DANNY MAHER WORTH \$300,000

Has Won All Honors on Turf and Saved Money.

After several years of great racing on English tracks and seemingly being immune from the fate of the other American jockeys, Danny Maher has at last felt the whiplash of the English stewards. Since they reprimanded him for unnecessarily flogging his mount, St. Flustino, which ran second in the race at Newmarket, all sorts of stories have been afloat that the action was the beginning of the end, and there is speculation as to the date of Maher's sailing for home.

It was the first time that Maher had any trouble with the stewards in England, and it is regretted the more because it was due to his efforts to win.

Maher is just now the sensation of the turf in England. His victories in the Derby and Oaks few weeks ago at the famous Epsom Downs course are something that any rider might well be proud of, and less than a week ago he won the St. Leger, and has never forgotten his old-time friends and acquaintances in the States. Maher is the son of a Hartford, Conn., school-teacher, and is 26 years of age. He has been riding about ten years, and spent about half that number of years in England. He has won the English Derby three times and also came in first in the grand prix of Paris, one of the richest events on the French turf.

Danny started in life as a poor boy also as now worth about \$300,000. He helped his mother along when quite young and always saved the greatest part of his earnings. His first notable victory was on Arthur White's *Gesta* at Saratoga, in 1897, when he beat Willie Simms on Mike Dwyer's *Handgrip*. The next day he beat Willie Martin, Maher making Prince Auckland and Martin Green Jacket. That day he put it on Martin twice in the same manner. This made the curfew sit up and take notice, and Martin was busy explaining how it all happened. Maher left for Brooklyn shortly after and over a field of fast horses. In 1898 he rode in the Suburban. His mount was *Semper Ego* and the horse was the longest shot in the race. Maher was left at the post, but took after his field and finished a close second. The same year, in the Futurity, in a field of 23, he finished second on High and also came in first in the Happiness day of his life when he won three races at Morris park in 1898 the same afternoon. He brought home Peter Street, Scotch Plaid and Brass. The following year he achieved success by winning the Brooklyn handicap on *Manaster*. He brought the same horse to the Suburban and was left at the post. *Harvester* was acting so badly that Maher hit him over the head and was set down for one year. *Harvester* was a grand horse and poor little Maher could hardly be blamed for doing what he did. The next year he decided to go to England.

THE TURF

Sweet Marie Won Easily.

Buffalo, Aug. 10.—Sweet Marie had little trouble in winning the *Lawson* stakes at the grand circuit meeting today. There was no pooling on the event, the same horse being willing to buy against the California mare, Princess Helen. A second choice, made her first appearance on the grand circuit, in the 221 pace, and won in straight heats.

DIAMOND NOTES.

The St. Johns vs. St. Peter's this afternoon should be a good one. It cost Brooklyn \$1,000 to get Pitcher McFarland, but "Pat" Donovan thought he was worth it.

Elmer Smead, once a fine 300 batsman with St. Louis, has fallen off, until now with Cincinnati he is looked on as a dead one.

It is rumored that President Sheelme will manage the Phillies next season and that James Potter will be elected president of the club.

The Tri-State League now has three veteran umpires in Artie Latham, Tom Brown, once with the Boston Nationals, and Geo. Bauschman.

"That story about my breaking down is all nonsense," says Clark Griffith. "I am just as strong as ever I was and won't quit until we win the pennant."

The spectators at a game at Richmond, Va., took exception to the umpire's decision and surrounded the players, surrounding them from the grandstand on the field. The police had to interfere and beat the crowd back with their clubs.

According to a New York despatch, Providence wants to sign Detroit in the American League. The same despatch states that the Boston Americans' management will use its good offices to land the franchise in Providence.

Pitcher George Winter was once offered \$50 per month by a certain club in his early career. He knew that he would get an offer of \$120 from the same club, but finally got so disgusted that he told him he would not play for him for \$200 per month, and then proceeded to take his storming engagements which did not net him so much as if he had played regularly with the club afterwards.

Umpire O'Day is of the opinion that a manager has a right to recall a batsman, even if it has been announced that another one will bat for him, provided that no ball has been pitched to him. He thinks the case is the same as if a battery is announced and the club determines to make a change before the pitcher announces he pitched a ball. The announcement, according to the umpire, does not put the man in the game. Some play must first be made.

