IT is announced that the Grand Trunk will add another passenger train to its service to commence next Monday. The new train will be a fast east bound morning express, running between Sarnia and London, where it will make connections with the "Ontario Limited," running from that city to Toronto. The train is scheduled to reach here at 7:46 and will run daily. The time of the arrival of No. 5 has been changed to 9:37 instead of 9:22, and No. 6 is due here at 11:01 and will stop at Watford for passengers from west of Port Huron.

IT is pleasing to see that the process of cleaning up back yards from the winter's accumulation of rubbish is well under way and it is hoped this will be continued to such an extent that the work of the authorities in the matter will be a mere formality. Backyard rubbish, such as coal ashes, tin cans, broken dishes, etc., is not necessarily unsightly, but it is unsightly, and it is well to have it all removed, and let everybody start the summer looking spry and span. The council should provide means for the removal of ashes and other refuse and the cost and trouble would then be less to each householder.

ALL the brave girls are not dead yet. A well-known Strathroy girl who recently took charge of a school on the Western plains has had experiences from which the ordinary mortal engaged in the pedagogic profession would hastily shrink. But not so with this stout-hearted young lady. She is reported to have remained all night on several occasions in the school building, several miles away from the nearest settler's cabin, rather than face the storms of the past winter. On another occasion she took possession of the rough and poorly equipped shack of a young easterner, who came west for winter, and there lived alone, getting her own meals and teaching the school, her only friends of safety and protection being a faithful dog and a trusty rifle. And she suffered all these hardships for the sake of a few more paltry dollars than she could have obtained with comfort in good old Ontario. Truly, as a people, we are money mad.

Watford Congregational Church.

The Canadian Congregationalist of April 27th, speaking of the loss by fire of the church in Watford, says in part:—

"The insurance amounted to \$1,300.00 and some \$1,500.00 additional would be necessary to rebuild. Sunday, April 9th, brought the congregation together in the old town hall provided rent free by the Reeve and tidied up and made as bright as possible by the willing labors of some of the young men. Discouragement caused by the first sense of loss was already passing away. The sister churches in town, Baptist, Presbyterian, and Anglican, had offered the use of their buildings for morning service, but the people while grateful preferred to keep up their usual services as they could do in the old hall. The General Secretary was present for conference and to report the promise of \$250.00 from the Church Extension and Building Fund as well as the proposed gift of a fine organ from the sister churches in Toronto. The congregation voted unanimously to rebuild, committees were appointed to solicit subscriptions and already \$1,200 of the \$1,500 needed is in sight. The proposed plan for the new building includes use of the old foundations and part of the wall uninjured, but the new walls will be solid brick and the floor of basement and of the auditorium a couple of feet higher than in the former building. . . . The mother church at Zion has also contributed \$150 towards the rebuilding."

The Late James Watt.

The Midwestern, a Des Moines magazine, has a portrait and the following reference to the late James Watt, brother of Mr. D. Watt, of Watford:—"As The Midwestern goes to press, word has just reached us of the sudden passing away of one of the bravest, sweetest, truest souls that we have ever known, James Watt, president of the German Savings Bank. Here was a man in the great sense of the word. He was so true to the best in himself, so regardless of others, so beautiful in spirit, so great in carrying out big schemes for the good of others, that all who knew him did him honor in their hearts. In business, his name stood for absolute fidelity, for good judgment, for big fairness and generous dealing. In his home life, he was ideal, the protection and strength of his dear ones. Some years ago, at the death of James Callahan, he was elected president of the Iowa Humane Society and has held the office continuously since his election. It was here that the real man shone forth. He loved the work. He gave generously to it of his time and his money. In every emergency he was ready with personal aid. No detail of the work was too small for his attention and his heart went out to every suffering creature, whether human or beast.

He had the simplicity and sweetness that belongs to all great spirits. His heart held him in honor and affection. Every business man trusted him entirely. And in humble homes all over the city there were tears shed at the departure of the best friend these poor people had ever known.

Such a spirit can never be lost to the world and must have stepped into a greater, more beautiful life when the door closed upon him, and shut him from mortal vision. But such a friend, so dear, so loyal, so great-hearted, can never be replaced to us. Blessed be his memory."

SEVEN YEARS OF MISERY

All Relieved by Lydia E. Pinkham's Vegetable Compound.

