READY TO BUY THE WHOLE CROP

Hoover Will Lower Cost Of Wheat and Bread

ONE PRICE THE YEAR ROUND

Hoarders and Speculators Warned to Unload Now or Be Prosecuted — To Send Flour To Allies

Washington, Aug. 15.—To control the wheat and flour supply for the benefit of the nation and its allies, Herbert C. Hoover, Food Administrator, has announced a sweeping scheme of regulation.

Mr. Hoover announced that, with the full approval of President Wilson, the price to be paid for the wheat crop of 1917 would be fixed by a commission headed by Harry A. Garfield, son of the late president, James A. Garfield, and president of Williams' College.

Hoover will take over control of all grain elevators and all mills with a daily capacity of over 100 barrels of flour and place them under a system of licenses which will make hoarding impossible. The Grain Exchanges at the same time will be requested to suspend all dealings in flour.

The programme announced by Mr. Hoover is the most revolutionary step ever taken by the government to protect itself and the public against extortion. It is a drive to reduce the cost of bread, by putting under concentrated government control the supply of wheat and flour for the Allies, as well as for domestic purposes. The food administration, despite the protests of some of the bread-making interests, considers that the present level of prices extortionate. It has been asserted in some quarters that a sixteen-ounce loaf of bread could be sold at a profit of five cents if the food administration had power to regulate the cost of wheat and flour.

Only Reasonable Profits The statement issued showed that Mr. Hoover had decided against all but reasonable profits, and might approve contracts made for futures if the prices seemed to him out of proportion. He advised all who held wheat or flour contracts in larger quantities than necessary for the ordinary course of business to liquidate them, pointing out that the food administration had full power to prosecute them under the law. Shipments to the Allies, and to neutral, Mr. Hoover decided, would, for an indefinite period, be made largely in the form of flour in order not to take work from American mills.

There was no intimation as to the price which would be fixed for the 1917 crop, but Mr. Hoover was careful to point out that the minimum of \$2 a bushel fixed by the food control act did not apply to it, and affected next year's crop only, under restrictions to be later explained.

No Future Transactions Chicago, Aug. 15.—In response to announcement from H. C. Hoover, food administrator, that the government would undertake purchase of wheat at interior terminals beginning Sept. 1, the directors of the Board of Trade here voted yesterday to discontinue all transactions in wheat for future delivery after August 25, 1917. The action was taken in view of the suggestion of Mr. Hoover that such future transactions would confuse rather than stabilize the price.

LOSS OF LIFE IN A SPANISH STRIKE RIOT Paris, Aug. 15.—Six persons were killed and nine others were wounded when strikers clashed yesterday with soldiers at Barcelona, according to a statement issued by the Spanish captain general and received here by the Petit Parisien.

Canadians Capture Hill 70, Famous German Stronghold

Reports That British Are Making Progress Satisfactorily — Have Carried First Line At All Points of Front Attack—French Also Make Considerable Advance in Belgium And Repulse Attacks on Verdun Front

London, Aug. 15.—Field Marshal Sir Douglas Haig's forces attacked the German positions along a wide front early this morning from Lens to the northeast of Lens. The official statement says the British are making progress satisfactorily.

General Haig reports that the British troops have carried the German first line at all points of the front attack.

Paris, Aug. 15.—The French attacked in Belgium last night and made a considerable advance in the region of the Dixmude road, the war office announced. The German directed a heavy artillery fire against the French first lines on the Aisne front between Hurlbise and Craonne. On the Verdun front the French repulsed German attacks.

CANADIANS CAPTURE HILL 70 British Front in France and Belgium, Aug. 15.—(The A. P.)—Hill 70, the famous German stronghold, northwest of the French mining city of Lens, which dominates the city and the Loos salient, was captured this morning by the Canadian forces. The British also pushed their lines in the northern environs of Lens, in a semi-circle around the eastern side of Hill 70. The British attack was made on a 6,000 yard front which had an extreme depth of 1,500 yards.

Beginning at a point just above Hugo wood, the new British position now runs southeast and beyond Hill 70 towards Lens. The line then bends southwest and encircles the suburbs of St. Laurent and St. Emille.

SOCIALIST CONGRESS DEFIES GOVERNMENT Petrograd, Aug. 14.—A despatch from Helmsfors declares the Landtag, ignoring the government's dissolution manifesto will resume sessions this week. Nevertheless the socialist majority is preparing for the contingency that Petrograd may enforce the dissolution and the holding of elections. The socialist congress declares that, though such elections are unconstitutional, the party must participate and demand that the new Landtag proclaim itself a constituent assembly empowered to enact a new constitution by a bare majority without consulting Russia.

TROUBLE IN FINLAND Helsinki, Aug. 15.—Unknown persons fired on Russian troops. An exchange of shooting followed, during which several Finns were killed and wounded.

Text of Statements London, Aug. 15.—The text of the British statement reads: "We attacked early this morning on a wide front from the northwestern outskirts of Lens to the Bois Hugo, northeast of Loos. Our troops have carried the German first line of defence at all points and are making satisfactory progress. A hostile counter-attack east of the Cite Stemille was completely crushed. Our allies gained further ground during the night northwest of Bixchoote. Hostile raiding parties attacked our new positions last night east of Klein Zillebecke, but they were completely repulsed leaving fourteen prisoners in our hands. The stormy weather continues. Rain again has fallen. Paris, Aug. 15.—The French statement follows: "In Belgium our troops made considerable progress west of Dixmude road. Between Hurlbise and Craonne, our first lines were bombarded heavily. A surprise attack against one of our small posts on Valenciennes Plateau was repulsed completely. The artillery fighting continued with Phelix and Pherdinand WEATHER REPORT Issued by Authority of the Department of Marine and Fisheries, R. F. Stupart, director of meteorological service. Showers have occurred in the western provinces, also in Eastern Ontario and Quebec. Elsewhere the weather has been fair. Ottawa Valley — Moderate winds, showers in a few localities, but mostly fair and warm today and on Thursday. Showery Tomorrow Maritime—light winds, fair and warm today. Thursday, moderate winds and becoming showery. New England—Partly cloudy tonight and Thursday; light south to southwesterly winds.

