COMMISSION GOVT. TO BE INVESTIGATED

City Council Decide to Gather Information That May Be Basis For Referendum Vote.

DELAY IN PREPARING OF PLANS FOR TUBES

Civic government by commission, its virtues and defects, will be investigated by a special committee...

Since The World began an active campaign in this direction last week, the commission method of doing the city's business has been a lively topic...

Ald. Heyd's suggestion is "for the appointment of a committee composed of Controllers Spence and Foster, Ald. Phelan, Rowland, Weston, Graham, McCausland, Baird and the mover to investigate and report on the advisability of placing the government of the City of Toronto in the hands of a commission...

Ald. Phelan also gave notice of motion in favor of adopting the principle of the "initiative and referendum." He asks an enactment whereby the city government would be under the instruction to deal with any issue or submit any bylaw or referendum on a petition signed by a specified percentage of electors being registered in the Industries Department Goes.

The department of industries and public utility has ceased to be, after an existence of five years. This was the way the members voted.

For retention—Ald. McCarthy, McLeod, Welch, Rowland, Maguire, Murphy, Baird, Anderson, Phelan, Hamby and May—11.

Against—Mayor Geary, Controllers Foster, Ward, Spence and Sheehy, Ald. Weston, Dunn, Hilton, Graham, McCausland, D. Spence and Chisholm—12.

Ald. O'Neill was absent when the vote was taken and Ald. Heyd, as chairman of the committee, didn't vote.

Controller Foster reiterated his argument that Toronto is developing too fast to require such works, and that Dunn asserted that, while the department had cost \$26,000, it had only brought two industries within the gates.

Ald. McCarthy said such a department had brought Rochester many industries, and the city of Buffalo was considering establishing one. Chicago had spent \$300,000 on such work in six years.

The understanding is that one of the duties in the assessment committee will be given the duty of negotiating with outside industries as occasions arise.

Tube Plans Delayed. Two more valuable weeks will be lost in preparing the way for a report by an engineering expert on the most desirable method of laying out a system of municipal tubes or underground railway.

Controller Foster asked that no steps be taken towards engaging a special committee to represent the city before the Ontario Railway Board respecting the city's differences with the street railway, until the board of control could recommend a corporation counsel, as the latter could undertake the work.

A special committee was appointed to consider the establishing of the city of a wholesale fruit market, on motion of Controller Foster.

Ald. Baird wanted the assessment commissioner to supply the usual information as to the assessed value of the land. He didn't think the assessed value was more than half the price asked.

Ald. Maguire said it was customary when the city's price for property is asked to buy wasn't accepted by the owner to resort to arbitration. He believed Mr. Forman had originally offered Mr. Foster only \$26,000.

Ald. McBride quoted Mr. Forman as saying that arbitration would likely end in the city paying more for the land, and Ald. Graham believed the commissioner would not agree to pay.

TORONTO BEATEN IN FIGHTING RADICALS

Toronto & Eastern and H., W. & G. Bills Now Stand for Final Reading, After Some Heated Discussions.

OTTAWA, April 11.—(Special)—Toronto met with two reverses in the house to-day and to-night, when, despite the all-out opposition of A. C. Macdonell (St. Toronto), the bill to incorporate the Hamilton, Waterloo and Guelph and the Toronto and Eastern Radial Railway companies were squeezed thru to stand for third readings.

There was some lively repartee in connection with the Toronto and Eastern bill, and Col. Sam Hughes made some "smart" references to Toronto's aldermen. When the bill was taken up, Major Currie objected to being proceeded with in the absence of its sponsor, Mr. Powke, Liberal member for South Ontario.

Major Currie: "Do you want another all night sitting of the house? It was to be remembered that the house desired to reach an adjournment at an early date and this would be impossible if bills were to be laid over without some good reason. If it were to be laid over, it should at least hold its place on the order paper, and not go to the bottom of it."

Mr. Currie said he would let all bills which were contentious go to the bottom of the order paper. It was high time to adopt the British practice of making members ballot for their place on the order paper at the opening of the session.

Col. Hughes as "Sub." Some one asked what would be done in the event of amendments being moved, and Col. Hughes said that Mr. Powke had asked him to look after the bill in his absence. The declaration was greeted with various branches of the bill, the gist being that the proposed railway which will run from Toronto to Cobourg, with various branches, was a local affair and should not be given a federal charter.

Claude Macdonell then launched into a long address in opposition to the bill, the gist being that the proposed railway which will run from Toronto to Cobourg, with various branches, was a local affair and should not be given a federal charter.

G. A. CASE WINS APPEAL TO DIVISIONAL COURT

Was Acting Only as Trustee in a Deal in Which Dominion Brewery was Involved.

In the case of Cissell v. Lovell, in which the ownership of the Dominion Brewery came in question, the divisional court yesterday disposed of an appeal by the defendants, George A. Case and G. A. Case, Limited, from the trial judgment.

Justice Riddell, from the trial judgment, had dismissed the action against all the defendants except the two named, and Charles Miller, who claimed to have an interest similar to that of the plaintiffs.

The divisional court, composed of Chief Justice Sir William Meredith, Justice MacMahon and Justice Tezzer, has unanimously reversed the findings of the trial judge adverse to the defendants, George A. Case and G. A. Case, Limited.

The position of G. A. Case, Limited, under the agreement of Dec. 14, 1906, when a purchaser had been found, was that of a trustee for him, and there is nothing in the form of the agreement or the proposed changes in the Canadian customs tariff as a result of the new agreement with the United States.

For the year ended March 31, 1909, the value of the articles on which reductions are proposed is: From United States, \$4,834,282; from other countries under general tariff, \$9,015,507; imports from countries to which the reduced rates apply under the French treaty, \$1,615,325; amount of imports affected by the proposed reduction in duties, \$6,449,172; estimated amount of reduction in duties on goods from all countries, \$232,149.

The estimated amount of reduction in revenue on goods imported from the United States is \$192,874. The revenue on the proposed tariff will be \$227,861, as against \$1,129,675 collected in 1908-09. The value of the imports of goods not enumerated in the tariff schedule in the general tariff during 1908-09 was \$1,954,519, of which \$1,256,608 came from the United States. The estimated reduction in duties on these is \$46,919.

CAPT. TATLOW DEAD Former Member of B. C. Government Dies From Injuries.

VANCOUVER, B.C., April 11.—(Special)—Hon. Robt. G. Tatlow, formerly in the McBride cabinet, who was thrown from his rig on Friday afternoon, striking his head on the stone pavement, died early this morning, not having regained consciousness.

He was an Irishman, 55 years of age. Educated in England, he came to the coast many years ago. In 1894, he was an unsuccessful candidate for the legislature, but in 1909, was elected, and in subsequent contests. In 1903, he was appointed minister of finance and agriculture, and that the seed bed is in ideal condition. The season is a month ahead of any record kept by the company.

N. Y. CENTRAL EMPLOYEES ON VERGE OF A STRIKE

Refuse to Accept Company's Compromise Offer on Wage Demands—Vote Already Taken.

NEW YORK, April 11.—A second offer by the New York Central and Hudson River Railroad to increase the wages of conductors and trainmen was turned down by the men at the meeting of their representatives in New York to-night.

The company will be so notified tomorrow and if an agreement is not reached then, the employees will adhere to their strike vote as recently taken, in which 57 per cent of the men between this city and Buffalo favored a strike unless their original demands for wage increase are granted.

The terms of to-day's offer were not made public. An increase from \$ 4 to \$ 4.60 per cent, what the men are holding out for. The company offered a compromise of increases from \$ 4 to \$ 5 per cent, and it was upon this proposal that the strike vote was taken.

If the road fails to come to terms tomorrow, the men of this division can strike if they so desire with the sanction of their national officers. It is believed, however, that negotiations under the Erdman Act will prevent a sudden walkout.

PEDDLERS ORGANIZE Meet at St. Lawrence Market and Air Their Grievances.

Peddlers met yesterday in St. Lawrence Market and formed a union. The new system of forcing each driver and each helper to have a license was the primary cause of the union as the peddlars are wroth.

