LAVISH EXPENSES OF OTTAWA MINISTERS

Hon. Mr. Brodeur a Shining Example Little Bill of \$4,000 at Colonial Conference While a Guest of British Government; Private Cars for Montreal Theatre Parties; Other News of the House.

(Special to The Telegraph.) Ottawa, Jan. 9.—In the house of commons today Sir Wilfrid Laurier, in reply to a question, said that the contract for the steamship subsidy of the line between Vancouver and Australia was made up in July last, and it had been sent to the company to be signed.

This shows that the delay in not signing the contract has been responsible for the subsidy being dropped and not any differences of opinion between Canada and Australia over the question of preference, although it would be idle to admit that Canada is not annoyed over its numerous offers of a preferential tariff rate to the commonwealth government being either ignored or rejected.

Hon. George E. Foster read part of a report of a speech delivered in London (Eng.), by Hon. Clifford Sifton, on the All-Red route, in which it was said that Canada would aid liberally.

Mr. Foster asked the premier if Mr. Sifton had the authority to pledge Canada to aid the undertaking.

Sir Wilfrid Laurier did not understand that Mr. Sifton undertook to pledge Canada. In his opinion Mr. Sifton rather expressed the view that the Canadian people were disposed to contribute very generously toward that route.

Gave Sifton a Letter. To Mr. Monk, Sir Wilfrid Laurier said that he gave a letter to Mr. Sifton to one of the British ministers.

In reply to a question, Sir Wilfrid said that there was no influx of Japanese at the present time, but there was a possibility that there was likely to be more arrivals. The houses then took up Mr. Oliver's irrigation bill.

On the question of irrigation, Mr. Foster pleaded for a systematic policy in respect both to irrigation and water conservation. If matters were allowed to go on as at present the country might wake up to find it necessary to repurchase water powers, now being granted to private individuals in order to be able to retain control of them.

BABY ARRIVED IN HURRICANE

New Comer on Strmr. Mount Royal Cheered Despairing Emigrants

ANOTHER THRILLER

Seaman Washed Overboard from Bridge Swept Back on Main Deck Both Happened on Christmas Eve, and Were Hailed as Omens of Better Luck.

(Special to The Telegraph.)

Montreal, Jan. 9.—A special London cable says: The Lake Manitoba will not take the Mount Royal's passengers to Canada, as the matter is yet undecided. More beds are now being shipped to the Mount Royal and the passengers' comfort is being added to.

It transpires that on Christmas eve, after the passengers had been five days below decks, Josefa Milezyaki gave birth to a male child. Both did well. The emigrants regarded the event as a happy omen, and there were great rejoicings, though a hurricane was raging. The child was christened Josef Royal.

Strangely enough, the omen seemed justified, for the same evening Seaman Stewart was washed overboard from the bridge deck and swept back on the main deck by the next sea, while on Christmas morning the machinery was repaired.

The captain and crew, especially the engineering staff, bear traces of the exceptionally trying times they had on the voyage.

ITALIAN FORCE WIPED OUT IN DESPERATE BATTLE

Report That Abyssinians Attacked Town; Destroyed It, and Killed Defenders.

Rome, Jan. 9.—News has been received here of serious trouble in Italian Somaliland, on the east coast of Africa, which has resulted in pitched battles between the Italian forces there and the Abyssinians near Lugh, the furthestmost Italian station in the interior, the Abyssinians robbed, killed and imprisoned many of the merchants.

Lugh is garrisoned by only about 125 natives, under the command of Captain Bongiovanni and the attacking party laid siege to the town. In a number of engagements that followed both sides, according to the reports, suffered heavy losses.

Later despatches received here indicate that the trouble in Italian Somaliland is of a more serious nature than at first supposed. It is learned on good authority that Lugh was besieged by the Abyssinians and destroyed after a desperate and unequal fight and that its defenders were killed. It is believed here that the Italian government is concealing a severe reverse to prepare the public for graver news.

The importance of the present situation lies in the establishment of whether or not the King of Abyssinia ordered the attack upon the Italian possessions.

Train Kills Two Men. Boston, Jan. 9.—John Griffin and Thomas King, both of South Boston, laborers employed by the Boston & Albany, were struck by a train near the Massachusetts avenue bridge late today and instantly killed. Both were married.

CALIFORNIA THE GRAFTER'S PARADISE

No Crime to Extort "Fees" from Disorderly Resorts, Even if Mayor of Frisco Got Half, Decides Appellate Court—Victory for Schmitz and Reuf, Although They Will Be Prosecuted on Other Charges.

San Francisco, Cal., Jan. 9.—The district court of appeals handed down a decision today setting aside the judgment in the case of ex-Mayor Eugene E. Schmitz, convicted of extortion in the French restaurant case. Abraham Reuf also benefits by the ruling of the upper court, for, according to it, he pleaded guilty to an act that was not an offense against the laws of the state.

The appellate judges hold that compelling the French restaurant to pay "fees" to Reuf was not a crime, even though Reuf divided the "fees" with the mayor. The decision wipes out the French restaurant cases and pending charges of extortion against Schmitz and Reuf must be dismissed.

