

ST. JOHN MAN IS KILLED IN THE GRAECO-TURK WAR

Fred H. Gosline, Son of Late Policeman J. H. Gosline, Loses Life in Naval Skirmish.

News was received Saturday that Fred H. Gosline, son of the late Policeman James H. Gosline, a member of the force for thirty-two years, was killed in a naval action in a Graeco-Turk skirmish on August 12 last.

The late Sergeant Fred Gosline had he lived would have been thirty-nine years of age next October 12. He was a veteran of the late world war and made a great record for himself, having won the Military Medal and being created a King's Sergeant on the field of battle.

A Difficult Feat. He was despatch bearer for the time being and was ordered to carry a message by horse over a difficult route.

his ankle. He was forced to crawl over the terribly rough ground for six miles. Reaching a bush on the way, he improvised a rough crutch from some branches and in this manner delivered his message. While being taken to the field hospital the medal was placed on his coat and he was created a king's sergeant. In addition to these medals, he held two others.

As well as being a fine soldier, Sergeant Gosline was an expert in dealing with engine oil engines. He enlisted with the Fighting 20th but was forced to remain behind when the famous New Brunswick unit sailed from here owing to an accident. He went over late but his genius for gasoline engines soon attracted notice and he was drafted into the Royal Engineers. Three days after landing in England he was notified to prepare for France. Over there he spent two years and was invalided home owing to the sniper's bullet.

Returns to St. John. Returning home, he went back into the employ of the Canadian Fairbanks-

Morse Co., Ltd., with which he was connected before enlistment. He received a temporary discharge and his activities for a time were confined to installing crude oil burners in ships brought into the Market slip for that purpose. Later he was sent to Newfoundland by the Fairbanks-Morse firm to install eight new engines in new ships over there.

His father, the late Policeman Gosline, died three years ago on Aug. 12, the same date that his son was killed. In addition to his mother, who lives on the west side, he is survived by two daughters and two sons—Grace, Clara, Harold and Roy; two sisters, Mrs. Hedley O. Parker, Kimberley (B. C.), and another sister residing at 17 Main street, and one brother, James H. Gosline, Jr., now in Winnipeg, and Frank A., in West St. John. The news of his passing has cast the family in deep mourning, while his many friends throughout the city will regret the death of a valiant soldier and friend.

They Fit Better Feel Better — Last Longer

"LITTLE Darling" and "Little Daisy" stockings fit better because they are knit by a perfected process of our own.

They feel better because they are made from the most wonderful yarn in the world—yarn made from the silky Australian lambs'-wool.

They last longer because they are reinforced and closely knit.

"Little Darling" are made for infants up to seven. Silken toe and heel. "Little Daisy" are made for youngsters of all ages. Toes and heels are reinforced.

Either can be had in any of a pleasing variety of dainty shades or black. On the market for twenty years, their quality has built up a huge demand and they are sold in every good store.

TEXANS KILLED IN A STREET BATTLE

Two More Wounded When Families, Feudists in Politics, Shoot and Stab.

Houston, Tex., Sept. 11—Three persons were killed, one was shot and another was stabbed at Sealy, Austin Coun-

ty, Texas, as the result of a political feud between two families. The feud was fought out on the main street of Sealy.

The dead are: Fritz Schaffner, Robert Schaffner, his son, and Luther Bell.

The death of Thomson Bell, Luther's brother, is said to be expected. The Schaffner family lives in Sealy and the Bells in Belville. The excitement in the two towns today is said to be intense.

Both families are widely known in that district. The two Bells and another brother, Foster Bell, and the Schaffners, including Ernest Schaffner, another son, met last night on Main street, Sealy. In a moment shots resounded. The fighting began at close range and ended with

the survivors in a hand-to-hand struggle. The least seriously wounded of the six was Ernest Schaffner, and he was badly stabbed. The families were leading supporters of two candidates for County Judge and their ill feeling became evident three months ago after the candidates suggested by the Schaffners made an address in Bernina at Cat Springs, Texas, and caused a good deal of excitement. There were quarrels between members of the families as recently as yesterday. The Bells drove to Sealy last night with a following of friends.

GOOD-BYE TO THE TURN-UP TROUSER, SAY BEST TAILORS

The leading tailors of London and New York are now making men's clothes along more dignified lines—fuller, figured coats and cleaner cut trousers, the lines throughout conservative and unbroken by cuffs at the ankles.

Thus a farewell to the slimjim jamboree that made men's styles these last years a pretty close second on the women's for lightness. And another farewell, this time to old high prices, is uttered by Don Hunt, whose imported cutter is making up any style a man wants on a special opening offer of \$4 for guaranteed serge of eighteen-ounce weight. He is also making a feature of grey tweeds with or without a variety of pencillings of either white, green, purple or gold. Black and blue worsteds with many widths of white and blue hairlines, as well as a regular brotherhood of brown tones, makes his offering stand out as rather interesting, to say the least.

TIPSY POLICEMEN ALL HAVE EXCUSES

Two Were Victims of Hootch, Other Made Ill by Medicine.

New York, Sept. 11.—When three policemen were placed on trial before Deputy Commissioner Leach in police headquarters on charges of being intoxicated while on duty, two of them, Bernard Murphy of the West Sixty-eighth street station and John Donnelly of the Morrisania station, said they were victims of "hootch."

Murphy said that a friend invited him on an automobile ride of Aug. 21 last when the policeman was on his way home from duty, during which the friend insisted that he have a drink. The next thing he knew, he said, he was being questioned by a sergeant in the rear of a saloon at 841 Amsterdam avenue.

Donnelly explained that on Aug. 27 he was ordered to take charge of the body of a man in the basement of 922 East 150th street. A man there invited him to have a drink. He took one, then another, and then everything became black. He said that he "came to" when

A police surgeon was examining him at the station. It developed that somebody telephoned to the station that the policeman was intoxicated.

Policeman Gerald Morrissey of the West 133rd street station said that while he was on post on Aug. 17 he became ill and resorted to a mixture of paregoric and whiskey, which his physician had prescribed for him the day before. He said he took the medicine in accordance with the physician's directions, and "supposed the stuff knocked him out." Decision in each case was reserved.

CONFERENCE OF POSTAL OFFICIALS

Hon. Charles Murphy Wants to Talk Over Canadian Service.

Ottawa, Sept. 11.—With a view of interchange of ideas and improvement of the postal service generally, Hon. Chas. Murphy, postmaster general, has called a representative dominion conference of postal district officials to be held in Ottawa, beginning on Monday, Oct. 2, and continuing on the two following days. The conference is the first of its kind and the calling of further conferences will depend altogether upon the success of the initial one.

A pleasing feature at the opening of the Sunday school session in St. David's school yesterday afternoon was the presentation of a beautiful wardrobe steamer trunk to Miss Jean H. Sommerville who leaves the city next week to take up work in the mission field at Honan, China. Mrs. R. A. Jamieson, on behalf of teachers and officers, and Miss Gladys Jardine, president of the C. G. I. T., made appropriate addresses, full of good cheer and encouragement, while Robert Reid, superintendent of the Sunday school, in a few very happy remarks, made the presentation. Miss Sommerville replied briefly, thanking her fellow-workers for their great kindness.

DETECTIVE SHOTS GIRL, THEN HIMSELF

Model Who Refused Suitor's Plea That She Marry, Although Wounded Twice, Will Live.

New York, Sept. 11.—Detective Alfred J. Bliss of the East Thirty-fourth street station sent two bullets into his sweet-heart because she refused to marry him and fired a third through his own brain. The girl will live. He will die. Bliss' victim was Miss Dorothy Bright, twenty-six years old, a model, who shares a ground-floor apartment at 8117 Broadway, at 124th street, with Mrs. Madeline Elwood and Mrs. Helen Carlin. The shooting occurred in the apartment.

Miss Bright is in Knickerbocker Hospital with two flesh wounds in the right breast. Bliss is there, a prisoner, charged with felonious assault. Surgeons said he could not live ten hours.

The detective had a family home at 256 Elm street, Brooklyn, but had been renting a room for the last six months from Mrs. Fleischman on an upper floor of the apartment house in which Miss Bright lived. The detective, who is about thirty-eight years old and has been on the force for fifteen years, met Miss Bright about two years ago. He pressed his suit. A month ago he asked her to marry him. She refused.

On Tuesday night Bliss went to the ground floor apartment, played pinocchle until daylight and left, apparently in high spirits. He returned next night, asked for Miss Bright and was told to sit down and wait as she was dressing. When the young woman entered the living room she found Bliss pale and nervous. As he rose to greet her, he said: "Well, Dot, I'm going to California for a visit; you have changed your mind?"

"No," she answered. "I can't marry you."

"Then you'll never marry anyone else?" cried the detective, pulling his right hand from his coat pocket and displaying a pistol.

Before the girl could move, the firing pin had clicked on a defective shell. That made Miss Bright think the man was joking, so she said to him with a smile: "Now, Al, don't do anything you'll be sorry for."

Bliss' trigger finger worked again. This time a bullet sped into the girl's breast. It was a glancing shot, as was the next one. She tumbled to the floor, semi-conscious.

Bliss looked at her, then pressed the muzzle to his temple and fired. He fell downward, still holding the pistol, and lay still.

An elevator man called a policeman, and the pair were rushed to Knickerbocker Hospital. There detectives got a statement from Bliss' victim, then went through the formality of arresting her assailant, though they never expected him to leave the hospital alive.

COSGROVE ELECTED PRESIDENT OF DAIL

(Canadian Press Despatch)
Dublin, Sept. 11.—William T. Cosgrove, minister of local government, was elected president of the Dail by the new parliament at its inaugural session today. The only vote cast against him were by the labor members.

After the election, President Cosgrove nominated Desmond Fitzgerald as minister of foreign affairs and Fitzgerald was elected.

The remaining ministers were appointed as follows: Minister of home affairs, Kevin O'Higgins; minister of local government, Ernest Blythe; minister of agriculture, Patrick Hogan; minister of industry, commerce and labor, Joseph McGrath; minister of education, Prof. John McNeill; minister of defence, General Richard Mulcahy; postmaster general, J. J. Walsh; ministers without portfolio, Eamon J. Duggan and Finian Lynch.

The labor vote was cast solidly against the appointment of Walsh as postmaster general.

President Cosgrove nominated himself for the present as minister of finance.

He said that those of the ministry who were serving in the army would shortly be released.

Professor Michael Hayes was elected speaker without opposition.

key, French pastry shops do more harm than the saloons ever did. Continued use of heavy sweets between meals will soon make a healthy, normal man a diabetic subject.

It was announced by the Federation of Jewish Philanthropies that the Mount Sinai Hospital has worked out a new medical treatment for diabetes which in the main frees the patient of sugar without causing him to lose weight. This system of dietary control, it was said, was first discovered at the Mayo clinic, Rochester, Minn.

FEARS NATION OF DIABETICS.

Dr. Emmanuel Conseiler of the Federation of Jewish Philanthropies, Lebanon Hospital, New York, declared in a statement that prohibition and the resulting influx of confectionery and French pastry shops are making America a nation of diabetics, says the New York Times. He explained that with the withdrawal of alcoholic drinks the men of the country have turned to sugar as a substitute. This phenomenon, he said, was the logical result of a biological law. "Take drink away from man," said Dr. Donhoffer, "and he will naturally turn to something else as a substitute. His craving for sweets is thus intensified. He becomes an inveterate candy eater and a constant muncher of pastries. A person is harmed more physically by partaking a French pastry shop than he ever was by going in a saloon and drinking a glass of beer or light wine. Leaving out the selling of white

30,000 Extra Leaves

The arrival of EATMOR—the bread that's flavored with the full creaminess of the wheat—signals the crowning success of over twenty years serving the public taste.

30,000 extra leaves are now being baked monthly in Robinson's Kitchens—an enormous increase in a normally quiet time for bakers.

Figures and facts favor Robinson's Breads, which are enjoyed every day from Yarmouth to Quebec, and are now distinguished for the sixth time by a loaf of individual character. A flavor for every appetite, health and economy for all.

For a keener, creamier-flavored flavor, invite EATMOR to your table.

RECENT DEATHS

Rev. J. J. Graham.

Grand Falls, Sept. 10.—The death of Rev. John J. Graham, pastor of the Presbyterian church, which occurred at the manse last evening, was a great shock to the community. Mr. Graham was in his usual health until late in the afternoon, when he complained of a severe pain in his chest. Early in the evening he went to bed and passed away about 8:30 o'clock.

Mr. Graham was forty-six years of age and was born in Belfast, Ireland. After coming to Canada he lived for some time in Alberta. He was ordained to the ministry in April, 1919, and was pastor of the Presbyterian church in Hampton until he came here in January, 1921.

