MCCURDY GETS AWAY ON HIS FLIGHT TO HAVANA

Thousands Cheer Canadian Aviator In Fine Start on Longest Distance Flight

Gracefully Soars Over Key West Housetops and Heads South for Havana at 7.35 a.m.—Wireless Reports from Vessel Stations Along the Way Tell of Good Progress

(Canadian Press) Key West, Fla., Jan. 30.—J. A. D. McCurdy, the Canadian aviator, after several days of disappointment because of weather conditions, started at 7.35 o'clock this morning for Havana, Cuba, on what will be, if successful, a record aeroplane flight.

The Start Key West, Fla., Jan. 30.—Aviator J. A. D. McCurdy started upon his record-breaking 110 mile over-sea flight to Havana, Cuba, this morning. The start was made from the aerodrome at 7.35 o'clock under the most favorable weather conditions. A nine mile breeze dipped the flag which was flying from the machine but did not hinder the daring birdman's progress.

A great crowd, which had been gathering since long before daylight, raised a revenue cutter Forward, the light house tender Mangrove and two torpedo boats left for their stations.

McCurdy joked with his mechanics while they tinkered over the machinery preparatory to a start. His plane was in excellent condition with all the parts working without a hitch.

The machine which weighs 750 pounds was equipped with two sixty horse power motors and a brass tank of a size sufficient to hold enough fuel to make the trip. Two long pontoons were attached to the machine underneath to float it in the event that it fell into the water.

Early wireless despatches from the commander of the torpedo flotilla saying that the weather conditions were favorable led McCurdy to start at 7.35 o'clock. The torpedo boats Ros and Terry left here at 4.30 o'clock, the Ros carrying several newspaper men. A little later a wireless message from Havana stated that the Paulling and the Dayton had left that port to take up their stations. The fact that the Paulling was in Cuba when the start was made disarranged the original plan of alignment.

Clouds of Smoke as Guide The vessels were set approximately ten miles apart and each was instructed to keep the furnaces filled with coal so as to throw upward vast volumes of smoke to guide the aviator.

The wireless operators on the boats were also instructed to keep in constant communication with the aviator on land and report every detail of the flight. Upon the deck of the Paulling a platform had been built so that if McCurdy would be compelled to make a descent at sea he could ascend again from the deck of the vessel.

The school children had been given half a day's vacation in expectation of the flight and they were met by their teachers to the high parts of the city, from which a view of the biplane in motion could be seen. The idea was not so thrilled since the Spanish war days, as it was while McCurdy sped over the crowded home.

"Fine, I will soon see him then," was the cheer word which was flashed back from the Cuban capital.

Reported En Route McCurdy has reached the destroyer Ros, twenty-two miles out, at 8.34 a. m.; all well.

LATER Havana, Jan. 30.—McCurdy is attempting a new start from the deck of the destroyer Paulling which picked him up.

STRIKE OF 8,000 RUSSIANS ADDS TO PLAGUE TROUBLES Harbin, Manchuria, Jan. 30.—Added to the horrors of the plague, 8,000 Russian workmen on the Eastern Chinese Railway, fearing the disease, have gone on strike because the administration refused to dismiss 1,200 Chinese laborers and provide passes to enable the families of the Russians to return to their own country. The strikers have been paid off and will, with their families, be evicted from their dwellings.

Troops have been stationed all along the line to protect the Chinese. Eight thousand Russian workmen without homes and with infinite resources, are likely to prove a source of grave danger, and it is probable that additional troops will have to be provided.

There has been no let up in the spread of the plague. During forty-eight hours, 40 deaths were reported in Harbin alone, and probably there were many others not reported. In the same period 180 Chinese died in Fuzhidian, a suburb of the city.

HANDSOME WOMAN MURDERED; MAN WITH CAST IN EYE IS SOUGHT (Canadian Press) New York, Jan. 30.—The police of various cities were today asked to investigate a search for a tall, slender man with a cast in one eye, who wears a light overcoat and a slouch hat, and who is wanted to clear up the murder of a handsome woman found dead from strangulation last night in the Hotel Bryant at Forty, Fourth street and Sixth avenue.

Today twelve hours after the discovery of the crime the remains of the woman were still unidentified.

The man and woman had registered as "Mr. and Mrs. John Smith, of Montclair, N. J.," but the police declared that these were fictitious names.

THE WEATHER Clearing and colder with strong winds and gales from west to north-west.

SMASHING REPLY TO COL. HUGHES Dr. J. A. Macdonald Speedily Settles Charge Made in the House of Commons

(Canadian Press) Toronto, Jan. 30.—A telegram has been received from Dr. J. A. Macdonald, editor of the Globe, in reference to the statement attributed to Col. Sam Hughes that Dr. Macdonald was in the pay of Mr. Ginn, a prominent Boston publisher, to preach reciprocity.

The statement that he went to Washington in connection with reciprocity is absolutely false, declares Dr. Macdonald. He says that he is a member of the World's Peace Foundation, established by Mr. Ginn, but that there are no salaries and reciprocity is not on the programme.

