M. Depew, who was in Cleveland yesterday attending the annual meeting of the Lake Shore and Nickel Plate, in speaking of the war with Spain, gave it as his opinion that if President Mc-Kinley had been left to himself there would have been no war.

"In congress," said Mr. Depew, "there are certain elements always clamoring for a fight, because war talk sometimes is excellent political capital. But now that we are engaged in war, I believe that it should be prosecuted with vigor worthy of a better opponent. The contest should be made short, sharp and decisive. I believe that the friendship of the British peoduring the present crisis, will result in something more than a mere understanding between the two nations in the future. It would be a glorious alliance-that of the two great Anglo-Saxon races standing together for humanity and peace."

ANXIOUS FOR NEWS. London, May 5.—It is the absence of actual news as to the war operations which is causing great anxiety, aspecially at Madrid, where Senor Sagasta, the premier, in the course of an interview, has declared that absence is "the most disquieting feature of the situation." Attention is again riveted on Spain. The special dispatches from Madrid indicate that the future government of the country are beginning to be discussed as if the figures of the queen regent and King; Alfonso had utterly disappeared from the

stage of politics. The continental press notices the broadening political ambition of the United States, coupled with the in-creasing friendship between Great Britain and the United States, with well concerned aversion. Rumors of intervention are again in the air. A GREAT MISFORTUNE

The Right Hon. James Bryce, Radical, writes to the Daily Chronicle this morning as follows: "The war is a great misfortune, and may in the long run raise great diffi-culties for the United States. All my wishes, of course, go with the United States, and the general sympathy with their kindred across the sea, which our people have spontaneously displayed, and which was evident from the first, has shown how close is the tie which unites the two nations."

Physicians Generally are Complaining

That There is Less Demand for Their Services Than Formerly.

Said a well-known practitioner recently to the reporter of a great New York daily: "I see physicians whom I know, and who several years ago were

very largely to the educational work going on through the press by dispensers of proprietary medicines, as well as to the salutary effects of the medicines themselves. Scientifically written pamphlets are distributed by these firms informing the people how to care for their health, and how to live hygienically. Among recent publications none has received more attention than "The Hour of Sickness," issued by S. C. Wells & Co., Le Roy, N.Y. who will send it to you free if you cannot obtain it at your druggist. This pamphlet is especially helpful to families living on isolated farms and hamlets where the services of competent physicians are costly and difficult to obtain. Among proprietary medicines, none stands

higher than Shiloh's Cough and Consumption Cure, known throughout the United States and Canada for its soothing, healing and expectorant virtues.

Mrs. Jean Hamilton, Brooklyn, N. Y., says: "I was much prejudiced against so-called patent medicines until I realized in person the value of one which had cured a friend after suffering three years from distressing chills and colds. I took but four doses when my chills ceased. This experience made me believe Shiloh's Cure efficacious for coughs and colds, so I tried it and wish to recommend it to every one who needs a good cough medicine. If people live in the country, I'd advise them to keep a stock of it in their medicine closets. It will save them lots of worry about croup, coughs and la grippe, for it will stop these very quickly." AMERICAN LOSSES

At the Battle of Manila.

Today's Globe has the fololwing: Valejo, Cal., May 4.—It was late to-night when your correspondent succeeded in getting inside information bearing on the Manila affair. He was informed that late tonight Admiral Kirkland received a telegram that £00 man were killed or wounded on the Baltimore, she having stood the heaviest shock of the battle; and that the Olympia did the best she could with her torpedoes, destroying the shore fortifications and abutments by means of

Officers here believe that the loss on the Baltimore is very serious. She carries normally some 300 men, hence her loss as reported would practically cripple her. Color is given this belief by telegraphic orders to Admiral Kirkland to have Paymaster Stanton prepare stores of provisions and necessaries for 2,00 men for three months. This is being done. "Without doubt," said Addie says this morning: "Mr. Gladmiral Kirkland, "there has been seristone's strength steadily declines, ous loss in Dewey's fizet. He went into though there is, we believe, no prosa foreign harobr, doubtless mined and pect of an immediate end. The disheavily fortified, with vessels not pretending to be armored, and the result overcome the wonderful strength of his was victory for him over the Spanish constitution, but a natural weakness

A lieutenant who was seen tonight said he had reason to believe that on the Baltimore alone some 20 0men were his room. Now and again his mind killed, and that this was a criterion of reverts to critical periods in his career, the effect of the battle on the rest of and to the legislation which cost him the fleet. He furthermore was of the the most anxiety, but the main thing opinion that this constituted the bulk that fills his thought is religion, and of the crew of the Baltimore, as it is known here privately that she sailed from Hong Kong short-handed.

