SINAI FEIN PROGRAM PROVES DEFT TO BRITISH GOVERNMENT

SINAI FEIN OFFERS A CONSTITUTION FOR THE REPUBLIC

Every Effort Will Be Made to Render Impotent the Power of England.

MEASURES SPECIFIED
Protective System, Consular Service and Courts of Arbitration Among Proposals.

London, Jan. 9.—The first publication of what purports to be a Sinn Fein constitution for Ireland was made today by The Globe. This has a particular interest in view of the Sinn Fein proposal to hold an Irish congress in the near future. The preamble of the constitution runs as follows:

"Whereas, the people of Ireland never have relinquished their claim to separate nationhood and, whereas, the provisional government of the republic at Easter, 1916, in the name of the Irish people, and continuing the fight made by previous generations resented the inalienable right of the Irish nation to sovereign independence and reaffirmed the determination of the Irish people to achieve it, and

"Whereas, the proclamation of an Irish republic at Easter, 1916, and the supreme courage and the glorious sacrifices of the men who gave their lives to maintain it, have united the people of Ireland under the flag of the Irish republic, the delegates representing the Irish people in the Sinn Fein assembly, declare the following to be the constitution of the Sinn Fein:

Right of Parliament.
The article then sets forth the Sinn Fein aims at securing international recognition of Ireland as an independent republic, and, having achieved that status, that the Irish people by a referendum may freely choose their own form of government. The Sinn Fein organization shall "in the name of the sovereign Irish people deny the right and oppose the claims of the British Parliament and the British crown or any foreign government to legislate for Ireland."

What Constitution Declares.
The purported constitution declares that constituent assembly shall be convened to formulate measures for the welfare of the people. The measures specified are: the introduction of a protective system for industries and commerce by the combined action of the county and urban councils; the power to levy a tax on the land and other bodies directly responsible to the Irish people; the establishment of a consular service and a mercantile marine for direct trading with foreign countries; the development of mineral resources; the establishment of a national civil service and Sinn Fein courts of arbitration; the development of transit facilities; the reform of education on a national and industrial basis; the abolition of the poor law system with relief for the infirm and aged and the employment of idle able-bodied persons on public works.

HUSBAND AND CHILDREN DIE OF STARVATION
Kitchener, Ont., Jan. 9.—Mrs. Charles Joseph, residing here, today received word from the American consul at Brummana that her husband and four children, aged twenty, sixteen, thirteen and nine years, had all died in Syria from starvation during the war. One daughter, aged nineteen, escaped the same fate thru the kindness of a certain Doctor Doxy, who found her at the point of death and took her to the American consul. The Joseph family were well-known in Kitchener and left here seven years ago to visit with relatives in Syria. Mrs. Joseph returned to Canada, arriving one week before war broke out. Her husband and family were to follow later. The father today was the first word regarding her loved ones that she has received since the declaration of war. The surviving daughter will leave Brummana for Kitchener as soon as arrangements can be made.

LADIES' FURS AT DINEEN'S.
The cold weather makes furs a necessity, still the price remains the same. Shortly after the holiday season was over, Dineen's reduced the price of all furs, and these remain at the same low figures that made Dineen's garments attractive to purchasers in the mild weather that set in after Christmas. Every fur garment, set and neckpiece, is reduced. A wide variety to select from. W. Dineen Company Limited, 140 Bunge street, corner Temperance.

REDISTRIBUTION TO BE MADE IN GREAT BRITAIN'S CABINET

Winston Churchill for War Portfolio; Long for the Admiralty, and Shortt to Become Home Secretary.

London, Jan. 9.—Premier Lloyd George is expected to announce his reconstructed ministry tomorrow. It is understood there will be few changes in the personnel, but a redistribution of the offices. The premier will follow precedent by taking the post of first lord of the treasury. Andrew Bonar Law will be minister without portfolio, and thus will be free in his duties as government leader in the house of commons. Winston Spencer Churchill will become secretary of war. It is understood that Walter Hume Long will go to the admiralty, and Edward Shortt, now chief secretary for Ireland, will become home secretary.

PEACE CONFERENCE IS ASSUMING SHAPE

Supreme Council of Great Powers Will Guide Deliberations and Results—French Delegation Appointed, and Protocol is Submitted for Approval.

Paris, Jan. 9.—Announcement of the French delegation to the peace conference, in addition to bringing a distinguished array of French statesmen into the arena of the peace congress, has begun to give definiteness to the deliberations of the great powers, of which the American delegation had been by itself up to the present time. It is expected that the British, Italian and Japanese delegations now will be announced officially.

The leading figures, like Premier Lloyd George and Foreign Secretary Balfour for Great Britain, Premier Orlando and Foreign Minister Sonnino for Italy and Viscount Chinda and Ambassador Matsui for Japan already are known, although not officially appointed, but the designation of a full list will bring into being the real directing force of the congress, consisting of 22 members representing five great powers of the world, each of which will be represented by five of its foremost statesmen.

It will be this supreme council of the great powers which will guide and shape the deliberations and results of the entire negotiations, and while the other powers will later have a full hearing and a voice, it will be the great powers which will initiate and direct the general conduct of affairs.

French Delegation Named.
Official announcement was made today that the council of ministers had approved the nomination as the French representatives in the peace congress: Georges Clemenceau, the premier; Stephen Pichon, foreign minister; Louis Lucian Klotz, finance minister; Andre Tardieu, French high commissioner to the United States; Jules Cambon, former ambassador at Berlin; Paul Dufaure, French ambassador to Switzerland, will be secretary for the French delegation.

The personnel of the French delegation is recognized as exceptionally strong, combining political, diplomatic, financial, economic and military sagacity of France. The appointment of Jules Cambon is particularly gratifying to the American delegation, owing to his intimate knowledge and sympathy with American affairs, resulting from his long service as French ambassador in Washington. J. Cambon, with Foreign Minister Pichon, will represent the diplomatic strength of the delegation. Louis Klotz, besides being minister of finance, is recognized as the financial leader of the French parliament. Capt. Tardieu furnishes the economic authority and is familiar with both French and American economic conditions.

FOUR NATIONS ESTABLISH SUPREME WAR COUNCIL
London, Jan. 9.—The associated governments have decided to establish a supreme war council consisting of two representatives each of France, Italy, the United States and Great Britain, according to official announcement tonight, to deal with the questions of food, finance and shipping resources, with relation to revictualing and supplying liberated and enemy territory and to co-ordinate such supplies with supplies for allied and neutral countries.

EICHORN'S REFUSAL TO QUIT OFFICE CAUSED UPRIISING

Government Would Have Removed Him, But Spartacans Championed Cause.

ARMING PROLETARIAT
Led to Bitter Fighting in Berlin, But No Catastrophe Has Yet Occurred.

Special Cable to Toronto World and N. Y. Tribune by Joseph A. Saxe. (Copyrighted.) Berlin, Jan. 9.—Berlin is in the throes of a real revolution. The revolution of the 9th of November was essentially a declaration of the bankruptcy of the old regime, and the consequent assumption of power practically without resistance or bloodshed, of new men of the classes. It was nearly a transfer of power from one class to another, but the old regime surrendered its strongholds without attempting to defend them.

Now, on the other hand, two popular forces confront each other, each of them apparently determined to defend their cause to the last. The present revolution is the direct sequel of the fighting of Christmas Eve. I then expressed the opinion, gathered from personal observation, that the victory of the marines was largely due to the attitude of Police President Eichorn, who placed the revolutionary government in the hands of the marines. Apparently the government had come around to this view, and the revolution was now being started by the whole government and the bourgeois press for the removal of Eichorn.

The final blow was struck last Saturday immediately after the resignation of the Independent Socialists as members of the Prussian ministry, and the Independent Socialists of the cabinet. The new Prussian home secretary immediately resigned his office. The chief allegation against him was that about mid-day on Christmas Eve he had ordered the police to disarm the forces of the revolution.

BACON CONTRACTS MAY BE CANCELLED
Confirmation of Cable Received Would Mean Decided Cut in Prices.

