N. S. MINERS PROPOSE WAGE SOLUTION

CONTRACT FOR FOUR MONTHS IS SUGGESTION Besco Officials Decline To Comment On Proposal

SUMMARY OF CASE Miners' Representative On Conciliation Board Presents Statement

By Canadian Press. SYDNEY, N. S., Feb. 6.—No statement by way of comment on or reply to the proposals of the miners will be made by the British Empire Steel Corporation while the U. M. W. convention is in session.

Convention Adjourned. HALIFAX, Feb. 6.—(By Canadian Press) According to a telephone message received here, the miners' convention adjourned today without announcing the move they will make in the event of the corporation turning down their proposal yesterday.

Points of Agreement. "Both parties are agreed on fundamental matters of importance. I mention particularly the following: 1. The men have as much interest in the permanent success and reasonable prosperity of the coal business of Nova Scotia as the companies have."

Questions in Dispute. "The main question in dispute is the rate of wages the men are to receive from the companies. There is a difference of opinion and a difference of decision between the representatives of the men and the representatives of the companies."

The Miners' Case. A. The men assert that the companies can afford to pay more than the 1924 rates. B. The men say they don't believe the statements and explanations of the companies.

Assertion By Company. The companies assert they cannot afford to pay higher wages than at rates based on a ten per cent. reduction on the rates, under the contract which expired January 15th, 1925.

French Government Moves To Curb Bread Price Advances PARIS, Feb. 6.—Alarmed at the continued increase in the price of bread which reaches one franc 92 centimes per kilogram today—a price unheard of since the siege of Paris in 1870—the government introduced a bill yesterday tending to prevent further advances.

SENATOR MOSES WARNS CANADA OF REPRISALS

Assures Pulp and Paper People of Protection

SAYS U. S. IS READY

Counter Embargo On Railways, Coal and Sulphur Hinted By Speaker

By Canadian Press. NEW YORK, Feb. 6.—"Warning that the threat of a disastrous trade war" between the U. S. and Canada exists in the proposed Canadian export tax embargo on pulpwood was delivered last night by Senator George H. Moses of New Hampshire, member of the Senate foreign relations committee, speaking at the dinner of the American Paper and Pulp Association.

"There cannot, at any stage of the proceedings that produced the present crisis, have been anything but a selfish purpose to dominate the American market," said Senator Moses. "In the face of that stands the dominant American policy to hold this market, the best in the world and extend it to the foreign markets on a basis of honest competition."

Puts Onus On Canada. "If it can be there are those of our neighbors forgetful of the century of peaceful and amicable relations that has prevailed, surely no one here will forget the pride with which the United States hailed the negotiations of the Rush-Bagot Treaty, and no one here, looking self-interest, it cannot be our neighbor will give heed to such a cry and will attempt to do its urging against a great-hearted friend who wishes none but good to Canada."

"We are speaking now as merchants, as business men, as friends of peace when we try to point out the curb on which she seems to be embarking, urged by a group that forms a noisy, aggressive and insolent minority, motivated by self-interest. It cannot be our neighbor will give heed to such a cry and will attempt to do its urging against a great-hearted friend who wishes none but good to Canada."

Says U. S. Prepared. "We cannot forget that within our generation a great golden stream of American capital has gone into the northland to help build up its communities and that many of our people have gone there."

"But if the co-operation we have extended seems now about to be repulsed, let it be known of all men it is not we who have taken the aggressive part and let it be known that if it comes to us we are not unready."

"Our tariff laws give us ample protection against discriminating and unfair competition. Do not forget that there happens to be in the United States several thousand miles of Canadian railroads on which we may lay regulation, if not embargo."

Hint of Reprisals. "Do not forget that we control many of the raw products that are necessities of life and industry in Canada, especially in the paper industry. An embargo on coal or on sulphur, each of which lies within a stroke of the pen of the President of the United States, would be sufficient protection. Those who speak for you at Washington will be neither dumb nor inept in the event that the menace of tonight shall become the reality of tomorrow."

CONTRACT FOR FOUR MONTHS IS SUGGESTION

(Continued from page 1.)

The only way in which it seems practicable to ascertain whether the claims and assertions made by both parties are correct or incorrect and what bearing they have on the dispute appears to be by means of a thorough fact-finding or truth-finding enquiry conducted by a competent authority lawfully constituted and clothed with adequate power to make such an enquiry and to discover the bearing which such facts and the truth have upon the present dispute.

When the results of such an enquiry, together with such recommendations as that authority might see fit to make in connection therewith have been made known, the two parties to the dispute could then proceed to negotiate an agreement with the light of truth shining on the whole question.

It might be confidently expected that an agreement would be reached, that it would be fair and that it would be satisfactory to both parties.

The Alternative. "On the other hand if without such an enquiry there should be a cessation of work (either by strike or lockout) the situation would then resolve itself into a contest of endurance involving losses and privations to both parties with a great injury to the public interests.

HON. I. C. RAND WINS CONTEST IN GLOUCESTER

Attorney General Defeats J. L. Ryan With Majority of 1,919 Votes.

29 PER CENT INCREASE IN NUMBER AT POLLS

Yesterday's Election Gives County Second Portfolio in Provincial House.

BATHURST, N. B., Feb. 6.—By a majority of 1,919 votes, Hon. Ivan C. Rand, Moncton, Attorney-General, was elected in the Gloucester by-election yesterday over J. L. Ryan. Hon. Mr. Rand's election gives Gloucester two portfolios, as Premier P. J. Veniot is Minister of Public Works.

Gloucester was vacant, however, due to the appointment of Hon. J. P. Byrne to the King's Bench Division of the Supreme Court of New Brunswick, and Mr. Rand stood for this constituency.

