What Is a Boy Scout?

A Boy Scout! He enjoys a walk through the woods more than he does the excitement of the city streets.

A Scout can tie a knot that will hold, he can swim, he can patch a tent, he can mend a tear in his trousers.

A Scout does not run away when an accident occurs. If a person has been cut he uses his first aid knowledge in stopping the flow of blood.

A Scout is kind to everything that lives. He prides himself upon doing a "good turn" every day.

A Scout promises to do his duty to God and his country, to help other people at all times, to obey the Scout Law, and at all times undertakes to do his best to keep himself physically strong, mentally awake and morally straight.

Any boy, twelve years of age or over, may become a Boy Scout by joining a troop that has already been started.

In case there is no troop in his neighborhood, or if for other reasons it is advisable to form a new troop, this may be done after consultation with Scout Headquarters in Toronto.

Newsprint From Peat.

English experimenters have demonstrated the possibility of making newsprint and other papers from peat, mixed with pulp for the finer grades.

News is distributed throughout the natives of Central Africa by means of drum-signals.

The Cash Value of Courtesy.

It was a busy season of the year on the farm of a leading Yorkshire breeder. The owner (you would recognize him if I mentioned his name) was away on some important business.

The man in charge of the farm, thinking of the work almost shuddering to be done, was perhaps a little hurried and impatient in his dealings with a prospective customer.

"From now on I am going to be responsible whether or not any work remains undone because a customer drops in on us unexpectedly. We hurt the feelings of a customer to-day by being discourteous to him."

"My instructions are to drop whatever you are doing, and place yourself at the disposal of the visitor. He is not interested whether we are busy or not, but in inspecting our herd. Give as good an impression as you can."

This man has been in the purebred business long enough to learn that good will means a whole lot in the final checking up of accounts.

His order to the men was merely carrying out of a good business policy. Many livestock breeders who are complaining about slow sales might find the reason in their treatment of visitors to the farm.

WINTER WEATHER HARD ON LITTLE ONES

Our Canadian winters are exceedingly hard on the health of little ones. The weather is often so severe that the mother cannot take the little one out for an airing.

The baby is confined to overheated, badly ventilated rooms; takes cold and becomes cross and peevish. Baby's Own Tablets should be given to keep the little one healthy.

Close formations are stated to be due to the presence of dust in the air, the particles of dust acting as centres of condensation for the formation of raindrops.

Mipard's Liniment Relieves Distemper

Kid Gloves from Whale Intestines.

Soft, pliable "kid," that is as strong and durable as its genuine prototype, from the intestines of the whale, thick sole leather of excellent quality from the lining of the whale's mouth.

From an embryonic idea three years ago to a practical method of utilizing annually millions of dollars' worth of otherwise wasted by-products, and supplying a new source of sorely needed material, the advancement of the industry has been phenomenal.

The latest development is the utilization of the skins of sea lions and seals, and the intestines and mouth skin of the whale.

The latest development is the utilization of the skins of sea lions and seals, and the intestines and mouth skin of the whale.

The inside of the whale's mouth furnishes a skin which is tanned and finished into a material that resembles the sole leather from a bull's hide, differing only in a "rib," which runs through it at intervals of a half inch.

All types of sharks—mud, sand, hammer-head, white, basking or giant shark—furnish valuable leather, and the grain of this tough product makes it prized for upholstery, bag and trunk covering, etc.

"Pape's Diapepsin" for Indigestion. "Pape's Diapepsin" is the quickest, surest relief for indigestion. Gases, Flatulence, Heartburn, Sourness, Fermentation or Stomach Distress caused by acidity.

Looking for Trouble. When we say of some one that he looks for trouble, we mean that he goes about with a chignon on his shoulder, a grievance to vent, a supersensitiveness to fancied slights, with an amour propre that is forever winking to be wounded.

Denmark is the only country which restricts its sovereigns to two names, used alternately. For over 400 years the Danes have had only Christian and Fredericks as their monarchs.