Sikeston, Mo. — "For seven years I suffered everything. I was in bed for four or five days at a time every month, and so weak I could hardly walk. I cramped and had backache and headache, and was so nervous and weak that I dreaded to see anyone or have anyone move in the room. The doctors gave me medicine to ease me at those times, and said that I ought to have an operation. I would not listen to that, and when a friend of my husband told him about Lydia E. Pinkham's Vegetable Compound and what it had done for his wife, I was willing to take it. Now I look the picture of health and feel like it, too. I can do my own housework, hoe my garden, and milk a cow. I can entertain company and enjoy them. I can visit when I choose, and walk as far as any ordinary woman, any day in the month. I wish I could talk to every suffering woman and girl."

—Mrs. DEMA BETTUNE, Sikeston, Mo.

The most successful remedy in this country for the cure of all forms of female complaints is Lydia E. Pinkham's Vegetable Compound. It is more widely and successfully used than any other remedy. It has cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing down feeling, indigestion, and nervous prostration, after all other means had failed. Why don't you try it?

Procrastination.
The wisdom of prompt action was lately demonstrated in rather a pathetic way. Two sisters had listened to an address directing attention to the Canadian Government Annuities system as an opportunity for safe investment to people of small means, and with the result that both resolved to take advantage of it immediately. Each had a sum of \$2,000 invested in the stock of a certain Bank. The younger sister, aged 65, did not delay, but at once sold her stock and made the purchase, and is

now in receipt of an income of over \$50 quarterly, the first instalment of which was paid to her three months after the purchase had been made. This gives her for life an income equal to 10% on the amount invested. The elder sister intended to follow her example, but unfortunately, on the advice of Mr. Knowall, put off doing so until it was too late. The Bank failed and her savings of a lifetime were swept away as in the twinkling of an eye. But not only was her \$2,000 lost, but she became indebted to the Bank under the double liability clause to the sum of \$2,000. Had she invested the amount as did her sister in the purchase of an Annuity she would have had an income no matter how long she lived of \$225 a year.

DIDN'T KNOW BEETHOVEN.
The Ignorance That Exists In Russian Official Circles.
The following amazing story illustrates how deep is the ignorance of Russian officials on some matters and how bitter is their hatred of even the mere mention of the name of the late Count Tolstoy.
It is required by the Russian law that whenever a concert is to be held the police shall be notified of the fact. Recently a club complying with this injunction also forwarded a copy of the program, wherein appeared the item "Kreutzer Sonata." Across this the chief of police wrote, "Tolstoy prohibited." However, the program was proceeded with unaltered, and hearing this, an infuriated chief of police summoned the directors of the club before the governor. "How dare you disobey orders!" they were asked. "You were told that Tolstoy was prohibited." Light dawned on the concert promoters, and they quickly explained that the "Kreutzer Sonata" which appeared in their program had no reference to Tolstoy's book of that title, but to a musical work composed by Beethoven. "Everybody knows Tolstoy," snapped the governor, "but who knows your Beethoven?" It was only by a telegraphic appeal to M. Stolypin, who assured the governor that there was such a person as Beethoven and that he had written a "Kreutzer Sonata," that the club officials were able to convince the governor that he had jumped to a hasty and wrong conclusion.

Rural School Gardens.
A successful school garden was conducted last year at school section No. 6, Chatham township, south, under the direction of Miss Jean Schleihauf, who took the course in Elementary Agriculture and Horticulture in the 1909 Teachers' Normal class. Besides the experimental and demonstration lots, there were 38 pupils' individual plots, in the garden; of these it was estimated that thirty were a success.

The work was encouraged by the trustees and neighborhood in general. A friend of the school furnished a supply of manure. The pupils spaded half of the ground required, and the janitor the other half. The hoes, rakes and spades were borrowed for the work; the pupils brought their own stakes and twine for marking off the plots. Each child kept a garden journal. The work did not interfere in any way with the regular school work, and on the other hand Miss Schleihauf reports that the garden work gave greater interest and vividness to the other studies.

No difficulty was experienced in caring for the garden during the holidays. On the opening of the school in August, the flowers and other plants were found to have been well looked after by the pupils during the holidays.
 There are good prospects of a wider adoption of gardening in the schools of Kent County. There are now four teachers in West Kent qualified to take up the work. With the active support of the Ontario Corn Growers Association, the inspector and a body of trustees who see the value of education that deals with the concerns of the home and farm, the future promises well for the boys and girls in the rural schools of that county.—Essex Free Press.