The vote today was: For Rand, 2,070; Ryan, 4,181; majority for Rand, 1,919; total vote cast, 10,251. In the general election of 1920 the total vote was 7,878, so today's was about 29 per cent. greater than that of 1920.

NEW YORK, Feb. 5.—(United Press)—R. C. Clark of Sydney, Australia, a New York visitor, says his country is consuming an increasingly large proportion of the continent's wool crop. Woolen mills are being built in the wool-growing country and the wool is being made into cloth where it is grown. A rapid decrease in the export of wool is anticipated, Clark says.

\$1 Saves Eyes And Nerves. So many people have a suspicion they need Glasses, but thrust the thought aside—thinking Glasses mean a lump of money—that Sharpes worked out a scheme whereby Glasses do not mean a lump of money. And you'd be surprised the difference it made. People in good circumstances found it far easier to pay attention to their eyes when they learned that just one dollar a week provided Glasses. Sharpes are happy to do this at cash prices when so many headaches and other results of eyestrain are no longer neglected. The Sharpes scheme is now known to be an important contribution to habits of good health and well being. The more so as quite eighty per cent. of us require Glasses for one reason or another.

ST. JOHN, N.B., FEBRUARY 6, 1925

WHEN AND HOW?

In yesterday's Speech from the Throne this paragraph sticks out prominently:

It is the intention of the Government so to equip our important ports on the St. Lawrence route, and on both the Atlantic and Pacific coasts, as to enable them to meet all requirements of modern navigation.

The proof of the pudding is in the eating. How far does the Government propose to go in so equipping the national ports so that they will be able to meet all requirements of modern navigation—and, let us add, of an all-Canadian traffic policy?

There have been many declarations, under other governments, in Speeches from the Throne, of this same purpose, but though some ports have been equipped there are noteworthy exceptions.

If the paragraph quoted, in which the Government defines its intention with respect to the ports, means anything beyond aspiration or the comfort of words—and we feel sure it does—it should mean that the Government will put through Parliament at this session appropriations sufficient to provide the facilities which the national ports lack.

There are many in Canada who would have taken more comfort from this declaration of policy concerning the ports had it been supplemented by a declaration that the British preference was to be limited to goods entering this country through its own ports direct.

Let us examine the linking up. In the first place we are told that Canada had a good year in 1924, that its excess of exports over imports was more than \$260,000,000, and that the present year opens with prospects of sound and steady development.

The Government proposes so to deal with transportation as to effect a free movement of commodities, through an equalization of railway freight rates, between provinces and localities, and through a lowering of carrying charges upon shipments by water of the products of the farm, the mine, the forest, the fisheries, and of our manufacturing industries.

It is suggested by the Toronto Star that if there were a prize for mixed metaphors, it would have to be awarded to the London, Eng., Express, which has just published an editorial entitled "John Bull, the Milch-Cow of Europe."

They do not particularly like the word "blizzard" in the West, and you can't blame them. The Manitoba Free Press says: "The newspapers refer to the storm of Tuesday as an old-time prairie blizzard. This, of course, it was not. A real old-timer would refer to Tuesday's performance as a bit of a breeze. Any kind of a blizzard that doesn't blow the hair off a dog does not amount to much in this country."

When the Grand Trunk Pacific and the National Transcontinental were built, when millions upon millions were poured into the coffers of the Canadiana Northern and when the Grand Trunk was taken over, Parliament made certain stipulations which are still binding, but which never have been adhered to, and which were intended to cause all these railroads, paid for by the money of the people of Canada, to keep their traffic within all-Canadian lines.

Again, and to repeat, the first thing needed to show the people of this country that an all-Canadian transportation policy is to be adopted and vigorously administered, is that Parliament should vote at this session, as an investment promising great national dividends, and as a course of action vital to Canadian growth and Canadian prosperity, sufficient sums adequately to equip the ports, and should carry into actual practice at the earliest day possible the Government's now declared policy with respect to transportation reform.

GLOUCESTER.

Because in these days politics, national and provincial, is marked by an uncommon degree of uncertainty, and because it followed the Government reverse in Westmorland, the Gloucester by-election commanded a great deal of public attention and excited an unusual measure of speculation.

Let us examine the linking up. In the first place we are told that Canada had a good year in 1924, that its excess of exports over imports was more than \$260,000,000, and that the present year opens with prospects of sound and steady development.

vania are making a treaty under which the watershed of the Delaware River will be used to maintain a reserve supply for some of the big cities of the three states. An expenditure of \$500,000,000 will be made to increase the water supply of New York City, Philadelphia and North Jersey. By this scheme New York will be able to draw 1,600,000,000 additional gallons a day by 1935 from the Delaware reserve.

Whatever doubts Canadians may have about the wisdom of an embargo against the export of pulpwood from private lands—and only a small percentage of the wood cut is exported—they must be amused at the nature of the protests made by American interests against the proposal. The New York Times calmly reminds Canadians that an embargo may provoke retaliation and that settled trading arrangements are not to be interrupted without probable damage to all parties concerned.

HIGH HOPES FOR MARITIMES IN THRONE SPEECH

Restriction of Preference to Canadian Inlets Expected to Follow.

WAR IS PLANNED ON INSURANCE BARRIER

Aim to Reduce the Ocean Freight Rates Through Subsidizing Ships.

OTTAWA, Feb. 5.—Prospects for a brightening of the horizon in the Maritime Provinces are given great encouragement in the Speech from the Throne read today by Baron Byng of Vimy, at the opening of the fourth session of the fourteenth Parliament.

