Singular Scenes in the British House of Commons.

The Election in New South Wales Was a Signal Free Trade Victory-Mr. Gladstone's Letter Declining to Visit the United

States.

Cholera Spreading. VIENNA, Aug. 1 .- It has transpired that cholera has been raging in several districts in the Duchy of Buckeolina for the last week. At Saghush yesterday there were 25 new cases and at Bueca 18. In Poland the disease is rapidly spreading.

The Gold Was Gone. PARIS, Aug. 1 .- The cask which contained a large amount of American gold and which has been reported as missing, has been found at a suburban station between Havre and Paris. It was empty. It is now stated the cask contained only

\$10,000. Accident to Bismarck's Carriage. BERLIN, Aug. 1 .- While Prince Bismarck was taking a drive on Varzen road on Monday the horses became unmanageable and plunged into a bog by the roadside, dragging the carriage with them. Assistance was at hand, and the horses and vehicle were extricated with difficulty. The Prince was not burt.

Col. Denison Denounced.

LONDON, Aug. 1 .- President Johnson of the Suffolk College, where twenty students are training for farm life in Canada, has in today's newspapers a letter strongly denouncing Col. Denison's recent utterances against the United States. He "The results of stirring up ill-will between countries so situated as the United States and Canada must be lamentable in the extreme. The only right and prudent course is to foster the firm friendship which is steadily increasing among the Englishspeaking people of the world."

Signal Victory for Free Trade.

LONDON, Aug. 1 .- The full returns of the recent elections in New South Wales show that the free trade party under Sir Henry Parkes and Mr. Reid won a more signal victory than at first appeared. The new House will consist of 125 members. the free traders numbering 65, the protectionists 40, and the labor representatives 20. The majority of the labor representatives now lean to free trade instead of protection, a mild form of which they assisted Sir George Dibbs in imposing on the colony a year or two ago. The labor element is much weaker in the new Legislature than in the old, its representatives numbering but 20 as against 34 in the last

Terrified Turks.

CONSTANTINOPE, Aug. 1 .- Fearing epidemics if the people are any longer allowed to remain huddled in the gardens where they sought refuge at the time of the earthquake, the Constantinople Government is compelling the terrified people to return to their homes. A majority of those living in the gardens refuse to obey, in spite of the fact that the stench in the encampments is great. The feeling of panic continues, and slight earthquake shocks are experienced daily. The city of Constantinople, the Prince's Island and half of Stambul are practically depopulated, and the masses are in a state of horrible destitution. The action of the Government in concealing the degree of mortality resulting from the earthquake has resulted in the spreading of the wildest reports, although it is believed in well informed circles that the total loss of life was not over 500.

British Parliament-A Scene.

LONDON, Aug. 1 .- In consequence of the action of the Unionists yesterday in deciding to abstain from further participation in the discussion of the Evicted Tenants Bill the front Opposition benches were vacant when the House of Commons resumed consideration of the bill today.

In the House of Commons today

Thomas Sexton denounced the conduct of the Opposition in regard to the Evicted Tenants Bill as rancorous and sullen. The House was menaced by the Lords' rejection of the bill, but such threats had no weight with the people of Ireland. Let the House of Lords do their worst, he declared. Rejection of the bill meant great difficulty in Ireland, whose people were passing through another period of agony; but, Lords or no Lords, the principles of the bill would ultimately prevail. (Cheers.)

When the members of the Opposition were called upon to move their amendments they made no reply.

Robert W. Hambury had given notice of 70 amendments, and Messre. Bartlett. Broderick and Heneage of from 20 to 40 each. Their successive refusals to respond to their names were met with derisive cheers from the Irish members.

A Letter From the G. O. M.

the original copy of Mr. Gladstone's letter rather shaky, irregular handwriting, but is fairly legible, only the signature being blurred. The latter is scrawling and in most respects wholly devoid of the former characteristic neatness of Mr. Gladstone's signature. It is as follows:

"Under these circumstances, however sanguine as to the eventual issue I may feel, I am incapacitated from the contraction of prospective engagements, and I am sure that you and the many distinguished gentlemen who joined you will feel with me that this is the only reply that I can make to your invitation. I beg you to accept and convey to them the assurance of my grateful thanks and unalterable interest in your country.

"Believe me most faithfully yours,

"W. E. GLADSTONE. "To the American Invitation Committee." To this letter Col. Gourand replied today. He said in part:

"The invitation had its inception in March, when it was understood you were in excellent health and were contemplating travel for recreation. Upon hearing of the impairment of your sight the invitation was deferred until it was reported you were entirely recovered from the recent operation. I repeat that the sentiment of all who joined in the invitation write in expressing regret at your decision as well as the occasion for it."

Formal Declaration of War.

LONDON, Aug. 1. - Lord Kimberley, Secretary of State for Foreign Affairs, immediately upon the receipt of the notice from the Japanese Government that war had been declared wired all the British Ministers abroad to warn captains of merchant vessels of the fact in order that they might form their cargo accordingly. Any contraband of war comprised in cargoes will be handled at the risk of the owners or charterers of the vessels.

The Japanese, Sir Edward said, hadfor many years abandoned the plan of building armored battle ships, preferring to rely upon a larger number of fast cruisers. This class of vessel, of which there are many in the Japanese navy, have no armor on their sides, and are built with very thin plates.

The Hi-Yei and the Kongo are composite ships, with armor belts protecting their are unable to resist even the fire of the smallest machine guns, although the engines and other parts below the water line are that these vessels are practically defenseless they have enormous attacking powers, which are furnished by their great speed and their splendid batteries of quick-firing bruises. The Yoshino has a record of 23 knots per hour, but though she is formidable by reason of her speed and armament, she can only engage in battle at close range at the risk of destruc-tion, owing to her lack of defensive plating. On the other hand, however, she is able to inflict an immense amount of damage upon slower ships of inferior armament.

China, Sir Edward Reed said, had no such ships as these. She possesses only three ironclad cruisers, and the maximum rate of speed attained by two of them is only sixteen and a half knots an hour. Although the Japanese may be expected to be the more successful at the outset, their lack of armored ships will be found to be serious before the war can be brought to a conclusion. Democratic State Conventions Indorse Cleveland and Tariff Reform.

The Trust-Serving Senators Denounced Outright-Immediate Passage of the Wilson Bill Asked.

JACKSONVILLE, Fla., Aug. 2.-At the State Democratic Convention yesterday the

following resolutions were passed: "We recognize with pride the unswerving integrity and patriotism of President Cleveland, his executive ability, his wisdom in maintaining a sound and stable currency, and his steadfast adherence to Democratic principles.

"We approve the course of the Democratic House of Representatives of the United States in its efforts to relieve the people of all unjust taxation and burdens. We condemn the course of the Democratic Senators of the United States who are resisting the just demands of the immediate representatives of the people. From the people the Democratic party received its power; to the people its first duty is due." SOLID IN IOWA.

