POET OF EMPIRE AT CANADIAN CLUB

Speech an Earnest Appeal for Closer Union and Preferential Trade With Sister States.

Everyone who could find a place to stand crowded into the ballroom at McConkey's last night. It was a tribute to Rudyard Kipling, the poet of the empire...

Tribute to Empire. Upon rising, the poet received a great demonstration and his opening sentences referred to the tribute thus extended to him.

Beware of Pessimism. We warned the people living in the older parts of Canada to beware of pessimism.

COMPANIES TO BLAME FOR LOSING INSURANCE

Chairman Englehart Tells Why Business Went to New York.

J. L. Englehart, chairman of the T. & N. O. R. Commission, states that the Canadian companies are alone to blame for losing the railway insurance, which was formerly held by the Western Union, Norwich Union, London & Lancashire, Mercantile, either Canadian companies or with Canadian agencies; and the Home Insurance Company of New York, at \$1.07 1/2 per \$100 on three-year contracts which, however, did not include freight either in transit or in sheds.

Did you ever stop to figure the cost of lighting with natural gas? The regular natural gas burner will produce from 50 to 60 candle-power at a consumption of one and one-half feet per hour, and at the rate of 40c per thousand feet would cost, for 20 hours' burning, less than 1-1/2c, and at the rate of 85c per thousand feet less than 1-1/4c. KERR LAKE EXTENSION.

Branch of T. & N. O. Will Be Finished in Two Months.

According to a government official the short Kerr Lake branch of the T. & N. O., which is only some four or five miles in length, will probably not be completed so as to enable shipments of ore to be made from the government mine on the Gillies Line for several months yet. But the provincial treasurer and Mr. Englehart are of opinion that at the latest the work on this branch will be finished within a couple of months.

Not only is it necessary to make some heavy cuttings, but much delay has been caused by the great difficulty experienced in keeping men, who are attracted to the mines. Large quantities of ore, besides government ore, will find an outlet by this route.

CUSHING DID NOT APPEAR.

Hearing of Roller Bearing Officials Begun at St. Kitts.

ST. CATHARINES, Oct. 18.—(Special).—The preliminary hearing of the four officials of the Standard Bearings Co., charged by A. E. Henderson of Toronto with conspiring to defraud the shareholders, came up before the police magistrate here to-day.

J. M. Cushing, the man who put through the sale of the auto parts to the Standard Co. at alleged advance of \$3000, did not appear. The magistrate would not go on without him and a warrant was issued for his arrest. No date was fixed for the adjourned hearing.

Four Records Are Smashed At Varsity Annual Games

Longboat Wins Three Mile Open Race in 15.09—Meds Won School Championship—Results.

Varsity will be well able to look after herself in the sprints at the intercollegiate games in Kingston, but in the field events they have nothing unusual, with the exception of Frank of the Dents. True, of the four records that were broken at the eighth annual Varsity games yesterday, two were in the field events, but it was Jones of O.A.C., and incidentally while allowed to compete in the Varsity games he cannot pass under Varsity colors in the big event next week.

Sebert and Halbaus, who carried everything before them in the city school games last year, were again in the fore yesterday, Sebert reducing the 100-yard sprint to 10 1-5 seconds, with Halbaus a close second, while in the 200-yard, Sebert fell just 1-5 of a second short of the record. Halbaus did not compete in this, but in the 400-yards both again started, and this being Halbaus' distance, he won, almost closely pressed by Sebert. The time, 51 3-5 seconds, just clips 2 1-5 seconds of the record.

Wright, the former Jarvis Collegiate boy, had things his own way in the half mile, and while he failed to break any records, yet in the half-mile, if he had been pushed, he could have reduced the mark easily.

J. W. Jones of Guelph Agricultural College smashed Archibald's 16-pound hammer record all to smithereens. Archibald's record was 96 feet 9 1-2 inches, while Jones threw 121 feet 10 2-3 inches. In the discus Percy Biggs' record, which has stood for a good many years, of 99 feet, was broken by Jones, who threw 102 1-2 feet. Jones is from Abegweit, Nova Scotia.

CHURCH LOSING GOOD MEN SALARIES ARE TOO SMALL

Decrease in Money and Men for Baptist Work in Ontario and Quebec.

WOODSTOCK, Oct. 18.—The report of the Home Mission Board at the Baptist Convention showed there had been a decrease in money and men for the work in Ontario and Quebec. During the past year there had been an increased deficit, the board having failed to raise the amount given last year, that is, \$30,000.

The church is also losing its good men on account of the comparatively low salaries paid them. Ministers in Ontario and Quebec could not be expected to withstand the temptation to take larger salaries offered in the United States and the Northwest. The

WILL MARCONI MAKE GOOD?

Marconi and his system of wireless telegraphy may be one of the greatest things of the day, and of the age. We trust it will prove to be such. Marconi and his invention, however, are subject to competition by a large monopoly, which, outside of the Standard Oil, is the strongest in the world.

But if Marconi is able to do the trick, and if he has the goods, his name will go down to posterity, not only as regards invention, but because he will have been instrumental in breaking up the most powerful monopoly outside of the Standard Oil that the world has ever seen.

AN IMPERIAL GIRLDE.

Noting the movement in Canada for the nationalization of the telegraph service, The Morning Post of London, Eng., remarks that "in order that the empire may become a unit for telegraphic purposes, the advantages thereof are infinitely greater than the advantage of cheap postage, an imperial girlde of state-owned cables is a vital object of imperial statesmanship."

