

UNION WILL NOT BE RECOGNIZED

James Ross Declares Recognition is Out of the Question

Outsiders Will be Brought In to Fill Men's Places

Telegram Sent to Ottawa Protesting Against Removal of Troops

SYDNEY, N. S., July 11.—A reasonable length of time will be given the employees of the Dominion Coal Company now on strike to return to work, and if they then do not do so men will be imported in large numbers to fill their places. So James Ross, president of the company, declared in an interview accorded to The Sun today, in which he set out the position of the company regarding the strike of the United Mine Workers. He also made the important announcement that if Messrs. Bousfield, McCullough and other American U. M. W. men live up to their offer to leave the country he will treat with the men on strike, but in no circumstances will he recognize the mine workers' union. Men are being imported at the present time to all the places of those who have left the country. At the solicitation of the U. M. W. he said, but he added that men will be brought in to fill the places of any men still in the country until it is seen definitely that the local men will not abide by their contract.

WILL REPLACE EVERY MAN.

These men will be brought in to replace every man who still stays on strike. Mr. Ross reiterated his former statements that the company has no dispute with its men.

CRUSHED BETWEEN SIDE OF HOUSE AND A PIANO

Frank McFarland, Expressman, Killed at Lowell, Mass.

LOWELL, Mass., July 10.—Crushed between a piano and the side of a house when the automobile truck of the Gibbs Express Co. of Woburn backed suddenly into the instrument, Frank McFarland, aged 33 years, in the employment of the Express Company, was killed on Middlesex street, here today. McFarland was standing between the piano and the house when the truck suddenly darted backwards over the curbstone and crashed into the piano, smashing it against the side of the house and crushing McFarland to death instantly. The accident was due, it is said, to the chauffeur of the truck, Raymond Yetch, aged 19 years, pulling the reverse lever. He was arrested on the spot. His remains will be brought into court Monday morning.

MRS. HARVEY KILLED IN AUTO ACCIDENT

AMHERST, Mass., July 10.—Mrs. Ada L. Harvey, of Amherst, was killed in an automobile accident on the Sunderland Road between North Amherst and Sunderland this afternoon. The party, which included besides Mrs. Harvey, Mr. Henry Howe Chauncey H. Pierce, of Northampton, owners of the automobile and chauffeur, were riding along with Mr. Pierce at the wheel. His experience with the machine was limited, and when the car struck a rough part of the road, Mr. Pierce lost control. The machine turned off the highway and was upset, plunging Mrs. Harvey underneath. She died almost instantly. The others escaped with slight bruises. Mrs. Harvey is survived by a brother, Wm. M. Larned, of Amherst.

ANNAPOLIS, N. S., July 13.—The funeral of the late Captain George Emerson took place here yesterday afternoon. The interment being in St. Alban's Cemetery. Rev. Henry Howe officiating. Captain Emerson, who was fifty-nine years of age, was a Norwegian by birth, but settled in Bear River nearly fifty years ago. Two years ago he removed to Clementsport, where he has since resided. Captain Emerson was one of the most prominent seafaring men hailing from this country. An ardent Mason, his funeral was conducted by that body, the Annapolis and Bear River lodges attending. The deceased is survived by a wife and several children.

PILES

Dr. Chase's Ointment is a certain and guaranteed cure for every form of hemorrhoids, and is the only one that does not irritate the parts. It is sold in all drug stores. Price 25c per tin. Dr. Chase's Ointment.

PREPARE PLANS FOR CONVENTION

Temple of Honor Meets Here

WORLD'S GATHERING. Dr. Woodruff Will Preach at Special Service—A Big Parade

At a meeting of the managing committee held Friday evening, plans for the World's Convention of the Temple of Honor and Temperance were further advanced. Dr. W. F. Roberts occupied the chair and several suggestions were made and discussed. The convention will be held in St. John on August 10, 11 and 12. On Sunday, August 8, the members of the temperance bodies will hold a large church parade. It is expected that over five hundred will be in line. The sermon will be delivered by Rev. C. S. Doodruff, D.D., of Flemington, New Jersey, the Most Worshipful Recorder of the Supreme Sessions of the Council.

The regular business meetings of the convention will be resumed this evening about 7.30 o'clock. On Wednesday night a banquet will be tendered the visitors by the local sections in the banquet hall of the Temple building. A splendid programme is at present in the course of preparation for this occasion. Rev. Dr. Woodruff is to speak in the Grand Street Baptist Church during his visit to the city. Mrs. Woodruff will also deliver a number of addresses on missionary work.

WAR HERO DIES AMID POVERTY

Colonel Pointer Was a Staff Officer Under Gen. Joe Wheeler

NEW YORK, July 10.—Col. Marcelus Pointer, prominent during the Civil War as staff officer under Gen. Joe Wheeler, and of late years a supposedly successful railway promoter, was found dead from apoplexy today in a Bowery lodging house. Among his effects were letters from Gen. Wheeler, commending him for bravery, and a petition to President McKinley signed by many prominent army officers and the late Senator Morgan of Alabama and Senator Culberson of Texas, which in circumstances had apparently become strained recently. Among his papers were pawn tickets for his watch and for several gold medals given him for courageous conduct on the field of battle.

DEMAND CHEAPER WEARING APPAREL

House to Deal With Cottons and Woollens, Senate With Gloves and Hosiery

WASHINGTON, July 10.—Cheaper cotton and woollen goods and cheap hosiery and women's gloves—the former demanded by the house and the latter by the senate—promise to be among the most stubbornly fought questions in the congressional conference on the tariff bill. At least that is the way things appeared at the close of the session today. There was a great deal of speculation today among leaders in congress who are not parties to the conference as to what will be done with these items. Many members expressed the opinion that the house would yield on the cotton and wool and the senate on gloves and hosiery in compliance with protectionist's idea of "stand-patience."

C. P. R. TO LAY 11 NEW TRACKS

Work of Enlarging Yard Begins

The Work at Bay Shore Will Occupy Balance of Summer

A large crew of men under Roadmaster Miller have commenced work on the extension of the Canadian Pacific Railway yard at Bay Shore. Although the present yard includes nearly ten miles of tracks the need for more room has been felt for the past two seasons. At one time last winter over one thousand loaded cars were standing on storage tracks at Bay Shore while practically every foot of siding space between St. John and Yarmouth was required for the movement of current traffic was occupied by loaded cars waiting to be discharged at West St. John. It is expected that the new extension will provide a repetition of this during the coming season. Eleven new tracks will be laid down having an average length of 1,200 feet each and will provide storage room for between three and four hundred cars. The leads from the main track were being put in last week and the track prepared for the steam shovel which will be installed in a few days. The shovel will work on a ten foot bank reducing it to the level of the present yard. The material removed will be taken to fill in at the lower end of the yard over which the new tracks will extend. The work will occupy the rest of the summer, but will be completed before the opening of the winter port season in November.

