 7 a.m. There was a smell of gas in the hall, and that he left it until 2 p.m. before he notified the police and had the door broken down, instead of having the door broken down the first smell of gas.

"We are also of the opinion that the dual fixture is not a proper one to be in a public building, and that the method of shutting off the gas at the meter in a case of necessity should be discontinued."

FOUND DEAD IN BED.
Katherine Sheridan, aged 40, 132 Toronto street, was found dead in bed yesterday. Death was thought to have been due to using a drug as an alcoholic beverage. The body was removed to the morgue, where an inquest will be opened.

CHARGED WITH ASSAULTING POLICEMAN
Tate (118), while he was making an arrest, Alexander Shukta, an Austrian, living at 48 Edward street, was taken into custody by the police of West Dundas street station last night. Shukta is alleged to have struck the officer while he was arresting a man on a charge of drunkenness.

ASSAULT IS CHARGED.
Charged with assaulting Policeman Tate (118), while he was making an arrest, Alexander Shukta, an Austrian, living at 48 Edward street, was taken into custody by the police of West Dundas street station last night. Shukta is alleged to have struck the officer while he was arresting a man on a charge of drunkenness.

EATON'S DAILY STORE NEWS

Of Interest to Those Who Stay at Home and Those Who Go Away

Plain Colored Japanese Ware in All the Glory of Sweet Pea Tints—Mauve and Rose, Blue, Yellow, Orange, and Green

A. Such an interesting-looking vase of orange-colored pottery gleaming through a coating of split bamboo. It is a splendid shape for flowers, very well proportioned and five inches high. Price 50c. Similar shapes are obtainable in green and canary yellow.

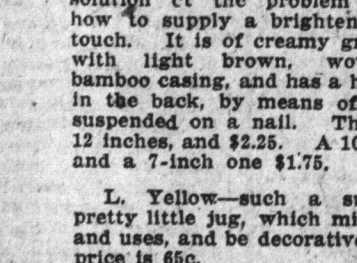

B. Do you need an extra sandwich plate for those garden and verandah teas which nowadays are very much the order of the day? Or perhaps you'd like a handsome fruit plate? Here is one that will do duty as either—a plate with the popular pheasant and tree design in green, mauve and orange on a black ground, with frame and handles of dark brown split bamboo. Price, \$1.25.

C. A most artistic piece of pottery, a squat three-handled jar in blue, with a purplish tinge, shading to brown at the edges. Price, 85c.

G. A vase in the simple classic shape of which one never tires, so blue in color that it is a delight to look at, yet softened by a kind of misty overglaze, so that flowers of almost any color would look well in it. Price, 40c.

E. The sort of vase that you always need in the rose and iris season—"bud" vase, beloved of the artist. It is obtainable in mauve and blue. Price, 40c.

H. If you've a dull uninteresting corner in some room, this cornucopia is a happy solution of the problem of how to supply a brightening touch. It is of creamy grey, with light brown, woven bamboo casing, and has a hole in the back, by means of which it can be suspended on a nail. The one sketched is 12 inches, and \$2.25. A 10-inch one is \$2.00, and a 7-inch one \$1.75.

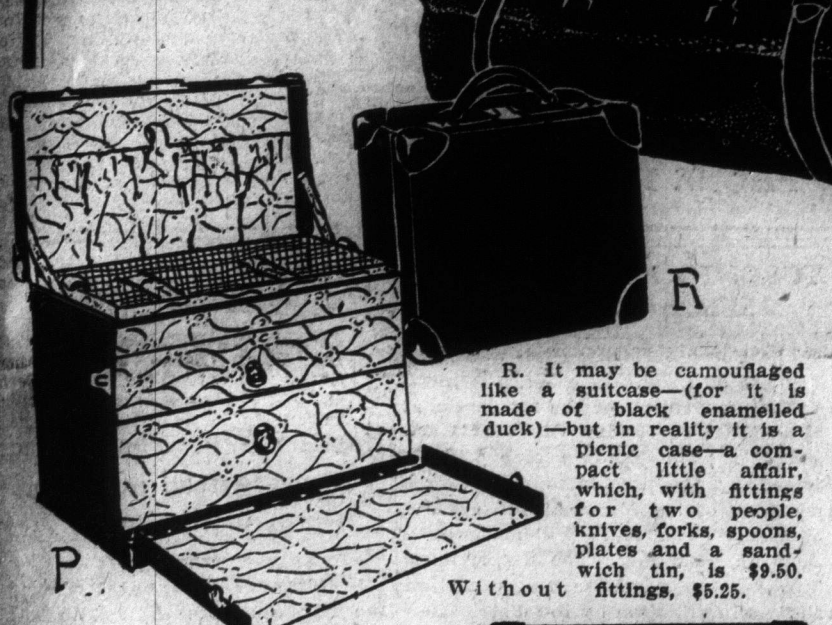

I. A tea-set that is subtly "different" and remarkably inexpensive, this one of plain Japanese ware, in such a beautiful shade of orange! The price of the three pieces is \$2.25. Tea cups to match are 40c each; tea plates 30c, and bread and butter plates 20c each. Green, yellow and rose cups and saucers and plates are the same price. In light mauve the teapot, cream jug and sugar bowl are \$3.00; cups and saucers, 40c each, and plates in two sizes, 25c and 40c, respectively.

