DEEPENING OF ST. LAWRENCE

Prominent U. S. Men Finish Tour.

Louisiana Senator Speaks of Hope of Early Extension of Facilities for Commerce—Mr. Bosworth Also.

Quebec, July 16.—That it would take some little time before the suggested water facilities between the United States and Canada could materialize was the opinion of George M. Bosworth, chairman of the Canadian Pacific Ocean Services, expressed in extending a welcome to the members of the Great Lakes and St. Lawrence River Water Association, who reached here yesterday after a six-day trip down Lake Ontario and the St. Lawrence. The trip reached its climax at Quebec. The purpose of the association is to further the proposed deepening of the St. Lawrence River so as to afford access to ocean-going liners to the Great Lakes, and at Quebec contact was really made with deep-sea navigation when the delegation, which comprises several governors of states, senators, congressmen and prominent business men of the United States, inspected the beautiful C. P. O. S. liner "Empress of France," which arrived here on Thursday.

Mr. Bosworth said that the party had been enough during their trip to impress them with the necessity for further water communication between the St. Lawrence and the United States. These suggestions a month does not materialize, he said, it would certainly work a great change in the relations of the two countries, not only in the matter of transportation, but also in electrical development, which, in these days of the high price of power, is a great impetus to a supplementary source of power. He hoped that the delegation would make their next trip a longer one, across the ocean, when they would find that the C. P. O. S. was the best route.

Senator Ramsdell of Louisiana, after remarking incidentally that he personally had a great interest in the development of Canada because he is a descendant of the Acadians, expressed the thanks of the entire delegation for the cordial extended to them by the C. P. R. and the Canadian government during their journey. He trusted that this was the beginning of a much closer relationship between Canada and the United States. He said that none of the American members of the party had failed to be inspired by the magnitude of the Welland canal and by the fact that Canada had undertaken the single-handed and carried it through. The first estimated cost had been \$60,000,000, but the actual cost was between \$60,000,000 and \$90,000,000.

Canada had not been staggered by the enormous cost, but he thought that the next big brother to the south could do so to pay its share of the balance. It had been said that facilities made commerce rather than industry the basis of the world had ever seen. He foresaw perhaps greater advantage to Canada than to the United States, because Canada afforded the greatest opportunities, and he trusted that the scheme would linger on for ages as dream, as the Panama canal had, but would come about within the next ten years.

After luncheon on the Empress of France came an inspection of the ship, conducted by Captain Cook and C. E. Benjamin, passenger traffic manager of the C. P. O. S. The delegates were very much interested in the war record of the ship, which was chronicled on a tablet in the lounge and which showed that during the war it was flagship of the patrol between the Shelburne and Ireland and had intercepted 15,000 ships, escorted convoys and had steamed nearly 257,000 miles. Many of the pictures were taken on the boat deck.

ATLANTIC HERO KILLED

Harry G. Hawker, who became famous for being the first aviator to attempt a Transatlantic flight in an aeroplane, was killed recently while flying over Hendon Field, England.

HEILMANN IS SHOWING WAY

Wrests Leadership From Tris Speaker.

Ruth's Homers Now 35—Cuthshaw is Chasing Hornsby in National Race—Late Sport News.

Chicago, July 16.—Harry Heilmann, slugging outfielder of the Detroit Tigers, went on a batting rampage last week, and batted himself into first place in the American League outing Tris Speaker of Cleveland, who stepped out in front a week ago. Heilmann boosted his average to .432, compared with .409, a week ago. Speaker lost 21 points, his average dropping from .415 to .394. The same figure held by Ty Cobb, who has not been in the game the last few weeks because of an injury. Tobin of St. Louis, is fourth with .375 and Babe Ruth of the Yankees, next with .371.

Ruth is far ahead of his last season's record for homers, having crossed the 100 hit mark, and carried it through. The first estimated cost had been \$60,000,000, but the actual cost was between \$60,000,000 and \$90,000,000.

PREMIER MEETS CABINET MEN

Week-end Discussions of Irish Matters.

De Valera Has Talks With Prominent Irish Leaders—Reported Question as to Meeting Craig, at Least at Present.

London, July 16.—Resumption of the conference between Lloyd George and Eamon De Valera is planned for Monday.

Mr. De Valera remained at his hotel here and was expected to meet prominent Irish leaders during the day. The premier went to his country home at Chequers Court for the week-end, but did not look forward to any material relaxation of the strain of the last week. It was said he would there confer in private with many prominent members of the British cabinet and men who had taken a prominent part in the conduct of Irish affairs.

It would appear that the discussions between Lloyd George and De Valera had developed the subject of a future tripartite conference of the Irish Republicans, representatives of Ulster and the British government sufficiently for the premier to lay before a deadlock. Sir James was closeted with Lloyd George yesterday after De Valera had left Downing street, and it became known later that several members of the Ulster cabinet had been called to London, although some Irish Unionists had refused to attend.

A statement issued at Mr. De Valera's headquarters during the evening appeared to reflect the determination of the Irish Republicans not to meet Sir James Craig, at least for the time being. It was indicated that he had forfeited his right to enter the conference by refusing to meet the Irish Republican cabinet, although some Irish Unionists had availed themselves of the chance to talk over matters with the Republicans.

It was said the Republicans looked upon the presence of Unionists at the conference as a reflection on the determination of the Irish Unionists from North-Ireland, and the absence of Sir James barred him from participating in the conference. The relations of Great Britain and Ireland, Sir James was to be considered, it was reported, were the chief concern of internal politics.

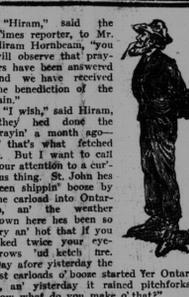

It was said that the government will purchase and market the 5,000 skins from the beaver industry in practice. It is being shown that any person found illegally in possession of beaver skins will be liable to six months imprisonment without the option of a fine.

Dr. D. B. Baker, head of the game conservation board, declared yesterday that the board had conclusive proof of beaver "bootlegging," it being shown that no less than from 4,000 to 6,000 beaver skins had unlawfully left this country since the beaver industry was established in the United States.

As Hiram Sees It

"Hiram" said the Times reporter, to Mr. Hiram Horrobin, "you will observe that prayers have been answered and we have received the benediction of the rain."

"I wish," said Hiram, "they had done the prayin' a month ago—it that's what ticks it. But I want to call your attention to a curious thing. St. John has been shippin' booze by the carload into Ontario, and the weather here has been so dry an' hot that if you kicked twice your eyebrows 'at each other, Day afore yesterday the last carloads of booze started Yer Ontario, an' yesterday it rained pitchforks. Now what do you make of that?"

