PLAN THREE-TOP COTS IN WHITE PLAGUE WAR.

URBANA, Ohio, Feb. 25—A cottage hospital for the treatment of tuberculosis, each cottage to be built in a treecamp, was today announced as the plan of Dr. Arthur Funk, a medical missionary of the Presbyterian Church, in the fighting of the disease in Persia.

Dr. Funk took his idea from D. O. Feinberger, a resident of this city, whose home is in the branches of a hillside. When the Steingerber home was constructed his owner was a victim of pulmonary trouble. His own claims are fully recovered, and asserts that his life forty feet above ground is responsible for his recovery.

Dr. Funk and his wife are stationed at Hamadan, a city of 80,000 population, about 200 miles west of Teheran.

CROUP

THERE IS NOTHING that strikes terror to the hearts of parents more than to be awakened in the night by the ringing cough which accompanies an attack of croup. The child may retire with nothing but a slight cold and a few hours later the family be aroused by the ominous symptoms. Every home where there are small children should be prepared for these sudden attacks, as prompt treatment is necessary. Do not experiment with remedies of doubtful value, but get

CHAMBERLAIN'S COUGH REMEDY

that has been in use for nearly forty years and never known to fail.

Mr. Homer Krohn, of Lisbon, Iowa, in a letter to the manufacturers of Chamberlain's Cough Remedy praises this medicine for what it has done for his children. He says: "It has not only saved them once but many a time. Only two weeks ago my boy had the croup so bad in the night that had it not been for having a bottle of Chamberlain's Cough Remedy in the house he would have choked before a doctor could have gotten to the house. It is a medicine that no one should be without at any time." It is pleasant to take and many children like it.

"We guarantee every bottle of Chamberlain's Cough Remedy," says W. M. Parish, Palmerston, Ontario. "Out of many bottles sold last winter not one was returned. We recommend it especially for children with croup. Chamberlain's Cough Remedy is famous for its prompt cures of coughs, colds and croup. When given as soon as the child becomes hoarse an attack of croup may be averted. This medicine is entirely free from narcotics or injurious substances of any kind and may be given to the little ones with absolute safety."

Attacks of croup are most likely to occur during the early winter months, and every family with young children should be prepared for it. Keep a bottle of CHAMBERLAIN'S COUGH REMEDY in your home. It only costs a quarter, large size 50 cents. Your druggist sells it.

WOMEN ORGANIZE BILL BOARD CRUSADE

Conshohocken Residents Seek to Abolish Objectionable Posters—To Appeal to Councils.

CONSHOHOCKEN, Jan. 25.—The women of Conshohocken are to figure to a considerable extent in the cleanup along municipal lines advocated by progressive citizens and the removal of obnoxious posters, objectionable pictures, "irregular" advertising and kindred annoyances is one of the first measures proposed as a step toward the moral purification of the town, as well as toward "the city beautiful." Recently the Civic Association considered the question of inviting the cooperation of the several women's social organizations of Conshohocken, and appointing a committee to make overtures with the result that a favorable "address" on the "fair ones' part is forthcoming. The women have lost no time in offering suggestions, the carrying out of which, to their view, is equally an essential for the good of the borough.

BAD TEETH ARE CAUSE OF CHILD DEFICIENCY

Dr. Kirk Blames 'Dental Disorders' for Backward Pupils

Tuberculosis Source—Advocates Systematic Inspection of Mouths of Young Pupils.

Lack of care of the teeth and "dental disorders" are emphasized as chief causes for the increasingly large number of defective children in the city's schools, by Dr. Edward C. Kirk, dean of the dental school of the University of Pennsylvania, in an article written for Dr. Lightner Witmer's Psychological Clinic. Almost at the outset of his observations, Dr. Kirk makes this declaration: "The greater proportion of backward school children, those unable to keep up with the average work of the class, are found to be sufferers from some sort of dental disorders, arising mainly from the neglect of the simplest and most obvious rules of mouth hygiene." Good health and good teeth go hand in hand, Dr. Kirk insists, and efficiency of school work is dependent to a large degree on the healthy condition of the body. He quotes statistics in Philadelphia, where over 90 per cent of the pupils in the public schools in Philadelphia, are over age for their grade, that 68 children have been recorded who are over age in the same grade, while 9,496 pupils have been recorded as beginning for the third time on the same lesson. From these figures Dr. Kirk concludes that "many children in the city's schools are mentally incapable of pursuing their studies."

TUBERCULOSIS FROM BAD TEETH

"It has been found," Dr. Kirk adds, "as a result of careful, chemical and scientific study, that the tuberculosis germ is among the invaders that gain frequent access to the body through the avenue of the empty tooth pulp chamber, giving rise to tuberculosis abscesses so commonly observed about the lymphatic glands of the neck, or to tuberculosis of the lungs and other parts of the body." The problem, as it is presented in Philadelphia, is serious enough in the opinion of Dr. Kirk to demand an immediate remedy. He suggests the creation of a large number of free dental clinics for the children, education of parents in the essential concerning mouth hygiene, systematic and regular inspection of the mouths of school children by experts and emphasis by teachers of the need of proper care of the mouth.

PHILADELPHIA, Feb. 25.—Over in England, they are raising hullabaloo because a pretty girl from Manayunk—a former telephone girl—has captured the heart of young Henry Jacob Delaval Astley, one of whose forefathers was the famous Earl of Hastings, of the time of Richard III. The young man's titled mother, Lady Florence Heathcote-Drummond, will, however, is not at all pleased at the action of her son in marrying the former belle girl, more recently an actress. Indeed, it was while the young woman—May Kinder was her name when she hopped up Manayunk way—was tripping about in the "Arcadians" in London that the son of Lady Florence Heathcote-Drummond, willoughby, became fascinated with her unusual beauty and popped the question. They were married last December. Although the young pair are now living on the estate of Astley's millionaire father, who is dead, in Bucks—it is one of the fine estates of England—there come reports that all is not well in the household, and all because of the objections to the marriage on the part of Lady Florence Heathcote-Drummond Willoughby. Miss Kinder's mother lives at the young woman's former home, 28 Ripka street, Manayunk. In October, 1907, while she was employed at the Manayunk telephone exchange, Miss Kinder disappeared mysteriously. About a year later she came back from California and announced that she had married Leslie Irving Coggins, a wealthy Californian. It was not long after this that the young woman went on the stage and took up musical comedy work. Then came the announcement of her marriage in England to young Astley. Her mother declined to talk about her daughter's second wedding, and would not say when the announcement was made of the marriage, whether the daughter was widowed or divorced.

