REJECTED BRIDE

CHILDREN SAYS

Accuses Prominent Montreale... of Having Offered \$3000 for His Vote.

MONTREAL, Sept. 13.—(Special.)—The show went on the other foot at today's session of the royal commission enquiring into civic affairs, when Ald. Clerhuus, a leading councillor, swore that Mark Workman, a large shareholder of the Montreal L. H. and P. Company had offered him \$3000 to vote for the company's tender for lighting the street.

A Defeated M. P.

Loses His Reason

Mon. Muir Wilson, a Sheffield Millionaire, Creates Scene in Vancouver Hotel, and is Confin'd as Frenzied Maniac.

VANCOUVER, B.C., Sept. 13.—(Special.)—Disappointment and continual brooding over the loss of his seat in the British parliament this morning caused Hon. Muir Wilson, a millionaire of Sheffield, and Servian consul, to go suddenly insane in the Hotel Vancouver. He is now in the city jail, where for several hours he kept up a succession of shrieks and screams, and only discontinued them absolute exhaustion.

HALF MILLION FOR PROVINCE

What promises to be one of the most important sales of mining property made by the province was practically completed yesterday, when the time expired for receiving tenders for the purchase of the Provincial Mine and 20 other mining parcels in the Gillies limit.

GERMAN ARMY PLAYS WAR UNDER THE KAISER'S EYE

120,000 Men Manoeuvring on Frontier—Military Drigible Balloon Not a Success.

MERZBURG, Prussia, Sept. 13.—The annual manoeuvres of the imperial army began here today, when at a result of political tension between two imaginary states, the red and the blue, war was declared, and word went forth by wireless, field telephone and telegraph, heliograph, motor cycles and orderlies, through the 120,000 officers and men. The problem set by the two commanders is that of frontier fighting. The red army will have to hold the frontier.

At 49 Years of Age, Former Freight Clerk Becomes Most Prominent Railway Man in Public Eye.

NEW YORK, Sept. 13.—Continuance of the Harriman policies was foreshadowed today when Robert S. Lovett, personal counsel of the deal financier, was elected as head of the executive committee of the Union Pacific Railway, and Jacob H. Scheff and William West, both heavily interested in Harriman enterprises, were elected directors.

PROHIBIT PULP EXPORT

Quebec Government Has Decided on Action, But Not on Date.

NEW YORK, Sept. 13.—The Province of Quebec has definitely decided to prohibit the export of pulpwood out from crown lands, but the provincial government is undecided whether to prohibit the exportation on January 1 or September 1 next, in view of a pledge against an increase of stumpage rates until the latter date.

OTTAWA, Sept. 13.—(Special.)—A. McGill, chief analyst for the department of inland revenue, has issued a bulletin giving results of an analysis of 23 brands of infants' and invalids' foods sold in Canada. No similar analysis has been made since 1888.

THE BATTLE OF QUEBEC

150th Anniversary is Celebrated in Old London.

LONDON, Sept. 13.—(C.A.P.)—The 150th anniversary of the battle of Quebec and the death of Wolfe was celebrated in a dinner at the Grosvenor Hotel, presided by George White, president. The guests included descendants of the officers who fought at Quebec. The King sent a telegram which was always glad to hear of the memory of a great soldier being honored. Gen. White declared Quebec must always stand high among the decisive battles of the world.

The World To-Morrow

TWELVE PAGES—TUESDAY MORNING SEPTEMBER 14 1909—TWELVE PAGES

Dr. Cook's Own Story, Proving His Claims, in The World To-Morrow

THE WORLD has secured, by special arrangement with THE NEW YORK HERALD, the sole right to publication in Toronto and vicinity of Dr. Fred. Cook's complete story of his expedition to the North Pole. The story will run over twenty-five columns in length, and will be published in four instalments, beginning TO-MORROW MORNING. Subsequent instalments will appear every other day until completion.

SINCE Commander Peary has seen fit to denounce Dr. Cook as an impostor, and, as the whole civilized world is eagerly awaiting THE PROOFS that the Brooklyn explorer has promised, it goes without saying that his narrative in THE WORLD will be THE MOST INTERESTING STORY OF POLAR EXPLORATION EVER PUBLISHED.

SO IMPORTANT is this narrative regarded at the present juncture, that THE NEW YORK HERALD has arranged to have the complete story

ABUSED WOMAN SHOTS AGED RELATIVE

Slays 75-Year-Old Father-in-Law—Husband Condones Offence—A Nis-souri Township Tragedy.

LONDON, Sept. 13.—(Special.)—Mrs. Wesley Scott of the 5th concession of Nissouri, was placed under arrest this evening by High Constable Hughes, charged with the murder of her father-in-law, Harvey Scott, aged 75. She is now lodged in the county jail here.

The shooting took place this morning at 7.30 at the son's home, while the husband was away at a threshing. Mrs. Scott was observed running down the road, and crying, by Joseph Vining, about 8 o'clock.

"What's the matter?" he asked, and she replied, vaguely, "You'll see what I have done when you get up there." Vining found the old man stretched out on the ground at the rear of the house, dead. There was the wound of a 32 calibre bullet behind the ear.

