### Technical and Bibliographic Notes / Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for scanning. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of scanning are checked below.

L'Institut a numérisé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de numérisation sont indiqués ci-dessous.

	Coloured covers / Couverture de couleur		Coloured pages / Pages de couleur
	Covers damaged / Couverture endommagée		Pages damaged / Pages endommagées
	Covers restored and/or laminated / Couverture restaurée et/ou pelliculée		Pages restored and/or laminated / Pages restaurées et/ou pelliculées
	Cover title missing / Le titre de couverture manque		Pages discoloured, stained or foxed/ Pages décolorées, tachetées ou piquées
	Coloured maps /		Pages detached / Pages détachées
	Cartes géographiques en couleur		Showthrough / Transparence
	Coloured ink (i.e. other than blue or black) / Encre de couleur (i.e. autre que bleue ou noire)		Quality of print varies / Qualité inégale de l'impression
	Coloured plates and/or illustrations / Planches et/ou illustrations en couleur  Bound with other material /		Includes supplementary materials / Comprend du matériel supplémentaire
	Relié avec d'autres documents  Only edition available / Seule édition disponible		Blank leaves added during restorations may appear within the text. Whenever possible, these have been omitted from scanning / II se peut que
	Tight binding may cause shadows or distortion along interior margin / La reliure serrée peut causer de l'ombre ou de la distorsion le long de la marge intérieure.		certaines pages blanches ajoutées lors d'une restauration apparaissent dans le texte, mais, lorsque cela était possible, ces pages n'ont pas été numérisées.

#### Commercial Summary.

Par In order to avoid possible misunderstandings, advertisers and subscribers of the Journal OF COMMERCE should invariably make remittances to head-quarters, this city.

During the month of April 46 steamers of 67.759 tons and 36 sailing vessels of 7,626 tons arrived at Halifax.

The maple sugar season proves a poor one across the border. The sugar sells at from 8 to 10 cents in Vermont.

Over \$16,000 has been paid out for logs on Cherry River and along the shores of Lake Memphremagog this season.

W. M. BATH, blacksmith, Paradise, Annapolis, county, N.S., has assigned, the only failure reported from the Maritime Provinces during the week.

A MEETING of the Brockville Board of Trade was recently held, when a committee was anpointed to amend certain by-laws and to devise means to improve the condition of the cheese industry of that district.

The life insurance companies report a favorable business during the first four months of the present year, and in many cases the new business written exceeds the record during the corresponding mouths of 1884.

Mr. Jacques Grenier, of the well-known wholesale house of Jacques Grenier & Co., alderman, etc., has accepted the presidency of La Banque du Peuple, vacant since the death of the late Mr. C. S. Cherrier,

C. PEVERLEY OFFICE: 1782 NOTRE DAME ST., MONTREAL

A JOINT stock concern in this city which has for some few years competed to some effect with the retail trade, is again reported to be in a position requiring the contributions of shareholders. One of the principal managers is about to retire.

SHOEMAKER Bros., two young men, have commenced the wholesale business of manufacturing Seltzer, Apollinaris, soda and "pop" at Walkerton, and intend to carry on the business on a large scale. As the Scott Act is now in force in the county they expect to do well.

A CONSIGNMENT of hardware from New York State was seized lately by the customs authorities of Ottawa, who are in possession of information to the effect that the goods were manufactured by prison labor. The importation of such goods into the Dominion is prohibited.

On board the SS. Scotland, now on her way to Montreal from London, is a battery of six nine-pounder muzzle-loading guns, ten ammunition, forge and other waggons, with one hundred and forty-eight rounds of ammunition per gun, ordered by the Canadian Government.

Mr. Robt. McIntyre, general merchant, Mooretown, Out., has removed to Courtright, having purchased the property lately occupied by Mr. D. L. Goodwin at the latter place, from Mr. Miller of Superior City, U.S., and is reported to be doing a fair business in his new quarters.

AT the annual meeting of the Montreal Stock Exchange the following gentlemen were reelected office-bearers for the ensuing year: James Burnett, Chairman; D.L. Macdougall, vice chairman; H. S. Macdongall, secretarytreasurer; G. W. Simpson and H. C. Scott managers.

IT appears that the firms of N. & O. J. Phelps of Merritton, and N. & O. J. Phelps & Co., of Leading Wholesale Trade of Montreal.

525 St. Paul Street, MONTREAL

Phelpston are two distinct firms. The former only have made an assignment. The latter (N. & O. J. P. & Co., of Phelpston), we are glad to learn have not assigned, and write that they have no occasion to do so.

Canned lobsters exported from Canada to the United States after the first of July next, when the Washington Treaty exempting fish from duty will expire, will be free from duty under the provisions of the tariff for shrimps and other shell fish, but the cans will be liable to duty imposed by the Act of February 8,

THE liabilities of Mr. H. L. Reynolds, dealer in groceries and liquors, Winnipeg, Man., are placed at about \$17,000, and the assets nominally about \$600 less than that amount, but they consist largely of real estate and bookdebts. He will probably offer 50 cents in the

An encouraging sign of the times in Canada is the falling off in the number of failures. Our record for the present week comprises only 12 names, reckoning the Kemptville-Brandon failure as one, while the record of the corresponding week of 1884 gave 28, and that of 1883 upwards of 34 failures.

WE regret to learn that a respectable firm of general dealers in Owen Sound, Ont., are obliged to ask for a six months' extension from their creditors, caused by inability to realize immediately on some of their assets, which show a surplus of \$4,000 over all liabilities. The latter are estimated to reach only \$7,000 or \$8,000.

THE returns of the Hamilton, Ont., assessors show the totals of population and of property to be respectively 39,479 and \$20,695,838 as against 39,206 and \$19,427,077 returned last year before the reductions were made by the Court of Revision. The population in London, Ont., increased 727 over last year, while in Hamilton the increase was 273.

THE condition of the estate of Strang & Co., wholesale grocers and liquor dealers, Winnipeg, Man., does not appear to warrant a larger offer than 50 cents in the dollar, which the creditors are likely to accept. The liabilities are nearly \$50,000, of which amount \$44,000 are direct. The assets are estimated at \$35,000 after ample allowance is made for book-debts.

MESSRS. Foster & Hillman, wholesale fancy goods dealers, Toronto, have assigned in trust-They moved from Hamilton last January, where they appeared to be in good standing. Competition in their line has been exceedingly keen of late. Liabilities about \$30,000.-The estate of J. B. Bishop, dealer in tins, etc., Hamilton, is advertised to be sold by bailiff.

Ar a meeting of the creditors of Mr. W. J. Devlin, harness dealer, Peterboro', Ont., held in Toronto on the 30th ult, the insolvent offered 25 cents in the dollar cash, or 35 cents secured if time were given. The liabilities are about \$3,000 and the assets nominally \$2,000, a large portion of these being doubtful .-Edouard Pontré, saddler, St. Johns, Que., has also assigned.

MRS. Hartley, the proprietor of the Hartley hotel, Walkerton, Out., has again taken possession of her house after having rented it to tenants since 1874. W. Clark, the latest tenant, has removed to the hotel lately occupied by Salyerds, and the latter has removed to Toronto to take charge of a saloon there. All the hotelkeepers in the vicinity intend following the provisions of the Scutt Act.

The Newfoundland seal fishery, according to the latest private despatches received here, has been one of the poorest on record. The total catch will probably not exceed 200,000 seals, while the average is 350,000 to 400,000, and as many as 675,000 have been taken in a season. Notwithstanding this, seal oil is lower than last year, in consequence of the cheapness of lard oil, petroleum, etc., which enter into competition with it.

The Levis Maritime and Industrial Company, Quebec, has launched two new tug-steamers, intended for river and harbor towing. The first was a splendid boat, built to the order of Mr. Henry Jewell and the late W. F. Lemesurier, Esq. Her dimensions are:—Length, 95 feet over all: breadth, 19½ feet, with 11 leet depth of hold. The second vessel is fitted with the boiler and engine of the "C. W. Jones" which was burnt last fall, and is about the sume size.

The damage by the recent floods in the parish of St. Francois, Beauce, is estimated at \$25,000 to \$30,000. In some places the river rose 20 feet over its usual height. Several farmers have lost from \$100 to \$500 each. The bridge erected by Hon. Mr. Joly between Lotbiniere and St. Emilie at a cost of some \$3,000 was carried away by the flood. The adjacent booms, containing 50,000 logs, were also broken, and it is feared the logs have all gone down the stream.

MR. W. E. ATTWOOD, bookseller and stationer, who commenced business as such in Walkerton, Ont., about two years ago, has made an assignment for the benefit of his creditors. At commencing business he had no

ready money, and the wholesale houses have kept him afloat ever since. Three book stores in that town are too many, and it was only a question of time which one of the three should have to step down and out. His liabilities and assets are not very large.

One hundred and fifty vessels of all grades have sailed from various ports in the United Kingdom for Quebec city and Province. The Chronicle says:—that compared with the returns of last year, at this stage of navigation, the shewing is fully as good, and, considering the state of business in all parts of the world, we have no reason to complain. Rumor of war with Russia has, apparently, not effected our spring fleet much, so far. There is every likelihood of our having from six to seven hundred ships this year in our port. The prospects for a fair season's work are encouraging.

The Liverpool Courier of a recent date says: Messrs. Cornwall, Summers & Co., of this city, have just received advice of an order from the Lords of the Admiralty for a large quantity of evaporated vegetables which are furnished by a Nova Scotia (Canada) company which they represent. Samples of these vegetables have also been submitted for the use of the army, and are considered to be of special service for military and naval purposes. They are much superior to either the French or German compressed vegetables, which have previously been largely used, and are highly prized for use in the mercantile marine.

sions of the Province. In the Montreal district the pupils of the various public schools assembled in a body, and the programme included the planting of trees and the delivery of addresses by a number of public men. The 8th of May was proclaimed a school holiday in Ontario by the Minister of Education for the same purpose. Across the border Vermont claims to be the ninth State to establish an Arbor Day, to be set apart for tree-planting—May 1st was selected for this purpose.

A MEETING of creditors was held the 1st inst. at the office of Thibaudeau Bros. & Co., this city, to consider the affairs of Messrs. Bower, Porter, & Bower and Andrew Blackburn, both of Kemptville, Ont., and of Bower, Blackburn, Mundle & Porter, of Brandon, Manitoba, general merchants. The troubles of the three affiliated houses involve liabilities' estimated at about \$80,000, against which they show assets nominally amounting to \$150,000, but these consist in a considerable degree of real estate. The meeting was adjourned until the 14th inst. The present condition of the firms is chiefly due to land speculations in the North-West. The Kemptville firms at least have always been in good standing, although running close to the wind for some time past, and they all have the sympathy of the trade in their hour of trial.