Before the inauguration of the new system, each outfit, consisting of a horse and a wagon, was taxed \$10. If there are two men in a wagon, each must pay for a license. The peddlars unite themselves to other forms of business and wonder why each clerk, for example, in a cigar store, is not forced to pay a license.

They also object because they are not allowed to back their wagons into the upper market on Saturday afternoons when they have a lot of produce to sell.

They say that two-thirds of the peddlars own city property, yet producers from the country, who do not pay city taxes, are allowed in. A meeting will be held Monday night next in Occident Hall.

Officers, as follows, were elected: President, John Bamford; vice-president, S. F. Gee; treasurer, Robert Roberts; secretary, James Bamford; inside guard, J. Galloway; outside guard, T. McGee.

PAINTERS ARE IN THE MOOD TO GO ON STRIKE

Will Try to Force Employers to Their Demand for Higher Wages.

To take the bull by the horns and declare a strike against the Master Painters' Association was really the sentiment expressed in the resolution adopted at the mass meeting of the three local painters' unions in the Larch Temple last night, due to the refusal of the association to comply with the request for an increase in wages from thirty cents to thirty-five cents an hour.

There were about 60 union painters present, and the great majority were in favor of forcing the employers to accede to their demand. At the resolution met with general approval it was referred to the district council, the officers of which were specially opposed to declaring an immediate strike, and at a subsequent meeting the council decided to refer the question to the executive authority for advice.

There are 75,000 members in the international organization, and should the executive sanction a strike it would mean that the locals would have 870,000 behind them to stand with. Another mass meeting may be called next week to hear the decision of the executive, but in the meantime steps may be taken towards having the differences settled by arbitration.

There are some employers who employ only a small number of men, it is understood, who are willing to accede to the demand of the union, and to these it is necessary to grant permits allowing men to work for them when a strike is in progress. This point was a matter of much discussion, and the granting of permits was opposed by some, as the willingness of the smaller painters to accept the increase in wages was a matter of much discussion, and the granting of permits was opposed by some, as the willingness of the smaller painters to accept the increase in wages was a matter of much discussion.

In view of the fact that the agreement of the Sheet Metal Workers' Union with the employers will shortly expire, J. H. Kennedy, one of the principal officers, is busy throughout the city carrying on organization work among the non-union employees. It is understood that the sheet metal workers are asking for an increase from 35 to 40 cents an hour, and that they have been offered 35 cents, but are not ready to accept it. At present there are about 400 sheet metal workers in Toronto, and over 60 per cent of these belong to the union.

DO LIBERALS PLAN AN AUTUMN ELECTION?

Montreal Politicians Hear That Sir Wilfrid Will Seek Snap Verdict While Opposition is Disorganized.

MONTREAL, April 11.—(Special)—Many knowing ones here in both parties are predicting that Sir Wilfrid Laurier will dissolve the present parliament as soon after the summer holidays as possible, advisers naturally thinking that there would be no better opportunity than the present for securing a snap verdict, while the Conservative organization is split up. They argue that Sir Wilfrid, who is in ill-health, wants to travel a la Roosevelt, and that a splendid opportunity presents itself now.

The premier will tell his excellency that he wants an emphatic approval of his naval policy by the people, and such an ardent imperialist as Earl Grey would, they think, jump at the opportunity of saying to his friends in England that his last act, while here in Canada, was to secure the endorsement by the Canadian people of the great imperial defence program.

MUST BE BORN AGAIN. Kingston Standard Discusses the Conservative Party.

KINGSTON, April 11.—(Special)—The Standard (Con.) to-night prints its first of a series of articles on "The Ottawa Situation at Close Range." It says in part of the demand for a re-organization of the Conservative party.

There is to be a new birth; and truth and candor compel the statement that that new birth is necessary, for he who sees the situation at first hand and at close range and talks not alone with the leaders of the party, but with the rank and file at Ottawa, serves well neither the party nor his party by pretending that all is well at Ottawa. All is not well. There is need for a change, and it is a happy and fortunate condition of affairs that there is desire for a change. A new order of things is both imminent and inevitable.

The so-called Old Guard at Ottawa has had its day. The day of the new guard is here—not a new guard possessed of the idea that it alone must rule the party, but a new guard with the rank and file at Ottawa, serves well neither the party nor his party by pretending that all is well at Ottawa. All is not well. There is need for a change, and it is a happy and fortunate condition of affairs that there is desire for a change. A new order of things is both imminent and inevitable.

To be sure we are glibly told by The Toronto Mail and Empire that its numerous bits of political insanity that all is well with the party, the truth is all is not well with the party, nor is all well with the party. The fact is that the party is split up, and it is difficult to say it, nevertheless, for the sake of the party that it should be said—neither The Mail and Empire nor The Toronto News to-day can speak or in respect is speaking officially for the Conservative party.

As things stand to-day there is no so-called official organ, as we can see in the Conservative party, and perhaps it is well under the circumstances that it is so. Indeed we question if it may not be better to continue so, to the end that all the Conservative newspapers, instead of as in the old days, following the so-called party organs, shall speak out their own minds, and their own knowledge. The Mail as things stand now is rather the representative of the old-time Conservatism—the Conservatism, that is, that abhors rather than progresses—the party of to-day or the party ideas.

So far as The Toronto News is concerned—and The Standard when it is speaking of the Mail and of the News is speaking, be it understood, not officially for any of the party, but rather venturing what the party itself unofficially says—and by that we mean the Conservatives at Ottawa whatever their rank—the policy of The News to-day in its anti-French campaign and in its stirring up of racial prejudices, is a policy which practically to a man the Conservatives at Ottawa will call you has been a damnable policy.

Dominion Steel Directors Meet. MONTREAL, April 11.—(Special)—The meeting of the Dominion Steel Co. directors to-day was not productive of results. Mr. Flummer stated that no one on the board had even discussed the matter of a dividend.

STORE OPEN EVENINGS. The Dinsen Company had their first open evening last night to accommodate the late shoppers and those who do not find it convenient to buy their ready-made clothing in daylight hours. HAMILTON HAPPENINGS

TIFF IN CITY COUNCIL OVER MASONRY CONTRACT

Ald. Ellis Objected to Accepting Tender \$900 in Excess of Another One.

HAMILTON, April 11.—(Special.)—Frank Anderson, giving his address as 57 North John-street, was arrested this morning on a charge of assaulting and robbing Miss Edith Sauer at the head of John-street last Friday evening. Anderson was serving a term for a similar offence and was out on parole. The arrest was made by Detectives Bleakley and Sayer.

David Brooks, 111 Charles-street, was arrested this evening charged with assaulting Max Swirling.

When the city council this evening supported by 12 to 11 the controller's recommendation that George E. Mills be given the masonry contract for the nurses' home extension, Ald. Ellis was 200 higher than that of Fred Brose. Ald. Ellis referred to it as "robbery." Controller Allan took exception and Ald. Ellis took it back. The purchase of a steam shovel at \$8000 was authorized. It was agreed to offer Charles Armstrong \$3000 for the property wanted for the west end sewer and disposal works. The motion of Ald. Morris to have the assessment rolls published was voted down.

Not Exerting Himself. J. Orr Callaghan said this morning that he was not working very much now at being a license commissioner.

Ald. Ellis and a syndicate are trying to buy the Maple Leaf Park property to put it up in building lots.

The International Harvester Company will spend \$250,000 on new buildings this year.

his tuition under such constitutional authorities as Sir John Abbott and Sir John Thompson. He said that the bill might carry the Toronto vote not behind Mr. Macdonnell and his opposition, and started another argument by stating that Toronto had agreed to the bill as amended.

"No," said Mr. Macdonnell. Raps Toronto Aldermen.

Col. Hughes appealed to Mr. Harris of Bradford, who confirmed his statement, adding that the amendments were dictated by Mr. Bristol.

Then he took a sly at the Toronto aldermen. "Pittsburg aldermen," he said, "have given up putting this railway at the back and nod of every alderman, elected by special politics or something of the kind."

