IRISH PARLIAMENT PROCURED BY LORD LIEUTENANT Commons Approves Polish Treaty Despite Protests Against Jewish Pogroms EIGHT HOURS TO PEOPLE SPEED 22 HOURS ADRIET IN OPEN BOAT

TWO MORE TREATIES RECEIVE APPROVAL IN FEDERAL HOUSE

Administration of Occupied
Rhineland—Polish Treaty;
Protest Massacres.

Canadian Press Despatch.
Ottawa, Sept. 12.—Following a brief
discussion, the house today approved
of two more treaties—one in regard to
administration of occupied Rhineland,
the other the treaty with Poland. De-
bate on the address was scheduled to
resume once these resolutions were
disposed of, but as no speakers were
ready it was again adjourned. In the
course of discussion of the Polish
treaty, Mr. Jacobs took opportunity
to protest against recent massacres
of Jews in Poland. "I trust,"
commented Mr. Jacobs, "that if Mr.
Paderewski, president of the Polish
republic, runs up against the league
of nations, he will find that he is
playing with fire, and not a piano."
Mr. Doherty was questioned whether
Canada was assuming any obligations
under the treaty. "The obligations,"
Mr. Doherty replied, "are all on the
side of Poland."

CORN ROAST PARTY IN DRIFTING BOAT RESCUED BY STEAMER

When All Hope Abandoned,
Dalhousie City Picks Up
Eight Famished Motor
Boaters in Heavy Sea.

Special to The Toronto World.
St. Catharines, Ont., Sept. 12.—
Shivering and seasick without food
for 25 hours, eight employees of the
W. K. Kellogg Cereal Co., Strachan
avenue, Toronto, were picked up in a
motor boat about 10 miles off Port
Dalhousie City on her return trip from
Toronto. The small craft was sighted
by the captain of the Dalhousie City,
about two miles off the course of the
steamer. He turned out to investigate
and finding that the launch contained
passengers lowered a small boat and
took the famished people aboard the
steamer, gave them a dinner and put
them to bed. Altho suffering from
seasickness and severely chilled all ate
a hearty meal.

GOVERNMENT TO SUPPRESS THE SINN FEIN PARLIAMENT

DECLARED FOR INDEPENDENCE
AND EVACUATION BY GARRISONS
Irish Parliament Was Formed by Twenty-Five Mem-
bers of the British House of Commons.

The Irish parliament or "Dail Eireann," as it was known in Gaelic,
was formed on January 21 by twenty-five members of the Sinn Fein
party, who had been elected to the British house of commons, and who
in accordance with a resolution adopted by the society, refused to go
to Westminster. At the inaugural meeting the Dail Eireann adopted a
declaration of independence for Ireland and demanded the evacuation
of the island by the British garrisons.

TO SUCCEED HENDRIE

Term of Lieut.-Governor Ex-
pires Soon—Sir Sam Hughes
and Sir William Hearst
Named as Successors.

Ottawa, Sept. 12.—Altho the
term of Sir John Hendrie as
lieut.-governor of Ontario will
soon expire, it is not likely that
his successor will be named un-
til after the session. Several
names are prominently men-
tioned for the succession, in-
cluding those of Sir Sam Hughes
and Sir William Hearst.

RAIDS AND SEIZURES OF ARMS IN DUBLIN AND OTHER IRISH CENTRES—TWO MEMBERS OF HOUSE OF COMMONS AR- RESTED—NO SERIOUS RESISTANCE MADE.

Dublin, Sept. 12.—Following closely
upon a speech delivered by Viscount
French, lord lieutenant and govern-
ment secretary, at Belfast, Thurs-
day, in which it was declared that
the British government would not hesi-
tate to resort to drastic means to
maintain law and order in Ireland,
the authorities today proclaimed the
suppression of the Sinn Fein parlia-
ment and the Sinn Fein organizations
throughout Ireland.

TO LOWER HIGH COST OF FOOD WITH TRAVELING MOTOR MARKETS

New York Proposes to Establish System of Selling That
Will Eliminate Many Middlemen.

Special to Toronto World.
New York, Sept. 12.—A chain of
traveling markets reaching every part
of the city will be established within
the next two weeks, unless prices show
a marked downward tendency, Dr.
Jonathan C. Day, commissioner of pub-
lic markets, announced yesterday. Dr.
Day is perfecting plans for the sys-
tem, each market to be a huge auto-
truck manned by active salesmen. The
commissioner said that he was
prompted to take this step because of
the failure of the campaign on the
high cost of living, to achieve desired
results. Prices are still far too high,
he said.

SCHOONERS WERE SUNK WITH ALL ON BOARD

U. S. SENATE PASSES PROFIT-SEEKING BILL

Bill Extended to Include Wearing
Apparel, Food, Fuel and
Containers.

Washington, Sept. 12.—The house
bill extending the Profit Control Act
to penalize profiteering, as requested by
President Wilson and Attorney-General
Palmer, as a means of reducing the
cost of living, was passed by the senate
late today.

UNDERSTOOD HAZEN ENTERS THE CABINET

Special to The Toronto World.
Ottawa, Sept. 12.—It is understood
that Sir Douglas Hazen has accepted
Sir Robert Borden's invitation to en-
ter the cabinet and that he will be
returned to the house from the con-
stituency of York-Sunbury, N. B., as
Colonel H. P. Macleod, the sitting
member, will soon be appointed to the
bench.

LITTLE PROSPECT OF IMMEDIATE STRIKE BY RAILWAY SHOPMEN AND SECTION MEN

Detroit, Sept. 12.—There is little
prospect of an immediate strike by the
six hundred thousand maintenance-of-
way men and shop employees represented in
the convention here of the United
Brotherhood of Maintenance of Way
Employees and Railway Shopmen and
Section Men, which closed today. The
conclusion of the government's efforts
to bring living costs to normal. The
sense of the discussion was that this
recommendation be followed.

BRITAIN TO RETAIN CONTROL OVER SHIPS

London, Sept. 12.—According to a
newspaper cable, Newton Lowell stated
in the house of commons that the
British ministry of shipping had
agreed to transfer to Canadian regis-
tration all Canadian-owned ships now
under British registration.

Here's a Model That's a Seller and a Real Winner

WE HAVE it in several different materials, but it really comes out best in blue cheviot serges.

Patterns 2299 and 2298 are the best in the market today, and at \$45.00 and \$48.00 cannot be duplicated anywhere in Toronto. So heavy has been the sale for 2299 we can only procure a very limited number of suits, as the mills are running to capacity filling orders.

Herewith is a part of a circular letter received from our warehouse yesterday :

"We have had unusual difficulties to contend with this year, chief of which is the lack of skilled help, and this coupled with the fact that last April we granted our employees a forty-four hour work week and since then, two substantial increases in wages, to enable them to live better and enjoy more time with their families. All of this must necessarily tend to lessen production and increase manufacturing costs, and if you have found at times that deliveries have been a little slow, we hope you will bear with us and understand the reason. We are passing through a very trying time in this Canada of ours just now, particularly in regard to labor conditions, and we appeal to our friends in the trade to be as considerate as possible."

We had been drumming them up from every angle in order to get deliveries of over due lines, so we publish this part of the letter in order to show you the difficulties we are up against. At that, we have a better showing than most houses. We will have

another good sized shipment of suits, trousers and overcoats this week, so that disappointment will be down to a minimum.

Our Furnishing Department is a Busy Spot These Days

The new lines of underwear, sweater coats, pull-overs, hosiery, caps, gloves, shirts and neckwear have a fascination for men that is irresistible. We have added boys' stockings to this department, which will please a lot of parents.

J. L. Boombes
MANAGER

WILL SUPERINTEND VOCATIONAL WORK

Major Eric Harris Appointed Toronto Man Will Remove to Ottawa.

Major Eric Harris, head of the soldiers' educational training school in Toronto, has been appointed by the provincial secretary, Hon. W. D. McPherson, as superintendent of vocational training, in succession to W. O. Nicoll, who goes to be principal of the technical school at Ottawa, in place of J. Campbell, who will proceed to Alberta as director of technical education for that province. Major Harris will continue to be in touch with the training school and give his counsel when desired.

Major Harris, who is popular with the returned soldiers and takes great interest in all that pertains to their welfare, was the means recently of inducing the government, thru the minister of education, to increase the daily allowance, as most of their federal gratuities had expired. He was practically the originator of the idea of the school for the men who, when their training has expired and they have passed the necessary examinations, will be absorbed among the schools of the province.

Curious Coincidence.
Hon. Dr. Cody had by a somewhat curious coincidence the idea of utilizing as many as possible of the returned men who were desirous of following the teaching profession. He met Major Harris in England, when the coincidence developed into a practical scheme, and there are now about 125 men taking the educational course in Toronto today.

Major Harris is a returned soldier of distinction. He was born in Kincardine in 1889 and educated in the public and high schools of the province. He took his B.A. at the University of Toronto, and taught for some time as science master at Ridley College.

Early in the war, Major Harris enlisted and went overseas in September, 1915, as subaltern with the 14th Battery, with which he went thru several famous engagements. He was appointed to organize and control gas warfare for the Canadian army, and during the closing period of the war was made chemical adviser to the Canadian headquarters and officer commanding the gas service.

CIVIC RAILWAY SALARY INCREASE

Material Raises Granted to All Departments by Controllers.

The employees on the Toronto civic railway will get an increase in wages, the board of control yesterday approving the recommendation of Commissioner of Works Harris.