A row boat has left Whitehall, N.Y., with thirty barges for Montreal. The Oitawa river steamboats will commence their regular trips between the Capital and Montreal on Monday next.—The water both in the Oitawa and St. Lawrence has fallen rapidly, and the wharves are once more visible at this port.—The first steamboat of the season arrived here from below on Tuesday.—The Lachine canal was

opened for traffic on Wednesday.-A large number of steamships are now due at Quebec en route for Montreal .- The Donaldson SS. Concordia, from Glasgow, is the first arrival from sea. She came round by the Gut of Canso and Northumberland Straits. She reports she spoke the SS. Brooklyn, and passed a Norwegian bark in the ice. The route by the Gut is comparatively clear, but there is much solid ice in the Gulf.

MESSRS. De Sola Bros. & Ascher, eigar importers and manufacturers, this city, have suspended after a brief career in their present line. Their embarrassment is attributed to a loss of about \$40,000 caused by the increased duty on imported cigars passed by Parliament at the beginning of the Session. They also met with considerable reverses in Manitoba and Western Ontario. The liabilities are about \$78,000, and are due principally abroad. The credit has been something surprising, and shows an ability or a plausibility truly remarkable. Mr. Ascher has had a checkered career, and, with one or two brothers, will long be remembered in connection with the Consolidated Bank

troubles. The De Solas have figured to some extent commercially, socially or religiously, and are sons of the late respected Rabbi of that name. A meeting of creditors will be held at an early date.

THE transmission of the Chicago market quotations over the telegraphic instruments in brokers' offices has ceased at a most inopportune time. A rupture between the Chicago Board of Trade and the Western Union Telegraph Company and its connections has been threatened since November last, the principal cause of complaint on the part of the Board being that the company, in spite of protests, continued to furnish quotations to the "bucket shops." The latter alleges that it has withdrawn its instruments wherever it could, but, having signed contracts with some of these people, injunctions were obtained, obliging it to fulfil its

FINANCE AND INSURANCE REVIEW.

MONTREAL, MAY 8, 1885.

#### CANADIAN PARTY TACTICS.

It cannot be denied that in the United States, as in Canada, party feeling is intensely bitter, but there is a wide difference in one important particular. On all questions affecting the interests of the United States, as a nation, the people of both parties are, as a rule, a unit, while in Canada we find that the interests of the people at large are invariably sacrificed to party considerations. This was manifested in the case of the Pacific railway, which, from the first inception of the work, was yiolently opposed, an opposition to which at that stage we admit that the objection which we now offer would not have applied. But when the Parliament of the Dominion was committed to the work, and when both parties had been engaged in its prosecution, it was anything but patriotic to endeavor to wreck the company which has been engaged in its construction. It has long been apparent that the general interests of the people must be promoted by the rapid construction of the Pacific railway, and yet the opposition to it is as violent as ever.

Just at present a new opportunity has been afforded the Opposition, of making an endeavor-it may be hoped a fruitless one-to injure the public interests. It is known that it is absolutely necessary to raise a new loan in the London money market, and that the Deputy Minister of Finance is about to proceed to England to take the necessary steps to have it offered to the public. The articles in the Opposition press on "Our Financial Position" are most assuredly not calculated to be of service to the fiscal agents of the The London Economist, a Dominion. commercial paper of the highest standing, but of most decided free-trade views, has recently criticized a speech of the Finance Minister, in which he is reported to have said, that it was not a matter of any consequence to the consuming public whether duties were placed on tea or on manufactures. The remark, of course, laid the Minister fairly open to the Economist's criticism that the duties on tea were strictly for revenue alone, whereas the effect of protective duties was to levy an indirect tax on the consumer of the protected articles. This, however, has little bearing on the question at issue.

There is probably no country in the world where higher protective duties are imposed than in the United States, and yet the credit of that country is of the highest standing. Without pretending to approve of the present tariff in every particular, we must point out the insuperable difficulty in the way of carrying out a free-trade policy while in the immediate vicinity of a nation with twelve times our population which adheres to the principle of protection. The question of free-trade or protection has really no bearing whatever on the proposed loan. Canada has now been a borrower in the London money market for a period of more than fifty years, and during that time has invariably redeemed her obligations. The question of how the revenue should be raised is one for the decision of her own Parliament, but there should be no doubt thrown on her credit, as has been done in recent articles by the Opposition press. We are told that Canada 31 per cents have fallen about four per cent in London since this time last year, and the article in the *Economist* is cited in order to sustain an attack on Canadian credit.

We are told by one journal that if the amount obtained for Crown lands had been deducted from the revenue there would have been a deficit during the current year of \$350,000. Surely it would have been only fair to have noticed the fact that since confederation no less than thirty-six millions of dollars have been expended on capital account out of surplus revenue. It might also have been expected that the important fact should have been noticed that the interest on the public debt has been reduced by fully 13 per cent. The expenditure on capital account has not been directly remunerative, but the canals and railroads have been most important factors in adding to the wealth and to the comfort of the people. Even the Pacific railway, which is the object of such persistent abuse, will add largely to the wealth of the Dominion. Whatever opinion may be formed as to the fiscal policy of the Government by the readers of the recent article in the Economist it forms no ground whatever for assailing Canadian credit. And yet our evening contemporary, the Witness, has predicted that that article "can hardly fail to have "a very serious effect upon the success " of the loan which Canada is going into " the London market to secure, and the " bad fiscal policy of the Government "will be directly chargeable with that " result."

Now we will, for argument sake, admit all that the Economist has urged in disapprobation of the liscal policy of the Government, and we would then ask how it affects Canadian credit. Seventeen years' experience enables us to state that in eleven years ending with 1878 the excess of revenue over expenditure was \$10,075,169, while in the six years ending with 1884 it was \$25,766,209. Now, granting that the Canadian people were more heavily taxed during the latter years, surely the English capitalists have no right to complain of the results of the present fiscal policy. We may add that the people of the Dominion have on more than one occasion deliberately approved of the policy which English free-traders have condemned. If the Canadian Opposition should succeed in their apparent object, which is to cause their new loan to be negotiated on less favorable terms than the last, the English capitalists will be the gainers, and the Canadian people the sufferers by their suicidal policy.

LOW PRICES AND THEIR CAUSES.

The Contemporary Review for April contains an interesting contribution from Mr. William Fowler, M.P., on the subject which we have prefixed to these remarks. He commences by reminding his readers of a remarkable paper, read before the London Statistical Society in January, 1879, by Mr. Giffen, the wellknown political economist, in which he pointed out how general and how important had been the fall in prices which had then taken place, and anticipated a continued and increased depression, owing, among other causes, to the comparative scarcity of gold. Mr. Fowler then gives a table of prices in January, 1879, January, 1884, and January, 1885, from which it appears that the fall has not been general, and that the serious fall was during the year 1884. Among the few articles out of a list of fifteen the price of which has advanced are cotton wool, butter, and beef. The principal fall has been in sugar, which is little over half the value which is quoted on 1st January, 1884, which was 16s to 19s per cwt. while on 1st January, 1885, it was only 9s 6s to 12s.

Mr. Fowler evidently attaches far too little importance to the increased value of gold, although that cause has been in operation for several years. Still it is well to bear constantly in mind that the practical effect of the resumption of specie payments in the United States, the adoption by Germany, Italy and one or two other nations of a single standard, and the cessation of silver coinage in France, has been to reduce the prices of commodities. Mr. Fowler, however, gives some interesting statistics in regard to other articles of commerce. The production of cane sugar in 1852 was 1,044,-542 tons and of beet 153,000 tons-total 1,197,542 tons. In 1880 the cane sugar was 3,544,000 tons and beet 1,744,992-or a total of 5,296,992. In 1883 the cane was 3,759,000 tons and beet 2,225,000 or a total of 5,984,000 tons. Although the beet has increased in greater proportion than the cane yet the latter has also been considerably in excess of what it was a few years ago.

The production of pig iron has also increased to an enormous extent. In 1868 it was 9,392,600 tons, while in 1879 it was 13,768,000, and in 1883, 20,410,000. Now in this case the price in 1879 was 43s., and in January, 1885, 42s 3d, a comparatively slight reduction. It is Mr. Fowler's opinion that the recent changes in prices must be attributed rather to supplies of the articles than to a scarcity of the standard of value, and

certainly there is no ground for attributing the recent fall to the cause mentioned. There is a very remarkable table of the rates of freight from Chicago to New York by lake and canal, by lake and rail, and by all rail, between the years 1868 and 1884. The fall in rates has been progressive, and in 1884 the rates were rather less than one-third of what they were in 1868. There was an enormous increase in quantity. The New York Central and Hudson River railroad carried 1,846,599 tons of freight in 1868 and 10,892,440 in 1883. The New York, Lake Erie & Western railroad increased from 3,908,243 tons in 1868 to 13,610,623 tons in 1883, and the Pennsylvania from 4.722.015 to 21.674.160 tons. The total on the three roads increased from 10,476,837 tons to 46,178,223. This is a wonderful increase in fifteen years.

The reduction in the rates of freight by sea; is equally remarkable. A table of the rates of freight on several articles of commerce from Calcutta to the United Kingdom shows a great progressive fall between 1881 and 1884. We shall quote that on wheat, which was from 62s 6d to 25s, via the Cape, and by canal from 71s 3d to 17s 6d. Mr. Fowler refers to the paper by Mr. Williams, M.P., in the January number of the Fortnightly, in which, after giving the combined capacity of sailing and steam ships in 1875 as 9,975,000 tons and in 1883 as 14,646,009, he adds " an increase altogether wild and unjustifiable." Mr. Fowler holds that although the effect of telegraph on prices may not be so obvious it is nevertheless very important. It was formerly part of the business of a foreign merchant to hold large stocks of goods, and thus great amounts of capital were locked up in foreign ports. Very small stocks are now needed. English prices are as well known in Calcutta as in Cornhill, and the merchant can give his orders by wire without the delay of correspondence, and without any risk as to any alteration of price between the time of writing and the despatch of the goods. Of course the market may fluctuate considerably during the period of the voyage, but the facilities afforded by the telegraph encourage competition, which tends to lower prices.

Mr. Fowler has alluded to the battle of the standards, but only to explain that he does not intend to discuss it. He, however, makes an extraordinary remark, to the effect that the adoption of a gold standard by some other European nations "does not seem an argument in favor of our adopting the metal which they have abandoned." No one has suggested anything of the kind. What has been pro-

posed is an international double standard. We have the experience of France that it is quite possible with such a standard to avoid any injurious consequences from a depreciation of one of the metals. The remedy is simply to stop the coinage of the depreciated standard, that is, to do exactly the reverse of what the United States has done.