Are Your Children Properly Fed?

LET us talk about the right feeding of children. You want your children of course; to grow up strong and healthy; you want to equip them for the battle of life with rugged constitutions and good red blood. Now, the first step is to see that they are properly fed. And these words "properly fed" mean much in the diet of youngsters. For it isn't

quantity that counts, but quality. Overfeeding is just as bad as underfeeding. And wrong feeding is worse. Persistent feeding of wrong food results in gases and acids, stomach troubles, impoverished blood. There is no better food under Heaven for growing children than plenty of first class bread and butter. They thrive on it, grow strong and fat and rugged. Their systems crave it because it is a complete, well-balanced food. But the bread must be good—the very best, and the best is made from

"ROYAL HOUSEHOLD"
flour which contains the full nutrition of Manitoba Red Eye wheat—for only wheat of this character contains enough of the right quality gluten to balance the starch. Gluten makes bone and muscle, starch makes fat. It takes the right combination of both to make properly balanced bread. Bread made from OGLIVIE'S ROYAL HOUSEHOLD FLOUR is richest in blood building, muscle building, health building gluten. Children like it better and thrive better on it. With "Royal Household" you need never have anything but the very best results for it is always the same, absolutely uniform, year in and year out and is just as good for pastry as it is for bread. If parents knew this important difference between ROYAL HOUSEHOLD FLOUR and other flours they would never use any but "ROYAL HOUSEHOLD".
Send for name and address in The Ogilvie Flour Book, 200 St. John Street, Montreal, and get that splendid book of bread recipes called "Ogilvie's Book for Cooks".

To you I offer new life, fresh courage, and freedom from the effects of past neglect. Show me the persons who would not be better than they are. It matters not how the rocks and shoals of life have dulled the enthusiasm of youth, and left the nerves less vigorous, the eyes less bright, the step less springy, the mind less forceful, and the general vitality less powerful than they ought to be at your age, you want to be strong. UNION BLEND TEA

the Tea that satisfies

THE best customers I have are people who simply cannot learn to like ordinary tea—they find in Union Blend a richness and delicacy coupled with a strength that other teas do not even approach. They gladly pay the price—forty cents a pound—because they realize it is tea economy. It is economy, because it goes half as far again as ordinary tea; indeed, being unaccustomed to its strength, most people make it too strong at first. Then, they learn that a little Union Blend makes more tea and makes it far better than can be made from a good deal of the common kind. Go to your grocer and get a pound packet of Union Blend—be sure my picture is on the end—and try it for yourself. One single pound carries conviction.

TRY EVEN A HALF POUND
THERE is only one way for you to prove that Union Blend Tea is all I claim—better than other teas. Try it. If it is not up to your expectations, I stand to lose more than you do. For my advertising can only induce you to try it once—can only introduce Union Blend to you; after that, it is your quality must continue to sell it. Yet I am not only willing but anxious to risk the test—will you give me that chance? Go to your grocer, get a single pound, or a half pound if you prefer—and what perfectly satisfied to accept your decision.
Harry W. Frost

Union Blend one pound packets—the pound packets only—contain coupons that are worth money to you. But this is only an advertisement—the tea itself is worth the price, fully.

LARGEST
AUTOMOBILE PLANT
IN CANADA

Specifications E-M-F "30"

MOTOR—It is a marvel of power, economy and performance. No motor of the same dimensions (4 inches by 4 inches) produces within 75 per cent. of the power.

CYLINDERS—Four 4 valves. Stroke 4 1/2 inches. Compression moderate. All experience has proven these cylinder dimensions to be nearly ideal for all kinds of service.

CRANK SHAFT—Is 3/8 inch from entire line of cylinders—full another in ease in power efficiency with minimum of wear on cylinder walls and pistons. Crank shaft drop forged from special steel.

LUBRICATION—Split automatic, vacuum feed—reliable and economical. Oil reservoir cast integral with aluminum crank case.

IGNITION—Double system, consisting of (a) Splitdorf magneto, (b) battery. The magneto is not an extra or "special equipment." It is as much a part of the E-M-F motor as the valves, and is included in the list price of the car.

COOLING—Is by large centrifugal pump—high efficiency at slow engine speeds insuring cooling in hill climbing and hard pulling over muddy roads.

CARBURETOR—Has proven a marvel of flexibility and simplicity. Our own make, so well made and all made alike. Never heard an E-M-F "30" "missing" in your life.

CLUTCH—A cone clutch—simple and also better in some respects, has been substituted for the expanding ring clutch in former models. Needs no adjustment, and steel springs under the leather facing makes it take hold as smoothly as in ring-clutch did.

TRANSMISSION—Type—Selective sliding gear. Gear case integral with differential housing in rear axle—the unit power transmission system so generally approved by engineers of note.

REAR AXLE—E-M-F exclusive design. Right and left housing sections drawn from sheet steel and heat treated, giving extra strength. Fitted with truss rods.

FRONT AXLE—I-beam type. Drop forged in one piece—not welded in center. Heat treated. Spring perches forged integral. Liberal safety factor.

WHEELS—Artillery type. Large spokes—12. Spokes and felloes first grade second growth hickory.

TIRES—Morgan-Wright. Good tires. Equipment has proven ample—thanks to car being made of best alloy steels, consequently light. Remember that excessive tire equipment simply obligates you to pay more than you ought for your tires.

SPRINGS—Front, semi-elliptic. Rear, full elliptic. Extra wide for this weight of car—2 inches. Driving thrusts and braking strains take by two radius rods—not by springs.

FRAME—Pressed steel—U-section. Side members straight—strengthened neither by off-setting, nor drooping.