There are 85 conductors and 33 motormen. The present rates are: First six months, 40 1-8 cents an hour; second six months, 42 3-8 cents; third year and after, 45 cents. They will now get: First three months, 59 cents an hour; next nine months, 52 1-2 cents; second year and after, 55 cents. Nine shedmen, who get 44 5-8 cents, will receive 50 cents, and 12 car repairmen are increased from 48 cents to 55 cents.

Roadmasters Benefit.
The board of control also supported the recommendation of Commissioner Harris that seven roadmasters be increased from 50 1-4 cents to 57 cents an hour, and that mechanics and foremen, of whom there are seven, be increased from 51 3-8 to 65 cents an hour.

On account of civic railway employees receiving two weeks' annual vacation, with pay, additional allowance is not made for overtime, except on Sundays, when conductors, motormen and roadmasters receive an extra four cents per hour, and shedmen, car repairmen, mechanics and foremen an additional 2 1-2 cents per hour.

The payment of the rates recommended means an additional expenditure of \$15,007 for the period from July 1, to December 31, inclusive.

W. TORONTO UPHOLDS DOMINION COMMAND

The question of increased war service gratuity was freely discussed at a general meeting of the West Toronto branch of the G. W. V. A., held in St. Julien Hall on Thursday and it was unanimously decided by the members to stand behind the Dominion command in their campaign for the question of investigation into the commission. The executive appointed to investigate this situation were given a free hand in the expenditure of money in this respect.

G. H. Gustar, secretary, read a telegram to the members from H. C. Hocken, M.P., at Ottawa, as follows: "I have your telegram of Sept. 18, and sympathize with your desire to discuss the matter with the government, without committing myself to approving of an additional \$2000 war gratuity. I feel very deeply about it, and think that all men suffering total disability and the widows of men killed overseas should receive the most generous treatment from the country."

The Ladies' Auxiliary presented the branch with a beautiful silk Union Jack. The flag was worked by hand, the dimensions being nine feet by six feet. The presentation was made to the accompaniment of the 20th Battalion Band, who were in attendance. With a brief address, the president of the auxiliary handed the flag over to the meeting and amid tremendous applause from the members.

REAL ESTATE SHARKS MENACE VETERANS

"There should be some protection for these returned men," said Chairman Drayton in the court of revision. "They return home, not knowing conditions and are liable to get into the hands of real estate sharks. I'm going to take \$200 off the assessment."

Mrs. John Marshall, who was making the appeal, had said: "My husband was overseas and we have had trouble in getting a house. Sometimes it is on account of the baby, and in some cases because my husband is a returned soldier." She stated that \$4,100 was paid for the house, the party who sold it only paid \$2,900 for it.

WILL SPEED UP BRANCH LIBRARIES

Finish Earls court and East Toronto by March, if Possible.

Chairman W. Self presided at a meeting of the library board, held at the College street reference library yesterday afternoon. Other members present were W. T. J. Lee, Thomas C. Irvin and Thomas W. Banton.

The principal business discussed had relation to the new branch libraries to be built in Earls court and East Toronto. Mr. Lee urged that immediately on the return of Dr. Locke, who is at present taking a rest owing to indisposition, due to pressure of work, he be waited upon and asked to push the work of the libraries at once. It promises to be a hard winter, said Mr. Lee, and the buildings would give work. The libraries might be finished by March.

The board concurred in the desire for speed if it proved feasible, and the architects will be consulted to ascertain present status.

The secretary-treasurer, E. S. Caswell, reported that over \$20,000 had been spent in obtaining some of the properties for sites for the new libraries. Accounts aggregating \$41,000 were passed, the amount extending over the expenditures of the summer holidays.

The report of the chief librarian was read. Miss Stella Melhuish was recommended for appointment to the permanent list, to date from July 1, 1919.

The following tendered their resignation: Misses Irene Skilton, Grace Lovelock, Eloise McFadyen and Marion Groves.

It was also reported that the Ontario Library School, under the management of W. O. Corson, inspector of public libraries, commenced its sessions on Monday, Sept. 8, in the gallery of the reference library.

The young ladies on the staff of the libraries have recently been given a bonus of ten per cent. of their salaries.

WHAT CONSTITUTES CIVIC EMPLOYEE?

Motion by Council for Increase Leaves Matter in Doubt.

An examination of Alderman MacGregor's motion, which carried at the city council, "that in order to do justice to the men and at the same time keeping the ever-increasing tax rate in view, that an increase of \$3 per week be granted civic employees receiving \$2,500 per annum or less," has raised the question as to whether the police, abattoir workers, and civic railway employees participate. These classes were omitted from the treasurer's recommendation. The view is also held that "civic employees" applies not only to the classes exempted in Mr. Bradshaw's recommendation, but to temporary employes as well. The point can be decided when the minutes are read at next council meeting.

Alderman MacGregor's motion for a \$3 raise to all receiving \$2,500 or less, if it is interpreted as applying to the same class of employes intended in the treasurer's report, will mean, it is stated, an increase of \$92,352 per year over the \$464,230 recommended by the finance commissioner for a two and a half dollar increase up to \$3,500 or under.

ACTORS HONOR SOLDIERS.

Ben Welch originated a novel entertainment, to which 32 soldiers from the Dominion Orthopedic Hospital, Christie street, were invited, at the Gayety Theatre yesterday afternoon. In the intermission he presented the crippled heroes with two equipped invalid chairs, but not satisfied with this, he called for a collection from the civilian members of the audience and raised \$70 more, Mr. Welch leading with \$10.

The affair was clinched considerably by Mr. Welch offering to kiss any lady in the audience for \$1. His offer was soon taken up amid the applause of the enthusiastic audience. Thru the courtesy of Mr. Shea, Ford and Urma, of Shea's Theatre, added a lively fifteen minutes to the program.

CABLE FACILITIES MUST BE IMPROVED

Sub-Committee of Empire Press Union Submits Its Report.

PAPERS WILL GET NEWS Suggestion of Imperial News Service Under Government is Frowned on.

London, Sept. 12.—In response to an invitation from Lord Milner's committee appointed to deal with the subject of improved cable facilities, the Empire Press Union selected a small sub-committee to offer suggestions.

This sub-committee consisted of Sir George Riddell, Sir Stanley Reed, India; T. S. Townsend, E. Preston and Keith Murdoch, Australia; N. Kerney, South Africa; G. H. Schofield, New Zealand, and T. T. Champion, who represents the Canadian Associated Press in London.

In their report to the main committee emphasis was laid on the enormous losses that had been suffered by commercial houses and the newspapers on account of the cable congestion, which was seriously aggravated by the prodigious use of the wires by the government departments far in excess of what the needs of war justified.

extravagance it continued during the war and even after the signing of the armistice. Speeches of members of the government running into thousands of words were cabled out to the dominions' newspapers. Not only were these messages too long for practical purposes, but they constituted a serious block on the cables.

Use More Wireless.
There is so great an urgency for improved communications that, as a provision of large wireless stations can be more speedily effected than the laying of long sea cables, no time should be lost in utilizing the possibilities of wireless to meet the needs of the hour.
It was pointed out at the same time that wireless is not likely to prove a permanent solution of the difficulty. If subventions have increased communication by mail it is reasonable to expect that a well devised system of cable subvention will also be fruitful of good results. Without the Pacific cable the world would have been paralyzed during the war, and this is only one strand of copper wire 3980 miles long, five miles down in the ocean, and it has lasted 17 years without a fracture in its deepest part.

This would be an important link in the all-red route which the Empire Press Union has advocated for years. Some people think that the government's acquisition of the German cable to America via the Azores, now extended to Halifax, is sufficient for the Atlantic link of that route, but it is not a quick cable and it is in the hands of the bureaucratic postoffice, which up to the present, have shown no desire to encourage press telegrams.
When the large number of American-owned cables that cross the Atlan-

tic is borne in mind it is not too much to expect that a British Empire cable will soon be laid from Ireland to Newfoundland. The committee strongly deprecated any interference by the government with the collection or distribution of news.

Referring to the suggested creation of an imperial news service under government patronage, it was pointed out that such a service could only be a form of propaganda. If the government will help to provide a means of communication the newspapers will furnish all the news that their readers require.
A proposal has been made whereby the world's news would be pooled in London. The committee are satisfied that such a scheme is unworkable, such pooling as is possible being already done by the news agencies, who are prepared to extend their service if the means of communication is improved.

Thirty Thousand Leave Germany On Their Way to Mexico

MONTREAL HANGING MOST REMARKABLE

Jail Doctor Refuses to Pronounce A. Spreague Dead for Over an Hour.

Montreal, Sept. 12.—Antonio Spreague, an Italian, was executed this morning in Bordeaux jail for the murder of George Roberts, a foreman in the Grand Trunk shops here, and formerly of Stratford and London. Ellis was the executioner.

Spreague was discharged by Roberts from the shops on March 11 and after a quarrel shot the foreman. The Italian escaped, but was caught at Smith's Falls.

Ellis sprang the trap at 7.45. Six minutes later the man was pronounced dead and at 7.55 the body was cut down and carried to the jail morgue. The jail doctor, Dr. Benoit, refused to declare the man dead, and the jury empaneled for the occasion could not act upon the final work of the law until he did so.

It was not until 9.02 that life was declared extinct.
Muscular Twitching.
The case was the most remarkable of all the hangings that have taken place in Montreal. The murderer was only 125 pounds in weight, having lost over 15 pounds since his sentence. When the executioner saw the Italian he expressed a fear of trouble at the hanging, as the murderer was so light that he feared the fall thru the trap would not fracture the neck. What happened was just what he feared.