Mr. Graham was twice married. Of his first family he leaves one son, Victor, of Montreal; two daughters, Misses Grace and Margaret, in Calgary. By his second wife, who survives him, he had one little daughter, Annie. His mother and three sisters live in England, a sister lives in Australia and two brothers live in the United States.

Miss Margaret Connolly.

The death of Miss Margaret Connolly occurred at her residence, 291 City Line, on Sunday, Sept. 10, and will be heard of with sincere regret. Miss Connolly was a life-long resident of the west side and had a wide circle of friends. She was of a quiet and retiring disposition and very highly regarded. She was the daughter of the late John and Mary Connolly and is survived by one brother, John, and one sister, Mary, both at home. The funeral will take place on Tuesday morning from her late residence to the Church of the Assumption.

Stephen A. Cunningham.

The death of Stephen A. Cunningham occurred last evening at his residence, 280 Prince street, west side, after an illness lasting only about six weeks. Mr. Cunningham's death will come as a great shock to his wide circle of friends, as up to a few weeks ago he was robust and healthy in appearance. Mr. Cunningham was a native of this city and his loss will be sincerely mourned, as he was highly respected by all who knew him. He leaves his wife, four sons, Percy M., of Welland (Ont.); William J., of Montreal; Frederick A. and Armand W., of this city; one daughter, Mrs. E. O. Heans; also two brothers, William J. and Robert, of this city; and one sister, Mrs. Isaac Fawcett, of East St. John.

How Many Suits to a School Term?

That depends just a little on the boy, but it really depends more on the suit.

"Klothklad" Suits are tailored for active boy wear; made as stylish and durable as suits can be made.

An extra feature about these fine cloths is—they are made double at all the places that usually break through first—elbows, seat and knees.

When the first sign of wear begins to show, if the worn spot is stitched solidly down to the under piece, the suit will wear as long again as an ordinary one.

By choosing "Klothklads" for your boy, you can be assured of a well dressed lad all through the school term.

All sizes from 8 to 18 years.

\$10 to \$18.50

DR. MORI, FAMOUS TOKIO SCHOLAR, DEAD

Tokio, Sept. 11.—Dr. Rintaro Mori, president of the Imperial Museum and a famous surgeon and writer, is dead, after a long illness. He was once surgeon-general but will be remembered best for his valuable literary work. In the opinion of Dr. Roban Kota, the distinguished writer, Dr. Mori was a pioneer in the introduction of German literature to the Japanese reading public.

"An idea of the part which Dr. Mori took in introducing German literature to Japan," said Dr. Kota, "can be had by noting that most of the German scholars in the early days of Meiji took up the study of German literature under the influence of Dr. Mori. He produced many translations, the best known of which is that of Goethe's 'Faust.' He also was a keen art critic, and the many critical studies which he wrote were enthusiastically read by young men. He was a great lover of the arts, and he was more greatly attracted by sculpture than by paintings."

At the time of his death Dr. Mori was collecting material for a book on ancient and modern philosophy.

It was announced at the masses in the Cathedral of the Immaculate Conception that the proceeds from the Cathedral Sunday school picnic amounted to the sum of \$2,835. It was also announced that the collection which was taken up in the Cathedral on Sunday, Sept. 3, in aid of the Basilica at St. Anne de Beauport, amounted to \$871.

KING GOVERNMENT ANNOUNCES POLICY RE IMMIGRATION

Canada's new immigration policy is finally approved by the cabinet in its final outline as follows:

"The government of Canada has been giving attention to the whole question of immigration and the minister, Hon. Mr. Stewart, in the House of Commons, having in mind the statement of the prime minister that our agricultural settlers must be carefully selected in the country of origin, wisely directed to the ranks of the unemployed in our cities and so placed on the land that they will become substantial citizens of the Dominion, decided that the first thing to do is to have a survey of conditions existing in the countries from which we might expect to derive our settlers as well as throughout Canada.

"In order to co-ordinate the efforts of officials in Canada so as to secure the best class of settlers and locate them on land where they will have the best chance to succeed, the minister has reviewed the provincial governments and discussed the question very thoroughly with them and has succeeded in securing their hearty co-operation in this work.

"Later a conference will be called at Ottawa of representative officials of those governments and field officers of the department of immigration at which a definite programme will be set out for each year's activities. There is a tendency in some quarters to ask why the volume of immigration is not larger and to urge that it be increased. The government could open the gates and greatly increase the number of immigrants coming from Great Britain and the continent where there are many thousands of artisans, professional men, jewelers, etc., who would gladly come to Canada. If Canada had more places for city workers these would make most desirable citizens but in the present state of affairs it is deemed unwise to add still more to the numbers looking for work in the cities.

"Our activities for the present must therefore be confined to people who will engage in agriculture, household work, and to 'teen' age boys and girls. A committee representing the department has had many conferences with the Canadian Colonization Association, an organization backed by private capital, which is going to employ the annually a large acreage of lands lying adjacent to the railways in Canada.

"This organization is endeavoring to work in conjunction with the British overseas settlement scheme, as well as bringing settlers by means from Great Britain, United States, Scandinavia and the continent.

"They will also encourage emigration from our cities to the country. The government will assist them with a grant in order that they may thoroughly organize their welfare scheme.

For Northern Canada

"The department of immigration will make a strong drive to secure agricultural workers and settlers who will go upon our free lands located in the northern portions of Canada. The department hopes to work out this scheme in co-operation with the provincial governments, which will assist in the direction of those very desirable settlers when they arrive within the provinces. It is hoped they can be settled in congenial surroundings so far as schools, churches and social activities are concerned.

"A very important field in the opinion of the minister, is that of bringing in immigrants to Canada carefully selected boys and girls from Great Britain, J. Bogue Smart, who is in charge of the juvenile work, has just returned from Great Britain and reports that there are a very large number of desirable children who can be brought to Canada, and he is now engaged in view of the splendid crops which have been harvested this year throughout Canada and which will materially improve conditions.

"Another promising field is the repatriation of many of our splendid Canadian people who in recent years have gone to the New England states. It is hoped to attract a very large number of them back to their native provinces as well as to Western Canada.

"The minister is very optimistic with respect to the future, especially in view of the splendid crops which have been harvested this year throughout Canada and which will materially improve conditions. A continuation of our present prosperous conditions will undoubtedly in the near future make it possible to absorb not only agricultural workers but all those in other walks of life who are anxious to come to Canada from Great Britain and elsewhere.

ITALIANS TO GO TO CANADA

Rome Plans to Send Only Type of Immigrant Wanted There

Montreal, Sept. 11.—A huge colonization scheme to settle Italian emigrants in Canada is projected by the government of Italy, which has sent Joseph De Michelis, general commissioner of emigration, to make a minute survey of industrial and agricultural conditions in the Dominion with the view to ascertaining the quota and the type of immigrant most needed here.

Mr. De Michelis passed through Montreal en route to Ottawa, where he will meet members of the cabinet and confer with department heads of the department of labor and immigration. Following these meetings he will cover each of the provinces from Ontario westward, accompanied by Italian consul, Italian consul to Canada, Mr. De Michelis said only the type of settler wanted in Canada would be sent.

When Mr. De Michelis completes his survey of Canada he will make a similar one of the United States, but the field in Canada is believed to be the wider in view of the immigration restrictions of the United States.

SON KILLS FATHER, THEN SURRENDERS

Shoots Him Sitting at Desk in Kansas City Office After Renewal of an Old Quarrel.

Kansas City, Mo., Sept. 11.—J. W. Garvey, an insurance man, was shot and killed by his son and business partner, Roy B. Garvey, in the father's office, after firing the shots the younger Garvey walked from the office building to police headquarters. He entered the office of Louis Oppenstein, police commissioner.

"Is this the chief of police," he asked Mr. Oppenstein. Oppenstein took him into the office of Captain Frank H. Anderson, acting chief, where Garvey repeated his question. "I want to see you on business," Garvey said quietly. "I shoot my father. The irascible tempers of both father and son were blamed by friends and business associates who went to the office after the slaying, but various reasons were given for the quarrel which preceded the shooting. It is known that a bitter renewal of a quarrel which has been smoldering for weeks occurred. The immediate cause of its renewal was the discharge of Mrs. Helen Groh, a stenographer, by the elder Mr. Garvey. Roy Garvey refused to make a written statement.

"Father had been abusing my mother for some time," he told Captain Anderson. "I told him the last time that if he occurred again I would take up the matter."

He refused to go into details of the quarrel with his father. "This morning when I went to the office," he continued, "I found my father had discharged our stenographer, Mrs. Groh. I asked him why he had done it. He told me that I was the cause of it. It is nothing to me, father replied."

"You couldn't do with her as you have done with other stenographers," Garvey declared he told his father. "I'll make you eat those words," my father replied. "I've got something to make you."

Garvey said his father then opened the drawer of the desk at which he was sitting with his left hand and moved his right hand toward the open drawer. "So I pulled out my pistol and shot him," Garvey said. "Then I threw my revolver on the table and came to police headquarters."

Nine empty shells from a .32 caliber automatic were found in the Garvey office by detectives. Four bullets also were found.

IS REVENGED AFTER SIX YEARS

Woman Who Suffered Loss of Eye Finds Alleged Assailant.

New York, Sept. 11.—Six years ago when Joseph Cardello fled this city after he was alleged to have attacked Mrs. Annie Tackolo of 83 Goreck street, destroying the sight of her right eye, a woman vowed that somehow and sometime she would bring him to justice. An indictment charging a common law assault was returned against Cardello, who at the time of his disappearance sold his grocery store on the ground floor of the Goreck street address.

At regular intervals, Mrs. Tackolo visited the detectives at the Clinton street station and told them she was spending the surplus of her husband's earnings in the quest for the alleged assailant. Last week she called on Detective Sergeant Charles Rosenberg at the station and told him she was certain she had located Cardello. She said she had learned that he was about to sell a grocery store he owned at 425 Wood street, Bristol, R. I. On her suggestion a woman friend was sent to Bristol to identify the grocer for the police of that city.

Cardello was found and arrested. Detective Sergeant Rosenberg went to Bristol with extradition papers, took the fugitive into custody and locked him up in the Tombs pending arraignment in general sessions.

Rathburne was charged with selling liquor illegally, and a fine of \$200 and costs was imposed on him. He failed to pay up and was sent to the county jail for six months. P. J. Hughes, K. C. acted for the crown and J. J. F. Winslow, K. C. for the defence.

THRESHING IS WELL ADVANCED IN WEST

Edmonton, Alta., Sept. 9.—Golden streaks of wheat are commencing to pour in the elevators in every district in Central and Northern Alberta, cutting has been practically completed, threshing is well advanced, and many farmers are already hauling their grain to market. Threshing outfits are busy all over the province, and there appears to be no shortage of harvest help. Crops are short in some districts, particularly to the north, but generally speaking the yield is measuring up fairly well.

TOMB AND LIGHTHOUSE IN HONOR OF COLUMBUS

Santo Domingo, Sept. 11.—The French Minister to Santo Domingo has been advised by his home government that France is disposed to join with other countries in contributing to the erection of a great tomb and lighthouse in honor of Christopher Columbus.

The movement for the erection of a Columbus lighthouse memorial in Santo Domingo, where it is contended by many historians, the remains of Columbus lie, was temporarily abandoned during the world war.

Corns Go

Just say Blue-jay to your druggist

The simplest way to end a corn is Blue-jay. A touch stops the pain instantly. Then the corn loosens and comes out in a coffee or gray clear liquid (one drop does it) and in extra thin plasters. The action is the same.

AN OLD RECIPE TO DARKEN HAIR

Common garden Sage and Sulphur makes streaked, faded or gray hair dark and youthful at once.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair. It is a coffee or gray clear liquid (one drop does it) and in extra thin plasters. The action is the same.

SPRUCE LAKE GATE HOUSE WALL BREAKS

The wall of the gate house at Spruce Lake collapsed early yesterday and a gang of twelve men under the direction of Commissioner Wynnes worked continuously from 6 o'clock in the morning until early last evening repairing damage. The two 24-inch masts were shut off and the west side was fed from the reservoir on Lancaster Heights. It is 4 o'clock before the gates could be shut and work of repairing went forward rapidly.

Be Careful What You Wash Your Hair With

Don't use prepared shampoos or anything else that contains too much alkali, for this is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is plain Mulled coconut oil shampoo, for it is pure and entirely greaseless. It's very cheap and beats anything else all the way. You can get Mulled at my drug store, and a few ounces will last the whole family for months.

KING INTERCEDES FOR MAN WHO WOULD ATTACK HIM

London, Aug. 23.—(Associated Press by Mail)—The moment ex-Police Inspector Syme gets out of jail he starts for Buckingham Palace with a brick and hangs around waiting for a chance to throw it at the king or some member of the royal family.

