ALLIES TAKE CONTROL OF POSTS, TELEGRAPH LINES AND WIRELESS AND ORDER ALL ENEMY AGENTS OUT OF GREECE AT ONCE

ENEMY AGENTS IN GREECE MUST GET OUT, SAY ALLIES

Britain and France Take Control of Posts, Telegraph and Wireless Stations, and Will Expel All Enemy Agents Until the End of War—German Submarine Sunk Off Phaleron-- Newspapers Preach Unity in Face of National Crisis.

ATHENS, Sept. 3. via London, Sept. 3.—Representatives at Athens of Great Britain and France this evening presented to the Greek Government a note demanding control over the Greek posts and telegraphs, and insisting on the deportation from Greece of agents of the central powers. The note reads as follows: "By order of their governments, the undersigned ministers of France and Great Britain have the honor to bring to the attention of the Greek Government the following communication to the attention of the Greek Government: "First, the two allied governments, having from a sure source learned that their enemies reveal information in divers ways, and notably through the agency of the Greek telegraphs, demand the control of the posts and telegraphs, including the wireless system. "Second, enemy agents employed in corruption and espionage must immediately leave Greece, not to return until the conclusion of hostilities. "Third, necessary measures have been taken against such Greek subjects as rendered themselves guilty of complicity in the above-mentioned corruption and espionage."

A German submarine this morning off Phaleron. It is claimed by entente military officers that the undersea boat had received its supplies from the Austrian and German ships, which were seized in the harbor of Piraeus today by French sailors. A number of destroyers of the entente fleet made a careful reconnaissance in the neighborhood of the arsenal this afternoon. They put down anti-submarine nets and moved close to where the Lemnos and the Kilika, formerly the United States battleships Mississippi and Idaho, were lying. It is currently believed here that the entente fleet desires to establish a naval base at Piraeus as a base of supplies for the entente allied armies west of the Macedonian front, which could be more easily supplied by rail from Piraeus than from Saloniki. Should this action prove to be of military value to the entente powers, the Greek Government, it is understood, will not object.

those taken into custody including the officers of the interned Austrian and German ships. Von Schenk is believed to have escaped. VENIZELOS STATES POSITION. Has Full Confidence in Premier Zaimis, But Opposes Elections. LONDON, Sept. 3.—Ex-Premier Venizelos has declared his full confidence in Premier Zaimis, says the Athens correspondent of Reuters' Telegram Company, the only difference between the two is that Venizelos insists on holding the elections at this juncture. In such event Venizelos threatens to abstain from the election. The reconstruction of the Greek cabinet with two adherents of Venizelos, Gen. Dangalis and M. Repoulis, the despatch adds, is probable, while an official announcement of the postponement of the elections is a foregone conclusion.

SHACKLETON SUCCEEDS IN RESCUE OF PARTY

Twenty-Two Marooned Men Taken From Elephant Island to Safety. PUNTA ARENAS, Chile, Sept. 3.—Lieut. Sir Ernest H. Shackleton has rescued the members of his antarctic expedition, who were marooned on Elephant Island. Shackleton returned here today with his men safe and well on board the rescue ship, Yelcho. Sir Ernest Shackleton left Punta Arenas on August 26 with the steamship Yelcho, for a third attempt to rescue his men, marooned on Elephant Island. After the failure of his Antarctic expedition, Shackleton, with five members of his crew managed to reach Port Stanley, Falkland Islands, on May 31. Twenty-two others of the crew were left on Elephant Island on April 9. The first attempt to rescue these men was made in June and the second attempt in July, both failing on account of the ice.

BRITISH AND FRENCH TROOPS MAKE GREAT GAINS ON WESTERN FRONT

French and British Join in Taking Two Villages, All Enemy Positions Between and German Trenches Along Road From Forest to Combles.