#### THE PACIFIC RAILWAY.

The resolutions introduced by the administration for aiding the Canadian Pacific Railway Co., are likely to meet with the determined opposition of the party antagonistic to the Government, and yet they are so moderate that our only surprise is that the administration has been able to persuade the directors of the company to accept them. Nothing can be more absurd than the mode of treating the Pacific Railway question, adopted by the Opposition press. It is difficult to believe that the writers of the articles which appear daily in that press can thomselves believe what they endeavor to instil into the minds of their readers. They pretend to hold the opinion that the present directors of the Pacific Railway entered into a contract with the Government, by which they undertook, in consideration of the bonuses in land and money, which were granted to the company to become personally liable to the extent of their private fortunes for the construction and equipment of the

It seems almost trifling with the public to argue this point, but we cannot better illustrate the position of the Canadian Pacific Co., than by reminding its assailants of the early history of the Grand Trunk Co. and we cannot do this without deprecating, which we do with all sincerity, the attacks which have been made of late on the Grand Trunk, a corporation which we consider to be entitled to the gratitude of the people of Canada, which has been manifested by their representatives in Parliament on all suitable occasions. The Grand Trunk Co. was formed by English capitalists, who undertook to construct and equip the railroad, receiving Government aid in the form of a first mortgage to the extent of something over nine millions of dollars. In process of time it was found that the subscribed capital was insufficient to complete the work, and that, so long as the Government of Canada held a preferential lien it would be impossible to go into the money market for an additional supply. The Government was appealed to, and advised

Parliament to postpone the lien and place it behind the ordinary stock. It is true that certain conditions were imposed upon the company, precisely as those exacted at the present time by Quebec influence.

The main point, to which we desire to call attention is that it never was even suggested that the eminent capitalists in Great Britain, who were directors of the Grand Trunk Company, should be called on to spend their private fortunes in the construction of the road. And yet we may remember that, as in the case of the Canadian Pacific Co. and of many similar enterprises, interest on the subscribed capital was guaranteed and paid during the progress of construction. Railroad companies are all under the same rule of limited liability, and it would be impossible to obtain subscribers to their capital stock on any other terms. In the case of the Canadian Pacific Co. the shareholders have taken in all 650,000 shares of the capital stock or \$65,00,000 at par. A large portion of this stock was issued at prices considerably under par, but from the best information that we have been able to obtain it has averaged at least \$30,000,000, less the interest refunded, and we have no doubt that the shares held by the directors stand them fully the average at which we have placed them. It will be well to notice the difference between the Grand Trunk Co. and the Canadian Pacific Co.

The Grand Trunk Co. embarked in a new work, on conditions well understood at the time, and subsequently obtained the relinquishment of the Government preferential claim. The directors of the Canadian Pacific Co. had nothing whatever to do with the arrangements under which the Government of Canada undertook to construct the Pacific Rulway as a condition of British Columbia entering the Confederation. Abortive attempts to procure the construction of the road by a company had been made, and subsequently, sections of it had been completed by direct contracts for construction or by subsidies, and it was finally determined to endeavor to effect arrangements with a new company on the basis of offering subsidies in land and money. After this determination had been generally known, a syndicate of Canadian capitalists undertook to form a company to carry out the work, and the Government entered into an agreement with them accordingly. Since that time the party in opposition to the Dominion Government has spared no effort to damage the company in public estimation, and there can be no doubt that their efforts have been to some extent successful. One of the most extraordinary of their grounds of attack has been the rapidity of the construction of the work, which has proved of such immense public benefit.

It will be perceived at once by those who inquire into the subject that any assistance already given, or which it is now proposed to give, to the Canadian Pacific Co. is to be a preferential claim on the railroad over the capital invested by the shareholders. Under the very worst conceivable circumstances the Government will acquire the road, in which the shareholders have invested a very considerable amount of money, estimated, as we have already stated, at the minimum amount of \$30,000,000. Under the circumstances, which were totally unforeseen at the time, the importance of the early completion of the railroad can hardly be over-estimated. We learn by a contribution to the Toronto Week from Washington that, if the Government had been weak enough to have listened to the appeals made by the Opposition and had solicited permission from the Government at Washington to send the troops over the United States railroads, it would have been refused. Fortunately no such request was made, and we have now an assurance that there will be very shortly a complete line from the Atlantic to the Pacific through our own territory.

It is deeply to be regretted that such persistent violent attacks are made on the Pacific Co., and without even the shadow of foundation. As far as the security goes it is obviously a matter of no importance whatever whether the Government hold as collateral security a number of shares of stock of the par value of \$35,000,000, secured by the whole property of the company or the proposed amount of bonds secured in the same way. The interest of the Government and people of Canada and of the shareholders in the Pacific Co. is identical. It is desirable in their common interest that the money necessary to complete the road should be raised on the most advantageous terms possible, and the company do not object, if they accept the proposed resolutions, to give the Government a prefential claim on their property. It is to be hoped that it will be found possible to avoid the construction of a new line to Quebec, which would be simply a waste of capital, very similar to the waste caused by demands from the same interest when the Grand Trunk obtained the postponment of its debt to the Government,

#### THE CO-OPERATIVE LIFE SYSTEM.

The current reports of the commissioners of insurance for the various States of the neighboring Union deal at some length with the co-operative or assessment plan of "life insurance." The remarks of Commissioner Williams of Hartford, Connecticut, are so much to the purpose that we give them in full:

"In lieu of a uniform annual premium, this class of companies charge an entrance fee and annual, quarterly, or monthly dues to cover expenses, and make assessments from time to time to provide for the death-claims of the current year. In so far as they undertake to accumulate a reserve fund to meet future losses. they violate the fundamental principle of the scheme, which is that such fund is an unnecessary tax upon, and overpayment by, the assured. This provision for the future by the uniform-premium offices is the very raison d'etre of the cooperative offices. Their distinctive plan consists in the office demanding no more than will supply the wants of the present, leaving that considerable portion of the ordinary premium, which, in the early years of the policy, makes up a reserve, in the pockets of the assured, to be drawn upon from year to year by annually increasing assessments."

"All properly conducted assessment companies fix their yearly assessments strictly according to the respective ages of the members and the year's risk at those ages. All grouping of different ages for a like assessment is inequitable, and therefore objectionable. For the younger ages in the group pay not only for themselves, but also in part for the older ages. It matters not whether the assessment be large enough to cover the risk of the eldest age in the group, or only sufficient to cover the average age; in either case the younger are overcharged.

"For the purpose of illustrating the payments that a whole-life policy-holder would make on the two diverse systems above described, a table follows (based upon the Actuaries' rate of mortality and interest at four per cent.), showing the uniform annual net premium on \$1,000 that is charged by the one kind, on a person aged twenty-five years, and the varying assessments that must be made by the other kind to meet the losses, as the age of the person increases as indicated in the first column. To the net premium here given, a margin of twenty or thirty per cent. is added to cover expenses. The assessment offices have the same expenses, which are paid by

entrance fees, dues, etc. Hence the premiums or assessments here given represent the sums needful to meet the deathclaims:—

Age when Assured=25.

Age	Uniform Annual	Varying Annual Assessm't	Difference
	Premium.	for a Year's Risk.	
25	\$14 72	\$7 77	<b>— \$6 95</b>
30	14 72	8 42	<b>—</b> 6 30
35	14 72	9 29	<b>—</b> 5 43
40	14 72	10 36	<b>— 4</b> 36
45	1472	12 21	<b>—</b> 2 51
50	14 72	15 94	+ 1 22
55	1472	21 66	+ 6 94
60	14.72	30 34	+ 15 62
65	1472	44 08	+ 29 36
70	14.72	64 93	+ 50 21
75	14 72	95 56	+ 80 84
80 .	14 72	140 41	+ 125 69
85	14 72	205 10	+ 190 38
90	1472	323 73	+ 309 01
95	14 72	584 27	+ 569 55
99	14 72	1,000 00	+ 985 28

The above tabular scale signifies that the portion of the annual office premium (for assurance on a person aged twentyfive) which is required in order to provide for the payment of \$1,000, when it shall fall due, is \$14.72, and this payment is uniform through life. And that the assessment which would make good the average amount of a year's losses on persons aged twenty-five must begin at \$7.77 on each \$1,000 certificate, and go on increasing yearly to the end. The excess of the former over the latter constitutes the foundation of the reserve, being the amount overpaid beyond the cost of the year's assurance. The first year the premium is nearly double the cost of carrying the risk. At age thirty the annual assessment has increased to \$8.42, and at age fifty it exceeds the level. premium. Thereafter it grows rapidly, almost doubling in the next ten years, and becoming at eighty nearly ten times the premium. When it is considered that in both cases the payments must be such as to amount to \$1,000 at maturity, the claim that insurance for life can be furnished at a smaller cost under one system than under the other is disposed of as a fallacy. This claim is persistently put forth as an inducement to insure on the new plan, and has become, to some extent, a popular delusion."

There is another point, however, wherein the modern system gives a seeming advantage to the holder of a life policy. By referring to the example it will be seen that on the old plan, in the case presented, the assured overpays the risk for twenty-five years. Afterwards he underpays sufficiently to counterbalance. Now if at the end of the twenty-fifth year he desires to terminate his insurance, he does so in the assessment office by ceasing to pay the assessments. He has had protection for twenty-five years at the cost of the risk for that term. In the other case, the assured has paid \$284 beyond the cost of the risk for the term, and the office will return but a portion of this on surrender of the policy. Whether the facility with which policies may be terminated without loss, in the assessment offices will not induce the surrender of a disproportionate number of policies on healthy lives, after the assessments become uncomfortably large, leaving an undue proportion of impaired members, thus raising the death and assessment rate, is a question to be settled by experience.

It should have been added, as to the example given, that the uniform annual net premium for assuring \$1,000 on a life aged twenty-five, for the term of twenty-five years, is \$9.19, which sum can be readily compared with the varying assessment cost, as stated in the foregoing table for the quinquennial periods of that term.

It is not intended that these remarks should be construed as an argument for or against either system. But it seems proper to show that the cost of insuring lives is regulated by the inexorable law of mortality, instead of by the plans and devices of an insurance office."

#### INTERCOLONIAL RECIPROCITY.

There is a report over the wires from Halifax, N.S., that "six of the leading "business men of Jamaica will arrive in " Montreal in a week or two to consult "with Montreal importers, and proceed " to Ottawa to interview the Government " and urge " reciprocity of trade between "Canada and Jamaica." Should this report be well founded, and, judging from the past, it seems highly probable, our Board of Trade would need to be on its guard. It must be borne in mind that the Imperial Government and Parliament are responsible for the policy of the various West Indian colonies, and there can be no doubt whatever that H. M. Government will not sanction arrangements between any one colony in the West Indies and Canada, the effect of which would be discrimination against another. It is highly improbable that these " leading business men " can have any satisfactory credentials with them, and in the absence of such it would be most unsafe to enter into any correspondence with them.

There are overwhelming reasons against the proposal which interested parties in some of the West India Colonies are trying to bring about. We shall state a few of them: 1st. Canada, especially under existing circumstances, cannot possibly spare nearly three millions of revenue which is the amount raised by the staple export of the West Indies. 2nd. Were sugar admitted free from Jamaica, German beet root sugar would likewise have to be admitted on the same terms under the subsisting treaty between Great Britain and Germany. 3rd. There would be loud complaints from the manufacturers of beet root sugar in Canada, who were very universally encouraged to invest capital in that industry by the promise of protection, and who would probably claim compensation, although, as a rule, their operations have been hitherto unprofitable. 4th. It would be next to impossible to get the various West Indian Colony to unite in any scheme of reciprocal free-trade even if all other objections could be removed, and the Imperial Government would never consent to an arrangement under which one colony or group of colonies was discriminated against in favor of another. These are some of the obvious objections to a scheme which has been more than once favored by Canadian public men, but which will not stand criticism. We venture to express a hope that the Jamaica delegates will be met at the outset by a demand for their credentials, which we are thoroughly convinced they will be unable to produce.