J. A pot pourri jar—a most graceful receptacle for the dried sweetness of rose leaves and spices, of lavender and musk. Under the cover is a little pierced top, through which the perfume may escape. It is obtainable in a tawny orange, in blue or in mauve. Price, 65c.

Camping? Touring or Just Picnicking?

However You May Elect to Spend the Summer, Here is Luggage of the Sort to Add to Your Comfort and Convenience.

P. An "automobile trunk"—specially designed to fit in the small space available in a motor. And if you are contemplating a motor tour this summer, or even if you are travelling by train or boat, you'll find it such a very useful and compact piece of luggage. Made of the fashionable black enameled duck, it is built upon the wardrobe principle, with divided drawers and a tray. Such a miniature "chest of drawers" does away with the constant packing and unpacking usually the bugbear of a trip. The price is \$25.00.

R. It may be camouflaged like a suitcase (for it is made of black enameled duck)—but rest assured that it is a picnic case—a compact little affair, which, with fittings for two people, knives, forks, spoons, plates and a sand-wich tin, is \$9.50.

S. Here is that joy of the camper's heart—a hold-all, whose capacity seems limitless. It is made of black enameled duck, the ends stiffened and held in position by leather straps. Price, \$9.25.

June is Here, So the Fisherman Would Angling Go

And in the Sporting Goods Department He May Find the Wherewithal—Fishing Tackle of All Sorts, and the Indispensable Landing Nets, Bait Cans, Baskets, Etc.

The devotees of Isaak Walton will find the Fishing Tackle Circle a most interesting halting place on the road to the Mecca of their delight; for here is practically every sort of gear that a fisherman needs to use in our inland waters. Far too much even to tabulate, but here are a few of the most universally interesting: In a new shipment of English tackle, silk lines of various qualities ranging in price from \$2.00 to \$7.50. Split bamboo fly rods—\$1.75, \$6.00, \$9.00. Bristol steel fishing rods—\$7.75, \$9.00, \$10.00 and \$20.00. Salmon rods, 12 feet, of cane with two extra tips—\$15.00 and \$20.00. Trolling spoons for bass, pike, muskellunge, salmon, etc.—15c, 25c, 50c, \$1.00 and \$1.50. Trolling lines, 84 feet long—15c, 20c, 25c, 35c. Bait cans, closed or floating. Each, \$2.50. Minnow traps, with strongly woven wire mesh—\$1.75.

W. A veritable boon to any fisherman, this collapsible landing net. The triangular steel frame is joined to the wooden handle by a strong steel bolt, and can be folded in three pieces and put into a little 2-foot bag, which will go into the ordinary suitcase. Price, \$3.00.

U. Trout fishing basket of the regulation type and size, made of white split willow. Price, \$2.25.

LEAGUE OF NATIONS FOR LASTING PEACE

Member of British War Cabinet Says, However, That Germany Must First Be Beaten.

ARMAMENT REDUCTION

Idea is to Extend Principle at Present Binding the British Empire.

London, June 17.—(Via Reuters' Ottawa Agency.)—George N. Barnes, member of the British war cabinet, speaking at Dartford, referring to his proposed conference of the allies for the purpose of inaugurating a league of nations, said the only way to secure a lasting and just peace was through a league of nations, although an indispensable preliminary was the defeat of Germany. The German attempt to dominate Europe, he said, had been made before the war ended, otherwise in the first flush of peace the world would fall thru sheer exhaustion to a provision for the maintenance of peace. The league should bind all nations to use the economic boycott, and as a last resort international force against any power breaking the peace of the future. The inclusion of Germany should later be insisted on. Mr. Barnes advocated a reduction in armament and the elimination of private profits in their manufacture. He urged as a practical proposal an immediate inter-allied conference with representatives of organized democracy and also government representatives to discuss the terms. The idea was to extend the application of the

principle at present binding the elements of the British Empire. The agreement should be a common, defensive treaty for arbitration and pooling the resources of the allies for the coming peace reconstruction. Mr. Barnes prefaced his remarks by replying to recent criticisms. He said it had been suggested that he meant the proposed conference to be one for the discussion of peace terms to end the war. It had been put up for such a purpose. He was sorry such an interpretation had been put on his words. He had meant just exactly what he had said and no more. He had spoken on his own responsibility and without any special authority. Mr. Barnes said he was not there to talk peace when there could be no peace. He was as convinced as ever that the defeat of the German attempt to dominate Europe was an indispensable preliminary to the beginning of any lasting and just peace.

German Airplane Was Chased Back From East Coast of Kent

London, June 17.—A German airplane crossed the Kent coast of England soon after noon today. It was chased out to sea by the British anti-aircraft guns. An official statement announcing the attempt of the German raider says: "A hostile airplane crossed the Kent coast shortly after midday today. It was fired at by anti-aircraft defences and made out to sea immediately."

MARDEN SCOTT RE-ELECTED.