THE WIDOW AND ORPHAN AGAIN.

These are the days when appeals on behalf of the widow and the orphan and the investing public are made in regard to their money interest in companies that hold public franchises. Strange, isn't it, that these appeals are only made for this class of individual.

AGAINST LOCAL OPTION.

Editor World: I understand from the Toronto press that the York Township Council ask to submit the question of local option on the grounds that they have received 1407 votes, and that they can reach 1407 votes.

and, that in every instance the more we protect these people from public competition the more grasping will be the efforts of the masters of high finance. Anything, no matter how predatory, can be justified in this way.

Again we ask, who is protecting the man in the street and the ordinary individual from losses sustained in a falling market or thru competition of any kind, whosesoever it may arise?

CURIOSITY RETALIATION.

Public service corporations have shown themselves capable of endless foolishness even in matters affecting their own best interests. But of all possible follies nothing richer could be imagined than the action of the Transcontinental Lines' Association, which, at its recent meeting in Chicago, is reported to have decided to stop issuing colonist rates to California and other points on the Pacific coast.

THE ELECTRICAL RING'S LATEST.

Looked at from any point of view, the action of the organ of the electrical ring, in attempting to discredit the power policy of the provincial government at this particular moment, wears a sinister aspect. The first report of the hydro-electric power commissioners, is now eighteen months old.

choose a president of the United States in a big hall in open day, it should not be difficult to nominate a member of parliament without closing the blinds and locking the doors.

It would be interesting to know what happened "behind closed doors" at the London Liberal convention Thursday night. We can tell with some accuracy if the London election indictments are not tried next month.

THE ORILLIA TIMES (LIB.) AFFECTS GREAT CONCERN OVER ALLEGED DISSENSIONS AMONG ONTARIO CONSERVATIVES.

Mr. Whitney and his friends appear to be badly in need of a reunion. Dr. Beattie Nesbitt has been a thorn in the flesh to the Ontario Government since the premier refused cabinet positions to the doughty doctor and his bosom friend, Gamey.

LONDON ADVERTISER (LIB.):

It need not be assumed too hastily that Dr. Beattie Nesbitt was talking swaddle at Gravenhurst, as Mr. Whitney alleges. Whatever his faults as a politician, Dr. Nesbitt was never suspected of sinister relations with the corporation in the policy itself, or as the first Conservative member of the legislature to take an aggressive stand on the power question.

OTTAWA CITIZEN (CON.):

The assertion of Dr. Beattie Nesbitt that his position as registrar of West Toronto is a sinecure for which he draws \$4000 a year is attracting general attention to the work of registrars, and the system of their remuneration. In the course of this discussion it has been asserted that Dr. Nesbitt was guilty of exaggeration in regard to his emolument.

MRS. SHARPE OF KENORA ACQUITTED BY THE JURY

Verdict Was Popular and Applause Broke Out in Court Room—Some of the Evidence. SHERBROOKE, Oct. 18.—Mrs. Sharpe of Kenora was found "not guilty" of manslaughter. The judge's charge was favorable, and the jury took the view that the bullet glanced from a tree, striking Coates. There was applause in the courtroom, and the verdict was most popular.

STEARING A RIDE, KILLED.

Brothers Were Riding on Blind Baggage. MONTREAL, Oct. 18.—Raoul Roulier, a ten-year-old lad, fell off the Portland express between Danby and Actonville, yesterday whilst stealing a ride from Sherbrooke to Montreal, and died in the general hospital this morning. It appears that Raoul and an elder brother wanted to have a look at the train conductor, and as they had no funds found it necessary to keep out of the way of the train conductor. They crouched on the platform behind the baggage car, and shortly before the train reached Actonville, Raoul lost his balance and fell off. The slider lay walked back along the track, and before going some distance, found his brother unconscious, his right arm having been amputated by the wheels.

EATON'S DAILY STORE NEWS

A Double-Barrelled, Breech-Load, 12-Bore Shot-Gun for 12.00

In this we believe we offer the best value on the market. No gun, however costly, is any satisfaction to a sportsman, unless he feels he can trust it under all circumstances. We want our customers to have the same reliance on this gun that WE have.

WE guarantee it a thoroughly reliable gun or your money back, therefore you know we rely on it.

The barrels are 30-inch Damascus pattern; the left barrel is "choke" bored and the right "modified." "Choke" bore means the bore is a little narrower at the muzzle than near the chamber. This narrowness or "choke" only extends about one inch into the barrel, and is for the purpose of concentrating the charge as it goes from the muzzle. It keeps the shot from spreading, which the ordinary "all-cylinder" bore does not. The "modified" bore comes between the "choke" and the "cylinder." The charge does not spread so much as in the "cylinder," and yet spreads more than the "choke." This is a strong point with most sportsmen, as it gives a choice of a slightly spread or concentrated shot. Both barrels are suited for either nitro or black powder.

The action is the celebrated Greener cross bolt, which in the opinion of experts is the safest made.

The cross bolt goes through the matted extension rib and holds all as firmly as if made in one piece, and yet is easily worked by the top lever. One of the most secure and easiest worked on the market.

The fore-arm is the patent Dwyer & Edge, which has a special locking device—another great point in keeping the parts securely together, and yet permitting of their being easily taken asunder.

The BREECH is the famous Drana style shown in illustration and the STOCK is the "pistol-grip," extremely handy, strong and nicely checkered; made from straight grain walnut with steel butt plate sitting easy to the shoulder.

