**A Colorado Mining Camp.**  
A correspondent at Leadville, Co. says the rush to this wonderful camp continues at a rate heretofore unknown in the history of Colorado mining town. All day long may be seen footmen, horsemen and loaded wagons coming and going the main streets. When night arrives and with it the numerous coaches from the valleys, a perfect mass of human beings are emptied into the streets and begin the hunt for beds; a task in which all do not succeed. Many must be content with a shelter and a few blankets while others crawl back into the coaches and remain there for the night. However, they usually find quarters the next day. There are but few who escape

ould perform, and we'

searchable to buy bread a few  
seconds, only serves to stimulate the  
fortunate to greater exertions. Such  
the extent of the precious deposits that  
most all have faith that they will re-  
it by going deep enough. Amuse-  
of all kinds draw well. Four thou-  
are now in operation and have  
houses nightly.

**An Astonished Editor.**

An exchange says: "We find in  
our table one of the newest of pict-  
It is beautiful in design, small,  
showing great artistic skill in its  
up. The prevailing colors are  
and black, the two blending so har-  
moniously that the effect is pleasing in  
highest degree. We shall not, of course  
presume to give an exact description  
this picture, but some of the charac-

ny, then I went into  
That was two years

thrown on the ground, his head is thrashed back, his left foot extended, and, altogether, his appearance is that of a challenging another to mortal combat, waiting for the other fellow to knock the chip. His eyes are cast upward, resting on the word *fl—* Hello! what's this? Great snakes! if it isn't a dollar bill! We took it for some kind of a chromo that had come in the mail. But we see how it is—either the devil has been robbing a bank or a delinquent subscriber has been science-stricken."

In the British House of Commons another attempt has been made to settle the burial question. In place of Osborne Morgan's bill Mr. Balfour has moved a Burial Law Amendment Bill, which, he explained, aimed at attaining three objects—to give relief to the clergy of the Established Church, to preserve endowments for their original purpose, and to provide that any Nonconformist should be buried in the parish churchyard with such religious services as his friends desired. Moreover, the measure provided that wherever there was a cemetery within three miles of a churchyard the Dissenters should have no right of burial in that churchyard; and if cemeteries should in the future be made where none at present existed, the churchyards within three miles of these cemeteries should revert to Churchmen. The bill was intended as a sort of compromise, and as such proved satisfactory to neither party. It met, therefore, the unenviable fate of being talked out of the House; and now Mr. Morgan threatens to renew his bill.

In France the Government has carried its measure providing for a partial amnesty to political offenders, in opposition to an amendment for a general pardon. The Government do not, however, yet find perfectly smooth sailing. The Chamber of Deputies has constrained M. de Marcere, the Minister of the Interior, to resign, by adopting substantially a motion assailing the Prefecture of Police. M. Leon Say, the Finance Minister, is the object of severe attacks in the Paris journals. In this there is nothing to endanger the existence of the Ministry, much less the safety of the Republic.

#### NEWS AND OTHER ITEMS.

From later accounts it appears that the British lost full 1,500 men in the late disastrous fight with the Zulus at Rorke's Drift.

A Winnipeg despatch says:—Sitting Bull is encamped close to the boundary line, so that he can hunt on both sides.

In a single county in Texas there are 556,000 sheep, a larger number than in any other county in the Union.

The British ship *Adriatic*, which stranded at Dunkirk on the 16th ult., had on board 49 passengers, only seven of whom are known to be saved.

Forty-eight failures were reported in New York last month, with liabilities reaching \$912,669—a reduction of five in number and \$500,000 in amount from January's returns.

Prince Louis Napoleon, who has received his education in England, sailed last week for South Africa, where he has enlisted as a volunteer, and will be permitted to join the staff of the Royal Artillery.

Edward O'Kelley, the last of the Fenian prisoners who have been confined since 1872 on Spike Island, in Cork Harbor, arrived at New York on the 27th ult., his life sentence being commuted to banishment.