SPORTING NOTES

Alfred de Oro, considered by experts the greatest pool player living, may never play another game. He is suffering from a severe case of astigmatism of the eye, and has been forced to wear spectacles. His sight is rapidly failing and he is said to have declared yesterday in St. Louis that he might never compete again for the championship title.

The London Advertiser says: "Baron Pierre de Coulterin is after Bill Sheridan because he was handed all that money and jewellery for winning the Marlborough. As the Baron did this talking to a Yankee journal, it can be passed up as mere twaddle from jealous Yanks. The Americans do not know any more about sport for sport's sake than Fiji Islanders know about hockey."

Out of the fifty-one boat races in which Cornell has entered a "rivalry" crew, beginning in 1872, the Ithaca men have won thirty-five, or twice as many as they have lost. This record is without parallel among the colleges of America.

AN OLD TIME TRAINER

How Highland Maid and Flora Temple Raced.

(New York Times.)

James W. Hoy died at his home in Chester, N. Y., Saturday, aged 91 years. With the exception of Guy Miller and John Menden of Godden he was the last survivor of the pioneer trotting horse breeders and trainers. It was he who bred the great old time mare Highland Maid, the trotter that just beat the famous Flora Temple a single heat and forced her in the next heat to her at that day, record time of 2:27. This was the famous race on the old Union Course in July, 1894, and it is now of positive knowledge in trotting circles that the heretofore unheated Flora Temple would have had no match for Highland Maid, this historic race having been thrown to the former by the driver of the Maid in the decisive heat, when the odds had changed from largely in favor of Flora Temple to 10 to 1 in favor of Highland Maid. The driver of the Maid who was likewise her owner, he having bought her of Hoy, it was openly charged made \$100,000 by driving his own horse to lose.

How that great race was lost to Highland Maid was a reminiscence of the veteran horseman Hoy that always brought tears to his eyes. He said the many had tried her out and knew what she could do and had discovered one peculiarity about her. She would positively break her gas or slow up if her head was not well held up by a check rein. When Hoy took her to the track at private trial, the mare, the wack being held by Hiram Woodruff, the great trotting authority of that day showed the amazing speed performance that was the favorite of Hoy's. He sold her to Jack Nodine for \$4,000. When she was matched to trot Flora Temple on the same track, she was so wild, Hoy explained to Nodine her peculiarity of refusing to trot without a tight check rein. He was never to drive her many himself, and he always declared that if he had been permitted to do so the whole subsequent history of trotting would have been different.

But Nodine chose to drive the mare himself. Flora Temple, owing to her peculiar performance, was the favorite at big odds at the opening of the race. She won the first heat only after a desperate struggle. This opened the eyes of the sporting people present as to the possibilities of Highland Maid, this new comer on the track, and when in the second heat she showed her great speed, she was again wild, and the odds changed to 10 to 1 in favor of the Maid. The largest amount of money that had ever been put up on an event of the Union Course was ventured on Highland Maid that day.

In the third and decisive heat, to the chagrin of the betting public, she was almost to the heartbreak of Jim Hoy's Flora Temple came in an easy winner, the Maid having to all appearance given up the race, but when she came along under the wire and Hoy saw her check rein hanging loose all was plain to him. Nodine threw her to him at that time, and she was again wild, for this, declared that the rein had come loose by accident.

HANLON SAYS NATIONALS WILL WIN.

CINCINNATI, Aug. 10.—"I'm willing to go broke on the National League in the world's championship series this fall," remarked Manager Hanlon during the discussion of the respective merits of certain National and American League teams. "Over in New York there are followers of the game who predict that if the world's series is between the New York Nationals and the New York Americans, that the Giants will be nowhere in the fight. These are the same men who picked the Philadelphia Athletics to show up the Giants last fall and then fell down in their predictions. I know every man on the New York American League team except the first baseman, Long. And, knowing them as I do, together with having a pretty good line on McGee's team, I do not hesitate to say that the Giants would find the Highlanders as easy picking in the world's series as were the Athletics for their last fall."

"If the giants do not finish first in the National League, you will find that the teams that beat them are so strong, if not stronger, than the New Yorks were last season, and that means that they will have no trouble in winning anything that they want to win."

"The world's series this fall may mean all on the National League team, but in the Chicago, Pittsburgh or New York they get into the games."