Chilblains, Frost-Bites and chapped hands use BAUME BENGUE. for immediate relief try a tube to-day and be convinced.

MINARD'S "KING OF PAIN" LINIMENT. A few cents buys DANDERINE. After a few applications you cannot find a fallen hair or any dandruff, besides your hair shows new life, vigor, brightness, more color and abundance.

PALE, WAN CHEEKS INDICATE ANAEMIA

New Health Can be Obtained by Enriching the Blood.

When a girl in her teens becomes peevish, listless and dull, when nothing seems to interest her and dainties do not tempt her appetite, you may be certain that she needs more good blood than her system is provided with.

Among the many who have benefited by the use of these pills is Miss Dora Kerr, R.R. No. 4, Warton, Ont., who says: "For a long time I had been feeling tired and worn out."

You can get these pills through any dealer in medicine or by mail post-paid at 50 cents a box or six boxes for \$2.50, from The Dr. Williams' Medicine Co., Brockville, Ont.

A Child's Dental Chair. The importance of caring for the teeth of children has been so strongly realized during the past few years that many devices have been brought out to facilitate the work.

MONEY ORDERS. Buy your out-of-town supplies with Dominion Express Money Orders. Five Dollars costs three cents.

Scrap Ferris Wheel. The famous Ferris wheel, which has attracted much attention among the foreign visitors in Paris for the last 20 years, is to be demolished and the steel will be used in the reconstruction of devastated regions of that country.

The Tsetse Fly. The Director of Agriculture for Southern Rhodesia says that the tsetse fly, so widely fatal to domestic animals, has invaded new districts of South Africa and reoccupied territory that has been free since the outbreaks of rinderpest in 1896.

YATES. Variations—Byatt, Ligget, Gates, Gaits, Waite, Wayte. Racial Origin—English. Source—Geographical, also occupational.

MacNAB. Variations—Abbot, Abbotson. Racial Origin—Scottish and English. Source—Occupation.

Surnames and Their Origin. The family name of MacNab is simply the Anglicized version of the Gaelic "Mac-an-Aba," and it means exactly the same thing as Abbotson, "son of abbot."

Yate. The name Yate is the modern survival of "By-Yate," meaning "by the gate." And the family name of Ligget represents several states of shortening from the form "atte Lidgate," that is to say, "at the Lid-gate." Lid-gate being the name of a definite locality in England to-day.

BITS OF HUMOR FROM HERE & THERE

Hydro in Scotland. Scotch interests are planning to obtain 42,000 electrical horse-power by harnessing three lakes, and to utilize the water-power running to waste in the watershed of the Tay.

Call Again. Pedlar—"Is the lady of the house in?" Mr. Newlywed—"Yes, but there isn't a thing in the wide world we want."

Wanted It to Go. "This is my car," exploded the irate tourist to the garagemen, "and what I say about it, goes—see?"

Simple Addition. Teacher—"Now, Willie, if I gave you five rabbits and then four more, how many would you have?" Willie—"Ten."

Mind-reading. A pretty little young lady of seven had memorized several of the stories in her fairy book and was fond of pretending to read them.

In Great Britain, duke is the highest title of nobility. The first English duke was Edward, the Black Prince, created Duke of Cornwall in 1337.

Township Lost Appeal

The appeal of the Township of Brant
against Mr. Justice Rose's decision in
the case of Sandlos vs Brant came up
in the Appellate Division at Osgoode
Hall, Toronto, last week before Chief
Justice Meredith, and Justices Middle-
ton, Riddell, Latchford and Lennox.
The appeal was dismissed with costs.
Sandlos vs Brant was an action brought
by John Sandlos, a Hanover grocer, to
recover \$6000 damages for injuries to
plaintiff and his auto, alleged to have
been caused by none repair of the Ches-
ley-Hanover road. On June 22 last,
Mr. Justice Rose awarded Sandlos \$500
and costs. It was this judgement a-
gainst which the Township appealed
unsuccessfully. Mr. O. E. Klein ap-
peared for Sandlos, Mr. G. H. Kilmer
K. C. of Toronto, for the Township of
Brant.

