BECK BY GUELPH, THREATENS THE CITY WITH A JUNCTION

Sir Adam Says Hydro Will Fight Radial Agreement, Even if Bylaw Carries.

Ottawa, Aug. 5.—In an address which lasted for more than two hours, Sir Adam Beck, chairman of the Hydro-Electric Power Commission, before an audience which packed the Griffin Opera House to the roof, dealt with the agreement which has been entered into between the Grand River Railway and the city of Guelph where, by the former takes over the operation and management of the Grand Radial Railway for a period of 40 years, and agrees to construct a radial line from Guelph to Hespeler and Puslinch Lake at a cost of \$400,000. He characterized the whole agreement as being absolutely illegal, and stated in positive terms that even if the bylaw carried on Monday next the Hydro-Electric Power Commission would refuse to give its consent and would even go so far as to prevent by injunction the mayor from signing it. He made it clear that he was not to forget any agreement of this kind and was prepared to stay in Guelph from now until the vote was taken to defeat it.

Will Block Toronto Lines.

He also wanted the ratifiers of Guelph to understand that until the city of Guelph had signed the resolution making the city responsible for \$74,000 at 10 per cent. over and above what was voted in 1917, the Hydro radial project in so far as the line from Toronto to London was concerned, would be blocked and no progress could be made until the agreement of the streets of the city would be given over entirely and absolutely to the C.P.R. and that the Hydro or any other railway could not come in without their consent. He told his audience that the attempt to submit to the people in January next the question of the \$74,000 could not be done legally, that it would have to be passed by the city council or not at all.

Sir Adam who came here at the instance of the Trades and Labor Council, was well received, and given a splendid hearing. His remarks being frequently applauded. Thos. McPherson, president of the Trades and Labor Council, occupied the chair, and other members of the Trades and Labor Council, occupied seats on the platform as well as Controller Halowan and Gordon Nelson of Hamilton, both of whom spoke briefly.

Says Back Statements False.

At the conclusion of Sir Adam's address Mayor Carter was called upon, but as it was then 11:20, he considered it too late to detain the audience and said he would reply to Sir Adam fully at a later date.

HUSBAND AND WIFE KILLED BY TRAIN

Aged Couple Fail to Hear Warning at Level Crossing.

John Cassidy Bell, aged 70 years, and his wife, Maria Elizabeth Bell, walked in front of a northbound yard engine at the C.P.R. level crossing at the Winchester bridge, Riverdale Park, at 6 o'clock last night and were killed. The old couple did not hear or see the signal of warning given by the trainmen, and they were struck by the engine before the emergency brakes brought the locomotive to a standstill. The yard engine was reversed and was going backwards when the accident happened. Bell was caught in the wheels and several cars mangled his body before the train stopped. Mrs. Bell was struck on the side of the head and thrown to the east side of the tracks. Her skull was fractured and she died 15 minutes later.

Mrs. Bell was dead when his body was removed from beneath the cars. They were identified by registration cards found in their possession. Mr. Bell's card gave his home address at 108 Harvie avenue, Toronto.

Hard of Hearing. Riverdale Park and had crossed the bridge and were walking behind standing freight cars. It is the belief of the police that they were hard of hearing and failed to notice the approaching train. The engine was taking cars up the yard and was in charge of Engineer Thomas Darcy. Burwash street station, saw both people and the whistle. Several seconds later he saw them in front of the train and applied all brakes.

Witness H. H. Harvisey, 624 Logan avenue, was at the window on the right hand side of the cab when the train passed the crossing. Amos Samis, 90 Cambridge avenue, was on duty at the crossing, and in a statement to the police he said that he was waving the flag at the crossing several minutes before the train approached. When he saw Mr. and Mrs. Bell walking out on to the tracks he said he called out to them to turn back, but that they did not seem to hear or see him.

The police removed the bodies to the morgue, where an inquest will be conducted today.

COST OF LIVING MAN CONTRADICTS OTHERS

Ottawa, Aug. 5.—The cost of living commissioner makes the following report regarding woolen and worsted clothes for suitings and overcoats: Following my report of June 7, the retail trade made vigorous attack on the assertions contained therein and sought to have the cost of living committee of the house disprove the facts of the same. In the evidence brought out before the committee my assertion was fully substantiated that the Canadian manufacturer cloth for suits to be sold during this fall was sold by our manufacturers this spring at prices 8 to 10 per cent. below their previous lists. Moreover, our domestic manufacturers submitted samples of goods made of very high quality and equal to many of the lines imported from England and previous to the war. It was brought out in testimony before the committee that the three and one-half yards of the finest domestic material necessary to make a suit of clothes only amounted to \$17.50 at the cloth manufacturers' prices. The goods purchased in the United States covering the same period showed an even greater decline in price than the Canadian over the previous sales.

OPPOSE INCREASE OF MINISTERS' PAY

Disent in British House to Proposal, and Consideration of Measure Postponed.

London, Aug. 5.—The government bill which seeks to raise the salaries of five cabinet ministers in amounts ranging from \$2,000 to \$2,500 each and increase the salaries of a number of under-secretaries was strongly opposed in the house of commons to-night. Sir Donald Macleod, national Liberal, declined to give his consent to the measure until the government had declared its policy with regard to a reduction in the government department to what he considered a scale conducive to national efficiency and economy. Other members reproached the government for showing a bad example when economy was declared to be imperative, and said the measure would lower parliament in the estimation of the people.

INDUSTRIES MENACED BY THREATENED STRIKE ON RAILWAYS OF U.S.

Mills, Mines and Factories Will Have to Close if Walk-Out Materializes—Shoppers Refuse to Obey Their Executive—200,000 Cars Are Reported Out of Commission.

Washington, Aug. 5.—The threat of a railroad strike continues to spread throughout the country despite the efforts of the organized heads to hold the men in check until authoritative official strike votes can be taken. Shoppers everywhere are throwing down their tools in premature strike. Above that hovered the threat of an even more serious labor situation, the demand of all the organized railroad unions, that the profits of the business be overhauled, to retire government capital and to create a new tripartite control.

Reports begin coming in today saying that unless railroad equipment can be kept in running order, mills, mines and factories will be threatened with closing. It was reported that there are more than 200,000 cars now out of commission.

Threats of hundreds of thousands of railroad employees to go on strike to force higher wages to meet the high cost of living were reiterated. From many parts of the country, today came reports that striking shippers refused to return to work despite the fact that their action was denounced as illegal by the executive council of the six shop crafts. Strike ballots were mailed from the A. F. of L. for taking an official vote as to whether they would return to work or walk out to obtain their demands and express their disapproval of President Wilson's reference of the railway wage question to the arbitration board.

LIVERPOOL FACES ANOTHER STRIKE

Civic Employees Threaten to Go Out Unless Tramway Demands Are Granted.

Liverpool, Aug. 5.—The municipal employees at a meeting tonight decided to give 24 hours' notice of strike unless the demands of the striking tramway men are immediately granted. A meeting of the trade union organizations of all lines of industry tonight appointed a general strike committee which will meet on Wednesday. Tom Mann, president of the Workers' Union attended the meeting. The speakers generally supported the police strikers.

DRUG PEDDLERS GET TERMS IN BURWASH

Louis Clannahan, colored, and Albert Gouley, drug peddlers, arrested Sunday by Plainclothesmen Ward and Clarkson, were sentenced in police court yesterday morning to serve 18 months each at Burwash. Before passing sentence Magistrate Denison said, "These drugs are destroying the health of our people, while men like you are taking the money into your pockets over it." Crown Attorney Corley remarked, "Hundreds of our soldiers had to be sent home from England because of the use of drugs." The magistrate imposed a fine of \$100 or one year, plus a term of six months, for each prisoner. The \$100 fine and sentence will be 18 months each.

BRITAIN TO ISSUE FOOD RATION BOOKS

Much Public Comment Caused by an Announcement of Government's Intention.

London, Aug. 5.—The food situation is giving a good deal of anxiety, and the announcement that the government intend to issue ration books next month has caused much public comment. Meantime the agitation on the part of the public has been growing and will force government action.

MORE CABINET CHANGES MAY YET BE ANNOUNCED

General A. E. Ross, M.L.A., Slated for Ministry of Civil Re-establishment—Drayton for Railways Later.