"Neither the founder nor any of the directors favors the political union of Canada and the United States," says Dr. Macdonald. "Personally and in the interests of world peace, I oppose any change in Canada's imperial relations. As a free nation in the empire, Canada can exercise greater influence than is possible through independence. Col. Sam Hughes' statement is a 'whole cloth' falsehood. Only a slanders and a coward will repeat it after this."

GOUSINS DROWNED Hamilton, Ont., Jan. 30.—(Canadian Press)—Frederick A. Smith and Albert Smith, aged 21 and 24 years old, cousins, living at 90 Wood Street, West, were drowned in Burlington Bay, while skating yesterday. They ventured a spot from which the ice had been cut.

NEWS OF FREDERICTON A Police Case—Lumbermen Finish Yarding--The Marysville Church Fire (Special to Times)

Fredericton, Jan. 30.—Quite a stir has been created in police circles over alleged rowdyism on the part of the lumbermen. The origin of the fire which destroyed the Methodist church in Marysville is a mystery. It was first thought to have been caused by an overloaded furnace pipe but Rev. J. C. Berrie, who was the last to leave the church, does not agree with this theory.

The Orange Hall and United Baptist church have been offered to the Methodists for worship until a new church can be built.

KIPLING'S FATHER DEAD London, Jan. 30.—(Canadian Press)—John Lockwood, Kipling, father of Rudyard Kipling, died yesterday. Mrs. Kipling died only a few weeks ago.

John Arbutnot Fisher He is First Lord Fisher of Kilverston, and also admiral of the fleet, who has retired from the navy, under the age limit. He was born in 1841, and had been admiral of the fleet for many years.

SAID TO BE NOVA SCOTIA Wm. McLeod Sentenced in Ontario For Theft of Overcoat (Canadian Press) Belleville, Ont., Jan. 30.—A young man Wm. McLeod, who claims Nova Scotia as his home was on Saturday sentenced to eighteen months in the central prison for stealing an overcoat from the hall of a hotel in this city.

JEFFRIES FINED \$20 Mexico City, Jan. 30.—(Canadian Press)—Jim Jeffries, who is due to arrive here on February 8, accompanied by Barney Oldfield, will not be permitted to carry out his plan of giving boxing exhibitions. He has been put on prize fights and pugilistic exhibitions all over the country. The two pugilists were arrested at Ciudad Porfirio Diaz Mex., Saturday night, while they were giving an exhibition. The promoters of the event were fined \$20.

BRITISH COLUMBIA LUMBER Vancouver, B.C., Jan. 30.—That the proposed reciprocity agreement will never be passed, at least not in its present form, is the opinion advanced by saw mill men in Vancouver. One declared that the fruit interest would never submit to a reduction of duty on American fruit. In addition there would be a great difficulty in getting the government of this province to allow free exportation of logs from British Columbia, even in return for the removal of certain restrictions at present working against the interests of the lumbermen here.

He declared that all other duties on Canadian shingles, going across line, would be beneficial, but it remained to be seen if shingles would be put in classification as lumber, and thus made a contingent of the free export of logs from the various provinces. If this were the case, he said that it would not matter much what was done about shingles or any other varieties of manufactured lumber, as it was probable that the provincial government would permit the removal of the duty on exported logs.

John Hendry, the president of the association, will leave for Ottawa on Tuesday and while there will consult with prominent lumbermen there with respect to the agreement.

THE TIMES' NEW REPORTER The Times new reporter arrived at the office this morning wearing furs, over-shoes, mittens, raincoat, rubbers, gloves, soft hat, fur cap, muffler, umbrella, creeps, and such other items of clothing as his wardrobe afforded. The young man is determined not to be caught napping, but the rest of the staff are nevertheless laying their spare coin on the weather.

ONTARIO FARMER FALLS INTO PEN; IS EATEN BY SWINE

Windsor, Ont., Jan. 30.—Twelve hours after he had been missed, from home, the mutilated body of James Calder, aged sixty years, a farmer of Staple, twenty-two miles north of this city, was found lying face downward in a bog pen. The discovery was made by Mrs. Calder, who had become alarmed at her husband's long absence and started in search of him. The man evidently became unconscious and fell among the swine who ate his flesh.

Committee Seeks Place to Make Patrol Wagon Headquarters DECIDE TONIGHT

Likely Building in King Street East, Corner of Lester Street—Market Committee is Preparing Report to Council

The sub-committee of the safety board appointed to deal with the matter of a police patrol wagon met this morning and visited a number of places where it might be possible to house the vehicle. A definite decision was not reached as it will be necessary to consult the officials of the public works and water and sewerage departments to see if the places selected would be available.

The committee looked over the fire station in King street east but came to the conclusion that there was no room there for another team. The stables of the public works department in Carleton street and the stables of the water and sewerage department in Lester street, were also examined and it was the opinion of the committee that either of these places would be suitable if arrangements could be made with these departments. A shed in King street east used by the water and sewerage department was also considered.

The matter will probably be decided at the meeting of the safety board this evening.

