

NEWS OF SPECIAL INTEREST TO WOMEN

NATIONAL COUNCIL HAD VERY BUSY DAY

Greater Jurisdiction for Juvenile Courts Discussed at Some Length. FOR MORAL STANDARD Improved Conditions in Jails Reported—Progress in Montreal Cited.

Another busy day was added to the credit account of the National Council of Women yesterday. Left over matters from the agenda of the previous day involved the discussion of a resolution from the Vancouver Council, asking the national to petition the Dominion Government to introduce legislation so that the juvenile court might have jurisdiction over the work already done in the matter of petitioning for protection and training thru homes and classes for mentally defective.

The budget as reported on by Mrs. Watt, the national treasurer, showed that total receipts for the year were \$15,035; disbursements, \$24,520, with a deficit of \$9,485. Ways and means to cover the indebtedness were suggested, and an average of \$40 from each of the 23 councils which make up the national was laid down as the basis of payment, this amount to be made up thru annual patrons, increasing the circulation of the organ of the council or other means. Final details will be reported on later by the finance committee.

Thru enquiry into reasons for an unpaid fee, it became known that the women's institutes of the Dominion are not a nationally organized body. Ontario has the honor of forming the first women's institutes and their success in this province caused their formation in other parts of the Dominion. Tributes to the work of the women of this organization were paid by Mrs. Norman, their representative, and Mrs. L. A. Hamilton, and the latter suggested that the superintendent of the district confer with a view to national representation. This was afterwards framed into a resolution, moved by Mrs. Watt and seconded by Mrs. Laing.

On Moral Standard. The report of a committee of equal moral standard was read by Dr. Margaret Patterson. From this it was learned that Montreal has now a police woman, that an industrial fund for women has been established in one district, that the council had been instrumental in the improvement of conditions in jails, and that films and ventilation in moving picture theatres had been improved. Also that the Big Sister movement in Ontario reported 105 girls under its protection.

The necessity for looking into conditions at ports of entry with regard to the reception of immigrants was pointed out by Mrs. L. A. Hamilton, who gave a specific case illustrating the dangers to which women and girls are subjected when detained until a late hour before they are free to depart.

The unsanitary conditions of many apartments in rooming houses in Canadian cities were discussed, the matter being brought forward by the Vancouver council, asking the various local councils to take active interest in this matter, especially to try to rouse public sentiment. The resolution, which was moved by Mrs. Scott, and seconded by Miss Strong, pointed out that this was a good year to commence activities, as there is no immigration and houses are plentiful. In Toronto, she said, there are dozens of houses where there is no water, the inmates having to go a hundred yards or so to get it. How then, she asked, could one ask such people to keep their themselves or their children clean.

Women in Agriculture. That British Columbia leads in interesting women in agriculture was shown from the report of Mrs. L. A. Hamilton, on that subject, this, too, despite the fact that western men do not take kindly to the employment of women on their farms. On Vancouver Island there is an opening for employment thru the flax industry. Technical night schools are being opened in the thirteenth British Columbia, in which agriculture is taught. Ottawa was reported as having supervised gar-

dens for children, who exhibited at their fall fair. Back to the Land. In this connection, Mrs. Hamilton stated that she had come in contact with men in Toronto trying to get to the land. If the government would give the land and these men go in parties, the community thus formed could be responsible for the amount which it would also be necessary to advance them for transportation, equipment and living during the first year. Calculation had shown that this would be between \$800 and \$900. The pulpwood from the lands in Northern Ontario would keep settlers during the first year, until the land was cleared. An objection to this plan, raised by a delegate, was lack of transportation facilities.

DAINTY LINGERIE FOR DANCE FROCKS

Charming Models of Crepe, Taffeta or Satin With Filmy Lace. VELVET RIBBON BOWS Nosegays of French Roses Deck Petticoats and Newest Camisoles.

Of extreme importance is the dainty lingerie fashioned for wear beneath the evening frock of chiffon and lace. It often falls to the frouny petticoat to insure the success of the gossamer dance frock, for the correct hang of the skirt and the decided buoyancy of the panner is only secured by a cleverly built undershirt. The majority of the petticoats or slips for evening wear are fashioned from soft, silky materials, such as crepe de chine, puse-willow taffeta, or golden rod satin.

A charming little camisole and full petticoat of pale pink taffeta obeys a number of fashion's latest dictates. The skirt is smooth-fitting over the hips, flaring perceptibly at the knees, where a series of daintily shirred flounces, ruffles and ruffles, ribbon-bound and accented, are attached below a wide cording run thru with velvet ribbon, which is inserted into large bows at the right side. Double straps of the velvet pass over the shoulders and the lace-trimmed camisole in position.