Wants Two Wives

A Colorado farmer who signs him-
self as George Smith writes to Governor
Shoup advocating a law permitting far-
mers to have two wives as a solution to
the farm labor problem. Here is the
letter:
Governor O. H. Shoup—I am a far-
mer seven miles south of Denver. You
are a good state governor or the people
would not have elected you by such a
large majority the second time. You
should originate some good help for
farmers and I offer you something to help
the farmers and you could lead all the
other governors if you can get it made
a law.
It is: Let the city men have one wife
and farmers two wives. You see one
could help the other and a farmer could
more surely raise boys to work the farm
and not need to hire at high wages.
Then the farmers could sell cheap crops
and make money, and living in cities
would be cheaper."

Provincial Road Grants

A Bruceite signing himself J. G., sent
the following query to the Farmers' Sun
"Is it necessary for a township council
to abolish statute labor in order to se-
cure the twenty per cent grant the Far-
mers' Government is giving toward
road-building?" The Sun answers: "No.
The grant is based however, only on the
money actually expended on the roads.
If the statute labor is commuted, there-
fore, the money spent is greater, and the
assistance from the government is pro-
portionately increased." At the last
session of the Legislature the percentage
of contribution by the province towards
road work was considerably increased.
Provision was made for grants in aid of
township road improvement and a fund
of \$2000 is set apart for the purpose of
making loans to townships for road im-
provements. The amount of contribu-
tion by cities to provincial suburban
roads is reduced from thirty to twenty
per cent, the difference being assumed
by the province.

David L. Weaver of the Good Roads
System in Artemesia Tp. was committed
for trial by Magistrate Crescor of Owen
Sound on a charge of sending in padded
lists and drawing pay for men who had
not been on the job. The amount in-
volved in Weaver's crooked work is \$400.
He is out on bail and the trial comes off
at Owen Sound in June.

KNECHTEL & KNECHTEL

"The Bloomin' Old Rag Overhead"

A SMALL Union Jack rippled amid the tree tops. There seemed something valiant about it, a gay, won't-be-downhearted spirit, when you heard its history.
A doctor at the Muskoka Free Hospi- tal for Consumptives was talk- ing. "The sad thing is, it's young people, eager, hard-working boys and girls, T.B. attacks usually— those who make the best Cana- dians, because they're ambitious. See that flag? The fellows in that pavilion were determined to have a flag. Each contributed the little he could. They got the flag, but, poor chaps, they're disappointed—it's so tiny."
Yes, tiny up among the towering pines, but defiantly proclaiming "What we have we'll hold." And in the cots beneath, lads, weak and ill, but battling for health, lads whose precious pennies bought "the rag overhead," are echoing its dauntless spirit—"What life we have we'll hold." Lads worth sav- ing surely!
Contributions may be sent to Sir William Gage, 34 Spadina Avenue, Toronto, or to Geo. A. Reid, Treas- urer, 233 College Street, Toronto.

A Soldier's Grit

An editorial in the Vancouver Daily Sun is eloquent of what can be done on the land by a returned soldier who has the "grit" to tackle the reconstruction problem with the same courage and

spirit which imbued him when he "joined up" The editorial is as follows:

J. E. Fagg served as private with the Princess Pats during the war. He won fame in a famous regiment. But at the end of the war put a period to his soldiering career. Instead of drifting back

to the city job, he turned toward the western plains. The Canadian Government staked him to a farm and machinery. Private—no, Farmer—Fagg built a homesteaders' home and gave his Government his note for the farm investment.

Then Canada temporarily lost track of ex-Private Fagg. But the day of harvest surely comes round. The Government in Ottawa heard from ex-Private Fagg.