"Hiram," said the reporter, "I refuse to take it. I would suggest that you submit the question to Prof. Leacock or the editor of Saturday Night. I am sure either them could give you a theory to fit the facts—right off the bat. It is their favorite topic—whether they are wet or dry."

"I am glad to know it," said Hiram. "I'll just send 'em both a post-card—'Yes, sir.'"

SMUGGLING OF BEAVER SKINS

Discovery Leads B. C. Government Practically to Take Charge.

Vancouver, July 16.—The discovery that a highly organized smuggling "ring" is in existence, dealing in skins of beaver caught in this province, has led to a drastic order-in-council at Victoria, whereby the beaver industry is practically made a government monopoly and any person found illegally in possession of beaver skins will be liable to six months imprisonment without the option of a fine.

Dr. D. B. Baker, head of the game conservation board, declared yesterday that the board had conclusive proof of beaver "bootlegging," it being shown that no less than from 4,000 to 6,000 beaver skins had unlawfully left this country since the beaver industry was established in the United States.

MEIGHEN TO SAIL ON THURSDAY

Conference Shelves the Naval Question.

Canadian Premier to Visit Friends in Wales and Then Go to Edinburgh for Freedom of the City.

London, July 16.—(Grattan O'Leary, staff correspondent of the Canadian Press).—As the result of the informal discussions of the last few days, the naval question will be shelved by the conference of British premiers. This has been urged by Premier Meighen from the beginning and its adoption has been rendered inevitable by the decision to have the disarmament conference at Washington.

It is probable that some sort of resolution will be passed, but it will have no relation to policy, or any contemplated action, and it will commit the respective dominions to nothing.

It is not at all improbable that the question of the place and date for the discussion of other matters in connection with the proposed conference will be left in abeyance. The Canadian Press is in a position to state that the meeting will be held at the dominion premiers, both of whom, curiously enough, subscribed to the resolution of 1917 urging the holding of a constitutional conference as soon as possible after the war. The argument they put forward was that the situation now in a state of flux, the question of devising machinery suitable to the changed status of the empire was its attendant danger of throwing the whole question into the vortex of domestic politics, can safely be delayed.

In a word, their position is to leave well enough alone. It is known that General Smuts strongly disagrees with this view. In the last general election in South Africa he practically pledged himself to secure certain reforms. However, as only a few days more remain before the conference concludes its work, the probability of anything concrete being decided appears to be exceedingly remote.

Premier Meighen will sail for Canada on next Thursday. If the Pacific conference is held here, which now seems unlikely, he will return for it to Cardiff, Wales, to visit friends, and on Monday he will be in Edinburgh to receive the freedom of the city and an honorary degree from the university.

Today the Canadian premier will go to Cardiff, Wales, to visit friends, and on Monday he will be in Edinburgh to receive the freedom of the city and an honorary degree from the university.

ALL READY FOR VOTING MONDAY

Alberta Election Campaign Closes Today.

Premier Stewart Re-elected Unopposed—Line-up of the Parties — Political Party System on Trial, Says the Farmers' Spokesman.

Calgary, July 16.—(Canadian Press).—The provincial election campaign in Alberta will close today, and on Monday the electors will go to the polls to choose sixty men and women who will constitute the next legislature, with Premier Charles Stewart returned unopposed for Sedgewick. There are no deferred elections. There are fifty-two constituencies, the large cities, Calgary and Edmonton, each being allowed five members, and Medicine Hat two. All others are one-member ridings.

Unusual interest has been created by the presence, in force, of official candidates of the United Farmers of Alberta. Forty-four U. F. A. candidates are contesting as many constituencies.

The U. F. A. is in opposition to the Liberal government of Hon. Charles Stewart on matters of political principle which are held by the leaders of the farmers' movement to be vital. The Conservatives, who are running full slates in Calgary and Edmonton and have a few other candidates, attack the government's records and point to its alleged extravagance and its alleged unfairness to the cities in taxation as reasons why it should be defeated.

The government points to its administrative record with pride in accomplishments in recent years, promises to continue development of livestock and agricultural industries in Ontario, suggests the early establishment of a department of labor under a deputy minister, and congratulates itself on the outlook for settlement of the demand of western provinces for the return of their natural resources by the federal government.

There is a labor ticket in Calgary and Edmonton, and there are some labor candidates elsewhere, and a considerable number of asserted independents.

In the absence of W. H. Wood, president of the United Farmers of Alberta, H. Higginbotham, general secretary of that organization, said yesterday that "what is on trial is the political party system."

An Early Dispute. Edmonton, July 16.—According to information received here yesterday, the returning officer for Whitford constituency has declared A. Shandro, Liberal M. L. A., elected by acclamation, because the U. F. A. candidate, M. Chornobus, signed his name to the papers with a "g" instead of an "s". The U. F. A. is appealing to the courts here for an injunction restraining the returning officer from withholding the taking of the poll on Monday because of this technicality.

Some Fifty of Them Retained in the Civil Service, is Ottawa Paper's Report.

Ottawa, July 16.—The Journal says—Reconsideration of the cases of some sixty-five employes of the customs department, inside and outside, has resulted in the retention of some fifty of them.

A large number of these had been notified that their services would not be required after Friday, but a last minute reprieve was granted. Reconsideration came as a result of a review of the prescribed lists by a departmental committee.

A similar review has been proceeding in connection with the post office department.

NONE IN N. B. Forty-nine Business Failures in Canada in Week.

Toronto, July 16.—The number of failures in the Dominion for the week ended July 15 was forty-nine, while in the corresponding week of last year the number was thirteen. Ontario and Quebec each had seventeen failures in the last week, Manitoba three, Alberta one, Saskatchewan three, British Columbia three and Nova Scotia five.

Ottawa, July 16.—(Canadian Press).—Forty-nine notices of assignment to creditors by business firms in Canada under the bankruptcy act are gazetted this week. The number last week was thirty-seven.

THREE TRADES IN AGREEMENT WITH THE BUILDERS

Ottawa, July 16.—The strike of the crafts embraced in the building trades council which commenced on May 1, came practically officially to an end on Thursday night when the bricklayers, masons and marble tile setters signed a new agreement. They are to receive ninety cents per hour, ten cents less than last year, and a ten per cent reduction of the rate they first asked for in this year's agreement. No provision for a closed shop is understood, it is contained in the new agreement, which is to expire on April 30, 1922.

