ST. JOHN MEN ARE PROMOTED

Pleasant News of Our Soldiers in the War

ONE HAD GIVEN UP POST

He Wanted to Get to Front and Now is There With Old Rank

—Gratitude For Tobacco and Other Articles Sent—Sergeant Mooney Enjoying a Furlough

Some time ago the Times announced that Walter Jones, formerly of Indian town, who had been a non-com. in No. 5 Co. C. A. S. C. now in England, had given up his stripes on learning that the post he held would not permit of his going to France. Word received a few days ago, however, shows that the honor has been restored and that he is once again sergeant with the company, this time with his ambition to see action in France to be realized. His friends will be pleased at the news.

Another promotion which will be popularly received among his friends here, is that of Sergt George Duplisse to the rank of staff sergeant.

Canadian Divisional Train. The post is a responsible one, but it is expected that Sergt. Duplisse's long experience with No. 7 Co. C. A. S. C. at home as well as the additional training he has undergone since joining for foreign service, will enable him to attend to the duties satisfactorily.

Sends Thanks

A letter received on Saturday by W. H. Dunham of Indian town, from Pte. Joseph Howes, No. 8 Co. C. A. S. C., expresses his appreciation of Canadian tobacco and other articles received from him a fortnight or so ago. He says that the Canadian tobacco is particularly appreciated by the boys in camp, more so than the English article. Pte. Howes is enjoying the soldier's life at the camp, and wishes to be remembered to his friends at home.

Casualty List

Further news from England yesterday gave the name of the private in the 6th C.M.B., reported as McDonald on Saturday, and killed by lightning, as Frederick Malcolm, Douglas, of Kingston, N. B. It is thought that it should read: Frederick Malcolm McDonald, Pte. Jas. Westwater and Chas. Johnson narrowly escaped injury from lightning.

In yesterday's casualty list from Ottawa, Pte. John Caldwell, of Apohaqui, N. B., Pte. Bernard King, of Newcastle, N. B., and Pte. Jas. Keoughan, Chatham, N. B., previously reported missing, are now reported officially with the 12th battalion; Pte. Thos. Shaw, of Sydney, N. S., is reported a prisoner in Germany, and Pte. Everett Mann, of Carleton Place, N. B., is reported wounded.

Joseph Victor Harvey, of Murray Bay, found and shot dead on the battlefield, and whose life beside him. A verdict of accidental death was returned by the jury.

Writing to a friend here, Captain George G. Corbett stated that he was in good health and with the Field Hospital of the Third Brigade. He hoped to be able soon to pay a visit to his mother's people in Ireland.

Is on Furlough

Friends of Sergeant J. Harold Mooney of this city, will be pleased to hear that he is on furlough in England. Sergeant Mooney went with the first contingent from Quebec. He is at present in the best of health.

WANT RECRUITS BUT HERE THEY COME AND LET GO HOME AGAIN

Woodstock Reports Fifteen Lost to the Colors Because of No One to Sign Them On

Woodstock, N. B., Aug. 2.—Ten days ago Lieut. Hamilton, recruiting officer at this point, was ordered by Valcartier, and the recruiting stopped. Since the closing of the office fourteen men from river points have applied to enlist, they were told that the office was closed and with one exception they returned to their homes. The other man went to Fredericton.

With the constant appeal for men, the situation here is far from satisfactory. These men returning to their homes, will certainly stop others who intend coming. No person here is doing anything about the matter and it is considered about time the military authorities took some action.

Minister of Marine Makes Statement in Duma

FINANCE MINISTER, TOO

Russia Has Successfully Financed War Despite Loss of Vodka Revenue—By End of This Year Expenses \$3,621,000,000

Petrograd, via London, Aug. 2.—Rear Admiral Grigovich, minister of marine, said in the Duma yesterday that the Russian Baltic fleet had fulfilled successfully the task of resisting the Germans and, besides repelling attacks, had inflicted defeats upon its antagonists even in their own waters. The Russian Black Sea fleet, he said, although weaker than the Turkish fleet, had rendered its adversary's offensive, inflicting severe loss upon them.

The minister spoke of the munition problems and praised the patriotism of workers which had led them to strike and give great impetus to factory production, making the works unworkable.