A member of the committee in speaking of the introduction of a patrol wagon, said he thought it would be of doubtful value, without a regular call system. If the wagon was wanted after midnight, for instance, it would be difficult for a policeman to send word to the stable as all places of business would be closed and private residents would not like the idea of being roused from bed to send in a call. The cost of installing a call system has been regarded as too expensive to be undertaken at present.

The market committee is meeting this afternoon to prepare a report for the meeting of the common council on Monday next. The clerk of the market will be present at the meeting and the question of revising the by-laws will be discussed. It is probable also that the committee will further consider the matter of remodeling the eastern and western ends of the building. One of the difficulties in the way of carrying out this plan is that the tenants of the building would likely be interfered with. There have been several applications for quarters, provided the building is made suitable.

Twenty Lives Are Lost In The Philippines ISLAND SINKS

Terrific Electric Storm Adds To Fearful Riot of Nature—Terrified Natives Abandon Homes and Flee to the Hills For Safety

(Canadian Press) Manila, Jan. 29.—Observers sent out by the Bureau of Science to investigate the eruptions of the volcano Taal have telegraphed in a report that a terrific eruption occurred at 2 o'clock in the morning simultaneously with two prolonged earthquakes. The island on which the volcano is located sank five feet. A heavy mud shower fell and then for half an hour hot ashes.

The observatory at Manila corroborates the report of the earthquakes and adds that a remarkable electrical storm continued for two hours with deafening thunder under the smoke and gas umbrella above the volcano. Lava and stones were belched 3,000 feet.

The constabulary assisted the panic-stricken natives. One cavalrman was killed by the wreck of a house on the lake shore. Following the sinking of the island, a wave four feet high swept over the lake shore for a radius of a mile, destroying hundreds of bamboo shacks. These, however, had been vacated on account of the eruptions which occurred yesterday morning.

The terrific explosions in the air preceded many of the constabulary. The observatory here reports a total of 123 shocks. The southern part of the island was damaged, but three inches of mud and ashes cover the tracks in places and hides up traffic.

The observatory authorities say that Manila is in no danger. It is believed that the towns of Taal and Semey have been considerably damaged by mud and stones. All the towns within a radius of fifty twenty miles are abandoning their villages and fleeing to the hills in terror.

Manila, Jan. 30.—Twenty persons, all natives, were overwhelmed and drowned by the tidal wave which followed the eruption on the volcano Taal, according to press advice received here today.

Tried to Hide the LIQUOR FROM MOTHER Ontario Man Proceeded Against and Convicted But High Court Rules Otherwise

(Canadian Press) Toronto, Jan. 30.—Justice Britton on Saturday, ordered Magistrate Sellick, of Leamington to pay \$35 costs for convicting Frankish Millins, on a charge of keeping liquor for sale. His Lordship held that there was not a particle of evidence for conviction.

Millins' defence was that he had bought the liquor for use on a hunting trip, and sending it to his mother, he was bottling it for convenience in concealing it.

WEATHER PRANKS ARE PLAYED AGAIN Another rapid change of temperature was experienced during the past twenty-four hours, the glass indicating a rise of 35 points. The snow covered streets of Saturday and Sunday were changed to slush this morning, and a biting wind became a spring breeze. The snow fell on Saturday amounted to four inches. During Saturday night there was a gale from the northwest. Early Sunday morning the temperature dropped to three above zero. This was followed by a rising temperature yesterday, and rain last night. The temperature this morning was 38 above. The indications are "clearing and colder weather with strong winds and gales from west to northwest."

A GOLDEN OPPORTUNITY
One of the many good features of the Canadian Government Annuities Act, which should commend it to wage-earners, and others with small or uncertain incomes, is the fact that if the purchaser is obliged for any reason to discontinue his regular payments there is no fine, no lapse, and forfeiture. Whatever money he pays in will remain with the Government as 4 per cent. compound interest until the time when the Annuities period is over, and he will then receive such Annuity as the payments he has made with accrued interest will purchase.

### HARD UP FOR ARGUMENTS

So far as the opposition to the new trade agreement appears to have developed, it is based on the theory that less trade with Britain means less trade with the United States.

Canada has always been reaching out for larger markets. The Conservatives when in power always had the reciprocity (later dating out) but now when a Liberal government achieves that which the Conservatives believed could not be achieved, they fall back upon the plea of loyalty to the empire, and seek to defeat the measure.

Let us examine this matter. How much of dairy produce, potatoes, vegetables, small fruits, eggs, hay, fish, etc., is at present shipped from New Brunswick to the British market? How much is likely to be shipped to that market? Will the fact that the United States market is free prevent any exporter from shipping produce to England whenever he can get a better price in the English market?

The following assertion is made by the St. John Standard:—

"This arrangement, in so far as its aim and tendency go, will turn the forward march of forty years backward, and gradually bring us back to the old conditions when British Columbia did its trade with the Pacific States, the Prairie Provinces with the Middle States, Quebec and the Maritime Provinces with Portland, Boston, and New York."

The answer to this is that the new arrangement will increase Canada's trade with the United States, but there is absolutely no evidence that it will decrease our trade with the United Kingdom. The railways east and west may be dependent on to look out for the east and west traffic, and the British market will continue to absorb Canadian produce shipped through Canadian channels. It is utterly absurd for the St. John Standard to assert that "in this arrangement British preference receives a fatal stroke and British connection a severe menace."