HAMMERS are the rebounding style; after striking they rebound to half-cock, and can not by any jolt or accident be made to hit the pin unless by putting to full cock and pulling the trigger. This does away with all chance of accidental discharge.

The locks, are the "forward action," simple and strong and not liable to get out of order. The triggers are well proportioned, easy in pull and protected by an ample guard. The sights are of the highest grade pattern, equal to any on the very highest-priced guns.

The whole gun is handsome in outline, beautiful in finish—an all round desirable gun for the hunter and carrying our full guarantee. Our price..... 12.00

Call and see our selection of guns and gun sundries. We keep only the best and most reliable.

SOUTHAMPTON

Indian Tradition of a Great Battle—Graves of the Chippewas—A Model Land Surveyor and Other Notables—The Modern Town, Its Industries and Opportunities.

Who knows where the foot of man hath not trod, in the remote past, or where, whether in wilderness of forest or plain, his body has not mingled with its mother earth?

Who in 1814 took part in the battle of Waterloo? These men, perchance, told the stories of their own lives and others in the little shanty tavern in the woods kept by the father of the present mayor, Col. A. B. Beichler.

Its harbor is a depot for domestic goods, especially of pine, of which the boards of the great lake vessels are made, and the lumber, shingles and lath by the lumbering industry of the county.

The elder McNabb thought so too, and was sent, post haste, which meant a long journey to the west coast of the continent, to the mouth of the Sauguenay.

He found that the surveyor had laid out the larger portion of the entire township into town lots and was doing the surveying in the morning.

He had struck a bonanza in the wilderness and had prepared stakes enough to serve his purpose for a long time.

From here, too, says the squire, was sent the expedition of 1849 to search for the lost Arctic explorer, his husband, Sir John. Later he married Lady Frank's daughter, was sent to Manitoba as a missionary and died there.

THE WORLD'S HOME MAGAZINE FOR WOMEN EDITED BY LAURA E. McCULLY, B. A.

With the Workers for Woman's Suffrage

At the recent convention held in Oakland, the California Woman Suffrage Association attained the honor of adding to its list of honorary presidents the name of Mr. David Starr Jordan.

Realizing that organization for the franchise is necessary, the suffragists are making a part of their work the study of economic and other public questions.

This movement has become a worldwide one. The International Suffrage Alliance now publishes a paper called "The Suffragist," by which the workers in the different countries may notify one another of progress made.

Alice Stone Blackwell, in The Woman's Journal of Sept. 28, gives the following interesting information: That one of the first measures introduced by the women members of the Parliament of Finland provided for the regular teaching of household economics to girls, at the expense of the state.

In Idaho, soon after women were given the ballot, they secured a law providing for a department of domestic science in the State University, and for a course of lectures on domestic science in the Academy of Idaho.

Bonsall-Alexander Recital. A large and appreciative audience gathered at the Association Hall last night to hear the combined musical and dramatic recital by Mme. Berna Bonsall and Jessie Alexander. The program was well thought out, from the Shakespearean scenes to the "Le-Dominique," by Dr. W. H. Drummond. Miss Jessie Alexander was heard to great advantage in "Amendement's Engagements," her rendering of the London bus driver's experiences greeted her efforts. She evidently made a great study of her program and deserved the applause which greeted her efforts.

It was unfortunate for those sitting from the club interfered with the were entirely drowned by screams and shouts of hurrahs from the adjoining room.

Imma Bessie Bonsall, who has been studying in New York, has returned to Toronto with much improved voice and stage manner, and her rendering of "The Ould Plaid Shawl" was altogether delightful.

A Woman's Suffering.

Consultations With Doctors and Specialists Gave But Little Relief.

HALLIFAX, N.S., Oct. 18.—Mrs. R. J. Rawlings of 12 Artye-street gives the following statement which should be of interest to every reader: "No one could tell me what I was suffering with torturing headaches, faint feeling and lassitude. In the mornings I was unable to do my work, and when night doctors did me little good, so I decided to buy Dr. Hamilton's Pills, about which I have heard so much good. In a week I improved. My headaches were less severe, my appetite increased, and my stomach and bowels were in a normal state. My weight increased, and my strength and energy were restored. I was in my usual health. I used twenty pills, and the consequence will live. Just the prescription for every tired, ailing woman. Try Dr. Hamilton's Pills, and see if this isn't so. Sold by all dealers, 25c per box.

C.M.A. TAKE RECORD OF DEMAND FOR MECHANICS

Meeting of Executive Held in Toronto—Subject of Technical Education.

The Canadian Manufacturers' Association will take steps to acquire information of the exact demand in the different trades for skilled help.

It was reported that the new tariffs to be issued by the railways for the territory in Ontario and the east as a result of the order of the board of railway commissioners, in the international rate case, will become effective on Nov. 15.

Associations of shippers in the United States have secured the unanimous backing of the American Bankers' Association, with the result that it is confidently expected the interstate commerce commission will recommend the adoption of a simple form of bill of lading, which will be merely a receipt for the goods and an undertaking to deliver them safely at destination.

The association's interest in the subject of technical education is steadily increasing. The further the matter is studied the more convinced are the members of the association that it is one of the biggest problems before them to-day.

Notwithstanding the arduous conditions imposed by the finance department at Ottawa, all the requirements in the matter of the Central Canada Manufacturers' Mutual Fire Insurance Company have been successfully met.