THE GLASGOW AND LONDON, &c.—We have much pleasure in calling the attention of our readers to the notice in our advertising columns regarding the amalgamation of the Glasgow & London Ins. Co. of Great Britain, and the Victor Fire Office of London, England The capital of the combined companies will be \$5,000,000, which gives the Glasgow & London a still more leading place among English fire insurance companies. We understand that the business will be carried on, as before, by the Glasgow & London under the same directorate and management all through—with the addition that the directors and general manager of the Victor will join the management of the combined companies.—The 1884 Canadian record of the Glasgow & London was over \$300,000, thus showing that it has a strong hold on the public.—With its largely increased capital, we feel sure it will give a good account of itself during 1885, under the energetic management of Mr. Stewart Browne.

### THE CITY AND DISTRICT SAVINGS BANK.

The 38th annual meeting of the Montreal City and District Savings Bank was held last

Tuesday, the president, Mr. Edward Murphy, in the chair. The following directors were present: A. Larocque, J. H. R. Molson, Judge Berthelot, James O'Brien, Hon. D. A. Macdonald, F. T. Judah, E. J. Barbeau, Nolan Delisle, Richard Bolton, Dr. Hingston, Michael Burke, R. Bellemare and H. Archibald. The thirty-eighth annual report was read, and stated amongst other things that for several years it has been the good fortune of the Rank to escape loss; but during the past year, in its advances on Federal Bank stock, and in its relations with the Exchange Bank, this Institution has not escaped loss; this, however, has been written off in full. The net profits last year were \$108,792.31, out of which were paid two dividends of \$24,000 each. The balance at the credit of profit and loss remains at \$227,000, or nearly 38 per cent of the paid up capital. It is satisfactory to observe that the working classes of the city and district continue largely to make use of the bank as the depositary for their savings. The remarkably low average for each account (\$202.55) shows that the bank continues to be availed of largely by the working classes. The liabilities, which are \$7,542,013, are made up of deposits, \$6,328,093; due Receiver-General, \$150,168; Charity Fund, \$180,000; open accounts, \$54,955; profit and loss, \$227,000, and stock, \$600,000. The assets include corporation and provincial bonds, \$1,082,084; charity fund invested, \$180,000; bank premises and branches, \$375,762; loans on collateral, \$3,989,675; other assets and cash, \$1,914,000. The nationality of the depositors is 19,353 French-speaking and 11,888 English-speaking. The following directors were elected: E. Murphy, A. Larocque, Dr. Hingston, J. O'Brien, T. Workman, R. Bellemare, J. A. Ouimet, E. J. Barbeau, F. T. Judah, J. H. R. Molson. Messrs. Glackmeyer and Tasker were re-elected auditors, the President referring in high terms to their efficiency.

On motion a vote of thanks was tendered to the President, directors and officers of the bank for their services the past year. Mr. Delise, in seconding the motion, referred in complimentary terms to the President and the manager. He congratulated the meeting on the encouraging state the bank was in, despite bad debts, which would occur.

#### THE NEW LIFE INSURANCE BILL.

An Act to modify the application of "The Consolidated Insurance Act, 1877." Re-printed as amended and reported by the Banking and Commerce Committee:—

Whereas it is expedient to amend "The Consolidated Insurance Act, 1877," with regard to companies transacting business of life insurance under the title of "Co-operative Life Insurance Companies," "Mutual Benefit Associations," and the like: Therefore Her Majesty; by and with the advice and consent of the Senate and House of Commons of Canada, enacts as follows:—

1. The word "company" in the Act shall be construed and interpreted in the same manner as in the Act cited in the preamble; and a penalty imposed for contravention of this Act, the amount whereof is fixed by reference to any section of the Act aforesaid, shall be recoverable and applicable in like manner as that imposed by such section, all the provisions whereof shall apply to it and to the oftence for which it is imposed.

2. Any company incorporated within Canada, which transacts business of life insurance by promising to pay, on the death of a member of such company, a sum of money solely from the proceeds of assessments, or dues collected or to be collected, from the members thereof for that purpose, may, at the discretion of the Minister of Finance, on report of the Superintendent of Insurance, approved by the Treasury Board, be exempted from the operation of "Consolidated Insurance Act, 1877," and be permitted to transact the business of life insurance on the conditions hereinafter specified.

3. Companies to be so exempted shall register their titles or corporate names in the office of the Superintendent of insurance. They shall also make attested returns of their condition and affairs at such times and in such form, and attested in such manner, as shall be prescribed by the Minister of Finance; and the Superintendent of Insurance shall include such returns in his annual report; and any failure to make such returns, when called for by the Superintendent of Insurance, shall subject such company, and any officer thereof, to the penalty mentioned in the twenty-second section of the Act hereinbefore cited.

4. The registration of a company shall cease to be valid on the thirty-first day of March in each year, but shall be renewable from year to year, in the discretion of the Minister of France.

5. The provisions of this section shall apply

5. The provisions of this section shall apply to corporations or associations incorporated elsewhere than in Canada for the purpose of carrying on the business of life insurance upon the co-operative or assessment plan.

2. Any such corporation or association may be liceused by the Minister of Finance to transact business in Canada upon depositing with him fifty thousand dollars under the provisions of "The Consolidated Insurance Act 1877," and thereafter shall have the right to transact business so long as it continues to pay its losses to the full limit named in its certificates or policies, and has complied with all requirements of the said Act and of this Act and of

ments of the said Act and of this Act and of the Superintendent of Insurance;

3. In addition to such deposit of fifty thousand dollars, the Minister of Finance, upon the report of the Superintendent of Insurance, approved by the Trensury Board, may from time to time require such other and further deposit as may be recommended in such report and so approved, to be made by such companies or deposited with trustees to be named by the Minister of Finance;

4. Death claims shall be a first charge on all

4. Death claims shall be a first charge on all moneys realized from assessments and no deduction shall be made from any such death claims on any account whatsoever;

5. No portion of any moneys received from assessments for death claims shall be used for any expense whatever, and every notice of any assessment shall truly specify the cause and purpose thereof;

purpose thereof;
6. Every application, policy and certificate, issued or used by any such company in Canada, shall have printed thereon, in a conspicuous place, in different colored ink and in good-sized type, the following words:—"This association is not required by law to maintain the reserve which is required of ordinary life insurance companies;"

7. Every certificate and policy shall contain a promise to pay the whole amount therein mentioned out of the death fund of the association and out of any moneys realized from assessments to be made for that purpose, and every such association shall be bound forthwith and from time to time to make assessments to an amount adequate with its other available funds to pay all obligations created under any such certificate or policy without deduction or abatement:

8. The condition embodied in the next preceding sub-section shall be inserted in every policy or certificate issued in or delivered to any person insured in Canada.

any person insured in Canada.

6. No condition, stipulation or proviso modifying or impairing the effect of any policy of life insurance issued after the first day of January, one thousand eight hundred and eighty-six, by any company doing business within Canada under the authority of the Parliament of Canada shall be good or valid unless the same is set out in full on the face or back of the policy.

back of the policy.

7. No policy or certificate shall be avoided by reason of any statement contained in the application therefor being untrue, unless such statement be material to the contract.

8. No company shall carry on within Canada any business of the nature described in the second section of this Act, without being licensed under the Act above cited, or being registered under this Act, and the words

"assessment system" shall be printed in large type at the head of every policy and every application for the same, and also in every circular and advertisement issued or used in Canada; and any director, manager, agent or other officer of a company so doing business without being licensed, and any person who transacts any business on behalf of such company, and any company neglecting to print the said words as aforesaid, shall be liable to the penalty mentioned in the thirteenth section of the Act hereinbefore cited.

9. In the case of any contract entered into, or any certificate of membership or policy of insurance issued, by any company, before the passing of this Act, assessments may be made and collected, and claims paid, and all business connected therewith transacted without

any penalty being incurred.

10. Neither "The Consolitated Insurance Act, 1877," nor this Act shall apply to any society or association of persons for fraternal, benevolent, industrial or religious purposes, among which purposes shall be the insurance of the lives of the members thereof exclusively; or to any association for the purpose of life insurance, formed in connection with such society or organization and exclusively from its members, and insuring the lives of such members exclusively;

2. Any society or association which is de-

2. Any society or association which is declared by this section to be exempt from the application of "The Consolidated Insurance Act, 1877," and of this Act, may nevertheless apply to the Minister of Finance to be allowed to avail itself of the provisions of this Act, and upon such application being assented to, such society or association shall cease to be so exempt by virtue of this section.

#### CREAMERY BUTTER.

Mr. Fred Blake in addressing the Iowa Butter and Cheese Association upon the benefits of creameries, took the position, in the first place, that dairying is the easiest and most economical means of preserving the vitality of the soil. "We will allow," he said," five acres of land for each cow that is placed upon a farm. We will also say that one in the season will make 150 pounds of butter, which is placing it very low. Five acres, according to the statistics of 1880, will produce 38 bushels of corn, 66 bushels of coats and 2.84 tons of hay—assuming one acre for corn, 2 for oats and 2 for hay—which will weigh 10,752 pounds, which in that year was estimated at \$42. Deducting one-tenth of this weight for the water entering into its composition we have 9.675 pounds of true soil composition, we have 9,675 pounds of true soil. Now, if we export this it is gone forever; we can use it no more, and all that we receive for it is \$42. But if we feed this produce to a cow, she will yield 150 pounds of butter, which, valued at 28 cents per pound, will amount to \$42. We can also secure, from no extra produce, one calf worth \$10, and, deducting the interest, at 10 per cent. per annum, upon the value of the cow, which we will estimate at \$30, leaves \$17 more for this produce than by exporting the raw material; and, also, you retain as a fertilizer all of the product except 135 pounds of true soil in the 150 pounds of butter, and that required to build up the animal tissue of the call and hog; and which fertilizer you replace upon the soil and make to reproduce year after year, until it is finally all converted into butter. If we convert the whole 10,752 pounds of produce into that many pounds of butter, and value it at 28 cents a pound, it reaches the sum of \$3,010.56. Think of the amount we lose by exporting the raw material—think of the value of the spoils. Spoils result from manufacturing. Then, if we wish to secure our own wealth, we must look to the creameries for assistance. Like England, the formers can fertilize the sail of their farms by farmers can fertilize the soil of their farms by keeping large numbers of cows and importing feed, if they can find some State so kind as to sell its produce. Now, let me say that cows must be well fed. In the cow you will find the

silver rule and the golden butter. If you do not feed her, she will give you but little milk; but if you feed her well, she will do for you all that she can. If you have a machine, keep it well oiled, or it will soon wear out, and you will sell it for old iron; if you have a cow, keep her well fed or she will soon get so poor that you will have to sell her for a canner. Again consider for one moment the saving in exporting the butter instead of grain. During the past year there were exported from this station 660,310 pounds of butter. If 10,752 pounds of produce be required to yield 150 pounds of butter, then, according to the old rule of three—which I believe was used a great deal when the older heads here went to school—47, 331,020 pounds of produce will be required to produce or yield 660,310 pounds) of butter If this all had to be drawn a distance of six miles to the station, the cost of delivering to the depot would be \$2 per ton. The freight to Chicago would be \$3 per ton, making a total of \$5 per ton; which, upon 47,331,020 pounds would amount to \$168,327 55. The transportation of butter would cost \$1 per 1,000 pounds to New York city, making a total of \$5 per ton; which, computed upon 660,310 pounds of butter, would amount to \$10,564 96—a saving of \$157,762 59, which farmers have not been slow to perceive. What is a better business? What is a surrer business? Will it go down? Can it go down? The business is yet in its youth; it is growing larger every day. The number of creameries in the State is continually increasing, and has now reached 600. Interocean.

