GOOD THINGS COMING TO THEATRES OF ST. JOHN.

IMPERIAL HAS BIG NEWS FOR KIDDIES

At the Saturday Matinee the Theatre's Christmas Secrets Will Be "Spilled."

Every boy and girl who is interested in the gift-contests the Imperial holds each Christmas season will be glad to learn that tomorrow afternoon the details of this year's Santa Clause competition will be given out from the stage and prizes exhibited so that all can see just what they will be striving for. The first issue of contest blanks and all the particulars governing the contest in printed form. On Friday the 17th (the days schools close for the holidays) the opening matinee of the Imperial's Annual Christmas Playlet will be given. This year over 25 boys and girls will participate, there will be a new scenic setting, special music and Santa Claus. The sketch is entitled "Red Wing or Santa Claus To The Rescue" and will be presented under the experienced direction of Mr. and Mrs. Jack Rossley, former stage performers in this country and England.

WALLACE REID PUTS JAZZ IN JUG TRADE

Handsome Star Has Amusing Role in "The Dancin' Fool" at the Imperial Tonight and Tomorrow.

Would you let a six-dollar-a-week clerk fire your star salesman? You probably would just as hot under the collar about it as old Uncle Enoch does in "The Dancin' Fool," the picture at the Imperial Theatre tonight. Wallace Reid is the star. Breezy Wallie is seen as "Ves" Tibble, the clerk with the magnificent wage. However "Ves" manages to combat the M. C. of L. by acting as Junie Budd's dancing partner by night in a jazzy New York cabaret at a paltry two hundred per. Strangely enough, business appeals to him more than the easy money he earns dancing, and he is able to put over a unique selling campaign that makes even crabbled Uncle Enoch hail him as a genius.

"The Dancin' Fool" was adapted by Clara Kennedy from Henry Payson Dowd's Saturday Evening Post serial. Bebe Daniels is the leading woman. It is a corking feature-peppy and up to the very minute. Serial story also.

SAYS SILK PRICES WILL STIFFEN

(Toronto Telegram) The prices of raw silks and finished articles are at rock bottom and although there may be some slight fluctuations the tendency will be for prices to strengthen as soon as the market is settled," declared P. Hamm of Hamm and Riley, commenting on the present condition of the silk market. According to the majority of the merchants the demand for goods is practically at a minimum and when the public starts buying the increased demand will result in a great scarcity in the market and prices will move up.

Suspend Industry.

Japan has taken immediate action on the outlook and the result is practically a complete suspension of the country's chief industry," said one local authority. "The reapers have formed an organization and have decided to prevent the market being overstocked. Therefore the cocoon growers are turning their attention to other crops. At the present time there are 55,000 bales in Japan. Of this amount the organization known as the 'Teisan Association' has bought up 40,000 bales for the export trade, the remainder will be kept for use in Japan. At present there are 80,000 bales in New York, and according to reports from that city, the buying demand is at a standstill and very few orders are being sent to Japan for other goods."

Prices Will Stiffen.

Manufacturers report that their large stocks are gradually declining at prices below the cost of replacement, but it is necessary to sell to turn over their money to meet financial obligations. They are unanimous in their contention that prices will stiffen after the new year. Several stated that after the new year their stocks will be practically cleaned up and their accounts at the banks settled and a general buying movement will result. "The labor question is one of the biggest obstacles to the trade," remarked the head of one local house. "We are still obliged to pay high wages and the working people fail to realize that unless a general cut in wages is put into force cheaper garments cannot be turned out."

TRIBUTE TO JOHN KILBURN.

Fredericton Mail.—Friends of John Kilburn, the well known retired lumberman of this city are extending hearty congratulations to him today on his 78th birthday. Mr. Kilburn has been residing here for eighteen years and has on numerous occasions proved his sterling worth as a citizen. He has done more than any living man to promote industrial progress here and the city owes him a debt of gratitude which it will never be able to pay.

IN HIS 100TH YEAR.

John Anderson ex-M. P. of the Barony, near Fredericton, has entered upon his hundredth year, being born, Dec. 2, 1821. He received numerous messages yesterday, among them being telegrams from Hon. William Fugley and Hon. H. A. McKeown.

SWEET NUT

Just a sweet fresh churning of coconuts and pasteurized milk. colored in a moment to the beautiful yellow hue of the *****cup. Served on your table not a member of your family will be able to distinguish it from the highest priced *****.

Guaranteed entirely free from animal fats and preservatives. Insist on the original and genuine Sweet Nut in the well known yellow and red oblong package, otherwise you cannot be sure of getting the delicious ***** flavour which you expect.

The law does not permit us to color it like ***** and it comes to you white, just like the coconut from which it is made, but a few drops of pure vegetable ***** color worked into it will give it the appearance of fresh churned June *****.

Pound 42c. Prints AT ALL GOOD GROCERS IN ST. JOHN.

NOTE.—An Order-in-Council dated from Ottawa Aug. 30, 1920, forbids us to use in any advertising of Sweet Nut the word represented by the asterisks in the above. Your intelligence will however readily supply the missing word.

MORNING NEWS OVER THE WIRES

Mr. and Mrs. James E. Ward of Sixty Nine, N. B., celebrated their sixtieth wedding anniversary on Nov. 30. They have lived, since their marriage in Buctouche, Harcourt and latterly at Sunny Brae.

Mrs. Margaret Parker, deputy matron of the maritime penitentiary at Dorchester has resigned her position and left yesterday for Kingston, Ont., where she will be married to Chief Engineer Nixon of the Kingston penitentiary. Premier Lloyd George stated in the House of Commons yesterday that the documents found in the possession of Eamon De Valera when he was arrested in May 1918 would be included in those which the government was about to make public. He asserted that these documents implicated the Irish republican army in the German conspiracy.

BOSTON WOMEN MISSING IN WHEELED CHAIR.

Mrs. Jane England, 50, who moves about in a wheel chair, is missing from the home of her brother, Charles Kelley, 921 Blue Hill avenue. Mr. Kelley has reported his sister's absence to the police of the Mattapan Station.

The aged mother of Kelley also lives at his home and as her eyesight is said to be impaired she did not notice Mrs. England leave the house. Mr. Kelley is unable to understand his sister's sudden disappearance as, he says, she was unable properly to navigate the chair in which she moves about the house and grounds. The police are making search of the institutions, as it is thought she may have gone to one of them with assistance.

FIRE IN MONCTON

Moncton, N. B., Dec. 2.—A fire, which started tonight from some unknown source totally destroyed a combined barn and storehouse belonging to Isaac Sellick, Main street merchant. The barn was situated in Downing street, and contained a considerable quantity of pressed hay and feed, as well as three horses, a quantity of harness and wagons. Two of the horses were taken out but it was impossible to remove the third. The loss is estimated at \$3,000, with no insurance.

FIRST MAINE WOMAN TO HOLD COUNTY OFFICE APPOINTED

Augusta, Me., Dec. 3.—Miss Grace M. Ridley of Alfred, the first woman to be selected for a county office by Gov. Milliken, was nominated by him for register of deeds of York County in place of Elmer J. Burnham of Kittery, resigned.

James Q. Guinac of Bangor was nominated to be director of the port of Portland for the term ending in 1923. He is president of the State Chamber of Commerce and Agricultural League.

The students of the St. John Law school held an interesting mock trial at their weekly meeting last evening with H. A. Porter acting as judge. W. H. Davidson and H. S. Murry acted for the plaintiff and H. M. Groom and C. B. Mersereau for the defence. Judgment was reserved.

OBJECT TO CRAWFORD

Winnipeg, Dec. 2.—Requesting that Lindsay Crawford, president of the Canadian Self-Determination League for Ireland, be prevented from speaking here December 6, a delegation, said to represent 15,000 Winnipeg citizens waited on Hon. Thomas Johnson, provincial attorney-general, today. Mr. Johnson promised to take the matter up with the municipal authorities.

