TWO MOTOR CARS WRECKED IN ACCIDENT

Passenger in Taxi Was Injured at Shuter and Victoria Sts.—Charles Whitfield Detained, But Allowed to Go After Telling His Story of the Accident.

In a collision last night of two motor cars at the corner of Shuter and Victoria streets, W. Wyatt of Charles street, a passenger in a taxicab, was seriously injured and now lies in St. Michael's Hospital. Charles Whitfield, 9 Chapel street, driver of the taxi, owned by Pat Maher, Iveryman, was detained by the police on a charge of reckless driving, but made a satisfactory explanation, and was not placed under arrest.

According to the story told by Stanley Bolton, 29 Elm street, driver of the other car, Whitfield was responsible for the accident. Bolton was proceeding west on Shuter street, accompanied by Tony Laurie, 98 Elm street. As he approached Victoria street he slowed down when another car, driven by Whitfield, bore down upon his vehicle side-on, and both cars were upset.

When the two cars came together Wyatt was thrown from the taxi to the pavement, and was picked up unconscious. His condition at an early hour was reported as very serious and he was still unconscious.

SOUTH AFRICA TO GIVE SHIPS

High Commissioner Says Sentiment Favors Following Example Set by Other Dominions.

LONDON, Feb. 4.—(C.A.P.)—At a visit of inspection by a party of New Zealanders to the latest battleship New Zealand yesterday, Colonel Allen, minister of defence for New Zealand, said the dominions must give not only more ships to the imperial navy, but more men also.

Sir Richard Solomon, high commissioner for South Africa, said there was a strong feeling in South Africa that the union must fall into line with the other dominions in contributing to the imperial navy.

The new ship will be inspected by the King today.

Washington Expert Engaged

OTTAWA, Feb. 3.—(Special)—It is understood that John Paul Muller of the Washington, D.C., bar has been retained by the Dominion Government to assist in the western freight rates enquiry now pending before the Dominion Railway Commission. Mr. Muller is an expert on railway rates, and has appeared in a number of cases before the interstate commerce commission. He will probably go to Toronto within a few days to confer with Mr. James Bicknell, K.C., leading counsel for the Dominion Government in the western freight rates case.

POLICE OFFICERS ACCEPTED BRIBES

Corruption in New York Department Uncovered by Confession of Patrolman.

NEW YORK, Feb. 3.—(Can. Press)—The confession of a patrolman today gave the district attorney the long-sought instrument by which he expects to uncover corruption in the New York police department. The investigation of alleged graft among the police was aided by Patrolman Eugene Fox. On the first day of his trial for bribery Fox suddenly changed his plea and acknowledged his guilt.

The patrolman was indicted for taking protection money from a Raitnes law hotel. After he pleaded guilty it was said that he gave the district attorney facts that may lead to the indictment of two important members of the police department. Fox will testify before the extraordinary grand jury next Monday. From him the district attorney expects to learn details of the system of "collections" which is charged certain police officers levy on various resorts.

Fox, it is reported, made a confession to the district attorney, in which the name of a police captain was mentioned. It is also alleged that the policeman confessed to having collected "protection money" for the police steadily from March, 1908, to Dec., 1912, and that during this time his monthly collections averaged about \$500. It is said that Fox contends that he turned the entire amount of his collection over to a police captain, and that he was granted no financial allowance for his work, but was given shorter hours and easy assignments. Fox has made no affidavit, but will prepare a long signed statement, it is said, concerning his knowledge of alleged graft in the police department, which now is under investigation by an aldermanic committee.

WILL CONSERVE POWER SUPPLY AT FALLS

Committee of United States Congress Takes Action to Prevent Exploitation of Great Resources—Stringent Regulations Will Limit Privileges of Corporations.

WASHINGTON, Feb. 3.—(C.A.P.)—A favorable report on a bill for general regulation of the use of the water of Niagara River for power purposes was agreed upon late today by the house foreign affairs committee. The measure would provide that the secretary of war issue permits for the diversion of water on the American side upon condition that the company receiving it shall comply with any and all regulations as to rates and service of the state in which power is generated or transmitted.

No change would be made in the existing law limiting the amount of water to be diverted on the American side to 15,000 cubic feet a second. The secretary would be authorized to issue permits for the diversion of water below as well as above the Falls, and the transmission of power from the Canadian side would be directed in issuing permits for plants above the Falls to have "due regard for those investments which already have been made."