One of the largest Ontario packing plants has received a cable that the British Government was likely to cancel all bacon and lard contracts for future delivery, giving as a reason that the stocks now available in the United Kingdom are large enough to ensure ample supplies for at least four months in advance. The working class and he would surrender it to none but that class. He is backed in this stand by his own guards, by the Independent Socialist party, by the Independent Socialists of the imperial cabinet. The new Prussian home secretary immediately resigned his office.

ASSURES LEAGUE OF NATIONS.
At the same time Secretary Lansing, Col. House and Lord Robert Cecil continued their conferences on the subject of a league of nations. The conferences are said to be rapidly giving precise form to the league of nations project. While the delay in the arrival in Paris of Premier Lloyd George may postpone the gathering of President Wilson and the entente premiers and the opening session of the inter-armed conference, yet the conference going on and the appointment of a delegation of the great powers are giving the peace congress the aspect of a going organization.

ELECT R. C. HENDERS, M.P.
Brandon, Man., Jan. 9.—R. C. Henders, M.P. for Curoos, was again unanimously elected president of the Manitoba Grain Growers' Association at today's session. It was the only nomination.

PUBLIC BUILDINGS HELD BY GOVERNMENT TROOPS

Spartacans Would Infect Invaders With Bolshevism

Special Cable to The Toronto World and The New York Tribune. By ELIAS TOBKIN. (Copyright, 1919.)

Berne, Jan. 9.—The first, clearest and at the same time most sensational statement on the issues involved in the struggle between the Spartacus group and the majority Socialists in Germany, appears in The Vienna Arbeiter Zeitung. The issue, the paper says, arises from the fear on the part of many Germans that the bourgeois governments of the entente countries will attempt to crush the proletarian German republic. The majority Socialists would save the revolution by establishing, as quickly as possible, an orderly government which the entente could recognize and with which it could make peace. The Spartacus group is quite willing to sacrifice the German republic and have it strangled by the allies, if, in the process, the soldiers of the allies themselves become infected with the germs of revolution. The Spartacus group is anxious above all to carry the revolution over into the entente countries. They aim first to establish in Germany a proletarian dictatorship and to proceed with iron energy to socialize all industries. This is to be followed by an alliance with the Russian Bolsheviks directed against the entente. This, the Spartacus group hope, will stir the British, French and Italian workers to similar action.

The Spartacus group is fully aware that such action would provoke entente invasion of Germany, but it is on this that they build their greatest hopes. They figure that if the entente troops are forced once more to enter the war, instead of being demobilized they will become rebellious, and when they enter Germany they will become infected with a revolutionary spirit. The result would be that the German revolution would be carried westward, and the world revolution kindled, and that alone makes possible the establishment of socialism.

The following opinion of Bolshevism was expressed today to the correspondent by Hermann Greulich, founder of the Swiss Socialist Democratic movement, and a friend of Karl Marx and Friedrich Engels, founders of modern socialism. "Europe generally have nothing to fear from Bolshevism, but everything to fear from hunger. German Bolshevism is not to be taken seriously, but German hunger is to be taken most seriously," Greulich, who is 76 years old, said that Bolshevism was not the cause, but only the effect of hunger.

"It is doomed to bankruptcy," said the veteran socialist, "because it has no leg to stand on from the viewpoint of either scientific or practical economics."

Referring to Karl Liebknecht, Greulich said he had known the German Bolshevik leader from childhood. "Liebknecht," he said, "is simply a nervous man. I have a high regard for him personally; he is a brilliant scholar, but has the sort of mind that will not see obstacles."

VILNA CAPTURED BY BOLSHEVIKI
Polish Militia Driven Out, and Massacre of Civilians Begins at Once.

Warsaw, Jan. 8.—Vilna has fallen into the hands of the Bolshevik army, several thousand strong, which drove out the Polish militia. A massacre of civilians began at once, partly because the Poles had offered resistance and had arrested or shot the members of the local Bolshevik committees. The Polish troops, who had no cannon and only a few cartridges per rifle, and were under command of Gen. Veitko, retreated to Lanovara, where they were disarmed by the Germans and sent to Bialystok. There they were started off for Polish territory.

Lemberg, where the Poles are defending themselves against the Ruthenians, appears safe for the time being. The political situation at Warsaw is stationary. As a result of interviews which Ignace Jan Paderewski has had with Gen. Pilsudski, Paderewski has decided to form a new cabinet, provided the Socialists now holding places in the ministry withdraw from their predominating position. Gen. Pilsudski expressed himself as not wishing to use his authority to force the withdrawal of these Socialists. Paderewski is working hard, making appeals to patriotism.

German Passenger Tonnage To Be Divided Among Allies
London, Jan. 9.—The United States, Great Britain and Italy have agreed on a plan for taking over German passenger tonnage. The plan will be laid before the German and allied armistice commissions next Monday. Representatives of the three countries will help only when Poland is internally united.

Messages from Kiev report that city and district quiet, now that there is no longer anything left to steal or landowners left to rob or kill.

Spartacans Said to Have Been Beaten—Bloody Fighting Reported to Have Taken Place at Many Points in Berlin.

Copenhagen, Jan. 9.—Government troops have occupied all the public buildings in Berlin and thousands of government troops are still entering the capital.

The Danish correspondent of The Berlingske Tidende who sends this information, declares that the Spartacans have been beaten, and that quiet was partly restored today.

Bloody fighting occurred at the Anhalt railroad station Wednesday night when Spartacus troops tried to occupy the building, according to Berlin advices received by way of Frankfurt. They were repulsed by government troops, who inflicted heavy losses on them. There was lively shooting Wednesday forenoon at many points, including the Brandenburg gate, which the government forces had captured during the night. Several persons were killed or wounded. The troops of the government directed an incessant fire from machine guns on the roof of the chancellors' palace in the direction of Unter den Linden and Wilhelmstrasse. Later the firing increased in intensity, especially in the neighborhood of the Brandenburg gate and many more people were killed.

Serious Spartacus riots are going on at Dresden, Brunswick, Dusseldorf, Essen and Dortmund, according to the Danish correspondent of The Politiken. Several towns in the Ruhr district are in the hands of the Spartacans.

"During the rioting reported in Munich on Tuesday evening a mob of revolutionaries, including the Spartacans, stormed one of the largest banks and was repulsed by machine guns, according to Munich dispatch to The Politiken. The rioters in the Ruhr states, were promoted by the Spartacans."

FIGHTING IN BERLIN COSTS MANY LIVES
Berlin, Jan. 8.—Heavy fighting continued throughout the night at various points in Berlin. The civil war already is tending to have cost 20 times as many lives as were sacrificed in the overthrow of the Hohenzollern dynasty, 60 days ago.

The correspondent is informed that the government troops have been repulsed in every attempt they made to recapture public buildings from the Spartacans. The opposition forces hold the Reichstag building, the approaches to the Brandenburg gates and the Silesian railway station.

The shooting reached considerable proportions three times during the afternoon, but the casualties appear to have been few.

The government tonight authorized the Associated Press to say that it was firmly resolved to maintain its attitude and that the time for compromise was past. The government has issued a warning to the foremen that it will use force only to resist force, but will make no agreement until the Spartacans surrender the buildings seized unlawfully.

Palace Strongly Guarded.
Since Monday the Spartacans have not repeated the attempt to capture the government headquarters in the chancellors' palace in Wilhelmstrasse, which is strongly guarded by soldiers. The conference between the government and the executive committee of the Independent Socialists was resumed this morning, but it is believed to be doomed to failure because Dr. Liebknecht and his followers who compose the great bulk of the rebels refuse to deal with the "bloodhounds," Ebert and Scheidemann.

All business and industry is at a standstill and the inhabitants wander curiously thru the streets in small groups.

The Spartacus movement is beginning to affect other centres. Grievances in Brunswick the Red Guards and Independent Socialists have adopted a resolution in favor of a Spartacan uprising and seized the newspapers. It is reported that the Spartacans have taken over the government at Mulheim and Oberhausen, near Essen.

Spartacans Strengthen Grip.
While the government is devoting nearly all its energies to home defence, the Spartacans continue to

strengthen their grip elsewhere. "Stadt Bahn U-5," as the local railway which encircles the city is termed, announced this afternoon that it had been compelled to stop operations because the Spartans had seized the Silesian railway station and were besieging other stations.