The assertions of that journal will not carry any weight. It is too grossly unfair and untruthful. It describes Sir Wilfrid Laurier as earnestly desiring and long working for the separation of Canada from the empire. Only blind prejudice or partisan hatred could prompt such an assertion, and the journal that makes it cannot expect to influence public opinion.

**THE SILLY STANDARD**

The Standard this morning presents with display on its first page, "a question for Mr. Pugsley."

The question relates to the new trade agreement, and the concluding sentence is as follows:—

"Glowing speeches and the awarding of medals to party supporters, and the usual cant about the supremacy of this port is threatened. Is Mr. Pugsley, as the representative of New Brunswick and this constituency in the cabinet, urging the adoption of this treaty which will divert Canadian trade to American channels and American ports? Does he slavishly support Laurier, the opportunist, in his anti-British policy, or does he stand for Empire trade and for St. John? The people of this city and province will want to know what Mr. Pugsley is going to do about it."

The Times has not communicated with the minister on this question, but takes the liberty of directing the attention of the Standard to the following fact:—

The steamer Granparian, of the Allan Line, left this port last week with cargo valued at \$741,838. Of this amount \$340,982 was the value of flour, meats, provisions, bird cotton, maple legs, doors and lumber from points in the United States. Another steamer, the Wakana for Australia, took cargo valued at \$227,741, of which \$146,288 represented cargo originating in the United States.

In other words, St. John is the winter port for a great deal of United States produce. How would it do for the Standard to assume that the entrepôt railway and steamship companies will be quite as able to look after their own interests in the future as in the past, and that the readers are endowed with a certain amount of intelligence?

On another page of today's Times will be found a series of questions and answers relative to the commission plan of city government. Readers of this paper will be especially interested.

### WHAT IT MEANS

The Montreal Herald says that if the new trade agreement goes through it will mean:—

"That Prince Edward Island and New Brunswick will export more potatoes and not so many men."

"That Nova Scotians who now man the Gloucester fishing fleet will get back to boats of their own working out of Nova Scotia ports."

"That Quebec will get top notch prices for her farm and dairy products, and will before many years, be the seat of the greatest pulp and paper industry in the world."

"That Ontario will improve upon all previous records in rearing fine cattle."

"That the Canadian west will gain population at least twice as rapidly as in the past fifteen years."

"That British Columbia will begin to make profitable use of her splendid timber resources."

"That since American grain can be stored in Canada without risk of being charged with duties, the St. Lawrence route will inevitably assert its superiority as to the best and cheapest trade route to Europe."

No plan of city government yet devised is faultless, but how many citizens of St. John desire the continuance of the present system in this city? What can be said in its favor?

The desire of the people of the United Kingdom is that the most friendly relations may continue to exist between the Empire and the United States. Some men have had dreams of a great Anglo-Saxon alliance for the world's peace. The Tory party in Canada, being in opposition, is seeking to trade upon what it falsely calls imperialism, and to create a prejudice in Canada against the United States.

"The British preference receives a fatal stroke," says the Standard. Yet there are very few articles subject to the British preference which are mentioned at all in the proposed agreement with the United States. Moreover, it was the present Liberal government that established the preference. And there is not one word in this proposed agreement with the United States to prevent an increase in the British preference. Our neighbor should study this question.

**A POOR SYSTEM**

Evidence has been quoted at various times in this paper to show that the combined city council and board of control system does not work out well in Montreal, Ottawa and Toronto. We find the following paragraph in the Toronto News of Tuesday last:—

"During the discussion at the Board of Control a few days ago, on the abolition of the civic committee, it was urged by one of the members that the committee should be shorn of their administrative powers and not allowed to 'meddle with officials.' The statement was made that the committee are continually instructing the officials to do a lot of things that amount to nothing. The reference was to reports and returns with which the departments were said to be loaded up. If this is the case, if the civic officials are put to unnecessary trouble, if their work is duplicated by furnishing reports and explanations both to committees and the Board of Control, and if they are thus hampered in the discharge of their duties, then the sooner the system is changed the better."

The explanation of this is that the various city officials, who should be subject to their duties, are compelled to spend a lot of time preparing unnecessary reports for city council committees. Such a system can only result in poor service and from time to time in deadlocks between the council and the board.

In the city of Victoria, B. C., they have the old city council system, and the newly elected mayor has just submitted a proposal to establish from among the aldermen a kind of board of control and administrative committee, composed of the mayor and two aldermen, to meet daily and carry out the orders of the council. Thus, in Victoria, the old system has proved its ineffectiveness, and the council itself is trying to patch it up. The commission plan would be better.

**OXYGEN FOR ATHLETES.**

Athletes in England sometimes inhale oxygen to strengthen their muscles and to increase their strength. Recently a professional boxer engaged in a boxing match with a novice whose chief defect was lack of training. After the first round the novice was so exhausted that he was about to abandon the match. A doctor who was present administered a few whiffs of pure oxygen and the novice immediately recovered his normal strength, and with it an impetus not normal. He returned to the game, and just missed giving the knockout to a very powerful adversary.