MR. CHESTNUT'S FUNERAL IS LARGELY ATTENDED

Employes Walk in a Body—Sermon to Orange-men

FREDERICTON, N. B., July 11.—The funeral of the late Henry Chestnut took place this afternoon from the residence, Waterloo Row, and in spite of the disagreeable state of the weather was very largely attended. Prayers were conducted at the house by the Rev. J. E. McKinnon, and the Rev. J. R. McDonald, and interment was made in the rural cemetery. Employes of R. Chestnut & Sons, J. C. Risteen & Co., and Chestnut Cane Factory marched in the procession. The pallbearers were John McEldon, John Miller, J. Gorman, R. H. Wicket, Mourner, W. T. Chestnut, H. G. Chestnut, C. F. Chestnut, Allen Randolph, Wm. Sloat, Robt. Ross, Chas. Handolph, Harold Babbitt, Chas. Hall, Gen. Ferguson, Geo. E. Fenety, R. W. L. Tibbitts, C. A. Burchill, R. B. Vandine. The arrangements of this city and the Fredericton Brass Band, headed by the Rev. J. E. McKinnon, proceeded from Orange to George street Baptist church, where special service was held, conducted by the pastor, the Rev. A. Dr. Hobson said in opening that the fine art in life is to be your best self. Everybody, he remarked, wants to be the best, but there are hindrances to being that which God intended. One of these hindrances is the temperance of the world and its opportunities. Another is the false humility which prompts people to stand back when there is something to be done and let somebody else do it. It is the first lieutenant of laziness. Because of it somebody else does the world's work. He believed, he said, he hoped to be able to do the work of the world. He believed that the world is a hindrance, and greatest of these is intemperance. The speaker reminded the boys that the athletes in training abstain from liquor, and so does any man who would do the best that is in him. In the United States the drink habit is now regarded from a business standpoint and great corporations demand sober men. A temperance man sweeping the United States that will wash it clean. Dr. Hobson, speaking as a New Brunswicker with knowledge of conditions in both countries, said he believed in every man, and who gives back only a wasted life and wreckage and disappointment has not lived his best self. It takes three to make a religion—your neighbor and God. They must be faithful in God and man, no matter how low the man may fall. It helps to the best manhood and womanhood. Turning to the boys, the speaker said they were probationers for manhood, and what they would become depended much upon their habits. They should first have a sound body, and he had no use for a religion that separated the body from the soul in the treatment of the man. Referring to three years work in the slums of Boston, Dr. Hobson said that you cannot save a man by telling him what he must not do. You must give him something to do or he will fall back again. You must interpret religion in the terms of the work-day world. But it means hard work. Ideas that flash in an instant may call for years of weary wandering. Speaking to parents, Dr. Hobson pointed out that boys are fine little animals to begin with. They have a sense of duty, and they are not to be put to the race. Trace him back for generations and you find a thousand streams conveyed in this one copious life that has to fight life's battles. The lives through the experiences of the race, and at one stage has the instincts of his savage ancestors. If carefully trained until the age of adolescence, and if then you can hold his confidence by friendship and encouragement, he will come forth a man who is unafraid. Harness the energy of the lively and lively boy to some good cause. Dr. Hobson said he would like to make an investment in such work as the Every Day Club seeks to do. It deserved support, and in this connection he spoke of the old women, which give as auxiliaries. He hoped the club would realize its ideals and its members live their best selves.

AMERICAN GIRL WEDS A JAPANESE

Mrs. Kerria Will Spend Her Time Between Coney Island and Providence

NEW YORK, July 10.—Miss Mary Louise Bell and Kress Kerria, a wealthy young Japanese, were married today in the mortuary chapel of an undertaking establishment after twenty days of courtship. The bride turned them away. Kerria has a string of tea gardens across the country, and the bride said she expected to divide her time between Coney Island and Providence. R. L.

FAMOUS BRIDGE DESTROYED

TROY, N. Y., July 10.—The famous old wooden covered bridge across the Hudson river between the upper section of this city and Waterford, was destroyed by fire today. This bridge, which was, perhaps, the oldest of the kind in the United States, was first opened for traffic in 1802 and was in constant use up to the hour of its destruction. The loss is \$100,000. A Thrilling Fight. NEWPORT, R. I., July 10.—A thrilling fight between Commodore Cornelius Vanderbilt's olop Aurora and G. M. Pincheon's Ilatana, in which the Aurora nudged across the finish line a scant four seconds ahead, was the feature of the 22nd annual regatta of the New York Yacht Club today around the Block Island course. The races were for the regular prize and the cup offered by Commodore James Gordon Bennett in 1871.

CANADIAN AND DRINK HABIT

More Hard Drinkers Than in United States

DR. HOBEN SPEAKS

Open Air Meeting a Big Success—A Splendid Marchout

The temperance mass meeting on the Every Day Play grounds yesterday attracted a great success, and attracted many hundreds of people, who sat in the grand stand or on the bleachers or stood about within hearing distance of the speaker's platform, in front of which were grouped the orchestra and a number of members of choirs who joined to lead the singing. Rev. Dr. Hobson of the University of Chicago delivered a brilliant address. It is evident that hundreds more would have been present but for the weather, which all day threatened rain and almost led to the postponement of the meeting. Not until after three o'clock was it finally decided to have the affair carried out, and the turnout of members of the Junior Section, and those of the North End, Temple of T. and H. was smaller than if the day had been fine. However, nearly two hundred, including La Tour Section, from Carleton, the Fairview Section, and those of the North End, set out from Temple Hall, headed by the Every Day Club fife and drum band, and marched to the grounds. They were accompanied by George Blewett, S. E. Logan, Rev. W. R. Robinson, Mr. Campbell and Dr. J. H. Gray, and officers of the sections. The marching was a revelation to those who watched them, and when they turned into the grounds they made the circuit of the track to the farther end, but they were not to civilization that I have succeeded where they have failed.