The members of the Blue Bird class of St. David's Sunday school met last night at the residence of Mrs. R. A. Jamieson, in Elliott Row, and spent a busy evening tying up and decorating the Christmas gifts which are to be sent to the Presbyterian Mission at Minto. The work was speedily done and well and gave much pleasure in the doing. Refreshments were served and a happy social hour enjoyed after the work had been accomplished.

THE NEW MINISTERS.

The vacancies in the provincial government caused by the defeat in the last elections of Hon. Robert Murray and Hon. J. F. Tweeddale have been filled by the appointment of Hon. J. E. Hetherington and Mr. D. W. Mercereau.

IN CENTRAL EUROPE.

The Bulletin of the League of Red Cross Societies presents a terrible record of the ravages of typhus in Eastern Galicia. After pointing out that war conditions have made of Eastern Europe a hot-bed of typhus infection during the past few years it says that Eastern Galicia was the principal focus of the epidemic last winter, and that in the months from January to May inclusive there were 75,341 cases, with 12,434 deaths.

REMEMBER THE BOYS

Touching the demand from one or two players for the reinstatement of a few professionals in order to provide faster hockey in provincial towns this winter, why should the interests of the younger players and of amateur sport generally be sacrificed for a few?

AN INTERESTING COMPARISON.

An interesting comparison of wages in the State of New York is given by Bradstreet's. It gives a table showing the average per capita weekly earnings in the state during the past six years.

Table with 2 columns: Year, Earnings. Rows: 1915, 1916, 1917, 1918, 1919, 1920.

While wages thus increased to the end of October, food prices decreased about ten per cent, and the position of the worker was improved in both ways.

SETTLING NOVA SCOTIA

The first body of British to settle in Nova Scotia were the 2,000 soldiers who had been disbanded on June 21, 1749 and who sailed to clear the forests around Chebucto Head, the site of the present city of Halifax.

OLD SONGS THAT MADE FORTUNES

How Say Popular Sheet Music Declining

Two more sheet-music publishers in New York went into bankruptcy recently, and the head of one of these firms which has been in business a quarter of a century, declared that the day of popular sheet music is done.

Whereas, there were scores of small neighborhood shops a decade ago which drove a thriving trade in popular sheet music, which sold at prices ranging from 25 to 50 cents, there are now no stores of this description at all.

NOT WANTED. With my twelve kids and aunt and wife I'm sadly wearing out my life in search of rooms where we may dwell.

CANADA—EAST AND WEST

At the close of the American war of Independence Nova Scotia welcomed another influx of settlers when 28,000 United Empire Loyalists came to the colony.

IN LIGHTER VEIN.

"Pop, what is a tentative performance?" "It's one of them open-air shows, sonny."

THE "FREAK HITS"

There are a number of "freak hits" set down in the history of the glory of music-publishing trade.

"Glowworm" is a great popular instrumental piece, but Henry Linck, its composer, has made virtually nothing from it, it is said.

Melbourne, Dec. 3.—The federal government has decided to remove the embargo on exports, with the exception of goods going to former enemy countries.

Weed Tire Chains

Cars with chainless tires on wet, slippery pavements lack brake power to the same degree as they would if their brake linings were made of wet, greasy, slippery bands of rubber.

TRIAL OF COUNTESS MARKIEVICZ BEGINS

At the Royal Barracks in Dublin yesterday the Countess Markievicz, member of parliament for the St. Patrick's division of Dublin city, who was arrested about two months ago, was tried by court martial on a charge of conspiring to overthrow the British government.

OPEN AIR PUPIL COSTS \$77.77 FOR HALF YEAR

Great Benefit to Tubercular Child

Toronto Forest Schools Are Maintained at a Cost of Nearly \$12,000 for Six Months of Teaching Yearly

(Toronto Telegram.) Net per pupil cost. Victoria Park \$77.77 High Park \$88.98

broad, sylvan glades of High Park avenue, caught a glimpse of a weather-beaten shack and tent among the trees to the south? Of course, it would never occur to anyone that the old grey tent and the wooden shack, with its shingled roof and lean-to was a school! Yes, as primitive in appearance as the famous little old red school house, but costing more for upkeep for six months than the one of ivory hue could expend in six years, is the High Park Forest School.

Fragrant Coffee

How To Make It

First, use a Ticoletto, the automatic coffee-maker which requires no attention and never fails, provided you choose SEAL BRAND

As an inducement, car fares were paid by the board of education for those in poor circumstances, and though the cost of upkeep has decreased considerably for the board of education since the board of health took the system over, with the exception of supplying teachers and textbooks, fares are still paid for the children of poor families.

They Just Love It. But now, everybody wants to go. Even those who, through the care and attention received there have now recovered, beg to be allowed to attend. When the great day arrives and when the little sunnate little antonates begin their life in the open it is a treat to be somewhere within carshot and hear the little squeals of delight or watch with what contentment they lie and bask in the warm sunshine and fresh air.

Every detail in the school life of the Forest child is of interest to the taxpayer, who realizes that he is helping to pay the \$70 or \$75 which it takes for each pupil so taught and so treated. In the days when he went to school nurses and doctors and outdoor cots and both brushes and cocoa were things to be read of, but certainly not to be found in the little red school house or to be connected with the daily life of the school child.

But the Toronto Forest School child enters the community pale and listless, underweight and with no enthusiasm. Pickles, candy and other things are frequently called for and generally preferred to the warm cereal, but the teachers are not perturbed. From past experience they know that not only does good digestion wait on appetite, but good appetite awaits the little one after the outdoor day of regularity and system in the Forest School.

most of the answers are taken orally, and the pupils are rewarded by being moved to the foot or head of the class according to the correctness of their answers.

"Eats" Are Good. After that hour's study, hot cocoa or hot milk is served and "school" continues again until 11:30, when fifteen minutes' play is indulged in.

After much enthusiastic scraping and gargling during which the nurse makes note of those with decayed teeth or enlarged tonsils diseased adenoids, etc., the kiddies put their mugs and brushes away and line up for the store room. There they receive their little bundles containing blankets and pillow, and off they go in a pell-mell race for the cluster of iron cots with their strong springs and waterproof coverings.

The cots are in a slightly shaded portion of the park and placed sufficiently far apart to prevent one child from disturbing another. After the first week's training it is not five minutes until every active little body, which has been stretched out straight and comfortable for a two hour's rest and sleep, is up and about.

A Paying Proposition. Before leaving for home at 5, after they have had some supervised play, growing little bodies are again fortified with hot cocoa or hot milk with crackers. So life at the Forest School goes on daily. Early in the term the children are asked to pledge themselves

Two or three tablespoons of MAZOLA add flavor and tenderness to roast beef.

Horlick's the Original Malted Milk - Avoid Imitations & Substitutes.

when at home to keep up the good work of the forest by trying: Not to eat many sweets; Not to drink tea or coffee; To keep my windows open; To brush my teeth night and morning; To keep my home neat; To keep my appearance neat and clean.

The effect of six months' Forest School treatment costs the citizen some \$10,000 or \$12,000 which did not figure in his taxes ten years ago, but what does it mean to the child? The effect is marvellous. Puny-faced, under-sized, tubercular children become healthy, rosy, happy and more normal in size. They gain in weight, and when they get back to their regular classes it is often found that they have not only caught up with their more sturdy companions, but in many cases have a better and wider all-round knowledge of things.

The average gain in weight for the pupils at High Park last year was five and one-half pounds. One pupil gained sixteen pounds, another nine and seven.

At Victoria Park the average gain was five and one-third pounds, one fifteen and one thirteen pounds. Though at great additional cost of the individual taxpayer, Forest Schools have proved one of the "fills" in the educational system which is a paying proposition. A good investment, for its capital is little children who would otherwise be grave liabilities.