"That is not fair to Toronto aldermen," interrupted Major Currie. "I am much obliged to the non-gentlemanly replied the colonel. 'Toronto has fallen before and may fall again.'"

The minister of railways brought forward his theory. Anything for the general good of Canada was the country ought to have the advantage of a single control of rates.

The B.N.A. Act, he said, contemplated just such cases as this; it gave the Dominion exclusive power over international and inter-provincial railways, and it added those "for the general advantage of Canada."

Mr. Graham thought it might apply even to a wagon road if it ran the whole length of the province. In this case, this railway might carry coal to be used in distant parts of Canada. The bill protected Toronto better than if it had been left to the engineer alone.

Mr. Macdonnell protested that Toronto had accepted this bill as amended. It was a case of Hobson's choice. He also read a telegram from Mayor Geary authorizing him to say that Sir James Whitney and his government were opposed to it.

"I am glad he gave you that permission," commented Mr. Graham. Then Mr. Graham said he had asked two city representatives in the committee, and they had accepted the amendment.

Major Currie and Mr. T. W. Crothers argued against the bill on the question of jurisdiction, but the discussion stopped abruptly at 3:45.

The preamble was finally carried by a vote of 21 to 21, and then the opposition collapsed.

Why They Avoid Ontario Act. When the Hamilton, Waterloo and Grand Trunk bill came before the house in committee this afternoon, Mr. Macdonnell said it was practically a bill of incorporation, the company having lost practically all its powers.

Major Currie (North Simcoe) said Mr. Lancaster had argued from the broad principle that they should not give to Toronto any rights which other cities did not get, but this case was different. Toronto had bought the right to the franchise in its own city. This was an effort to get Dominion

MARK HAMBURG A GREAT CHOPIN INTERPRETER

Compositions of the Polish Composer Delight an Appreciative Audience.

Mark Hambourg repeated his triumph last night in Massey Hall before a much larger and even more appreciative audience than when he was here on February 11. His program in honor of the Chopin Centenary, was drawn entirely from the works of that composer.

Admirers of the Polish composer had an opportunity to hear one of the most successful critics believe, the very greatest of his exponents, in a series of selections which were well-nigh a surfeit of sweets to those less devoted to the master. But it was a Chopin audience and the applause was noteworthy.

On the sixth recall, after the second section of the program he played the study in F minor, and after the sixth recall at the close he gave the G flat study once more. The ovation this received on his last appearance will be remembered. He also repeated the G flat study earlier in the program.

The recital began with the Sonata in B flat minor, also played in February. The funeral march was given with a delicacy of feeling, "with all regret," and an exquisitely defined tenderness of touch. Six recalls honored this performance. Mr. Hambourg can be harsh and dulcet by turns, but his gentler moods are all the more appreciated by bravos, clutching the music in the F major study, and this also evoked great applause. Another bright and melodious trifle which drew fa-

AT THE THEATRES

Royal Alexandra

"Faversham as Herod." Stephen Phillips' tragedy of "Herod," published in 1900, aroused considerable interest in literary circles, following, as it did, on his "Paolo and Francesca," written in 1899 for George Alexander, who in 1881 joined Sir Henry Irving in the management of the Lyceum Theatre, first attracted attention in 1897, when his poems were crowned first prize by the academy as the best literary work of that year. His "Herod" was followed in 1902 by "Ulysses," and in 1904 he produced "The Boy of David." In 1906 "Nero." All are marked by high rhetorical excellence and dignity of conception and treatment. But although they cannot be classed as exclusively plays of the study, they do not carry the hallmark of supreme dramatic power.

Nevertheless, such a tragedy as "Herod" leaves an impression on the spectator and auditor. If it does not touch the depths of self-revelation which is looked for and found at its highest in the great tragic poets of all time, it clothes a succession of thrilling situations in noble and beautiful language and provides ample scope for magnificent spectacular effects. It may fail to awaken the profoundest emotions of the soul, but it creates an intensity of interest during its most striking moments that holds real gripping power.

The story of Herod the Great is full of tragedy. He has wedded his daughter to a throne and has married Mariamne, who, with her brother, Aristobulus, is the last of the famous Jewish family, the Maccabees. He loves Mariamne and at her solicitation appoints Aristobulus high priest. But the demonstrations of joy with which the Jews receive the new high priest and the affection his sister lavishes upon him, awaken the king's jealousy, which is skillfully played upon by his mother and sister, and by Gadiah, his chief counsellor, until at last he yields and commands the death of the young high priest at the hands of his faithful Gaul, Sohemus.

Then his tortured soul seeks to know whether Mariamne will let anything separate them and in that sows the seed of suspicion in her breast. She wrests the secret from Sohemus and despite his pleading declares herself no longer his wife. Here the dramatist touches the one supreme tragic moment—the king asks just one word from her, and she gives it—"Farewell." But the tragedy of the word is lost and it is the weakest point in the interpretation. Thereafterward the action moves swiftly. The same evil influences compass the death of Mariamne and when the letters come from Octavius Caesar, confirming Herod in his throne and extending the bounds of his kingdom, he stands in a cataleptic trance by the dead body of his wife—almost dead in life.

Mr. Faversham's Herod, taken through, is powerful in conception and interpretative quality. He is kindly and

Princess

A simple, unassuming and unheralded little thing is "The Love Cure" at the Princess. Oliver Herford has pilfered it from the German—a species of robbery for which the gifted Oliver is getting his name up—but perhaps it is all the better for that.

The authors (Leo Stein and Karl Lindau—not Oliver), have taken the old familiar tale of David Garrick, reversed the sexes involved and have woven out of it a very fragrant little story. One Nellie Vaughn, prima donna of the Novelty Theatre, is the twinkling theatrical star, who is luring a gilded youth, Alfred Bloke, to his ruin (this is as Alfred's papa sees it). So Alfred's papa goes out to hire an actress to come to his party and play the device in order to cure the ind of his stage-Johnny proclivities. Nellie goes and succeeds in shocking everybody but the men at the party

Grand

Florence Gear in "Fluffy Ruffles." One of the merriest and brightest musical comedies that have been seen in many a day was witnessed by a capacity house at the Grand last night when "Fluffy Ruffles," with Florence Gear as Fluffy, was presented. There is just enough plot in the play to bring out the capable work of nearly a dozen artists. The first scene is in Mme. Short's emporium in New York. Here is where several love matches were pitted against Fluffy Ruffles, who was a part of the time a society reporter on one of the sensational society papers. Among those who continually sought to tell Fluffy how much they loved and adored her, was Mr. Nogie Nogie, a sporting editor on one of the metropolitan dailies. Augustus Traddles, an English dude-affected person, who was always laboring under the delusion that he was playing pool, did not fail to pour out his heart to Fluffy. So the scheme of the play drifted—a hundred others wanted Fluffy.

Boxing Day Loses At Boston

Note and Comment

Who's Roanoke, anyway? Well, they held Stallings' New York Americans to a tie last Friday, and also held the championship of the Virginia League. Does he don't need to be shown after showing just out those games with Virginia out of the loop.

"How did the boxes come out?" asked a fan over the phone last night who was interested in the boys at Boston. "Lang was bested," said the office boy. "Who beat him?" "Tommy Burns," said the boy, remembering the afternoon cable from Australia, and at the same time assuring the east ender that Hilliard is still in the running for the American amateur championship.

Jack Johnson has another of those "win, lose or draw" contracts. He is the impresario willing to take a chance, and has agreed to pay \$100,000 for the week following his battle with Jeffries—if he is able to stand the trip to Canada, to follow the fray. The plan is to present Johnson on the Victoria foot the week of July 11. It happens at that time to be the conqueror of Jeffries it will be a nice investment for William, who is not—oh, well, the show business at best is a gamble.