Important Sale of Odd Suits

It will interest his many friends to know that Mr. Jamieson, Jun., is again actively associated with this business, after several years' aggressive experience in the States.

The lessons he learned in the clothing business over there will be turned to good advantage over here, and the impetus of new blood and new ambition will commence at once to wake things up at the old corner.

Inside and out the store will respond to more vigorous management, with better window displays, and a determination to key things up to a livelier pitch.

The business has grown beyond our expectations, and in planning for still bigger things we merely anticipate the metropolis Toronto is getting to be, and the more exacting requirements of its rapidly increasing population.

For the rest—watch the papers!

P. JAMIESON The Clothing Corner, Queen and Yonge Streets.

A careful inventory of Men's and Boys' Clothing reveals no less than 434 Suits, representing odd sizes and broken assortments, which go on sale Saturday morning, at less than half-price. Materials are the very best, with no end of good wear to them, and with the steadily-increasing cost of woollens these values are really sensational:

METHODISTS MOURNING PRINCE IN ISRAEL FALLEN

Great Through Attends Funeral of Distinguished Divine in Metropolitan Church.

Simple but impressive services were held at the Metropolitan Church, on Friday afternoon at the funeral of Rev. Dr. Potts. The church was crowded. The platform and organ gallery were draped in black. Rev. Dr. Carman, general superintendent of the Methodist Church, was in charge of the services and he was assisted by Rev. Dr. W. F. Wilson, who read the 90th Psalm; Rev. Dr. Cleaver, who read a portion of the 15th chapter of 1st Corinthians; Rev. Dr. Griffin and Rev. Dr. Shaw of the Wesleyan College of Montreal, Dr. Carman delivered the following eulogy:

"Canadian Methodism, American Methodism, British Methodism, Ecumenical Methodism all mourn with us to-day as the sad tidings of the death of our beloved brother, Dr. Potts, is flashed around the world. Surely a prince in Israel, a mighty man fallen, and as surely his spirit and life and example, his influence and achievements have left a benediction upon his church and all churches, and upon his country and other countries that have seen the glance of his eye and heard the music of his voice.

"Born in the land of warm hearts and generous souls, reared under the nurture of such men as Enoch Hood, Samuel D. Rice, John A. Williams, Morley Punshon, Samuel S. Nelles, their companion and friend, ever moving amid distinguished contemporaries, he came to a lofty seat in the council of his church and to a throne of power and usefulness in the philanthropies of the city, the nation and the world. A preacher of plain and pure doctrine, he rejoiced in the record given of our Lord. The common people heard him gladly. In his own thoughts and ministrations he admitted no controversies or doubts on the fundamental and essentials of the Christian faith.

"True to Highest Interests. In his relations as a citizen, he was ever true to the highest interests of our Dominion and empire, firmly adding that righteousness, intelligence and virtue exalt the nation and invigorate the national life. So he believed, so he labored and so he gained our esteem and love and won an imperishable name.

"In the course of his splendid eulogy, Chancellor Burwash said: "The secret of his life was this: He entered into the spirit of the age and the nation, and carried with him the best of the people, and they followed him. And for the young men of our day it is not amiss to ask the question: 'How came the young lad of 17, that strange land, without powerful friends or worldly advantages, in the course of ten short years, to find himself on the high tide of such influence and success?'

"Someone will say he was born to it, i. e. with capacity for it. But young men would make a serious mistake if they concluded that such native gifts found their full development and sphere of action by mere chance or favoring circumstances. The lad brought with him from the land of his nativity, from a godly mother's nurture, the fear of God, a heart for honest, hard work and a sturdy will to act out his convictions of right and duty. It was this that brought him into the Methodist ministry. It was this that inspired the humble, unassuming, pastoral labor which first brought him into sympathetic touch with the hearts and consciences of the people, and won their love and praise. And it was this that made him painstaking and laborious in preparation for his work in pulp and on the platform, always bringing beaten oil for the lamps of the sanctuary. He had genius, but one element of that genius was infinite capacity for hard work, and the moral character which led him up to that work for 50 years. The gifts of God to him were neither few nor small, but the greatest of these was that character which spurs one to do his duty—that he might win God's 'Well done.'

"Prominent people present. Among the prominent clergymen present were the archbishop and primate of all Canada, Bishop Sweetnam; Owen Watkins of the Legal Hundred, the governing body of the Methodist Church in Britain; and Rev. Dr. Falconer, president of Toronto University, as well as many other clergymen of other denominations and officials of the Salvation Army. The students of Victoria University occupied seats in the body of the church.

"Dr. Carman read a number of messages of sympathy and respect, among them from Dr. Sparling of Winnipeg, the presidents of the various Methodist conferences, and the presidents of universities in Canada. He also referred to the presence of the mayor and aldermen of the City of Toronto.

"The hon. treasurer, Senator George A. Cox, Mr. Justice McLaughlin, Dr. Bain, registrar of Victoria, Col. Mason, R. C. Hamilton, R. J. Scott, James S. Cone, Dr. Torrington and E. E. Bull.

"Previous to the church services a private service was held at the house, conducted by Rev. Dr. Reynar, Rev. Dr. Wallace and Chancellor Burwash.

The Excelsior Roller Rink are introducing a series of contests next week, and are holding a competition every night for the championship of the city. The contests are open to everyone, and entries are coming in fast.

