#### LONDON, THURSDAY, MAY 15. "OLD EMERGENCY."

What has become of Old Emergency amidst the peace conferences, German armament scandals, and Slav perils of late? He was a terribly fine animal at the top of his growth in 1909, and when properly doped up could still doubt secure our Postmaster-General, cavort in a manner impressive to his keepers until early this year.

Caught out of the North Sea, and exhibited in a gaudy, barred car, he we will join the Albanians in crying romped and roared to beat a thousand bands. Capital letters named him the "Emergentius Maximus," horriblest specimen ever shown to civilized humanity since the heyday of the Norsemen. Every time he roared, and all the time between roars, the parliaments roared in fear or in sympathy. He threatened to beat down Britannia under his feet. The unicorn and lion together slunk and skulked away.

When the Reciprocity strife arose, and Annexation Bogey had the field, Emergentius fell into the exclusive keeping of the jingo Conservatives, and was tucked aside somewhere, though you could hear him rumbling in the distance. He had to be out of sight of the Nationalists. Perhaps he "went back," like Jeffries, in the lull, for when they brought him forward again last fall he hardly looked like the same animal, and has utterly failed to "come back." In spite of all that prodding, tickling, gingering or whipping could do, there were some who suspected fake.

Even his keepers and showmen stop-Ded calling him by the old terrible name and stuck new labels all over his den, Peril, Crisis, Need, until it looked like a far-travelled piece of luggage or stage property. Really these other names are bad enough, suggesting man's extremity, and long associated with such spectres as China, Russia or the White Plague, but Emergency is the mysterious and unique name of the only and original nightmare of 1909. Mr. Northrup, speaking House of Commons on Feb. 18, 1913,

Mr. Northrup is evidently more of a colitician than a scientist. He lacks intellectual curiosity; he has not even the primitive scientific interest of father Adam, or he would want to give that brute, however wicked or decadent or questionable a shape it may be, its proper name. Even a disease must have its name; name it, at any rate, as a first step of the cure. But ichabod for Emergentius! Nations called upon his name in 1909. In 1913 his exploiters are ashamed of him.

### THEODORE I.

project on foot to make ex-President its legs. Theodore Roosevelt king of Albania, the country that the Balkan war has evolved into an autonomous principality. We are not sure who Suggestion comes from a prominent Turkish gentleman, Mr. Ismail Kemal, spare time and a brilliant imagination. party to advertise its loyalty? But, wherever it came from, and whether made seriously or in jest, there is something to be said for it. It would be welcomed by many people in the United States, some of whom would appreciate the honor done to an American citizen; while others would be giad to get him out of the country

under any pretext. And he would make just the sort of king the Albanians would need. It is a wild and woolly country, and he would make a rather wild and woolly king. They are very fond of fighting, and he would give them all they wanted. In fact, if a condition of ignoble peace should be at any time impending, he would climb down from his throne, and start a riot himself. Then in his leisure moments he could give them a course of instruction in constitutional history, sociology, theology, or anything else in which their education might have been neglected. He is said to be nearly as versatile a genius as the Kaiser. What the Albanians did not know after he got through with them would not be worth knowing. Then he could appeal to their esthetic nature. They are a showy people, and he would be a showy king. It would not be necessary for him to wear a uniform of better Canadians and better Britishers that splendor which is fashionable all through the Balkan States. He could and his kind. They at least underdon the free and easy costume of the stood and prized the principles of Bricowboy, mount a bucking bronche, and tish freedom. Colonel Hughes dishonwith a lasso tied to the saddle, dash ors himself in heaping insults on their through the streets of Scutari at a pace that would leave his bodyguard far enough in the rear to escape the

dust kicked up by his noble charger. Yes, Theodore the First, would make of Chicago, to be given to boys and tion to the cities from rural districts fine king; one of the mediaeval kind, girls of 14 in the public schools: the kind that had to hustle if he want-

ed to keep his job. He might occasionally get into disputes with the big powers of Europe, but if the powers had any discretion (which is the better part of valor), they would keep him as they did to King Nicholas of questions. Montenegro, and tell him to "get out," he would promptly tell them to "ge to"; and if that were not enough he would meet their warships at the pier of Scutari, and make a speech that would "shiver the timbers" of both

Dreadnoughts and sailors. We suppose he would run his show all alone, but if he wanted any help we might send him some. He would no doubt handle his army to suit himself; otherwise we could easily spare im Col. Sam Hughes. A better gift from Canada, however, would be the Hon. R. Rogers. There would doubtless be some kind of parliament out here, and the Hon. Rogers could provide rules and regulations and enforce them, so that parliament would always be as unanimous as the government might desire. And if a lord sewer! high executioneer were necessary to carry out the edicts of the king, and

to the office. So, if this scheme ever materialize "Long Live King Theodore."