As far as Toronto was concerned the interest seemed to be following the Canadian wrestling championships at Winnipeg. Toronto's middleweight contender was eliminated in the preliminary. The Tribune said: "Probably the biggest surprise of the evening was the defeat of Bruce Sutherland, the Toronto crack, who went down at the hands of George Aikins, brought his eight champion of Canada, but he will go back east about his crown. The surprise in this bout was due to the local man having it on the champion at every stage. They gingerly surveyed each other at the beginning, and were wary in opening proceedings. Aikins was a little hugging Aikins brought his man to the mat and from then until he secured a fall, he kept Sutherland on the defensive. The Toronto grappler demonstrated brilliant work in getting away from a half-nelson, but he had no other accomplishments. When Aikins slipped on another and made it good this time. This fall came in six minutes.

Sheephead Bay and Gravesend, where many of America's best horsemen are training for the coming season, which opens at Aqueduct next Friday, are magnets for hundreds of tourists. The weather is splendid, the condition and the racing splendid, and the weather caused no end of activity. Chief horsemen in the city are Mr. Handicap, Mr. Turfing, to be run on Friday, and a dozen horses will face Starter Cassidy for that time-honored event, the champion sprinter, Jack Atkin, carrying 135 pounds, and ridden by Dave Nick, will be a real test of strength of the turf. With men like these, barring accidents, he will be a difficult proposition to beat.

If the bill against art betting is passed at Albany, it is in store for thorough racing in New York State. But if not, the Ontario race will be the only one at any time since the passage of the Art Bill in 1908. The various associations have arranged attractive programs, and the race is in store for an advance in value, as a rule, over those decided last year, and they have been open in any direction to build up the sport once more to the place it held in the early days of the older horses of high class. The best shippers should be the yearling colts, while Ballot, Prince of Wales, and others, which made turf history in 1908, are back again to earn more fame, if possible, in the States.

WRESTLING FINAL BOUTS DECIDED AT WINNIPEG
WINNIPEG, April 11.—After winning his preliminary bout and the semi-final in the final of the amateur wrestling championship of the Montreal A.A.A. was Francis Egan, a Canadian, who defeated Miller of Ottawa, Ont., in the final. Both men lost their banian weight class final in their bouts on points, to fall resulting in their bouts.

Amateur Baseball.
The R.C.B. baseball team of the Beavers' Senior League will hold a meeting this evening, April 11, at 7:30 o'clock. All players and those interested are urged to be present on time. The election of officers for the coming season will take place and the tickets for the stag supper being run by the team will be ready for distribution. Each player will be asked to do his share of the work to make the latter a guaranteed success. It will be held Friday, April 2, at the Victoria Hotel, and an entertainment will be given.

The Dufferins defeated the Yale B.C.C. on Saturday by 11 to 11. It was a hard-fought game, the high wind helping the batters considerably. Batteries—Auld, Jackson and Dillon; Nicholson and Woods. Umpire—Willie Faulkner.

The Ravina baseball team would like to arrange a game for next Saturday afternoon with any good city team. Write to W. J. McConkey, secretary, 173 West-ern-avenue.

Temperance in its true sense should not and should not prohibit the assembly, use of tobacco, or the use of any other thing which is not good for the body. This pure, delicious, mild beer greatly aids digestion.

Tommy Burns Wins 20 Rounds on Points From Bill Lang

SYDNEY, N.S.W., April 11.—Tommy Burns won points from Bill Lang, heavyweight champion of Australia, in the twentieth round of their fight for the Australian title to-day.

The decision was not popular with the crowd, for the Burns had the better of the first ten rounds, he weakened in the latter half of the fight, while Lang faded.

The weather was fine and the fight was witnessed by 12,000 persons. The betting was 1 to 1 on Burns when the men entered the ring. Burns tipped the scales at 181 pounds, however, rose and took hands. The referee was Hugh McIntosh.

Both men wore bandages. The first ten rounds were fast, Burns having the better of the first ten rounds, he weakened in the latter half of the fight, while Lang faded.

Lang, however, rose and took hands with the Canadian as the bell rang. In the ninth round Burns pushed the Australian champion away, but the latter fought back gamely. Lang made a splendid rally in the twelfth, and, receiving a left jab from Burns, he responded with a hard right to the other's jaw. During the last eight rounds Lang fought cautiously, while Burns played the American pugilist's title of heavyweight champion of the world, and afforded him an opportunity to meet Jack J. Jeffries.

Johnson met Lang at Melbourne on March 4, 1907, and easily whipped the Victorian pugilist in nine rounds. At Sydney on Dec. 28, 1908, Johnson defeated Burns, who had claimed the heavy-weight title since it was relinquished by McIntosh. This fight was stopped in the fourteenth round, when Burns was practically knocked out by Bill Squires, his fellow-countryman.

Soccer Gossip.
The Albions' Club will hold a meeting to-night at the Empress Hotel at 8.30. All members are requested to be on hand. The committee will also meet at the same time.

The T. and D. intermediate game scheduled for Wednesday evening between All Saints and Albions has been postponed indefinitely. The Albions are unable to get their team together.

In the Association football match yesterday, Wales defeated Ireland, the score being 1 to 1.

In the Association match of the First Division of the English League yesterday, the Blackburn Rovers scored 2 and Everton 1. In the Southern League match, Millwall scored 1 and Swindon 0.

Sporting Notes.
Writing a "round robin" urging the New York Legislature to defeat the bill prohibiting art betting on horse races, many breeders of thoroughbred horses in Kentucky yesterday sent a telegram from Lexington to State Senator E. T. Brock, et al., chairman of the codes committee. The breeders declare that a law against art betting would strike a vital blow at the horse breeding industry, which is crippled by antagonistic legislation.

The London committee recently formed to raise \$50,000 to purchase ponies with which to equip an English polo team to be sent to the United States, in an endeavor to win back the International Cup, already has obtained subscriptions amounting to \$15,000. A long list of the subscribers to the fund is published.

Nominations to the Preakness Stake, one of the chief events to be run at the Pimlico meeting, have been made public. They number thirty-one, and as the race is this year a handicap, Dalmanina may be at top weight, for he is the best of the seven-odd entered. Others are August Belmont's Starbuck, E. E. Cassatt's Medallion, \$10,000 colt; Chas. S. Stable's Martinez, D. L. McDonogh's Busy, Mrs. Janney's Philadelphia, and the public, Mark's California colt Turret, and R. Schreiber's Sager. The weights will be announced April 15, and the race will start for San Francisco, and will stop on the way west at Omaha, Kansas City and Los Angeles.

Following a third anti-toxin treatment, E. J. Reulbach, Cuban, who is suffering with diphtheria, was said yesterday to be resting more comfortably. The crisis is expected to-day. His physician declares it will be at least a month, if Reulbach is not able to be able to don a uniform again.

Other games reported: Woolwich beat Aston Villa, 1-0, and Coventry won at Norwich, 2-1.

"DAVIS' PERFECTION"

A Positively Unique Cigar

There is no other cigar just like "Davis' Perfection." Other cigars may have its flavor (but not at 10c). Other cigars may be as mild (but usually tasteless). But you won't find its rich Havana flavor—its mellow softness—its delicate fragrance—and its mildness—all blended in any other one cigar.

It's an expensive cigar to us and to the dealer—but an inexpensive one to you—10c.

We will appreciate the favor of letting us know if you have any trouble in obtaining "Davis' Perfection."

Lang Stops His Man In THE SECOND ROUND

Christie Scores Knock Out in First—McEwan Wins His Bout by Decision.

BOSTON, Mass., April 11.—(Special.)—The Canadian boys were a big attraction at the opening of the national amateur boxing championships, which were held here to-night before a tremendous crowd. The speed and skill shown by the boxers from Toronto proved a revelation to the spectators. Their performance would have done credit to professionals.

All of the Toronto boys, with the exception of R. Day in the heavy weight class, won their trial bouts with comparative ease. The trial, particular star, however, was Hilliard, who was matched against George Moynihan of New York in the 140-pound class. Lang showed remarkable ability in his opponent's first round and was beating Moynihan so badly in the second that the referee stopped the bout. It was the general opinion of those who saw Lang perform to-night that he has a good chance to win the championship in his class.

Another Toronto boy who showed to great advantage was C. Christie in the 125-pound class. He knocked out Joe Casey of Boston in one round. Christie was a very rugged boy in F. Christie of New York. McEwan displayed the same cleverness as his team-mates, being very fast on his feet, with a clever left hand. He earned the decision at the end of three fast rounds.