GOLF

Halifax, Aug. 10.—Halifax golf players played with representatives of the St. John Club today and won by 38 up. The weather was beautiful and the players had a pleasant time. Last year the Halifax men were defeated in St. John and two years ago St. John succumbed to Halifax on the home links. This shows that the two teams are very equally matched.

After the match there was afternoon tea and some speeches. J. D. Hazen, M. P., proposed the health of the Halifax ladies, and a response came from Senator Power on their behalf. The visitors left for home by the night train.

The scores were as follows, the winner being the first mentioned except otherwise named:

C. H. Porter against George McAvity—8 up.

J. H. F. McClure against H. A. Stetson—H. A. Stetson—1 up.

J. W. P. Ritchie against Paul Longley—even.

C. A. Evans against Andrew Jack—4 up.

P. Handogamey against E. A. Smith—7 up.

Peter Jack against Dr. Magee, for Magee—2 up.

Col. Lawson against Prof. Frazer—2 up.

THE OAR

ONEIL A GOOD SECOND.

Worcester, Mass., Aug. 10.—Excellent sculling, a number of interesting races and three or four close and exciting finishes marked the elimination contests that opened the 36th annual regatta of the National Association of amateur oarsmen on Lake Quinsigamond today. THE RING

Too Hot for "Spiky."

Philadelphia, Aug. 8.—"Spiky" Robson, the 126-pound English champion, who was defeated by Tommy Murphy at the National A. C. last Monday, will sail from Boston next Saturday for Liverpool. Robson, who had an unimpaired string of victories until he met Murphy in the return match last Monday, has decided that the hot weather here is too much for him.

He will probably return to his country next winter, as he has been offered a number of matches.

WITH THE BOXERS.

Harry Baker, the ex-amateur champion, who defeated Frankie Neil the other night, may meet Jimmy Walsh at Chelsea next month. Eddie Kevin and Miah Murray had a talk last night about the match, and the former will agree to the match.

BANK TELLER

KILLED HIMSELF

A Tragedy Growing out of the Wreck of That Chicago Bank.

Chicago, Aug. 10.—Frank Kowalski, for five years acting teller of the Milwaukee Avenue State Bank, which failed last Monday, shot and killed himself tonight in his home, 340 North Carpenter street. Criticism by neighbors and friends who accused him of a share in the downfall of the bank, it is believed, drove Kowalski to suicide.

Kowalski's relatives assert their firm belief that he was innocent of any knowledge as to the mismanagement of the bank by President Steneland. When the bank failed, Kowalski had \$700 of his own money on deposit in the institution, and his immediate relatives had in the bank nearly \$50,000. Kowalski, who was thirty years old, had been with the bank for thirteen years, beginning as an office boy.

TRADE REPORTS

ARE CHEERFUL

New York, Aug. 10.—Broadstreet's State of Trade tomorrow will say: Canadian trade reports are still optimistic and wheat crop deterioration in the Northwest, due to heavy storms, is reported slight. Harvesting has begun and the grain looks well.

Features for the week number 19, as against 24 last week a year ago.

New York, Aug. 10.—R. G. Dun & Co.'s Weekly Review of Trade tomorrow will say: In some sections the intense heat limited retail trade in summer goods and improved the attendance at seaside resorts, but the most important development in the business world was the extension in the activity of jobbing and wholesale departments in preparation for prompt shipment. It is almost impossible to secure some deliveries and the labor problem has not become a serious one. Many mills cannot be operated at their full capacity of time on account of the severity of the heat. Opening of heavy workloads at lower prices than expected resulted in considerable business. There is notable activity in cotton warehouses, despite some condensation. Least satisfactory reports are received regarding wool goods. Favorable reports emanate from all sections of the boot and shoe industry. New England manufacturers are receiving mail orders for spring delivery from the south and west, and there is also a steady volume of fall business. Efforts by many jobbers to reduce supplies indicated that the new season will open with limited holdings of fall goods, yet liberal mail orders for spring delivery are being received. The leather market is quiet throughout the leather market. Hides and skins continue to be a feature of the market and Texas hides are scarcely less firm. European hide markets are quiet.

Features for the week number 19 in the United States relative to 1905, and 13 in Canada compared with 13 last year.

IS AIMED AT

CHRISTIAN SCIENCE

Toronto, Aug. 10.—(Special)—Dr. C. A. Hodgetts, secretary of the Provincial Board of Health, today had his attention drawn to the fact that a large number of marriages were being solemnized by unauthorized persons. He had referred the matter to the provincial secretary.