Syme was dismissed from the police force some thirteen years ago and at once developed into a crank with a grievance. He has been agitating against the authorities ever since and has been imprisoned repeatedly for trying to create a disturbance. When he is locked up he starts hunger-striking. When the prison doctors think he has gone hungry as long as he can do safely, he is released.

YESTERDAY IN CITY CHURCHES

The services in the city churches were held on Atlantic standard time yesterday, and each congregation assembled in its own church, union services having been discontinued. Sunday schools were reorganized, and in some cases a change was made from a morning session of Sunday school to an afternoon session. Larger congregations marked the return of some of those who spend their summers outside the city and come back to St. John with the re-opening of the city schools.

Several distinguished visitors were among the clergy who were heard from the pulpits of the various churches, and Rev. A. Robbins was welcomed to his new pastorate, the Ludlow street Baptist church.

Rev. J. H. MacVicar, on furlough from Honan, China, was the preacher in St. Andrew's church in the morning and in St. David's church in the evening.

Rev. Dr. D. J. Fraser, principal of Montreal College, delivered an eloquent sermon in Knox Presbyterian church in the morning. The morning service in Knox Presbyterian church was preached by Rev. R. J. Miller, of Debec, who is visiting in St. John.

Rev. J. A. Sweetnam, pastor of the Waterloo street Baptist church, occupied the pulpit of the church in the morning. He was joined by a large congregation of his own return from his vacations.

At the morning service the pastor gave a full report of the Maritime Baptist convention held at Wolfville a few weeks ago. This was both interesting and helpful. At the evening service the pastor gave a full report of the challenge of today to the church. That challenge, he said, was first to show the people God's second to proclaim the truth that the church is the church, and third to stop the wastage within the church.

A most cordial welcome was extended to Rev. W. A. Robbins when he entered the church, and he called for the members of the congregation to reconsecrate their lives for definite Christian service in the coming year. During the evening service, John W. Mott sang the solo, "Beautiful Land on High."

Who Pays For Advertising?

THIS is a direct and reasonable question; and in the case of Daily Newspaper advertising, intelligently used, the answer is simple: Nobody. It pays its own way.

Nobody pays for the new car-buretor that gives added mileage to your motor car. It pays for itself in the gasoline it saves.

Nobody pays for an improved cash system in a modern department store. It pays for itself in economy of human time.

Nobody pays for well planned and written Daily Newspaper advertising. It pays for itself by reducing the cost of sales and by increasing production. And it often receipts old bills for folies with advertising labels.

The advertisement in your own local Daily Newspaper tells you the best things to buy and where to buy them. Every new purchase helps the whole community to command cheaper and better goods.

IGNORING SUPERSTITION. (Vancouver World.)

In formally opening the Vancouver Exhibition, the Rt. Hon. Arthur Meighen, in the course of a happy speech, thought it necessary to allude to the fact that this was the "thirtieth" annual fair, and to make some desecrating remarks on the popular association of the figure 13 with ill-luck. No one would for a moment suppose that Mr. Meighen believes there is any relation between 13 intelligent men believes such an absurdity. Even sensible men of undeveloped intelligence have done this commensurate with their powers of observation.

The idea that ill-luck in any way associated with certain numbers, days, or objects, could not exist after education became possible for the masses. Foolish superstitions wither in the bright light of knowledge. The "thirteen" superstition seems to be the one that dies hardest. One sure way to help it on its way to inevitable dissolution would be for public men to refrain from alluding to it in any way. They would thus set a good example to those newspapers which do so much to keep "unlucky thirteen" in the public mind, by calling particular attention to accidents happening on that date.

A benevolent conspiracy of silence would rescue "thirteen" from undeserved obliquity in one generation for though silly superstition thrives on ignorance, it cannot live if ignored.

Who Pays For Advertising?

THIS is a direct and reasonable question; and in the case of Daily Newspaper advertising, intelligently used, the answer is simple: Nobody. It pays its own way.

The National Land Settlement Plan

THE PROBLEM AND THE SOLUTION.

The British and Canadian Governments have joined with the Canada Colonization Association and the Canadian Railways in a co-ordinated land settlement plan covering all the Provinces. An efficient colonization machine is being set up and will begin to operate forthwith. Colonization in Canada has been at a comparative standstill ever since 1918. Yet nothing is clearer than that effective land settlement on a comprehensive scale is the only available solution of the country's pressing economic and financial problems. By increasing the farming population and agricultural production throughout Canada, we shall lower freight rates, stimulate business, lighten the burden of the national debt to every individual family, lessen Federal, Provincial, and Municipal taxation, and go far to eliminate the serious annual deficit on the National Railways.

BRITISH AND EUROPEAN SETTLERS.

The Western Canada Colonization Association has made a thorough study of the situation and is, therefore, in a position to speak with authority. According to first-hand information gathered by representatives of the Western Canada Colonization Association, who have just returned from the British Isles, it will be possible to draw from England, Scotland and Ireland a steady flow of the splendid British stock, which has been the back-bone of Canadian development in the past, and which is essential to future Canadian development on the soundest lines. A considerable number of hardy settlers is also available in approved Northern European countries. Thousands of people in Switzerland, Denmark, Norway, Iceland and other countries, who are forced by economic conditions to seek new homes, and carve out new careers in distant lands, can be induced to migrate to Canada.

AMERICAN SETTLERS.

Large numbers of American farmers who purchased or rented land at high prices during the boom period of the past five years, find themselves embarrassed by the recent declines in the quotations on farm products. Many of them who are unable to carry on in their present field still possess their farming equipment and sufficient money to assist them in starting afresh in a new country. The existence of such conditions over large areas in the United States has presented this country with a remarkable opportunity to obtain a considerable body of high-class settlers accustomed to agricultural life.

DIRECTION FOR NEW-COMERS.

The situation demands a vigorous, sustained and intelligently directed effort to revive the stream of immigration, and to foster and nurse the new arrivals until they take root under changed conditions. Under the plan now announced, the Canada Colonization Association hereafter defined, will take over these newcomers on arrival, assist them in the selection of land, and look after them during the initial period of their pioneer venture. The Association will be in a position, impartially, to advise settlers as to the land and the locality for which their previous training, and their financial standing, best fit them, and to guide those entirely unfamiliar with Canadian methods of farming. The Association will, in fact, bridge the gulf between a miscellaneous collection of would-be settlers, and a miscellaneous collection of would-be vendors, utilizing the local land agents as far as possible, but co-ordinating their work instead of having a multiplicity of efforts working at cross purposes.

BRITISH FARM LABOURERS AVAILABLE.

One of the most serious difficulties faced by the Canadian farmer today is the scarcity—in many cases the entire absence—of help in the farm house and on the land. Thousands of married farm labourers can be secured in England, Scotland and Ireland for Canadian farmers, who will provide them with a small house and garden plot, and permit them to keep a cow, pigs and some poultry. The British farm labourer, thoroughly trained in intensive Old Country methods, will thus have the opportunity of familiarizing himself with agricultural practice in this country. Thrifty in their habits, he and his wife will probably be able to lay aside a little money, and in the course of a few years set up for themselves as proprietary farmers on a farm of their own. The Association will prepare lists of farmers who wish to secure help on this basis, and put them in touch with British farm labourers desirous of coming to Canada.

URBAN SOURCES OF SETTLEMENT.

It will also be possible to inaugurate a considerable movement "back to the land" of experienced farmers now resident in the cities of Canada. Hundreds of urban workers trained on the land have put aside a little money, and will be glad, with assistance, to resume their former agricultural activities. The fact is, that the majority of Continental Europeans, now resident in Canadian cities, migrated to the Dominion with a view of tilling the soil. By force of circumstances they have drifted to the urban centers, and many of them would gladly return to the occupation from whence they sprang, if they only knew how. The Association is to aid in showing them the way.

SETTLERS AND LAND AVAILABLE.

There is, therefore, no doubt about the availability in large numbers of the right kind of settlers. The land also is available. Thousands of absentee owners of unoccupied lands along the railways are tired of paying heavy taxes and super taxes on these unproductive holdings, and would gladly dispose of their property at prices and on terms which would facilitate purchase by incoming settlers. This assertion is based on actual consultation with experienced land agents with land owners who have expressed their readiness to list their properties on the long-term payment plan embodied in this National Land Settlement Scheme. The thousands of private individuals who own the unoccupied lands along the railways are unorganized, and therefore helpless to dispose of their holdings. The community is equally helpless in face of an unsolved problem. The nation suffers because many millions of acres of the most fertile and best-situated land in the country remains out of production. The immediate task is to bring these idle areas under the plough—to bring land owners and settlers together by means of a workable plan which will operate to their mutual advantage, and to the advantage of the whole Dominion.

JOINT ACTION NECESSARY.

Prairie homesteads accessible to transportation facilities are no longer available as an inducement to settlers willing to buy adjacent privately-owned lands, and as a magnet to draw experienced farmers from other parts of the world. Large blocks of land were once held by private speculators, who bent every endeavour to bring about their settlement. These extensive holdings have disappeared, together with the land companies which were largely responsible for Western Canadian settlement in the past. Public spirit must now take the place of profits. The incentive in these days must be furnished by a vigorous organization, which because of its soundness and public service, can command the support of the community and Government.

NEW MAGNET NEEDED TO REPLACE HOMESTEADS.

There must be, in addition, a new magnet to inaugurate a fresh flow of settlers from every available source. Such a lure will be provided by our offer of fertile lands close to railways, schools, churches, and other public conveniences. We can submit to the agriculturists of other countries a more attractive opportunity than is open to them in their old homesteads. In short, it is proposed to place the immigrant in immediate possession of a property of his own. It is the offer of taking thirty-two years to pay for it, if he so desires.

THIRTY-TWO YEAR PAYMENT PLAN.

In the Western Provinces alone upwards of twenty million acres of first-class agricultural land are available within ten miles of transportation. In the Eastern Provinces—particularly in Ontario, Quebec, New Brunswick and Nova Scotia—is also to be found an extensive acreage of good, unbroken land. In the older settled areas of the country, and the selection of its economic room for closer settlement and intensive farming. A certain number of improved farms are to be had on reasonable terms in old-established communities.

A NATIONAL SALES AGENCY.

The Canada Colonization Association has been formed as a subsidiary of the Western Canada Colonization Association to carry on land settlement on this extended payment basis, and to act in an administrative and trustee capacity for both the land owners and the incoming settlers. The Canada Colonization Association (like the Western Canada Colonization Association) is a national organization working for the good of the country, and the solution of its economic problems. It is a non-profit-making enterprise, and should there be any revenue in excess of operating costs, such surplus income will be devoted to the promotion of a national task for which the parent organization was created.

TERMS OF LAND LISTING AND SALE.

As already indicated, the chief business of the Canada Colonization Association will be to assist Government agents, Railways and private land owners in finding settlers for the land listed; in bringing the prospective Vendor and the prospective settler together, and in completing the sale of the land on the Eastern Provinces will be sold upon varied terms, dictated by local conditions. Land in the Western Provinces will be sold on a thirty-two (32) year payment basis as follows—

EXAMPLE—QUARTER SECTION. 32-YEAR SETTLER'S SALES AGREEMENT.

On Amortization Basis. Price, \$20.00 per acre. Total consideration, \$2,800.00.

TERMS: \$20.00 or \$2.00 per acre cash down, leaving a balance of \$2,800.00 due on principal.

No interest or principal will be payable the first or second year. Interest for these two years at the rate of 8% will be added to the principal balance of \$2,800.00, making a total of \$3,226.60. Commencing with the third year this balance of \$3,226.60, with interest at six percent (6%), will be payable on a thirty (30) year amortization basis; that is, the entire amount of principal and of interest for the whole period will be spread over the whole thirty (30) years, and paid in fixed equal annual instalments of \$284.24 each, as follows:—

The purchaser reserves the right to pay any additional instalment or to suspend them for a period of not more than six months, and interest shall cease on the amount so paid. If the purchaser exercises this right the Vendor shall pay to the Canada Colonization Association one percent (1%) per annum on the amount so suspended until it is paid in full. The Vendor shall be entitled to a discount of five percent (5%) on the payments so made.

Under the contract the settler will be obligated to bank up a reasonable amount each year, and to improve the property that at the end of ten years he will carry a mortgage indebted to pay the Vendor.

FIVE YEAR LISTING.

Plan owners of vacant land will list their property for a five year period. The price, fixed by the owners, will be good for two years, but the owner will have the option of adding taxes and interest at six percent (6%) each year thereafter that the land remains unsold. The owner may retain the right of independent sale to an actual settler and withdraw his listing once the settler is in occupation of the property.