In the first round Salbury, a people's favorite, was too much for the Englishman. In the first round Salbury knocked day to the mat with a right jab. The Toronto man was rather weak in the next round, and Salbury pummeled him about the flag in the third round.

The winners of to-night's trial bouts are: Hilliard, who was given a bye; McEwan, who was given a bye; and Salbury, who was given a bye.

Oddfellows' Break Record.

In the I.O.O.F. League last night on the Atheneum alleys the Centrals made a new record for the league season, both for single and three game scores. Every man on the Centrals was over the 500 mark, with Clarke leading with 885. Needless to say with such rolling they won all three games from the Societas. Following is the score:

Central	1	2	3	T.L.
Mitra	157	216	145	518
Williamson	205	178	150	533
Wise	145	184	207	536

WOODBINE GOSSIP.

Altho the weather was raw and generally threatening, the Woodbine track had the biggest attendance and business yesterday morning this season. From sunrise until the cutting rain began to fall shortly before noon, the horses were exercised. The interest manifested was in starting contact to that which dragged along after the hostile racing bill passed the special committee. But the new life infused by the outcome of the Ottawa flight put work into the Toronto horsemen and they are now pushing their charges forward. Several new exercise boys were added, and the bustle and stir made things lively.

Wm. Walker spent the whole afternoon at the track seeing that his horses did their work thoroughly.
C. Wise personally supervised Jockey Tom's galloping of his classy Ocken colt, High Peak.
Jockey Thorpe, formerly connected with the Seagram stable, exercised the Hutchinsons' gelding, Grendale, gave evidence of steady advancement.
C. Knight rode the Canadian bred colt, Bill Dean. This sensitive youngster is just two years old this month. He stands up to be heard from when the numbers go up in the stakes for Canadian breeds. Young P. Williams had his work cut out for himself in handling J. Charles' Run.
Up. The horse is steady enough with a heavy boy in the saddle. With the featherweight up he gave an interesting exhibition of bucking and jumping, but the lad won out.

St. Matthew's Lawn Tennis Club.

The annual meeting of the St. Matthew's Lawn Tennis Club will be held in the Broadview Institute, Broadview-avenue, on Thursday night next at 8 o'clock. At the annual meeting of the Canadian Association, held on Saturday night in the Queen's Hotel, the annual Canadian championships were awarded to the St. Matthew's Club. This is the first time a number of years that the Canadian championships have been held in Toronto, and should mean a big boom in tennis for the club over next year. It is also expected that more time will be given to tennis this year.

F. H. B. LYON COMMODORE OF THE BEACH CANOE CLUB.
F. H. B. Lyon was elected commodore of the Beach Canoe Club Saturday evening to take the place of E. C. Mallie, who resigned from that position a few weeks ago to go into business in the west. Mr. Lyon is an excellent paddler and sailor and is very popular with all the members of the club.
Walter Coleman, last year's coxswain of the war canoe, was elected captain of the 1910 crew. The following good paddlers from last year's crew will be missing this year: Stan Reid, Fred Lyons, L. Lawson, Geo. Scott, Walter Reid and Norman Leckie.
A new war canoe is being purchased as a result of greatly increased membership of the club over last year. It is also expected that more time will be given to tennis this year.

SCOUTMASTERS' ASSOCIATION

Organized at Largely Attended Meeting Held Last Evening.

An association of scoutmasters, assistant scoutmasters and divisional or local secretaries, was formed last night in Albert Williams' cafe, with powers, other than constitutions, to promote the internal welfare and interest of the troops of Boy Scouts under the jurisdiction of Toronto and other Ontario scout councils.

Taylor Statten presided, and threw out the suggestion that the scoutmasters should specialize according to their individual bent along such lines as first aid to the injured, physical drill, sign-making, astronomy, etc.

Having in view the "chief scout" (Baden Powell's) visit to Toronto in the next few months, the association decided it would be well to bring up the present scout troops to a high degree of efficiency, and to possibly organize a band and an orchestra. Later on the association will go after the establishment of permanent headquarters.

Officers were elected as follows: President, A. J. Hember; first vice-president, H. G. Hamilton; second vice-president, Mr. Combes; St. Catharines; third vice-president, W. G. Westaway; treasurer, F. Todd; secretary, C. R. Weaver; committee on constitution, A. C. Moore; H. Hember, A. Britton and N. K. McKeehan.

Horse Show Prizes.

The horse show committee are giving very liberal prizes for decorating windows in horse show colors. They have gone to great expense to make this the most attractive horse show that has ever been given in Canada, and it is the duty of the citizens to cooperate with the association to make the horse show of 1910 an outstanding success. Reference to the advertisement will show that prizes are most liberal.

Governor Hughes of New York State has asked the legislature for an "impartial and unpartisan" investigation into alleged legislative corruption.

LOSES ARM

Employee of C.N.R. Injured Near Scarborough Junction.

Resting it on the bar that stops the box of a dump car after it had been tipped east James McDonald's arm yesterday.

McDonald was in the employ of the Canadian Northern Ontario Railway, being a member of the construction gang which is engaged in making a cutting a mile and a quarter north of Scarborough Junction. He was working with the cars which convey the earth away from the cutting to the dump. Dr. W. R. Walters of East Toronto was summoned and after temporarily attending the injured man, sent him to St. Michael's Hospital in Cobblecreek's private ambulance. There the arm was amputated between the shoulder and the elbow. McDonald is 23 years of age, and comes from Nova Scotia.

Realty and Building

To meet the demand of automobile-owners for an inexpensive garage of fireproof construction, a Detroit architect has invented a unit system of concrete construction for such buildings about as cheap as wood. The novel system, consists of interlocking thin, filter panels of which the walls are constructed, which set in rabbitted columns and girders—all of the parts prepared in a yard and moved to the place of assembling. The window frames are of iron and are set in the moulds before the cement is poured in. Roof and floor are also of concrete. The size of the ordinary single garage is planned for 14-20 feet and this unit may be repeated for large structures. A patent is applied for. A company is being organized to make the plan.

Work will shortly be commenced on the new P. E. station at North Parkdale, which is to replace the present structure, that has done business since the seventies. The new station is of a neat but handsome design, 150 feet in length over all, and the main building some 100 x 25 feet, and the main waiting-room is to be 50 feet x 31 feet.

INDIGESTION CURED EVIDENCE IN PLENTY

Your Neighbors Can Tell You of Cures by Dr. Williams' Pink Pills.

Every case of indigestion, no matter how bad, can be cured by Dr. Williams' Pink Pills. Not only cured, but cured for good. That's a sweeping statement, but it's true, and it's backed by evidence in plenty. Living evidence among your own neighbors, no matter how far from Canada you live. Ask your neighbors and they will tell you of people in your own district who have been cured by Dr. Williams' Pink Pills of indigestion, sour stomach, sick headaches, and the internal pains of indigestion. Dr. Williams' Pink Pills cure because they strike straight at the root of all stomach troubles. They make new, rich blood, and new blood is just what the stomach needs to set it right and give it strength for its work. Mr. Geo. E. Whitteck, Hatfield Point, N.B., says: "I am glad to have an opportunity to speak in favor of Dr. Williams' Pink Pills, for they deserve all the praise that can be given them. I was a great sufferer from indigestion, which was often accompanied by nausea, sick headache and backache. As a result my complexion was very bad and I had black rings under the eyes. I took a great deal of doctor's medicine, but it never did more than give me the most temporary relief. About a year ago I was advised to give Dr. Williams' Pink Pills a trial. Before I had taken a couple of boxes I found relief, and had taken a half dozen boxes I found myself feeling like a new woman, with a good appetite, good digestion, and a clear complexion. I can strongly recommend Dr. Williams' Pink Pills for this trouble and advise similar sufferers to lose no time in taking them. Dr. Williams' Pink Pills cure all the troubles which have their origin in bad blood. That is why they cure anaemia, indigestion, rheumatism, neuralgia, St. Vitus' dance, paralysis, and the many ailments of girlhood and womanhood. Sold by all medicine dealers, or sent by mail at 50 cents a box or six boxes for \$2.50 by writing The Dr. Williams Medicine Co., Brockville, Ont.