Special to The Toronto World. Kingston, Aug. 5.—The resignation of W. F. Nickle of his seat in the commons has stirred up things here and the political question asked on their long sleep and are now engaged in lively gossip regarding what will happen next. "What is the matter?" is the general question asked on all sides. Mr. Nickle had been most aggressive, independent and fearless, and his work met with the approval generally of citizens; and his dropping out has come like a bolt from the blue, as it was thought he would continue with the business market will undoubtedly be more pronounced from now on.

THE FEDERAL MOVIE SHOW.

The political movies are still coming over the reel. Hon. Dr. Reid as the political messenger of Sir Robt. Borden appeared in Kingston on Monday at a luncheon where W. F. Nickle, M.P., announced that he had resigned his seat in the commons in Kingston, in Mr. Nickle's place. All of which is quite a movie. But what about Mr. Nickle's "highest place"? Perhaps they are to trade jobs and Mr. Nickle to go back to the legislature with the possibility of taking Sir William Hearst's place after the election. Certainly Dr. Reid and Hon. Mr. Cochrane are much concerned about Premier Hearst, about the call for a provincial election, most of all over the rumor of an independent Conservative opponent of the premier in the constituency of Sault Ste. Marie! But we do not think that Europe is not going to take these supplies off our hands unless we decide to accept wadded money in payment. It is hardly necessary to emphasize the apparent fact that these readjustments are constructive and that a speedy and satisfactory solution of the labor problem is also likely thru the same developments.

BOY PRESENTS BABY TO POLICE INSPECTOR

Inspector Bond of West Dundas street station was presented last night with a three-month old baby by a young boy, 35 Woodcrest avenue. It appears that the parents left the child, and the boy decided to hand it over to the police. Inspector Bond sent the infant to the shelter, where admittance was refused as the child was said to be no more than a few days old. The boy is to be admitted. While the police are investigating the case, the baby will be cared for by the attendants at the Infant's Home.

LIBERAL CONVENTION OPENS IS OFF TO A GOOD START

British Labor Situation Is Again Becoming Acute

A Thousand Delegates Present When the Temporary Chairman Calls Big Meeting to Order—Eliminating Dark Horses in Leadership Race.

Ottawa, Aug. 5.—The big national Liberal convention got off to a good start this morning. Fully a thousand delegates were in their places when Hon. Charles Murphy called the convention to order. They came from every parliamentary riding in Canada and are on the whole representative men, some of the provincial premiers may have come here reluctantly, but they are here to stay and are taking an active part in the work of the convention.

By a Staff Reporter. The Liberal convention got off to a good start this morning. Fully a thousand delegates were in their places when Hon. Charles Murphy called the convention to order. They came from every parliamentary riding in Canada and are on the whole representative men, some of the provincial premiers may have come here reluctantly, but they are here to stay and are taking an active part in the work of the convention.

Now as to the leadership. The rules adopted today are designed to head off dark horses and to ensure that any candidate must be placed in nomination before the first ballot. Any candidate placed in nomination may withdraw, but no candidate who has been adopted must be unblanketed after the balloting begins. This may have the effect of shutting out the most vigorous of Saskatchewan, and may narrow the race to a contest between Hon. W. S. Fielding and Hon. George F. Gahagan. Judge J. B. McKinnon, who has been considered a formidable candidate, and it is believed that Hon. Sydney Fisher will develop his greatest strength as the first ballot. Some of the most interesting developments this morning for Hon. Mackenzie King, many delegates pressing forward at the noon adjournment to introduce themselves and other proposals reported from the committee on resolutions. The voting for the leader will not take place before Thursday.

Winipeg, Aug. 5.—H. A. Bray, returned soldier and Winnipeg strike leader, on trial for conspiracy, declared on June 10 last that he had a fully organized band of 3,000 to 4,000 men, ready to take up arms at a given signal. A. A. Hoops, labor organizer of the city of Winnipeg, who is on trial with Bray and six other labor leaders, knew of the plan. This was the sworn evidence of Detective W. H. McLaughlin of the Northwest Mounted Police, in court here today. McLaughlin testified in part, as follows: "In the course of my conversation with Bray he stated that this affair was going to end in a fight and when I lamented the fact that we had no arms, Bray said: 'Don't worry about guns, we'll have them. We have got between three and four thousand men ready and instructed to be in certain places when the alarm is sounded and they will get into the citizens cars which are to carry the militia to Minto barracks, pass themselves off as militia men until they get inside the barracks, get possession of the arms and then they will open fire.'"

PRICES AT CHICAGO ARE STILL FALLING AND CLOSE PANICRY

Dealers Say High Cost of Living Bubble About to Burst. Grain and provision prices crashed again in the Chicago market yesterday, and the panic close showed losses of from five to seven cents in oats futures and about two cents in oats futures while there was a decline in pork from \$48 to \$44.50. In the New York cotton market there was also heavy selling and prices broke sharply. On all sides it is realized that the U.S. government's threat to bring commodity prices down is not an idle warning. The grain market was closed yesterday by a South Dakota Congressman that the alternative to a reduction in the cost of living is a revolution in the government of the temper of the debate.

Wires and market letters being sent out by stock and grain brokers express their opinion that the highly inflated cost-of-living balloon is about to burst. In this connection the review of business conditions by Coleman and Reize, New York, is of interest. It says: "We have apparently emerged from a period of academic abstractions and progress in the domestic business markets will undoubtedly be more pronounced from now on. The ostrich attitude of ignoring the fact that there is an over-supply of most commodities is also an error and it is to be hoped that the present readjustment in foodstuff prices will extend to the entire commodity list. We now realize that Europe is not going to take these supplies off our hands unless we decide to accept wadded money in payment. It is hardly necessary to emphasize the apparent fact that these readjustments are constructive and that a speedy and satisfactory solution of the labor problem is also likely thru the same developments."

WINNIEG STRIKERS HAD PLAN TO GAIN CONTROL OF MILITIA

Winipeg, Aug. 5.—Mantoba will harvest approximately 45,000,000 bushels of wheat this year, according to an estimate given out by Hon. V. Winkler, provincial minister of agriculture. He predicted the average yield will be fifteen bushels to the acre. The wheat acreage of the province is said to be nearly 3,000,000 acres. Estimating the price of wheat at \$2.25 per bushel, Manitoba's wheat crop this year will be worth \$101,250,000, as compared with \$112,710,000 last year, when the yield was 1,600,000 bushels, and the price \$2.21 per bushel. Red rust is reported in a number of Manitoba districts.

STEPS ARE TAKEN IN U. S. TO REDUCE COST OF LIVING

Hoarders and Profiteers to Be Punished, and Wheat Guarantee Maintained.

Washington, Aug. 5.—The following decisions were reached today by the government officials working to reduce the cost of living and allay the country's unrest: President Wilson decided to address a message to congress recommending additional legislation to aid in reducing the cost of living.

Agents of the department of justice were ordered to ferret out all hoarders of necessities and profiteers throughout the country. They are to be prosecuted under the food control act.

Dr. Julius H. Barnes of the grain corporation decided to maintain the government's guarantee on wheat at 22 1/2 cents a bushel as a "reserve protection against a higher price later."

At the conclusion of the day's activity by the president, the sub-committee of the cabinet appointed by Attorney-General Palmer and by the attorney-general himself, announcements were made of the immediate steps to be taken and of the government's wheat policy.

In a lengthy statement showing why the price of wheat would rise but for the government's guarantee, Director Barnes promised a readjustment of farm prices at the expense of the national treasury, as authorized by congress, if later developments indicated a world price for wheat lower than the guaranteed basis.

To Reduce Flour Prices. Immediate steps will be taken by the Grain Corporation to sell standard export flour in every community of the country in carload lots at a price not greater than the price of the same grade of flour in the open market.

YORK COUNTY AND SUBURBS

WOODBINE HEIGHTS BLAMES SIR ADAM

Session of York Township Council Lively on Electric Question.

That the Hydro-Electric Power Commission of Ontario, thru Sir Adam Beck, were responsible for the hold-up in electric installation throughout the Woodbine Heights and northern Danforth districts, and that the township authorities were given to understand that Sir Adam would see them thru financially, were some of the outstanding statements made at yesterday's session of the York township council.

And by the way it was a lively meeting in spots, the Woodbine Heights speaker in force and pressing their complaints straight from the shoulder. President Beck asked to withdraw one of the resolutions introduced and scored the council for alleged delay, but C. Curtis, who is the township clerk, said that the council were elected to represent the people and that if something was not done right off the bat they would start a campaign for the election of new men who would do something.

