WESTMINSTER REVIEW.

We are indebted to Leonard Scott & Co., the American publishers, for the October number of the Westminster Review.

This number is attractive and its contents varied, consisting of the following:—Militia Forces. Rousseau; his Life and Writings.

Spiritual Freedom. Modern Poets and Poetry of Italy. Physical Geography of the Atlantic Ocean. Garibaldi and the Italian Volunteers. Tennyson's Idylls of the King.

Bonapartism in Italy. On the scope and treatment of these articles there is no room for comment in a passing notice, and we content ourselves with this brief notice.

There is one feature, however, in the Westminster—one at first sight apparently subordinate and unattractive—to which it is proper that attention should be particularly invited.

We allude to the brief notices of the publications of the day under the comprehensive head of Contemporary Literature, which follow immediately after the articles forming the main part of the Number. In this department are found concise critiques on such books published during the preceding quarter as are not made the topic of elaborate essays and reviews.

The new works are classified under the several heads of—Theological Literature, History—Biography—Voyages and Travels, Politics, Science, Belles Lettres, &c., thus affording a valuable synopsis of the recent advances in all departments of literature, and one which may generally be taken as a reliable guide as to the literary or scientific standing of the works commented on.

Continental, as well as English and American publications, all meet on common ground; the aim of the Review in this division, being to give accurate information as to the positive merits, value and character of the several works whose publication is announced, not, as often in the more formal articles, to supercede particular criticism by independent dissertation.

Price of the four Reviews and Blackwood, \$10 a year.

Mind your own Business.

It may seem a broad assumption, and be condemned as an exaggerated expression, yet we are constrained to believe that if the practice which seems so completely and fanatically to influence multitudes of mankind to meddle, to pry into and acquaint themselves with other people's business—to comment and judge with freedom and harshness upon their manners and actions when profoundly ignorant of the motive or cause, and report and discuss all their impudent assurance has discovered, no matter at what sacrifice of justice or truth, or how much to the detriment or injury to the person under espionage, were completely wiped out from practice, two thirds of the sin, the disturbance and malice current in human society would be utterly expunged. Were all the idle regiment now engaged in completing Satan's mischief, to seek some useful employment, and make over their motto and rule of action, obeying strictly its sentiments and teachings, would they not toil to much greater profit and pleasure than to labour where the "wages is death" and a most happy reformation the result? It is almost a universal fact, that each community or neighbourhood, however small or retired, numbers among its members a class who find no employment, other than attending to the corners of others, too many of whom profess belief and obedience to the precepts and teachings of that neglected Book whose moral code and elevating and ennobling sentiments have never yet been equalled here, utterly ignoring and forgetting its commands and exhortations.

"A little fire kindleth a great matter." So, even one of these Paul Pry's in a community, whose tongue and limbs are never weary in reporting, commenting, and spreading all that his prying curiosity has learned, will stir up strife in brotherhoods, sunder friendships, and destroy the peace of families, and harmony of neighborhoods. And how little peace and quiet, time to work with their own hands, can one have who is constantly occupied in meddling and studying into the affairs of others? No action or business, however private or personal, is sufficiently sacred or respected, to prevent their Argus eyes from discovering, or their unweary tongues from publishing in detail, and criticising and remarking freely, as the good may find them.

How much of the unhappiness and evils in society may be traced to such a source—innocence blighted, character defamed, friendship made a mockery, and life a burden, by these vampires in human society.—There can be no advantage or improvement derived from such a class. "They have taught their tongues to speak lies, and weary themselves to commit iniquity."—Their friendship is the charm of the basilisk—their company the shade of the Upar.

—like a moral pestilence. Before his breath, the healthy shoots and blooms of social joy and happiness decay."

Rich and full are promises to the attentive and industrious, and "the hand of the diligent shall bear rule"—while the tale-bearer shall be cut off, and to the slothful want shall come as an armed man, and though he beg in harvest he shall have nothing.

—Rural New Yorker.

PARISIAN SKETCH.

A friend living in the Faubourg du Temple, went out at a late hour of winter evening, to make a pistol without lock to the gunsmith's.

Turning at the corner of the canal, he was stopped by a man of ferocious aspect, who demanded his life or his purse. It related that Orelay escaped, when placed in a similar predicament, by a pun: our friend adopted the readier plan of taking his pistol from his pocket and placing it at the highwayman's breast.

"Follow me to the next guard-house, or I'll pull the trigger!" he exclaimed.

As it was dark, the robber did not perceive that he was threatened by an imaginary lock. He had recourse to the supplication usual in such cases.

"Sir, do not ruin me!"

"It is to save you, on the contrary, that I lead you to the guard-house."

"I am the father of three children."

"I have six."

"I have a wife who depends upon me for support."

"And so have I."

"Indeed, I am not in reality a wicked man."