As an inducement to the owners of land within fifteen miles of any railway line to list such property under our thirty-two year payment plan, they should be able to get their full contract price out of the property at the end of the first ten years, or in any subsequent year. In order to provide them with this income the Canada Colonization Association will endeavour to arrange with existing mortgage corporations for the issue of mortgages covering the money still owing under the contract, or the Canada Colonization Association may undertake the issue of debentures on mortgage security, so that the Vendor may be paid off at the end of the ten years.

SOURCES OF REVENUE.

The Canada Colonization Association shall sell the land to the settler at the same price, and on the same terms as listed by the Vendor. Unless otherwise agreed, the Vendor shall pay the Canada Colonization Association a commission of 20 per cent out of the cash down payment and first instalments received from the settler. In addition thereto the Vendor shall pay as collected, one percent (1%) annual interest for the deferred principal consideration, which shall be the full compensation to be received by the Canada Colonization Association on account of inspection, sale, supervision, and such other services as may be rendered.

LAND AGENTS ON BOTH SIDES OF THE BORDER.

So far as American immigration is concerned, the active co-operation of local land agents on both sides of the International Boundary is recognized as essential to the success of agencies must be offered inducements which will enlist their services in re-establishing a movement of population to Canada's vacant lands, similar to that which prevailed prior to the war.

THE AMERICAN LAND MAN.

In the judgment of colonization experts who know the American field, it will be impossible without the assistance of these land men, to inaugurate a fresh flow of farmers to Canada. Years have passed since the American land agent withdrew his attention from this country, partly because of the practical disappearance of large corporations dealing in Canadian lands, and partly because the Canadian railways cut off his special transportation facilities. For a long time he has devoted his energies to the settlement of vacant areas in Texas and other Southern States. In the Canada Colonization Association there has been provided a machine which will draw the American land agent back into the Canadian field on a commercial basis.

PROPOSED INDUCEMENT.

In order to create an effective land selling organization, the American agent who finds the prospective purchaser must accompany him to Canada in securing the property, and completing the sale. If the land agent has to pay the existing high railway rates, he will be unable to go to the Canadian border. The Canada Colonization Association will make a rebate of the American Agent's fare to the Canadian border, and it is proposed that the Canadian Railways grant to every such agent in charge of two or more bona fide settlers a pass, or the equivalent thereof in money, from the Canadian border to the point of destination in Canada and return. Given such concession, the land men in the United States will be willing to work for a commission of \$1.00 an acre on land actually sold to settlers originated by them.

THE LOCAL CANADIAN LAND MAN.

The active co-operation of the local Canadian land man is also necessary. He is familiar with the conditions in his district, and is in a position to assist expeditiously in showing lands to prospective settlers. For this service he will be paid a commission of 50 cents per acre on all land actually sold, partly through his instrumentality.

The gross revenue of the Canada Colonization Association will consist of the \$2.00 per acre commission on land sales, and a 1% interest for 2 years in land contracts. The payment of \$1.00 per acre to the American land agent and 50c to the local agent will leave 50c per acre, together with the revenue received from the 1% interest charge for overhead administration expenditures.

LAND AND SETTLERS FULLY SELECTED.

The Inspectors of the Canada Colonization Association will devote a portion of their energies to the careful and wise selection of both the lands to be occupied and of the settlers to be located. Besides subjecting the lands listed for sale to close scrutiny, as regards their fertility, and their proximity to transportation, and other facilities, these officials will have the final voice in selecting applicants for inclusion in the land settlement plan.

The Canada Colonization Association will, moreover, act as an intermediary between the Vendor and the settler. It will protect the interests of both. Its inspectors will keep a watchful eye on the Vendor's property in the hands of the settlers. It will endeavour to assist the settler in hiding over loan years by getting the Vendor to consent to postponements of principal

and interest payments. On the other hand, in cases where the settler wholly and finally fails to live up to his agreement, the Association will turn back the land to the Vendor. In such cases, however, the Association will exert its utmost efforts to secure a new and satisfactory settler for the property thus vacated. These activities on the part of the Association's inspectors will tend to impart a sense of security to the private owners who have sold their land, so that other property owners will be encouraged to dispose of their vacant holdings through the same channel.

At the outset the Association will endeavour to settle a number of carefully-selected, well-situated districts—the areas thus covered to be gradually expanded as the rising number of incoming settlers warrants.

THE QUESTION OF FINANCE.

The Western Canada Colonization Association will finance the Canada Colonization Association for the initial period of its operation and until its own activities bring in sufficient revenue to meet selling and administrative costs.

THE RAILWAYS.

It will be greatly to the advantage of the Canadian Railways to grant radically reduced transportation rates for settlers and settlers' effects bound for Canadian farms. The railways will be the first to benefit from a new influx of farmers, a single one of whom, according to a high authority, is worth \$734.00 per annum to the transportation companies. If the vast idle areas close to the companies' lines are brought under cultivation the railways will greatly increase their earnings, and so be able to carry out necessary maintenance work, and generally recover the ground lost since 1913, largely through the stoppage of immigration by the war. It should not be forgotten that but for the war the population of Canada would be two or three millions larger than it is today. In the light of such considerations the railways are to be co-ordinated their immigration activities with those of the Association; (2) Provide special transportation rates for settlers, settlers' effects and colonization agents; and (3) Place representatives on the Board of the Association.

THE DOMINION GOVERNMENT.

The Dominion Government is vitally interested in the development of a progressive colonization policy. Several months ago, the Hon. W. L. Mackenzie King appointed Hon. Charles Stewart, Senator Dandurand, Senator Bostock, and Hon. T. A. Low a committee of the Cabinet on Immigration. Mr. Stewart and his colleagues have given much study to the subject and have held numerous conferences with their Departmental experts and the officials of the Canada Colonization Association, with a view to formulating a co-ordinated land settlement policy which would solve the vacant land problem and meet the needs of the whole country. As a result of these conferences the Federal Government will take the leading part in the present co-ordinated land settlement plan, and will (1) Maintain and extend its agencies in Great Britain, the United States and other countries to promote an increasing flow of selected settlers to Canadian farms, and (2) Carry on an effective advertising campaign for agricultural settlers in Great Britain, the United States and other approved countries.

THE PROVINCIAL GOVERNMENTS.

The Provincial Governments stand to benefit materially from such a movement of population as it is proposed to inaugurate. From the standpoint of revenue alone they are naturally desirous of increased population. The greater the number of producing farmers, the easier it will be to finance improved roads, rural telephones, schools, churches, and other instruments of civilization. Legislators have long deplored the burden imposed upon their Provinces by the millions of acres of privately owned land along the railways held out of production by absentee owners. The Provincial Governments recognize the need of some such national plan as that herein outlined to bring the idle areas under the plough. For these reasons it is proposed that the Provincial Governments (1) Assist in selecting suitable districts for settlements, and (2) Use their District Agricultural Representatives in giving expert advice to new settlers.

THE IMPERIAL GOVERNMENT.

The Imperial Government, acting through the Overseas Settlement Board, will financially assist the Canada Colonization Association in caring for British settlers until they become thoroughly established as successful farmers.

THE CANADA COLONIZATION ASSOCIATION.

The Canada Colonization Association was created to meet a need of the times. Business men in the West and the East alike realized the necessity of a largely increased population on the land as a direct means of solving the country's economic problems. They recognized that there were some aspects of colonization work which could not be dealt with by Governments and that a national organization, financed by private contributions and non-profit sharing in character, was required to co-ordinate all available immigration forces. The originally contemplated working capital of \$1,500,000 had been largely over-subscribed. The Association with between \$30,000,000 and \$40,000,000—an income which will enable it to carry on the business of actual land settlement and welfare work on behalf of the settlers on a scale commensurate with the needs of the country. The Association will immediately establish a national welfare organization for the benefit of incoming settlers. The cost of this particular branch of the work will be borne jointly by the Imperial Government, the Federal Government and the Association. Immigrants will be received at ports of entry, and community clubs will be established throughout the several provinces, with one General Supervisor for the West, one General Supervisor for the East, Provincial Supervisors and Local Secretaries. Each of these local community clubs will—

- (a) Prepare a chart of its particular district which will indicate occupied and unoccupied farms, together with their proximity to highways, railways, railway stations, churches, schools, telephone lines, and other sources of civilization. The chart will also show the number of settlers in the district, their nationality, and their location in regard to each vacant farm.
- (b) Assist the officials of the Canada Colonization Association in securing listings of land.
- (c) Report on vacant lands and land valuations in each district.
- (d) Induce local farmers to write their "back home," advising them of the advantageous opportunities for land settlement to their neighbours.
- (e) Welcome incoming settlers on their arrival, provide them, where necessary, with temporary accommodation, and generally lend them a helping hand until they get established.
- (f) Organize hay-raising and plowing bees amongst local farmers.
- (g) Report on settlers desirous of "moving out" with a view to directing them into districts more adapted to their requirements, and thus retaining them in the country.
- (h) Assist the Canada Colonization Association in studying local agricultural conditions.
- (i) Compile authentic records regarding local crop production for use in inducing settlement.
- (j) Invite the Canada Colonization Association when any local farmer is about to visit his original home, with a view to assisting him to obtain a new and profitable agricultural opportunity to be found throughout Canada.
- (k) Promote a strong and efficient Canadian settlement throughout the Provinces, and assist in Canadianizing foreign-born settlers.

Owners of vacant agricultural land within fifteen miles of railways in the Western Provinces are requested to list their properties immediately with the Canada Colonization Association, Bank of Hamilton Building, Winnipeg

Terms of listing in the Eastern Provinces will be announced at an early date.

At the 7 o'clock mass in the Cathedral Sunday morning more than 600 members of the Holy Name Society received Holy Communion.

DOMESTIC TROUBLE
J. L. Toole was charged this morning with using very abusive language to his wife and with assaulting her. He pleaded not guilty. Some evidence was heard.

CASE SETTLED
The case of MacDonald vs the Sun Assurance Company was discontinued Saturday before Mr. Justice Barry when the parties agreed on a settlement after three days trial. J. A. Barry appeared for the plaintiff and Teed & Teed for the defendant.

LOCAL FOOTBALL
A return game of Association football between the St. John S. of E. football team and the Central Athletics was played on Saturday evening, resulting in a victory for the latter team, 3-1. The game was very closely contested considering the fact that the former team have only been practicing for the last month.

JOHN J. HALEY DEAD
The death of John J. Haley occurred at Englewood, New Jersey, on Saturday. Beside his wife, he leaves five daughters, his mother, one brother, Captain Thomas Haley, of Brooklyn, and four sisters, Mrs. A. H. McClelland, of Newton, Mass., Mrs. James McCasland, Mrs. McNeill and Miss Catherine Haley, all of this city. They will have the sympathy of many friends in their bereavement.

FOR MISSION WORK IN CHINA

Dr. and Mrs. T. A. Pincock Leaving This Afternoon to Spend Ten Years There.

The Methodist mission field in western China will soon be enriched by the arrival of two new members, Dr. and Mrs. T. A. Pincock, who will leave St. John this afternoon on the Montreal train. They will stop for a few days in Toronto and Winnipeg and will sail on the Empress of Asia from Vancouver on October 5, landing at Shanghai. From Shanghai they will travel by boat and chair to the district of their labors, Chengting, about 2,000 miles inland, where they will spend the next ten years in medical missionary work. The trip embraces 1,100 miles up river by small steamboat and 800 miles over the mountains by chairs carried by coolies. Dr. and Mrs. Pincock do not expect to arrive at their station until Christmas so they have some three and one half months of traveling before them.

Dr. Pincock is well known as a medical man having served overseas with the army medical corps for about three years. Mrs. Pincock is the daughter of Mr. and Mrs. F. R. Whipple, of West St. John, and has spent some time as a school teacher, both here and in the west. She was for some years a member of the staff of one of the Winnipeg schools and before that was principal of the Norton, N. B. school and a teacher in the LaTour school on the west side.

Dr. and Mrs. Pincock take with them the best wishes of their many friends for every success in their new line of endeavor.

RETURNS TO COLLEGE

Arthur T. DeWolfe, who has been a valued member of the Evening Times writing staff, said good-bye to his conferees at noon today and left to complete his arts course at Mount Allison, after a visit to his home in Amherst. He has done consistently good work as a Times reporter, was popular on his rounds and in the office and he takes away none but good wishes for success in the profession he plans to follow.

THE HYDRO CONTRACT
A special meeting of the common council was scheduled for this afternoon, starting at three o'clock for further consideration of the proposed hydro contract. Matters in connection with the laying of a new foundation under the street car rails in Main street, preparatory to repairing that street, were also likely to receive attention. For this reason the N. B. Power Co's solicitor, Dr. F. R. Taylor, was to attend.