They are now entitled to release of bail. If they obtain the necessary money they can remain at liberty until a jury finds them guilty on one of the indict-

ments charging them with receiving bribes from corporations. Owing to the number of cases against them, the bail, estimated at \$10,000 a case, would reach an enormous figure.

Schmitz and Reuf cannot take advantage of the decision for sixty days. The prosecution has twenty days in which to ask for a re-hearing. Then the appellate court will have ten days to consider the application. When that is done, the prosecution will go through the same procedure in the supreme court, which will take the same length of time. Consequently Schmitz and Reuf will be kept in the county jail for two months more at least.

The news of the decision of the appellate court spread rapidly over the city, causing consternation in some quarters and delight in others. District-Attorney Langdon said Schmitz and Reuf will be prosecuted on other indictments that are public offenses.

NO MERCY FOR SOCIALIST RENT RIOTERS IN NEW YORK

New York, Jan. 8.—Signing of eight hundred dispossession warrants and surrender of lease by twenty-five lessees in one day brought the east side rent war to an acute stage.

Landlords are showing no mercy to the Socialist agitators, but are here and there making reductions to tenants. Indications are that the lessee system will be eliminated and that rents will be somewhat reduced.

Fully 1,000 persons gathered about the Thirteenth municipal court building, in Madison street. The crowd began to form at 7 o'clock, and when Justice Roosevelt, Young and Sanders arrived an hour later it was impossible for them to enter until

police cleared the way into the building. In the courts the noises were so great that the clerks had to stand on tables and shout the clerks.

Justice Sanders, after vigorous poundings with his gavel, restored quiet in his court, and said: "Where no legal defense is made in these cases I will sign the papers, but I will not issue them until Wednesday. Where there is a legal defect and it is pleaded I will grant postponements until tomorrow. If I find that delays are being sought by false statements I shall proceed against perjurers and deal with the lawyers as with the principals." Only three defendants answers were entered.

SENATOR LEGRIS LOST SUIT AGAINST OTTAWA COLLEGE

Sued for Serious Damage to Son's Eye by Blow from Priest—Court Held Quarrel Was Personal.

Ottawa, Jan. 9.—(Special)—The suit of Senator Legris, of Montreal, against Ottawa College, for damages of \$15,000 for injuries received by his son through being punished at college last May by Father Dube, resulting in permanent and serious damage to the boy's eyesight, was dismissed with costs by Justice Riddell in assize court tonight.

The argument of the defence was sustained that the priest was not enforcing the discipline of college at the time the boy was struck, but the quarrel was a personal one.

BIG G. T. PACIFIC CONTRACT AWARDED

Section West of Edmonton Will Be a Costly Work, and Price is Said to Be \$50,000 Mile.

(Special to The Telegraph.) Montreal, Jan. 9.—A contract was given out today by the Grand Trunk Pacific management to Foley Bros. & Larsen, the big Winnipeg and St. Paul contracting firm, for the construction of 126 miles of the system, extending from a point six miles east of Edmonton to Wolf Creek, 120 miles west of the Alberta capital. This firm has now under construction the Lake Superior branch of the G. T. P., which runs from the main line of the National Transcontinental to Port Arthur.

The section west of Edmonton will be a very costly piece of work, far more expensive than any part of the main line yet under contract. No considerable part of it is through scrub and marsh, running up to the foothills of the Rockies. The section goes through Edmonton, but does not include the terminals in that city. No official figures were given out by the management, but it is understood that the cost is between \$40,000 and \$50,000 per mile or a total of between \$5,000,000 and \$6,000,000.

MAINE SCHOONER POUNDED TO PIECES; FIVE MEN PERISH

Norfolk, Va., Jan. 9.—The schooner which went to pieces off Diamond Shoals Tuesday, has been positively identified as the Leonora, from Round Pond, Maine, laden with fish scrap and bound for Charleston (S. C.). The rescued cook regained consciousness today and confirmed the identification. Wreckage washed ashore bears the name. Four bodies were washed ashore during the day. One of the crew is still to be accounted for. The life-savers say not even a spar of the wreck remains to show where the vessel struck, showing that the destruction was complete.

WASHED UP AFTER THREE YEARS

Headless Body of Capt. Harry P. Smith Given Up by Sea

PAPERS IN POCKET

Schooner Richard S. Leaming Was Lost December 18, 1904, With All Hands—Was Bound from Windsor, N. S., to Chester, Pa.—Master a Native of Cheverie, N. S.

Nantucket, Mass., Jan. 9.—The loss of the three-masted schooner Richard S. Leaming, of Dennisville (N. J.), on Long Shoal, Nantucket Sound, Dec. 18, 1904, with all on board, was recalled today by the identification of a headless body as that of Captain Harry P. Smith, of Brooklyn (N. Y.), the commander of the ill-starred craft.

The body was found on the cliff facing beach on Tuesday by Edward Hamblin, and taken in charge of by medical examiner E. H. Seneca. The body was in a fair state of preservation, evidently having been buried in the sand for a long time. It was clothed in a dark blue suit and white shirt. The medical examiner found a large package of ship's papers in a pocket and it was by means of these that in his official report today, he announced that the body is that of Captain Smith.