FAREWELL TO DUKE

Quebec, July 16.—The Canadian Club yesterday tendered a farewell luncheon to Canada's retiring Governor-General. The Duke of Devonshire said the people of Canada had made his period of office a happy and interesting one. He was leaving Canada with deep regret.

Ottawa, July 16.—The body of Simon James Montgomery, aged fifty-two years, a prominent business man of Ottawa, who has been missing from his home since Wednesday was discovered in the river last night. It is thought he drowned either by the intense heat of swimmer's cramps.

LABOR EXPERIMENT ABRUPTLY ENDED

Communists, Allowed to Run Factory, Failed — Human Nature Asserted Itself.

Paris, July 16.—An interesting labor experiment came to an abrupt end, when the factory of the famous airplane constructor, Voinin, was occupied by the police, who expelled some hundreds of workmen who had seized it.

During the war, M. Voinin had French captains of industry in profit-sharing and other benefits for employees, subsequently he began to manufacture automobiles, but, finding production unsatisfactory, called his workmen together and asked their co-operation. It was decided that the factory should be run by the workers themselves on communist lines, so far as actual production was concerned, while selling, designing, accounting, etc., should be carried on in the usual way. The profits were to be divided between the employer and workers according to a determined schedule.

All went well for a time despite the general business depression. Production improved 40 per cent, and the concern reported that it was making a profit while its rivals were losing money. But gradually things began to work less smoothly. Squabbles arose between individual workers and foremen, both of whom had chosen themselves and those selected by the management.

To the grief of the more communist element among the rank and file, it was found that the foremen intended to stick together as a body, irrespective of "class consciousness." In other words human nature and the spirit of emulation had come into play.

The foremen threatened to resign en masse unless discipline was strengthened. The workers retaliated by throwing one foreman, going first to the union. As a result of pressure by the foremen's group, some eighty leading "militants" were dismissed. Thereupon the workers yesterday seized the factory.

At the hour for changing shifts this morning they were expelled by armed police, who are now guarding the mill workshops.

CUT PAY IN TORONTO MOVIES 25 PER CENT

Toronto, July 16.—Union musicians and moving picture operators will today receive notice from employers that they will have to accept a cut of twenty-five per cent in pay for the season to begin on September 1. It is the same for the workers. Falling off of hands on Thursday. If the cut is not accepted it is announced that non-union help will be employed.

CANADIAN COUNCIL OF AGRICULTURE

Toronto, July 16.—On July 26 and 27 the Canadian Council of Agriculture will meet in Toronto. For the first time all provinces in the Dominion will be represented. "Hasslers" Cost You Nothing

You really pay nothing for the big car comfort Hasslers bring to your Ford. Hassler Shock Absorbers pay for themselves by the saving in tires, upkeep, and depreciation costs they effect.

Give them a trial at our risk. Any Hassler dealer will put them on without changing your car. You enjoy them for ten days. Then he'll remove them and refund your money if you're not entirely convinced that you've made a real investment. Hasslers are made for any Ford model, car or truck.

Aspirin

Nothing Else is Aspirin

Warning! Unless you see the name "Bayer" on tablets, you are not getting Aspirin at all.

Accept only an "unbroken package" of "Bayer, Tablets of Aspirin," which contains directions and dose worked out by physicians during 24 years and proved safe by millions for Headache, Earache, Toothache, Neuralgia, Colds, Rheumatism, Neuritis, Lumbago, and pain generally. Made in Canada.

Handy tin boxes of 12 tablets cost but a few cents—Larger packages.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Mono-aceticester of Salicylic acid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

SAID HUSBAND RAN OFF WITH MOTHER-IN-LAW

Detroit, July 16—Ruth and Wm. A. Wescott were married in 1916. Four years later William ran away with Ruth's mother, according to Ruth, who appeared before Circuit Judge Richter and obtained a decree of divorce.
After their marriage the Wescotts went to live with the bride's parents at 8420 Hancock avenue.
In March, 1920, the husband and mother disappeared. Mrs. Wescott said. Her mother is nineteen years older than she. Mrs. Wescott was given the custody of their child.

WANT RIGHT OF TAXATION LEFT WITH COMMONS
London, July 1—Associated Press by mail)—There is a growing spirit of revolt among the more independent members of parliament against the increasing frequency with which, it is alleged, the government imposes taxation without giving due consideration to the rights of the members of the house of commons. Captain Wedgwood calls his bill the "Declaration of the Rights Act, 1921."
The bill is backed by Sir Donald Maclean, Lord Robert Cecil and Sir Frederick Hanbury. Nobody imagines that it has any chance of passing, but if it should ever come before the house it will give some of the revolvers an opportunity to say what they think about the government's methods of raising money from the taxpayers.

The Wahabi, Desert Tribe, a Hard People to Deal With—Are Fanatically Mahomedan.

London, June 28.—(Associated Press by Mail)—A novel working arrangement on the "no peace, no pay" principle has been entered into by the British government with the Wahabi, a powerful Arabian desert tribe. The Wahabi are nomads and belong to a sect which Colonel Secretary Winston Churchill described in the House of Commons as "bearing the same relation to orthodox Islam as the most militant forms of Calvinism would have borne to Rome in the fiercest times of the religious wars." They are, he said, austere, intolerant, well-armed and bloodthirsty and they regard it as an article of duty as well as of faith to kill all who do not share their opinions. Moreover, they are very

dangerous to the holy cities of Mecca and Medina, and the whole institution of the pilgrimage. The finances of the Sherref of Mecca, who enjoys British protection have suffered grievously by the interruption of the pilgrimages. Therefore, to assist him and King Hussein of the Hedjaz, who has been in constant warfare with the "Arabian Calvinists," the latter are to receive \$50,000 cash annually, so long as they refrain from annoying their neighbors and do not interfere with the candidacy of Hussein's son, the Emir Feisal, for the rulership of the new Mesopotamian state.

Colonel Lawrence of the Colonial Office who has lived among the Wahabi for years, told an interviewer that they were indeed a most violent people. They are, he said, fanatically Mohammedan and would kill their men and women, for smoking even a cigarette. The way they correct their women is to tie them up in bags and beat them unmercifully with palm canes.