DES MOINES, Ia., Aug. 2.—At the State Democratic convention yesterday the resolutions adopted reaffirm the platform of the National Democratic Convention of 1892. and demand of Democratic representatives in Congress that they carry outthesame in good faith, "by giving us a tariff law that will lay the duties on imports and revenue alone, and thereby destroy trusts, combines and organizations that have been robbing the people and depleting the treasury, a system that has destroyed our commerce with the world at large, driven out ships from the high seas; that has filled our country to overflowing with the panper labor of Europe; that has bred anarchy, confusion, unrest and disloyalty throughout the land, made war between capital and labor; that has sown the seed of war and rebellion among the people; that has brought livorce to Mrs. Park, wife of Richard ruin to the business interests of the country, and want to millions of our people who seek to earn an honest living by industry. Again we say to our Congress, redeem the pledges made to the people, and for all time make an end of paternal and class legislation. Especially do we commend President Cleveland in his efforts for tariff reform. His letter to Representative Wilson is a manly, outspoken document, and meets our most hearty approval, and we condemn any and all efforts made to impede the passage of real tariff reform."

PASS THE TARIFF BILL. GUTHRIE, O. T., Aug. 2 .- In the Demccratic Territorial Convention at El Reno yesterday the resolutions as finally adopted indorsed the Administration, declared for free coinage of American silver, and demanded that Congress at once pass a tariff bill based on the Chicago platform.

THE APPENDICITIS FAD.

Popular Errors About Grape Seeds Ex-

pleaed. A prominent doctor who has performed a score of successful operations for the removal of that troublesome and inexplicable part of the human anatomy, the vermiform appendix, says that the general impression that appendicitis is caused by the presence in the appendix of a cherry stone, or a currant seed, or a seed of any kind, is entirely erroneous. "I have not found a seed in the appendix of a single one of my cases.' he said. "A small bit of digested matter gets into the little sac, if the neck of it is open far enough to receive it. It may remain there for years and cause no trouble, and then, again, it may bring on appendicitis immediately. Where the patient is in good health, in four cases out of five the operation for the removal of the appendix s successful. There is a great difference in the length of time taken by surgeons to perform this, or in fact any delicate operation. There is one surgeon in the city who has performed the operation in eighteen minutes, which included the time from the moment the patient was brought in on the operating table until he was ready to be taken out. This is half the time that it requires the majority of skillful surgeons to do it. Of course, speed is not

everything. "The appendicitis fad, as the craze among rich people to have their vermiform appendices removed is called, still continues unabated, and there are few surgeons of prominence who are not familiar with the performance of the operation. A story s told of a doctor who is constantly ordering the removal of the vermiform appendix for patients. He was called to see a gentleman one evening who was rather seriously injured. The gentleman when he recognized the doctor said: 'Oh, it is you; then I

must have appendicitis! 'Doctors who have allowed the appendicitis fad to carry them away have performed the operation upon a great many people whose vermiform appendices were in good condition, and in some cases patients having weak constitutions have died because of the needless slit in their abdomens. I am very glad to explode that theory about the grape seeds and other seeds, especially as the grape season is just coming on. People who have heard about appendicitis have given up the luxury of small fruit in fear of appendicitis, and some of the extremely sensitive ones have even been constantly worried lest some seed they had swallowed in the past might give them this disease-which is among the rarest of diseases, anyway."-[New York World

'Kid" Spencer Sentenced.

"Kid" Spencer, who was with Burke and Wilson at the time of Detective Harry Phair's murder bere, was given a nice long term on two charges of robbery at Toronto yesterday. He admitted that he broke into Mrs. Lillian Alexander's house at 60 Brunswick avenue, and stole \$300, and also into Mrs. Hewlett's house, Rose avenue, taking \$150. He put whisky down as the cause of his troubles. Detective Porter had so many cases worked up against him that the "Kid" thought it better to plead guilty. He was given four years in the Central, the other charges being not pressed. The mother of Spencer was charged with receiving some rings that were taken from Mrs. Alexander's house. A clear case was proven against her, and the crown attorney ex-plained her relationship with the last prisoner. "Well, she has had punishment enough," said the magistrate, and he discharged her. Spencer was the youth who ran away after Wilson had shot Phair.

Indiana Man Attacked by the Reptile

While Cleaning a Well. JEFFERSONVILLE, Ind., Aug. 2 .- Andrew Litzler was yesterday attacked by a copperhead snake three feet leng. Litzler was engaged cleaning a well, and after having attained a depth of 35 feet he was confronted by the reptile coiled behind a piece of timber. Observing Litzler the snake hissed and afterward made a lunge with its poisonous fangs, biting him in several places on the legs. The snake then coiled around Litzler's body in its efforts to get at his throat. Litzler says that he then seized the copperhead by the neck and held him until taken from the well. On his reaching ground Litzler's wounds were badly swollen. He was conveyed to the nearest physician and the bites cauterized. He suffered great agony, and it is thought he

The Street Railway Company's Proposals

So Slashed That Their Authors Would Hardly Recognize Them. The Offer Saddled With Numerous

Riders and Amendments-New It Goes to the Company. The recent proposition made by the street railway company emerged from the council last night in a guise that will render it a very bard matter for the company that

proved to be a good one to build another on, and the aldermen built with might and main. They sat up until nearly miduight, and every clause they dealt with was amended. There was a fair crowd present to listen to the discussion. Ald. Judd was the only member absent. The work of the council started at 8:15 on clause 6, relating to rails. Ald. Carrothers objected to the use of the "T" rails mentioned in the clause. They were dangerous to wagons, he said. Thos. Jones seconded Mr. Carrothers' motion,

drew it up to recognize it again. The offer

street railway company could use rails similiar to the present ones only heavier. Ald. Scarrow said that if the company used the grooved rails laid down on Dundas street west it would no doubt be satis-

Mr. Carrothers' motion was carried, and clause will be inserted later on giving the city the option of naming the rails to be Material was mentioned in the clause,

which read that the company would furnish its own material. The words at "its own expense," were added. The next clause dealt with the manner n which the city was to take over the road at the end of the term of the franchise. It provided that the city, by giving 12 months

notice in writing, could take over the road by paying for the cars, rails, pavement, plant, etc. Mayor Essery got down, and moved that the clause be altered so as to strike out the part obliging the city to pay for the pavements and roadbed. 'If we paid for the rails," said he; "if we paid for the ties, for the poles and wires; f we paid for the cars, and the car houses, and the power houses or electrical stations,

I think we are paying for all that the railway company ought to expect. The clause further read that if no notice be given twelve months prior to the expiration of the franchise the company is to have the privilege of continuing for five years. On the suggestion of Ald. J. W. Jones and O'Meara the time was made one year instead of five.

Ald. O'Meara seconded the mayor's mo-Aid. Pritchard said that if the corporation ordered an expensive roadbed to be laid down within a few years of the end of the franchise it was only fair that the company should be paid for the unexpired

value of the roadbed. Ald. Parnell expressed the opinion that the roadbed should belong to the city as an that-until they tied our hands with offset to the value of the 31-year franchise. The mayor's motion carried, only Ald.

son employed on the cars to work more than 60 hours a week, fair days and holidavs excepted. Ald. Taylor thought the motion was arbitrary. If a man wished to make a little extra or if anything happened on the read a man would be debarred from working.