The government printing plant has been seized by the Liebknecht followers, who are now reported surrounding the barracks of the 3rd Guard Regiment in Wrangelsstrasse with artillery in position to bombard it. In addition to capturing the barracks of the Pioneer Guards, the Spartans have occupied the adjoining building, which contains foodstuffs and equipment. It is likely that street car service will be suspended tomorrow.

Troops loyal to the government are reported on the way to Berlin, but the Spartans are besieging the principal railway stations and the government detaining probably will encounter opposition.

The Spartans occupy the war ministry jointly with the government troops. Similar "compromises" are reported in other buildings. In every instance it has been the government troops who have given ground in the compromises.

A REBEL GOVERNMENT.
Reds in Berlin Said to Have Formed One of Three Members.

Berlin, Jan. 9.—Telegraphic reports from Berlin today state that the rebels have formed a new government under the title of "The Revolutionary Committee." This committee comprises three members, Herr Liebknecht, George Ledebour and Herr Thiel, the latter named the president of the Spartans League.

The Spartans thus appear still to be working with the government, left, or independents. The despatch would also seem to indicate the possibility that the new government set up is a rival one to the Ebert-Scheidemann government, and has not in fact displaced it, as today's advices from Paris report.

BAVARIA THREATENS TO MAKE WAR ON BERLIN

Berlin, Tuesday, Jan. 7.—War on Berlin to restore order is threatened by Bavaria, according to a speech made in the Bavarian Chamber of Deputies in Munich by Herr Auer, the minister of the interior. Bavaria, he said, proposed to intervene with arms if conditions in Berlin continue unsettled.

"It is time that the men in Berlin understood that they are not Germany," Minister Auer said, "and there is a limit to the patience of even the most tolerant people. Up to now I have opposed the application of armed force, but unless Berlin comes to its senses and the government restored, we propose to intervene with arms."

"There has never been a political party which reached such a low level as the Bolshevik Spartans. I deplore the fact that the independent Socialist party is doing their share to prevent this national calamity."

LUDENDORFF ON HIS WAY.
Division of Cavalry Massed Outside Berlin, and Troops Are Coming.

London, Jan. 9.—General Ludendorff was reported in Berlin despatches today to have arrived in Leipzig. A division of cavalry is reported to be massed outside Berlin, with the object of protecting the national assembly.

The government has ordered the troops in nearly all the garrisons in Germany to move against Berlin and they are arriving there on motor cars.

The government forces are reported to have secured control of the railways and to have occupied the offices of the Red Flag, the Spartans, and the German forces are expected to augment the first contingent of government troops which arrived from Potsdam late yesterday. Copenhagen and Amsterdam despatches received last night said the Potsdam division, with an equipment of machine guns, is reported moving on Berlin.

Outside the capital, the messages state, the Bolshevik movement is weak.

GOVERNMENT OVERTURNED.
Reported in Paris That Extremists Have Gained Upper Hand.

Paris, Jan. 9.—The Ebert-Scheidemann government in Germany has been overturned, the extremists having gained the upper hand in Berlin after sanguinary fighting, according to the latest German advices received here.

A new revolutionary government has been proclaimed, composed of Independent Socialists. A part of the government troops are reported to have gone over to the rebels, and the Spartans now hold the principal points in Berlin.

Civil war is spreading to other parts of Germany, the advices indicate, and part of the Rhenish provinces and Bavaria are now reported to be involved.

WILL DESTROY FORTS AT DARDANELLES

Unless Force at Medina Lays Down Arms, is Ultimatum to Turkey.

London, Jan. 9.—The allies have notified Turkey that unless the Turkish force at Medina lays down its arms immediately the forts at the Dardanelles will be destroyed.

The Turks have shown an unwillingness to surrender in accordance with the armistice terms, but all the garrisons except that at Medina, which is the largest in Arabia, laid down their arms thru peaceful persuasion.

Fakey Pasha, the commander at Medina, offered one excuse after another until the allies were forced to send an ultimatum to the Turkish Government.

ROOSEVELT LEFT HALF A MILLION

Entire Estate, Excepting Family Plate and Trust Fund, Left to Widow.

Oyster Bay, N.Y., Jan. 9.—Col. Theodore Roosevelt's will, made in 1915, was read to members of the family at Nassau Hill today and probably will be filed with the surrogate of Nassau County tomorrow.

Altho the value of the former president's estate was not made known, it was understood to amount to not more than \$500,000. According to Attorney George C. Cobbe, of New York, who read the will, the document provides that the entire estate with the exception of the family silver and plate, shall be held in trust for the widow during her life, and gives her power to dispose of it by will as she sees fit.

In the event she leaves no will the estate is to be divided in equal parts among the children.

The silver and family plate, Mr. Cobbe said, are to be divided among the children, as is a \$60,000 trust fund left to Col. Roosevelt by his father.

The will named as trustees Lieutenant Theodore Roosevelt, jun., and W. Emili Roosevelt, a cousin of the colonel.

WHISKEY ORDERS BY THE HUNDRED

Windsor Doctor Found Guilty of Issuing Erroneous Total of Prescriptions.

Windsor, Jan. 9.—Charged with having issued prescriptions for liquor in larger quantity than was consistent, Dr. G. N. Gardiner, 146 1-2 Gladstone avenue, this city, was found guilty and fined \$200 with cost, \$42.50 additional, in police court here today.

The testimony of several witnesses against the accused physician was convincing. One witness, Donald Fraser, who conducts the only liquor store in the city, which is under the government supervision, and issues only on doctors' prescriptions, testified that 222 prescriptions for whiskey had been received from Dr. Gardiner in a single day in the month of December. The physician's total liquor prescriptions for that month were 1244, Fraser swore.

People in Crowds.
License Inspector Mousseau told of calling at Dr. Gardiner's office and finding the verandah and office crowded with people, while others were waiting on the sidewalk for a chance to get inside and see the doctor.

Dr. Gardiner took the stand in his own behalf and stated he had come to Windsor two years ago, attracted by chances for speculation in real estate, but that he had practiced his profession "at times," among his friends only. He was sure he had prescribed other medicines besides whiskey, but was told by Crown Attorney Rodd that none of the local drug stores had any record of any orders from him for anything except liquor.

In imposing sentence, Magistrate Miets delivered a scathing arraignment of the physician, declaring "No reputable physician would issue as many as 222 orders for liquor in one day." Council for Dr. Gardiner announced that an appeal would be taken.

HAMILTON NEWS

Hamilton, Jan. 9.—The salaries of all members of the police force were given a general increase of \$200 at a meeting of the police commissioners today.

The coroner's jury in the case of Tony Martino, fatally shot on New Year's Eve, while outside a house on Hess street, said the evidence pointed to Alberto Nattichio as the probable murderer.

Geo. D. Donaldson, 209 North John street, while working at the Steel Company of Canada plant, died from a hemorrhage.

The board of education aired grievances at its meeting tonight against the architects because of the fees charged in school building work, one trustee calling the charges "away beyond reason."

Ministers from Toronto were among the speakers at a meeting of Victor Records held in Barton Street Methodist Church.

AWARD SPECIAL PRIZES AT BRAMPTON SHOW

Brampton, Jan. 9.—When a census of the fowl in Windsor was taken this spring it was found that there were upwards of 15,000 birds in the town, with a population of less than 4000.

The interest in the poultry show continues unabated, and the attendance in spite of the cold was good today.

The third day of the show, the special prizes were awarded today by Judge Tyson and Billings as follows: Challenge cup, best bird in the show, won by James R. Fallis, Brampton. Senator Blain silver cup, White Wyandotte, won by R. E. Pallett, Islington. Pendley shield, best exhibit, won by R. E. Pallett, Silver trophy, White Rocks, won by G. F. Fenley, Brampton. CONGRESS TO VALIDATE INFORMAL CONTRACTS

Washington, Jan. 9.—Validation and adjustment by the secretary of war of informal contracts involving the expenditure of more than \$2,000,000, is authorized by a bill passed by the house late today by a vote of 270 to 98.

The bill, which covers 6,600 contracts in this country and a large number in England, France and Italy would be enacted.

A similar bill, also placing the adjustment in the hands of the secretary of war, was approved today by the senate's military committee, which reversed its previous action in voting for the creation of a special commission on adjustment.