ROYAL ARMS CHAPTER. The Royal Arms Chapter of the I. O. O. F. met in the chapter room in the G. W. V. A. rooms, last night, and heard very satisfactory accounts of the recent tea and sale held at the residence of the regent, Mrs. T. H. Carter.

Officers Elected. Election of officers was held at the regular meeting of the Teamsters and Chauffeurs' Local No. 661, in the Odd-fellows' Hall in Union street last evening, Robert Winchester presiding.

GERMANY IS NOT DANGEROUS

Parisian Editor Says Huns Incapable of Commencing Great War for Some Time.

Paris, Nov. 15.—(A. P. correspondence)—"Germany today does not endanger peace," writes Jean Herbetts, foreign editor of Le Temps, in an article devoted to both the military and economic conditions across the Rhine.

"The most competent persons, speaking for the Allies," he continues, "affirm that Germany is materially incapable of commencing a great war within a goodly number of years."

"Disarmament, so far as artillery is concerned, he says, is proceeding satisfactorily. The number of cannon delivered in the neighborhood of 28,000 and about six-sevenths now have been destroyed."

"On the other hand Germany is far from having surrendered enough rifles (hardly 2,000,000) and machine guns." Disarming of the civil population, now going on, is expected to yield better results.

"Dismantling of the German navy by the British, also is in progress, and is being carried on with exceptional vigor."

"In addition to all this," comments M. Herbetts, "the prestige of the military has fallen unbelievably low beyond the Rhine."

"Organizations of former officers, he says, are being formed constantly and Germans, if they wished war, would find officers to lead them, but, except in Bavaria and possibly East Prussia, these associations are isolated and 'growing rusty.'"

"To illustrate how the military spirit persists, he tells of a young lieutenant he knows who puts on his uniform and wears all his decorations at breakfast—but who does not appear in uniform in public."

REJECT PROTEST MADE BY GERMANY

League of Nations Council on Plebiscite—Favorable Report on Admission of Costa Rica.

Geneva, Dec. 2.—Germany's protest against acceptance by the League of Nations of what the Berlin government deemed falsified returns from the plebiscites held in the Eupen and Malmedy districts, along the Belgian frontier, has been rejected by the council of the league.

In its reply to the German government, council says it finds no reason to modify its previous decision to accept the result of the plebiscite.

The sub-committee considering applications of former states for membership in the league has decided to report favorably upon the admission of Costa Rica.

In the past analysis, the peace of Europe depends only upon the Allies.

Don't Be Deceived. Most Teas look pretty much alike in the dry leaf - but there is a vast distinction in infusion. The enormous sale already created is proof evidence conclusive that the Quality and Value of

"SALADA" is irreproachable. Sealed Packets Only - Black, Green or Mixed.

"The masses of workers," he adds, "suffered too greatly during the war, either at the front or by the privations behind the lines, not to detest the military regime, which, in return for all their sacrifices, brought only a disaster without parallel. One can say without exaggeration, that the population of the industrial regions is profoundly anti-militarist."

"Germany has, then, neither the material nor the morals required for a vast offensive. She could only undertake upon occasion small military operations upon her eastern and southeastern frontiers. But her western neighbors would stop her quickly and she knows it."

"In the east analysis, the peace of Europe depends only upon the Allies."

FIVE MORE FOR FAILING TO FILE

Five additional citizens were before Magistrate Ritchie yesterday afternoon on charges of failing to file their income tax returns for the year 1918. A doctor's certificate was produced in court showing that Charles A. Clarke was too ill to attend, and Scott E. Morrell, who presented Leonard T. Dryden, said at his client was absent on account of the sickness of a friend. James P. Mney pleaded guilty to the charge of failing to file the statement. Frank Stevens and Henry McCullough pled not guilty.

P. D. Tilley, for the prosecution, filed an affidavit showing that a registered letter was sent to Mr. Stevens on July 28, 1920, and also one to Mr. McCullough. Hedley C. Wilson, who is an accountant in the office of A. W. Sharpe, perceptor of taxation, was placed on a stand and told of sending notices to Mr. Stevens on July 16, August and October 10, 1919. No returns had been received, said the witness. G. C. Osman, a postal clerk in the St. John set office, produced receipts showing that a registered letter had been delivered to Mrs. Stevens on July 28, 1920, addressed to Frank D. Stevens. A letter to Henry McCullough had been signed for by Mrs. McCullough on the same date.

Mr. Stevens, who is a master mariner, was sworn and testified that he was away on naval service and had never received any notification until he received the summons to court. He did not intend to evade the law and since receiving the summons had filed the statement. He had never received any letters and Mrs. Stevens did not mention anything about the registered letter.

Mr. McCullough said that he had been notified by his firm that they had sent a statement in for him, to which Mr. McCullough himself to send in a statement.

All the cases were stood over until Friday afternoon, December 11, when they will be disposed of as well as those that had been heard previously.

FERGUSON IS AGAIN THE TORY LEADER

Toronto, Dec. 2.—Hon. G. Howard Ferguson was this afternoon re-elected leader of the Provincial Liberal-Conservative party in convention here. Two other candidates for the party leadership, Brigadier-General A. E. Hoess, M. P. for Kingston, minister without portfolio in the Hearst government for a short time prior to the defeat of the government in 1918, and Hon. George S. Henry, minister of agriculture in the current government, and present M. P. for East York. Only one ballot was required to settle the question of leadership, Hon. Mr. Ferguson having a clear majority.

SOUVENIR HUNTERS FLOCK TO ACADIA BUILDING RUINS

Canadian Press Despatch
Wolfville, N. S., Dec. 2.—The board of governors and the faculty of Acadia University at their meeting today received numerous offers of assistance in the matter of accommodation following the destruction by fire of Collegiate Hall last night. The offer of the Baptist church was accepted, and the full schedule of classes will be resumed. In the course of a week there will be six rooms available in the new memorial gymnasium which is nearing completion. Souvenir hunters flocked to

the scene of the fire today and carried away many mementos, parts of a German gun and airplane being especially prized.

A Miser Hates to Spend Money!

—consequently cheats himself by spending so little for what he buys, that he gets less than what he pays for.

The economizer willingly pays the right prices, but sees that he gets his money's worth.

Real economy means—buying right, not necessarily the lowest price—the best is cheapest. In underwear real economy is—

THIS IS THE NAME
CEETEE
THE PURE WOOL UNDERCLOTHING THAT WILL NOT SHRINK
"The Woolen Underwear without the itch"

THIS IS THE TRADE MARK
GUARANTEED UNSHRINKABLE
CEETEE
PURE WOOL

"CEETEE" is manufactured from only the very finest Australian Merino Wool, scoured and combed over and over again until every particle of foreign matter is taken out and every strand is as clean as it is possible to be made.

It is then carefully knitted on expensive and exclusive machinery, very different from the ordinary style of underwear machinery, fashioning each garment to fit the form. It has all selvage edges, therefore cannot come unravelled; every join is knitted together, not sewn as with ordinary underwear.

"CEETEE" is made in all sizes for men, women and children.

Two things to remember:

TOURING CAR PLUNGES INTO MAGISTRATE'S OFFICE
Milton, Ont., Dec. 2.—A peculiar automobile accident happened on Main street recently. Frank R. McConnell of the Milton Pressed Brick Co. left his big touring car outside Buck & Morley's butcher shop while he ordered some meat. The engine had been left running and the brakes were believed to have been tight enough to hold the car. However the brakes worked loose and the car started at a fair speed, bolted across the street, and plunged full force into the law office of Magistrate Dior, completely wrecking the whole front of the building—window panes, sashes and everything. The car was little damaged.

"Merry Christmas" — Say it with Music

RING out the Merry Christmas chimes on the musical masterpiece—the "Sonora." Let it thrill you with its golden tones—clear as a silver bell—sweet as the notes of a skylark.