First, there is made clear the determination of the Dominion Government at this session to effect a reduction in the costs of transportation on land and sea, in the former by means of the equalization and removal of discrimination as between sections of the country, and in the latter by means of a large and effective introduction of the competitive element in Atlantic shipping.

Second, there occurs in the Speech from the Throne this significant paragraph: "Some measure of control of transportation by land and sea is obviously essential to the promotion of Imperial trade, the expansion of export trade generally, and the development of Canadian trade via Canadian ports."

In this connection it is reported on good authority that the Government has had in mind for some time what was mentioned in Mr. Meighen's resolution published yesterday, namely encouragement of trade via Canadian ports by restricting the application of the preferential duties entirely to goods brought in through Canadian ports.

Hereafter, through the action of Rt. Hon. W. S. Fielding two years ago, an additional discount of 10 per cent. was allowed for goods imported through Canadian ports.

Then, as a further indication of the intention of the Federal Government to do all possible to stimulate trade in and out of Canadian ports, there is the promise in the speech "to equip our important ports on the St. Lawrence route, and on both the Atlantic and Pacific coasts, as to enable them to meet all requirements of modern navigation."

Terribly distressing and wearing on the system is the cough that comes on at night and you cough: cough all night long and can't get to sleep.

DR. WOODS NORWAY PINE SYRUP WILL GIVE YOU RELIEF

Mrs. John Lyman, Enterprise, Ont., writes: "After having had whooping cough I contracted bronchitis, and for days and nights I coughed continually, and could get no rest or sleep, but after taking one bottle of Dr. Woods' Norway Pine Syrup I found great relief, and after having taken several bottles I was relieved of my trouble."

This valuable cold and cough remedy has been on the market for the last 35 years; you don't experiment when you buy it; put up only The T. Millburn Co., Limited, Toronto, Ont.

Decline of Purchasing Power. The loaf has risen from 4 1/4 to 10 1/2, and I see nothing to prevent its rising to 16. 6d. in the next generation.

It's Coming. (Manitoba Free Press.) Seven or eight weeks from now and it will be time for the western farmer to polish up the old plow. It isn't such a long time if you say it fast.

Sales of artificial gas in the United States last year totaled 402,344,000,000 cubic feet, an increase of about 20 billion cubic feet over 1922.

meet all requirements of modern navigation."

Insurance Discrimination. This means that the Federal authorities intend to remove every possible excuse for British marine underwriters discriminating against Canadian ports and in favor of United States ports in the matter of marine insurance.

Specialists of the plan hinted at in the speech for lowering Atlantic freight rates leaked out this afternoon. Introduction of the competitive factor is the outstanding feature of the Government's proposal, which, of course, will be later submitted to Parliament and will be subject to ratification after which it will have to run the gauntlet of the Senate.

To Get Subsidy. Last summer, when in London, Hon. Thomas A. Low, Minister of Trade and Commerce, conferred with Sir William Petersen, an influential shipping man, and, as a result, a formal contract with Sir William's concern was effected. By its terms the Petersen Company is to put in operation a fleet of 10 vessels in the coming season.

Will Have Control. The rates to be charged will be contingent upon the subsidy and will be lowered in proportion to the amount of such governmental aid. The rates will apply to all commodities of import and export and also to passengers' baggage of the vessels will be 10,000. Under the scheme the Federal Government will exercise full control over the rates.

Other Speech Features. Other announcements of the Government programme as outlined in the Speech from the Throne, were: 1. Attention of Parliament to be called to the desirability of equalizing railway freight rates as between provinces and localities.

2. Submission of a measure to afford the Government of Canada a control of ocean rates.

3. Equipment of important ports on the St. Lawrence and on both the Atlantic and Pacific coasts as to enable them to meet all requirements of modern navigation.

4. Steps to be taken to further colonization and settlement in fertile regions such as those of the Peace River.

5. The speech observes that the economic situation throughout the world has notably improved and that for Canada the year 1924 was a year of substantial progress.

In this connection it is reported on good authority that the Government has had in mind for some time what was mentioned in Mr. Meighen's resolution published yesterday, namely encouragement of trade via Canadian ports by restricting the application of the preferential duties entirely to goods brought in through Canadian ports.

Hereafter, through the action of Rt. Hon. W. S. Fielding two years ago, an additional discount of 10 per cent. was allowed for goods imported through Canadian ports.

Hear Reports On Work For Missions

At the meeting of the W. M. S. of the Queen Square Methodist church last night the reports and programme contained much of special interest.

Neil MacLauchlan, president, was in the chair. Reports were received from the Watch Tower department. Mrs. C. W. Dickinson reported for work in China; Mrs. Charles Lingley for Japan; Mrs. S. E. Logan for "the stranger within our gates"; Mrs. O. T. Dales for French work, and Miss C. Pratt for India.

Thompson, who would have conducted the study, was absent through illness. A collection for the rest fund was taken during the evening.

STREET RAILWAY FARE WILL YET REMAIN THE CHEAPEST IN CANADA

Despite Increase in Cost of Weekly Pass Effective on Monday

Even with the new rate of \$1.25 for the weekly Street Railway Pass, effective on Monday, the average Street Railway Fare in St. John will continue to be the lowest in Canada.

The average fare to pass users will figure out at less than 4 cents.

The proof of the pudding is the eating. In Montreal, Quebec, Toronto, Winnipeg and Calgary, the cheapest Street Railway Fare is 4 tickets for 25 cents—or an average of 6 1-4 cents.

So that, even with the increase, we will be providing transportation at a low rate that cannot be equalled in Canada.