TRAFFIC IS HALTED IN NEW YORK HARBOR

New York, Jan. 9.—At the end of the first day of the marine workers' strike, which virtually halted traffic in New York harbor, the New York Post-Opinion Association announced tonight that the men had signed an agreement for the appointment of a conciliation board to arbitrate all differences. This announcement brought prompt denial from the strike committee, which termed it "an owners' welfare proposition."

STOP RAILWAY PRIVILEGES FOR SOLDIERS IN UNIFORM

Regina, Sask., Jan. 9.—Soldiers in uniform will have to pay full railway fare after Jan. 10, according to information given out by ticked agents here today. No reason is given for the change and the G.W.V.A. stated that an enquiry into the matter will be asked. Under an arrangement in effect the war all ranks in uniform were given a return ticket for the price of single fare.

Bachelors in Montreal Protest Ten Dollars' Tax

Montreal, Jan. 9.—More than 300 bachelors, who are determined to resist payment of the \$10 tax levied by the city of Montreal, are pledged to support one of their number against whom action has been entered by the city in the courts as a test case, assembled at the Edinburgh Cafe last night to effect an organization to be known as the bachelors' defence committee.

Many elderly men were among the bachelors present. In nearly all cases, it was apparent, they were householders and taxpayers, with the obligation of supporting their relatives, and this, one man stated, was the principal reason why most normally constituted men remained bachelors after 25 years of age.

STRIKE MAY CAUSE FAMINE IN NEW YORK

New York, Jan. 9.—Unless railroads can bring food to New York by roundabout routes the hunger point may be reached within 48 hours and the lives of thousands imperiled as the result of the marine workers' strike, which tied up virtually all traffic in the harbor today, according to a statement tonight from the office of A. H. Smith, regional railroad director.

Closing the Second Series of the January Sale With These Remarkable Offerings Today

The January Sale this year is divided into series—in which a number of departments undertake to provide for four days exceptional sale values. New departments enter the lists each week and offer something different every day, and so there is a regular panorama of economies of the very best kind. This plan, while it keeps the sale up to a very high standard, also makes it advisable for those wishing to share in the values to make prompt selection. Come in the mornings, if possible, and watch for blue and white sale tickets.

A Sale Offering in Boys' Corduroy Suits Today at \$5.85

BREVITY, SPEED, ACTION ON NEW COMMITTEE

Matters Affecting Public School Property Promptly Dealt With.

Brevity, speed and action marked a spirited start-off for the new property committee of the board of education yesterday afternoon. Dr. John Noble proved a model chairman. Overcrowding problems and plans for new schools were dealt with. Dr. Noble said that the school principals might be instructed to refuse registration to new pupils after the schools were crowded. Superintendent Bishop of the building department said that an extraordinary development had occurred in connection with the downtown schools. It was expected a few years ago that the school population downtown would decrease, but the reverse had been the case. When Park School the largest public school in the Dominion was started, it was expected, with its

provision for 1600 children, to meet the whole requirements for the vicinity and to permit the closing of the Sackville street school. Both, however, were still required.

In the case of Ryerson School and Ogden, in the Bathurst street section, 1600 pupils were taught at one and 1500 at the other, a total of 3100 children within a short walk. Chief Inspector Cowley said the same story had to be told with respect to King Edward Manning the Nazanza schools. To enable the committee to deal adequately with the situation, the chief inspector submitted a tabulated report, showing the annual increases for the past five years.

Dr. Noble's suggestion, that action on the report be deferred until the next meeting, so that it could be studied by the members, was adopted. A radical step was taken by the committee with respect to the new schools for Glen Grove and Glenholme avenues. The board has a credit of \$50,000 towards the Glen Grove school and \$100,000 towards the Glenholme. The committee unanimously decided to ask the board to authorize competitive plans from outside architects instead of depending entirely upon the board's building staff. Trustee Bell reported that a num-

ber of pipes in various schools in the Regal road district required protection, to prevent a repetition of last year's freezing up.

FOR SERBIAN POOR.

An urgent appeal is sent out by the University Supply Association workers to assist in making up garments and knitting socks for the people of Serbia. Wool for knitting and material for making into underwear is being distributed. Miss Henderson, who is in charge of the work, states that formerly they had seventy circles working. These have dwindled to ten or eleven. It is believed that many will perish from the severe cold of Serbia unless more help is given. Workers will be welcomed at the university work rooms.

INFANT'S BODY FOUND.

The body of a newly born infant was found by the occupant of the house at 16 Jarvis street, yesterday morning. The child was wrapped up in a newspaper. It was removed to the morgue and the police are investigating the case. A young infant was found a short time ago wrapped in expensive clothes in a vacant lot on Chaplin crescent.

SOLDIERS TO GET WAR GRATUITY

From One to Six Months' Pay Will Be Given Them.

Thousands of soldiers will soon be returning to Canada. Their demobilization has been so arranged that the labor market will not be glutted, resulting in returned soldiers being out of work. It is realized, that the soldier, as soon as he is discharged from the army, will look for employment. In order that he may have an opportunity of living decently until he finds employment, the Dominion Government has decided to give every man a "war service gratuity." The whole plan is described in advertisements, "War to Peace," which are appearing in this paper. The gratuity is graded, according to length of service, from six months to one month's pay and allowances. After Feb. 1, men who already have been discharged will be given their gratuity to which they are entitled. Men who still are in the

service will receive their first month's gratuity immediately upon their discharge. Men who are in the care of the soldiers' civil re-establishment department will receive their gratuity as soon as they cease to receive pay and allowance. The gratuity also will be granted to a dead soldier's relatives.

WILLS AND BEQUESTS.

Walter J. Miller, who died Jan. 4 as a result of injuries received when he was struck by a street car, left an estate valued at \$11,424, which he left entirely to his daughter, Alma May Miller. Patrick Donlon, who died Nov. 21, left an estate of \$575, which he directed to be divided between his wife and eldest son.

A wife and two children, all of whom live in Galicia, will inherit the estate of Joseph Wolski, a laborer, who died Dec. 26, leaving an estate valued at \$553. The city signified its intention of fighting the claims made by the various cafes who had suffered thru the August riots. The action was begun yesterday and W. G. Angus appeared for the city.

LADS CARRY REVOLVERS; WERE REAL DETECTIVES

John Dryas and Stanley Oezce-howski appeared before Judge Winchester in the sessions yesterday, charged with theft and receiving. The charge was laid on the complaint of a William Bezzowski, who claimed he had lost \$110, while other people claimed that a "scart" and several other articles had been taken from them. When the lads were searched they were found to be carrying revolvers, detectives' badges and handcuffs, and they had been flaunting these to people, claiming that they were bona fide detectives. County Crown Attorney Greer thought it was a case of dime novel adventure, and the judge let them off with a fine of \$25 and costs each.

GOT FOUR MONTHS.

On New Year's Eve Albert Little was driving a car and while doing so ran into a truck belonging to the Convalescent Hospital and driven by a soldier, Sydney Maker. P. C. Evans, who was nearby when the accident occurred, said that Little was drunk. A sentence of four months on the jail farm was imposed for criminal negligence.

SCHOOL BOYS' STRIKES MUST STOP AT ONCE

Mayor Church, after hearing several deputations, is getting tired of listening to striking school boys who are displeased because the Zionist flag is not hung up with those of the allies. "If there is any more of that," said Mayor Church yesterday, "the police and truancy officers will act. In the American schools there is only one flag, and there should only be one here—the Union Jack. We are proud of what has been done by our allies, and their flags are displayed as a matter of courtesy, but for us there is only one flag, that should be officially recognized."

FINED FOR BREACH OF ACT.

Charged with having liquor in his possession on the corner of Queen and Yonge streets on Wednesday evening Frank Butler appeared before Magistrate Denison. It is said that he went to Buffalo and when he came back he had some liquor on him of which he had no knowledge. A fine of \$200 and costs was imposed on Butler.

CANADA LIFE HAS
SPLENDID RECORD

Company's Business Expansion Remarkable During Past Year.