"I put in 110 acres of wheat last spring," he wrote, "I take out 3300 bushels this fall. I can pay for my land and all the improvements out of this one crop."

Fine for ex-Private Fagg! But he continues: "I can't understand why any young man should slave away his life in a city for a bare living when he can find a home and independence on a farm."

Farmer Fagg isn't the only one who cannot understand that. Some people think it is the movie, the "modern conveniences," of the city. But they are wrong. Most often it is the necessary grit to go out on the land. Often he's afraid of work and afraid of tackling something different. It takes more courage to be a hero on a homesteaders' acre than standing elbow-near to others of the Princess Pats or any other regiment.

A man at Tilsonburg had a pet fox which died. He took the skin to town to have it cured and failing through ignorance to pay the necessary tax on the skin, he was fined. In Chatham last week a fellow was fined because he trapped skunks without a license. Recently in the north a deer was caught in a barbed wire fence. It had to be killed but a licensed hunter had to be found to do it, lest the avenging arm of the law be extended. There is no limit to British freedom and its a great life if you don't weaken.

Constable Took Samples

Stories of breaches of the Temperance Act in Teeswater led Provincial Constable Brady to take a hasty trip to that settlement on Friday last, when he took samples of cider from three kegs in the home of Mrs C Keip. The lady on being accosted informed the officer that the cider belonged to Mr Jacob Lambert, proprietor of the Vendome hotel in Teeswater, and against whom it seems, two convictions had been previously reported for breaches of the Liquor Law. The Constable has dispatched the samples to Toronto for analysis, and on the outcome of the test will depend the future course of action of the Walkerton sleuth in the case.—Herald-Times.

Germany has to pay sixty billion dollars, spread over a period of thirty years. That war that the Kaiser started certainly ended disastrously for a nation that almost held first place in the commerce of the world. All she has to pay with is her goods and at present buying German made goods is not in vogue. Coal, it appears, will be the main commodity the outside world will want for some time to come. The force of the Kaiser's mistakes is now coming home in full realization to the German people. And yet the war spirit is not dead. The militarist party are looking forward to the day when they will again be in control.

Why should newspapers be going up in prices when so many products are coming down? There are two reasons. In the first place, paper did not advance during the war to anything like the degree most other things did. Publishers held on grimly in the hope and expectation that costs would come down again. In this they were disappointed. Newsprint which before the war could be bought for \$50 a ton, and a year ago still be bought for \$95, is now selling at \$140 a ton. There have also been several increases in the freight which add materially to the cost. Printer's wages have also increased and in the face of such increased cost of production, which shows every indication of continuing for some time, an advance in the rates was inevitable if papers were to continue to exist. Moreover, at four cents there is nothing that represents such good values as a newspaper.

Attempt at Revolution

The disquieting information that a radical body, known as the International Soldiers' and Workers' Association, which aimed to establish a form of soviet rule in Canada, had been organized and operating in Hamilton for more than two weeks, leaked out last week. An official who resigned from the body's executive on Saturday, declared that in two weeks the association had obtained a membership of nearly 300. It aims include a distribution of foodstuffs for the unemployed, a just share for the workers of all profits made by employers, a demand that employers be compelled to provide work for all, and in case they refused that the factories be taken and operated by the workers. Meetings of the association have been held during the past two weeks in a basement in the northeastern section of the city and have been attended by men of both foreign and British extraction. On securing sufficient funds it is proposed to send delegates to every city in the country to organize branches of the association.

When Grandmother Was a Girl

HOOP skirts were worn by those who first asked the druggist for, and insisted on having, the genuine Golden Medical Discovery put up by Dr. Pierce over 50 years ago. Dress has changed very much since then! But Dr. Pierce's medicines contain the same dependable ingredients. They are standard today just as they were fifty years ago and never contained alcohol.