DISCUSSION OF POPE'S PROPOSALS

London Paper's Have Little Faith in Efficacy

TRACE GENESIS TO AUSTRIA

But Berlin's Approval Taken For Granted—Suggestion For "Restoration" a Beginning—Statement of Terms May Help

London, Aug. 15.—Some of the morning papers refrain from commenting on the Pope's peace proposals, while those which discuss them editorially trace their genesis to Austria, and either reject absolutely or indicate the belief that the text, when received, will show them to be unacceptable. The Daily News, which, although a firm supporter of the Allies' aims, has a decided pacifist leaning, says in an editorial column which hitherto restrained the pope from coming forward as an official champion of peace, the long delay has materially impaired the advantages the Vatican originally possessed for disinterested intervention.

"It is not our business to pass judgment upon a policy which exhausted itself in impotent sighs over the iniquities perpetrated in Belgium and imagine it possible to extinguish the world conflagration by a succession of timid intrigues. The fact is, whether it is reasonable to blame Benedict and his advisers there for another matter—considerations of temporal and secular interest having so long stayed in his hands, it is impossible to accept the Pope's intervention now as dictated purely by the desire which animates all good men to see the warring men to end in horror which is destroying Europe."

On Their Merits. "The Pope's proposals must be examined on their merits as strictly as if they were the proposals of a statesman, Wilson or Lloyd George." The Daily News thinks it fairly clear that the Pope's proposal was really inspired by Austria, but maintains that his boldness can really persuade the belligerents to state their conditions in confidence and that he will confer great benefit on mankind, and if he can further persuade Germany to accept the Pope's proposals, the independence of Belgium, Serbia and Rumania and withdrawal from other invaded territories, the door to peace will be open and a blank refusal by the Allies to negotiate on such a basis would be almost unthinkable.

The Daily Mail does not comment editorially, but in an introduction in its news columns says the Pope's proposals are "restoration." This is a beginning, it says, but unless it is taken in its broadest and most comprehensive sense, restoration is not enough. For Belgium, for France, for Serbia, there must not only be restoration of territory and complete and unquestioned sovereignty over the land restored to their people, but there must also be a full and complete restoration for adequate punishment of those individuals and collectively guilty, that does not make fullest reparation from Germany, that does not contain in itself the right sort of guarantee against a repetition of the crime.

When the hideous blight of Prussianism is destroyed forever, the German people can have peace, not before. Any "peace" proposal that does not contemplate unconditional surrender by Germany contemplates a peace not worth thinking about. Relations Intimate. "The relations between the Vatican and the Austrian government have long been intimate. It is fair to presume that the Pope has not made a formal proposal looking towards peace without full consultation with the government at Vienna. It is likewise fair to presume that Vienna would not have consented contrary to the wishes of Berlin. In any case, the first response to the Vatican proposals must come from the Irish National Volunteers, and there must be convincing proof that it has not tricked the German government in this regard. The German government in this war has proved itself a moral idiot and negotiations with a moral idiot are necessarily attended with grave misgivings. What the Vatican has to suggest, earnest attention in every capital of the allied nations, but all of them have a right to demand that Germany must speak first. When the nations know (Continued on page 2, seventh column.)

U. S. GUN CREW HELD BY GERMANS

Tanker's Guards Believed To Be Prisoners on U-Boat

FRYATT'S FATE RECALLED

Washington Remembers Threats to Execute Naval Crews Seized on Merchantmen and Fears For Their Safety

Washington, Aug. 15.—The Navy Department tonight announced that it had received word in connection with its report of the sinking by German submarine of the Standard Oil tanker Campagna, flying the American flag, that the merchant captain and four members of the naval guard on the vessel probably were taken prisoners by the submarine.

The Standard Oil tanker Campagna, an American steamer, was sunk by a submarine on the morning of Aug. 4, 1917, 100 miles west of Ile de Re. Forty-seven survivors reached land in safety. It is believed that the captain of the steamer and four of the armed guard are prisoners on the submarine.

Coming on the heels of the reports of brutality in the treatment of American members of the British steamer British Prince, who were drowned after surrendering, by being placed on the back of the submarine, which submerged, leaving the helpless crew of the torpedoed craft on the submarine's deck to perish, the reports of the capture of the American armed guard are viewed with very grave concern by American officials. The further probability was considered that if the merchant captain was taken to a German port, along with the four members of the guard, the German naval authorities might undertake to execute members of the crew.

Germany has from time to time not only uttered its protest against the arming of merchant vessels, but German newspapers have announced it to be the intention of the German government to execute members of naval crews of merchantmen other than to which they are entitled under the laws of civilized warfare.

The United States government will insist that any of its citizens or members of its armed forces captured be treated according to the laws governing prisoners of war.

UNREQUITTED LOVE LED TO SUICIDE Young Man of Woodstock, N. B., Tells Friend of His Intention, Writes to the Girl, Then Takes Poison (Special to Times) Woodstock, N. B., Aug. 15.—Eddie Morrissey died in the Fisher Hospital this morning as the result of taking strychnine. Last night he met a neighbor named Bell and, handing him his watch and ring, said: "Take these, I am going to kill myself at 12:30." Bell took the articles but did not think the remark was made seriously. He was called to Morrissey's home during the night and found that the young man had carried out his statement. Dr. Rankin was summoned and had him removed to the hospital where he died after much suffering. Morrissey was evidently infatuated with a young lady in town who rejected his attentions. In a note left, he said he would commit the deed and told her that he died for her and hoped they would "meet beyond the river." He was a young man of good character and had been employed as a clerk in a grocery store. He was about twenty-four years of age. An inquest probably will be held.

ARMS SEIZED IN DUBLIN Dublin, Aug. 15.—Police and soldiers caught today the premises of the Irish National Volunteers, commanded by Colonel Moore. They seized 100 rifles and 1,000 rounds of blank cartridges. No arrests were made.

STRUCK BY AUTOMOBILE. Philip McCartney, of Adelaide street, was struck by an automobile in Prince William street this morning and was quite painfully injured. He was stepping off a street car in front of the post office when the accident happened. He was quite badly shaken up and bruised. He was conveyed to his home in the eve.

