BISHOP FALLON SHOULD ACCOUNT HIMSELF WITH THE CLERGY BEFORE DENYING DIVORCE, SAYS THE OPINION OF PROTESTANT CLERGY

"The Bishop Must Have Been Hiding in the Cellar If He Had Not Heard of Outspoken Pronouncement On Divorce Made at the Social Service Council," Says Rev. T. D. McCullough.

The opinion of the Protestant clergymen of the city seems to be entirely opposed to the statement made on Sunday by Bishop Fallon that the voices of the social uplifters had not been raised against the divorce menace, particularly in connection with the proposed divorce of Dean Tucker.

When questioned by The Advertiser on the matter, Very Rev. Dean Tucker said that the Church of England was absolutely opposed to divorce and that clergymen of the church were forbidden to perform the marriage ceremony in the case of divorced persons.

"Our bishops and synods have placed themselves on record on this question, and doubtless some definite action will be taken at the proper time," he said.

Dean Tucker is president of the Social Service Council of Canada, which took the matter up at its recent meeting in this city.

"I absolutely deny the right of the Roman Catholic Church to assume that it is the only guardian of the fidelity of married persons and of the sanctity of the home," said Rev. T. D. McCullough, secretary of the Social Service Council.

"The Social Service Council, which is the only body in Canada that has taken up the divorce question, with which Bishop Fallon must have been acquainted before he made his statement, is absolutely opposed to the divorce of Dean Tucker," said Rev. T. D. McCullough.

Ottawa, Feb. 14.—Canadian Press.—The fifth session of the 13th Parliament of Canada opened this afternoon at 3 o'clock, when His Excellency the Governor-General attended in the new senate chamber.

The session, which opened today, is expected to be full of activity. Members of the opposition are determined, they say, to force an early election, and some of the government supporters are expected to carry on further and that the people of Canada should be given the opportunity of saying who shall govern them.

The opening ceremony today was carried out with much pomp and circumstance. The governor-general was provided with a guard of honor from the mounted police and the mounted rifles.

ANOTHER CRISIS IN PROPPING RAILWAY PROBLEM

Report issued by the Ontario Board Regarding Street Car Situation Shows That City's Inaction is Causing the Commissioners to Become Restive.

That another crisis in London's street railway problem is rapidly approaching is clearly indicated by the report for 1920, which was issued today. This document was prepared jointly by the Street Railway Company and the Ontario Railway and Municipal Board. The work of the company covers operation from January 1 to June 15, while that of the board deals with the rest of the year.

It is quite apparent that the board is growing restive at the inaction on the part of the city. The introduction to the report by Chairman D. M. McIntyre states: "It is not contemplated by the act under which the board is constituted that the board should be called upon to take possession of the street railway, but the board's possession and operation would be a last resort to the city in the event of its failure to carry out its obligations under the act."

"The board feels that it need not further emphasize the features of the situation, which are plain and obvious, and it mentions them merely for the purpose of pointing out the need for prompt action looking to some workable solution of the problem. The board's solution of the problem is to be a solution which will meet the present and future requirements of the city."

The statement of the board's financial position shows a deficit of \$118,485. The gross earnings were \$517,327. The operating expenses were \$635,812. The net deficit of \$118,485 is the result of the board's financial position.

The general balance sheet lists the total assets of the company at \$1,377,285. The road and equipment is valued at \$1,439,953, while the net assets in trust valued at \$1,192,313 bring the total to \$1,066,160.

Liabilities \$66,495. Current liabilities include accounts payable, notes payable, accident insurance and outstanding tickets, amounting to \$66,495. The board's financial position is a result of the city's inaction.

The two strikes which occurred during the year were costly to both company and employees. The direct loss to the company due to the strikes was \$12,757.

Operating Costs. In a comparative statement of operation from 1915 to 1920, the secretary points out that while the earnings of the company increased, the operating expenses did so in a much greater amount. The increase in operating expenses was \$147,123.

Reason for the company's refusal to do paving and other improvements was in the fact that they were unable to secure further capital after 1917, as they were no longer paying dividends. The board's financial position is a result of the city's inaction.

Continuing, the secretary's report states: "It will be noted that improvements were made to the road and equipment in each year from 1915 to 1919. The company was unable to secure any new capital after the year 1917, due to the discontinuance of dividends."

APHASIA VICTIM IN ST. JOSEPH'S HOSPITAL

Andrew Elliott Has No Recollection of Trip From Flint.