"The program for the week is printed below: Monday: Ladies skating alone. Tuesday: Gentlemen skating in couples. Wednesday night: Ladies and gentlemen skating in couples. Thursday night: Ladies in couples. Friday night: Gentlemen skating in couples. Saturday night: Presentation of prizes. The first prizes are gold medals; second prizes silver medals. These, undoubtedly, will be the keenest competitions ever held in Canada and will give their kind to be introduced in Toronto.

"Great interest is being manifested in the competition bids fair to be a battle between the respective links. Remember the skating tournament at the Excelsior Roller Rink, starting Monday evening. This is the most extensive and extravagant competition held in Canada.

BEER BUILDS BODIES PURITY

Ontario beers are pure, above all else—far more pure than most of the milk sold, because made under conditions of absolute hygiene.

FOOD-VALUE

Boiled potatoes contain not nearly the nutriment that is in pure beer; milk will not feed most folks so well, nor digest so thoroughly.

Beer is a food-drink that makes the stomach do its work better, because it increases the flow of the digestive juices and gives the stomach muscles more strength to their work.

Beer is better for run-down people than medicine; and for thin-blooded people nothing else will enrich the blood so surely and quickly. Ask your own doctor if you hadn't better drink beer with your meals.

Beer is a term which covers lager, ale, porter, and stout and, under most hygienic conditions, from Ontario beer is the most healthful, pure and pure water.

able name. He was prominent as an advocate of Bible circulation, a Sunday school leader, a promoter of moral reform and a strong and industrious supporter of social and public benevolence. He believed in humanism. He believed in the Christian religion. He believed in God, and such a faith drawing on the unseen and invisible he built up a character and accomplished a life work which we delight, even under the cloud of his great sorrow, to do honor. We commend his record on the earth and for the heavens unto our nation and our race.

Eloquent addresses were also delivered by Chancellor Burwash, Rev. Dr. Briggs and Rev. Dr. Sutherland. Secret of His Life.

CITY ASKS COMMISSION TO PROBE COAL PRICES

Controllers of One Mind in Deciding to Petition the Dominion Government.

The Dominion Government will be asked by the city to appoint a commission to "investigate, determine and report the reason for the increased price of coal, and whether any combine exists for the purpose of raising and keeping up the price."

A decision as above was reached by the board of control yesterday, when the mayor submitted a resolution calling attention to the allegation that there was a combine in the coal business in Toronto and elsewhere, "whereby the price of coal is rising from time to time until it has become, and is now, an excessive burden, and that unduly large profits are realized by those engaged in the trade."

The resolution to petition the government was passed unanimously, and opinions were expressed that investigation should be made into the handling of other commodities. Controller Hubbard suggested an inquiry into the reason why butter is 32c a pound and why the milk producers had combined to increase the price of milk. The controller thought there should be some definite evidence of a combine in coal before taking action, but the mayor rejoined that there was a general feeling that the people were being held up, while Controller Ward thought there was the appearance of a combine. He referred to dealers as informing the public of advances to take place from time to time in the future, and asked how they were enabled to know in advance when it would be necessary to raise the price. The resolution was then unanimously carried.

Measles Hospital. The proposition to build the new measles hospital near the isolation hospital was opposed by a deputation from the Riverview Business Men's Association, the claim being made that property would be depreciated. Dr. Sheard will confer with the property owners. W. D. Lighthall, honorary secretary-treasurer of the Union of Canadian Municipalities, went offering the support of the organization to the prospective fight to compel the Hamilton Radial Railway cars to enter Toronto.

City to Build Spur? The works committee yesterday decided finally to recommend the building by the city of a spur line into Ashbridge's Bay, the city to have control of the line. There was present a deputation from the Riverview Business Men's Association to urge that the city build the line.

No more recommendations as to street railway extensions will be made for the present owing to the opposition of property owners to the construction of lines, and the realization that the city has no power to compel the company to build lines. The proposed line on Clinton-street was, therefore, withdrawn. The extension of Harbord-street, without a bridge, across the ravine was recommended, it being estimated that, by filling in, \$50,000 could be saved.

In consideration of the complaints of Brunswick-avenue residents, the block system of numbering will be abolished. High Pressure System. Night shift began work on the high pressure system of mains last night, and it is hoped that the whole undertaking will be completed and the street obstructions removed within six weeks. Thus far 40,000 feet of pipe have been laid. Work is now in progress on Queen-street from Bay-st. to John-street, Adelaide-street from John-street to Church-street and King-street from Bay-street to Jarvis-street, while work has yet to be begun on Victoria-street from Queen-street to Shuter-street and on Shuter-street from Victoria-street to Yonge-street.

Sunday Meeting in Theatre. Encouraged by the success of the meeting in the Griffin Theatre, 250 Yonge-street, last Sunday evening, the Canadian Temperance League will hold another meeting in the same place to-morrow evening, commencing at 8 o'clock. Hon Thomas Crawford and others will speak and an attractive program of Gospel songs and duets has been prepared. Thirty young men signed the total abstinence pledge last Sunday evening. Everyone is welcome, but young men in particular. It is the announcement of President Robertson. Next Sunday the Massey Hall campaign of the league opens, with meetings afternoon and evening.

ANOTHER EVIDENCE OF SAFETY MORTGAGE LOANS

It is well known that the safest way to invest money is in mortgages on improved real estate.

Small sums however, cannot be individually invested in this way.

In our Savings Department we gather the many small sums, and form an amount which can be so invested to advantage, and our depositors share in the profit as well as the safety.

We have the large sum of \$2,051,100.00, more than ninety per cent. of our assets, invested in choice mortgages.