#### "NO TRUCK OR TRADE WITH THE YANKEES."

Here is a table extracted from Mr White's budget speech, showing Canadian imports from, and exports to, the United States, since 1908:

..... \$204,648,885 \$ 96,920,1 1909 ..... 170,056,178 1910 ..... 110,614,3 274,844,858 112,956,29 1912 ..... ....... 435,783,343

The Minister of Finance pointed out that Canadian purchases from the United States had more than doubled guise. in the six-year period, while Canadian sales to the United States had increased only 50 per cent. The so-called balance of trade in favor of the United States, he added, was \$285,000,000 in the past fiscal year.

According to the teachings of his party, this balance is unfavorable to to a pawnshop, where they at once rec-Canada. How does Mr. White pro- ognized it as mine. pose to redress it? There are two ways: first, by keeping out American products; second, by increasing Canadian exports to the United States, Mr. White has taken neither. In fact, by reducing the duty on cement, typesetting machines, ditching machines, and other articles, he has invited a larger volume of imports from the United States. His party refused the opportunity of increasing Canadian exports by means of the reciprocity agreement.

cure of the little deaconess as I first saw her at the Union depot in Toronto few days - or rather nights, ago Dressed in her quiet navy-blue garb with the whitest of cuffs, and bonnet strings, and the silver badge"Travellers' Aid Deacenes," gleaming on her breast, and with her kindly brown eyes and friendly smile, she would indeed be a welcome sight to any girl weary, homesick, and strange, ex-periencing for the first time the loneliness of arriving in an unknown

To the quiet, easy-going individual seldom brought face to face with conditions that are only too true, it is difficult to accept the fact that grave dangers exist for the girl who travels inprotected, and alone. Something of this I expressed to the little deaconess with the silver badge. She hook her head with a slow, sad smile Yet only tonight I have rescued two girls at this depot; they were being taken away by strange men who had promised to find their friends for hem," she told me. One girl had just arrived from Scotland; the other from Winnipeg, and in each case the friends expected had failed to meet their train, but came a few minutes

And we must realize that such instances are not confined to Toronto. The insidious attempt recently made in a local train by a matronly-looking voman to lure a girl to a probable life of shame, serves to bring more clearly home the dangers that lurk in unsuspected corners, when girls foolishly consent to accompany strangers. In time past the evil, while recognized to a certain extent, was considered so unpalatable as to be parred from all public discussion. Alas, that it should have been so, for surely the traffic could never have got suc foot-hold, or such an organized ystem as it has, if men and women had given it serious and sane attention and taken preventive measures years

Instances of the kind above menioned surely serve to emphasize the need of such officers as women train matrons, travellers' aids, etc., and one rejoices that London is shortly to have travellers' aid in connection with the Y. W. C. A., and also a W. C. T. U woman worker. Surely with these two officers in charge, the dangers for girls travelling alone, and arriving maccompanied at depots, will be essened in our city

To judge from the inquiries received from various parts of the province, and from the interest shown by the number of out-of-town visitors at the organization meeting of the Women's Liberal Association, of Toronto, the movement is destined to spread rapidly become provincial in its scope. Women, whether they want the vote or not, are becoming more and more interested in political matters and an egg, one cup molasses, one teaspoor are realizing more fully the close reation between legislation and condi-

The Tailored Suit

Not in many seasons has there been

such a diversity of styles in tailored suits-nor have there ever been more charming and wearable modes. This exellent suit situation may be the result of the various Paris designers' endeavor to restore the tailored costumes to the exalted position that they held for so many seasons before they stepped aside give precedence to the demi-tailored

resses during the last two spring seasons. Or it may be because the designers have succeeded in creating suits that are quite as graceful as the dresses; or because the draped modes have finally been properly adapted in suits. I shall never forget the first draped skirts that were resented in suits a season or so ago, for hey were draped regardless or how ulky or ungraceful they looked. In saying that the skirts of the new uits are perfectly draped, I should say

draped-in-effect, for many of them are not really draped, but only ingeniously inset with panels and slight fullnesses burden of yards and yards of fabrics.