Deafness Cannot be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.
 We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

How to Arrange the Garden.
Put the small fruits and permanent vegetables (asparagus, rhubarb, herbs) at one end of the garden. Put strawberries nearest the plowable land.
 Run the rows north so that the sun will shine on both sides of every plant.
 Make a path three feet wide or more along two sides of the garden at right angles to the rows. Have no path in the center. Make a path a foot wide between every five rows of small vegetables.
 Put the tall vegetables (corn and pole beans) where they will not shade the small vegetables—that is, at the north end of the garden.
 Use the warmest, highest and best drained spot for the earliest crops—viz, the first sowing of peas, with spinach, lettuce and radishes between the rows.

Are you a sufferer with corns? If you are, get a bottle of Holloway's Corn Cure. It has never been known to fail.
 Marcus Ribble, in Sandwich jail on a charge of assaulting his daughter, committed suicide by hanging.
 A parson was reading the Scriptures to an old sailor. "And Solomon," he said, "had 500 wives and 300 concubines." "Dear, dear!" gasped the old salt: what privileges them early Christians did have, to be sure, sir."

Shiloh's Cure
quickly stops coughs, cures colds, heals the throat and lungs. 25 cents.
 The Middlesex and Lambton Baptist Association will convene at Sarnia on June 5th, 6th and 7th.
 The difference in men is often astonishing. The corn growers near Des Moines, Iowa, have been satisfied with a crop bringing \$12 an acre, and yet the son of a stone mason recently came among them made as high as \$400 an acre out of tomatoes. In the last seven years this young man has made \$18,000 worth of improvements on a little farm of 32 acres. He uses very little manure, but a great deal of water. He makes \$2,500 a year on lettuce alone. Other men find farming a slow business, while this young man makes a fortune out of it with all ease. The difference is certainly strange.

A Good Idea in Hair Treatment.
The trouble with most women's hair is that they won't take the time to give it proper treatment. If you want your hair to have that look of lustre and vitality, you must take care of it. You cannot expect to have splendid hair if you simply run a comb through it in the morning—give it a dab on the outer edge with a brush—throw it into a braid—switch it around the head—jab in a few hair pins—and let it go at that.
 Hair is like any other growing thing—it needs attention—it needs care—it needs thorough grooming regularly—not only the hair but the scalp.
 If you have the time and patience you won't need any hair tonic—but most women haven't. The next best thing is Nyal's Hirsutone. It is the best thing offered to take the place of hours of combing and brushing.
 It tones up the roots, brightens the color, improves the texture and makes it stay gracefully where it is put.
 Hirsutone literally revitalizes the neglected hair.
 Your Druggist cheerfully recommends Hirsutone because he knows. In artistic bottles \$1.00 and 50c.

Trudging For the Wash.
The Portuguese country people as a usual thing have great physical endurance, doubtless as a result of the "survival of the fittest" for many generations. The laundry workers are an example of this. People come in from long distances to get soiled clothes of city customers. The clothes will be placed in big panniers on the family donkey, and the peasants will start back late in the afternoon. Some of them will travel all night, and it will be sunup before they reach their homes, many miles from Lisbon or Oporto. A day or two later they are trudging back to deliver the clothes, now spotlessly clean, and to get another lot from the same patron. Many a countryman and his wife take a jaunt of fifteen miles or more, which makes one think that there might be many who could rival the feats of Weston and O'Leary as walkers if they tried.—Christian Herald.

An Early "Trust"
As an example of trusts and monopolies prevalent even in that early day it may be mentioned that in 1750 one Benjamin Crabb obtained the exclusive right to make sperm candles in Massachusetts for fourteen years. A year later, however, a factory was started in Providence, R. I., and within the decade there were eight factories in New England and one in Philadelphia. Their output greatly reduced the price of candles, which not long before sold for 5 shillings a pound. In those days \$1.25 was worth fully three times as much as it is now.—N. Hudson Moore in Designer.

The Sixteenth Century Critic.
"But why, prithee," contended the first critic, "should this new playwright, Shilspur, have introduced a comic gravedigging scene into his tragedy, perdie?"
"The easy of solution, by hen," answered the second critic. "Our author hath put in gravediggers for the purpose of unearthing a plot! Boy, a cup of sack!"
"Wit was crude in them days.—Cleveland Leader.

Placing the Blame.
Little Eva—Mamma, didn't you say that if my new dolly got broke somebody would have to be spanked? Mamma—Yes, dear. Little Eva—Well, she broke her arm today. Spank her, please.—Exchange.

Interested.
"What did the rhinoceros do when you fired at him?" asked the eager listener.
"He just stood still and watched me run."—Washington Star.