Ald. O'Meara said that Mr. Parnell's motion was to protect the public as well as the men. Aid. J. W. Jones was satisfied with the clause as it was. Ald. Carrothers moved that after the

words "ten hours to constitute a working

day" there be inserted "motormen, conductors, engineers and firemen to work only nine hours a day. This would require two sets of men to do the work. Mayor Essery spoke in favor of the tenhour movement, and amended Mr. Parnell's motion so that statutory holidays and fair days should not be excepted. It was just as necessary to have a ten-hour rule on

those days, and even more so, than on an ordinary day.

Mr. Joseph Marks was present in the interests of labor. He said the clause as drawn up by the company was not worth the paper on which it was written. He wanted ten hours a day and no overtime. There was nothing to prevent the company from giving their employes about 50 cents for the ten hours and then allow them to

make about \$1 25 by overtime. Mr. John Johnston and Mr. Andrew Johnston followed Mr. Marks on the same lines.

Ald. Coo favored the mayor's resolution, which carried. A great deal of discussion arose over the next clause. It dealt with extensions, and a motion of Ald. O'Meara and J. W. Jones. giving the council the option of saying when future extensions will be made, was voted down.

DEBS DONE WITH STRIKES.

Remarkable Speech by the Leader of

the A. R. U. "The Managers Were Whipped" Until the Strikers Were Fettered With Injunctions and Terrorized

by Troops.

CHICAGO, Ill., Aug. 1.—Eugene V. Debs arrived from Terre Haute today. He returned to Chicago to preside at a convention of the A. R. U., which will be held tomorrow, to decide whether the railway strike shall be officially declared off, or, if it be continued, to formulate a new plan of operation. If the delegates think as Mr. Debs does today tomorrow's convention will probably conclude that there is nothing to be gained by continuing in a strike

in which they are beaten. "I will never again have any official connection with a strike," said Mr. Debs today, and in what followed he admitted or the first time that the A. R. U. strike

had resulted in a failure. "The organized elements of society are opposed to strikes," he continued, "and so long as strikes are repugnant to society it is useless to inaugurate them. We might start in now and organize a strike on the most extensive plan, but it would end inthe company should supply the material at evitably as this one has. We had the railtheir own cost, and at the end of the time road managers whipped-everyone knows junctions and brought out the troops. Gen. Miles came here for the express purpose of

beating the strkers, not to preserve order. The next clause, relating to the taking over, was amended to conform with the did not try to get our side of the question, and two days later he announced triumphthe strike. Under these circumstances it is vain to hope that anything can be made by striking. We must vote out of office those men who seem to think labor is entirely wrong and capital always in the right when there is a dispute between the two interests. The strike has served a good purpose in that it has another object lesson, to show the masses how they must achieve their rights. I do not say the A. R. U. will become a political organization, but I think there will be a spontaneous awakening of all organized labor to the necessity for unified action at the polls.

DULUTH, Minn., Aug. 1—The coal bandlers at Superior held a meeting last night and voted to go to work whenever the managers were willing.

Dilks, has died from the effects of an over-

Mrs. Dilks had fallen into a doze, when Willard got out of bed, and taking the medicine bottle, poured the contents down the infant's Pullman Works to Start Up. have promised to return to work and that

the repair department and one or two

others will be opened, and the officials

been received from about 1,000 of the old employes. This number includes 300 special policemen who have been guarding the works and who, the company claims, are skilled workmen. COST OF A KISS.

Port Huron Fire Department Called Out to Quench the Smack.

PORT HUBON, Aug. 1 .- The other evening a stranger coolly walked into Judge Vance's residence, Huron avenue, and very deliberately made an attempt to kiss the hired girl. The judge was not at home and the ladies of his household were panic. stricken. Someone ran to the patrol box at the corner of Huron avenue and Suffern street and attempted to call a policeman, but instead turned in a fire alarm and called out the department. In a short time all the men, women and children in that part of the city were out and chasing the man, and when Policeman Ellerthorn arrived he found that a goodly sized mob had surrounded the culprit near the upper end of Huron avenue. The man was ar-rested and taken to the police station, where he gave his name as Donald McIsaac and his age as 55 years. The old man has been a resident of Port Huron for some time, and those best acquainted with him consider him slightly demented.

Huntsville and elsewhere, in explanation of my "words of warning," are true. Believe me, I am not in the least solicitous about the damage done to my reputation by the criminal. If people care to believe them true, they are at liberty to do so. No honest person who knows Margaret L. Shepherd supposes she would speak would serve her purpose better. And no one, but those who wished it were true, believed her when she said my wife was a Roman Catholic. She whispered the statement here, and has been uttering it with great boldness throughout the northern counties. I never publicly denied the statement, as it is not my custom to entertain the public with affairs that are private and personal. I say to you what I have said to many others who have written me on the same matter, that it is just because I am absolutely untrammeled by any compromising ecclesiastical or political entanglements that I feel free, when called upon to raise my voice in bold protest against unjustifiable attacks upon the unalienable rights of Catholics in Canada and against a self-constituted protectorate that is a disgrace to Protestantism. It so happens that out of nearly 200 relatives there is not one, near or remote, by blood or by marriage, who is now or ever was a Roman Catholic. With two or three exceptions they are all by birth, training and conviction, avowedly and unabashedly, both Protestant and

Presbyterian. These are, however, minor matters now. Mrs. Shepherd is already cast off by her old-time friends, and desperate efforts are being made to have her name forgotten. Many who a few months ago were ready to brave all charges against her character, because they thought she would serve their purpose, and who secretly or publicly gave credence and currency to her malicious falsehoods, now affect disgust at the mention of her name. But hands that clasped hers cannot so easily be cleaned or sweetened. With the gravest charges against her moral character, charges of embezzlement, drunkenness and gross immorality, which if not founded on evidence that would bear the search light of a court of justice were libelous, and with the makers and publishers of these charges unlibeled, for any man or any body of men to champion her cause is not a blunder but a crime, a crime that cannot plead ignorance in its extenuation, and for which the uttermost farthing of penalty must be paid.

More than this. Protestantism will have to suffer for not more promptly and more emphatically resenting the result. It has all along been plain to those who are not blinded by prejudice or self-interest that the reflex influence of this whole campaign will be infinitely more damaging to Protestantism than its direct influence was effective in making converts from Roman Catholicism. We have vet to receive credible evidence of one worthy conversion, but everywhere the name of Protestantism is besmeared by the touch of unclean hands. It may be that in no other way would Protestants learn the muchneeded lesson of caution, and if the generations will not forget it, it may not be too dearly taught. In any case, let Protestants know that their weapons are light and truth, and if with these they fail, their failure is more honorable than any success won by deceit and darkness.

A LONDON "CANADIAN SOCIETY" FOR THE PROMOTION OF PATRIOTISM.

A "National Trust for Places of Historic Interest or Natural Beauty" has been formed in England, the first meeting being presided over by the Duke of Westminster. The purpose of the new association is to accept from private owners gifts of places of interest, and hold the lands and houses thus acquired. This association can be made a most useful one. We need some such organization, even in this young country. Many a nation is strong in the hour of trial that comes to all peoples, as to individuals, because of the strength of its traditions. We do not necessarily need to live in the past. As a young nationality, with giant possibilities, we can steadfastly hope for a great future, if we are intelligent architects of the national edifice; but we know that the most progressive countries of the earth are those who have maintained the most earnest attachment to their traditions, and have steadily kept before the rising generation the foundation principles upon which, perhaps from small beginnings, they sprang.