### Why Berlin Beat Saints Yesterday

Jo-Jo Keenan, manager of the Berlin club, claims that Berlin's victory over St. Thomas yesterday, was due in a measure to his little 10-year-old daughter. This little girl remarked to her mother yesterday morning, after seeing that Joe's team had dropped two games in St. Thomas, that she was going over to St. Thomas "to break daddy's losing streak." Joe was tickled to death to see her when she arrived yesterday morning, and when she told him why she came he said it was a good luck sign sure. The result was that Berlin gave St. Thomas the worst beating the Saints have had this sea-

### George Gibson Will Return To Pirates in a Few Days

That the absence of George Gib. son is in a measure largely due to the recent poor showing of the Pirates is being realized by the Pittsburg sporting writers at present, and they are all anxiously awaiting for news of his return. Ralph S. David, one of Pittsburg's writers, has the following to say in the Sporting News about the matter. The surprising part of it is that Davis was always one of Gibson's worst knockers:

"George Gibson will be out for another month. He is at his home in Canada, and a few days ago wrote President Dreyfuss that he was getting along well. He says he is suffering no pain in his injured ankle, and only wishes he could get rid of the heavy plaster cast. He says it will be three weeks yet before the cast is removed, and he expects his recovery after that time to be very rapid. He says during his layoff he is accumulating a supply of "pep" to use when he gets back. He will certainly be welcomed by the bunch upon his return, for he has undoubtedly been sad-

ly missed. Meanwhile, "Mooney" is resting up on his farm in Delaware. He expects to return to Pittsburg in a couple of weeks, but will not get back into the game for a month yet. He can walk around on his injured foot, but prefers the crutches in order to give the ankle all the rest possible

GEORGE GIBSON.

He has been watching the results of the Pittsburg games daily, and is just as anxious to get back as the club is for him to come back. The accompanying picture shows George taking a walk on his farm. He is using the crutches, and every day goes for long walks around his property in this fashion. This is the first picture of Gibson taken since his accident, and the only one ever

## Gourlay Methods

The first Gourlay Piano was the result of accumulated knowledge in the art of piano making. We supplemented our own knowledge by searching not only Canada, but the entire world to find the most efficient and advanced methods of piano building. Those methods that had proved best, we adopted.

I To-day, if there is an innovation or change discovered that proves upon investigation and trial to be sound, we adopt it. This applies to principle, process, and material. This policy is unwaveringly observed in the Gourlay Factory, no matter what time or expense it involves.

### The Gourlay Piano

reflects these methods. It proves in tone, in durability, in finish, that this is the only correct principle of manufacture. The Gourlay Piano was never intended to sell at a low price. It never claimed your consideration on the ground of cheapness. It was designed and built to be a staunch, life-long companion, to win your lasting esteem because of its inherent good qualities, and a piano made by methods less thorough cannot meet this standard.

When you buy a piano, select a Gourlay, it is the piano which makes musical and material excellence the only consideration.

The chief point in Governor Johnson's message is his attempt to shift the responsibility for offensive discerimination in the responsibility for offensive discerimination in the responsibility for offensive discerimination of the responsibility for offensive discerimination if there is any, from the California Legislature to the National Government. He contends that there is no more invidious discrimination against the Japanese in the California law than there is in the fed. where apparently certain classes who shall be excluded from our country are described as 'persons who cannot become distille under existing law to become

"At least three states in the union have in the past enacted laws similar to the contemplated law of California, and protest is now made in respect to ifornia but emphasizes the acuteness f the problem confronting California, nd demonstrates that California is dif-erently viewed than other states of the union, and that if discrimination exists, it is discrimination against California. We insist that justly no offence can be taken by any nation to this law, and more particularly does this seem to us clear in the instance of a nation like Japan that by its own laws prevents acquisition of land by aliens.