MAINE WOMAN LIKELY SLAIN

WISCASSET, Me., July 11.—The body of Mrs. Abbie Cromwell, aged 71 years, was found about a mile off the western road in the woods on the boundary line between Dresden and Wiscasset today and the authorities suspect murder. The woman had been missing since June 25 and had a body was so badly decomposed that the preliminary examination did not disclose the cause of the woman's death, but it is thought that she might have been strangled and robbed. She was known to have had a large amount of money on her person at the time she disappeared and this money could not be found today. Mrs. Cromwell lived with a daughter in Dresden and on June 25 she started to walk through the woods to the home of her son who lives in this town. She carried with her some money as she was known to have driven her to the bank to make a deposit.

BREAKS HIS ANKLE ON FERRY FLOATS

While toting up the East Side ferry floats Saturday afternoon Geo. Durant of the West Side had his ankle broken by being jammed between the guiding beam, which separates teams from foot passengers and the wagon belonging to the Union Ice Co. Upon being conveyed to the hospital by the ambulance it was found that Mrs. Durant's ankle had been badly shattered, which will confine him to his bed for several weeks. No blame was attached to the driver of the team, as Mr. Durant while passing the fellow-passengers lost his balance, and in an effort to regain it stepped over the intervening log and before he realized his danger the wheel of the ice wagon held his foot solid, breaking it at the ankle bone.

BADLY HURT IN RUNAWAY

John Rolston, a longshoreman living at 262 Main street, met with a serious and painful accident late yesterday afternoon while driving on Douglas avenue. Mr. Rolston was just opposite the residence of J. E. Cowan when the horse became frightened and balked. Mr. Rolston was thrown heavily to the road. Upon being picked up Mr. Rolston was found to have suffered a deep gash over the eye and to have been inflicted with other injuries about the head. He was removed to the road side in a semi-conscious condition and Dr. Pratt telephoned for the doctor. The doctor arrived on the scene shortly after the accident and the patient was removed to the General Public Hospital, where last night he was reported as resting easily. Mr. Rolston is a somewhat elderly man and his injuries on this account are regarded as serious. The rig, which was owned by the victim of the accident, was not damaged, the horse stopping of its own volition upon the occupant of the carriage being thrown out. It is thought that the slipping of the wheel against the tram rail was the immediate cause of the accident.

CITY THE SCENE OF SHAM FIGHT

62nd. Regiment Out Saturday

Both Sides Claim Victory—Judges Fail to Render Decision

St. John was the centre of a sham battle Saturday afternoon, when the 62nd Regiment, assembled at the Barrack Green, and the defensive in command of Capt. Peters and Lieut. May, assembled at Fort Howe. The regiments were formed into two divisions. The attacking party, under command of Major Farley, assembled at the Barrack Green, and the defensive in command of Capt. Peters and Lieut. May, assembled at Fort Howe. Scouts of the attacking party were sent in advance and the red coats were throughout the city presented a very active appearance. Various companies arriving from different directions assembled on Moore street and advanced along Rockland road toward the rocky heights. About one hundred and fifty men comprised the attacking force. With about one hundred men stationed around the fort, Capt. Peters prepared for the defense. These were aided by two signal stations, one at the fort and the second on the hill back of Rockland road. News of the attacking force was received at the fort from the signallers and upon training the direction of approach, pickets were sent out to reconnoitre and everything made ready for the onslaught, which lasted for nearly two hours. The attacking party claim to have successfully stormed the rocky incline, but Capt. Peters emphatically asserts his men killed scores of the invaders, thus demoralizing the effective formation of their ranks. Capt. Fleetwood and Lieut. Morgan were in command of the regiments, the attacking force and were called upon to advance ere the melee ended. Capt. Frost, assisted by Lieut. Arthur, Lieut. Col. Edward and other officers acted as judges, viewing the battle from advantageous positions. A decision, however, was not rendered. Sergt. Hopkins, of the R. C. R., instructed the men in various movements, explaining when and why they should be down, which proved of material benefit.

EXQUIMAUX TO HUNT FOR POLE

NEW YORK, July 10.—Mene Walker, the discontented and homesick Esquimaux boy, who has been in the Greenland to resign his own people, issued a "farewell statement" today in which he declared that upon reaching the expedition he will organize a national team and start in search of the pole. He believes that he can succeed where white men have failed, and he carried with him today a set of scientific instruments, the gift of his friends here, which he hopes to use in his expedition. "I don't believe that Peary or any other white man will ever reach the pole," he declared today. "But I and my people will do it. If we meet Peary in the north we will pay no attention to him." Before sailing Mene's former guardian, who has found him a troublesome charge, prevailed upon him to sign an agreement never to return. Mene blamed this action to the jealousy, because he said, "the other explorers do not wish me to bring word to civilization that I have succeeded where they have failed."

CASTRO PREDICTS GOMEZ'S DOWNFALL

SANTANDER, Spain, July 10.—General Castro, ex-President of Venezuela, today issued a statement predicting the downfall of the Gomez government. He says: "The diplomatic arrangement made by the Venezuelan government with the United States, France, and other nations, are generous and humiliating to Venezuela. The independence of Venezuela is weakened by the treaty with the United States which now is in a position to take possession of the Venezuelan republic in the name of the Monroe doctrine."

ABSOLUTE SECURITY.

W. W. LODGE TAKES CHARGE

W. W. Lodge, the new pastor of the First Methodist church, took formal charge yesterday, occupying the pulpit both morning and evening. In the evening the gentleman took as his text a verse of the living God—the ground of truth, and an able and interesting sermon. The church is the scene of a revival, in which both men and angels behold the manifold wisdom of God. Because man is a social creature, he is made for society. He is made for God. He is made for his life alone. If he tries to remain dwarfed and stunted, dependent on one another for life, mental and religious life, his life is drawn from other hope and love do not drop the soul out of some strong are borne out on the loving of kindly voices. No one lives if a man cannot perform a work alone. To accomplish men must work together. It is one of God's gifts upon which all life is being. A Christian is a man at his best. He cannot live this life independent of others. Neighbors more need to chat, to an age like this, when the so complicated and so interdependent of our age when increasing do we not need an institution which shall bear the burden of the many who are in competition to his own. It is so intense that it is when men and their aims are tempted to over-extend themselves. When the managers of companies are tempted to use men as tools, picking them up and putting them down as they see fit. The Christian church is a must bear testimony to its own power. The church in service. A very large number of the most attentive message of the new pastor.