The latter statement brought forth an angry remonstrance from Deputy-Reeve Graham and Reeve Miller, and cries of withdrawal were made by the members. Deputy-Reeve MacDonald moved that the Hydro-Electric Commission and the other members be asked to withdraw the table. Later the objectionable remark was withdrawn and harmony restored.

The reeve stated that the delay related to the Hydro-Electric Commission and that yesterday a letter had been received from them regretting that they had not been able to attend the meeting. The letter advised the sale of debentures and the immediate prosecution of the work. This will be done at once, the money being having already been adopted by the council.

The reeve pointed out that northern Earlscourt, with a much greater population, were asking for nothing in the way of a guarantee. He said that he had been in the fence somewhere, but nothing now would stand in the way.

An immediate routine business was put thru in respect to road improvement, sidewalks, sewers, lighting in other parts of the township and a thousand and one things.

The Toronto Fire Department acknowledged a cheque for \$100 for the superannuation and benefit fund for services rendered in the township. The Mount Dennis board of health want more conveniences for the payment of taxes and better medical inspection.

EARLSCOURT LATE REGINALD ELWELL LAID TO REST

An impressive funeral service was held in the Central Methodist Church yesterday afternoon when the associate pastor, Rev. E. Crossley Hunter, conducted the service for the late Reginald Elwell, who was drowned at Niagara-on-the-Lake last Saturday.

Elwell was an only son and was a very active and beloved member of the young men's Bible class, over which Mr. S. J. Ashbury presides from week to week. Mr. Hunter spoke in kindly terms of the work done by this young man, holding him up as an example to others.

Elwell was a member of the Earlscourt Cemetery. His remains were laid to rest in Prospect Cemetery.

WILL ASK CONTROLLERS FOR DISTRICT PARK

An Earlscourt deputation will go to the board of control this morning to place before the mayor and councillors the immediate action of the park for the people of Earlscourt. The deputation will be introduced by Ald. Brook Sykes and the other aldermen for this ward will support the efforts of the members of this deputation.

Unless the board consents to purchase the land, the deputation will be forced to ask the mayor to purchase the land. The deputation will be introduced by Ald. Brook Sykes and the other aldermen for this ward will support the efforts of the members of this deputation.

G.W.V.A. DECIDE ON PICNIC

The Earlscourt G.W.V.A. have decided to have a picnic to Wabasso Park, Hamilton, on August 14 to 15. It was one of the best games seen in the tournament, and both sides were highly complimented on their skillful work throughout.

SAVING THE WORLD SALESMEN SHOWS NECK AND NECK RACE

One Hundred and Fifty Members So Close That One or Two Subscriptions Would Make New Leaders—New Members Can Easily Reach the Top.

Corporal Macklin of district five, of the city of Toronto, is leading the list of members of the Salesmanship Club, according to the published list today, having 23,000 credits.

At least one hundred and fifty other members are so close behind that from one to three or four subscriptions separate them from the five leading positions. Even those farther down the list, down as low as two hundred, and fifty from the lead, are not so far behind that a little extra effort cannot put them over the top.

There was one new entry yesterday, Mr. A. Smerdon, who enters in the third district with 23,000 credits right from the jump. The chances are that before the week is over he will be among the leading contenders.

All of which goes to show that the big prize race is still anybody's game and that even to the end of the race there is less than a month away there is not a position in the list that is as by any means secure. Quite to the contrary, there is an excellent possibility of someone from the bottom of the list or, for that matter, a newly-entered member to suddenly get up steam and step into a leading position with the winning stride that will spell success on August 20 when the campaign ends.

The extra award is put up in two lots of \$100 each. Out-of-the-city members can compete for \$200, \$150 and \$50, which go to the three members outside of the city of Toronto who turn in the greatest, second and third greatest number of credits between August 4 and August 20, inclusive. Another set of prizes, \$200, \$150 and \$50, are for the first, second and third biggest showings during the campaign.

Members should not lose track of the value of extension subscriptions at this time. Extension subscriptions are further subscriptions from new subscribers already secured. For the benefit of any who might not understand these, it might be explained as follows: If a member got a three months subscription early in the campaign and can now get another subscription from the same party, making the total subscription one or two years, the member gets the difference between the number of credits already earned and the extension credit.

For instance, a three months' subscription in the city of Toronto turned in some time ago earned 1,500 credits. This subscriber is induced to pay another nine months, making a year in all. The member turning in the 1,500 already earned, or a year and a half, gets the extension credit secured. Now, if the extension is secured at one year, or whatever the extension might be.

YORK COUNTY AND SUBURBS

WOODBINE HEIGHTS BLAMES SIR ADAM

Session of York Township Council Lively on Electric Question.

That the Hydro-Electric Power Commission of Ontario, thru Sir Adam Beck, were responsible for the hold-up in electric installation throughout the Woodbine Heights and northern Danforth districts, and that the township authorities were given to understand that Sir Adam would see them thru financially, were some of the outstanding statements made at yesterday's session of the York township council.

And by the way it was a lively meeting in spots, the Woodbine Heights speaker in force and pressing their complaints straight from the shoulder. President Beck asked to withdraw one of the resolutions introduced and scored the council for alleged delay, but C. Curtis, who is the township clerk, said that the council were elected to represent the people and that if something was not done right off the bat they would start a campaign for the election of new men who would do something.

The latter statement brought forth an angry remonstrance from Deputy-Reeve Graham and Reeve Miller, and cries of withdrawal were made by the members. Deputy-Reeve MacDonald moved that the Hydro-Electric Commission and the other members be asked to withdraw the table. Later the objectionable remark was withdrawn and harmony restored.

The reeve stated that the delay related to the Hydro-Electric Commission and that yesterday a letter had been received from them regretting that they had not been able to attend the meeting. The letter advised the sale of debentures and the immediate prosecution of the work. This will be done at once, the money being having already been adopted by the council.

The reeve pointed out that northern Earlscourt, with a much greater population, were asking for nothing in the way of a guarantee. He said that he had been in the fence somewhere, but nothing now would stand in the way.

An immediate routine business was put thru in respect to road improvement, sidewalks, sewers, lighting in other parts of the township and a thousand and one things.

The Toronto Fire Department acknowledged a cheque for \$100 for the superannuation and benefit fund for services rendered in the township. The Mount Dennis board of health want more conveniences for the payment of taxes and better medical inspection.

EARLSCOURT LATE REGINALD ELWELL LAID TO REST

An impressive funeral service was held in the Central Methodist Church yesterday afternoon when the associate pastor, Rev. E. Crossley Hunter, conducted the service for the late Reginald Elwell, who was drowned at Niagara-on-the-Lake last Saturday.

Elwell was an only son and was a very active and beloved member of the young men's Bible class, over which Mr. S. J. Ashbury presides from week to week. Mr. Hunter spoke in kindly terms of the work done by this young man, holding him up as an example to others.

Elwell was a member of the Earlscourt Cemetery. His remains were laid to rest in Prospect Cemetery.

WILL ASK CONTROLLERS FOR DISTRICT PARK

An Earlscourt deputation will go to the board of control this morning to place before the mayor and councillors the immediate action of the park for the people of Earlscourt. The deputation will be introduced by Ald. Brook Sykes and the other aldermen for this ward will support the efforts of the members of this deputation.

Unless the board consents to purchase the land, the deputation will be forced to ask the mayor to purchase the land. The deputation will be introduced by Ald. Brook Sykes and the other aldermen for this ward will support the efforts of the members of this deputation.

G.W.V.A. DECIDE ON PICNIC

SAVING THE WORLD SALESMEN SHOWS NECK AND NECK RACE

One Hundred and Fifty Members So Close That One or Two Subscriptions Would Make New Leaders—New Members Can Easily Reach the Top.

Corporal Macklin of district five, of the city of Toronto, is leading the list of members of the Salesmanship Club, according to the published list today, having 23,000 credits.

At least one hundred and fifty other members are so close behind that from one to three or four subscriptions separate them from the five leading positions. Even those farther down the list, down as low as two hundred, and fifty from the lead, are not so far behind that a little extra effort cannot put them over the top.

There was one new entry yesterday, Mr. A. Smerdon, who enters in the third district with 23,000 credits right from the jump. The chances are that before the week is over he will be among the leading contenders.