PARIS, Sept. 3, 10.05 p.m.—The Villages of Forest and Clery-sur-Somme and all the German positions between these two points have been captured by the French and British in a joint attack after intense artillery preparation. More than 2000 prisoners, as well as 12 cannon and 50 machine guns, were taken. The official statement issued by the war office tonight, making this announcement, also reported progress for the French troops in the neighborhood of Fleury, with the capture of 500 prisoners. The text of the statement reads: "North of the Somme, after artillery preparation, French infantry, in conjunction with the British army, attacked shortly before midday the German positions on a front of about six kilometers (3 1/2 miles), reaching from the region north of Maurepas to the river, with remarkable dash, against which the resistance of the enemy was useless for the moment. "Our troops swept away large enemy forces and carried all their objectives. The Village of Forest, east of Maurepas, and Clery-sur-Somme are entirely in our possession. "North of Forest we have taken all the German trenches along the road from Forest to Combles, as far as the outskirts of Combles. Between Forest and Clery-sur-Somme we also carried all the enemy positions, and crossed at numerous points the road connecting these two places. "German counter-attacks with heavy forces, launched against our conquered positions south of Forest, broke down under the fire of our batteries, and the enemy retired in disorder, leaving numerous dead. "Up to the present the number of unwounded prisoners in our hands exceeds 2000, while the captured war material includes 12 cannon taken in the single sector of Forest and 50 machine guns. "On the right bank of the Meuse (Verdun sector) the Germans made since this morning a series of violent attacks on our positions at Vaux and Chapire. Repeated several times along the whole front with heavy losses, the enemy had succeeded at the end of the afternoon in setting foot in one salient of our line, where the combat is continuing bitterly. "Shortly after beginning this action we attacked the German positions east of the Village of Fleury. Our troops carried several trenches and powerfully organized works. Another attack was made by us north-west of the village of (name missing) and crest from the village to the Thiaumont work. In the course of these attacks we made 300 prisoners."

British Take Part of Ginchy and Whole of Guillemont, Gaining Ground Also East of Mouquet Farm and Capturing Several Hundred Prisoners.

LONDON, Sept. 4.—The British, with the co-operation of the French on their right wing, succeeded Sunday in capturing part of the Village of Ginchy and the whole of Guillemont, according to the official statement issued from general headquarters late last night. They gained ground also east of the Mouquet farm and captured several hundred prisoners. The text of the statement reads: "In co-operation with the French on our immediate right we attacked the enemy Sunday at several points. We captured part of Ginchy and the whole of Guillemont. Our front now runs some 500 yards east of Guillemont from Ginchy to near Fallemont farm. "On the east side of Mouquet farm we also gained ground. We captured several hundred prisoners. "Between our right and the Somme the French made substantial progress, capturing a considerable number of prisoners. The fighting continues. "Aircraft did useful work co-operating with the artillery and infantry. The enemy aeroplanes, which made desperate attempts to interfere, were successfully engaged. "The Germans made since this morning a series of violent attacks on our positions at Vaux and Chapire. Repeated several times along the whole front with heavy losses, the enemy had succeeded at the end of the afternoon in setting foot in one salient of our line, where the combat is continuing bitterly. "Shortly after beginning this action we attacked the German positions east of the Village of Fleury. Our troops carried several trenches and powerfully organized works. Another attack was made by us north-west of the village of (name missing) and crest from the village to the Thiaumont work. In the course of these attacks we made 300 prisoners."

LONDON GUNS DESTROY RAIDER GREAT ZEPPELIN ATTACK FAILS

Thirteen Airships Attack England's Eastern Counties, Aiming at London and Industrial Centres in Midlands—One of Three Raiders Which Reached London Burst Into Flames—Only Fifteen Casualties From Bombs.