Why The Increase? With great reluctance and only after all attempts on our part to co-operate with the City in the distribution of electricity had failed, has this Company found it necessary to increase the price of the Weekly Pass.

Every advance, every effort we have made, for the general good, to work in harmony with the City, has failed. Even our last letter to the Mayor and Commissioners—though sent a month ago—remains unacknowledged.

The purpose of the Civic Power Commission, despite heavy losses, to continue to sell Hydro at Less Than Cost—using your money in the operation—is with the avowed aim of putting this Company out of business.

So we have no option but to protect ourselves. OUR PATRONS WILL, THEREFORE, IN COMMON JUSTICE, PLACE THE BLAME JUST WHERE IT BELONGS.

Service That Counts Every day we carry an average of 25,000 people—half the population of St. John—in our cars.

That, despite the determined effort to undermine us, which is being persisted in by an organized minority, we can continue to give you the cheapest Street Railway transportation in all Canada, is a point we would ask you not to overlook.

Co-operation with the City will mean an immediate return to the \$1.00 pass.

ASSERTS LABOR WILL RULE A NEW IN MOTHERLAND

Mrs. Philip Snowden's Audience Fills Large Pythian Castle Hall.

IS SURPRISED AT PEOPLE'S ATTITUDE

Finds Interest Here Keener in Russian Affairs Than Labor Government.

Incidents of the Russian revolution rather than the story of British Labor Government and its accomplishments were of interest to the Canadian people, Mrs. Philip Snowden said last evening in her address in Pythian Castle here.

Winnipeg, Feb. 5.—Contending that to hold the land, stock and equipment of soldier settlers at the value placed upon them at the time of purchase was an injustice, W. C. McKinnell, Rockwood, introduced a resolution at today's session of the Provincial Legislature, urging upon the Federal Government the necessity of having a revaluation of the assets of these settlers made.

URGES REVALUATION OF SOLDIERS' LANDS

Manitoba Legislature Hears of Motion to Help Settlers Meet Expenses.

Winnipeg, Feb. 5.—Contending that to hold the land, stock and equipment of soldier settlers at the value placed upon them at the time of purchase was an injustice, W. C. McKinnell, Rockwood, introduced a resolution at today's session of the Provincial Legislature, urging upon the Federal Government the necessity of having a revaluation of the assets of these settlers made.

Bought When High. He contended that this land and equipment was purchased at a time of exceedingly high prices and many settlers, now being unable to operate these farms under the high overhead, had been forced to leave them.

RISE AGAINST SPAIN

Natives of African Colony Revolt—Artillery Sent to Quell Them.

Cape Juby, Rio De Oro, Spanish Northwest Africa, Feb. 5.—The natives in this Spanish territory have risen in a problem.

She was not sorry at the subject that had been selected for her to speak upon, Mrs. Snowden said, but interested in discovering why and in telling of Russia she was able to point out how vast was the difference between Bolshevism and the British Labor Government. It was one of the ironies of the recent election campaign in England that she, who had been reviled by Trotsky in one of his books, had been labelled Bolshevist.

Bolshevism, Mrs. Snowden described as Communism plus militarism. Communism was the abolition of all private property and it was a creed for the saints in her opinion. It was certainly not a creed for which the world was ready at the present time. Of the 120,000,000 people in Russia the Communists numbered only 600,000 and of these only 122,000 were sufficiently tried and tested to be given responsible positions.

As to how the Bolsheviks came to power, Mrs. Snowden held that war had given them their opportunity but they were the reaction of many years of Caesarian oppression and as to why they had held on so long she believed that it was because of the attempted interference of other nations in the first instance and because as the need has arisen they have changed their policies.

Since the withdrawal of foreign armies the peasants are no longer frightened of the foreign menace. They own their land and after paying a tax to the government have the right to sell what they produce. Private trading is no longer forbidden and there has been a great receding from Communism. Russia is now begging capital to come to her aid and even inviting government loans.

In vindication of her husband Mrs. Snowden said that the Chancellor of the Exchequer of the Labor Government had never intended to lend one cent of money except on guarantees that the money and interest would be paid.

Speaks of Russians. Then Mrs. Snowden spoke of the actual characteristics of the Russians and the tremendous contribution they could make to science and the arts. She would like to see them admitted to the League of Nations and she closed an address which had been listened to with rapt attention by an eloquent plea for unselfish ideals and goodwill amongst nations to build up a new social order of brotherhood in which every child should have the opportunity to develop all of its God-given capacities.

Mr. Myles in moving the vote of thanks explained that the Canadian Clubs had selected Russia as the subject for the address because the Clubs were non-political and had feared to introduce subjects of politics which an address on the Labor Government of Great Britain might induce.

DEATHS

Mrs. Jane Carroll. ST. STEPHEN, Feb. 5.—(Special)—The death took place last night of Mrs. Jane Carroll, wife of the late Jeremiah Carroll, of this town. Mrs. Carroll was 82 years of age and had been confined to the house for only a short time. She leaves two sons, Fred, of Toronto, and George, who is C. P. R. ticket agent here. The funeral will be held Saturday morning.

Miss Olga Lewis. The death of Miss Olga Lewis, 16-year-old daughter of Mr. and Mrs. S. D. Lewis, of New York, formerly of this city, will cause much regret among the many friends of the family here. Miss Lewis died yesterday morning in New York although on Wednesday evening her recovery seemed assured. She had visited St. John two summers ago and made many friends among the young people. Besides her parents, she leaves one brother, Carl, and one sister, Miss Greta, both of New York. The funeral will be held in New York on Sunday.