THE TRAINS
The fall changes on the C. N. R. went into effect at midnight on Saturday. As a result a slight mix-up was occasioned this morning. Some passengers accustomed to leave on No. 18 for Truro found upon their arrival at the station that the train had pulled out at 7:05 instead of leaving at 7:10 as heretofore. This slight change was made to accommodate business men and patrons coming to the city on the Sussex train. By leaving five minutes earlier No. 18 was able to arrive at the meeting place (Gorbyburn) in lots of time to avoid delaying the Sussex train. Aside from this everything worked smoothly.

TRAFFIC CASES
Some traffic cases were dealt with by the police magistrate this morning. Earl G. Frater was fined \$10 for speeding at the foot of King street on a report of Policeman Young. Howard E. Beatty was fined \$10 for speeding in Douglas avenue and failing to blow his horn at a street corner. Gordon Stevens appeared and pleaded guilty to the charges. Gordon Emerson pleaded not guilty to speeding in the avenue and to driving with his lights out. He explained that something went wrong suddenly with his lights when he was nearly home. He was fined \$10. Dr. C. M. Kelly was reported for speeding in Douglas avenue on August 29. He explained that he was on a case of a woman who had been injured. His explanation was accepted. Policeman McBrien made the last three reports.

MINISTERS RESUME WEEKLY MEETINGS
The Methodist Ministers' Association started another season of weekly meetings this morning, with Rev. H. B. Clarke presiding. Campaign plans for the season and the election of officers were features of the morning. Among those present were Rev. H. B. Clarke, Rev. Neil MacLachlan, Rev. J. M. Rice, Rev. H. E. Thomas, Rev. R. G. Fulton and Rev. E. E. Styles.

Rev. J. M. Denny of Souris, P. E. I., was a visitor at the meeting, and was called upon by the president to address the members.

Rev. Mr. Styles, the secretary, submitted a plan for a monthly exchange of pulpits commencing on September 24. This was adopted.

The election of officers resulted as follows: President, Rev. J. M. Rice, B. A. of Fairville; secretary, Rev. E. E. Styles (re-elected).

A motion was passed to hold a Go-to-Church Sunday, and the first Sunday in November was suggested as the date. Rev. Mr. Clarke and Rev. Mr. MacLachlan were appointed to present the matter to the Evangelical Alliance at its next meeting and to represent the Ministerial Association in any arrangements which may be found necessary.

The secretary submitted a plan for services at the Home for Incurables, and another plan for a monthly supply for the Brookville church. Both plans were adopted.

Rev. Mr. Styles and Rev. Mr. MacLachlan were appointed to consider the question of a Methodist chaplain to the public hospitals and to report back to a later meeting.

France and Great Britain Shipping Malleable Iron There.

Paris, Sept. 11.—Shipments of malleable iron from France and Great Britain to the U. S. at prices considerably lower than U. S. current quotations are now being made, so it was learned today. The French manufacturers quoted at \$25.20 a ton as against the Buffalo price of from \$30 to \$35 a ton.

SEEKS BROTHER

Mrs. Annie Carlson Has Not Seen William John Woods in About 40 Years.

Mrs. Annie Carlson, 190 Rodney street, west end, is endeavoring to locate her brother, William John Woods, 53, whom she has not seen for about forty years. Mrs. Carlson and Mr. Woods were the children of Daniel Woodcock who formerly resided in Fairville. When a boy, William J. Woods was adopted by a family living either in the city or on Fort Howe, while his sister went to live with a family in Fairville. During her lost years she has made several unsuccessful attempts to find some tidings of her brother, and observing the success met with recently by others in locating lost relatives, through the columns of the daily papers, Mrs. Carlson today decided to try that channel.

N. B. GIRL WEDS IN SASKATCHEWAN

The following account of a marriage of interest to friends in New Brunswick appears in the Sun, Swift Current, Sask., under date of September 6. Mrs. Milburn was formerly a student at Mount Allison College, Sackville, N. B.

The wedding of the bride and groom was solemnized in the presence of immediate relatives and friends at the home of Mr. and Mrs. George H. Lyne at eleven o'clock Monday morning, September 4, when Rev. G. H. Bennet united in marriage George W. Milburn, son of Sheriff and Mrs. Milburn of this city, and Miss Wilna Huston of Port Elgin, N. B. The bride, who was given in marriage by her brother-in-law, Mr. Lyne, was charming in a gown of Chinese blue and apricot shot satin and carried a shower bouquet of Ophelia roses, while the bridesmaid, her sister, Miss Muriel Huston, was very attractive in a gown of navy blue Canton crepe with cut steel bead trimmings. The bridegroom was supported by his brother, William Milburn. The rooms were beautifully decorated for the occasion with streamers of pink and white tissue cut flowers, roses, carnations and gladioli were in evidence everywhere. Mrs. Jack Bedford presided at the piano and played the wedding march.

After the ceremony a sumptuous buffet luncheon was served. The dining table was centred with a five-layer wedding cake, handsomely decorated. The groom's present to the bride was a ring, to the pianist a brooch, while the groomsmen received a pearl tie-pin. The wedding gifts of cut glass, silver and china were numerous and costly, testifying to the high esteem in which both young people are held in the community.

"Mr. and Mrs. Milburn left on No. 2 train amidst a shower of rice and confetti, for an extended visit to the bride's parents, Mr. and Mrs. W. D. Huston, in Port Elgin. They will visit the Toronto exhibition, Niagara and other cities en route east, and will return via Chicago and St. Paul. Many friends were at the station to wish them bon voyage on their journey by train as well as much happiness throughout their lifetime. The bride traveled in a handsome costume of sage broadcloth with beaver trimmings and hat to match. The groom's gift to her was a lovely string of pearls, with diamond and platinum clasp."

MORE REPAIRS TO SPRUCE LAKE DAM

Commissioner Wigmore and the city engineer carried out further examination of the Spruce Lake Dam this morning. The commissioner said that his crews had repaired the defective gates, but that there was still considerable leakage through the dam. The gates were shut yesterday and the west side supplied from the Carleton reservoir.

Work is being carried out on the dam today. A new cement floor will be put in the gate house and repairs made to the walls. The commissioner said that the old spillway was in bad condition and he thought that matters would not be wholly satisfactory until a new dam was put in. Then, he said, the spillway could be raised a foot or more and thus greatly increase the storage capacity of both Spruce Lake and Menies Lake.

Rapids Prince Freed.

Montreal, Sept. 11.—The Canadian Steamships "Rapid Prince" which has been stranded on a rock in the Lachine Rapids since July 30, was released on Saturday afternoon and is reported to have sustained little serious damage. The freeing of the steamer was effected by Captain John Donnelly of the Donnelly Wrecking and Salvaging Company, of Kingston, Ont.

STIRRING FIGHT IN MASSACHUSETTS

Bitter Political Campaign Closes Today for Nominations at Polls Tomorrow.

Boston, Sept. 11.—The most bitter primary campaign ever fought in the State of Massachusetts was being closed today with nominations for U. S. senator, governor and the lesser state offices to be made at the polls tomorrow.

Because of the intense fight waged by the two candidates for the Republican gubernatorial nomination, Governor Channing H. Cox and Attorney-General J. Weston Allen, party leaders estimated that the Republican primaries would find nearly 800,000 votes cast. Two years ago the party vote was about 200,000. Democrats, under the stimulation of a four-cornered contest for the senatorial nomination and for gubernatorial nomination, were expected to double the 70,000 votes cast in 1920.

Senator Henry Cabot Lodge, a candidate for renomination by the Republicans, took what was outwardly only a passive part in the campaign, adhering with the exception of a few set speeches, to an early announcement that he would not stump the state. Jos. Walker, former speaker of the House of Representatives, has campaigned vigorously. The intensity of the fight for the head of the state ticket has been carried out in some of the other contests, among them the continued rivalry for the lieutenant-governorship of A. T. Fuller, present incumbent, and Joe E. Warner, former speaker of the house.

On the Democratic side, the four seekers for the nomination to oppose Senator Lodge are Col. William A. Gaston, John Jackson, President of Dallas, Lore Sharp and Sherman L. Whipple. Their numbers are matched in the contest for the gubernatorial nomination, in which the candidates are Jos. B. Ely of Westfield, former Mayor John F. Fitzgerald of Boston, former Governor Eugene N. Foss, and Mayor Peter F. Sullivan of Worcester.

IN WALL STREET.

New York, Sept. 11.—(10:30)—Extensive buying of government securities to the execution of week-end orders from out of town points featured the firm opening of today's market. Nearly a score of shares were pushed up to new high records for the year in the first half hour of trading, some of the leaders being Atlantic Coast Line, Soo, Union Pacific, Missouri Pacific preferred, Illinois Central common and preferred, Baldwin, American Locomotive, American Brake Shoe, Railway Steel Springs, Hupp Motors, Mark Trucks, Austin Nichols and United Retail Stores, all at gains of large fractions to three and a half points. Union Pacific, Delaware and Hudson, United Drug, Studebaker, American Ice and General American Tank also were reactionary, the declines ranging from one to seven points. Gains of two to nearly five points, however, were recorded by Pullman, Fisher Body, Coaden Oil Pfd., National Biscuit, Atlas Powder, Ailsa Chalmers Pfd., Sears Roebuck and Reynolds Tobacco. Call money opened and renewed at four per cent.

E. Mortenson, an employee of the sugar refinery, cut his left hand on a piece of glass yesterday afternoon. He was taken to the General Hospital, where the wound was dressed.

New York, Sept. 11.—(10:30)—Extensive buying of government securities to the execution of week-end orders from out of town points featured the firm opening of today's market. Nearly a score of shares were pushed up to new high records for the year in the first half hour of trading, some of the leaders being Atlantic Coast Line, Soo, Union Pacific, Missouri Pacific preferred, Illinois Central common and preferred, Baldwin, American Locomotive, American Brake Shoe, Railway Steel Springs, Hupp Motors, Mark Trucks, Austin Nichols and United Retail Stores, all at gains of large fractions to three and a half points. Union Pacific, Delaware and Hudson, United Drug, Studebaker, American Ice and General American Tank also were reactionary, the declines ranging from one to seven points. Gains of two to nearly five points, however, were recorded by Pullman, Fisher Body, Coaden Oil Pfd., National Biscuit, Atlas Powder, Ailsa Chalmers Pfd., Sears Roebuck and Reynolds Tobacco. Call money opened and renewed at four per cent.

POLICE COURT

When the case in which Mrs. Frances Cobell was charged on Saturday with being the keeper of a disorderly house in Chapel street, was resumed in the police court this morning Policeman Killen gave evidence very similar to that given by Sergeant Sullivan on Saturday. At the conclusion of the evidence the magistrate sentenced Elizabeth O'Brien, one of those charged as an inmate, to one year in the Home of the Good Shepherd. Fines of \$100 each were imposed on Mrs. Cobell, Maud Thompson, Gordon Paris and Aaron Craig. G. Earle Logan appeared for Craig.
William Magrath was charged this morning with being a common vagrant with no visible means of support. He pleaded not guilty. Policeman Hatt was not present to give evidence and the accused was remanded.

James Kierstead of Rothesay was charged with wandering about Union street at 3:40 o'clock on Sunday morning and not giving a satisfactory account of himself. He said he had not been feeling well and had gone out for a walk. He was told that he was liable to six months in jail and was remanded.
Six men charged with drunkenness were remanded. One man said he had had the liquor in his house for two years and had got it from Montreal. The others said they got it from a stranger in the street.

HOME FROM EUROPE

Rev. A. L. Fleming, rector of St. John's (Stone) church, and Mrs. Fleming returned to the city today after a trip to England, Scotland and France. Rev. Mr. Fleming said that they had had a great trip and that good weather had been enjoyed on both crossings, although fog was met both times.

They left on June 26 on the Tyrone and started their tour of the Old Country in Scotland, where they visited Edinburgh, the Firth of Clyde, and points as far north as Oban and the islands of Mull, Staffa and Iona. Mr. and Mrs. Fleming then went to England, where they spent time in London, Wells, York, Durham, Newcastle and Canterbury, after which they went on a three-day tour of the battlefields of France, notably Arras, Ypres and Amiens. They returned on the Ansonia, landing in Quebec yesterday and coming to St. John by the Valley train, arriving here about two o'clock.
On their return Mr. and Mrs. Fleming were surprised and pleased to find a large number of their friends gathered at the station to greet them, and also when they arrived at their home to find that the ladies of the church had the house in thorough readiness for them and had prepared a hot meal for the travelers.

prevent any illegal acts. The union leaders have time and time again warned the membership against any lawlessness." Atlantic City, N. J., Sept. 11.—The shopcrafts strike and demands for a general strike of all organizations of the A. F. of L. as a result of the injunction obtained by Attorney-General Daugherty against the striking railroad shomps were on the programme for consideration when the executive council of the federation resumed its conference today. Many members of the council, although denouncing the injunction as a "blow to the rail crafts and a threat to organized labor," expressed their opposition to a general strike. One member predicted that one of the first acts of the council would be to give formal assurance that the federation contemplates no such action.
The federation will be asked to renew its pledge to support the shopcrafts strike and to provide for the assessment of all organizations in replenishing the war chest of the railroad men.