LONDON, Sept. 3.—Thirteen zeppelin airships took part in the raid over the eastern counties last night, and an official statement issued late this afternoon says casualties so far reported are one man and one woman killed, and 11 men and women and two children injured. It was the most formidable air attack ever made on England. Only three of the zeppelins were able to approach the outskirts of London. One of these was shot down and the other two driven off by anti-aircraft guns and aeroplanes. The following communication was issued by the field marshal commanding in chief of the home forces at 5 o'clock this afternoon: "Careful inquiry shows that the casualties and damage caused by the air raid last night were quite disproportionate to the number of ships employed. The number of casualties which have been reported are as follows: Killed, one man, one woman; injured, 11 men and women and 2 children. "No Military Damage. "No casualties occurred in the metropolitan police district. Latest reports show that in the metropolitan police district 25 houses and some outbuildings were slightly damaged. Two water mains were cut and three horses killed. "Elsewhere the damage was very slight, a certain number of cottages being damaged, as well as a church, while a fire occurred at some gas works. "There was no military damage of any sort. "Groped in Darkness. "An earlier official statement said: "Last night's raid was carried out by 13 airships, and this was the most formidable attack that has been made on this country. The principal theatre of operations was the eastern counties and the objectives seem to have been London and certain industrial centres in the Midlands. "The measures taken for the reduction or obscuration of lights undoubtedly proved most efficacious, for the raiding squadrons, instead of steering a steady course as in the raids of the spring and of last autumn, groped about in darkness, looking for a safe avenue to approach their objectives. "Burst Into Flames. "Three airships only were able to approach the outskirts of London. One of them appeared over the northern district about 2.15 in the morning, where she was picked up by searchlights and bravely engaged by anti-aircraft guns and aeroplanes. After a few minutes the airship was seen to burst into flames and fall rapidly towards the earth. "The ship was destroyed, the wreckage, engines and half burned bodies of the crew being found at Cuffey, near Epsfield. Experts hope to reconstruct certain portions of the framework. The large amount of wood employed in the framework of the zeppelin is startling and would seem to point to a shortage of aluminium in Germany. "Bombs Dropped Promiscuously. "The other two ships which approached London were driven off by the defence without being able to approach the centre of the city. "A great number of bombs were dropped promiscuously over the East Anglian and southern counties, but complete reports as to casualties and damage have not been received. Those in hand indicate that the damage and loss of life will not be heavy considering the number of ships engaged."

On the Macedonian front the Bulgars have sustained a fresh reverse, as the Serbians in the north-east of Kukurov having been repulsed with severe loss. Rumania's Sweeping Claims. An official statement issued at Bucharest says: "The advance of our troops continues successfully in all directions. The railway station at Orsova are under the fire of our artillery. Our losses are slight. "The Rumanian forces have been successful in their attacks on the Austrians in the important sector around Orsova, the Austrian official statement issued yesterday announcing that after five days of heavy fighting in this region the Austrian troops were withdrawn to the west bank of the Cerna River. The text reads: "Rumanian front: After five days of heavy fighting near Orsova we withdrew our troops yesterday to the west bank of the Cerna. "Our Danube flotilla sank a Rumanian patrol boat in the lower Danube. "Germans in Transylvania. "Private advices from Frankfurt declare that 50,000 German troops have arrived at Klausenburg, Transylvania, to assist the Austro-Hungarian troops in checking the Rumanian drive from two directions to the northwest of Beistriz and from the southwestern border thru Orsova, where it is said a great battle is now raging for possession of Orsova. "German and Bulgarian troops have crossed the Dolno-Hungarian frontier, in southeastern Rumania between the Danube and the Black Sea, says today's German official statement. The Rumanian frontier guards were driven back with losses."

HEAVY FIGHTING IN REGION OF HALICZ

Enemy Offers Determined Resistance to the Russian Advance on Lemberg. PETROGRAD, Sept. 3. via London, 3.10 p.m.—Furious battles are being fought by Russian and Austro-German forces near Zlochoff and Halicz, to the east and southeast of Lemberg in Galicia, according to this afternoon's Russian official statement. South of the Ratafaly, in the region of the Bukovina-Rumanian border, Russian troops, the announcement says, have driven the Austrians from fortified positions and have captured several heights, taking three hundred prisoners. The text of the afternoon statement is: "Western (Russian) front: In the region of Riga the Germans attacked our Lithuanian battalions, who by a counter-offensive drove the enemy back and inflicted severe losses. "In the direction of Zlochoff and Halicz battles are raging. Here in the course of fighting the gallant Colonel Girein was killed and in front of an infantry trench the gallant commander of a mortar battery, Lieut.-Colonel Tchanskoff was seriously wounded. "South of Ratafaly, in the region of Kapul Mountain, and also in the region of Dornavatra, our troops drove the enemy from fortified positions and captured several heights. The enemy's counter-attacks, which had as its objective the recapture of the lost positions, were repulsed by our fire. Here we captured 800 prisoners."