Five hundred feet of house property has been sold by Robins, Limited, at the corner of Bloor and Herbert-sts. in West Toronto.

Robins, Limited, report a big sale on Saturday at their various suburban properties. Some \$20,000 was disposed of at Summerhill Gardens, \$5,000 at Melrose Park, a number of lots at Foster Park were also sold. At Ashbridge Estate, at the corner of Gertrude-street and Greenwood-avenue, the lot have been taken up quickly.

Yesterday City Architect McCallum denied a story which appeared in the last issue of Industrial Canada, to the effect that the issuing of building permits was delayed five and six weeks in the department and that the result of the by-law was burdensome. He declared that the work of the department had grown since its inception and that the time to object to the restrictions in the by-law was when it was passed. "If manufacturers are driven out of the city as a result of the building restrictions," he said, "the building department here, as the number of permits is constantly on the increase."

Beautiful Hair Comes With Dry Shampooing

(From Women's National Journal)

Dry shampooing always has been and always will be popular with the woman who takes pride in long, abundant and glossy hair. The dry shampoo does away with so much of the inconvenience and bother accompanying washing the hair—eliminates the long, drying hours and abolishes the danger of catching cold, indeed, is so all-around satisfactory, that one wonders why soap and water, eggs, etc., can find any followers whatever.

Dry shampoos certainly stimulate the growth of hair. There can be no doubt as to that. Just mix four ounces of powdered orris root with four ounces of starch, sprinkle a tablespoonful of this mixture upon the hair, brush the powder well thru the hair; do this two or three times a week for a while and see the results for yourself. This will keep your hair light and fluffy, and beautifully fringed. It corrects the conditions of the scalp that cause hair to become streaked, dull, colorless, coarse and brittle.

PICTURING THE PRISONERS

Justice Department Will Keep Records of "Pen" Inmates.

KINGSTON, April 11.—(Special.)—Every Sunday for some time, Don Keen, laundryman, has been losing his earnings from the till. Constable Arnel hid in the shop yesterday and caught Peter Andre, who lived next door, breaking in a door nailed up and not used.

A claim for a share of the estate of the late Thos. O'Reilly of Philadelphia, who died in 1897, has been filed in the probate court. The estate is valued at \$100,000. There are hundreds of claimants, but O'Reilly and his brother Luke of Watertown, N.Y., claim the closer relationship, that all the others.

Photographs of every prisoner in the penitentiary are being taken and the impressions of the fingers of every convict. This will be carried out by the justice department in all the Canadian penitentiaries.

Samuel Harkness, ex-warden and hotelkeeper for many years, died to-night.

SHORTAGE OF LABORERS

Contractors Unable to Get Italian Navies for Construction Work.

Since the new \$25 regulation has gone into force, more than a thousand Italians have been refused entry to Canada. As this year's demand for laborers is likely to be a record one, contractors view with some alarm the dearth of Italian laborers in Ontario. The G. P. and C. P. R. are unable to secure sufficient men to push on the work of construction, and steps will likely be taken to remedy this threatened famine in the labor market.

LADIES WILL WEAR BIG HATS

BERLIN, April 11.—A Wellesley Township preacher is retiring from the ministry because of unsuccessful efforts to bring his part to get the women in his congregation to see eye to eye with him respecting reform in ladies' headgear. He considered the excessive wearing of hats in connection with a qualifying for classification among sins.

GARDEN CITY ARRIVES.

Greeted with sirens and whistles, the Garden City, under command of Captain Maddick, arrived from Port Dalhousie at 11 o'clock yesterday morning. She berthed at the foot of Yonge-street.

Other arrivals were the steamer Pino from Point Am, and the tug Militaria from Port Dalhousie, which cleared later in the afternoon for Trenton.

REMOUNTS FOR BRITISH ARMY.

WINNIPEG, April 11.—(Special.)—Major-General Benson is in the city on a mission for the war office, and will proceed shortly to inspect the work where he will buy remounts for the British army.

Want Railway Electrified.

NIAGARA FALLS, Ont., April 11.—(Special.)—For some time rumors have been afloat that the Michigan Central would electrify the branch between here and old Niagara. To-day the board of trade took official steps, communicating with the railway officials, asking that it be done at once.

Because of differences between nurses and Superintendent Rogers in the general hospital, Nurses Evans and Folkes left to-day.

A Breeze From the West.

A. C. Frazer of Edmonton is in Toronto as a special emissary of the board of trade of the Alberta capital, to gather information concerning the general hospital, then to New York, and the methods adopted in securing industries. He will visit several Ontario centres and intends to go on to Montreal, and then to New York, returning thru the States. He is staying at the King Edward.

WESTGATE COMMISSION PLAN

Special Committee Will Pave the Way for a Referendum on Change in Civic Government.

Continued From Page 7.

Mr. Foster more than was absolutely necessary.

Mr. Forman explained that the assessment for 1910 was \$19,750, to which Ald. Baird replied that, as the terms of purchase had been reached last year, the 1909 assessment should be the basis of comparison. The commissioner said last year's board of control had urged upon him acceptance of Mr. Foster's terms. His own estimate was that the outside value of the land was \$20,000. To justify his position he would like to have arbitration instituted.

No Favors Said Forman.

"I want to say that we don't disguise anything in our department, and there are no favors handed out to any alderman or controller," he concluded.

Controller Foster rose to remark that against the transaction, he would withdraw his offer, and Ald. Anderson suggested that the controller had "got wise" to the fact that as a member of the council, he should not negotiate for a sale to the city.

However, the vote on Ald. Baird's motion to refer back for more information, showed only Ald. Maguire, McMurrich and Anderson in support.

The Reservoir Scandal.

Ald. Graham drew council's attention to an article in The Sunday World setting forth that the reservoir is in a sanitary condition and that the bones of babies have been found there.

With reluctant unanimity, council accepted the resignation of Dr. Sheard as head of the medical health and street cleaning departments. Ald. McMurrich, chairman of the local board of health, remarked that Dr. Sheard had told him he would consent to remain until September if given leave of absence during May.

The island committee will remain. Controller Foster's bylaw to end its existence and have its work done by the board of control being duly hung, drawn and quartered.

Ald. Baird, who is chairman, made a frontal attack on the controller, who, he maintained, had shirked his duties at Ottawa and accomplished nothing.

Accepted Sheard Resignation.

With reluctant unanimity, council accepted the resignation of Dr. Sheard as head of the medical health and street cleaning departments. Ald. McMurrich, chairman of the local board of health, remarked that Dr. Sheard had told him he would consent to remain until September if given leave of absence during May.

On the advice of Controller Spence, it was decided not to set an arbitrary limit on the amounts to be spent this year on acquiring boulevards, parks and playgrounds. The city has power to devote half a mill on the assessment to such purchases, which means \$135,000. The mayor proposed that \$20,000 be spent on boulevards, \$55,000 on parks and \$60,000 on playgrounds, but it was thought that the \$135,000 should be used for the same purpose.

COBALT --- Mining Securities Under Influence by Liquidation --- COBALT

Slump in Cobalt Securities Follows Realizing Movement

Declines of One to Three Points in the Speculative Leaders—Traders Put Out Short Lines.

Monday Evening, April 11.—The Cobalt generally continued to display sagging tendencies on today's market, and while price changes were usually unimportant, they were not infrequently toward lower levels. Trading was fairly active and well distributed throughout the list, but stocks were in rather a weak demand, and eased on any signs of liquidation.

Trading was centered in such issues as Beaver, Cobalt Lake, Little Nipissing, Crown Reserve, and all of these securities sold off from the opening figures. It was during the afternoon session that weakness was most apparent, the speculative leaders selling off in the easiest kind of way under the liquidating movement which developed.

Little Nipissing led the declines with a drop of one and one-half points, while Crown Reserve sagged to 74 and closed there. City of Cobalt slumped to 31, and short time close was bid for 31. Other stocks were generally slightly lower.