The United States Marshals at Chicago have arrested in Pekin and Peoria, Ill., about fifty persons charged with whiskey frauds. Some of them are the wealthiest citizens, representing every branch of business. One of the chief witnesses against these men is a disinherited son of John McIntire, the wealthiest distiller in the section.

Five County Court Judges in Virginia were indicted, last week by the United States Court for the Western District of Virginia, on a charge of withholding from negroes the right of serving on juries. This action causes much excitement and the State Senate has adopted resolutions bringing the matter as soon as possible before the U. S. Supreme Court.

Further investigation into the case of Mr. Barron, Treasurer of the Dexter (Me.) Savings Bank, who was found dead in the vault of that institution a year ago, forces the conclusion that he was killed by burglars, as at first reported, instead of committing suicide in order to cover up a deficiency, as subsequently claimed against him.

Mr. Seward, United States Minister to China, now undergoing investigation for official acts, was brought before the bar of the House on the 28th ult., for contempt in refusing to produce certain books demanded by the investigating committee; and after a rather disgraceful scene he was discharged on his own recognizance, after Mr. Seward made a speech in which he claimed that the books were to be used against him by his personal enemies.

Neal Dow, in answer to the *Tribune's* question, "Are we never to know the exact truth respecting the operation of the Prohibitory law in Maine?" in discussing a report of a committee unfavorable to its workings says: "The committee of the Maine Legislature to which you allude was packed in the interest of rum, and even of this only a minority would join in the shameful, mendacious report you quote. Side by side with this were publications in the press stigmatizing this report as being shamefully false, charging the signers of the report with 'putting their names intelligently or ignorantly to a shameful falsehood.'"

Trying to do business without advertising is like winking at a pretty girl in the dark; you may know what you are doing, but nobody else does.

### The St. Andrews Standard.

SAINT ANDREWS, MARCH 12, 1879.

#### THE MEGANTIC RAILWAY.

##### A FAVORABLE PROPOSITION FROM AN ENGLISH COMPANY.

A few weeks ago, reference was made by the STANDARD to the Harbor of Saint Andrews—its advantages and adaptability for a winter sea port for the Dominion, and it is our intention to follow up the subject shortly. We have studiously avoided publishing anything with reference to the Megantic Railway terminating at St. Andrews, as we have no desire to raise false hopes in the minds of its residents, and likewise because we do not possess definite information on the subject. It is scarcely necessary to state, that we earnestly hope the "missing link," or section, may be speedily built, and that the line may have its terminus at this Port.

We have had the privilege of reading a letter recently received by a prominent gentleman here from wealthy parties in England, largely engaged in the importation of cattle and meats from Canada, enquiring about the progress (if any,) of the Megantic Railway with St. Andrews for terminus and shipping port.

The letter states that the Company have £700,000 sterling invested in the business of importing cattle, etc., and are now building

##### FOUR LARGE IRON STEAMSHIPS

for this trade, of special construction, and they appear to believe from information and facts, that

##### ST. ANDREWS PRESENTS MANY ADVANTAGES FOR THE SHIPMENT OF LIVE STOCK.

The company also state, that stock are too frequently shipped on board steamers for England from the United States and Canada without rest after long railway journeys; and that if farms or pasture lands of a few thousand acres could be obtained near the Town, to turn the cattle out upon for a week previous to shipment, the mortality during the voyage would be nil, or nearly so, and the cattle would be landed in Liverpool in much better condition, and consequently would be more valuable.

The company are quite certain that

##### ST. ANDREWS WOULD BE THE GRAND CENTRAL EXPORT FOR ALL CANADA.

at all seasons of the year, on the completion of the link of railway connection, which is estimated by them to cost £750,000, which amount could be obtained without difficulty; as also money for Harbor Improvements, Grain Elevator, etc., when proper charters are granted; the last named are estimated by them to cost £300,000.

The company have both the means and the will to carry out this enterprise, and it is important that every information should be given as early as possible.