Finance Minister Bark declared that, in spite of enormous war expenses, Russia had succeeded in financing the war notwithstanding the loss of revenue caused by the prohibition of the sale of liquor, the tax upon which formerly yielded 1,000,000,000 rubles (\$600,000,000) annually. He said that the war-donations of Russia at the end of 1915 will amount to 7,242,000,000 rubles (\$4,641,250,000), to cover which the minister proposed a series of credit operations.

These operations were approved by the Duma, he said, as the sale of vodka for 1915-16, 200,000,000 rubles (\$125,000,000), which proved that the country had sufficient resources of the people, and he asserted that prohibition must be maintained even after the war because of its salutary effect upon the nation.

A pleasant afternoon was spent at the summer home of Mr. and Mrs. H. R. Coleman at Fair Vale by a party of boys from St. Mary's Sunday school, it being Master Harry Coleman's fourteenth birthday. Arriving at Fair Vale at 2:45 they went for a swim about a mile from the station after which supper was served. There were fourteen baseball games played. The line-up was as follows:

TODAY'S EVIDENCE ABOUT HORSE BUYING

Charlottetown, P.E.I., Aug. 2.—Evidence of the normal amount of profit that a Prince Edward Island horse dealer should expect on sales was taken up by the Davidson war contract commission which has been investigating the dealings by W. B. McNeil, Summerside, and Major Anderson, Moncton, who purchased from him eighty-one horses for \$15,425, at an average cost of \$227 for the average price for horses last August.

WITNESS SAID

Witness said perhaps \$10 per horse would be fair profit. W. S. McKie, who swore that he had twenty years experience at purchasing horses, said that the average price for horses last August was about \$175. He bought one hundred this spring for Sir Adam Beck at an average of \$175 and prices then and last summer were about the same. He considered \$10 as good profit for a horse seller. He thought he could have bought horses last summer for the government for \$15.

AN UNEXPECTED OUTING

H. W. Belding, Mrs. Belding, M. Coppin, her brother Harold, and Char Parker, left Indiantown about 4 o'clock last evening in A. F. Beldin motor boat for Public Landing, after having brought the latter and his wife to town. The fog was so dense that it lost their course in Grand Bay and within 4 o'clock found themselves in McCormick's Cove in the Kennebec. Being very doubtful of their ability to find their way out in the fog and darkness, they tied up to a boom, let the side covers of the boat, and open night where they were. This morning they got breakfast on shore, and to great relief of relatives who were inquiring enquiring in every direction, at home at noon.

Glasses Make You See Differently

If they didn't they'd be worthless. Clear sight comes from accurate focusing of light rays on the retina. To get that focus the muscles of the eyes are used. If there is a defect in the eye, the muscles are compelled to do the work they should not do, and are strained. Properly fitted glasses correct the defect in vision, permit the muscles to be used normally, removing to strain and ending the bad muscular habits defective sight causes. That is why our work "get used to glasses." The muscles are being taught to work in a different way. But you must have properly fitted glasses—lenses accurately made especially for you. You are always sure of that when you buy glasses at Sharpe's.

THE BELGIAN RELIEF.

Editor Times—Sir:—Will you please inform your readers that at the last meeting of the members of the central executive committee of the relief work for the victims of the war in Belgium, held in Montreal at the office of the honorary treasurer, on July 16, 1915, a resolution was adopted that the relief work for the victims of the war in Belgium would not accept donations of clothing at the present time, but would continue to accept food-stuffs, but in certain shipments only, but gifts of money would always be very welcome, for money is greatly needed in order to purchase wheat and flour, both urgently required by the civilian population of devastated Belgium. Thanking you in advance for your courtesy in inserting this for us, we remain, Yours very truly, The Secretary to the Administrators.

SPANISH LABORERS FIND GOOD JOBS IN FRANCE

Madrid, July 31.—Thousands of Spanish laborers have emigrated to France since the beginning of the war, owing to the scarcity of labor here and the consequent high wages offered. As a result there is such a scarcity of agricultural labor in Spain that wages are three times those paid a year ago. The emigration to France has been encouraged by French agents, who are recruiting laborers, both male and female, for the agricultural districts in south and central France. Industrial leaders here believe that the emigration will continue after the war, may cause a serious devaluation in the labor market here.