Must Modernize Plants. Under the proposed law, all persons or companies now holding permits for the diversion of water would be required to construct their plants within five years after notice from the secretary of war. The secretary would also be authorized to revoke any permits, after five years' notice, if he should determine that the diversion of water interfered with the navigable capacity of the river, its volume as a boundary stream, its efficiency as a means of national defence or the scenic grandeur of Niagara Falls, or that the water diverted was not being used to its proper standard of efficiency.

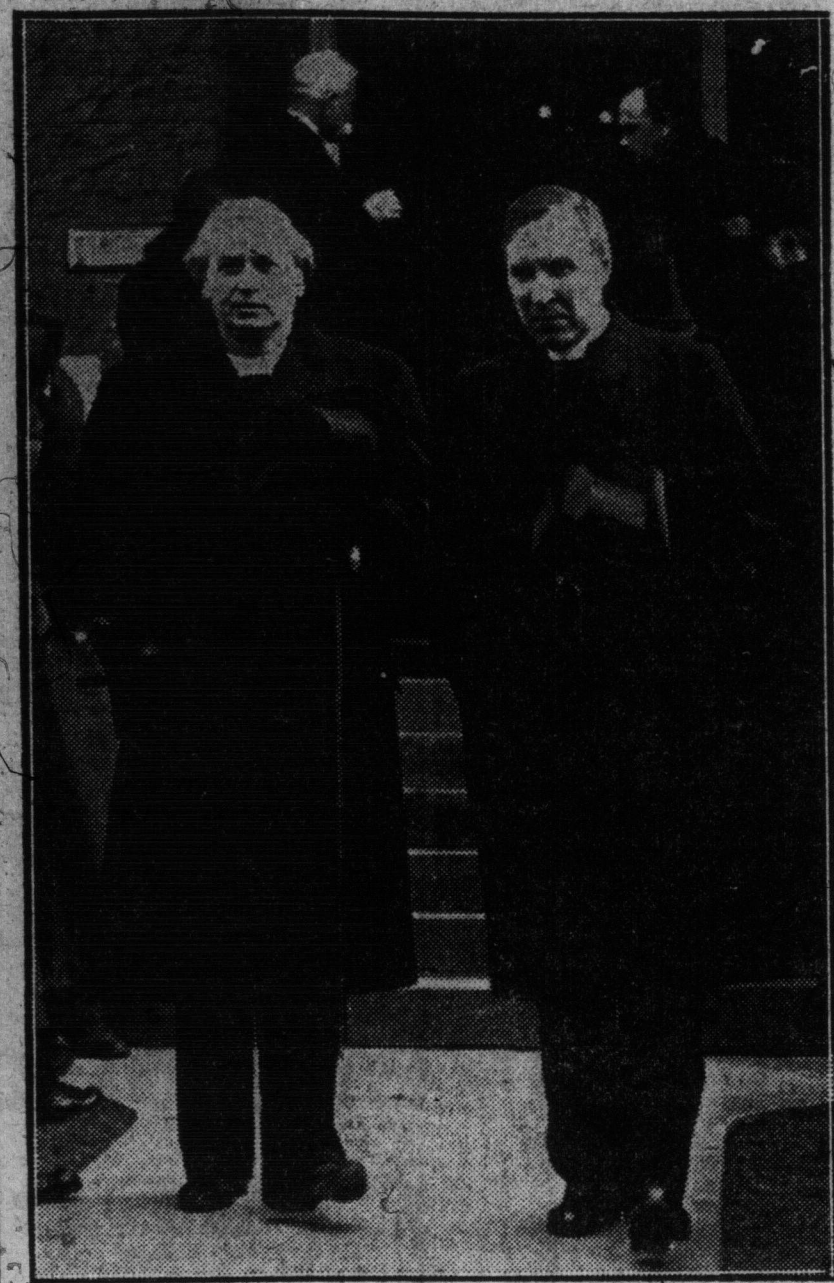

As originally drawn the bill provided specifically that the issuance of permits the secretary should give preference to existing companies. This was stricken out by a vote of 7 to 4 in the committee. The section stipulating that holders of permits should comply with state regulation was added by the original draft.

WAR IN BALKANS IS RENEWED WITH ALLIES DETERMINED TO EXPEL TURKS FROM EUROPE

Adrianople is Being Bombarded and Skirmish is Reported at Tchatalja Lines—Turks Prepared to Fight to Last Ditch—Scutari Almost Ready to Fall.