Surely the foregoing, which is from reliable sources, is to say the least, very encouraging, and every facility should be offered the company by the residents of this Town, which was the first to project and build a railway in the Dominion; and which has profited less by its enterprise, than localities which were opposed to railways being built, but which availed themselves of their construction, by using them for rapid transit, and tapping them by interesting branch railways, and using every means to divert the traffic from the main line, without which they still would be wrapped up in their primitive methods of locomotion. How true it is, that the pioneers of large undertakings and improvements who have spent their means, their efforts and the best part of their lives in promoting such enterprises seldom enjoy the fruits of their labors. Not one of the original promoters of the first railway in British America—the "St. Andrews & Quebec"—(now the N. B. & C. Railway) who in 1835 ordered the first survey of the line and afterwards built it to Richmond, is now living. The writer set the first article written on constructing the line, and the Press used at the time, is the same which prints the present impression, and perhaps may yet perform the service of publishing the opening of the Megantic Railway to an Atlantic sea port, perhaps, the good old Town of St. Andrews. As was said in the commencement of this brief article—we do not wish to raise false hopes, or publish anything of a sensational nature, but concur in Pope's comment—

"Despise of nothing that you would attain, Unwearied diligence your point will gain."

Several important bills have been introduced in the Legislature, and have been advanced a stage; among them a bill to amend the School Act, a bill abolishing preference claims for rent, which creates a preference claim for landlords. A bill to reduce the representation in the House of Assembly, which has reference to counties having more than two representatives, and will affect the Counties of Charlotte, Kings, York, County of St. John, Westmorland, and Northumberland. This bill is a step in the right direction, but we fear it will not pass. We have already too much legislation, as well as legislatures; at the present rate of taxation, which is increasing yearly, something should be done to lessen the cost of legislation and the sooner, the better. We trust the bill to abolish the Legislative Council will be passed, this small Province can get along without it, as the large and rich province of Ontario has done. The two last mentioned measures, if passed will materially lessen the expense of legislation and consequently the taxes.

GRAND SOUTHERN RAILWAY.—The subject of the Grand Southern Railway was under discussion in the House of Assembly, and from it we gather the following, the answers of the Government:—

No guarantee has been asked for an advance of \$180,000, to aid in the purchase of iron. No deposit was asked for to pay for rails.

No debentures or money have been made since May last. No advances have been requested or promised.

The Government do not know that claims against the Company for land damages or other claims have been paid.

The work of grading has been suspended since May or June. The Government does not know of any investigation being made as to the ability of the Company to complete the road.

THE BUDGET.—Mr. Tilley was to lay before Parliament on Tuesday, the new tariff, and on Friday next, deliver his Budget Speech. We trust his eyesight will be thoroughly recovered, and that his strength will be established, before entering upon his great and responsible duty of explaining the National Policy—moderate protection and revenue. It is reported in some journals that the Budget cannot be brought before the 1st April, which has been the time heretofore for passing the tariff.

##### SHIP LOST AT GRAND MANAN.

##### The Captain and Seven Men Lost.

The ship "Turkish Empire," Captain West, which left St. John on Thursday morning, 6th inst., for Liverpool with a cargo of deals, Richard Cline, pilot, and proceeded down the Bay; during the night the wind blew strongly from S. E., accompanied by a snow storm, which may well be remembered as the heaviest of the season, during which the ship struck on Big Duck Island to S. E. of Grand Manan, and became a total wreck, and we regret to add that the Captain and seven of the crew met a watery grave. The crew consisted of sixteen men before the mast, besides the Captain, first and second mates, boatswain, carpenter, cook and steward. The vessel and cargo were insured; the mate arrived here on Sunday last in the steamer "Stroud." The Captain was a native of Albert Co., and was married. The men were natives of European countries.

CROWN LAND REPORT.—We are in receipt of the 18th Annual Report of the Crown Land Department, printed in the *St. Croix Courier* office. It is not so lengthy as the Report for 1877. The receipts for Crown Lands for 1878 were \$111,343.93, being an excess of 1877 which were \$102,832.31, the increase being \$8,511.62. The report states that the receipts from sales of land have fallen off, no large tracts having been sold during the past year. The total quantity of land surveyed for settlement in 1878 was 49,929 acres in various counties, 2,592 were at Canoe in this County. Reports are given from the new settlements, which are encouraging.