PRESSION UPON GREECE BY BULGARS AND TURKS

Knotty Problems Spring From Allies' Operations in Neutral Area. PARIS, Oct. 27.—The Hestia of Athens, as quoted by the Hestia Agency, says that steps are being taken by the Bulgarian and Turkish ministers to Greece with the intention of establishing the right of their governments' troops to pursue the Serbians and their allies into Greek territory, should the occasion arise. These ministers, The Hestia says, have complained to Premier Zaimis of Greece that the presence of foreign troops in Greek Macedonia is contrary to a spirit of neutrality, and places the Bulgarian forces operating in Serbian Macedonia in a difficult situation. M. Zaimis recalled the fact that Greece had protested to the allies at the time of the first landing of troops. Since making its reply to Turkey and Bulgaria, the question has not been discussed, but it is expected further representations will be made to Greece. The Bulgarian newspapers are conducting a campaign against the presence of allied troops at Salonika.

MORE IMPLICATED IN DYNAMITE PLOT

Men at Bottom of Teuton Conspiracy Not Yet Found.

EVIDENCE NOT SIFTED Actual Placing of Bombs on Ships Remains to Be Proved.

NEW YORK, Oct. 27.—Federal grand jury consideration of the case of the five men charged with conspiracy in plotting to destroy trans-Atlantic ships laden with munitions of war for the allies, will begin next month. This was announced today by U. S. Attorney H. Snowden Marshall, after a conference with William J. Flynn, chief of the secret service, and detectives who arrested the men.

After reviewing all the evidence held by the government against the men, Robert Fay, Walter Scholz, Paul Dache, Dr. Herbert Klenzle and Max Breitung, and giving special attention to the confession of Fay, Mr. Marshall said the government was not convinced that all those implicated had been arrested.

"No more warrants have been issued and no more arrests are contemplated for the present," said Mr. Marshall. "Yet there may be further arrests later. We do not believe that those most responsible for the conspiracy have yet been found."

"We have much material gathered as evidence which still has to be disclosed. One of the acts of the conspiracy was the actual fixing of a bomb to a ship for experimental purposes. Our enquiry has not disclosed that any bomb was placed on a ship with intent to blow up the ship. Nor does our information indicate that Fay, who says he was a lieutenant in the German army, was acting in a way other than on his own responsibility."

Another development was the sending of a telegram to the state department by Count Von Bernstorff, the German ambassador, denying that he had any connection with the German secret service or the German government.

While the U. S. attorney's force was working on the preparation of the case for the grand jury, detectives were busy in Westchester, N. Y., gathering explosives and acids alleged to have been used by Fay and Scholz, who were charged with experimenting with bombs, which, according to Fay's confession, were to be placed on the hulls of the hulls of ships so timed that they would explode after the vessels left New York. The material gathered in Fay's room in Westchester, and in a room on the Hudson, where Fay experimented, consisted of 400 pounds of chlorate of potash, 300 pounds of dynamite and several suitcases of percussion caps.

Breitung was the only one of the five alleged conspirators to obtain liberty on bond. He was released on \$25,000 bail.

Breitung is a cousin of E. N. Breitung, who achieved considerable prominence some time ago as the principal owner of the steamship Delta. The Delta was formerly under the German flag but was acquired by Mr. Breitung and transferred to American registry. She was seized by the French navy while en route to Cuba with cotton and condemned as good prize.

The Hestia of the Havas steamship company is being chartered by the British navy with the intention of pursuing the Serbs into Greek territorial waters. The Hestia sails, to Premier Zaimis, the presence of foreign Macedonia is considered neutral, and an force operating in Macedonia is recalled the allies the first landing of the Serbs into Turkey. The question has not yet been decided whether it is expected further will be made to newspapers are con-

AMERICAN CITIZEN ARRESTED IN LONDON

Weinacht Held on Charge of Trading With Hostile Interests.

LONDON, Oct. 27.—Edward Weinacht, a shipping agent and an American citizen, was remanded in Bow Street Court today on a charge of trading with hostile interests. He was admitted to bail on the furnishing of two sureties of \$2500 each.

The attorney for Weinacht said the latter had a complete answer to the charge. He is general manager of a company with large interests both here and in the United States and only arrived in England four days ago on his first visit to this country since the issuance of the warrant.

Until a year ago Mr. Weinacht was European manager of the Adams Express Co. He severed his connection with the company and returned to New York on Aug. 11, 1914. He then obtained an emergency passport, which set forth that he was a native of New York.

Weinacht lives in Elizabeth, N. J. After leaving the Adams Express Co. he organized the International Despatch Co., with offices in New York and London. He was arrested at the London office of that company.

The full extent of the charges against Weinacht has not yet been made public, but his attorney states that there is more behind them than appeared in today's proceedings. The preliminary hearing will be resumed next Wednesday.

German foreign office professes innocence. No such person as Robert Fay known to it, declares Baron.