"It is most respectfully submitted that after all the question is not whether any offence has been taken, but whether justly it should be taken. I voice, I think, the sentiment of the majority of the Legislature of this state when I say that if it had been believed that offence could and that if discrimination exists be taken by any nation to the law, that law would not have been

The one other provision of the bill was to increase the salary of Chairman Drayton, of the railway commission, from \$10,000 to \$12,500, and this also was approved. When the bill came up for consideration, Hon. Mr. Graham rose to

considerations, and regardless of the express a regret that some newspa-will of the Canadian people. It was pers had criticised the decisions of would give the impression that the card was under political influence. Hon. Mr. Rogers replied in indors ation of Mr. Graham's views, and said the previous Government was entitled to all credit for establishing the triounal and having selected such able men to act. The Minister of Public Works paid a tribute to the late Chairman Mabee, and said his place had been hard to fill, and he considered the selection of Mr. Drayton to have been the best that could have

## SIXTY PER CENT OF SPRING WHEAT

Crop Will Be About Two Weeks Later Than Last Season.

In a Few Places Some Damage Has Been Done by Frost.

[Canadian Press.] Winnipeg, Man. May 15 .- Reports from 20 points in the Canadian prairies show that wheat seeding is practically completwise to seed wheat after May 15. About oints report wheat three inches high, but the majority state that it is just through the ground. A few points report wheat naving been frozen or put back by severe eather. A majority of the reports show e condition of wheat to be two week ater than in 1912, but the seed has gone on a better seed bed and with more oisture. About half a dozen points port too much moisture. Four reported tual need of rain, and the balance reorted sufficient moisture to start the orted sufficient moisture to graft the rop and carry it well along into June, and ome even to July. About 50 per cent of ats and 25 per cent of barley are seeded, but a great many points report plowing till to be done for these grains, and still many more points state that plowing has actually been retarded by heavy frosts at hight

An average of the reports indicate that the acreage in flax will be at least 25 per cent lass than in 1912. Taking Dominion cent lass than in 1912. Taking Dominion Government figures as a basis, the flax acreage in 1912 in the three provinces was 1,668,400 acres, 25 per cent less would leave an acreage for the present year of 1,251,300 acres. As practically all the flax has still to be seeded, there is a possibility that this acreage will be slightly increased or decreased, but the trend of reports is to the effect that the flax acreages are being curtailed on account of difficulties experienced last year in harvesting and threshing and subsequent low esting and threshing and subsequent low

Left-Over Grain.

As of the amount of wheat still in the farmers' hands for sale, taking Dominoin Government figures for the crop, 183,333,000 bushels as a basis, 10 per cent of this would be 18,323,400 bushels. Many points report no grain on hand, and some of them report 40 per cent of last year's crop still unsold. One or two points report the threshing of wheat left over from 1912 and state that it is hard and not too seroiusly affected as to color. Taking a comprehensive view of the reports sent in, the whole question of crop turns on what Left-Over Grain.

and Charles Cunningham, aged 19, working on a dredge in the Kennebecasis River, was caught in a mass of spoil being dumped from a scow and carried to the bottom of the river. Quigg leaves a wife and child. Cuningham was single.

#### STRIKE GOES ON

[Canadian Press.] Fort William, Ont., May 15. — The joint board of the street railway executive and the frades and labor council of the twin cities met yesterday at the request of the latter body in order if possible to effect a settlement of the dispute. The conference lasted all the afternoon. At its conclusion the joint poard issued a statement stating that there was nothing further to be gained by negotiations, and they would maintain the stand taken when the strike was first declared, one of absolute de termination to give no ground to the strikers. A fairly good service is being maintained.

### RAINY NIGHT MADE SMALL MARKET TODAY

Hay Ranged From \$10 to \$12 Per Ton, Few Offerings of Dressed Hogs.