Under the marriage act it is held that only recognized denominational teachers and preachers have authority to marry, and that the law does not extend to Christian Scientists who, it is alleged, have been solemnizing marriages quite extensively in Ontario.

OUR TWENTIETH CENTURY CANADA Travellers Guide

New Glimpses of the West Through Eastern Eyes, by Frank Veigh, Toronto.

(Second letter, written especially for The Evening Times. Copyright. All rights reserved.)
Edmonton is "feeling its oats," like all the thriving centres of the West.

Miles before reaching the wonderful town I espied a lonely bicyclist astray on the prairie, with all creation in which to ride.

With winter wheat grown two hundred miles north of Edmonton, with the granting by the Western Grain Association of a distinctive standard, growth of Alberta red winter wheat, with landowners ready to sell for thirty miles from the capital for homesteads, with three transcontinental railways tapping the town, and with no rival nearer Calgary, two hundred miles south, no wonder Edmonton struts a trifle and the old timer loudly sings its song of progress.

Then there are the people of the plains, and the towns. See them by the thousands at the Edmonton Exhibition, no country on earth can show a finer gathering of well set, bright eyed, healthy, honest, hopeful folk, and this comment applies to the West generally. True, one hears some virile Western language not suited for drawing-room consumption.

Edmonton is as brisk and spry as a new coat. The sound of the hammer is heard in the land, and the streets of houses are springing up like mushrooms.

If you want to experience crowded railway cars, go West. The railways can hardly carry the throngs of travellers that travel, for example, between Edmonton and Calgary, and on the long trains you will see represented a world of races.

It is difficult to analyze Westerners. At least until a settling down takes place. The predominant type has yet to be produced. In the meantime the mixture of peoples have been described as heterogeneous nondescripts.

and ten feet deep—gives one a slight idea of the magnitude of the enterprise, and its possible far reaching effects. It is also asserted that the Alberta Mormons were the first to prove the feasibility of irrigation in this part of the country, and if so, all Canada is under obligations to them.

It may be added that Medicine Hat bids fair to be the centre of another large irrigation scheme. An English company—the Robbins Irrigation Company—has undertaken the irrigation of 300,000 acres at a cost of a million and a half on the Bow and Belly Rivers, lying between the C. P. R. main line and the Crown's Nest Pass Railway, west and south of Medicine Hat.

These figures show that the growth has been general throughout the city. The two wards still to be assessed will probably bring the record of increase up to seventeen or eighteen millions. The total assessment last year was over \$160,000,000, so we have a good assurance of a gain of 10 or 11 per cent. in the value of property in a single year.

Do You Eat Bread?
If so, do you not think that you might as well eat only the best? The best bread is that which contains the most nutriment and the least waste matter, and is absolutely pure. You cannot have good bread, however, unless you have good flour.

CAMP ROOSEVELT AT MOUNT GRETTA, PA. AND ITS COMMANDER
CAMP ROOSEVELT, Mount Gretna, Pa., Aug. 8.—Major General Fred Grant, commander of the department of the east, United States army, is very much gratified with the results accomplished during the first week of the big school of instruction here under his direction, and in this connection he is supported by the officers of the various commands which participated in the undertaking. Results far beyond the expectation of General Grant himself were accomplished, notwithstanding the fact that two days of heavy rains interfered to some extent in carrying out the pre-arranged programme.

TORONTO IS GROWING
(Toronto Globe.)
That Toronto is sharing in the general growth and expansion of the Dominion is abundantly shown by the assessment returns. We need not expect the phenomenal proportionate development of western centres, where new communities are springing into existence, yet we are a record that shows full participation in Canada's general good fortune.

NO DANGER IN VIC. RINK

So simple is the space in Victoria Rink for roller skating that a novice will have no trouble in navigating round to his or her home's content. There will be no sharp turns, no corners, no obstructing posts. Further than this, the floor has been built so as to reduce the noise of the rollers fifty per cent. It is solidly laid upon the asphalt. When the towering dome, full of cool refreshing air, is considered along with these features, it will be concluded that roller skating, even in the warm season, is the pursuit of fun and rest. Particularly when it is accompanied by the catchy strains of an imported American band.

A BIRTHDAY PARTY

There was a very enjoyable gathering at Greenhead on Thursday night last, when a party of friends of James Lunney of that place called upon him at his mother's residence and presented him with a valuable ring and numerous other gifts in honor of his birthday.