Is a gift for every day in the year—for every member of the family. Choose any record—let it include everything in the whole musical world—for the "Sonora" plays every disc record made. Plays them as only the "Sonora" can—bringing out every shade of expression, revealing the most subtle shadings of the voice.

Invite your musical friends to hear the "Sonora"—let it play for critical ears.

The "Sonora" received the highest honors for Tone Quality at the Panama-Pacific Exposition—its tone "Clear as a Bell" is classed as incomparable.

The Motor of the "Sonora" runs silently. Not a suggestion of scraping distracts the attention from the melody. Built for durability, it is the only motor made which will run half an hour with one winding.

ARE GOING TO SEA.

When the steamer Canadian Mariner, now at McLeod's wharf loading grain for Genoa, Italy, sails she will carry with her two sturdy young naval apprentices. This is in line with the policy of training Canadian seafarers with Canadian men, one of the objects of the Navy League. The training is excellent, embracing all branches that go to make up a competent naval officer, and the apprentice enjoys the privilege of sailing the seven seas and touching every large port in the world.

A. W. EVELEIGH OF SUSSEX DEAD

Was Wounded in War—Young Wife is on Ocean on Way Home After Visit to Relatives.

(Special to Times.)
Sussex, N. B., Dec. 3.—It will be a sad homecoming for Mrs. Albert W. Eveleigh, of this town, who is a passenger of the C. P. O. S. liner Melita, which is due to dock at St. John tomorrow. Her husband, who underwent an operation for appendicitis on Tuesday, passed away at 6.30 o'clock this morning. Mrs. Eveleigh is returning after a visit to her former home in England and at present is in ignorance of the tragic news that awaits her arrival.

Albert W. Eveleigh, who was only twenty-eight years of age, was a young man of sterling character who enjoyed the esteem of a large circle of friends, not only in his native town but throughout the lower part of the province.

He saw service in France in the recent war, having enlisted as a lieutenant in the 104th Battalion. While at the front he was shot through the lungs and was invalided in England, where he met the young lady whom he afterwards married and who is now on her way home.

Mr. and Mrs. Eveleigh have been residing here since their return from the old country and about two months ago Mrs. Eveleigh went to visit relatives in England. The fact that her husband passed away on the eve of her return from overseas will arouse the sincere sympathy of the whole community.

Mr. Eveleigh was the son of Nelson W. Eveleigh and is survived by his father, one sister, Maude, a nurse in training in the Hartford Hospital, Hartford, Conn., and one brother, Percy, with the aviation force at Ottawa. He was an estimable young man and a good and reliable officer, and an athlete of note, being one of the star players on the Sussex hockey team. News of his death will be heard with keen regret by many friends.

JEWEL THEFT IN DOUGLAS AVENUE

Robbery in the Home of Walter Millican Last Night.

Jewelry, wearing apparel and other articles, said to run in value into some thousands of dollars, were taken from the home of Walter Millican, 316 Douglas avenue, last evening while the house was temporarily unoccupied. The police are now working on the case.

Mrs. Millican who was out for the evening, returned home a little after ten o'clock and found that in her absence the back door of the house had been opened, apparently by means of a duplicate key. The thief, or thieves, directed their attention particularly to the bedrooms of the house, ransacking everywhere taking everything of value. Included in the loot were several diamond and pearl rings and other jewelry and an expensive fur-lined coat belonging to Mr. Millican; also some watches.

Inside the front door was found a bear skin rug, rolled up and it is presumed that the miscreants were either compelled to abandon some of their bag or intended returning for a second load. On ascertaining the condition of the house, Mrs. Millican sent a telephone message to Commissioner Thornton, of the public safety department, who notified the detectives, and all went to the house and investigated the case. Thinking the thieves might have made a getaway by train, telegraph messages were sent to all points along the line, but so far without result.

ST. JOHN GIRL WINS PRIZE IN BOSTON

Friends of Miss Mabel Starkey of 117 Main street, will read with pleasure that of mass has been awarded one of the prizes in a daily contest conducted by a newspaper in Boston. Miss Starkey is on a holiday to her brother in Fitchburg, Mass., not far from Boston, and thought she would take a chance for a \$5 daily prize offered for the one sending in the best freak picture. She submitted one and was surprised and pleased to find in the paper a few days later a reproduction of the photograph she had sent. It shows a piece of a tree shaped very much like a dog—head, feet, body, eyes and a very long straight tail. Under the picture the paper published this:—

"Wont Bark—It's wooden. Miss Mabel Starkey sends in from Fitchburg this picture of a silent pup with a long tail. The dog is in reality a stump of a tree. Miss Starkey thinks it is all the funnier because the find was made near Woodstock, N. B. Prize photo."

The picture was taken in Woodstock some years ago by Miss Starkey's brother, George, who now is a resident of Fitchburg.

NEW LADDER TRUCK REACHES THE CITY

It is the First Four-Wheel Drive Motor Ladder in the Maritime Provinces.

The first four-wheel-drive motor ladder truck in the maritime provinces arrived in the city today and will make an important addition to the fire fighting apparatus of the City of St. John. The truck, which arrived by the C. N. R., is in bond, and will be unloaded and tested by a representative of the makers before it is put into operation. This man is expected to arrive here today.

The new truck is of the Couple-Gear type and is driven by separate motors on each of the four wheels which makes its climbing power one of its strongest points. It is also steered at both front and rear. It was manufactured at and shipped from Grand Rapids, Michigan. This makes the second piece of new motor apparatus for the fire department to arrive this week, a new pumping engine having been received on Monday.

It is expected that the old horse drawn extension ladder truck will be sent to the west side.

ST. JOHN'S DAILY STAR, ST. JOHN'S.

THE POPE IS A GREAT DIPLOMAT

Benedict XV. Said to Be the Most Important Pope Since the Reformation.

PERSONALLY LONELY He Always Eats Alone, and There are Days When He Never Speaks.

THE sovereign pontiff who in less than six years has made the Vatican the most powerful court in Europe is described in the London Mail as a "little, slender, stooping, bespectacled figure," not bowed down by any weight of years—Benedict XV. is young as popes go—but drooping, sorrowful, solitary. All the journalists of Europe who have seen him recently dwell upon the contrast between his sprightly attitude when he was Bishop of Bologna and the melancholy in which his soul now seems encased. In those old days at Bologna the man was cheerful, smiling, ready with gesture in the vivacious Italian way, notes the Action of Paris; but now his attitude is usually reserved, the words are few, the expression of the countenance is serious, the eyelids droop heavily. The rapid, nervous walk has grown deliberate. The French say the Pope was never plumper—his waist has been wasted, the hair has become quite grey. The voice, which was always next to his manner, the man's supreme charm, seems richer, more flexible, more responsive than ever to each shade of meaning as his countenance relaxes into passivity. One reads in the French press that his Holiness has the most expressive voice in Europe, the most gracious gravity and an innocence of expression when his face is in repose that can scarcely be reconciled with his fame as the greatest living master of the art of diplomacy.

Descriptions of his daily routine, as set forth in the London newspaper, emphasize the fact of the Pope's loneliness. He seldom goes to bed until midnight, and he has been told that for five hours—ever since his first supper in a little room all alone. He may have a very quiet afternoon, the monotony of it broken by an hour's walk in the gardens, or perhaps by a carriage ride—the only open air exercise he usually gets. Although the Pope is seldom in bed before midnight, he is up and dressed every morning at five o'clock, and yet he will not begin his daily mass for an hour. He spends the interval in prayer and in reading either the Scriptures or one of the fathers—always in Latin. He celebrates his own mass in the strictest privacy although he will assist at another man's very soon, kneeling humbly as if he were an altar boy. This brings the Pope along to eight o'clock, when a cup of black coffee, quite hot, is served. There may be fruit on the tray, or a dry biscuit, but the Pope does not often consume anything but his breakfast but this cup of coffee, he is served by a valet, an elderly man who has been with him for years.