DESTRUCTIVE RAIDS BY FRENCH AIRMEN

Bombs Dropped on Numerous Establishments in Metz Region. PARIS, Sept. 3.—A series of successful bombing raids by French airmen is mentioned in this afternoon's official report. A number of German aeroplanes were crippled as the result of aerial combats. The statement follows: "One of our airmen brought down a German aeroplane, which fell close to Dieppe, northeast of Verdun. On the Somme front four more aeroplanes were badly hit in encounters, and descended abruptly in their own lines. "Our bombing air squadrons carried out numerous operations yesterday with excellent results. Our squadrons twice visited the railway station of Meta-Sablons and threw, altogether, eighty-six 120 m.m. bombs on the buildings and railway tracks. The damage observed was considerable. "Sixty 120 m.m. bombs, also were dropped on military establishments north of Metz. Our aeroplanes bombed the stations of Maisieres-les-Metz, Conflans, Sedan and Audun le Rocman, as well as the cantonment and depots at Ham, Mesle, Guisard, Athis, Manchy and Legache. In all 216 bombs were dropped in those places. A large number burst on the targets, and outbreaks of fire at many places were observed."

MONDAY MORNING, SEPT. 4.

### Labor Day

Labor Day is to be remarkable by the absence of the usual picturesque and informative parade. So many of the sturdy workers have taken their places at the front in the great cause of the labor world of all nations that those who remain at home feel that they honor their companions on an active service more by awaiting their return for the next demonstration, than by presenting a spectacle which would be shorn of its chief glory in their absence.

There was some restiveness at first in the ranks of labor in Great Britain under the demands made for military service. The treacherous and misrepresentations of aliens were chiefly responsible for this. Once labor knew the facts and understood the truth of the struggle between autocracy, militarism, kaiserism on the one hand, and democracy on the other, there was no more reluctance nor hesitation.

### A Far-Reaching Settlement

A step forward in the improvement of conditions of railway labor has been taken in the signing of the eight-hour bill by President Wilson, the full effect of which will not be fully appreciated, or perhaps indeed, realized for some years.

### Late Summer Afternoon

Yesterday was possibly the pleasantest day of the summer, which has now barely three weeks' duration by the calendar. Sunny, warm, and yet with a brooding mildness, it encouraged the mood of out-door lounging until supper-time came, with an opportunity for interruption before the cooler airs of evening.

It is impossible that the railwaymen of the United States should benefit as they will by the eight-hour bill, and that railwaymen in Canada should receive no similar advantages. In the face of the war Canadian railwaymen have been patriotic in their restraint and the suppression of their demands. With the close of the war these demands should be met generously and with alacrity.

### Answering the Coal Complaint

In one place the wire fence was flat, all its support had been consumed; in still another a dead dry tree smoked like a chimney, smoldering hollow at the bottom. Old stumps in other fields were slowly falling to ashes amid the black ruin of the grass around them. Along the right-of-way of the Electrical Development Company many cindered patches still smoked, and the lawns of the Mississauga Golf Course were slightly encroached upon.

But the damage was scarcely serious, and the charcoal areas only served to throw in fresher relief the emerald of the corn, the bright verdure of the gardens and truck farms, and the still rich and luxuriant foliage of the trees.

Big Crowd at Opening of Kenilworth Park

Small Fields and Heavy Track for Closing Day of Final Meeting at Ottawa.

OTTAWA, Sept. 2.-The final meeting of the Connaught Park Jockey Club for the season of 1916 was brought to a close today with the running of the Ontario Cup, a large crowd was in attendance and, despite small fields and heavy track conditions, stirring sport was witnessed. The feature race, a dash of six furlongs for 2-year-olds, was won by the imported colt, Buttercotch II, who races in the colors of Howard Oats. He beat Kathryn Gray by a long margin and was going away at the finish.

**PRESENTED TROPHIES FOR TRAP SHOOTING**

President Marshall Promises Association Even Greater Support by Exhibition in Future.

President Noel Marshall presented the trophies for trap shooting, compet-

ed for during the week in the International Trap Shoot, to the south of Society Row, at the Exhibition. In making the presentation, Col. Marshall complimented the winners on their splendid success in so large a field and also assured the association that the Exhibition would give it further support in coming years.

The officials in charge of the shoot expressed their appreciation of the support they had received from the Exhibition and its genial president.