All of which goes to show that the big prize race is still anybody's game and that even to the end of the race there is less than a month away there is not a position in the list that is as by any means secure. Quite to the contrary, there is an excellent possibility of someone from the bottom of the list or, for that matter, a newly-entered member to suddenly get up steam and step into a leading position with the winning stride that will spell success on August 20 when the campaign ends.

Members should not lose track of the value of extension subscriptions at this time. Extension subscriptions are further subscriptions from new subscribers already secured. GRANTS ANNOUNCED TO BRITISH LEADERS

Allenby to Be Made Viscount, and Other Generals to Be Given Baronetcies.

London, Aug. 5.—Field Marshal Sir Douglas Haig and Admiral Sir David Beatty will be created earls, in recognition of their war services, it was announced here today.

General E. H. H. Allenby will be made a viscount.

General Sir Herbert Plumer, Sir Henry S. Rawlinson, Sir Julian Byng and Henry S. Home will be given baronetcies.

In addition to these honors, large grants of money for many of Great Britain's land and sea heroes were recommended by King George in the house of commons today.

The recommendations, made in accordance with time-honored customs, were as follows: To Field Marshal Sir Douglas Haig and Admiral Sir David Beatty, one hundred thousand pounds; to Field Marshal Viscount French, British commander in France and Belgium in the early years of the war, and General E. H. H. Allenby, the conqueror of Palestine, fifty thousand pounds sterling.

ARMED LABORERS HELD IN PARIS

Found With Revolvers and Knife Near Residence of Premier Clemenceau.

Paris, Aug. 5.—Two laborers, one of whom had two revolvers and the other a large knife, were arrested yesterday near the residence of Premier Clemenceau by detectives, who said their manner excited suspicion.

As they were being taken to the police station, a detective said, the men offered money for their release. When they were questioned they gave their names as Ernest Vallee and Alexander Bonnard. They said they had an engagement with friends and relatives at a cafe in the street where M. Clemenceau resides.

The men were held for trial on charges of carrying concealed weapons and attempted bribery. Vallee, the police stated, is believed to be a deserter.

Report Galt Girl Missing; Had Started to Sunday School

Special to The Toronto World. Galt, Aug. 5.—Leaving the home of her employer, Harry Horton, a farmer, living on the Stone road, on Sunday afternoon for the purpose of attending Sunday school in the city, Doris Halsall, aged seventeen, dressed in white, has not been seen since, and while search is being made for her, no trace of her had been obtained up to tonight.

ITS EFFICACY

"Do you guarantee this hair tonic?" "Absolutely, sir," replied the druggist. "Six bottles of it will produce delirium tremens, or your money cheerfully refunded."

WILL SEND MISSION TO HUNGARY'S CAPITAL

To Investigate Changed Conditions as Result of Rumanian Occupation.

Paris, Aug. 5.—The supreme council of the peace conference has decided to send an inter-allied military mission immediately to Budapest to make a full investigation of conditions there.

This followed a discussion of several hours of the changed conditions in Hungary as a result of the entrance of the Rumanian army to the Hungarian capital. It was also decided to partially raise the blockade of Hungary so as to relieve the food situation and enable the new government to stabilize conditions.

The French delegation appear to be greatly pleased by the entry of the Rumanians into Budapest. The French press also voices its gratification. The council has not been advised whether the Rumanians received its request to halt before it actually entered Budapest.

Members of the peace delegation here expressed fears today that the setting up of a stable democratic government in Hungary might be jeopardized by the Rumanian attitude. Vigorous representations, it was said, are being made to Rumanian officials, both at Budapest and Bucharest, but means of communication are so bad that peace conference officials have been unable to learn if their messages are reaching the Rumanians.

TO REBUILD MERCANTILE FLEET

Paris, Aug. 5.—Minister of Finance Louis Klotz was authorized by the cabinet at its meeting today to introduce a bill in the chamber of deputies granting 1,820,000,000 francs for the reconstruction of the French commercial fleet.

GAS COMPANY EXPLAINS WHY RATES ARE RAISED

Claims It is Operating at a Loss, and Increase is Imperative.

A notice is being sent out by the Consumers Gas Company to its customers estimating an increase of ten cents a thousand feet in the price of gas which is to go into effect with the September bills for August gas.

When the last increase was made the city and company agreed that the Finance Commissioner Bradshaw and the city auditor should make an investigation of the company's books.

The city owns 50 shares of the company's stock and the mayor is, by virtue of his office, a member of the board of directors.

The increase is really due to the increased cost of labor, said Arthur Hewitt, general manager of the company, yesterday morning.

The question had never been fully determined, said Mr. Evans, who had been informed by the Hon. Mr. Eshry that it had been settled in the courts.

The next meeting of the society will be held at Sharon, Ont., on Sept. 6, when a special car will be chartered to take the members of the association to that place.

Coal Situation Is Very Serious

Reliable information says Anthracite supply is limited, that price of Anthracite will never again be lower, but is certain to be higher, that the only solution to the problem is Briquettes.

Briquettes have failed to satisfy the public—because they did not hold together while burning. Heat expanded the briquettes and disintegration followed before the dust coal was consumed, causing the fire to choke and the coal dust to fall through the grate.

This disintegration was the result of an impractical bidder. Experiments have been made with starch, molasses, clay, low-grade flour, coal tar, pitch, sulphite liquor, etc., but without success.

Our process, which converts garbage and vegetable matter into a binder, has solved the Briqueting problem. The fibrous nature of the garbage, under our treatment, makes the Briquette harden with age and with heat.

"OAKOAL" gives tremendous heat, a beautiful flame, and burns with an intense red glow for hours longer than any other fuel.

"OAKOAL" in a crude form was used in hundreds of homes in Toronto last winter. It was acclaimed a satisfactory product by many, but because of the makeshift machinery and methods employed last year none of it was up to a standard.

The new process and machinery turns out a homogeneous standard product, that is all we claim it to be. Therefore an investment in this Company is a gilt-edge investment.

"OAKOAL" will keep millions of Canadian money in Canada.

"OAKOAL" will save consumers millions of dollars annually. Those who are fortunate to be among its shareholders will participate in a just proportion of the millions of money OAKOAL will produce.

Scores of people who have investigated OAKOAL and the OAKOAL people have secured stock in the company, among those being well-known heads of Manufacturing, Wholesale and Retail Concerns, Bank Managers, Professional and Scientific men, which makes it conclusive to YOU that OAKOAL is not a mere stock-selling proposition, but an organization headed by practical

business men for the purpose of producing a high-grade fuel to meet the people's needs at a popular price.

There is not and will not be any watered stock. No combinations of interests to freeze out the small investor.

The "OAKOAL" industry is scheduled to become one of the largest and most important of all industries, since the coal situation has reached such serious conditions as to make Briqueting of wastes essential.

Remember OAKOAL is different from any other fuel. Its only competitor is Anthracite coal. Governments have warned the people of the dangers from shortage of Anthracite, therefore, if you would insure your fuel supply and share in the splendid profits and increased values from an Oakoal investment, call at our showrooms at 36 and 38 King Street West, and see proof of every claim made above.

If you cannot conveniently call—fill in coupon and receive complete set of literature carrying full information.

PRINCE OF WALES
STARTS FOR CANADA

King and Queen Accompanied Him on Board, But No Ceremonies Marked Departure.

Portsmouth, Aug. 5.—The Prince of Wales sailed for Canada at 6 o'clock this evening on board the cruiser Renown. There was no ceremony attending the departure of the cruiser. King George and Queen Mary accompanied the prince aboard the Renown, and inspected the guns and honor drawn up on the deck. A farewell luncheon was served on board. There was no speech making, but the King raised his glass and wished the prince a prosperous voyage and a safe return. The royal party, having inspected all the ship's arrangements, ceremoniously returned ashore, the prince accompanying them to the railway station where there was an affectionate leave-taking in the train. The prince stepped out and stood at salute as the train pulled out for London. Then he reboarded the Renown, which sailed immediately.

FEMALE DEFICIENCY
GREATER IN CANADA

The excess of males over females in the Dominion is 497,547, which is an excess percentage of 130 males per 1,000 females, the male population being 3,821,995 and the female 3,324,448. The number of females per 1,000 males is 886, the deficiency of females as compared with males being greater in Canada than probably in any other country. The disparity is especially strongly marked in the western provinces. The last census showed that the number of females per 1,000 males for each province was: British Columbia, 869; Manitoba, 822; Alberta, 873; Saskatchewan, 688; Ontario, 942; New Brunswick, 956; Nova Scotia, 981; Quebec, 980, and Prince Edward Island, 991.