Mrs. Scott admitted to Dr. Armstrong, who was called, and also to Joseph Vining, the first to arrive on the scene, that she had been laboring under his threats and tortures for years and could stand them no longer.

On enquiry of the husband, he stated that for years his father had abused him and his wife. Scott showed many marks that he received from blows delivered by the father.

"My father," he said, "used to go to the house and beat me, and on many occasions took a club to her. At one time she had him arrested and up in court at Thorndale for beating her. He was fined a small sum and let go."

All the neighbors state that it is a wonder that the woman has stood the old man's abuse as long as she had, and they are all of the opinion that she did the shooting while in a fit of temporary insanity brought on by his constant abuse.

The two families of Scotts live side by side on the 5th concession of West Nissouri, the old man living alone. The other household consists of Wesley Scott, his wife and one daughter, who is about 15 years old. The homes are between two and three miles east of Thorndale.

Mrs. Scott, at, stated that she was the second wife of the deceased. She said that he had always been a hard husband to her; he never showed any love, and she was afraid of him.

The son, Wesley, said that his mother had died of heart failure some 22 years ago. The neighbors stated that just before she died she had a bad cold and they went so far as to charge her husband with throwing her out of the house on two occasions, breaking her leg.

An inquest was opened this afternoon at the Scott home. After viewing the body the inquest adjourned to meet on Friday evening in Thorndale Court-house. The coroner in charge of the inquest.

Dr. Armstrong from Thorndale conducted a post-mortem examination after the body had been viewed. The remains of the shooting was done with a 32-calibre revolver, which Wesley Scott says has shot in their house for years.

It was surprising to hear that Mrs. Scott's wife had been shot, as he had often threatened to shoot both her and I," he said.

SUTTON NOT A SUICIDE

Body Exhumed and an Autopsy is Performed.

WASHINGTON, D. C., Sept. 13.—When the body of Lieut. James N. Sutton, Jr., the young marine officer who met his death about two years ago, at Annapolis, was exhumed at Arlington Cemetery this afternoon, an autopsy performed, disclosed the fact that no bones were broken, while a contusion was found over the right eye. It had been Mrs. Sutton's contention that her son's arm had been broken in the fight which preceded his death, and that the shot which ended his life could not have been self-inflicted.

The bullet wound was three inches above the right ear. There was no indication that the hair and scalp had been burned by powder. Attorney Van Dyke, assistant counsel for Mrs. Sutton, said that the shot had been fired at least five feet from the officer's head.

Mrs. Sutton was the first person to look upon the face of her dead son when the casket was opened.

It will be remembered that a lengthy naval court enquiry was recently held into the allegations by Mrs. Sutton that certain other cadets had assaulted and killed her son. The allegations were held not proven.

FOR FALL AND WINTER.

New York and Paris Ladies' Fur Garments and Millinery.

Ladies' winter costumes and ladies' winter hats come pretty close together now. In fact it looks very much as if your furrier should also sell you your hats. Dineen Company have imported a wonderful line of exclusive ladies' millinery for fall and winter wear. Also there is in the show-rooms a unique collection of rare and beautiful fur garments made in the big Dineen factory from pelts selected by the agents of the company, both in the far north and in the big markets of Europe and Asia. The modern furrier is also your hatter. The winter hat you wear must be in keeping with the furs you select.

BOY BURGLAR, PURSUED BY POSSE, SHOOTS SELF

First Fired Shot at His Pursuers—Desperate Affair in Michigan.

DETROIT, Mich., Sept. 13.—(Special.)—Rather than face arrest for burglary, John Washburn, aged 12, who lived with his parents at Hastings, this afternoon turned and fired a shot at a posse of sixteen men who were pursuing him thru the woods, then placing the revolver to his head, blew out his brains.

The pursuit followed a burglary committed some time last night, two stores near Fruitport being entered and ransacked, and guns, revolvers and ammunition stolen.

Suspicion centred on Young Washburn, who was seen near his home firing at a target.

MONTREAL OLD HOME WEEK.

MONTREAL, Sept. 13.—The visitors to Montreal on the occasion of the Old Home week were officially welcomed at a posse of Paris to-night, and the were made by the mayor and a number of prominent citizens. Fully five thousand people arrived in Montreal to-day to attend the celebration.

**CITY COUNCIL ARRANGES AGREEMENT WITH RADIAL**

Will Handle Express and Baggage in Passenger Cars—Proceedings at Council Meeting.