BOSTON BOWLING STARS ARRIVE HERE

They Issue a Challenge to the Pick of Black's Alleys Bowlers

The Boston steamer brought to the city this morning a formidable quintette of bowling stars, Archie Walsh, world's candle pin champion; Charlie Murphy, one of the best pin fall artists of the Boston Suburban League; George Magee, proprietor of Noodles Bowling Alleys in East Boston; "Kid" Burns, of pugilistic as well as bowling fame, and these young athletes are here to spend a vacation cruising on the St. John river and incidentally to give a demonstration of their skill against the bowlers of this city. They issued a challenge soon after they arrived and as a result Thomas A. Kilgus, of Black's alleys, heard of their approach and soon had the wires hot scuttling up reinforcements. Archie Walsh says his team is composed of world-beaters and all he wants is an opportunity to demonstrate to the fans that this is no idle assertion.

Flashed Case on Merit

A man traveling westward on a through express, one day last week, left his seat in the crowded dining car just after he had ordered his luncheon. He went to get something he had forgotten in the Pullman.

When he returned, in spite of the fact that he had left a magazine on the chair in the dining car, he found a handsomely dressed woman in his place. He protested with all the politeness he could muster, but the woman turned on him with flashing eyes.

"Sir," she remarked haughtily, "do you know that I am one of the directors?"

"My dear madam," he responded, "if you were the director's only wife I should still ask for my chair."—Houston Post.

How gum benefits the teeth

DENTAL research has found that only 1.2% of the Maoris of New Zealand have any decay of teeth. Next come the Esquimaux, only 1.4% of those examined having teeth unsound. Third rank certain tribes of Canadian Indians.

Some years ago the British Dental Association examined the teeth of 10,500 English school children. 86% had some decay of the teeth!

Why? From leading dental authorities we get this answer: Races having the best teeth chew foods which excite the salivary glands. The Maori

flavors food with the juice of the tutu-berry—a keen exciter of the salivary flow. The Canadian Indian chews wood of the sugar pine.

The human saliva is endorsed by these same authorities as Nature's own mouth wash—the best conservator of the teeth—best since man began.

In encouraging a normal flow of saliva, the clean, pure Sterling Gum brings distinct aid to the health of the teeth.

It acts against what dentists call "oral (mouth) stagnation."

The importance of this fact may lead you to suppose it the 7th Sterling point—but no; that 7th point is still as much a mystery as ever.

THE WAR NEWS

The Emperor of Russia, after a year of war, and at the moment when his armies have been driven back and the evacuation of Warsaw is regarded as inevitable, says:

"I hereby solemnly declare that we will not conclude peace until the last enemy soldier has left our land."

The Russian minister of war says that Russia and her allies must continue the war, should it come last several years until the enemy is completely crushed.

Sir Edward Grey, speaking for the British Empire, says that Britain and her Allies "have never been more determined than they are today to prosecute this war to a successful conclusion."

The encouraging feature in the eastern theatre of war is the fact that the Germans and Austrians have not been able to cut off any of the Russian armies, and that while the latter have been forced to give ground, they have at the same time inflicted heavy losses upon the enemy.

It is reported that three American soldiers were killed when the Leyland liner Iberian was sunk on Saturday by a German submarine.

It is impossible to say what the French and British propose to do. The Russian press urges that they relieve the pressure in the east by a drive in the west, but one of last night's cables asserts that Gen. Joffre prefers the policy of wearing down the enemy rather than assuming a great offensive at present.

There have been rumors of heavy reinforcements going to the Dardanelles, but the policy to be pursued by France and Britain will not be made public, we may be sure, until the enemy has felt the force of the blow.

It is not yet at the front, and that the production of war materials has been greatly increased and is being speeded up with all the energy Mr. Lloyd George, with his wonderful organizing capacity, can bring to bear.

Naturally there is a degree of impatience because the Germans are staying so long in Belgium and France, and meeting with so much success in the east; but Germany and Austria have reached their maximum of fighting power, while the Allies have still immense resources in men and munitions to bring into the field.

We must not overlook the fact, however, that Mr. Lloyd George said two days ago that "the situation is serious, even perilous," and his words should stimulate the people of Canada as well as of every other portion of the Empire to make it clear by their conduct that they fully realize that the chief business of every British subject is the successful prosecution of the war, to be done either by donning the king's uniform or making sacrifices at home for the benefit of the men who fight and the families they leave behind.

The Canadian Courier tells of an old man who, by keeping a little shop, had saved \$700. He drew out his savings and gave them, with the remark that since he could not go his money would purchase a machine gun, which it was claimed would do the work of many men.