Seldom Eats Meat

FOR a period of five hours, extending to one o'clock in the afternoon, the Pope is working. He may have an enormous mass of correspondence on his desk. He may have a series of important audiences with prelates or pilgrims from all over the world. He may have a plan to announce, a ceremony to conduct in St. Peter's, a consultation with reference to some critical appointment. These details are always according to his schedule and the arrangements must be made quite in advance. The Pope sits down all alone to a dinner in which the principal items are: soup, roast beef, potatoes, olives, macaroni, cheese, thick gravy. Once in a while there may be an omelet or perhaps a lump of steamed meat. A few years ago an innovator thought the Pope should hear a little music at his dinner and the notes of an arch lute reached his ears from an adjoining gallery. His Holiness was greatly shocked by the presence of the arch lute which did not seem to him to fit in with the heaviness of the times. This experiment, like that of tempting him with an English dinner of roast beef and potatoes, topped off with pudding, ended disastrously. There are no innovations now, report the Roman dailies, and they add that the Pope sticks to the traditional diet of solitude when he dines. He always eats alone, reports the London Mail, "day after day, week after week, month after month year after year." There are days, on which the Pope adheres to a rule of silence and for twenty-four hours he will not say a word except when he is at mass.

The genius of the Pope is diplomatic, and in that field has been achieved the supreme triumph of this pontificate. His methods are those of Cardinal Rampolla who so narrowly escaped election to the pontificate some sixteen years ago, and the Pope's ideal in ecclesiastical statesmanship, the Debassays is Leo XIII. The means seem best summed up as a union of organization with the most comprehensive and accurate. The Vatican seems at this moment the greatest centre of news and ideas in all that relates to international affairs, and its diplomatic establishment is the best equipped and—this is not so well known—the most extensive in the world. His Holiness takes a direct personal interest in its administration, being always in touch with the Cardinal Secretaries of State. The diplomatic receptions at the Vatican are

While not a loyalist, Mr. Rustomjee is not opposed to British rule in India because he believes India is not yet ready for self-government because there are so many different religions and castes, and he is a Hindu. He is a Hindu, says there are forty different religions, seventy-nine different languages, and two thousand different dialects in India. He believes that if British should withdraw from India the conditions there would be worse than those in Russia and Mexico.

FOR ARTS SAKE

GABRIELE D'ANNUNZIO, the Italian poet, who has now declared himself to be an independent State, is a man who believes in having his own way. When, for example, he was rehearsing his famous play, "The Martyrdom of St. George," he insisted on the actress who was to take the part of the saint following a strict diet for months, till her figure suited his ideal of the part. Another actress was ordered by him to knock out one of her front teeth. "You do not make your art seriously enough," he said, "here, read this!" So saying he handed her a letter he had received from an actress who had been ordered to have her eyes put out, if necessary, in order to play properly the part of a blind girl in another of his dramas.

A BAD ATTACK

LORD HALSBURY's ninety-seventh birthday reminds people that he is still sturdy, and can walk into the House of Lords without any assistance other than a stick. To himself, however, his health is not very marvellous. A friend who met him one day congratulated him on the wonderful way in which he was preserving his strength and on never being ill. "I don't know so much about it," said Lord Halsbury, shaking his head. "I had a bad attack of hiccup last week."

Great Preacher Optimist at 84

Dr. Clifford of London Is Sure That Everything That Happens Is for the Best.

"DR. CLIFFORD is 84. As I left this veteran leader at his residence in West Ealing, on his birthday," writes a London Daily News representative. "I wished him many happy returns of the day, in anticipation of the pleasant anniversary. With a buoyant note and a genial smile, he replied: 'Ah, well! I mean to live as long as I can. The world is very interesting, and it is good to be alive!'"

"A few weeks ago so he told me, when he was speaking at the Church of St. Andrew's in London, when the latter addressed him as 'My dear old friend.' I turned to him at once in an upspringing mood. Dr. Clifford narrated, and said, who are you calling old?"

"My optimism is as keen as ever," he remarked in reference to his four-score years and four, "but there is this difference. It becomes more incumbent to state the reasonable grounds on which our optimism is based. At the present juncture things are so chaotic and problems are so acute and overwhelming in magnitude, that it is not surprising that men yield to despondency, and fail to maintain a mighty hope which the course of human life will today abundantly justify."

"For the moment and perhaps for two or three years the difficulty of sincere and earnest men will be to maintain faith in the reality of the things passing during the last six or seven years in that we are driven by circumstances out of the old grooves of thinking and feeling and raised to higher levels of idealism and aspiration. It may take ten years to make evident this reality, but I do not take a jot of faith or hope in the certainty that 1930 will find the human race very much further along its predestined goal than we are in 1920."

Boy Prodigy Enters Harvard

HARVARD COLLEGE gained a genius at studies and a potential batsman for its baseball nine when Frederick Santee, of Wapwallopen, Pa., 13 years of age, registered as a member of the freshman class. The boy has mastered five languages, solves problems in calculus with facility, and has advanced far beyond his years in academic study. But he delights in getting out on the ball field and making Babe Ruth, one of his classmates of the Philadelphia Athletics, whom he played with last year.

SCRAP POWER PLANTS

So Far He Has Driven a Boat With His Small 'Atmospheric Power Generator.'

Alfred M. Hubbard

HAS a 19-year-old Seattle boy tapped the cosmic reservoir of inexhaustible electrical energy? This is the question electrical engineers in all parts of the United States are asking following their examination of a simple little device patented by Albert M. Hubbard, a Seattle youth. Hubbard, who already has driven a motorboat and lighted a room with his new-fangled generator, which is only a new type of electrical coil, claims he has discovered a principle that will revolutionize the science of power and motion. Experts are frankly puzzled.

A few days ago young Hubbard drove a motorboat on the Puget Sound, and also to the household of the Queen Mother, Alexandria. He served as a lieutenant-colonel through the world war.

Power Practically Free

HUBBARD is some of the things the boy inventor claims his 2 1/2 inch 'atmospheric power generator' will do: Furnish motive power for ships, airplanes and automobiles. Illuminate an office building. Supply current lighting cooking and heating for a large residence.

Electricity From the Air

THE electric motor used was approximately twelve inches in diameter and eighteen inches in length. It was reconstructed for use in connection with the Hubbard coil. In the demonstration on the lake

both the motor and the coil were placed on special blocks in the launch while the propeller shaft was geared for a chain belt.

Hubbard refused to allow the motor to run continuously for any length of time. This was because during the test the wires connected the coil to the motor began to heat up and the launch at once began to pick up speed. No effort was made to cover any great distance. The launch merely circled around the bay and then returned to the wharf from which the start was made.

Jacobson's & Co's Big Re-Opening Sacrifice SALE!

During the past two months we have been extending our store, and in view of the numerous changes we feel that we are now in a position to be of Better Service to the Public.

But in order to remodel our building we have been forced to lose trade, and we now find ourselves with a large supply of Ladies' and Gent's Clothing left on our hands.

Our loss may be your gain, for we have decided to greatly reduce our stock of Ladies' and Gent's Overcoats during the next week.

To do this we are selling our goods at Sacrifice Prices.

However, looking incurs no obligation to buy, so we extend to you a cordial invitation to visit our show rooms and view the alteration.

When looking around we are positive that our Bargain Prices will remind you that—"A Dollar saved is a Dollar Earned."

NEW MEMBERS OF GOVERNMENT

Sketches of Men Who Will Be Sworn in to Fill Vacancies in Provincial Body.

Hon. Dr. J. E. Hetherington and Hon. D. W. Mersereau arrived in Fredericton last evening to be sworn in by His Honor Lieutenant-Governor Pugsley, Dr. Hetherington as provincial secretary-treasurer and Mr. Mersereau as minister of agriculture.

Sketches of New Ministers.