The repetition of the experiment proved that inhalations of oxygen enable the sportsman to attain the maximum of his vigor and endurance.

As a result of this discovery special reservoirs with radiating tubes have been placed on sale for the benefit of the sportsman, who can now "take oxygen" as he formerly took oxygenated water.—Harper's Weekly.

## INDIGESTION GOES AND YOUR STOMACH FEELS FINE AGAIN

Stomach Gas, Heartburn, Headache and Dyspepsia Miserably Eased With a Little Diagepsin

There would not be a case of indigestion here if readers who are subject to stomach trouble knew the tremendous anti-ferment and digestive virtue contained in Diagepsin. This harmless preparation will digest a heavy meal without the slightest fuss or discomfort and relieve the most acute stomach in five minutes, besides overcoming all flat, nauseous odors from the breath.

Ask your pharmacist to show you the formula, plainly printed on each 50-cent case of Diagepsin. Then you will readily understand why this promptly cures indigestion and removes such symptoms as heartburn, a feeling like a lump of lead in the stomach, belching of Gas and Eructations of undigested food, water, bruisa, nausea, Hiccups, Bilewinds, and many other bad symptoms; and, besides, you will not be so liable to get your stomach, liver and bowels out of order.

If your Stomach is full of gas, or your food is not digested, and your meals don't seem to do you any good, a Diagepsin case from your pharmacist, and make life worth living. Always get Diagepsin from Stomach misery and nervous indigestion of anything you eat be sure to follow five minutes after, and, besides, the case is sufficient to cure a whole family of such trouble.

Surely, a harmless, inexpensive preparation like Diagepsin, which will always, either at daytime or during night, relieve your stomach misery and direct your meals is about as handy and valuable a thing as you could have in the house.

In certain parts of Holland births, marriages and deaths are frequently announced by the windmills. When a miller gets married he stops the mill with the arms of the wheel in an oblique position and the sails unfurled. The friends and guests often do likewise with their mills in token of the congratulatory. To indicate a birth the wheel is stopped with the arms in a slanting position, but at a more acute angle than for marriage, and with the two upper sails unfurled. Should a miller die the sails of his mill are all unfurled, and the wheel is turned round until the arms are

set in an upright cross, in which position they are left until after the funeral.

"We've never been married before," remarked Lord Decies as he and Miss Gould studied the blank. He wrote down that his Majesty King George, will in September next become governor-general of Canada in succession to Lord Grey. Official notification of that effect has been received by the government.

The appointment of his royal highness in for two years, but it may at the end of that time be further extended. **Francis K. Kain**

The death occurred in this city yesterday of Francis K. Kain, who at one time was one of the leading architects in St. John. He died at his residence, 121 St. John street, at 10 o'clock.

Mr. Kain was born in Scotland, and his father, John Kain, was a well-known architect in this city. He was a member of the St. John's Architectural Society and was one of the founders of the St. John's Art Association. He was also a member of the St. John's Club and the St. John's Athletic Club.

Mr. Kain was a man of high character and was highly respected by all who knew him. He was a devoted family man and was loved by all who were fortunate enough to know him.

He is survived by his wife, Mrs. Kain, and several children. The funeral will be held at 10 o'clock tomorrow morning at St. Peter's church, St. John's.

**Frederick J. C. Christie**

Frederick J. C. Christie was visited this afternoon by a diarrhoea virus which did damage to the amount of about \$70,000, and which destroyed the handsome Methodist church, also a dwelling house owned by the Alex. Gibson Manufacturing Company and occupied by W. T. Day, principal of Marysville school.

The church cost \$80,000 and was insured for \$100,000. The dwelling house was valued at \$20,000 and was insured.

The church was of wood with a tall spire. It was presented to the Methodist congregation by Alexander Gibson, today was the thirty-eighth anniversary of its dedication. A meeting will be held this week to consider action toward rebuilding.

The fire is thought to have originated from the furnace and was first seen about 1 o'clock, soon after the pastor, Rev. J. C. Berrie, had left the office. He saw no signs of fire when he left.

The family of Mr. Day including his daughter, Mrs. J. C. Christie, who lost her home in the fire at Campbellton, left their home when they saw the blaze and very little of their effects were saved.

K-Funeral notice.

The members of True Blue, I. O. L. No. 11 are requested to meet in their rooms in Guilford street this evening to arrange for the funeral of their late brother Samuel Ferguson, P. C. M.

By Order,

**Another Big Hotel is Planned for New York**

New York, Jan. 29.—A syndicate is about to take over the Pennsylvania railroad block in Seventh avenue between Thirty-second and Thirty-third streets, opposite the New York station, and erect a big hotel costing several millions of dollars. This hotel project has been in the air for more than a year and at one time it was reported the Pennsylvania railroad would erect the structure.