A FATALITY.—About three weeks ago W. H. Heffernan, a small, thick set man, nearly thirty years old, red hair and whiskers, a little lumpy, and using a cane, visited St. Andrews, as a lecturer on temperance, manliness and kindred subjects. He engaged board at Morrison's Hotel, where he remained nearly three weeks, living on the fat of the land, and during that time he gave occasional lectures in the Reform Club Hall on Manliness, Temperance, etc., which were well attended, and for which he received compensation, but he lacked honesty, and failed to pay his board bill, although, in portmanteau to do so, promising to pay each morning, until he cleared off and crossed the river to the States leaving behind at the hotel an old empty valise. He urged manliness on others, while he lacked it himself, or he would have paid for his board and lodging. As a warning to others, publishers will please pass him round as a tramp of the meanest kind.

St. Andrews, Feb. 28, 1879.

#### TOPICS OF THE WEEK.

THE Astrachan plague has appeared in St. Petersburg.

MR. RIVARD, was elected Mayor of Montreal by a handsome majority over Mr. Beaudry, its former belligerent mayor.

IN RIO JANEIRO the yellow fever has broken out among the shipping; the health of the north-east provinces is improving.

THE City of Portland commenced her spring trips on Monday last, so that there will be two steamers between St. John and Boston each week.

MR. LYNOTT introduced "further relating to Municipalities." This contemplates an increase in the number of Councillors for the Parish of St. George.

THE CONTRACTS for building the Light-house at Grand Manan have been awarded to St. John mechanics. \$1,500 for Southern Head, \$1,050 for Grand Harbor.

THE ZULUS are beginning to feel the arms of Britain. Col. Pearson was attacked by a large force of Zulus but defeated them, and Col. Wood has captured a large number of cattle.

MR. ELIHU BURRITT, the learned black smith, died at New Britain, Conn., on Thursday last. He was acquainted with Latin, Greek, Hebrew, Russ, German, Danish, Norwegian, Icelandic, Gaelic, and other languages.

BUSINESS is improving on the Railway. Produce, Sloopers, &c., are coming by each train.

As the vessels are preparing to commence freighting for the season, we may look for arrivals and departures every week.

STEAMBOAT WHARF COMPANY.—At a meeting of the St. Andrews Steamboat Wharf Directors, held yesterday at 11 o'clock a. m. in E. Polley's office. Mr. Wm. Whitlock was appointed President and E. S. Polley, Secretary for the ensuing year. The wharf having been repaired during the past year, is now in thorough order.

Two young girls who were in the Children's Home, Boston, were adopted by parties living in California. The girls have grown to womanhood without seeing each other but a legacy of \$1,100 was left them by an uncle in Nova Scotia, which led to their discovery and a renewal of acquaintance.

FOUR AT A BIRTH.—Not long since a poor woman in the Province of Quebec, presented her husband with triplets, for which she received the Royal gratuity of \$12 from the Princess. And now at Montreal a Madame Rolland has given birth to four, two boys and two girls. She will probably receive \$16.

THE bill introduced in Parliament for the repeal of the Insolvent Act, is meeting with favor. Mr. Colby is gaining adherents every day to the measure. It will be the means of preventing speculators shaking off their liabilities; many of them not having means to lose, which make them reckless and indifferent to consequences.

A NEW BISHOP.—The dead lock at the election for a Bishop of Toronto, led to a compromise between the contending parties, and Archbishop Sweetman was elected Bishop. He is an Englishman of great ability, and a graduate of Cambridge, where he took a high honor degree. He has been in Canada for 18 years, and was Archbishop of Brant.

WHAT NEXT.—Mr. Cowper, an English mechanical engineer, has invented a telegraphic writing machine. The writer in London moves his pen, and simultaneously at Brighton another pen is moved, as though by a spirit hand in precisely similar curves and motions, the ink marks in Brighton. It is said to be as wonderful as the telephone.