MOONSHINE PLANT
SEIZED BY POLICE

Constables Raid Illicit Distillery in Operation—Seven Barrel Outfit.

The police allege that yesterday afternoon they took possession of a regular distillery in the cellar of the home of Hector Liberty at 97 Eastmain street. Liberty was arrested, charged with manufacturing whiskey. The police seized seven large barrels of "moonshine" and the brewing equipment was removed in the police wagon to the morality department office. Morality Officers Kerr and Massey, who made the arrest, claim that the prisoner had a complete outfit, consisting of a stove used in making whiskey and a "worm" through which the liquid was distilled. The still was not in full operation when the police entered. When the cellar was searched, however, the seven barrels of the ale that they had recently been filled. Strong Stuff. Two of the seven barrels contained 15 gallons each of scotch whiskey, which from an inhaling standpoint was of high alcoholic strength. The other barrels each contained from six to seven gallons. Kerr and Massey stated that the cops could not detect the minute the front door of the house was opened. They found Liberty in the rear of the premises repairing his motor car. After filling a bottle from one of the barrels to use as an exhibit in police court this morning, the officers tapped the barrels and drained the contents down the sewer. It is likely that the police will lay a second charge this morning, as it is illegal for any person to have a liquor still in a private dwelling. The information which led to the arrests was furnished by the Dominion police.

Ontario Rugby Union
Meet Tomorrow Night

Thursday night's meeting of the Ontario Rugby Football Union will take place in room No. 1 at the Central Y. M. C. A., College street, near Yonge. It is not a regular meeting of the union, but one called in order to get an early start on a season that is expected to be the best in the history of the O.R.F.U. The senior club especially are anxious to get a line on just who will make up the older series. The Union officials also want to get together, as there is much reconstruction work to be done. They have carried over to the juniors during the war. Not only do they expect this series to expand the club, but they expect to have a big boom in intermediate and senior Rugby. While the senior series will be the main topic on Thursday some matters concerning the other series will also be talked over. Clubs intending to play in the senior series are expected to have representatives on hand. President DeGruyter will call the meeting to order at 8:15.

Muckleton of Riverdale
Gives Fine Batting Exhibition

Grace Church entertained Riverdale at Variety camp. The feature of the evening was a splendid exhibition of batting by P. Muckleton. E. Raven secured six wickets for 17 runs. Scores: F. Muckleton, c. Wilde, b. Melville, 68; R. Banting, c. Groves, b. Paris, 58; J. Davidson, bowled Groves, 11; J. Wilson, c. Kirkpatrick, b. Groves, 9; H. Gauthier, bowled Melville, 8; M. Simpson, bowled Groves, 8; P. Bland, bowled Groves, 8; C. Kelly, bowled Melville, 8; J. Jepson, l.b.w., b. Groves, 5; C. Muckleton, c. Groves, b. Paris, 5. Extras: 3. Total: 131.

Arrangements Inadequate
At the Local Soccer Grounds

Sporting Editor World: The officials responsible for the arrangements of the matches at the stadium may be able to pick a good footballer when they see one, but in regard to the very first principles in the management of a crowd they are as innocent as any babe in arms. For yesterday's match two prices of admission were charged—50c and 25c. Both stands were well filled and contentment reigned supreme until half-time. Then a change came over the scene—quite half the bleacher crowd left their seats and walked calmly across the playing field, and without one word of protest from any officials, took seats in the more expensive stand. Now, sir, why should a person who had paid 50 cents to be comfortable be crowded up in his seat by a lot of noisy boys, men drinking pop and spilling half of it over their neighbors' trousers, and other persons who had only paid a quarter for their seats? I am now anxious to know how I can obtain from the football association a new pair of trousers, and this proposition of my 50 cents back for the second half of the game. If the association lacks an organizer, why don't they advertise for one? There are plenty of capable men to be had. This may be news to the football association, but nevertheless it is a fact. A Regular.

Hawkins, the King's Prize Winner,
First in Aggregate at Irish Shoot

There was a big turnout of local rifle-men at the annual matches (open to all comers) held by the Irish Rifle Association, at Long Branch ranges, on Civic Holiday, and over a hundred competitors took part in the various events. General Gunn and General Milne were interested spectators for a while in the afternoon, and commented favorably on the manner in which the meet was being conducted. This was due to the splendid work of the captain, A. E. Egan. The success of the matches was also largely due to the efficient work of the range officers, Capt. A. E. Goodenham, Capt. J. H. Price and W. J. Kingdon, who carried out their strenuous duties in a most capable manner. The general match aggregate was won by R. Storrar, a member of the 46th Rifles, and the I.R.A. won a score of 101. He was closely pressed by R. Williams of the Queen's Own Regiment. It should be mentioned that P. W. Younger of the Grenadiers and I.R.A. made the score of 102, but was most unfortunate in being ruled out by failing to challenge a shot, according to the O.R.A. rules, under which the meet was run. Of the extra series aggregate was won by W. A. Hawkins, the well-known Blaney marksmen, a member of the 46th Rifles, and the I.R.A. were close second and third. The team match was very closely contested, the I.R.A. being a wide runner. Irish Association first team by three points, the O.R.B. being second. The meet was the largest held on the regular grounds, outside of regimental practice, and provided a good opportunity for Banksam, the coming O.R.A. meet this month. The prizes will be given out at the ranges tomorrow. The prize-winners and scores were: 200 yards, extra series—Fitzgerald (88), 89; Bull (84), 86; Edmond (83), 85; Lonsdale (82), 80; Hawkins (82), 80; Dymond (81), 79; Williams (81), 79; Murray (81), 79; Clarke (81), 79; 300 yards, general match—Cowie (97), 98; Fitzgerald (91), 94; Hawkins (91), 90; Charles (91), 83; Young (91), 83. 500 yards, extra series—Bull (44.50), 50; Slater (44.50), 50; Egan (43), 50; Fitzgerald (42), 50; Humphreys (42), 50; Edmond (42), 50; Lambton (41), 49; Hawkins (41), 49; Reid (41), 50. 600 yards, general match—Humphreys (43.50), 45; Murray (43.50), 45; Charles (43.50), 45; Williams (43.50), 45; Lennox (41), 44; Edmond (41), 44; Dymond (41), 44; Clarke (41), 44. 800 yards, extra series—Hawkins (65), 60; Fitzgerald (64), 60; Smith (63), 60; McCleod (61.50), 49; Slater (61.50), 49; Edmond (61.50), 49; Humphreys (61.50), 49; Williams (61.50), 49; Leussner (61.50), 49. 600 yards, general match—Smith (65), 60; Slater (65), 60; Edmond (65), 60; Elliott (62), 64; Lowry (61), 64; Storrar (61), 64; Buick (61), 64. —Extra Series Aggregate.—Yards.—W. They have carried over to the juniors during the war. Not only do they expect this series to expand the club, but they expect to have a big boom in intermediate and senior Rugby. While the senior series will be the main topic on Thursday some matters concerning the other series will also be talked over. Clubs intending to play in the senior series are expected to have representatives on hand. President DeGruyter will call the meeting to order at 8:15.