Restrictions on Wives. Each man has three wives. Should any of them go out of doors, the code allows him to have her put to death. This is because they believe that if any other man looks at her she is contaminated and that if a woman goes outside her home she is certain to go wrong. Wearing a silk dress of any costly

"The Phonograph with a Soul"

Oh Joy! Edison's latest Broadway hits arrive

A Dismal day for two vacationists in the country

Edison is first with Broadway Hits

EDISON'S Special Broadway Hit Service has brought Broadway right into our store. We can put Broadway into your home. Come to our store and listen to Edison's July Broadway hits, if you want to hear the same hits that Broadway is singing, dancing and whistling this very moment.

If you do not own a New Edison, we shall be glad to loan you one on three days free trial, together with the latest Broadway hits.

Not until you have a New Edison in your home, can you appreciate what music will do for you; how it will revive you on a hot day; drive away the blues; banish worry, and refresh you when you are exhausted.

Mr. Edison's \$10,000 Prize Offer

You have probably heard about Mr. Edison's famous \$10,000 Prize Offer for a four or five word phrase, which will distinguish the New Edison from other phonographs and talking machines. Ask us for information about this prize offer. Having a New Edison in your home will give you ideas for prize contest phrases.

You fill out the coupon and we loan you an Official Laboratory Model—the only phonograph that can sustain the test of direct comparison with the living artist.

PAIGE
The Most Beautiful Car in America

World's Championship Form

WHEN the "Daytona" stock chassis of the Paige 6-66 established a world's stock car record of 102.8 miles per hour—on January 21st, 1921—it proved itself to be a remarkably high example of engineering ability.

And remember—these qualities are not confined to the particular car which won so signal a victory for Paige. They are inherent in every Paige 6-66 motor—such as any man may buy.

We ask you to establish this fact yourself. A ride in any Paige 6-66 will show you that outstanding performance under all road conditions is a tangible feature of every Paige 6-66.

Any Paige dealer will give you the opportunity of learning the Paige story at first hand.

DANGEROUS DECISION

Wife Has Right to Search Husband's Pockets.

Riverhead, N. Y., July 16—Judge George H. Furman, of the county court of Suffolk, has decided that a wife is quite within her rights in going through her husband's trousers while he is asleep. The decision followed an appeal of Mrs. Theresa Marabelli, who was sentenced to four months in jail by a justice of the peace for removing \$10 from the hip pocket of her husband's miter garment while he peacefully slumbered. She spent the money on a trip to New York and was arrested a few days later in Brooklyn on a warrant sworn out by her husband.

The appeal was financed by a number of other women anxious to have their rights to "frisk" their husbands, definitely established. Their lawyer pointed out that under the common law which takes of seventy feet. His neck was broken and he was dead when picked up.

On To Calgary and The Women's Council

At the Windsor Hotel, Montreal, even at eight thirty of an extremely warm morning the "good morning" greeting was delightfully obvious; and to the incoming guests entering the familiar corridors the smile and salutation were indeed welcome after the early stroll from station. The streets were typical of the business of the city with its hurrying men and women on the way to their various occupations. In the Rose Room of the Windsor, the head waiter and waiters in passing, gave their bright good morning, so changed from year-day days, when the foreign element of Austrians and German's gave reluctant service, and that of a questionable neatness and civility.

The menu laid beside my cover also indicated the follow up spirit of fraternity, the words in no mean type caught my eye. The new guest, hungry for breakfast, yet with an appreciation of all things well provided, smiled at the waiter, pointed to the card, and said he was not too tired from traveling to night to enjoy not only the words, but the list of suggestive breakfasts. Then came another bright "good morning" and on looking up the St. John council woman was delighted to return to E. L. Hising's greeting prophetic of the auspicious day.

Our Council appreciates the courtesy and helpfulness of the men and it is not surprising that its women are ever, confident of the courtesy and adaptability of the men; for as one National officer remarked, the National Council of Women, "is not striving for superiority, but just equality, to work together, to get together, and stand together in the work of the nation." These words explain clearly the definiteness and definitions of the policy of today's woman, to whom the National Council must

east, in St. John. Why, the papers in Montreal say the place is without light or cars? And so my new found friend of the C. N. R. employ, a transplanted Calgarian, rambled on until the porter came up to relieve the mind of the patiently waiting delegate as to whether that night train was going on its journey to New Brunswick without her. We shook hands happily, and the stool was vacated and was taken possession of by a gum-chewing girl of sixteen, while the late occupant wended her way to the pullman with kindly, appreciative thoughts of all C. N. R. porters, stewards, waiters and station officials.

By the time the train pulled out of that stifling station, endurance had developed into satisfaction that no fainting females had been obvious in those crowded pullman coaches. While a big porter, whose size was obstructive in the aisles, was later making up the berth, some of the passengers whose minds were not running in channels of sleep, sought the fresher air from the platform.

In the morning breakfast was enjoyed in solitude, quite a change after many delightful travelling companions on the west division, who cannot wait their places taken by others who were as interesting and charming as the previous. At Mont Joli there was only opportunity for a short stroll, and the quiet Sabbath atmosphere, while French-Canadian devotees wended their way from mass, imparted a restfulness and quiet to the little village. Even the reminding bells had ceased their soft clang and left only the soft murmur of the passenger, while the engine snorted, got up steam and prepared for another lap of the home journey.

At Campbellton, ten minutes, and everyone out on platform among the passengers foreigners from the colonist car whose objective point this time was not ascertained. We were in New Brunswick, so different from the rolling prairie, and the unbroken or half settled woods of north-western Ontario. One could almost sense the New Brunswick air without opening the eyes to verify that peculiar something intangible of the province. Out beyond the blue, sun flecked waters of Bay Chaleur, emptying into the immense waters of the Atlantic. Back to sea level, and to the tang of the saline air, and the conviction that fresh, appetizing fish would be possible for the lunch menu. The fish in the west had been eaten sparingly. Alaska codfish, Lake Superior white fish and lake trout are insipid, and lack the flavor of the New Brunswick cod, trout and that king of the province's fish, salmon. Gaspé salmon had been eaten appreciatively in Montreal, and the delegate had felt that like "Oleiver," was quite ready for the traditional "more."

Numerous had been the expressions at severance of the official luncheon in Calgary of the delicious salmon served last summer in St. John, when the heads of the federated societies planned so successfully for that treat to the visiting women from a lover the Dominion. Retirements of a future return in salmon

PRIEST IS PRIVILEGED.
Has Right to Make Attack From Pulpit, Says Court.

Paris, July 16.—A priest's right to attack from the pulpit anything he considers injurious to the moral welfare of his parishioners has been upheld in the Quimper appeals court, reversing the judgment of a lower tribunal by which Father Souhigou was condemned to pay 200 francs damages for libeling a couple named Le Mir. The latter own a cafe-dance near Father Souhigou's church, and he contended, seriously interrupted divine service with unceremonious music.