The members of the party roared up to Greenhead from Indiantown in boats. Among those attending were seven brothers and sisters of Mr. Lunney, with their wives and husbands. Dancing and games were indulged in until an early hour.

FOR NEXT SATURDAY

Next Saturday will be the day of the great blueberry picnic at Westford, under the auspices of the Independent Order of Foresters. The City Cornet band will be in attendance at the park at Westford and a great day's outing is assured. Those who wish to pick blueberries in the early part of the day can go out in the 9:20 train. Other trains leave at 1:10, 3:45 and 6:10. The Saturday half-holiday will enable many to attend who otherwise could not go.

A large pavilion will be beautifully illuminated for dancing.

PARTY AT BROOKVILLE

A very enjoyable backboard drive and dance was held last evening at Brookville at the summer home of Mr. and Mrs. R. D. Clark. Two teams from the St. John members of the party out to the house shortly after 8 o'clock, and a number of guests came from Ferryburg. The evening was pleasantly spent with an excellent programme of dancing, and the party returned to the city at an early hour this morning, noting the outing a very successful one.

A FIELD DAY.—On Saturday next, the 19th, weather permitting, the members of the Natural History Society will hold a field day at Camp Nature on the Nevers. This beautiful spot was the scene of a delightful outing last year, and no doubt the one next week will be largely attended.

CELEBRATED SILVER WEDDING

Detective Killen and Mrs. Killen Remembered by Friends Last Evening.

Detective P. Killen and Mrs. Killen are receiving congratulations on the attainment of twenty-five years of married life. Yesterday was the anniversary of the genial detective's nuptials and a fitting celebration was held at his home, 214 Queen street, last evening when a party of friends gathered and presented Mr. and Mrs. Killen with a number of valuable presents in silverware. Although they have been married for twenty-five years, they are both hale and hearty, and it will be the earnest wish of their many friends that they be spared to celebrate many more anniversaries.

There were about twenty-five or thirty in the party that called at the house last evening, and they spent a very enjoyable time. Music was supplied by R. J. McKinnon with a Victor Talking machine.

Mrs. Killen is a daughter of John Lennihan, of this city.

Detective Killen's service on the police force of St. John has covered a period of about sixteen or seventeen years. He has held the office of detective for about six or seven years, and during that time has done good service.

Monday Night Big One in St. Andrew's Roller Rink

Last night was men's night in the St. Andrew's roller rink, and fast skating was allowed. This afternoon and evening there will be a band, the City Cornet in the afternoon and the 2nd in the evening. On Monday night there will be a one-mile match race for \$25 a side, between Follis, the rink instructor, and William Merritt, formerly of this city. Follis claims the New England title, having defeated Fred White, of Chelsea, at the Park Square Rink, Boston, early this spring, and White is considered the fastest man in the states. Follis has defeated Merritt twice on rollers and once on ice, while Merritt has defeated Follis three times on ice, and once they skated a dead heat. Each man has plenty of admirers, and there are already several bets on the race. Both have been training hard for this race, and it will be a race from the start.

At the end of this race, Dean, of this city, and Bridges, of Boston, will skate a one-mile race for a silver medal. Dean is rapidly securing a name for himself as a skater. Bridges is a very fast amateur and has won a number of races at the Park Square rink, Boston. Both men are training faithfully and should have a close and exciting race. There will be a band in attendance and the usual price of admission will admit to both races. The races will be skated after the last band. There will be a carnival August 20.

AT THE OPERA HOUSE

Mr. B. Gray's beautiful temperance drama, "The Volunteer Organizer," will be the attraction at the Opera House August 20, 21 and 22. The scenes of the play are set in a small village in the northern part of Vermont, and the story is enlivened by several thrilling and pathetic scenes. One act shows a realistic snow storm, with the snow heaped up in great piles, such as is only found in the open country. During the storm a child is seen struggling through the vast drifts and finally falls exhausted by the roadside. Two beautiful St. Bernard dogs appear upon the scene and rescue the child. This scene provokes great enthusiasm with audiences and may be considered as one of the strongest in the play.

Another act shows the interior of a church with its organ, pulpit, choir loft and the choir boys singing. Master Willie Nelson and Melior Newman, who scored each popularity with the audiences last season, are still members of the company and appear in this scene. The play is financed by the committee and includes such well-known names as Charles Hays, John Gorman, George Lewis, Allan Pearce, Paul Barrett, John I. Doyle, Marion Leonard, Carrie Thomas and Isabel and Francis Clanton.