L. BAPTIZED RIVER YESTERDAY

A large number of people were baptized in the river yesterday.

FIRE IN NORTH END STABLE

A fire was run in by the 9 o'clock yesterday morning. The flames were dispersed by the fire department. The damage done by water was insured, but the building was insured, but the damage done by water was insured.

OPENING UP A NEW CANADA THE WEST

Rush Work on Railroads North From Alberta — Steamships Into Remote Arctic Regions

EDMONTON, Alberta, July 15.—What some believe to be a new Dorado of commerce is now beckoning through the half opened gateways of the real northland of Canada.

One of these railroads will penetrate the broad fertile valley of the Peace River, while another taps the immense waterways of the Mackenzie, upon which there will before long be established a tourist steamship service to the Arctic.

The reason for the delay in opening this territory, so at least western Canadians agree, is that this north is the greatest barrier to the west.

A comparison of altitudes may be helpful in estimating the future of the little known points in northern Alberta.

Some of these treasurers made good but most of them dropped quietly out of the race, selling their interests to the big company.

More than twenty years ago while scribbling inaccurate knowledge of the north was foreshadowed last year by the publication of the Edmonton Board of Trade concerning the outland trails of this region.

The important step just taken by the government in guaranteeing hundreds of miles of railway into the north was foreshadowed last year by the publication of the Edmonton Board of Trade concerning the outland trails of this region.

Numerous inquiries received in Edmonton about the possibilities of the Edmonton route focus in the Arctics and stony fields in the Arctics.

The report combines the primitive frontier—the stops at Lethbridge, Stony, at Shaganappi and John's half-way house in the Arctics.

It was suggested in this report that the northern trails by river, mountain pass and plain would afford delightful holiday outings for those who know the certain pleasures as well as in fact, when the Alberta and Great Waterways Railway is completed from Edmonton to Fort McMurray a line of steamships will be put on the north-

ern rivers and the 2,000 mile trip to the Arctic and its midnight sun can then be made within three weeks.

As yet no one has taken the trip down to the Arctic from Edmonton for pleasure, but each year a growing number of scientists, surveyors and writers make the trip.

The portion of the trip made in snow is perhaps the most interesting, because there the heavy boats are hauled by ropes up the Abitibi.

Port Churchill, which a Hudson Bay railway will some day connect with the Peace River ports, lies about eighty miles south of St. Petersburg.

For the sake of comparison the latitudes of various cities in northern Canada and Europe may be briefly stated.

PARADE RECORD ONE DESPITE DRIZZLY RAIN

About 2,300 Orangemen Parade the Streets of St. John

Many Banners and Bands Grace 12th of July Procession

Thousands Line Sidewalks Along Line of March

Meeting at Victoria Rink Addressed by Grand Master and Others

Orangemen from every nook and corner of the province turned out en masse yesterday to do honor to the memory of William III and the anniversary of the battle of the Boyne.

The celebration itself consisted of a procession brought strangers to the city in increasing numbers and by noon it was estimated that fully ten thousand had arrived for the purpose of celebrating or in witnessing its procession.

The streets were crowded throughout the day with strangers by thousands and the amusements provided and breathing spots of the city were taxed to their utmost capacity.

The day was replete with a monster parade some thirty-seven minutes long, and a mass meeting held in Victoria Rink.

The Grand Square, from which the parade emerged snake-like at two o'clock, was thronged as never before.

The several contingents required a great deal of fixing upon their arrival. There were dinners to be provided and a hundred and one details to be arranged.

The day was replete with a monster parade some thirty-seven minutes long, and a mass meeting held in Victoria Rink.

Coal Co. Claims More Men Worked Yesterday Than Saturday

GLACE BAY, July 15.—As a result of the recent disturbances among the U. M. W. strikers at the collieries of the Dominion Coal Company, while preventing men from going to work the active militia from the Halifax garrison have been requisitioned and are on their way to Glace Bay.

Letters in regard to the requisitioning of the militia at St. Lawrence passed through General Manager Dugan's hands last night. Mr. Dugan, the mayor, to order the calling of the militia in view of the fact that the strikers appeared to be unprepared to do their duty.

At five o'clock last evening, when the men were coming up from Caledonia colliery which is working with about 140 men, about 1,000 of the strikers from that and adjoining collieries met them at the fence on their approach, called them to work let them go.

DEVELOPED WITH A YOUNG GIRL
 Saunders, Defendant in Divorce Suit
 WIFE TESTIFIES of Harris vs. Harris Will About Complete Docket

EDERICTON, July 14.—In the court the next case on the docket, Amelia Saunders v. William A. Saunders, was taken up today. The defendant while R. B. Hanson for the plaintiff. The application for divorce is made on the usual grounds. The libel sets out that the couple were married in 1888 by the Rev. Blackadar at Macnaquack, N. B., and removed to Marysville, where Saunders was employed in a hotel. They lived there until 1900, when they returned to the Macnaquack. Four years later Saunders deserted his wife and went to Maine. Saunders, who was formerly Currie, gave evidence in connection with that statement. T. Smith, attorney-at-law, for the plaintiff, said that he presented the case at Machias. A Mrs. Westinghouse had engaged him on the occasion to find her daughter, whom she stated had eloped with Saunders. The witness traced the couple to various places and at length found them in a lumber camp where Saunders was engaged as a cook. They were traced and registered at hotels and a wife.

LES GIRL CHEERED HER WAY TO COURT
 Matron Says Defendant Made No Mention of White Slavery
 STORY OF ABUSE

GO, July 14.—Ella Gingles, an Irish lace-maker who alleges a charge of theft against her in a conspiracy to drive her into "white slavery" was cheered today as her way to court.

a Wolf matron at the L. railway station today says she had with Miss January subsequent to the attack and prior to the Hotel bathroom mystery. At visit Mrs. Wolf said that her complaint of feeling "Wolfs" had forgotten the incident. Miss Gingles reappeared.

HINK THEY HAVE MISSING BOOKS
 K, July 12.—Two trunks in the missing books of F. Jones's business. The trunks were turned over to the authorities in New York to have been missing for months and have been the recent contempt proceed- were found, it is under- cause in West 84th street.