LONDON, Feb. 3.—(Can. Press)—The Balkan war has been resumed. The bombardment of Adrianople began at 7 o'clock tonight and a small skirmish occurred at the Tchatalja lines. The armistice has lasted exactly two months. Bulgaria has turned a deaf ear to the remonstrances of the powers, and, unless Turkey yields to the Balkan demands, the allied armies will now attempt to drive her completely out of Europe.

According to a despatch from Belgrade tonight, Scutari is already on the point of falling. It is reported that the Turkish commander has sent two representatives to the Serbian commander to propose the capitulation of that town. Dr. Daneff, head of the Bulgarian delegation, in an interview in Paris tonight, said he had promised Sir Edward Grey, the British foreign secretary, that if the Turks immediately accepted the allied conditions, they would conclude peace, but whatever happened there would be no further armistice.

Conferred With King. Sir Edward Grey had a long interview with the King today, after which he attended a brief meeting of the ambassadorial conference, but nothing of importance was transacted, there being no new developments since Saturday. Osman Nizam Pasha, the second Turkish delegate, will leave London tomorrow to resume his ambassadorial duties at Berlin. He said this evening that from information received from military sources he believed that the allies underestimated the condition of the Turkish army, and that they would find themselves confronted by a redoubtable enemy—the best Moslem warriors, veterans from Arabia, who had fought under Izzet Bey and Ired soldiers and good marksmen lately engaged in Tripoli under Enver Bey and Fethy Bey. He added: "That ambassador was right who predicted that if driven to despair the Turks would fight like wild animals."

Unseasonable Prices for Seasonable Furs. This is one year in a great many when you may buy Dineen's furs at bargain prices in mid-winter. Dineen's January sale is extended into February, and the prices are at the same substantial reductions as offered when the winter looked like a complete disappointment to the fur trade. Of course, if the weather does not call for furs a further cannot expect to sell out his stock as freely as in really cold weather. Having set their prices for mild weather, Dineen's are offering especially inviting bargains in continuing prices on the unseasonable bags when furs are seasonable. Visit the showrooms and enquire. CONSTANTINOPLE CONFIRMS. CONSTANTINOPLE, Feb. 3.—(Can. Press)—(Midnight)—It is officially announced that hostilities began punctually at 7 o'clock tonight, both at Adrianople and Tchatalja.

At Adrianople the allies opened the bombardment. At Tchatalja an insignificant skirmish occurred.

ROUMANIA'S FRONTIER AMBITIONS. BUCHAREST, Roumania, Feb. 3.—(Can. Press)—A diplomatic indiscretion has revealed the contents of the protocol between Roumania and Bulgaria, recently signed at London. Roumania claims the frontier between Turtukal, on the Danube, 28 miles to the west of Silistria, and Baltik, on the Black Sea, while Bulgaria offers on the frontier beginning at Silistria, and excluding that town, but including its surroundings, descending in a straight line to the east of Dobritch as far as Baltik.

Thus, while Roumania lays claim to Turtukal, Silistria, Dobritch, Kavarna and Baltik, Bulgaria offers only Kavarna, lying to the east of Baltik, near the sea coast.

RENEW VIADUCT FIGHT IN CITY

Merits of Alternative Plans Will Be Debated Here on Friday.

OTTAWA, Feb. 3.—(Special)—After a lengthy conference with the railway commission a further hearing of the Toronto viaduct case was deferred until next Friday, but it will be resumed at Toronto.

Corporation Counsel Geary, interviewed by The World today, said: "The matter is purely an engineering question. The railway companies have abandoned their contention about bridges, and are suggesting an alternative viaduct. We want, of course, to get the very best plan adopted."

Chairman Drayton and S. A. Mountain, chief engineer, represented the railway board, along with H. S. Stafford, chief engineer of the G.T.R.; J. M. R. Fairbairn, assistant chief engineer of the C.P.R., and J. W. R. Ambrose, engineer of grade separation work; R. C. Harris, works commissioner; G. R. Geary, corporation counsel, and Mr. Powell, deputy city engineer, appeared for the City of Toronto; L. A. Clark, president, and E. L. Cousins, engineer, the Toronto Harbor Board, and J. W. Moyes, the Toronto Board of Trade. The conference was held in camera.

P. BURKHARDT DIED YESTERDAY

Well-Known Toronto Business Man Passed Away After an Operation for Tubercular Glands.