Suffering from a form of aphasia, which is a loss of memory, Andrew Elliott, formerly of London Township, is in St. Joseph's Hospital under the care of Dr. Kenneth Maclean. Mr. Elliott had been working in Flint, Michigan, and has no conscious recollection of how he got back to London. Five days ago he came into Dr. Maclean's office accompanied by another man, whom he called George. In reply to questions, he constantly kept turning to his friend and saying: "You know, George." His friend, however, seemed to know very little about Mr. Elliott, although he appeared to have been responsible for bringing him to the doctor's office.

It is not a complete case of aphasia, Dr. Maclean states, and some slight improvement is already noticeable. At first the patient claimed to have been poisoned, but could not remember where or how. The case is a very interesting one, the physician states, and he is now waiting for a day by day the patient's memory is being gradually restored to him. High blood pressure, Dr. Maclean states, is the cause of the patient's illness. Mr. Elliott is about 55 years of age.

MACBRIDE RULED OUT OF I. L. P.

Recent Action in the House Is Given As Reason.

TORONTO, Feb. 13.—Mr. MacBride, member of the Ontario Legislature for South Brant, and former mayor of Brantford, has been ruled out of the Provincial Independent Labor party, because of the alleged opposition of Mr. MacBride to the best interests of the political labor movement in Ontario. The decision to exclude Mr. MacBride was taken at a meeting of the executive of the Independent Labor party here on Saturday and was a sequence to the Brant member having "crossed the floor of the House" and taken up a position at variance with the Labor group.

A statement, signed by President J. W. Buckley and Secretary Joseph Clarke, of the Independent Labor party, which has been given to the public, concludes as follows:

"The executive of the Provincial Independent Labor party has decided that Mr. MacBride is no longer to be recognized as a representative of the Independent Labor party in the Ontario Legislature."

ALFRED H. BEDDOME
DIED THIS MORNING

Was Former Manager of the
Bank of Montreal Here.

After a long illness, Alfred Henry Beddome, for a period of 25 years manager of the Bank of Montreal here, died at his home in the Hayman Court Apartments, this morning at 9 o'clock. Mr. Beddome was born in this city in 1867, and was a son of the late Fossick Beddome. He was married to Mrs. B. B. Beddome, and was promoted rapidly until he was made manager in Montreal. TODAY'S MAILS WEIGHTED

DOWN WITH FREIGHT OF "LOVE"

The little god cupid seems to have been busier than usual this St. Valentine's season, so busy in fact that the day after yesterday, when the merchants forgot for a time the business slump, and shovelled bright silver pieces and crisp bills into their money boxes with happy, smiling faces.

"More valentine cards have been sold this year than ever before," declared one shopman. And the "posters" quite believed it, when they gathered up their roses and went to the flower shops to purchase at the flower shops, although one merchant, laughing, remarked that "everything from a daisy to an orchid" had been bought, and hinted at something about "flowers telling their own story." For the first time it happened upon the advertiser reporter that florists who would be excellent hunting-grounds for "stories." For, although the bluethe petals are needed, the flower man is proficient in the language of flowers and their interpretation, and what couldn't he tell you about St. Valentine's Day was named in honor of Bishop Valentine, who died in the year 276 D. of the 14th of February, a day which the Romans had long since celebrated as a lovers' festival.

The ceremony of the festival was performed by the young men who chose their sweethearts by drawing names from a box.

In the days of chivalry it became the custom for the girls also to draw from the valentine box, choosing their cavaliers and at the time the exchanging of poetical effusions first became a habit.

In England and Scotland during the seventeenth century the St. Valentine's customs came to include the sending of such valentines as a "Turkeystone set in diamonds, a dozen pair of gloves and some of the most beautiful and in addition to the usual decorated cards and mottoes of the day.

Between 1830 and 1839 there appeared a number of treatises: "The Lover's Instructor," "Cupid's Directory," etc., which offered "extensive selections of original valentines and answers, for every trade and class of people." Lamb wrote, during this decade: "St. Valentine's is the day on which the two penny postman sinks beneath a load of delicate embossments not his own."

Burglars Surprised at Work;
One Winged by Householder

Night Intruder Shot by W. T. Orchard, Beaconsfield Avenue, But Escapes With Accomplice—Police Follow Blood-stained Tracks, But Fail To Make Capture.