A Discovery of Vast Importance

It is Now Admitted That Bronchitis, Asthma, Catarrh, Coughs, and Colds Can Only Be Quickly Cured By Mixing a New Medicine With the Air You Breathe.

Scientists acknowledge that medicated air treatment is the only treatment that will cure these diseases, and that stomach medicines are worse than useless.
Catarrhozone air treatment has been found to be the most effective way to cure all diseases of the throat, lungs, and nasal passages. Its action is so prompt that in less than an hour an ordinary cold is cured, and after a more thorough use of Catarrhozone, Bronchitis, Catarrh, and all diseases of the throat and lungs are completely cured.
Catarrhozone is a very simple and powerful method of treatment. You simply breathe it through the inhaler and it immediately passes over every air cell of the throat, lungs, and bronchial tubes, curing and healing as it goes.
Catarrhozone treatment affords little drops of healing for sore places in the lungs, throat, and nasal passages.

WASHING FURNITURE.

Easy to Restore Tarnished Pieces to Original Freshness.
"Very few people know that furniture ought to be washed," said a salesman in the furniture section of a large department store. "Yet," he continued, "it is the best thing one can do to keep furniture looking as well as it should. One should take a bucket of tepid rain-water and make a suds with a good pure soap. Then with a soft piece of cheesecloth all the woodwork should be washed. It is astonishing how much dirt will come off. A second piece of cheesecloth should be wrung dry out of hot water. On this should be poured a tablespoon of first class furniture polish. The heat will spread the polish through the cloth. Next the furniture should be gone over with the second cloth. There will be no need of putting on more polish, for that much will do all one needs. Too many persons make the mistake of using too much polish and leaving it thick on the furniture, where it looks dauby and where it gathers more dirt."
There is furniture in homes today that is cast off because of its appearance when it might be brought back to its original freshness by this simple process of washing. Many persons do not know that a fine bit of mahogany is improved by careful washing, and hundreds of pianos have never been more than dusted in years. A square of cheesecloth for the washing and another for the polishing will do the work, and the result will well repay the effort.—Indianapolis News.

HOT DRINKS.

If Taken Above 130 Degrees They Injure the Stomach.
Many people without realizing it are in the habit of drinking tea at much too high a temperature. Sir Henry Thompson points out in his book on "Diet in Relation to Age and Activity."
"Few persons are aware that they habitually swallow hot liquids, tea especially, at a temperature which if applied to the hands or feet would inflict painful scalds. Most tea drinkers take it about 140 to 145 degrees F., which the mouth bears very well if slowly sipped, while the cup itself is too hot to be held by any hand."
"But the habit of swallowing such tea is injurious to the stomach, and it ought not to be taken above 130 degrees or so. Again, water at 120 degrees, which feels a little more than lukewarm in the mouth, causes severe pain if the hand is dipped in it and cannot be endured."
He has, however, some good words to say for the early morning tea.
"This morning tea in any case should be taken at least an hour and a half before the first meal of the day. For many years I have been accustomed to write for an hour every morning in bed after tea, as I am doing at this moment, and at no time do I find the brain clearer for work, while the appetite for solid food is excellent when the hour for breakfast arrives."

T. B. Taylor & Sons will tell you that they sell a great many bottles of Parisian Sage because it gives satisfaction.
They guarantee it to eradicate dandruff, stop falling and splitting hair and itching scalp, or money back.
Parisian Sage will make hair grow if the hair root is not dead; it puts life and luster into dull and faded hair, and is the most delightful hair dressing in the world. Only 50 cents a large bottle.
Parisian Sage is the best hair grower and beautifier, dandruff cure and scalp cleaner known. Try it on your money back plan.
Berlin, April 26.—Israel Snyder, of near Crosshill, one of the veteran farmers of North Waterloo, was found dead this afternoon in the furrow of a field that he had been plowing in. A passerby saw the span of horses working their way across the field with the unmanned plow and the body of the dead man was found where he had dropped dead owing to an attack of heart failure.
EXTERNALLY OR INTERNALLY, IT IS GOOD.—When applied externally by brisk rubbing, Dr. Thomas' Electric Oil opens the pores and penetrates the tissue as few liniments do, touching the seat of the trouble and immediately affording relief. Administered internally, it will still the irritation in the throat which induces coughing and will cure affections of the bronchial tubes and respiratory organs. Try it and be convinced. m

The members of the Woman's Auxiliary of St. Mary's Church, Warwick, will hold a short prayer service with addresses in the church on that day at 3 o'clock. All who can do so are invited to attend.