Another officer of experience admitted that he was not absolutely unadvised regarding the Manila engagement. He pointed out that Admiral Kirkland's reticence was owing to the department's endeavors to secure the services of merchant and mail service officers for auxiliary cruisers. Said he: "When the true situation of things resulting from the fire on the ships and forts at Manila has become known it will in p lain words frighten nine men out of ten from enlisting."

The world-wide same of these pianos is an unquestioned evidence at the present time-giving them a place absolutely apart from any other pianos. Canadian Trade With South America,

Mr. Sheppard has certainly shown the unwisdom of some of the propositions that have been made from time to time to subsidize steamships, by large annual grants, to carry Canadian products to some parts of South America. When the matter was neighbor to every other nation, even before the Public Accounts Committee, Lo, all our pomp of yesterday Sir Louis Davies said it was perfectly within the Auditor-General's rights to deny the legality of the payment. In that respect, however, the 'Auditor-General's judgment was at fault, as Sir Oliver Mowat, Minister of Justice at the time the grant was called in question, held that the grant was perfectly legal. Where the Auditor-General was at fault was when he not only questioned China, and bound sooner or later to the legality of the payment, but proceeded to pronounce upon the policy of the Administration which dictated it. The Auditor-General is the officer of Parliament. He is rendered practically independent of the Ministry of the day, as he can only be removed from office by an address to both Houses, and by a majority of two-thirds of the members. ANGLO-AMERICAN ALLIANCE.

[From Harper's Weekly.] There is a good deal being said on ooth sides of the ocean in favor of an Anglo-American aliance. Baron Pollock, the Corpus Professor of Civil Law at Oxford, favors it, as does Mr. E. J. Phelps, ex-minister to England and Professor of Law at Yale Univer-Such an alliance is doubtless very remote, but the argument in favor of it is a strong one. We do not, of which Great Britain finds herself inffensive and defensive. We could not, trade in China. But there is another side to the question, and one which it is well to consider. Baron Pollock and other advocates of it believe that an alliance of the English-speaking people of the world would make for peace. And if an alliance could be made in pursuance of which all English-speakng peoples would agree that an assault by a foreign power upon one of them would be an assault upon all, we doubt not that war would become a very remote possibility, and that the efforts of continental powers to limit the expansion or take away the ter-ritory of Great Britain in Asia and Africa would come to an end. There is a good deal of sentimentality in the expression that blood is thicker than water, but we think we know English-speaking people, and we believe that if an alliance shall ever be made of the kind suggested it will not be based wholly upon sentimental con-siderations, but largely upon strictly business principles, although there is really much truth in what Ambassador Hay said at the Easter banquet at the Mansion House in London: "The good understanding between us is based on something deeper than mere expedi-

a woman asks this question! How much thought and study she devotes to it! It is natural. A woman hates to think that she is growing day by day less charming and attractive and youthful to her husband's eyes than in the days of courtship. A woman may always retain her charms and the vivacity and freshness of youth if she will take the proper care of her health. A tremendous percentage of ill-health in women is due to weakness and disease of the distinctly feminine organism. Dr Pierce's Favorite Prescription is an unfail-ing remedy for all disorders of this nature. It allays inflammation, heals ulceration, stops debilitating drains and soothes and toues the nerves. American Markets Chicago, May 4.-May wheat rose 10c a bushel in the last 30 minutes today on the board of trade. July rose 4c and closed at the top. Both options made new records, July, which closed yesterday at 94%c, opened today 1%c higher, and after 1c reaction, rose to 94%c, which was bid at the close. May opened where it closed yesterday, at \$121, held around \$124 until half an hour before the close, and then by jumps of 1c to 2c, advanced to \$131, the highest price for May delivery since the days of P. P. Hutchinson. Foreigners caused the record-breaking bulge by taking all the cash wheat offered. Leiter alone sold 500,000 bu today. The removal of the French import duty and rumors that Austria and Germany would take the same measures, together with an unconfirmed dispatch that Russia had prohibited fur-ther exports of Danubian wheat, caus-

Laurier Pitches Into Tupper.

by the Opposition Leader.