Returning to their home at 79 Beaconsfield avenue at 8:40 p.m. yesterday, Mr. and Mrs. W. T. Orchard surprised two burglars at work upstairs. Fearing them attempting to escape, Mr. Orchard instructed his wife to call the police, while he, while he rushed to the front door to prevent escape by this route. He saw them climbing through a bedroom window onto the front porch, and, armed with a revolver, he fired at them. The burglars beat a hasty retreat back into the house, and the police followed them in this direction. However, it was discovered that the burglars had escaped through the back window upstairs.

That Mr. Orchard was not alone in his attempt to capture the burglars was evidenced by blood stains on the front porch, and on a white spread on a bed over which the pair had to climb when they fled from the front porch by revolver fire. Nothing was stolen from the house, and it is surmised that the burglars had just escaped through the back window upstairs.

MRS. H. O. PETERS
Kansas City, Mo., whose experience with Tanlac has been nothing less than wonderful, declares her husband. After her improvement he takes it himself, and his health is also restored.

"One day a friend persuaded my wife to take Tanlac and the results have been nothing less than wonderful. Her troubles have not only entirely disappeared, but she has actually gained twenty pounds in weight and now seems to be in perfect health. She has suffered for eight years with headaches, nervousness and loss of appetite and was in a badly run-down condition. She could not eat much, had pains all through her body and limbs and was so weak at times she could hardly stand on her feet. She was losing weight and gradually getting worse all the time in spite of all we could do."

"After seeing the splendid results my wife was getting I began taking Tanlac myself and before I had finished my second bottle, I was eating things I had not dared touch before in a long time. I am now eating just anything set before me and my appetite is fine. I suffered for five years with the worst kind of stomach trouble and nervous indigestion, but it has relieved me entirely. We both owe Tanlac a great debt of gratitude."

The above enthusiastic statement was made recently by Herbert O. Peters, well-known citizen of Kansas City, Missouri, residing at 534 Walnut street.

Tanlac is sold in London by Standard Drug, Limited, and by an established agency in every town.

WILL FIGHT PROPOSAL FOR EASIER DIVORCE

Catholics At Meeting in Chatham.

CHATHAM, Feb. 12.—That the proposed provincial legislation making divorce easier will meet with a great deal of opposition from Roman Catholics of this city was made manifest at a largely-attended meeting of the Holy Name Society here this morning. The society went on record as being strongly opposed to any legislation which would make divorce easier. They further stated that such legislation would make divorce easier in the holy sacrament of marriage, and a call will be made within a few days, urging united Catholic action against such a measure.

It is believed that similar action will be taken up by every Catholic parish in the diocese of London. It is a well-known fact that the hierarchy of the church in Ontario is strongly against the proposals to make divorce easier, and the movement to fight such legislation will be spread, not only among the making of the apparatus mentioned, and asks for an accounting of profits and for damages.

HYLA STREET MAN IS STILL MISSING

Mother and Three Little Children Are Left Alone.

Thomas Charles Spencer, 22 Hyla street, disappeared from his home last Thursday, and it is said, Miss Annie Winkworth, who was a visitor at the Spencer home, has not been seen since Thursday. When he left home he was supposed to have been taking a new job.

According to Mrs. Spencer, who says that she is facing a \$50 grocery bill, a \$500 mortgage on their home, and the problem of providing for her three children, aged five, nine and eleven years, her husband met Miss Winkworth in England about three months ago, it was to be due in part to the operation of a branch bank at Naples, Italy, which the commissioner had requested him to discontinue some time ago.

As Mrs. Spencer has just concluded nursing the three children, who were all suffering from scarlet fever, she is nearly able to bear the shock and feeling of uncertainty which followed the disappearance of the pair.

The above enthusiastic statement was made recently by Herbert O. Peters, well-known citizen of Kansas City, Missouri, residing at 534 Walnut street.

EGG PRICES AGAIN LOWER
Now Selling at 45 Cents Per Dozen Retail—Potatoes Also Decline.

Egg prices again slumped on the local market on Saturday. Wholesale they brought 40c per dozen and retail 45c per dozen. The supply was large and demand was active, but there was no sign of them becoming firmer. Officials say they will drop to lower levels this week.

The present potato price is the lowest since last fall. They bring \$1 per bag, wholesale and \$1.25 per bag, retail. Potatoes have been subject to sharp declines lately and there are indications that prices will continue to fall. The drop is based on the fact that there are still heavy supplies in the country.

Each Monday hay is always in large supply and the result is that prices become lower. Today the quotation was \$22 per ton. Clover and timothy prices were also at the same price. There was no straw offered today.

Buyers of live hogs say that their prices will be \$13.50 to \$14 per hundredweight for the shipment on Wednesday. They also indicated that there was a demand.