HAMILTON, Sept. 13.—(Special.)—At the council meeting this evening, Ald. Ryan charged that favoritism was shown in hiring of teamsters by the board of works. He showed from the pay lists that one man had drawn \$1000 from the board in six weeks and another \$800 during the same period, although other team owners could not get any work. Ald. Forth backed him up. Ald. Allan said the board stuck to the teamsters who stuck to the board. The library board was given permission to purchase the property at the south-eastern corner of Main and Charles-streets for the new Carnegie Library. It is owned by Mrs. F. C. Bruce and R. A. Lucas. Ald. Morris likened the cells in No. 3 police station to the black hole of Calcutta and said they were a disgrace to the city, and that there was nothing to compare with them even in Siberia. "We are all liable to make a slip, and it may be our turn," he said. He got a resolution put thru instructing the markets committee to bring in estimates for improving the cells. The court-house committee got the council to endorse a project for the erection of a \$7,000 registry office, the city to pay \$35,000 and the county \$12,000. It was announced that steps were being taken to amalgamate the board of works and waterworks departments. Dr. McMillan and Langs will act as medical health officers during the absence of Dr. Roberts. Ald. Sweeney gave notice of a motion to amend the by-law so that dogs, properly muzzled, will be given their liberty from Oct. 1 till the summer. The council adjourned until Oct. 11.

Queer Crime at Utica, N. Y.—Victims Are Italians, but Motive is a Mystery.

UTICA, N. Y., Sept. 13.—A crime for which there is no explanation was committed against three Italian children in this city last evening. They are Theresa Procopio, 7 years old, who is dead, shot thru the heart; Fanny Infusino, 6 years old, and Fred Infusino, 2 1/2 years old, shot thru the stomach and will die. The two last named are the children of Ernest Infusino, a grocer in Bleeker-street, and the dead girl lived with her parents over the city.

## Miss Andras Scores 8 Games and Loses To Mrs. Hannam

Yesterday interest centred chiefly in the mixed doubles and in the ladies' handicap, in which latter event Miss Andras put up a most excellent defence against the skillful game of her famous opponent. In the mixed doubles, Miss Fairbairn and Nordheimer against Miss Andras and Parton, the latter being a really splendid player. Miss Andras' knowledge of the game is of a high order, and she is expected that there will be especially interesting matches in the mixed doubles to-day, and through the week.

The challenge rounds in men's championship singles and doubles and in mixed doubles will likely be played on Saturday, giving lovers of the game an opportunity of seeing some of the best tennis of the season. Yesterday's results:

Ladies' Handicap—Mrs. Hannam defeated Miss Andras 6-4, 6-4.

Mixed Doubles—Laird and Parton defeated Martin and McTavish 7-6, 6-3.

Men's Doubles—Laird and Parton defeated Miss Fairbairn and Nordheimer 6-2, 6-1.

Men's Singles—Laird defeated Miss Fairbairn and Nordheimer 6-1, 6-2.

## Parkdale to Play Senior O.R.F.U. Also Junior

The Parkdale Canoe Club met last night at the Empress Hotel, with Commodore Weismiller in the chair. It was decided to play senior and junior O.R.F.U. there being no intermediate interprovincial series. Parkdale have practically no players left for the senior series, and will be strengthened by Cornell, the Varsity quarter-back, and other players who attended the interprovincial series. Parkdale will play on Friday at Buffalo, and will also play on Saturday at Toronto. The following is the list of players for the senior series: Weismiller, Malcom, Dickson, Dickson, Weismiller, Malcom, Dickson, Dickson, Weismiller, Malcom, Dickson, Dickson.

## Several Surveys Made, and Road Will Probably Branch Off at Richmond Hill

Richmond Hill, Ont., Sept. 13.—(Special.)—The C.N.R. has been making several surveys in the Richmond Hill area, and it is expected that a branch line will be built from the main line at Richmond Hill to the town of Richmond Hill. The branch line would be about 10 miles long, and would pass through the town of Richmond Hill. The C.N.R. has also been making surveys in the area around Richmond Hill, and it is expected that a branch line will be built from the main line at Richmond Hill to the town of Richmond Hill.

## Note and Comment

Did you notice the Bisons yesterday at Diamond Park? They were beaten from the very first ball that McKinley sent over the platter, yet seemed the happiest lot of athletes imaginable. Why? Because they had good looks to Buffalo for the year.

Buffalo, as everyone knows, is not in favor with the ball players unless the team are on top with a long lead. No, you couldn't know it from reading the papers, that boost on account of their connection with the management. The players hated Buffalo when they reached Toronto yesterday when they were in the greatest grief.

Capt. Smith and his men went thru the game showing some individual ability, and that Toronto was not so important to them as the knickerbocker papers. The players hated Buffalo when they reached Toronto yesterday when they were in the greatest grief.

The Toronto World

A Morning Newspaper Published Every Day in the Year.

A FRIENDLY MISSION. The World of yesterday contained a despatch from Winnipeg giving the views of a German paper in Manitoba in regard to the Imperial ideas of Lord Northcliffe, and especially criticising the speech that he made in the west recently. The concluding paragraph of the article in the German paper stated that "Lord Charles Bessford, Lord Northcliffe and others have been sent over to Canada to assist in the creation of a much stronger British fleet to which Canada shall contribute much more than can be in the interests of the country and in the interest of our means."

As far as The World can gather from what Lord Charles Bessford has said in this country or from other information available to us, there is no foundation for connecting Lord Charles Bessford with any bellicose statement aimed at any country in particular or that his attitude is any other than one of statesmanlike amity and friendliness to everyone, but that he is urging upon the empire generally the idea that the best security for peace is to have an Imperial and national insurance in the way of a national fleet.