DALHOUSIE CENTENARY UNITES YOUTH AND AGE

He could not say the man was dead as long as this continued.

Halifax, N.S., Sept. 12.—Youth and age united today when representatives of the college years of Dalhousie University ranging from the freshmen of the 1922 class to Dr. David Allison of the class of 1859, the oldest graduate of the university, marched in procession from the city parade to the college grounds at Studley. Two stone tablets of the original university building formed an historic feature of the parade. The other celebrations today of the Dalhousie centenary will be a lawn fete and theatrical entertainment at Studley this afternoon, and a smoker and dance this evening.

Dominion Steel Products Co. Cancels Bradford Extension

Special to The Toronto World. Bradford, Ont., Sept. 12.—Rather a surprise was caused here today when a letter was received at the city hall from the Dominion Steel Products Company that an account of objections by Mayor McBride against the closing of Leonard street for a large extension of the company's plant the firm has decided not to go on with the contemplated work. Local aldermen were generally favorable to the company's request, but referred the matter to a committee. In the meantime the application was cancelled by the company. The street in question was not built up on.

DISPUTE IN GUELPH OVER LT. STEFFEN

G. W. V. A. Ask Dismissal From Fire Brigade Because of His Alien Birth.

Special to The Toronto World. Guelph, Sept. 12.—The chief subject of discussion at the meeting of the fire light and water committee this afternoon was the demand of the Great War Veterans' Association that Lieut. Steffen, of the fire brigade, be discharged on the ground that he was an alien enemy. The matter was discussed at some length, and Chief Smith was also present. He made it very clear to the committee that the by-law governing affairs at the fire hall was very plain and that he would not stand for interference from any quarter in the matter of the hiring and the discharge of men. He was perfectly satisfied with the services and the loyalty of Lieut. Steffen, and he would not dispense with his services. He was to be interfered with they could have his resignation. After some further discussion it was decided that the only thing they could do was to leave the matter in the hands of Chief Smith, and this will be the recommendation of the committee.

Expect Developments.

Steffen admits he is a German by birth, but came to Canada when less than two years of age. He thought that when his father took out naturalization papers many years ago this covered his case also. He also admits having been arrested and fined at Stratford in May, 1918, for failing to

BLAMES CANADIANS FOR HANDSHAKING

London, Sept. 12.—One can quite understand the desire of Canadians to give vivid expression to their ideas of democracy, but it seems a pity that it should find expression in the senseless mobbing of the Prince of Wales, declares tonight's Standard, which proceeds to urge that if princes have to put up with this sort of thing in these ultra-democratic days, they should be trained for it either by a course of jujitsu or a period as a rugby referee.

These strictures are seemingly provoked by the cable accounts of the prince being disabled by constant handshaking.

FOUR QUESTIONS IN NOTE TO RUMANIA

Paris, Sept. 12.—According to The Echo de Paris, the note which Sir George Russell Clerk is to hand to the Rumanian government on behalf of the entente allies, contains four questions: First, whether Rumania is prepared to withdraw her troops from Hungary; second, whether Rumania is ready to stop requisitions in Hungary; third, whether Rumania is prepared to hand over to the reparations commission all that she already has requisitioned under the Budapest armistice; and fourth, under what conditions will Rumania be disposed to collaborate with the powers to maintain order in Hungary.

Vice-President of Dominion Command, G.W.V.A., Shows What Association is Doing.

S. Stafford, vice-president Dominion Command, G.W.V.A., was the chief speaker at General Mercer branch, war veterans' meeting last night. Comrade given first and second readings and referred to a select committee of the house. This committee will be given power to inquire into the whole question of re-establishment, and our representatives will attend to submit evidence and cross-examine witnesses. This is granted solely upon insistent demands of the entire association.

SECRETARY TURLEY FINALLY RESIGNS

Todmorden Resolves That Flynn Be Compelled to Prove Charges Made.

The following resolution was unanimously adopted at a slimly attended but rather stormy meeting of the Todmorden sub-branch of the G.W.V.A. held in Chester street school last night: Resolved: That President Flynn, of the Returned Veterans' Gratitude Association, be compelled to prove any statement made by him against Provincial Secretary Wm. Turley, of the G.W.V.A., and that the G.W.V.A. stand behind Mr. Turley until the statements are proven, and also that W. Turley withdraw his decision to resign his position as provincial secretary.

BRANTFORD VETERANS SECURE FINE HOME

Special to The Toronto World. Brantford, Ont., Sept. 12.—The city council has authorized the sale of the old postoffice building in the city, which was recently acquired from the Dominion government, and is to be used for the erection of a remodeled home for returned men in Brantford. The purchase price is \$25,100, the price paid for the building, and is to be paid by the veterans in 20 annual instalments. An expenditure of \$75,000 is contemplated on the building, which will make one of the finest homes in the Dominion. A campaign for funds, of which the city council has approved, will be held in the city, and a vote of \$15,000, is now being arranged.

G.W.V.A. WINS POINT ON GRATUITY MATTER

A telegram from C. G. MacNeill, secretary-treasurer of the Dominion Command of the G.W.V.A., to Secretary W. E. Turley of the provincial command, fully endorsed the G.W.V.A. officials in Ottawa in regard to the question of investigation into the question of increased gratuities. "Government has given assurance that the re-establishment department bill, already before senate, will be introduced to the house today, given first and second readings, and referred to the select committee of the house. This committee will be given power to enquire into the whole question of re-establishment, and our representatives will attend to submit evidence and cross-examine witnesses. This is granted solely upon insistent demands of entire association."

PLEA FOR DEFEAT OF LEAGUE OF NATIONS

St. Louis, Sept. 12.—Trailing President Wilson thru the middle west, presenting arguments opposing ratification of the league of nations covenant, Senator Hiram W. Johnson of California today addressed two large audiences in St. Louis. In his plea for the defeat of the league of nations in its present form, Senator Johnson described the treaty of peace as a "provisional agreement" made between the allies, and during the war, and challenged the recent declaration of President Wilson, that failure to concur in the settlement of terms of peace by the United States "would put a stain upon our national honor which we never could efface."

SECRETARY TURLEY INVESTIGATORS CONTINUE THURSDAY'S TALK CONTEST

It must be remembered that the board of commerce has in Ottawa all data for years as to costs, etc. "If the information is not known to the committee, it will be supplied and not accepted." Mr. O'Connor declared that a maximum price would be fixed by the committee. The board of commerce does not intend to allow prices to go upwards from this fixed maximum price, said he. Mr. O'Connor also declared that if manufacturers or producers were exporting necessities out of the country to enhance their value an embargo would be placed on the exportation of such goods. "There is an agreement being entered into with the United States for a similar act, and I don't think there will be any objection to this embargo if it is necessary," said he. "We can't have low prices here and high prices in the United States or high prices here and low prices in the United States. The board of commerce is honestly endeavoring to keep low prices, but the board is not trying to make producers sell below cost."

RIGHT TO DAUGHTER CAUSES STRUGGLE

Tense Scene in Cincinnati—Former Stratford Woman Clings to Child. Special to The Toronto World. Cincinnati, Ohio, Sept. 11.—Thru an arrangement made late tonight by Judge Arthur Fricke, representing Mrs. J. L. Wickham, and Thomas Wickham, vice-president of the Union Gas and Electric Company, Constance Wickham, their eleven-year-old daughter, will remain in the custody of her mother until divorce proceedings, filed by Mrs. Wickham, are heard in court. The father will have the right to see his child, according to the terms of the compromise. When Mr. Wickham, Joseph Heintzman and George Ostholthoff, court deputy, boarded a train from New York at Winton Park yesterday afternoon to serve an injunction restraining Mrs. Wickham from interfering with her husband and daughter, the mother rear the court order and then threw it on the floor of the car. Mrs. Wickham was nervous and her daughter approached hysterics as the train reached the Grand Central Station. W. P. Mallon of Montreal, Mrs. Wickham's brother, and Frances Wilson, her niece, accompanied her. They were notified yesterday that Mr. Wickham had filed a petition for divorce, alleging neglect and citing stories of improper conduct with men at Atlantic City.

PARIS STRIKE CALLED OFF; WATER FAMINE ENDS

Paris, Sept. 12.—The laborers of the water department, who have been on strike in sympathy with city laborers who struck recently, will resume work tomorrow, thus ending the water famine which has existed for several days in the northern outskirts of Paris. The water department employees called off their strike when the city employees' demands were satisfied.

PARIS STRIKE CALLED OFF; WATER FAMINE ENDS

Another scene unfolded when mother and daughter stepped from the train. The father grabbed his daughter's arm, urging her to come with him. The mother held the girl's other arm. Constance cried and pleaded to be permitted to remain with her mother. The struggle for the custody of the child continued for more than ten minutes. Mrs. Wickham's brother ran to his sister's assistance. An argument followed. The father finally struck Mr. Mallon and sent him sprawling to the pavement. Because of the hysterical condition of both the mother and the child, Mr. Wickham and Joseph Heintzman, his attorney, finally released the girl. Constance ran to the mother and fainted in her arms. Mrs. Wickham is of Canadian origin, having come from Stratford, Ont.

REFUSED DEALER'S ADDRESS

Mrs. Hunter, however, did not give the name of the dealer who had over-charged her, and refused to give it to the press. She lives outside the city limits. Mrs. O'Connor promised to submit to the newspaper a statement he made in regard to the cost of sugar, and the matter will be gone into at the next meeting of the commission. "What is the relation of the board to the fixed wheat price?" inquired Mr. H. Dickson. "Theoretically, we could have decided that the price was an unfair one," said Mr. O'Connor, "but we are extremely unlikely to do so, for that price was fixed by men who are authorities on the wheat situation. I can't see why so much importance is attached to the price of wheat, or how any price regulates others. The price of corn should drop in consequence of the fixing of the wheat price."