Having thus "done his bit," he went back to his little store. He was a poor man, but the country is rich that can claim such men as citizens. It is not always those who have most money to lose who make the greatest sacrifice. This war is bringing financial profits to many people. What proportion of those profits go into the Patriotic Fund, or are spent for the purchase of machines, rifles, and other munitions?

"The situation is serious, even perilous," says Mr. Lloyd George. Serious and perilous for what and for whom? For the cause of human liberty and for all the sons of men. Do we realize it?

Today's cables tell of very heavy losses sustained by the Austrians and Germans in their great drive in the east. Apparently, also, the Russians are retiring in good order.

A direct car service to East St. John is necessary and long overdue, and the news that it is soon to be provided will be hailed with satisfaction.

Pope Benedict urges the heads of the belligerent nations to end the war. That is what the Allies are trying to do—not only to end this war but to make such war in future impossible. In that they deserve the sympathy of the church.

Sir Robert Borden, as the representative of Canada, has been decorated with the Grand Cross of the Legion of Honor. There are some Nationalists in Montreal, disciples of Mr. Bourassa, who will doubtless object to Sir Robert's acceptance of the honor. Perhaps, since they helped to make him premier they

think they have a right to object. Canada, however, appreciates the honor paid to her first minister by her great ally.

Are any steps to be taken to utilize the local armory for drill purposes? There are officers available, and there should be no difficulty in getting the men.

The ranks of the 53th Battalion are not yet filled. The Times today prints a letter from Valcartier that should appeal to young men who are thinking of donning the king's uniform.

As the war progresses the part played by airmen is likely to grow in importance. In this field the Allies are stronger than the enemy. The dreaded Zeppelins are about as useless as the German fleet.

The letter of Mr. P. J. Venot, printed in today's Times, reveals the lengths to which his political enemies will go in their efforts to besmear his reputation and distract public attention from their own misdeeds.

The Kaiser in a manifesto just issued says that before God and history his conscience is clear. While he may have a convenient conscience he is not wise to anticipate the verdict of history. His assertion that God is with him will also bear scrutiny a little later.

Joffre prefers the policy of wearing down the enemy rather than assuming a great offensive at present.

There have been rumors of heavy reinforcements going to the Dardanelles, but the policy to be pursued by France and Britain will not be made public, we may be sure, until the enemy has felt the force of the blow.

It is not yet at the front, and that the production of war materials has been greatly increased and is being speeded up with all the energy Mr. Lloyd George, with his wonderful organizing capacity, can bring to bear.

Naturally there is a degree of impatience because the Germans are staying so long in Belgium and France, and meeting with so much success in the east; but Germany and Austria have reached their maximum of fighting power, while the Allies have still immense resources in men and munitions to bring into the field.

We must not overlook the fact, however, that Mr. Lloyd George said two days ago that "the situation is serious, even perilous," and his words should stimulate the people of Canada as well as of every other portion of the Empire to make it clear by their conduct that they fully realize that the chief business of every British subject is the successful prosecution of the war, to be done either by donning the king's uniform or making sacrifices at home for the benefit of the men who fight and the families they leave behind.

The Canadian Courier tells of an old man who, by keeping a little shop, had saved \$700. He drew out his savings and gave them, with the remark that since he could not go his money would purchase a machine gun, which it was claimed would do the work of many men.

Having thus "done his bit," he went back to his little store. He was a poor man, but the country is rich that can claim such men as citizens. It is not always those who have most money to lose who make the greatest sacrifice. This war is bringing financial profits to many people. What proportion of those profits go into the Patriotic Fund, or are spent for the purchase of machines, rifles, and other munitions?

"The situation is serious, even perilous," says Mr. Lloyd George. Serious and perilous for what and for whom? For the cause of human liberty and for all the sons of men. Do we realize it?

Today's cables tell of very heavy losses sustained by the Austrians and Germans in their great drive in the east. Apparently, also, the Russians are retiring in good order.

A direct car service to East St. John is necessary and long overdue, and the news that it is soon to be provided will be hailed with satisfaction.

Pope Benedict urges the heads of the belligerent nations to end the war. That is what the Allies are trying to do—not only to end this war but to make such war in future impossible. In that they deserve the sympathy of the church.