PRESSMAN JACOBS, ST. JOHN NATIVE, PASSES AWAY

Boston, Sept. 10.—Aaron Jacobs, aged 62, with one exception the oldest pressman on the Boston Globe, died on Thursday morning at his home, 27 Rogers avenue, Somerville, after an illness of fourteen weeks, from liver trouble. His death removes one of the best known and best-liked employees of the Globe.
He was born in St. John, (N. B.), Nov. 21, 1860, and came to Boston when he was twenty-six years old. He qualified as a pressman on the Globe, at a time when the largest press, the Jumbo, had a speed of 24,000 papers per hour. Mr. Jacobs had been in the Globe pressroom ever since, watching the machinery go faster, until the capacity of each press is now 48,000 papers an hour. He leaves a son, Walter, of Beverly, who is a pressman on the Boston Herald; his mother, Mrs. William Waldon, with whom he lived; and a brother, J. J. Jacobs, of Boston.

Mr. Jacobs was formerly in the employ of The Telegraph.

YANKEES AND GIANTS INCREASE LEAD FOR PENNANTS

New York, Sept. 11.—With the final battles against their western rivals but two days off, the Yankees and Giants possessed increased margins in the pennant races today as a result of Sunday's victories, while their leading opponents were idle.
Joe Bush and Walte Hoyt twirled the Yanks to a double triumph over the Athletics, 10-3 and 9-1, increasing the team's advantage over St. Louis to 1 1/2 games. The Giants mauled Dutch Ruether and Leon Cadore of Brooklyn for a ten-four decision, putting the champions four and a half games in front of the Pittsburgh Pirates.

Ferguson held Washington to four hits and Boston won, 6 to 1, while Cincinnati outslugged the St. Louis Cardinals, 18 to 8, in the only other major league game played.

Ladies' Golf Championship.

Toronto, Sept. 11.—Ninety-two ladies, representing Great Britain, U. S. and Canada contested in the 18 hole qualifying round medal play to determine the thirty-two players who will start in the ladies' golf championship proper on Tuesday morning. The second lowest thirty-two will comprise the first and second consolation flights. The losers of Tuesday's championship games will compose the championship consolation which will get under way on Wednesday.

Great Britain is represented by Miss Edith Letch, sister of the present champion, Mrs. David More of Edinburgh and Mrs. W. Gavin of the Huntercombe Club. Competitors from the U. S. are Miss Alexa Stirling of the North Hampstead Club, New York, former champion; Miss M. A. Campbell of Pittsburgh, Miss Margaret Cameron of California, and Miss E. L. Bowles of Baltimore.

Toronto Sept. 11.—Owing to rain, which fell in torrents all forenoon, the ladies' golf tournament for the championship of Canada, which was to have started this morning at 9:30 a.m. after several half-hour postponements, was declared off until tomorrow.

PENSIONS INQUIRY

Ottawa, Sept. 11.—(Canadian Press)—"It is possible to be too scientific," declared Col. Walter McKewen, medical member of the Royal Commission investigating charges laid by the G. W. V. A. against the board of pension commissioners at the sitting of the commission Saturday. Colonel McKewen was commenting on the fact that in the case of Private Edward Munsey, a doctor had declared that a diagnosis of tuberculosis had not been established whereas the man had been a patient year before in St. Agathe Sanatorium on that account.
Colonel McKewen suggested it must have been simply a mistake on the part of the doctor by Dr. A. T. Bond of headquarters said that there was certain definite symptoms which they insisted on. Colonel McKewen urged, however, that it was possible to be too scientific. "It is like a person coming in and saying it is raining, but some one indoors remarks that it could not be, as the barometer was set at fair."

Difference in viewpoint was most marked, however, when the case of Albert James Healey, was under consideration. It had been shown that, after a letter written by Dr. A. T. Bond of headquarters deciding against the applicant, the file was marked to be put away, which on Dr. Bond's admission meant that it would be sent to central registry and only fresh evidence of pressure of some kind would bring that file to light again.

C. Grant MacNeil, dominion secretary of the G. W. V. A., served this admission by a series of questions to Dr. Bond, the latter agreeing that it would be left to an outside organization such as the Tuberculosis Veterans' Association or the G. W. V. A. to reopen his case. Dr. Bond said he understood that was what those associations were for, but he did not reply when asked by J. R. Bowler, counsel for the G. W. V. A. "How about men who belong to no such organizations?"
"Will you admit," further queried Mr. MacNeil to Dr. Bond, "that you had exactly the same basis to make investigation of the men's claims as had the Tuberculosis Veterans' Association and those on which they secured in the end admission from the board of pension commissioners that the men's physical trouble was attributable to service?"

BRACKEN AS CANDIDATE

The Pas, Man., Sept. 11.—At a meeting of the local branch of the United Farmers of Manitoba on Saturday night, Premier John Bracken was given unanimous endorsement as the farmer candidate in the deferred election for the Pas constituency.
The executive of the local branch of the independent labor party on Saturday decided to withdraw the name of W. D. T. Jones as their candidate and pledged support of the organization to Premier Bracken. Nomination day is set for Sept. 19, with polling on October 2.

NAMED COMMISSIONER.

Geo. E. McIntosh, who has been acting fruit commissioner since the resignation of C. W. Baxter, has been appointed fruit commissioner of the department of agriculture at Ottawa. He was formerly a newspaper man.

Berwick, N. S., Sept. 10.—Mrs. Edward Hart, Berwick, died yesterday afternoon and her husband is seriously burned as the result of an explosion yesterday morning of kerosene which Mrs. Hart was using to start the kitchen fire.
Mrs. Hart was in her night clothes and the flames quickly enveloped her. The husband received his injuries while trying to save his wife. He put the fire out but Mrs. Hart died in hospital later. In addition to her husband, two small children survive the dead woman.

HOLD FIRMLY TO IRISH POLICY

Cosgrave and Mulcahy Say So in Speeches at Parliament Meeting.

Dublin, Sept. 11.—At the Irish parliament meeting on Saturday the attitude of labor, set forth in temperate speeches, was interpreted as an intention to secure fulfillment of the Anglo-Irish treaty and operate it to maximum advantage for social reform and to support the government against any attempt to defeat the treaty. Nevertheless, it was indicated that on the question of war Irish labor was pacific and believed that armed conflict should have been prevented or now could be ended by fraternal conference.

Mr. Cosgrave's only reference to this point, which, with other items of criticism was left for debate this week, was a clear renewal of the government's intention to put down armed resistance. Richard Mulcahy, minister of defence, regretting severance from old friends, was equally clear and held out no hope of a changed policy.

Belfast, Sept. 11.—All the Free State telegraph, postal and telephone facilities ceased at six o'clock last evening. The British military authorities are maintaining communication with Ulster and England by wireless. The postal union officers in Dublin said that, despite the government prohibition, they were determined to picket.

Disaster Averted.
Belfast, Sept. 11.—A flying column of rebels at Cresslough, County Donegal, destroyed a section of railway yesterday just before a train was due, carrying 450 excursionists from Londonderry, among them many women and children. The train men gave warning in time, however, and the train was stopped, averting a disaster.

BACK TO THY YOUTH.

Back to thy youth again,
And face the morning's beam;
And so forget thy pain,
Or think it but a dream.

Back to thy youth and hold
The universe in fee;
Hope-crowning day, behold
Its light is all for thee.

The ocean sailing bright
Beneath the summer sky
Is thine and every light
Revealed to rapture's eye.

And thine the waves that roll
In triumph to the strand,
And all the stars, O soul,
To gather in thy hand.

The promise of the dawn
Is thine to treasure dear,
O trust! and follow on
Its wake, the day is near.

It is for thee to drink
The light revealed upon
The chasm's awful brink,
And bid the night begone.

Back to thy youth and gain
The summer seas for sail,
The happy islands hall
And there forget thy pain.

A Matter of Good Faith.

(New York Herald.)

Just now the shompen on the one hand and the carriers on the other are at an absolute deadlock, but the trains still continue to run and serve the public. The shompen stand rigidly on their extreme demands. The railroads, on the other hand, have gone far in the matter of a compromise—gone just as far as they can go and keep faith with the old men who stuck by them and the new men who have come to them; and here the railroads make their stand. To yield on the point of keeping faith with their men would place the carriers in a contemptible light before the public and would rob them of the respect and confidence their employes have in them. However men may differ about things the public will stand for men who maintain their honor. The public will condemn men and have no use for men who do not do both these things. With the public backing and the demand of the public that their railroads continue to serve them it is pretty certain that the transportation lines will continue to do business.

Presbyterian Women Of Eastern Division

Forty-Second Annual Meeting of Missionary Society Held in Summerside Was Notable Conference—St. John Delegates Give Interesting Report of Proceedings—Urgent Call for Funds and Missionaries.

The forty-second annual meeting of the Women's Missionary Society of the Presbyterian Church in Canada (eastern division) was held in the Presbyterian church, Summerside (P. E. I.) on Sept. 6 and 7 and the St. John delegates who returned to the city last night brought most interesting accounts of the sessions.

Those from St. John who were present were Mrs. R. A. Jamieson, Mrs. Robert Cruikshank and Miss Janet Sinclair. Mrs. L. A. Moore, of North Sydney, the president, was in the chair.

The report of the secretary, Mrs. L. W. Parker, of Truro (N. S.), showed there had been great activity along all lines of the society's work. A notable event in the year was the celebration of the golden jubilee of the honored veteran missionaries, Dr. and Mrs. Annand, of the New Hebrides.

The president had traveled hundreds of miles throughout the year in visiting the presbyterials and auxiliaries and stirring up their interest in the society's work and also in attending committees of the church at the society's official representative.

The eastern division, whose territory is the three maritime provinces, consists of ten presbyterials, which in turn are composed of 435 auxiliaries with a total membership of 11,547. During the year 907 new members and 888 life members were added.

The publications committee reported a considerable increase in the number of subscriptions to the official organ, the Message, which has now a paid subscription list of 7,800. Great regret was expressed at the absence of the capable editor, Mrs. William MacNab, detained because of family illness.

The secretary of international correspondence, Miss Annie Murray, of New Glasgow, told of having received reports from three Scottish, three American and one Australian W. M. S. and all showed a most encouraging advance in the various departments.

Eloquent Greetings. Greetings from the sister Women's Missionary societies were given in cordial and eloquent terms by Mrs. Morris, of the Methodist W. M. S., and Mrs. Schurman, of the Baptist W. M. S., and Mrs. M. S., and were responded to by Mrs. J. A. Clark, of Halifax.

The president in her address spoke of the deep distress with which the foreign missionary board was at times compelled to say "no" to missionaries' requests for equipment and desirable extension because of lack of funds and she also referred to the society's "uncovered fields" mentioning particularly the fact that many women although church members were not members of the society.

She urged the need for more strenuous effort and more prayer on behalf of the work.

The treasurer, Mrs. D. Blackwood, of Halifax, in her financial statement, showed the society's foreign mission giving for the year had amounted to \$45,322.80 and its home mission contributions to \$18,117.53, besides which it had raised \$4,943.41, making a total of \$68,414.24.

It was unanimously agreed on the motion of Mrs. R. A. Jamieson, seconded by Miss I. McCulloch, that the society endeavor during the coming year to increase its giving by at least twenty per cent and that to this end a campaign of missionary education be inaugurated to induce all members to tithe their incomes.

On Wednesday evening there was a public meeting presided over by Rev. Mr. Mitchell, of the Presbyterian church at Summerside, and the principal speaker was Rev. J. D. Forbes, missionary to Trinidad. Mr. Forbes told in a most convincing manner of the wonderful educational work done by the Canadian Presbyterian missions in this field where they are the means of thousands of Hindu children receiving a good practical education.

The mission provides the school buildings and appoints the teachers whose salaries, however, are paid by the government. Some of these mission trained Hindus represent their districts in the parliament of their country. He also described and contrasted a heathen Hindu home and one in which the family had been Christian for several years.

The greetings of the Prince Edward Island Presbytery were conveyed to the society by Rev. Mr. Stavert, of Hunter's River.