The annual reunions of the natives of other countries and their descendants who have cost their lots with us are all very well in their way. We would not for a mement suggest that they be dispensed with. The occasional revival of the memories of early struggles and early achievements, the steady carefulness for the poor and needy among the respective sections of our community, are laudable objects, and we will continue to encourage their perpetuation. But surely the time is more than rips for a steady, a persistent cultivation of Canadian nationhood. While we wish our Canadian-born sons and daughters to have nothing but kindly feelings towards the motherland of their parents, whether it be England, Scotland, Ireland, Germany, France, or any of the other nations that to a greater or less extent have contributed to stock this Dominion of ours with stalwart humanity, it must be apparent to all of us that if ever Canada is to be a nation-and we should all be working to secure for our great country that status in the fullness of time-we must inspire the rising generation with a sturdy Canadian patriotism. We must have instilled in them a regard, an estcem, a constant love for the land of their nationality.

We admire the ardor of the Scottish Highlander when, wherever he roams, he descants on the unsurpassing grandeur of his native haunts. In the Englishman who treasures and constantly expresses undying affection for the great country that gave him birth-a land unsurpassed in industrial activity and in devotion to the great principles of freedom-we recognize the traits that have carried the British flag into every known part of the world, and we honor Englishmen for it. The Irishman has the strongest imaginable regard, nay passion, for the beautiful island which gave him birth, and the Frenchmen and Germans show no less affection for their respective lands, and never neglect an opportunity to encourage patriotism in the rising generation.

Are Canadians doing their full duty in this respect? Is there not room for a National Canadian Society which shall effect the same service for Canada as is accomplished by the societies which exist for the perpetation of old world associations, memories and traditions? A distinctively Canadian society might find ample work in Louidon and other cities of the Dominion even at this early stage in the history of the country. It might take the place in this country that the English "National Trust for Places of Historic Interest or Natural Beauty" is destined to fill, and be of very great benefit in laying the foundation principles of sturdy Cana-In Great Britain, a great deal has already | for the neglect.

been done in this direction, but the very fact that distinguished Englishmen believe that even more can yet be accomplished shows how strong is the feeling in favor of preserving and perpetuating all that is interesting in the landmarks of the nation. It is this care of the landmarks, the distinctive features of the country, that makes many European countries so in tensely interesting not only to the natives, but to the tourist. What is it that the visitor in Great Britain first wishes to see? The new buildings? No; he desires to gaze on the old castles, the old cathedrals, the scenes of the struggles for national liberty, the birthplaces of the nation builders, of the leading toilers in every section of the national vineyard.

Let us localize the application of this illustration. This good city of London is but 64 years old. Seventy years ago, the site of London was a dense forest. There was many a struggle for existence in the little hamlet in those pioneer days. The true story of the settlement and rise of almost every center of population in this country after the lapse of 50 years can be made to resemble a romance to the rising generation of Canadians if appropriately told. Yet how many of the natives of this city know where the house of the pioneer settler stood, or the exact spot where the first school was built, or the site of the first place of public worship? A Canadian Society could surely remedy all this. It could provide and maintain at small expenditure of time and money the necessary tablets to perpetuate the information. It could hold a meeting of pioneers of the city once a year at which papers could be read by "the old inhabitants," memories could be stored up, and patriotism could be inspired by a recital of how the early fathers and mothers toiled that we might reap. Indeed, the field for a Canadian society in such a city as London is as unlimited as in our opinion would be the patriotic influences which it would exercise.

-It is announced that the clubs of the University of Leipsic have resolved to give up the immemorial practice of drinking beer in the morning. It seems that morning beer interferes with the student. He has found that by abstinence he has a clearer head. Some years have been spent in learning the lesson, and overcoming longformed prejudice, but the discovery is likely to effect a beneficial revolution in German student life, not only in Leipsic, but in every educational center.

IMPORTANT DECISION AS TO RAILWAY CROSSINGS.

The railway committee of the Dominion Government has just rendered a decision that will be of interest to every municipality through which a railway passes. Toronto city council applied to the Domin ion Government authorities for a decision in favor of its contention that, to protect the public interests, either a highway should be erected over Lansdowne avenue by the Canadian Pacific Railway Company, or the public should be protected by the putting on of gates, to be attended by an employe of the railway company. Hon. Mr. Haggart and his associate Ministers heard the Toronto city representatives and the railway solicitors, and promptly decided that whether the protection was by overhead bridge, subway or gates, the city must foot the bill, every cent of it. It is a good thing that this new judgment against the municipality view of railway responsibility cannot be made retroactive. There are good many level crossings in this city, and the most freely frequented ones have gates attended to by the railway employes-invariably faithful officials-but they are all maintained by the railway companies,

-By means of a big telescope the Boston professors have discovered a polar sea and "lakes," the latter "chiefly not water." So far they are not able to tell us whether the Marsees lake frequenters take out boats when they cannot manage them or go into deep water and drown because they cannot swim. But they may get all this information in due course. A lake, "chiefly not water," would be a good spot for a timid bather.

THE DREADED RUSSIAN THISTLE GETS INTO CANADA.

Some time ago we warned the Dominion and Manitoban authorities to get ready to keep out of Canada, by every means in their power, the dreaded Russian thistle, which has been covering and practically rendering useless large tracks of farm land in the adjoining States of Dakota and Minnesota. We now learn that an undoubted specimen of this pest has been found growing at Glanboro, Mani-This thistle got its start on this continent in Bon Homme county, South Dakota, where it was introduced, probably in flaxseed, from Russia, in 1869. It has now spread over six or more counties, and in many cases has actually driven settlers off their farms. The plant grows to a large size, and is thickly beset with sharp spines, so that animals and men cannot work amongst it. In winter it separates from the soil, and blows across the prairie, dropping its seeds wherever it rolls. The great danger attending the spread of this weed has been recognized in the States. The Northern States have spent nearly \$1,000,000 in fighting it. Mr. Fletcher, Dominion botanist, at the instance of the Minister of Agriculture, has now prepared an illustrated circular, for distribution among Western farmers, urging them to use every effort to stamp out this weed before it hoped that a united effort will be made to stamp it out the moment it appears in any locality. If not the people will pay dearly pecomes firmly established, and it is to be ocality. If not the people will pay dearly

NORTHWEST FREIGHT RATES. It is at the instance of the C. P. R. Company that the Ottawa authorities are holding an inquiry into the freight rates in the Northwest. The company apparently has faith that it can make good its position, There are many who try to make out that the C. P. R. managers are responsible for the condition of affairs which discourages settlement and ingoing freights. But the issue of "protective" versus revenue tariff cannot be blinked over in that way. If there was the greatest freedem of trade possible between Canada and Great Britain and the United States, we would soon have more business for farmers, mechanics, merchants and railway men both in the Northwest and Ontario, and the railway freight rates could be considerably reduced without causing loss to the company. Restricted trade hurts everyone who is not in a combine or a ring.