POLICE SAID TO HAVE SOME IMPORTANT INFORMATION BUT IT'S NOT PUBLIC YET

Said it May Unravel Mystery of the Death of North End Grocer—Another Who Heard the Shot is Found

It is understood today that the police have received information which they expect will unravel the mystery surrounding the death of Harry L. Williams. Nothing new, however, developed during the day to substantiate this report.

It is reported today that a revolver shot was distinctly heard on the fatal night by a girl who resides a short distance from the scene of the crime. As friends did not wish her involved in the case, they refused to disclose her name. They said that when she came down to breakfast a week ago today she told her mother that she had heard a shot fired sometime during the night. Her mother told her she must have been dreaming, and nothing more was said about the incident. Later they learned that Mr. Williams had been found murdered, and some credence was placed in the little girl's statement.

If such is the case, three people heard the report of the fatal shot which ended the career of the unfortunate young business man. Mrs. Hughes heard a sharp sound as though it was a box hitting the floor, and a man living near the scene heard a sharp sound like a hammer hitting a pane of glass. While these matters are far from the chief items, namely the capture of the assassin, they prove that the weapon used had no silencer on it.

Until the revolver has been recovered and a satisfactory explanation given as to a mysterious disappearance, citizens in general do not give credence to the theory that Mr. Williams committed suicide. The position of the body when found on the floor, the place where the shell was found and other facts do not seem to bear out that theory. That Mr. Williams was not morbid, that in his disposition he was inclined to be free and easy and quite the opposite to nervous, are arguments advanced to offset those presented by some who still adhere to the suicide theory. But nothing of importance is attached to the fact that Mr. Williams was seen in Adelaide street soon before ten o'clock that night, as it was explained that he had been out "cleaning out his barn," which is situated in the rear of Durham street not far from his home, and that it was his custom to go to Main street via Adelaide.

Police Promise Developments. Chief Simpson, when seen by a Times reporter this morning frankly admitted that the police were at present following a "lead" in the Williams' case which had so far proved to be the most important of all. Definite results, it is said, are expected from this investigation, the nature of which the chief would not disclose to the reporter. Whether the information on which the police are now said to be working—should it develop into something material regarding the mystery surrounding the death of H. L. Williams—would establish a clear case of murder or give strength to the theory of suicide, the police would not say.

However, one thing is certain, that the police are on the trail of something that will in all probability lead to the establishment of something definite and beyond the realm of rumor and guesswork. Developments are expected soon and it is thought by those in close touch with the workings of the police that a move in the right direction will be made within a day or so.

TEN KILLED WHEN NORWEGIAN SHIP WENT TO BOTTOM Steamer Falkland Sunk in The North Sea — Steamer Capella Also Sunk But Crew is Saved

Cleveland, Ohio, Aug. 15.—This reporter was informed by a Cleveland man who was knocked unconscious by a pitched ball in the eighth inning of yesterday's second game and forced to rest, will be able to play again within a few days, according to the club physician. Speaker was hit by the first ball pitched by Danforth, who relieved Faber in the eighth inning. Danforth's first pitch was a speedy ball and it struck Speaker just above the right temple. Speaker was knocked unconscious, but recovered in a few minutes and started for first base, but was persuaded to go to the bench. Roth will probably play center field today.

General Election In Britain a Possibility London, Aug. 15.—The political correspondent of the Daily Telegraph says that, if the labor conference adheres to its resolution to send delegates to the Stockholm conference, the premier will instantly advise a general election. AUSTRIAN PAPERS JUBILANT Zurich, Switzerland, Aug. 15.—Austrian newspapers are jubilant at the vote of the British labor conference to send delegates to the Stockholm conference and the resignation of Arthur Henderson from the war cabinet. The Reichspost and Arbeiter Zeitung see therein important events, heralding the dawn of peace. The Reichspost says: "Henderson wrecks Lloyd George's cabinet and party coalition at a moment when the Entente statesmen are making new arrangements for a continuation of the war. The Entente's war policy threatens to collapse and the terrible world war is reaching an end." The Arbeiter Zeitung says: "The resignation of Henderson marks a defeat of labor from Lloyd George's war which was to be continued until mankind perished. One may hope now that the suffering and terror is approaching an end."

GERMANS MAKE AMERICANS IN GERMANY FIGHT

Copenhagen, Aug. 15.—An American of German birth, who was permitted to leave Germany recently, says that the military authorities there are commencing to take American spies long held in Germany for military service on the grounds that they have forfeited their American citizenship and are now denationalized.

Even native Americans, he says, have in some instances been put into the army, but the military duty usually applied to naturalized citizens of German origin. The Americans, some of whom are believed here to have little hope of escaping service.

Regulations Governing Transmission of Funds to Persons in Enemy Occupied Territory

Ottawa, Aug. 10.—The following regulations are issued for the guidance of interested agents, banking firms, and others in the transmission of money abroad and must be strictly adhered to.

(1)—Money may be forwarded to persons resident in enemy or enemy occupied territory under the following conditions:

(a)—All remittances must be forwarded through the medium of The Bank of Montreal, Ltd., London, England, or their branch offices in Toronto, Ont., or Montreal, P. Q.

(b)—The payee must be an allied or neutral subject in destitute circumstances.

(c)—The amount remitted must not exceed £20 (\$120) to any one person in any one month.

(d)—Records must be kept of any such remittances in long hand writing, and when required by any duly authorized agent of the government of Canada.

(e)—General subscriptions to relief societies established in enemy or enemy occupied territory are allowed.

(f)—Subscriptions intended for relief of victims of the Spanish influenza epidemic, London, England.

(g)—Subscriptions intended for the relief of Jews in enemy occupied territory may be sent to the Canadian Jewish Relief Committee or the Canadian Jewish Alliance, Montreal.

(h)—Any question arising regarding the transportation of money to enemy territory should be referred to the Deputy Postmaster General, Ottawa.