The Canada Life Assurance Company is in the strongest position it has ever occupied. Despite the increase in mortality in recent years, due to the war, and in the last months because of the ravages of the influenza epidemic, this was the assurance made by President C. Cox at the annual meeting of the company, held yesterday, and the details of the financial report presented were fully confirmed.

Mr. Cox drew attention to the substantial increases in surplus, assets and income, pointing out that assurance forces have been very greatly augmented and that new business issued was greater than before.

Assurances issued and revived during the year established a new high record amounting to \$38,724,888, which compares with \$33,542,464 in 1917 and \$20,000,000 in 1916. The total assets were \$104,832,342, against \$97,970,991 and \$8,537,939 in two preceding years. Payments to policyholders in 1918 amounted to \$55,947,574, a gain of more than six and a half millions in two years.

There are many striking phases of the report as outlined by the president. The fact that more than 100,000 policies were placed with existing policyholders than ever before is significant of the complete satisfaction of those policyholders with the course pursued by the management. There could hardly be a more emphatic tribute.

The average policy is shown to have contained \$1,000 of insurance. It clear surplus funds is gaining steadily in value. Monthly income from business insurance has been much extended during the year.

Another particularly gratifying feature of the report is the decision shown by policyholders to pay off loans incurred through borrowing to pay premiums. The fact that more than 100,000 policies were ready to assist policyholders to lighten the load by immediate payment of their loans, whenever it is convenient for the policyholder to make them, and this hearty spirit of co-operation is, no doubt, fully appreciated. While the loan exists, the company offers a convenient way to "insure" the loan so that it will not be deducted from the face of the policy if death occurs within a certain time, and while the loan is being paid off. Such an expedient is open to most policyholders who care to take advantage of the idea.

The Canada Life patriotically subscribes to the Victory Loan, yielding a 7 per cent, but it has nevertheless been a more than 5 per cent investment. The possession of thirty million dollars' worth of bonds of the highest class is a simple assurance that the company is being managed in the careful and conservative manner which is essential in an institution of the kind whose primary object is to safeguard the home.

Dealing with the company's purchases of Victory bonds, Mr. Cox said: "Again, as in 1917, the chief investment of the year has been in the Victory bonds of the Dominion Government. In the early months we paid the remaining instalments on our subscription of \$10,000,000 in November and December those due upon our reconstructions of \$10,000,000 under which we were allotted \$5,000,000. We now hold \$11,588,000 of government war bonds of various issues and feel that you will approve the action of your directors in this supporting the country's war effort."

FRIDAY MORNING, JAN. 10.

The Question of Tariff—The Government Must Soon Clear the Air.

The World has in its "Political Notes" of recent dates given a full and fair expression of the press opinion of Canada in regard to tariff reduction as raised by the council of agriculture of the United Farmers' organization. A number of the papers of the prairie provinces support the demand, but some like The Winnipeg Free Press and Calgary American would get the preference, and that union government be kept in office for a time longer, rather than that its exercise should be jeopardized by a struggle between east and west over the tariff. The almost unanimous opinion of the press of Ontario, Quebec and the Maritime Provinces is to allow the union government to go on with its reconstruction and war legislation this session, and then try and set down at a round table and adjust their grievances. Railway rates (freight, passenger, express, telegraphs) are of more vital moment to farmers even than tariff, and with government ownership it may be possible to adjust these so as to smooth out the grievances on tariff.

The idea seems to be spreading that if the prime minister issued the invitation to a conference in Ottawa between east and west a fair compromise might be reached and all benefited. Perhaps a resolution to this effect early in the coming session of parliament would carry by a big majority.

But in any event the government owes it to the industries and their shareholders and bankers and the workers and to the manufacturing towns and villages of the east to make some quick and clearing announcement at an early day. A cloud of uncertainty may cause a lot of stagnation at a time when Canada can ill afford it.

A Short Law With a Long Arm to Enforce It.

There is a feeling that the Ontario Government is not efficiently enforcing the Ontario Temperance Act. Local magistrates and police officials are working overtime, but they are doing much the same work they did in the old days. They are punishing men for getting drunk and laying bootleggers by the heels, but bootleggers will flourish and drunkards continue as long as the liquor pours in a steady stream across the provincial frontier.

We are not minimizing the difficulties which in any event would beset the Ontario Government. Prohibitory legislation may be supported by the overwhelming weight of public opinion, and yet good citizens will not assist the authorities to enforce the laws against drinking if they assist them to enforce the laws against arson, theft and other crimes. To effectively enforce prohibition in Ontario the government must be prepared to employ many officials and expend a good deal of money. Above all, the government itself must take the responsibility, must direct the fight, and the law-enforcing activities of the province must be co-ordinated under the supreme control and direction of the attorney-general of Ontario.

But our first word of advice to the government would be to rewrite the cumbersome and long-winded Ontario Temperance Act. The present act contains 30,000 words; a better, clearer and more efficient act could be couched in 300. Our present law goes into endless details and tries to provide for every possible contingency. It leaves little or nothing to the discretion of the government. It fails to provide for its own enforcement. It is unable adequately to cope with the unforeseen situation created by the action of the Dominion Government. The Ontario Temperance Act explicitly declares to be lawful what the Dominion Government declares to be a serious crime. Our provincial temperance act lags far behind the Dominion Government's order-in-council.

Responsibility for the enforcement of the act is placed upon no one, unless by implication it devolves upon a license board with no power to license. The police voluntarily assist in enforcing the law, and a certain number of informers will always be tempted by the moiety of the fine awarded to them in case of conviction. But in a general way it is everybody's business and therefore nobody's business to enforce the Ontario Temperance Act and whether or not it is enforced largely depends upon public sentiment in this or that locality.

All this should be changed, immediately.

The Only Permanent Solution.
The Dominion Railway Commission will be here on Monday and will deal with an application by the express companies to decrease the area in which they are now required to deliver and collect express packages in Toronto. This will be stoutly re-

fracted. If our well-defined provincial policy be bone dry prohibition, the legislature should forbid the sale and transportation of intoxicating liquors except for mechanical, pharmaceutical and sacramental purposes under regulations to be promulgated by the lieutenant-governor-in-council. A ten-line paragraph would do the business. Then by another clause the attorney-general of the province should be held responsible for the execution and enforcement of the law, and he should be given wide authority to employ all needed assistance and a large sum of money should be placed at his disposal.

A statute containing two clauses will deal with the Ontario situation better than our present 30,000 word Temperance Act. It will for one thing fix the responsibility upon some official, probably the attorney-general, and he will then be obliged to enforce the law or retire from public life.

The Ontario Temperance Act lacks elasticity, because it tries to give to everything a statutory definition instead of declaring a principle and permitting the details to be worked out by regulation. It lacks punch because no one is charged with its enforcement. We would say, make the attorney-general responsible, give him wide powers and a large appropriation.

They have a nation-wide prohibitory law coming into force in the United States on July 1, 1919. It will probably be effective until the prohibition amendment to the U.S. constitution is adopted. To enforce it congress has been asked to appropriate twenty million dollars, and to authorize the employment of many deputies by the U.S. commissioner of internal revenue. Yet the whole prohibitory law which is to regulate some one hundred and ten million people is in the form of a proviso or rider tacked on to the appropriation bill and reads as follows:

Provided that from and after the date of the approval of this act and during the continuance of the present war it shall be unlawful to sell, furnish or transport distilled spirits for beverage purposes, and no distilled spirits held in bond at the date of the approval of this act, no foods, fruits, materials or feeds for animals, and no liquors, shall be used in the production of malt or vinous liquors for beverage purposes.

It is hereby authorized and directed to prescribe any and all rules and regulations deemed necessary to carry the foregoing provisions into effect, and anyone who willfully violates any of the foregoing provisions or any rule or regulation made to carry the same into effect shall be punished by a fine not exceeding \$5,000 or by imprisonment for not more than two years, or both.

Under some such short-voiced law, including a clause making provision for a money vote for enforcement, the Ontario Legislature could empower the governor-in-council and the attorney-general to deal with the whole subject, including the regulation of the sale of spirits for medicinal or manufacturing purposes, and meet existing conditions and possible new situations in a way ever so much more satisfactory than the law we have in Ontario today. And if the government or the attorney-general did not properly administer the law they could be disciplined by the electors at the polls.