The many friends of Rev. Mr. Kelly will regret to hear that he had his face and neck badly burned while starting the fire in the furnace of his new home in Bradford. It was a wood fire in a coal furnace and as it did not kindle quickly Mr. Kelly used coal oil, the draft immediately sent the blaze in his face with the above result. There was no service in Zion Congregational church last Sunday but Mr. Kelly has sent word that he will preach his farewell sermon there next Sunday afternoon, May 7.

The very sudden death of Albert Wallace Watson, of the Main Road, Warwick; came as a severe shock to his many sincere friends in West Adelaide and the surrounding country. Bert as we all called him, was highly respected for his sterling qualities and happy disposition. Although he had been ailing for some time lately, he had improved so much that it was thought he had outgrown all danger, but last week he was stricken with the measles and in spite of the doctor's efforts, it was impossible to save him. Apparently in the best of health on Wednesday, yet on Friday he lay cold in death. His short life was spent on his father's farm in Warwick, where his sorrowing parents and two brothers survive. To them is extended the sympathy of the community. West Adelaide Church mourns the loss of one of her most promising young men. The funeral took place on Monday, April 24th, to the West Adelaide cemetery from the residence of his father, John Watson. An unusually large cortege testified to the esteem of the neighborhood for the bereaved family. The pallbearers were W. Williams, A. Williams, E. Williams, E. Williams, W. Bryson and A. Bryson, all schoolmates and intimate friends of the deceased. The services in the West Adelaide Presbyterian Church were conducted by the pastor, Rev. A. W. Hare, assisted by Rev. W. M. Shore, rector of Wisbeach Anglican Church. The beautiful fourteenth chapter of St. John was read and a comforting sermon preached from Matthew 5 and 4, "Blessed are they that mourn."

NAPIER.

The monthly meeting of the Napier branch of the Women's Institute met in the Napier Town Hall, Wednesday, April 12th, for the election of officers for the coming year. Mrs. J. Hughes very ably filled the chair and addressed the ladies in a few well chosen words. The following officers were elected:—President, Mrs. J. Hughes; vice president, Mrs. Wm. Gardiner; 2nd vice president, Mrs. (Dr.) Sawers; secretary, Lulu McLean. The auditors and directors were re-elected. Mrs. A. Woods gave a very interesting and instructive address on "Domestic economy of the home." The meeting closed by singing the National Anthem after which a dainty luncheon was served by eighth line ladies, all uniting in a hearty vote of thanks for their hospitality.

A very pretty but quiet wedding was solemnized at the home of Mrs. N. Cornwall, Thamesville, on Thursday last, when her sister, Miss Ethel Galloway, became the bride of Mr. Ross Ellison, principal of the Ridgetown school.

The basement of the Methodist church at Ridgetown has been improved and beautified at a cost of \$600.

Elliott—Marshall.

One of the prettiest house weddings of the season was solemnized at the home of Mr. John Marshall, 2nd Line North, Watford township, when his eldest daughter, Margaret, was united in marriage to Mr. Fred Elliott, of East Williams. The ceremony, which was performed by Rev. Arthur W. Hare, B.A., of Arkona, took place under a beautiful arch of greens and flowers. The bride, who was unattended, looked sweetly charming in a gown of cream tulle trimmed with liberty satin, pearls and steel and carried a bouquet of white carnations. Her travelling suit was of brown chispe, trimmed with brown satin, with uscan turban. The wedding march was played by Miss Melena Marshall. Many material evidences of useful and beautiful gifts testified to the high esteem in which the bride is held. After a very dainty supper the happy couple left for points east on a short tour. Mr. and Mrs. Elliott will reside at their beautiful home, Maplehurst Farm, on the townline East Williams. Among the guests were noticed: Mr. and Mrs. Wm. Elliott, and the Misses Loretta and Bessie Elliott, Adelaide; Mr. and Mrs. Demery, Stratford; Mr. and

Mrs. Phippia, Thedford; Mr. and Mrs. Dowling, Mr. David and Miss Watson, Mr. and Mrs. Lawrence Marshall, Mr. and Mrs. Wally Hall, Mr. James Marshall, Mr. Will Marshall, Mr. Russel Muxlow, Mr. Orr and Mr. Robert Orr, Mr. and Mrs. Wilbert Hudson.

A GREAT REMEDY FOR LITTLE ONES.