ANTHRACITE MINERS RETURN TO WORK

Scranton, Sept. 12.—Decision by three thousand Delaware and Hudson mine workers to abandon the strike ordered a week ago, return to work tomorrow morning, has broken the backbone of the trouble which has tied up the ten collieries operated by the company in the Lackawanna Valley. Other locals have called meetings for tomorrow to take action, and it is believed that all of the strikers will be back to work Monday morning. In defending the government's position, Mr. O'Connor said: "If the government hadn't looked after the manufacturers we would not be able to get many things, and I have never been accused of being a friend of the cold storage plant," replied the speaker. "I don't think the tabbing of goods would do any good."

What About the Coal Bn?

Yesterday's north wind sent a shiver thru many an empty coal cellar in Toronto. Winter is on the way, and the coal man is king.

The whole question of heating houses in Canada will soon have to be reconsidered from new points of view. Coal is plentiful enough in theory, but under the limitations of distance, labor, cost of transportation and other expenses, fuel in Canada is going to be a problem which will have to be faced in a national way.

Mr. Arthur V. White has done a great deal of service by his articles, and a recent one in The General Electric Review calls attention to the necessity and the means of more efficiently utilizing our fuel resources.

Great strides should be made in the adaptation of oil fuel to domestic heating, and the great oil monopolies should interest themselves in supplying householders with a satisfactory oil furnace.

Electricity, it is stated by the engineers, cannot at present be profitably employed for heating, but if the cost of coal goes much higher, electricity will certainly come into competition.

Profits as a Form of Insurance. In the exceedingly clever and interesting Chicago novel, by H. K. Webster, "An American Family," there is a study of the industrial problems of the last ten years, as viewed in the management of a huge manufacturing concern such as the McCormicks of Chicago or the Massey-Harris of Toronto.

It is in the nature of things, this would not be possible. But there is one point about which a suggestion is made which is distinctly helpful.

It is in regard to profits. This is the object of attack of many of the more radical agitators, and it is one of the most difficult with which the honest capitalist has to deal.

Reasonable men have no particular objection to moderate profits being made by business men. Such profits, in fact, are usually a form of wages. Or, as Mr. Webster puts it, the wage-earner may regard them as an insurance that he will get his wages.

There is all the difference in the world in the attitude towards this question of the downright Bolshevik and the thoughtful trades-unionist.

ENGLISH V. CANADIAN TRANSPORTATION

Editor World: I like the way you uphold municipal ownership of public utilities and your efforts to get better transportation service for Torontonians, which will incidentally solve the housing problem and ease the high cost of living.

The city housing question is solved in England by encouraging people to live in small villages and towns out of the city itself, by providing rapid transit facilities by steam train or electric and, above all, at very cheap rates.

Here the despised small English train proves its usefulness.

Here Toronto has passed the street car stage, which is only used in English cities for short rides, the business man or worker does not get better service by tram. In all English stations the railways display posters begging the traveling public to buy season tickets (in Toronto we have to travel on the roads to grant commutations.) A season ticket can be obtained between any one station and any other station in England, and is much more available for any number of journeys, with stop-over at any point and at very low cost.

Between London and Liverpool, distance 120 miles, time 15 minutes, thence by electric underground to Oxford, distance 12 miles, time 16 minutes, and 16 cents per day for unlimited travel between the two points.

Liverpool, under the Mersey, to New Brighton, six miles costs five cents per day.

And mark you, the system pays handsomely for the railway companies for the public benefit. This may eventually be done, but it is not in favor, except for the grossly grasping profiteers.

High rents and enhanced prices of building lots are unknown in England.

I hope the above will be interesting to Torontonians. Why not try it on the Hydro-Electric?

HENDERSON IS ELECTED TO BRITISH COMMONS

London, Sept. 12.—Arthur Henderson, the Labor leader, who was defeated for re-election to parliament at the general election last winter, was elected to the house of commons today at the by-election in Widnes, Lancashire. Mr. Henderson polled 11,404 votes against 10,417 for his opponent, F. H. Fisher, the Coalitionist candidate.

DON'T WASTE TAG DAY FUNDS

BY IDA L. WEBSTER.

There has been much talk around the city hall of spending the \$15,000 collected on that famous St. Julien Day. You will remember at the time the tag day was in force it was said that the money would be spent upon giving the heroes of St. Julien a good time, or some such other impossible thing.

However, like many other good intentions, this one fell flat. Mostly because the organizers of the scheme discovered that they could not possibly carry out their desires on \$15,000 for one thing, and for another, because every man would not participate to the same degree in the fun, or "good time" (?)

The money has been lying quietly ever since. Waiting no doubt until the fair ladies of the committee could agree among themselves what to do with it.

Now out of a clear sky comes the news that this money will be used to give all returned men in Toronto a holiday. We are sure that the idea is the mayor's, and that the "big doings" will be held on or around Thanksgiving Day.

For the many who give the soldiers a regular honest-to-goodness holiday is a most worthy act, but for him to do so with money collected by the means of a tag day is an altogether different thing.

There are many more than 18,000 returned men in this city. What should they do with the money?

On the other hand, if he imports \$18,000 worth of actors, or actresses, with a banquet to top the show off, of what good is the evening going to be to the soldiers?

We are going to face the hardest winter that this city has known in many years, and it does seem that at such a time as this, there may be some sensible and reasonable ideas sprung with regard to money.

The city council voted \$100,000 to build a sports stadium, which will turn out to be the biggest bloomer ever pulled off in Toronto, and which will also turn out to cost very much more than the designated sum.

It is useless to say that so much money might have been spent in paying off soldiers' insurances, or in a dozen other ways which would have been of some benefit to the citizen.

But it is not useless to say that this \$18,000 fund should not be spent as a vote-buyer.

If the mayor or the members of the city council want to dispose of the money to the soldiers, why alright. It belongs to them, and they should have it in the manner in which it will do them some material good.

There are any number of soldiers who cannot get work, and who are going to have a pretty stiff time trying to keep warm, not to mention fed. Give them the money, and a thousand welcomes.

It is useless to say that so much money might have been spent in paying off soldiers' insurances, or in a dozen other ways which would have been of some benefit to the citizen.

NORTH LANARK CHOOSES PRESTON

Special To The Toronto World.

Carleton Place, Sept. 12.—The outlook for the provincial election in North Lanark has been considerably cleared by the holding of the Conservative convention here.

Hon. Dr. R. Preston will be the standard-bearer of his party and received the unanimous party nomination. Also the nominating convention was a thoroughly representative one.

F. A. Thompson, president of the Liberal-Conservative Association in North Lanark, who had threatened to take the nomination from Dr. Preston, changed his mind.

D. W. Markham Tells Parkdale Association Dewart is Live Wire.

While Dr. Cody says it is a fine thing to be a teacher, most of the girls have not a second pair of shoes, while cooks get better wages than the average teacher in this province," remarked Dr. Hunter, member of the board of education at a meeting of the Parkdale Liberal Association held in the assembly hall last night for purposes of organization.

D. W. Markham, another speaker, declared that "Dr. Cody as a minister of the Gospel is going to have a mighty hard job converting his colleagues."

Dr. Hunter, who presided, said there were half a dozen good things today—to be a British subject, a Canadian, a resident of Ontario, a citizen of Toronto, an elector of Parkdale and a Liberal.

THE DAY AT OTTAWA

By TOM KING

Ottawa, Sept. 12.—Worn out by their long debate and belated division over the peace treaty, the members of the house, after sitting two hours this afternoon, decided to call it a day and adjourned for the week-end.

It was announced that the debate upon the address would be resumed on Monday, but it has also been announced that on Monday Col. John A. Currie of North Simcoe will move the adjournment to discuss the demand of the veterans for further gratitudes.

The column was not in his seat this afternoon while the government was busily getting ready to sidetrack his motion. Mr. Rowell, for example, laid upon the table a voluminous statement from the prime minister, which included the correspondence between Sir Robert and Secretary McNeill of the G.W.V.A. on the subject of the gratitudes.

It also included a number of comparative tables, showing that Canada was more generous in the matter of pensions and gratuities than any other belligerent nation. Another exhibit was a published interview given out by the former secretary of the G.W.V.A. last December, in which he stated that the gratuities granted by the order-in-council were more generous than had been anticipated.

He said that the government was ready to introduce a bill dealing with soldiers' civil re-establishment, and that the bill would be referred to a special committee of the house, the members of which would not doubt hear the veterans and deal with the whole subject of civil re-establishment. Beyond doubt they will have presented before them the veterans' case in respect to the gratuity or bonus of \$2000.

This looks as though the government was meeting more than half way the veterans' demand for a "parliamentary commission." The commission, rather than the committee, will not be selected by the G.W.V.A., but will consist of members of the house. They are likely to be returned soldiers themselves and may be trusted to give a sympathetic hearing to the veterans' appeal.

On the other hand, the prime minister's letter to Secretary McNeill indicates that his mind is

Charles, could not do a tenth part what it might in the service of the nation and empire owing to the present high pressure rates.

PACKERS FORETELL DROP IN BACON

Public Must Be Patient Till Eighteen Dollar Hogs Are Cured.