Indianapolis, Ind., June 17.—Marsden G. Scott has been re-elected president of the International Typographical Union, according to a announcement made at the international headquarters here today by the official canvassing board of the order. The canvass of votes has been proceeding for some time. Walter W. Barrett of Chicago was chosen first vice-president; J. W. Hays, secretary-treasurer, and Fred Barker, auditor.

KAISER REPEATS SAME OLD STORY

Says He is Man of Peace, But the War Was Forced on Him by Enemies.

Amsterdam, June 17.—Prussian militarism will bring victory to Germany, says Emperor William in reply to a telegram of congratulations on the 30th anniversary of his accession from Chancellor von Hertling. The emperor declares that he leads "the most capable people on earth," and expresses the hope that the German people will have strength to bear their sufferings and privations. The telegram reads: "I express cordial thanks and kind good wishes to your excellency and the state ministry on the day on which 30 years ago I ascended the throne. When I celebrated my 25th year jubilee as ruler I was able, with special gratitude, to point out that I had been able to do my work as a prince of peace. "Since then the world picture has changed. For nearly four years, forced to it by our enemies, we have been engaged in the hardest struggle history records. God, the Lord, has laid a heavy burden upon my shoulders, but I carry it in the consciousness of our good right, with confidence in our ship, our sword and our strength, and in the realization that I have the good fortune to stand at the head of the most capable people on earth. Just as our arms under strong leadership have proved themselves invincible, so also will the homeland, exerting all its strength, bear with strong will the sufferings and privations which just now are keenly felt. Gratitude to God. "Thus, I have spent this day amidst my armies and it moved me to the depths of my heart, yet filled with

the most profound gratitude to God's mercy.

"I know that Prussian militarism, which has so often been abused by our enemies, which my forefathers and I in a spirit of duty, loyalty, order and obedience have nurtured, has given Germany's sword and the German nation strength to triumph, and that victory will bring a peace which will guarantee the German future. "I will then be my sacred duty, as well as that of the state, with all our power, to see to the healing of the wounds caused by the war and to secure a happy future for the nation. In most faithful recognition of the work hitherto performed, I rely on your approved strength and the help of the state ministry. God bless our land people."

COL. J. A. MACDONNELL DEAD.

Vancouver, July 17.—Lieut.-Col. James A. Macdonnell, D.S.O., died yesterday at Hot Springs, Ark., after an illness of some months. Lieut.-Col. Macdonnell was born in St. Mary's, Ont., in 1843. He was one of the first to enlist for overseas service when the war broke out. He was promoted and decorated while serving in France with the first brigade. He returned to Canada in July last year.

ORGANIZE STRIKES IN GERMANY

London, June 17.—A movement is afoot in Germany for the organization of strikes because of the decreased bread ration, says a despatch to the Central News from Amsterdam. The situation, it is stated, is so serious that socialist trade unions have considered it necessary to warn the workers, but the latter have taken no notice of the warnings.

FRENCH "ACE" MISSING.

Paris, June 17.—Adjutant Quette, the French aviator, who has a record of having downed ten German airplanes, has been missing since June 5. He was officially proclaimed an "Ace" on June 6.

OUTCOME OF OFFENSIVE VIEWED CONFIDENTLY

Conviction Expressed in London That It Will End in Failure of Enemy.

ATTACK HAS BEGUN BADLY

A Gambler's Throw in Direct Connection With Internal Affairs in Austria-Hungary.

London, June 17.—The outcome of the Austrian offensive is viewed hopefully, even confidently, by the newspapers here. This view is based on the staunch resistance of the allied defensive and the failure of the enemy to make anything like a big success in his initial advance. It is admitted that some days must pass before the results of fighting on such a great scale can correctly be judged, but the conviction is firmly expressed in several quarters that it will end in failure for the enemy. "Failure," says The Daily News, "on the first day of these attacks, as conducted on the modern German plan, has hitherto been fatal, as in the case of Vimy Ridge, and in the present case the fact of failure can hardly be doubted."

The newspaper cites the opinion of its correspondent on the Italian front that no enemy offensive up to this time has begun so badly, and adds: "There is strong ground for believing that an enemy failure is imminent."

AUSTRIA-HUNGARY. The Daily Express

describes it as "a gambler's throw, the most desperate that the war has seen" while The Times declares it is "a desperate attempt to keep up the waning spirits of such elements of the population as still remain faithful to the established institutions of the Austro-Hungarian state."

BULGARIAN CABINET RESIGNS OFFICE

Sofia, Sunday, June 16, via Amsterdam.—Premier Radoslavoff has tendered the resignation of the cabinet, and King Ferdinand has accepted it. The ministers were requested by the king to retain their portfolios until a new cabinet is formed.

The downfall of Premier Radoslavoff most probably is due to the feeling in Bulgaria that he did not make the most of his opportunities in the negotiations during which peace was forced on Rumania, and Rumania compelled to give up the Dobruja. Many Bulgarians have felt, it has been reported, that the Dobruja should have been ceded outright to Bulgaria. There also has been some dissatisfaction over whether the central powers would back up Bulgaria's territorial claims in Macedonia.

SINN FEIN POLICY TOO GROTESQUE

One Reason That Ireland Has Paid Little Attention to It, Says Devlin.