Prayer Meetings At East St. John

Cottage prayer meetings are being held in East St. John by the members of the United Church. Following the prayer services, the choir rehearses for the coming Sunday. This plan was carried out on Wednesday evening at the home of Rev. William Pepper, superintendent of the choir practice, who is assisted by Rev. William Bevis, the regular pastor. Miss Fern Pepper, daughter of Rev. Mr. Pepper, organist of the church, conducted the choir practice and afterwards served refreshments to the members assembled. Those present were Mr. and Mrs. Whitfield

DEFER OPENING OF ORPHANAGE WING

Resignations From Board Announced—Statement Made Relative to Finances. The new wing of the New Brunswick Protestant Orphanage will not be opened until March, it was decided last night at a meeting of the directors, with D. C. Clark, president, in the chair. The original opening date was Feb. 15, but postponement is necessary owing to delay in completing the furnishings. It was decided to secure the services of two assistant matrons. The resignation of E. A. Schofield from the board had been regretfully accepted and was tendered because Mr. Schofield found it impossible to attend the meetings as he wished to do. His sympathies were wholly with the board and his work. Dr. F. L. Kenney was appointed to fill the vacancy. The resignation of Mrs. H. A. McKown was also regretfully received with this vacancy will be filled at the next meeting of the board.

Celebrate Their Golden Wedding

DIGBY, Feb. 5.—Mr. and Mrs. Chipman Harris, Bear River, celebrated their golden wedding anniversary on Tuesday and many friends met at their home to tender congratulations. There was also messages of regret from a large number who were unable to be present.

For Colds, Grip or Influenza

Deacon W. W. Clarke, on behalf of friends, both present and absent, presented the bride and groom a large array of tangible tokens of regard. To this the groom responded in a fitting manner. An original poem written by C. M. Harris, B.A., was read by Mrs. Warren. Rev. R. S. Gregg, W. G. Clarke and W. E. Read made some interesting remarks and Mrs. H. R. Kinney gave a recitation. The evening was brought to a close by the singing of Auld Lang Syne.

Adventures Of The Twins

THE BLACK RACE HORSE'S WISH.

"Have you heard any more wishes lately?" the Fairy Queen asked the Twins.

"Yes," said Nancy. "We heard a horse wish that he was an automobile."

"The idea!" said the Fairy Queen. "As though a horse wasn't ever so much nicer. Where does this horse live?"

"He belongs to Mr. O'Neil and his name is Frank. He's very fast—he's a race horse."

"A very dangerous person to be an automobile," said the Fairy Queen. "As though a horse wasn't ever so much nicer. Where does this horse live?"

"He belongs to Mr. O'Neil and his name is Frank. He's very fast—he's a race horse."

"A very dangerous person to be an automobile," said the Fairy Queen. "As though a horse wasn't ever so much nicer. Where does this horse live?"

WORN OUT MEN AND WOMEN SOON REGAIN STRENGTH

The nervous system is the vital force of your body; the force that gives energy to every organ and every muscle. So great is the organ of the nerves that a tremendous shock, such as fear, may cause death.

A lesser nerve shock will pale the cheeks, make the knees tremble, cause the heart to beat wildly or almost paralyze breathing.

To keep our vitality and strength we must nourish the nervous system. When we restore lost nerve power we quickly regain lost strength!

Nervous, exhausted men and women can soon regain their nerve force and as they rebuild their nerves they see the signs of returning vigor.

It's funny that the man who brought my new automobile didn't tell me it was here," he said, getting in and starting the engine.

If he had turned his head he would have seen an enormous blue butterfly with three people riding him—disappear over the tree tops.

The engine of the automobile made a funny noise. It sounded like jiggle-jiggle-jiggle-jiggle! but really it was muttering to itself, "I'll have to remember—the brakes are not working."

"It's risky business to turn a race horse into an automobile," the Fairy Queen was saying to the Twins. "Let's stop here and see what happens."

Health and Vitality for Women Health and Vitality can be yours without narcotics or drugs. Keeping well is largely a matter of keeping at bay those dread ailments peculiar to women as evidenced by headaches, nervousness, dragging-down pains, backache and irritability. For fifty years Lydia E. Pinkham's Vegetable Compound has been overcoming such conditions and restoring sick and ailing women to health. It surely pays every suffering woman to try it.

V. O. N. IN MONCTON. MONCTON, Feb. 5.—At the annual meeting of the Victoria Order of Nurses this afternoon, Mayor J. F. Edgett was appointed honorary president. Mrs. W. A. Ferguson was re-elected president with last year's board.

TICKLING THROAT Is always an annoyance; worse when it afflicts you in the night, preventing sleep. You can stop it quickly with

Boy Is Injured By Automobile R. D. Brown, of Coldbrook, reported to the police yesterday, that while he was driving on Prince Edward street, a boy named Bartlett, who resides in Courtenay street, ran in front of the automobile and was knocked down. Mr. Brown conveyed the youngster to the General Public Hospital, where on examination it was found that the boy was only slightly hurt and was able to go home.

IN THE MORNING HER TONGUE WAS COATED HAD BAD TASTE IN MOUTH

Miss Pearl L. Zinck, Barrs Corner, N. S., writes: "I was awfully troubled with my liver, and used to get such dizzy spells I would have to sit down while I was doing my work."

"In the morning, when I used to get up, my tongue was coated and I had a bad taste in my mouth and often times, throughout the day, I was troubled with pains in my stomach."