"Neither am I. Come, it is late, and rather cold by the water side. March, or I shall fire."

The robber was obliged to follow our friend to the guard-house. They arrived there just as a patrol came in. Our friend related his history. The robber was examined, and discovered to be an escaped convict, of whom the police had been for a long time in search.

Our friend was duly congratulated upon his presence of mind, and energy which he had displayed.

"But," added the officer in command, "I regret to say, I shall be under the necessity of bringing an action against you."

"Why so?"

"Because it appears from your own avowal, that you carry arms upon your person, without the authority to do so."

Our friend then exhibited his pistol, and showed to the officer, that, without the lock, it was no arm at all.

"Not so," said the officer, "a pistol, is always a pistol. I must put your name on the charge sheet."

The robber, turning to our friend, said to him:

"Sir, you have deceived me. May what happens to you now teach you that bad faith and lies always receive, sooner or later, their punishment."

A man died very suddenly in Pennsylvania from the effects of whiskey. The beverage was analyzed, when the chemist reported that he found in it the poisonous constituent of cocculus indicus. The proportion found was two grains to the pint of whiskey. This poison is considered fatal to human life in quantities of from five to ten grains according to circumstance and conditions.

It makes an immense difference whether a man looks at the world before or after dinner. What is cloudy at one o'clock, is full of sunshine, roses and smiles at three. If you wish to think well of this mundane sphere, don't look at it on an empty stomach.

The annual sales of Boots and shoes in Massachusetts amount to one hundred and fifty millions of dollars.

Why is love like a canal boat? Because it is an internal transport.

A man is most properly said to be "ripe for anything" when he is a little mellow.

A friend in the country writes us that he is "breaking colts." All we have to say to him is—save the pieces.

MY THIRTIETH BIRTH DAY.

"So teach us to number our days, that we may apply our hearts unto wisdom."

Thirty years of life are past,

Thirty years I've reach'd at last,

Thirty years of joy and grief,

Thirty years! but yet how brief.

Thirty years in mercy given,

Thirty years to fit for heaven,

Thirty years of records sealed,

Acts that cannot be repealed.

Thirty years; I scan the past,

To cull the hours I've from me cast;

How vain the task and fraught with pain,

They never can be mine again.

How chequered are those thirty years,

How full of joy, how full of tears;

How often clouds obscured the way,

How often night, how often day.

The bitter cup of grief I've drained,

With anguish deep my soul been pained,

What blasted hopes, what anxious fears,

Have followed me these thirty years.

And yet, what joy has been my lot,

Never in God's great heart forgot,

Mid darkest shade of sorrow's night,

I've seen the gleam of morning light.

I gaze along my thirty years,

And strive to count the joys and tears;

But all my ills as nothing are,

When with the blessings I compare.

O God! Thou source of life and light,

Guide Thou my future years aright,

That many, or though few they be,

I may devote them all to Thee.

I would not seek to turn aside,

From duty's path where'er it guide;

But with an earnest heart I pray,

For grace sufficient for my day.

Keep me from all presumptuous sin,

From foes without and foes within,

The Christian's life, O let me live,

And his reward in glory give.

WM. R. BOWEN.

ON THE DEATH OF A BROTHER.

The following beautiful lines, were selected by children, as being appropriate to the recent death of their brother:

Death has been here, and home away

A Brother from our side;

Just in the morning of his day,

As young as we he died.

Not long ago he fill'd his place,

And sat with us to learn;

But he has run his mortal race,

And never can return.

Perhaps our time may be as short—

Our days may fly as fast;

O Lord, impress the solemn thought

That this may be our last.

We cannot tell who next may fall

Beneath thy chast'ning rod;

One must be first; but let us all

Prepare to meet our God.

ARRIVAL OF THE CANADA.

The steamship Canada, which left Liverpool on the 5th, and Queenstown evening of the 7th, arrived at Halifax on the 19th.

The Canada experienced severe weather in the Channel and for a week after leaving Queenstown. Hon. Charles Sumner and Gen. Van Rensselaer and lady are among the passengers.

PEACE NEGOTIATIONS.

A Paris telegram of the 4th, says that the French and English Governments had completely agreed on a basis of a Congress, which is to be held at Brussels. All that remained to be settled was the official ratification from the English Government.

GREAT BRITAIN.

The Great Eastern left Holyhead on the 2d, and reached Southampton on the morning of the 4th. She experienced very rough weather and a heavy sea on the passage round.

The Times account of this third trial says:—when the ship was exposed to the

roll of the Atlantic, she rolled and dipped but with ease. The motion is described as peculiar, the ship seemed to swing herself with a peculiar sidelong motion over every wave, dropping deeply and easily beyond them, with a regular slow roll, and often quite deep enough to leave one paddle wheel out of water high and dry in the air. This motion of the vessel is attributed to her very light immersion, and to the fact of her having no upper weights to counterbalance the coals stowed below.