The higher priced securities were decidedly dull and trading inactive. The Crown Reserve lost six points from the high price for the day, but dealings in this section of the market were sympathetic to call for special comment. The close of the day was around the low points for the session, and sentiment was more bearish than for some time past. It is believed that considerable selling is being done on this reaction, and the technical position improved to that extent. Meanwhile the Cobalt are displaying anything but a bullish tendency, and show no disposition to rally.

MEXICAN ENGINEER

Speaks of the Advantages of the Amalgamation of Cobalt Properties.

Editor World: Shareholders in the rich, well developed, and efficiently managed Kerr Lake, Crown Reserve and Nipissing mines must note with satisfaction the information contained in your mining columns that definite steps are being taken to amalgamate these properties.

Such a combination, wisely effected, in a manner best for the small as well as the large shareholders, would be in a considerable appreciation of the shares and increased dividends, owing to the economies in administration, mining and reduction charges, and to the greater stability that will result from a uniform monthly profit, which will be possible when dealing with large numbers of veins in the extensive area under consideration.

What can be done by the wise amalgamation of interests in mining is being shown on the Cobalt mines, where areas of low grade reefs are being worked by intensive milling facilities, and the resulting gold and silver dividends with the regularity of clockwork.

Further, no one who has carefully studied the economies in production, as practised on the Cobalt mines, can admit that the final word as to efficiency of treatment has been said, and that strong cogitation suggested would be able to employ the keenest and most experienced metallurgical experts to investigate and devise the most economical and efficient central reduction works.

The further information you give, that for the present the La Rose will be included in the scheme, must also have given satisfaction to the many shareholders who believe in the great potentialities of the mining properties of this company.

Until the Lawson claim has been tested and opened up at depth it would be impossible to form any estimate of the value of the La Rose mining holdings, and therefore this company cannot yet be included in any scheme of amalgamation.

In the case of the Nipissing, Crown Reserve and Kerr Lake mines we have rough ideas of the probabilities as to the amount of gold recoverable from the first 500 feet, but with the comparatively small amount of development done on the Lawson, who can foretell what these veins will yield?

In any case, before completing any amalgamation scheme, it would appear to be most desirable that one or more absolutely independent engineers of repute be commissioned to thoroughly examine and draw up detailed reports, with plans and sections of each mining property.

A committee can then be formed from the directors of the company. The engineers' reports and plans, together with a summary of the details of the publicity of bona fide, authentic information would go far to remove the present feeling of uncertainty and fear of manipulation which hangs like a cloud over the Cobalt mining market.

Detailed plans and sections and more extensive reports on the Cobalt mines are wanted, and Canadian shareholders should see to it that they are supplied with these. Otherwise the best mines will surely pass out of their hands.

In all mines where free and full information is not given out to the shareholders, the temptation is strong for those few who do receive information to use that knowledge to the detriment of the many who are kept in the dark.

S. J. McCormick, A.R.S.M., Mexico City, April 11.

MINING ENGINEERS TO EXPLORE QUEBEC

Mineralized Section Adjacent to the Chibougamua District to be Thoroughly Prospected.

The Quebec Government have announced their intention to send a party of eminent mining engineers to make an exploration of the Chibougamua region, a district which is believed to be rich in mineral.

The object of the trip is to obtain reports on the nature and quantities of the mineral deposits in that almost unknown section. Chibougamua is some 400 miles north of Quebec.

Other sections of Quebec Province are also drawing attention from both government and prospector. The building of the Transcontinental Railway has to a great degree, caused this attraction, many valuable discoveries having been made close to the right of way, as well as in other places immediately adjacent to the interprovincial boundary line.

Correction re Elk Lake Mine.—It was stated in an article in The World of April 3 that the construction work on the Devlin Mine at Elk Lake was in charge of W. H. Hammond. The secretary of the mine says that Mr. Hammond is the boss carpenter at the mine, and that the construction work is in charge of Howard W. Hughes.

TO DISCUSS HOTEL LICENSES

Application for Renewal of Peacock House May Be Opposed.

The transfer of Cook's Hotel license to the Peacock House, at the corner of Eglinton and Dundas, will be discussed by the license commissioners yesterday. The price paid for the hotel business was \$25,000, and the application will be arrived at by valuers selected by both parties.

A special meeting of the commissioners will be held on April 21, in one of the large rooms of the Temple Building, when deputations and applicants for licenses for 1910 and 1911 will be heard. The applications for the renewal of the Peacock Hotel in the Junction, and the Brockton Club, will meet considerable public opposition. The commissioners will welcome all comers with views either way in the case of each applicant, if necessary.

No other applications have yet been announced from the parliament buildings to the vacancy on the board caused by the resignation of Daniel Miller. It is rumored that Mr. H. K. C. and T. W. Loftus are under consideration.

Said He Was Starved to Death

SHERBROOKE, Que., April 11.—Cernor Bachland was called to Island Brook to investigate the death of a man who had starved to death. The man had been starved, and what bread he did get was made from shorts, and that other eatables were locked away from him.

Traveler in Trouble.

Robert Evans was committed for trial in police court, charged with having conspired with Laura Payne to seduce Mary Allison, a little girl whom the woman lured to an East King-street hotel. Evans is over 30 years of age, a married man, and is a commercial traveler.

Fire in Crowded Hotel.

DUBUQUE, Iowa, April 11.—Fire broke out in the Julien Hotel to-day, while 200 guests were asleep. A panic followed and a number were injured. Loss \$50,000.

Nova Scotia Lumber Output.

The lumber cut this year in Nova Scotia is about 60 per cent. of the normal crop, on account of lack of snow during the winter and the dry spring.

Do You Realize What an Important Work the Kidneys Do?

Do you know that every drop of your blood goes to the kidneys hundreds of times every day? Do you know why? To be filtered and purified from its impurities. That is the great work the kidneys have to do. They filter the blood. Then these impurities go to the bladder and are passed out of the body along with the urine.

Do you think it possible for you to be well, unless the kidneys do this work thoroughly?

It is these impurities—this unfiltered blood—that causes backaches, headaches, rheumatism, diabetes, Bright's disease, etc. They poison and interfere with the whole system.

If you have any kidney trouble take Doan's Kidney Pills for you what they have done for thousands of others. They cure all forms of kidney trouble, and they cure them to stay cured.

Mrs. Maurice Doiron, Charlottetown, P.E.I., writes: "I was troubled with my kidneys for five years. They were so bad at times that I could not touch the floor for the pain. I went to a doctor, but he did me no good at all. I sent to the United States and got five boxes of Doan's Kidney Pills, and I am glad to say that after taking them I was cured. I have had no trouble for nearly three years now."

Price 50 cents per box or 3 for \$1.25 at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

In ordering specify "Doan's."

MILLER VS. AYLESWORTH CLAIMS A DOUBLE-CROSS

Member Declares Minister of Justice Gave Him Advice Which He Repudiated Before House.

OTTAWA, April 11.—W. H. Miller, in the house to-day, referring to a complaint from Hon. A. B. Aylesworth that he had made public a communication as to the anti-betting bill, said: "When I asked the minister for his legal opinion, surely the letter I received in reply, not being marked personal or confidential, was a letter that I was entitled to read, and I read it. I would ask the opinion of the minister of justice, when requested by a member of the house, is to be treated as a private correspondence, of what value is that opinion?"

"I do say that if I had used the minister of justice as he has used me in the matter, I would have thought I had struck below the belt and that I had not acted either honestly or honorably."

Mr. Aylesworth in reply said he had had no idea of imputing any dishonorable conduct, but that he had never expected that this "friendly conversation" would have been a matter of public discussion afterwards in any public form.

"I did not consider—and I do not consider now—that because I am in the minister of justice I am in a way a legal adviser for the house as a whole, or for any member of the house," said Mr. Aylesworth.