**A CROWD IS A CROWD---BUT SATURDAY'S CROWD BEAT ALL**

One of the Biggest Assemblies That Have Ever Gathered Inside the Confines of the Exhibition Grounds.

A crowd is a crowd wherever it may be. There are big crowds, little crowds, quiet and noisy crowds. There are crowds that crowd and crowds that don't crowd. There are city crowds and country crowds and every kind of crowd—but there never was a crowd like the crowd at the Canadian National Exhibition on Saturday. It was a regular Labor Day sized crowd, and it was a jolly crowd, and it was everything else that a Federation of Empire Day crowd should be.

It was the big crowd variety. It was so big that about the best way to get anywhere was to follow the soldiers during their route marches. To attempt a single passage, so to speak, was like trying to go nowhere. One chap started out for the model camp, but was twisted and turned so many times by the crowd that he ended up in the midway. This is but one example of many which are reported to have occurred.

Commencing at two places—something previously unknown—namely, the Dufferin street and the eastern entrances, the mass fairly swarmed in a vast column of humanity. The ones coming east divided at the fountain and spread out a little, only to join the thousands already on the ground and benches ahead of them. Thus another crowd was formed, and this another crowd broke up a little in the midway to unite again on the thoroare back

of the grand stand. Thus another crowd was formed.

A Great Big Crowd.

After reaching the crowd, the column divided once more, some going south to the lake and others going north towards the football and still more going straight ahead, or nearly so, towards the administration building. But in each case, these became entangled in the masses already on the spot until about six o'clock the entire Exhibition was one great big crowd.

Another idea of the proportions of the crowd may be had when it is stated that by four o'clock fully two hundred persons entered the waiting portals of the grand stand for the evening performance. This is the earliest hour at which such a thing has happened so far this year, and to say that the grand stand was packed hours before the performance was due to commence is putting it mildly. It was absolutely jammed.

In the buildings it was impossible to move except in one direction—the way of the crowd. The Fair Weather Navy never fought before a greater number of spectators. The midway never catered to so many sight-seekers. The restaurants never cooked so many meals. The bands never played to bigger audiences. The soldiers never drilled before such numbers. The spectacle was never presented to so many enthusiasts. The directors never wore such broad smiles.

Its biggest day yet of Federation of Empire Year.

**MANY ON MIDWAY TO ENJOY SIGHTS**

Great Saturday Crowd Surged Thru Amusement Places All Day. EXCITEMENT FOR ALL

It Was One of the Biggest Things of the Exhibition.

Saturday's crowd on the Midway was the biggest sight of the Exhibition. It surged in from the outside grounds and gathered itself together until it looked like one vast living carpet of simple, varied and noisy life.

It was a pleasure to find in the fellowship from almost every angle.

Noises of almost every character accompanied the ever-changing surges. Bands, megaphones, loud shouts and hoarse cries, were all familiar sounds. Every "speaker" did his best to cry down every other of his craft, and the crowd's good-naturedly turned in all directions, trying to make something out of the chaos of sound.

The only new show on the entire grounds, some of the familiar way, while several others nearer the tents prefaced their invitation with "Ladies and Gentlemen," while Highlander skirted his pipes and the drum beat from a nearby tent.

"All prices and no blanks" was a cry that caught a good many and a good contingent gathered about the fishpond, where miniature metal fish floated in a tank of real water and in exchange for the silver dime, the prize was always forthcoming in some shape, a medicine glass seeming to be a favorite.

Another point at which the crowd lost some of their membership was at the tent where the palmists, nine in

number, read the hounds of all and sundry will resist the allurement. White-haired mother, smartly suited daughter, father with the goatee, and all the in-betweens gave at least an enquiring look and many tempted the fates and entered.

The ice-cream cone and the Concy Island redhots were all patronized. The vendor at the cider stall yodded the crowd to let it pass, and the restaurant called stale tea fresh, and the consumer made no protest.

In the tent where the clever, educated horse show green from every other color in the row, counted the days in the week, rescued a child from a burning house, and many other tricks that no other horse could duplicate, hundreds watched him, but somehow they forgot to applaud. Canadian take pleasure in pleasures seriously. Perhaps they were overpowered by the marvelous skill of the animal. Then there were the monkeys in automobile races. The small animals with all the zest of the human, and here there was no lack of response from the crowds. Monkey tricks have always been laugh-raiser and these were the star tricks of their race.