THE GREAT AMERICAN NOVEL.

Whether the great American novel will be written in this generation or the next, or whether it has already been written will remain a moot point for the benefit of the critics. But certain phases of American life have furnished material for literary work which could not be found anywhere but in the United States. The politics of Washington are of their own kind. The ward primary is an American institution. These and their attendant phases present a great field full of novel situations and embracing all sorts of original characterization. Excellent examples of the literature arising out of these conditions are to be found in Paul Leicester Ford's "Hon. Peter Sterling" and Alfred Henry Lewis' "The Boss." In the current "Saturday Evening Post," a periodical remarkable for clever short stories, there appears an epic in miniature by Rupert Hughes, called "Canavan," which embodies in its brief recital all the dramatic features, the vividness, the newness of life and the democracy of the land of loaves and fishes, high-pressure politics. Mr. Hughes may not have written the great American novel, but he has put one of its thrilling chapters in a nutshell.

PAINTERS AND BUYERS.

Last month's Nineteenth Century contained an unusually frank article on pictures, picture painters and the general attitude of the public towards art. It came from the pen of the Hon. John Collier, a well-known London artist, and one well able to gauge public taste. In his opinion more pictures than ever before are now being produced, but every year there seem to be fewer people found to buy them. Yet he admits that large sums are annually spent on pictures, but almost exclusively on the works of artists no longer living. Mr. Collier's view is no doubt correct, and it may be ascribed largely to the entrance upon the field of picture collecting of wealthy Americans whose ambition it is to emulate the galleries hitherto attached to the old historic houses of Britain and the continent of Europe. During last season vast sums were realized at the disposal of notable collections, and for specially choice examples of masters whose reputation time has established record prices were obtained.

In older days collectors depended more on their own judgment, and made their selections largely from the work of young artists in whom they recognized the attributes of genius. Sten connoisseurs were of invaluable service since their early appreciation often provided valuable encouragement at the moment when it was of greatest service. They cultivated eye detected the promise of ultimate fame, and they did not require the artist to sacrifice his own peculiar bent to the conventional standards of the day. But the modern millionaire is too often more concerned with names that have become famous. He wants a collection that will make him talked about and he cannot rest content in the belief that time will justify his own discernment. Mr. Collier's remedy for the difficulty living artists find in selling their pictures is to cater frankly to the taste of the ordinary public and what it craves for—sunshine as "beauty—especially human beauty"; "a certain measure of finish," since the average buyer's rooms are too small for coarse brush work; "detail"; "a certain simple realism," and a cheerful rather than depressing subject.

PRIVATE BANKERS AND INVESTMENTS.

Among the agencies that have been most vitally concerned in the rapid expansion of Canadian commerce, and industry none have been more instrumental in this direction than its public banking system. It has developed along very different lines from that characteristic of the United States, where the multiplicity of purely local companies has led to difficulties and complications avoided by the existence of great central institutions with branches extending all over the Dominion. Organization on this principle has proved itself to be admirably adapted to the necessities of a young country pushing out in all directions and has enabled facilities to be provided in advance of the actual requirements of her pioneers and prospectors, and the communities that have sprung into existence as the immediate result of their endeavors.

An equally important part is played by private bankers and financiers, who are in a position to handle propositions which cannot be touched by incorporated companies acting under statutory authority, subject to conventional rules. A private banker possessed of judgment and discretion can be of infinite service to a country at the stage of its development which Canada has attained. Such an expert by his ability to size up the prospects of an enterprise, and thru the means at his disposal to ascertain and gauge its real character and value, can not only secure good and safe returns for his customers, but afford invaluable assistance in promoting the industrial advancement of the country. Canada today offers ample opportunities for the exercise of the special qualifications of a shrewd private financier, and his work in this way can scarcely be over-estimated.

Circumstances have specially favored Toronto as a field for the operations of the private banker.

The uncovering of the unrivaled resources of the Dominion and the certainty that only the fringe of them has yet been touched, leads to the inevitable conclusion that opportunities for the profitable employment of money will become increasingly numerous. But what the public needs is safe and reliable guidance, and the assurance that flotations placed before it possess the first elements of future success. Of the private bankers who are engaged in handling such propositions, none are better equipped than that of the firm of A. E. Ames & Company. The World has not always seen eye to eye with this company, but that is an old story, and its subsequent history has caused Mr. Ames to be justly regarded as one of the most reputable of Toronto financiers. From our knowledge of the principles which guide Messrs. Ames & Co., in the conduct of their extensive business and of the methods they employ to secure accurate and reliable information, we are convinced that their name will never be attached to anything which does not possess all the characteristics of a first-class security. This has been fully borne out in the experience of their important and influential clientele.

AT OSGODE HALL

Judges' Chambers.

Single Court.