The G. T. R. and the Strikers. DETROIT, Aug. 2 .- When asked about the alleged blacklist of striking employes that the Grand Trunk Railroad was comoiling, Assistant Mechanical Superintendent Parkinson said that there was no truth in the rumor. He said that the company did have a list of all of the striking employes, but it was for private use only, so that the company could know how the men had stood in case they should apply for employment at any future He further claimed that but three engineers had been set back and one discharged. The engineers set back were George and John Waterworth and Jake They had sent down word, as a body of three, that they would not run an engine without a union fireman. The engineer discharged was George Walker, who, the company claims, had refused to pull a passenger train with 100 passengers

aboard out of Port Huron. The charge made that the railroad is continually hiring new men seems to be unwarranted, as a notice that was posted on the door of the office of Mechanical Superintendent Roberts reads, "No men wanted at present.

A BRITISH officer, who apparently knows, says that it "would be as reasonable to charge brave men armed with pitchforks against brave men armed with rifles as to pit, man for man, the Chinese in their present condition against the Japanese. Of all native and colonial troops I have seen, and I have seen most of them," says he, "I would, next to Goorkhas, prefer a regiment of Japanese. They are brave, temperate, patient and energetic, and at this moment the Chinese, whatever might be done with them, are 200 years behind." There is a gymnasium in every Japanese barracks.

THE WHEEL.

C. H. TAMBLING LEADS THE METEORS. Wm. E. Sherbrooke, who surprised all London two weeks ago by knocking F. F. Radway's St. Johns record down a few notches, was himself somewhat astonished last night. The second of the Meteor Club's road races to the little village and return was held, and both C. . H. Tambling and Sherbrooke were in it. Both were scratch men and had a splendid start. When the Victoria Park gate was reached Sherbrooke was slightly in the lead of Tambling, but as though shot from a cannon the latter spurted and led the way to the finish. Tambling's time was 31:23 4.5, and Sherbrooke's 31:251. Both riders reduced their best previous records, but couldn't

touch Radway's.

The start and finish were witnessed by a large crowd. Tracy O'Brien was the limit man, and with a handicap of eight minutes succeeded in keeping first place. Allison came a close second, the rest of the riders being pretty well scattered. Geo. Watson had a handicap of six and a half minutes and was the only one who did not finish.

The special prize given by Mr. Arthur Gorman for the green rider making the best time in the race will go to W. Allison. The officers of the race were: Starter, A. Talbot; timers, Thos. Gillean and A. Gorman; clerk of the course, F. Robinson; scorer, R. W. Evans; timers at St. Johns, A. McCormick and W. Southcott.

THE LONDON CLUB'S LARGE TURNOUT. The second run of the Londons, under the captaincy of Mr. James McCormick, was very largely attended last evening, some 80 wheels leaving the club house at 7:30 o'clock and several others falling in on the way. The run was out Dundas street to the asylum. Making a circuit of the many drives on the beautiful grounds, the captain called a halt on the cricket crease, where a band concert was in progress. The large party thoroughly enjoyed the splendid programme rendered by the asylum band. The concert being over, the club again remounted and proceeded to the club house by way of King, Richmond and Dundas streets. A very pleasant feature of the London Club runs is the large number of ladies who take part, about a dozen being in line last evening. After re-turning to the club room wheels were stacked and a pleasant hour spent.

CYCLING COMMENDED BY HIGH MEDICAL AUTHORITY. In view of rather frequent condemnations of the bicycle by medical men, it is interesting to find that a recognized authority like the British Medical Journal is an enthusiastic advocate for bicycling as an exercise for woman. It concedes that it may be overdone, or carried on under bad conditions, but rationally indulged in, it contends there is no better means of preserving health and beauty by exercise,

which has with women of late become

ALL RIGHT. to send Messrs, A. F. Little and F. F. Radway (London's two fastest riders) to represent them in the great 310 Hilsendegen 25 mile road race at Detroit, where about 150 of America's fastest riders competed. Mr. Little had never ridden 25 miles at one time, but in this race, mounted on a 26-POUND SMALLEY ROAD MACHINE, he took third place, was only two-fifths of a second behind the first man, and won a King of Scorchers racer valued at \$175, the most valuable prize ever won by a London

bicycle racer. His riding time was 1 hour, 9 minutes and 24 and 2-5 seconds, which BREAKS THE WORLD'S COM-PETITION RECORD FOR THIS DISTANCE. And it was done on a Smalley. Mr. Little has only been riding about two months, but has tried several wheels during that time, and, for easy running qualities and rigidity, he has settled on a Smalley. In the St. Johns road race Monday night last, the winner was Frank R. Sweeney. He also rode a 26-pound Smalley road machine, and won easily. Frank is only a boy, not yet 17 years old, but he broke the record by nearly a minute-and it was done on a Smalley. Our wheels are right.

They run easy. In the above race two of our wheels broke the record, and they made second, third and fourth best time. This speaks for them.

For some years we anticipated engaging in the bicycle business, but before commencing we gave the matter our closest attention, visiting factories, exhibitions, etc., and have selected wheels to handle, that we can guarantee with confidence, and that will give full value every time. There is no such thing as "the best wheel in the world," as there is no one wheel that will suit every rider, but we have as good as can be bought, and from the following list

we can please you: Smalley \$125 00 Brantford ... \$110 00 Bison..... 125 00 Imperial.... 100 00 Rambler 125 00 Canadian A. 80 00 Raleigh..... 125 00 Tourist..... 70 00 We have also some second hand wheels from \$25 up. Come and see our stock. Whether wishing to purchase or not we shall be pleased to see you.

The monthly meeting of the Londons will be held at the club house this evening. The weekly run of the Meteors will be held tonight to Glanworth and return.

Tickets for the Meteors' meet race at Queen's Park, on Aug. 29, are going fast. Several flyers have already signified their intention of competing. A number of C. W. A. officials will also be on hand. BASEBALL.

of J. M. D., the red-hot favorite in the 2:25 class, was the feature of today's Grand Circuit racing, which 8,000 people witnessed. J. M. D. took the first two heats in rather easy style, but both Cobwebs and Rex Americus made the clip so hot in the finish of the third heat that the gelding fell back beaten and much distressed. In the fourth heat J. M. D. was laid up, and Cobwebs again showed in front, hard pressed by Rex Americus. In the fifth heat Cobwebs once more joutfooted the coarse-grained son of Onward, and J. M. D. was never in the argument, his driver claiming after it was over that he had trown a shoe.

The special pacing race between Robert J. (2:053) and Mascot (2:04) did not prove much of a contest. Robert easily defeated his rival in the first two miles, and in the third one walked away from him in a fashion that left no doubt as to which was the fast horse. The mile was in 2:061 within a half second of the track record, held by Hal Pointer, and this could have been beaten had Geers forced Robert to do his best. Mascot was a dozen lengths back in this mile, and it looked at one time as though he would be distanced. Cobwebs, the winner of the opening event, is a 6-year-old, and is owned by the Turl Bros. of New York, who bought her at the Palo Alto sale last October for \$550. Summaries:

Our Cloaks are fashionably made as well. You can't tell them from the most expensive. Look at this:

THIS STYLE ONLY \$7 00.