Dublin, June 17.—Joseph Devlin, member of parliament and deputy leader of the Irish Nationalist party, addressing a meeting at the Village of Virginia, Cavan County, in support of the candidacy of O'Hanlon, the Nationalist candidate for parliament for East Cavan, today, said the parliamentary policy was one of the principal factors in the upholding of Ireland's interests. He said the Irish party was not going to throw away the weapon. "The Sinn Fein is not a new doctrine or a new policy," he said, "it has been before the country for twenty years, but the Irish people have paid no attention to it because it is too grotesque, and during this period of twenty years it has not raised a Rader's cottage or helped to brighten or beautify a single woman's home. The Irish party did not enter this contest light-heartedly, and if the contest could have been avoided it would have been." "When it was declared, by the Sinn Feiners that there is no room for men like John Dillon in Irish politics, then the supporters of the constitutional movement accepted the challenge. There are now two policies before the people in this election. One will result in assured success and the other in certain failure. The promise of an Irish republic in fifty years or fifty centuries is no compensation to the men and women living in this day and generation."

The Toronto World

FOUNDED 1890
A morning newspaper published every day

TUESDAY MORNING, JUNE 18.

Is the Nickel Story Coming Out?

How is it that hardly a Canadian newspaper will print the exposure of the German kaiser's plot against Britain as set out in the Thyssen pamphlet published in The World yesterday? Herr Thyssen was one of the largest iron masters in Germany before the war. He says that in 1912 he and other big business men were summoned before the emperor and the then chancellor and asked to put money into commercial projects based on a war program (the defeat of England). Here are his words:

"I was personally promised a free grant of 30,000 acres in Australia and a loan from the Deutsche Bank of £150,000, at 3 per cent, to enable me to develop my business in Australia. Several other firms were promised special trading facilities in India, which was to be conquered by Germany, by the end of 1915. A syndicate was formed for the exploitation of Canada. This syndicate consisted of the heads of twelve great German firms. The capital was fixed at £20,000,000, half of which was to be found by the German Government."

Does any Canadian now doubt that this last exploitation included the nickel fields of Canada, and that the Krupp and others were in it; that the Krupp of Germany secretly controlled the International Nickel Co. of the United States; and that the so-called "voting trust" in that company was the instrument by which it was done?

Take the one fact that the International Co. has been moving heaven and earth to get rid of its control from Germany and that only last month the American president who had manipulated the company so long was replaced by a new man.

Take another fact that the United States Government refuses to have anything to do with the armor plate trust either in its American or German form; also that a United States official who is custodian of alien property in the States, the other day confiscated and sold several hundred thousand pounds of nickel in that country found in the hands of German agents. This nickel came from Canadian ore.

The British Government refused to renew its contract with the International Nickel Co. and subsidized a Canadian concern known as the British-American and gave it the contract for nickel.

And who controlled and controls the great Mond nickel concern, claimed to be British, and refining Canadian nickel in Wales? And are there extraordinary efforts now being made in America by representatives of the European metal trust to get a new consolidation of the nickel interests in pretty much the same old hands, with the German ownership presently expunged?

But why do our Canadian papers not tell their readers something about these things? What have the Toronto papers to offer for their failure to support the efforts of The World and a few men in parliament to get out the facts of the ownership of the Canadian nickel mines?

In another column we reprint an article from The Montreal Gazette based on one in Engineering, a leading paper in England, telling of a new process of making nickel steel. There's a story in this that may keep for another day. But something is mentioned by Engineering "at Canadians will read with shame, namely, that our nickel ore was all treated in the States, where not only the nickel was refined, but also the platinum, palladium and other precious metals" were recovered. Does either the Ontario Government or the Dominion Government know how much of these precious metals (platinum is the dearest metal of them all and absolutely an essential war metal) were recovered and if they went to Germany to be used against the empire?

Where were the ore, as in parliament and in the legal sphere when The World was directing public attention to the nickel situation?

President Wilson and the Government of the United States know a lot that may soon be revealed. And The World has no idea that they will be any party to the efforts now being made in that country to cover up this German intrigue in connection with Canadian nickel.

How was the refining of Canadian nickel prevented in Canada? Why was the national policy allowed to fade away in this case? Why did so many sit silent?

And when the Canadian public are reviewing the nickel situation they ought not to forget the alacrity with which the International Nickel Co. gave up to the Government of the United States three and a half millions of their profits on Canadian nickel ore as a war tax for one year,

and how reluctantly they made payments to the Province of Ontario. Perhaps Sir Thomas White will be able to frame up something that will keep these profits hereafter in Canada. Free export into the United States for refining will not do it. Nor will refining a fraction of the ore in Canada do it.

And coming back to The Montreal Gazette, a paper that rendered such valuable support to the International Nickel Co. when public attention was called to its conduct, we are glad to see that in the article that we quote from it makes the confession that "Canada has not so far profited from its wealth in nickel ore to the extent it should profit." Again we ask The Montreal Gazette and the apologists of the nickel politicians why? And how much longer is our hand to be stayed? When an opposition fails to act it may be quite a while. But not forever.

The Kaiser's Plot.