On Thursday morning greetings were received by wire from the executive board of the Presbyterian W. M. S. (western division).

Work for Unchurched. Mrs. R. E. O'Brien, of Truro, gave a helpful talk on the best methods of studying the proposed text book for the coming year.

Miss Sylvester, deaconess at Stellarton (N. S.), told of her work among the French and Belgian element and also for the unchurched Canadians in her district. She has been working in Stellarton for five years and as she speaks French fluently is able to come quite close to her people. Her activities include not only Sunday school work but a daily kindergarten, mothers' meetings, Trail Rangers and Taxis groups, French services in the homes of the people and an evening Sunday service.

A young people's session was held on Thursday afternoon and Miss McCulloch, secretary of the Y. P. M. S., reported 111 societies with a membership of 2,876 and \$8,816 raised during the year. Miss Dalglish, secretary of mission bands, reported 288 mission bands with 7,528 members and the sum of \$8,822 raised for missions.

A number of prosperous C. G. I. T. missionary societies were reported also and an interesting talk on the programme and work of these groups was given by Mrs. R. W. Ross, of Halifax, assisted by Miss Jessie Storey, Halifax, and Miss Carruthers, Charlottetown, led a delightful "C. G. I. T. Symposium."

At the public meeting on Thursday evening Rev. D. K. Ross, of Baddeck, presided and introduced Rev. George Christie, of Alberton, who is connected with the martyred Gordons and the Geddes.

The report of the home mission secretary was given by Mrs. R. A. Jamieson, of St. John, and contained much interesting information. In her statistical statement she showed the Presbyterian church had 481 augmented churches and 507 home mission fields, each of which might have from one to five preaching stations. Of these seventy-nine augmented churches and forty-three home mission fields were in the maritime provinces.

Social settlements were established in Vancouver, Winnipeg, Toronto, Montreal and Sydney which ministered to 4,266 families and thirty-four different nationalities. Forty-two missions to the non-Anglo-Saxons were organized and seven of these were in the maritime provinces.

Redemptive homes were maintained in Sydney, Montreal, Toronto, Winnipeg and Vancouver, and preventive homes in Truro and Calgary and another preventive home was being opened near Moncton. In addition twenty-six other institutions, hospitals and school homes were doing excellent work.

The "department of strangers" looked after immigrants and migrants going from one part of Canada to another, and in connection with it chaplains were stationed at Halifax, St. John, Quebec, Montreal, Toronto and Winnipeg, besides an overseas chaplain in Glasgow, Scotland.

St. John Presbyterial. Of the ten Presbyterials in the eastern section, St. John Presbyterial had raised the largest amount for home missions, namely, \$2,808.49, and it had also sent the largest number of home mission bales, thirty-six out of the total 180 sent.

The Presbyterian denomination unites with the Methodist, Anglican and Baptist denominations in supporting the maritime home for girls at Truro and the Presbyterian W. M. S. gave its yearly grant to the home and was gratified at the record of the girls.

The W. M. S. maintains the services of the hospital and port chaplain in Halifax, Rev. S. S. Thompson, and his report told of 14,596 passengers arrived at Halifax, of whom 2,822 were Presbyterians. The foreign element contained many nationalities. Besides his port work, Mr. Thompson visited ten hospitals daily.

The salaries of all the women doing special home mission work for the Presbyterian church in the maritime provinces are paid from the W. M. S. funds, and the account of their activities contained in Mrs. Jamieson's report was specially interesting.

Miss Molvor, of the United Mission in Sydney the past winter when industrial conditions in that county were worst, was able to serve soup and biscuits to her kindergarten children at recess, a great boon to the children.

Miss Grant, of Chalmers Jack mission in North Sydney, reported 112 enrollees in her school, the only school of any kind within a radius of two and half miles. All grades up to the end of grade eight were taught and the school which was inspected by the government came well up to the required standards.

As the mission provided the building and teachers, the latter were privileged to give religious instruction and the children were very responsive.

Miss McKichan, of Scotchtown, who had a similar school, reported an enrollment of eighty-eight children, including eight different nationalities and forty-two received the Scripture, and at the Dominion Day celebration the children of eight nationalities had joined with equal fervor in the patriotic holiday and the singing of the national anthem and "O Canada."

At Inverness Miss Forbes was doing a splendid work among the large Belgian population.

Miss Sutherland, of Trenton, and Miss Sinclair, of St. John, had their work among the poor, the sick, the shut-in and the unchurched in their respective fields.

Wonderful Work in Minto. In Minto Miss Murphy had done a wonderful work, conducting four Sunday schools each Sabbath and walking ten miles to do so, while every week-day, except Saturday she walked four miles and taught a kindergarten, besides conducting prayer meetings, mission bands and W. M. S. meetings.

During part of the year a student deaconess was employed in Thorburn and in the united fields of Joggins, River Hebert and Chignecto.

As part of the concluding business of the annual meeting resolutions were passed. Greetings were sent to Mrs. Isaac Murray, of New Glasgow, who is now over ninety years of age and has worked for missions since her youth, and were also sent to the honorary presidents of the society.

The resignation of Miss Bessie Wallace from the office of corresponding secretary was gratefully accepted, and a resolution of appreciation of her services was extended to her. Suitable resolutions of thanks were also passed.

The election of officers resulted as follows:—Honorary presidents, Mrs. John Morton, Mrs. H. Robertson, Mrs. Isaac Murray, Mrs. J. Annand, Miss Blackadder, Mrs. Baxter; president, Mrs. L. A. Moore, North Sydney; vice-presidents, Mrs. G. E. Forbes, Scotsburn; Mrs. J. H. Thomson, St. John; Mrs. R. W. Ross, Halifax; Miss I. McCulloch, Truro; Miss Bessie Wallace, Halifax; and others; treasurer, Mrs. D. Blackwood, Halifax; recording secretary, Mrs. L. W. Parker, Truro; corresponding secretary, Mrs. A. A. McLeod, Trenton (N. S.); foreign secretary, Mrs. Bruce Campbellton; home mission secretary, Mrs. R. A. Jamieson, St. John; secretary of mission bands, Mrs. R. P. Dalglish, Bridgewater; secretary of Y. P. M. S., Mrs. J. P. McIntosh; secretary of mission boxes, Miss Annie Brims, Halifax; "The Message" editors, Mrs. William McNab and Mrs. R. C. Cruikshank, St. John; secretary and treasurer of "The Message," Miss Susie Fraser, Halifax.

The society unanimously passed a resolution expressing its deep sense of loss in the death of its beloved missionary, Dr. Kate McMillan, and its gratitude to God for her beautiful and devoted life and the wonderful results of her labor of love and healing for over twenty years in Korea.

Film Stock Well Taken. The Business Men of St. John are in practical agreement on the worth of the opportunity for publicity and profit afforded by the establishment of The New Brunswick Films Ltd. So far they have put up enough capital to make the production a certainty. The conditions under which subscriptions are made henceforth are still better—just to create a fair margin over the expense estimate. Prompt support hastens and helps success. A \$2.00 Seat --and no fun at all. You poor dear! Your evening's enjoyment that you looked forward to so much is turned to painful disappointment and discomfort by those wretched corns. But you can say "Good-bye" to the pain from your CORNS. Just Try Dr. Scholl's Zino-pads FOR CORNS, CALLOUSES AND BUNIONS. "Put one on--the pain is gone". the absolutely safe treatment, antiseptic, adhesive, healing and waterproof. You get relief the moment you put one on. Then it protects the sore spot while it heals. Try a box to-day. Sold by shoe, drug, and departmental stores.

Purest of all. Pure coconut oil and rich palm oil, from our own plantations, are skillfully blended in Sunlight Soap. It is the purest and highest quality laundry soap and has the largest sale in the world. Sunlight Soap washes beautifully and as it has no impure ingredients it saves your clothes and makes them wear longer. Buy Sunlight. Lower Brothers Limited, Toronto.

Breakfast Tastes So Much Better

CARNATION Milk makes breakfast a wonderful meal. Like cream on your cereal or fruit and wonderful in tea or coffee. If you drink milk, add water to Carnation. It's just pure, cows' milk with about 60% of the water taken out by evaporation. Sealed in the container and sterilized. Nothing is added. You can use it for all milk uses. Keep the pantry well-stocked. Carnation keeps for several months in the can and for several days after opening. Order milk the convenient way—with your groceries. The grocer is the Carnation Milkman. Ask him to send you several tall (16 oz.) cans or a case of 48 cans. Learn how it will add flavor whenever milk is used. Enjoy the new Carnation recipes—100 tested recipes all brought together in a beautifully illustrated book. It's free. Write for it. Try this Carnation recipe. FRENCH TOAST. 2 eggs, 1/4 teaspoonful salt, 1/4 cup water, 1/4 cup Carnation Milk, stale bread cut in slices. Beat the eggs slightly, add salt and milk diluted with the water. Dip the bread in the mixture. Grease a frying pan and when hot place slices of bread in it and brown on one side, then turn and brown on the other side. This recipe serves six people. FAT SOLUBLE VITAMIN CALLED HUMAN NEED

American Chemical Society Told of Discovery Through Rats by New York Scientist. The health-building vitamin and the greatly increased use of corn oil for food products were discussed by the American Chemical Society Convention in Pittsburgh last week. "While the fat-soluble vitamin has been studied mainly through experiments on rats, it is now known to have very important functions in the nutrition of animals mineral including man and women," said Dr. H. C. Sherman of New York City. "It is needed by adults as well as by growing children. A food supply containing only enough of the fat soluble vitamin for growth

"Canada Permanent Bonds"

The Bonds of this Corporation are designed to meet the needs of all classes of investors. They are issued in sums of \$100 and upwards for terms of one or more years. They are made payable on any date desired, and may be renewed at maturity. You cannot invest your money more safely than in these bonds, which bear a specially attractive rate of interest, for which coupons, payable half-yearly, are attached. The experience of more than sixty-seven years has brought to bear upon the investment of all moneys and the selection of securities therefor. CANADA PERMANENT MORTGAGE CORPORATION. New Brunswick Branch, 63 Prince Wm. Street, St. John, N. B. R. F. WRIGHT, Manager. T. A. McAVITY, Inspector.

To Holders of Five Year 5 1/2 per cent Canada's Victory Bonds

Issued in 1917 and Maturing 1st December, 1922.

CONVERSION PROPOSALS

THE MINISTER OF FINANCE offers to holders of these bonds who desire to continue their investment in Dominion of Canada securities the privilege of exchanging the maturing bonds for new bonds bearing 5 1/2 per cent interest, payable half yearly, of either of the following classes:—

- (a) Five year bonds, dated 1st November, 1922, to mature 1st November, 1927.
(b) Ten year bonds, dated 1st November, 1922, to mature 1st November, 1932.

While the maturing bonds will carry interest to 1st December, 1922, the new bonds will commence to earn interest from 1st November, 1922, GIVING A BONUS OF A FULL MONTH'S INTEREST TO THOSE AVAILING THEMSELVES OF THE CONVERSION PRIVILEGE.

This offer is made to holders of the maturing bonds and is not open to other investors. The bonds to be issued under this proposal will be substantially of the same character as those which are maturing, except that the exemption from taxation does not apply to the new issue.

Holders of the maturing bonds who wish to avail themselves of this conversion privilege should take their bonds AS EARLY AS POSSIBLE, BUT NOT LATER THAN SEPTEMBER 30th, to a Branch of any Chartered Bank in Canada and receive in exchange an official receipt for the bonds surrendered, containing an undertaking to deliver the corresponding bonds of the new issue.

Holders of maturing fully registered bonds, interest payable by cheque from Ottawa, will receive their December 1 interest cheque as usual. Holders of coupon bonds will detach and retain the last unmaturing coupon before surrendering the bond itself for conversion purposes.

The surrendered bonds will be forwarded by banks to the Minister of Finance at Ottawa, where they will be registered, or coupon registered or coupon bearer form carrying interest payable 1st May and 1st November of each year of the duration of the loan, the first interest payment accruing and payable 1st May, 1923. Bonds of the new issue will be sent to the banks for delivery immediately after the receipt of the surrendered bonds.

The bonds of the maturing issue which are not converted under this proposal will be paid off in cash on the 1st December, 1922.

W. S. FIELDING, Minister of Finance.

Dated at Ottawa, 8th August, 1922.

NEW RECORDS IN MARITIME TRACK CHAMPIONSHIPS

(Canadian Press Cable) Halifax, N.S., Sept. 10.—Maritime records in the pole vault and hammer throw were made at yesterday's maritime provinces track and field meet held on the Wanderers Amateur Athletic Club's grounds here.

H. Lapierre, St. John, was second in the mile run after leading practically the entire distance. Francis, won by a sensational sprint when he came from third place in the last 30 yards and passed Lapierre, who had about 150 yards lead.