Prominent packers announced yesterday the arrival of lower meat prices. Mr. E. C. Fox, general manager of the William Davies Company, said: "Our prices have dropped, I cannot tell how far they will drop, but the prices which we will charge will show a decline along the same lines as the prices of live hogs."

Regarding the suggestion that the duty on bacon coming in from the states should be removed, Mr. Fox said: "Better Grade."

The Canadian packers are not afraid of any competition with the packers of the United States for our bacon, but that is because we supply a better grade of bacon than they do. The duty in meats may come off, but the duty on the raw material ought to be removed at the same time, and if that is done as a Canadian packer, I do not think that I would be inclined to fight any removal of the duty."

General Manager F. M. Moffat, of Gunns, Limited, said: "The drop in the price of live hogs will make a very great difference, but it will take some time for that to be reflected effective. It will come as soon as the hogs, which were bought for \$18 per hundred pounds, are sold for \$16.50 on the market. Every week, however, there will be a gradual reduction."

GOVERNMENT AID TO CABLE BUILDERS

Sir Charles Bright Urges Establishment on a Satisfactory Basis.

London, Sept. 12.—Sir Charles Bright, pioneer of the Pacific cable, addressing the British Association today, urged the need for imperial cable communications being established on a satisfactory basis.

The present Atlantic link in the all-red route, he said, was the old German cable seized during the war, which at best was a poor and ancient affair. The Pacific cable should first be duplicated. The only satisfactory method of communication between England and Australia would be the line from London to Melbourne direct. The government, if necessary, should help the cable builders.

Sir Charles also urged the immediate establishment of an all-British wireless chain, every imperial cable being supplemented by wireless, and the creation of an imperial wireless news service for every portion of the empire, with a low flat rate on the all-red line.

The press of the empire, said Sir

ROYAL AIR FORCE SEEKS OFFICERS

British Service Offers Temporary Commissions to Suitable Men.

The Royal Air Force are prepared to take a limited number of British-born subjects, under the age of 25, as flying officers, for a period of service of three years, with the option of extending for two years' service to four years. After the three or four years' service on the active list, the officers will pass into the reserve list for a further period of four years. The rates of pay are those at present in force for the permanent Royal Air Force.

Gratuities for this service will be the rate of £75 per year on the active list, and £30 per year on the reserve. Selected candidates will be required to provide their own transport to London, England.

Pensions and non-effective benefits will be the same as for the permanent air force.

Further details, or forms of application may be obtained from headquarters Royal Air Force, corner Duke and George streets, Toronto.

SENATOR PREDICTS SOVIET IN TWO YEARS

In American Upper Chamber, Says Unrest in Nation Will Lead to Revolution.

Washington, Sept. 12.—A soviet government in the United States within two years unless congress takes vigorous action to check the growing unrest throughout the country was predicted by Senator Myers (Democrat) of Montana in the senate yesterday afternoon.

Senator Myers saw a grave menace in the organization of the police force of the District of Columbia for affiliation with the American Federation of Labor. Unionization of the police of every city of more than 5000 population will follow within sixty days, Senator Myers said.

Calling attention to the Boston riots, the threatened railroad, steel and coal strikes, Senator Myers predicted that the October conference called by President Wilson would do nothing to check the progress of present tendencies.

"I sometimes think the radical leaders of labor make demands they know cannot be met for the simple purpose of creating additional unrest. If we have the strikes threatened the people will be confronted with privation and starvation. What will become of the nation by spring no one knows. I am a friend of labor, but I do not believe in government of the unions, by the unions and for the unions."

President Wilson has urged that there be no interference by the district commissioners with the organization of the Washington police. Nevertheless Senator Myers urged the enactment of legislation to withhold the pay of police officers who joined the union. Unionization of the Washington police has a nation-wide significance, he said.

"It constitutes a long step toward sovietizing America," Senator Myers asserted. "Behind it there is something more than the mere desire of policemen to affiliate with a union. Some sinister influence aiming to set up a Bolsheviki government in this nation is behind it."

Uncle Wiggily and the Bumble Bee

BY HOWARD R. GARIS. Copyright, 1919, by McClure Newspaper Syndicate.

One evening, when Uncle Wiggily and Nurse Jane were sitting in the hollow stump bungalow, talking about lollypops, ice cream cones and the like of that...

"I'm sure I don't know," answered Uncle Wiggily. "If this was winter I'd say it was Jackie or Peetle Bow Wow, throwing snowballs at my windows."

"Oh, it can't be that!" said Nurse Jane. "I'll turn the light up higher so we can see."

"Oh, what a funny chap!" said Uncle Wiggily. "If he watched the odd creature zooming around the room, bumping into walls and pictures and the player piano—everything, in fact."

"Look out! Mary's in a big yellow bee!" cried Nurse Jane. "It looks like a bee that has gotten in here. I take care not to zoom into any of my friends."

"Not at all, old dear! Not at all!" buzzed the zooming chap, as he hit his head against the ceiling with a boom like a cotton bass drum.

"I don't either," agreed the bumble bee. "But we zooming chaps have to look out for this kind of thing when we're young. Perhaps our folks think we'll learn better after a while."

"That's just what you do!" asked Uncle Wiggily in a kindly voice. "Won't you just come down here and tell us all about it? Why do you go around banging your head against the walls? Doesn't it hurt?"

"Oh, not at all, old dear!" laughed the bumble bee. "You see my head has a sort of cushion of feathers on it, and it doesn't hurt me. My mistake, I'm a bumble bee not a bumble bee."

"My error again, old top!" laughed the bumble bee. "Wrong eye, I'm sure! And 'zip!' into the other he banged with his feather-covered head."

"Excuse me!" buzzed the bumble bee, zooming down from the ceiling and hitting the fox on the nose.

"Didn't mean to, I'm sure, old dear!" politely said the bumble bee. "My mistake, I'm a bumble bee not a bumble bee."

"Keep out! Keep out!" barked the fox. "My error again, old top!" laughed the bumble bee. "Wrong eye, I'm sure! And 'zip!' into the other he banged with his feather-covered head."

"Excuse me!" buzzed the bumble bee, zooming down from the ceiling and hitting the fox on the nose.

Why a Heintzman & Co. Piano?

The compelling force in buying a piano bearing the name of "Ye Olde Firme of Heintzman & Co., Limited," is its tone.

Other reasons, of course. All through the sixty-five years that this piano has been built the skill of the most capable craftsmen and the wisdom of the most musicianly artists have contributed to keep it in the front rank.

For long years it has been the standard in piano building. But beyond all else that gives it a distinctive place is its tone. And when tone is wanting nothing else counts.

"Surpasses in beauty of tone and delicacy of touch any piano I have used anywhere."

HOSPITAL CIRCUS RECORD SUCCESS

Fete at St. Andrew's Amuses 2500 Patients and Friends.

As had been foretold, the circus, concert and dance put on yesterday afternoon and evening at St. Andrew's Hospital for the patients of the hospital and their friends were the finest thing of the kind yet attempted in the way of entertainment.

About 2500 enjoyed the ingenious program. Twenty-two tents on the campus provided for many varieties of side shows, the opening of the midway was introduced by stirring strains from the band. Acrobats and jugglers performed feats fascinating and mysterious. Striving sisters played ball and provided a wonderful "zoo," in which the Wild Man of Borneo and the snake charmer were much admired features.

Then there were cow punches, magic dancers a "Punch and Judy" show, "push ball" between officers and n.c.o.s, races, a fish pond, containing a whole shoal of fish. These and other attractions, all followed by a splendid supper, the final course being ice cream galore.

In the evening a most enjoyable vaudeville program was given by artists from Loew's and the Hippodrome, then dancing in the flag-draped hall and big gymnasium.

At the ball some of the "boys" appeared as charming ladies. One floated round holding the train of his long red gown gracefully looped on his arm. Another was in black lace and chiffon. Fancy costumes, together with the blue uniforms of the nurses, the white vails of the hospital girls, and the many khaki uniforms made a gay picture.

The bed patients were not forgotten, the women going to the huts and seeing that the men got a generous share of the ever-popular ice cream cone.

The entire program was well supplied by the hospital management. Mrs. Albert Brown was in charge of the women who assisted.

A young man seldom discovers his fault until the girl in the case puts him next.

The average man doesn't waste any politeness on his wife.

FLORENCE GILL FOUND GUILTY OF ABDUCTION

Baby Farmer Found Responsible for Loss of Infant, Maxwell Wood.

MADE NO INQUIRY

Delivers Infant for Adoption to Unknown Parties Without Permission.

Mrs. Florence Gill appeared before Judge Coatsworth and a jury in the general sessions yesterday on a charge that she had taken away and detained one Maxwell Wood, a child under the age of 14 years, with intent thereby to deprive his mother of the custody of the child. After hearing the evidence, the jury, who were out for a little over an hour, returned a verdict of guilty with a strong recommendation to mercy. Judge Coatsworth remanded the case till Monday, saying the jury's recommendation would be fully considered. It is stated Mr. Robinette will apply for a reserved case.

The mother of the child, who gave her age as 23, said that she was an operator earning \$12 a week.

"I was to be consulted first and must see the people," she said, referring to the adoption suggestion. On a Saturday she had seen the baby, but when she went back on Tuesday it was gone. Mrs. Gill had never told her mother of the child. She went with D. Cohn, a private detective engaged by Mrs. Gill's lawyer, and searched London in vain. They also had a useless visit to Melancton.

Mrs. Gill told me she did not know the name of the people, said witness.

Inspector Advertiser.

Robert Martin, provincial inspector of neglected children, told of having advertised for the missing baby, offering a reward of \$300.