Hon. Judson E. Hetherington is a son of the late Thomas Hetherington, who represented Queens county in the New Brunswick legislature for several years. He is a native of Coburn's, born May 15, 1866. He qualified in early life as a medical practitioner. He resided at Chicago son of the late Leonard Mersereau. He was educated at Fredericton Junction grammar school. Prior to entering provincial politics, he occupied a prominent place in municipal politics in the county.

representing the parish of Gladstone as county councillor for several years. For several years he was in the employment of the Canadian Pacific Railway, being connected with the bridge section of the

maintenance department. In 1917 he was elected as Liberal in Sunbury county. He has been chairman of the agriculture committee of the legislature and has shown marked interest in farming. In the last general election he and his colleague, K. B. Smith, of Oranmore, were given an overwhelming vote, the two United Farmer candidates opposing losing their deposits.

POLICE WILL ARREST VISITING CRIMINALS

Order to Take Them on Sight is Revealed at Hearing of Melbourne Negro.

(N. Y. Times.)

Efforts by the police to clear the city of criminals have resulted in an order from headquarters to every policeman and detective to arrest on sight every known out-of-town criminal.

The fact that such an order had gone out became known yesterday, when Detective McGinn of the West Forty-seventh street station arraigned a prisoner in the West Side Court. He told Magistrate Levine that it would hereafter be the policy of the police department to arrest such men on sight. "These are the orders from 'down town' and they will be strictly enforced."

"I have been reading of recent round-ups of criminals in Chicago and Philadelphia," said the magistrate, "and I think it commendable that the police should arrest them here, for I believe that this class will flock to this city. We have enough criminals of our own to deal with now."

The prisoner was a middle-aged negro who said his name was Alfred Waters of 232 West 143rd street, and that his occupation was "reciting Shakespeare on the stage." The detective arrested him on a charge of vagrancy at Broadway and Forty-sixth street. According to the police, Waters is known as "the Black Prince," and his specialty is wearing an expensive fur coat and a high hat. His record shows that his career began in 1888 in Melbourne, Australia, when he was convicted of assault.

Acting Police Commissioner John A. Lahey would not discuss this new order. "Why should I tell you about police matters?" was the only answer he would make to a request for information.

for some years, but returned to his native country about twelve years ago. Elected as a Liberal in 1917, he represented the county on the floor of the house until 1918, when he succeeded Hon. William Currie as speaker. He has held that office since that date.

In the last general election with George H. King, M.P.P., of Chipman, again as his colleague he was elected by a greatly increased vote.

The United Farmer ticket which was one in a three cornered contest lost its deposit.

FRICITION BETWEEN JAPS AND CHINESE

Utterior Motives Charged by Chinese Press

Japanese Sent Troops Across Border for Alleged Purpose of Hunting Bandits—Claim They Are Used to Break Down Authority.

(Associated Press Correspondence.)

Peking, Nov. 2.—The fact that Japanese authorities sent troops to the frontier town of Hungchun, in Chinese territory, for the announced purpose of protecting Japanese subjects, after the town had been raided by bandits, appears to have raised a serious controversy between the foreign ministries of the countries in question, and incidentally to have reopened an old controversy concerning an adjacent territory known as Chientao. (Hungchun is a Chinese town on the Tumen river at a point where the borders of China, Korea and the Maritime province of Siberia meet. It is about 60 miles south of Vladivostok.)

The Chinese press accuses the Japanese of being actuated by an ulterior motive in the course they have pursued. E. Lenox Simpson, statistician to the President of China, has pointed out that it is significant that such attacks by Chinese bandits are always attempted where Japan wishes to set up garrisons. Bandits Burn Consulate.

Early in October a band of outlaws which is said to have numbered several thousand and to have been well supplied with modern rifles and machine guns, entered Hungchun, killed a number of people including, it is said, several Japanese, and burned the Japanese consulate. After the raid, and in the face, it is said, of an impending repetition of the outrage, the Japanese moved troops into the place and incidentally into the adjacent territory of Chientao.

In the course of diplomatic exchanges

over the situation, it appears that the Tokio Foreign Office assumed that Peking had agreed to "cooperation" by Japanese troops, whereas the Chinese Foreign Ministry alleges that the question of cooperation was first discussed, its attitude was one of protest against a fait accompli.

E. Lenox Simpson (Pulaua Wele), comments on the Hungchun affair in the Peking Leader as follows:

Chinese Statistician Explains.

"Hungchun is the nearest important point on Chinese territory to the Sea of Japan, which is virtually unindented and of which Japan now holds all the keys. Hungchun is so close to Possiet Bay that it is reached in a few hours by carriage. That it should have been singled out for the latest 'massacre' is curious and illuminating. Immediately prior to this affair, it should be recalled, the Chinese bandits attacked the valuable Su Chan coal mines near Vladivostok, necessitating their occupation by Japanese troops precisely in the way that Hungchun has now been occupied."

"This remarkable audacity which the bands of Manchuria have developed during the past year is a curious feature of a nebulous situation. The writers when in the region of the Chinese Eastern railway on an official mission, did his best to pierce the mist which surrounds the fact that such a large number of Japanese rifles and machine guns and Japanese hand grenades should be distributed through this area, weapons not justly acquired as to make the ordinary explanations acceptable. The fact that these attacks were always attempted where Japan seems anxious to install garrisons was held peculiarly significant."

Mr. Simpson goes on to say that the conclusions he reached on the occasion of an investigating trip to Manchuria were that there may be a section or group of men connected with Japanese staffs who favor the use of these bands in order to break down authority; that these bands have been supplied with or allowed to purchase all the weapons they require and that they perhaps do not respect the orders of their agent-leaders and, in the heat of raids, act like savages.

"Hungchun and the long-coveted Chientao area which is enclosed by the two arms of the Tumen river," he continues, "have lately acquired special significance because of the occupation of Possiet Bay by the Japanese. This superb anchorage which lies only 60 miles away from Vladivostok, is splen-

dily placed to serve Korean, Russian and Chinese territory, and is destined to be another Dairen at the terminus of a new Kirin province railway system, if the Japanese have their way."

H. C. Schofield, local manager of the Robert Reford Company, Ltd., left last night for Halifax where he will arrange for a shipment of apples for the steamer Cabotia, due to load here early in the morning for Glasgow.

PRESS CONGRESS IS AGAIN POSTPONED

London, Nov. 16.—The meeting of the Press Congress of the World which was to have been held in Sydney, Australia, next year has been again postponed, it is learned here. The reason given is the cost and difficulty of traveling at the present time.

No new date has yet been determined. In any case, it is stated, there can be no meeting before 1922.

ST. ANDREW'S C. G. I. T.

The Canadian Girls in Training of St. Andrew's church held a meeting last evening at which it was decided to adopt the motto, "O Be Useful" (O. B. U.) for the winter season. It was also decided that they would immediately take up among themselves the work of supplying Christmas-tree bags for the kindergartens and for other philanthropic institutions which are to hold Christmas entertainments.

SHE SUFFERED FIVE YEARS

Finally Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Key West, Fla.—"For five years I suffered from irregularities, with terrible nervous pains and an awful weakness in my back. The doctor gave me different medicines but they did me no good. A friend asked me to try Lydia E. Pinkham's Vegetable Compound and I found it to be the best medicine I ever tried because it made me well, and I can now do my housework. I am telling my friends about it."—Mrs. J. M. CAMUS, 723 Caroline St., Key West, Florida.

Many women at some period in their life suffer from ailments peculiar to their sex and which in most cases may be readily relieved by this famous root and herb medicine, Lydia E. Pinkham's Vegetable Compound, just as Mrs. Camus found it helped her after suffering for years and trying everything else in vain.

FEELS IT HER DUTY TO TELL THE FACTS

Moncton Woman Says Tania Has Made Life Pleasure to Her and Will Always Bless Day She Got It.