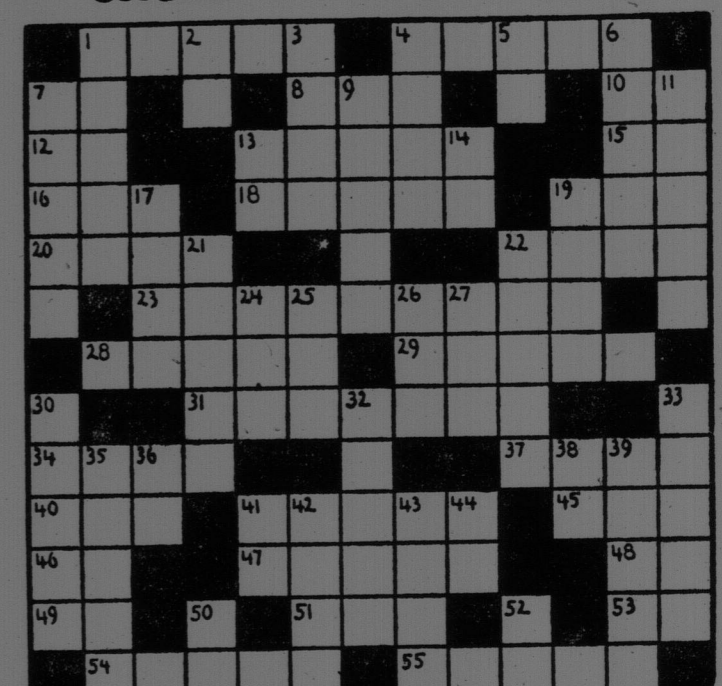

I suffered in this way until a friend of mine who had used your

MILBURN'S Laxa-Liver Pills told me of having taken them, so I decided to try them, and I can truthfully say that they certainly did me a lot of good.

I cannot recommend them too highly to all those who suffer as I did."

USE SULPHUR TO HEAL YOUR SKIN

For unsightly skin eruptions, rash or blotches on face, neck, arms or body, you do not have to wait for relief from torture or embarrassment, declares a noted skin specialist. Apply little Mentho-Sulphur and improvement shows next day.

Because of its ger-destroying properties nothing has ever been found to take the place of this sulphur preparation. The moment you apply it healing begins. Only those who have had unsightly skin troubles can know the delight this Mentho-Sulphur brings. Even itchy, itching eczema is dried right up.

Get a small jar of Rowles Mentho-Sulphur from any good druggist and use it like cold cream.

Social Notes of Interest

Ten Taking Course Here To Qualify As Kindergartners

Ingenuity Required of Students in Class of Mrs. A. F. Robinson.

Ingenuity and resourcefulness must be developed by all kindergartners, who are trained by Mrs. A. F. Robinson, it seems. Mrs. Robinson's class for kindergartners opened in St. John on Tuesday of this week and already the ten members taking the full course, as well as the seven teachers of opportunity classes in the city, who are taking a partial course, have found that their home work is liable to include the manufacture of any strange article out of any material handy. "Go and make it," are the instructions given, and the pupil must bring back the next day a doll, a toy or any unexpected thing. It was a rag doll which Mrs. Robinson first surprised her class by requesting the speedy manufacture of. Yesterday the finished product was exhibited and the success achieved in obeying the command was nothing short of marvellous.

Two Year Course.
The training course covers a period of two years and a total of ten months. Five days a week classes for practical work are held in the mornings, and in the afternoons theory and hard work occupy the pupils. They also get home work to occupy them in the evening.

The course includes the subjects of psychology, child study, Froebel's ideas and methods for developing the little child as carried out in the kindergarten, handwork with special emphasis on showing the child how to do things and then giving the child ample scope to exercise his own ideas and individually, games, music, especially singing, story telling, hygiene necessary to help little children in good physical development and a little academic work, including English and nature study.

Those who have already entered the course are the Misses Weeks, Vera Corbett, Bernice Flewelling, Elma Magnusson, Mildred Bustin, Mary O'Connor, Ellen Ritchie and Miss Speight, Sister Dominica, of St. Vincent's, and Sister Augustin, of Mount Carmel Academy.

The opportunity class teachers who come in for practical work in the latter part of the afternoons are the Misses Cameron, Jones, Jamieson, McMillan, McGuire, Cowan and Landy.

The course is being conducted under the auspices of the Free Kindergarten Association in St. John, and the association considers itself most fortunate in being able to obtain so expert a teacher as Mrs. Robinson, who conducted a training course for kindergartners in St. John a few years ago with conspicuous success.

Mrs. W. L. Alexander presided at the regular weekly meeting of St. Mary's W. A., on Wednesday afternoon, when many members attended. Routine business was transacted at short session for that department of the society's endeavors.

Mrs. C. W. Dickinson was in charge of the meeting of the Queen Square Ladies' Aid Society, which met in the church parlour on Wednesday afternoon. Sewing for the poor occupied the attention of the members.

WEDDINGS
Myles-Buckley.
A very pretty wedding was solemnized at All Saints' church, Bagdad, Queens county, N. B., on Feb. 3, when Rev. C. A. S. Warner united in marriage Walter C. Myles of that place and Mabel C. Buckley of St. John. The bride looked lovely in blue silk crepe, with royal blue crepe panels and gold bead trimmings. She wore a hat of gray with gray feather trimmings and veil, gray suede shoes, gray stockings, and carried a bouquet of white carnations and ferns tied with white ribbon streamers. Miss Jeffrey, cousin of the bride, played the wedding marches.

After the ceremony, the happy couple left amid showers of confetti and good wishes, for the home of the groom's parents, Mr. and Mrs. Thomas Myles, where dinner was served to forty guests, including friends and relatives of the contracting parties. The bride received some nice gifts of linen, china, etc. In the evening friends of the bride and groom gathered in number, about 75, and gave them an old-time charivari, after which dancing was enjoyed until late in the evening, when the party broke up, wishing them many happy years of married life. Mr. and Mrs. Myles will reside in Queen county, where the groom is a farmer.