BERLIN, Oct. 27.—Baron Mumm von Schwarzenstein of the foreign office, speaking today of the arrest in New Jersey of Robert Fay, said that no such person as Fay is known at the foreign office; that the foreign office maintains no secret service department, and that any bona-fide officer in giving reliable information about himself would give the name of his regiment, and not his army corps, from which he was liable to be dissociated at any time.

WANTED EVIDENCE IN C. I. C. PROBE

Judge Denton Curtailed the Examination of Some Witnesses.

ON THE STAND Went to Hodgson's Office in Company With Ald. Meredith.

Judge Denton showed considerable impatience at some of the evidence taken last evening, when the Hodgson-Roden Meredith investigation was continued. His honor suggested on several occasions that the evidence being given had no particular bearing on the case in hand.

The Liberal party in Toronto and a fraternal organization, the Sons of Canada, came in for considerable publicity, the former being the subject of a somewhat heated argument between a witness named Hacker and Mr. Wikke, solicitor for Geo. Hodgson, who was testifying that he was Liberal organizer for Toronto, while Mr. Wikke claimed that he was not.

Several of the aldermen were also called to tell what took place at the now famous council meeting, but the affidavit presented by Ald. Roden, but did not seem to have a very clear idea of what happened, other than that the affidavit had been put in and was protested against by the aldermen.

Dr. Struthers, formerly chief of the medical staff of the hospital, and Dr. Steele, a school trustee, were called and questioned by the aldermen. Dr. Struthers was asked to give evidence in support of the affidavit of J. J. Doughty as fire commissioner.

Dr. Struthers was asked to give evidence in support of the affidavit of J. J. Doughty as fire commissioner. He stated that he had been introduced to the aldermen at the time of the council meeting, and that he had been asked to give evidence in support of the affidavit of J. J. Doughty as fire commissioner.

Asked Doughty to Withdraw. Mrs. Meredith was called and maintained her statements that both Dr. Struthers and Dr. Steele had called on her phone for further evidence, and that she had given it to them.

When on the stand Ald. Meredith repeated evidence given in former hearing, and stated that he had been asked to give evidence in support of the affidavit of J. J. Doughty as fire commissioner.

BRITISH SUBMARINE SHOWED GREAT SKILL

Prinz Adalbert Was Protected by Flotilla of Torpedo Boats.

LONDON, Oct. 28, 3:15 a.m.—A story of the sinking of the German armored cruiser Prinz Adalbert, just received from Copenhagen, says an enthusiastic tribute to the skilful work of the British submarine, inasmuch as the cruiser was specially protected by a flotilla of Libau, when the cruiser was returning from a voyage in the Gulf of Finland.

The fact that so few of the Prinz Adalbert's crew were saved was due in part, according to this account, to a panic which seized the crew of the torpedoed craft, all of whom fled to top speed, alarmed by the amazing violence of the explosion and fearing further attacks.

She held that the Patriotic Fund advertised its work by supporting the relatives of soldiers, and this, she contended, it was not doing in her case. Plaintiff has two sons, who originally supported her, at the front.

Plans of Proposed Radial Favored, But Power is Given. TORONTO - SARNIA LINE COMPANY IS INSOLVENT. Cost Ten Million Dollars, But Commission Sees Success Ahead.

After Sir Adam Beck had laid before the delegates from the municipalities between Toronto and Sarnia yesterday the plans of the proposed hydro-radial, the gathering unanimously carried Controller Spence's resolution favoring the route and giving the commission power to diverge if necessary. The delegates also resolved that campaigns in the municipalities affected be commenced immediately, and that the commission furnish everybody concerned with all the data necessary for voters on the bylaws on Jan. 1 next.

The municipalities taken in by the proposed Toronto to Sarnia line are: Toronto, Port Credit, Milton, Guelph, Berlin, New Hamburg, Stratford, St. Mary's, London, Strathroy, Arcona, and Sarnia. Sir Adam told the delegates that next to the proposed lake shore line to Hamilton this was the most important route under consideration. Financial Success. Sir Adam said that the cost of the undertaking would be about \$10,000,000, including the \$4000 per mile to be granted by the federal government. The commission, he said, was unambiguously in favor of the route, and was financially sound. He said that the much discussed entrance to Toronto had been all thought out, and there would be an entrance along the waterfront, of which everybody would approve. It would not be fair yet, he said, to tell just what arrangements had been made with the harbor board.

According to the evidence the defendants were in no sense brought within the provision of the by-law, which only dealt with a "transient trader or other person occupying premises in Burlington," whereas these persons occupied no premises at all in the town.

An Easy Way to Get Fat and Be Strong

The trouble with most thin folks who wish to gain weight is that they insist on drinking their stomach or stuffing it with greasy foods; rubbing on useless "flesh creams," or following some foolish physical culture stunt, while the real cause of thinness goes untouched. You cannot get fat unless your digestive tract assimilates the food you eat.