The above regulations do not affect the transmission of money to allied countries (except those portions occupied by the enemy) or neutral countries provided that no portion of the said remittance is intended for re-transmission to an enemy country, or territory in enemy occupation.

The Standard has served notice that free speech in St. John has been abolished. It intimates also that the returned soldiers who have fought abroad for the principles of liberty will apply German methods to suppress liberty at home.

with it? Did they throw partisanship to the winds and set out to unite the country and win the war? Did Sir Robert Borden announce that henceforth he ceased to be a partisan and desired to be known only as the leader of the Canadian people? On the contrary the patronage committees rolled their sleeves higher and dived deeper into the gift-bag.

WHAT ARE THE FACTS?

The Canadian commander in France has sent a cable to persons in Toronto urging that reinforcements be not withheld. Has Gen. Currie seen the statement of the number of Canadian soldiers available as reinforcements for his divisions? Does he know the actual conditions concerning the Canadian reserves in England—as to their number and availability as drafts? The force of his appeal depends entirely upon whether or not he possesses that knowledge.

Of Germany's waning man-power an exchange says: "Germany's need of men for military purposes has been demonstrated in many ways. She is using even on the battle line men older and younger than have been called by her opponents and this is proved by the ages of prisoners taken and by the old and young men found among the dead."

GERMAN PEACE TERMS

The peace proposals put forward by the Pope, if the cabinet summary is correct, might very well have emanated from Germany. That they will be rejected by the Entente Allies is as certain as that Germany is still wantonly murdering women and children, and violating every rule of conduct the Christian church would lay down for human guidance.

Such was the young woman who entered a shoe-maker's and said to the salesman: "I think these Louis XV heels are too high for me. Give me a size lower, please—or perhaps Louis XIII would be high enough."

EMERGENCY RATION FOR THE SOLDIER

A Combination of Chocolate and Hardtack is Recommended as Fitting Requirements American Medicine comments on the emergency ration of hardtack and sweet chocolate suggested by Dr. Vedder.

"The problem of rationing the soldier is of the utmost importance, not merely for the purpose of preserving his physical health, but of conserving his military effectiveness. Regardless of what the civil population sustains upon, the rationing of the soldier must not be reduced so as to curtail his food requirements."

No Recruits In City Yesterday

Condition Unchanged.

John R. Hamilton has received a cable dated August 13, stating that the condition of his son, Winfield Scott Hamilton, at the 38th General Hospital, California, is unchanged. On August 6 a cable said he was rapidly progressing but condition still rather bad. He had written himself that he expected to be removed to England but was evidently not well enough. He was wounded in the chest and both legs.

Private Frederick J. Osborne, infantry, was officially admitted to the General Hospital at Birmingham, with gunshot in his eye. A telegram from Ottawa, received yesterday by his brother, Jeremiah Osborne, of Harrison street, conveyed the announcement. Private Osborne went overseas with the 55th Battalion.

Wounded in Knee

Mr. and Mrs. R. C. Holder, 148 Lester street, received word yesterday that their son, Gunner J. Theodore Holder, had been accidentally wounded in the knee. Gunner Holder prior to going overseas was on the staff of the Charlotte street branch of the Bank of Nova Scotia.

Killed in Action

Wesley H. Weldon of Oak Point, has received the sad news that his son, Private Fred A. Weldon of the 54th battalion, had been killed in action. Private Weldon prior to donning the uniform was employed in the patent office of the civil service at Ottawa.

W. S. Fisher Did Not Approve of Valley Railway Policy

"Unalterably Opposed"

No Argument Could Convince Him That Northern Section Should be Built During War Time—Knew Nothing of Payments

W. S. Fisher was the only witness at the session of the Valley Railway Inquiry which was held in the court house last evening.

At the time the later contracts were entered into, Mr. Fisher was a director of the road. He was unalterably opposed to undertaking the construction of the northern section in war time and made his views clear to the premier and the other directors.

When the second contract was arranged, at higher prices, during his absence from the city, he entered a vigorous protest and then tendered his resignation.

Last Evening's Session.

The session opened at 7:45 o'clock, with the commissioner, J. M. Stevens, K. C., presiding, F. B. Carvell, K. C., counsel for the government, and M. G. Teed, counsel for the Nova Scotia Construction Company, C. O. Foss, chief engineer of the railway, and a dozen spectators in attendance.

government speak to you about this contract?

A—Yes, Premier Clarke. I told him that we would have to keep faith with the people of that section some time, but that the work should not be proceeded with now. We had to build the lower section to provide a link with the Transcontinental but I was absolutely opposed to going on with the northern section and adding to the debt of the province in war times when the work would be so expensive.

Ten Divisions Were Shattered

London, Aug. 14—A belated Rumanian official communication, dated last Saturday and received here today, describes the battle on the Putna, in the region of Maraschi, Aug. 6, as the greatest in the entire campaign.

Nine German and one Austrian division, which had been engaged in the desperate enemy mass attacks during four days and nights, aided by numerous pieces of heavy artillery, were shattered before the line which was fiercely defended by the Russo-Rumanian troops, who in hand-to-hand combats and energetic counter attacks, inflicted enormous losses on the enemy.

British Established Across River.

British Front and Belgium, Aug. 14—(By the Associated Press)—British forces today attacked the German positions on a small section of the Belgian front, and pushed the German back across the Steenbeke river, east of the Ypres-Thourout railway. The British re-established their line on the eastern side of the river.

Official Record of Victory.

London, Aug. 14—The British troops in Flanders today improved their position on the right bank of the river Steenbeke, northeast of Ypres, and captured some prisoners. The official statement from British headquarters in France tonight tells of the repulse of several strong raids by the Germans between Ypres and Arras. German aviators have been very active and the British succeeded in bringing down eleven of them, four out of combat. Two British air machines were lost in the air fighting.

Care For Baby, Help The Mother

Worthy and Enlightened Institution in East End of Toronto to Set up Medel Creche

(Toronto Globe)

On a quiet street away in the east end of Toronto there stands a modest house, which only differs from the other houses to its right and left in that a sign is posted near its portal announcing it to be the "Danforth Day Nursery."