FAIR CLOSED.
After three days of success, the supper and fair held at Stella Maris church, East St. John, was brought to a close last night after about 260 suppers were served. The prize-winners follow: Door prize, \$5 in gold, ticket No. 1176, not yet claimed; bowling, men's P. L. Jennings, ladies' Elizabeth Flood; bean toss, men's T. A. Barrett, ladies' Mrs. C. Cormier. Drawings: Electric lamp, Charles Mitchell, Waterloo street; doll, Alice Sullivan, 26 Mill street; runner, Mrs. M. Ryan, 201 Duke street; spread, Mrs. M. J. Cullinan, 29 Dorchester street; foot rest, Mrs. T. Duffy, 199 Sydney street.

WEDDING ANNIVERSARY.
T. M. Burns, secretary of the St. John Board of Health, and Mrs. Burns were guests of honor at a surprise party at the home of their daughter, Mrs. Owen Coll and Mr. Coll, Cliff street, Wednesday evening. The occasion was the 29th anniversary of the wedding of Mr. and Mrs. Burns. On behalf of those present, L. J. McDonald presented Mr. and Mrs. Burns a handsome carving set. The evening was greatly enjoyed.

A Snyder guaranteed Mothproof Chesterfield Suite of three pieces. One Club Chair more than picture has. Solidly built. Marshall sprung and overstuffed, a "Snyder," covered with a rugged Tapestry of captivating color and pattern. \$175 worth for \$124.75. (45 other choices.)

Solid Oak, \$119.75

Bigger looking than the reduced sketch, but true to it in every detail, this solid quartered Oak Queen Anne Dining Suite comes in fumed or antique finish. Choice also of round or oblong extension table. Real leather slip seats on five chairs and armchair. Standard price, \$160. Marcus Sale \$119.75. (40 other choices.)

In Mahogany, \$109.75

Finished in rich polished Mahogany, this Suite also exceeds the picture. The Vanity Dresser is deeper. The 42-inch Inog Dresser has a mirror of the same fine British plate glass measuring 22x28 inches. There is a matching cane seat Bench besides what sketch shows. A \$150 Suite and no mistake about it. Sale \$109.75. (40 other choices.) Any part of above three Suites sold separately.

Mirror \$2.98

The picture does not do this Mirror justice, for the frame is a velvet silver effect, and the top panel is a handsome hand painting. Made to sell at \$10—size 12x21. Marcus buying power and sale reductions give it to you for \$2.98.

Reed Chair \$6.45

Choose a Rocker or Armchair exactly like picture for \$6.45. You can see for sure what you are getting and don't need to be told what price class it is in.

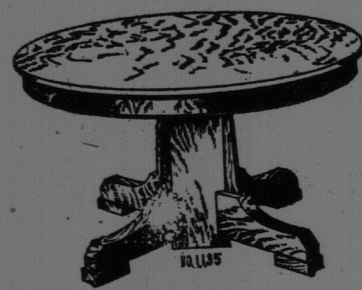

Put Away Free

Free Storage. Free Insurance. Free Freight anywhere in the Maritimes.

Hearth Rug \$1.29

Reversible Hearth Rug measuring 24 inches by 48 inches. Only 150 of them at the once-a-year Marcus Sale, \$1.29.

Quarter Cut Oak \$24.

A fifty dollar Table of selected quarter cut Oak. Has a dividing pedestal and extends to 8 feet. In polished or fumed effect, 48 inches across. Sale \$24.

CHURCHMEN AND BIG BUSINESS KEEN ON TREATY

Fight on Turkish Pact Getting to U. S. Senate Floors.

VARYING VIEWS ON IT ARE HEARD

President Coolidge and State Department Are Pressing For Ratification.

By LUDWELL DENNY.
WASHINGTON, Feb. 6.—Flanked by the supporting legions of business on one side and the Christian army of foreign missionaries on the other, advocates of the Turco-American or Lausanne treaty are preparing to carry their fight to the Senate floor and force ratification within the month intervening before Congress adjourns.

With President Coolidge and the State Department pressing for ratification, Chairman William E. Borah of the Senate Foreign Relations Committee giving nominal support, the treaty's chief enemy is time. Important appropriation bills and foreign matters such as the World Court may, however, prevent consideration of the treaty at this session, its advocates admit.

Content Is Assured.
Though the treaty, when it comes up, cannot be ratified without a fight, it is believed that its antagonists have lost rather than gained support in the Senate. These opponents charge that the treaty abandons extra territorial rights of United States citizens and ignores our responsibility for the safety of American missionaries and Turkish minority races, including the Armenians.

Treaty advocates reply that it is the best agreement that can be secured with the Turks under the circumstances, and add that further postponement of ratification will have serious

effects. American business interests are being discriminated against in the matter of high tariffs as compared with European firms, whose governments have ratified their Lausanne treaty. American missionary and business interests cannot acquire new land until the treaty is put into effect. Finally the two countries do not appoint their respective ambassadors and diplomatic embassies result.

against the treaty is that it was written in the interests of American "concession hunters," and that humanitarian interests were sacrificed for economic and financial imperialism. Secretary of State Hughes has made the following reply:

"At no stage in the negotiations was the American position determined by the so-called Chester concession. This had been granted before negotiations of our country with Turkey and began. Our position is a simple one. We maintain the policy of the open door or equality of commercial opportunity; we demand a square deal for our nationals."

The Standard Oil Company, Gary Tobacco Company, Phelps-Dodge and the American Express Company are among the American firms with large holdings in Turkey. These concerns the Levant-American Chamber of Commerce and the Chamber of Commerce of the United States all urge ratification of the treaty.