MUFFLER—E-M-F design. Silence by radiation—not by obstruction. Absolutely no back-pressure.

FENDERS—Enamelled steel in the newest style, most approved enclosed full-length-of-the-car type.

WHEEL BASE—108 inches. TREAD—Standard 56 1/2 inches.

WEIGHT—(Exact) with all tanks full—2000 pounds; with top, side curtains and glass wind-shield—all tanks full—2150 pounds.

BODY—New "U-Door" type—up to the minute in style and finish. Tonnage a few inches wider, so that it seats three two-hundred pounders comfortably.

Color—Body dark blue, running gear yellow. From across the street you couldn't tell whether it was a \$6,000 car or a \$1,500 one.

PRICE—\$1,500, f. o. b. Walkerville—until further notice. Full Specifications and Technical Description on Request.

ACROSS THE BORDER two motor cars. E-M-F "30" touring car and its younger brother, Flanders "20" light roadster, runabout or suburban, are first choice of discriminating buyers of that great class who want efficiency, luxury and enduring qualities at a moderate price.

THE E-M-F COMPANY, of Detroit, Michigan, is now the largest motor car manufacturer in the world. Nearly twice as large as any other concern in the industry. Annual output; 15,000 E-M-F "30s" and 25,000 Flanders "20s"

DURING THE PAST TWO YEARS many of these cars have been bought by Canadians despite the handicap of duty and other charges. They have proven to be the kind of cars that appeal to Canadian buyers—principals of design and construction follow more closely after European models than other American made cars.

RECENTLY THE E-M-F COMPANY OF CANADA (Limited) was organized. At the head of this Canadian company are Messrs Franklin H. and J. Harrington Walker, of the firm of Hiram Walker & Sons. This ensures not only practically unlimited financial backing, but is a guarantee of quality in the product and that the guarantee will be lived up to. The factory—shown above is located in Walkerville, Ont.—directly opposite Detroit

THIS IS THE LARGEST PLANT IN CANADA devoted to the manufacture of motor cars exclusively. Every part of both the above-named models are manufactured in this plant. They are exact duplicates of the American product and made as well as—if not better than—the same models manufactured in Detroit. Canadian buyers are more particular than those across the border—at least, we like to think so. In finish and attention to details, this has not been lost sight of.

COMPARE THE SPECIFICATIONS and the prices of these two models with those of other makes of cars—European, Canadian or American—and you will see that by the establishment of this mammoth plant in Canada, buyers on this side of the border are now able to obtain greater value for their money than ever before.

NOT ONLY THAT, but in buying either E-M-F "30" or Flanders "20" you are not experimenting. You get cars of known reputation, time tried, road tested and guaranteed by men you know.

READ CAREFULLY AND COMPARE with other cars, point for point: compare quality of materials; excellence of workmanship; and, finally, the style and finish of these cars. You'll find that each in its class wholly outclasses other cars at similar prices. E-M-F "30" at \$1,500 f. o. b. factory at Walkerville, Ont., cannot be equalled for less than \$2,000 to \$2,500. Flanders "20" at \$950 recognizes no competitor selling for less than \$1,250 to \$1,500.

OUR GREATER FACILITIES AND ORGANIZATION combined with our greater output—which distributes the "overhead expense" over a greater number of machines—make these prices possible. The price, coupled with the sterling reputation of these cars, create the demand; having the market we can produce in large quantities; and producing in large quantities makes the price and quality possible. It is as complete as a circle and as simple.

FINALLY, THE GUARANTEE that goes with every car is backed by men you know and whose financial standing ensures its fulfillment in every respect.

Specifications Flanders "20"

MOTOR—20 horse-power. Four cylinders, cast in bloc—following best European and American practice for motors of these dimensions.

BORE, 3 5/8. Stroke, 3 3/4 in.

COOLING—Motor is water cooled, the jackets being extra large, insuring good circulation and a plentiful supply of water under all conditions. Water jackets surround valve ports also. Circulation is maintained by a centrifugal pump of liberal proportions and simple design, driven from magneto shaft.

LUBRICATION—Same principle as E-M-F "30" vacuum feed oiler having no moving parts and consequently impossible to disarrange. Cannot flood nor starve the motor—oil level always the same regardless of road levels, speed of motor, or any other conditions.

IGNITION—Dual system, consisting of (a) Splitdorf magneto—same as E-M-F "30," of which at this writing there are 10,000 in daily use and not a complaint; (b) a set of dry cell batteries are supplied for emergency use.

CARBURETOR—Is of the approved float feed type similar to that on E-M-F "30" and, like the latter, is of our own design and manufacture.

CLUTCH—Is of the reversed cone type—leather faced—the type that has outlasted all the "multiple disc" and other fads.

REAR AXLE—Is similar in design and construction to that of E-M-F "30" which has proven so satisfactory to owners—so disappointing to competitive makers.

TRANSMISSION—Is incorporated in the rear axle—the ideal construction for cars of light or medium weight. This confines the operating mechanism to two units and affords a maximum of flexibility in the chassis.

FRONT AXLE—Is drop forged in one piece—not welded in the centre—from special steel of high torsional and elastic properties.

SPRINGS—Front, semi-elliptic. Rear, full elliptic with scroll ends—same as E-M-F "30" and on other high grade cars. Acmeof easy riding and breakages practically unknown.

BRAKES—Following the most up-to-date practice—but hitherto found only in high priced cars—both sets of brakes are of the internal expanding metal ring type. Encased in a pressed steel drum on rear axle.

FENDERS—Enamelled steel. Enclosed full length of car.

WHEEL BASE—108 inches. Tread, Standard, 56 1/2 in. Special, 61 in. for Southern States trade.

TIRES—32 in. x 3 in.—ample tire equipment and good safety factor.

GASOLINE CAPACITY—12 gallons—sufficient for 250 to 300 miles.

OPERATION AND CONTROL—As this car is designed for the use of owners and will probably be seldom driven by skilled chauffeurs, every effort has been made to simplify the control and make every part "fool proof."

BODY TYPES—Three. Runabout; Standard type (but having large deck at rear, enclosed 7 1/2 inches high for carrying trunks, samples or other articles). An ideal and a practical utility vehicle and withal handsome.