Muckleton of Riverdale

Arrangements Inadequate
At the Local Soccer Grounds

Sporting Editor World: The officials responsible for the arrangements of the matches at the stadium may be able to pick a good footballer when they see one, but in regard to the very first principles in the management of a crowd they are as innocent as any babe in arms. For yesterday's match two prices of admission were charged—50c and 25c. Both stands were well filled and contentment reigned supreme until half-time. Then a change came over the scene—quite half the bleacher crowd left their seats and walked calmly across the playing field, and without one word of protest from any officials, took seats in the more expensive stand. Now, sir, why should a person who had paid 50 cents to be comfortable be crowded up in his seat by a lot of noisy boys, men drinking pop and spilling half of it over their neighbors' trousers, and other persons who had only paid a quarter for their seats? I am now anxious to know how I can obtain from the football association a new pair of trousers, and this proposition of my 50 cents back for the second half of the game. If the association lacks an organizer, why don't they advertise for one? There are plenty of capable men to be had. This may be news to the football association, but nevertheless it is a fact. Hawkins, the King's Prize Winner,
First in Aggregate at Irish Shoot

There was a big turnout of local rifle-men at the annual matches (open to all comers) held by the Irish Rifle Association, at Long Branch ranges, on Civic Holiday, and over a hundred competitors took part in the various events. General Gunn and General Milne were interested spectators for a while in the afternoon, and commented favorably on the manner in which the meet was being conducted. This was due to the splendid work of the captain, A. E. Egan. The success of the matches was also largely due to the efficient work of the range officers, Capt. A. E. Goodenham, Capt. J. H. Price and W. J. Kingdon, who carried out their strenuous duties in a most capable manner. The general match aggregate was won by R. Storrar, a member of the 46th Rifles, and the I.R.A. won a score of 101. He was closely pressed by R. Williams of the Queen's Own Regiment. It should be mentioned that P. W. Younger of the Grenadiers and I.R.A. made the score of 102, but was most unfortunate in being ruled out by failing to challenge a shot, according to the O.R.A. rules, under which the meet was run. Of the extra series aggregate was won by W. A. Hawkins, the well-known Blaney marksmen, a member of the 46th Rifles, and the I.R.A. were close second and third. The team match was very closely contested, the I.R.A. being a wide runner. Irish Association first team by three points, the O.R.B. being second. The meet was the largest held on the regular grounds, outside of regimental practice, and provided a good opportunity for Banksam, the coming O.R.A. meet this month. The prizes will be given out at the ranges tomorrow. The prize-winners and scores were: 200 yards, extra series—Fitzgerald (88), 89; Bull (84), 86; Edmond (83), 85; Lonsdale (82), 80; Hawkins (82), 80; Dymond (81), 79; Williams (81), 79; Murray (81), 79; Clarke (81), 79; 300 yards, general match—Cowie (97), 98; Fitzgerald (91), 94; Hawkins (91), 90; Charles (91), 83; Young (91), 83. 500 yards, extra series—Bull (44.50), 50; Slater (44.50), 50; Egan (43), 50; Fitzgerald (42), 50; Humphreys (42), 50; Edmond (42), 50; Lambton (41), 49; Hawkins (41), 49; Reid (41), 50. 600 yards, general match—Humphreys (43.50), 45; Murray (43.50), 45; Charles (43.50), 45; Williams (43.50), 45; Lennox (41), 44; Edmond (41), 44; Dymond (41), 44; Clarke (41), 44. 800 yards, extra series—Hawkins (65), 60; Fitzgerald (64), 60; Smith (63), 60; McCleod (61.50), 49; Slater (61.50), 49; Edmond (61.50), 49; Humphreys (61.50), 49; Williams (61.50), 49; Leussner (61.50), 49. 600 yards, general match—Smith (65), 60; Slater (65), 60; Edmond (65), 60; Elliott (62), 64; Lowry (61), 64; Storrar (61), 64; Buick (61), 64. —Extra Series Aggregate.—Yards.—W. St. Cyprans Played Two Innings at Guelph

St. Cyprans sent a team to Guelph on the holiday to play the local club, the game resulting in a win for the visitors, who, batting first, ran up a total of 155 for their first inning, featured by the fine performance of A. Huddleston, who, going in sixth wicket down, with the score at 59, was caught out in the first chance given at the close of the innings. Read captured four wickets for 34 runs; Steen- ton, three for 45, and Wright, two for 42. Guelph's first effort produced 108 runs, a fine play of Aitchison for 34 greatly helping. Headley, eight for 36; Smith, one for 10, and E. Davis, two for 4, were the only wicket-takers.

NATIONAL LIBERAL CONVENTION GETS WIN TO SERIOUS WORK

(Continued From Page 1).
called on him for a speech and adjourned without waiting to hear from Mr. Dewar.

One of the best speeches of the day was delivered by Capt. R. L. Calder, who belongs to the Grand Army of Canada, but who disclaims any authority to speak for that organization. He said the one thing that returned soldiers disliked most was race and creed prejudice. The Liberals in the past had often been as bad as the Conservatives in this regard, and the French as bad as the English. The Liberal party, he said, would never get anywhere until they stamped out from their midst all appeals to race and creed.

Liberal Unionists Present.
There are quite a sprinkling of Liberal-Unionists here. Indeed, nearly all the provincial premiers are in that class, but they are being well treated and are given places on all the committees. The various provincial delegations organized this afternoon, and the provincial chairmen were announced as follows: Alberta, Hon. Frank Oliver; British Columbia, M. A. Macdonald; Manitoba, A. M. McLeod; Nova Scotia, Hon. J. S. Macdonald; Ontario, M. P. New Brunswick, Premier W. E. Foster; Prince Edward Island, John E. Sinclair; M. P.; Ontario, Hon. Geo. F. Graham; Quebec, Hon. Lemieux; Saskatchewan, C. M. Hamilton, who was chairman of the Winnipeg convention, and until recently a director of the Canadian National Railways System.

Upon the whole it may be said that the convention is big and representative. Idealism prevailed today, and the arrangements for the convention are all that could be desired. A break may come on the tariff issue, and just now all are at sea on the leadership, with indications pointing to a sharp contest between Hon. W. S. Fielding and Hon. Geo. F. Graham. Harmony seems to prevail, but it is harmony that borders on apathy. Perhaps by tomorrow the convention will get up steam and the silent delegates find their feet.

Platform Builders Busy.
Tonight the committee on resolutions, under the chairmanship of A. E. McMaster, M.P., is busily engaged in framing a platform. So many resolutions have been referred to the committee that the platform promises to be of uncommon interest and abnormal length. The planks relating to the tariff and the high cost of living will be the last to be taken up.

Meanwhile the hotel lobbies are crowded with delegates and visiting politicians eagerly discussing the contest for leadership.

A prominent English-speaking member from Quebec told The World tonight that Mr. Fielding would surely be defeated in the general election by a majority of delegates from his province were in favor of Mackenzie King. The candidacy of Hon. Sidney Fisher, he said, was mainly for the purpose of keeping in line a number of delegates who might otherwise be induced to vote for Mr. Fisher's rival, Mackenzie King. The same gentleman, however, admitted that the Graham boom was giving ground, and that his advice was to vote for Mr. Fisher.

Nationalist Voted Down.
There was a stirring scene in the Quebec committee room this afternoon when Ethan David, son of Senator David, moved that the Quebec members abstain from voting or taking any active part in the work of the convention. The motion was seconded by a delegate from Terrebonne, and, it is said, was drafted, or at least, approved by Henri Ernest Lapointe, M.P. for Kamouraska, at Quebec, who delivered a vehement speech in opposition, which was characterized by those who heard it as the most brilliant in his career. He recalled that the national convention had been summoned by the late Sir Wilfrid Laurier, and it would be an insult to his memory for the Quebec members to abstain from taking part in it. They would only be playing the game of the government, which sought to isolate Quebec, and to withdraw from the province withdrawing from confederation.

The David resolution was voted down by a majority of the delegates present gave it any support.

Choosing Committees.
From 2:30 until 4 o'clock this afternoon the various provincial delegates were in session in their own rooms selecting their representatives on the various convention committees. They handled in their reports with the deliberations of the main convention were the amount of cheering there was considerable enthusiasm in the provincial gatherings.

The delegates, it is stated, were determined that there would be nothing of a cut and dried nature in connection with the naming of the committees. In the Ontario gathering it was proposed to leave the selection of the names to the district chairmen, but this was vigorously objected to. Delegates representing farming constituencies insisted on agriculture being well represented, with the result that ten farmers were chosen. Representatives of the manufacturing and laboring interests were also chosen.

Chairman Murray then read the reports from the various provincial delegations giving their representatives on the different committees. The reports were adopted and the committees were ordered to begin to elect their chairmen and begin their work.

general election, and administered the affairs of the country for a period of fifteen years. The record of that administration, he said, was such that no Liberal need apologize for it. The Liberal party was defeated in 1911, but in his opinion, no political party ever suffered defeat under a more righteous issue—an issue which had for its object a broadened market for the great natural resources of the country; a policy for fifteen years devised by our people, and one that would have unquestionably brought great prosperity to the country.

Reciprocity Again.
Mr. Murray declared that the reciprocity agreement was defeated in Canada by the greed and selfishness of a number of people who thought that Canada was created to be exploited for their purposes, and that the well-being and prosperity of that great portion of our population who assist to make this country great by the development of its natural resources was not to be considered.