What appears to be a organized revolt among the best and wisest German has been going on for a considerable time right under the Kaiser's nose. In one sense it is almost as hopeless to dam Niagara as to try to stem the flood of German war fever. But if it is to be done at all it can only be done in the way in which Dr. Muehlon, Prince Lichnowsky and Herr August Thyssen have gone about it. We printed Herr Thyssen's statement yesterday, and it should be widely read. At the mouth of three witnesses these things are now established, and if we have any pro-Germans left they must have some sober reflections over the facts stated.

It was on May 7 of last year that Dr. Muehlon, a former member of the Krupp board of directors, addressed his celebrated letter to the Imperial chancery, Von Bethmann-Hollweg. Coming as a confirmation of what Prince Lichnowsky has said about the unwillingness of Great Britain for war, it sufficiently establishes the culpability of the German leaders.

"Since the beginning of the year," writes the Krupp director, "I have lost all hope concerning the present rulers of Germany. The offer of peace without a declaration of war aims, the intensified submarine campaign, the devastation of France, the sinking of English hospital ships, are examples of actions that have one after the other disqualified our responsible men in such a manner that, in my opinion, they can no longer have anything to do with a voluntary and just agreement. They personally may yet change, but they cannot remain representatives of the German cause. As such they no longer deserve either forbearance or consideration. The German people can only then begin to make good again the grave wrongs done to its own present and future, and those of Europe and of mankind as well, when it chooses men of a different stamp to represent it.

"It is no injustice that it is today the object of the odium of the whole world, however faulty and imperfect the latter, too, may be, and may remain. The triumph of our military and political conduct of the war on the lines hitherto pursued would be a defeat of the highest ideas and hopes of mankind." And he takes his stand:

"As a man, and as a German who means well toward the misled and tormented German people, I turn my back finally upon the men of the present German regime. May every one who is in a position to do so act in the same way. May many Germans reach the same point."

Sodom was to have been saved had there been ten righteous men among its vicious population. The proportion in Germany is perhaps as low when only three have yet been heard from. But there must always be a hope that in the German people, when they are faced with the facts of their overthrow, there will be enough sanity and reason left to consider what such men as Muehlon and Thyssen and Lichnowsky have to say.

The whole fabric of deceit upon which the war was built and imposed upon the credulous German people, educated to hate instead of to love their neighbors, is being shaken and shattered. France did not invade Germany. Belgium was unprepared for war, and had no thought of conspiring with Britain. There was no coalition against Germany. Peace could have been arranged in the Balkans had Germany and Austria been willing. Instead of all this we have the statements of Herr Thyssen, one of the greatest coal, iron and steel magnates in Germany. He declares that the war was deliberately planned by the Hohenzollerns to save their dynastic privileges, and that they plotted and conspired to get the leading men of Germany committed to their policy. This was going on in definite fashion in 1912, and the barefaced falsehood of the Kaiser in accusing Britain or France of having forced on the war is only too obvious. Pro-Germans have indeed food for reflection here.

Having assured themselves of the necessity of a war to keep their military system going, the Kaiser spread before his merchant princes. Thyssen was promised a free grant of 30,000 acres in Australia, and a loan of \$750,000 to develop his business there after the war. Other firms were promised favors in India which was to have been conquered by the end of 1915, and a syndicate with a capital of \$100,000,

000 was to have been formed to exploit the resources of Canada. Canadian stackers please note well. Those who think that there should be no fighting till Canada is attacked should satisfy themselves as to what was to have become of them by the time the syndicate got into operation. If they had not met the fate of so many Belgians they would have probably been drafted to work in the mines at Copper Cliff and elsewhere for the Kaiser.

The Kaiser himself in 1913 was delivering flowery speeches in private to gatherings of business men about the results of the coming war, of which the British Empire was to be the main victim. The Hohenzollerns have dug a pit into which they themselves are falling. When the war is over it will not be the Germans who will be disposing of the wealth of the Kaiser. And when the peace council is called the evidence of such men as these three witnesses will be very awkward for the Kaiser and other militarists who will be on trial for the atrocious crime against humanity thru which he had hoped to saddle his family on the neck of the world.

"Vengeance is mine! I will repay!" saith the Lord. There are a lot of people willing to assist, but we may be satisfied that the eternal laws will not be balked and Nemesis will not be evaded.

Liquor Dispensers and Prescriptions.

In the campaign speeches that are being made in the election campaign in Northeast Toronto an opportunity might be found by Hon. Dr. Cody to say something about the abuse of the regulations of the provincial liquor act, whereby prescriptions are handed out wholesale by some medical men, and whereby also, what is an even worse public danger, the specified places where these orders are filled have become profiteering establishments which are no credit to the administration of the act. It is reported that these privileged places are making enormous sums out of these franchises; and an establishment of this sort should not be in private hands, but directly under the government, with the profits earmarked for hospital or Red Cross or some such funds.

The whole system of doctors' prescriptions for liquor is loose and unsatisfactory, and in many places makes farcical the administration of the act. If some method of checking the unwarranted issue of prescriptions cannot be devised, such as by requiring the submission of all prescriptions to a board of supervising authority, then the government should appoint a competent and reliable person, such as the medical coroner in each district, who alone would have authority to issue them.