Victor McAulay, Windsor, lapping his competitors, ran the five mile race easily and won in 26 min. 16.3 sec. A. I. Miller, Sussex, Canadian high jump champion, cleared the bar at 5 feet 4.4 inches.

The Abegweit, Charlottetown, led in club points with 36. Crescents, Halifax, had 34 points and Wanderers, Halifax, 14 points.

CROP REPORT

Montreal, Sept. 8.—Herewith below will be found a brief synopsis of telegraphic reports received at the Head Office of the Bank of Montreal from its branches.

Edmonton District — Wheat cutting nearly completed and threshing general soon. Wheat is good, no frost reported.

Calgary District—Conditions continue favorable. Wheat cutting about completed, threshing fairly general.

Lethbridge District — Cutting should be completed by next week-end. Whole district should average 15 bushels, southwest will give excellent returns, other parts unequal, threshing commenced.

Winnipeg District — Practically 95 per cent. of the crop has been cut and 40 per cent. threshed. Harvesting throughout Manitoba has been topped since Tuesday.

Provinces of Quebec. Harvesting is practically completed in most districts and crops are well above average, roots are doing well and grass pasture generally is in exceptionally good condition.

Ontario. Threshing and harvesting in full swing and in 50 per cent. of the districts the crops are in the barns, yield of grains heavy and of good quality, continued favorable weather has helped corn and the crop will be a heavy one, root crops promise to be above average, particularly potatoes, fruit is a heavy crop, particularly peaches, but only fair yield of winter apples expected. There is plenty of feed for coming winter, second crop alfalfa needed for grass pasture and to fit soil for fall plowing.

British Columbia. Heavy showers throughout province have hampered harvesting, but threshing is well under way. Grains 70 per cent. of average; roots, 75 per cent. and improving; potatoes, 70 per cent.; hops, 100 per cent. Okanagan, early apples over. Wealthies being shipped, good size and coloring, previous climates hold. Fruit good quality and size. Tonnage 25 per cent. heavier than last year, stone fruit, 100 per cent. quality good; tomatoes, heavy crop, excellent quality, canneries operating at capacity; onions, 25 per cent. heavier than 1921; pasturage improving.

Dr. J. Harper Blaisdell, radium expert of the skin department of the Massachusetts General Hospital, arrived in the city on Saturday for the purpose of giving radium treatment to a local patient. He will have a conference with Hon. Dr. W. F. Roberts today with reference to getting some radium in this province for treating cancer. He will leave again tonight for his home.

100 Armenian Children Make 500-Mile Trip From Harput.

Aleppo, Syria, Sept. 11.—One hundred blind children from the Armenian School for the Blind in Harput have arrived here safely after a 500-mile journey across the Turkish interior, in the course of which they passed over mountains infested with bandits and over long stretches of desert where camels carried water and provisions.

The children are from 7 to 15 years old. Their pilgrimage is part of the plan of the Near East Relief to remove several thousand Armenian orphans from Asiatic Turkey. The journey from Harput took a month. For twenty miles the children floated down the Euphrates on barges. They are now housed in the re-established school in Aleppo, which is the capital of Syria under the French mandate.

CAMPBELLTON DOCTOR IS ONE OF DIRECTORS

Montreal, Sept. 11.—Dr. A. Valles of Quebec, was chosen president of the French Speaking Physicians of North America, here on Saturday. Among the directors is Dr. Pineault, Campbellton, N. B.

Three presentations were made on Saturday evening to members of the staff of the Fair Vale Sunday school, at the residence of Mrs. H. White. A set of cut glass tumblers was presented to Mrs. Hatheway for her services as pianist, an umbrella to Mr. Murphy for his work as teacher of the Bible class and superintendent of the school, and a book to Mr. Barry for his services.

Yarmouth Wins. Yarmouth, N. S., Sept. 10—Yarmouth defeated Middleton 12 to 1 in the semi-final play for the Nova Scotia baseball championship here yesterday. Their victory gave the Yarmouth team two games out of the three game series and the right to play off with Springhill for the championship.

Well Pleased With Ramsay. (Halifax Recorder.) Edward Ramsay of St. John, who coached the Dartmouth baseball team during the last few weeks in preparation for their play-off games, returned home yesterday. President W. C. Bishop of the D. A. A. speaks very highly of Mr. Ramsay's work and says that it was the means of helping the team a lot in their games with Springhill. Mr. Ramsay naturally felt the defeat of the locals lately, as he believed them to be capable of winning the provincial championship, and he was much disappointed that they did not defeat Springhill.

President Bishop says that, should the D. A. A. desire a coach for its ball team next season, Mr. Ramsay will receive the first consideration. He made many friends during his short stay in the town.

Clippers Win Game. The East End Clippers, winners of the East End Intermediate League, defeated the St. George's Intermediates on the East End diamond on Saturday afternoon, 10 to 16. Some good plays were made by members of both teams. The batteries were: Griffin brothers for the winners; White, Fullerton and Jones for the losers.

Three Rivers Team Champions. Three Rivers, Que., Sept. 11—Three Rivers won the Eastern Canada baseball championship yesterday when it took both games of a double-header from Cap Madeline, after defeating the same team on Saturday. The scores were 7-6, 5-3, and 8-3.

AQUATIC. Today's Race. Oyster Bay, N. Y., Sept. 11—The second of the series of six-team races between four Yankee and four Anglo six-meter yachts for the British-American Cup will be raced this afternoon off the Seawanhauk-Corinthian Yacht Club grounds.

The U. S. A. was leading, twenty-six to ten in the team score, as a result of a clean sweep in the first race on Saturday. Today's race will be sailed twice around a six-mile triangular course.

Rough Work on the Falkirk Field; Policemen Beaten; Ambulances Kept Busy. London, Sept. 11—(Canadian Press)—Enthusiasm overcame discretion among a certain section of the crowd at the Rangers-Falkirk football match of the Scottish League on Saturday at Falkirk, and rowdism developed into rioting. When Puddifoot scored the second goal for Falkirk the crowd rushed on the field and the police followed. Three policemen were badly mauled and had to be carried off the grounds and three of the rioters were arrested before the field was cleared. Rioting broke out again later behind a goal and the police charged with drawn batons. The fight lasted for twenty minutes and ambulances were kept busy carrying off the swimmers.

The Cost of Generating Electricity

Mr. Kribs Gives Some Facts and Figures of Interest Bearing on the St. John Situation.

The statement having been made that power could be generated by means of the Diesel oil engine for a fraction of a cent as compared with little more than a cent by the Musquash plant, Gordon Kribs, electrical expert, has given out the following statement:

In discussing the cost of power produced by means of Diesel oil engines, we can refer to the published results obtained by one of the few installations in Canada, viz., the Diesel oil engine plant of Yorkton (Sask.), details of which are given in the following table:

Capacity—500 brake horse power—430 electric horse power at 80 per cent power factor capacity, 400 kilovolt amperes.

Weight of unit, 122 tons.

Fuel oil per k.w.h., 0.133 gallons.

Lubricating oil per k.w.h., 0.00265 gallons.

Fixed Charges.	
Interest at	6 p.c.
Sinking funds at	1.8 p.c.
Depreciation at	2.7 p.c.
Total	10.5 p.c.
Capital Cost.	
Power house	\$20,000 \$2,100.00
Engine foundation	2,500 157.00
Cooling reservoir	2,600 273.00
Engine erected	34,000 3,570.00
Fuel tanks	6,000 630.00
Generator	600 63.00
Switch board	3,000 315.00
Heating and lighting	1,600 167.00
Total	\$69,200 \$7,266.00
Capital cost \$161 per electrical horse power.	
430 k.v.a. at 80 per cent power factor—320 kilowatts.	
320 k.w. at 83.1-3 load factor—394.400 kilowatt hours.	
Cost.	
834.400 k.w.h. at \$7,266 fixed charges	0.77c. per k.w.h.
0.133 gals. fuel oil at 10c. per gal.	1.33c. per k.w.h.
0.00198 gals. lubricating oil at 50c.	0.09c. per k.w.h.
Three operators at \$1.	0.48c. per k.w.h.
320 per year—\$4,500	0.41c. per k.w.h.
Maintenance	0.01c. per k.w.h.
Total cost per k.w.h. delivered to switchboard	2.68c.
It will be seen that fuel oil alone in an installation of this kind costs 1.33c. per k.w.h. which does not compare favorably with 1.2c. for Musquash hydro power, and when we add the fixed and operating charges, the cost of Diesel en-	

gine power is two and one-quarter times the cost of Musquash power. As a matter of fact a Diesel engine plant for a city the size of St. John would be, in my opinion, wholly impracticable. For instance, in 1912 the Electric Power Commission of Ontario, now the Central Ontario system of the Hydro Electric Power Commission, bought and installed a 600 brake horse power unit, erecting a special building to take two of these units, only one of which was ever installed. The idea of this unit was that this and another like it should act as a standby on the end of 44,000 volt transmission line at Coburg. A STANDBY WAS FOUND UNNECESSARY, and the unit was seldom run. When the commission purchased the system it was deemed necessary to retain it and it was sold. It was of such small size as to be of little or no use as a standby unit, and at the same time it cost \$60,000 installed, and the engine alone weighed 150 tons, not including the generator.

The Diesel engine has its uses in special locations—on submarines, and to a limited extent on other sea-going craft, or in locations where water is too scarce to use steam, or where fuel oil is cheap—conditions which exist in parts of the southern United States.

The Diesel engine is necessarily a costly unit, and owing to the extremely high pressure used, as compared with the steam engine—900-1,000 lbs. per square inch—the cylinders have to be small and very heavy. If additional capacity is required instead of increasing the size of the cylinders as in a steam engine, it is necessary to increase the number of cylinders, to which of course there is a limit. Hence Diesel engine units are small in size, extremely heavy and very costly. For instance, in the 600 h.p. unit in Ontario the engine alone weighed 300,000 lbs. and cost installed, before the building, \$60,000, not including buildings or switchboard. This unit was capable of developing 535 h.p. and cost \$75,000, including buildings, or \$140 h.p. and the Yorkton unit cost \$181 h.p. These costs would be considerably greater at the present time. At the time these units were installed, an up-to-date steam plant could have been installed for less than one-half the capital cost necessary for a Diesel oil engine plant. In my opinion the Diesel engine is entirely unsuited to the conditions as they obtain in St. John.

ST. JOHN EXHIBITION ATTRACTED LARGE CROWDS SATURDAY

The final session of the St. John exhibition was brought to a close on Saturday after seven days of what proved to be one of the most successful shows of the kind which has been held in this city. Speaking of the exhibition last night, H. A. Porter, manager of the fair, said that throughout the whole week the exhibition had been thoroughly successful. The fireworks proved a great success this year, even more so than in former years, and the display on Friday

evening was declared by many to be the best of all. The fine weather contributed much to the success of the exhibition, causing an even distribution of the attendance. The number passing through the gates during the exhibition have not yet been made known but Mr. Porter said last night that the number would compare favorably with that of last year. Many of the exhibitors expressed the opinion that they had better results this year than ever.

Heavy Prize Winners.

Many of the cattle exhibitors carried home, along with a large number of ribbons, substantial cash prizes. The following are the largest winners:

Ayrshires—George McIntyre, of Sussex, \$389, taking everything in this class.

Guernseys—Mr. Howard, Chegoogin (N. S.), \$458, taking everything in Guernseys.

Jerseys—H. W. Edwards & Son, Hillhurst (N. B.), \$292.

Hertfords and beef breeds—A. S. Eter, Amherst (N. S.), \$681.

Aberdeen Angus—Horn Bros., \$244.

Holsteins—Harding Bros., Welsford, \$426.

Dual Shorthorns—Alfred Johnson, Truro (N. S.), \$168.

Three trains left the city yesterday, two bearing stock to the fair at Woodstock, which is being held this week, and the other carrying the show companies to South Paris (Me.), where a fair is also being held this week. The train carrying the shows left at 10 o'clock yesterday morning. The first train taking the stock to Woodstock went by way of the Valley Railway, leaving the city at 10 a. m., and the second train left last night at 9:30 o'clock and traveled on the C. P. R. line.

A meeting of the high standing committee of the New Brunswick Independent Order of Foresters, was held at the

office of the high secretary, 84 German street, Friday afternoon. Following the adoption of the annual reports of the high secretary and high treasurer Duncan G. Lingley, was elected to the office of high chief ranger, the office having become vacant through the death of Colonel George W. Mersereau of Doaktown. Plans and arrangements were made for a general forward movement and extension of the order in New Brunswick. A sympathetic and expressive resolution of condolence to the bereaved family of the late high chief ranger was also passed.