The whole roll of the vessel is calculated at only eight degrees each way, or 16 degrees in all—an every day amount to smaller vessels, though something for one which was supposed to be almost immovable by wind or sea.

The great speed attained was over 13 knots, or close on 18 miles per hour. The run from Holyhead to Southampton is pronounced far more satisfactory than either of the previous trips. The engines were under the sole control of McLennan, the Chief Engineer of the ship.

The new Cunard steamer just contracted for with the Napiers of Glasgow, is to exceed the Persia by 500 tons, and will in every respect be larger and more powerful than that vessel. Efforts are to be made with her to surpass anything afloat, both as regards speed and internal arrangements.

The coroner's inquest upon the bodies washed ashore from the Royal Charter, occupied several days, resulting in a verdict that "the lives were lost by pure accident,—that the Captain was perfectly sober, and did all he could for the ship and passengers."

Divers continued their operations, but without any important result. 46 bodies had been found altogether.

At no time since the Russian war had greater activity been observable than at present at the Woolwich arsenal in preparation of war material for coast defences and for China. The fortifications at Dover, are to be extended forthwith, and several batteries reconstructed.

LONDON, Saturday, P. M.—The funds were steady and firm throughout the day.

The organization of the French army for China is considered definitely settled, and preparations at the sea ports for embarkation have already commenced.

FRANCE.

Beni Sassoan has submitted to the conditions of peace dictated to him. These tribes will give hostages and will pay tribute.

It is stated that the French Government has resolved on establishing from December next a naval station in the Red Sea, in imitation of England.

Cholera had broken out among the French troops destined to invade Morocco, and carried off several distinguished officers, including Col. Lafont, commanding the Engineers. The ravages exceeded fifty men per day; total deaths 1500.

The Paris Bourse was steady but dull. Rents closed on the 4th at 69.75.

The Russian squadron of 6 vessels will remain at the Russian Mediterranean station, Villafraña, during the winter. The statement is reiterated that the Pope has promised to grant the reforms recommended by the Emperor Napoleon, after the insurgents of Romagna have returned to their allegiance.

The Papal Government has again prohibited the exportation of Indian Corn, which had been permitted since June last.

INDIA.

The India mail with telegraphic news via Ceylon to Oct. 14th, from both Bombay and Calcutta, had reached Marseilles. No political news. Exchange at Calcutta 2s 3d to 2s 3d.

CHINA.

A private despatch from Hong Kong of Sept. 28th reports the import trade good, both at Canton and Shanghai. The settlements of silk showed an increase, and advance of 20 dollars during the fortnight.

AUSTRALIA.

The mails from Sydney to Sept. 14th, and Melbourne 17th, were telegraphed, and would reach London Nov. 7th. Lloyd Kelly & Co., Merchants, who stopped payment in London last May, had been made bankrupt at Sydney, with liabilities £250,000 sig. and assets to a comparatively small amount. The July mails had arrived out.

The first batch of Election returns had gone against Ministers, several of whom had been defeated.

Imports heavy; trade dull. There was considerable speculation in Mining Companies, some of which were mere bubbles. The supply of gold was kept up. The shipments since last mail exceeded 240,000 ounces, of which 68,402 were by the ill-fated Royal Charter.

Scrofula, or King's Evil,
is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by malarial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing virus, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending from parents to children, and the first and fourth generations "index" it, as it is the root of him who says, "I will visit the iniquities of the fathers upon their children."
Its effects commence by degeneration from the blood of corrupt or malarial matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which renders the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by diseases which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which debilitates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.
One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in
AYER'S
Compound Extract of Sarsaparilla.
the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedial that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. As it is so much employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERYSIPELAS and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSA, OR ERYTHRAEL, PIMPLES, PUSTULES, BOILS, BLAINS and BODIES, TUMORS, TETTER, and SALT RHEUM, SCALD HEAD, ITCHING RHEUMATISM, SYMPHYTIC and MERCURIAL DISEASES, DROPPY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,
FOR ALL THE PURPOSES OF A FAMILY PHYSIC.
are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search and cleanse, and give every portion of the human organism, correcting its diseased action, and restoring its healthy vitality. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.
Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is authorized to furnish gratis any American Almanac containing certificates of their cures and directions for their use in the following complaints: Constipation, Headache, Hoarseness, Stomachic, Stomach, Nausea, Indigestion, Pain in the bowels, Location of the Bowels, Flatulency, Loss of Appetite, Jaundice, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral
FOR THE RAPID CURE OF
Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumption in advanced stages of the disease.
So wide is the field of its usefulness, and so numerous are the cases of cures, that every section of country abounds in persons who have been restored from alarming and desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to need observation, and where its virtues are known, public no longer hesitate what attitude to assume for the distressing and dangerous affections of pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefit on the afflicted, and can never be forgotten, and produced cures too numerous and too remarkable to be forgotten.