"I was so sick and suffered so much I feel like I wouldn't be doing right if I did not let everybody know what Tania has done in my case," said Mrs. Margaret Buckle, 37 Fleet street, Moncton, New Brunswick, formerly of Yarmouth, Me.

"For some time I was in a run-down condition, nervous and weak, and had indigestion perfectly awful. I went down in weight in just a few months from one hundred and sixty-five pounds to one hundred and twenty-five. I could scarcely eat anything at all, and what I did eat seemed to do me little good. Lots of days I would have awful pains in my stomach that extended all through my chest, and was badly bloated with gas from food not digested.

I got so nervous I couldn't get any restful sleep, and many a night I never closed my eyes. The least little thing would set my nerves on edge, my energy was all gone, and I felt so tired all the time I never cared to leave the house. I took lots of medicine but just kept going from bad to worse. I became alarmed at my condition and wondered if it was the beginning of the end.

"Then my son-in-law advised me to take Tania, and before I had finished the first bottle I was feeling just like I have finished my fifth bottle, regained fourteen pounds of my lost weight and am still gaining. I relish everything I eat and feel stronger and better than I have in a long time. Tania has made life a pleasure to me and I will always bless the day I bought my first bottle of it."

Tania is sold in St. John by the Ross Drug Company and F. W. Munro; by G. W. McKay, Beaver Harbor; Willard J. Colwell, Evans; C. V. Parsons, Highland; John F. Meagher, Debec; O. D. Hanson, Lepreau; E. L. Conley, Leconsville; N. H. Johnston, Clarendon Station, and by the leading druggists in every town.—(Adv't.)

DEVELOPMENTS IN STEEL MARKET

In its summary of the iron, steel, metal and machinery markets for the week ended Dec. 2, Canadian Machinery and Manufacturing News, Toronto, makes the following comment:—
 Developments in the steel market are the outstanding feature of the week in machinery, iron and steel circles. Some of those who watch the market closely believe there are symptoms of a runaway market if the end of the week of the corporation and some of the first answer of the corporation to the independents was the announcement that Canada business would now be regarded as domestic trade by the United States rollers. For some time past Canadian orders have been regarded as export trade, and carried a higher price as a result, it means there will have to be considerable readjustment in order to protect the business already on the books of the corporation and some of it has been waiting there for a year now. Where a definite price has been given on a contract it is not considered necessary to make allowance, but where material is bought for warehousing, or where the sale of the product depends on current quotations, there will probably be a transfer of the business from the old price to the new. At least that is the expectation in the Canadian market.

There are a number of inquiries in the market for machine tools and kindred equipment, but the trouble lies in the fact that much of it cannot be closed, in some cases it is hard for firms to finance the purchase now, as they are anxious to keep all available cash for working capital. On the other hand there is a marked tendency on the part of many buyers to rather gloomily list the fact that this is a buyer's market, and the firm that wants the business must come along and bid lustily for it.

The scrap metal market remains just where it was last week, in the dumps, dealers will not guarantee to pay the prices they authorize, and there is nothing going on. Buyers are out of the market, and dealers are also in many lines. Prices are still downward, but no dealer seems to have his heart set on the present, lowly list. The figures, though, are only nominal.

CEMENT SHORTAGE IN NEW ZEALAND

Auckland, N. Z., Dec. 6.—(By Canadian Press)—Cement is being rushed to the New Zealand market to meet a serious shortage here. The shortage has restricted building operations throughout New Zealand for some months and the conditions have not been greatly improved as yet, although more of the cement works are being operated now than at any time in the past. However, a threatened shortage of coal will probably curtail the output of the cement plants in the near future.

To meet the shortage it is reported that the Canadian trade commissioner in Auckland has arranged for the importation of 8,000 tons of Canadian cement to be delivered here within the next few months. It is also reported that this cement is to enter free of duty if imported within the time indicated. Ordinarily cement pays a duty of two shillings per barrel from the United Kingdom and the British dominions, two shillings additional duty from all other countries, and a one per cent war tax, which is collected on all imports.

7% Bonds

CLARK TRIAL
 Evidence Given by Dr. Anglin—Witnesses Think Prisoner Capable of Distinguishing Right From Wrong.

At the afternoon session yesterday of the trial of Newman Clark at Andover, Dr. Anglin of the Provincial Hospital here, was the first witness called. He was the last witness for the defence. His evidence was largely technical, dealing with signs and symptoms of insanity. He said he believed that the prisoner knew and realized what was going on in the court room though he was apparently taking no interest in the proceedings.

The crown in rebuttal called R. W. L. Earle, who attended the prisoner for about two months in jail at Andover, and Jerry Sullivan, a provincial constable of Grand Falls, who detailed the circumstances and events immediately subsequent to the committing of the crime. He wrote a will which the prisoner dictated and took a letter for the prisoner's family. He testified that the prisoner had said to him, "Take me to a good hospital with a good doctor and get a good lawyer; Jones would put up a good fight." Dr. Chipman of Grand Falls testified that in his opinion there was nothing in the evidence to show that Newman Clark was incapable of distinguishing right from wrong at the time of the murder. The defence asked to be allowed a special rebuttal which is being considered by the judge.

STEAMSHIP IS BADLY DAMAGED AT QUEBEC
 Quebec, Dec. 3.—(Canadian Press)—The American steamer Chipewake, owned by the Independent S. S. Co. of Cleveland, Ohio, was badly damaged by fire in the Louisa docks last night. The cost of the vessel, when built, was \$1,000,000.

DAIRYMEN MEET
 At a meeting of the New Brunswick Dairymen's Association in Sussex last evening, with A. E. Trites of Salisbury, the president, in the chair, Dr. Rutledge of the live stock branch of the department of agriculture at Ottawa gave an address in which he advocated increased production in New Brunswick, saying that there was a demand for Canadian butter in England with no danger of overstocking the market and in fact he thought the market would be strengthened if larger shipments were made.

VERY PLAIN TALK BY LABOR LEADER

W. A. Appleton, secretary of the English Federation of Trade Unions, who has been so active in opposing labor extremists in Great Britain and exposing the fallacy of under-protection, writing in The Sunday Chronicle, says: "Attempts to force revolutionary programmes upon the community have brought us very near an economic hell. A hundred thousand workers unemployed in the Sheffield area, other towns and villages contributing their quota of enforced idleness, and mostly because a few selfish individuals have put the opportunity for political criticism and possibility of political advancement before the real interests of every type of worker. . . . For five years the extremists have been sowing the wind. Today, their victims are beginning to reap the whirlwind. From every quarter comes the deplorable story of unemployment and the almost equally deplorable story of ill-considered efforts to deal with it."

BOARD OF TRADE ANNUAL REPORT

The annual report of the St. John Board of Trade has been issued and contains much information of interest to the general public. The booklet, which is well gotten up, reflects much credit on the officers of the board. It contains an exposition of the advantages of the port of St. John and also gives many interesting figures in relation to the trade of this port. It shows that the bank clearings of the city have grown from \$36,925,458 in 1900 to \$104,074,896 for ten months of 1920. Many other interesting comparisons are made in regard to the growth of the city. The report of the council of the board for the last year and deals with many timely subjects. The booklet contains a list of members of the board and also a financial statement for the year ended November 30, 1920.

JEWISH SABBATH ALLIANCE TO FIGHT SUNDAY CAMPAIGN

New York, Dec. 3.—The Jewish Sabbath Alliance of America has announced the beginning of a campaign to convert the attempts of the Lord's Day Alliance to force Jews to observe Sunday, which the Alliance has described as "the American Sabbath."

While this organization was the most important to make known in the course of the day its determination to fight the propaganda of the Alliance, there was growing evidence of a widespread disposition to resist encroachments upon the citizen's right to conduct himself with a degree of liberty on the Sabbath.

SOUGHT TO KILL LOVER; SHOT WIFE

Alleged Confession in Case of Massachusetts Man Who is Charged With Wife Murder.