One of Toronto's foremost business men passed away yesterday in the person of Peter Burkhardt, aged 44 years. Following an operation in St. Michael's Hospital, Mr. Burkhardt died from tubercular glands.

It was in 1894 that he came to Toronto. He established himself in the east end, but about 12 years ago moved into the west end of the city. He opened a store at 230 West Queen street, where he rapidly built up an enormous trade.

Not long after Mr. Burkhardt built a slaughter house and factory in the rear of this store. He started in the wholesale business, and at the time of his death was supplying many stores in the city with sausage and other meats.

Mr. Burkhardt also owned and worked an extensive farm in King Township.

Being a man of a jovial nature and generous, he rapidly made many friends. He was a member of Masonic Order, the Liederkreis Club, and many other German societies in the city.

A widow survives. The funeral will be held from his residence on Wednesday at 2:30, to Mount Pleasant Cemetery.

YORK COUNTY AND SUBURBS

HYDRO-ELECTRIC EXTENSION ORDERED IN YORK TOWNSHIP

Street Lights to Be Installed in the Windermere District, and Also at Todmorden, the Sammon District, Cedarvale and East to Dawes Road—Township Board of Education is Proposed.

The council of the Township of York met yesterday, with all the members in their places, except first deputy reeve Griffith.

A letter was received from the Hydro-Electric Commission to the effect that arrangements have been completed for an extension of the Toronto city system of electrical distribution into the Windermere district, and asked for orders covering the location and number of street lights to be installed in district.

Arrangements also have been made to extend the system into Todmorden, the Sammon district, and the Cedarvale district, and to Dawes road, and the commission desired information as to the number of street lights required.

The letter further stated that the Toronto city system will be extended into the township only when a petition is received from the residents of a certain district through the council for the commissioner's consideration, and if the council has other districts to cover the request should be made thru the council to the commissioner.

Another letter has been received from the Hydro-Electric Commission stating that the petition for lighting and power service at the corner of Rossland and Bathurst streets was returned to Chas. McKay with advice that construction cannot be started in said district until more signatures have been appended.

A letter from Beatty, Blackstock, and Co. was received. This firm is acting for P. W. Ellis in connection with the title of lot 50 on the east side of Gledhill avenue, Plan M. 29, which was sold for taxes prior to 1899, and the tax deed was registered on the 6th May, 1899, after which P. W. Ellis purchased these lands from the Township of York, and paid \$17.50 for them, but apparently no deed was executed to him. The solicitors desire to have this matter taken up and to have the transfer completed.

The minutes of the council show that bylaw No. 1790, passed 11 Dec. 1899, authorized the issuing of deed of lot 50, P.M. 29, to P. W. Ellis.

Motorists Complain.
The Ontario Motor League complained of the condition of the two bridges on the Don Mills road crossing the C.N.R. lines as the guard rails are made out of 2-inch x 4-inch scantling, and are therefore insecure in case a motor car should skid, and desire the council to compel the C.N.R. to construct a more substantial railing. Referred to the clerk.

N. L. Martin was anxious to find when the sewer up Bathurst street will be installed, as he desires to build his residence on Westmount drive. As this district is likely to become annexed to the city in the near future it is unlikely that the township will consider the proposition seriously.

From Mr. Murchy and Spence re the maintenance of the Jane street subway, claiming that the C.P.R. is not compelled to maintain the depressed roadway only the superstructure, and they say that there is nothing to show that the well-settled rule in these cases is to be departed from, namely, that the municipality shall maintain the roadbed of the highway at the new level as it was at the time bound to do at the old level. The company, however, will consent to light the subway. Referred to the solicitor.

Jay H. Foulton, of York Mills, gave the council an option on his property on the south side of York Mills bridge on Yonge street for 50 days at \$30 per foot frontage. The option was referred to the assessment commissioner.

Petitions.
A petition was received from residents in the Todmorden district to have the Hydro-Electric lighting system installed on Sammon, Wylie, Frankland and Greenwood avenues to the city limits. The petition will be forwarded to the Hydro-Electric Commission.

CHINESE IN AMERICA COLLECTING BIC FUNDS
Will Help to Outfit Army to Prevent Encroachment on Mongolia.

SAN FRANCISCO, Feb. 3.—(Can. Press)—A fund of \$400,000 is being raised by Chinese of the United States and Canada, and within a few weeks will be sent to Ho Hon Mun, governor of the Province of Canton, China, to outfit the army that is to protect Chinese interests in Mongolia, against alleged Russian encroachments. Already \$25,000 has been subscribed by local Chinese, according to Wong Nagi Tong, secretary of the Chinese Six Companies.