Making Bolshevists.
While the war is not technically over, practically all government business is being conducted on that theory. A notable exception is in the local police court, where the order-in-council against socialistic literature, which was passed as a war measure, and during the war excited little attention except for Pastor Russell's denunciations, is now being taken quite seriously. A sentence of three years and six months was passed by Magistrate Kingsford yesterday on Charles Watson, an ex-policeman, for having tracts in his possession, and Harry Cheesman awaits sentence on a similar charge.

The original design of the order-in-council, we believe, was to suppress agitation against military service. As this motive is obviously removed, the law is being demobilized. The original motive for such prosecutions is to stem the tide of Bolshevism in the making such headway among the uneducated. The action taken is the finest kind of propaganda for the Bolshevists, and merely justifies all their assertions about the conditions of tyrannical government. People are or were sent to Siberia or locked up in jail in autocratic countries in Europe for just such offences. Immigrants from these countries are told by the Kingsford, and behold, Magistrate Skidmore was canceled by the department of justice. There is just six times as good reason for action in the present case.

A MERE BRUTISH DESIRE TO KILL

stated by the citizens' express and freight campaign committee, of which John R. MacNicol is chairman. The citizens' committee will demand an order from the Railway Commission requiring the express companies to deliver and collect express packages within the entire municipal limits without an extra charge.

With the application of the committee we have the fullest sympathy. We have assisted their efforts in the past and have commended their service. But we fear they are not getting to the root of the difficulty. They may get and they should get the order they want from the Dominion Railway Commission, but what assurance have they that the express companies will pay any attention to the order. The commission can command, but apparently it can make nobody obey.

The only permanent solution for Toronto is to have a real national express and an up-to-date parcel post. Unfortunately the national railway system as at present constituted does not serve much territory west of Toronto, scarcely gets to the American frontier and handles little express business to and from this city except along its line between Toronto and Montreal. But if the government acquires the old Grand Trunk, which gridrains Western Ontario, we will find ourselves in the very heart and centre of a great government express system which will deal fairly and generously by the people.

We hope Mr. MacNicol and his associates will get some relief from the Dominion Railway Commission, but they will accomplish more permanent good by throwing their influence in favor of the immediate nationalization of the old Grand Trunk. They should lose no time in making representations to Sir Thomas White, a citizen of Toronto, one of our own Ontario ministers, the man who had the courage and foresight to nationalize the Canadian Northern and the man who is now and may be for some time to come at the head of affairs in Canada.

A Long, Dry Spell in Sight for the United States.

What is a two-thirds majority? Does the requirement that a resolution must be passed by a two-thirds vote of a legislative body mean that two-thirds of all the members of the house must vote for it or merely two-thirds of the members who may happen to be present when the vote is taken?

To amend the United States constitution it is necessary to have a resolution adopted by a two-thirds vote of both houses of congress, and then concurred in by the legislatures of three-fourths of the states. The prohibition amendment now being voted on by the state legislatures passed the United States Senate, not by a two-thirds vote of all the members elected, but by two-thirds of all the members present and voting. The wets confidently asserted that the state legislatures were wasting their time in dealing with the proposed amendment, and that the whole thing would fall to the ground when brought to the test of judicial interpretation. Hence something like panic was created on Monday last when the United States Supreme Court, speaking thru Mr. Chief Justice White, declared that only two-thirds of the members present were required to pass a constitutional amendment thru either house of congress.

The ruling of the court clears the decks for the speedy adoption of the constitutional amendment prohibiting the manufacture, sale and importation of intoxicating liquors. Some 23 state legislatures have already ratified the amendment and only six have voted against it. There seems little doubt but that the required 36 states will be secured by the drys, and they will have bone dry prohibition, double distilled and nulled down for all time to come. To amend the United States

THE WIFE

In Helping Another, Ruth Herself Is Helped

CHAPTER CXXIV.
Angry fairs came into Ruth's eyes as she read. The idea that even in his sickness Brian should long for Mollie King hurt her dreadfully. He might have said he longed for her, Ruth. Of course she wasn't a "good pal" like Mollie King, she said aloud, as she wiped her eyes, and she didn't wear a becoming nurse's uniform. "To think he would fret more because he could not have Mollie with him, than he did because he was hurt, and she was so far away and—alone. I hope she was downright ugly!"

Ruth said as the tears again started when she re-read the part of his letter telling of his feverish walk with Mollie. What if they did talk of her and little Brian—they were together, while she was so far away and—alone. Some way, Ruth could not overcome the bitterness this letter engendered. She thought of it almost constantly day after day. It was inconceivable that if Brian really loved her, he would not long for Mollie as he had felt vanished, and she was tormented by the old jealousy and the old distrust.

She wondered how long Brian would be convalescent, and if he and Mollie would spend that period taking long walks together. What did she care that they talked of her and the baby? It was their being together that she objected to. She realized that their intimacy would become even greater, perhaps, than ever. Women were like that; they were so sympathetic when a man they cared for was sick or injured. Ruth never doubted that Mollie was in love with Brian, whatever his feelings toward her were. At times she now did—Ruth believed that Brian also was in love with Mollie, although she could explain why he had not married her—explain it to her own satisfaction. Of course Mollie would have been glad to marry Brian, while they were so sympathetic when a man they cared for was sick or injured. Ruth never doubted that Mollie was in love with Brian, whatever his feelings toward her were. At times she now did—Ruth believed that Brian also was in love with Mollie, although she could explain why he had not married her—explain it to her own satisfaction. Of course Mollie would have been glad to marry Brian, while they were so sympathetic when a man they cared for was sick or injured.

Ruth dimly sensed his motive and, while grateful to him, she thought: "If he knew that work kept me from thinking, he wouldn't try to stop me." But in spite of her uneasiness about Mollie and Brian, the change did her good. Then, when she came back, one of her "war babies" (as she called the children whose fathers had gone "over there" before they were born) was forever fatherless. The poor, young mother clung pitifully to Ruth, her constant moan being one of regret that her Tom never would see the boy he had longed for.

Some way, this woman's complaint, that she wouldn't have grieved so if only Tom might have seen his boy, softened Ruth's feelings toward Brian. He, too, might have died without seeing his last letter, but when she left poor Annie Rafferty grieving for her Tom, she went home and wrote a long letter to get hurt again, for the boy's sake. She said nothing of Mollie, but Mr. Starr, who you must admit, was a man not easily deceived, when he was helpless because of his injured

arm. Then she repeated bits of gossip she had heard from either Mrs. Curtis or Claire Roberts. Kenyon was doing splendidly in his profession, and doing a great amount of war work as well. She had written:

"He never ceases to regret his lameness because it has prevented him from fighting. But I think he does as much good here as he possibly could over there. He and Claire are an ideally happy couple. She is right beside him in his war-work, and they seem so contented. But then they are together—which means a lot."

Perhaps Ruth would not have written that paragraph about Kenyon if Roberts had compared her to Claire—not to disparage her; simply to wish she would make his home the same sort of a home that Claire, in her love for domesticity, made Kenyon's. That he had felt many times that, if she had, it would have done well in his profession. But that she had taken from him the desire as well as the necessity for hard work because of her determination to earn money, and relegate the keeping of their home to a servant.

IDA ON THE JUVENILE COURT

By IDA L. WEBSTER.

Now, perhaps, the Hon. I. B. Lucas will wake up to the fact that his Friday, in the modern form of Commissioner Boyd, is not fitted for the job which he has been holding down in the children's court. The glaring fact of his incompetency to be a judge of kiddie troubles has been talked of ever since he got the position, but apparently to no avail.

We had the extreme pleasure of encountering some of Mister Boyd's cleverness one day when we went to the court for the purpose of ascertaining whether it was really as bad as every night to be in the court. The very high and mighty official refused to allow any newspaper person into his domain.

Not only did the commissioner refuse to act like a civic servant but he was right to conduct himself, but he was fortified with a chap who had anything but the right type for the work or rather so we thought, and if he is still on the job, then we still think that he should be doing almost anything else. This person of whom we are now speaking was perhaps one of the roughest young men whom we have ever had the honor of speaking to.