This haven for small people has been in existence for five years, and is under the supervision of a board of twenty-five ladies, the president just now being Mrs. John Phil. Under the capable direction of this board many children have been helped and a great load lifted from the shoulders of overburdened mothers, who are forced by stern necessity to leave their children all day long while they wash, iron, scrub and scour in the homes of the wealthy.

As early as seven in the morning the mothers are allowed to bring their children, and at six in the evening they return and take them home. Between these hours they are given two good meals and a great deal is done for their amusement and comfort. Even tiny infants are extended a welcome, and upstairs one room is set aside expressly for their majesties the babies. Almost a thousand children are sometimes looked after in one month. The amount of work involved in feeding and caring for thirty or thirty-five children for eleven hours in a day is sufficient to tax to the utmost the energy, tact and resourcefulness of the nation's best mother helpers. The home is most fortunate, however, in having for its head Mrs. McKinley, who has given twenty years to work of this kind, who understands and loves children, who combines severity and kindness in discipline, and who realises, as she herself says, what this is a great work, especially in these days when the child is so valuable to the nation.

Well-Baby Clinic

Every Tuesday a trained nurse views the home and gives the mothers, who are able to attend, what is known as a "well-baby clinic." In this way the women learn how to properly care for their children, for it is painful fact that many children die, not from lack of love on the part of the mother, but through lack of knowledge as to how to keep away disease or how to cope with it when it appears. To the credit of the Danforth Nursery, be it known that since it was opened not one child has died, and not one severe accident has occurred. On the contrary, many delicate infants have been nursed back to health to the untold joy of the tired mothers.

And for all these privileges, what is there to pay? Since prices have risen and the cost of food has become such a consideration, the board has found it necessary to raise the rates, and now a mother has to pay 15 cents for the first child admitted and 5 cents for every additional one. In the case, then, of five members of one family being admitted the cost per day is 35 cents, but this woman who is earning \$1.90 a day is glad to pay, knowing that all is well with her little ones.

It has been found, however, that the present quarters are quite inadequate, and a scheme is on foot to build a new home, which will contain ample basement accommodation, a sunroom, good bathrooms and a larger nursery. A lot on Logan avenue has already been donated by interested friends and \$200 has been collected for the building. The total cost of a model creche would be \$6,000, and the board is very anxious to collect the full amount, as a debt, however small, on their property, would be a defiled drawback. Now are the friends of this noble little institution in the least discouraged, for they know that once the attention of kind-hearted open-handed Toronto is drawn to their needs the money will be forthcoming for such a truly patriotic undertaking. Not for Mutilation Workers

It may be said, in conclusion, that the Danforth Nursery is one of the children of really needy people. Mutilation workers who are drawing large wages cannot send their children there, nor can women who have good husbands to work for them. But to any who have been deprived through illness or death of a means of support, to any who have come upon evil days through unforeseen misfortune, to any who really deserve assistance, this home is quietly holding out a helping hand, and incidentally doing not a little towards producing better citizens.

JUVENILES CONTINUE TO SCORE SENSATION

The big theatrical sensation in town at present is the Juvenile Revue at the Opera House. Twelve clever kiddies—every one an artist in her line, in a miniature musical revue of popular song hits with choruses, in special costumes, the whole thing with a big patriotic nodder. A whole show in itself is the Revue and the most novel and entertaining feature that has been seen on the local stage for a long time. There are four other good vaudeville acts on the programme as well, also the eleventh chapter of Gloria's Romance, with Billie Burke, with some cleverly timed verses of tomorrow and Friday, the eleventh episode of "The Voice of the White" is shown in conjunction with the regular vaudeville programme. Every evening at 7:30 and 9:15 every afternoon at 2:30.

THE COLONIES' SHARE

London, Aug. 14, via Reuters' Ottawa Agency—In the house of commons today, during a discussion of the colonial off-vote, Right Hon. Walter Long, secretary of state for the colonies, paid a warm tribute to the overseas armies of the British dominions. Mr. Long said that the fine part played by the dominions and crown colonies in the war required no special description. The part which the dominion troops had taken was well known to the world, and especially to our enemies. They had made their mark. Whether they came from Australia, New Zealand, Canada, Newfoundland or South Africa, they had shown themselves worthy of the best traditions of the British army, and no greater praise than that could be bestowed on any soldier.

The volume of support from the dominions was steeper than that had ever been.

What about the cream used in ice cream in these days of the high price of butter? There is room for a saving there.

Health to the untold joy of the tired mothers

Mothers Pay Modest Sums

And for all these privileges, what is there to pay? Since prices have risen and the cost of food has become such a consideration, the board has found it necessary to raise the rates, and now a mother has to pay 15 cents for the first child admitted and 5 cents for every additional one. In the case, then, of five members of one family being admitted the cost per day is 35 cents, but this woman who is earning \$1.90 a day is glad to pay, knowing that all is well with her little ones.

It has been found, however, that the present quarters are quite inadequate, and a scheme is on foot to build a new home, which will contain ample basement accommodation, a sunroom, good bathrooms and a larger nursery. A lot on Logan avenue has already been donated by interested friends and \$200 has been collected for the building. The total cost of a model creche would be \$6,000, and the board is very anxious to collect the full amount, as a debt, however small, on their property, would be a defiled drawback. Now are the friends of this noble little institution in the least discouraged, for they know that once the attention of kind-hearted open-handed Toronto is drawn to their needs the money will be forthcoming for such a truly patriotic undertaking. Not for Mutilation Workers

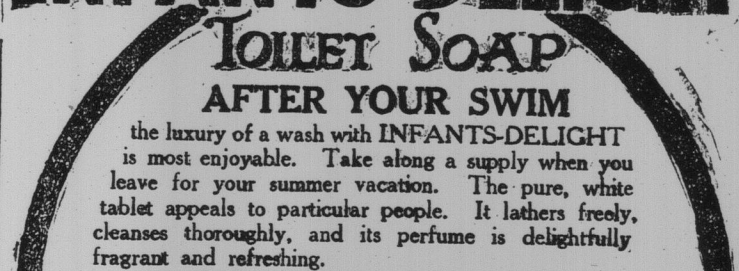

It may be said, in conclusion, that the Danforth Nursery is one of the children of really needy people. Mutilation workers who are drawing large wages cannot send their children there, nor can women who have good husbands to work for them. But to any who have been deprived through illness or death of a means of support, to any who have come upon evil days through unforeseen misfortune, to any who really deserve assistance, this home is quietly holding out a helping hand, and incidentally doing not a little towards producing better citizens.