Moreover, there was a good deal of drinking on their premises, so that the father finally warned his parishioners he would decline to confess those who frequented the dance hall or marry people who intended to hold wedding parties there. Le Mir used him for defamation of character and loss of trade with success in the local tribunal.

The higher court, reversing the judgment, pointed out that a priest's words from the pulpit were privileged and he was responsible, therefore, to his ecclesiastical superiors only.

ROLLED WHILE ASLEEP TO DEATH IN THE GORGE
Niagara Falls, Ont., July 16.—The body of John Widtop, fifty-one years old, of 1388 Linwood avenue, Niagara Falls, N. Y., was picked up in the Niagara Gorge at the head of Linwood avenue. He rolled from the bank while asleep, according to the statement made by Hugh Johnson, of this city.

Home Made Bread

Home made bread is without doubt the cheapest and most healthful food that can be produced for human consumption. It is the most completely digested solid food in the world, over 90% of it being transformed into health and strength. It yields nearly twice as much nourishment as rice or potatoes, and is ten times as nourishing as an equal value of meat. No bread is more truly wholesome or more perfectly satisfactory than that baked at home in which Royal Yeast Cakes are used.

ROYAL YEAST CAKES

It was known many years ago that yeast is an excellent thing for constipation, anemia, boils and pimples. Lately eminent scientists have been investigating the matter thoroughly and their conclusions point to the fact that the beneficial effect of yeast has not been overrated. The yeast treatment is very simple and economical—and altogether harmless.

Before each meal eat a Royal Yeast Cake, or take a cake dissolved in water or fruit juices. The scientific investigators say that the curative elements in yeast are the vitamins and nuclein which it contains. It is certainly well worth a fair trial by those who suffer from any of the ailments mentioned above.

May Take Colonists on Expedition to Arctic

Walla Walla, Wash., July 16.—Vik-Johann Stefansson is organizing a new expedition to the Arctic which will leave Seattle about August 6, according to a statement made privately Tuesday. This expedition will be for commercial purposes, and it is supposed, will take colonists into the Arctic circle. Stefansson stated that the north would be populated within the next thirty years and that the development would be rapid. Allan Crawford of Toronto and E. L. Knight of McMinnville, Oregon, members of former expeditions, are in Walla Walla in conference with Stefansson, and it is thought that Knight will lead the new expedition.

YOUNG WOMAN RUNS SIGNALS FOR RAILWAY

Windsor Girl Takes Father's Job to Support Younger Sisters.

Windsor, July 16.—Canada's only woman railroad tower "man" is Miss Muriel Stevenson, twenty, of this city. She guards Michigan Central and Canadian Pacific tracks in the main yards at Windsor daily, from 4 p. m. to midnight.

Miss Stevenson got into railroading at the death of her father. Faced with the problem of supporting herself and six young sisters, she took her father's post, and now fills the job as well as any man.

When her work is done nightly, she crosses the tracks to her cottage near the railroad station to mother her "family" and superintend the running of the household.

During the war Miss Stevenson, in addition to other duties, found time to take an active part in the war veterans' relief work.

AMERICANS EDUCATE PERU. More Than Twenty Professors Are Reforming the School System.

Lima, Peru, July 16.—Virtually the entire educational system of Peru is now under the direction of American professors who were called here recently to complete an educational reform movement begun ten years ago.

Fourteen other American professors are to be sent to Peru to complete the reorganization of the university, in accordance with the special needs of each section of the country.

Dr. Harry Erwin Bard, formerly secretary of the Pan American Society of the United States and formerly connected with the Philippine Educational Mission, was chosen by President Leguia to direct the reorganization. Dr. Bard has been appointed general director of education and under him are more than twenty American professors.

The country has been divided into three regions. The regional directors are John K. Breckin of South Carolina, William W. Andrews of Massachusetts and Glenn L. Coulkins of Washington.

P. B. Spaulding of Vermont is director of libraries; L. M. Wilson of Illinois is director of examinations and studies, and P. L. Crane, formerly director of the Philippine school system, is director of school construction.

The university called the University of Technical Schools has been created. Its branches are engineering, agriculture, pedagogical sciences, industrial arts and commerce. The last three branches are respectively under the direction of H. G. Lull of Kansas, R. C. Phillips and Dr. William E. Dunn, formerly of the University of Texas.

Fourteen other American professors have been distributed among the secondary colleges.

AMERICANS EDUCATE PERU. More Than Twenty Professors Are Reforming the School System.

Lima, Peru, July 16.—Virtually the entire educational system of Peru is now under the direction of American professors who were called here recently to complete an educational reform movement begun ten years ago.

Fourteen other American professors are to be sent to Peru to complete the reorganization of the university, in accordance with the special needs of each section of the country.

Dr. Harry Erwin Bard, formerly secretary of the Pan American Society of the United States and formerly connected with the Philippine Educational Mission, was chosen by President Leguia to direct the reorganization. Dr. Bard has been appointed general director of education and under him are more than twenty American professors.

The country has been divided into three regions. The regional directors are John K. Breckin of South Carolina, William W. Andrews of Massachusetts and Glenn L. Coulkins of Washington.

P. B. Spaulding of Vermont is director of libraries; L. M. Wilson of Illinois is director of examinations and studies, and P. L. Crane, formerly director of the Philippine school system, is director of school construction.

The university called the University of Technical Schools has been created. Its branches are engineering, agriculture, pedagogical sciences, industrial arts and commerce. The last three branches are respectively under the direction of H. G. Lull of Kansas, R. C. Phillips and Dr. William E. Dunn, formerly of the University of Texas.

Fourteen other American professors have been distributed among the secondary colleges.

YOUNG HAMILTON ENJOYS HYDRANT SHOWER BATHS.

Hamilton, July 16—Shower baths for local kiddies were inaugurated in Rosslyn avenue this week, when Controller Thomas O'Heir, who has long urged such a practice, turned on several of the city hydrants for the benefit of boys and girls who are too young to swim in the bay.

Mostly every kiddie in East Hamilton was at one of several hydrants, with the result that the privilege will be extended to other parts of the city.

MANY CITY UNIONS MARCH IN PARADE

More than twenty-five unions, attended by four bands, took part in the labor parade last night. The entire march passed off without any incident occurring to mar the harmony of the occasion. The procession, with C. H. Stevens and J. J. Donovan acting as marshalls, left King street east shortly after 8 o'clock and marched to the North End and back to the starting place, where it disbanded. The streets through which the procession passed were thronged with curious spectators. The entire day force, as well as the night shift, of the local police force were on duty last evening but their services were not required.