THE STAR ST. JOHN N. B. SATURDAY, FEBRUARY 26 1910

THE ST. JOHN STAR is published by THE SUN PRINTING COMPANY (Ltd.) at St. John, New Brunswick, every afternoon (except Sunday) at 130 a year.

ST. JOHN STAR. ST. JOHN, N. B., FEB. 26, 1910.

Number of members of the House of Commons are promoting a movement having as its object the shortening of the federal legislative session. There could be no more laudable ambition. A great deal of the time at Ottawa is wasted in talk, in useless repetition of ideas, in an overflow of patriotic sentimentality on the part of members who believe their duty to their constituents demands that they say something once in a while. The present naval debate is a fair example of what is found in every session. Scores of members on either side, who in reality when their words are condensed, do absolutely nothing more than endorse the opinions of their leaders, feel it incumbent upon them to dilate for hours at a time, chiefly for their own entertainment, and to the suffering of their colleagues in the House. As a matter of fact, everybody talks too much and drinks too much, and in truth intemperance of speech might be classed as one of the great evils of modern civilization. It is a human failing which legislators, or those in public office, are perhaps more liable than others, and on this account men in high places should be particularly careful in guarding against over-indulgence in the unfortunate habit. All that is to be said could be said in a quarter of the time and with a quarter of the number of words that are frequently employed. If a debater full of his own importance were wasting only his own time, the thing might not be so bad, but he should try to remember that he is at least demanding, if not enjoying, the attention of some hundreds of others, that the whole country is watching him to try to do, and that every minute he holds the floor means dollars to the country. The parliamentary representative who, when noticed by the speaker, merely agrees with what the previous gentleman has said, is a far more valuable representative than the one who repeats the identical sentiments previously expressed. The Western men are right. There is too much talk at Ottawa, and the fact that this is a condition common to every legislative assembly is no reason why the Canadian parliament should not endeavor to bring about its own cure. If a couple of hundred members of commonsense is no matter about the senate, for the senate has plenty of time for talk; to resolve that hereafter they would say nothing more than is absolutely necessary, and that they would endeavor to acquire a correct impression of what the word "necessary" means, the length of the parliamentary session could be cut in two. Business would be put through more expeditiously, and above all the newspapers would be saved thousands of dollars in telegraph tolls on reports of monotonous debates.

SATURDAY SERMONETTE

"THE MADDING CROWD"

If you don't know what a "madding" crowd is, it is you. You have never seen an election crowd, or a crowd on strike. That is the kind of crowd that does not reason, and seldom thinks. It is the crowd that on the slightest provocation gets murderous, and if you do not belong to it get "far" from that mad crowd as you can. I don't know how many it takes to make a crowd—it depends. If you are two young persons of the opposite sex, just married or just going to be, and some one comes along, even such insignificant atoms as "her" little brother or sister, then there is a large crowd for a little while. If "he" had the "resources of civilization," or "she" had diplomacy, he'd, not necessarily corruption, soon dissolved the crowd into its original elements. There are crowds you can study with profit. I have studied with interest crowds of crows. Most people would call them flocks, but I prefer crows. If you are a naturalist, in taste if not in training, and have fortunately been born in the country, you will take to the crows assembling in convention for conference in the late autumn. How human they seem! They are so like us. They would sit quietly in some open field in a section and talk and talk and seem to agree on some question and disagree on others, and quarrel and get mad and call names, and some would go off and join another section. Twenty or a hundred would try to catch the "speakers eye" and it was "Mr. Speaker, Mr. Speaker." I have the floor, or the stump, or land, whatever it was, "I move in amendment," or "I move for the third reading of my bill."

The Evening Chit-Chat

By RUTH CAMERON

One of my readers has asked me to give my ideas of beauty, so I have tried to formulate my thoughts on that subject. Beauty, it has always seemed to me, if you stop to analyze it, is a kind of triangle. That is, three elements go to make up the perfect beauty. And these are, beauty of line, beauty of coloring, and beauty of expression. Any woman in whom all three elements were united would be truly beautiful, but they are so seldom all found in one face, that we usually call anyone beautiful who possesses two or even one of them.

Most of the girls who have the reputation of being pretty usually get it, it seems to me, on account of beauty of coloring. Think over the pretty girls of your acquaintance and see if it isn't so. See if in nine out of ten cases a clear, prettily colored skin, bright eyes, and perhaps a certain vivacity of expression does not constitute the "pretty girl's" claim to her adjective. Beauty of line—that is, perfect profile, correctly modelled face—rarely wins the reputation of prettiness for its possessor. It is not a thing most people notice on the street. It is a charm that grows on one. Artists always notice it, and even when the skin that covers the perfect features is dull and colorless, and the expression behind them is not particularly attractive. But other people are not often apt to notice perfection of line unless one of the other elements of beauty are combined with it.

The third element of beauty—charm of expression—is at once the most desirable—from my way of judging, at least—and the most attainable. For intelligence and character undoubtedly affect the expression of the face and give it a charm which to many people is infinitely more attractive than the most perfect Grecian nose or the most exquisite pink and white complexion. You hear a great deal of the woman who, although homely, is fascinating. If you examine her, I think you will always find that she possesses this third element of beauty.

Real, genuine love-ly-neighbor-as-thyself goodness also transforms a face. Now I am not preaching. I am not uttering a hackneyed formula. I am speaking facts. I am actually thinking this very moment of two women whom I know whose faces are neither fair skinned nor correctly modelled, and yet are very good to look upon simply because their sweet souls and lives shine right out through them. Every girl wants to be pretty. It is a woman's natural heritage. The beauty of color and of line are special gifts that are not given to everyone, of course, but the beauty of expression that comes from a fine face and a noble character anyone may have who will cultivate these things.

And do not think it will be just old people, just good people, who will appreciate that beauty. All the world will admire it and be attracted by it just as much as they are by pink-cheeked charm or a perfect profile. If you don't believe me, try it and see. I don't believe you'll regret it.

Had Given Up All Hope of Living.