RECENT DEATHS

Asabel Seely.
Frederick Junction, Aug. 14.—The death of Asabel Seely, of Central Blisville, occurred Sunday afternoon at the home of her son, Linus Seely, here. Deceased was eighty years of age, and is survived by the following children: Linus, Frederick Junction; Miss Mary of Houlton, and another daughter residing in Presque Isle. One brother, services, John R. Seely, of Blisville, and one sister, Mrs. Hannah Bailey, of New Brunswick, were present at the funeral. The funeral was held this morning, interment at Blisville.

David Anderson.
The death of David Anderson occurred at the residence of his sister, West Gouco, on Aug. 8. The late Mr. Anderson was superintendent of the marine department of the Erie railroad and was held in the highest esteem by everyone who knew him. He was the youngest son of late Mr. and Mrs. George Anderson, of West Queens, and leaves besides his sorrowing wife, three brothers, Thomas Anderson, of West Queens; William and James Anderson, of Staten Island (N. Y.), and two sisters, Miss Daphenia, of St. Martins, and Mrs. B. Sanford, of Staten Island. The late Mr. Anderson had a large host of friends in American cities, who will hear of his death with sincere regret. Mrs. Anderson was also identified with the Masonic order, in which he took a deep interest.

John W. Patterson.
Salisbury, N. B., Aug. 14.—Salisbury relatives and friends received the sad news today that John W. Patterson, an aged resident of Flogeneville (N. B.), died on Monday, Aug. 13, at the home of his eldest son, J. E. J. Patterson, C. E.

Joseph Cavanagh.
The death of Joseph Cavanagh occurred at the residence of his uncle, Thomas Moriarty, at Silver Falls, last night after a short illness. Mr. Cavanagh was the son of the late Jeremiah and Mary Cavanagh of the Black River road and in his occupation as a teamster was well known and liked by a large circle of friends in the city who will be grieved to learn of his death. Mr. Cavanagh leaves two sisters, Miss Elizabeth of the Black River road and Miss Jane, of Boston, and three brothers, Maurice, of the Black River road and James and Jeremiah, of Charlestown (Mass.).

AUTO PARTIES.

(Frederick Gleason.)
Mr. and Mrs. T. M. Richards, Sr., and Mr. and Mrs. T. M. Richards, Jr., and Master Allen Richards, of Edmundston, and T. B. Churchill of New York, motored to the city from Edmundston and are the guests of Mrs. B. B. Manser. E. J. Kingsley, of Marsville, accompanied by his two brothers, Herbert and Ronald Kingsley, of Montreal, left yesterday on a three week's auto trip to the White Mountains, New York, Boston and other American cities.
O. J. Fraser, H. C. Gay and J. E. Marshall, of St. John, arrived here by auto last evening. L. J. Lowe and family and G. W. Currie, of St. John, arrived here last evening, also C. H. Dexter and party, Hampstead.

ONLY TRIFLING WITH THE NATION

Toronto View of Government Policy

The Rich Are Protected

"In The War to the Last Dollar," Promise For Exemption Rather Than Conscription of Wealth

The appeal to the country for a mandate to carry on the war, says the Toronto Globe, will fall to stir the enthusiasm of the masses of the people unless guarantee is forthcoming that the conscription of men will not stand alone as the policy of the government. There is nothing in the promise of Sir Thomas White to give assurance that the Borden government is sincere when it talks of Canada being in this war "to the last dollar." The statement of the minister of finance, made to the House on Friday last, hedged wealth round with so many "ifs" that it might be described as a promise for the exemption rather than for the conscription of wealth.

But I just desire to say this: that having as our guiding principle that this war must be carried on to a successful conclusion to the utmost of our power, and that the man at the front must be backed by the dollar at home, this government can be depended upon, at the next session of parliament, if this war still continues and the financial demands upon us are increased, to take the step the moment it appears necessary that there should be abnormal taxation upon abnormal profits derived from the war.

Are people to infer that only if financial demands upon the country are increased will steps be taken to impose "abnormal taxation upon abnormal profits derived from the war?" Sir Thomas White may think up his mind that the country will not be satisfied with this evasion of his duty as the custodian of the public purse. Abnormal profits derived from the war must go to the reduction of the national debt concurrently with the conscription of man-power. In no other way can the government win moral support for a "win-the-war" policy when the great issue is submitted to the country.

Sir Thomas White rightly objects to the use of the term "equality of sacrifice" when comparing the relative contribution of man-power and wealth. No comparison can be made between things so fundamentally different as life and money, but this is all the more reason why wealth should bear the heavy share of the financial burden of the war. No man may give more than his life in the service of his country. But what sacrifice does the Canadian make who has an income of ten thousand dollars still retains nine thousand six hundred and eighty dollars? What sacrifice is involved in a tax of fifteen per cent on an income of fifty to one hundred thousand dollars? Canada cannot be in the same class with Britain in the conscription of her manhood for overseas service and fall behind Britain as regards the conscription of excessive wealth. No one wants to place a burden on capital that will be economically unsound, but it is absurd for Sir Thomas White to propose an income tax that fails to tax excessive wealth, and which transfers to the consumers with small incomes the burden of war expenditure on which the exempted profiteers have grown fabulously rich.

Sir Thomas White's minister of finance, not the parliamentary agent of the rich, on his head be the responsibility for the opposition to conscription of men that is bound to arise through any failure on the part of the government to conscript wealth. In its present form the Income Tax Bill will be interpreted throughout the country as an electioneering measure. What the country wants is a "win-the-war" draft on excessive wealth.