Giving evidence on her own behalf, Mrs. Gill said: "The mother came four Saturdays and one Sunday to see the baby, and paid me \$25 in all. She asked me if I thought any one would come to adopt her baby, as she could not hold out much longer. I told her God is good and that some person would turn up to give him a good home. I said Mrs. Gill, who told her efforts to get in touch with the mother before giving the child to the Johnstons, who had to leave on an afternoon train. When she found out she was perfectly satisfied," said witness.

Eight Died.

Witness had been one in England. She began with one or two children in her home after she came to Toronto. Eight children had died in her home, three this year. The missing babe weighed 4 1/2 pounds when she got it and six pounds when it was adopted.

Asked how she had known the woman who sent the Johnstons to her, witness said: "She brought me a baby and she was not well enough to look after it. She lives in London, and told me that her husband was a chaplain in the army."

After her license had been canceled a social service worker had asked her to adopt a baby.

Cross-examined by Mr. Greer.

"Why should Mrs. Mitchell, whose husband, you say, was a chaplain overseas, come to you to have you adopt it? Was it illegitimate?"

"I do not know. I did not ask," replied Mrs. Gill, who said that the child had been adopted thru a solicitor.

"You let the baby go on the statement of the Johnstons that they had been sent by Mrs. Mitchell, without requiring a line to show that they came from her?"

"Yes."

Mrs. Gill said that she had tried to get the mother over to the factory where she worked, but could not see her.

"Why did you not ask these people to leave you their name and address in writing?" asked the crown.

"They promised to write to me."

ROYAL ARCH MASONS RESUME CONVOCATION

The regular convocation of Orient Chapter, Royal Arch Masons, resumed last night in Riverdale Masonic Hall. The first principal, Ex. Comp. J. C. Bennett, presided and there was a good attendance of members. The work of the evening was the advancement of a brother to the M.M.D., which was carried out in an exemplary manner by the officers and very favorably commented upon by Rt. Ex. Comp. A. L. Tinker, grand superintendent of Toronto district, who, in his official visit, and received a warm welcome. Rt. Ex. Comp. H. T. Smith, grand scribe E. In a very brilliant manner, presided. Ex. Comp. S. Ward with a handsome grand chapter regalia in recognition of the honor bestowed at last convocation of grand chapter. Ex. Comp. F. Hunt, Z. and Ex. Comp. W. E. Logan, P.Z., of King Solomon's Chapter, were among the visitors.

The musical ritual was given by members of the eastern district Masonic choir and the entertainment at the banquet table by Comp. D. Cowan and Bro. N. Maudsley.

DRUGHTSMEN MEET

At the fortnightly meeting last night of the Draughtsmen's Association the executive committee reported having received letters from Mr. Warrington of the Ontario Association of Architects, and it was decided to ask the architectural members to submit drawings not later than August 29 for the exhibition, which will be held at the Grange. Reports were also received from the wages committee, who are considering their schedule for the Engineers' and Architects' Society and hope to report fully at a later date. An employment committee was formed, which it is hoped will be of service to the employer and employee.

Bishop Off to Ottawa

The Bishop of Toronto will leave this morning for Ottawa, where he will be the guest of the Bishop of Ottawa during the provincial synod. The bishop will preside in All Saints' Ottawa, Sunday morning, and in St. John's Church in the evening. The bishop expects to return to the city at the end of the week.

SOCIETY NEWS

CONDUCTED BY MRS. EDMUND PHILLIPS.

If there is any truth in persistent rumor that H.R.H. the Prince of Wales, or soon will be engaged to Lady Dorothy Cavendish, daughter of the Duke and Duchess of Devonshire, an event of so much importance taking place in this country will add enormously to the interest taken in the Prince of Wales by all the Canadians already cheered by his personality, and by whom the lady of his choice is so well known and liked. Events which are said to be in the report are the visit of the Duke and Duchess to Winnipeg with their daughter, the Princess Mary, the Prince of Wales, the order given to the Oxford Press as to the alteration of the prayers for the royal family in the House of Commons, and lastly that Lady Joan Mulholland, daughter of the Earl and Countess of Stratford, and lady-in-waiting to H.R.H. the Princess Mary, is also on her way to Winnipeg. Lady Joan accompanied the Prince of Wales on his first airplane flight in England.

HAMILTON ASYLUM PROBE HANGS FIRE

Provincial Secretary is Now Considering Further Representations Made.

Asked yesterday as to whether any steps had been taken with a view to further investigation of the conditions at Hamilton asylum, Hon. W. D. McPherson, provincial secretary, said he had been made to him which were now under consideration.

It will be remembered that serious charges were made by a member of the veterans regarding the asylum, treatment of patients, etc. W. W. Dunlop, inspector of prisons and asylums, held an investigation, at which the charges were substantiated, and it was expected that an inquiry on a larger scale would be held. This the men who made the original charges are now demanding.

The delay in the construction of the proposed Pape avenue car line was commented upon at the meeting of the board of control yesterday when a large deputation of residents headed by Alderman Honeyford appeared. The alderman read extracts from letters from the railway board, the city and the company which, he maintained, indicated that the parties were disclaiming responsibility for the delay. One passage from the railway board's communications indicated that that body was dealing with "two unwilling parties to the order" to lay the tracks.

"That is not a credit to either the city or the company," declared Controller Maguire.

The mayor: The railway board is to blame for the delay. How could the city tear up the road bed until the company had the tracks ready to lay?

Mr. Maguire: Who allowed the company to use the rails for the viaduct?

"I don't know," replied Commissioner Harris. "That is not my business. As for the taking down of the poles and wires, that was done on compliance with a request from the Hydro-Electric Commission. It was claimed that the railway wires interfered with the Hydro service. We have been prepared to proceed at any minute, as soon as the company had them, but the company does not want to build the line."

The mayor: They were bluffing the railway board.

Cont. Maguire: And the city has not called their bluff. Why hasn't the department told the board that we were ready to go on?

Mr. Harris: We did so instruct them.

It was eventually decided to instruct the legal department to apply for an order requiring the company to proceed at once with the laying of the rails.

JAPANESE TROOPS OCCUPY SEOUL

Many Persons Suspected of Attempt on Governor Are Under Arrest.

Tokio, Sept. 12.—Since the attempt to assassinate Baron Salto, governor of Korea, at Seoul, on Sept. 2, every part of that city has been occupied by Japanese troops and the place is virtually in a state of siege. The would-be assassin is still at large, although a number of persons suspected of being implicated in the plot are under arrest. The bomb thrown at Baron Salto exploded with terrific violence and an inspection of the fragments has shown the missile was scientifically constructed. It is the opinion of the police that the bomb was not made in Korea, but was brought into the country, probably from Manchuria.

The attack followed days of agitation in Seoul, the demonstrations being marked by flag-raising, public meetings and the closing of shops. An independent newspaper was issued on Aug. 22, the ninth anniversary of the annexation of Korea by Japan, as an avowed expression of protest. The day was called "national" in the publication.

Japanese Press Views.
The Japanese press takes the view that the bomb outrage was to have been expected, pointing out that it was almost a logical development. It expresses the opinion that the appointment of a naval officer as governor of Korea was probably inopportune and the result of poor judgment, as it only served to inflame the Koreans, who had hoped that a civilian would be named. Takeshi Inui, leader of the Kokuminto, or National party, takes a similar view. He said that a civilian might have calmed the Koreans, who regard Baron Salto as a man of the sword, like his predecessors.

BIG FOOD STOCKS ARE CONFISCATED

Montreal, Since First of Year, Condemns Quarter Million Pounds of Meat.

Montreal, Sept. 12.—The city of Montreal, from Jan. 1, 1913, till Aug. 22 of this year, confiscated enormous quantities of food which was unfit for human consumption, having done away with 215,867 pounds of meat alone.

With also 884 pounds of fowl, 60,078 pounds of fish, 1147 pounds of fruit, and 3223 pounds of vegetables, if not the whole of Canada, in the line of confiscation, with Quebec city running a close second, that city having had 55,613 pounds of meat condemned in the ancient capital, over 90,000 pounds of this being veal.

These figures were made public this morning by officials of the food department, of which Dr. Boucher is director.

"The fault of the appalling waste can be traced to several causes," asserted the food department. "The blame lies principally with the butchers, who send meat into the cold storage houses and leave it there until it becomes unfit to eat."

MARSEILLES STRIKE SCARCELY GENERAL

Marseilles, Sept. 12.—While the strike here cannot be said to be general, the general view of the principal unions, the tramway employees and the teamsters, have called out their members. A very large number of workmen are idle and the situation is growing more serious. There is no sign of a greater part of the city is in darkness tonight.

The metal workers, bakers and building trades unions have voted solidarity with dock laborers and the street car men. They will meet tomorrow night to decide whether to join in the strike movement. It is believed the vote will be favorable.

German Depot at Basle Taken Over by Allies

Geneva, Sept. 12.—It is reported from Lorrach, Baden, that the depot have taken over the important German railway station at Basle, which, although in Swiss territory, has hitherto been in German control under treaty rights.

Under allied control the huge passenger and freight traffic thru the station, which is the gateway to the north and south of Europe, is expected to be greatly facilitated.

The Swiss, it is declared, are greatly pleased at the new conditions, because German control has always been a thorn in the side of Swiss government.