"I have in every way given him to understand, I think perfectly clearly, first, that I would not introduce a bill as the one which he introduced, that I did not approve of the scheme of the bill or the attempt which I thought manifested an endeavoring to call walking about and taking bets the keeping of a betting house or place. That was a feature of the bill which was essentially to it, in my opinion, the whole theory upon which it was framed. I regarded that as mere verbal trickery."

Mr. Miller had something more to say of the minister's objections to the private betting restrictions.

"I said to the minister of justice," declared Mr. Miller, "if this bill in your opinion would affect the man who makes a private bet, I would like you to suggest any language that you can suggest that would interfere with the private bettor and exempt him. He said, 'I cannot suggest any language that would interfere with the private bettor as the bill as it is drawn in that respect.' Afterwards I myself, fearing the minister of justice might make some further objection to the bill, I thought I would draft a clause and submitted it to him, and I have it here as I submitted it to him, and as he, in his own writing, amended it, in order as he thought, to fit the same. I said, 'Will that amendment fit the bill as you have changed it, and exempt the private bettor?' He said, 'I think so.' What I contended is that he advised me in one way when I consulted him, and advised the house in another way."

Mr. Aylesworth left his seat and walked out. Mr. Miller followed him and made a reference in the minister's private office.

AMENDMENTS DIDN'T SUIT

But the Dominion Transmission Bill Stands for Third Reading.

OTTAWA, April 11.—Several amendments to the Dominion Transmission Bill were introduced in the house to-day, but they were all rejected. The bill now stands for third reading.

The chief of the fire department begs to acknowledge with thanks the receipt of \$10, being a donation to the firemen's benefit fund from J. W. Moyes, Glen Avenue, Deer Park, in recognition of the service rendered by the department at the fire on his premises on the 1st instant.

Get Your Fishing Tackle Ready.—Trout season opens May 1 and the early fishermen catches big fish. Of course, you must select some good location, such as the region north of Halliburton, Lake of Bays District, or any of the several "good spots" reached by the Grand Trunk Railway System. For further information call at G. T. R. City Ticket office, northwest corner King and Yonge-streets. Phone Main 4294.

TRAIN MANGLES WILD GESE

Night Express on the I. C. R. Runs into Large Flock.

MONCTON, N.B., April 11.—The night express on the Intercolonial Railway between St. John and Moncton encountered a large flock of wild geese on the track at Salloway, and was disastrous to the birds. When the train reached Salloway station the operator found five geese on the track. The engine and train were stopped for his table for the balance of the week.

The birds were flying low in a dense fog and were probably confused by the glare of the headlights. Altogether it is not uncommon to hear numerous flocks of geese in nocturnal flight at this season of the year, the birds were unusually plentiful around the city last night, and at times the air resounded with their discordant honking.

Non-residents are not permitted to shoot wild geese at this season of the year, but there is a law allowing residents to obtain a certain number for their own use. It is not legal to expose them in a trap, and the law is ample sport for all.

Koehler Meat Butcher's Strike.

NEW YORK, April 11.—The strike of the Hebrew housewives on the east side against the high meat prices has been joined by over one thousand Koehler butcher shops, which did not open to-day in sympathy with the movement to bring down meat prices. Three hundred butcher shops in Williamsburg also closed to-day.

Saved Woman From Death.

WOODSTOCK, April 11.—The spectacle of a dead woman, Mrs. C. McGinnis, walking unconcernedly ahead of a C.P.R. freight train which was desperately trying to stop, gave Wm. Elliott, Jr., a chance to display his presence of mind.

It was such a close call that Elliott's eyes were pulled the woman away from the tracks. The train was brushed by the engine which was brought to a stand still fifty feet further on.

Raised \$224,000 in 28 Minutes.

NEW YORK, April 11.—In 28 minutes the congregation of the Fifth-avenue Baptist Church subscribed \$224,000 yesterday to build a new edifice. Of this John D. Rockefeller gave half, having promised to duplicate dollar for dollar, up to \$220,000.

Bold Footpads.

WINDSOR, April 11.—Beneath the glare of an electric light, footpads held up Charles McIntosh, in the hope of securing the driver's receipt of the W. E. & L. S. Railway, of which he is the local manager. Before their purpose was accomplished passersby came to the rescue.

PRIVACY FOR CONVICTS

Workers on New Prison Site Protected From Reporters.

GUELPH, April 11.—(Special).—The first contingent of 20 convicts were transferred this morning from the Central Prison, Toronto, to the site of the new provincial reformatory, near here. They were accompanied by Warden Gilmore and some other officials. Those brought up are "trusties" out on parole. They will be quartered in some of the buildings already on the grounds. Joseph Downey, M.L.A., showed pictures of these convicts at details here to-day, when the latter admitted that he had received a telegram from a Toronto paper, asking for details about the first contingent of convicts to arrive.

"Absurd, preposterous, shameful, unscrupulous," were words in which the local member, himself an old newspaper man, described his opinion of the newspaper, or the reporter, who might even think of publishing anything about the convicts who are being put to work on the farm.

"If any newspaper man attempts to take pictures of these convicts at details here, I will see to it that they worked behind stone walls."

Established Hospital Cots. Three annuities provided for by the will of the late E. A. Forster, barrister. He leaves an estate of \$2000 cash, \$5000 stock property and \$2000 in cash. The will directs that the cost of burial is not to exceed \$100.

Rev. John W. Forster will receive an annuity of \$60 per annum, and Mrs. Charlotte J. Woods, at whose home Mr. Forster resided for 17 years prior to his death, will receive the same amount per year. Division 112 of the Toronto Street Railway Employees' Union will receive \$10 per year for the sick fund.

A cot will be established in the Hospital for Sick Children and one in the Home for Incurable Children, the costs to be known as the Isabel Forster cot, in memory of the mother of the deceased.

St. Aidan's New Church. The opening ceremonies for St. Aidan's new church will be held in the new building, corner of East Queen street and Birch-avenue, Balmby Beach, on Thursday evening, May 5. The service will be conducted by the Bishop of Toronto.

Charge of Manslaughter. Exonerated in connection with the death of Samuel Manacelt, who was killed by his car near McCaul on Queen-st., a month ago, William McLean, a street railway motorman, was committed for trial in police court yesterday morning upon a charge of manslaughter. He was admitted to bail in the sum of \$1000.

Charged With Threatening to Shoot. Charged with threatening to shoot Mrs. Annie Greenfield, Francis H. Wood, 55 Millicent-st., an Englishman and a carpenter, 34 years of age, was yesterday arrested upon a warrant by Policeman Bloodworth of the morality department.

SCARBORO COUNCIL ET CONTRACT FOR BRIDGE

Big Range of Prices in Tenders Submitted—Golden Wedding in North-Toronto—Notes.

WOBURN, April 11.—(Special).—Today's meeting of the Scarborough Township Council here this afternoon, with Reeve Annie, Deputy Reeve Paterson and Councillors Law, Green and Ormrod, was an important one, a good deal of routine and other business going thru.

One of the most important measures dealt with was the "submission" and opening of tenders for the new reinforced concrete arch bridge over the River Rouge, otherwise known as the "Kingsmen" bridge. The successful tenderers were Rutherford & Patten, whose bid, \$5000, was accepted forthwith.

The wide range in prices was the most outstanding of the whole proceeding. The lowest bid was \$3800, and the highest from \$3800 up to \$10,995. The various prices submitted were: Horace Thompson, \$4000; McKinnon & Co., \$5200; Rutherford & Patten, \$5000; B. W. Hyde, \$10,995; J. G. Elmslie, \$4000; and Watson, \$5510. The price quoted does not include the cement and engineering costs, which are expected, approximately, nearly \$1800. This is the bridge which Scarborough council strongly urged should be constructed as a county bridge, or at least a large portion of the cost assumed by the county, being within a short distance of the Kingston-road, and in effect serving the whole of the county.

The monthly Dominion Bank statement re the balances, as follows: General account (debit), \$1623; clergy reserve account, \$10,000; public fund, \$31,707; tax sale, \$10,883.

A statement was received from Clarke, McPherson & Jarvis, re the trouble in school section No. 13, and another from the heavy traffic which will keep the Kennedy-rose at the railway crossing in better repair.