The Times and Robert E. Peary v. The Mail Printing Co.—N. W. Rowell, K.C., for plaintiff, moved to continue injunction restraining defendants from publishing plaintiff Peary's account of his voyage to the north pole. J. B. Clarke, K.C., for defendants, contra. Plaintiffs contended that they were entitled to enforce here either a British copyright or a Canadian one, and that plaintiffs had both copyrights as appears from the evidence before the court. Defendants contended that plaintiffs here under the circumstances of this case and according to the terms of the contract between them had no valid copyright capable of enforcement by them or either of them, and asked that the injunction be dissolved. The court adjourned till Wednesday permit plaintiff to put in further evidence. Injunction continued meantime.

Will Stick to Deposit System.

Mayor Oliver, who was instructed by the city council some time ago to ask the Consumers' Gas Company to discontinue the practice of requiring \$10 deposits from some applicants for gas, brought up the question at a meeting of the directors yesterday. The explanation that the deposits were only for special instances where security was deemed necessary was satisfactory to him.

Algonquin Park

If you are fond of fishing, canoeing, camping or the study of wild animals look up the Algonquin National Park of Ontario. A fish and game preserve of 2,000,000 acres interspersed with 1,300 lakes and rivers is awaiting you, offering all the attractions that nature can bestow. Magnificent canoe trips. Altitude 2,000 feet above sea level. Pure and exhilarating atmosphere. Just the place for a vacation. Excellent hotel accommodation. Trains leave Toronto 1.30 p.m. and 2.05 a.m. (leave open 9.30 p.m.). An interesting and profusely illustrated descriptive publication telling you all about it free on application to City Office, northwest corner King and Yonge streets. Phone Main 4209.

Stripped House of Clothing.

Nellie LePare and Gertrude Patterson were charged in police court yesterday morning with theft of valuable clothing from the residence of Mrs. C. H. Mortimer, Rosedale. When Mrs. Mortimer left the city for her two sons, while she was away they entertained the two ladies mentioned and stripped the house of many valuable things including the clothing. This was the way the case was stated by Crown Attorney Corley. The value of the furs and other clothing that has disappeared is set at \$500. Bail was refused and the girls remanded a week.

HOTEL PROPRIETOR GETS VICTORIA STREET SITE

James J. O'Neill Buys S. W. Corner of Adelaide Street for \$185,000.

James J. O'Neill, proprietor of the St. Charles Hotel, has very quietly negotiated one of the most important real estate deals that have gone thru in Toronto for some years, namely, the purchase of the property on the south-west corner of Adelaide and Victoria streets, fronting 52 feet on Adelaide street, by a depth of 204 feet on Victoria street.

The purchase price was \$185,000, which absorbs all the leases in buildings. Mr. O'Neill has been drawing the plan for the numerous offices located on the property for a month, although it was not publicly known until yesterday when he was the new landlord. Since the deal went thru he has been offered \$20,000 for his bargain.

While he had his eye on the site for over a year, it was a premature newspaper announcement that the property had been sold in June last to Dymond Bros. of Barrie, that made it possible for Mr. O'Neill to beat out his competitors. He got busy at once, "cinched" the deal and arranged for a prolonged trip to parts unknown. One of the most influential men in Canada followed him for 400 miles trying to secure it for the Dymonds.

A writ is now pending in Osgoode Hall by which Geo. A. Case, agent for Dymonds, is suing the Land Security Company, former owners, and Senator Jaffray for the commission on the purchase price for having found willing buyers for the property.

FERRY EMPLOYEE DROWNED.

PORT ERIE, Sept. 13.—Harry Gwyn, aged 19, an employee of the International Ferry Co., was drowned to-night by falling from the ferry, and Chas. Lightheart fell in a desperate attempt at rescue.

COLLISION KILLS ONE.

CORNWALL, Sept. 13.—(Special.)—David Norman of Monkland, aged 59, was instantly killed by a freight train when he was struck by a flat gravel car. Norman leaves a widow, two sons and four daughters. An inquest will be held Tuesday.

An Important Convention.

The American Association of General Passenger and Ticket Agents, who convened in Toronto last year, are meeting in Toledo, Ohio, this year, on Sept. 14 and 15. Mr. G. T. Bell, assistant passenger traffic manager of the Grand Trunk Railway System and Grand Trunk Pacific Railway, and who is also president of the above association, left Sunday to attend the convention. It is anticipated that the meeting in Toledo this year will be a most successful one. Toledo is the third largest city in Ohio, and has become the favorite summer convention place of many large organizations. Though with a population of only about 200,000 people, it is second only to Chicago as an American railroad centre, having 23 steam railroads and 11 inter-urban electric lines entering the city. It is expected that the attendance at this convention will be as large as usual.

The Allan Steamship Co. is being reorganized and the head offices may be removed from England to Canada. Harvesting thruout the west is practically over and threshing is in full swing.

PARKS DEPT. CENSURED FOR AVOIDING TENDERS

"What Judge Winchester Condemned," Says Ald. McMurrich. Heavy Cost of Civic Baths.

The civic parks department came in for some rather sharp criticism by the city council yesterday; the discovery that the department had purchased certain supplies, for which no tenders should apparently have been invited, furnishing the reason.