Jugo-Slavia Has Concluded Trade Treaty With Austria

Ljubljana, Sept. 12.—Jugo-Slavia has concluded a commercial treaty with Austria and Hungary by which it will supply the two neighboring states with flour, corn and ore. The preliminary treaty was signed on Wednesday. Delegates have started from Belgrade to conclude at Prague an agreement with Jugo-Slavia. Under the treaty conditions of exchange will be fixed for sugar, oil and machinery.

Gold From Germany On Way to Canada

London, Sept. 12.—It is reported that four and a half million pounds in gold has reached London from Germany and a portion is said to be already on the way to Canada in payment for foodstuffs.

"Honest, Mother, the Water Wasn't Cold"

CANNOT RECOGNIZE THE POLISH CLAIMS

Czechs Will Refuse to Sign Treaty if Interests Are Not Preserved.

Prague, Sept. 12.—"If the peace conference decides the Teschen question against the Czechs and does not preserve their interests the Czechoslovak delegates to the conference will refuse their signatures and leave to the Prague national assembly the right to decide."

Premier Tusa made this announcement today in concluding a long statement on the Teschen question to the assembly.

"We have always been partisans of order and stable organization in eastern Europe," he said, "and we are ready to subordinate our interests to the general good; but as regards Teschen, we cannot recognize the Polish claims." After Premier Tusa's statement, Franz Tomasek, president of the assembly, declared in the name of the Czechoslovak people that they never would give up the Teschen region.

TO ESTABLISH STATUS OF THE DOMINIONS

London, Sept. 12.—The Times, alluding to the discussions on the peace treaty in the Canadian and South African parliaments, says that the task in the future will be to bring the practice of the empire into correspondence with the theory established at the peace conference, as to the international standing of the dominions. Until this is done, says the Times, the British government must still repress the dominions in many international negotiations.

FIGHTING CONTINUES THRUOUT MONTENEGRO

Paris, Sept. 12.—A Montenegrin official communication issued at Paris says that fighting continues fiercely throughout Montenegro against the Serbian invaders, who have suffered severe losses. The Serbians have sent 15,000 reinforcements by way of Bosnia and Cattaro.

Grand Army of Republic Opposes the Peace Treaty

Columbus, Sept. 12.—Resolutions opposing ratification by the United States of the peace treaty in its present form were adopted almost unanimously here today by delegates attending the annual encampment of the Grand Army of the Republic.

Col. James D. Bell of Brooklyn was Unanimously Elected Commander-in-Chief, and Atlantic City Chosen as the 1920 Encampment City.

Col. James D. Bell of Brooklyn was unanimously elected commander-in-chief, and Atlantic City chosen as the 1920 encampment city.

SPECULATE ON DATE SESSION IN QUEBEC

Some Authorities Declare Legislature Will Not Meet Until Next Spring.

Quebec, Sept. 12.—There is considerable speculation here concerning the date of the next session of the Quebec legislature. L'Action Catholique today stated that it was probable that the session would open on Nov. 4 or 11, while L'Evenement contends that there will be no session held this fall, and the legislature will not meet before the middle of January, 1920. Among the important measures forecast for the next session is a bill calling for an expenditure of \$1,000,000 for the development and encouragement of colonization. In this connection, it is stated that the new minister of colonization, Hon. J. E. Perreault, will leave next week to make an extensive visit of all the colonization districts in the province, in order to ascertain their respective needs.

GERMANY WELL ABLE TO PAY INDEMNITY

Paris, Sept. 12.—Speaking in the chamber of deputies yesterday, Louis Loucheur, minister of reconstruction, declared that the French financial claims upon Germany in no wise exceeded the latter's capacity to pay. He added the Germans have always been hard workers and possessed of much commercial, industrial and agricultural initiative, and pointed out the yield of grain per acre has always been higher in Germany than in France. He declared that it was reasonable to expect that every German activity would be devoted to the task before that country.

FREQUENT HEADACHES

A Sure Sign That the Blood is Watery and Impure.

People with thin blood are much more subject to headaches than full-blooded persons, and the form of anaemia that afflicts growing girls is almost always accompanied by headaches, together with disturbance of the digestive organs.

Whenever you have constant or recurring headaches and pallor of the face, they show that the blood is thin and your efforts should be directed toward building up your blood. A fair treatment with Dr. Williams' Pink Pills will do this effectively, and the rich red blood made by these pills will remove the headache.

More disturbances to the health are caused by their blood than most people have any idea of. When your blood is impoverished, the nerves suffer from lack of nourishment, and you may be troubled with insomnia, neuritis, neuralgia or sciatica. Muscles subject to strain are under-nourished and you may have muscular rheumatism or lumbago. If your blood is thin and you begin to show symptoms of any of these disorders, try building up the blood with Dr. Williams' Pink Pills, and as the blood is restored to its normal condition every symptom of the trouble will disappear. There are more people who owe their present state of good health to Dr. Williams' Pink Pills than to any other medicine, and most of them do not hesitate to say so.

You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

EMPIRE WILL TAKE PULP AND PAPER

Commissioner in London Says Canada Has Every Reason to Be Encouraged.

London, Sept. 12.—The Canadian pulp and paper industry has every reason to be well satisfied at the prospects of business in Great Britain, is the opinion of A. L. Daws, who was sent by the industry at the request of Lloyd George to assist in the expansion of trade with the mother country and secure additional shipping facilities permit.

Prior to sailing for Canada on the Melita, Mr. Daws stated that in three months' canvass of the country he found marked preference for Canadian pulp and paper products and large orders had already been placed which will be augmented as soon as shipping facilities permit. Realizing the important part which pulp paper played in the successful prosecution of the war, and the fact that in pre-war days the sources of raw materials were under the domination of alien countries, there is a strong sentiment towards the encouragement of trade with the empire in pulp and paper.

Canadian pulps are highly regarded by paper makers and equal to and in many cases of better quality than the Scandinavian and German grades. Many Canadian manufacturers of pulp and paper are strongly represented in Great Britain by capable selling organizations fully alive to their opportunities.

PREMIER SMUTS WARNS AGAINST SECESSION

Cape Town, Sept. 12.—In the assembly yesterday, Premier Smuts referring to the Hertzog party's campaign for independence, solemnly warned them that in the United States, millions of lives had been sacrificed on the altar of secession. Two courses, he said, were open, mutual co-operation or the path to secession. "We continue," said the premier amidst cheers, "to stand by the Vereeniging treaty and our word of honor."

On the other hand secession was a path leading to a broken South Africa, a discredited South Africa, and moreover with a native population far outnumbering the white population.

DROWNED BEFORE EYES OF HIS WIFE AND SON

Chicago, Sept. 12.—Thrown from his motor launch when the rapidly revolving fly-wheel caught his trousers is reported to have happened to Michigan Judge Henry Guerin, superior court of Chicago, drowned before the eyes of his wife and son, in the storm-swept waters of Lake Michigan yesterday, after making a futile attempt to swim against the undertow. The boat was but a short distance from shore at the time of the accident.

GERMAN TAX IS ON FORTUNES

Berlin, Sept. 12.—The government's inheritance tax, it is estimated, will yield 75,000,000 marks per year, while its levy on fortunes will turn over to the national treasury nearly three billion marks annually for the next thirty years.

PEACE PROGRAM OF THE RED CROSS

Final Session of Central Council—Will Aid Medical and Nursing Service.

Winnipeg, Sept. 12.—An extensive peace time program for the Red Cross Society, including promotion of medical and nursing service and other public health measures, in addition to the primary function of the society, which is the physical welfare of those suffering as a result of war, was endorsed by the central council of the society here at the final session. The Duke and Duchess of Devonshire were present at both sessions, and every province but Prince Edward Island was represented.

It is considered that the medical and nursing service is one which will make the greatest appeal to the country as a whole and the scheme will be worked out with the co-operation of the various existing agencies, such as the Canadian National Association of Trained Nurses, the Victorian Order, and will include enrollment of available workers, both trained and volunteer, for emergency and continuous service. Special facilities will be provided for courses for nurses.

By amending its bylaws, the central council has made a uniform fee of one dollar for active membership in the Canadian society—junior branches, a fee of twenty cents.

There will be no cessation of the war work of the society so long as the need for assistance in that direction exists. Siberia will receive four carloads of drugs and supplies from the Red Cross as soon as they can be transported, and further aid to the amount of \$100,000, if necessary, has been sanctioned.

PERSHING IN WASHINGTON.

Washington, Sept. 12.—General Pershing arrived in the national capital at 3.30 p.m. today to notify the government, formally and in person, that his task as commander-in-chief of the American expeditionary forces in Europe had been successfully concluded.

SMUGGLING HELPS TO DEPRECIATE MARK

Assisted by Absence of Regulated Customs, Says German Paper.

Berlin, Sept. 12.—The great amount of smuggling thru the occupied districts and the lack of any regulated customs duties or the impossibility of imposing them unless Great Britain, France and the United States agree to do so, rather than Finance Minister Erzberger's financial policy.

The newspaper contends that the present removal of capital from the country owing to unhampered smuggling and the purchase of articles of luxury are chiefly responsible for the low value of the mark. It adds that the peace treaty conditions, by which goods may be imported into Germany for five years without the payment of duty, constitute a hole thru which, unless an understanding with France is reached to assure strict control, not only Alsatian products, which are not objectionable, but all kind of foreign products will flow thru.

A huge supply of marks has been gathered in the occupied districts and are being held as a menace over Germany, says the newspaper. Efforts to reach an understanding with Great Britain and France, it adds, up to the present, have failed, but they must be persisted in to establish a definite customs border.

The Vorwaerts points out that Tuesday's quotations on the mark constituted the lowest figures in history, and comments on the situation along a line similar to that adopted by the Vossische Zeitung.