When the procession left for the North End a crowd congregated in the vicinity of the power house. The police, however, in that section numbered more than twenty-five patrolmen, sergeants and plainclothes men and they kept the entire throng, within blocks of the power plant, on the move. When the parade was passing the power house all the unions cheered madly but made no hostile move. The procession was followed by a large number of automobiles, whose horns at times added greatly to the general din. A feature of the parade was a large motor truck, decorated for the occasion, which joined the column at the foot of Main street.

WANT RIDEOUT

Sydney, N. S., July 15—Over fifteen thousand voters have already attached their signatures to a monster petition praying for the appointment of George R. Hildout, as chief inspector for Cape Breton under the Nova Scotia Temperance Act. On Monday evening a delegation of prominent citizens, including leading Liberals and Catholic and Protestant clergymen, leaves for Halifax to present the document and a verbal argument at a meeting of the provincial government.

The rains of yesterday either entirely quenched the brush fires around St. John or drenched them so near, to the point of extinction that by last evening there were few evidences left of the flames which many times during the last few days have occasioned considerable anxiety and necessitated the constant labor of scores of men in an effort to keep them under control.

PUBLIC NOTICE

A plebiscite of the Ratepayers of the City of Saint John will be taken on Monday, the first day of August next, under the provisions of the Act of Assembly 11 George 5, Chapter 7, intituled "An Act respecting Harbor Commissioners and for taking a plebiscite thereon in the City of Saint John," as to whether or not the said Ratepayers approve of conveying to His Majesty the King the Harbor property and privileges now vested in the City of Saint John and situate or exercisable within the boundaries set forth in the third section of "An Act relating to the Harbor of Saint John in the Province of New Brunswick," being chapter 70 of 9-10 George V. of the Statutes of Canada and described in said Act, as follows, that is to say:

"The boundaries of the said Harbor of Saint John, for the purposes of this Act, shall be as follows: The northern limit of said Harbor shall be a line drawn due northeast (astronomically) from the middle of the Dominion Government Lighthouse tower erected in 1886 on the westerly bank of Saint John river, at Green Head, to the easterly bank of said river. The southerly and westerly limits of said Harbor shall be as follows: Beginning at the intersection with high water mark of the westerly face of the Government breakwater at Negro Point; thence due south (astronomically) four thousand four hundred and fifty (4,450 ft.) feet, more or less to an intersection with a line drawn due southwest (astronomically) from the middle of the Dominion Government Lighthouse tower erected on Partridge Island; thence due east (astronomically) six thousand (6,000 ft.) feet, more or less, to an intersection with a line drawn due southwest (astronomically) from the point where the easterly boundary of the Military Grounds at Red Head cuts high water mark; thence due northeast (astronomically) nine thousand (9,000 ft.) feet, more or less, to high water mark."

THE FOLLOWING IS A BRIEF STATEMENT OF THE PROPOSED TERMS UPON WHICH THE SAID HARBOR PROPERTY AND PRIVILEGES MAY BE CONVERTED:

The Harbor, rights, powers, titles and interests upon the transfer of the same by the City are to be vested in and exercisable by the Saint John Harbor Commissioners, a Corporation to consist of 3 Commissioners to be appointed by the Governor-in-Council for the management and improvement of the said Harbor, which Corporation shall have jurisdiction over the said Harbor, and shall have the administration and control of the Harbor; also that the Elevator, the property of His Majesty and all wharves, the property of His Majesty in the right of His Government of Canada, within the limits of the Harbor shall be subject to the control of and administration by the said Commissioners upon and from such date as may be fixed by the Governor-in-Council, but that they shall pay in consideration thereof to the Minister of Finance of Canada interest at the rate of 3 1/2 per cent per annum upon the amount of construction thereof.

The consideration for the transfer of the Harbor property and privileges is to be \$2,000,000.00 payable as follows: \$1,342,717.55 which represents the present bonded indebtedness of the City in connection with Harbor development to be assumed and taken over by the Commissioners who shall pay the interest on the said bonds and the value of the same as they mature, and for the balance \$657,282.45 the Commissioners shall issue to the City its Debentures payable at the end of 25 years from the day of issue and bearing interest at the rate of 6 per cent per annum payable half yearly; if such debentures or interest are not paid by the Commissioners when due, they shall be paid by His Majesty.

The receipts from Harbor Revenues for the 9 years from 1912 to 1920 amounted to \$1,216,032.41; and the expenditures for the said 9 years amounted to \$1,220,850.54, showing a deficit of \$4,818.13 for those years.

The receipts from the Fisheries for the years 1912 to 1921 were as follows:

1912	\$ 3,175.95
1913	3,837.45
1914	2,184.80
1915	1,802.80
1916	2,251.50
1917	8,231.40
1918	12,644.40
1919	11,044.10
1920	15,970.08
1921	5,191.85
Total	\$72,018.08

The said Harbor Commissioners are authorized to borrow money and issue Debentures to provide for the purchasing, constructing, extending and improving wharves, dry-docks, elevators, warehouses, railways, bridges and other accommodation and structures in the Harbor, the principal and interest of the money so borrowed to be repaid out of the revenue arising out of the rates penalties imposed by the said Harbor Commission Act.

The Act also provides that the lawful charges upon the said revenue shall be as follows, and in the following order, that is to say:

- The payment of all expenses incurred in the collection of the said revenue and other necessary charges;
- The defraying of the expenses attendant on keeping the wharves and other works vested in the Corporation in a thorough state of repair;
- The payment on the Debentures issued by the Corporation to the City of Saint John under the authority of the Harbor Commission Act;
- The payment of interest due on all money hereafter borrowed under the said Act;
- Providing a sinking fund for paying off all money borrowed or the liability for the payment of which is assumed by the Corporation;
- The cost of operating docks and wharves, and otherwise carrying out the objects of the Harbor Commission Act.

E. A. SCHOFIELD, Mayor.

"Go as Far as You Like on 'Gutta Percha' Tires"

Make Every Picnic a Success -

WHAT Fun is a Picnic if you have to stop in the dusty road to fix a tire? There is one Tire that "stands up" continuously—without a murmur or a show of weakness. It is built to keep running—to "go as far as you like"—and bring you back again. There's no "death's head" at the feast when you go picnicking on "Gutta Percha" Tires. They are an assurance of a jolly trip with no mishaps. When you buy a Tire make it a point to ask for a "Gutta Percha"—Cord or Fabric—each the best of its kind.