"Upon the defeat of the Liberal party on this issue," he said, "I almost believed it possible that fraud and falsehood in the public press and on the public platform could persuade a deceived and intelligent people that an enlarged market for our great natural resources was inimical to the best interests of this Dominion."

Turning to the issue of a Canadian navy, he said that the sound and logical as the Liberal policy was, it has been a tortuous path, and that a portion of the population of Canada had been persuaded into believing that it was dangerous. The Liberal has been made, and the returned men asked that the government should be kept to its bargain, that if necessary, the government should be induced to live up to what it had promised.

Food Costs Come Up.
Captain Calder, as representing returned soldiers, was given great attention. At the outset, he read a telegram stating that the grand national convention, which was to be held in the city of Toronto, but could not commit the association.

Returned Men's Demands.
Captain Calder, as representing returned soldiers, was given great attention. At the outset, he read a telegram stating that the grand national convention, which was to be held in the city of Toronto, but could not commit the association.

It is apparent," said Mr. Murray, "that the defeat of the Liberal party in 1911 was undeserved. If there is any irreconcilable difference today in this country upon what should be a sound commercial policy, it is due to the men who, without rhyme or reason, fought to deprive this country of a policy that was logical and just."

Turning to the future of the Liberal party, Mr. Murray remarked that great problems confront the nation. However Liberals may differ, they must have first consideration for the best interests of Canada. "There are," he said, "great questions upon which we hope to read, and there are others upon which there may be differences of opinion. We should above all try to read, and practice results, but we must all be careful that we are alive to the importance of party unity. We can agree now that the issue is over the soundness of the Union government is gone. (Applause.) We can agree that in dealing with domestic affairs the old system is not working, and that a higher sense of responsibility on the part of men for their country, and will give us a more rational and more economical administration."

No Compromise Wanted.
"The perpetuation of Union government in this country under conditions that we face would be a matter of continual compromise; it would produce much uncertainty in administration, and would have a tendency to give the country unstable government, and it would prevent the development of a sound and healthy public opinion. Party government may be achieved."

HOW THE CONVENTION WILL CHOOSE A LEADER
Ottawa, Aug. 5.—When the delegates assembled they were given printed copies of the rules to govern the voting for the party leader. The rules governing resolutions and their discussions. They were as follows:

1. The vote shall be taken by ballot.
2. The chairman will read out from the morning of the day upon which the vote is to be taken.
3. Nominations for candidates for the leadership shall be made in writing by delegates present at the convention and may be handed to the general secretary at any time previous to the hour appointed for taking the vote.
4. The chairman will read out from the stage the names of the candidates so nominated, and will afford those desiring to withdraw before a vote is taken an opportunity to do so.
5. Those withdrawing will merely announce the fact without making a speech in favor of, or in opposition to, any of the other candidates.
6. The name of the person voted for on each ballot shall be printed on each ballot. The name of the person so voted for shall be legibly written on the ballot by the delegate voting.
7. The result of each vote shall be announced by the chairman.
8. Any candidate nominated may withdraw his name any time before a final choice is made, and in such case the chairman shall announce the withdrawal of the candidate.
9. The balloting shall continue until a candidate receives a majority of the total ballots cast, and thereupon he shall be declared elected. Provided, however, that if no choice is made on the first ballot, the balloting shall receive the lowest number of votes on the fifth and succeeding ballots shall drop from the contests.
10. The delegates will remain in their seats and the ballots to be counted. The said boxes will be in charge of scrutineers appointed by the delegates from each province, who are to be collecting the ballots and conveying the boxes containing them to a room in the rear of the convention hall, where the result will be counted.
11. Prior to the voting, the delegates from each province will meet in their respective committee rooms and appoint scrutineers to be present at the counting of the votes, and in such case the chairman shall announce the withdrawal of the candidate.
12. The balloting shall continue until a candidate receives a majority of the total ballots cast, and thereupon he shall be declared elected. Provided, however, that if no choice is made on the first ballot, the balloting shall receive the lowest number of votes on the fifth and succeeding ballots shall drop from the contests.

German Press Jolts For Brother Henry
One Paper Says It is Unsurpassably Clumsy, and Another Calls It Impudent.
Berlin, Aug. 5.—Commenting on the letter written recently by Prince Henry of Prussia, brother of former Emperor William, to King George, in which he asked the British monarch, in the name of justice and in his own interest, to desist in demanding the extradition and trial of the former emperor, and declaring that the truth about the war was being buried in allied statements. The Tagblatt says it is an exhibition of "unsurpassable clumsiness."

The Vorwaerts remarks that Henry's charge that the principal guilt for the war may be attributed to Great Bri-

tain is without a jot of evidence. This newspaper, which is the socialist organ, terms Henry "a danger to the German people."

Die Freiheit considers it disgraceful that a son of the Hohenzollerns "at such a moment" should make such a statement. The Tagblatt says it is an exhibition of "unsurpassable clumsiness."

SIXTY AT KITCHENER AT FAMILY REUNION
Special to The Toronto World.
Kitchener, Aug. 5.—The home of Mr. and Mrs. Harry Mann of the Bridgeport, Ontario, was the scene today of a family reunion, when over sixty members of the family gathered to honor Mr. and Mrs. John Mann from whom the sixty are descended. The gathering represented children, grand children and great-grand children of the old people. Miss Beatrice Ury of Kitchener was an especial guest, and Mrs. Mann of Galt presented the grand parents' silk and silver. Those present were from Guelph, Galt, Kossuth, Preston, Hespeler and Kitchener.

Two Ships Captured, Third Fleed and Others Were Forced Ashore.
London, Aug. 5.—The following official communication from the commander of the allied forces on the north Russian front was made public tonight:

The combined land, sea and air forces Saturday carried out successfully a raid on the enemy's (Bolshevik) lake flotilla on Lake Onega and Fort Tavolok, 40 miles southeast of Medvaygora. Two of the enemy's steamers were captured, a third ran away, while the others were forced ashore.

The captured ships were armed with three-inch guns and many coil guns. The newly formed Russian fleet operated with the British flotilla.

Resolution Passed on Death of Sir Wilfrid Laurier, at Convention.
Ottawa, Aug. 5.—The resolution on the death of Sir Wilfrid Laurier adopted by the convention was as follows:

"Sadly and mournfully the members of this national convention of the Liberal party of Canada record their sense of the irreparable loss the country has suffered by the death of the Right Hon. Sir Wilfrid Laurier.

"During more than forty-five years he was continuously prominent as a member of the Canadian parliament. For nearly thirty-two years he was the honored chief and leader of the Liberal party in this country. He was Premier of Canada, as president of the peace congress, a communication saying it is willing to observe the terms of an armistice, and asking that each of the great powers send a regiment to Budapest.

It is impossible for the allies to comply with this request, as the great military powers are unable to furnish the necessary troops. Small detachments, however, will probably be sent with the generals composing the allied commission to arrange the armistice, to give an international complexion to the military forces as a guarantee that the Rumanian army will not sign the armistice with the Hun. British monitors in the Danube, it is believed, will be sent to Budapest to steady the situation. Gen. Graziani will probably be designated as the French member of the armistice commission.

Rumanians Enter City.
Budapest, Aug. 5.—Thirty thousand Rumanian troops, including infantry, cavalry, and artillery, entered the city yesterday with a blare of trumpets. The Rumanian forces, led by Gen. Marghascu, passed thru Andrasffy and other streets.

The Rumanians have taken possession of public buildings and have arrested military command of the city. Hostages have been taken by the Rumanians, it is reported, and it was announced that they would shoot five Rumanians for every Rumanian killed. So far there have been no disorders. Serbian troops, according to reports from the south, supposedly to protect their interests.

Will Call Elections.
Copenhagen, Aug. 5.—The new Hungarian government, according to Budapest despatches received here today, is determined to maintain unaltered the suffrage law introduced by the Karolyi government, and to call elections immediately for the constituent assembly which would determine to what degree landed property should be socialized. Until the national assembly is elected, the present administration proposes to continue the order of things, so that production may not be disturbed.

Appoint Rev. C. M. Harris as Canon of St. George's
Special to The Toronto World.
Kingston, Aug. 5.—Bishop Bidwell appointed Rev. C. M. Harris, rural dean of Hastings, and for forty years engaged in missionary work at Mariposa as a canon of St. George's. Canon Harris, who was appointed to the city, vice Canon E. Loucks, died at Mariposa, Cal., on August 1st. Rev. F. B. Byers, rector of Stirling, as rural dean of Hastings. Rev. F. W. Harrison has resigned the parish of Roslin.