On the whole Saturday's Midway was the best of its kind. Its crowds have rarely been surpassed and its membership was pleased with itself and with the entertainment with which it was provided.

**\$5 Down \$1 Week**

**Clearance of \$35 Davenports**

**SPECIAL PRICE \$26.50 COMPLETE WITH MATTRESS**

WHEN these Davenports came in yester day morning we discovered that they were not finished up to the standard which we are in the habit of enforcing. The question arose, "What shall we do with them? Return them to the factory or get a price reduction and sell them as seconds at a cut price?" After all, the imperfections are merely in the finishing; nothing wrong structurally, but the polishing and smoothing of the wood is not able to satisfy the critical eye of our furniture buyer.

So we decided to put them on sale at a price that will more than make up for the shortcomings we have just mentioned.

As far as comfort is concerned, you couldn't find anything better. The seats have sprung edge—no hard edges to cut into you and send your foot to sleep when you sit down. The mattress is heavy and all wool.

Frames are in fumed or golden oak. Upholstered in brown Rexine leather. To convert into full-size bed, all you have to do is to let down the back and pull over the mattress. If you want one of these, don't delay.

**PLACE HONOR ROLL IN SUMMER SANCTUARY**

Members of Many Denominations Attend Union Service at Norway Point.

**NORWAY POINT.** Lake of Bays, Ont., Sept. 3.—A union service of the Church of England, Presbyterian, Methodist, Baptist and Congregational congregations, was held here this morning, at which was placed in the church a tablet bearing the names of forty-three attendants of this summer sanctuary who are now soldiers in the allied armies in Europe. The preacher, Rev. S. Edward Young, D.D., pastor of Bedford Presbyterian Church, Brooklyn, New York City, said:

"From many a community of the United States have gone young men to be comrades of yours in what the larger number of our citizens believe is the struggle for nearly all that is best in present-day civilization against nearly all that is worst. Doctors and nurses and hospitals and gifts for your sick and wounded utter the same deep fellow-feeling as they join yours along the battle-front. Our people do not hate, nor have I discovered that yours do, the people of Germany. The majority of us do hate the militarism that has mistled the common folk of Teutonic lands and would, if it could, militarize the world."

"Nothing ever equalled this voluntary enlistment of liberty-loving Anglo-Saxons the globe around in this war for freedom. No Roman Cornelia outranked the mothers of Canada, who have bidden their sons go, and whose names would make an even nobler list than the one you have here inscribed."

**JESSIE A. MANSELL DIES SUDDENLY IN NEW JERSEY**

**BROCKVILLE, Sept. 2.**—Jessie Ault Mansell, wife of the late Rev. T. J. Mansell, a Methodist clergyman who occupied many charges in the Montreal conference, died suddenly at Atlantic City, N.J., aged 55 years. Mrs. Mansell was raised at Molinette, Ont., and her husband died three years ago at Peterboro, Ont. Two sons survive.

**GERMAN PRISONER DIED AT KINGSTON**

**Special to The Toronto World.**  
**KINGSTON, Sept. 2.**—A German prisoner of war, Emil Heyso, 46 years of age, died suddenly of heart trouble this morning. He was apparently in good health when he went to bed last night, and this morning he was found dead in bed. He was brought from Niagara-on-the-Lake 15 months ago. He was born in Germany, but had been living in this country for about ten years.

**STEAMER MATATUA FLOATED**

**QUEBEC, Sept. 2.**—News comes today that the steamer Matatua was successfully floated yesterday by the G. G. S. Lord Strathcona from her grounding place off the Newfoundland coast. She is seriously damaged and will go to Halifax for repairs.

**THREE HORSES, BARN AND CONTENTS ARE DESTROYED**

**Special to The Toronto World.**  
**BROCKVILLE, Sept. 2.**—The barn and outbuildings of Frank Bellin of the Township of Elizabethtown were destroyed by fire. In addition to the season's crops and much machinery Bellin lost three valuable horses. His loss will be about \$4000, with only \$1500 insurance.