MR. D. F. CAMPBELL, while on his way home from St. Stephen, on the evening of the 7th, to make a short cut drove over the lakes, as he did in the morning while going up. The air was so thick with snow, that he lost his way, and found himself back near the inlet of the second Chamook lake, where there were air holes and the ice thin. The sled having broken through the ice dragged the horse with it, and gave Mr. Campbell a ducking. After getting his horse free he betook himself to a house near by, where he remained until next morning; and then went to recover his sled and load which he accomplished. It was fortunate that he warned some parties who were driving after him of the danger of their following his tracks as it is not unlikely they too would have broken through the ice.

#### Canada's Policy: Dissatisfaction in England.

Toronto, March 10.—A special by cable dated London 8th, to the "Globe" says: "In the Commons Sir George Campbell gave notice that he will at a future day ask the Chancellor of the Exchequer whether the Government had information authenticating the report of the speech which the British Governor General of Canada delivered in his official capacity at the opening of the Dominion Parliament, in which he recommended a re-adjustment of the tariff for the purpose of increasing and encouraging the industries of Canada; thus distinctly advocating a protectionist policy, at a time when Her Majesty's Government are striving against a similar policy by foreign governments, and if so, whether the Government considers it desirable to continue the connection of this country with Canada under such disadvantageous and humiliating terms."

THE VETO ON THE CHINESE BILL.—As has been hoped, and by many expected, President Hayes has refused to Congress the Act for restricting the immigration of Chinese to the United States, with objections to its adoption. In thus acting the President has met the wishes of the vast majority of his countrymen, and has saved the country from the enforcement of a law which would have resulted in great mischief and reproach. He has thereby strengthened his hold upon the Republican party, and has given another proof that he is worthy of the exalted office he sustains. The bill as originally passed by the House of Representatives was confined in its provisions to an attempt to restrict the immigration of the Chinese by providing that not more than fifteen Chinese passengers should be brought to this country by any one vessel. As amended by the Senate, and thus presented for the signature of the President, it included an additional and independent provision which aimed at, and in exact terms required, the abrogation by this Government of Articles 5 and 6 of the Treaty with China, commonly called the Burlingame Treaty, through the action of the Executive enjoined by this provision of the act. Nothing could be more sweeping and threatening than the provisions thus made; and allowing even that the evils complained of demand redress it was matter for very serious thought whether the adoption of this bill was the wisest method for the removal of the grievance.

The *Fortnightly Gazette* is the title of a paper published in Brantford, Ont. Small as it is, it has five editors, among them our young friend C. M. Rubidge, who was here a couple of years ago. The articles are well written, and we trust the venture will prove remunerative to the proprietors.

The *Montreal Star*, an ably conducted journal, independent in politics, and with an average daily circulation of 14,776, has recently opened an Employment Bureau which is working admirably.

A. T. Stewart's body has been again positively discovered. This item will occur hereafter at irregular intervals in the New York papers when other sensations are scarce.

We have received a pamphlet of 122 pages, a return to address for "Copies of the Petition addressed to the Governor in Council, by the Hon. Messrs. Chabouss, Church and Auger, praying for the dismissal of His Honor Luc Betteleur, Lt.-Governor of the Province of Quebec," of his answer, and the reply made by the petitioners, and all papers relating to the subject. As the matter is now before Parliament, its decision is daily looked for.

A severe accident happened on the Intercolonial Railway, on the 6th inst., near Springhill Station, N. S., arising from a misunderstanding. Two trains met on a curve; by which the trains were demolished and one of the drivers killed, the fireman severely injured, the other sustained injuries which may prove fatal, as well as the conductor.

The Investigating Committee of Mr. Potter on the question of Presidential fraud has submitted a report to Congress, adopted by the votes of the Democratic members. It simply reviews the election in Florida and Louisiana, and sums up the Democratic evidence in favor of the charge that there was fraud by Republicans in those States, and in Louisiana electoral certificates. As the result it declares that Tilden and Hendricks were entitled to the electoral votes of those two States in 1876. A minority report of the Republican members of the Committee has since been presented, in which the either messages are freely commented upon, and the attitude of Mr. Tilden is severely condemned. For practical purposes the report appears to be valueless. It is on each side an *ex parte* statement, and has very much the appearance of an electioneering manifesto.