The Globe from the outset has coupled the conscription of wealth with the conscription of men. To suggest, as Sir Thomas White does, that money is not urgently needed now is to trifle with the intelligence of the public. No amount of money raised by the conscription of wealth can equal the sacrifice made by one of Canada's soldiers. The day for trifling has passed. The demand of the people of Canada is that excessive wealth as well as man-power shall pay its just toll in this crushing war for the liberties of the nation.

A cool suit of style to lay round in for a while—a Palm-Beach at \$12.56 sale price, or a fancy homespun at \$20, sale price; white trousers at \$1.50 to \$5.75. Nothing better for the price. For travelling days a grey cheviot is practical. Price \$20, and a blue serge at \$25 is almost indispensable.

A FIGHT TO A FINISH

(Bangor Commercial)
We hear once more from Senator La Follette of Wisconsin who on Saturday introduced a resolution to the effect that the United States shall definitely state the objects for which it shall continue to wage war and requesting that the Allies shall again state their peace terms. Under our liberal form of government a resolution of this nature introduced by the government, but whose dissenting seed falls on any ground and does not thrive.

Our country is now at war and was forced into the war if it desired to maintain its self-respect. We yielded all that any self-respecting nation could yield. We can tell Senator La Follette that we shall remain at war until the massacre of non-combatants of neutral countries can occur no more and until the "world is made safe for democracy." And that is sufficient for the present.

We wish that congress could find a way to prevent the introduction of resolutions that embarrass the government in its struggle to protect the lives and properties of our people and the national rights, and could also eliminate the unpatriotic utterances that too often find vent in congress, but there is some solace in that the attitude of La Follette and his fellow dissenters is endorsed only by the pro-Germans, the ultra pacifists and such organizations as the I. TO DRY BEETS, CARROTS, ETC.

In selecting beets, carrots and turnips for drying, avoid varieties having a large woody core, says Tuesday's bulletin from the National Emergency Food Administration at Washington.

Turnips and beets may be washed and peeled, sliced into 18-inch pieces and dried, or they may be cooked until three-fourths done, cold dipped for an instant, peeled and then sliced and dried. Peeling is facilitated by dipping the beets into hot water until the skin loosens.

Carrots may be washed, peeled and sliced lengthwise into one-eighth

Financial Group Behind Legislation - Millions of Worthless Stock May Be Raised to Par Value

Ottawa, Aug. 14.—Liberalism in parliament is fighting the attempt at a final "clean up" for the private interests behind the Canadian Northern before the government finally gives to the taxpayers, who have contributed already their hundreds of millions to the enterprise, the complete ownership of the system.

The commons spent the whole of today discussing the second reading of the finance minister's bill to acquire, at an

NO BOND ISSUE ARRANGED YET

But Specifications For New Warehouse Approved

Assessment Commission

Council Wants More Definite Information Regarding Location of New Track in Water Street

The specifications for the new wharf and shed on the site of No. 5, West St. John, were approved at the common council meeting yesterday afternoon, with some amendments. There has already been called for, but no bond issue has as yet been authorized to defray expenses. This requires a full meeting, and Commissioner McLellan was absent yesterday.

Commissioner Russell also recommended that his department be authorized to proceed with the work of replanking No. 1 shed, but the matter was deferred until more definite information is secured.

A recommendation that the C. G. R. be permitted to put another track along Pettigell and McLeod wharves was deferred until more definite information is secured.

Assessment Commission Re-appointed. Upon motion of Commissioner Wigmore the old assessment commission was reappointed to act in conjunction with A. H. Wetmore and W. P. Burditt from the board of trade. The old commission consisted of Professor W. C. Kesteven, Dr. J. Roy Campbell, R. T. Hayes, mayor, W. E. Scully and George Maxwell. It was regretted that clerks could not get personal representation.

Following is the section of the specifications for No. 5 to which Commissioner McLellan took exception at the committee meeting last Thursday: "Should the contractor fail to begin the work within ten days of the execution of a contract to perform same or, having commenced, suspend the work without satisfactory cause, or prosecute the work in such a manner as to leave no reasonable prospect of completion within three months of the signing of the said contract, the commissioner, in behalf of the city of St. John, to have power and authority, should he deem it expedient, on giving to said contractor three days' previous notice in writing of his intention so to do, to enter upon and take full control of the work and discontinue the same. The contractor shall, in such case, forfeit all claim to proceed with said work or to recover any sum he due from city for the said work."

The city engineer, William Murdoch, reported that he had submitted the specifications to the city solicitor, who stated that the section was a standard one. He recommended an amendment by the addition of the following: "And in any such case the contractor shall also be liable to the city for any increase cost over the contract price which may be incurred by said mode of proceeding."

The engineer reported that another amendment made provision for the simultaneous reconstruction of the elevator supports.

Upon the motion of Commissioner Russell, seconded by Commissioner Fisher, the specifications were now approved.

The commissioner of finance reported payments for the month of July amounting to \$16,874.37.

New C. G. R. Track. The commissioner of harbors, ferries and public lands recommended that the request of L. R. Ross, local agent for the C. G. R., for permission to place another wharves, be granted subject to certain conditions, one of which was that the city should have the privilege of excavating across the rails at any time it requires.

Commissioner Wigmore asked if the new rails were to be laid in the narrow street running to the wharf from the Eastern S. S. Company office. There appeared to be an uncertainty about this, and the city engineer was instructed to prepare plans of just what concessions the city was in a position to make. The matter will be taken up next Tuesday.

Coal for Ferry. The commissioner of harbors and ferries reported that he was unable to secure a coal supply by the usual method of tender for the ferries and he recommended that he be authorized to purchase at \$6.75 per ton of 2,500 pounds, subject, however, to the fluctuations of the market, and that the controller be instructed to certify the bills from month to month.

The recommendation was adopted. The application of Lee V. McKelid to be appointed a constable was referred to the mayor with power to act.

Upon Commissioner Fisher's suggestion the various unexpended balances in the different items in the appropriation for public works were put into one fund to be used for any street work considered necessary.