A Pool in Oil .- Owners of linseed oil mills met in session at Chicago last week, and fixed the price of oil in accordance with an agreement to form a pool to regulate prices previously entered into. T. J. McCullough, of Kankakce, was made pool commissioner. The price for raw oil was fixed at 48 cents a gallon by the car-lot. This is an advance of 2 cents. Over five barrels and up to car-lots, 49 cents; and 50 cents for under car-lots was agreed upon. For boiled oil in car-lots the price will be 51 cents, and from that to 53 cents, according to quantity. The mills thus maintaining prices are those north of the Ohio River and between the Missouri River and Pittsburg. The aggregate number of mills is lifty. The crop upon which these prices are fixed was that grown and gathered between July and September, 1884, and which is now in the mills. Its estimated value when the product of it is ready for delivery is \$10,000,000. The crop of flaxseed comes principally from Northwestern Iowa Nebraska, and Dakota. The terms of the pool are binding until next August. For a long time the mill-owners have been accustomed to form a combination to control prices, and about two years ago they went beyond this and consolidated their interests by dividing the profits after each mill had turned the result of its manufacture into the general fund. This did not work well and it was soon abandoned, the nool dissolved, and each mill began working independent again. The excuse of the mill-owners for pooling their issues at this time is that oil has been too cheap and they have not been sufficiently remunerated for the amount of capital invested.

CONTRACTS BY TELEPHONE.—A novel question and one of growing importance to the commercial world is decided in an opinion just published of the Kentucky Supreme Court. A contract made by telephone—and such contracts are becoming more common every day—is as valid as any verbal agreement. But

how is it to be proved? The Kentucky Court allowed the evidence of the party to the suit and two others who heard the telephonic conversation and agreement, although the terms of agreement were denied by the defendant. The Supreme Court decided this to be competent evidence. It compared the operator to an interpreter. Where two persons communicate through an interpreter, the Court explains, the communication may be proved either by the interpreter or by persons who were present and heard the statements made by the interpreter. The interpreter is the agent of both parties. "It is true that in communicating by telephone the parties cannot see each other. But the statements of an interpreter between blind persons could be proved by third parties without calling the interpreter as a witness; and by telephonic means persons are as much together for all purposes of conversation and acrors in what may be occurring, as if they were immediately present with each other.

A NOVEL use, says an Eastern paper, is being made of oyster-shells by a Hartford, Coun., man, who is coining money in his new enterprise. The shells are placed in a patented mill and ground. It has a capacity of five tons a day. By an ingenious arrangement sieves are kept at work assorting the dust into fine, charse, and insufficiently treated. The fine and the coarse are taken by elevator belts to the floor below, where, through canvas chutes, regulated by wooden slides, barrels are rapidly filled. The product is sold for chicken feed. Twenty tons and more are sent yearly to San Francisco, orders are filled from Western States, and Berminda and the Sandwich Islands have been supplied. The business has been doubled since last year.

The Welland Canal will be open for navigation May 7. Extensive repairs are to be made on the Brie Canal before its opening on the 11th instant. Bridges are to be constructed at Medina and Gasport. In many places there are bars formed, and these must be removed and the canal bottomed out sufficiently to prevent the stranding of the largest bonts. The Eric canal has opened twenty-eight times in May, but never before on the 11th. In April the opening has occurred thirty-three times, and in March once, in the year 1828. The latest day of resumption since 1824 was May 18, 1875, and that year was also the shoruest of navigation, the season lasting 196 days. The longest season—269 days—was in 1828.

The Commercial Advertiser, of Honolulu, advises planters on the Islands to pay greater attention to coffee growing. It says:—There is money in raising coffee. The world's market is open to us. Why not ship it to New Zeuland and Australia, instead of compelling those countries to buy Java coffee from the Dutch factories? We have a monthly line of steamers between Honolulu and the colonies available for freight, but our production is too small to be counted upon as an export. Large fortunes may not be made at it, but a great deal more than expenses will be earned, which was not the case generally in the sugar business last year.

The Timer Trade.—Representatives from Quebec who have visited Europe this winter have retured with an amount of business obtained far in excess of last year, and more than

they anticipated. Deals have sold fairly well, also some descriptions of timber. In this connection the decrease in the production of white pine in the Ottawa district will, it is stated, be about one-third less than last year. The demand for white pine square timber has not, however, rallied in the home market. A considerable quantity of this timber is reported still in first hands. On the whole, a good spring trade is anticipated.—Chronicle.

A monstan bakery is about to be erected in Moscow, which, it is stated, when in working order, will reduce the present price of bread in that city by something like 25 per cent. This enterprise is in the bands of a company disposing of a capital of 400,000 roubles, raised in shares of 1000 roubles each. The cost of building the necessary premises, together with the requisite steam appliances for the company, is estimated at 250,000 roubles. The quantity of bread to be baked daily is set down at 65,000 kilos. Rye as well as wheaten bread will be baked and daily dispatched to forty different commodious shops in the city to be sold.

The fall in prices consequent upon the large production of beet sugar has put cane sugar manufacturers on their mettle, and it is claimed to have been discovered that the simple expedient of shredding the cane into small fibres before pressing it increases the production 40 per cent. It was recently stated in New Orleans that unless the cost of production could be reduced a cent a pound the cultivation of the cane would have to be abandoned, and if the shedding process fulfils the promises made for it the cheapening will be one and a half to two cents.

A CIRCULAR issued from Lubeck, Germany, last month, addressed to American lumber exporters says the N.W. Lumberman, calls attention to the intended increase of the German duty on lumber. It states that sawed timber will probably have to pay a higher duty than hewed timber and warns exporters against shipping logs shaped with the saw only. It slyly hims that, if sawed timber is shipped, it should be disguised by the use of the adze.

There are five Russian vessels in the port of New York, the ships Equator, 1273 tons; Europa, 991 tons; Vanadis, 1146 tons, the banks Tolvo, 944 tons, and Curonia, 387 tons. None of these vessels is now loading, and no orders are to be given for cargoes for them at present. The Russian corvette Strelok and the British corvette Garnet have reached New York and appear to be keeping a watch on each other's movements.

A BUILDING is being put up in Chicago, the walls of which will be plate glass, and when completed the structure will be composed principally of glass, cement, and red slate. The building is to be used for offices, and it is expected that 75 per cent of the entire space can be made available, whereas in ordinary buildings the amount is only from 42 to 54 per cent, so much more being taken up by walls, halls, &c.

London, Eng., advices state that a committee of English holders of stock in the New York, Ontario and Western Railway have obtained the unanimous assent of the English holders in that Corporation's shares to the scheme proposed by the London and Amsterdam committes for securing control of the property of the road; provision is now being made for its floating debt.

The Waterloo Chronicle says:—Thos. F. Mitchell, a cheesemaker who has lived near New Hamburg all his lifetime, committed torgery a few days ago by signing the names of four different parties on two different notes to the amount of \$111. The notes he sold to Mr. Jacob Ratz for \$100. Having pleaded guilty he is now in Berlin gaol awaiting sentence.

ALTHOUGH it has been estimated that the area of oil-producing territory in Russia measures 14,000 square miles, the field at Buku, the Ancient City of Fire, is the only one worked, and this covers a space of three and a half square miles only. Its output is said to be sufficient for the requirements of the whole world.

There has been a brighter outlook in the copper market lately. Notwithstanding the decline of Chili bars in London, the N. Y. market has been firm at it 3-8 to 11½ for lake ingot. The pool contracts have now expired, and consumers have but little surplus. Calumet and Hekla stock is quoted at 161.

The Indianapolis Car Works have begun on an order for 100 furniture cars for the Chicago, Milwaukee & St. Paul railroad. These cars are described as warchouses on wheels, being 40 feet in length, and as high as they can be and pass through tunnels and under bridges.

There has been a good demand for India rubber and rubber goods at Boston, and prices are firmer. Fine Para is quoted principally at 62c to 64c, though a 50,000-lb. lot might be obtained at 622c. For some old lots in store as high as 66c is asked.

The English mint is said to be suffering by the importation or manufacture of French copper coin. This coin is intrinsically worth but one-fourth of its nominal value, leaving 75 per cent of profit for the people who are flooding the English market with it.

The aggregate production of coal in the United States in 1884 is reckoned at 98,651,807 gross tons. The production in Great Britain in 1884, according to an official statement, was 160,044,—176 gross tons, a decrease of 3,693,152 tons in comparison with 1883.

It is said a stock company for the manufacture of liquid cheese is seeking incorporation in New York. The product will look like maple syrup, and have all the pungency and other good qualities of American cheese.

A FOREST tree in Georgia was recently cut down at 6 o'clock in the morning, made into pulp at a factory and into paper by 6 o'clock in the evening, and at 6 o'clock the next morning was distributed as a printed newspaper.

#### MONTREAL WHOLESALE MARKETS.

MAY 7, 1885.

Considerable orders have been booked for shipment to the interior by boat, and on the arrival of the first steamships business is expected to improve. The European mail, due this week by the St. Lawrence, has been delayed, and this has had a tendency to check operations to some extent. The trade outlook for the next few weeks is generally considered promising. The Maritime Bank of St. John, N.B., has declared a dividend of 3 per cent and the Ottawa Bank one of 31 per cent. The amount payable in dividends on June 1st is \$1,129,904. The local rates of money were unchanged at 4 to 4½ p.c. on call, and commercial paper was discounted at 6½ to 7 per cent.. Sterling Exchange was dull; 60's between banks sold at 9 7-16 to 9 9-16, demand 9 13-16 to 10; New York funds 1-8 to 1. Counter rates about 1 higher. The Bank of England rate was reduced 1 to 3 per cent today. The London street rate was 21. Canada Cotton Co.'s bonds to the amount of \$30,000 have changed hands at par and accrued interest. Consols in London to-day sold at 98 13-16 money and dropped to 98 7-16; account

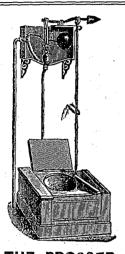

98 13-16. Canada Pacific sold in London at 38 and in New York at 372. The local Stock Market was strong to-day. Bank of Montreal sold at 2013, closing at 2011 bid, 202 asked; ex-dividend the stock changed hands 196 and 1964. Merchants sold in small lots at 1141 and 1142. Gas was active and higher, selling at 1793. 180, 1804 and 1804. Passenger declined from 116 to 115]. Commerce sold at 122 and Toronto at 183. Richelieu was placed at 563 and 57, A sale of 100 shares of Canadian Pacific was put through at 372. The following were the total sales and highest and lowest prices of leading stocks for the week :

SMITHS AND MACHINISTS.