Grain Futures Are Weakened by Downfall in Stock Market—Liverpool Lower.

World Office, Friday Evening, Oct. 18.

Another violent break at the New York market sent a thrill of nervousness thru the local exchange shortly after the opening this morning, and prices of securities immediately became unstable. Through the later dealings, sellers assumed the aggressive, and prices responded in declines to each new set of offerings, whether of short or long stock. The active issues were the traction securities and the Mackays. The large volume of this held on margin made them vulnerable, and each new low level forced out stock that had ceased to be protected. The Mackays were sold at New York, the common to \$4 3/4 and the preferred to \$5 1/2. The successful inauguration of the Marconi system outside of the general market weakness is having a bad influence on the Mackays, and prospective buyers of the shares are holding off until the situation has cleared. The market closed heavy, but with sentiment subject to change, according to the action of the New York market.

NEW YORK—Lawson had an advertisement to buy Amalgamated Copper in the morning papers.

It is understood that F. A. Higinz has given an option on 6000 shares of Mercantile Bank stock, which will probably be purchased by Mr. Ridgely and associates.

C. M. Schwab, in San Francisco, says he is there to determine whether the Union Iron Works should be continued or closed for good.

London expects an advance in Berlin rate on Monday.

There is strong demand for stocks in the loan crowd.

Further withdrawals of gold from London for Turkey and Egypt are expected to-morrow.

Thirty-one roads for the first week of October show an average gross increase of 6.9 per cent.

The sub-treasury expected to distribute a further allotment of government deposits in New York banks immediately.

Stess-Sheffield earnings for September are estimated as the largest in the company's history, with the single exception of last April.

Banks have gained \$3,000,000 since last Friday.

All grades of copper were reduced 1-4c in both bid and asked prices, making lake and electrolytic 12 1/2-13c to 12 3/4-13c, and casting, 12c to 12 1/4c.

The private banking firm of T. W. House of Houston, Texas, filed a general assignment under the state law.

The general opinion regarding Amalgamated dividend reduction is that the management acted judiciously in view of the copper situation.

NEW YORK, Oct. 18—At a special meeting of the clearing house committee to-day, the solvency of the Mercantile National Bank, under control, President Nash of the Corn Exchange Bank last night, was re-affirmed.

It is understood that the condition of certain other banks in this city was discussed, but no definite action with regard to these institutions was taken. To quote a report of the clearing house: "The situation is now under control, and no untoward developments are looked for."

Decrease.

On Wall Street.

Charles Head & Co. to R. R. Board: "Another bad break in the stock market to-day carried prices down to new low records for the year. The heaviest pressure was directed against the metal shares, in which the liquidation was particularly heavy. The railroad list as a whole, though suffering less severely, experienced some very sharp declines. Liquidation, which has been apparent for some days in the Harris man stocks, was more pronounced. It was the consensus of opinion that to-day's liquidation was mostly of a forced character, no small part of it having been caused by the calling of loans by banks, and in many cases where the borrowers were unable to substitute more satisfactory collateral. Industrial stocks, which had been put up

as security for loans, were thrown upon the market. The bear party naturally helped on the decline, but selling for short account was regarded as scarcely more than an incident in the general market. The market closed with recoveries of one or two points, attributed chiefly to short covering.

Marshall, Spader & Co. to J. U. Bealy:

For the time being ordinary market influences are lost sight of and the trading and liquidation is the result of special events, such as yesterday's failures and liquidation incident thereto. A forecast of what may happen under existing conditions would be fruitless, and the market may continue to decline, but, on the other hand, it is more than generally admitted that prices now ruling would appear to more than discount the extreme of pessimistic predictions. Meanwhile, developments must be awaited rather than anticipated in market operations.

Ennis & Stoppard wired to J. L. Mitchell:

The market to-day has developed fresh weakness, with new low levels recorded. London was an early buyer, but foreign houses were sellers later during the day. The fact that the clearing house decided to offer such assistance to the Merchants' National Bank which might be needed, it being announced, towards the close, that as condition for such assistance all directors of the institution must resign, which was done, was sufficient basis for general scrutinizing of loans and accounts. In consequence, there was very heavy liquidation of collateral loans, and to add to the difficulty, lenders of money discriminated sharply as to whom they gave accommodation. Extreme weakness of Guggenheim securities listed, and on one curb, was a prominent feature. Liquidation in Amalgamated was in part due to feeling that the 4 per cent. rate established yesterday may not be maintained, and that the investment yield is not adequate for a mining stock. Failure of current monetary conditions. Failure of private banks in Texas and of an exporting and importing firm abroad were attributed to the heavy banking failure yesterday. The Bank of Germany made a good statement to-day. Call money reflected the nervousness of bankers, it would seem that much has been done toward placing this centre on a sound basis thru loan reduction in doubtful cases. Only a small change in the cash item is indicated for the bank statement to-morrow. Copper metal declined here and in London, and late foreign advices were rather cheerful. In the afternoon the pressure of the stock relaxed and prices showed some recovery. The immediate course of prices is indicated for the bank statement of holders. The ultimate outcome must be a substantially higher price level.

O. Brown & Co. to J. Lorne Campbell:

The market has presented some unusual features to-day. A further cut in the metal prices aided the depression of the copper stocks. On the curb Guggenheim liquidation was offered at 110, against 170 last week, and this, with the sharp break in Smelters, gave rise to the rumor that the Standard Oil party had gained control of Smelters. There seems to be no doubt that there has been heavy buying of the situation becomes more clear it is not unlikely that it will be discovered the holdings of the most important interests in the more desirable stocks have been greatly increased.