Dedham, Mass., Dec. 3.—The government has closed its evidence in the trial of Joseph Botto, charged with shooting his wife to death at Franklin on the night of Feb. 29 last. Four witnesses were put on this morning by the prosecution. Patrolman John E. Kerle of Franklin, who was on duty that night, testified to hearing Botto make a confession to Chief Knowlton of his part in the killing of his wife. Joseph Cohn testified that after the shooting, Botto came to his house, saying that he wanted to get a doctor quick. Some five minutes later Mrs. Botto came to the house also, but dropped on the piazza. Francis McCarthy told of going to the Botto house and helping to make Mrs. Botto comfortable until she was taken to the hospital. Chief Knowlton of the Franklin police testified to the confession of the shooting made by the defendant to him on the night of the killing of Mrs. Botto. In his presence he heard him speak in Italian to his wife while she was lying on the couch. She replied, he said, "Me die, you die, too."

The chief testified that Botto told him that he was sorry he did not get Pasquale Vozzella, since it was this man "he was after, not his wife." The chief testified Botto said to him: "I told my wife that I was going out and opened the door to do so. Instead of going out I closed the door with a bang and then turned and entered the cellar. I found a dark corner and there secreted myself and waited to see what would happen. Five minutes after I banged the street door I saw my wife enter the cellar and, going up to a partition, struck it three times. A short time after Vozzella entered the cellar and went up to my wife and took her in his arms. While he was kissing and hugging her I fired, aiming to get the man, but hit my wife. After that all became a blank to me. It was Vozzella I was after, not my wife."

R. F. ARMSTRONG ON TOWN MANAGER GOVERNING PLAN

(Moncton Transcript) R. F. Armstrong, town manager of Woodstock, visited the Moncton Rotary Club at their weekly luncheon in the Brunswick Hotel, and delivered a very interesting address "On Town Manager System of Civic Government."

There was an unusually large attendance of members at the luncheon today, and the Rotary Songs were sung with telling effect. A. H. Lindsay, advertising manager of the Canadian National Railways, here was in the chair, and in a few words introduced the speaker whose address was thoroughly enjoyed. Mr. Armstrong compared the system of government under a town manager with aldermanic and commission civic government. He classed the town management system as "unification of effort" as he, although subjected to a board, snipped out to them certain plans for civic government, such as a bank manager or the manager of a large mercantile house, would map out to his superiors the betterment of the bank or mercantile house as the case would be; and yet the manager of the bank or

house, would play a free hand, as the speaker played in the management of a town or as any town manager would play, looking for the betterment of his town by uniting with others for the town's betterment. Mr. Armstrong believed that it was the only form of government which could be successful and believed it could be worked to good advantage to citizens in towns, of from 10,000 and 15,000 persons to cities, with a population of 150,000.

(Mr. Armstrong is the son of R. E. Armstrong, secretary of the St. John Board of Trade.)

I'm Pointing Right at You, Mr. Buyer of Men's Good Clothes!

You know and we know that prices are falling, that merchants are glutted with merchandise and are doing all in their power to turn stock into cash, owing to trade depression caused by the luxury tax.

We have kept faith with our clientele throughout this readjustment period and we are doing our utmost to sell clothing at tax-exempt prices. We have always operated on a low percentage of profit.

During these three days we offer our entire Winter Overcoat Stock at prices that are below cost in many cases, and much lower than you can buy them next winter.

We invite your inspection and kindly criticism whether purchasing or not.

It took fully two and a half hours of strenuous labor to serve the big crowd that attended the anniversary high tea in the hall of the Church of the Good Shepherd in Fairville, last night. The high tea was the last of the anniversary celebrations and was a grand climax to the other observances which have marked the week. Great credit is due to the committee in charge of the tea for its wonderful success. Two long tables, arranged along the full length of the hall, were brightly ornamented with colored candies which gave them a very attractive appearance. The delicacies served were done full justice. Mrs. A. Bender was the convener for the tea and she had a small army of helpers, each member of which worked with a will.

NEW ANAESTHETIC

Said to Be Safe and Pleasant to Take

Now in Use in Russian Soviet Hospitals—No Bad After Effects Claimed.

(Associated Press Correspondence) Paris, Nov. 16.—An anaesthetic with relatively no danger and "pleasant to take" is said to have been produced and used in the hospitals of Soviet Russia.

Dr. Marcou, once an interne of the Paris hospitals, describes the process in an article written for L'Information. He asserted that he watched the new method used for Petrograd hospitals. He attributed its experimental use on animals to Professor Fedoroff, formerly surgeon to the Emperor.

Dr. Marcou says the patient awakes from the sleep produced by a little heavy in the head but without nausea or ill effects.

It is methylpropylcarbitol in the proportion of one to 100 parts of warm, salty water that does the business, he says. This is injected directly into a large vein in the elbow and the hollow tube is left in the vein so more may be pumped in as needed.

When from 100 to 200 grams of the liquid have been put in the blood the patient sleeps but there still remains reflex action in the eyes, which is taken as the standard of anaesthesia.

No ill effects. As more of the sleep-producer is used, sensitiveness leaves the eyes and the surgeon operates, testing the eyes from time to time so as to keep the blood-system supplied with the fluid. The patient sleeps several hours after the completion of the operation.

"Hundreds of operations," says Dr. Marcou, "were performed in Russia during my stay. I watched some of them. Not one case of death has yet been reported."

The anaesthetic is said to be particularly valuable for head and neck operations where the use of the ether or chloroform mask interferes with the surgeon's work. In such diseases as make the introduction of salty solutions into the blood undesirable or dangerous says Dr. Marcou, salt may be replaced by glucose or bi-carbonate of soda.

CRITICIZES BRITAIN'S "OBSCOLESCENT NAVY"

London, Dec. 3.—The London Times, in an article on "Our Obsolescent Navy," says:

"The navy problem for Britain and the empire cannot be ignored much longer. The British fleet contains no capital ship whose design embodies all the lessons taught by the experience of the Jutland battle. On the other hand, the United States and Japan are both building warships far more modern in design, armament and protection than any great ship of the British fleet. In some three years the fleet of Britain, for the first time within the memory of generations passed, will no longer be the most powerful fleet in the world in great ships, but will be the third fleet of the world by that reckoning."

"The friendliness of both the United States and of Japan toward this country goes without saying, but so great a reversal of the traditional policy of the British Admiralty as is impending with the progress of the construction programme of the United States and Japan cannot be passed over without the gravest consideration. Either this country and the empire must at once enter into a new naval competition in the building of great ships of war or they must decide that such competition is necessary no longer."

"Such a decision could be justified only on two grounds: First, that the war has made any competition in naval armaments unnecessary, even for the fleet which has for centuries led the world in the number of its great ships; or, secondly, that the strength of fleets is no longer to be measured by the number of their capital ships."

ONE EFFECT OF WAR ON CANADA

Bankers Trust Company of New York Sees Alteration as to Agriculture and Industry.

New York, Dec. 3.—The marked change which the war produced in the relative importance of agricultural and industrial pursuits in Canada is illustrated in a study "The Dominion of Canada," by the Bankers Trust Company of New York.

Comparative tables of exports before the war and after indicate, according to the study, that on March 31, 1919, Canada's foreign trade had reached the position where manufactured articles represented 45 per cent of the total exports and agricultural products 22 per cent. This was a complete reversal of the relative proportions of these products exported in 1914.

Table showing details of the transition in exports: Total exports \$481,000,000 vs \$1,216,000,000; Agricultural products 198,000,000 vs 271,000,000; Per cent 45.9 vs 22.3; Manufactures 57,000,000 vs 355,000,000; Per cent 13.2 vs 45.6.

Canadian manufacturing pursuits at least a third more people than were employed before the war, while some 2,000,000 people, or 25 per cent of the population, are said to be directly or indirectly dependent upon manufacturing industries for their living.