Ald. Foster, the official prober, started the investigation by pointing out that the parks commissioner had bought wire fencing, shrubs and plants, in quantities, which resulted in separate expenditures of more than \$200,000, the limit set by the by-law for purchase without tender. He was joined in his condemnation of the practice by Ald. Keeler, Dunn, Bredin, Chisholm and McMurrich.

The matter, so far as the shrubs and plants were concerned, was satisfactorily explained by Ald. R. H. Graham, chairman of the parks committee, who stated that a special by-law empowered the parks commissioner to purchase them in such quantities as he saw fit, since such commodities could not be contracted for. Controller Hocken also tried to clear the department on the score of the fencing, by explaining that a number of purchases from time to time had been approved, and that in no individual case was the limit exceeded. This failed to satisfy, however.

Ald. Dunn declared that the department was making "50 to 30 per cent. greater mistakes than under ex-Commissioner Chambers." They were a discredit to the department and would be heard of later. The department was costing far more than under Mr. Chambers and wasn't showing results.

Controller Gair admitted that an item of \$312 for Tussock moths extermination should be explained and Ald. Bredin declared that, as said, the department purchased small lots of fencing, instead of contracting for a larger quantity, it was a poor business proposition. Ald. McMurrich asserted that the department was doing what Judge Winchester had condemned in his report on the parks department investigation. He questioned whether the department was giving any better value than under the former commissioner.

Spill on Hose Contract.

The board of control received another setback of the question of awarding a contract for 700 feet of 2 1/2-inch hose. The board recommended that the contract be given to the Gutta Percha Rubber Co., who offered to supply "Paragon" hose at \$1.25 per foot, while the Dunlop Co. offered was \$1.40.

The Dunlop Co., in a letter to the mayor, explained that thru an error of the board, the highest grade of their hose had been made to appear as the guaranteeing only a maximum pressure of 350 pounds, whereas it should have been 400 pounds, the same as the hose of the Gutta Percha Co. Both gave a guarantee of three years.

Controller Harrison tried to shut off discussion by the announcement that the board, which had been given power to enter into contracts during the summer adjournment of council, had closed the contract. The mayor stated, however, that he hadn't signed it, and that as the tenders had only been received last Thursday, council should have a voice in the matter.

Controller Ward said the board had acted on Chief Thompson's advice that Paragon hose was the better article. Ald. Keeler pointed out that the chief's statement that the department had "no leading experience" with the Dunlop hose meant that no new firm had a chance to get a contract.

Ald. Church's motion to let the awarding of the tender stand pending a written report from the chief, was carried, with the controllers and Ald. Baird also dissenting.

Baths a Costly Luxury.

The expense bill was rather staggering. Even Controller Harrison admitted that the amount seemed large, but he declared the baths to be a necessity, this being a different view from that of the mayor, who said it was "an awful lot of money for a luxury." Ald. Baird remarked that it "would take the taxes of \$90,000 worth of property to run that little red building." It was preposterous.

Ald. Foster wanted council to turn down the proposal to spend \$500 on running the baths from Oct. 1 to Dec. 31, but the feeling was that as the institution had been built it would have to be maintained. Only Ald. Foster, Ald. Bredin and Hilton voted against the expenditure.

Mayor Off to Louisville.

Mayor Oliver was given permission to attend the annual meeting of the International Tax Assn. at Louisville, Ky., Sept. 21. He will read a paper on the board of control system. Judge Morgan appeared as an ordinary taxpayer to object to paying for a concrete sidewalk on Bedford road, his residence being situated at the corner of Bedford road and Prince Arthur avenue. He was informed that the works committee would consider his protest.

No objection to locating the city's electrical transformer station in Garrison Common was offered.

Offering of \$750,000 Cumulative Convertible Preference Shares with 20% Bonus in Common Stock of the F. N. BURT COMPANY, Limited

Incorporated by Ontario Charter. CAPITALIZATION: 7% Cumulative Convertible Preference Stock \$750,000 Common Stock 750,000

DIRECTORS: E. J. MOORE, Toronto, President Metropolitan Bank, and Wm. A. Rogers, Limited, President.

A. E. AMES, Toronto, of A. E. Ames & Co., Limited, Vice-President. F. N. BURT, Buffalo, N.Y. ROBERT KILGOUR, Toronto, Vice-President Canadian Bank of Commerce.

HON. C. H. DUELL, New York, Vice-President Wm. A. Rogers, Limited. JAMES RYRIE, Toronto, President Ryrie Bros., Limited. HON. W. CARYL ELY, Buffalo, Director Wm. A. Rogers, Limited.

A. D. CLARK, General Manager. TRANSFER AGENT AND REGISTRAR—National Trust Co., Limited, Toronto and Montreal.

BANKERS—The Metropolitan Bank, Toronto. COUNSEL Messrs. Thomson, Tilley & Johnston, Toronto. AUDITORS—Messrs. Clarkson & Cross, Toronto.