"While the government has not asked for the money officially, we have government authority in its collection," he said.

Reports of a plan to swindle Chinese of this country out of \$1,000,000 in the collection of war funds are not credited by Li Lung Yew, Chinese consul-general at San Francisco.

"The men collecting the money are known and their motives are proper," he said.

SARNIA'S WATER TROUBLES.
SARNIA, Feb. 3.—(Special)—Sarnia's water supply is very low today as a result of the large quantity of ice in the St. Clair. With the return of cold weather the ice drifted around the intake and soon froze into a solid jam. It was soon noticed that the supply was falling at the intake, and the pressure went gradually down.

A diver was summoned, but owing to the quantities of ice did not care to risk his life by going down. Today Dyer Motors of the Reid Wrecking Co. succeeded in clearing away the ice.

MONTREAL GRAIN AND PRODUCE MONTREAL, Feb. 3.—There was a good enquiry from foreign buyers for wheat, but as prices had been unchanged to 30 lower, only a few odd loads were sold. The export trade in oats and barley was quiet. It is estimated that sales of 3,000,000 bushels of wheat, 500,000 bushels of oats and 400,000 bushels of barley were made during the month of January. The local trade in coarse grains continues quiet. A weaker feeling has developed in the market for winter wheat flour, and prices have declined about one cent, owing to the increased offerings and the somewhat limited demand. Spring wheat flour is steady under a fair demand. Eggs steady. Dressed hogs strong at an advance of 3c.

HOGS HIGHER IN MONTREAL MARKET

Sharp Advance in Prices Owing to Small Supplies—Choice Cattle Up Also.

MONTREAL, Feb. 3.—At the Montreal Stock Yards west end market the receipts of live stock for the week ended Feb. 1 were 1300 cattle, 150 sheep and lambs, 2850 hogs and 300 calves. The supply on the market this morning for sale consisted of 1100 cattle, 100 sheep and lambs, 1500 hogs and 225 calves. A feature of the trade was the stronger feeling in the market for good to choice steers, owing to the limited supply offered, and prices as compared with a week ago were fully 25c per 100 pounds higher, but the offerings of the lower grades were ample to fill all requirements and prices were unchanged. The demand from packers was good for carload lots, and choice steers, weighing 1150 pounds, sold at \$6.75, some heavy loads at \$6.75, while good loads of mixed steers, weighing 900 pounds, brought \$6.50, and fairly good mixed loads \$5.50 to \$5.80 per 100 pounds. A few picked lots of extra choice steers were sold; butchers at \$4.25 to \$4.50 per 100 pounds.

Choice butcher cows were sold as high as \$5 for carloads, but the top prices paid ranged from \$5.50 to \$5.75 per 100 pounds. The demand for bulls was slow and prices showed no change. The trade in sheep and lambs was quiet for the very small supplies coming from the west end market. This market was firm, with a fair demand from butchers for small lots, and sales of lambs were made at from \$7.25 to \$7.50, some heavy loads at \$6.75, while good loads of mixed steers, weighing 900 pounds, brought \$6.50, and fairly good mixed loads \$5.50 to \$5.80 per 100 pounds. A few picked lots of extra choice steers were sold; butchers at \$4.25 to \$4.50 per 100 pounds.

R. S. HUDSON JOHN MASSEY Joint General Managers.

We beg to report that we have made an audit of the Accounts, and have examined the Vouchers and Securities of the Canada Permanent Mortgage Corporation for the year 1912. We certify the accompanying Statement is a true exhibit of the Corporation's affairs as shown by the books as at 31st December, 1912.

I trust every Shareholder will appreciate not only the wisdom, but also the necessity, of making substantial additions to our Reserve Fund, which increased demand for credit as they are, we feel warranted in further saying, also, that with conditions as they are, we feel warranted in further increasing the Dividend at the next quarter to Two and One-Half per cent., being the rate of Ten per cent. per annum.

It will perhaps be of interest to the Shareholders to recall the progress of the Corporation in recent years. We began the year 1906 with a Reserve of \$2,200,000, and unappropriated profits amounting to \$44,703. At the close of 1912, our Reserve has increased to \$4,000,000, and we have \$96,027 of unappropriated profits for some time to come. It has been a steady increasing till, as I have stated, the Shareholders may now expect to receive Ten