Here Are the Prizes You Can Win

BIG QUESTION TO BE DECIDED

Are Outside Divorces Good Here?

THE FERGUSON SUIT

Counsel for Plaintiff Declares Wife is Living in Adultery

FREDERICTON, July 15.—In the divorce court this afternoon, evidence was taken in the case of Dr. William A. Ferguson of Moncton against his wife, Martha Ferguson, the application being made on the usual grounds. J. D. Phinney, K. C., appeared for the plaintiff and E. Albert Reilly and M. G. Teed, K. C., for the defendant. Mr. Phinney read the papers filed, including the libel. The latter set forth that Dr. Ferguson and Miss Bertha Sinclair were married in the vicinity of Newcastle in May, 1900, by the Rev. Wm. Aiken, that they afterwards lived together as man and wife in Rexton and Moncton until March, 1904, when Mrs. Ferguson went to the United States and in 1907 obtained absolute divorce from her husband.

MARRIED AGAIN.

In August, 1907, she was married by one Rev. R. M. Little to a George Henderson, and since then the two have lived together as husband and wife. The libel claimed that the divorce granted in California could not be recognized by this province and that the defendant was living in adultery with Henderson. The defendant by her answer claimed that the divorce was good.

Dr. Ferguson was called by Mr. Phinney and said that he first practiced at Newcastle, then a year in New York, and in 1888 went to Newcastle. He met Miss Bertha Sinclair and was married there in 1890. In 1891 he removed from Newcastle to Rexton, formerly Kingston, and in 1899 removed to Moncton. In February, 1904, his wife left him and went West. In the meantime they lived together as man and wife. He next told of being served with proceedings in the California divorce court and these he had not defended.

The evidence taken in California under commission was then opened and read by order of the court. The testimony was quite voluminous and in substance brought out the evidence already given that Mrs. Ferguson under the laws of the state of California had obtained a divorce and has for the past two years been living with George Henderson, to whom she was married in August.

Mr. Teed said that he had no questions to ask Mr. Ferguson in the way of cross-examination and Mr. Phinney said that the evidence of Dr. Ferguson, together with that taken under the commission, concluded his case.

Both parties seemed to agree entirely as to the facts, and the only point open was that whether divorce granted in the United States should be recognized as binding in the New Brunswick court. He interviewed numerous authorities and he had decided that the divorce granted in California was not good as far as this court was concerned. In summing up his argument he said "No case has ever been decided that a woman can obtain a divorce in a country in which her husband has never been domiciled."

Mr. Teed replied, briefly, he said that he was compelled on behalf of his client to say that the divorce in California could not be recognized as binding in this province and it would be useless for him, after the citations made by Mr. Phinney, to contend otherwise. Mr. Reilly and himself appeared on behalf of Mrs. Ferguson not to oppose the application but to state Mrs. Ferguson's position. Mrs. Ferguson or Mrs. Henderson as she now wanted it stated in open court that what she had done she had done innocently and in the belief that she was doing no wrong. She did not want it to go down on record stigmatized as an adulteress, but one who acted in the best faith, and thought her action was legal. His honor said he would give judgment within a few days.

PREACHER CALLS HATS OF WOMEN BARBARIC

Menagerie and Vegetable Garden on New Headgear, He Says

WOULD SUIT MONKEYS!

READING, Pa., July 15.—Rev. D. A. Hill, an evangelist of Columbus, Pa., preached a striking sermon at the camp-meeting of the Reading-Holliston Association here today, in which he scored hats worn by women. The speaker said that religion is not a matter of the head, but of the heart, and strenuously rebuked the present fashions of the modern woman. He said that there was no need to go to see a circus parade; that by looking in a milliner's window one could see a menagerie and the entire vegetable garden.

"It is a shame to call this nation a Christian one," the speaker said. "Look at the hats worn by our women. Turbans, plums, peaches, grapes and everything imaginable are worn on the female head dress. Monkeys would look well in these hats and would be delighted. African women would use the hats of today as hen nests. 'Women are going back to the days of barbarism.'"

HE FALLS TO FLOOR DEAD

The Sudden Death of Michael Driscoll

REMOVING BOOTS

When Death Comes to Him—Was Apparently in Good Health

Stooping to pull off his boots in his house on Smythe street early last night, Michael Driscoll fell to the floor dead.

Driscoll, who is employed as a checker with the I. C. R., purchased his time as usual last night at 8 o'clock, and returning to his house on Smythe street, washed himself and went into the kitchen where he proceeded to pull off his boots. Suddenly he fell forward and expired immediately. Dr. Broderick was called in and pronounced death due to heart failure. Driscoll leaves a wife but no family. The deceased was an old I. C. R. employee and greatly respected by all who knew him. He was a member of the A. O. H. Although apparently in robust health his heart was always weak.

Prepare For Lumbago!

If You Have "Nerviline" One Rubbing Will Cure the Pain

THOUSANDS USE "NERVILINE"

The "stirke" of lumbago is like a bolt of lightning—you never know when it is coming or where it is going to strike. Probably the one certain thing about lumbago is the fact that it can be cured by Nerviline—the only liniment that penetrates deeply enough to reach the congested chords and muscles.

"Years ago I strained my back and suffered considerably with weakness over the spine," writes Darius F. Milan, well known farmer, residing near Kingsville.

LETTER NO. 4875

Then lumbago attacked the weak spot, and for days at a time I would have to lie up in bed, unable to move or turn. Liniments, poultices and hot applications failed to bring the desired relief, and I was in despair of ever getting really well again. I at last decided to test "Nerviline." I got five bottles from the drug store and had it rubbed three times a day. The stiffness and pain left my back quickly, and by continuing "Nerviline" I was completely cured of lumbago.

This is similar testimony to that of nearly five thousand Canadians who have written untold words of praise to the manufacturers of Nerviline. For the cure of lumbago, sciatica, neuralgia and rheumatism there is no liniment "one-size-fits-all" the pain-relieving power of Nerviline.

Refuse any substitute. Large 25c bottles of Nerviline, or five for \$1.00, at all druggists or The Catarroch Co., Kingston, Ont.