Dr. Pierce's Golden Medical Discovery for the stomach and blood cannot be surpassed by any tonic and alterative today. When you feel "all out of sorts"—your vitality at a low ebb—the blood becomes surcharged with poisons! The best tonic is called Dr. Pierce's Golden Medical Discovery. Dr. Pierce manufactured this "Discovery" from roots and barks without alcohol—a corrective remedy, the ingredients of which nature put in the fields and forests for keeping us healthy. It puts vim, vigor, vitality into the blood. Try it! All druggists. Send 10c. to Dr. Pierce's Bridgeburg, Ont. Laboratory for trial pkg.

DUBLIN IS NOW ONE OF THE STORM CENTRES FOR AMBUSCADES

Attacks on Military and Police Are Frequent Day and Night—Pitched Battle in County Cork—Crown Forces Drive Rebels Back.

A despatch from Dublin says:—A pitched battle occurred in County Cork on Wednesday night in which five hundred Sinn Feiners fought with a contingent of police and military. It is officially stated that the Crown forces suffered no losses and it is estimated that six Sinn Feiners were killed and twenty wounded. The latter removed their dead and wounded in boats. The Roscarberry police were informed on Wednesday night that a body of civilians had concentrated at Buratia, a mile south of the former town. Twenty men were sent out to disperse them while another force was despatched to the scene from Clonsilla. When the Roscarberry contingent arrived on the scene, they were fired on from both sides of the roads by the Republicans. The police took to cover and when the Clonsilla party arrived the two forces closed in on the attackers from the north and east, driving them back to their headquarters. At least six Sinn Feiners fell in the course of the engagement but the party managed to make its escape under cover of darkness. The Crown forces captured rifles, ammunition, an automobile, boxes of bombs and other equipment. This unprecedented Republican

concentration, it is declared, was intended for a rush on the Roscarberry barracks. For the twenty-four hours ending Thursday evening, despatches from various parts of Ireland reported nine police and nine civilians killed and ten police and twenty-two civilians wounded. Two policemen were shot at Balbriggan, Ireland, Thursday night. One died in a hospital. Two lorries of police were ambushed Thursday night between Dromkeen and Newpalas. One got through safely but the other was riddled with bullets. Nine policemen were killed and two wounded. At Limerick city Thursday night the bridges over the Shannon River leading to County Clare were held by the police and no one was allowed to pass over them. Dublin now is one of the storm centres for ambushes. Attacks on the military and police are so frequent night and day that the newspapers have difficulty in reporting all of them. The object of the Sinn Fein activities is said to be to force General MacReady, the military commander in Ireland, for political effect, to extend martial law to Dublin. Every police and military lorry here now carries a hostage.

REPARATIONS COMMISSION'S TOTAL

Twelve Per Cent. Export Levy is Not a Direct Tax.

A despatch from Paris says:—The Reparations Commission estimates that the total damages of all the Allies collectable from Germany will be between 210,000,000,000 and 250,000,000,000 gold marks, according to an official announcement. The Ministry of Foreign Affairs calculates that the Supreme Council's fixed indemnities, if capitalized, should yield about 75,000,000,000 gold marks. The figures of the Reparations Commission, which just have been totalled, show that France's damages amount to 110,000,000,000 gold marks of which amount 75,000,000,000 gold marks are charged to devastated regions and 3,000,000,000 gold marks for pensions. The estimate of 75,000,000,000 gold marks, as capital represented by the 226,000,000,000 gold marks fixed by the Supreme Council, although approximately only one-third of the damages, will be supplemented by the twelve per cent. German export tax. At the ministry of foreign affairs, it was explained that the twelve per cent. export tax was not intended as a direct tax on exports to be applied to each shipment out of Germany, but a figure that the Allies demand that Germany shall pay in a lump sum in addition to the fixed indemnities.

EXCESS PROFITS TAX IN GREAT BRITAIN IS TO BE WITHDRAWN

Chancellor of the Exchequer Chamberlain Took Unusual Course in Announcing Budget Intentions in Advance—All Businesses Except Those Begun Since the War Pay Tax for Seven Years.