MATTER OF SURPRISE.

That Cobalts Have Not Sold Lower With Depression at New York.

Heron & Co. in their weekly letter say:

The continued depression in Wall Street was again seriously reflected in the Cobalt market during the past week.

Trading was brisk throughout the week, but with few exceptions, at the expense of values.

It is perhaps surprising, and a source of concern to many, that the situation may be drawn, taking into consideration the many serious adverse influences which the market has been confronted of late, there has not been more liquidation in Cobalts.

True, many stocks have sold at new levels, but this does not necessarily mean that we are still in a "bear swing," as a time must come when prices will not go lower.

In spite of the immediate gloom that envelops the situation, the outlook is for sharp improvement when monetary conditions recover their equilibrium.

Every bearish factor has been worked to the limit, and no one seems to have a good word to say for the market.

Conditions, however, do not warrant alarm, and the prudent investor who takes advantage of the present hysterical pessimism, will in due time reap the full reward of confidence, as assuredly many issues will, which are being sold again at prices in, sell at twice their present prices.

FALL HATS TO SUIT FACE AND FANCY

This is the first store in Canada for men's hats. Our variety is greater than may be seen in any other hatter's in America. We import hats from the most reputable of the foreign makers in England, United States, France and Italy.

\$2, \$2.50 and \$3

Men's hats are made in as many styles as sizes. The variations in the height of the crown and width and dip of brim may not be great, but the difference is enough to provide a becoming hat for every wearer.

For the same price a man may get greater variety to select from, and better quality for his money, at this store.

NEWMARKET.

Local Industries Are All Actively Engaged.

NEWMARKET, Oct. 18.—The Denne Flouring Mills are being thoroughly overhauled and the old machinery taken out and replaced by the most modern and scientific process. The work, which has been in operation for some six weeks, will, it is expected, be finished next week.

Rev. Mr. McLeod of Lucknow will occupy the pulpit of the Presbyterian Church here on Sunday. The Epworth League will hold a "literary" meeting on Monday evening.

The Metropolitan Railway have completed the work of putting down a new platform in front of the station and otherwise improving the surroundings.

The high school commencement exercises will be held on the evening of Friday, Oct. 25. The Heather Male Quartet and other well-known artists will appear.

R. H. Brinson, for many years in the employ of the Messrs. Cane, has severed his connection with the firm, to accept another with the Office Specialty Co.

The United Factories Co. have received the last of their 700 cars of logs from Penetance and the mill yards are now well filled. When the projected canal is completed the necessity for loading cars will be obviated.

Whichurch Council meets at Balantrae next Monday. The semi-annual meeting of the Women's Missionary Auxiliaries of the Toronto Presbyterian is in session here this afternoon. The reports from the delegates present occupied a good part of the time. Dr. Chone Oliver, a recently returned missionary from India, spoke.

JURY IN JEFFRIES' CASE SAY ACCIDENTAL DEATH

Police Magistrate Holds Court—Aged Resident Dead—General County News.

TORONTO JUNCTION, Oct. 18.—"Accidental death, no blame attached to either the company or employees" was the verdict of the coroner's jury which to-night enquired into the death of Harry Jeffries, the young Englishman who was killed by a C.P.R. train about ten days ago. The evidence showed that the train was not going more than twenty-five miles per hour, and that the engineer had "blown" the whistle and did all in his power to attract the attention, but without avail. Assistant Crown Attorney Monaghan conducted the prosecution and heard the statements of John Rodgers of London, engineer on the eastbound train, which struck the unfortunate man; Fred Miles, fireman of London; Charles Jones, brakeman, 46 Pacific-avenue; Toronto Junction; John Dazell, conductor of Toronto, and Robert Boyles, who was inspecting air brakes with Jeffries at the time of the latter's death. The wife of the deceased, Joseph Sanderson, of 46 Medland-street died for eight years. Deceased was 67 years of age. The funeral will take place on Monday, at 2 p.m., to Mount Pleasant Cemetery. Use Connell's large clean Pea Coal for your range. Nothing better, and only \$5.50 per ton. Corner Dundas and Weston.

RICHMOND HILL.

Big Budget of Live News From Northern Village.

RICHMOND HILL, Oct. 17.—Mr. and Mrs. W. C. Patterson of Wyoming, N.Y., have been visiting at the summer home of Mrs. G. Patterson. Our curling club was represented at the annual meeting of the Ontario Curlers' Association by H. A. Nicholls. Rev. Mr. Grant continues to improve in health and is able to take advantage of this very balmy weather by going out driving.

Some of our citizens are taking in the attractions of the motor car fair. The public library board, at its last meeting, decided to secure another of the traveling libraries. It was also decided to give an entertainment on Thanksgiving Day.

John Harris, one of our oldest residents, passed away on Tuesday night. The occasion of his death was the shock resulting from a fall from a cherry tree last week. The funeral will take place on Friday afternoon at 2:30 p.m.

At the last meeting of the Vaughan Township Council a grant of \$300 was voted to the school in aid of the Plowmen's Association.

The local curling club has been well organized for the coming season, being found in excellent financial condition. They are now ready for business as soon as conditions will permit.

A silver cup has been presented to the club by Mr. J. Slater, reeve of Markham Township. The cup will be competed for during the coming season.