THEATRES

ADVANCE SALE FOR "THE WHITE FEATHER."

The great sale for the return engagement of "The White Feather" at the Alexandra Theatre next week is open at the box office, and, as pretty much everybody is talking about this wonderful play of the British War Office just now, the chances are that there won't be even a standing room with this clever drama expressed in some quarters that no play could succeed with the European conflict as its background, has been utterly dispelled by the phenomenal success which has been achieved in London, where the piece has already reached its second year in Australia, where it is now in its sixth month of record-breaking business and in New York, where it has to its credit one solid year at the Comedy Theatre.

"BRINGING UP FATHER."

The successful cartoon comedy, in three acts, "Bringing Up Father," will be the offering at the Grand next week. This happy conception of the myth, melody and songs is based on the popular cartoons of George McManus. The play is out of the beaten path, and has been specially praised by critics all over the country because of its original features, treatment of theme, catchy music, novelties, and prizes and all-around entertaining quality. The show will be presented here at popular prices, with matinees on Wednesday and Saturday.

The play shows the British officer's life in minutest detail—in sport, in society, in work and in war. The battle scenes are a revelation of what has been done in this direction on the screen. There is a fine love story running through the play.

GRAND CIRCUIT SEASON MARKED BY HIGH CLASS AND CLEAN RACING

Peter Scott Leads Trotters—Pacing Honors of Year In and Out.

NEW YORK, Oct. 25.—The Grand Circuit of thirteen consecutive weeks of mile track racing and winter four-to-three years has been the life of the trotting industry, failed to produce the many expected new champions this year, but for general appearance the season just ended was a whirlwind and from the viewpoint of high-class racing and clean racing it was the best in the Grand Circuit's long history.

At the beginning of the most momentous year of all was anticipated on the form of several horses, but that terrific matched race so early in the year took the edge off two of the greatest trotters that ever looked thru a bridge—Les Asworthy and Peter Volo, and while the last named four-year-old did recover to win in the fastest two heats ever trotted by a stallion, 2:02 1/2 and 1:58 1/2, his October form was not full, and now that he has been permanently retired the world will never know what was the expectancy of this marvelous trotter. Then the promise of some rare racing was spoiled when C. K. G. Billings bought William and retired him from the racing turf; Margaret Driven found nothing that could extend her during the time she was at her best, and Etawah never reached the form expected from him, altho the greatest flashes of speed he displayed indicated a champion performance.

Less than 15 years ago Tommy Murphy donned silk jacket and cap for the first time. James Butler of New York having given him a few worn-out horses to race over the minor tracks, but for the rest of the season he has been at the top of the list of money-winning stallions. This year he won almost double what his rival, Walter Fox, earned, but the astute New Hampshire reinsman, who years ago won the sobriquet of "longshot" because of money by selling the speed he develops instead of taking chances on winning it out, in the last two years his private sales have aggregated more than \$150,000. Ed Geers had a small string of winners this year, but he had far winners, and his earnings of almost \$38,000 increase the winnings of his lifetime to something like \$1,000,000 for Geers has been racing in the Grand Circuit since 1833 without once being marked up against him. The leading money winners follow:

Special Stocks at New York Moved in Wild Confusion

C. P. R. SCORES ADVANCE Several of Automobile Group Also Went Up Early, Declining Later.

NEW YORK, Oct. 27.—The highly volatile position of special stocks was again demonstrated today, these issues being sold in wild confusion and finally settling the balance of the list. Trading was active but increasingly professional.

From the outset prices were extremely uneven, with a preponderance of declines. Only a few of the war issues manifested strength, most of them recording losses of varying extent.

United States Steel was the only issue that advanced, opening at 10.00 and closing at 10.10, a gain of 10 cents.

Among the afternoon advances were General Electric, which advanced 1/2 cent to 33 1/2, and American Brakehoe, which advanced 1/4 cent to 25 1/4.

WHEAT FELL DOWN ON WINNIPEG RISE

Chicago Pit Fears Abrogation of Duty by Canadian Government.

CHICAGO, Oct. 27.—Assertions that two-thirds of the Canadian cabinet favored the annulment of the duty on wheat, caused a sharp rise in the market in bringing about lower prices here.

The market finished narrow, 3/4 cent down, with December at 99 1/2 and May at 10 1/4. Corn fell 3/4 cent to 90 and oats 1/2 cent to 47.

Forecasts of enlarged receipts in the southwest next week did a great deal to bring about the present rise in wheat.

Provisions rallied in consequence of buying on the part of packers.

Stocks Showing Profits Were Pressed for Sale and Declines Followed in Many Issues.

The Toronto mining market yesterday showed some irregularity in the various transactions. Recent upward swings have presented traders with a choice of either buying or selling.