Designers, Manufacturers and Operators of Special Machinery for Mechanical Novelties. All kinds of Screws and many other portions of Hardware required by Planoforte and Organ Makers. They have also facilities and mechanics requisite, and will make the leading lines of Steel Tools used by these firms, viz.: Boring Bits, various patterns, Screwdrivers, Keys, Wrenches, &c., and many Specialities not hitherto made in Canada. Plaus furnished and Estimates given for Steel Dies and Stamped Work.

27, 29 & 31 Adelaide Street East, TORONTO.

### THE PROSSER Self - Flushing Service Cistern (Patented Nov. 14th, 1883),

### W. E. POWER & CO.,

Proprietors and Manufacturers.

Having made the necessary alterations in our cistern, we beg to inform the architects, plumbers, real estate owners, and the public generally, that we have them on view, in working order, at our office, fitted with the national basin.

The water tax for this cistern is reduced to two dollars per year for water.

W. E. POWER & CO., 106 McGill Street, Montreal.

ASHES.-Receipts of Pots have been fair. Sales at \$3.90 down to \$3.80, closing at latter figure for fair Tures. Seconds sold at \$3.30. No Thirds offering. Pearls continue neglected. Receipts since 1st January, 1,177 brls. Pots, 39 Pearls. Deliveries, 900 brls. Pots, 35 brls. Pearls. Stock in store at 6 p.m. on Wednes-day 1,732 brls. Pots, 211 brls. Pearls.

BOOTS AND SHOES .- The sorting trade has been fair up to present but it is about finished. The majority of the houses are now busy on fall samples. Remittances in most instances have been coming in as well as expected.

CANNED GOODS.—The demand was satisfied at former prices, which are as follows :- Corn, 2 1b. tins, \$1.25 per dozen; turkey, \$3.10; corred beef, \$3.25; peas \$1.60; chicken, 1 lb. tins, \$2.30; tomatoes, 3 lb. tins, \$1; apples, \$1; ditto in gallon tins, \$3 per dozen; lobsters. \$6 per case of four dozen; mackerel, \$4 to \$4.25 per case; sardnes, \$11.25 to \$11.50 per case; salmon, \$1.40 to \$1.50 per dozen; finnan haddies at \$1.55 per dozen; peaches, \$2.80 to \$2,95 per dozen.

### LONDON CARRIAGE FACTORY. JOHN CAMPBELL,

PROPRIETOR.

All kinds of Coaches, Carriages, Buggies, Sleighs and Cutters Manufactured, Wholesale and Retail.

All Work Warranted

Carriages shipped to all Parts of the World.

Has been in business over 30 years, and has been a arded by the Provincial and Local Fairs 200 FIRST PRIZES, besides Second, Third and Diplomas; also been awarded Medal and Diplomas at the International Exhibition in Sidney, New South Wales, Australia.

Factory, King St., West of Market.

### TORONTO SCALE WORKS.

Established 34 Years.

Manufacturers of the Improved WILSON SCALES

Received 31 First Prizes, Medals and Governor General's Grand Diploma, and the only Medals on Scales in 1884. The Wilson Scales are taking the lead throughout the whole Dominion. Write for prices, mention size wanted. C. Wilson & SON,

67 Esplanade St., East, Toronto, Ont.

CEMENT AND FIREBRICKS .- Business, which has been dull, is improving, the inducement of lower prices being offered. The demand is said to be brisker than at this time last year. Cement is quoted at \$2.70 to \$3.25, as to quantity, and firebricks at \$23 to \$26, as to brand.

COAL AND WOOD .- The demand has continued light. We quote stove and chestnut, \$6; egg and furnace, \$5.75. Cordwood unchanged. Prices per long cord, ex yard, are as follows: Maple, \$6.50; birch, \$6; beech, \$5.50; tamarac, \$5. For soft coal there is enquiry for future d livery. Cargo lots are quoted as follows :-Cape Breton, \$3.25 to \$1.30; Nova Scotis, \$3.75 to \$3.80. Scotch steam to arrive is quoted at \$4.25 ex ship.

DAIRY PRODUCE AND PROVISIONS .- As usual at this season, business was confined to jobbing lots. New butter has been coming in, in larger quantities, and prices ranged from 15c to 19c, according to quality. Rolls in barrels and boxes sold at 13c to 15c. Old butter is dull and neglected at 7c to 10c. Sales have been

made to go by the first boats to the Lower Ports, but considerable is still held. Our quotations in another column are purely nominal. Cheese.—There is not much of the new make Cheese.—There is not much of the new make here as yet, and no large transactions are reported, either here or at country points. We quote new on spot at 9c to 10c and old at 5c to 11c. The receipts of eggs were ample, and we quote them dull at 13c to 13c. The Utica, N.Y., cheese dull at 13c to 13c. The Utica, N.Y., cheese market this week was very tame until late in the day. It was understood that the ruling the city. It was understood that the ruling price would be the same as last week, but the funcies were not so strong. Until nearly six o'clock it was thought that 10½c, would be the top. Then it leaked out that a few lots had exceeded that price. Fine cheese in fact, seemed to be in good demand. Quotations were as follows: 70 boxes at 9c.; 31 lots, 1,993 boxes, at 10c.; 2 lots, 110 boxes, at 10 l-8c.; 11 lots, 659 boxes, at 10½c; 5 lots, 270 boxes; at 10½c. Sales, 3,122 boxes; commissions, 769 boxes; total 4,891. Ruling price 10c. Transactions of one year ago 4,549 boxes, ruling price 12½c. Two years ago 4,178 boxes, ruling price 11½c. At Little Falls the sales were 2,813 boxes at 7½c to 10½c; 150 boxes of farm cheese went at 7c to 8½c. Butter at the same place was even weaker than the week before. Seventy-five packages sold at 17c to 18c, for farm dairy and 20c for creamery. Provisions—Extra Prime pork in bond sold at \$9.60 to \$10, and the course of prices has been downwards. price would be the same as last week, but the and the course of prices has been downwards The city jobbing trade was fair at prices quoted.

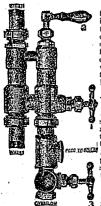

DRUGS AND CHEMICALS,-The drug market has been quiet, and most prices are unaffected Quinine is being sold lower. Payments fair. Chemicals.-Consequent upon the recent war scare heavy chemicals developed great weak-ness, and in some cases recorded as the Russian ness, and in some cases receased as the Russian demand for the product of Figlish factories is considerable. Recent cable despatches report prices much stronger and caustic notably is higher, having advanced 2s 6d per ton. Here prices are well maintained, although there is little business doing, buyers' tactics being to bold off and await spring importations. Divisions hold off and await spring importations. Dyes.

ILSON & COUSINS, Brass Finishers & Machinists,

Manufacturers of Soda Water Machinery and Bottlers' Supplies. 87 Adelaide St., W. Toronto. Orders promptly attended to.

### PUBLIC NOTICE.

Natice is hereby given that a sait is now pending in the Superior Court, Montral, against Robt. Mitchell, of Montreal, carrying on business there under the firm name of Robert Mitchell & Co., charging him with infringing certain patents, the property of the Hancock Inspirator (o.'y, f Boston, Mass, and that all prsons purchasing, editing or using "Hancock inspirator on the man factor of the said Robert Mitchell & Co., are hereby notified that they are liable to be sued for so doing. The genuine fancock Inspirator can be purchased from the undersigned, or from their ar-

thorized agents.

31 King Street West, Toronto.

Business Places of all kinds bought and sold; Patents disposed of; and additional Capital procured for all kinds of legitimate business.

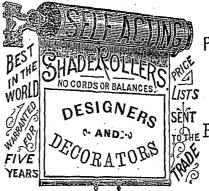

Satisfaction Guaranteed.

—Business quiet Sumac at \$95 to \$105 per ton. Cochineal at 38c to 40c per lb. Logwood steady at \$1.75 to \$2.25 per 100 pounds. Cutch firm at 63c to 7c per pound. Yellow prussiate of potash at 27c to 30c per pound.

Dry Goops.—The city trade has been interfered with by the customary "flitting" during the early part of May, but merchants to whom we have spoken are hopeful of a good trade during the balance of the month. Some of the wholesale people are receiving small but fairly satisfactory sorting orders from the country, and travellers write more encouragingly as the season rolls on, though the roads are still bad and the farmers are busy with their crops. Remittances have slightly improved as compared with the preceding two or three weeks. The re-opening of navigation and the drying up of the roadways in the country is expected to have a beneficial effect. The introduction of muchinery into the Hudon mills for printing cottons is contemplated. The innovation, if favorably received and endorsed, will not be carried into effect before next Spring. Travellers will start shortly with fall samples of tweeds.

Franciers.—Several steamships have reached Quebec, and two are already on the way to Montreal the ice barriers having given way a few days ago. The early vessels will be well loaded coming and returning. Inland navigation

Dwellings,
Railway Cars, etc.

417 QUEEN STREET WEST, TORONTO, ONT.

has also been resumed this week, and all the causis are open for traffic. Increased shipments of lumber and phosphales to Great Britain are looked for. Asking rates of freight from Montreal are as follows: Grain 3s per quarter, flour is 9d per bri., or 15s per ton in sacks; ashes, 15s for pots and 22s 6d for pearls; butter and cheese 25s; hops \( \frac{1}{2}d \), cattle, 80s per head; apples 2s 6d.

Furs.—It is no exaggeration to say that the naw fur trade of Canada has never been in such a depressed condition, and there seems little likelihood of an improvement. Dealers are handling the goods with extreme caution. The manufacturing trade is about on a par with last year, sales that have been made to date giving as much satisfaction as usual. The following are city quotations, for prime skins:—Beaver per lb., fall \$2, winter \$2.50, spring \$3; bear, per skin, \$7 to \$10; bear cub, per skin, \$5 to \$7.50; fisher per skin, \$2 to \$5; fox, red, per skin, \$0c; fox, cross, per skin, \$2 to \$3.50; lynx, per skin, \$1.75 to \$2.50; marten, per skin, \$0c to \$0c; mink, per skin, large dark, 50c; small 26c; muskrat, per skin, fall 5c, winter 8c, spring 12c; otter, per skin, \$6 to \$5; raccoon, 25c, 40c and 70c; skunk, per skin, 15c, 25c and 50c. Skins not prime 25 to 30 per cent less.