An offer, this said, has been accepted by the directors of the Pennsylvania railroad for the entire plot, which is 200 by 400 feet, extending back to the new Gimbel building, the transaction being valued at \$10,000,000. This improvement will give the long-awaited impetus for high-class building operations in the Seventh avenue section in the immediate vicinity of the new railroad station.

**The Quebec Bridge**

Ottawa, Jan. 29.—The government has appointed H. W. Hodge, of New York, one of the best known engineering experts on the continent, and M. J. Butler, ex-deputy-minister of railways and canals, and now general manager of the Dominion Iron & Steel Company, to finally settle the difference of opinion among the board of engineers in charge of the construction of the Quebec bridge.

The bridge itself is in many respects the largest and most important engineering work of its kind ever attempted. On the decision of Messrs. Hodge and Butler will depend the solution of problems in which bridge engineers the world over are interested.

**Another Big Hotel is Planned for New York**

New York, Jan. 29.—A syndicate is about to take over the Pennsylvania railroad block in Seventh avenue between Thirty-second and Thirty-third streets, opposite the New York station, and erect a big hotel costing several millions of dollars. This hotel project has been in the air for more than a year and at one time it was reported the Pennsylvania railroad would erect the structure.

An offer, this said, has been accepted by the directors of the Pennsylvania railroad for the entire plot, which is 200 by 400 feet, extending back to the new Gimbel building, the transaction being valued at \$10,000,000. This improvement will give the long-awaited impetus for high-class building operations in the Seventh avenue section in the immediate vicinity of the new railroad station.

**The Evening Chit-Chat**

By RUTH CAMERON

In a speech the other day, I heard the dean of a large college for women quote a verse from her autograph album, and a sudden sense of tender regret over me as if I had heard reference to a dead friend.

Where are the autograph albums of today?

Well, that's not so hard to answer after all. They're stowed away in the big black trunk, packed between yellowing letters of dubious orthography but stately diction, and rambling diaries of the days when men were not too busy to live.

But where are the autograph albums of today?

That's harder to answer.

Are they entirely a missing quantity? I am afraid so. When the last time you were asked to write your name, and an appropriate sentiment in some school girl's album, as you so frequently were asked in the "good old times," myself I cannot remember.

And I'm sorry. I think the autograph album is far too quaint and sweet a custom to let the vandals' twentieth century deprive us of it.

An old school friend of my mother's visited us last fall. They were talking of school days and the question came up as to the maiden name of one of the girls.

"I know where to find it," said my mother.

So out of the big black trunk from between the yellowing letters and the rambling diary, she fetched her autograph album. And by its title we straightaway had two groups of girls instead of two white haired grandmothers in the house.

How they poured over the thick, white leaves with their gilt edges and their stately or sentimental messages.

This one here the gentleman admonished—

"Be a good sweet maid and let who will be clever,  
Do noble things, not dream them all day long,  
And thus make life and death and the vast forever  
One grand sweet song."

Another gave the familiar advice—

"To thine own self be true,  
And it shall follow as the night the day,  
Thou shalt not then be false to any man."

This heartbroken lament uttered another—

"To meet, to know, to love, and then to part,  
Is the sad tale of many a school girl's heart."  
My mother's guest found her own signature under this wish—

"May peace attend your future home,  
May love your pathway 'screw with flowers  
And may you always have a friend  
True as the one who these lines penned."

How they chattered and laughed and recalled this or that good time, and grew grave over the name of the girl for whom, as for Sweet Alice, they have fitted a slab of the granite so grey, and laughed, even while the tears stood in their eyes, at the sentimental.

"The voice is red, the violet's blue,  
Sugar is sweet and so are you."

Of some hopelessly smitten youth who has since married twice and had several children.

Isn't it rather a pity that our children should have no such treasure to fetch out of the black trunk from between yellowing letters and rambling diaries? Why not try to revive the old custom by giving your little boy or girl an autograph album next birthday?

Why not at the same time bring out your own and stimulate their interest in the gift by showing it to them and telling them some stories of the days when father and mother and some of the other grownup folks they know were boys and girls?

**RESULTS FATALLY**

Samuel Ferguson, aged sixty-two, who as a result of falling from the McLeod warehouse on Jan. 8, had his spine broken, passed away at the General Public Hospital yesterday morning. The deceased, who resided at 208 Guilford street, west side, is survived by his wife and four children.

He was a carpenter by trade, and it was while engaged at this work that he met with the accident that proved fatal. His remains will be taken to his home this morning.

Mr. Ferguson's sons are Clyde and Samuel of this city, and Lorne and Allan of Manchester, N. H. His daughters are Mrs. W. B. Nye of the West End and Miss Annetta Ferguson at home. Mr. Ferguson was a prominent member of the Orange order, a past master of True Blue Lodge No. 11, and also a past master of St. John County Lodge. The funeral will be under the auspices of the Orange order.

Cornier Berryman will hold an inquest. A jury will be empanelled this afternoon.

**REV. R. A. ARMSTRONG ADDRESSES GREAT E. D. CLUB MEETING**

The hall of the Every Day Club was not large enough to contain all who sought to get in last evening. The orchestra, with Prof. Bowden as conductor and Miss Wreden as accompanist, played a fine program. M. T. Morris sang "My Will Be Done" with feeling and expression, and the Edmonstone street church male quartette were heard with intense pleasure in their rendering of a familiar hymn.