We believe Hon. Dr. Cody is in sympathy with the successful operation of the Ontario Temperance Act, and if he could say, or prevail on some of his new colleagues to say something on these questions of the liquor dispensers and liquor prescriptions, it would be to the interest of the public generally.

Canadian Nickel-Copper Steel.

(From The Montreal Gazette, June 15.)

The famous nickel-copper deposits of Sudbury, Ontario, Canada, at present the principal source of the world's nickel, promise to provide us with nickel-copper steel, rivaling nickel steel in many respects, says Engineering of London. That would be a great step in advance, and not only for Canada, which has not so far profited from its wealth in nickel ore to the extent it should profit. The deposits form a basin, 25 miles long by 15 miles wide, which was discovered early in the 'eighties, when the Canadian Pacific Railway was cut, and are owned by several companies. The Canadian Copper Company, first established, sent its ore to the Orford Copper Company of Constable Hook, New York, until the two amalgamated with the International Company, which has now a refinery at Port Colborne, Ontario. Later, the Mond Nickel Corporation and the British-American Nickel Corporation entered the field. The different companies work different processes, but they all practically have the same production of a matte, which subsequently goes to the United States or to England. The ore is roasted in open heaps and smelted down to mixed sulphides of iron, copper and nickel; this matte is then Bessemerized to eliminate the iron and to obtain a final matte, richer in copper and nickel, retaining also the platinum and palladium and other precious metals of the ores. Many hundreds of tons of sulphur are burnt to waste per day in the roasting, the fumes desolating the district, and thousands of tons of iron pass into the slag. Numerous attempts have been made to produce alloys of nickel, copper and iron in the furnace. All the inventors, except Shuter, endeavored to select ores poor in copper, but without the impression that copper was undesirable in steel. Recently, we see from a paper read by Mr. R. W. Leonard before the Canadian Society of Civil Engineers, G. H. Clamer of Philadelphia, has used a model metal alloy of Ni-Cu from Sudbury ores in the manufacture of a steel, which is utilized for making armor-piercing shells, and Mr. George C. Colvocoresses, late of the Orford Copper Company, has succeeded, by patented processes, in smelting Sudbury ores, or the slags of the present processes, to produce a nickel-copper steel (Ni-Cu-steel), in which copper to a certain extent replaces nickel with the same or similar beneficial effects. The experiments of the latter were conducted in the plant of the Canada Cement Company at Montreal, with 200 tons of ore and 40 tons of slag from Sudbury, under the supervision of Mr. H. A. Morin, a former colleague of Mr. Col-

vocoresses. The ores contained about 40 per cent. of 50 per cent. of iron, 1 per cent. of 10 per cent. of nickel, 1 per cent. or 1 1/2 per cent. of copper, 25 per cent. to 30 per cent. of sulphur, besides silica, alumina, lime and magnesia; the slag was slightly richer in nickel and copper apparently, much poorer in sulphur, but much richer in silica. We do not reproduce more figures, since the paper forwarded to us evidently contains misprints difficult to check; neither the ores nor the slags were fresh, but had been weathering for many years in open heaps. The ores were roasted in a reverberatory furnace for 5 hours; the roasted ore was mixed with lime and coke breeze or coal, the high silica content calling for much lime in an electric, open-hearth steel furnace, which it is said, was not in very good condition. The slags were treated similarly, and in their case the 2.2 per cent. of sulphur was reduced to 0.045 per cent. Altogether 107 large ingots were obtained, and the pig-iron produced contained 3 per cent. of carbon, 2.2 per cent. of nickel, 0.4 per cent. of copper, and 0.1 per cent. of phosphorus. The presence of copper seems to impart a greater resistance to corrosion and lesser liability to corrosion to the steel. The mechanical tests made by the Nickel Steel Corporation took on the 100-ton test, and there are no independent favorable reports by Dr. A. Stansfield and Professor G. A. Guess. It will be interesting to watch the development of this alloy.

CONCILIATION BOARD IS NOT AGREED TO

City Council Warmly Discusses the Proposal for Over Five Hours.

For over five hours the city council, at yesterday's session, debated the appointment of a conciliation board to consider the case of those employees who want their wage increase dated from the first of the year instead of from April. The controllers had recommended against the appointment of such a board, and the upshot of the half dozen motions and counter-motions was the final rejection of their proposal, thus leaving the question unsettled and in the same position as when it first came up months ago.

A meeting of the board of control, the city council's executive committee, was held today when it proposed asking that body to appoint Finance Commissioner Bradshaw, the president of the board of trade and the trades and labor council to act as conciliator.

The vote of council which disposed of the matter for the time being was 10 to 10. The board of control had recommended that to appoint a board of conciliation which was lost by 15 to 10. The division was as follows: For—Marsden, Ramsay, Ball, Cowan, Plewman, Sykes, Honeyford, Robbins, McBrien, 10. Against—O'Neill, McBride, Rink, Weir, Beamish, F. M. Wilson, Macdonald, W. J. Wilson, Beardsall, Nesbitt, Ryding, Hiltz, Mulkin and the mayor, 15.