Heart Trouble Cured by Millburn's Heart and Nerve Pills. Mrs. Andrew Savoy, Graham, N.E. writes:—"In the year 1905, I was taken sick and did not think I could live any length of time. My trouble was with my heart and people told me that nothing could be done for a case like mine. I consulted the very best doctors, but they could do me no good. For seven weeks I could hardly cross the floor. I had no sleep, but was so weak nobody in the world can believe how I felt. I had given up all hopes of living and had given my little girl to my sister-in-law."

"One day a friend came to see me, and calling me by name, said, 'Lina, if I were you I would try a dose of Millburn's Heart and Nerve Pills as they are good for heart trouble.' My husband got me a box, but for two days I was not feeling any better, but on the fourth day my husband said, 'I believe those pills are doing you good. I was able to see to my duties, and I feel a great deal better this morning.' He said, 'Well, I will get you another box right away, and I will see that you take it. I was perfectly well and have not had a day since that I have not been able to do my work. I will never be without them in my home for God knows if it had not been for Millburn's Heart and Nerve Pills, I would not have been alive now.' Price, 50 cents per box, 3 boxes for \$1.50, at all dealers or mailed direct on receipt of price by The T. Millburn Co., Limited, Toronto, Ont."

The Lighter Side of Life

The little girl had a portfolio under her arm. "Going to take your drawing lesson, Miss Phillips?" asked her matronly friend. "Yes, ma'am." "You have evened up your taking fresh-air drawing?" "No, indeed!" indignantly answered the little girl. "I have to pay \$5 for 12 lessons." Occasionally little four year old John is allowed to say grace at the Sunday dinner. He usually does very well for he has a great deal and is intensely interested in anything he likes to do. One Sunday mother called upon John to say grace and with great earnestness and dignity he responded with the following: "Oh, God, we thank Thee for this dinner, and for Christ's sake help us to eat it all up."

NO HOSPITAL FOR HIM SAVED JUST IN TIME

Mr. Lewis MacPherson of Dunvegan, Inverness County, Cape Breton, had been suffering tortures from his Kidneys and Bladder, which were terribly inflamed. Finally, his doctor could do nothing more for him and advised him to go to the hospital. "I had given up all hopes of living and had given my little girl to my sister-in-law." "It affords me more than ordinary pleasure to convey, not only to your relief but also to all sufferers from Kidney and Urinary Troubles, the instant and complete cure that Gin Pills effected in my case. "I suffered untold misery even when under treatment from the best doctors for over ten months, and nothing seemed to do me any good or relieve my painful condition. My trouble was inflammation of Kidneys and Bladder. "I finally determined to take my doctor's advice and go to the Victoria Hospital at Halifax, for treatment. Two days, however, before my intended departure for the hospital, a neighbor called on me, happening to have a Gin Pill in his pocket, insisted on my taking it. I did so and six hours after taking it, the results and benefits I derived were simply nothing more or less than miraculous. Instead of going to the hospital, I sent for a box of Gin Pills with the result that I am now free from all my troubles. I would like to see every one suffering from Kidney Trouble."

AS EASY AS A B C.

Have you ever noticed that some people when they try to explain something they do not understand, use very big words? Sir Erasmus and his greatest living astronomer, can explain even that difficult branch of science in simple words in the same way. People who know how they lost their health and regained it, can tell us how they did it in simple words. Take the case of Mr. George Morris, 18, Cathedral Street, Montreal, who, on having said, "Oh, write me and I will like to join with others who have benefited from the use of Mother Seigel's Syrup, by thanking you for the benefit I received from it while suffering from indigestion. I had always been strong and robust, in fact, being a shipper, I was obliged to be able to lift heavy weights. Well, five years ago, I first fell ill. I felt weakness, lack of energy, and lost my appetite, and when I did eat a little, I suffered such violent pains across my chest and back that I dreaded food and often went hungry. I had bad headaches and with the least exertion I felt dizzy and the blood rushed to my head. "There you have a plain, straightforward description of the ordinary symptoms and miseries of indigestion. But Mr. Morris takes you farther and tells you what he did. He writes:—"This, with foul breath, coated tongue, and constant nausea, made me begin to lose hope of ever being well again. But a friend told me of Mother Seigel's Syrup and I tried it. One week's treatment brought great relief, and when I had used the Syrup one month, I was completely cured. "There is no reason to doubt that what Mother Seigel's Syrup did for Mr. Morris it will do for you. It cured him and it will cure you. "Taken daily after meals, it will cleanse and invigorate your system, restore tone and vitality to your stomach and liver, and make you look well, feel well and be well. "So you're going to sell your inn and go into private life, Henry? What will you spend your time at? "That's all right; I've started a lawsuit." An easy way to all preserve jars is to use a gravity boat. The handle makes it easy to dip into the boiling kettle of fruit, and the long neck fits into either pint or quart jars and prevents any spilling of the juice.

YOUR STOMACH IS TO BLAME

Misery Disappears and Stomach Comfort Comes in Five Minutes

"Take good care of the stomach" is good advice that all sensible people should heed. If your blood is bad and your stomach is in fault and treat it as promptly and intelligently as possible. Mi-o-na, the universal stomach remedy, will cure any abnormal condition of the stomach promptly and surely. The action of Mi-o-na on the delicate membrane of the stomach is so prompt that the most painful distress vanishes in a few minutes. But Mi-o-na (small tablets easily swallowed) is more than a relief-giver. It is a prescription used by a leading learned and sensible physician and its ingredients are so cleverly compounded that while it gives instant relief it also affords a permanent cure. Mi-o-na will not cure a case of chronic indigestion in a week; but it will make you feel so much better in a week that you will have confidence in its wonderful tonic and reconstructive virtues and will continue the treatment until cured. Stomach misery and dyspepsia usually arise from over-eating and drinking, but there are thousands of cases where worry, grief and neglect to take food at the proper intervals are the cause. A large box of Mi-o-na tablets costs 50 cents at Chas. R. Watson's, 106 King Street and 24 Dock St., who guarantees them to cure all stomach misery, or money back. For sale by leading druggists everywhere. In order to get the stomach into perfect condition in a few weeks, and while it is building up and strengthening the walls it will aid digestion to such an extent that there will be no distress, belching or other symptoms after eating.