We have them in various patterns and colors. At \$5 we sell a beauty with yoke and circular cape detachable; at \$6, with apple peel frill, has full military cape and two come in black and navy only, the others in colors and fancy tweeds. You know what Heptonette is, It has a reputation, and such a one that with each garment we give a written guarantee, and each is stamped "Heptonette" with white letters on red ground. There is only one place in London to buy these, and ours is that place. Don't take anything that is called just as good, for it isn't.

BUFFALO, N. Y., Aug. 1 .- Inspector De-Barry, now that the Lockwood anti-Canadian Bill has died, has persuaded the Immigration Department to back him in another scheme for harrassing Canadians.

He has now begun to put in operation the provisions of the immigration laws relating to immigrants from abroad, which have been in operation against European countries at the seaboard ports, and has made them applicable to Canada. Emigrants from that country will hereafter be subjected to the same examination as if they landed from a steamship at New York and the Michigan Central, the Grand Trunk and the lake steamers will be compelled to adopt the same methods of Caldwell's Grove. Delos R. Davis, the compliance with the law as are now en-

forced against European lines.

Opera House at Saranac, Mich., Burned -A California Town Almost Wiped Out,

SARANAC, Mich., Aug. 1 .- The opera house, postoffice and a number of business houses were burned here last night. Loss \$25,000. SAN FRANCISCO, Cal., Aug. 1 .- The town

of Delta, this State, was almost destroyed by fire last night.

DISASTER ON THE C. P. R. Two Trainmen Killed and One Mangled

by a Boiler Explosion. WINNIPEG, Aug. I .- A shocking accident occurred last night on the mountain division of the Canadian Pacific Railway. Shortly after 6 o'clock a freight train left Field Station, east-bound, having an engine at both front and rear. When two miles out of Field the boiler of the rear engine burst, blowing the engine into atoms. The engineer in charge, B. Wheatly, and his fireman, a young man named A. Hunt, were instantly killed by the explosion. Brakeman George Kemp was terribly cut and internally injured.

HERE, THERE AND EVERYWHERE.

NEW HAMPSHIRE was formerly called Lacnia. It received its present name in 1829, being first called New Hampshire by Captain John Mason, who had been a resident of Hampshire, England.

IT HAS been computed that since the practice of embalming began in 4000 B. C., down to 700 A. D., when it practically ceased, probably as many as 730,600,000 bodies were embalmed in Egypt, of which the greater part are yet concealed.

8-year-old girl was offered as a sacrifice to propitiate the god of health in a neighbor's behalf. The afflicted man and his wife enticed the child into their house, and in the presence of a fakir brutally mutilated her and later carried the body in the woods two miles away and then threw it away.

THE newest idea in society is the "surprise" wedding. Invitations are sent out for a dinner party, and when the dinner is over the parson is introduced in "a few well chosen words," the bridegroom takes his guests into his confidence, the bride blushingly takes her place and the marriage is solemnized without further ceremony.

THE hottest place on earth is the vicinity of Massowah. When the northwest wind blows from the desert the thermometer has been known to go to 160. The men of the Italian garrison there can sleep only by the assistance of natives employed to go to and fro all night and sprinkle the bodies of the sufferers with water.

THE eyes of the deep sea fishes are very varied; some have neither eyes nor sight; Worth collar and military others have greatly enlarged eyeballs, so as cape; at \$7, our special, as to catch the least glimpse of light. Their illustrated, is of fine quality, eyes tend either to disappear or to be unusually efficient; but since no trace of sunlight can penetrate to any great depth, and circular frills, and the skirts it is probably quite dark beyond a depth of are full seven-gored. These some two hundred fathoms, of what use can eyes be?

A STEADY stream of emigration goes on from year to year between India and the colonies. During the last decade 136,159 persons left India. About 20,000 of them went to the Mauritius, the same number to the Natal, 40,000 to Demerara, 30,000 to the British West Indies, 10,000 to Fiji, and the remainder were divided in about equal numbers between the French colonies and Dutch Guiana.

DIVIDE the number expressing the year by four (4), taking no notice of the remainder. Next find the number of days inclusive from the 1st of January to the date in hand. reckoning February always as having only 28 days. Add together the sum, the quotient and the first numbers and divide this by seven (7). The figure of the remainder gives you the day of the week, one (1) standing for Sunday, two (2) for Monday, and

THE prefects in the several French depart. ments have issued orders to the various schools, dating from the 1st of January. enforcing that all drinking water supplied to the pupils shall be boiled, and that the cleansing of the floors, desks, etc., of the schoolrooms is to be no longer done with dry dusters and brooms, but with moist cloths. to prevent the spread of dust. Once a week a thorough cleansing is to be carried out with an antiseptic.

Trolley Lines Destroy Waterpipes. MUNCIE, Ind., Aug. 1 .- It has been dis covered here that great damage is being done the city waterpipes by the trolley system of the electric street railway. Saturday evening a leaky pipe was dug out and found to be almost destroyed by electrolysis. The process of chemical decomposiition had progressed so far that the weight of the metal was materially reduced and sccoions of the pipe were perforated like a gas burner. The escaping water had found its way to the surface. Similar trouble has occurred in other places.

Emancipation Day. WINDSOR, Aug. 1 .- This is the 61st anniversary of the emancipation of the slaves in the British colonies, and celebrations of that event were held at Walker's Grove in Windsor, and at the Mineral Springs at Sandwich East.

-A meeting of the congregation of King Street Presbyterian Church was held last night to consider proposed plans for the extension of the edifice. The plans were prepared by Mr. H. C. McBride, and if carried out would make a decided improvement in the appearance and also add seating capacity for 175 persons. It is intended that the extension made to the front of the building will have a double entrance. A large choir gallery to the rear is among the proposed improvements. The cost will be about \$3.000. Owing to a little dissension among certain members as to details, action was deferred until a future meeting.

-Mr. John Clarke, of South London, had David Spence in the Police Court this morning for shooting his dog. The animal bit Mr. Clarke's daughter, and Spence had carried out instructions given by High Constable Schram. The case was dismissed. Tuesday's deuble tragedy, by which the son of Mr. Edwin Carlin, York street, and the young man's wife lost their lives by drowning in Sturgeon Lake, near Lindsay (as recorded in yesterday's ADVERTISER), is supplemented by a sad sequel. When the terrible news reached the former home of the unfortunate young man, 654 York street, his mother was completely prostrated, and as a result suffered a succession of fainting fits from which, in spite of every effort that friends and medical assistance could bring to bear, terminated fatally just before midnight yesterday. Mrs. Mary Ann Carlin was 57 years of age. She was an old and esteemed resident of London and a faithful and devout adherent of the Reman Catholic faith. A grown up family are left to mourn the loss of their loved mother. They in Tuesday's double tragedy, by which the the loss of their loved mother. They include Edward J. INCURABLES' HOME.

An Attractive Place of Residence Provided in London.

What Citizens Can See on Visiting the Cosy Institution.