The Great European Remedy for Nervousness, Relaxation and Exhaustion.

Protected by Royal Letters Patent of England, and sanctioned by all the great Continental Colleges of Medicine.

DR. DE ROOS' GUTTE VITE, or LIFE-DROPS, are the great remedy for Spasmodic, Exhaustion, Nervousness, Debility, Aversion to and Inactivity for Society, Study or Business, Shaking of the Hands and Limbs, Indigestion, Flatulence, Shortness of Breath, Asthma, Consumptive Habits, Dimness of Sight, Dizziness, Pains in the Head, Eruptions, Sore Throat, Pains in the Bones, and all those diseases for which mercury, sarsaparilla, &c. are too often employed, to the utter destruction of health. Their almost marvellous powers must be felt to be believed. Hundreds of apparently hopeless cases have been cured, and thousands almost miraculously relieved, when every thing else had failed; and they must sooner or later supersede all these questionable remedies which have hitherto been the sole reliance of English medical men.

Price 11s., and four times the quantity at 33s. per bottle, of the Agents below. The 25 packages containing twelve 11s. quantities, (by which 21 12s. are saved,) will be sent from the Establishment, on receipt of the amount per draft on London house or otherwise.

CAUTION.—Sufferers must guard against the recommendation of spurious or other medicines by unprincipled vendors, who thereby obtain a larger profit. The words "WALTER DE ROOS, LISSAUX," are printed in White letters on the Stamp affixed to the above, by order of HER MAJESTY'S HONORABLE COMMISSIONERS, to protect the public against fraud, as without this none can be genuine, and to imitate which is felony.

Agents, speedily, and most successfully, cure, treating Spasmodic, Nervous Debility and all Urinary Disorders.

Seventy Engravings. Price 1s. through all Book-sellers, or post free from the Author per 14

postage stamps.

THE MEDICAL ADVISER on decaying, both mental and physical, arising from excesses, infection, climate, &c.; remarks on the use of the Microscope, and the devices of certain quacks to alarm the public, and to gain observations on Marriage, the prevention and removal of certain disqualifications; rules for self-treatment, &c. By WALTER DE ROOS, A.D., of the Ecole de Medicine, Paris; Member of the Royal College of Surgeons, London; Lecturer in Midwifery, &c. &c. 19, Berners-street, Oxford-street, London. Hours for Medical consultation daily from 1 till 4, Sunday excepted.

be Sold in Dublin by Barry, 162, Great Britain-street; Edinburgh, Robinson, 11, George-street; Glasgow, Love, Book-seller, and by all the Agents.

From long practical observation of the treatment pursued in the various Institutions of London and Paris for those diseases referred to in the above, the Author has had some of his own facilities for acquiring that accuracy of diagnosis, and uniform success, which have characterized his practice for so many years in this country, in which the honorable neglect of these diseases by medical men generally, and their futile attempts to cure by mercury, sarsaparilla, &c. have produced most distressing results. Lasting benefit in such cases can only be reasonably expected at the hands of the legally qualified medical man who devotes his chief attention to their removal, and to whom only who can show his possession of the necessary qualifications, can confidence be safely extended.

DR. DE ROOS refers with pride to the numbers he has been instrumental in restoring to health and happiness; and to those who have need of such aid, he offers every assistance of speedily restoration.

Persons residing abroad can be successfully treated by correspondence, on sending a full detail of their case, with a Bank note, or Bill, on a London house for £5, in order to have a packet of medicines sufficient to meet the exigencies of the case, sent out by next mail; thus avoiding unnecessary loss of valuable time, and much suffering which might otherwise occur.

Pains in the Back, Gravel, Lumbago, Rheumatism, and Discharges of the Kidneys and Bladder, stricture, &c.

DR. DE ROOS' COMPOUND RENAL PILLS are a well known safe and speedy remedy for the above dangerous complaints, Discharges, and Discharges of the Kidneys and Bladder. Possessing tonic properties, they agree with the most delicate stomach, improve the health, and in three days effect a cure when copious, cubeb, and all such dangerous medicines have utterly failed. With the above Pills, the sufferer may without the knowledge of a second person, cure himself speedily, privately, and at the least possible expense.

Sold at Langley's Drug Store, Hollis-street, Halifax, Nova-scotia; by Hazard, Charlotte-town, Prince Edward Island; Ward, Nova Scotia; Sydney, Cape Breton; Ashton, Richmond, Cape Breton; Madras, Hulse & Nepheve, Agents; Treacher & Co., Poonah and Kutch; Smith & Co., Seinde; Dodsworth & Co., Calcutta; Hume & Co., Calcutta; Colman and Candy; Lyman & Co., Montreal; Pestonjee & Co., 1, Military Square, Bombay; R.