The mayor asked about the street paving in Prince William street and he was

Cartridges Not Of Type Used

The finding of a box of cartridges in Lansdowne avenue between 9 and 10 o'clock last night created great excitement among residents of the North End, and people at once jumped at the conclusion that the find was a step in advance toward the solution of the Williams' murder mystery. The police, however, are convinced to the contrary and at headquarters it was asserted that

it was merely a case of lost property. The cartridges were found at the roadside in Lansdowne avenue, not a great distance from the scene of the murder. There was just a round of five cartridges missing from the box. The cartridges were .22 calibre, but were not of the same type as the one which killed Williams. The none of the bullet found in Williams' store was steel, while these were soft-nosed. The fact that the shell was dislodged in the store, establishes quite conclusively that the gun was an automatic. The box was found by a man and left at North End station.

Boys Cleared of Suspicion. The two Barbours boys arrested here yesterday about noon on suspicion of certain offences, were liberated last night. Although no such official intimation was given, people assumed that they may have been associated with cer-

tain criminal offences here. They were not, however. The boys arrived in the city only yesterday and were held, later, to be absolutely guiltless of any wrongdoing.

WELDON CARTER COMMITTED. Woodstock, Aug. 14.—Weldon Carter, who is charged with the theft of a horse and carriage from Gallagher Bros., was before Police Magistrate Holyoke today for preliminary examination.

While attempting to sell the outfit at Fairville he was arrested and brought here by Sheriff Foster. He was committed for trial at a court to be held Tuesday, September 25. He is a well dressed and nice appearing young chap about nineteen years of age and says he belongs in Halifax and was selling pictures.

The day was beautiful and the outing was being greatly enjoyed.

FORESTRY OFFICERS

The appointment of the following officers to No. 2 Forestry Company have been approved: Officer commanding, Major C. L. Hamilton; second in command, Major J. G. Kirkpatrick; captain, F. A. Morley; lieutenants, E. E. Groves, W. Grant Smith, Stanley E. Calhoun, H. Callaghan, E. S. Cosman, J. S. Scott, T. J. McMullin, C. D. Smith, M. J. Ferguson, and M. J. Powers. Lieutenants Powers and Ferguson have proceeded overseas and will rejoin the unit upon its arrival in England.

ONE WOUNDED, ANOTHER ENLISTS

A. H. Jones, of Moncton, has received a telegram from his brother, G. R. Jones of Vancouver, stating that the latter's son, Walter, who passed through Moncton about four months ago for overseas duties, is now in a hospital in France, suffering from a wound in the thigh received on August 5. A. H. Jones was also in receipt of a card Monday from Corporal Walter Jones, written July 28. Mr. and Mrs. G. R. Jones' eldest son, Randolph, has enlisted, and is now in training for overseas duties.

TRAFFIC VIOLATIONS

John Chynn was before Magistrate Ritchie this morning in answer to two charges, that of speeding in Waterloo street in his car on Saturday night last, and also for driving his car with the right wheel to the curb on another occasion. Policeman Gaudin testified as to the violation on Saturday night. Mr. Chynn said that he never remembered driving his car over ten miles an hour in the city limits. He was not sure whether he personally had the car out or not that night. The case was postponed until tomorrow when the charges, and another against his son for exceeding the speed limit in City road with the same car, will be finally disposed of.

YORK PETITION FOR REPEAL OF SCOTT ACT IS READY

Fredericton, Aug. 15.—Those interested in the repeal of the Canada temperance act in York county as a preparatory for the bringing of the provincial prohibition act into force say that a petition for the repeal of the act has been signed by the required number of electors and 180 in addition. The delay is an account of reported legislation contemplated at Ottawa which will repeal the Canada temperance act in all sections in which a prohibitory measure may apply and make an election unnecessary.

CITY WHARVES TO BE READY FOR BUSINESS

The Standard this morning asks the question: "Will St. John be ready for practically no repair work has been done yet on the west side wharves and sheds. This morning Commissioner Russell, when asked in regard to the situation, said that this was entirely untrue. He said he has fourteen men working on No. 1 shed and seven men working at No. 2 shed, and he will have an extra gang of men at work by next week. He reports that the work is coming along very favorably and rapidly, and expects to have the work completed within a very short time. Even should the winter port open up this year one month sooner than it has other years, Commissioner Russell said, the wharves and sheds will be in readiness.

COAL PRICES IN HALIFAX

(Halifax Herald.)

Shipments of hard coal are arriving here by rail for the first time in many years. The cost of bringing it here in this way is greater, but so far the price has not been increased. It had been reported a few days ago that the price of hard coal had taken a big drop. The Herald made enquiries yesterday as to the truth of this report, and was informed that it was without foundation. It was stated that hard coal is selling for \$15 per ton, looked for thirty days ago. A representative of one firm said—"We are prepared to sell hard coal for \$14.50 per ton spot cash."

As to the supply, the Herald was informed that it was not too good. There appeared to be a scarcity at the moment. The local demand was quite brisk, although quite a large number have already received their winter supply, and there were a large number who have booked it at present current prices. The freight rates on hard coal by rail from the American mines is \$6.45. This is higher than the rates by water. The supply of soft coal is good. The prices ruling is \$8 net for Inverness, \$8.50 cash for Sydney and Reserve.

NO PARADE OF UNIONS IN BOSTON LABOR DAY

Boston, Aug. 15.—The labor unions of this city, for the first time in nearly fifty years, will hold no parade on Labor day this year. Officials decided to suspend the customary observance because of the financial condition of the unions, brought about by heavy investment in Liberty bonds, and of the absence of hundreds of union men who have entered the government service. A patriotic demonstration on the Common will be substituted.

LIGHTER RAILWAY TRAFFIC MAKES PICNICS POSSIBLE

The fact that picnic trains were to be run over the Canadian Government Railway today came as a surprise to many of the citizens, and that such a management of the road announced that there would, under no consideration, run special trains this summer. The cause of the C. R. G. issuing this notice was the fact that they were counting on heavy movement of troops this summer and that all available cars would be in use. It was found later that the movement of troops was not as heavy as was anticipated, and that therefore, the road has been carrying some picnics. At least five or six picnics have been run out of Moncton and, a few weeks ago, the Ludlow street Baptist church picnic at Rothesay had a special train.