HEAD OFFICE: Toronto, Ontario. FACTORIES: Buffalo, N.Y., and Toronto, Ont. Preference shares will accrue from October 1st next, and be payable quarterly thereafter on the 1st days of January, April, July and October in each year.

Preference shares carry the right to the holder of exchange at any time, share for share, for Common stock, and are preferential both as to assets and cumulative dividend at the rate of 7% per annum.

It is expected that the Common Stock will bear quarterly dividends at the rate of 4% per annum from January 1st next. Applications will be made in due course to have both the Preference and Common stock listed upon the Toronto and Montreal Stock Exchanges.

WE OFFER FOR SALE AT PAR 7,500 FULL PAID SHARES OF \$100 PAR VALUE EACH OF THE ABOVE MENTIONED 7% CUMULATIVE CONVERTIBLE PREFERENCE STOCK, CARRYING A BONUS OF 20% OF THE AMOUNT OF THE PREFERENCE SHARES IN COMMON STOCK.

Payments are as follows: \$10 per share with subscription, and \$90 per share on or before October 1st next. Subscription books are now open at our offices, and will close not later than 5 o'clock on Tuesday, the 21st inst. The right is reserved to allot only such subscriptions and for such amounts as may be approved, and to close the subscription books without notice.

Subscription forms are available on request. We recommend purchases of the shares, the Preference Stock dividends being well assured, and prospects being good for satisfactory dividends on the Common Shares. Memoranda are appended, signed respectively by the President, Auditors and Solicitors of the Company, relating to its history and prospects and to the character of its shares.

A. E. AMES & Co., Limited, Toronto.

F. N. BURT COMPANY, LIMITED

About 90% of the business in Canada in counter check books—or merchants' sales books, has been done by the Carter-Crumme Co., Limited, The Morton Company, Limited, and the Merchants' Counter Check Book Co., Limited. Each of these has maintained separate factories and separate business organizations. These businesses have been successfully conducted for many years, and the uniting of them will effect important economies in both the manufacture and the sale of their products. They also furnish an excellent foundation for the Canadian business of the Burt Company, Limited.

I am of the opinion that the working capital which has been provided will be ample for the requirements of the Company, and that both the paper box and counter check book departments will be very profitable. Reference to the accompanying certificate of Messrs. Clarkson & Cross, accountants, will show that they estimate earnings for the current calendar year of \$119,000. It may be mentioned that these estimated earnings would provide \$52,500 for a year's dividends on the Preference Stock and \$66,500, being 8 1/2% on the Common Stock for depreciation charges and Common Stock dividends. It is proposed to retain in the business the proportion of the surplus applicable to the four months ending December 31st next. No dividend, therefore, will accrue on the Common Stock until after that date.

In common with most manufacturing concerns, these businesses suffered, both in volume and net profits during the year 1908. The profits, however, even in such an unusual year, were substantial, and, I believe, considerably exceeded the average proportionate net profits of manufacturers generally. Recovery has been rapid and sound, and the momentum acquired makes the outlook very favorable.

It is proposed to establish a Canadian factory, in which will be consolidated the plants of the three Check Book Companies, while duplicates will be installed of such special machinery now used by the F. N. Burt Company in its Buffalo factories as will be suitable to the growing Canadian market. It is expected that a business of not less than \$250,000 will be done by the Canadian factory within two years from its commencement.

From the records through a period of years of the above-mentioned businesses, with which I have been in intimate touch, I am confident that the Company will be able to maintain its dividends on the Preference Stock at the rate of 7% per annum, and that, commencing January 1st next, the Directors will be justified in paying quarterly dividends of 1% on the Common Stock, being at the rate of 4% per annum, while prospects are excellent for increase in dividends on the Common Stock from time to time thereafter.

A. E. AMES & Co., Limited, Toronto, September 10th, 1909.

ACCOUNTANTS' STATEMENT

After examination of the Books and Accounts of the F. N. Burt Company, Limited, The Morton Company, Limited, the Merchants' Counter Check Book Co., Limited, and the Canadian business of the Carter-Crumme Co., Limited, we hereby certify that the combined profits for the years 1906, 1907, 1908 and 1909 are as follows:—

Table with 2 columns: Year, Profit. 1906: \$55,113.77; 1907: \$92,646.92; 1908: \$123,690.19; 1909: \$68,390.79.

Of the above amounts, which total \$338,840.67, the net profit of the Burt Company for the four years were \$282,447.04, and of the Check Book business \$56,393.63.

All expenditures in connection with maintenance and repairs of the property have been charged against profits, and we are of the opinion that ample amounts have been annually written off for depreciation, in addition to the outlays required to keep the works in good condition. Losses from bad debts have averaged less than one-half of 1% during the past four years.

Net Assets, over and above Liabilities, irrespective of good-will and patent rights, exceeded the amount of the Preference Stock. The computed net profit upon the sales for the first eight months of 1909 we find to be \$75,543.20. On the basis of this computation, cost experience and volume and character of orders on hand, we feel warranted in estimating net profits for the year 1909 of \$119,000. This would provide \$52,500 for 7% dividend on the Preference Stock, leaving \$66,500 available for depreciation charges and Common Stock dividend.