HOCKEY AT PLASTER ROCK

In a hockey match at Plaster Rock a few days ago the Transcontinental team claimed victory over the Plaster Rock sextet by a score of 1 to 0. It was a fine exhibition. The construction boys handled the birches in good style and sent the puck to the net without much difficulty. Their goal was never in danger. The Transcontinental team contained several former college stars. J. Jennings of this city was on the victors' line-up and placed the puck in the net for a tally.

LEGS SEVERED, HE TIES STUMPS, ROLLS TO AID

Take Off Shoes and Uses Laces to Check Flow of Blood—Struck by Locomotive.

UTICA, N. Y., Jan. 25.—Struck by a locomotive, Clayton Jackson, on reaching his senses, found both his legs severed. With rare pluck he set about saving his life by removing his shoes and tying the laces around the stumps of his limbs to stop the flow of blood. He then rolled over and over in the snow for a third of a mile to a railway signal shanty, where he obtained medical aid. Jackson, with Thomas McTernan and James Doherty, were run down while walking the track of the New York Central Railroad in the outskirts of this city. A stiff wind was blowing and they did not hear an approaching locomotive. Doherty was ground to pieces and his body was strewn along the roadbed for a quarter of a mile. McTernan was hurled forty feet and his skull crushed in. He died later in a hospital. The engine was running backward at the time and the crew, unaware of the accident, continued on to this city

LOGICAL ECZEMA CURE ENDORSED BY PHYSICIANS

Dr. R. A. Folkeris, of Duluth, Minn., tells of his success in treating patients with D. D. D. Prescription: "There was a man here suffering from eczema for the last fourteen years, and I applied the D. D. D. treatment. I also applied it to a man of West Duluth, Minn., who has been suffering with eczema in his feet, and the second treatment, in both cases cleared the skin almost absolutely. The first application is a balm, and its soothing effect is beyond expression. I shall never be without it, and shall use it among my patients altogether." No matter how terribly you suffer from eczema, scald, rheum, ringworm, etc., you will feel INSTANTLY soothed and the itch allayed at once when a few drops of this compound of oil of wintergreen, thymol, glycerine, etc., is applied. The cure all seem to be permanent, and we recommend it unhesitatingly. Chas. R. Wasson, Druggist, (two stores). For free trial bottle of D. D. D. Prescription write to the D. D. D. LOSS OF THUMB KILLS HIS BASEBALL CAREER

NEW YORK, Feb. 25.—A buzz saw recently cut short the promising career of Earl Proctor, of Rockville Centre, L. I., as a baseball pitcher, by severing his thumb—that indispensable part of a boxer's anatomy. Proctor was obliged to relinquish the diamond and come down to the daily grind of a bank clerk. Today the supreme court awarded

LEFT JAIL AND DIED IN SNOWBANK

LEWISTON, Me., Feb. 25.—The body of the man found half buried in the snow at Oxford today, has been positively identified by Sheriff Hastings as that of John McDermott, aged 44, of Lewiston, who was released Thursday last from Auburn jail, where he had served a sentence for intoxication. McDermott was a weaver and came to Lewiston from Dexter. He had been working in Sabbath and when he left the jail he told the keeper that he was going to Mechanic Falls in search of work.

BRIDGE BUILDER'S SLIP WAS FATAL

HINCKLEY, Me., Feb. 25.—John Holtsapple, who has been employed on the new bridge being built over the Kennebec River here, slipped on the ice, receiving injuries that resulted fatally about an hour later. His home was in Milina, N. Y., where he had a wife and two children.

PRINCESS TO WED FRENCH PRETENDER

Clementine of Belgium and Prince Victor Napoleon

Now That Her Royal Father is Dead She Will Marry Lover Next October.

For years the continental newspapers have been marrying Princess Clementine of Belgium to Victor Napoleon, the French pretender, and then denying the story afterward. So when the rumors began to revive immediately after King Leopold's death they were not taken very seriously, especially as Victor Napoleon has a morganatic wife and three children already. But now for the first time the reports have a foundation, as the pair are to be married next October.

Six years ago the Belgians learned with pleased surprise that the boy had come into the life of Princess Clementine, the youngest daughter of the late King Leopold II. The engagement was announced in the "Globe" and the princess as a martyr to duty. The announcement of her engagement to Prince Victor Napoleon made many happy who pined for the prince's weary life.

The announcement was not premature, but the rejoicings at it were, for King Leopold, regarding his consent to the proposed marriage, put an end to all thought of it during his lifetime. King Leopold thought himself just; he was a hard man to all and hardest to his own family; and he never changed his mind.

When Starting on That Winter Trip Don't Forget NEWBRO'S HERPICIDE One of the Essentials

On your winter vacation you will most certainly want a bottle of Herpicide. This is doubly true if your trips contemplate a visit to a warmer climate. It is under conditions of warmth and humidity that the violence of the dandruff germ is particularly noticeable.

AS IMPORTANT AS HER TOOTH BRUSH

"I find Newbro's Herpicide very beneficial for dandruff. I would no more think of going on a journey without a bottle of Herpicide than I would without my tooth powder. Using it often and thoroughly I find I do not require a shampoo as frequently and my hair is much nicer."
Middlebury, Vt.
Mrs. M. J. Wilcox

AN OPINION FROM THE WORLD'S GREATEST LADY RIFLE SHOT

"Traveling as I do—almost continuously, I have been troubled a great deal with dandruff and falling hair and until I tried Herpicide I never found a remedy that was satisfactory."
Herpicide is a delightful preparation and fulfills the claims you make for it and nobody's toilet is complete without it. I heartily recommend it to my friends."
Nuttley, N. J.
Annie Oakley.

The germ is always busy. There is no escape, except in the use of regular intervals of Newbro's Herpicide. Herpicide carries sure and certain death to this germ and is the only reliable remedy.
An imitation or something just as good won't do. Insist on having genuine Herpicide.