THE Vitalizing Nutritive-Tonic qualities of ROBINSON'S PROSOPHIZO-EMULSION OF COD LIVER OIL WITH LACTO-PROSEPT OF LIME would indicate its great value as a Restorative and Invigorator, in that low condition of the System prevailing in patients recovering from Diphtheria as well as Puerperal, especially those of a Typhoid character; while, if taken when the premonitory signs of lassitude and weakness appear, it would have a tendency to prevent the attack, or lighten and shorten its duration. The cases in which it has been used fully bear out this hypothesis. It stimulates the enfeebled powers, and builds up and gives fresh life and vitality to the whole system. Prepared solely by J. H. Robinson, Pharmaceutical Chemist, St. John, N. B., and for sale by Druggists and General Dealers. Price \$1.00 per bottle; six bottles for \$5.00. m12

MAILED.—On the 28th ult., at Bay Side, by the Rev. Mr. Millen, Mr. George Hill, of St. David, to Mary Ann, daughter of Mr. Henry Simpson, of Waver.

#### HOLLOWAY'S

WHEREAS, I have discovered a new and powerful medicine for curing all kinds of skin diseases, such as Eczema, Psoriasis, and other eruptions, and for restoring the system in general, I have no objection to its being sold by all who are desirous of curing the same. Now I declare that I have no authority to name in any way, holds no power of any connection with Persons publishing the name of Joseph Holloway, or the name of the Province, will be published in any way, I have no Agent, are my medicines. George Hill, of St. David, to  
fer of Mr. Henry Simpson, of

### CAUTION. HOLLOWAY'S PILLS & OINTMENT.

WHEREAS, I am informed that one JOSEPH HAYDOCK, of New York, is making and selling Pills and Ointment under the name of HOLLOWAY'S PILLS and OINTMENT, and that the same are being sold by certain persons in the British Provinces of North America, to the detriment of the Public, and also to my injury and loss.

Now I declare that the said Joseph Haydock has no authority whatever from me to use my name in any way. He is not my Agent, -He holds no power of attorney of mine, nor have I any connection with him whatever.

Persons publishing the said counter-fit Medicines of Joseph Haydock, or keeping for sale, or selling the same in any part of the British Provinces, will be prosecuted according to Law. I have no Agent in the United States, nor are my medicines sold there.

Every Pot and Box of my Genuine Medicine bears on the label the address, 533 Oxford St., London, and has affixed to each, the British Government Stamp, with the words Holloway's Pills and Ointment engraved thereon.

The Trade Marks of my said Medicines are registered in Ottawa.

Signed THOMAS HOLLOWAY.  
533, Oxford Street, London. }  
Jan. 28, 1879. } m3-4w.

GEO. D. STREET.  
BENJ. R. STEVENSON.

### THE GREAT CAUSE OF HUMAN MISERY.

We have recently published a new edition  
of DR. CULVERWELL'S CELEBRATED ESSAY  
of the radical and permanent cure (without  
medicine) of Nervous Debility, Mental and Physical  
Incapacity, impediments to Marriage, etc.,  
resulting from excesses.

It is in a sealed envelope, only 6 cents,  
or two postage stamps.

The celebrated author in this admirable Essay  
clearly demonstrates, from thirty years successful  
practice, that alarming consequences may be rad-  
ically cured, without the dangerous use of inter-  
nal medicine, or the application of the knife;  
pointing out a mode of cure at once simple, cer-  
tain and effectual, by means of which every suf-  
ferer, no matter what his condition may be, may  
cure himself cheaply, privately and radically.

This Lecture should be in the hands of  
every youth and man in the land.

Address  
THE CULVERWELL MEDICAL CO.  
41 ANN ST. New York.  
P.O. Box, 4586.

CORDAGE, Lines and Twines, Pitch, TAR, RESIN Oakum. Best brands AMERICAN  
Kerosene OILS. -Just received -an assortment of Chairs, BEDSTEADS, MAIDS.

All of which will be sold at the LOWEST Market rates.