CLARKSON & CROSS, Toronto, September 10th, 1909.

SOLICITORS' OPINION

We have had charge of the formation, under the laws of the Province of Ontario, of the F. N. Burt Company, Limited, and certify that both the Preference and Common shares have been validly issued as fully paid shares, the Preference Shares being preferred as to both assets and cumulative dividend of 7% per annum, and carrying the right to the holder to exchange the same at any time, share for share, for Common Stock.

Chicago Gossip. At the close: J. P. Bickell & Co. say at the close: Wheat—Higher; notwithstanding indifferent cables and enormous receipts, wheat opened steady and advanced steadily through the session. Good cash demand created light but only on advancing market. Closed at top, and gains were 1/4 a bushel, with evidence still upward. There is nothing new to state regarding conditions; bear theories are being supplanted by bullish facts. In our opinion there will be an excellent demand for cash wheat the coming few months, and an active trade will not become burdensome, and the position of the short seller of the futures at the ruling discounts under cash prices will prove an unprofitable one. We still continue to advise purchases on all declines. Bartlett, Patton & Co. (Beaty & Glass-co) wired.

Wheat—Our market opened steady at about Saturday's closing figures; had two periods of weakness during the first hour, and then started upward, advancing 1/4 from the low point. The early selling was caused by the very large receipts from the northwest. The Argentine crop damage, as set forth by Broomhall, was easily the main bull factor, and local professionals, many of whom are friendly to the long side, took advantage of news to press prices upward. The actual demand from Argentina and supplies was, yet, no signs of improvement, so that, while Europe might be inclined to buy futures on an Argentine advance, there appears utter lack of interest, as far as the United States is concerned, for nearby supplies.

Corn—Market showed no inherent or independent strength, and prices were dependent on wheat, in the market, and even the advance in wheat lending no support to the country sold both futures and cash to arrive. The market acts heavy, and we think with proper weather will be a steady seller of December replacing when wheat ruled strong.

### In the New Department of Ladies' Inner Wear

A Sale of High-Class \$4.50 Corsets for \$2.50 per Pair.

VISITORS to the Fashion Opening for Fall to-morrow, on the third floor, should be sure to include the spacious Corset Department in their tour. It is in the James and Richmond Street Section, with southwest light pouring in from both sides—one of the most favorably-situated departments in the new store.

We are making a specially enticing offer for Wednesday's Opening visitors—La Diva Royale and Warner's Rustproof Corsets at half their real value.

Every pair is of this season's most stylish models, and represents corset fashion right to the minute. This offer holds good for to-morrow only.

LA DIVA ROYALE and WARNER'S RUSTPROOF CORSETS, two very stylish and new models, very strong and fine white coutil, long directoire back, hips and front with the new slashed skirt, medium or high bust, finest rustproof aluminum steels, four or six wide side steels, fine lace and ribbon, six strong elastic garters. Sizes 18 to 30 inches. Regular \$4.50 corsets. Wednesday, a pair . . . . .

### A Sale of the Ostrich Feather Exhibit

Remarkable Sale of Exhibition Ostrich Feathers Saturday

THESE plumes were on exhibition in the Manufacturers' Building up at the Fair. They represent the first direct importation from South Africa to this country. They were dyed and cured in Canada and put on exhibition to compare with any in the world.

We bought the entire exhibit, and will put them on sale for Wednesday visitors. Over 200 handsome imperial tips, long silky plume; willow plumes in all lengths, and five-tip mounts; charming two-tone and shaded effects; the most beautiful collection of ostrich goods we have ever shown. Prices range from \$3.00 to \$35.00 each.

Two Splendid Special Lots of Imported Plumes Underpriced

100 Ostrich Feathers, 18 inches long, bright, silky fibre, broad curl, every feather perfect in black or white. Regular \$5.00 each. Special sale . . . . . **3.50**

100 Ostrich Feathers, 20 inches long, extra quality black, white, and good assortment of colors. Regular \$6.00 each. Special sale . . . . . **4.50**

### A Thorough Exposition of the Famous Queen Quality Shoes

ON WEDNESDAY visitors to the Opening should make a point of calling at the Footwear Department, on the Second Floor of the New Building. We have arranged a special showing of the Fall styles in the famous Queen Quality Shoes.

This store holds the sole Toronto right of sale for these famous Shoes, and we are proud of our exclusive privilege. Queen Quality Shoes are worn by a greater number of women than any other one brand of footwear manufactured. The reason is that they embody a certain principle of lasting, which makes them FIT. Queen Quality Shoes are comfortable from the first day worn.

As for style and finish, the enormous output enables the Boston manufacturers to spare no expense in producing a shoe that excels all competitors. There is the largest factory in the world. Boston is famous for its leadership in shoe manufacturing. Queen Quality Shoes are the most famous of all Boston Shoes.

Come and see the styles for Fall on Wednesday. All the popular fashions, leathers, sizes and widths are here now in complete range.

Prices \$3.75, \$4.00, \$4.50 and \$5.00