On account of the rain during the night the attendance at the market today was not much larger than that of Wednesday and as the offerings were not large the prices remained unchang-

Some eight or ten loads of hay were sold at prices ranging from \$10 to \$12 per ton and the average selling price was \$11.50 per ton. No straw was of-fered for sale this morning. Dressed hogs were firm at \$12.75 and \$13 per cwt. The offerings were not and were disposed of early in

Oats were sold at prices ranging from \$1.12 to \$1.16 per cwt., but the demand was weak Vegetables and dairy produce were

offered in fairly large quantities, but the prices were the same as those which prevailed on Tuesday. The prices. Grain, Per Cwt.

### P. M. Again Gives James a Chance

Promises to Have Amount of Fine for Intoxication in Court Today.

By the time James Egan finishes a little eing drunk, this morning, he will have neditated on the error of his ways, and berhaps decided to forsake the path which devotees of Bacchus follow. James has been in court too frequently

of late, and on the two last occasions was allowed to go. The court pointed out to him that apparently he would not pay any ttention to warnings, and imposed the cers for the past year will be received and other important business considuants had no money, but he hated to ered. stay in jail for ten days, so he promise the court that he would go to Glanworth, secure the money, and return to the police station by 3 o'clock, if given a chance. ### May Sell Share of Tecumseh House

Mr. Winnett Says He Has Not Yet Reached Decision on the Matter. [Special to The Advertiser,]

Toronto, May 15 .- Mr. James Winnett says there is nothing definite yet of the Tecumseh House, London, and cumseh House has nothing to do with the purchase of the Queen's at all. has already been stated in Toronto papers that Mr. Winnet has bought the Queen's Hotel, but he just informed our correspondent that the matter was still under consideration, and would say no more at present.

Mr. George O'Neil, proprietor of the Tecumseh House, when asked if he had heard anything of Mr. Winnett elling his share in the house, replied hat there was nothing to it.

"I received a letter this morning from Mr. Winnett's solicitor telling me that all arrangements were ready to make an addition to the present build-We have plans all ready, and I expect to go to Toronto the first of next week to be present when the contracts are awarded. We will start work on the erection of an addition of fifty rooms almost immediaely now.'

### Guests May Drink in Their Rooms

New Rules Only Prevent Liquor Being Taken Off the Hotel Premises.

There is nothing in the new bill mending the liquor license act to prevent a guest in an hotel from buying a flask of liquor and taking it with him to his room for consumption, ccording to Inspector Galpin. Faulting Electric Wiring in Business Section a Handicap to Firemen.

No. 3 committee of the city council has leclared war against the short-weight pakers. Reports of seizures made on Monday by Inspector McCallum included bread that averaged over five ounces short to each loaf. Ald Rose proposed that Inspector McCallum be provided with an assistant, so that seizures calld be made on a larger scale. Ald. Ashplant favored bringing the matter to the attention of the city council. It was pointed out that nothing could be done by way of making the penalty of a maximum fine \$5 severer without an act of the Proncial Legislature; but it was suggested by Ald. Stein that if several of the bakers ad their entire output seized some day, it would bring the short-weight failing more closely to the attention of their customers. It was pointed out that bread can be seized in the grocery stores, the same as in bakeshops and bread wagons.

Electric Wiring. Building Inspector Piper and Fire Chief Aitken reported on the electric wiring of the business section. Much fault was found with it, and it was said to be very difficult to raise ladders especially at night, to the front of buildings, so many connected at the same place, so that the Both the Hydro-Electric and London Electric are at fault in this respect. Chief Aitken thought that all wires should be connected at the same place, so that the wires would not be scattered all over the facades of the buildings.

"Why don't the hydro people use the conduits provided?" asked Inspector

siderable criticism at one of the larggressive Association held in some time, in the association's rooms, Collin's Hall, Wednesday night.

That every member of the association is dissatisfied, and in fact disgusted, with the manner in which some of the members of the city council are handling the city's business was the general keynote of the whole meeting. The first matter to come up for dis-

Graham's evident desire to fool the public into thinking the rate low by making it 24.9 mills instead of 25. Mr. R. A. Y. Stinchcombe said ould not understand the motive of the mayor. "It looks to me as if it solutely too ridiculous on the part of nue. a party of men supposed to be bus-inessmen. Why did they not make the rate 25 mills and be done with it? enough of this businessmen's council. The mayor cannot gull me with motion to the effect that this assomills, when it should have been 25."

Mr. E. A.