Controller McBride said the adoption of the board of conciliation would create a vicious practice. Council should deal with the troubles of their employees and not call in outsiders. If they could not do so, they should resign. It cost the city \$300,000 a year for sick pay, holidays and such trifles, for the men who had now banded together to get what they wanted. They had been pampered too much, but in spite of that they could not be driven away with a galling gun.

Superior Demands. Controller Robbins supported the employees' demands, while Controller O'Neill took the ground that council had functions, and the present dispute was one of them, and should be disposed of on its merits, and not delegated to any other body. Workingmen were entitled to having consideration in the matter of wages, but the taxpayer also was to be considered. The approval of the appointment of a board of arbitration meant adopting the principle of referring every little thing to outsiders. Surely council was capable of discharging its own duties without outside interference. There was no objection to the employees forming a union to further their interests, but they could be assured, evening with men unless we are going out or are entertaining at home. But I wouldn't mind anything if he had acted as if he loved me, and."

Mayor Church took the stand that the Dominion Government had no power to order the appointment of a board of conciliation. A municipality was not a public utility corporation nor an employer of labor as far as the Industrial Disputes Act was concerned. Toronto was a fair and just employer of labor. The same could not be said of the Dominion Government as was evidenced by their treatment of the postal employees. The mayor was strongly against a board of conciliation. The city could handle its own affairs. However, he was in favor of granting the employees their increase. This was no time for strikes, and further, the Socialists might take the occasion to cause trouble. The city should conciliate by conciliating.

Ald. H. H. Ball regarded the remarkable agreement when a strike was imminent, particularly after the question of the city council had been raised, as a higher wages because of the high cost of living, and they were justified in forming a union. They had put their request before the city and it had not been met. Why, then, should a board of conciliation not be appointed?

Controller Maguire wanted a conciliation board as the only fair way to deal with the dispute. If the men were agreeable to the mayor's suggestion to grant them their increase, he approved.

Ald. Graham and Gibbons were strong for a conciliation board, while Ald. Blackburn did not think council should be asked to adopt that course. It was the only consistent attitude he could take.

At this point Mayor Davidson of Winnipeg was introduced to council. Winnipeg had a labor problem on its hands, he said, and his advice to Toronto was not to have a strike, if it was possible to avoid it. He did not care how the trouble was settled, so long as the men did not go out.

The proposal to charge a license fee of \$200 a year to be paid by balliffs provoked considerable discussion, but council finally decided to make the amount \$100.

The balance of the board of control's report was adopted without change.

FARES TO ISLAND TO BE INCREASED

City Council Decides That This Raise is Justified.

The Toronto Ferry Co.'s claim that their business was such as to render necessary an increase in their adult rates from ten to fifteen cents was held to be justified by the city council last night, and that body accordingly gave its permission to make the extra charge. Before this becomes effective, an order-in-council is necessary, and as this has not been applied for, the present rates will prevail for the time being.

The matter was settled when council adopted the report of the board of control recommending the increase, but later in the session Ald. McBride made an effort to have the existing fare prevail. His motion to that effect was discussed in a desultory fashion, when it was discovered there was no quorum, and adjournment automatically followed.

The Central Ratepayers' and Imperial Association sent deputations to protest against the increase. J. R. MacNicol argued that the fare was not to be increased, but should be reduced to five cents. He did not accept the report of Commissioner Bradshaw, which the Auditor General had audited the company's books and reported that the increase was justified. He said that the company's books and reported that the increase was justified. He said that the company's books and reported that the increase was justified.

Sergeant Major Gardner, a returned man, also protested against raising the rates. It would be a great hardship for poor people.

To the statement of George Wells that

the ferry bill had been railroaded thru council the mayor took strong objection. Every opportunity for discussion had been given.

"Strict care should be run to the island and the ferry service cut off," said George Shields.

The report of the city officials of the audit of the company's books showed that its revenue varied from \$106,000 in 1915 to \$138,827 in 1917, and the average for a period of six years was \$125,121. The following figures as to passenger traffic, rental and total receipts were put in:

Year. Traffic. Rental. Total.
1912..... 110,057 17,731 127,788
1913..... 121,518 17,109 138,627
1914..... 109,056 20,127 129,183
1915..... 90,541 15,861 106,402
1916..... 94,921 16,573 111,494
1917..... 107,732 21,094 128,826

Average..... 106,000 17,731 123,731

The difference between revenue and expenses was as follows:

Year. Revenue. Expenses. Rev. Ex.
1912..... 125,755 123,525 2,230
1913..... 138,827 133,813 5,014
1914..... 129,823 127,006 2,817
1915..... 106,402 106,153 249
1916..... 111,610 108,234 3,376
1917..... 128,826 120,718 8,108

The company has a capital of \$200,000, eight per cent. common stock and \$100,000 preferred. The outstanding mortgage bonds amount to \$100,000, upon which the interest has been met, but the eight per cent. dividend on preferred stock has been paid up to 1915. For 1914 four per cent. was paid, but since then there have been no dividends.

"But I rather be spending," said the Auditor also pointed out that no allowance is made in their report for depreciation.

RESOLUTION OF CONDOLENCE.

The city council yesterday afternoon, by a standing vote on motion of Controller O'Neill and McBride, passed a resolution of condolence on the death of John Ross Robertson.