The Home for Incurables is now in running order and ready for inmates. There are two already in it, and the ladies interested are waiting to receive as many as it will accommodate. It is fully worth while going to visit it and to see for one's self how comfortable and homelike the place has been made. It is a picture of cleanliness, and the condition in which it is kept testifies to the efficiency of Mr. and Mrs. Bullock, who are the resident caretakers, and who are indefatigable in their efforts to help the two inmates already there, and aid the lady visitors, many of whom are still working at the different rooms in which they are personally interested. The house is excellently ventilated, and the sweet country air fills every nock and corner. Many of the rooms have been furnished by different individuals. Notably among them is one in memory of a child. The little brass crib, the small chest of drawers, the little table with Bible and hymn book marked "Gracie," and the child's own picture in a frame on the prettily tinted wall, bear testimony to the heart-felt affection of the friends, who instead of spending money on an elaborate monument in the cemetery. perpetuated the memory of this dear child by providing a place where some living child in its helpless suffering may find care

and nursing in "Gracie's room." A class of eleven boys, belonging to the Dundas Center Methodist Sunday school, has taken the greatest pleasure and interest in furnishing a beautiful room. The King's Daughters of the same church have displayed great taste and thoughtfulness in fitting up two rooms. Everything that can please the eye and add to the comfort of future inmates has been placed in these rooms. The King's Daughters of the Memorial Church have likewise prepared two rooms that look dainty and inviting. Over the door between them bangs a silver cross and I. H. N. dedicating them to the King and offering them In His Name. The first inmate of the home occupies one of them, and members of the circle take great pleasure in visiting and caring for her. The King's Daughters of St. James' Church, South London, are preparing to furnish a double room, and we understand the colors in it are to be purple circle will be well and thoroughly done. An individual member of the Memorial Church Parker, "and there would be no need for a Circle and her husband have furnished one of the prettiest rooms in the house. It augurs well for the future of the home that so many young people, as well as elderly ones, are taking interest in and visiting it. But, while this is the case, it

is necessary that a more widespread interest should be aroused that the work may be well supported. This home is intended for inmates who are able to

On Trial - A Mild-Mannered Youth-Laughs in the Box.

Lyons, Aug. 2.-The trial of Santo Casario for the murder of President Carnot began here this morning. The court room was packed to suffication. The prisoner appeared well dressed and evinced no terror. He seemed a mild-mannered youth, one who "wouldn't hurt a fly." Under examination he said he was born in 1873 and was the son of a terryman. He acknowledged laughingly that he never won a prize at school and said he would have been a better man had he been a better scholar. He admitted he was absolutely responsible for his act. He refused to say whether he had carried correspondence between French and English Anarchists.

By Mary S. Hancock. "Not so fast, Miss, if ye please," said a thick, coarse voice—the voice of a man who had been imbibing somewhat too freely. 'Hold on a minnit, and see if ye hasn't summut as ye can spare for a pore man as

hasn't broke hisn fast this day." There was a good deal that was objectionabe in the man's manner. He whined, it is true: but he whined unpleasantly, and there was even a distinct undertone of threat and defiance in what he said as well

as in his manner. Standing still for an instant, Kate's first thought was of Oscar Vaughan. "Oh, if he were but near!" she said mentally. "If he could only appear!" She gave a quick glance to right and to left, but there was

not a soul in sight. The man noted her look, and leered

herribly.

"Ye may look, my pretty lady, but then," a creatur will ye see, I bet. Now, then," he said boldly, "how much longer will ye be? Ye've got a tidy watch—hand it over. It'll sell, I suppose—'warranted to go,' and all the rest of it, eh? Well, I'll see that it goes, anyhow." He laughed loudly.

Kate never moved. She stood perfectly still before him, neither offering to give him the watch nor making one movement with

she was afraid, of course—not a being within call. A lonely spot-no one likely to pass at that hour, and a ruffian in possession of the scene. These are not the things one naturally cares to enjoy on a peaceful walk home from work. Nevertheless, here they were, and here, too, was she.

What should she do?
Her nerves were perfectly under control,
and she was cool and self-possessed—no one more so: But the moment was unpro-Flight was useless, the long cloak would

of itself impede her progress, and the man was doubtless as fleet of foot as was she. A show of fight would be but a poor thing, too, for a single glance told her keen eyes that her dainty umbrella would snap like a twig in the hands of this demon of strength who stood before her. What should she do?

The moment was terrible. The situation was one of the deepest peril.
One instant only stood Kate Graham

irresolute-waiting. There was no human help near. None to gave—none to protect. Powerless, defense-less, she felt herself. Then—swift as a winged arrow from the Unseen, to whom she appealed—she took her resolve:

"This man," she murmured breathlessly, "was once a little child - somewhere; some one may have taught him purer things.'

She flung back her head fearlessly, and, lifting her solemn clear eyes to the wonderfut deep blue vanit of heaven above, in with the same voice that had charmed men as rude and women almost as rough as this being before her, she sung one of those simple, touching little strains by which mothers luil their children to sleep and soothe them when in pain or trouble.

It was very simple as to words and tune. just a quaint little measure that the man who formed the unwilling audience would be sure to know, and to know well, and she sung as she had never sung before-or

The singing suited their moods; it was part of nature, no doubt. They grazed in much delight, unconscious that a human soul was crying in its agonyas it best knew how-fighting a lone battle, at fearful odds, with sin, and evil, and

The lane was a deserted spot so late as this; for there still lingers a tradition that the Prior of well-known memory, who resisted the maurading intruders and was hanged by them at his own gate, still walks at intervals upon the ruined arch way that led formerly to the Abbout's residence; and few and brave are the townsfolk, be they lovers or "staid persons," who will venture so far after nightfall along the "ghost's

Kate had never been nervous. Probably, not being "Enderby born," she was less afraid of the ghost than the people of the place. But the reality of her danger was far greater than the mere fictitious one of

meeting any visionary foe.
At first the man stared blankly at her in astonishment. The thought came quickly to him that she had gone mad with fright. The next moment he swore under his breath, for she was singing a little melody his mother had sung to him years and years

It seemed to sting him for a moment. The strong words froze on his lips. So, had not that mother taught him? He stood appalled; then a sort of mesmeric entrancement came over him. The music began to appeal to him in a manner he recognized.

All wrong and sin seemed to drop away from his heart, and a sort of yearning no other remedy. Ask your druggist for awoke there - within - for something SWAYNE'S OINTMENT. Lyman, Sons & Co., nobler, for something higher and purer. On his part, he stood irresolute, yet

partially subdued. The girl sang on; she knew how much depended on it. The man stood—waiting—yielding—fascinated. How would it end? One moment passed-one second longer. Then, a side-gate in the wall near them opened, as if by magic, and from it there stepped a tall, strong man, his face set, his hands clenched. He took in the scene at once. The singing girl—the waiting man—the dark lane—the graves beyond—the starlit heaven above. All, all, he saw, but with all the terrible, definite sharpness of the two prominent figures; he heard the girl who sang; he knew the full force of that awful interval through which she had been passing. She saw him as he came with striding step toward them.! Saw him-with eyes blinded by the sud-

den passion of tears that started n the thankfulness to meet him.

And springing toward his outstretched arm, she cried, with one long bursting cry of gladness, "I am safe!" as she was folded in his strong arms and sheltered there-for

Johnson, Holland Landing, who says: I had a constant Back-Ache, my back felt cold all the time, appetite poor, stomaci sour and belching, urine scalding, had to get up 3 or 4 times during night to urinate, commenced taking one Kidney-Liver Pill a day; Back-Ache stopped in 48 hours, appetite returned, and able to enjoy a good meal and a good night alasm, they award me

good nights sleep; they cured me. 3. Constipation often exists with Kidney Trouble, in such a case there is no medicine that will effect a permanent cure except Chase' combined Kidney-Liver Pill, one 25 cent box will do more good than dollars and dollars worth of any other preparation, this is endorsed by D. Thompson, Holland Landing, Ont.