CANCER RESEARCH

PROVES NEGATIVE

Seven Years Work With No Results, What-ever

SCIENTISTS HOPEFUL

LONDON, July 15.—The seven years work of the Imperial Cancer Research Fund was reviewed yesterday at the annual meeting, over which the Prince of Wales presided. This organization may be said to be the head of the world's campaign against the most appalling physical evil with which humanity contends. So complicated and difficult is the problem that the whole of the world has been devoted to its negative or preliminary effort, chiefly to testing the manifold theories and remedies that have been broached from time to time. The work is now complete, with the discouraging result that everything has been disproved and rejected. Trypsin is the last to go, the most elaborate experiments yielding absolutely negative results.

Despite the unbroken record of failure, the investigators are turning a line of inquiry which leads them to speak hopefully of final success. Now that the work of elimination has been completed, they are devoting their efforts almost exclusively to experiments upon mice, which are extremely susceptible to cancer. Their short lives and great fecundity enables tests to be made in a few months which in human beings would require centuries. More has been learned during the last seven years than in the previous seven centuries, and the interchange of information with other laboratories throughout the world leads the investigators to expect confidently that the solution of the problem will be reached within a few years.

LOS ANGELES, July 15.—The law does not permit a decision, but Wednesday apparently had Nelson thoroughly whipped at the end of the tenth round of the fight here tonight.

CASTORIA. The Kind You Have Always Bought. 

ONE DIRECTOR CAN'T BE FOUND

Where is Mysterious Mr. Bruce?

EQUITY COURT

Request for Notice in Royal Gazette in Lieu of Summons Refused

At the opening of the equity court yesterday morning Chief Justice Barker delivered judgment for the defendant in the case of Dr. W. A. Ferguson, a Charlotte county suit, wherein the plaintiff sought to recover \$754.67 from the estate of Robert McGuire by moving to set aside a conveyance to Archibald McGuire, the defendant's son, on May 28, 1908, of a house and land owned by the father and valued at \$900. The case was argued by the plaintiff back to his father, claiming that \$400 for labor performed and money loaned was due him. The plaintiff contended that this was but a ruse to deprive Dyer of the amount of the verdict he claimed for goods in Charlotte county court. However, his honor held that the son possessed a right to share in the estate and dismissed the bill with costs.

In Earl v. Harrison, a dispute over Refractor P. Sanford's decision, his honor allowed two exceptions and over-ruled two exceptions and that no costs be given to either plaintiff or defendant. The amount obtained by the plaintiff was \$278.11.

M. B. Dixon moved for specific performance of an agreement to transfer property made by the late Hamilton Berryman and Harvey Albert Co., but not completed before his death. He asked that the widow or some other be given authority to complete the transfer on behalf of the minor children of the late Mr. Berryman.

At the request of Dr. L. A. Curry, K. C., the case of Grimmer v. Hill, Boynton and Harvey, Albert Co., stands over until the next court. The case of Clark v. Clark also stands over until August 3. A. Beyer, K. C., Daniel Mallin, K. C., and Daniel Treuman and J. A. Barry appearing.

In the case of Levesque v. Levesque, W. B. Wallace, K. C., moved to take the bill pro confesso for want of an appearance. Granted.

In Smith et al. v. McDonald, B. S. Smith made the same motion against two of the defendants and asked permission to proceed by affidavit against the other. Granted.

In the case of William Pugsley v. the directors of the New Brunswick Coal and Railway Co., Mr. Wallace, K. C., for the plaintiff said that he had been unable to serve a summons in the suit upon Charles Bruce, formerly one of the directors of the company, and asked permission to be allowed to publish a notice in the Royal Gazette in lieu of the summons. Mr. Wallace said that every one of the fifteen defendants had been served. Mr. Wallace read an affidavit that his client, Dr. Pugsley, was desirous to find Mr. Bruce but had been unable to do so. Mr. Wallace said that Bruce had never been in this province.

His honor asked what inquiries had been made. Mr. Wallace said that he has asked Mr. Barnhill and others.

His honor said that he thought that if some one left Mr. Wallace's name he would have made a more diligent search.

Mr. Wallace said that he had asked Mr. Skinner and others.

His honor asked where Bruce was supposed to belong.

Mr. Wallace said Newfoundland.

His honor suggested that Mr. Wallace should search where there would be a possibility of his finding his man. He suggested writing to the mayor of St. John's Newfoundland, or some one else in authority.

Mr. Wallace said that he knew the man, as he had never been in New Brunswick.

His honor thought that it was strange that this man should have dropped down from the skies as it were, been made a director and then disappeared. His honor said that he would not grant Mr. Wallace's request.

FIGHT ENDS

IONA STATION, Ont., July 15.—An Austrian was murdered here, ten miles west of St. Thomas, last night or this morning, by one of a gang of Michigan Central Railway Navvies, and so far the authorities are unable to get any solution, the men's knowledge of English having entirely left all of them. Steve Provoe is supposed to be the man's name. He was killed by being struck in the head. His body was found by the side of a car this morning and other navvies immediately left for east and west. Yesterday they had been paid off and indulged in much drinking. There was quarrelling over a woman and this may have had something to do with the crime. About a dozen Austrians were stopped at St. Thomas and are held as witnesses. Others were stopped at Windsor.

NEW ZEALAND'S GROWING POPULATION.

LONDON, July 15.—The population of New Zealand increased in 1908 by 21,158, the greatest increase since 1880. The surplus of births over deaths was 16,897, and of arrivals over departures 14,821. The number of marriages, on a population basis, advanced from six in nine per 1000 during the period from 1887 to 1896.

TRAVEL FORTY MILES AN HOUR

Onlookers Applaud Vigorously

UP SOME TIME

Orville Wright's Efforts at Fort Myer Yesterday

WASHINGTON, July 15.—Orville Wright made two unsuccessful attempts to maneuver his airplane in the air at Fort Meyer. The small area of the field and the unfavorable direction of the light wind blowing at the time were largely responsible for the failure of both flights.

Orville Wright last evening made a very successful flight in his motor airplane at Fort Meyer, Va., remaining in the air five minutes and 20 seconds, doing which time the machine attained the exceptional speed of about 40 miles an hour.

He circled the parade grounds half a dozen times, a total distance of about three and a half miles.

With Count Von Bernstorff, the German ambassador, the Wrights talked at length, explaining the workings of the machine. Others who congregated about the machine were: Mrs. Nicholas Longworth, George von L. Meyer, secretary of the navy; the Mexican ambassador, Francisco de la Barra; Senators Lodge, La Follette, and Shreveley; Joseph DeLoe, Congressman Ramadad, Assistant Secretary of State and Mrs. Wilson; and Second Assistant Secretary Phillip.