BASEBALL

Today's Game.
Moncton and St. Peter's are scheduled to play afternoon and evening games on St. Peter's grounds today. There were four teams playing in the railway city and the pick of the town would be on the Moncton line-up here today, it was said last evening.

The Y. M. C. I. and Wolves will play a double-header on the East End grounds this afternoon starting the first game at 2:30. The game scheduled between these two teams last evening was called off on account of wet weather.

The Simms-Stetson & Cutler game in the Industrial League, scheduled for last evening, was also postponed on account of condition of the grounds.

Royals accepted the challenge of the "Laf" to a game on the South End this afternoon at 2:30 o'clock.

Amended City League Schedule.
Owing to errors in the original City League schedule, in which the St. Peter's appeared in place of the Pirates in the games for July 18 and August 1, the corrected schedule for the balance of the series is given herewith, as follows:

July 18—Commercial vs. Pirates, St. Peter's grounds.
July 19—St. Peter's vs. Commercial, E. E.
July 21—Pirates vs. St. Peter's, E. E.
July 22—Commercial vs. Pirates, St. Peter's grounds.
July 23—St. Peter's vs. Pirates, St. Peter's grounds.
July 24—Pirates vs. Commercial, E. E.
July 25—St. Peter's vs. Commercial, E. E.
August 1—Commercial vs. Pirates, St. Peter's grounds.
August 2—Pirates vs. St. Peter's, St. Peter's grounds.
August 3—Commercial vs. St. Peter's, St. Peter's grounds.
August 4—Pirates vs. Commercial, E. E.
August 5—St. Peter's vs. Commercial, E. E.
August 6—Commercial vs. Pirates, St. Peter's grounds.

Game Postponed.
The game in the City League last evening on the St. Peter's grounds was postponed on account of the muddy condition of the grounds.

May Disrupt League.
The Carleton team refused to play a scheduled game on Queen Square last evening until the manager of the team had apologized for an alleged insulting remark said to have been made one of the St. Rose's supporters to the league president, P. J. Levesque. The manager was awarded to St. Rose's, 9-0, at an executive meeting held later. It is decided that unless an apology was forthcoming the league would disband and a new league would be formed, consisting of Carletons, Fortinards and St. Rose's.

THE RING.
Wilson Retains World's Title.
Boston, July 15—Johnny Wilson, world's middleweight champion, won the decision over George Robinson of Cambridge in the rounds here tonight. Wilson was three and a half pounds over the 158 stipulated weight, and had the best of the first and ninth rounds. Wilson had a clear advantage over Robinson in nearly every other round.

FIST FIGHTING DEVELOPED BY THE GREEKS
There have been fist fights and perhaps friendly sparring bouts ever since man discovered that he had fists, says the Toronto Mail and Empire, but the Greeks are credited with having been the originators of boxing as a sport. More than 600 B. C. they had made an art of boxing and probably understood the proper attitude in which to stand when delivering or receiving a blow. If we may judge by carvings and statuary that have survived their ancient civilization, the Greeks fought on boxers' bare fists, aiming exclusively for the head. It has been suggested that either they did not understand what damage could be inflicted upon the body with a fist or that they considered to strike below the neck as great a fault as we consider hitting below the belt. When they were conquered by the Romans their new masters learned the art and took it to Rome, where they developed it into a bloody gladiatorial combat, in which often one or other of the antagonists was killed.

The Savage Romans.
It is recorded as illustrating the Roman character that when a Greek choir visited Rome and sought to entertain the imperial people that the audience was bored and commanded that the singers should drop their instruments and give a boxing exhibition. This was done and only the fact that one Greek banged another on the nose so violently that the blood flowed copiously prevented the entertainment being a complete fiasco. But bare fist fighting was too tame for the Romans, used as they were to seeing gladiators kill each other with swords and spears and seeing slaves eaten by savage animals in the Coliseum. They wanted more action that the bare-fisted boxers could supply, so one of them devised the cestus, a contrivance of oxhide strips filled with lead, which was attached to the fists of the boxers. Another improvement was something resembling brass knuckles, while a third innovator made a metal arrangement with two small metal prongs sticking out from the knuckles.

Advantage of Speed.
Thus armed the boxers could give as bloody an exhibition as need be. One blow would mean mutilation, if not death, and the only reason every contest did not have a fatal ending was that neither Greeks nor Romans had any idea of a ring, the men fought in the vast amphitheatre, which would seat 100,000 people. They might retreat as much as they liked, but if backed away too far they were scourged to the fray by the arena attendants. Before the coming of the cestus the smaller and lighter boxers had a great advantage because of their superior nimbleness. Indeed, the bulky antagonist was usually the favorite of the crowd, because he was reckoned to be handicapped. But when the cestus and other deadly contrivances were adopted the science changed. The man who could strike a strong blow came into demand, and he was found usually to be a big fellow. So the world was scourged for huge bruisers who would make sport for the Romans.

Purer Defensive Art.
Since everything depended upon a man avoiding a blow, the science of

ancient boxing was devoted wholly to defence. The man who could maintain the strongest guard was invariably the victor. There was one of these, a favorite with the Emperor Titus, named Melancomus, who, it was believed, could keep his guard up for two days at a time, and it was averred that some of his antagonists had died from exhaustion as a result of trying to pass his mighty arm round each other without striking. For all the sport some of the contests afforded each gladiator might as well have built himself a bomb-proof shelter and retired into it.

First Modern Professional.
The Greeks boxed for sport, and citizens of all classes would take part in the bouts. In Rome at first the game was confined to Greeks, professional gladiators and slaves. Slawarts captured in battle were often given the option of spending the remainder of their lives in slavery or entering the ring as gladiators. Many of these chose the latter alternative, since successful gladiators were as much an object of general admiration then as successful boxers are now. But as soon as they were beaten, or even after they had been disgraced, they became objects for the gentle Roman public to jeer at. Later on, as the sport became more popular, Romans of the aristocracy took it up, and at least one emperor, Commodus, fought in the arena. With the fall of Rome boxing disappeared for a thousand years, until it was revived in England. Tom Figg, who flourished two hundred years ago, is considered to have been the first professional pugilist.

GIVE AID TO THE FILM MAKERS
New York Bureau Produces Any Setting Wanted—Seaplanes, Country Estates and Hounds All for the Asking.