The Missionary Angle.
Though opponents of the treaty maintain that it is suicidal to leave the missionaries and their schools to the mercy of allegedly corrupt Turkish officials, most of the missionaries themselves favor the treaty. Dr. Caleb Gates, president of Robert College, Constantinople, says of the treaty: "It gives us the god will of the Turks instead of their ill will." Dr. James L. Barton, secretary of the American Board of Foreign Missions, wrote to the State Department:

"While the treaty does not contain all that we would like, yet I am sure I express the judgment of the officers of the American Board and so far as I know, the missionaries on the field and those at home when I say that it is our earnest hope that the treaty will be ratified by the Senate."

REDUCTIONS URGED

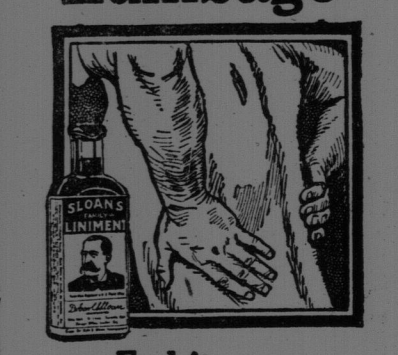

Lumbermen May Send Delegation to Ottawa to Press Claims—Embargo Matter.

QUEBEC, P. Q., Feb. 5.—Advocating reduced freight, express and telegraphic rates, all of which play an important part in lumbering operations, J. H. Harquail, Campbellton, N. B., strongly urged here today at the annual convention of the Canadian Lumbermen's Association that a delegation of some 50 or 60 members of the association go to Ottawa and lay these claims before the government. A resolution was adopted by the convention to the effect that the proposed embargo on the export of pulpwood be not put into force until after the most serious consideration.

Congoleum Rugs Mean More Leisure—

It's such a relief to escape from wearisome housework—to have a few golden hours for sewing, reading or whatever else you like to do.

Gold-Seal Congoleum Rugs on your floors will give you this leisure because they'll save you from the tedious sweeping and beating so necessary with dust-collecting woven rugs and carpets. The sanitary, smooth surface of Congoleum needs only a few minutes to clean. A damp mop—a few brisk swishes—that's all there is to it.

Patterns for Every Room
They're very good-looking, too—artistic patterns appropriate for any floor you wish to cover. Congoleum Rugs never wrinkle or kick up—never catch threads or lint—never show marks of spilled things. They're waterproof, durable and exceptionally low in price.

See Them at Your Dealer's
If you don't know Congoleum Rugs you really must go to your dealer's and get acquainted with them. They're the biggest floor-covering value in the Dominion today.

Figures in St. John City \$206,872 For 143 Outbreaks.

FOURTEEN LIVES LOST IN PROVINCE

Annual Report of Fire Marshal Presented—Sparks Caused Most Fires.

New Brunswick's fire loss for 1924 was \$1,999,963, an increase of \$74,513 over 1923, according to the annual report of Hugh H. McLellan, Provincial Fire Marshal, as presented at the annual meeting of the New Brunswick Fire Prevention Board here yesterday afternoon.

The month of December proved a disastrous month for the province in fires, the loss being \$1,638,029. For December, 1923, the loss was only \$27,491 and for 1922 it was \$47,018.

St. John city had 143 fires during 1924, causing the heaviest loss throughout the province for one locality. It was \$206,872. The insurance loss was \$198,376.

Moncton stands next to St. John in fire losses, they being \$150,072 for 96 fires during the year.

Causes of Fire. Flying sparks caused more fires than any other cause during the year. Two hundred and fifty fires were caused this way, with a loss of \$227,664.

Properties Classified. In the list of classified properties, protected mercantile stores showed the greatest loss for the year, it being \$389,778.

The following table shows the class of property suffering loss for the year:

Table with 3 columns: Property Type, Number of Fires, Loss.

Automobile Losses. Automobile losses for the year are placed at \$18,709 for 23 losses.

Fourteen deaths occurred in fires in the province—seven women, two men and five children, as follows:

Total 14. Col. M. B. Edwards presided at yesterday's session, and the following members of the board were present:

NO DISCOURTESY SAYS MAYOR POTTS

Speaks of Power Company's Letter Re City Hall Conference.

Any intention of discourtesy to the directors of the New Brunswick Power Company in regard to a conference between the members of the city council and the directors of the company was disclaimed this morning by Mayor Potts.

His stand on matters of this kind, he said, had always been that any citizens had the right to go to city hall and discuss with the council matters of civic concern and he stood ready to arrange conferences along these lines at any time.

Mayor's Position. His recollection of the action taken at the council meeting was that a motion to receive the communication and notify the Power Company that if they desired a conference with the city one would be arranged, had been moved and carried.

Hiram on Tour

BRANDON, Jan. 31.—We say, I been in one of them there Manitoby blizzards. It started in yesterday mornin' an' it was still goin' strong when I went to bed last night.

I was out in it—an' I tell you I wouldn't mind to face it out on the open prairie. The air was just full of snow an' it was kind of mothy—an' I kin see how easy it 'ud be to lose a feller's way an' git off the road.

It blowed harder at Reed's Pint—but I never seen the air so full of snow. We had a little blizzard at Winnipeg the other day—an' they said a lot about it in the papers—but I didn't mind it a bit.

Now here's a piece of news for the paper. I met a traveler from Ontario in George Doig's store this mornin' an' one of his lines was Bardsley's hats—made in old St. John. He said they sold pretty well out on the coast.

I bet Mayor Potts 'll be glad to hear that—'99, Sir.