Shortly after 7 o'clock the breeze died down sufficiently to permit a start. Orville Wright mounted into the starting pit, and away he went. The machine shot forward instantly and mounted gracefully into the light breeze. Mr. Wright guided the flyer to the tower end of the large parade ground and circled around toward the starting point, gradually rising higher.

The applause greeted him as he passed the starting pit, and he was in the air for the second round. Six times he rounded the course, the machine making an average speed of about 40 miles an hour, according to the Wrights.

HERE'S LATEST STUNT;

YOUR FOWL TO ORDER

Meat Market Cooks and Serves Purchases to Your Home

NEW YORK, July 15.—Several "stunts," which are calculated to break the automatic domain of the servant girl and which will to a great extent destroy certain features in the household, recently have taken place in the Hudson Terminal building to spring the latest innovation of a hurrying and hungry public in its offer to have its expert chef cook any of the purchases made in the store. The offer, made known in an advertisement, says that you may order your meat or fowl in the morning and it will be ready for your table at any time you name, daintily cooked any served. Furthermore the arrangement is expected to save time as well as the services of a chef who may not be hired.

And, again, to take the place of nurse-maids and children's attendants in the big hotels and apartment houses who have the task of watching the children, even to amusing them, a chef will have taken their duties, but that does not prevent them from running up and down the sidewalk, playing tag and ball, or indulging in any of the children's pastimes.

And, incidentally they make a neat little sum in tips every week from the parents who may be too busy with other things to keep constant supervision over the little ones.

WILL IMPORT YANKEE COAL

Import at Halifax

HALIFAX, July 15.—In anticipation of a shortage of coal on account of the strike in Cape Breton, Halifax coal dealers have started to import coal. The steamer Winthrop, from Swansea, arrived here from Swansea with 1,000 tons of Welsh coal.

DID HARRY THAW THREATEN WIFE?

Lawyer Puts Question to Mrs. Thaw

SHE APPEALS TO COURT

Judge Inclined to Regard Conversation With Husband Confidential

WHITE PLAINS, N. Y., July 15.—Evelyn Nesbit Thaw, as pretty as ever, in the familiar blue which she wore so much during the two trials of her husband, Harry K. Thaw, for the murder of Stanford White, was on the stand for more than an hour before Justice Mills in the supreme court here today, subpoenaed by the state in its fight to keep Thaw in the asylum for the criminal insane at Matteawan. At one time today while the fencing over the admissibility of the questions asked Mrs. Thaw in her husband's suit was under discussion she turned to Justice Mills and said:

"Will I be in contempt if I don't answer? I cannot afford to go to jail, and as my husband is not paying me anything I have not money enough to hire counsel."

"During the conversation which you had with Harry K. Thaw, did he say to you or to me in any way that this or yours to this effect to you: 'If I go out of here I will have to kill you?'" asked Mr. Clarke.

"During the conversation which you had with Harry K. Thaw, did he say to you or to me in any way that this or yours to this effect to you: 'If I go out of here I will have to kill you?'" asked Mr. Clarke.

Attorney Winslow argued that the conversation was material as bearing on the sanity of the defendant. Mr. Clarke asked the privilege of asking the witness some preliminary questions.

"Was the subject of conversation partly in regard to the killing of Stanford White?" asked Mr. Clarke.

The witness said it was.

Justice Mills held that if the state could show that Daniel O'Reilly was not acting as counsel for both Thaw and his wife at the time he was present at the Mattawan conversation he would rule that O'Reilly made a third disinterested party present, which overcomes the legal privilege.

Thaw was excused temporarily and the case postponed for two days.

Justice Mills finally decided what attorneys to call. It was agreed, however, that the state's attorneys are to be permitted to make a physical examination of the defendant in the White Plains jail. The mental examination to test his sanity is to be conducted in open court by the lawyer prompted by the experts.

WIFE HELPS MINISTER

BEAT HER HUSBAND

Now Clergyman is Named as Co-respondent in Divorce Suit

PITTSBURGH, July 13.—In a divorce filed yesterday, C. H. Nichols charged that he caught the Rev. Ralph Elliott in a room with his wife, Mrs. Bary Belle Nichols, who turned and eluded the preacher in beating her husband after he had entered the room unseen and witnessed what forms the basis of the suit for divorce against his wife.

The Nichols and Elliott families have known each other for several years, both families lived at West Park, and while Elliott preached evangelistic sermons in his tent at Park View intimacy ripened. In fact, Elliott converted Mr. and Mrs. Nichols to the Pentecostal belief, and for years they were at the threshold of the door.

About six months ago Mr. Nichols and his family moved to Carter avenue, that Mr. Nichols might be nearer his work. There Mr. Elliott visited the Nichols' home. The evening of June 10 Nichols' daughter told her father that her mother had received a letter from Mr. Elliott that morning in which Elliott said he would call on Mrs. Nichols the following day.

The next morning Nichols prepared for work at the usual time and kissed his wife good-bye. He did not go far from the house, however, but waited in the hallway of a house nearby until about 11 o'clock, when the preacher appeared.

Elliott quickly made his way to the house and Mrs. Nichols called him. Nichols made his way to the cellar entrance and crept cautiously in. In the cellar he picked up a stout club. Creeping noiselessly upstairs, Nichols saw the pair were aware of his presence. Nichols sprang at the clergyman. Elliott is of the shabby type, Mrs. Nichols, herself a bit woman, rushed to the aid of Elliott.

The filing of the divorce yesterday is the result.

WORKMAN ELECTROCUTED.

LONDON, July 15.—John Smith, of Arley, employed by the Leeds Forge Company, was yesterday erecting an electric crane, when he accidentally put his arm upon a live wire, which caused the current to pass through his body. He was instantly killed.

New Life---New Strength THAT'S WHAT YOU NEED.

I wish you could know for yourself the wonderful effect of the advanced current on weak and nervous men. I wish you could realize the health and happiness that will be yours when this wonderful force infuses every nerve and vein of your body as accomplished through my treatment. I have been curing thousands every year, and have come to believe that my method will cure any curable case.

I use electricity applied to the body by means of the world-famous Dr. Sargent Hercules Electric Belt, in a steady, invigorating, strengthening sleeping hours. You get up in the morning feeling as if born anew.