Rev. R. A. Armstrong was the speaker of the evening and took as the basis of his address the club's motto, "To Help Men to Be Men." He began with the familiar story of the prodigal son, and laid special emphasis upon the saying of Jesus, "When he had come to himself, he said, 'How many servants of mine have their names in my name, and they do not know what they are doing, and they will be brought to destruction.'"

Rev. Mr. Armstrong, telling of the life of Jesus, pointed out that he measured greatness in terms of service, and tried to bring them to that level. So should we endeavor to live the best that is in us, and influence others in like manner, helping men to be men. Jesus never gave up men, but held his faith to the bitter end, and in Him men today should find their example.

Mr. Armstrong made a strong plea for the men who composed more than half his congregation, and took as the basis of his address the club's motto, "To Help Men to Be Men." He began with the familiar story of the prodigal son, and laid special emphasis upon the saying of Jesus, "When he had come to himself, he said, 'How many servants of mine have their names in my name, and they do not know what they are doing, and they will be brought to destruction.'"

**CRIMINAL LIBEL CASE OUT OF A SCURRILOUS ARTICLE AGAINST KING**

London, Jan. 29.—The News of the World has been sued for libel by the Rev. Dr. King, on account of an article published in its issue of January 27th, in which the Rev. Dr. King was accused of being a scurrilous and scoundrelous character.

The defendant in the case is Edward P. Mylius, who is said to be connected with the paper, The Liberator, published in Paris, which printed the statements on which the libel charge is based. Mr. Mylius was arrested some weeks ago charged at Bow street, committed for trial and sent to jail.

In the ordinary way the case would be tried in the High Court, but as the Rev. Dr. King is a member of the House of Commons, he has elected to try the case in the High Court.

**TEMPERANCE MEETINGS**

Granite Rock Division, Sons of Temperance, had their usual Sunday night gospel meeting in their hall last night. Rev. L. A. Maclean was the speaker. John Lane presided and there was a large attendance.

Loyalist Division, Sons of Temperance, held a gospel temperance meeting in their hall, Paradise Row, last evening. Rev. William Lawson was the speaker and Walter Daley, chairman. Edwin Marshall sang a solo.

Rev. David Hutchison delivered a temperance lecture to the members of the Temple of Honor in their hall in Main street yesterday afternoon. He spoke principally on the total suppression of the liquor traffic and the national safeguard, prohibition. The lecture was listened to with interest by the large crowd present. The speaker did not refer particularly to local conditions, but reviewed the liquor traffic as a whole.

Rev. Wilfrid Gaez was the speaker at the meeting under the auspices of Thomas Lodge yesterday afternoon. He contended that the temperance man was not aiming at prohibition, or the Christian who was not a temperance man, was not living on the highest plane of duty. Jesus Kevs presided at the meeting and C. G. McFarah conducted the devotional exercises.

The newspaper lists of those invited to a wedding also include those who do not come.

She leaves, besides her husband, six children, father and mother, one sister and two brothers to mourn their sad loss.

She was a woman of excellent character and had a very large number of friends in the vicinity where she had spent the most of her life. Her illness of eight weeks was borne with christian patience and fortitude. The funeral was held at her late home at 1 o'clock this afternoon. Interment was in Midland cemetery.

GORSICAN'S TRIP ROUGH. Allan liner Corsican, Captain E. Cook, from Liverpool via Halifax, arrived this morning. She was off the island about 6 o'clock and docked at No. 3 berth Sand Point at 10 o'clock. The steamer encountered very rough weather on the entire trip and off the Banks ran into a terrific north west gale and was badly laid up.

Arriving off Halifax at 6 o'clock on Saturday night she experienced some of the worst weather of the voyage. The wind was fifty miles an hour and, finding attempts to enter the harbor futile, she anchored till evening when the wind abated. The Corsican brought to Halifax twenty-five saloons, 125 second cabin and 300 stowage. Of this number she brought fifty-four second cabin and 100 stowage here. All the saloon passengers landed at Halifax.

CHINESE IN ST. JOHN CUT OFF QUEUES

Sixty Celestial Empire Citizens Give Up The "Pig Tail"

MEETING YESTERDAY

It Was Their New Years Day, And It Was Celebrated by Observance of Emperor's Order—They are Pleased With The Change

In consequence of an edict sent out from the Emperor of China, Chinese all over the world yesterday cut off their queues, and today their coal-black locks are fashioned in the latest modern designs, a pompadour, parted in the middle or on the side.

In St. John there is a Chinese population of about sixty, and yesterday, which was their New Year, they met together and one by one the long "pig tails" were sacrificed. The services of a regular tonorial artist were not required, for a snip of the scissors and a little trimming off was all that was necessary to convert the top dressing of the celestials into the ordinary style of the country.

The cutting off of the queue, which has been worn by the Chinese for centuries, is the most important, move that has been made by the people of this great empire to bring them within the list of civilized countries of the world. Large and small, high and lowly, from the emperor to the poorest peasant, were affected by the order that went into effect yesterday.