A despatch from London says:—Chancellor of the Exchequer Chamberlain, speaking in Birmingham on Thursday night, made an announcement, important to English businessmen, that the much-reviled excess profits duty will be discontinued this year. The duty is charged on the amount by which the profits from all trades and businesses exceed by more than £200 the pre-war standard of profits. The duty is equal to 60 per cent. of excess profits. For the year 1919-20 it brought £290,045,000 into the Exchequer, and revenue from the same source for the year ending March 31 next is estimated at £220,000,000. Mr. Chamberlain announced all pre-war businesses will pay a tax for a period of seven years, dating from the first accountability period in which they fell within the scope of the tax. For all new businesses it will cease as from December 31st. Further, he undertakes to impose no new tax in substitution. There may, he said, be some new duties in the Budget for anti-dumping purposes, but there definitely will not be any new revenue-producing impost upon business. He admitted the excess profits duty was open to great objection. It was to a large extent, arbitrary in its incidence, tended to encourage extravagance in industry, and discourage enterprise, and the only justification for it was to be found in the crucial need for money and in the fact that, at the time when most people were suffering loss of income, certain people, through the same cause, the war, were earning abnormal profits.

Britain's Tax Twelve Times Germany's

A despatch from Paris says:—A comparative table of taxation in Germany, and three of the allied countries, Great Britain, France and Italy, is used to show Germany's ability to bear a greater burden, in a joint statement issued by the various delegations of experts who participated in the Brussels conference. The per capita taxes, except local charges, for the current fiscal year in Germany are 599 marks; in France, 390 francs; in Italy, 200 lire, and in Great Britain, £22, the statement says. On the basis of recent New York exchange rates the per capita tax in dollars in Germany is \$7.30; in France, \$28.08; in Italy, \$7.34; and in Great Britain, \$83.87.

BRITISH INDIA IN STATE OF UNREST

Thousand Persons Halt Railway Train and Attack Police.

A despatch from London says:—Unrest continues among the peasants of the united Provinces of Agra and Oudh, British India, according to a despatch to The London Times from Allahabad. Agitators are reported to be carrying on a violent campaign against the Government, despite the fact that legislation has been promised to remedy their grievances. In the latest instance of disorder a thousand persons lay down upon the railroad track in order to halt a train on which they believed their leader, who had been arrested, was being transported. When persuasion failed the police were ordered to clear the track. The crowd then made an attack with stones, whereupon the police opened fire with buckshot.

CROSS ATLANTIC IN TWELVE HOURS

Britain's New Aero Engine Has Wonderful Possibilities.

A despatch from London says:—The successful testing of a 1,000-horsepower aero engine, which is said to be the most powerful known, has opened up claims by experts of the possibility of a regular London-New York aerial service, and a complete passage within 24 hours, either direct or by changing aircraft at the Azores Islands. It is being recalled by the experts that Capt. John Alcock in 1919 flew from Newfoundland to Ireland in less than 16 hours, using two 375-horsepower engines. The new engine is called the "Cub." It was ordered by the Royal Air Force. It is understood that the Titania, a flying-boat destroyer which is to be used in long-distance patrols, will be equipped with two "Cubs," and have a range of 1,500 miles. For war time the crew will number ten, and for civilian use the craft can accommodate 50 passengers. The Cub's 18 cylinders on a test indicated 1,057 horsepower in 20 hours of running. The engine weighs nearly a ton, and costs about £5,000.

Britain Obtains Steamer Von Tirpitz

A despatch from London says:—The newly-completed German steamer von Tirpitz, a vessel of 19,200 tons, was surrendered at Immingham on Thursday in accordance with the terms of the Peace Treaty.

NAVAL HOLIDAY FOR 12-MONTH PERIOD

Imperial Defence Committee Recommends Stay in Shipbuilding.