The Premier Says Tupper's Conduct Was Outrageous and Insulting.

Tupper's Bitter Speech-Details of the Yukon Expedition-An Interesting Session.

Ottawa, May 5.-In the House of ommons yesterday Dr. Borden, minister of militia, gave the details of the Yukon military expedition asked for by Mr. Foster. The force, he said, is being sent out to assist the civil power in maintaining law and order in the numerous mining camps scattered throughout that territory. It was at first though to increase by 200 the force of mounted police, of whom there are now 190 in the Yukon. But instead, it was determined to send 200 regulars, with a few artificers and boatmen to assist them on the trip. The United States had now four companies of regulars in Alaska, or about 350 to 400 men in all. It was difficult, in view of the transportation problem, to say just what the expense of the Yukon contingent would be; but he did not think would be more for the first year than \$200,000 over and above the \$100,-000 it costs to maintain them in the east. After the first year the expenses fair demand today at unchanged might be reduced by \$50,000. It would have cost more, he said, to have sent ice, for the police get a dollar a day in the Yukon. The contingent would sent by the C. P. R. and the C. P. Navigation Company's steamer to Vancouver and thence to Glenora, or Stikine River, and four there over and to Teslin Lake, and from there to Fort Selkirk, which would be their objective point for the present. At Selkirk Barracks defensive works would be erected. One detachment would be left at

Teslin Lake for the summer. Mr. Wallace asked if the troops would be under the control of Major Walsh. Dr. Borden replied that they would be under the control of the administrator of the country, whoever he might "How will they be armed?" asked

The bill passed through committee, and stands for a third reading. It will come into operation on Oct. 1.

DEATHBED APPOINTMENTS. Dr. Montague pointed out that the governor-general had approved 48 and rejected 47 appointments made by the late Dominion government, after its defeat. The premier promised that 48 should be installed in office, but only two had got positions. The government had placed the governor-general in a most unenviable position.

Mr. McDougall, of Cape Breton, got up to speak, but Sir Charles told him to sit down. Then the opposition leader got up and stormed at the premier for having left the house when a charge of having violated his pledge had been made against him. He was aghast at the spectacle. Imagine, said Sir Charles, the prime minister of England acting in that way in the face of such a charge on the floor of parliament. His position would not be worth 24 hours' purchase. The government had shown a cynical disregard of their pledges. This house had never witnessed such a spectacle since the first days of confederation down to this hour as a prime minister charged by a responsible member of

He said that he was sorry that he was called from the house by a previous appointment and was deprived of some of the vituperation hurled upon him in his absence by the opposition leader. In the two years since the election Sir Charles had not been able to overcome the venom and spleen roused in him because the governorgeneral would not prostitute his office to make the senate still more partisan and to make appointments at the instance of one who was premier only by virtue of the machinations of a nest of traitors. The governor-general would not prostitute his office, and ever since Sir Charles had at every opportunity heaped insult on the head of the governor-general, but did not dare to challenge his conduct by a vote of parliament Sir Wilfrid briefly explained the well-worn position, the subject of so much debate last session, and said This was, he said, another occasion taken by the opposition leader to be unjust, unfair, and, more than that, insulting to the governor-general, but while he would be insulting in that way he would not dare to move a vote of censure. His conduct was as outrageous as was ever heard of in a British parliament. Mr. Beattie followed the premier in

a brief speech, attacking the government generally. Mr. Paterson explained fully several of the cases in his department, and then the house went into supply. Mr. Mulock was kept out of bed until the early hours getting through the supply for the inside postoffice service by half a dozen obstructive Conservative members.