When one speaks of children's courts there is only one thought, or idea, and that is of a man or woman for commissioner who knows the human heart, and who understands beyond all shadow of a doubt that children cannot be expected to act like grown people. If this doorman, or whatever he happened to be, had the right conception of his surroundings he would not act like a petulant or bad-tempered boy, but would rather adopt the attitude of a man and attempt to impersonate one at every opportunity.

There has been so much said and written re the work of the present commissioner, that it would not be possible for us to enlarge on the matter, but we cannot resist the chance to say that if Mr. Graham had found it impossible to stand the accents of the Mr. Boyd, then indeed must it be time to call a halt to the Mr. Graham has been connected with the juvenile court for years, and under the regime of the late commissioner he managed to do no end of good among the kiddies. Not only that, but he was highly thought of by Mr. Starr, who you must admit, was a man not easily deceived, when he was helpless because of his injured

arm. Then she repeated bits of gossip she had heard from either Mrs. Curtis or Claire Roberts. Kenyon was doing splendidly in his profession, and doing a great amount of war work as well. She had written:

"He never ceases to regret his lameness because it has prevented him from fighting. But I think he does as much good here as he possibly could over there. He and Claire are an ideally happy couple. She is right beside him in his war-work, and they seem so contented. But then they are together—which means a lot."

Perhaps Ruth would not have written that paragraph about Kenyon if Roberts had compared her to Claire—not to disparage her; simply to wish she would make his home the same sort of a home that Claire, in her love for domesticity, made Kenyon's. That he had felt many times that, if she had, it would have done well in his profession. But that she had taken from him the desire as well as the necessity for hard work because of her determination to earn money, and relegate the keeping of their home to a servant.

A Line of Cheer Each Day of the Year

THE FURNISHINGS.
(Copyright 1919 by the McClure Newspaper Syndicate.)
We dwell within ourselves, and that is why
"This well that inner-self to beauty, To furnish it with kindly thoughts, to strive
To keep the soul of Fellowship alive, To sweep out ugliness, and place
Where'er we can, such cheerful things, That when we sit within our own eyes we find
On every side things of a cheery kind."

Months ago we found out from the parliament buildings that there had been innumerable complaints of his mode of administration, but apparently nothing has ever been done. It is not only a case of a department being upset, but it is a case of a man who is not fitted for his work. He will be relieved of his duties and replaced by someone substituted who knows how to do the job. We are not prepared right now to say whether we think that Mr. Graham is capable of taking over the reins or not.

But at the same time something should be done and done quickly, because it is not only a case of a department being upset, but it is a case of children suffering. That in itself is enough to start the wheels of any part of the provincial government, rather it should be. The juvenile court is the most essential part of the government, and it must be conducted along lines which will be beneficial to the younger generation who come within its portals.

One other thing, these little offenders are not died-in-the-wool criminals and they should not be treated as such. The commissioner should be a man who is capable of weighing the crime and then meting out suitable judgment. Any boy who has not broken a window in his lifetime is not worthy of being a member of the board. And any man who cannot judge the act in the way it deserves, is not fit to be the judge of a juvenile court. The Hon. I. B. Lucas might do well to look this situation over carefully, because there is so much smoke there must be some fire.

At the business meeting of the Women's Musical Club, which preceded the recital, the president, Mrs. Miles Lash, spoke of the many things needed by the boys who had gone from Canada to Siberia. The sum of \$200 was voted to be spent in sending some of the comforts needed. The president also urged the members to work for the coming concert in Massey Hall, when Miss Helen Stanley and Maurice Dambois will be the artists. The proceeds will be divided among the French and Belgian refugees and the soldiers in the local hospitals.

Walter Brown, business agent for the boot and shoe workers in the Toronto district of Ontario, stated yesterday afternoon that the shoe trade was brisk, and that the demand was slightly above supply, this being specially noticeable in certain departments of the trade.

Baseball Official Averages

OTTAWAS DOUBLE SCORE ON ARENAS

Fast and Clean Pro. Game at the Capital, Without a Major Penalty.

Ottawa Jan. 9.—Scoring a lead of one goal in the first period, in which Toronto, if anything, had a shade over the home team, and playing them to a finish in the second and third periods, the Ottawa Hockey Club's team defeated the Stanley Cup holders by a score of 4 to 2 at the local arena tonight, thus closing up on Canadians in the championship race of the National Hockey League. The hockey was fast and very interesting at all stages, particularly in the third season, in which the Ottawas put up their prettiest play. Not a major penalty was handed out, and several of the players, including Sprague Cleghorn, went thru the entire game without a rest of any kind. Ottawa was leading 3-0 at the end of the first period, when Cleghorn notched his third goal of the night for Ottawa, the result remained in doubt. The Toronto team appeared tonight, plus the services of Harry Mumery. The big over-put, who did so much last season to help win the Stanley Cup, and the world's championship for Toronto, joined the blue shirts club at the Queen City Wednesday night and came east. Mumery started on the club point and played, except for one minor penalty, for the full game. The Ottawas, who had been laid up in the west, is not in the best of shape, but he gave a good account of himself under the circumstances, and was certainly effective in stopping the rushes and shots of the Senators. He used his weight to advantage and gave every indication of a strong comeback. Line-Up and Summary. Ottawa (1): Position. Toronto (2): Bennett, Goal. Mumery, Cleghorn, Point. Cameron, Coverpoint. FIRST DEFEAT FOR THE GOOD SEATTLE TEAM

Seattle, Jan. 9.—Eddie Oatman, captain of the Victoria Hockey Club, arose from a sick bed and led his players to a victory over the Seattle team last night in a struggle which kept the full house of fans cheering from the moment referee Richard Pickett blew the whistle until the bell ended the final period. The score was one to nothing. Despite the fact that they had lost their opening game, the Canadians dished up a brilliant brand of hockey in their first game in the local rink and they deserved the honors. The Vics, made one of their usual hitting rallies in the final minutes and threatened to sink the marker, which would even the score, but the Seattle goal tending by Murray and excellent round defensive work by the winners sealed a score. The line-up: Seattle: Position. Victoria: Holmes, Goal. Murray, Johnson, Defence. Johnson, Walker, Rover, Oatman, Morris, Left wing. Dundas, Wilson, Right wing. T.C.B. Popson, Sub. Wing. Ha. Hour. First period—No score. Second period—No score. Third period—No score. First period—Morris, Seattle, 3 mins. T.C.B. 2 mins. Second period—None. Third period—None. First period—None. Second period—Murray for Rowe; Rowe for Murray. Goal umpires—McKittick and Grindley.

Maitlands ARE EASY FOR WEST END PADDLERS

Canoists Score Ten Goals in Junior Fixture — New Player Good.

Parkdale juniors made a light lunch of the Maitland team in their scheduled O.H.A. fixture at the arena last night. The paddlers won 10 to 1 and should have been credited with a whitewash. Workers pulled the only goal chalked up for the north-end club into his own net in the opening period. The P.C.C. outfit worked like a smooth machine. They now have the team-play down and should give Aura Lee a great battle when they meet. The water dogs showed a new boy in Cain at right wing. Here the finishes article and will easily hold his job. Maitlands best card was forced to retire in the second period. Rusty Ross collided with Jess Spring and was unable to continue. Walden was the pick of the Maitland forwards. He was shooting in deadly earnest. Workers turned them all but Gosler Stone was below par on his starting in the P.C.C. game and he was in many before he could get rid of them. Hueston, who subbed for the winners, turned in a nice game. His checking and stick-handling was one of the features. McCurry and Green worked well together and Jess Spring was a strong rusher. Ross was late in arriving and the game was held up. Only a few fans were on hand. The teams: Parkdale—(10). Maitlands—(1). Workers—Goal. Stone—Stones—Defence. H. Burt—Cain—Right. Waldron—McCurry—Left. Burt—Hueston—Sub. Plaxton—McKinnon—Sub. Lawson Whitehead. The summary: Parkdale—Goal 10.00 2—Parkdale—Cain 1.00 3—Parkdale—Green 2.00 4—Maitlands—Green 3.00 5—Parkdale—Hueston 4.00 6—Parkdale—McCurry 5.00 7—Parkdale—Green 6.00 8—Parkdale—McCurry 7.00 9—Parkdale—Green 8.00 10—Parkdale—Green 9.00 11—Parkdale—Green 10.00 Willard Box of the Dentals has been agreed upon as referee of the U.T.S. St. Michaels Junior O.H.A. game at the arena this afternoon when the arena is the first game in the "Prep School" group. At a meeting of the executive committee of the Beasches Hockey League, held at the Casino A.C. on Tuesday night, the following schedule was drawn for the eastern group of the senior series, owing to the first draft not being satisfactory to all the clubs concerned: Jan. 14—Riversdale at Atheneums, 8.30. Jan. 15—Beasches at Classics, 8.30. Jan. 16—Atheneums at Beasches, 8.30. Jan. 21—Classics at Riversdale, 8.30. Jan. 22—Atheneums at Classics, 8.30. Jan. 25—Riversdale at Beasches (Saturday afternoon), 2.30. Jan. 27—Classics at Beasches, 8.30. Jan. 28—Atheneums at Riversdale, 8.30. Jan. 30—Riversdale at Classics, 8.30. Jan. 31—Beasches at Atheneums, 8.30. Feb. 4—Classics at Atheneums, 8.30. Feb. 4—Beasches at Riversdale, 8.30.