GRAIN AND FLOUR.—The tendency this week was towards lower prices, but although holders reduced their figures about 2c buyers were indifferent and lacked courage. A quantity of stuff, however, has been taken in the West which will at once seek an outlet and from Chicago and Duluth comes news of lake schooners being chartered with American wheat and corn for Kingston and Midland. Among the few odd sales which came to light here was that of 10,000 bushels of peas at 84c. Considerable ungraded Canadian barley has sold in New York at 75c to 82c. In flour a fair but not a large business has been done. Prices are down 15c to 20c from the highest point touched, but even at concessions buyers are afraid to take hold. Round lots of 500 to 1000 brls of Superior have been offered at \$5, without drawing a satisfactory bid, and the demand seems likely to be of a hand-to-mouth charac-ter for some time to come. Our quotations, elsewhere are as near the mark as can be at time of writing. English cablegrams to-day reported floating cargoes of wheat rather firmer, and Liverpool spot quiet but steady. Prices of wheat and corn were steady and unchanged. In Chicago wheat was unsettled in the early hours but hardened subsequently with good buying on the crop outlook.

GREEN FRUITS, MAPLE PRODUCTS, ETC.—Business is improving, and prices are steady to firm. Valencias sold at \$7.50 to \$8 per case. Lemons in boxes \$3.50 to \$4. Bananas were plentiful; we quote \$2.50 per bunch. Pineapples \$2.75 to \$3.25 per dozen. Sound Canadian apples were quoted at \$3.50 to \$4 per brl. Dates, 51c to 6c; skins 4c. Occoa nuts \$5 per 100. Maple syrup sold at 70c per small tin and sugar at 8c to 9c per lb.

GROCERIES .- Leading houses report symptoms of improvement, and enquiries for goods are on the increase. In teas some little excitement was worked up yesterday, and rumors were affont of pending sales. So far as known transactions this week reached 800 to 1000 pkgs. Advices just in, state that the market opened in Japan at \$39 per picul, the same price as last year. About 50 picul, were bought at that figure. Sugar—The market has con-tinued firm and the demand for low grades has been satisfactory. Cables yesterday reported an advance of 3d on cane and 41d on beet and a further rise to-day is said to be equal to that of yesterday. It is presumed that the area devoted to the cultivation of beets in Europe is smaller than was expected. If the above cables are confirmed the advance must soon" be re-Are confirmed the advance must soon of te-flected here in refined sugars. Syrups in poor demand. Molasses dull. Barbadoes in large lots can be bought at 28c; small lots 30c to 32c. Rice is steady and unchanged. Talmage, size. Rice is steady and unchanged. Taimage, writing of the American market, says:—"Prices are well maintained. The slight depression quoted last week attracted more attention from buyers, sufficient to arrest further depreciation. Rice is to-day 1c. lower than last year, 'equal date—with less than one-half the supply ahead." Fruit, spices, nuts, etc., are ideal and unchanged. Confee-according to dull and unchanged. Coffee—according to cables received, the last auction sale in Amsterdam went off well; full values were obtained and a good feeling prevailed.

HAY, STRAW AND FEED.—The supply of loose hay was only moderate, and the market was quiet. We quote \$9 to \$12 per 100 bundles, as 10 quality. Straw was scarce and quoted at \$5 to \$8 per 100 bundles. Pressed hay is worth \$14 to \$16 per ton for No. 1, and \$12.50 to \$14 for No. 2; straw in bales, \$8 per ton; shorts \$19 to \$21 per ton; bran \$16 to \$18; moulie, \$24 to \$26 as to quality; buckwheat 70c per bush.

HIDES AND TALLOW.—There were no new features this week. Sheepskins 700 to 900;

clips 25c; lambskins 25c; and calfskins 12c. Tallow quiet at 34c to 4c for rough and 64 to 73c for rendered.

Hops.—There is only a jobbing trade doing, and prices are nominal at 6c to 11c. In New York choice lots are steadily held, but there is less demand. New are quoted there at 14c to 15c for best; good to prime, 12c to 13c; old, 6c to 9c; Pacific coast, 6c to 12c. Something like 300 bales have been taken by dealers in from 10c to 15c. Most of the better grades brought from 13c to 14c. Growers are cautious about letting their hops go, notwithstanding the low prices at which Pacifics are selling.

IRON AND HARDWARE.-Notwithstanding the present peaceful outlook between England and Russia the freight market is still unsettled, and business suffers in consequence, as it is difficult to make arrangements for future delivery. Makers' prices of pig iron have not changed during the week. Business here has been confined to small quantities—30 to 50 ton lots. Steel poiler plates have continued firm and sheet iron is stiffer. In hardware, business is quiet. Prices of shelf goods are low, holders continuing to sell close, with little margin of profit. From the 13th of April, at which date reduced railway rates were enforced, up to a few days are there was a lively shipping more. few days ago there was a lively shipping move-ment. The present full is expected to be broken on the opening of navigation. Canada plutes have sold in round lots for future delivery at \$2.70. In tin plates a fair business was transacted, and round lots of charcoal for future delivery were placed at about \$4. Ingot tin was cabled at £79 12s. 6d. and ruled strong and higher at 19½c for Straits and 20½c for lamb and flag. Ingot copper declined to 13c; best selected in London £49. Lead has been firm at \$3.50. Warrants were cabled at \$4.5 2d. cabled at 41s 9d.

LEATHER.—Business has been slightly more active since the turn of the month. This week the demand has run on light upper and splits. Fine light splits are scarce; other lines in full supply. Prices have little margin of profit and are generally steady. No European shipments are reported.

LIVE STOCK.-Quite a number of cattle are held here for shipment by the first steamers. There is trouble over freight rates, which exporters say are likely to be too high as compared with American ports. They threaten to do business altogether with Boston, where space has been contracted for at £2. Ship owners probably will see it to be their interest to accommodate the trade rather than allow a diversion of traffic. Export cattle are quoted at 41c to 5c. Several hundred head solid for the city trade at 32c to 42c. About 140 calves

### BANQUE DU PEUPLE.

NOTICE is hereby given that COME SERA-PHIN CHERRIER, in his lifetime of the City of Montreal, Esquire, Advocate, having departed this life on the 10th day of April inst., has ceased to be a member or principal partner of the Corporation of La Banque du Peuple.

GEO. S. BRUSH, Vice-President. A. A. TROTTIER, Cushier.

Montreal, 14th April, 1885.

changed hands at \$1.75 to \$8. Sheep sold at 54c per lo., lambs at \$4 to \$5 each and live hogs at 54c to 54c per lb. British cables note an improvement in cattle and an advance from 12 to 13 to for Prime Canadian. Receipts of foreign stock were light, and there was a steady demand at the advance.

NAVAL STORES .- Business ruled dull. We quote:-coal tar, \$3 to \$3.50; pine pitch, \$2.75; pine tar, \$3.50; resin, common, \$2.75 to \$3 per brl; spirits of turpentine, 50c; oakum, 7c

UILS.-No transactions of importance are reported in fish oils, and things are in the same condition as on the day of our last reference. As there has been some difficulty about the range of wholesale prices previously quoted by us and the Mont. eal press generally we would direct intending purchasers' attention to the explanatory note in our prices current. Linseed oil is firmer, and there have been sales of lots of about 25 brls. at 61½c. Lard oil can be bought cheaper. Petroleum is down 1½c, the work of the Petrolia, Oat., combination. The work of the Petrolia, Oat., combination. The revised quotations will be found in the proper

PHOSPHATES.—The sale is reported of 400 tons of a low grade, between 60 and 70 per cent, to an outport in the U. K. at 94d. Prices to direct ports, London, Liverpool and Glasgow, are as follows: -30 p.c., ls 11d; 75 p.c., 111d; 70 p.c., 102d; 60 p.c., 91d.

SEEDS .-- The market has been steady and fairly active: Timothy, 32 to \$2.25 per bushel; red clover per 100 lbs., \$11 to \$11.50: alsike, \$7 to \$8.50 per bushel; tares, \$1 to \$1.50 flax, \$1.10 to \$1.40.

Tobacco.—The usual amount of business was transacted in jobbing lots at our quotations. The following is a report of the New York market: The sales of old tobaccos contime at the usual slow pace. Sumatra had a quiet week. The sales run up to about 175 bales, at an average price of \$1.40. Havana proved very active; several large out-of-town buyers invested heavily, swelling the sales to buyers invested heavily, swelling the sales to over 1,000 bales; nevertheless, prices remainmentanged, ruling from 75 cents to \$1.20. New York, according to the U.S. Tobacco Journal, produced in April two million eights less than it did during March, and five millions less than it did during the same period of last year. This is a bad showing. It really shows, says the same authority, that times are dult, and the worstof it, to the large eight manufacturers, is that the small manufacturers contribute in is that the small manufacturers contribute in no small degree to the production. The cigarette and manufactured tobacco trade hold their own remarkably well.

Wook.-Stocks of foreign and domestic on spot are light. Two cargoes of foreign are on passage, and most of it is believed to have been sold for delivery on arrival. There has been a fair consumptive demand since our last. Prices are steady and unchanged.

Boston, May: 7—Flour, demand not urgent, Prices: Superfine quoted at \$3.50 to \$3.75.; Extras \$4.75 to \$5.00. Cornmed selling at from \$2.65 to \$2.70. Hay, good demand for strictly choice at \$19.00 to \$20.00; medium, from \$16.00 to \$18.00. Butter, in moderate demand and easy. Fine creamery 22c to 24c.; the physical street of the physical street. do. choice 20c, common to good 18c to 20c. Cheese, dull, choice quoted 10c to 10 le, fair to good, 6c to 7c. Pags in fair demand: sales of Canadian 14c to 142c. Canada Peas in steady demand at from 90c to \$1.15. Potatoes steady and in fair demand at from 55c to 70c, as to

#### TORONTO WHOLESALE MARKETS. (Revised by Telegraph.) TORONTO, May 7, 1885.

The commercial situation remains unchanged. Nearly all branches of business are quiet, and although there is nothing very encouraging to look forward to, dealers are hopeful. The opening of navigation and building-operations will tend to improve matters, but a large movement can hardly be anticipated. There is a moderate trade in dry goods, and prices generally are steady: Retailers in the country are buying sparingly, and wholesale stocks here are large and well assorted. The money market is quiet and rates unchanged. Prime commercial paper is discounted at 64, but the general run is at 7 to 74 per cent. Call loans rule at 54 to 64 per cent, the latter on bank stocks, and time loans at 6 to 7 per cent; according to endorsement. Sterling exchange is coroning to emorsement. Stering exenange is steady, 60-day bills are quoted at 109.5-8 between banks and 109.2 to 109.7-8 across the counter. Demand bills 110 between banks.

New York drafts are 1 to 3-8 premium. The Stock Market has been quiet during the week;

Bank and Office Railing, Wire Window Guards, Fine Wire Blinds for Inside Office Windows.

BUTTER.—Business is dull and prices unsatisfactory. There is a large accumulation of inferior and medium qualities, which are almost unsaleable. The only business doing is in a jobbing way at 15c for choice tub and 12c to 18c for nice fresh rolls. Inferior to medium tub is quoted at 5c to 10c per lb. Eggs are in moderate demand and steady at 12c to 122c per dozen in case lots. Cheese slightly easier; fine old sells in a jobbing way at 112c to 12c, and new at 11c to 112c.