Free Until Cured

Call or write to me and I will at once arrange to let you have the Belt on trial, not to be paid for until cured. No deposit or advance payments. Send it back if it doesn't do the work. Liberal discount for cash if you prefer to deal that way.

The World has no use for a weakling. Men must be strong today or give way to those who are. There is no compromise. Strength means success. Weakness spells failure. Which will you be? How strong is your body? How may it be made stronger? How to increase your earning power; how to be successful in business and popular in society; how to rid yourself of rheumatism, indigestion, lame back, etc.; how to be strong, vigorous, magnetic and happy, and make life a real pleasure; all this and much more are told and pictured in a new little book which I am distributing free for the asking. It is sent closely sealed, without marks, to anyone sending name and address. No tire-some exercises or doped-laden drugs used.

Call or write for one today.

Dr. E. F. SANDEN, 140 YONGE STREET, TORONTO, ONT. Office Hours, 9 to 6; Saturdays, 11 to 5 p. m.

BODIES ON WAY TO ST. STEPHEN FOR INTERMENT

MONTREAL, July 15.—The bodies of three Canadians who were murdered in South Dakota were brought in by train on the Bonaventure station today sent to the Canadian Express Company at Windsor station for transportation to St. Stephen, N. B., for burial in the family vault at that place.

They were the bodies of James Christie, aged 41, a man lawyer, who of late years had been living at 1400 St. James street; Mrs. Christie, his wife, and Mrs. Samantha, aged 59, and his daughter, Mildred, aged 18.

The bodies were accompanied by certificates from the health authorities in South Dakota stating that the two women had been murdered, the cause of death being gunshot wounds, while the man had been murdered by having his skull crushed.

Mr. and Mrs. Christie and their daughter Mildred, as well as a farm hand, were murdered by a tramp whose name is not yet known. It is supposed that the murders were the result of an attempt to get a large sum of money supposed to have been in the Christie home.

Mr. Christie, who was also grain buyer and one of the most prosperous farmers in the Northwest, was striking a cow when the unknown person struck him from behind, crushing in his skull. The murderer hurried to the house and finding Mrs. Christie and her daughter and the farm boy, who was visiting at the home, began firing upon them. The two women and the boy were killed.

It is supposed that the man or men who committed the crime were acquainted with the Christie family, for few people knew that Mr. Christie kept large sums of money in the house. It is believed he had several thousand dollars in his home at the time of the murder.

The entire countryside was wrought up. Bands of farmers were immediately organized and search for the murderers was begun.

A man named Earl Victor was arrested in Northville, twenty miles south of the scene of the murder, and taken to Aberdeen charged with the crime.

WM. AYLES FOUND DEAD IN HIS BED

MONCTON, N. B., July 15.—Mrs. Abiel Fawcett of this city received word today of the shocking and sudden death of her brother, Walter Ayles, who was this morning found dead in bed at his home, Little River, Albert county. Ayles had been in poor health for two months past, suffering from heart trouble, being confined to his bed for the past two weeks, and while little hope was held out for his recovery, his condition last night did not seem to be worse than usual, and the neighborhood was greatly shocked by the news of his sudden end.

SCHOONER ASHORE ON A CAPE BRETON ISLAND

NORTH SYDNEY, N. S., July 13.—A telegram was received here this evening that the schooner Ceto, of Balcom, of Halifax, which loaded coal here Saturday at the Nova Scotia Steel and Coal Company's pier, had run ashore on Man of War Point, in Boulardiere Island, in the Bras D'Or Lake, today. The Ceto was bound for Buctouche, N. B., and was working her way along in thick fog when the accident occurred. The steamer Gladiolus left at a late hour tonight for some of the wreck. The vessel is reported to be badly damaged.

TEHERAN HAS BEEN TAKEN

TEHERAN, July 15.—One thousand men, including the British and French, entered the city at five o'clock this morning. They came in by three gates and the entire northern section was soon in their hands.

There has been some fighting in the streets, but as a general thing the nationalists are preserving good order. They are sending out patrols through the city.

The Shah is expected momentarily to take refuge in one of the foreign legations.

The Royalist troops, particularly the Cossacks, have taken up position in the central square and surrounding streets, and it is believed that the nationalists will attack their position in full force if they do not surrender.

The safety of foreigners does not appear at this writing, to be seriously threatened.

The nationalists under the leadership of Young Sepah, have taken possession of the residence of Saad Ed Dowleh, the foreign minister.

Many of the royalist soldiers, including a number of Cossacks, have deserted to the nationalists.

The people of the city are enthusiastic over the advent of the nationalist forces. They throw the strikings, wearing red badges and offering encouragement to the revolutionary soldiers.

There was a sharp outbreak of rifle fire this morning at the British legation, but it did not last long and the casualties among the nationalists were slight.

The nationalists are in possession of the central offices of the Persian internal system of telegraph. The Indo-European Telegraph line, the outlet to London, is not working, but with difficulty. Royalists and nationalists are fighting in the square in front of the offices of the company, which are under fire.

HARRIS SEEMS TO HAVE BEEN A PRETTY BAD EGG

FREDERICTON, N. B., July 15.—In the Division Court this morning the case of Beulah Longlovelly Harris against Edward Alfred Harris was heard. The case was undefended. Mr. E. A. Albert Reilly with Mr. M. G. Teed, K. C., appeared for Mrs. Harris. After the papers in the suit had been read the plaintiff was examined at length. She said she was married in December, 1897, and her surname was Archibald, of Moncton. She lived with her husband up to 1905, first at Moncton then at Edmundston, Calgary, California, Sydney, and from 1903 to 1905 at Winnipeg. She said her husband was very dissipated and was often brought home intoxicated. Frequently he stayed out all night. In 1905 they had a child born which was still living. A few days before the birth Harris was laid up in the house with delirium tremens. She believed that her husband kept the company of women of ill repute and frequented questionable houses.

The evidence taken in Winnipeg under oath of the court was opened by the registrar and read. The testimony was that of Ernest A. Nugent, owner of the house occupied by Harris in Winnipeg. He told of Harris' conduct while his wife was away visiting her father and on account of that conduct he was obliged to turn Harris out. Mr. Peter Archibald, the father of the plaintiff, and Albert Reilly, barrister, both of Moncton, were the only other witnesses examined. This concluded the case and His Honor said he would give judgment within a very few days.

The case of Dr. William A. Ferguson vs. Bertha Ferguson will be taken up after dinner.