(New York Evening Post)
Wanted—a seaplane within twenty-four hours—that is one of the requests that came in to the Mutual Benefit Film Bureau and was satisfactorily filled, the machine appearing according to contract the film being made, and the bureau turning over the proceeds of its part of the transaction to charity. For that is where the mutual benefit comes in, the bureau gets locations and apparatus that in the language of one producer "simply can't be got," and charging reasonable rates for them adds to the treasury of the American Committee for Devastated France and the Maternity Centre of New York.

The organization has been functioning for eleven weeks and has already co-operated with eleven of the largest moving picture companies, for charity unlocks many doors otherwise tightly closed, and private estates and exclusive homes are gladly thrown open when it means helping two such worthy causes. And not only individuals have helped, but department stores, real estate firms, hotels, and other business organizations have given the needed location or accessory and contributed to the success of the bureau's undertaking.

At the headquarters of the organization, 4 West Fortieth Street, one may see pictures of films now in progress whose locations have been secured by the bureau. The film of "Disraeli," in which George Arliss is taking the title part, required "Tudor" backgrounds, the atmosphere of pleached walks and ivied walls, vast stretches of velvet trees, and the majesty of spreading trees. But these things cannot be constructed in

a motion picture studio, however clever the producer and skilful his aids, and a made-up illusion setting does not carry the desired effect. The bureau was able to offer the country place of George Pratt at Glen Cove, L. I., and a stately and appropriate setting was the result.

In making a screen version of "Peter Ibbotson" a pool was needed where the children could play, as though in the heart of a wood, as well as a charming bit of outdoors for the picnic scene, which Peter shrines in his memories of happy childhood. The estate of Mrs. Meredith Hare at Huntington, L. I., furnished the desired milieu, and it is all there to the life, the little fete champagne of the two families with the children listening to the old soldier while their elders look on with indulgent amusement.

They give an instance at headquarters where charity accomplished the impossible. A well known film star required for the course of her new production to get out of a taxi cab in the courtyard of an exclusive apartment house in this city, bid farewell to her escort and then disappear. But the owner of the apartment house refused for any consideration to permit a filming in his premises, for a previous experience had proved decidedly objectionable and he was not desirous of repeating the experience.

SHOCKED TO READ IN PAPER ABOUT BROTHER DROWNED

This Morning's Telegraph Had Distressing News for J. D. Belyea of West St. John.

Reading his copy of this morning's Telegraph while crossing on the ferry on his way to business this morning, J. D. Belyea, of 127 Water street, West End, a member of M. R. A. Ltd staff, was shocked to find in the paper the news of the drowning of his brother, Captain B. W. Belyea of Fire Island, New York, yesterday. He was the commander of the schooner Marie Brown, and the New York despatch told of this vessel being in collision with the steamship Harmondios, and being sunk. With Captain Belyea also went down three members of his crew.

The schooner left New York on Thursday with a cargo of coal for Eastport, Me. According to officers of the Harmondios, the schooner crossed the steamer's bow, striking the port side and going to the bottom in three minutes. The men saved included Harold Belyea, son of the captain; Robert Ortega, a sailor, and an uncommissioned seaman whose name could not be learned.

The Marie Brown was a vessel of 465 gross tons and was built at Thomaston, Me., in 1903. The steamer, which was in-bound from Montreal to load for South America, was apparently undamaged.

Captain B. W. Belyea was a native of St. John. He was the son of James Belyea, proprietor of the Rockwood Hotel, Brown's Plaza. His wife and daughter, Gertrude, reside in Calais. Captain Belyea was forty-eight years of age. He has not been in St. John for some years. He expected to retire in a few months, however, and come back to his old home. He formerly was in the employ of J. Willard Smith. His wife and daughter were visiting in St. John recently and returned to Calais only on last Monday night.

SHUT OFF SPRUCE LAKE 24 INCH MAIN MONDAY

The water will be shut off the 24-inch main from Spruce Lake next Monday morning at seven o'clock. Water takers in Fairville, Lancaster, and the higher portions of West St. John should draw enough water to supply them for the day. Shutting off the water is for the purpose of providing means to make connections between the present 24-inch pipe and the concrete pipe on Monday. The pipe-laying is about half done.

ECHOES OF BOYS' CHIPMAN CAMP

Forty Lads Had Happy Time at Y. M. C. A. Outing—Some Records.

The Y. M. C. A. Boys Camp at Chipman broke up on Thursday and the suburban and happy lads returned to their homes that evening. There were forty boys in attendance of whom thirty-seven were from St. John, two from Hampton and one from Petticoat. Every boy expressed his determination to attend next year. The camp was one of the most successful yet undertaken.

The camp was divided into eight tents, with five boys to a tent. Two tents comprised a tribe. The four tribes were the Micmacs, under the leadership of Jarvis Wilson; the Mohawks, under Captain Bowie; the Chippewas, under H. A. Morton and the Inquois, under the camp leader, Nelson McKwan. The various sports and activities were intermingled, so that there was a keen rivalry which heightened the enthusiasm.

The volley ball league was won by the Micmacs with the Inquois in second place. On stant night the supremacy remained with the latter until the last inning when the former brought in two runs. A very wise feature of this league was that every boy had to play. Before the close of the camp an athletic meet was held in which two new records were hung up. Jack Frost made five feet, two inches in the high jump and Harold Heavey made the excellent record of 22 feet, 7 1/2 inches in the standing hop, step and jump.

Great enthusiasm was shown and much canvassing was done for the elections to the Hall of Fame. The elections, some of them not desired by the recipients, resulted as follows: Most popular boy, Don Smith; best looking boy, Frank Keen; best natured boy, Jack Frost; most generous boy, Edgar Haley; biggest eater, A. Witten, popularly known as "Larry Seaman"; hardest worker, Nap Falkens; best entertainer, Don Smith; best athlete, Bob Sproule; best camper, Toby Angerine; favorite game, baseball; favorite eat, lemon pie.
An outstanding feature of the camp was the fact that at the Sunday services, the boys contributed the sum of \$10.90 to the Y. M. C. A. foreign work for boys in India.

THE PRIVATE WHARVES

To the Editor of The Times:—
Sir:—One point in the harbor commission discussion seems to have been omitted. It concerns carries, what becomes of the present wharf sites, belonging to individuals. Does the government such private property as it might require to the city, or does the city buy them for the government, or do they keep them as at present?
Yours truly,
READER.

The harbor commission would have authority, subject to approval by the government, to purchase or expropriate such private property as it might require. The act does not otherwise deal with the case.