It was formerly the rule that Chinese who left their native land and cut off their queues, could not return to their native land without being looked upon as outcasts and degraded in the eyes of their fellowmen. Now, however, those who had the temerity to cut off the distinguishing mark of their country in years gone by, are placed on the same footing as those who held on to the long hair adornment.

Of the Chinese in this city, many are now quite proficient in the English language. Several years ago, classes were started in the Brussels street Baptist church, to teach the Celestials how to talk and understand the language of the people with whom they had elected to reside and do business, and they met with marked success. The classes have been under the direction of Mrs. J. N. Golding, Sr., and a few of the teaching clerics have become Christians, and have been baptized into the Christian faith.

Several of the Chinese this morning, a "Times" reporter was given to understand that they are much pleased with the new order of things. One of the laundrymen offered to give the reporter, when he was told the object of his visit, a copy of a Chinese newspaper, "that would tell all about the edict." While appreciating the offer, it was declined on the ground that the Chinese characters might not understand it, though it looked interesting enough in the Chinese characters.

(Canadian Press) Toronto, Jan. 29.—A number of the 1499 Chinese in Toronto yesterday celebrated the advent of their New Year by obeying the edict of the imperial government, and having their queues cut off.

PROBE INTO THE BURGLARY IN STORE OF EMERSON & FISHER

Evidence of Several Witnesses Heard in Police Court This Morning

The case against Harry Stone and George Stanton, charged with breaking and entering the store of Emerson & Fisher, Germain street, was proceeded with this morning in the police court in the presence of a large number of spectators. The hearing was interesting. After the evidence of a few witnesses had been taken, the case was postponed until tomorrow morning.

Patrick Ferris, an employe in the firm's shipping department, told of having left the place on Tuesday night last, after having secured fastened all means of entrance. He came back to work on Wednesday at 6 a.m., and found that a pane of glass had been broken. He saw evidence that the place had been entered, as five or six guns were lying about, each with the magazines loaded; cartridges were strewn about the floor; the cash register was removed, and the till was also out of place.

H. W. Emerson said he was notified by Mr. Ferris on Wednesday morning, and found that some cases of cutlery had been broken into. He identified a few razors, pen knives, and shaving brushes, produced in court by Detective Killen, as having been once in the store in Germain street, as they bore the firm's private mark.

Detective Killen asked Mr. Emerson to tell of a forger break which had been made in the store; objection was taken by G. E. Logan, J. B. Emerson, a member of the firm, confirmed what had been said by his son, the last witness.

Harry Stone said that he saw Stone on Tuesday night in an intoxicated state, and that the prisoner gave him six knives, five razors, and one brush, promising that he would return in half an hour, but he did not do so. Yesterday he gave the articles to Detective Killen.

James Ferris, colored, said he saw Stone 4 in a house in the south end on Wednesday or Thursday night, kept by a woman called "French Mattie." Stone gave him a black handled knife, which he sold to Mrs. Morris for 35 cents.

Mr. Logan here asked Deputy Chief Jenkins to move a little to one side so that his client could hear, as he was seated between the witness stand and the end of the table where Stone sat, but the deputy would not do so, whereas Mr. Logan remarked: "I'd like to know who's running this court."

Deputy Jenkins: "You are." His Honor remarked upon the impoliteness and Mr. Logan apologized. Deputy Jenkins also moved to one side.

Joseph Dally gave evidence, but it had little bearing on the case.

TEA ON SATURDAY. In the vestry of Tabernacle church on Saturday afternoon a very successful tea was held by the members of the Y. P. S. A large number sat at the tables and enjoyed the menu. The ladies who took part in the serving were: Misses Young, H. H. H. J. Gunn, M. O'Brien, M. S. Beyer, Aliza Gilchrist, Mrs. Gray and Mrs. Taber.

Are You Using Gas? If So, Why Not Install A Glenwood Range With Gas Attachment?

A Glenwood Range with the gas attachment makes an ideal kitchen and is neat in appearance, and gives you two ranges in one. The gas range having a broiler and oven, besides three burners on top, makes a complete range of itself and can be used either with or without the coal range. These gas attachments are made in St. John along with our Glenwood Ranges and, like every range we have made, they have been tried and proven to be O.K. in every way before offering them on the market. If you have gas in your home it will pay you to come to our store and inspect the gas attachment for yourself. Made solid and guaranteed by

TO MEN WHO WILL BE PERSONALLY TAILORED The Half-Yearly Clearing In Our Custom Tailor Shop Offers:

\$24.00 Bench-made Suits ---AT--- 25.00 Bench-made Suits \$20.00 26.00 Bench-made Suits

\$6 to \$7.50 Trousers, made-to-measure at \$5.00

We use the words "bench-made" for the reason that all our made-to-measure Suits are made by our own tailors in our own shop, and not—as is the custom with some—sent to a factory to be "put together."

The materials include many of the finest patterns we have shown this season and are placed on a special table in our tailor shop.

This special offer should appeal strongly to men who appreciate the touch of individuality in the clothes they wear.