A despatch from London says:—The draft of the report of the Imperial Defence Sub-committee has been completed, and it recommends abatement from a big shipbuilding program for a period of twelve months. The object of the delay, it is learned, is to give time for official negotiations among the United States, Japan, and Great Britain for a curtailment of their navies. There will be no action on the report for several months yet, and at any event the decision of the Government will need the ratification of the Imperial Conference, which is to be held in June. Meantime the First Lord of the Admiralty will request the House of Commons to agree to a postponement of the naval estimates. Australia and Canada are closely watching every move in the naval situation. Senator E. D. Millen, Acting Premier of Australia, who left for Melbourne from London on Saturday, gave out a statement on Thursday, in which he expressed confidence that the Imperial statesmen will back Australia's immigration policy. Australia wants a recognition of the status quo in the Southern and Eastern Pacific, achieving such a community of interest that the mad naval race between the Occident and the Orient would cease, but where this race proceeds it is vital to Australia that the British interests in the Pacific should be safeguarded.

Newfoundland Suffers Severest Cold of Winter

A despatch from St. John's, Nfld., says:—The Newfoundland coast is ice-bound as a result of the severest cold of the winter. The northern bays and Conception Bay, ten miles north of this city, are solidly frozen over and the mail steamers have abandoned their service. St. John's harbor has a thick coating of ice, which makes the movement of shipping difficult.

The University Professor.

Occasionally there are evidences that the ancient idea that a university professor works only about half as long and half as hard as do other people is not yet entirely dead. This idea was based on the false assumption that the professor works only when he is before his classes and is actually engaged in teaching. Though traces of the old notion still remain, anyone who knows a university professor of the twentieth century realizes that he works harder and longer than most business men and that his hours of labor are not fewer than those of the farmer. Some people say that the farmer does not work in winter; the farmer indignantly denies this, and he is right. Some people also say that the professor does no work in summer; he denies this just as indignantly as does the farmer and he is equally right. The professor's teaching is not even half of the work he is called upon to perform. Dealing always with the brightest of youthful intellects, he cannot afford to fail in preparation of his work; he must be always up to the minute in his information. Five hours to twenty hours of preparation frequently precede one hour of lecturing. Summers provide a time for reading, for research, for advancement in knowledge. Then there is the reading and marking of essays and exercises—hundreds of them. Also the reading and valuing of examination papers—again hundreds of them. Also committees for discussion and settlement of courses, of administrative details, of the hundred and one matters, large and small, that have to be considered in the work of a great institution of learning. There is one art that the average university professor does not understand—the art of self-advertisement. He does his work faithfully, works in the evenings and often on into the mornings, works when his neighbors think he is resting or holidaying, but says little about it. He is one of those who "do good by stealth." Perhaps this is a mistake, because people generally are inclined to believe only what they actually see.

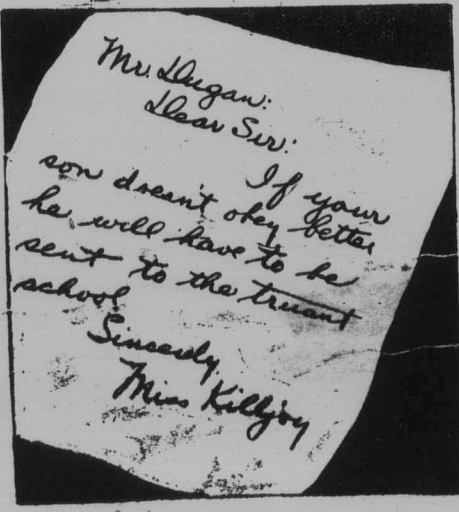

Canada's Youngest Mayor. Frank H. Plant, who was recently elected Chief Magistrate of Ottawa, is only 37 years of age and reported to be the youngest Mayor in the Dominion. He was formerly a newspaper man and is now head of a big manufacturing plant.