Sir Robert Borden, as the representative of Canada, has been decorated with the Grand Cross of the Legion of Honor. There are some Nationalists in Montreal, disciples of Mr. Bourassa, who will doubtless object to Sir Robert's acceptance of the honor. Perhaps, since they helped to make him premier they

think they have a right to object. Canada, however, appreciates the honor paid to her first minister by her great ally.

Are any steps to be taken to utilize the local armory for drill purposes? There are officers available, and there should be no difficulty in getting the men.

The ranks of the 53th Battalion are not yet filled. The Times today prints a letter from Valcartier that should appeal to young men who are thinking of donning the king's uniform.

As the war progresses the part played by airmen is likely to grow in importance. In this field the Allies are stronger than the enemy. The dreaded Zeppelins are about as useless as the German fleet.

The letter of Mr. P. J. Venot, printed in today's Times, reveals the lengths to which his political enemies will go in their efforts to besmear his reputation and distract public attention from their own misdeeds.

The Kaiser in a manifesto just issued says that before God and history his conscience is clear. While he may have a convenient conscience he is not wise to anticipate the verdict of history. His assertion that God is with him will also bear scrutiny a little later.

It is reported that three American soldiers were killed when the Leyland liner Iberian was sunk on Saturday by a German submarine.

A young man who last June received his diploma has been looking around successfully for a position, for employment and for a job.

Do animals possess the sentiment of affection? asked the teacher of St. Margaret's.
"Yes, indeed, almost always."
"Correct," said the teacher, turning to young Harold; "and now tell me what animal has the greatest natural fondness for man?"
"With a slight pause the little fellow answered "Woman."—Everybody's Magazine.

P. J. Veniot Exposes Cheap Plot of Stewart and Gleaner

To the Editor of the Times: Sir—It has never been my practice to take much notice of the scurrilous articles that have appeared from time to time in the Frederick Gleaner against me. The reputation won by the Gleaner for evasiveness in dealing with public men was always considered by me to be sufficient answer to any and all of its ravings. But owing to the fact that I have been lately engaged in exposing graft on the part of some of the members of the legislature, the publication by that newspaper yesterday of a partial report of auditor of Bathurst school accounts, A. J. H. Stewart, M. P., might leave the impression, as no doubt was the intention, that there was something radically wrong with my finances as secretary of the school board, I deem it proper that I should lay the matter before the public exactly as it occurred. To the people of Bathurst and Gloucester in general it would not be necessary that I should offer any explanations. I have lived among them for thirty years. They know A. J. H. Stewart and they know P. J. Veniot. I have held many positions of trust in the county, and I am at all times willing that a comparison of my reputation with that of A. J. H. Stewart's be made. I do not fear such a comparison and would be delighted to have any of that gentleman's friends undertake the task. Had the Gleaner published the full report, verbal as well as written, submitted to the public school meeting and to the board of trustees by Mr. Stewart, the public would have immediately seen that there was not the least reason for supposing that I had done anything wrong with the finances of the district. But such frankness is not a part of the policy of the Stewart-Gleaner type of slanderers and the object sought would not have been attained. As a proof of the desperate state of mind in which Mr. Stewart finds himself and feels that he must do something to temporarily detract public attention from those scandalous Gloucester revelations, I can inform the public that last night's express brought to Bathurst his address large numbers of the Gleaner for circulation in this county. Had Mr. Stewart brought these over by automobile instead of by express I would not have caught on his game. Of course, I understand that automobiles are an expensive luxury, especially when smuggled into Canada. In conclusion I may say that were I ever so much inclined to dicker or juggle with the finances of the schools, I certainly would not attempt it knowing that Auditor Stewart was my most bitter political opponent and would be only too happy to catch me in any wrongdoing. P. J. VENIOT, Bathurst, July 29, 1914.

Champion Pony Purchased for \$5,000.

The secretary of the American Hackney Saddle Society has received notice from the English Hackney Horse Society that the champion pony stallion Fire Boy has just been sold for export to the United States. The new owner of this noted little sire is Miss Anne Vancian, of Philadelphia, who is prominent in the business and financial world.

It is said that \$5,000 was paid for the stallion. He has taken rank in the last few years as the leading hackney pony sire of Britain, his offspring having won more prizes than that of the famous Sir Horace at the last two London hackney shows. Fire Boy and his colts won over all comers three years in succession at the shows of 1910, 1911 and 1912.

New Pacing Record.