COAL AND WOOD.—Trade in coal is quiet and prices unchanged. Ton lots of hard, all qualities, sell at \$6 a ton delivered, and the best soft at the same price. Wood is unchanged; best quality of hard \$5 a cord; second quality, \$3.50; and pine \$4.

Coat Oil.—The demand for refined oil is fair, and prices the same as last week. Canadian refined sells at 17½c per gallon for barrel lots and at 17c for five to ten barrel lots; carbon safety 19c; crude in Petrolea steady at 77c to 78c, and refined 15c per gallon for car lots. American oils unchanged at 23½c for prime and 27c for water white.

Drugs.—The volume of trade during the week was small, and prices generally

steady. Prices rule steady. Opium unchanged at \$1.20, and glycerine easier at 17c to 26c. Quinine steady at \$1.5 to \$1.20; German, \$1 per ounce in bottles; morphia, \$2.40 to \$2.50; bicarbonate of potash, 18c; potass iodide, \$3.90 to \$4.00; potass bromide, 48c to 50c per lb.; cream of tartar, firm, 35c to 40c; linseed oil, 63c to 65c for raw, and 66c to 67c for boiled; cod liver oil \$1.75; Norwegian \$3; oil of peppermint higher, at \$5.75 to \$6.

FLOUR AND GRAIN,-Business in flour has been on a much smaller scale this week, and prices have declined. Sales of Superiors were made a week ago at \$4.75, and yesterday they offered down to \$4.60, with \$4.55 the best bid. Extras in the same time declined from \$4.60 to \$4.45, and Spring extras are nominal at \$4.40 to \$4.45. The stock in store is 4,375 barrels as compared with 4,250 barrels a week ago and 2,260 barrels at the corresponding period of last year. Wheat has offered more freely, and prices are lower, owing to the decline in foreign markets. Few sales have been made during the week. On Friday and Saturday last. No. 2 fall sold at \$1, red winter at \$1.02, and No. 3 fall at 96c. On Monday No. 2 fall sold at 98½c, and No. 2 Monday No. 2 fall solu at 95gc, and No. 2 spring at 98c. The market yesterday was weak, with sellers of No. 2 fall at 96c and buyers at 94gc. No. 3 fall offered at 94c. No. 1 spring at 51, with 97c bid; No. 2 spring at 98c, with 95c bid; and No. 3 spring at 95c, with 92c bid. The stock in store is 374,596 bushels as compared with 189,448 bushels at the corresponding period of last year, and 368,988 bushels the corresponding week of 1883. Buriey is dull and easier; No. 2 is nominal at 65c to 66c, No. 3 extra at 63c, and No. 3 at 58c. The stock in store is 96,751 bushels, as compared with 104,068 bushels last week and 78,107 bushels the corresponding week of last year. Oats scarce and firm. Sales of car lots have been made at 421c and 43c on track. The stock in store is 7,015 bushels, the same as last week, as compared with none at the corresponding period of last year. Peus are in moderate demand and firm, with sales of our lots of No. 2 at 71c. The stock in store is 38,971 bushels as compared with 33,197 bushels last week and 38,449 bushels the corresponding week of last year.

Rye dull and nominal at 70c. No stock in store. Canadian Corn quiet and firm at 55c.

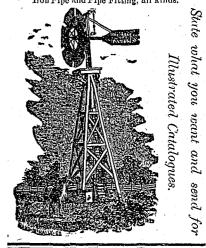

Bran is dull and ensier, at \$13 to \$13.50.

Oatmeal, firmer; car lots are quoted at \$4.40,

### Ontario Pump Co.

TORONTO, ONT.

Manufacturers and dealers in I.X.L. Feed Mills, Hay Carriers, Horse Hay Forks, Tanks, Double and Single Acting Pumps. Wood or 1ron, Iron Pipe and Pipe Fitting, all kinds.

and small lots sell at \$4.80 to \$5. Small lots of Cornmeal sell at \$3 to \$3.25.

Groceries.—Business is quiet, and prices steady. Orders continue light, but an improved trade is expected when roads improve. Sugars are steady; granulated is quoted at 6½c to 65-8c, and Canadian refined from 4½c to 5½c. Teas have been fairly active and prices anchanged. Coffees dull, bid 9½c to 10½c. Fruit quiet and steady. Liquors and tobaccos unchanged.

Hardware.—There has been a moderate volume of business, with a fair enquiry for builder's hardware. Prices rule steady at former quotations. Nails, 10 to 60 dy, sell at \$2.05, 3 dy. to 9 dy at \$2.90, and 3 dy at \$3.05. Ingot copper is unchanged at 15c to 16c. Tin-plates are unchanged. I. O. coke sells at \$4.25 to \$4.35, I. G. charcoal at \$4.65 to \$4.85, and I. X. at \$6.15 to \$6.25. Pig iron is nominal, at \$18 to \$19.

Hides, Skins, etc.—The receipts of hides are moderate and prices unchanged. Dealers are still paying 9c for No. 1 green steers, 8½c for No. 1 cows, and 7½c for No. 2. Small lots of cured sell at 8½c to 85-8c for cows and 9c to 91-8c for cured. Calfskins are in moderate supply and prices steady; No. 1 cured sold at 15c. Sheepskins are firm, and range from \$1.10 to \$1.35, according to quality. Lambskins bring 20c. Tallow unchanged at 3½c for rough and 6½c to 6½c for rendered.

Live Stock.—There was a very good demand this week for cattle, and the run was small. Prices generally are a trifle higher, owing perhaps to the improved tone of late cables from Britain. Export cattle are in fair demand, and sales were made yesterday at 50 per 1b. Shippers are not contracting ahead for space on vessels, as the prices asked are high, and last senson's business very unprofitable. Good butchers' cattle sell at 44c to 44c per 1b. and inferior to medium at 3 to 34c. Sheep in better demand and firmer, with sales at 44c to 5c per 1b. Lambs firm at 5c to 54c per 1b. Spring lambs rule at \$3 to \$5 a head. Hogs unchanged at 42c to 5c per 1b.

PROVISIONS, ETC.—Trade is very slack, and prices heavy. Bacon sells in ton lots at 84c

> By order of the Board, G. W. YARKER,

Toronto, May 1st, 1885. General Manager

for long clear, and car lots are quoted at 7 7-8c to 8c., but none of the latter reported. Cumberland cut 7½c to 7½c, and rolls 9½c to 10c. Hams steady, with sales of smoked in a small way at 11½c; sweet pickled are quoted at 10c to 10½c. Lard quiet and steady; round lots unchanged, 9½c in therees, and tubs and pails are quoted at 10c to 10½c in small lots. Mess pork is quoted at \$15.00. Hops dull, with a few small sales at 12c to 13c. Benns. Mess pork is quoted at \$15.00. Hops dull, with a few small sales at 12c to 13c. Beans dull at 75c to \$1 a bushel in lots, and \$1.10 for small quantities of hand-picked.

SEEDS .- The market is quiet and prices steady. Clover sells at \$11 to \$11.50 a cental. Alsike unchanged at \$10.50 to \$12.50. Timothy steady at \$4.40 to \$4.50 per cental.

Wook .- There is a limited trade at unchanged prices. The demand is fair for coarse lots at 15c to 16c. Selections are worth 18c to 19c and ordinary 15c to 16c. Supers are steady at 21c to 22c, and extras at 25c to 26c.

#### SPECIAL NOTICES.

The Outario Pump Co., Toronto, is an establishment possessing peculiar facilities for the production of numerous valuable appliances. The Company are manufacturers and sole agents in Canada, of Halliday's Standard and Star Windmills, and it also produces the Keystone portable steam driller, and all kinds of railway, village, farm, and ornamental water supply material. Seventeen sizes of geared wind wills four. wind mills, from 1 to 40 horse power, for driving machinery, pumping water, etc., are turned out. The following extract from a letter addressed

to the company from Brandon, Man., is interesting:—"We are glad to state the Wind Mill erected on our clevator last summer, by your Mr. Peck is giving every satisfaction. And we have had no expense whatever since starting. With an average wind we can elevate from 200 to 300 bushels per hour, and would do more if our bucket were larger, and it will grind from 8 to 14 bushels per hour. Some days we run both elevator and grinder. Our elevator is about 55 feet high, with 4 by 6 inch buckets. We would recommend the Halliday buckets. We would recommend the Raillay Wind Mill as the best Wind Mill we know of Parish & Sons." The president and manager of the Company is Mr. O. R. Peck; Mr. Jas. Brandon, vice-president; Mr. N. B. Peck, general agent; Mr. S. H. Chapman, secretary.

Messrs, I. C. Fell & Co. 27 Adelaide street East, Toronto, engravers, die sinkers, metal and rubber stamp manufacturers have, since 1876, established an enviable reputation in their particular line. The members of the firm, Messrs, Isaac C. Fell and Geo. C. Dowdell are practical stables and their close pursonal attention of the firm of the processing attention of the firm of the control of the firm of the processing attention of the firm of t mechanics, and their close personal attention and supervision is rigidly exercised over every detail of the business. They turn out steel and bruss letters, stencils, baggage and key checks, etc. The also execute embossing, seal engraving, and all varieties of small work and metal engraving. The firm makes a specialty of rubber stamps.

We beg to call the attention of our readers to the full-page advertisement of Messrs, Thos. Doherty & Co., who have just removed to complete and extensive new premises at 27 St. John st. Although Messrs. Doherty & Co. are a comparatively young firm, they are now doing one of the largest tea trades in the Dominion. Buyers giving them a call cannot fail to find satisfaction.

### THE ONTARIO MUTUAL LIFE ASSURANCE CO'Y

Head Office, Waterloo, Ontario.

### DOMINION DEPOSIT, - - - - \$100,000.00

The only Purely Mutual Life Company in Canada. Total number of Policies in force, Dec. 31, 1883, 86.572,719 71 Covering Assurance to the amount of, Ne Reserve to Credit of Policyholders, 482,177 47 43,761 95 Ne. Surplus, - - - -

The Company's Reserves are based on the Actuaries' "Table of Mortality," and four per cent. interest—the montest standard adopted by any Life company in Canada, and one-half per cent higher than the standard used by the Dominion Insurance Department.

The rapid growth of the Company may be seen from the fact that in 1870, the first year of its business, the tot I asset monumed to only \$6,216, while last year they reached the handsome total of \$533,705.55!

AN, W. HENDRY, W. H. RIDDELL, J. E. BOWMAN. Secretary

### EDWARD RAWLINGS.

THE ACCIDENT INSURANCE COMPANY OF NORTH AMERICA. DOSSESSES a record for both reliability and liberality, one proof of which is that it has paid over two thousand losses and has NEVER contested a claim at law. It has ample financial resources, and has made the Special Deposit with the Insurance Department at Ottawa. It is, moreover, the only Company whose capital and funds are solely applicable to Accident Insurance.