Last Sunday Rev. W. G. Back preached his final sermon to his Maple charge. After assuming the position at Egbert a great regret is felt at the departure of Mr. Back and family.

Farmers Appreciate Elevator. A new engine is to be installed at the elevator at the C. N. O. station, where Mr. Baxendale is rushing all the time. The farming community all around are showing their appreciation of the high prices paid in a very practical manner.

The Metropolitan connection with the Canadian Northern is nearly completed. It is said that it will be ready for operation in a week. Thus will be solved the problem of getting produce to the Toronto market.

Superintendent Spaidal of C. N. P. was here Tuesday, and says they will be running thru trains on Monday the beginning of the year.

This favorable October is seeing a tremendous amount of work done in the country, roots put away, fall plowing completed, threshing humming and things generally being made snug for winter.

Ex-Mayor J. C. Smith of Toronto Junction was in town Monday and expresses himself as well pleased with the industries around the station, in which he is interested.

In your paper of to-day "Citizen" suggests a broad policy of "Citizen" railways, winding up by stating that the then Manager Fleming could move from Hog's Hill north there is very strongly felt a great need for a more progressive policy in the suburban road which serves us then all the way along there would spring up homes by the dozen.

Rev. Dr. Crown, general superintendent of the department of temperance and moral reform, will preach in the Methodist Church on Sunday morning.

The pupils of the public school are busy practising for an entertainment to be given by themselves, Nov. 8. They have for their object the estimate purpose of obtaining a public school library.

The local creamery have added to their equipment a sizer mill, and are ready to do a great business. The new water tank being constructed of cement is nearly completed and will be the best one in the fire protection system.

WYCHWOOD.

Driver is Thrown From Delivery Wagon and Injured.

WYCHWOOD, Oct. 17.—A plank sidewalk, three feet wide, is being laid on St. Clair-avenue, from Bathurst-st. to the Presbyterian Church. Rev. D. Pike of the church of Christ tendered his resignation to his congregation last Sunday. The resignation has not been accepted yet, but will be considered by the management, which will likely accede to the reverend gentleman's wishes. Harry Edwain, driver for C. Webb,

had the misfortune this afternoon to have his horse run away, throwing him out of the wagon. Another horse who was with him, Wesley Childs, was also thrown out. While Schwalm laid his hands on the dead Childs, hurried to neighbors for assistance, Schwalm was taken home and medical assistance secured.

NORTH TORONTO.

Citizens Plan Out a Greater Toronto—Organ Goes a Begging.

NORTH TORONTO, Oct. 18.—The Greater Toronto annexation scheme is discussed pretty freely in town, and it is suggested that if the city annexes any new territory the northern boundary line should be a straight one from west to east, and Eglington-avenue is suggested as the most desirable line, from the Huron River thru Mount Dennis, Fairbank and Forest Hill, taking the whole of Davisville, dividing the territory into two parts, one to the east of the Huron River, and one to the west of it. This territory would include Swansend, part of Lambton Mills, Toronto, Etobicoke, Mount Dennis, Dovercourt, Brimley, Wychwood, part of Fairbank, Deerdale, Moore Park, Davisville, Todmorden, Doncaster, East Toronto and five concession squares of East York, north of Todmorden, and East Toronto, making an additional thirty square miles of territory to Greater Toronto, or a larger area than is at present within the boundary of Toronto. This territory would include the population of from 20,000 to 25,000. The arguments in favor of this scheme is that the new territory could be laid out to greater advantage, instead of the irregular municipality laying out short streets. An organ and stool have been standing at the corner of Yonge-street and Eglington-avenue since last night. Scores of people gave open air concerts on last night, and as early as 2 o'clock this morning.

BRACONDALE.

Juvenile Lodge S. O. E. Will be Presented With New Regalia.

BRACONDALE, Oct. 17.—On Monday next, Oct. 21, the officers of the Yarmouth Lodge Juveniles, S.O.E. will be presented with their new regalia in Yarmouth Hall. The Yarmouth lodge carpet ball team will play a match with Bradford Lodge in their hall at Lambton Mills on Thursday, Oct. 24.

EAST TORONTO.

School Inspector Issues Report of a Flattering Nature.

EAST TORONTO, Oct. 18.—The report of Inspector Fotheringham, re-viewing the work of all the schools, has now been received, and in every respect, save one, that of overcrowding is of the most complimentary nature as respects the pupils, teachers and board of trustees.

Messrs. Brownlee, Leitch and Miss Yeo, the three public school principals, together with the assistants, are given excellent satisfaction. Attention is drawn to the fact that in the Kimberley school, in Park, there are enrolled 129 pupils, with an average of 25 in each class, with two teachers and another one in Park.

Men's "Victor" Boots \$4.00 Better Than Ever

THE increased price has enabled us to put more solid leather into our "Victor" Boot. It is better than ever this Fall. In forming the shoes over the last by hand and allowing the last to remain in the shoe until it is finished, we give it shape-retaining qualities seldom found except in made-to-order shoes. The natural life and resiliency is retained in the oak-bark-tanned sole, making it very flexible and durable.

If you have not had a pair lately come in and try them on, you will be pleased with the new Victor at \$4.00

SUCCESSFUL FITTING WHEN OTHERS HAVE FAILED

Naturally adds to my reputation as an expert refracting optician. If you have tried to get proper glasses and have failed, I would like to fit you with the proper lenses. If you can be helped with glasses I have not the slightest doubt of my ability to fit you.