English monarchs have reigned on an average 23 years each. In Russia the average was only 15.

BECK A GUELPH THREATENS THE CITY BRITISH CONTROLLER SUGGESTS CHECKS ON PROFITEERING

(Continued From Page 1).
on Friday night at the city hall. He said, "Sir Adam Beck has made statements here which are absolutely false. He is the most comic man I ever saw in a ministerial show, and I will show him that he cannot get away with everything he has told you. This was greeted with a great outburst of applause.

There are 243 municipalities in the Hydro scheme," said Sir Adam, "but not one of them had been violated until an attempt was made by the city of Toronto to make an agreement with the Metropolitan Company. The Hydro Commission declined to give its consent and the deal was left in abeyance. A similar condition exists at Guelph at the present time, but I cannot believe that the citizens of Guelph will violate the agreement they have made with the Hydro at this time," said Sir Adam.

Hydro Had a Duty.
Proceeding he stated that the Hydro commission had done no work, and declared that this agreement was a flagrant violation of the Hydro agreement, and was a together illegal, pointing out that it was a violation of the franchise act, inasmuch as it was proposed to allow any property owners to vote in the bylaw on Monday, whereas all municipal voters had a vote when the Hydro bylaw was passed by the people in 1916. He read the clause in the Hydro agreement, which bound the city of Guelph not to enter into any agreement with any other railway, offer any bonus or inducement, etc., without getting the written consent of the Hydro commission. He considered this a binding agreement, and he did not think the Hydro commission would be an honorable body of men if they were to use their power unfairly.

Run Cars Themselves.
Dealing with the question of the operation of the Guelph Radial Railway, Sir Adam told them that their best scheme would be to get a good manager, put on one-man cars, give a ten-minute service and run it themselves. It would be a good idea to secure one man to manage all of the public utilities and apportion the cost of management to each. He believed Guelph had such a man in her employ at the present time.

Sir Adam answered a number of the 28 questions submitted by Mayor Carter in a letter to the city last week, and stated that the taking over of the Grand Trunk by the Dominion government would mean that the last of the Guelph lines would be taken over by the Hydro and would be at once electrified and operated by Hydro for the benefit of the people.

"I Am Your Servant."
In closing, Sir Adam said: "I am not offering you anything, but I am your servant to do what I am asked to do, but Guelph cannot expect to get anything from the Hydro unless she is willing to sign the resolution which I have declared this was clearly a case of the C.P.R. seeing a real competition, one which will have much to say in the years to come. Hydro was out for service, and for the benefit of the people."

SAYS THAT WHERE GUILT IS CLEAR, PUNISHMENT SHOULD BE MORE SEVERE.

London, Aug. 5.—Geo. H. Roberts, the food controller, testifying today at the first sitting of the house of commons as a select committee to inquire into the cost of living and profiteering, said his department had had difficulty in definitely defining cases of alleged profiteering. He added that where persons were clearly guilty of profiteering they should be punished more severely than at present. He said:

Mr. Roberts said he had reached the following conclusions:
First, that there should be an effective control of food prices and of supplies, and their distribution at all stages.
Second, that the same method could be applied to other commodities such as shoes and household utensils, if they could be standardized. Whether it should be applied was a question of policy.
Third, that the costing department (which fixes prices) could do for other articles what it had done for food.
Fourth, that a single department should be responsible for publishing information regarding the cost of living and in other countries.
Fifth, that with a reduction in working hours and without an increase in the cost of living, the prices seemed inevitable, without control.

Part Lower in Price.
Mr. Roberts said that 94 per cent of the food in England was subject to maximum controlled prices. Part of the quantities, he added, was more costly, but part was lower in price since control had been lifted.

The food minister said that unfortunately the cost of living had increased since the American food had come from America. The exchange rate had been shut off, and that in America the exchange rate had been such a man in her employ at the present time.

Sir Adam answered a number of the 28 questions submitted by Mayor Carter in a letter to the city last week, and stated that the taking over of the Grand Trunk by the Dominion government would mean that the last of the Guelph lines would be taken over by the Hydro and would be at once electrified and operated by Hydro for the benefit of the people.

GROUND ISLAND FOR SOCIAL REFORMS

International Labor Congress Concludes Work and Passes Important Resolutions.

Amsterdam, Aug. 5.—The international labor congress, at which a new international federation was formed...

It cannot be said that a great amount of practical work was accomplished at this first meeting...

The entire governing body has changed since the last congress...

Several leaders spoke of their hopes for the future. Eric Legien told the correspondent that he thought the international movement would prove successful...

In one resolution the congress declared: "The economic disorganization, accentuated by the war, was caused by the impotence of capitalism to reorganize production in such a way as to insure the well-being of the masses."

The bureau of the international trades union federation was instructed to offer a resolution to obtain results on socialization and to report to the national center, the report to be accompanied by affidavits.

Even when the means of production are socialized, it is only by normal production of commodities that the general and individual well-being can be obtained and guaranteed for all everywhere.

SECURITIES RALLIED IN NEW YORK MARKET

Proof That Monday's Decline Was Carried to Unreasonable Limits.

New York, Aug. 5.—The stout resistance offered by many speculators in the course of today's extremely lively session was commonly accepted as proof that yesterday's violent decline of the reasonable limits, been carried beyond the opening.

Weakness prevailed at the opening, leaders of the various groups extending yesterday's losses by one to two points, but about the first hour an impressive rebound ensued, which continued, subject to realizing for profits, to the close.

The rally clearly resulted from a combination of what is technically called "good buying," and covering of short contracts in the more representative issues, notably transportation and seasonal industrials.

Important factors which accompanied the improvement included advice from leading terminals which pointed to a subsidence of the railway shippers' strike, and the more hopeful views of railroad officials regarding the labor situation.

Monetary conditions, which figured so conspicuously in last week's hesitant market, also gave impetus to the rally, call loans reflecting less disposition of five of the creditors and two experienced men who are well acquainted with the company's assets in Toronto.

There is no intention to continue the former business of the Standard Reliance Mortgage Corporation will assemble in Massey Hall at 2.30 this afternoon for the purpose of reorganizing themselves into a new company with a newly appointed board of directors and a new general manager.

Some of the Chatham shareholders may voice objections to the following clause in the reorganization scheme: "There shall be reserved from the assets of the corporation passing to the new company under the provisions of this agreement all claims against the present and past directors, officers, servants and agents of the corporation for misfeasance, nonfeasance, or breach of trust in and about the business of the corporation."

Liquidator G. T. Clark will explain to the mass meeting exactly what this clause means, and the liquidator made it clear at Brockville that the clause would in no way block a full inquiry into the actions of officers previous to the collapse of the corporation.

Liberty Bonds were steady, but the general bond list was irregular, and without special feature. Sales, par value, aggregated \$12,450,000. U.S. United States Bonds were unaltered on call.

Industrial, generally recognized as of the peace division, and specialties which were their activity to professional interests, manifested greater activity in today's dealings than former favorites, where rallies were comparatively nominal. Sales amounted to \$175,000 shares.

Foreign exchange was again unsettled on the further weakness of French francs, franc falling 7.45 and Swiss francs also moved in favor of this market.

TRADE TOPICS

The week in business presents no new features. The volume of trade is well maintained for the season.

In wholesale dry goods, activity prevails in all lines. Western buyers have made liberal selections, and travelers' orders are coming in freely, with a good sorting-up trade by mail.

In wholesale groceries, sugars are in active request, but prices are unchanged. There is an advance in cocoa, coffee, rolled oats and corn flour.

In wholesale leather and boots and shoes, values are soaring in sympathy with the United States markets.

In wholesale provisions there is a big demand for butter for export. Eggs are firmly held, but there is little change in smoked and cured meats.

Only a jobbing trade is passing. In paints and oils there is unusual activity for the season, and prices are firmly held.

Retail trade continues good in all lines of ready-to-wear clothing. Preparations for the fall trade are completed, and advance millinery operations are noted in the large stores.

Remittances are very satisfactory. City collections are good. There is a healthy undertone in business circles, but the outlook most encouraging.

COTTON DROPS AGAIN. New York, Aug. 5.—There was a continuation of yesterday's excited selling in the cotton market today and a further sensational break in prices, with the large amount of old crop cotton remaining at the beginning of the new season and favorable weather for the coming crop.