THE EXPRESS STRIKE

In the Victoria Hotel yesterday a committee representing the station masters of government railroads, who also act as express agents and who are out on strike, met. The committee was composed of P. W. D. Campbell, of this city; J. A. Theberge, Rogersville, N. B.; E. A. Luce, St. Johns, Que.; and A. Fraser, Ferrona Junction, N. B.

The concessions offered by the express companies were discussed and accepted. The agents also ask that the men out on strike be taken back and the companies are agreeable to do so, except in the case of Wm. Simpson, a former agent at St. John. The committee was composed of P. W. D. Campbell, of this city; J. A. Theberge, Rogersville, N. B.; E. A. Luce, St. Johns, Que.; and A. Fraser, Ferrona Junction, N. B.

ANOTHER POSITION

The following letter explains itself.—DORCHESTER, Mass., Aug. 8, 1906. J. R. Currie, Esq., St. John, N. B.

Dear Sir: I have been successful in obtaining the permanent position of stereographer with George A. Cochran, exporter and produce commission merchant, of Boston. Had very little trouble in securing this position, being able only one week after I came here. The fact that I was a graduate of the Currie Business Training Ltd., especially seemed to count, and I consider myself very fortunate in having secured such a nice place.

I am, Sir, Yours respectfully, BRUCE M. PEACOCK.

Mrs. Peacock, until recently, resided at Millford.

MONKEYS IN AUTO CRASH

One of the cleverest caricatures of the day on the much heralded automobile and autoists is the sketch in pantomime, put on by Prof. Wormwood's funny monkeys, which are to show in connection with the St. John exhibition, from Sept. 1st to 8th. The new creatures, a whole family of them, even to the baby, are whirling about in a touring car and run over another monkey. There is excitement, an arrest, a doctor and nurse, also an ambulance and a hospital scene. The action and costumes of the tiny creatures makes their performance almost on a par with what humans could do.

Summer Shirtwaist

WIND-UP.
Be on Hand Early Monday Morning to Share in It.

PRETTY WAISTS MUCH REDUCED—Large variety of styles and materials. Four hundred and fifty garments, just right for the succeeding weeks of closing summer and early autumn. Stylish enough to carry over for next summer. We have bunched the assortment in three lots, each lot a highly attractive one. Waists of dainty lawn, sheer muslin, best lustrous satens and good sensible linen. Not an undesirable one in the whole outfit. We confess a few of the linen-embroidered waists have been massed a trifle from handling, but soap and water obviates that difficulty. The other waists are fresh and good. Each one a particular distinctive bargain.

White Lawn and Muslin Waists, 45c, 65c, 75c, 85c, \$1.00, \$1.25

SAMPLES, ODD SIZES AND BROKEN LINES, which will be removed with much alacrity by virtue of exceeding low prices. No thrifty woman will allow a sale like this to go by unnoticed, for it contains conspicuous instances of what merchants will do in price-reducing when the stock gets low and incomplete. The very size you want may be in the lot. It will not be necessary to debate upon trimmings and styles, for they run pretty nearly the whole list of this summer's ideas.

Sateen and Lustre Waists, 45c, 60c, 85c, \$1.25.

THE WORKDAY NEEDS OF SOME WOMEN call for a garment that will not soil quickly. To these the Lustre and Sateen Waists bargains will appeal more strongly. Lustre and Sateen are good wearing materials, dust-shedders and possess enough sheen and shimmer to give them an especial dressiness. The particular cut of the waist is quite up to date—all will agree on this point—and the colors are Black and Cream.

Some Soiled Emb'd. Linen Waists, \$2.00, \$2.50.

HOW MANY EMBROIDERED LINEN WAISTS HAVE YOU? No matter; there's always room for one more, particularly if it is different or strikingly pretty. There's a luxury, richness about a garment of this kind that takes the eye and pleases the taste of a tasty person. Despite the dirt-embroidering, they wash like white cotton and wear exceedingly well. The odd-sized ones we are offering would be sold at regular prices if they were not the least bit soiled from handling. So here's your chance.

OUR LAST WORD ABOUT THESE LINES.

Monday Morning.

NO SALE WAISTS ON APPROVAL OR EXCHANGED.
