

HE WON TO ACCEPT THE CALL

ST. PAUL'S CHURCH, HAMILTON, IS STILL WITHOUT A PASTOR.

Mr. Beavis Positively Declined—Several Bad Boys Sounded a Note for Taylor's Narrow Escape From Death—Horse Drowned in the Bay—Hamilton Centennial Celebration.

Hamilton, March 12.—(Special)—Seven young boys appeared before Judge Wells this morning for sentencing for stealing boots, stockings and caps from store doors for selling purposes, they having been found guilty at yesterday's police court. Charles Van Every, the oldest, got four years in Kingston Penitentiary; James Woods for two years; three months for Peterang; Jerry Woods, the younger brother of the latter, pleaded for leniency on the ground that his parents were poor, sickly and helpless, and Judge Wells, after admonishing the youngster, allowed him to go on suspended sentence, it being his first offence; James Brown, was dismissed with the counsel from the judge, it also being his first offence. Charles Baker, when sentenced to jail for six months, asked to be sent to Mimico, but being too old, was sent to the Reformatory, and got two years; William Evans, who spent three months in the Reformatory, will spend two years and one day in Penitentiary Reformatory, his mother intimating that he was a naughty boy.

Rev. H. S. Beavis, who by a vote of 107 to 65, was elected to the pastorate of St. Paul's Presbyterian Church on Tuesday night, surprised the congregation last night by announcing that he positively declined to accept the call. He thanked his friends, who had confidence in him to vote for him, but as his accepting the call might result in discussions in the church, he concluded not to accept. The minority, who voted against Rev. Mr. Beavis, consisted principally of the wealthy members of the congregation, and his decision last night was received with considerable satisfaction. The acting pastor's term expires at the end of this month.

Mrs. Taylor's Narrow Escape—Mrs. Enoch Taylor, McNab-street north, had a narrow escape from being killed last night. While carrying a baby in her arms, she was struck by a car, which had the knife to be sharpened, her dress caught in the tongue of the car, and she fell forward. When she struck the floor the knife struck her on the neck, inflicting a nasty wound, from her windpipe to her lungs. Dr. J. G. Storms put eight stitches in the wound and said it would have been fatal had the knife struck her higher.

Broke Through Ice—A team of horses belonging to Mr. Brown, the wharfman, broke through the ice in the bay near the powder magazine last night. The horses were hauling a load of lumber, and were pulled onto a thin sheet of ice, the animals broke in. The wagon did not go down, but the horses were pulled to the end of the tongue resting on the thick ice. They were drowned before they could be rescued.

Guarding Against Thieves—Owing to the numerous robberies recently, merchants are taking precautions in the street by mounting their locks and bars on their store doors. Last night Nightwatchman Jamieson discovered that a burglar had made to enter the store of Campbell & Pentecost, but as extra bars had been placed, an entrance was not effected.

The Ontario Normal School Building—The Board of Education met to-night and, contrary to expectation, the contracts for the new Collegiate Institute and Ontario Normal School were not let. The Ontario Normal School Building Committee moved that, in view of the cost of the building being cheaper by extending the building, tenders be considered at a future meeting, and the Finance Committee was appointed to put the matter to the board. A motion was also made appointing the Finance Committee of the board, the chairman of the committee of the board, the chairman of the several committees, to confer with the Finance Committee of the City Council on the matter of providing the necessary funds for the question of erecting a new building was moved, the board decided to ask the Council for \$500,000 at present, and \$500,000 later, and on that understanding the grant was made. There is a good deal of opposition in the city to the proposed building, as there is no considerable complaint about the cost of education in this city. The Board of Education, however, present a strong case, pointing out that if there is not a new Collegiate Institute, the Ontario Normal School will be closed, and that the Ontario Normal School will pay an interest on \$500,000 debentures.

Latent Thing of Importance—The lessees of the central market building are in a hot dispute over the changes proposed by the Grocers' Association be not made. Last night Mr. and Mrs. Baker celebrated their golden wedding. They came to Canada in 1870, and have resided here since 1877.

Mr. A. Beckett, a cousin of H. C. Beckett of this city, who left Hamilton some years ago, having been employed as a clerk in the Ontario Normal School, is now president of the California College of Pharmacy.

As a result of the opposition by the School Board in the Children's Shelter on Monday next, Miss Clark, of Elizabeth-street school, will be the teacher.

The Ontario Sound line and the Midland were both blocked with snow yesterday. Trains on other lines were delayed here since 1877.

The C.P.R. and G.T.R. have issued a joint circular, stating that after March 15th, the companies will restore the west bound Pacific Coast rates to the basis authorized by the trans-continental line.

The temporary class started by the School Board in the Children's Shelter on Monday next, Miss Clark, of Elizabeth-street school, will be the teacher.

Rabbi Wohlberg will not sever his connection with the Synagogue until September, and he may remain longer.

It is said to-night that the meeting regarding the Manitoba memorial is not likely to be reported upon by the special committee. The sessions will be continued to-morrow.

CANADA'S RESOURCES.

What They are and How They May be Developed.

The last of the series of lectures on Canada's resources, that was given last night by Mr. C. C. James, who is the lecturer being his remarks by alluding to the first record of the name "Canada" in 1492, which was used by Jacques Cartier on return from his second voyage in 1505. The word "Canada" is derived from the name of the river St. Lawrence between Quebec and Montreal, the other known portions being named Hochelaga and Saguenay.

Proceeding, Mr. James sketched the gradual extension of Canada from the Treaty of Utrecht in 1713 to Confederation in 1867. He then dealt with the size and physical features of the country, which has 3,000,000 square miles, and Australia 3,200,000 square miles. Of the Dominion's wide extent, but 100,000 square miles are settled. The undeveloped resources of the country are classified as follows: Fisheries, furs, forests, mines and agriculture, and showed the way to the development of each.

There was a very good attendance and a hearty vote of thanks was accorded the lecturer.

Novel Competition in Connection With the Horse Show.

The prize for the most suitable poster for the Canadian Horse Show, to be held on April 15, 16, 17 and 18, has been awarded to Miss Harriet Ford, the winner of the contest. The designs were sent in for the committee to pass judgment on, and they included a variety of artistic and original designs, as well as from Canada, and the design in blue and yellow, the colors of the Horse Show, and is bold in outline and vigorous in color. It represents a young woman in a blue riding habit with a yellow background, and is a very attractive design. The committee of the board, the chairman of the several committees, to confer with the Finance Committee of the City Council on the matter of providing the necessary funds for the question of erecting a new building was moved, the board decided to ask the Council for \$500,000 at present, and \$500,000 later, and on that understanding the grant was made.

THE GAS COMPANY'S NERVE
The desperate attempt that was made yesterday to wrest from the Board of Gas Commissioners the Consumers' Gas Company and the city does not reflect much credit on the directors of the former concern. How insignificant and untrustworthy the directors of the company may regard the claims of the city for cheaper gas rates, they certainly are not justified in opposing the right of citizens to have the dispute decided by the courts.