That is what thousands of mothers say of Baby's Own Tablets. We have received thousands of letters praising them—we have yet to receive a single one condemning them. The Tablets cannot possibly do harm even to the newborn babe. They contain none of those poisonous drugs which make the so-called "soothing" mixtures so dangerous to the welfare of the little one. They are of the greatest specialists on childhood ailments and should be kept in every home where there are babies or small children. Mrs. Fred McCarthy, Pinewood, Ont., writes—"I have used Baby's Own Tablets and have found them a great remedy for little ones. I would not be without them." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Death of Mrs. (Dr.) Monkman.

The Vegreville, Alta., Observer of April 26th records the death of Margaret Bruce, wife of Dr. Herbert S. Monkman of that place, which occurred on April 20th. "The late Mrs. Monkman was in her 28th year, having been born in Battleford, Sask., on April 12th, 1884, the first white child to be born in the historic old town. In 1885 the family removed from Battleford to Carman, Man., where they resided for 20 years, removing then to Wetaskiwin for three years and then to Vegreville, where they have since resided. On Jan. 10th, 1910, she was united in marriage to Dr. H. S. Monkman of Vegreville, and they took up their residence on First Ave. West. For some time her health had been poor, and the decline was so rapid that as a forlorn hope an operation was decided upon. The operation revealed a more serious condition than had been expected and in her weakened physical condition she was unable to recover. The operation was performed on Wednesday last, and she expired on the following afternoon. A funeral service under charge of the members of St. John's Lodge, A.F. & A.M. was conducted at the residence on Saturday evening, and the remains were conveyed to the C. N. R. station, whence, accompanied by her husband, her sister, Miss Alice Bruce, and Dr. W. F. Monkman, they were taken to her former home at Carman for interment.

Historical House Crumbling.

One of the most important landmarks in southern California, the old adobe house southeast of the Raymond hotel, South Pasadena, Cal., is crumbling, and efforts are being made to keep the structure intact. It was in this house that General Fremont met the warring Mexican chief General Andres Pico at dinner on a July evening in 1846. Here the treaty was signed giving over to the Americans the whole of California. This house is the oldest one in South Pasadena or, in fact, the whole valley in this section.—Los Angeles Times.

Duels and Debts.

A duel in Berlin had to be postponed the other day because the creditors of one of the principals objected on the ground that they had a real and very large financial interest in his continuing existence on this earth. They could not prohibit the meeting altogether, but when it did take place it had no serious consequences. Not a drop of blood was spilled. The humorous aspect of this intervention by sober, prosaic business men in "an affair of honor" has proved another blow to the dwindling institution of the code.

DO YOU USE PILLS?

If In Doubt About the Right Pills to Use Read the Following Letter Carefully:

"I am one of those persons whose system requires aid," writes Mr. Young Gledhill, from Pictou, "but it is so easily affected by reason of the great sensitiveness of the bowels that ordinary drastic pills inflict great injury to the delicate coating, and excite such persistent activity as to be with difficulty checked.

"I wish in the highest terms to express the great value of Dr. Hamilton's Pills in cases like mine, and I am sure also for elderly people and the very weak there is no pill like them.

"Speaking of my own experience with Dr. Hamilton's Pills, I can say they have proved the most stimulating pills for the liver I have found. I have proved their tonic action upon digestion, and the same results have been secured by friends upon whom I have urged their use. The manufacturers are to be congratulated upon possessing so valuable a prescription, and the public should know that so valuable a remedy has been placed at their command.

No other pill for constipation, for liver, kidney, or stomach trouble, compares with Dr. Hamilton's Pills; they are mild and sure always to restore health. Refuse substitutes. Sold by all dealers, 25c per box, or The Chattanooga Co., Kingston Ont.

THERE BE OTHERS.

Second Cousin Raymond Happy as Long as Graft is Easy.

"Acting as a reception committee of one," grimly said the old codger in reply to the inquiry of a neighbor who had encountered the veteran humped up and shuddering in the frigid waiting room of the railway station at 6:10 a. m., "I'm here to meet my second cousin Raymond and his retinue and not expecting them to arrive this morning for the reason that, as Cousin Raymond wrote that he would positively be on this train, my long acquaintance with Raymond and his peculiarities leads me to believe that he will not come until later.

"Second Cousin Raymond is one of those jocular souls who subsist on borrowed money and shed sunshine as the other sheds otter of roses.