### Parks' Cotton Yarns!

Awarded the Only Medal Given at the  
Centennial Exhibition

For Cotton Yarns of Canadian Manufacture.  
No. 5's to 10's.

WHITE, BLUE, RED, ORANGE AND GREEN.  
Made of Good American Cotton with great care  
Correctly numbered and Warranted Full  
Length and Weight.

WE would ask the purchasers of Cotton Yarn  
to remember that our Yarn is spun on Thor-  
tle Frames, which make a stronger yarn than the  
King Frames, used in making American yarn.

It is also better treated and more carefully reel-  
ed; each hank being tied up in 7 leas of 120  
yards each. This makes it much more easy to  
wind than when it is put up without leas - as the  
American is - and also saves a great deal of  
waste.

Those acquainted with weaving will understand  
the great advantage it is to them to use yarn put  
up in this manner.

### COTTON CARPET WARP,

Made of No. 10 Yarn, 4-Ply Twisted.  
WHITE, RED BROWN, SLATE, &c.

All fast colors.

Each 5 lb bundle contains 10,000 yards in  
length and will make a length of Carpet in pro-  
portion to the number of ends in width.

We have put more twist into this warp than it  
formerly had, and it will now make a more dur-  
able Carpet than can be made with any other ma-  
terial. Since its introduction by us a few years  
ago, it has come into very general use throughout  
the country.

All our goods have our name and address upon  
them. None others are genuine.

WM. PARKS & SON.  
New Brunswick Cotton Mills,  
June 19 - 80 ST. JOHN, N. B.

### BENJ. R. STEVENSON.

BARRISTER & ATTORNEY AT LAW

Solicitor, Conveyancer, Notary Public &c.  
Real Estate, and Insurance Agency

Offices, - - St. Andrews, N. B.  
(St. George, on Saturdays.

### THE Examiner and Chronicle,

[ESTABLISHED IN 1823.]  
An Eight-page Weekly Journal of the  
Largest Size.

Outspeaking, Wide-Awake and Popular.

MANY THOUSANDS THE MOST WIDELY CIR-  
CULATED

BAPTIST NEWSPAPER IN THE  
WORLD.

Besides giving special heed to the principles  
and progress of the denomination of which it is  
a part, the paper includes the whole field of  
Christian journalism. Its carefully edited ar-  
ticles are:

Late Leading Events - Vigorous editorials  
and Short News Notes, giving a carefully  
prepared summary of the week's news.

Topics of the Times - A series of articles  
equal in ability to the best type of Review  
articles, by the best writers of our own and other  
denominations.

The Pulpit and the Platform - Sermons by  
Rev. C. H. Spurgeon and others, or a lecture by  
some layman, such as Mr. Joseph Cook.

A Sunday School Workshop - Expositions of  
the international series, with Side Light Topics  
and Chips from the brightest sayings and writ-  
ings of prominent Sunday school workers.

Literature, Science and Art - Reviews by emi-  
nent specialists and competent critics, with oc-  
casional notices of periodicals. Notes and  
Queries, a column of lively Chat, and the facts  
of general interest in Science and Art.

The Religious News of the World - Editorials  
on subjects of denominational and general reli-  
gious interest; Baptist "News and Notes," fresh  
and fuller news of our denomination than is given  
by any other paper; OUR GENERAL OUTLOOK,  
all the really important news about other de-  
nominations.

Our Young Folks' Page - Original stories by  
writers whose names are regularly found on the  
title-pages of St. Nicholas and Wide Awake,  
and a Puzzler's Realm which is a favorite with  
all the young people.

House, Farm, and Garden - An Agricultural  
department unequalled in any weekly religious  
paper in this country to which practical farm-  
ers, stock breeders, etc., of the first rank are  
regular contributors.

Besides these, there are Educational Notes,  
Missionary Sketches, Letters of Travel, Reviews  
of the Markets, etc.

For sample copies (and terms to canvassers  
address P. O. Box 3835, New York City.

Terms: \$2.50 a year in advance. Postage  
prepaid by the Publishers.