The papers state that the schooner Richard S. Leaming sailed from Windsor (N. S.), with a cargo of plaster rock on Nov. 15, 1904, for Chester (Pa.). The age of Captain Smith is given as 34 years, and his birth-place Cheverie (N. S.). The owner of the schooner was A. Henry Doughty of Philadelphia.

The relatives of Captain Smith are unknown here and the authorities are holding the body to await claimants.

ATLANTIC FAST LINE VIA NEWFOUNDLAND

Speech from the Throne in Colonial Legislature Announces Construction Work to Begin This Summer.

St. John's, Nfld., Jan. 9.—The final session of the present legislature was formally opened by Governor MacGregor this afternoon. The speech from the throne states that it had been considered advisable to call the legislature together earlier than usual because of several important matters which have arisen for consideration. Those include the Labrador boundary dispute which has been referred to the privy council, the court of last resort, in Great Britain, and the American fisheries dispute, which will be submitted to The Hague tribunal for arbitration.

The speech refers to the prosperity of the colony during the past seven years, in which period trade increased thirty-nine per cent., and recites the developments of the past year in the American fisheries question on the west coast.

The government announced that construction work preliminary to the establishment of a fast Atlantic service via Newfoundland will be begun next summer. During the session of the legislature the feasibility of establishing a system of old age pensions will be considered. The government proposes to allow increased grants for leprosy, harbor works, orphanages and for education in the poorer districts.

Syrian Stricken in Court Thursday

Open Air Treatment Made Prisoner Worse; Defence Scored a Point in Getting Before Jury Testimony Affecting Murdered Woman's Character.

(Special to The Telegraph.)

Fredericton, Jan. 9.—Tom David, being tried here on a charge of murdering his wife, was taken ill in the prisoner's box this afternoon and as a result the trial had to be postponed until tomorrow. The prisoner has not been himself for several days and has not been able to partake of solid food. Last night in his cell he was taken ill and Dr. Ahernton was called to attend him. He seemed to be suffering from an attack of intestinal gripe. The doctor prescribed for him and he appeared to be somewhat improved this morning and informed the court that he was willing that the trial should proceed.

Shortly after court opened this afternoon he was seized with a fainting spell, and by order of the court was taken out for a walk in the open air. Dr. Leary, of Lowell, who is attending court as a witness, examined his pulse and found it up to 120. The prisoner returned to court after fifteen minutes exercise in the open air and the doctor found that his pulse had gone up to 135. He gave him a stimulant and informed the judge that the prisoner was too sick to remain in court. David was then taken back to jail and the court adjourned. His condition is reported to be unchanged this evening and it is doubtful if the trial will go on tomorrow.

Abdallah Moses, of Lowell, who was on the stand in the morning for the defence, finished his testimony this afternoon. He stated that the prisoner's father in Syria had acted strangely at times, but it was before his marriage. He did not know that it was customary in Syria to stamp with hot metal the heads of people suffering from sore eyes. He had heard that the prisoner's head had been stamped in that way.

Mark Hesson, of Lowell, who had known David in Syria, was on the stand when court adjourned.

Morning Session. Rapid progress was made with the crown's case in the David murder trial here this morning. Three witnesses were examined and at twelve o'clock Solicitor General Jones announced that he would rest his case reserving the right to call Dr. Griffin of Woodstock later.

Mr. Hazen in outlining the case for the prisoner intimated that he would prosecute the time he and his wife were together, but not responsible for his action. He held that the worst that could be proved against him was manslaughter. He proposed to show by witnesses that there was insanity in the prisoner's family and that he himself had frequently suffered from brain trouble.

The prisoner looked very pale and lagged when brought into court this morning, and it was learned that he had been sick and under the care of a physician during the night. He told the court, in answer to a question, that he felt well enough to go on with the trial.

Reid Aboud, of Woodstock, was recalled and cross-examined by Mr. Hazen, but nothing new was extracted from him.

Dr. W. D. Rankin, of Woodstock, was called and told about assisting to perform the operation upon Mrs. David in Woodstock hospital. He was assisted by Drs. Griffin, Grammer and Sprague, physicians. The condition of the patient and the nature of the wound were described by the witness. The post mortem examination convinced him that the woman would have died even if the operation had not been performed; her bowels were perforated in six places and peritonitis was the cause of death.

Dr. Grant gave evidence along the same lines as Dr. Rankin.

James Andrews, a Syrian, living at Woodstock, was the last witness examined by the crown. He talks poor English, and being very deaf, made a lot of trouble for the counsel. He related a conversation he had with David at Woodstock on July 6th. Witness spoke to David about the relations of his wife with one Charles Nicholas, and David in reply used the words "my soul is sweet and I'll give her a 32."

To Mr. Hazen he said "32" might mean 32, as David said that amount on him. To the solicitor general he re-examination witness said David had used the words "number 32."

Mr. Jones strongly objected to the admission of any evidence reflecting on the moral character of the deceased woman. (Continued on page 7, seventh column.)