"He believes that whatever happens is for the best and eats you out of house and home with a cheering indifference to carking care. He always brings all his folks, including his wife, who came of a fine old southern family and never in her life did anything else, and their children, all of whom even the harelipped one, are as many and hungry as their parents, and generally another relative or two whom Cousin Raymond has generously invited to come along. This time Raymond writes that, though he has had a (ha, ha) mortgage foreclosed on him lately and his (tee, hee) Mexican rubber plantation stock didn't turn out quite as well as he expected and a few other little (haw, haw) things like that have slipped a cog, the Lord is still with him. So possibly that's who he's bringing along upon this occasion.

"But, be that as it may, I've come down here to meet Raymond whenever he arrives and slip him a ten dollar bill and a hint and slide him and his gang back on to the train before it starts and shove them along to Puxico and on to Third Cousin Lester, who has but lately been visiting us. That's one nice thing about Raymond—his disposition is so sunny that he doesn't give a darn who he sponges on just so's he gets plenty."—Tom P. Morgan in Puck.

Not His.

A tall, nervous looking man entered the department in the railroad station where lost articles are kept.

"Anything turned in here today?" he shouted to the man at the desk.

There was no reply.

"I say has anything been turned in here today?" he repeated in a louder tone of voice.

"Yes, sir," calmly replied the man at the desk without raising his eyes.

"Well, why couldn't you say so? I've lost an umbrella."

There was no reply.

"I say I've lost an umbrella."

"I heard you, sir."

"You heard me? Well, why can't you tell me what was turned in?"

"Well, sir, a man was in here this morning who turned his toes in. They wouldn't happen to be yours, sir, would they?"—Yonkers Statesman.

Schoolboys and Milton.

I visited a school the other day where a class of boys was engaged on an essay on Milton. One had written the following: "Milton was a splendid poet and wrote that beautiful poem 'Paradise Lost,' and on the death of his wife 'Paradise Regained.'"—Manchester Guardian.

No Friend of His.

"Is Mrs. Gauss a friend of yours?"

"No; she's a friend of my wife's."

"Isn't that the same thing?"

"Not at all. She feels very sorry for my wife."—New York Journal.

INSULTING ROYALTY.
Torture and Death Used to Be the Price For This Pastime.
People who went out of their way to libel their sovereign in days gone by did not usually get off so lightly as did the defendant in a recent notorious case.
For instance, Leigh Hunt, the famous essayist and poet, was sent to prison for two years—exactly twice the length of Mylius' term—for calling George IV. "a fat Adonis of fifty." And George was not even king at the time, only regent.
Going back further still, we find John Stubbs, a student of Lincoln's Inn, arrested for libeling Queen Elizabeth. He was sentenced to have his right hand cut off, and the barbarous punishment was inflicted in public in the market place at Westminster by driving a cleaver through the wrist with a mallet.
Then there was that unhappy Walter Walker, grocer, at the Sign of the Crown, who said he would make his son heir to the crown. When Edward IV. was told of this merry jest he ordered Walker to be arrested and put to death for treason.
Almost as hard was the fate of the Buckinghamshire churl who, drinking one day in a village ale house, spoke disrespectfully of Henry VIII. "King Hal," he hiccoughed, "is no true king. Would I had his crown here that I might play football with it." The h-beler was hanged, drawn and quartered, and pieces of his body were distributed as a warning among the market towns of the county.
In the reign of Charles I. an individual published a seditious libel concerning his majesty. The book containing the libel was burned before his face by the common hangman, while his author stood in the pillory in two places, having an ear cut off at each. He wore a paper on this head describing the offense, was ordered to pay a fine of £5,000 and suffer perpetual imprisonment.
A libeler of King Alfred suffered the loss of his tongue.—Pearson's.

How Old People May Prolong Their Lives
At advanced age the organs act more slowly than in youth. Circulation becomes poor, blood thin and watery, appetite fitful, and digestion weak. This condition leaves the system open to disease such as Coughs, Colds, Grippe, Pneumonia, Rheumatism, etc.
VINOL is the greatest health creator and body builder we know of for old people, as it supplies the very elements needed to rebuild wasting tissue and replace weakness with strength.
HERE IS THE PROOF
A case is recorded in Albany, N. Y., of a woman who felt she was breaking down by age and was doomed to the weak and feeble condition of old people. She had no strength and the slightest exertion tired her, but VINOL made her well and strong, and she states that she feels ten years younger than she did before taking VINOL.
We ask every aged person in this neighborhood to try a bottle of VINOL with the understanding that we will return their money if it does not prove beneficial.