WOMAN'S NEED

Women suffer unspeakable tortures from muscular weakness, caused by impaired nerves and poor blood. Uric Kidney acid poison, and poor blood. Une kidney acid poison, unsuspected, weakens the nerves and poisons the blood. By and by, if the kidneys do not properly purify the blood, then comes prolapsus, retroversion, etc. Blood 75 per cent. pure is not a nourisher—it is a death breeder. Delicate women need not be told how much they would give to get and STAY well. If their blood is free from the poisonous ferments of the Kidneys and Liver, they will never know what "weakness" is. The blood is the source and sustainer of health it cannot be kept pure except

the Kidneys and Liver do their work naturally. Something is needed to insure free and natural action of these organs, one 25 cent box of Kidney-Liver Pills will prove to any sufferer they are a boon to women, can be used with perfect confidence

by those of delicate constitution.

One Kidney-Liver Pill taken weekly will effectually neutralize the formation of Uric Acid in the blood and prevent any tendency to Bright's Disease or Diabetes. For purifying the Blood and renevating the system. especially in the Spring, one 25 cent

box is equal to \$10 worth of any Sarsaparilla or Bitters known. Sold by all dealers, or by mail on receipt of price, EDMANSON, BATES & CO., 45 Lambard Street, Toronto.

Washingron, Aug. 1 .- The Canadian commissioner of customs has forwarded to the United States a copy of instructions sent by him to collectors of customs in Canada to govern them in the collection of duties on goods purchased in bond in foreign countries. This instructed them to add to the value of the goods purchased in bond, the customs or internal revenue duty leviable in the country where the goods are purchased, and which is collected in all cases by the foreign government concerned before the goods are allowed to go into consumption in such foreign countries. This matter is considered as having an important bearing on American importations into Canada.

Water Consumers, Beware. The water commissioners held a special meeting last night to grapple with the question of lawn services. All summer, and especially since the drought, the board Johnston Bros.' Bread has tried to prevent any waste. The hours for lawn watering have heretofore been 5 to 8, morning and evening. Some humane Londoners who read the papers have adopted the plan of placing Children Cry for a straw hat, through which the ears project, on the heads of their horses. It protects the horse from the sun all right, but at first sight gives the average man a fit of uncontrollable laughter. The horse editor of this paper was standing near a corner watering trough the other day, when a skittish-looking mare was allowed to drink by her driver. Another horse was also drinking, and between gulps the horse editor overheard the following conversation, which was commenced by the horse without

"Are you not afraid to drink so often this hot weather? I see you at nearly every trough in the city.

"Well," replied the little mare, as she looked at the reflection of her headgear in the water, "I don't drink every time you see me at the water. When every other mare turns around and stares at me on the road, I cannot resist the temptation to stop at the first trough I come across and see if GRATES and ART TILES. my hat is on straight." Chief Attraction.

Among the chief attractions in the procession of the Cook & Whitby circus last Saturday was the yellow wagon, which conveys through all of Cansda that most desirable of cures "Williams' Royal Crown Remedy". This is what Mr. Weir says, whose life it saved: "This is a most marvelous cure. I became pale as a corpse; my blood seemed to be turned to water. I had dizziness and a ringing noise in my head: my hands and feet were cold all the time, and my limbs were completely swoolen up to the body. Some doctors called it consumption of the blood. I got so weak that I could not walk, and finally took to my bed." Mrs. Weir says: "All Mr. Weir has told you is true. At times he lay for days unconscious and unable to take nourishment of any kind, and was reduced to a mere skeleton of 84 pounds; and I fully believe if we had been one day later in getting Williams' Royal Crown Remedy he would be in his grave to-day. So it may well be said 'Williams' Royal Crown Remedy saved John Weir's life.'" The best druggists keep Royal Crown Remedy; but if your druggist does not, remit direct to Isaac Williams Company, London, and they willsend it to you by first express. The price at which Royal Crown Remedy is sold makes a course of treatment comparatively inexpensive as compared with any other medical treatment. pass everything in the outdoor amusement line this season. On Aug. 15 the Young Liberals of London will rendezvous in Queen's Park and give an entertainment which it is guaranteed will make the most chronic of dyspeptics draw a broad smile. Numerous new and laughable features will be introduced, and \$the magnitude of "The Day at the Circus" will surpass the expectations of the most sanguine. The Young Liberal Fleet, comprising 250 well drilled men in natty uniforms, will execute some entirely new movements. The drum corps, under Harry McKenna, will have an extra attack of the rattles, and the Marine Band, with Mr. Fred L. Evans as leader, will supply music which would do credit to an organization many years its senior, while Mexican Joe's band of cowboys will perform some of their hair-raising feats of horsemanship. Every member of whoop. A squad from the Royal Irish Lancers promise to do some tent-pegging rivaling the performance of the famous English military tournament, while horizontal bar performers, tightrope artists and acrobats will contribute their share of amusement. One of the most novel features will be the cooking of an entire ox for the barbeene. The careass will be prepared by Mons. Ernest Rau, of Paris, the most ox. pert "chef" in this section of the Dominion.

City Insurance. To the Editor of the ADVERTISER.

Why should not London insure itself? The farmer does so and saves money. It outside companies can make a large profit by insuring in the city, why not keep it in the city? Surely it is needed bad enough. We would suggest that the assessors act as agents at the same time. If inconvenient to use the tax roll, provide another for the insurance. C. D. E .- A has a farm given to her by her parents. Now, if A dies leaving a hus band and one child, how would the property be divided providing A left no will? Would the husband get a third or the whole for life? ANS .- If married before July 1, 1884, he could elect between the whole for his life or one-third absolutely. If since that date, he takes the

MELBOURNE.—1. What is the supreme law of the land? 2. What were the writs of assistance? 3. What was the Milan decree? These are questions relating to United States law. ANS .- 1. The constitution of the United States and all laws passed under it. 2. Writs directed to the sheriff out of chancery to assist or put a person entitled to land in possession of it. 3. The edict of Constantine in 313 granting tolerance to Christians.

WORTHINGTON. - A builds a house on the land of B, with his consent, and agrees to pay \$1 per month ground rent. A pays his rent, and at the end of three years B notifies A to vacate his property and move his house off same. When A built the house B agreed to pay A the value of the house when A was asked to leave. Can B compel A to leave without paying A for the house?
ANS.—If the agreement can be proved, the court would not permit an eviction without compensation for the house. You had better consult a lawyer.

ALABAMA. - A duly notified meeting was held to elect a certain officer. The voting was by ballot. A three-fourths vote was required for election. Three persons were nominated. When the vote was taken it was found that no one had received the requisite number of votes. Some called for the state of the ballot. Can the scrutineers or chairman legally announce the state of the ballot at this stage? ANS. -No, unless by unanimous consent; the balloting should be continued until some one is elected.