Military Skating Carnival Tonight

The military skating of the season will be the skating carnival at the arena tonight, the 10th Regiment, Brig.-Gen. Gunn will be present with headquarters staff and visiting American officers. Mr. Herbert Locke will have all the best artists of the Toronto Skating Club perform. The fastest skaters will represent their speed and the hockey players will represent their ice in uniform. These events, with the fancy dress parade, the burlesque hockey match between the Aura Lee and Belmont ladies' teams, and public skating, with full military band, should make a great night's entertainment.

PHASE OF ENGLISH LIFE NOW GONE

"Sporting Life" is Melodramatic Souvenir of Pre-War Sport.

Showing a phase of English life that, owing to the recent stress of the war, may never be seen again, "Sporting Life," Maurice Tourneur's pictureization of the famous Drury Lane melodrama which scored so heavily two decades or more ago, and which is playing at the Allen this week, has been declared by the public and newspaper critics to be one of the greatest motion picture spectacles yet produced.

The scenario by Winthrop Kelley departs from the original play only in the elaboration of detail. The general outline is not disturbed, the plot concerning itself with Louie Woodstock's winning of the Derby with his mare Lady Love, and his stepping into the prize ring to take the place of a pugilistic "unknown" whom he had backed heavily and who had been drugged through the agency of an adventuress at the instigation of her husband, who is Woodstock's deadly enemy. The entire story, in fact, has to do with the attempt of this man, De Carteret, to ruin Lord Woodstock.

The romantic element is provided by the earl, who is in love with the daughter of his chief trainer. Her sister loves Louie, a prize fighter, and when she attempts suicide her father, on learning the truth, becomes the willing tool of Mrs. De Carteret in doping Louie to make him stop into the ring. Lord Woodstock takes his place and not only wins the fight, but thousands of pounds as well. The next day his horse wins the Derby and the ruin of De Carteret is complete.

The production is a notable one from every angle, the cast being of an exceptional degree of excellence. The principals are Ralph Graves, Warner Richmond, Charles Craig, Constance and Fair Binney and Willette Kershaw.

ELECTRICIANS EXPRESS DISGUST. Another union has gone on record as expressing the utmost disgust at the inroads of Bolshevick propaganda in Toronto, the Electrical Workers' Union, local 353, which last night passed a resolution without a dissentient vote, placing itself on record as "being opposed to the Bolshevick propaganda emanating in the District Trades Council, and expressing its disgust at the unjust, untrue and scurrilous attack made on the soldiers of the Canadian expeditionary force."

This resolution had reference to a Bolshevick occasion, firstly, when a radical was alleged to have said that the soldiers who lay now in Flanders field had accomplished nothing but to grow grass over these fields, and secondly when a forger at a recent meeting of the open forum rose to say that most of the returned soldiers who complained of inadequate pensions were in need really of examinations as to their brains.

MUST GO FORWARD. Women's Christian Temperance Union committee who have planned to cover the city for a 2,000 membership increase, completed arrangements at Willard Hall yesterday. The work will begin on Monday, Jan. 13.

CANADA IS ARRANGING SALE OF WHEAT CROP. Ottawa, Jan. 9.—Negotiations for the sale of the 1919 wheat crop are now under way in London between Canadian representatives and the British authorities. Official advice so far as to the conveyance of a definite agreement having been reached. J. A. SMELTERS MAKES STRIKING RECOVERY

Stock Rallies Almost Four Points—Fresh Advances by Bank Shares.

Consolidated Smelting easily overcame other stocks on the Toronto Exchange yesterday, this issue continuing considerably more than one-half the day's unusually large aggregate of 2448 shares, and rallying in such an impressive manner as to recover the ground lost recently.

In the bank shares, Commerce was again to the fore with a further rise of 3-4 to 215. The stock is now 30 points above the level at which it had rested until a few weeks ago.

At the annual meeting of the Central Canada Loan and Savings Company the president, E. R. Wood, reported earnings for the year of over \$200,000, which, together with a balance brought forward from last year, opened profit and loss account, made a total amount available for distribution of \$276,898.12, compared with \$258,514 the year previous.

RUSH TO GET WORK IN PORCUPINE CAMP

Reports from Porcupine are that men seeking employment are pouring into the gold camps. In the Porcupine district it is estimated close to one hundred men are coming to work with indications of this number increasing.

"He Cannot be Seen... He's Ill."

THE Old-Fashioned Executor—the personal executor—was but human; he was subject to illness.

But what happened to the estate meanwhile? A favourable opportunity to sell some of the assets was lost and the estate lost. Beneficiaries needed assistance to which they were entitled under the will. They had to wait until the executor was well.

It was not the fault of the personal executor. It was his misfortune. But that did not lessen the loss to the estate and to the beneficiaries.

No such risk exists if this Company is appointed executor. There is always someone available to attend to the estate's business.

Write for our booklets about Executorship.

MINING MARKET SHOWS STRENGTH

McIntyre at Highest Point in Nearly Two Years—Crown Reserve Advances.

The mining market continued steady to firm yesterday, with particular interest shown in McIntyre, Hollinger and Keora of the gold group, and in Crown Reserve and Timiskaming of the silver list. It cannot be said that any broad demand has developed of late. It is equally true that the better class issues are being held up and that, despite the sharp advances scored in the past two or three months, holders of stocks are showing confidence that better things are in store.

NIPISSING IS LEADER AS SILVER PRODUCER

During the past year the leading silver producer of the Cobalt camp was the Nipissing Mining Company, which took the lead as the largest silver producer in the British Empire from the Mining Corporation of Canada.

McKINLEY'S NEW VEIN IS STANDING UP WELL

Cobalt, Jan. 9.—The new high-grade vein cut early this week at the 300-foot level of the McKinley-Darragh mine is standing up well. So far three rounds of shots have been taken out and the vein has been found to range from one to about two inches in width.

NEW YORK CURB.

Closing prices yesterday in the Cobalt and Porcupine stocks on the New York curb, as supplied by Hamilton B. Wills in the Royal Bank Building, were as follows:

ROYAL BANK WILL ENLARGE INTERESTS

South American Branches to Be Opened—Increase in Capital Stock.

Two announcements of special interest were made at the annual meeting of the Royal Bank of Canada, held in Montreal yesterday. One was the effect that the capital stock would be increased to the extent of \$2,000,000, and the other was that three South American branches would be established immediately, namely, at Rio de Janeiro, Brazil; Buenos Aires, Argentina; and Montevideo, Uruguay.

BANK CLEARANCES

Toronto bank clearings for the week ended yesterday were \$32,352,266, as compared with \$31,395,261 for the corresponding week last year.

PITTS IS ADVOCATE OF UTILITIES BOARD

In a letter addressed to the shareholders of the Toronto Railway Company, H. H. Pitts, of Ottawa, a director, advocates shareholders of all public utilities getting together to remove the possibility of the hand of "civic politics" reaching into street railway operation. He suggests that public utilities should be placed in the hands of an independent commission, appointed either by Dominion or provincial governments, which would see that the public obtains "service at cost."