British Steamer Chilton Goes Ashore Off Nova Scotia

Halifax, N. S., Sept. 12.—The British steamer Chilton, from Charlotte, N. B., for Glasgow, went ashore at St. Paul's Island, in the fog early this morning, according to word received here today. The ship is not in any immediate danger. A ship will be sent from Sydney to her assistance.

QUEBEC TO REVISE GENERAL STATUTES

Appoints Special Commission—Work Will Extend Over Three Years.

Quebec, Sept. 12.—The lieutenant-governor-in-council has appointed a special commission for the revision of the general statutes of the province of Quebec, in accordance with the law passed at the last session of the legislature and sanctioned on the 17th of March, 1913. The commissioners appointed are as follows: President, Mr. Charles Lanctot, deputy attorney-general; commissioners, Mr. A. Reaume, K.C., of Montreal and Mr. W. H. Geffroy, K.C., clerk of the executive assembly; the secretary, Mr. Fernand Murphy, K.C., of Quebec and Mr. E. Chichoune, K.C., of the attorney-general's department. According to the law, the president of the commission is entitled to a salary of \$3,000, and the commissioners will receive not less than \$2,400, and the secretaries will be paid salaries of \$1,200 each.

The new commission will get down to work shortly and as the work involved is considerable, it is estimated that it will last three years.

REMARKABLE WORK OF NEW ORDER

James Simpson Outlines the Growth of Brotherhood of Railway Laborers.

James Simpson, who returned yesterday from Detroit, where he had interviewed Allan Barker, grand president of the International Brotherhood of Maintenance of Way Employees and Railway Laborers, stated to The World that the scheme of mail order co-operativism, outlined by Mr. Barker as one of the great movements of the brotherhood, was one of the most outstanding movements of its kind in America.

"The mail order system referred to earlier is considered as a means of supplying members with basic commodities at much-reduced prices," continued Mr. Simpson. The association had investigated the matter, and have received assurances from the largest wholesalers in America that all their wants in this respect will be supplied.

Mr. Simpson, touching upon the organization and constitution of the Brotherhood of Engineers, among the most highly-skilled crafts of the A. F. of L. were present, and promised to lend their full, hearty support to any co-operative measures considered.

Restoring Our Reserve Plant!

A telephone system to be normal and healthy must have a big percentage of its plant in reserve.

There must be spare positions on switchboards, spare cables in underground conduits, spare wires in underground and aerial cables, spare pins on cross-arms.

The plant in reserve must be ample, not only to meet ordinary growth, but to take care of unforeseen development such as the opening of a new car line, the cutting through of a new street, the location of a new industry in a given district.

During the war, through scarcity of material and skilled labor, our reserve plant was depleted as never before. Even necessary maintenance work had to be postponed.

Our problem now is, while keeping up with the demand for new telephones, moves, etc., to get our reserve plant back where it should be and to overtake vital maintenance and repairs so that service may be at the highest standard.

Installations from January 1st to June 30th were 36,716 instruments, with 20,341 take-outs, a net gain of more than double the same period last year.

The task of getting back to normal while growth is so rapid is a difficult one. Our chief concern is that subscribers should get the best possible service under all conditions and to this end we are doing our utmost.

RESUMING WORK ON SHIP CANAL

No One Section Again in Full Operation—Results From Conference.

Canadian Press Despatch. St. Catharines, Sept. 12.—No. 1 section of the Welland Ship Canal is again in full operation this afternoon, as a result of a conference between Superintendent Owens and a delegation representing the Niagara District Trades Federation yesterday afternoon.

When he met the men, Superintendent Owens stated that no man had been asked to work for more than eight hours on that section. The strike on sections two and three still continues. In a 40-minute interview this afternoon, the men's representatives pointed out that they had no intention of ceasing work, but intended to get the men to go back to work at 8 o'clock this morning if the contractors would undertake to post up notices that an eight-hour day was maintained on the work.

They stated that they did not consider the government responsible for the present trouble, because it had acceded to the eight-hour day and 44-hour week, and several telegrams had been sent to Chief Engineer Grant to that effect.

Chief Engineer Grant had requested the contractors to maintain the principle on their several sections.

Cause of Discontent. The delegation stated that they thought the contractors were responsible for any discontent by asking the men to work a ten-hour day. If by working an eight-hour day they lost any mechanics the federation could supply men to take their places as good, if not better, than the men they lost. So far as laborers were concerned, it was felt that the contractors had not made as full use of the government employment bureau as they might have.

Interviewing Superintendent Lothian at section one, the delegation said they were informed that the men had never been ordered to work a ten-hour day; that the job would remain as it was, while the men themselves have the option as to what hours they wanted to work, and that he did not want anyone going there to tell him what to do.

One of the contractors, Superintendent Owens, of No. 1 section, received the deputation in a co-operative spirit, and stated that he had never asked any men to work more than eight hours at straight time. Sometimes it was necessary to have concrete mixed after hours, and so that case the men were paid overtime rates. The position at present is that the men have put the onus of maintaining the eight-hour principle on the shoulders of the contractors,

and request them to post notices to that effect on the work. The contractors on sections two and three state that it is up to the union to enforce the principle. Officials of the federation this afternoon stated that it was hoped to have the difficulties settled by Monday. If the contractors would accede to the demands of the union, work would be resumed immediately.

THEY DISAPPROVE OF HIGH RENTALS

Labor Men Compliment City Council Upon Its Recent Action.

Labor men are decidedly interested in the question of rents, and yesterday discussion at the Labor Temple was keen upon the matter. Two well-known labor men interviewed were strongly of the opinion that fair rent courts should be established throughout the Dominion. The need of such an organization, they said, was evidenced in the reports brought in to the Toronto city council. They were favorably impressed with the action of the city council in restricting the exorbitant methods of the landlording in the Queen City.

"I know of one house," said a prominent labor man, "which is a six-room cottage, 50-foot frontage and 170 feet deep; this house is damp many months of the year, and is in every way unhealthy. It originally rented at \$4.00 a month, and in 1913 rented at \$11.00 a month. Today it is renting at \$17.00 a month. It has six rooms but no bath, and is minus many other improvements. The rooms are about the size of cupboards, the landlord refuses to repair or improve that house. I know of still another which is of the same type, but has neither furnace, cellar, electric nor gas. He is renting the place at \$23.00 a month. These places are assessed at about \$18.47, because of the immense land area."

MOMENTOUS CONFERENCE. James Simpson, W. P. Covert, business manager for the Moving Picture Operators' Association; Dave Carey and Arthur O'Leary, left for Ottawa last night to attend the national labor conference, the most momentous occasion of its kind ever held in the Dominion.

TELFER AGREEMENT SIGNED BY WORKERS

Biscuit workers, who are affiliated with the Canadian Federation of Labor, have effected an agreement with the Telfer factory as to wages and hours, this firm having recognized the union. About 350 members are affected by the agreement, which will be put into effect on Oct. 1. There are four other biscuit firms as yet under consideration in this matter, among them being Christie-Brown with 700 workers. Telfer is the first of the firms to recognize the union, but it is expected that the other firms will fall in line shortly. The union is not pressing demands upon the firms, but is seeking round-table conferences as a harmonious means to the desired end.

The agreement, which was accepted by Telfer, called for a minimum wage of \$22 a week, for a 44-hour week, time and a half for overtime.

CHILD LOSES LEG IN CAR ACCIDENT

Caught beneath the wheels of a Harbord car at Adelaide and Spadina avenue, last evening, Louis Marks, aged 7 years, of 151 West Richmond street, had his left leg so badly mangled that it was necessary to amputate below the knee. According to the police, Marks was running across the tracks, when a south-bound street car struck him. The front trucks went over the little fellow before the motorman could bring his car to a stop. The child is in the Western Hospital where, it was stated last night, his condition was improving.

RECKLESS PUPIL WAS PROBABLY CORRECT

A superintendent of schools, while endeavoring to teach a class of boys the composition of sentences, said to them: "If I ask you, 'What have I in my hand?' you must not answer, 'Chalk,' but compose a complete sentence, such as 'You have a piece of chalk in your hand.' Now we will continue. What have I on my feet?" "Boots!" was the immediate answer. "Wrong! You haven't listened to my directions." "Shoes!" came the next suggestion. "You're quite wrong," said the superintendent. "Guess again!" "Stockings!" was proposed. "No, no! Try again!" "Socks!" ventured another heedless one. "Wrong again; worse than ever!" protested the superintendent, in exasperation. "Well," as another pupil raised his hand "Please, sir!" Then he paused. Perhaps the thought his answer might seem funny, but convinced that it was right, he gasped out, recklessly, "Corn's!"

TWELVE HUNDRED MILE FENCE IN AUSTRALIA

Stretching across western Australia is a rabbit-tight fence, said to be the longest in the world. It extends for a distance of twelve hundred miles without a break except for gates. It begins in the temperate regions and ends in the tropics, and sometimes for nearly a hundred miles it does not pass a human habitation. The fence is divided into sections, each of which is under the control of an inspector. These inspectors have boundary riders whose duty it is to constantly ride up and down their section of the long barrier and keep it in effective condition. Since the fence was erected it has prevented hordes of rabbits from over-running and devastating the region beyond.

PARLIAMENT REPORT IS CALLED HANSARD

Hansard is the name of the published official report of the parliamentary proceedings, alike in Great Britain and Canada. It got its name from John Hansard (1778-1828), a celebrated English printer, who published the "Journal of the House of Commons" from 1774 to 1828.