SCIATICA EXPECTED DEATH ANY DAY
Another Case Where Life Was Saved and Healed Restored by "Nerviline."
It is because he feels it his solemn duty to tell to the world his faith in Nerviline that Victor P. Hires makes the following declaration: "For twelve years I was in the Royal Mail service, and in all kinds of weather had to meet the night trains. Dampness, cold, and exposure brought on sciatica that affected my left side. Sometimes an attack would come on that made me powerless to work. I was so nearly a complete cripple that I had to give up my job. I was in despair, completely cast down because the money I spent on trying to get well was wasted. I was speaking to my chemist one day, and he recommended "Nerviline." I had this good liniment rubbed on several times a day, and got relief. In order to build up my general health and improve my blood I used Ferrozone, one tablet with each meal. I continued this treatment four months and was cured. I have used all kinds of liniments, and can truthfully say that Nerviline is far stronger, more penetrating, and infinitely better than anything else for relieving pain. I urge everyone with lumbago, neuralgia, rheumatism, or sciatica to use Nerviline. I know it will cure them.
There isn't a more highly-esteemed citizen in Westchester than Mr. Hires. What he says can be relied upon. For six years since being cured he hasn't had a single relapse. Don't accept anything from your dealer but "Nerviline," 50 cents per bottle, trial size, 25c; sold everywhere, or The Catarthozone Co., Kingston, Ont.

McPherson-Wolsey.

McPherson-Wolsey.
The church of the Redeemer was the scene of the marriage of Miss Betsa Wolsey, eldest daughter of Mr. and Mrs. R. B. Wolsey to Gillis McPherson, of Arkona, Wednesday morning, April 19th. The ceremony was performed by the rector, the Rev. C. J. James, and Miss Bullock, of Detroit, played the bridal music. The bride, who was given away by her father, wore a graceful gown of white silk mull with lace, the front panel caught with white roses. Her long tulle veil was arranged over a coronet of orange blossoms, and she carried a shower of lilies of the valley and roses. Miss Vera Wolsey and Miss Helen McPherson were bridesmaids, in blue mull, with white chiffon and ribbon hats, and carrying pink baskets of pink sweet peas. Three little flower girls and a page were also in attendance, Miss Bessie Wolsey, Ethel Williams, Marion Smith, and Master Maxwell Wolsey, the little girls wearing dainty frocks of white silk and lace, with white hats and carrying pink baskets of pink sweet peas. Mrs. Bullock was in white all-over lace, with black hat. Mrs. Wolsey held a reception after the ceremony at her house in Lowther Avenue, she wearing a becoming gown of mauve silk voile, with black hat. Mr. and Mrs. McPherson left later for their new home in Arkona, the bride in a navy blue gown and the groom in blue.—Toronto Mail and Empire.

The best method of removing rust from a polished stove or grate is to scrape down to a fine powder some scouring soap, put it into a little oil, and rub the spots well with a piece of flannel dipped in the mixture; then apply some whiting and rub in well. Repeat this process daily until all trace of the rust has disappeared.

It is a LIVER PILL.—Many of the ailments that man has to contend with have their origin in a disordered liver, which is a delicate organ, peculiarly susceptible to the disturbances that come from irregular habits or lack of care in eating and drinking. This accounts for the great many liver regulators now pressed on the attention of sufferers. Of these there is none superior to Parmelee's Vegetable Pills. Their operation though gentle is effective, and the most delicate can use them.

BANISH PIMPLES AND ERUPTIONS

In the Spring Most People Need a Tonic Medicine.

If you want the best of health and new strength in the spring you must build up your blood with a tonic medicine. Following the long, in-door winter months most people feel depressed and easily tired. This means that the blood is impure and watery. It is this state of the blood that causes pimples and unsightly eruptions. To this same condition is due attacks of rheumatism and lumbago; sharp, stabbing pains of sciatica and neuralgia; poor appetite, frequent headaches and a desire to avoid exertion. You cannot cure these troubles by the use of purgative medicines—you need a tonic only, and among all medicines there is none can equal Dr. Williams' Pink Pills for their tonic, life-giving, nerve-restoring powers. Every dose of this medicine makes new, rich, blood which drives out impurities, stimulates every organ and brings a feeling of new health and energy to weak, tired out, ailing men, women and children. If you are feeling out of sorts give this medicine a trial and see how quickly it will restore the appetite, revive drooping spirits and fill your veins with new, health-giving blood. Dr. Williams' Pink Pills are sold by all dealers in medicine or will be sent by mail at 50 cents a box or six boxes for \$2.50 by addressing The Dr. Williams' Medicine Co., Brockville, Ont.