THE PHILADELPHIA STRIKE

PHILADELPHIA, Feb. 26.—The beginning of the second week of the strike against the Philadelphia Rapid Transit Company finds the city authorities apprehensive of what today and tomorrow may develop in spite of the great gains toward the complete re-establishment of order made in the last two days. Today is a half-holiday in many of the industrial plants whose employees are strongly in sympathy with the strikers, and the ability of the police to control crowds is expected to be again severely tested. Last Sunday proved to be the hardest day for the police of any during the strike.

The arrest of John J. Murphy, the young president of the Central Labor Union, who will be given a hearing today on the charge of inciting a riot, has added to the uneasiness in labor circles. The warrant for Murphy's arrest was issued by the direction of Director of Public Safety Clay, following the publication in an afternoon paper of the following statement said to have been made by the head of the Central Labor Union: "You can depend upon it that by Sunday's meeting a general strike will be called. One man is shot in Kensington there will follow a carnival of riot and looting that will startle the entire country. I should not care to be responsible for such an outbreak. The strikers will be helped, I want it understood that there are men in the northeast who can shoot as straight as any trooper who ever drew a pistol. Just wait a little while for developments and you will see something that will open your eyes."

"This statement was made to newspaper reporters for publication," said Director Clay, one of whom was sent for and who said that the above statement of Mr. Murphy as published was substantially correct. "I have been advised by the law officers of the city and county that this was a violation of law."

How Women and Girls Earn Money

Thousands Are Deserting the Old Vocations of Dressmaking, Stenography and Housework for New Professions.

STAR FREE COUPON FOR MRS. KNOWLES' BOOK "LESSONS BY MAIL—BEAUTY CULTURE."

Abby Beatrice Knowles, the woman who has been instrumental in establishing thousands of women and girls in the profession of Beauty Culture throughout the United States, Canada and Great Britain, has recently arranged for the free distribution of literature, designed especially for women and girls who would take up Beauty Culture as a profession.

During a recent tour of the United States and Canada she interviewed many women and girls who held positions as clerks, stenographers, dressmakers, and domestic servants, as well as many unemployed, and the intelligence, ambition and desire for advancement shown by these women, clearly proved their fitness for this new, dignified and profitable profession.

On March from the Marsh Road was fined four dollars or ten days jail. Job McAvity said he had been out for twenty days and told that if he did not get out he would get two months the next time.

Robert Dixon pleaded not guilty to being drunk on the King square. Police Judge McParlane who made the arrest, testified that Dixon had been drunk and his complaints had been sent to the central station from the mayor's house and the chamberlain's office regarding Dixon's actions. Dixon has been a most unwelcome visitor to City Hall and has threatened the life of city controller McIntyre. The prosecution for the Mansfield, the Hair Dresser, and the Mascotte; it describes a wonderful simple and practical way to learn to become an expert in the various branches of Beauty Culture and shows how a Beauty Parlor can be started at home at very little expense, or how a visiting practice (calling at the homes of select patrons) can be conducted.

Mrs. Knowles declares that there is not another profession for women that offers the opportunities for travel, seeing the world, for making money, for playing women and girls on an independent basis and in refined and pleasant surroundings, as does the profession of Beauty Culture.

During a recent tour of the United States and Canada she interviewed many women and girls who held positions as clerks, stenographers, dressmakers, and domestic servants, as well as many unemployed, and the intelligence, ambition and desire for advancement shown by these women, clearly proved their fitness for this new, dignified and profitable profession.

Arrangements have been made to send the literature and book to all women and girl readers of The Star and Mrs. Knowles requests that the fathers, mothers and brothers of young ladies assist in drawing attention to this announcement. Only 50,000 copies of the book have been printed. Those who wish a copy should cut out the coupon below at once and mail it to: Abby Beatrice Knowles, 2226 Eighth Avenue, New York.

EMINENT CITIZENS BEFORE THE MAGISTRATE

Courts Looked Like Board of Trade

Mooring This Morning—Charged With Not Clearing Their Gutters.

Out of the one hundred persons reported by the police for not having the sidewalks or gutters in front of their premises cleared of snow, only about twenty-five of the number appeared in the police court this morning.

Some of those present seemed to take the matter very seriously and were summoned to the court on a busy morning like Saturday and they took occasion to express their displeasure. W. E. Raymond, of the Royal Hotel, said that he thought that shoveling the snow from the sidewalk was quite sufficient. It was impossible to keep the gutters clear of snow, and he thought it was not a matter in the city that is clean, and if it is the law that citizens have to keep the gutters clear in winter, they ought to have to do the same in summer. It is impossible to keep the gutters clear in the winter.

Mr. E. Schofield thought that the matter could be quickly disposed of by giving judgment on one name Saturday morning was a most awkward one to attend court especially to a wholesale business man, as they closed at one o'clock. If the police officer had spoken to him, a boy at three dollars a week could have done the work in ten minutes, but instead of that he had to appear in court and lose two valuable business hours.

The magistrate said that he had certain views about the matter and all persons should be treated alike as the law applied to the public and private streets. He could not see that the people were suffering very much from King street. He thought he could give a decision on the matter by Monday afternoon.

Kendall Hall wanted the matter settled at once.

Alex. Porter said that he did not know that he had called for keeping the gutters clear.

His honor said that at one time he used to get the policeman all up in the court room and talk to them. He thought if they saw cases on the sidewalk, which were a violation of the law, they should talk to the owner and get it done in an hour or so and then report the matter. The citizens should be proud of the city and the police force. He must say that because cutting the policeman come out with his head lines that he was scoring the police again. He wished to say that he was in front of an sidewalk. Mr. Schofield thought it was the limit of the law to summon business men to the court in this manner.

E. G. McCullough of King street said the gutter in front of his store had been cleared in twelve hours from the curb.

Mr. Peters of the firm of Baird and Peters said there were no gutters in front of his store. There were lots of other things that he could not report.

THREATENED THE LIFE OF THE COMPTROLLER

Robert Fox in Trouble—Half Dozen Shots and Snappers on the Police Court Block.

The was an even half dozen prisoners in the police court bench this morning and drunkenness was the chief charge against them.