Stork Helps French Reconstruction

A despatch from Paris says:—For the first time in a number of years the population of France shows an increase. Official figures prove that during the first quarter of 1920 there were 67,946 more births than deaths. The births numbered 424,668; the deaths 356,722. These figures include the devastated region and Alsace-Lorraine. The population of France is given as 41,476,000. The Paris newspapers declare these figures the most encouraging symptom of the country's recovery from the ravages of the war that has yet appeared. The Delaware State Senate has just passed a bill making the penalty for highway robbery forty lashes on the bare back, not less than twenty years imprisonment and a fine of \$500. The vote on the measure was unanimous.

AMBELSIDE

Last Thursday, Feb. 8, about sixty friends and neighbors assembled at the home of Mr. and Mrs. Jos. L. Meyer to bid them a formal farewell. Mr. Meyer has purchased a house in Walkerton and intends moving there soon. Mr. Jos. Illig acted as chairman and called upon Simon P. Meyer to read the following address. Mr. Meyer was presented with a fine oak chair by Mr. Andrew Schnurr and Mrs. Meyer was made the recipient of a valuable purse by Mrs. Alex Becker.

Dear Mr and Mrs Meyer:

We, a few of your neighbors and friends, have gathered here to-night upon hearing that you are soon to leave this locality, to say farewell to you and wish you all possible success in your new home. During the few years you have resided in this vicinity, you have shown yourselves excellent neighbors and true friends, always ready to lend a helping hand in time of need both in religious and social circles. We are sincerely sorry to lose those whom we have learned to love and admire. There is consolation in knowing that what is our loss is other's gain. We send with you our best wishes and fondest regards and hope that with your new friends, you are sure to make with your kind dispositions, you will not forget your old Ambelside friends.

We ask you to accept these small gifts, not for their intrinsic value, but as a souvenir of our affections. All of us join in wishing you God's choicest blessings and continual prosperity.

Signed on behalf of the neighbors and friends.

Mr Meyer replied in very feeling terms stating that he did not deserve or expect such a generous send-off and in thanking his guests very heartily, he threw the house open and invited them to enjoy themselves to their heart's content. This they did to the fullest extent in cards and dancing to the strains of the violin, skillfully manipulated by Jos Fortney and Jos Seifried, till the wee small hours of the morn. Too much praise cannot be given Mrs Meyer for the splendid lunch which she served during the evening, to which all did ample justice.

LIVE STOCK MARKETS TORONTO

With around 1500 cattle on sale at the Union Yards the market for all classes of good butchers was from 25c to 50c higher. There were exceptions to this rule, but generally speaking, the statement holds good. The cow trade was steady and the same may be said about the bulls.

There was a little better demand for the stockers and feeders and it looks as if the market for this class of cattle would pick up a bit now. Prospects for all classes is a shade better for the balance of the week.

Around 1,000 sheep and lambs to be sold, the market was weak and lower, with the top at \$12 and only one or two lots at that, the bulk of the sales running at \$11 to \$10, with the general quality of the lambs very poor. The sheep trade is lower in sympathy with the weakness in lambs.

Calves are holding about steady and the hog market is unchanged from last week's prices, but the packers are talking 50c off for the balance of the week.

Magistrate Laidlaw, of Durham, fined George Fischer of Bentinck, \$50 and costs for violating the rules and regulations of the Board of Health while being quarantined for smallpox. This is a serious offence and liable to a fine not exceeding \$500.

The signs are becoming more pronounced that if oil is not found in the vicinity of Shelburne, it will not be for the lack of seekers, says last week's Shelburne Economist. The Chamberland Syndicate have drilling outfits at work on the Lyon farm on the Gravel Road Melancthon, and on the Stoddart farm, Fifth Line, Melancthon. Canadian Oil Fields Ltd (the Finch company) have everything in readiness for the drilling outfit on the McDonald farm on the Amaranth side of the townline, west of town. It now is said that the Indicator Syndicate with Jas Pickering, Shelburne first searcher after coal and oil, as the guiding spirit will soon start drilling on the Oliver farm, Fourth Line, Melancthon, at the northwest edge of the town.