SENTINEL? This week's Orange Sentinel contains the following editorial. Those who profess to be in a position to know, assert that somebody has been stuffing the Sentinel. Here is the Sentinel's

article: "We have received a letter from a correspondent in London, Ont., stating his belief that on all hands our Protestant fellow-citizens are being removed from their positions and Roman Catholics placed in possession. He avers that this is going on in connection with the civil service, municipal offices, the railways and in private employ. Even in the prisons, hospitals, asylums, etc., it is being practiced. In proof of the very sweeping statements made he gives one instance in which a young Roman Catholic was advanced over the head of an older official on one of the railways. If the case is as bad as our correspondent declares, it is somewhat strange that notice has not been taken of it before now. We have an idea that the brethren of the Orange Association are particularly alert in matters of that kind, and it is a marvel to us that a louder outcry has not been heard about such wholesale discrimination as our correspondent depicts. Whereever the condition exists there is a plain duty before the brethren of that locality. They should bring to bear every possible influence to prevent a brother being unjustly treated. That is their sworn duty. And while the Britain. Orange Order does not exist merely for the purpose of securing positions for the members, it should be made clear to those in authority that membership in the order must not be a for discriminating against any man."

DISPOSAL OF THE PHILIPPINES. New York, May 5.-Frederick R. Coutard, the eminent lawyer and journalist, who represented the United States in the Bering Sea dispute, in an interview gave his view as to the disposal of the Philippines as follows: "The United States has the right to hold the Philippines for indemnity or to keep them altogether as part of her territory, just as Germany took Alsace-Lorraine in the Franco-Prussian war. We may keep possession of them until hostilities are ended, and then their disposal will be one of the factors in the making of peace. Mr. Charlton Speaks on Sabbath Profanation.

An Able Paper by Rev. W. J. Clark of

St. Catharines, May 4.- The synod resumed business yesterday at 9:30, Rev. Finlay McCuaig, of Welland, the moderator, presiding. After devotional exercises, conducted by the moderator, Dr. Fraser, Mr. I. G. Stuart and Mr. W. A. Cook, the synod was duly constituted. The moderator then nominated a committee, consisting of Revs. E. Cockburn, E. Panton, E. H. Sawers, I. A. Anderson and W. A. Cook, ministers, and Messrs. Robert Lawrie, Duncan Stewart, and Hector Reid, elders. The synod then resolved itself into a conference on important questions of eligion and morality, as arranged for by a committee appointed at the last meeting of the synod, of which Rev. A MONOTON LADY

Cured of Weakness, Nervous ness and Heart Trouble.

Several years ago I had an attack of La Grippe, which left me in a very weak condition, my health being much impaired. Ever since then I have suffered from nervous prostration, heart trouble, and pain in the left side, so that at times I was unable to move about.

The least exertion distressed me, and oftentimes I could scarcely breathe, having to sit down after walking up stairs and rest for some minutes. I also had a fluttering sensation around my heart, so much so that I was sometimes unable to attend to my household

Despite the use of many remedies, and of the best medical skill, I obtained no relief until I finally tried Milburn's Heart and Nerve Pills. I had only taken a few doses when a marked improvement took place in my condition. I began to relish my food, and gained in strength every day.

Milburn's Heart and Nerve Pills have Cured her of Heart Palpitation-Invigorated her Nerves-Enriched her Blood and Brought Color to her Pale

For five years I was very miserable with heart trouble and nervousness. My entire system was run down, and I suffered from impoverishment of the blood, which made me thin, pale and weak. My heart would beat so that I could not walk; and I would smother and have difficulty in catching my breath. I was in a very bad state indeed, and thought that my remaining time on earth would not be very long. Both doctors and medicines failed to give me relief.

Hearing of Milburn's Heart and Nerve Pills, my husband got some for me. From the first I got better and better, and am now like another person. Palpitation of the heart is gone; My restoration to health and vigor the color has returned to my cheeks; followed as naturally as night follows | my system is invigorated and my blood day. Eighteen Months Old Baby Had Rash on Shoulder for Two Years Causing Intense Suffering. Would Scab Over, Break Open and Be Raw. Several Doctors and Remedies Tried. Efforts Fruitless. Cured by CUTICURA.

My sister had this rash come on her shoulder when she was about eighteen months old. It was there about two years causing her intense suffering. We had several different doctors, tried everything that we could think of, and that every one could suggest without effecting a cure. In spite of all we did it kept spreading. One day it would scab over and then crack open and a watery matter ooze from it and the scabs would all fall off. It would be raw for a time, then scab ever again. Some one recommended CUTICURA REMEDIES. We immediately procured a box of CUTICURA (cintment), a cake of CUTICURA SOAP, then tried the CUTICURA RESOLVENT, and before the bottle was half gone we saw a marked change, and by the time it was gone, she was entirely cured without a scar being left.