On March from the Marsh Road was fined four dollars or ten days jail. Job McAvity said he had been out for twenty days and told that if he did not get out he would get two months the next time.

Robert Dixon pleaded not guilty to being drunk on the King square. After La Grippe

"I had suffered several weeks with LaGrippe. Had pains in my head and eyes. It felt as though there was a heavy weight on the top of my head, until it seemed that my brain would burst. I was so nervous that I could not rest or sleep. When I dozed off I would awake with a sudden jerking of my whole body. Dr. Miles' Nervine, Heart Remedy and Nerve and Liver Pills cured me. A number of friends have since realized the same benefits."

MRS. ALVIN H. LOCKS, Seabrook, N. H.

The after effects of LaGrippe are often more serious than the disease, as it leaves the system in a weakened condition that invites more serious troubles, such as pneumonia, etc.

Dr. Miles' Restorative Nervine should be taken for some time to thoroughly restore nerve strength.

Bill Will Change Selection of Juries

Grand Jury to be Reduced to 12—Introduced by Premier—Dodge's Query About Discrepancy

FREDERICTON, N. B., Feb. 25.—The House resumed business yesterday afternoon. An important bill was introduced by Hon. Mr. Hazen to take away from sheriffs the power to select grand juries. The premier evaded the enquiry by Mr. Robinson regarding a discrepancy of \$200,000 in stampage collection.

Mr. Hazen took refuge from the questioner, claiming the matter was entirely out of order. An important bill was introduced by Hon. Mr. Hazen to take away from sheriffs the power to select grand juries. The premier evaded the enquiry by Mr. Robinson regarding a discrepancy of \$200,000 in stampage collection.

VON BUELOW OF GENTLE NATURE

When first Von Buelow was introduced to me I almost avoided him on account of the many stories of his offhand treatment of the public, his brutality toward musicians and his unreasonableness in general. On closer acquaintance with the great pianist I experienced some astonishment to find a man of strong mind, yet gentle nature, enthusiastic, artistic to the finger tips and well bred, though of an unusually nervous temperament. Inscrutable he might have been at times, but I am sure that the moments provoked by people's stupidity or by some unpardonable inattention must be excepted from "Mojziska's Memoirs" in Century.

The girl who can resist a diamond ring—especially when offered by an eligible "him"—is indeed very scarce nowadays. And by the way, so is the man who not give his affianced such a ring when he can get it so reasonable in our store.

When thinking of buying a watch ask for the "Regina." We have the official agency and issue a universal guarantee.

SIBLE STUDY DRAWING

MANY TO Y. M. C. A.

Interesting Discussions Around the Open Fireplace on Sunday Afternoons.

A gathering of an unusual nature devoted to the study of the Bible, which is conducted in the Y. M. C. A. by W. M. Kingston, which was organized last fall, has steadily grown in interest and attendance until now over sixty are enrolled. The association does not believe in competing with existing institutions and so the membership is open only to those who are not connected with any Sunday school or Bible class. At 2.30 each Sunday afternoon the members meet around a big log fire in the Y. M. C. A. and under the leader's guidance take up an analytical study of some portion of the Bible. At present the life of Christ is being studied and tomorrow's subject will be the sermon on the mount. The class is extremely informal in character and the discussions are participated in by all the members. No one is embarrassed by being asked direct questions and the contributions are purely voluntary.

The class was organized recently and now has the following officers: U. E. H. Burcham, president; G. H. Watson, vice-president, and R. Halsey, secretary. It is open to any man who wishes to join, subject to the restriction mentioned above.

HAMILTON FACTORY AGAIN IN OPERATION

Less Than a Month From Date When it Was Destroyed—Vast Improvement in Building and Equipment.

Out of the ashes of the old Hamilton and Gay factory has arisen a new structure, modern, convenient and well equipped, and in less than a month from the disastrous fire, which on January 28th, threatened to wipe out this promising industry, the mill is again working busily.

A temporary boiler and engine room has been erected which will be replaced during the summer by a fire proof brick building. A new engine has been installed and has been running since last Tuesday. The dry kilns have been finished and are receiving today a large stock of lumber. Steam will be turned on Monday in the drying apparatus.

The new plant will be much better than the old one and in no department will the improvement be more noticeable than in the dry kilns. Labor saving devices installed will so minimize the work that two men can now handle the lumber where seven were required before. The stock is unloaded direct from the cars into one end of the kiln and when ready for use will be taken out of the other end. Tracks have been laid to facilitate the handling of the lumber when it gets into the mill and an elevator will be used to raise it to the upper floor.

The rafters of the main building are being put in place today and before long the work of construction will be completed. The new plant will have a floor space of 16,000 square feet, enough to accommodate the growth of the business for some time.

Every building is being sheathed with galvanized iron and one result of this improvement will be a much lower insurance rate and a consequent saving in premiums.

Already some of the machinery is in operation, the planer and rip saw having been started today. The big moulder and moulder will be ready by Tuesday and by the end of the week all the machines will be running.

On the lower floor will be located the rotary and self feed rip saws, the bed planer, the band saw, the moulder and several smaller machines. The moulder is a large machine and will have a capacity of 10,000 feet a day. Listair's will be found the moulder, mitering machine, rip saw, adjustable cut saw, miter saw, tenon saw, double headed variety moulder, the turning lathe and some other minor pieces of apparatus.

To operate the new plant A. E. Hamilton, the former owner, is organizing a stock company, under the name of The Hamilton Woodworking Co. Ltd., with a capital stock of \$75,000, of which \$50,000 is common stock which will be held by Mr. Hamilton. The balance is in the form of preferred stock and \$20,000 is being offered for subscription, the remainder being held in the treasury. The shares are of \$100 each.

Considerable stock has been taken up already, and subscribers being: Thea, Nagle, Stetson and Carter, W. Tennant, Emerson and Fisher, Ltd., J. W. Macdonald, Marine Hall Co. Ltd., J. M. Queen, Dr. Mott, John O'Regan, de B. Carriffe, W. E. Earle and T. H. Eastburn. The willingness with which it is being taken is substantial proof of the new faith in St. John and its industries which has lately been making itself felt in the community.