COUNCIL WELCOMES VISITING SURGEONS

The city council yesterday afternoon tendered a welcome to Sir William Arbuthnot-Lane and Colonel Herbert A. Bruce, consulting surgeons of the British army in France, who are spending a brief visit in the city.

The mayor, in welcoming the visitors, spoke of the service and sacrifice rendered by the medical profession in this war.

In reply, Sir William Arbuthnot-Lane, who was loudly cheered, paid a tribute to Col. Bruce's splendid work overseas and to the work of the Canadian soldiers at the front. "I don't know what we would have done without their splendid help," said Sir William. As to the progress of the war the visitor said: "All goes well."

Col. Bruce recalled that he had said good-bye to Mayor Church three years ago, and wondered if he was to be Toronto's chief magistrate in perpetuity.

HARBOR LOAN APPROVED.

The temporary loan recommended to the harbor commissioners by the board of control to enable them to carry on their work, was passed by Ald. McBride, at yesterday's meeting of the city council, on the ground of war-time economy, but when Controller O'Neill pointed out that the loan was an enormous loan, the loan was approved. Work had been started which must be completed, it was explained.

THE WOMAN WHO CHANGED

BY JANE PHELPS

Mrs. Sexton Calms Helen.

CHAPTER CX.

"Don't allow yourself to become so excited, my dear," Mrs. Sexton said calmly. "You are feverish now. I know it. You are so nervous, so excited, so vital a thing quietly, but unless you do you will surely regret whatever decision you may make."

Then she asked: "Are you positive that you no longer love your husband? Think carefully. You have much to make you happy."

To my astonishment, Mrs. Sexton had not once mentioned the right or wrong of what I purposed doing. I now know it was simply her own clever way of helping me to decide without attempting to bias me because of that. I now realize perfectly that most people would have at once spoken of that side of the question: would have made that the principal factor in the decision I had to make.

That is what I tried to decide last night. I love George very much at times, when he is nice to me, even just pleasant. But when for days he is fault-finding and critical; then added to that he is so attentive to another woman, and leaves me alone so often—he scarcely ever spends an evening with me unless we are going out or are entertaining at home. But I wouldn't mind anything if he had acted as if he loved me, and."

Many Kind Acts Recalled. "Yes indeed," I confessed quickly. "You remember the taxi accident, the theatre fire, and that time in Newport when I was nearly drowned. He surely must have loved me a little, for he did, to say the things he said."

"That's something in his favor, isn't it?"

It? Now let us see what other things we can find. You have a beautiful home; all the money you need, lovely clothes, motor cars, servants—"

"I would have all those things you mentioned with Merton. He may not be quite as rich as George, but he could give me all those things."

"I know, dear. We'll come to him soon. Suppose we finish with Mr. Howard first," she patted my hand. "Let me see—oh yes, we had finished with all the material benefits you have from him. Now tell me, haven't three days at a time when he is thoughtful and kind, when he forgets to criticize, or when you give him no cause so that he can make no complaint?"

"Yes, often. But he makes it all the harder. I think many times that it would be easier to bear if he would always be cross and always find fault with me. It hurts so after he has been nice."

"I know, then, dear, there is another thing you haven't thought of. As George Howard's wife you are respected, envied, if you leave him and go with Merton, you will surely be ostracized—not by everyone, but by the very people you would like to know, and am not sure, of course, but I doubt if you could get a divorce save on some flimsy pretext that would not deceive anyone. I do not believe your husband has been untrue to you. Do you?"

"I don't know! I wish I did."

"A Plain Question. "Would it make any difference if you did?"

"Of course! What a funny question."

A plain question rather. If you knew he had been true to you since your marriage you would hesitate to leave him, is that right?"

Tomorrow—A True Story.

After Six

AFTER six, when the strength-sapping labor of the day has taken all the gimp out of you, and you arrive home tired, all in, just ready to drop, then it is you'll really appreciate and feel the benefit of

O'Keefe's IMPERIAL BEERS Lager • Ale • Stout

The healthful principles of hops and malt are embodied in these brews, making them not only delicious beverages, but excellent to restore vim and vigor.

O'Keefe's Imperial Beers are made under the most rigid conditions of sanitation and come to you pure and wholesome. Any member of the family can enjoy them. They are refreshing and delicious.

Ask for Imperial Beers at hotels and restaurants, or order by the case from your grocer.

O'KEEFE'S "O. K." BRAND and YORK SPRINGS GINGER ALES on sale at all hotels, restaurants and refreshment stands.

Opening Day At Detroit

Attractive

IN
PALM BEACH

SUITS

For the Warm Days

These suits are the very essence of comfort to any man who must of necessity get out and hustle in the hottest days; as vacation togs, there is nothing more dressy and appropriate.

Summer dust and dirt has no terror for the machine-clothed in these practical fabrics, as they can be washed and ironed as often as necessary.

The range of cloths for your approval varies from light tan, dove gray and apple green shades in plain Palm Beach cloth, light shade cool cloths, with

colored flecks, striped
hairs, down to light
dark gray two-piece fl
nels. The prices are ve
moderate considering th
numerous advances in a
materials.
